How to Use the Calendar

About the Calendar

The Academic Calendar is published online, annually, usually by mid-May. It outlines current curriculum for the University of Toronto Scarborough (UTSC), along with related policy and regulations. The Calendar includes changes that have been approved through academic governance processes since the previous publication. The Calendar is effective from September 1 through August 31. Calendars in effect prior to September 2025 may be referenced in the Calendar PDF archives.

Note that, as UTSC is a distinct Faculty (Division) of the University of Toronto, regulations governing students registered at UTSC may differ from those in the other arts and science Divisions, including the Faculty of Arts and Science (FAS), and University of Toronto Mississauga (UTM). UTSC students contemplating transfers to other Divisions are urged to consult Enrolment Services to understand how they may be affected by differences in regulations.

The publication of information in the Calendar does not bind UTSC to the provision of any identified courses, programs or facilities. UTSC reserves the right to change, without notice, any information contained in the Calendar and other documents, offerings or websites that pertain to related policy and regulations, including any rules or regulations, as well as fees and other charges. Although every effort is made to ensure the Calendar is complete and correct at the time of publication, from time to time changes are necessary. Any amendments to the Calendar are posted on the Calendar Updates page of the online Calendar. Students are strongly advised to check this page regularly to keep informed of changes.

How to Use the Calendar

The Academic Calendar is used to describe courses, programs, and other academic opportunities that are currently available at UTSC. The Calendar is useful for browsing programs to prepare for registration, checking programs requirements, finding courses of interest or courses to fit breadth requirements, reading course descriptions, reading University policies and regulations, and accessing information on academic-related topics. Some useful tools and sections found in the Calendar are:

Program Search allows programs to be browsed, searched, or filtered.

Course Search allows courses to be browsed, searched, or filtered.

Program Sections A-Z provides a list of disciplines and their associated courses and programs.

PDF Calendar and Archives provides access to PDF files of Academic Calendars published at UTSC for past academic years. Students currently enrolled in programs that have been suspended will need to access these archived Calendars to view their program requirements.

Calendar Updates provides a record of amendments to the Calendar that may be made after its initial publication.

General Information sections available through the top navigation menu of the webpage provide useful academic information for students, including rules and regulations, completing degrees, selecting programs, choosing courses, understanding marks and grades, and accessing academic support.

Other Important Web Pages

Other web pages that are essential and/or are recommended for a student's academic career at UTSC include:

UTSC Timetable provides the seasonal offerings of courses at UTSC. Each course description contains a link to the UTSC Timetable for the course's schedule to be viewed.

ACORN is the UofT platform used for managing course and program enrolment, viewing grades, requesting transcripts and viewing the student financial account.

Quercus is a student learning management portal that is used to access course information such as the syllabus, as well as assignments and marks.

Degree Explorer is a tool used to help students determine their progress in completing their degree and ensure that they are meeting their program and degree requirements.

Glossary

Course-Related Terms

Course

A course is a unit of teaching that focuses on a specific discipline area (e.g. English or Mathematics) and takes place within a specific timeframe. It will be led by an instructor (or instructors), and have a fixed roster of students, who may receive a grade and academic credit upon its completion. See the [Courses](#) section of the Calendar for full information.

Course Code

The unique 8-character alpha-numeric code assigned to a course. See the [Interpreting Course Codes](#) section of the Calendar for information on interpreting course codes.

Prerequisite

A course students must already have passed before taking the described course. Prerequisites are indicated in the course descriptions in the Calendar.

Corequisite

A course students must take in the same semester as, or already have passed before taking the described course. Corequisites are indicated in the course descriptions in the Calendar.

Exclusion

Students who have already passed a course listed as an exclusion, or received transfer credit for a course listed as an exclusion, cannot take the described course for credit. Exclusions are indicated in the course descriptions found in the Calendar.

Breadth Requirement Category

Most UTSC courses belong to one of five breadth requirement categories, defined below. Breadth requirement categories are indicated in the course descriptions found in the Calendar. The five categories are:

- **Arts, Literature and Language:** Courses on creative representations and cultural expression through a range of media and courses studying and teaching language.
- **History, Philosophy and Cultural Studies:** Courses on the history of societies, courses on human thought and belief systems and courses on cultural analysis.
- **Social and Behavioural Sciences:** Courses that study social, economic, and political systems and the behaviour of individuals and groups in those systems.
- **Natural Sciences:** Courses that study the physical world, in the large and in the small, and courses that examine the living world and the mechanisms of life.
- **Quantitative Reasoning:** Courses that deal with mathematical techniques and reasoning, statistical analysis, and the construction and analysis of algorithms.

Lecture/Seminar

The most traditional method of delivering a course. They normally meet several times a week and are held in person. Some lectures may be delivered online.

Tutorial

A tutorial provides a supervised review of course material, typically in small groups.

Practical

A practical provides applied training.

Program-Related Terms

Program/Subject POST

Programs, commonly referred to as Subject POST(s) and sometimes as programs of study, are groupings of courses in one or more disciplines. Completing a program (or programs) will fulfill one component of the requirements necessary to earn a degree. See the [Programs](#) section of the Calendar for full information.

Specialist, Major or Minor Program

See the [Types of Programs](#) section of the Calendar.

Limited or Unlimited Enrolment Program

See the [Limited and Unlimited Enrolment](#) section of the Calendar.

Co-operative Program

See the [Co-operative Programs](#) section of the Calendar.

Degree-Related Terms

Degree

Undergraduate students at UTSC work towards completing a degree, which certifies that a student has completed education to a certain level of satisfaction at an institution. See the [Degree Requirements](#) section of the Calendar for full information.

Double Degree

See the [Double Degrees](#) section of the Calendar.

Combined Degree Program (CDP)

A Combined Degree Program allows students to be registered in two degree programs (one undergraduate and one graduate) at the same time, creating one approved program combination. See the [Combined Degree Programs](#) section of the Calendar for full information.

Other Terms

Year of Study

Year of study is defined by number of credits completed, as follows:

- **1st year:** A student with fewer than 4.0 credits completed.
- **2nd year:** A student with 4.0 to 8.5 credits completed.
- **3rd year:** A student with 9.0 to 13.5 credits completed.
- **4th year:** A student with 14.0 or more credits completed.

Grade Point Average (GPA)

See the [Grade Point Averages](#) section of the Calendar.

Credit/No Credit (CR/NCR)

See the [Credit/No Credit](#) section of the Calendar.

Second Attempt for Credit (SAC)

See the [Repeating Passed Courses](#) section of the Calendar.

Transfer Credit

A transfer credit is a credit awarded for studies completed at an external academic institution. See the [Courses at Other Universities](#) section of the Calendar for full information.

Letter of Permission (LOP)

A Letter of Permission (LOP) is prior confirmation that a course you intend to take at another accredited degree granting institution is acceptable for transfer credit at UTSC. See the [Courses at Other Universities](#) section of the Calendar for full information.

Non-degree student

Non-degree students are students registered in degree courses at UTSC, who are not proceeding towards a University of Toronto degree or Certificate, or who have been admitted on an interim basis and who must meet certain conditions before admission as regular degree students. See the [Non-Degree Students](#) section of the Calendar for full information.

Petition

A petition is a formal request made to the University asking to be exempted from an academic regulation or policy. See the [Petitions](#) section of the Calendar for full information.

Websites

Timetable/Timetable Builder

The Timetable Builder provides the seasonal offerings of courses across all UofT campuses.

ACORN

ACORN is the platform used for managing course and program enrolment, viewing grades, requesting transcripts and viewing the student financial account.

Quercus

Quercus is a student learning management portal that is used to access course information such as the syllabus, as well as assignments and marks.

Degree Explorer (DEX)

Degree Explorer is a tool used to help students determine their progress in completing their degree and ensure that they are meeting their program and degree requirements (determination regarding the completion of degree requirements will be made by the Office of the Registrar). In addition, students can review their academic history, including any awarded transfer credits and course exclusions, or use the planner to determine how future course choices might meet their requirements. This service is a complementary tool for your regular academic advising sessions. Degree Explorer enables students to:

- View any transfer credits and/or exclusions awarded through on-admission or post-admission (including exchange);
- Check progress in programs and degrees;
- Check prerequisites and exclusions, and plan the courses necessary for programs and degrees;
- Explore hypothetical "what if" scenarios (e.g. different programs, use different program requirements, adding courses, etc.); and
- After confirming their intent to graduate, prospective graduands can check Degree Explorer to see if their Subject POSTs have been confirmed by the Office of the Registrar or relevant academic unit; they can also check Degree Explorer for confirmation of their eligibility for graduation by the Office of the Registrar.

General Information

UTSC offers the following degrees:

- [Honours Bachelor of Arts \(HBA\)](#)
- [Honours Bachelor of Science \(HBSc\)](#)
- [Bachelor of Business Administration \(BBA\)](#)

Students earn their degrees only after they complete all of the requirements described below. While doing so, students must adhere to the academic rules, regulations and policies outlined in the Calendar, on the [Office of the Registrar](#) website, and on the University's [Governing Council](#) website. Degrees are conferred at university convocations, held twice annually in the Spring (around June) and Fall (around late October to early November). Students in their graduating year who intend to graduate and take part in the next Convocation must notify the Office of the Registrar of their intention through [ACORN](#) by the deadline listed on the "[Academic Dates](#)" page on the Office of the Registrar website.

Prospective graduands should expect assessment emails from the Office of the Registrar or the relevant academic units, before the end of March (for Spring graduation), or by early October (for Fall graduation) regarding the status of their program(s) and their degree requirements. This email will notify them if each program(s) and overall degree requirements are pending, complete, or incomplete. They can also check [Degree Explorer](#) for confirmation of their eligibility for graduation. For detailed information on graduation and convocation, please refer to the [Office of the Registrar](#) website.

Note that, as UTSC is a distinct Faculty (Division) of the University of Toronto, regulations governing students registered at UTSC may differ from those in the other arts and science Divisions, including the Faculty of Arts and Science (FAS) and University of Toronto Mississauga (UTM). UTSC students contemplating transfers to other Divisions are urged to consult [Enrolment Services](#) to understand how they may be affected by differences in regulations.

Degree and Program Completion

Students are wholly and ultimately responsible for ensuring their academic programs meet UTSC's regulations in all respects, including: completeness and correctness of course selection, compliance with prerequisite and corequisite requirements, completion of program requirements, completion of degree requirements and observance of all academic regulations and deadlines. When in doubt, seek guidance only from a responsible officer, such as Program Supervisors/Directors, departmental program advisors, academic advisors from the [Academic Advising & Career Centre](#), and the [Office of the Registrar](#). Misunderstanding, or advice received from another student will not be accepted as cause for dispensation from any regulation, deadline, course, program or degree requirement.

Students must complete the degree requirements outlined in the UTSC Calendar which is in effect during their first, or any subsequent, session of registration at UTSC, up to degree completion.

Enrolment Limits

UTSC makes every reasonable effort to plan and control enrolment to ensure students are prepared to complete the programs to which they are admitted and to strike a practicable balance between enrolment and available instructional resources. Towards this end, UTSC reserves the right to limit enrolment in programs, courses, or sections, and to withdraw courses or sections for which enrolment or resources are insufficient. UTSC and the wider University will not be liable for any loss, damages, or other expenses that such limitations or withdrawals might cause.

Changes in Programs and/or Courses

The programs and courses described in this Calendar are active as of the Fall term, and available for the academic year to which this Calendar applies: they may not necessarily be available in later years. For each active program offered by UTSC, the courses necessary to complete its minimum requirements will be made available annually.

If UTSC must change the content of courses, instructors and instructional assignments, enrolment limits, prerequisites and corequisites, grading policies, requirements for promotion or timetables, all reasonable possible advance notice and

alternative instruction will be given; however, UTSC reserves the right to make such changes without prior notice. UTSC and the wider University will not be liable for any loss, damages, or other expenses that such changes might cause.

Second Degrees

Students who have graduated with a degree from the University of Toronto, or another accredited university, may apply in accordance with posted deadlines to begin a second degree. Application for admission to a second degree is made through the [Office of Admissions & Student Recruitment](#) at UTSC. Before applying, students are urged to consider if a second degree is actually required for their purposes; for example, a make-up year as a non-degree student may satisfy admission requirements for graduate school. Students are advised to check with the graduate schools to confirm that non-degree courses or second degrees will be considered. Students are governed by the rules in place at UTSC at the time they commence their second degree.

Students who successfully apply for a second degree may pursue either an Honours Bachelor of Arts (HBA) or an Honours Bachelor of Science (HBSc) degree. A Bachelor of Business Administration (BBA) may not be pursued as a second degree; however, students who have completed a BBA as a first degree may pursue an HBA or HBSc as a second degree. The second degree may not include a program(s) in any of the same discipline(s) as the first degree (e.g., a student awarded a first HBA including a program in English may not pursue a second HBA including a program in English, or a student awarded a first HBSc including a program in Psychology may not pursue a second HBSc including a program in Psychology).

Students wanting to pursue a second degree in a limited enrolment program may need to complete prerequisite courses as a non-degree student before entering the second degree. These students should consult with the [Office of the Registrar](#) for limited enrolment program requirements.

Students beginning a second degree are granted 5.0 credits towards the completion of the degree (4.0 credits at the A-level and 1.0 credits at the B-level), regardless of the number of previous degrees held; to earn the second degree, students must complete a minimum further 15.0 credits as UTSC students. Second-degree candidates may not repeat courses taken in a previous degree; however, they may count such courses towards satisfying prerequisite and program requirements with the approval of the department offering the program. Candidacy in a new degree program of study will be established, and a new grade point average will commence with the second-degree courses.

Students completing a Double Degree program should consult the [Double Degree Programs](#) section of the Calendar since the requirements for Double Degree programs are different from the requirements for a Second Degree.

Discontinued Degrees and Upgrading

UTSC has discontinued the 15.0 full credits (three-year) BA and BSc degrees; however, students who began their three-year degree program at UTSC before the 2004 Summer session may still choose a 15.0 full credits (three-year) degree; these students should consult the [Office of the Registrar](#).

Students with a BA or BSc who return to upgrade their degree to an Honours BA or Honours BSc must exchange the BA or BSc for the same Honours degree; for example, a BA can only be upgraded to an Honours BA; a BA cannot be upgraded to an Honours BSc. Similarly, a BSc cannot be upgraded to an Honours BA. Students who upgrade to an Honours degree are not eligible to attend the convocation ceremony for the upgrade.

Transfers to UTSC

Transferring from Another Institution

Students who transfer from another institution to UTSC are required to complete at least half of their program requirements, and half of their course credits, at UTSC. Where all UTSC degrees require students to complete a total of 20.0 credits, at least half (10.0) credits need to be completed at UTSC. Students transferring from another institution are encouraged to consider the 10.0 UTSC credit minimum when enrolling in courses from another U of T campus and/or with permission to another postsecondary institution. However, the maximum number of transfer credits students can use towards a program will be determined by the program; for example, for a program that requires a total of 12.0 credits students may use a maximum of 6.0 credits, but for a program that requires a total of 8.0 credits students may use a maximum of 4.0 credits.

Transferring from the Faculty of Arts and Science (FAS) or University of Toronto Mississauga (UTM)

Where all UTSC degrees require students to complete a total of 20.0 credits, students transferring from another Arts and Science division or Faculty of the University of Toronto are required to complete at least half of their course credits at UTSC. Upon transferring, a maximum of 10.0 credits will be retained as part of their UTSC degree. If students have more than 10.0 credits but these include UTSC courses, the UTSC courses will be retained over and above the 10.0 credits. Students transferring from another Arts and Science division or faculty of the University of Toronto may be exempt from the program's maximum requirement.

Honours Bachelor of Arts (HBA)

To qualify for the degree, students must:

1. Pass a minimum of 20.0 credits:
2. Of the 20.0 credits, at least 10.0 credits must be completed at UTSC.
3. Of the 20.0 credits, at least 6.0 credits must be at the C- and/or D-level, with at least 1.0 credit at the D-level:
4. Of the 20.0 credits, at least 0.5 credit must come from each of the following five breadth categories (breadth categories are identified in course descriptions):
 1. Arts, Literature & Language
 2. History, Philosophy & Cultural Studies
 3. Social & Behavioural Sciences
 4. Natural Sciences
 5. Quantitative Reasoning
5. Complete a program or programs as below (only programs offered by UTSC may be used to fulfill degree requirements, and students are permitted to graduate with a maximum of three certified programs):
 1. At least one Specialist program; or
 2. At least two Major programs; or
 3. At least one Major program and two Minor offerings.
6. Ensure the combinations of programs used to meet the degree requirement include a minimum of 12.0 distinct credits.
7. Earn a cumulative grade point average of at least 1.85. A student whose cumulative grade point average (CGPA) is at least 1.50, but less than 1.85, may request to graduate with a BA or BSc.

Notes:

- Some combinations of programs are not possible due to the similarity in course requirements. Students with questions or concerns are advised to consult the Academic Advising & Career Centre to ensure they complete a minimum of 12.0 different credits. In the event that a student completes two certified Major programs and an additional certified Minor, the 12.0 distinct credits may be taken from any of these certified programs.
- The CGPA requirement to complete certain programs is higher than 1.85. For details see the individual program descriptions.
- Students may consult with an Academic Advisor in the Office of the Registrar regarding degree requirements. Consult the departmental program advisor regarding program requirements.

The type of degree students receive, whether HBA or HBSc, will be determined by the Specialist or Major program completed. For example:

- Students completing a Specialist BA program will receive an HBA degree;
- Students completing a Specialist BSc program will receive an HBSc degree;
- Students completing a Major BA program, in conjunction with any combination of two Minor programs, will receive an HBA degree;
- Students completing a Major BSc program, in conjunction with any combination of two Minor programs, will receive an HBSc degree;
- Students completing a Major BA program and a Major BSc program may choose either the HBA or HBSc degree. Students may request a degree change on eService.

Honours Bachelor of Science (HBSc)

To qualify for the degree, students must:

1. Pass a minimum of 20.0 credits:
2. Of the 20.0 credits, at least 10.0 credits must be completed at UTSC.
3. Of the 20.0 credits, at least 6.0 credits must be at the C- and/or D-level, with at least 1.0 credit at the D-level:
4. Of the 20.0 credits, at least 0.5 credit must come from each of the following five breadth categories (breadth categories are identified in course descriptions):
 1. Arts, Literature & Language
 2. History, Philosophy & Cultural Studies
 3. Social & Behavioural Sciences
 4. Natural Sciences
 5. Quantitative Reasoning
5. Complete a program or programs as below (only programs offered by UTSC may be used to fulfill degree requirements, and students are permitted to graduate with a maximum of three certified programs):
 1. At least one Specialist program; or
 2. At least two Major programs; or
 3. At least one Major program and two Minor offerings.
6. Ensure the combinations of programs used to meet the degree requirement include a minimum of 12.0 distinct credits.
7. Earn a cumulative grade point average of at least 1.85. A student whose cumulative grade point average (CGPA) is at least 1.50, but less than 1.85, may request to graduate with a BA or BSc.

Notes:

- Some combinations of programs are not possible due to the similarity in course requirements. Students with questions or concerns are advised to consult the Academic Advising & Career Centre to ensure they complete a minimum of 12.0 different credits. In the event that a student completes two certified Major programs and an additional certified Minor, the 12.0 distinct credits may be taken from any of these certified programs.
- The CGPA requirement to complete certain programs is higher than 1.85. For details see the individual program descriptions.
- Students may consult with an Academic Advisor in the Office of the Registrar regarding degree requirements. Consult the departmental program advisor regarding program requirements.

The type of degree students receive, whether HBA or HBSc, will be determined by the Specialist or Major program completed. For example:

- Students completing a Specialist BA program will receive an HBA degree;
- Students completing a Specialist BSc program will receive an HBSc degree;
- Students completing a Major BA program, in conjunction with any combination of two Minor programs, will receive an HBA degree;
- Students completing a Major BSc program, in conjunction with any combination of two Minor programs, will receive an HBSc degree;
- Students completing a Major BA program and a Major BSc program may choose either the HBA or HBSc degree. Students may request a degree change on eService.

Bachelor of Business Administration (BBA)

To qualify for the degree, students must:

1. Pass a minimum of 20.0 credits.
2. Of the 20.0 credits, at least 10.0 credits must be completed at UTSC.
3. Of the 20.0 credits, at least 6.0 credits must be at the C- and/or D-level, with at least 1.0 credit at the D-level
4. Of the 20.0 credits, at least 0.5 credit must come from each of the following five breadth categories (breadth categories are identified in course descriptions):
 1. Arts, Literature & Language
 2. History, Philosophy & Cultural Studies
 3. Social & Behavioural Sciences
 4. Natural Sciences
 5. Quantitative Reasoning
5. Of the 20.0 credits, at least 0.5 credit must come from courses designated as work-integrated-learning (work-integrated-learning, or WIL, courses are identified in course descriptions).
6. Programs: complete one of
 1. the Specialist programs in Management, or
 2. the Specialist in Economics for Management Studies
7. Earn a cumulative grade point average of at least 2.0.

Notes:

- The CGPA requirement to complete certain programs is higher than 2.0. For details see the individual program descriptions.
- Only programs offered by UTSC may be used to fulfill degree requirements.
- Students may consult with an Academic Advisor in the Office of the Registrar regarding degree requirements. Consult the departmental program advisor regarding program requirements.

Double Degrees

The Double Degree programs create an accelerated pathway for students who would otherwise have to complete two separate Specialist programs. Students are required to complete a total of 25.0 credits and can complete both undergraduate programs and degrees within five years.

For more information, please visit the [Double Degree Programs](#) section under "Program Sections A-Z".

The Department of Computer and Mathematical Sciences, in partnership with the Department of Management, offers the following Double Degrees programs:

- [Double Degree: BBA, Specialist program in Management and Finance/Honours BSc, Specialist program in Statistics, Quantitative Finance Stream](#)
- [Double Degree: BBA, Specialist \(Co-operative\) program in Management and Finance/Honours BSc, Specialist \(Co-operative\) program in Statistics, Quantitative Finance Stream](#)

The Department of English, in partnership with the Department of Psychology, offers the following Double Degree program:

- [Double Degree: Honours BA, Specialist program in English/Honours BSc, Specialist program in Psychology](#)

Academic Units

Notes:

- Listed programs are currently being offered.
- Where [+Co-op] appears, a Co-operative analog program is also offered.
- UTSC offers Double Degree programs. For more information see the [Double Degree Programs](#) section of this Calendar.
- UTSC offers undergraduate/graduate [Combined Degree Programs](#). For more information see the Combined Degree Programs section of this Calendar.

Department of Anthropology

The Department of Anthropology offers a Post-graduate Certificate in Evolutionary Anatomy.

Critical Migration Studies, Minor (Arts) Certificate in Computational Social Science	

Centre for Teaching and Learning

The Centre for Teaching and Learning offers courses in the following discipline areas:

- Teaching and Learning - Course code prefix: CTL

Courses

General Information

A course is a unit of teaching that focuses on a specific discipline area (e.g. English or Mathematics), and takes place within a specific timeframe. It will be led by an instructor (or instructors), and have a fixed roster of students, who may receive a grade and academic credit upon its completion. Some courses may also involve tutorials and/or practicals.

Students are cautioned that some university programs and courses require the completion of certain high school prerequisites or their equivalents. Information about prerequisites is found in the descriptions of programs and courses in this Calendar.

Students select courses through ACORN, and are responsible for the accuracy of their transactions. When selecting, adding and dropping courses in ACORN, students should always list their courses upon completing the transaction. Registration consists of two basic steps:

- Course selection
- Fees payment (or an arrangement of a fee payment deferment)

Both must be completed by the appropriate deadlines to be considered a "registered" student and to retain a place in any courses selected.

For additional information on registering in courses, as well as deadlines, see the [Registrar's Guide](#) or the [Office of the Registrar](#) website.

Visit the [Course Regulations](#) section to read about regulations concerning course selection, course load, course changes, and about taking courses at other UofT divisions or at other universities.

Understanding Course Descriptions

Course descriptions in this Calendar contain the following elements:

Element	What It Means	Example: See PSYC09H3
Course code	The unique 8-character alpha-numeric code for the course.	PSYC09H3
Course title	The title of the course.	<i>Applied Multiple Regression in Psychology</i>
Course content	A description of what the course covers.	<i>An introduction to multiple regression and its applications in psychological research [...]</i>
Prerequisites	Courses students must already have passed before taking the described course	Prerequisite: [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3
Corequisites	Courses students must take in the same semester as, or already have passed before taking the described course.	<i>This course does not have any corequisites.</i>
Exclusions	Students who have already passed a course listed as an exclusion, or received transfer credit for a course listed as an exclusion, cannot take the described course for credit.	Exclusions: LINC29H3, MGEC11H3
Recommended Preparation	Background material or courses that enhance a student's understanding of a course.	<i>This course does not have any recommended preparation.</i>
Breadth Requirement	Indicates the category of breadth requirement the described course fills.	Breadth Requirements: Quantitative Reasoning
Course Experience	Indicates the main type of experiential learning experienced by students at the undergraduate level.	Course Experience: University-Based Experience

Element	What It Means	Example: See PSYC09H3
Note	Any additional non-curricular information about the course.	Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Psychology, Mental Health Studies, Neuroscience [...]

Interpreting Course Codes

All course codes are unique 8-character alpha-numeric codes.

Element	What It Means	Examples
The first three characters	Identifies the discipline area that the course belongs to.	ANTA 01H3 is an Anthropology course. BIOB 50H3 is a Biology course. ENGC 09H3 is an English course.
The fourth character	Identifies the level of the course: A-level corresponds to the first year B-level corresponds to the second year C-level corresponds to the third year D-level corresponds to the fourth year	ANTA A 01H3 is a first-year course. BIOB B 50H3 is a second-year course. ENGC C 09H3 is a third-year course.
The fifth and sixth characters	The number assigned to the course in sequence, or as assigned, for example: 01, 50, 37.	ANTA 01 H3 is assigned 01. BIOB 50 H3 is assigned 50. ENGC 09 H3 is assigned 09.
The seventh character	Identifies the credit value of the course: H courses have a value of 0.5 credit Y courses have a value of 1.0 credit	ANTA01 H 3 is a 0.5 credit course. PSYD98 Y 3 is a 1.0 credit course.
The eighth character	Identifies the campus on which the course is offered: 3 indicates UTSC 1 indicates St. George (FAS, FASE, Daniels, etc) 5 indicates UTM	ANTA01H 3 is a UTSC course. CHM135H 1 is a St. George course PSY100Y 5 is a UTM course.
<i>The ninth character (This appears in the timetable only)</i>	Identifies the session in which the course will be taught: F indicates Fall (or the first semester of the Summer session) S indicates Winter (or the second semester of the Summer session) Y indicates both Fall and Winter (or both semesters of the Summer)	ANTA01H3 F is a Fall course (or the first semester of the Summer session) LINA02H3 S is a Winter course (or the second semester of the Summer session) PSYD98Y3 Y is Fall and Winter course (or both semesters of the Summer)

Common Notations in Calendar Descriptions

Prerequisites in Square Brackets []

Square Brackets are used in prerequisites to indicate aggregate or alternate choices. For example:

[MGEB01H3 or MGEB02H3] and [MGEB05H3 or MGEB06H3]

indicates that students must take two courses as follows:

one of MGEB01H3 *or* MGEB02H3,

AND

one of MGEB05H3 *or* MGEB06H3;

but

[MGEB01H3 and MGEB02H3] or [MGEB05H3 and MGEB06H3]

indicates students must take two courses as follows:

both of MGEB01H3 *and* MGEB02H3,

OR

both of MGEB05H3 *and* MGEB06H3.

Prerequisites, Corequisites and Exclusions in Round Brackets ()

Courses enclosed in round brackets; e.g., (POLB50Y3) have been retired, and are no longer offered.

Students who have completed, in a previous session, a prerequisite or corequisite course that is no longer being offered (i.e. appears in round brackets) may make use of the course to meet the requirements of the course being described.

Students may not register for credit in any course, which lists as an exclusion, a course they are currently taking or have already passed, even if the excluded course is no longer offered (i.e. appears in round brackets). Such courses will count as “extra” (EXT).

Programs

General Information

Programs, commonly referred to as Subject POST(s), and sometimes as programs of study, are groupings of courses in one or more disciplines. Students are reminded that completion of a program (or programs) will fulfill only one component of the requirements necessary to earn their degree (see the [Degree Requirements section](#) of the Calendar).

Degree students must select their Subject POST(s) when they have passed 4.0 credits, including transfer credits. The first period to select and/or apply to programs begins in March for students who expect to complete their fourth credit by the end of the Winter session; the second period begins in June for students who expect to complete their fourth credit by the end of the Summer session.

For a program to be considered complete, all of its program requirements must be fulfilled. Program requirements can be viewed on the Calendar on the page corresponding to the program in question.

Program admission and course requirements can change from year to year; the requirements they must complete are those that are in place for the academic session in which they were first registered in the program(s) they have selected as a Subject POST, or any subsequent year. When selecting courses, students who have not yet selected a Subject POST should consider carefully the admission and program requirements of any programs they may later choose to follow. Program Supervisors/Directors, instructors in A-level courses and academic advisors from the Academic Advising & Career Centre may be consulted for assistance.

Students are strongly urged to consult frequently with their Program Supervisor/Director or departmental program advisors as they progress through the program requirements; they are identified in the Discipline sections of the Calendar.

Program Supervisors/Directors and departmental program advisors have the authority to deal with special circumstances concerning program requirements. They may:

- Accredited to program requirements, courses are taken on other campuses of this University or at other Universities; and
- Permit course substitutions or other modifications of program requirements where they deem them appropriate.

When special arrangements are made, students must ask their Program Supervisor, or departmental program advisor, to record them in Degree Explorer.

Types of Programs

Specialist

- Specialist programs are designed to provide depth and intensity of study within a limited area defined as a discipline, a group of disciplines, or a particular theme or area of study. They will normally require students to complete 12.0 to 16.0 credits, including at least 4.0 credits at the C- and/or D-level, of which 1.0 credit must be at the D-level.

Major

- Major programs are designed to provide a concentration in an area of study defined as a discipline, a group of disciplines or a particular theme or area of study. They will normally consist of 7.0 to 9.0 credits, including at least 2.0 credits at the C- and/or D-level.

Minor

- Minor offerings are designed to provide study in a specific area for students desiring wide-ranging but coherent programs in different areas of the curriculum. They will normally consist of 4.0 to 5.0 credits, including at least 1.0 credit at the C- and/or D-level.

Limited and Unlimited Enrolment

Programs are designated as either "limited" or "unlimited" enrolment. To determine if a program is limited or unlimited enrolment visit the [Office of the Registrar](#) website.

Limited Enrolment

- Enrolment in some programs is limited to a maximum number of students. Such limits are generally defined by specified course and/or grades "enrolment" requirements, which are identified in the discipline areas of this Calendar and/or in descriptions of individual programs. Other admission requirements may also apply.

Unlimited Enrolment

- Beyond the overall limitations on program enrolment stated above, unlimited enrolment programs will not have enrolment requirements, and will not limit the number of students who may enroll.

Registration for Subject POST(s)

Degree students must select their Subject POST(s) when they have passed 4.0 credits, including transfer credits. The first period to select and/or apply to programs begins in March for students who expect to complete their fourth credit by the end of the Winter session; the second period begins in June for students who expect to complete their fourth credit by the end of the Summer session.

Students may only select Subject POST(s) offered by UTSC; instructions can be found on the [Office of the Registrar](#) website.

Program admission and course requirements can change from year to year through the curriculum change process; students must complete the requirements that are in place for the academic session in which they were first registered in the program(s) they have selected as a Subject POST, or any subsequent year.

The Calendar is published once annually, normally by mid-May and comes into effect as of September of the same year. Consult Program Supervisors, instructors in [A-level courses](#) and academic advisors from the Academic Advising & Career Centre for assistance regarding changes to program or course requirements.

Students in first year (e.g., with fewer than 4.0 credits) are not required to select a program, however, course selection may be guided by the admission and program requirements of any programs they may choose to register in. Consult Program Supervisors/Directors, instructors in A-level courses and academic advisors from the Academic Advising & Career Centre for assistance with course selection.

Notes:

- Students who have registered in a program(s) should consult at least once each year with their program supervisor to ensure their course selection will meet program requirements.
- Students are responsible for ensuring their course selection will enable them to complete the requirements of their program(s) by the time they complete their other degree requirements. In certain programs, approval by the

supervisor of some or all courses is necessary. In all programs, the supervisor is available for advice concerning program requirements and course selection.

Changing Programs

- Students wanting to change their UTSC program(s) must do so through ACORN.
- Students should be mindful that admission and course requirements can change from year to year; students must meet the program admission requirements and complete the course requirements that are in place for the academic session in which first they begin the program(s) they have selected as a Subject POST, or any subsequent year. It is therefore in the student's best interest to declare the change in Subject POST as early as possible.
- As all Specialist programs in Management (BBA) share a common core of course requirements, students who have already been admitted to a Specialist Management Subject POST, but who wish to move from one Specialist Management program to another Specialist Management program are permitted to follow the program requirements in place when they were originally admitted to a Management program.
- Students who are enrolled in a Co-operative program Subject POST who want to move from the Co-op program to the non Co-op version of the same program may follow the program requirements that are in place for the year the student was admitted to the Co-op program, or any subsequent year.
- Students who have started, or completed, the course requirements of a program, and subsequently decide to move to a different program in the same subject area (e.g., moving from a Minor in Global Asia Studies to a Major or Specialist in Global Asia Studies, or from a Specialist in Human Biology to a Major in Human Biology) may use the courses already completed towards the new program. Students must meet the program admission requirements and complete the course requirements that are in place for the academic session in which they first begin the program(s) they have selected as a Subject POST, or any subsequent year. It is therefore in the student's best interest to declare the change in Subject POST as early as possible.
- Students are cautioned that some programs of study are subject to higher tuition fees. These fees will be retroactively applied, and students should consult with the Office of the Registrar in advance of making any changes.

Language Citation

The Language Citation is intended to provide an incentive to students who are interested in intensive study of a particular language but who cannot, or may not wish to, complete a Specialist, Major, or Minor in the language. It is neither a substitute for a program in the language nor does it impede students wishing to complete such a program. It simply acknowledges language proficiency on the student's transcript.

The Language Citation is available to students who graduate in 2007 or in a later year. Students who graduated prior to 2007 may be eligible for this citation if they return to UTSC for further language study that contributes to the assessment of the Citation.

Requirements for the Language Citation:

- The Citation may be earned in French or Mandarin.
- Students must complete 2.0 credits in the language beyond the introductory level and must achieve a final grade of at least B- in each of the courses that make up those two credits.
- The 2.0 credits may be language instruction or other courses (e.g. literature courses) where instruction is in the language to be assessed.
- Students normally take 1.0 credit at the introductory level. Those who already have proficiency in a language and wish to proceed directly to courses beyond the introductory level should consult the relevant program supervisor about appropriate placement. Similarly, students who wish to include courses taken in a country where the language is spoken should consult the relevant program supervisor about appropriate study abroad options.

Assessment of the Language Citation

The Language Citation will be assessed at the point of graduation. To apply for a Citation, students should contact the Department of Language Studies in advance of graduation, presenting the Department with a copy of their academic record (produced from ACORN through the Student Web Service) and indicating the courses they would like considered in the assessment. For more information contact dls-ua@utsc.utoronto.ca.

The Language Citation will consist of a notation in the UTSC section of the transcript that reads: "Completed the requirements of the Language Citation in [Name of Language]."

Joint Programs with Centennial College

UTSC and Centennial College collaborate to offer Joint programs. These programs build on the academic strengths of the University of Toronto degree together with Centennial College's strengths in technical and practical education. Students earn a University of Toronto degree, and also have the opportunity to qualify for a diploma or certificate from Centennial College, which in some cases may require the completion of an additional academic session.

All Joint Programs are limited enrolment Specialist or Major programs, and may be taken only as part of an Honours BA or BSc degree. Currently, the following Joint programs are offered:

- [Specialist \(Joint\) Program in Journalism \(Arts\)](#)
- [Specialist \(Joint\) Program in Music Industry and Technology \(Arts\)](#)
- [Major \(Joint\) Program in New Media Studies \(Arts\)](#)
- [Specialist \(Joint\) Program in Paramedicine \(Science\)](#)

For specific program details, including application procedures, admission requirements, and program requirements visit the [Joint Programs](#) website. Program admission and course requirements are also described in the relevant [discipline sections](#) as well as the broader [Joint Programs section](#) of the Calendar.

Students in Joint programs will enroll in all degree credit courses at UTSC through ACORN, including those taken at Centennial College. It is recommended to meet regularly with the Joint Programs Co-ordinator to ensure you are progressing appropriately through their program.

Registration and academic information for the Joint programs are shared with the relevant Program Supervisor and Departments at Centennial College.

Tuition and incidental fees are payable to the University in the normal way. In each session in which students are taking one or more courses at Centennial College, a program fee relating to the use of materials is charged. The amount of the fee varies by program.

Combined Degree Programs

UTSC offers a diverse array of Combined Degree Programs (CDPs). A CDP allows a student to be registered in two-degree programs at the same time, creating one approved program combination and pathway. Students complete the requirements for both degrees in a manner that provides a benefit that would not be available to students completing each degree program separately. For more information, see the [Combined Degree Programs](#) section of this Calendar.

- [Combined Degree Programs, Bachelor of Business Administration/ Master of Accounting and Finance](#)
- [Combined Degree Programs, Honours Bachelor of Science/ Master of Environmental Science](#)
- [Combined Degree Programs, Honours Bachelor of Science/ Master of Engineering](#)
- [Combined Degree Programs, Honours Bachelor of Science/ Master of Social Work](#)
- [Combined Degree Programs, Honours Bachelor of Science or Honours Bachelor of Arts/ Master of Teaching](#)

Programs with Suspended Enrolments

Enrolment into the following programs has been suspended indefinitely. Students already enrolled in these programs must refer to the Calendar active at the time they first chose the program as a Subject POST.

To be suspended effective October 3, 2025:

- Specialist (Co-operative) Program in French (Arts)
- Major (Co-operative) Program in French (Arts)

Suspended effective the 2020-21 academic year:

- Minor Program in Curatorial Studies (Arts)

Suspended effective the 2019-20 academic year:

- Stream in Health Informatics, Specialist/Specialist Co-operative Program in Computer Science (Science)

Suspended effective the 2014-15 academic year:

- Major Program in Diaspora and Transnational Studies (Arts)
- Minor Program in Diaspora and Transnational Studies (Arts)

Suspended effective the 2013-14 academic year:

- Specialist (Co-operative) Program in Arts Management (Arts)
- Minor Program in Health Studies (Arts)
- Minor Program in Religion (Arts)

Suspended effective the 2010-11 academic year:

- Major Program in International Development Studies (Science)
- Major Program in International Studies (Arts)

Registration in Programs That Have Been Closed

Students who are already registered in programs that have been suspended to new enrolments or fully closed will be able to complete their programs. UTSC will either offer the courses necessary for them to complete program requirements or will make other appropriate arrangements such as course substitutions. Students should consult with the relevant Program Supervisor/Director or the Chair/Director of the academic unit in which the program was offered.

Certificates

The University of Toronto offers two types of for-credit certificates:

Category 1

- A post-baccalaureate, stand-alone certificate that normally requires completion of an undergraduate degree, or equivalent, for admission.
- Successful completion of the certificate is recorded on the academic transcript;
- Students are registered as undergraduate students and receive a parchment at Convocation.

Category 2

- A certificate offered in conjunction with an undergraduate degree program or programs:
- Successful completion of the certificate is recorded on the academic transcript as a component of the undergraduate degree;
- Students do not receive a separate parchment at Convocation.

For more information on Certificate offerings at UTSC, please refer to the [Certificates](#) section under "[Program Sections A-Z](#)".

Co-operative Programs

UTSC offers Co-operative Education (Co-op) programs in three distinct areas: Arts & Science, International Development Studies, and Management. These Co-op programs consist of two parts - an academic program of study and a Co-op work-term component, both of which are integral parts of the Co-op program curriculum. Practical work experience in an approved setting is undertaken to enhance academic studies through the opportunity to apply and develop concepts and/or skills that are important in the related program of study.

All Co-op programs are either Specialist or Major programs. Following UTSC Degree Requirements, Major Co-op programs must be combined with either another Major program or with two Minor programs. Credits associated with the successful completion of work-term requirements are in addition to the 20.0 credits required for a degree. For this reason, some Co-op programs may take up to five years to complete.

Students who have completed more than 10.0 credits are not eligible to apply to co-op programs. In addition, no student may be enrolled in more than one Co-op program and all Co-op students must be registered at UTSC to maintain their Co-op status. For a listing of Co-op programs visit the [Academic Units](#) section of this Calendar. Students should also visit the Calendar section for the related Co-op Office, and the Co-op Office website, to better understand the recruitment process, Co-op fees and best practices for success:

- [Arts & Science Co-op](#)
- [International Development Studies Co-op](#)
- [Management Co-op](#)

Admission to Co-op Programs

Prospective Applicants

Enrolment in Co-op programs is limited. Students applying directly from secondary school, or transferring to UTSC from another University of Toronto division, or another post-secondary institution, can select Co-op when choosing their Admission Category on their application for admission. Co-op students still need to participate in Registration for Subject POS(t)s processes. See the [Admissions and Student Recruitment](#) website for further details.

As part of the application process, some Co-op programs require a Supplementary Application Form (SAF), which asks applicants to provide information in addition to the academic record. In some cases, an interview may be conducted.

Current UTSC Students

Students at UTSC, who are not already in a Co-op program, may apply for admission into a Co-op program following their first year of study. For minimum qualifications and admission requirements please see the description of the individual program in this Calendar. Application procedures can be found on websites for Arts & Science Co-op, International Development Studies Co-op and Management Co-op.

Work-Term Preparation Courses

Students enrolled in a Co-op program must complete Co-op work-term preparation courses as specified by their respective Co-op Office, which are designed to prepare them for their job search and work-term experience and to maximize the benefits of their work-term. These courses will cover a variety of topics intended to help students develop the skills and tools needed to secure work-terms that are appropriate to their program of study, and to perform professionally in the workplace. Students must complete the work-term preparation course requirements noted by their Co-op Office before they are eligible to compete for work-terms. No academic credit is given for the courses and no additional course fee is assessed. For additional information about the work-term preparation courses, see the description

of the individual program in this Calendar, and visit the related Calendar section for the related Co-op Office as well as the Co-op Office website.

Work-Terms

Work-term opportunities are developed by the Co-op Office for the program, but students are required to apply and compete with other Co-op students for these opportunities. While on a work-term, students remain in contact with UTSC through their Co-op Office and the Program Supervisor of the program of study. In addition, the employer will evaluate the student's performance on work-terms. Also, while on work-term, students must prepare for a work-term report/project/assignment that will be evaluated by their Program Supervisor or an academic marker designated by their Department. The work-term report/project/assignment must be submitted to the Co-op Office no later than the deadline noted by their respective Co-op Office. Failure to meet this deadline will result in a grade of NCR (No Credit) for the work-term. A failed work-term will be recorded on the transcript, and the student may be removed from the Co-op program.

Generally, work-terms begin in September, January, or May. Students are normally eligible to seek a work-term after three or four academic terms of full-time study, as specified by each program. Co-op students should review the descriptions of their program of study contained in this Calendar for all work-term eligibility requirements. To be eligible for later work-terms, students must be in good standing in the program, have completed any requirements specific to the program, and have received a grade of CR (Credit) on their earlier work-term(s).

Fees

Every student in a Co-op program is required to pay Co-op fees as established by the University. The Co-op fees relate to costs associated with the administration of the Co-op program including, but not limited to, the facilitation of work-term preparation courses, the development of work term opportunities, and staffing support for students throughout the competitive job search process. These fees are calculated in accordance with Ministry of Education and University of Toronto policies. Tuition fees do not apply, and are not charged, when a student is registered in a work-term and not taking other courses, nor are there any additional tuition fees associated with the required Co-op work-term preparation courses. If a student leaves the Co-op program for any reason, Co-op fees paid in earlier sessions are not refundable.

Program of Study Requirements

Co-op programs require completion of all program and degree requirements (normally within eight four-month terms of full-time study), as well as successful completion of work-terms, as specified by the particular program. Work-terms are evaluated by the Program Supervisor, the Co-op Office, and the employer. Upon completion, a grade of CR (Credit)/NCR (No Credit) is recorded on the transcript. The credits earned for successful work-term completion are in addition to the 20.0 credits required for the degree.

To receive certification for completion of the Co-op program on graduation, a student must:

- Meet all of the normal requirements for the selected degree;
- Complete the course requirements for the specific program;
- Complete the co-op work-term preparation course(s) and any other prerequisites for the work-term as required by the specific program;
- Maintain a cumulative grade point average (CGPA) of at least 2.5 (note that this is higher than the CGPA of 1.50 required for good standing in most non-Co-op programs);
- Receive a satisfactory evaluation for all work-term performance and work-term assignments;
- Register as a full-time student during study terms (i.e., a course load in each study term of at least 1.5 credits and normally 2.5 credits). Students with accommodations approved by UTSC AccessAbility Services will be granted an exception. Students should consult with their program supervisor/coordinator to develop a work term and study term plan that factors in these accommodations;
- Return to studies after each work-term; and

- Pay Co-op fees as assessed by the University.

For additional information about any requirements specific to a particular program, see the [description of the individual program in this Calendar](#).

Non-Degree Students

Non-degree students are students registered in degree courses at UTSC, who:

- are not proceeding towards a University of Toronto degree or Certificate;
or
- have been admitted on an interim basis and who must meet certain conditions before admission as regular degree students.

Except for regulations concerning degree requirements and regulations where non-degree students are specifically exempted, all regulations apply equally to non-degree students and degree students. Where students have been admitted on an interim basis as non-degree students, the conditions of their admission supersede the normal regulations governing academic status. Students admitted as non-degree students are not permitted to enroll in UTSC programs.

Non-Degree Previous Degree Students

A Non-Degree Previous Degree Student is an undergraduate alumnus of the University of Toronto (including UTSC) who has been approved to take credit courses in an academic session following graduation.

To become registered as a Non-Degree Previous Degree Student, an application is required by the deadlines set by the UTSC Office of the Registrar, before the beginning of each academic year. Registration is at the discretion of the Office of the Registrar and students will be subject to an application fee. Degree-seeking students will normally take priority in allocating space in classes and other resources.

Non-Degree Previous Degree Students are not associated with a Subject POST (Specialist/Major/Minor), or degree program of study (e.g., Honours Bachelor of Arts, Bachelor of Business Administration), and are not permitted to enroll in programs after graduation. Any remaining uncompleted Subject POSTs at the time of graduation will be purged during the degree conferral process.

Academic activities taken as a Non-Degree Previous Degree Student do not count towards Subject POST or degree requirements; however, they do count towards the GPA.

Non-Degree Previous Degree Students pay tuition and incidental fees, as per the UTSC fee schedule.

Non-Degree Previous Degree Students are subject to the University of Toronto's Code of Student Conduct.

Except for regulations concerning degree requirements and regulations where non-degree students are specifically exempted, all regulations apply equally to Non-Degree Previous Degree Students and degree students.

Grades and Academic Records

Standing in a Course

As of 1998, students are assigned a grade in each course as follows (grades earned prior to September 1998 remain as originally reported).

Grade	Grade Point Value	Percentage Equivalent	Definition
A+	4.0	90-100	Excellent
A	4.0	85-89	
A-	3.7	80-84	
B+	3.3	77-79	Good
B	3.0	73-76	
B-	2.7	70-72	
C+	2.3	67-69	Adequate
C	2.0	63-66	
C-	1.7	60-62	
D+	1.3	57-59	Marginal
D	1.0	53-56	
D-	0.7	50-52	
F*	0.0	0-49	Wholly Inadequate
CR	No Value	No Value	Credit in a Credit/No Credit course
NCR	No Value	No Value	No credit in a Credit/No Credit course
NC%	0.0	No Value	No credit in a Credit/No Credit course

*Fail

Note:

Grades of 'F', 'NCR', and 'NC%' are failing grades, yielding no standing in a course and no degree credit. Students are cautioned that a numerical score on an assignment is not deemed to be automatically equivalent to the corresponding letter grade.

Credit/No Credit

UTSC degree students may select up to 2.0 full credits of their degree credits to be assessed on a Credit/No Credit basis. Courses identified as program requirements, or that are intended for individual study, such as supervised reading courses, are not eligible for Credit/No Credit assessment. UTSC students must choose, or cancel, this mode of assessment via ACORN no later than the last day of classes at UTSC, regardless of the division at which the course is taught. Once the deadline has passed, students may not under any circumstances reverse this decision.

To achieve a status of CR (Credit), a student must earn a final grade of at least 50%. Grades below that will be assessed as NCR (No Credit). Courses with a final status of CR will count as degree credits but will not affect the student's GPA. They may count as breadth requirements and degree credits, but cannot be used to satisfy program requirements.

Courses with a final status of NCR will not count as degree credits but will not count as failures, and will also not be included in the GPA calculation. Regardless of when CR/NCR status in a course is declared, if a student has specified the CR/NCR option for a course in which an academic offence has been committed, the CR/NCR option will be revoked and the percentage mark will stand as the course mark. If no academic sanction is applied, the CR/NCR status can be reinstated.

The CR/NCR option is open only to degree students. Once students have graduated, they may not complete courses on a CR/NCR basis, even if they enrolled in the course before their graduation; for example, a student graduating in June,

selecting a Summer course as CR/NCR. Or a student graduating in November, selecting a Fall or Winter course as CR/NCR, will have the CR/NCR designation removed and a percentage grade will appear on the student's record.

Certain courses, including some music courses, are graded on a CR/NCR basis. In these courses, to achieve a passing grade a student must receive a final mark of at least 50%. This will be designated as CR on a transcript and will not be included in the grade point average. A failing grade (below 50%) will be designated on the transcript as NCR, and the course will be included as an "F" (value zero) in the grade point average.

In courses graded on a CR/NCR basis, students may opt for a normal graded assessment with specific grades assigned. Students must choose this mode of assessment no later than the last day to enroll in the relevant course. Requests for this type of assessment are made through the course instructor offering the course. Once the deadline has passed, students may not under any circumstances reverse this decision.

Other Course Grade Notations

The following notations have no grade point value, do not yield credit, and are not included in the calculation of CGPA:

Notation	Definition
AEG	Aegrotat standing: grade is assigned based on work completed where medical or similar evidence demonstrates that a student is unable to complete course requirements within a reasonable time, and where a student has already completed at least 60% of the work of the course with a grade of C minus or better. - Students must petition for the assignment of an AEG grade to a course. - Where a student is assigned AEG standing, the course counts as a credit but is not included in the CGPA. - Students who require a letter grade will be expected to complete the work of the course.
EXT	Extra
GWR	Grade withheld pending the review of an alleged academic offence.
IPR	Course is in progress.
LWD	Late withdrawal: withdrawal after the last day to drop courses without academic penalty, but before the examination period begins.
NGA	No grade available.
SDF	Standing is deferred based on incomplete course work because of medical or similar reasons.
WDR	Withdrawal without academic penalty after the relevant deadline. Students must petition for the assignment of a WDR grade to a course.

Grade Reports

Grade reports are not issued to students. Instead, final grades, grade point averages and academic standing are made available through ACORN. Grades are available as soon as they have been submitted and approved. CGPAs for individual students are available shortly after the student's last grade is approved, and academic standing is available in September, January and May. Students who are on academic probation, suspended, or refused further registration, will receive an email regarding their academic status.

Grade Point Averages

A grade point average (GPA) is calculated as follows: the grade points earned in each full (1.0) credit course and one-half the grade points earned in each half- (0.5) credit course are added together and this total is divided by the number of full credits taken.

A sessional grade point average (SGPA) is the average of the grades in courses taken in the most recent semester (Summer, Fall, Winter).

A cumulative grade point average (CGPA) is the average of the grades of all courses passed or failed at UTSC.

Sessional and cumulative grade point averages are calculated at the end of each session and included on the student's academic record and transcript.

Courses taken for credit by degree students while registered at UTSC, FAS or UTM are normally included in UTSC grade point averages. Courses taken while registered at other institutions or other divisions or faculties of UT are not normally included in grade point averages.

Determination of Academic Status

The following rules apply to all students except visiting students whose academic status is not assessed or as described below in "Determination of Academic Status for Students Re-enrolling at the University of Toronto Scarborough," "Determination of Academic Status for Students in the Certificate Program in Business," and "Determination of Academic Status for Students Admitted on Probation." Academic programs may require an academic status greater than "in good standing" to be admitted to, continue in, or graduate from a program.

Academic status is determined as follows for students who have attempted at least 3.0 credits since beginning their studies at UTSC, or another Arts and Science division of the University and subsequently transferring to UTSC (not including Credit/No Credit, Pass/Fail, or courses marked Extra). It is determined at the end of each academic session (Summer, Fall and Winter):

In Good Standing

- Students who maintain a cumulative grade point average of 1.50 or better are said to be "in good standing".

On Probation

- Students who have attempted at least 3.0 credits and have a CGPA of less than 1.50 are placed on probation.
- Students returning from suspension (see Suspended or Refused Further Registration below and any provision in previous rules) shall be placed on probation again.

Probation Cleared

- Students may clear probation by achieving a CGPA of 1.50 or better. Students who have cleared probation shall be said to be again "in good standing".

Probation Continued

- Students may continue on probation by achieving a sessional grade point average of at least 1.70 in each session until they return to "in good standing".

Suspended or Refused Further Registration

Students on probation who, by the end of a given session, have not achieved a CGPA of 1.50, or sessional grade point average of at least 1.70 shall be suspended or refused further registration as follows, regardless of the number of credits taken in the session:

- Students who have incurred no previous suspension will be suspended for four months (one session);

- Students who have previously incurred a four-month (one-session) suspension will be suspended for twelve months (three sessions);
- Students who have previously incurred a twelve-month (three-session) suspension will be suspended for thirty-six months (nine sessions); and
- Students who have previously incurred a thirty-six month (nine-session) suspension will be refused further registration.

Determination of Academic Status for Students in the Certificate program in Business

Academic status is determined at the end of each session as follows for all students who have completed at least two full credits since beginning their studies:

In good standing

- Students who maintain a CGPA of at least 2.00 are said to be in good standing.

Refused further registration

- Students who, at the end of a given session, have not achieved a CGPA of at least 2.00 or better are refused further registration in the Certificate program.

Determination of Academic Status for Students Admitted On Probation

Candidates who fail to satisfy normal admission requirements, but successfully appeal for special consideration may be admitted on probation.

- The academic requirements that such students must meet are the same as those required of students who encounter academic difficulties while registered in the university, including course load restrictions.
- The academic status will remain "On Probation" until the student achieves a CGPA of 1.50 or higher.
- Students on probation who fail to achieve a sessional grade point average of 1.70 or higher will be subject to academic suspension.
- Students who are admitted on probation are urged to seek advice on course selection and study methods from the Academic Advising & Career Centre.

Determination of Standing for Students in Co-op Programs

The Co-op Office and the Registrar's Office will start assessing a student's standing in the Co-op program at the end of each semester, once students have attempted at least 4 credits (including all courses taken regardless of whether they are passed or failed).

When a student's status is reviewed, they will be assessed based upon their Cumulative Grade Point Average (cGPA) and will fall into one of the following 3 categories: 1) In good standing, 2) On Probation or 3) Removed from Co-op.

In Good Standing:

- Indicates a student has achieved a cGPA of 2.5 or higher and is eligible to remain in the in the Co-op program.

On Probation:

- If a student's cGPA is between 2.3-2.49, they are considered "On Probation."
- When on probation, students are not able to compete for co-op work terms until their status changes to "In Good Standing."
- Students will have one semester to clear probation (achieve In Good Standing) by achieving a cGPA of 2.50 or higher in the next semester. If after one semester, students achieve a sessional (for the current semester) GPA of at least 2.5 but their cGPA is not 2.5 or higher, the probation period may be extended for one more semester. If an extension is permitted, they will have one more semester to achieve a cGPA of 2.5. If this is not attained,

students are then will be removed from the Co-op program. If after one semester a student's cGPA is not 2.5 or higher and their sessional cGPA is not at least 2.5 they will be removed from the co-op program and put into the non-Co-op version of their program.

Removal from Co-op:

- If a student's cGPA is below 2.3, they will be removed from the Co-op Program. Students may elect to reapply to the Co-op Program after being removed. This must be requested during the limited subject POST request periods, as long as they meet admission requirements.

Please note: The Standing referenced here is a student's overall standing in the University as seen on academic transcripts. Students are notified of their co-op standing only if they fall into the Probation or Removal categories. Any students in the Co-op program who are being put on probation or removed will be contacted by the Co-op Office regarding this.

Academic Transcripts

The academic transcript is the official statement of the academic record of each student. The transcript records the following information:

- Student's full name and university student number.
- Student's academic record, listed chronologically by session, including:
 - Each course attempted, its abbreviated title, and its grade including courses from which late withdrawal has been approved;
 - The sessional grade point average;
 - The CGPA at the end of the session;
 - The annual grade point average;
 - Completion of a Co-operative program;
 - Completion of degree and program requirements, and date of conferral of the degree; and
 - Graduation with high distinction or with distinction.
- The following kinds of special consideration granted by petition:
 - WDR - withdrawal without academic penalty from a course after the relevant deadline;
 - Deferral of suspension;
 - Award of aegrotat standing; and
 - Other considerations deemed to have altered the academic record.

Students can obtain an unofficial copy of their academic history at no cost directly from [ACORN](#). Official transcripts can be ordered for a fee through ACORN.

Student Identification

Student Numbers

Every student at the University of Toronto is assigned a unique student number that corresponds with their personal University record. This number is confidential, and the University assumes and expects every student to protect the confidentiality of their student number.

UTORid

Each student is automatically issued a JOINid, which is converted to a UTORid once they begin the activation/TCard process. A valid UTORid is a virtual credential that grants access to online University of Toronto services such as ACORN and Quercus, the University of Toronto email address (UTMail+), the wireless network, the University Library System, and UT Portal. A UTORid is also used to access the Office of the Registrar online service portal and used to access software from some academic departments to submit term work. Students must activate their individual UTORid, and select a

secure password of their choice in order to use these services. The University of Toronto also utilizes multi-factor authentication ([UTORMFA](#)) for access to many applications.

To prevent shared access to internal or external communications and student records by a third party, including family and friends, students should not share their UTORid and/or password with anyone.

Student Cards (TCards)

All registered students are required to have a UTORid to gain online access to virtual University resources and services. A University of Toronto student card (TCard) is needed to access in-person campus resources and services.

A TCard must be presented to write in-person tests and final exams, request transactions at the Office of the Registrar, and use the Library, computer labs, and Athletic facilities, as well as for other campus service providers. Students may be required to present their TCard upon request by the University or its service providers.

The TCard and TCard photo remain the property of the University of Toronto, and may not be used for any illegal, improper, or unlawful purpose by students. It is every student's responsibility to ensure the safekeeping of their TCard, and they must not lend, or permit others to use, their TCard for any purpose. Altering, falsifying, misuse of, lending, or selling a TCard is prohibited and may be subject to sanctions, pursuant to the University's regulations, policies and procedures, including the [Code of Student Conduct](#) (2019) and the [Code of Behaviour on Academic Matters](#) (2025), and may also be subject to civil or criminal proceedings.

A TCard is to be kept for the duration of a student's active registration and is to be used only by the person to whom it is issued. Students cannot hold more than one TCard at any given time. If a student is found in possession of more than one TCard, they may keep the TCard with the highest barcode number, and are expected to surrender any previous TCards voluntarily, or by request, to the TCard Office or the Office of the Registrar.

Lost or stolen TCards must be immediately reported to the TCard Office and any meal plan provider. Students must replace lost, stolen, or damaged TCards at the TCard Office; replacement of TCards is subject to a replacement fee.

Notice of Collection of Personal Information

The University of Toronto respects your privacy. Personal information that you provide to the University is collected pursuant to section 2(14) of the University of Toronto Act (1971). It is collected for the purpose of administering admission, registration, academic programs, university-related student activities, activities of student societies, safety, financial assistance and awards, graduation and university advancement, and for the purpose of statistical reporting to government agencies.

In addition, the Ontario Ministry of Colleges and Universities has asked that we notify you of the following: the University of Toronto is required to disclose personal information such as Ontario Education Numbers, student characteristics and educational outcomes to the Minister under s. 15 of the Ministry of Training, Colleges and Universities Act (1990, last amended 2020). The Ministry collects this data for purposes such as planning, allocating and administering public funding to colleges, universities and other post-secondary educational and training institutions, and to conduct research and analysis, including longitudinal studies, and statistical activities conducted by, or on behalf of, the Ministry for purposes that relate to post-secondary education and training. Further information on how the Minister uses this personal information is available on the [Ministry's website](#).

At all times your personal information will be protected in accordance with the Freedom of Information and Protection of Privacy Act (1990, last amended 2020). If you have questions, please refer to [the UTSC FIPPA website](#) or contact the University FIPP Coordinator at 416-946-7303, McMurrich Building, Room 104, 12 Queen's Park Crescent West, Toronto, ON, M5S 1A8. You can also view an [expanded version of this Notice](#).

Academic Awards and Scholarships

Admission Awards

Admission awards are available to new students entering UTSC directly from secondary school. There are two types of awards: automatic consideration; or, application or nomination based. UTSC allocates Admission Awards to students entering the first year directly from secondary school. In considering students for scholarships, the University reserves the right to give preference to students whose marks are the result of a single attempt at each course. Awards and scholarships may carry additional conditions and criteria for being awarded, or for renewability.

In-course Awards

Are available to students continuing their studies at UTSC. There are two types of awards: automatic consideration; or, application or nomination based. In-course Awards are given to students who have completed their First, Second or Third year of study towards a Bachelor's degree. For award purposes, a year of study is defined as the completion of 5.0 credits. In order to give more students an opportunity to be recognized for excellent academic achievement UTSC Awards policy permits a student to hold only one major award.

A general condition for holding an Admission or In-course award is that the student must register at UTSC in the following academic year with degree status. Students who have been awarded a scholarship, which is based on enrolment in a particular program of study, must continue in that program to receive the award. UTSC reserves the right to not award a scholarship, if, in a particular year, the academic achievement of the candidate is not of a high standard. To be considered for any award, a student must be enrolled in or graduating from a Bachelor's program.

University of Toronto Scarborough Dean's List

The Dean's List is published annually in the Fall. All students who have achieved a cumulative grade point average (CGPA) of 3.5 or better in their most recent year of study will be considered as long as they have completed a minimum of 1.5 credits during the previous Fall, Winter, and Summer sessions.

Graduation Awards

Graduation awards are given at the time of graduation. They include medals and prizes awarded for outstanding achievement during the final year of undergraduate study. Students who graduate at the Fall Convocation are considered for graduation awards in the following year together with students who are graduating at the Spring Convocation.

Recognition of Exceptional Academic Achievement

Graduating students who have completed at least 10.0 credits while registered at UTSC will be considered for the following recognition:

1. High Distinction: Students who graduate with a CGPA of 3.50 or better are recognized as graduates "With High Distinction." This achievement is noted on the diploma and transcript.
2. Distinction: Students who graduate with a CGPA between 3.20 and 3.49 are recognized as graduates "With Distinction." This achievement is noted on the diploma and transcript.

Other students with a CGPA of 3.20 or better will be considered on an individual basis.

For complete information on awards and scholarships, please go to the [Office of the Registrar](#) website, and under the "Finances" tab, go to the "Scholarships and Awards" page.

Program Regulations

Regulations Concerning Subject POST(s)

- Students may register in no more than three programs at any one time, and may receive a certification of completion of no more than three programs. Allowable program combinations are: one Specialist, two Majors or one Major with two Minors. Students who wish to combine a Specialist and a Minor may do so as per their discretion and under the advisement of the [Academic Advising & Career Centre](#).
- Certificates are not included in the above Subject POST restrictions. Type 1 or 2 Certificates can be completed over and above the restrictions listed in this section.
- Students may register in no more than one Specialist program at any one time. Students enrolling in a Double Degree program are exempted.
- Students may register in no more than one Co-operative program at any one time. Students enrolling in a Double Degree (Co-op) program are exempted.
- Students are reminded that, although some programs may allow them to take courses on the St. George campus, only UTSC programs can be used to meet degree requirements.
- Students intending to enroll in any course on another campus which they intend to count towards their program(s) should consult with their Program Supervisor/Director first.
- Students who transfer from another institution to UTSC are required to complete at least half of their program requirements, and half of their course credits, at UTSC. The maximum number of transfer credits students can use towards a program will be determined by the program; for example, for a program that requires a total of 12.0 credits, students may use a maximum of 6.0 credits, but for a program that requires a total of 8.0 credits, students may use a maximum of 4.0 credits. Students transferring from other divisions or faculties of the University of Toronto are exempt from this program maximum requirement.

Certification of Completion of Programs

- Completion of programs is certified when the degree (or degrees, in the case of the Double Degree programs) is conferred. Certification is given only for UTSC programs. Students in their final year who have confirmed their intention to graduate at the next Convocation, or who have confirmed that they are about to complete an upgraded degree, do not have to request certification of completion of their programs.
- Courses taken as Non-Degree/Second Degree may not be applied towards programs certified with previous degrees. No changes may be made to programs following certification at the time of graduation.

Course Regulations

Course Load

- A standard course load for a full-time undergraduate student in any session is 2.5 credits.
- Students who register in at least 1.5 credits in a session are considered to be full-time. Students who enroll in fewer than 1.5 credits in a session are considered to be part-time. Students who are restricted to part-time studies may have a course load of no more than 1.25 credits in any session until they have completed at least 3.0 credits and have a cumulative grade point average of at least 2.00.
- Undergraduate students at UTSC are not permitted to enroll in more than 3.0 credits per term without permission from the Office of the Registrar. Limited exceptions are made for students working towards a BBA degree; for more information consult the Management section of this Calendar.
- Students writing deferred exams are encouraged to enrol in a balanced and manageable course load in order to support success. Students writing multiple deferred exams should consult with an Academic Advisor and/or their Disability Consultant to discuss course load considerations and an individualized plan for academic progress.
- Students placed on probation may not exceed a course load of 2.0 credits per session.
 - Upon notification of probation, students enrolled in future sessions must drop all courses above the 2.0 credits maximum. Failure to do so within 7 days of notification of standing on ACORN will result in removal from the most recently added course(s) above 2.0 credits.
 - Students who are allowed to continue on probation because they have achieved a sessional grade point average of at least 1.70 may take a normal course load.
 - While on probation, students must meet with an academic advisor to discuss the reasons leading to being placed on probation and to plan strategies to improve academic performance. Staff in the [Academic Advising & Career Centre](#) are available to provide guidance.
 - For more information about academic probation go to the [Office of the Registrar](#) website.

Courses in Other Divisions or Faculties

Students registered at UTSC should choose courses offered at UTSC; however, UTSC students may enroll in courses offered by any of the Undergraduate Divisions of the University of Toronto, provided that they meet the enrolment controls and prerequisites established by the host Divisions. Students from other undergraduate Divisions of the University who are eligible for more than 10.0 credits are cautioned that at least 10.0 credits are required to complete a degree at UTSC. While still considered an earned credit, any course from other undergraduate Divisions of the University taken in excess of 10.0 credits will not count toward the 20.0 credits required for a UTSC degree; however, the course will be included in the [Grade Point Average \(GPA\)](#) calculation. These courses may also count towards UTSC program requirements provided they are approved by the UTSC academic unit offering the program; students are advised to seek departmental approval before enrolling in courses offered at other Divisions of the University of Toronto. UTSC students enrolling in courses in other Undergraduate Divisions should also note that, although academic and course refund deadlines may be different at these Divisions, as a UTSC student they must adhere to all UTSC deadlines (e.g., enrolment, cancellation, CR/NCR, refund, etc.), with the exception of the start and end of classes.

- If a student takes a course offered by another Undergraduate Division and fails it, the course will not be counted towards the 10.0 credits.
- Courses taken at another Undergraduate Division that are designated as "extra" (EXT) will not be counted towards the 10.0 credits.
- Courses taken at another Undergraduate Division that are designated as CR/NCR are counted towards the 10.0 credits if the student achieves a grade of CR, but are not counted towards the 10.0 credits if they are assessed as NCR.

In some circumstances, other than those specifically provided for within UTSC Combined Degree Programs, UTSC undergraduate students may be permitted to enroll in graduate courses offered by UTSC or another Division of the University of Toronto. Students seeking to do so must meet the enrolment controls and prerequisites of the host Division. They are also advised to consult with both the UTSC Office of the Registrar to confirm that the proposed course can carry UTSC undergraduate degree credit and with the relevant UTSC academic unit regarding program credit.

Non-degree students at UTSC may enroll in courses offered by any of the Undergraduate Divisions of the University of Toronto, provided that they meet the enrolment controls and prerequisites established by those Divisions.

Note: Other Divisions' Calendars do not usually list UTSC courses as exclusions. Students taking such courses must check the UTSC Calendar for possible exclusions. Students who are in any doubt about whether or not an exclusion exists, whether a course can be used to meet a prerequisite for another course, or can be applied to a program requirement should consult with their Program Supervisor/Director.

Courses at Other Institutions (Letters of Permission and Transfer Credit)

Students registered at U of T Scarborough should choose courses offered at U of T Scarborough or elsewhere at the University of Toronto.

Where a student has a strong rationale for needing to study at another recognized institution, they may submit a Letter of Permission request. Degree students in good standing may take a maximum of 5.0 Full Course Equivalents (FCE) elsewhere for transfer credit. Students admitted with transfer credit will be limited in the number of courses that they may transfer after admission.

Transfer credit will only be granted for courses pre-approved by a Letter of Permission. Permission obtained from an instructor or from an academic department for program purposes does not replace a Letter of Permission and will not result in granted transfer credit. Requests for Letters of Permission are reviewed on a case-by-case basis. Detailed eligibility requirements and deadlines to request a Letter of Permission for transfer credits are available on the [Admissions & Student Recruitment](#) site.

Course Selection

- Students whose registration contravenes the regulations may be withdrawn from courses, regardless of when the contravention comes to light.
- **Prerequisites:** students must have passed any prerequisites identified in the course description before they enroll in the described course unless they have explicitly been waived by the instructor.
 - Instructors are empowered to waive prerequisites if they feel that there are adequate grounds for so doing.
 - If a student registers in a course without meeting its prerequisite and without obtaining a specific waiver, the student may be withdrawn from the course at any time without warning. Students remain in such courses at their own risk since not having passed the prerequisite will not be accepted as grounds for special consideration or petition.
 - If the prerequisite being waived is listed as a program requirement, students should discuss the matter in advance with their Program Supervisor/Director – the Program Supervisor/Director may need to record an exception in Degree Explorer.
 - The Office of the Registrar does NOT require notification of a prerequisite waiver.
- **Corequisites:** students must either already have passed the corequisite course or must enroll in it at the same time as they take the course being described.
 - Instructors are permitted to waive corequisites if they feel that there are adequate grounds for doing so.
 - If students register in a course without meeting its corequisite, or if they withdraw from the corequisite course without obtaining a specific waiver, the student may be withdrawn from the described course at any time without warning. Students remain in such courses at their own risk since not having passed the corequisite will not be accepted as grounds for special consideration or petition.
- **Exclusions:** students may not register for credit in any course which lists as an exclusion a course they are currently taking or have already passed (this includes credit awarded for work at other institutions, and courses that have been closed/deleted).
 - Students are cautioned that courses are not always mutually exclusive, so it is important to check the Calendar entries for both courses to ensure each lists the other as an exclusion.

- Where students enroll in an excluded course, the second course will be marked as an extra (EXT) course and, although it will appear on the transcript and can be used to satisfy program requirements, it will not count towards degree requirements or CGPA.
- ACORN does not automatically check for exclusions, but courses will be identified as extra courses in the student's academic record as soon as the exclusion is discovered. Students are cautioned this could happen without warning at any time during the student's studies at UTSC. Students can consult [Degree Explorer](#) to identify exclusions.
- It is every student's responsibility to ensure s/he does not duplicate his/her studies, whether inadvertently or otherwise. Some FAS and UTM courses that have not been identified in this Calendar may be exclusions of UTSC courses and vice versa; for this reason, it is always good practice to consult the Program Supervisor/Director or an academic advisor from the [Academic Advising & Career Centre](#) before taking courses on other campuses. Similarly, some UTSC courses, including some that have been retired, may not appear in this Calendar as exclusions. If UTSC, FAS and/or UTM courses have similar titles or content, the onus is on the student to contact the academic unit offering the course(s) to determine if the content is so similar the courses should be considered as exclusions.
- **Repeating Failed Courses**
 - A student may re-register for a course which they have failed. Both registrations are shown on the student's record and both grades count in the student's CGPA.
- **Repeating Passed Courses**
 - **(a) Second Attempt for Credit (SAC):** Students may repeat up to 1.0 credit of passed courses for which a credit has already been awarded. In cases where requests are received and approved, the first attempt will be designated as extra (EXT) and will not be included in CGPA calculations or in the degree credit count. The second attempt will count toward credit totals and CGPA. Academic standing from prior sessions will not be reassessed. Second Attempt for Credit is not available for non-degree students. The second attempt must be taken in September 2023 or later; this policy does not apply to courses taken as a second attempt prior to September 2023.
 - **(b) Repeating courses as "Extra" (EXT):** Extra courses are those for which students will not receive credit. The course and its grade will appear on the student's transcript (designated as an extra course) but the grade is not included in the student's grade point averages nor does the course count towards the degree. However, if appropriate, it may be used to satisfy program requirements. Students who repeat passed courses in excess of the 1.0 credit of Second Attempt for Credit policy (or who opt to not use the SAC option for a repeated passed course), will have the retake indicated as an extra (EXT) course. In such cases, the course and the final grade are shown on the record, but the grade is not included in the CGPA and the credit is not counted.
 - Repeating passed courses either through Second Attempt for Credit (SAC) policy or as an extra (EXT) course does not guarantee admission or re-admission into limited enrolment programs and these decisions are made at the discretion of the academic department. Students requesting to retake passed courses are not guaranteed enrolment in the requested course and will not be given priority in enrolment over other students. Students are encouraged to seek advising from their program advisor and/or the Academic Advising & Career Centre before deciding to retake a passed course or use the SAC policy. Retaking passed courses and the Second Attempt for Credit option are requested through the Office of the Registrar.
- Students must register for their courses in accordance with instructions issued each session by the Office of the Registrar. Students who wish to change their registration may do so only until the deadlines for adding and dropping courses, described under [Academic Dates](#) on the Office of the Registrar website; and may do so only through [ACORN](#).
- Students are cautioned that they are responsible for ensuring their course schedule is conflict-free. Students who knowingly remain in courses that conflict with one another will not receive special consideration should they encounter problems related to the conflict.
- Where multi-sectioned courses have a common examination, students enrolled in an evening section of the course may be required to sit an examination during the day and vice versa. Students may also be required to write Saturday or Sunday term tests or examinations.

Course Changes

Students may add courses or drop courses without academic penalty through ACORN up to the dates stated in the [Academic Dates](#). The deadlines for adding or dropping courses are strictly applied.

- Students who make changes through ACORN should end their transactions by listing their courses to ensure the change has been processed properly. They will not receive written confirmation of the change but it will be recorded in the Activity log kept by the University, which can be accessed through ACORN.
- At the time students add a course to their record they are accepting responsibility for fee payment for it. Students who drop courses by the appropriate deadline may be entitled to a fee adjustment. (See the fees refund schedule and information published each session by Student Accounts).

Note: exceptions to the University's fees refund schedule are made only in the case of an error on the University's part.

Changing Meeting Sections in a Course

Students may change meeting sections in a course at any time provided that, if the change takes place after the deadline for adding the course, they have the written approval of the instructor of the new meeting section or the administrative staff person responsible for student academic advising in the academic unit offering the course. The department must send the approval to the Office of the Registrar to have the change recorded in ACORN.

Note: For some course sections, changes are not permitted on ACORN. These are listed in the Course Timetable.

Dropping a Course

- Students wanting to drop a course should pay attention to two deadlines in the Academic Dates.
- If students withdraw from a course by the last date to drop courses without academic penalty, no record of registration is shown on the student's transcript.
- If students withdraw from a course by the late withdrawal date, the course remains on the student's record with a grade of LWD indicating late withdrawal. Students are permitted to withdraw late from a maximum of 3.0 credits during their studies within UTSC, FAS or UTM.
- If students cease to complete course requirements but do not withdraw officially by the later deadline, a grade based on the marks awarded (including a zero for any incomplete work) will be recorded.
- Students are not permitted to cancel or withdraw from a course in which an allegation of academic misconduct is pending, from the time of the alleged offence until the final disposition of the accusation. Such courses are designated GWR until the allegation is resolved.

Students who drop all their current courses and do not intend to enroll in any other course in that session (whether Summer, Fall or Winter) are deemed as having withdrawn from the session and must cancel their registration through ACORN. Students dropping all their courses in a session may wish to speak to an academic advisor from the Academic Advising & Career Centre or Office of the Registrar staff about the academic and financial consequences of withdrawal.

Voluntary Leave of Absence

UTSC students who have completed at least one course may take a voluntary leave from studies without formal authorization. No specific documentation or approval is required by UTSC.

To take a voluntary leave from studies, students have the option to: a) choose not to complete registration in a given academic period (e.g., Fall/Winter session, Fall or Winter Term) or b) cancel their current registration in a given academic period.

While on a voluntary leave, students will not pay any tuition, incidental, or ancillary fees; are not considered for scholarships or awards; cannot normally access University services (with the exception of their Registrar's Office) including health services; cannot participate in student internships; and cannot undertake undergraduate research. A student who chooses to take a voluntary leave from their studies is not exempt from academic deadlines, financial responsibilities, current or future policies, and fees schedules. Students who cancel their registration part-way through a term are responsible for any outstanding balance owed to the University. Students on leave may contact their Registrar's Office for information about their status and returning to studies.

All students considering a voluntary leave of absence should make themselves aware of financial implications for programs such as OSAP, out of province aid, UTAPS, or loan programs; the impact for internal and external award

payments; and how tuition and refunds will apply. Co-op students considering a voluntary leave of absence should consult with their Program Coordinator in the Co-op Office. Students who plan to cancel their courses and registration part-way through a term should refer to their divisional refund schedule.

Policy for International Students on an Approved Voluntary Leave of Absence

An approved leave of absence will be considered for international students who wish to have their leave intentions documented by the University. International students should consult with the International Student Centre (ISC) before considering a leave of absence and may only request and be approved for a maximum of two calendar years. An extension beyond two calendar years will not be approved; students may choose to continue a leave but it will not be considered an approved leave of absence.

Return from Absence (Voluntary Leave or Withdrawal)

Students previously registered at UTSC who have completed at least one course and wish to return after suspension or absence of three or more consecutive sessions (at least 12 months), and UTSC alumni wishing to return to studies as a non-degree student, can submit a ["Re-enrolment Request Form"](#) to the Office of the Registrar. Students should apply to re-enroll well before the final deadline to ensure there is sufficient time to process any requested post-admission transfer credit.

Degree students in good standing who studied at a recognized degree-granting institution during their absence from UTSC may be eligible to receive transfer credit for courses completed with at least a 60% (C-), where the minimum passing grade is 50%. Students should apply for post-admission transfer credit online and make payments. Official final transcripts are required and should be sent directly to the [Office of Admissions & Student Recruitment](#) at UTSC.

Enrolment in most courses is on a first-come, first-served basis. In order to have the application processed in time to take advantage of the wider availability of courses, students are strongly advised to submit the application to re-enroll by the dates listed below:

- Mid-March for the Summer Session
- Mid-June for both the Fall and Winter Sessions
- Early October for the Winter Session

Late applications to re-enroll will be considered ONLY if received before classes begin in the session. Late fees may apply. For further information on re-enrolment, visit the [Office of the Registrar](#) website.

Copyright in Instructional Settings

Students who want to record (whether audio, video or tape), photograph, or otherwise reproduce lecture presentations, course notes, or other materials provided by instructors must obtain the instructor's written consent beforehand. Otherwise, all such reproduction is viewed as an infringement of copyright, and is absolutely prohibited. In the case of private use by students with disabilities, the instructor's consent will not be unreasonably withheld. Where permission has been granted by the instructor, the reproduced materials are for the student's individual and private use only, and cannot be used for further reproduction, publication, online posting, or sale.

Academic Integrity

University of Toronto Policy

The University of Toronto places a strong emphasis on integrity in teaching and research. The University's policies and procedures that deal with cases of cheating, plagiarism and other forms of academic misconduct are designed to protect the integrity of the institution and to maintain a community where competition is fair. Allegations of an academic offence are dealt with formally and seriously, and penalties can be severe if it is determined a student or faculty member has committed an academic offence.

All of the policies and procedures surrounding academic misconduct are dealt with in the Code of Behaviour on Academic Matters (2025); non-academic behaviour is governed by the Code of Student Conduct (2019). The preamble of the Code of Behaviour states:

The concern of the Code of Behaviour on Academic Matters is with the responsibilities of all parties to the integrity of the teaching and learning relationship. Honesty and fairness must inform this relationship, whose basis remains one of mutual respect for the aims of education and for those ethical principles which must characterize the pursuit and transmission of knowledge in the University.

What distinguishes the University from other centres of research is the central place in which the relationship between teaching and learning holds. It is by virtue of this relationship that the University fulfills an essential part of its traditional mandate from society, and, indeed, from history: to be an expression of, and by so doing to encourage, a habit of mind which is discriminating at the same time as it remains curious, which is at once equitable and audacious, valuing openness, honesty and courtesy before any private interests.

This mandate is more than a mere pious hope. It represents a condition necessary for free enquiry, which is the University's lifeblood. Its fulfillment depends upon the wellbeing of that relationship whose parties define one another's roles as teacher and student, based upon differences in expertise, knowledge and experience, though bonded by respect, by a common passion for truth and by mutual responsibility to those principles and ideals that continue to characterize the University.

This Code is concerned, then, with the responsibilities of faculty members and students, not as they belong to administrative or professional or social groups, but as they co-operate in all phases of the teaching and learning relationship.

Such co-operation is threatened when a teacher or student forsakes respect for the other--and for others involved in learning--in favour of self-interest, when the truth becomes a hostage of expediency. On behalf of teacher and student and in fulfillment of its own principles and ideals, the University has a responsibility to ensure that academic achievement is not obscured or undermined by cheating or misrepresentation, that the evaluative process meets the highest standards of fairness and honesty, and that malevolent or even mischievous disruption is not allowed to threaten the educational process.

These are areas in which teacher and student necessarily share a common interest as well as common responsibilities.

Academic Offences

Academic offences are defined in Section B.i.1 of the Code, and include:

- **Plagiarism** – using the words or ideas of another person without citing the sources;
- **Unauthorized aids** – using unauthorized aids such as notes, books, calculators, a cell phone or electronic device to contact another person or access electronic sources, which could be considered cheating, on tests and exams;
- **Unauthorized assistance** – having someone else do the work for you;
- **Forgery or falsification** – making a false statement, presenting a false document or signing someone else's name on a document required by the University;
- **Personation** – having someone else write an exam for you, or writing an exam for someone else;
- **Concocting** – using false data, or providing false references;

- **Self-plagiarism** – submitting work for credit when you have submitted it in another course.

UTSC students and faculty are responsible for ensuring the integrity of their work, and for understanding what constitutes an academic offence. Students can find help in avoiding academic offences in the [UTSC Library](#), the [Writing Centre](#), [English Language Development Support](#), and the [Academic Advising & Career Centre](#). International students will also find help in the [International Student Centre](#).

All members of the University are expected to respect the rules associated with academic integrity and the values they protect. For more information, visit the [Academic Integrity](#) section within the [Office of the Vice-Principal Academic and Dean](#) website.

Final Exams and Assessments

Regulations for mid-term exams and tests are determined by the individual academic units and may differ from those for final examinations. Students are advised to consult their course syllabus, instructor, or the academic unit offering the course for regulations related to mid-terms.

Final examinations are held at the end of each session (Fall, Winter, and Summer). Students who make personal commitments during the examination period do so at their own risk and are warned they will not receive any special consideration, nor will special arrangements be made to accommodate them.

As soon as they are finalized, examination schedules are posted on the [Office of the Registrar](#) website under the "Examinations" tab. The date of posting is normally no later than:

- End of May for the Summer "F" examination period;
- End of June for the Summer "S" and "Y" examination period;
- End of October for the Fall examination period; and
- End of February for the Winter examination period.

Information regarding dates and times of final examinations will not be given by telephone, email, through Live Chat, or social media accounts.

Students are responsible for reading the examination schedule carefully and appearing at their exams on the date and at the time specified. Examinations can be scheduled at any time of day during the examination period: students taking daytime courses may be required to write evening examinations, and students taking evening courses may be required to write daytime examinations. In addition, final examinations (including deferred examinations) may be held on any day of the week, including weekends.

Examination room procedures for students can be found on the [Office of the Registrar's](#) website under the "Examinations - Code of Conduct" tab.

Final Examination Timetable Conflicts

Students with exam schedule conflicts should consult the [Conflicts page](#) on the Office of the Registrar website for information about how and when to report.

Accommodation for Religious Observances

It is the policy of the University ([Policy on Scheduling of Classes and Examinations and Other Accommodations for Religious Observances](#), 2005) to arrange reasonable accommodation of the needs of students who observe religious holy days other than those already accommodated by ordinary scheduling and statutory holidays. If the date of a final examination falls on a holy day observed by a student, the student should submit a request for accommodation through the [Office of the Registrar online service portal](#) no later than three full weeks before the commencement of examinations. This will normally be granted.

Procedure for Rescheduling Final Examinations Cancelled Due to Inclement Weather or Campus Emergency

If the campus is closed for a day or part of a day during the examination period, all missed examinations will be rescheduled to designated exam contingency dates, or other suitable dates within the examination schedule. For more information, check under the "Examinations" tab on the [Office of the Registrar](#) website.

Student Identification at Final Examinations

Students are required to identify themselves at examinations by means of their TCard. It is in every student's best interest to ensure they have obtained a TCard well in advance of the day of their first examination since students who do not have this card risk not being permitted to write their exam.

Use of Aids in Tests and Final Examinations

Instructors will let their students know whether the use of aids (e.g., calculators) is permissible during tests and examinations and, if so, which models are approved. The use of an unauthorized aid will be treated as an academic offence, and may result in serious penalties.

Materials and Personal Belongings in the Exam Room

It is an academic offence for students to bring unauthorized materials and/or electronic devices into an exam whether they are used or not.

Students who bring any unauthorized materials or electronic devices into an examination room, or assist, or obtain assistance from other students or from an unauthorized source, are liable to penalties under the [Code of Behaviour on Academic Matters](#) (2025), including the loss of academic credit for the course, suspension, or expulsion from the University.

No materials or electronic devices may be used at an examination except those authorized by the instructor. If the instructor has permitted the use of any aids, this will be explicitly stated on the front page of the exam.

Bags and books should, whenever possible, be left in students' lockers. The University is not responsible for personal property that is left in the exam room.

Paper coffee cups, plastic water bottles with labels, pencil cases, smartwatches, and smart/cell phones are not permitted on exam room desks/tables. Students wearing hats or peaked caps will be asked to remove them prior to sitting down to write their exams.

Bags and books are to be deposited in areas designated by the instructor/invigilator and are not to be taken to the examination table.

Students must place their valuables, including all smartwatches, smart/cell phones, tablets and laptop computers, in the re-sealable plastic bag provided for this purpose, and place the bag, closed, on the floor underneath their chair. Use of the plastic bags is mandatory since possession of an unauthorized electronic device is an academic offence. Students who are not automatically provided with a plastic bag, should request one. At the conclusion of the exam, students should return the re-sealable bag so that it can be reused.

Requesting Copies of Final Examinations

Within 90 days of the relevant examination period, students may request a copy of their final exam. Students must submit this request through the [Office of the Registrar online service portal](#). Where copying of the final exam is permitted, students will receive a photocopy of their exam. Where photocopying of the final exam is not permitted, students will be given an opportunity to view their exam under the supervision of a staff member. A non-refundable fee is charged. After 90 days, examinations are no longer available.

Petitions and Appeals

Students may occasionally need to ask for special consideration in their academic work or for exceptions to be made to academic regulations. Such requests normally arise as a result of their being affected by something outside their control, such as illness, an accident, or the death of a family member. Very occasionally students may find themselves in a situation not foreseen by the regulations or feel they have been unreasonably affected by a deviation from University Policy or approved practice. If you find yourself in such a situation, it is important you follow identified procedures and meet all published deadlines.

Students should seek special consideration only when there are circumstances that are truly beyond their control, which they could not reasonably have anticipated or overcome, and which have seriously affected their studies.

Students who take courses at another campus should refer to the FAS and/or UTM Calendars for regulations regarding their courses. Students are responsible for observing the regulations governing any courses they take on other campuses. However, all UTSC students must adhere to UTSC deadlines for petitions and appeals, irrespective of the campus on which the course is taken.

For complete information on special consideration, including petitions and appeals, visit the [Petitions](#) section of the Office of the Registrar website.

Exceptions Regarding Submission of Term Work

Students should speak with their instructor as soon as possible to request special consideration, if:

- They are unable to write a term test;
- Their performance on a test is adversely affected by illness or other extenuating circumstances; or
- They cannot submit term work by the instructor's deadlines.

In these instances, special consideration will be granted at the instructor's discretion. If students wish to appeal the instructor's decision they should address the issue with the Chair or Director of the academic unit offering the course.

If it is close to the end of the session and a student needs an extension of time to complete term work or to write a term test, the course instructor, jointly with the Chair/Director of the academic unit, has the authority to grant an extension for up to a week after the last date to submit term work, which typically will be one week following the last day of classes. If students need more than a week's extension for term work, they will normally will submit a formal petition.

Deferring Final Examinations

Students who miss a final examination can petition through [the Office of the Registrar online service portal](#) for a deferred exam. Complete information regarding how to submit a petition is available in the [Petitions](#) section of the Office of the Registrar's website.

- Petitions will be considered only for cases of illness or extreme emergency at the time of an examination. Petitions based on vacation, employment, or personal plans will not be considered.
- Petitions must provide supporting documentation.
- Petitions and all supporting documents are to be submitted within 3 business days from the date of the missed examination. While documents are submitted online, the Office of the Registrar may request to see the original documents and may validate the authenticity of the documents.
- Late petitions will not be accepted.

Students who choose to write an examination may not petition to rewrite it, except in circumstances such as a significant illness that suddenly manifests itself during an examination. In this instance, the claim of illness requires both corroborations from the examination invigilator and documentation from a health care professional.

Deferred examinations may be held within the same session or in the subsequent session.

Students must pay a fee by the given deadline to write a UTSC deferred examination. The payment deadline and instructions are indicated in the petition decision message in the [Office of the Registrar online service portal](#). Failure to pay the fee will result in a loss of privilege to sit the examination.

Students writing deferred examinations are strongly advised not to exceed a credit load of 2.5 credits in the session in which the deferred examination is scheduled.

Students have at most two opportunities to write a deferred examination for the same course. Students who miss a deferred examination will receive a mark of zero for the examination. Only under exceptional circumstances, which are supported by strong and compelling evidence, will a petition for a second deferral of the examination be considered. After a second missed deferred exam, students will not be permitted to write the exam and should seek advising to discuss their situation and engage in academic planning. The SDF (Standing Deferred) notation for the course on their transcript will be replaced by a final grade that includes a mark of zero for the examination.

Notes:

- Deferring a final examination may affect students' ability to gain access to courses and/or limited enrolment programs since they may not enroll in any course listed as a prerequisite in the course for which they have deferred the examination.
- Deferred examinations in the other arts and science divisions of the University may be scheduled at times other than those for UTSC.

Disagreements Regarding Marks and Grades

Grades in Term Work

To review a mark on a term test or assignment that may have been calculated incorrectly, students should ask the course instructor to check the mark as soon as possible, and certainly before the end of the session.

Students who wish to appeal an instructor's decision about the grading of term work should speak with, or write to, the Chair/Director of the academic unit offering the course.

Students who believe a mark should be reviewed on term work returned after the end of term, and after the instructor has submitted grades for the course, may submit a formal petition within 90 days of the relevant examination period.

Final Grades

Students who think there is an error in the calculation of their final grade can, within 90 days of the relevant examination period, request a clerical check through [the Office of the Registrar online service portal](#). A clerical check is arithmetical only; final exams will not be re-read or re-marked. Students are cautioned that a fee is charged for this service. If an error is discovered which results in a change of the final letter grade, the fee will be refunded. If the clerical check results in a grade change, the amended grade will stand whether it is higher or lower.

Students should be aware that before submitting any failing grade, instructors are required to recheck the calculation of term and final marks.

Final exams will not be returned to students. Students who wish to view their final exam may submit a request for an exam copy/viewing through [the Office of the Registrar online service portal](#). If, after reviewing a copy of a final examination, a student wishes to request it be re-read, they can submit a petition for re-reading within 90 days of the relevant examination period. When approved by petition, re-reading is arranged by the academic unit offering the course, which also authorizes any change in grade. Normally the re-reading is done by the course instructor, unless the student makes a convincing argument that the work should be re-read by another faculty member. Claims of prejudice must be supported in detail and wherever possible confirmed by a third party. Whenever a grade is changed, the amended grade will stand whether it is higher or lower. The exam copy/viewing fee is not refundable even if the petition results in a grade being amended.

Violations of the University Assessment and Grading Practices Policy

Students who believe an instructor has violated the [University Assessment and Grading Practices Policy](#) (2020) should discuss the complaint with the instructor. If the violation relates to the announced schedule of assignments or the marking scheme, students must do this no later than the fourth week of classes. If it relates to changes in or divergence from the announced marking scheme, students must do this before the end of the final examination period.

If discussion with the instructor does not result in a satisfactory solution, students may appeal the instructor's decision to the Chair/Director of the academic unit offering the course. If this appeal does not resolve the problem, students may appeal to the Associate Dean Undergraduate Programs and Curriculum.

Students who wish to withdraw from a course after the last day to withdraw without academic penalty on the grounds of a violation of the University Assessment and Grading Practices Policy must submit a formal petition. If the petition is granted because a violation of the policy has occurred, no record of registration in the course will appear on the transcript. Students cannot petition to withdraw from a course on the grounds that no work was returned before the last day to withdraw without academic penalty if this is the result of their having been given an extension to complete the work for reasons relating to the individual student and not the rest of the class.

Petitions

The University is governed by a series of rules and regulations to ensure that all students are treated fairly and equitably. A petition is a formal request made to the University asking to be exempted from an academic regulation or policy. Students must have good reason to make such a request and must show they have acted responsibly and with good judgment in observing the academic regulations. In particular, students are expected to seek support when needed and to make informed academic decisions proactively. The University understands that, in some instances, students may have valid reasons to ask for special consideration.

While students have the right to petition, the University reserves the right to grant or deny requests. Students are cautioned that some academic matters cannot be petitioned, although they can sometimes be resolved by working directly with the instructor or academic unit offering a course.

Where a petition is justified, it must be filed by the appropriate deadlines, and with the appropriate documentation.

When they file a petition, students effectively authorize the release of relevant aspects of their University record to be reviewed by authorized members of the University (staff and/or faculty). Such information is held in strictest confidence.

Students should submit their petition online via the [Office of the Registrar online service portal](#). If the issue is simple and the solution straightforward, students may not need advice or assistance with their petition. However, if there are more complex academic issues involved, students may want to speak first with their instructor, program supervisor, or discipline representative. If serious personal problems are involved, students should meet with an academic advisor in the [Academic Advising & Career Centre](#) or a personal counsellor in the [Health & Wellness Centre](#). Students should not let this recommendation interfere with submitting their petition by the deadline. Students must submit whatever documentation is necessary to support their request.

Petitions for re-reading of final examinations and of term work returned after the end of a term or session and after the instructor has submitted grades for the course will be granted only if students:

- Articulate clear grounds for reconsideration, addressing the substance of an answer in relation to the mark given it or otherwise identifying the nature of the alleged misevaluation;
- Show that the alleged misevaluation is of a substantial nature: in an objective answer, that a correct response has been counted as incorrect, or in a subjective or essay answer, that the response has been under-evaluated substantially; and Support their argument with evidence or documentation that must be submitted with the petition along with a photocopy of the final examination (when available).

Petitions to withdraw from courses without academic penalty (WDR) after the published deadline must be accompanied by a strong petition statement and substantive supporting documents that indicate why action was not taken within the

academic dates. These petitions and the supporting documents need to be submitted within six (6) months of the end of the session in which the course was taken.

Students will be notified online via the [Office of the Registrar online service portal](#) of the decision on their petition. The Petitions Office attempts to respond as quickly as possible but petition decisions can take many weeks, depending on the type of petition, complexity, and timing of the submission.

If a petition is granted, the following will be recorded on the student's transcript (academic record):

- Withdrawal from courses after the published deadline (LWD or WDR depending on the circumstances);
- Allowed to return early from suspension;
- Deferral of suspension ("suspension deferred");
- Award of aegrotat standing (AEG); or
- Deferred examinations (SDF).

In cases of an error on the part of the University, including violations of the University Assessment and Grading Practices Policy (2020), withdrawal from courses is not recorded on the transcript.

Petition Deadlines

The following deadlines apply only to UTSC. Deadlines and policies for courses taken on other campuses may differ.

Term Work

Requests for special consideration on term work, including term tests, within the jurisdiction of the instructor: deadline is the last day of classes.

Petitions to complete term work after the last day to submit term work: deadline is the last day of the examination period.

Students must complete outstanding work as soon as possible after the end of the session and within the next consecutive session. In certain exceptional circumstances where health concerns continue and there is strong supporting documentation and support from UTSC academic advisors or counsellors, outstanding term work can be completed within an additional session but not longer than this time period. Students unable to complete term work within two sessions will receive a WDR for the course.

Students submitting late-term work in a session subsequent to the original due date are strongly advised not to exceed a credit load of 2.5 credits in that session.

Final Examinations (Summer, Fall and Winter Sessions)

Petitions to write deferred examinations: 3 business days after the missed examination.

Missed Deferred Examinations

Students who miss a deferred exam will receive a mark of zero for the exam in the calculation of the final grade.

Only under exceptional circumstances (e.g., hospitalization or severe personal emergency), and when supported with strong and compelling evidence, will a petition for a second deferred exam be considered.

Petitions to write a deferred examination, which has been missed: 3 business days after the missed examination.

Checking of Marks and Appeal of Grades

Requests for checking of marks on term tests, essays and other term work made to the instructor of a course: deadline is the last day of classes.

Petitions for reconsideration of term work returned to students after the end of term: deadline is 90 days after the relevant examination period.

Requests for a photocopy of a final examination: deadline is 90 days after the relevant examination period.

Requests for recalculation of marks through the Office of the Registrar: deadline is 90 days after the relevant examination period.

Petitions for re-reading of a final examination: deadline is 90 days after the relevant examination period.

Appeals

Tier 1: The Office of the Registrar

Petitions are reviewed at the Office of the Registrar, where they are granted or refused. The petition will be reviewed by additional University Committees and Councils as follows:

Tier 2: Review by the Dean's Advisory Committee

If a petition has not been granted, students can request a review of this decision. Students must submit a "Request For Review of Petition Decision" no later than 90 days after the petition has been denied by the Office of the Registrar. Obtain a Request for Review of Petition Decision form from the [Office of the Registrar](#). It is recommended that students consult with an Academic & Learning Strategist at the Academic Advising & Career Centre before submitting this request. Students will be notified via [the Office of the Registrar online service portal](#) when a decision has been made. Students do not attend this meeting.

Tier 3: The Subcommittee on Academic Appeals

If a "Request For Review of Petition Decision" to the Dean's Advisory Committee is denied, students may appeal to the Subcommittee on Academic Appeals.

Students must submit their request no more than 90 days after the second refusal of the petition has been communicated to them. Students must file a Notice of Appeal, which is available via email, to academic.integrity.uts@utoronto.ca.

Students will be notified in writing as to when their appeal will be heard. Students are not required to attend in person, but it is to their advantage to do so.

Final Tier: Academic Appeals Committee of Governing Council

If an appeal to the Subcommittee on Academic Appeals is denied, a final appeal may be made to the Academic Appeals Committee of Governing Council. This is the most formal panel, and is chaired by a legal expert. The normal time frame for a hearing and response at this level may extend anywhere from several months to a year.

Students must submit their request for an appeal no more than 90 days after the refusal of the Appeal described in Tier 3 has been communicated to them.

An appeal is commenced by filing a [Notice of Appeal](#) form to the Director or Coordinator of the Academic Appeals Committee of Governing Council.

For complete information on petitions and appeals, including deadlines and guidelines for submission, please consult the [Petitions](#) section of the Office of the Registrar website.

University Policies and Code of Student Conduct

The University of Toronto has numerous policies that are approved by its Governing Council, which apply to all students. It is in all students' best interest to be familiar with these policies as the University will assume they have done so. All of the University's policies can be accessed through the [Governing Council](#) website, but those of particular importance to students include:

- [Guidelines Concerning Access to Official Student Academic Records](#) (2022)
- [Code of Behaviour on Academic Matters](#) (2025)
- [Code of Student Conduct](#) (2019)
- [University Assessment and Grading Practices Policy](#) (2020)
- [Policy on Official Correspondence with Students](#) (2006)

More information about academic policies can be found on the [Office of the Vice-President and Provost](#) website.

As members of the wider University community, UTSC students assume certain responsibilities, and are guaranteed certain rights and freedoms. The academic rules, regulations and policies of the wider University, as well as those particular to UTSC, are identified in this Calendar. UTSC students are subject to all of these rules, regulations and policies, which may be amended from time to time.

Official University Correspondence With Students

University correspondence with students is governed by the [Policy on Official Correspondence with Students](#) (2006).

The University may use the postal mail system and email to correspond with students. Email is the primary method of communicating with students regarding registration, student accounts, and other important or time-critical business. All University of Toronto students are provided with an official University UTmail+ email address (@mail.utoronto.ca) and are expected to use it while conducting official University-related correspondence. Setting up this official account is mandatory for all University of Toronto students. For help with this, you can view the [instructions for setting up your University of Toronto account](#). Students are expected to monitor and retrieve their official correspondence on a frequent and consistent basis.

In addition, students are responsible for maintaining current and valid contact information in ACORN. Neglecting to report changes in contact information in a timely manner will not be considered an acceptable reason for failing to act on official correspondence.

General Academic Regulations

This section of the Calendar describes general academic requirements students must meet and procedures they must follow. Additional, and more specific, academic requirements and procedures are described in relevant sections of the Calendar; for example, requirements and regulations related to degrees are described in the Degree Requirements section of the Calendar.

Class Attendance

Class attendance is an important aspect of university studies. Although class attendance is not mandatory, students who "skip" class place themselves at a distinct disadvantage and will not receive any special consideration on the grounds of non-attendance. Students who are unable to attend classes during the first two weeks of the session are strongly advised to wait until a future session to begin studies. New students who decide to wait until a future session should contact the [Admissions and Student Recruitment Office](#) to determine if a formal deferral of their offer of admission is possible.

Students in Debt to the University

If, at the end of the academic session, all debt to the University has not been paid, UTSC imposes the following academic sanctions until the debt is cleared:

- Transcripts are not issued;
- Diplomas are not released, nor is oral or written confirmation of degree and program completion provided. However, indebted graduands will be allowed to participate in the graduation ceremony and have their names appear in the Convocation program;
- Further studies are denied;
- Written certification of degree and program status is not provided;
- Confirmation of enrolment status is not provided; and/or
- Registration is refused to re-enrolling students (i.e. returning after any suspension or after an absence of twelve months or more).

The following debts are taken into consideration when applying sanctions:

- Tuition fees;
- Residence fees and other residence charges;
- Library fines;
- Loans made by colleges, faculties or the University;
- Health service accounts;
- Unreturned or damaged instruments, materials and equipment; and/or
- Fines levied under the Code of Student Conduct (2019).

Student Success and Supports

Academic Resources and Student Support Services

Students at the University of Toronto Scarborough have access to a large number of excellent academic resources and student support services. For more information, including services offered, operating hours, and contact information please refer to the following departments and offices listed below:

Academic Advising & Career Centre (AA&CC)

The Academic Advising & Career Centre (AA&CC) integrates developmental advising, learning skills, career counseling and employment coaching through individual appointments, workshops, experiential programming, events and a range of online resources.

Academic Integrity Office

The Academic Integrity Office within the Office of the Vice-Principal Academic & Dean promotes academic integrity by advising and educating students, instructors, and staff, and handling cases of academic misconduct while offering resources and workshops to foster a culture of accountability and honesty at the University of Toronto.

AccessAbility Services

AccessAbility Services is a student service and academic service on the U of T Scarborough campus. The office provides services and academic accommodations to students who have a documented learning, physical, sensory, mental health disability or medical condition.

Athletics and Recreation

Athletics & Recreation is one of the hubs of activity at U of T Scarborough and a gathering place for those pursuing a healthy active lifestyle. The department strives to create a respectful and inclusive environment that promotes opportunity and overall well-being through physical activity.

Campus Safety

The Department of Campus Safety Operations is committed to delivering security services that are sensitive to the needs of our community through collaborative partnerships and teamwork. The Department is comprised of several service areas:

- Campus Safety (Special Constable Service)
- Environmental Health and Safety Services
- Fire Safety and Security Systems
- Parking Services
- The volunteer-operated Emergency Medical Response Group (EMRG) Program

Centre for Teaching and Learning (CTL)

The Centre for Teaching and Learning (CTL) offers an extensive range of programming in support of student learning. These include:

- Writing Support
- Academic Communication: Listening and Speaking
- Academic Reading and Writing
- English Language Development Support
- Math and Statistics Support
- Facilitated Study Groups

- Experiential Learning

Equity, Diversity, and Inclusion Office (EDIO)

The Equity, Diversity, and Inclusion Office (EDIO) is a central resource for all UTSC community members (students, staff, faculty and librarians) to provide training, programming, and engagement initiatives related to equity, access, discrimination, and harassment.

Experiential Learning

Experiential Learning at the University of Toronto Scarborough covers everything from student internships and student co-op placements, to community-based projects and organization-partnered research. There are 16 different types of experiential learning opportunities recognized by the University.

Health & Wellness Centre

The Health & Wellness Centre provides professional medical, nursing, counselling, health promotion, and education services to U of T Scarborough students. These services are offered in a safe, caring, respectful, and empowering environment, which is directed towards optimizing students' academic and personal wellbeing.

Information & Instructional Technology Services (IITS)

Information & Instructional Technology Services (IITS) design and maintain core IT services including: campus computer network; systems and data storage platforms; campus-wide support to students, staff, and faculty; technological support that enhances the experience of electronic classrooms.

International Student Centre

The International Student Centre provides support to international students studying at U of T Scarborough and to students interested in studying abroad. The International Student Centre promotes an internationally informed and cross-culturally sensitive university community that enhances the student experience.

Library

The UTSC Library is part of the vast resource of scholarly materials including print volumes, print journal subscriptions, sound collections, videos and films, serial collections, electronic journals, and electronic books. It also offers access to over 200 networked computer stations, individual and group study space, and extensive reference and research support. Students can receive research assistance in person, by telephone, through email and through the online Ask a Librarian chat service.

N'sheemaehn Child Care Centre

N'sheemaehn Child Care Centre provides early education and care for 54 children. Every day learning through play in a professional, nurturing, stimulating, and safe environment helps children develop skills and strategies to thrive today and self-govern through their lifetime.

Registrar's Office (RO)

The Office of the Registrar helps current UTSC undergraduate students with following:

- Registration and Course Enrolment
- Financial Aid
- Scholarships and Awards
- Exams
- Graduation
- Petitions
- TCard and UTOrid

They also support future students through:

- Recruitment, Admissions and Transfer Credit Processes

Scarborough Campus Student Union (SCSU)

The Scarborough Campus Student Union is your elected student body that advocates on behalf of students on issues that are important to you. Services include: lockers; TTC metro passes; tax clinics; health & dental plan; graduation photos; orientation; and many social and cultural events to keep you engaged.

Student Experience and Wellbeing (OSEC)

The Office of Student Experience & Wellbeing (OSEC) provides strategic guidance and oversight for the following units: Academic Advising & Career Centre, AccessAbility Services, Athletics & Recreation, Health & Wellness Centre, Student Life & International Student Centre and Student Housing & Residence Life.

Student Housing & Residence Life

Student Housing & Residence Life ensures that students adjust to a safe and comfortable living environment on campus. The residence experience offers a transition to independence in a community that supports academic achievement and personal growth. Student leaders and staff offer unique support for the residence community through events, services, and programming. Engaging and supportive residence life programs work to create an inclusive and positive space that embraces diversity.

Student Life

Student Life Programs offer leadership development, community engagement, and work-integrated learning opportunities that support student engagement and experiential learning outside the classroom.

New for 2025-2026

Programs

New Programs

Department of English

- Major Program in Film Studies (Arts)

Department of Physical and Environmental Sciences

- Major Program in Climate Change Studies (Arts)

Program Title Changes

Department of Arts, Culture and Media

- Major Program in Music (Arts)
(Formerly titled: Major Program in Music and Culture)
- Minor Program in Music (Arts)
(Formerly titled: Minor Program in Music and Culture)

Department of Health and Society

- Major Program in Health Policy (Arts)
(Formerly titled: Major Program in Health Studies - Health Policy (Arts))
- Major (Co-operative) Program in Health Policy (Arts)
(Formerly titled: Major (Co-operative) Program in Health Studies - Health Policy (Arts))
- Major Program in Population Health (Science)
(Formerly titled: Major Program in Health Studies - Population Health (Science))
- Major (Co-operative) Program in Population Health (Science)
(Formerly titled: Major (Co-operative) Program in Health Studies - Population Health (Science))

Changes to Program Sections A-Z

Department of Arts, Culture and Media

- Music
(Formerly titled: Music and Culture)

Department of Physical and Environmental Sciences

- Climate Change Studies
(New section added)

Department of English

- Creative Writing – see English
- Film Studies – see English

Department of Health and Society

- Health and Society
(Formerly titled: Health Studies)

Program Suspensions

As of October 3, 2025, the following programs will be administratively suspended. For more information, please refer to the French section of the calendar.

- Specialist (Co-operative) Program in French (Arts)
- Major (Co-operative) Program in French (Arts)

African Studies

Faculty List

- R. Antabe, M.A., Ph.D (Western Ontario), Assistant Professor
- B. Dahl, Ph.D. (Chicago), Assistant Professor
- G. Daswani, M.Sc., Ph.D. (London), Associate Professor
- G. Dewar, M.A. (Toronto), Ph.D. (Cape Town), Associate Professor
- H. Dinani, M.A., (Toronto), Ph.D. (Emory), Assistant Professor
- A. Hachimi, M.A., Ph.D. (Hawaii), Associate Professor
- E. Harney, M.Phil, Ph.D. (London), Associate Professor
- M. Hunter, M.A. (Natal), Ph.D. (California, Berkeley), Professor
- C.S. Hossein, M.P.A (Cornell), Ph.D. (Toronto), Associate Professor
- A. Ilmi, B.A. (Ryerson), M.A. (Toronto), Ph.D. (Toronto), Assistant Professor
- T. Kepe, M.Sc. (Guelph), Ph.D. (Western Cape), Professor
- K. Kilroy-Marac, Ph.D. (Columbia), Associate Professor
- N. Kortenaar, M.A., Ph.D. (Toronto), Professor
- M. Lambek, M.A., Ph.D. (Michigan), Professor Emeritus
- N. Massaquoi, M.S.W., Ph.D. (Toronto), Assistant Professor
- J. Ndayiragije, M.A., Ph.D. (Montreal-UQAM), Associate Professor
- S.J. Rockel, M.A., Ph.D. (Toronto), Associate Professor
- W. Tettey, M.A (British Columbia), Ph.D. (Queen's), Professor
- K. Vernon, B.A., M.A. (Simon Fraser), Ph.D. (Victoria), Associate Professor
- B. von Lieres, M.A. (Witwatersrand), Ph.D. (Essex), Assistant Professor
- Z. Wai, M.A (International University of Japan), Ph.D. (York), Associate Professor

Program Supervisor: Z. Wai, Email: zuba.wai@utoronto.ca

Program Coordinator Email: gds-advisor@utsc.utoronto.ca

The world cannot be understood without Africa. African Studies aims to widen students' knowledge and experience of the second largest and complex continent, its peoples, and their diasporas. In coming to terms with its great diversity, students will discover Africans' important contributions to the world's artistic, literary, political, and religious ideas.

In many program courses, Africa, its peoples, and their cultures are situated in relation to the wider world. The study of historical interconnections with Europe, Asia, and the Americas highlights Africa's central role in world history and processes of globalization. Throughout the program, students explore the exciting recent developments in our understanding of African civilizations, thought, political and religious systems, as well as histories of slavery, colonialism, and nationalism. A number of courses emphasize African, Caribbean, and African-American cultural and artistic responses to modernity, racism, and liberation, as well as struggles for security and development.

The program, as a whole, challenges students to think in new innovative directions about Africa across the disciplines and to reject preconceived myths and stereotypes. Students with a Minor Program in African Studies will gain strong skills in critical analysis, research, writing, and communications. The program aims to go further to encourage an awareness of the relationships between the production and application of knowledge and the wider forces of global change, as well as a love of intellectual challenges.

The five learning objectives for the Minor Program in African Studies are as follows:

- a. Promoting an understanding of Africa's deep historical importance in the world.
- b. Promoting awareness of the cultural and social diversity of African/African diaspora cultures, religions, languages, music, literature, and film.
- c. Promoting theoretical and methodological understandings of the importance of 'de-colonizing the study of Africa and its diaspora'.
- d. Promoting and deepening knowledge of the challenges facing contemporary Africa in its global dimensions.

- e. Promoting and deepening knowledge about the African diaspora experience, historically and in its contemporary dimensions.

Students who intend to complete the Minor Program in African Studies should include [AFSA01H3](#) in their first-year course selection. Certain elective courses (e.g., [ENGB22H3](#) and [ENGD08H3](#)) have non-African Studies prerequisites. This may require that you take more than 4.0 credits to complete the program. Students should check the prerequisites carefully before selecting their courses.

For more information regarding African Studies, please visit the [African Studies Program](#) website.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

African Studies Programs

MINOR PROGRAM IN AFRICAN STUDIES (ARTS) - SCMINAFS

Program Coordinator Email: gds-advisor@utsc.utoronto.ca

Program Requirements

Students must complete 4.0 credits, 1.0 credit of which must be at the C- or D-level

1. 0.5 credit as follows:

[AFSA01H3/HISA08H3](#) Africa in the World: An Introduction

2. 1.5 credits from the following (students should check course descriptions for prerequisites):

[AFSA03H3/IDSA02H3](#) Experiencing Development in Africa

[AFSB01H3/HISB52H3](#) African Religious Traditions Through History

[AFSB05H3/ANTB05H3](#) Culture and Society in Africa

[AFSB50H3/HISB50H3](#) Africa in the Era of the Slave Trade

[AFSB51H3/HISB51H3](#) Africa from the Colonial Conquests to Independence

[AFSB54H3/HISB54H3](#) Africa in the Postcolonial Era

[AFSC03H3/IDSC03H3](#) Contemporary Africa: State, Society, and Politics

[AFSC52H3/HISC52H3/VPHC52H3](#) Ethiopia: Seeing History

[AFSC55H3/HISC55H3](#) War and Society in Modern Africa

[AFSC70H3/HISC70H3](#) The Caribbean Diaspora

[AFSD07H3/IDSD07H3](#) Extractive Industries in Africa

[AFSD20H3/IDSD20H3](#) Thinking Conflict, Security, and Development

[AFSD51H3/HISD51H3](#) Southern Africa: Colonial Rule, Apartheid and Liberation

[AFSD52H3/HISD52H3](#) East African Societies in Transition

[AFSD53H3/GASD53H3/HISD53H3](#) Africa and Asia in the First World War

[GGRD09H3](#) Feminist Geographies

[IDSD06H3](#) Feminist and Postcolonial Perspectives in Development Studies

3. 2.0 credits from the following list (students should check course descriptions for prerequisites):

Note: Though not required, students are encouraged to specialize in one of the areas of concentration below.

Africa the Continent

[AFSA03H3/IDSA02H3](#) Experiencing Development in Africa (if not used in Requirement 2)

[AFSB05H3/ANTB05H3](#) Culture and Society in Africa (if not used in Requirement 2)

[AFSB50H3/HISB50H3](#) Africa in the Era of the Slave Trade (if not used in Requirement 2)

[AFSB51H3/HISB51H3](#) Africa from the Colonial Conquests to Independence (if not used in Requirement 2)

GGRC33H3 The Toronto Region
HISC45H3 Immigrants and Race Relations in Canadian History
SOCD21H3 Immigrant Scarborough
WSTB06H3 Women in Diaspora

Note: Not all courses in Requirement #2 and #3 are offered every year.

African Studies Courses

AFSA01H3 - Africa in the World: An Introduction

An interdisciplinary introduction to the history and development of Africa with Africa's place in the wider world a key theme. Students critically engage with African and diasporic histories, cultures, social structures, economies, and belief systems. Course material is drawn from Archaeology, History, Geography, Literature, Film Studies, and Women's Studies.

Same as (HISA08H3)

Exclusion: (HISA08H3), AFR150Y1 (NEW150Y1)
Breadth Requirements: History, Philosophy and Cultural Studies

AFSA03H3 - Experiencing Development in Africa

This experiential learning course allows students to experience first hand the realities, challenges, and opportunities of working with development organizations in Africa. The goal is to allow students to actively engage in research, decision-making, problem solving, partnership building, and fundraising, processes that are the key elements of development work.

Same as IDSA02H3

Exclusion: IDSA02H3
Breadth Requirements: Social and Behavioural Sciences
Course Experience: Partnership-Based Experience

AFSB01H3 - African Religious Traditions Through History

An interdisciplinary introduction to African and African diasporic religions in historic context, including traditional African cosmologies, Judaism, Christianity, Islam, as well as millenarian and syncretic religious movements.

Same as HISB52H3

Exclusion: HISB52H3, (AFSA02H3)
Recommended Preparation: 0.5 credit in a AFS or ANT or CLA or IDS or GEO or GAS or HIS or POL or SOC or WST course
Breadth Requirements: History, Philosophy and Cultural Studies

AFSB05H3 - Culture and Society in Africa

An overview of the range and diversity of African social institutions, religious beliefs and ritual, kinship, political and economic organization, pre-colonial, colonial and post-colonial experience.

Same as ANTB05H3

Exclusion: ANTB05H3
Breadth Requirements: Social and Behavioural Sciences

AFSB50H3 - Africa in the Era of the Slave Trade

An introduction to the history of Sub-Saharan Africa, from the era of the slave trade to the colonial conquests. Throughout, the capacity of Africans to overcome major problems will be stressed. Themes include slavery and the slave trade; pre-colonial states and societies; economic and labour systems; and religious change.

Same as HISB50H3

Exclusion: HISB50H3, (HISC50H3), HIS295H, HIS396H, (HIS396Y)
Recommended Preparation: 0.5 credit in a AFS or ANT or CLA or IDS or GEO or GAS or HIS or POL or SOC or WST course
Breadth Requirements: History, Philosophy and Cultural Studies

AFSB51H3 - Africa from the Colonial Conquests to Independence

Modern Sub-Saharan Africa, from the colonial conquests to the end of the colonial era. The emphasis is on both structure and agency in a hostile world. Themes include conquest and resistance; colonial economies; peasants and labour; gender and ethnicity; religious and political movements; development and underdevelopment; Pan-Africanism, nationalism and independence.

Same as HISB51H3

Exclusion: HISB51H3 and (HISC51H3) and HIS396H and (HIS396Y)
Recommended Preparation: 0.5 credit in a AFS or ANT or CLA or IDS or GEO or GAS or HIS or POL or SOC or WST course. AFSB50H3/HISB50H3 strongly recommended
Breadth Requirements: History, Philosophy and Cultural Studies

AFSB54H3 - Africa in the Postcolonial Era

Africa from the 1960s to the present. After independence, Africans experienced great optimism and then the disappointments of unmet expectations, development crises, conflict and AIDS. Yet the continent's strength is its youth. Topics include African socialism and capitalism; structural adjustment and resource economies; dictatorship and democratization; migration and urbanization; social movements.

Same as [HISB54H3](#)

Exclusion: [HISB54H3](#), NEW250Y1

Recommended Preparation: 0.5 credit in a AFS or ANT or CLA or IDS or GEO or GAS or HIS or POL or SOC or WST course

Breadth Requirements: History, Philosophy and Cultural Studies

AFSC03H3 - Contemporary Africa: State, Society, and Politics

This course is intended as an advanced critical introduction to contemporary African politics. It seeks to examine the nature of power and politics, state and society, war and violence, epistemology and ethics, identity and subjectivities, history and the present from a comparative and historical perspective. It asks what the main drivers of African politics are, and how we account for political organization and change on the continent from a comparative and historical perspective.

Same as [IDSC03H3](#).

Prerequisite: [IDSA01H3](#) or [AFSA01H3](#) or by instructor's permission

Exclusion: [IDSC03H3](#)

Breadth Requirements: Social and Behavioural Sciences

AFSC19H3 - Community-Driven Development: Cooperatives, Social Enterprises and the Black Social Economy

This course introduces students to alternative business institutions (including cooperatives, credit unions, worker-owned firms, mutual aid, and social enterprises) to challenge development. It investigates the history and theories of the solidarity economy as well as its potential contributions to local, regional and international socio-economic development. There will be strong experiential education aspects in the course to debate issues. Students analyze case studies with attention paid to Africa and its diaspora to combat exclusion through cooperative structures.

Same as [IDSC19H3](#)

Prerequisite: [AFSA01H3](#) or [IDSA01H3](#) or [POLB90H3](#) or permission of the instructor

Exclusion: [IDSC19H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

AFSC52H3 - Ethiopia: Seeing History

This course uses a focus on material history and visual culture to explore Ethiopia from the fourth through the nineteenth century, with particular emphasis on the Christian Church, the monarchy, links with both the Mediterranean world and the Indian subcontinent, and the relationship of individuals to their social, economic, artistic and geographic environments.

Same as [HISC52H3](#) and [VPHC52H3](#)

Prerequisite: [1.0 credit in History] or [VPHA46H3](#) and an additional 1.0 credit in VPH courses]

Exclusion: [HISC52H3](#), [VPHC52H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

AFSC55H3 - War and Society in Modern Africa

Conflict and social change in Africa from the slave trade to contemporary times. Topics include the politics of resistance, women and war, repressive and weak states, the Cold War, guerrilla movements, resource predation. Case studies of anti-colonial rebellions, liberation wars, and civil conflicts will be chosen from various regions.

Same as [HISC55H3](#)

Prerequisite: Any 4.0 credits, including:

[AFSB50H3/HISB50H3](#) or [AFSB51H3/HISB51H3](#) or ([HISC50H3](#)) or ([HISC51H3](#))

Exclusion: [HISC55H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

AFSC70H3 - The Caribbean Diaspora

The migration of Caribbean peoples to the United States, Canada, and Europe from the late 19th century to the present. The course considers how shifting economic circumstances and labour demands, the World Wars, evolving imperial relationships, pan-Africanism and international unionism, decolonization, natural disasters, and globalization shaped this migration.

Same as [HISC70H3](#)

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses

Exclusion: NEW428H, [HISC70H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

AFSD07H3 - Extractive Industries in Africa

This course examines resource extraction in African history. We examine global trade networks in precolonial Africa, and the transformations brought by colonial extractive economies. Case studies, from diamonds to uranium, demonstrate how the resource curse has affected states and economies, especially in the postcolonial period.

Same as [IDSD07H3](#)

Prerequisite: [10.0 credits including [AFSA01H3](#) or [IDSA01H3](#) or [POLB90H3](#)] or permission of instructor

Exclusion: [IDSD07H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

AFSD16H3 - Africana Political Economy in Comparative Perspective

This course analyzes racial capitalism among persons of African descent in the Global South and Global North with a focus on diaspora communities. Students learn about models for self-determination, solidarity economies and cooperativism as well as Black political economy theory.

Same as [IDSD16H3](#)

Prerequisite: [10.0 credits including [AFSA01H3](#) or [IDSA01H3](#) or [POLB90H3](#)] or permission of instructor

Exclusion: [IDSD16H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

AFSD20H3 - Thinking Conflict, Security, and Development

This course offers an advanced critical introduction to the security-development nexus and the political economy of conflict, security, and development. It explores the major issues in contemporary conflicts, the securitization of development, the transformation of the security and development landscapes, and the broader implications they have for peace and development in the Global South.

Same as [IDSD20H3](#).

Prerequisite: [12.0 including ([IDSA01H3](#) or [AFSA01H3](#) or [POLC09H3](#))] or by instructor's permission

Exclusion: [IDSD20H3](#)

Breadth Requirements: Social and Behavioural Sciences

AFSD51H3 - Southern Africa: Colonial Rule, Apartheid and Liberation

A seminar study of southern African history from 1900 to the present. Students will consider industrialization in South Africa, segregation, apartheid, colonial rule, liberation movements, and the impact of the Cold War. Historiography and questions of race, class and gender will be important. Extensive reading and student presentations are required.

Same as [HISD51H3](#)

Africa and Asia Area

Prerequisite: 8.0 credits including [HISB50H3/AFSB50H3](#) or [HISB51H3/AFSB51H3](#) or [HISB54H3/AFSB54H3](#) or

[HISC55H3/AFSC55H3](#)

Exclusion: [HISD51H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

AFSD52H3 - East African Societies in Transition

A seminar study of East African peoples from late pre-colonial times to the 1990's, emphasizing their rapid although uneven adaptation to integration of the region into the wider world. Transitions associated with migrations, commercialization, religious change, colonial conquest, nationalism, economic development and conflict, will be investigated. Student presentations are required.

Same as [HISD52H3](#)

Prerequisite: 8.0 credits including [HISB50H3/AFSB50H3](#) or [HISB51H3/AFSB51H3](#) or [HISB54H3/AFSB54H3](#) or

[HISC55H3/AFSC55H3](#)

Exclusion: [HISD52H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

AFSD53H3 - Africa and Asia in the First World War

This seminar course examines the First World War in its imperial and colonial context in Africa and Asia. Topics include forgotten fronts in Africa, the Middle East, Asia and the Pacific, colonial armies and civilians, imperial economies and resources, the collapse of empires and the remaking of the colonial world.

Same as [GASD53H3](#) and [HISD53H3](#)

Prerequisite: 8.0 credits, including: [1.0 credit in AFS, GAS, or Africa and Asia area HIS courses]

Exclusion: [GASD53H3](#), [HISD53H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

Anthropology

Faculty List

- S. Bamford, B.A. (Toronto), M.A. (McMaster), M.A., Ph.D. (Virginia), Associate Professor
- W. Butt, B.A. (John Hopkins University), Ph.D. (California, San Diego), Associate Professor
- M. Cummings, B.A. (York), M.A. (Dalhousie), Ph.D. (York), Associate Professor, Teaching Stream
- B. Dahl, B.A. (California, San Diego), M.A., Ph.D. (Chicago), Assistant Professor
- G. Daswani, B.Sc. (National University of Singapore), M.Sc., Ph.D. (London School of Economics), Associate Professor
- G. Dewar, B.Sc., MA. (Toronto), Ph.D. (Cape Town), Associate Professor
- V. de Aguiar Furuie, Ph.D. (Princeton University), Assistant Professor
- L. Janz, B.A. (McGill), M.A., Ph.D. (Arizona), Assistant Professor
- K. Kilroy-Marac, B.A. (Wisconsin-Madison), M.A., M. Phil., Ph.D. (Columbia), Associate Professor
- C. Krupa, B.A., M.A. (Toronto), Ph.D. (California, Davis), Associate Professor
- M. Lambek, B.A. (McGill), M.A., Ph.D. (Michigan), F.R.S.C., Professor Emeritus
- L. Mortensen, B.A. (Cornell), M.A., Ph.D. (Indiana), Assistant Professor, Teaching Stream
- M. Nargolwalla, B.Sc., M.Sc., Ph.D. (Toronto), Assistant Professor, Teaching Stream
- A. Paz, B.A. (Queen's), M.A. (Tel Aviv), M.A., Ph.D. (Chicago), Associate Professor
- G. San Martin Flores, B.Sc., M.Sc., (Toronto), Laboratory Technician
- M. Schillaci, B.A. (New Mexico), M.A. (Toronto), Ph.D. (New Mexico), Professor
- M. Silcox, B.Sc. (Toronto), Ph.D. (Johns Hopkins), Professor
- A. Sorge, B.A. (McGill), M.A. (Carleton), Ph.D. (Calgary), Assistant Professor
- J. Teichroeb, B.Sc., M.A., Ph.D. (Calgary), Associate Professor
- D. Young, B.A., M.A. (New Brunswick), Ph.D. (Toronto), Assistant Professor Emerita

Program Chair: S. Bamford

Program Advisor Email: anthropologyadvisor.uts@utoronto.ca

For more information, [visit the departmental website](#).

Anthropology is the study of humankind, dealing with the origin, development and nature of humans and their culture in all its varieties. As such, it is concerned with human phenomena in the widest possible terms, both biological and cultural. It differs from other social sciences in its comparative and historical approach and in its intimate links with both the natural sciences and the humanities. Anthropology examines societies today and in the past, including relatively remote and small-scale societies, complex civilizations, and contemporary global and transnational interconnections.

From this vantage point, Anthropology attempts to understand the common factors underlying human existence and the factors that produce social change and differences between people and cultures.

Due to its vast subject matter, Anthropology is traditionally divided into four subject fields: Socio-cultural Anthropology, Evolutionary Anthropology, Linguistic Anthropology, and Archaeology. At the present time, the University of Toronto Scarborough offers programs within two major streams: Socio-cultural and Evolutionary Anthropology. Some Linguistic Anthropology courses are also offered and are closely linked to the Socio-cultural stream. Some Archaeology is offered and is closely linked to the Evolutionary stream.

Students intending to complete a program in Anthropology should take ANTA01H3 and ANTA02H3 within their first year in order to prepare them for more advanced courses. Students normally select whether to pursue the Socio-cultural stream (which leads to a B.A. degree) or the Evolutionary Anthropology stream (which leads to a B.Sc. degree) at the beginning of their second year of study but are encouraged to take courses in both streams. All courses in Evolutionary Anthropology, including those in Archaeology, carry a science credit.

Combined Degree Programs, Honours Bachelor of Science or Honours Bachelor of Arts/ Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBS) /Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provides students with a direct

pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and Master's degree. These Combined Degree Programs allow students to complete 1.0 credits in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Program Combination Restrictions in Anthropology

Students may combine their Specialist or Major program in Evolutionary Anthropology with either the Specialist or Major program in Socio-Cultural Anthropology, however, the following combinations are restricted:

- The Specialist and Major programs in Evolutionary Anthropology cannot be combined;
- The Specialist and Major programs in Socio-Cultural Anthropology cannot be combined;
- The Minor in Anthropology cannot be combined with any other programs in Anthropology.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Anthropology Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBA and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching

- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching

- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology	Social Science - General

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject;

students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.

- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
 - if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
 - if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
 - for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
 - for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:
 - students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

SPECIALIST PROGRAM IN EVOLUTIONARY ANTHROPOLOGY (SCIENCE) - SCSPE17806

The Specialist Program in Evolutionary Anthropology is intended to provide the professionally oriented student with background preparation of sufficient breadth and depth to pursue specialized training at the graduate level. It is also designed to offer interested students a course structure as background for a wide range of occupations and professions. Students are encouraged to consult with the Undergraduate Counsellor regarding the selection of a course sequence appropriate to their interests and objectives. In exceptional circumstances, supervised research and reading courses are available at the C- and D-levels ([ANTC04H3](#), [ANTD32H3](#)). These courses require special arrangements prior to registration. Read the descriptions for these courses carefully as restrictions apply.

Program Requirements

The Program requires completion of 12.0 credits, as indicated below.

1. 1.0 credit as follows:

[ANTA01H3](#) Introduction to Anthropology: Becoming Human

[ANTA02H3](#) Introduction to Anthropology: Society, Culture and Language

2. [ANTB14H3](#) Evolutionary Anthropology

3. [ANTB15H3](#) Contemporary Human Evolution and Variation

4. 10.0 credits at the B-level or above, of which at least 5.0 credits must be at the C- or D-level, including at least

1.0 credit at the D-level. At least 7.5 credits must be composed of ANT courses identified as "Science credit" in the UTSC Academic Calendar.

Note: [ANTB14H3](#) and [ANTB15H3](#) are prerequisites for C- and D-level courses in the Evolutionary Anthropology program.

SPECIALIST (CO-OPERATIVE) PROGRAM IN EVOLUTIONARY ANTHROPOLOGY (SCIENCE) - SCSPE1780M

Co-op Email: coopsuccess.utscc@utoronto.ca

The Specialist (Co-op) in Evolutionary Anthropology is intended to provide the professionally oriented student with background preparation of sufficient breadth and depth to pursue specialized training at the graduate level. It is also designed to offer interested students a course structure as background for a wide range of occupations and professions. Students are encouraged to consult with the Undergraduate Counsellor regarding the selection of a course sequence appropriate to their interests and objectives. In exceptional circumstances, supervised research and reading courses are available at the C- and D-levels ([ANTC04H3](#), [ANTD32H3](#)). These courses require special arrangements prior to registration. Read the descriptions for these courses carefully as restrictions apply.

The Specialist (Co-op) in Evolutionary Anthropology complements and punctuates academic course work with full-time work terms which help students define and refine their career and/or professional school goals.

The minimum qualifications for entry are 4.0 credits, including [ANTA01H3](#) and [ANTA02H3](#), with a minimum cumulative GPA of 2.5 or higher.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Evolutionary Anthropology.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN SOCIO-CULTURAL ANTHROPOLOGY (ARTS) - SCSPE1780

The Specialist Program in Socio-Cultural Anthropology is intended to provide the professionally oriented student with background preparation of sufficient breadth and depth to pursue specialized training at the graduate level. It is also designed to offer interested students a course structure as background for a wide range of occupations and professions. Students are encouraged to consult with the Undergraduate Counsellor regarding the selection of a course sequence appropriate to their interests and objectives. In exceptional circumstances, supervised research and reading courses are available at the C- and D-levels ([ANTC03H3](#), [ANTD31H3](#)). These courses require special arrangements prior to registration. Read the descriptions for these courses carefully as restrictions apply.

Program Requirements

The Program requires completion of 12.0 credits, as indicated below

1. 1.0 credit as follows:

[ANTA01H3](#) Introduction to Anthropology: Becoming Human

[ANTA02H3](#) Introduction to Anthropology: Society, Culture and Language

2. [ANTB19H3](#) Ethnography and the Comparative Study of Human Societies

3. [ANTB20H3](#) Ethnography of the Global Contemporary

4. 10.0 credits at the B-level or above, of which at least 5.0 credits must be at the C- or D-level, including at least 1.5 credits at the D-level. Students must ensure that as part of Requirement 4, they complete:

a. At least 1.0 credit in area studies courses: [ANTB05H3](#), [ANTB16H3](#), [ANTB18H3](#), [ANTB26H3](#)/([ANTC89H3](#)), [ANTB42H3](#)/([ANTC12H3](#)), [ANTB65H3](#), or [ANTD07H3](#)

b. At least 0.5 credit in Ethnographic methods: [ANTC70H3](#)

c. At least 0.5 credit from among [ANTD05H3](#), [ANTD06H3](#), or [ANTD15H3](#)

Note: [ANTB19H3](#) and [ANTB20H3](#) are prerequisites for C- and D-level courses in the Socio-Cultural Anthropology program.

MAJOR PROGRAM IN EVOLUTIONARY ANTHROPOLOGY (SCIENCE) - SCMAJ17806

The Major program in Evolutionary Anthropology provides a course structure for those students desiring to expand upon or supplement other areas of academic interest by taking advantage of Anthropology's unique global, chronological, and biological perspective on the human condition.

Program Requirements

The Program requires completion of 8.0 credits in Anthropology including:

1. 1.0 credit as follows:

[ANTA01H3](#) Introduction to Anthropology: Becoming Human

[ANTA02H3](#) Introduction to Anthropology: Society, Culture and Language

2. [ANTB14H3](#) Evolutionary Anthropology

3. [ANTB15H3](#) Contemporary Human Evolution and Variation

4. 6.0 credits at the B-level or above, of which at least 3.0 credits must be at the C- or D-level. At least 5.5 credits must be composed of ANT courses identified as "Science credit" in the UTSC Academic Calendar.

Note: [ANTB14H3](#) and [ANTB15H3](#) are prerequisites for C- and D-level courses in the Evolutionary Anthropology program.

MAJOR (CO-OPERATIVE) PROGRAM IN EVOLUTIONARY ANTHROPOLOGY (SCIENCE) - SCMAJ1780M

Co-op Email: coopsuccess.uts@utoronto.ca

The Major in Evolutionary Anthropology provides a course structure for those students desiring to expand upon or supplement other areas of academic interest by taking advantage of Anthropology's unique global, chronological, and biological perspective on the human condition.

The Major (Co-op) in Evolutionary Anthropology complements and punctuates academic course work with full-time work terms which help students define and refine their career and/or professional school goals.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [ANTA01H3](#) and [ANTA02H3](#), with a minimum cumulative GPA of 2.5 or higher.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major in Evolutionary Anthropology.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN SOCIO-CULTURAL ANTHROPOLOGY (ARTS) - SCMAJ1780

The Major program in Socio-Cultural Anthropology provides a course structure for those students desiring to expand upon or supplement other areas of academic interest by taking advantage of Anthropology's unique global, chronological, and biological perspective on the human condition.

Program Requirements

The Program requires completion of 8.0 credits in Anthropology including:

1. 1.0 credit as follows:

ANTA01H3 Introduction to Anthropology: Becoming Human

ANTA02H3 Introduction to Anthropology: Society, Culture and Language

2. ANTB19H3 Ethnography and the Comparative Study of Human Societies

3. ANTB20H3 Ethnography of the Global Contemporary

4. 6.0 credits at the B-level or above, of which at least 3.0 credits must be at the C- or D-level. Students must ensure that as part of Requirement 4, they complete:

a. At least 1.0 credits in area studies courses ANTB05H3, ANTB16H3, ANTB18H3, ANTB26H3/(ANTC89H3), ANTB42H3/(ANTC12H3), ANTB65H3, or ANTD07H3

b. 0.5 credit from Ethnographic methods: ANTC70H3

c. At least 0.5 credit from among ANTD05H3, ANTD06H3, ANTD15H3

Note: ANTB19H3 and ANTB20H3 are prerequisites for C- and D-level courses in the Socio-Cultural Anthropology program.

MINOR PROGRAM IN ANTHROPOLOGY (ARTS) - SCMIN1775

The Minor Program in Anthropology provides a course structure for students majoring or specializing in other disciplines who want some directed exposure to anthropological thought.

Program Requirements

The Program requires completion of 4.0 credits as follows:

1. 1.0 credits as follows:

ANTA01H3 Introduction to Anthropology: Becoming Human

ANTA02H3 Introduction to Anthropology: Society, Culture and Language

2. At least 1.0 credit from among the following:

ANTB14H3 Evolutionary Anthropology

ANTB15H3 Contemporary Human Evolution and Variation

ANTB19H3 Ethnography and the Comparative Study of Human Societies

ANTB20H3 Ethnography of the Global Contemporary

ANTB80H3 Introduction to Archaeology: Methods, Theories, and Practices

3. 2.0 additional credits in Anthropology, of which 1.0 credit must be at the C- or D-level.

CERTIFICATE IN BIOARCHAEOLOGY - SCCER1030

This Certificate will provide students with concentrated training in Bioarchaeology, the subdiscipline of Archaeology that focuses on the study of biological materials from archaeological sites, with a particular emphasis on skeletal remains (both

human and non-human).

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in either the Specialist or Major program in Evolutionary Anthropology.

Certificate Requirements

Students must complete a total of 2.0 credits as follows*:

ANTB80H3 Introduction to Archaeology: Methods, Theories, and Practices

ANTC47H3 Human Skeletal Anatomy and Biology

ANTC48H3 Advanced Topics In Human Osteology

ANTD35H3 Bioarchaeology

*Students must earn an average GPA of 2.7 across the four courses to be awarded the Certificate.

CERTIFICATE IN EVOLUTIONARY ANATOMY - SC CEVAN

This certificate will provide students with detailed knowledge of skeletal and dental anatomy in humans and related taxa from diverse perspectives, as well as a solid understanding of the evolutionary processes that led to that anatomy.

Admission Requirements

Successful completion of an undergraduate degree with a CGPA of 3.0 with a Specialist or Major in any Science discipline is required to enrol in the certificate program.

Students who have previously completed courses identified as requirements or options in the Certificate can substitute up to 1.0 credit in previously completed courses for the Certificate requirements. Students are not eligible for admission to the Certificate if they have already completed more than 2.0 credits of the included courses (or their equivalents from other universities).

Certificate Requirements

Students must complete 3.0 credits as follows:

1. Core required courses (1.5 credits):

ANTB14H3* Evolutionary Anthropology

ANTC47H3 Human Skeletal Anatomy and Biology

ANTC48H3 Advanced Topics In Human Osteology

2. Advanced courses (1.5 credits):

Choose 3 from:

ANTC16H3 Human Innovations

ANTC17H3** Human Origins: New Discoveries

ANTC99H3 Primate Evolution

ANTD17H3 Medical Osteology: Public Health Perspectives on Human Skeletal Health

ANTD35H3 Bioarchaeology

ANTD99H3 Advanced Topics in Primate Evolution

Notes:

*ANTA01H3 is a prerequisite for ANTB14H3.

**[ANTA01H3 and ANTA02H3] are prerequisites for ANTC17H3.

Students seeking to complete the certificate who have not completed [ANTA01H3](#) and [ANTA02H3](#) will be assessed for admission to [ANTB14H3](#) and/or [ANTC17H3](#) based on their background. In particular, students whose undergraduate degree included Biology courses will normally be permitted to take [ANTB14H3](#) and [ANTC17H3](#) without the prerequisite(s).

Anthropology Courses

ANTA01H3 - Introduction to Anthropology: Becoming Human

An introduction to Biological Anthropology and Archaeology. Concentrates on the origins and evolution of human life, including both biological and archaeological aspects, from the ancient past to the present. Science credit

Exclusion: ANT100Y, ANT101H
Breadth Requirements: Natural Sciences

ANTA02H3 - Introduction to Anthropology: Society, Culture and Language

How does an anthropological perspective enable us to understand cultural difference in an interconnected world? In this course, students will learn about the key concepts of culture, society, and language. Drawing upon illustrations of family, economic, political, and religious systems from a variety of the world's cultures, this course will introduce students to the anthropological approach to studying and understanding human ways of life.

Exclusion: ANT100Y, ANT102H
Breadth Requirements: Social and Behavioural Sciences

ANTB01H3 - Political Ecology

This course examines human-environmental relations from an anthropological perspective. Throughout the semester, we explore how peoples from different parts of the globe situate themselves within culturally constructed landscapes. Topics covered include ethnoecology, conservation, green consumerism, the concept of 'wilderness', and what happens when competing and differentially empowered views of the non-human world collide.

Recommended Preparation: [ANTA02H3](#)
Breadth Requirements: Social and Behavioural Sciences

ANTB02H3 - The Body in Culture and Society

An ethnographic inquiry into the culturally configured human body as a reservoir of experiential knowledge, focus of symbolism, and site of social, moral, and political control.

Prerequisite: [ANTA02H3](#) or [any 2.0 credits in ANT, HLT, IDS, CIT, GGR, POL, SOC, ENG or HCS courses]
Exclusion: (ANTD01H3)
Breadth Requirements: Social and Behavioural Sciences

ANTB05H3 - Culture and Society in Africa

An overview of the range and diversity of African social institutions, religious beliefs and ritual, kinship, political and economic organization, pre-colonial, colonial and post-colonial experience.

Same as [AFSB05H3](#)
Area course

Exclusion: [AFSB05H3](#)
Breadth Requirements: Social and Behavioural Sciences

ANTB09H3 - Culture through Film and Media

How is culture represented through visual media, from ethnographic and documentary film, to feature films, television, and new media? How do various communities re-vision themselves through mass, independent, or new media? This course investigates media and its role in the contemporary world from a socio-cultural anthropological perspective.

Recommended Preparation: [ANTA02H3](#)
Breadth Requirements: Social and Behavioural Sciences

ANTB11H3 - World Prehistory

This introduction to archaeology focuses on how societies around the world have changed through time from the earliest humans to the emergence of state-level societies. This course uses a global perspective to address key issues such as evidence of the earliest art, development

of agriculture, and the origins of social inequality and warfare.

Breadth Requirements: Social and Behavioural Sciences

ANTB12H3 - Anthropology of Science Fiction

This course is about science fiction as a form of cultural and political critique. The course will explore themes that are central to both ethnography and science fiction, including topics such as colonialism, gender, and the climate crisis, while reflecting on the power of writing and myth-making to produce meaning and the future.

Breadth Requirements: Social and Behavioural Sciences

ANTB14H3 - Evolutionary Anthropology

This course explores the synthetic theory of evolution, its principles, processes, evidence and application as it relates to the evolution of human and nonhuman primates. Lecture topics and laboratory projects include: evolutionary theory, human variation, human adaptability, primate biology, and behaviour, taxonomy and classification, paleontological principles and human origins and evolution.

Science credit

Prerequisite: [ANTA01H3](#)

Exclusion: ANT203Y

Breadth Requirements: Natural Sciences

ANTB15H3 - Human Biological Variation and Evolution

This course will explore biological variation in the genus *Homo* from evolutionary and anthropological perspectives. Topics such as human adaptability, genetic variation and evolution, the non-existence of biological race, and the ecogeographic patterning of human phenotypic variation will be covered.

Science credit

Same as [HLTB20H3](#)

Prerequisite: [ANTA01H3](#) or [[HLTA02H3](#) and [HLTA03H3](#)]

Exclusion: ANT203Y, [HLTB20H3](#)

Breadth Requirements: Natural Sciences

ANTB16H3 - Canadian Cultural Identities

This course explores the creation or invention of a Canadian national identity in literature, myth and symbolism, mass media, and political culture.

Ethnographic accounts that consider First Nations, regional, and immigrant identities are used to complicate the dominant story of national unity.

Area course

Breadth Requirements: Social and Behavioural Sciences

ANTB18H3 - Development, Inequality and Social Change in Latin America

This course addresses Latin American systems of inequality in relation to national and transnational political economy, from colonialism to neoliberalism; how ideas of race, culture, and nation intersect with development thinking and modernization agendas; and how the poor and marginalized have accommodated, resisted, and transformed cultural and political domination.

Area course

Exclusion: (ANTC08H3)

Breadth Requirements: Social and Behavioural Sciences

ANTB19H3 - Ethnography and the Comparative Study of Human Societies

This course introduces students to the theory and practice of ethnography, the intensive study of people's lives as shaped by social relations, cultural beliefs, and historical forces. Various topics, including religion, economics, politics, and kinship introduce students to key anthropological concepts and theoretical developments in the field.

Prerequisite: [ANTA02H3](#) or [any 2.0 credits in ANT, HLT, IDS, CIT, GGR, POL, SOC or HCS courses]

Exclusion: ANT204Y, ANT207H1

Breadth Requirements: Social and Behavioural Sciences

ANTB20H3 - Ethnography and the Global Contemporary

How has the global flow of goods, persons, technologies, and capital reproduced forms of inequality? Using ethnography and other media, students examine globalization through topics like migration, race and citizenship, environmental degradation, and increasing violence while also discussing older anthropological concerns (e.g., kinship, religious practices, and authority). This course enhances students' understanding of ethnography, as a method for studying how actors engage and rework the global forces shaping their lives.

Prerequisite: [ANTA02H3](#) or [any 2.0 credits in ANT, HLT, IDS, CIT, GGR, POL, SOC or HCS courses]

Exclusion: ANT204Y, ANT204H

Breadth Requirements: Social and Behavioural Sciences

ANTB22H3 - Primate Behaviour

This course will provide students with a general introduction to the behaviour and ecology of non-human primates (prosimians, Old and New World monkeys, and apes), with a particular emphasis on social behaviour. The course will consist of lectures reinforced by course readings; topics covered will include dominance, affiliation, social and mating systems, communication, and reproduction.
Science credit

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

ANTB26H3 - The Middle East and North Africa: Past and Present

What makes the Middle East and North Africa unique as a world region? This course considers the enduring impact of the past colonial encounter with the North Atlantic, as well as religious movements, nationalist histories, the impact of new communication technologies, and regional conflicts. Examples are drawn from a variety of contexts.

Exclusion: (ANTC89H3)

Breadth Requirements: Social and Behavioural Sciences

ANTB33H3 - The Future of Work

This course explores a pressing issue facing contemporary life: "the future of work." It examines how work has been and continues to be transformed by automation, digital technologies, climate change, pandemics, the retrenchment of the welfare state, deindustrialization, global supply chains, and imperial and colonial rule. All kinds of media (e.g., academic texts, corporate publications, policy reports, activist literature, cinema) will be utilized to demonstrate how these transformations are not limited to work or labour but reverberate across social, political, and economic life.

Recommended Preparation: ANTA02H3

Breadth Requirements: Social and Behavioural Sciences

ANTB35H3 - Kids These Days: Youth, Language and Media

Around the world, youth is understood as the liminal phase in our lives. This course examines how language and new media technologies mark the lives of youth today. We consider social media, smartphones, images, romance, youth activism and the question of technological

determinism. Examples are drawn from a variety of contexts.

Same as (MDSB09H3)/MDSB28H3

Prerequisite: ANTA02H3 or [MDSA10H3 or (MDSA01H3)] or [any 2.0 credits in ANT, HLT, IDS, CIT, GGR, POL, SOC or HCS courses]

Exclusion: (MDSB09H3)/MDSB28H3

Breadth Requirements: Arts, Literature and Language

ANTB36H3 - Anthropology of the End of the World

A cultural and comparative study of apocalyptic thought, practice, and representation around the world. It explores the conditions that inspire end times thinking and the uses it serves. Cases may include: millenarian movements, Revelation, colonialism, epidemics, infertility, deindustrialization, dystopian science fiction, nuclear war, climate change, and zombies.

Prerequisite: ANTA02H3 or [any 2.0 credits in ANT, HLT, IDS, CIT, GGR, POL, SOC or HCS courses]

Breadth Requirements: Social and Behavioural Sciences

ANTB42H3 - Culture and Society in Contemporary South Asia

This course surveys central issues in the ethnographic study of contemporary South Asia (Afghanistan, Bangladesh, Bhutan, India, the Maldives, Nepal, Pakistan and Sri Lanka). Students will engage with classical and recent ethnographies to critically examine key thematic fault lines within national imaginations, especially along the lines of religion, caste, gender, ethnicity, and language. Not only does the course demonstrate how these fault lines continually shape the nature of nationalism, state institutions, development, social movements, violence, and militarism across the colonial and post-colonial periods but also, demonstrates how anthropological knowledge and ethnography provide us with a critical lens for exploring the most pressing issues facing South Asia in the world today.

Same as GASB42H3

Prerequisite: ANTA02H3 or [any 4.0 credits in ANT, HLT, IDS, CIT, GGR, POL, SOC, GAS, HCS or Africa and Asia Area HIS courses]

Exclusion: (ANTC12H3), GASB42H3, (GASC12H3)

Breadth Requirements: Social and Behavioural Sciences

ANTB64H3 - Are You What You Eat?: The Anthropology of Food

This course examines the social significance of food and foodways from the perspective of cultural anthropology.

We explore how the global production, distribution, and consumption of food, shapes or reveals, social identities, political processes, and cultural relations. Lectures are supplemented by hands-on tutorials in the Culinaria Kitchen Laboratory.

Prerequisite: ANTA02H3 or any 2.0 credits

Exclusion: (ANTC64H3), ANT346H1

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

ANTB65H3 - An Introduction to Pacific Island Societies

The ethnography of Pacific Island societies has been central to the development of the discipline of anthropology, particularly in the study of exchange systems, ritual, and gender. This course examines the unique contributions that Pacific scholarship has made to the development of anthropological theory in these areas. As well, the course focuses on Pacific Islander perspectives on contemporary issues such as: cultural change and continuity in the face of globalization; identity and representation; rapid urbanization; place-making and indigeneity; and climate change and the environment. Area course

Exclusion: (ANTC65H3)

Breadth Requirements: Social and Behavioural Sciences

ANTB66H3 - Spiritual Paths: A Comparative Anthropology of Pilgrimage

A comparison of pilgrimage in different religious traditions, including Christian, Buddhist, Muslim, Hindu and those of indigenous communities (such as the Huichol of Mexico) will introduce students to the anthropology of religion. We will consider the aspirations and experiences of various pilgrims, while being mindful of cultural similarities and differences.

Exclusion: RLG215H

Recommended Preparation: ANTA02H3

Breadth Requirements: Social and Behavioural Sciences

ANTB80H3 - Introduction to Archaeology: Methods, Theories, and Practices

This course introduces students to the methods, theories, and practices used in Archaeology. Building on the course material presented in ANTA01H3, there will be a focus on important themes in Archaeology as a subfield of Anthropology, including: artefact analysis, dating methods, theories of the origins of social development/complexity,

and careers in archaeology today. This course will include lectures and complimentary readings that will expose students to the important ideas within the field. There will also be an experiential component in the form of four hands-on workshops where students will get to interact with artefacts and gain experience using some of the methods discussed in class. There will be an extra workshop for students to get help with their essay outline.

Prerequisite: ANTA01H3

Exclusion: ANT200Y1, ANT200Y5, ANT200H5

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

ANTC03H3 - Directed Reading in Anthropology

A directed exploration of specific topics in Anthropology, based on extensive investigation of the literature. These courses are available in exceptional circumstances and do not duplicate regular course offerings. Students are advised that they must obtain consent from the supervising instructor before registering. Individual tutorials, as arranged. A minimum B plus average is normally required to be considered for these courses. May be science credit or area course depending on topic.

Prerequisite: Permission of the instructor and ANTA01H3 and ANTA02H3 and [one B-level full credit in Anthropology in the appropriate sub-field (biological or cultural)].

ANTC04H3 - Directed Reading in Anthropology

A directed exploration of specific topics in Anthropology, based on extensive investigation of the literature. These courses are available in exceptional circumstances and do not duplicate regular course offerings. Students are advised that they must obtain consent from the supervising instructor before registering. Individual tutorials, as arranged. A minimum B plus average is normally required to be considered for these courses. May be science credit or area course depending on topic.

Prerequisite: Permission of the instructor and ANTA01H3 and ANTA02H3 and [one B-level full credit in Anthropology in the appropriate sub-field (biological or cultural)].

ANTC07H3 - Material Worlds

This course explores the intersection of the social and the material by examining the role of objects in making worlds. We examine the relationship between people, culture, and 'things' through topics such as commodification and consumption, collecting and representation, technology and innovation, art and artifact, and the social life of things.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [1.5 credits in ANT]

Breadth Requirements: Social and Behavioural Sciences

ANTC09H3 - Sex, Love, and Intimacy: Anthropological Approaches to Kinship and Marriage

This course explores Anthropological approaches to kinship and family arrangements. In addition to examining the range of forms that family arrangements can take cross-culturally, we also examine how kinship configurations have changed within our own society in recent years. Topics to be covered include trans-national adoption, "mail-order-brides", new reproductive technologies and internet dating.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [1.5 credits in ANT]

Breadth Requirements: Social and Behavioural Sciences

ANTC10H3 - Anthropological Perspectives on Development

A critical probe of the origins, concepts, and practices of regional and international development in cultural perspective. Attention is paid to how forces of global capitalism intersect with local systems of knowledge and practice.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC14H3 - Feminism and Anthropology

Examines why, when, and how gender inequality became an anthropological concern by tracing the development of feminist thought in a comparative ethnographic framework.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC15H3 - Genders and Sexualities

Explores cultural constructions of male and female in a range of societies and institutions. Also examines non-binary gender configurations.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC16H3 - Human Innovations

In this course, students examine theoretical and methodological approaches to understanding significant concepts and events in the evolution of modern humans and our recent fossil ancestors. The goal of this course is to provide students with a current and detailed understanding of the evolutionary events that ultimately led to the biological, behavioural, and cultural evolution of modern humans.

Science credit

Prerequisite: [ANTA01H3](#)

Exclusion: (ANT332Y)

Breadth Requirements: Natural Sciences

ANTC17H3 - Human Origins: New Discoveries

In this course, students explore how new discoveries in human origins research influence our current understandings of hominin evolution over the past 7 million years. In this lab-based course, students develop their practical skills in identifying, describing, and interpreting primate skeletal and dental anatomy as a foundation for understanding the hominin fossil record. Next, students evaluate and interpret new research on the biology, diversity, dispersals, and evolutionary relationships of fossil hominins. We examine how new research is progressing the field of paleoanthropology and attempting to clarify the origins of modern human biology and behaviour.

Science credit

Prerequisite: [ANTA01H3](#)

Exclusion: (ANT332Y)

Breadth Requirements: Natural Sciences

ANTC18H3 - Urban Worlds

The planet today is more urbanized than at any other moment in its history. What are the tools we need to examine urbanization in this contemporary moment? This course explores how urbanization has altered everyday life for individuals and communities across the globe. Students will trace urbanization as transformative of environmental conditions, economic activities, social relations, and political life. Students will thus engage with work on urbanization to examine how urban spaces and environments come to be differentiated along the lines of race, class, and gender. Not only does this course demonstrate how such fault lines play themselves out across contexts, but also provides the critical lenses

necessary to tackle the most pressing issues related to urbanization today.

Prerequisite: [\[ANTB19H3\]](#) and [\[ANTB20H3\]](#) or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC19H3 - Producing People and Things: Economics and Social Life

This course examines economic arrangements from an anthropological perspective. A key insight to be examined concerns the idea that by engaging in specific acts of production, people produce themselves as particular kinds of human beings. Topics covered include gifts and commodities, consumption, global capitalism and the importance of objects as cultural mediators in colonial and post-colonial encounters.

Prerequisite: [\[ANTB19H3\]](#) and [\[ANTB20H3\]](#) or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC20H3 - Gifts, Money and Morality

What limits exist or can be set to commoditized relations? To what extent can money be transformed into virtue, private goods into the public "Good"? We examine the anthropological literature on gift-giving, systems of exchange and value, and sacrifice. Students may conduct a short ethnographic project on money in our own society, an object at once obvious and mysterious.

Prerequisite: [\[ANTB19H3\]](#) and [\[ANTB20H3\]](#) or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC21H3 - Locked Up: Anthropology of Imprisonment and Abolition

Do we need prisons? Do all societies have them? Are there different forms of incarceration around the world? What are the alternatives? This course situates the current expansion of punitive imprisonment in an examination of the diverse ways societies around the world and through time have sought to address the breach of law and sanction intolerable behaviour. It assesses how the growth of prisons intersects with capitalism, racial terror, and social inequality. Its anthropological approach brings the experiences of incarcerated people and communities to the fore and engages local community responses from prison abolition groups.

Prerequisite: [\[ANTB19H3\]](#) and [\[ANTB20H3\]](#) or any 4.0 credits

Recommended Preparation: [\[ANTA02H3\]](#)

Breadth Requirements: Social and Behavioural Sciences

ANTC22H3 - Education, Power, and Potential: Anthropological Perspectives and Ethnographic Insights

What does it mean to get an education? What are the consequences of getting (or not getting) a "good education"? For whom? Who decides? Why does it matter? How are different kinds of education oriented toward different visions of the future? What might we learn about a particular cultural context if we explore education and learning as social processes and cultural products linked to specific cultural values, beliefs, and power dynamics? These are just some of the questions we will explore in this course. Overall, students will gain a familiarity with the anthropology of education through an exploration of ethnographic case studies from a variety of historical and cultural contexts.

Prerequisite: [\[ANTB19H3\]](#) and [\[ANTB20H3\]](#) or [any 4.0 credits]

Exclusion: [\[ANTC88H3\]](#) if taken in Fall 2021

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in any of the following Combined Degree Programs: Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

ANTC24H3 - Culture, Mental Illness, and Psychiatry

Does schizophrenia exist all over the world? Does depression look different in China than it does in Canada? By examining how local understandings of mental illness come into contact with Western psychiatric models, this course considers the role of culture in the experience, expression, definition, and treatment of mental illness and questions the universality of Western psychiatric categories.

Prerequisite: [\[ANTB19H3\]](#) and [\[ANTB20H3\]](#) or [any 4.0 credits]

Recommended Preparation: [\[ANTC61H3\]](#)

Breadth Requirements: Social and Behavioural Sciences

ANTC25H3 - Anthropology and Psychology

How are we to understand the relationship between psychological universals and diverse cultural and social forms in the constitution of human experience?

Anthropology's dialogue with Freud; cultural construction and expression of emotions, personhood, and self.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC27H3 - Primate Sociality

Primates are an intensely social order of animals showing wide variation in group size, organization and structure. Using an evolutionary perspective, this course will focus on why primates form groups and how their relationships with different individuals are maintained, with reference to other orders of animals. In particular, this course examines how different forms of cooperation evolve when natural selection is often thought to maintain only selfish behaviours. The form and function of different social systems, mating systems, and behaviours will be examined.

Prerequisite: [ANTB22H3](#)

Breadth Requirements: Natural Sciences

ANTC28H3 - Living through the Anthropocene

We are living through the Anthropocene, a time in which humans have broadly transformed Earth's composition and environmental processes. Did this period begin in 1950? Applying Indigenous and archaeological knowledges, we will contribute to debates concerning the deeper histories of a multi-sited, patchy Anthropocene. Past societies have lived through their own "Anthropocenes", and their diverse stories are needed to shape contemporary environmental conservation initiatives. Critical plot points come from Indigenous Knowledge, archaeological materials, and paleoenvironmental evidence recorded in sediment cores. We will learn to integrate these lines of evidence through investigations of Indigenous environmental stewardship and lake sediment cores in Ontario.

Prerequisite: [ANTA01H3](#), or [ANTB80H3](#), or [EESA01H3](#)

Recommended Preparation: Physical Geography, or Earth Sciences, or Environmental Sciences at Secondary or Post-Secondary level are beneficial but not required.

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

ANTC29H3 - Archaeologies of North America

This course engages with the diverse histories of First Nations societies in North America, from time immemorial, through over 14 thousand years of archaeology, to the period approaching European arrivals. We tack across the Arctic, Plains, Northwest Coast, Woodlands, and East Coast to chart the major cultural periods and societal

advancements told by First Nations histories and the archaeological record. Along with foundational discussions of ancestral peoples, societal development, and human paleoecology, we also engage with core topical debates in North American archaeology, such as the ethics of ancient DNA, peopling processes, environmental change, response, and conservation, inequalities, decolonization, and progress in Indigenous archaeologies.

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

ANTC30H3 - Themes in Global Archaeology

Intensive survey of a particular world region or current theme in archaeological research. Topic will change year to year.

Prerequisite: [ANTA01H3](#)

Recommended Preparation: [ANTB11H3](#)

Breadth Requirements: Social and Behavioural Sciences

ANTC31H3 - Ritual and Religious Action

The nature and logic of ritual. Religious practices and projects; the interface of religion, power, morality, and history in the contemporary world.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#)

Breadth Requirements: Social and Behavioural Sciences

ANTC32H3 - Political Anthropology

Can ethnographic research help us make sense of various political situations and conflicts around the world? In this course we will review different approaches to power and politics in classical and current anthropology. We will consider notions of the state, political agency and power, civil society, authoritarianism and democracy.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC33H3 - Of Gods and Humans: Anthropological Approaches to Religion

Anthropological approaches to the origin and function of religion, and the nature of symbolism, myth, ritual, sorcery, spirit possession, and cosmology, with primary reference to the religious worlds of small-scale societies.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [any 4.0 credits]

Exclusion: (ANTB30H3)

Breadth Requirements: Social and Behavioural Sciences

ANTC34H3 - The Anthropology of Transnationalism

This course considers dimensions of transnationalism as a mode of human sociality and site for cultural production. Topics covered include transnational labour migration and labour circuits, return migration, the transnational dissemination of electronic imagery, the emergence of transnational consumer publics, and the transnational movements of refugees, kinship networks, informal traders and religions.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC42H3 - Human Growth and Development

This course examines variability in biological growth and development in the genus *Homo* from both evolutionary and non-evolutionary perspectives. Emphasis is placed on exploring the adaptive and cultural contributors to variability in human growth patterns. Case studies from the Evolutionary Anthropology, Bioarchaeology, and Human Biology literature are used.

Science credit

Breadth Requirements: Natural Sciences

ANTC44H3 - Amazonian Anthropology

This seminar explores anthropological insights and historical/archeological debates emerging from Amazonia, a hotspot of social and biodiversity currently under grave threat. We will look at current trends in the region, the cultural logic behind deforestation and land-grabbing, and the cultural and intellectual production of indigenous, ribeirinho, and quilombola inhabitants of the region.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC47H3 - Human Skeletal Anatomy and Biology

A "hands-on" laboratory course which introduces students to human skeletal anatomy and biology. The course will

cover the gross anatomy of the skeleton and dentition, as well as basic histology and the composition and microstructure of bone and teeth.

Science credit

Prerequisite: [ANTA01H3](#) or [BIOB33H3](#) or [HLTB33H3](#) or [PMDB33H3](#)

Exclusion: ANT334H, ANT334Y

Breadth Requirements: Natural Sciences

ANTC48H3 - Advanced Topics In Human Osteology

A "hands-on" laboratory course which introduces students to the methods of analyzing human skeletal remains. Topics and analytic methods include: (1) the recovery and treatment of skeletal remains from archaeological sites; (2) odontological description, including dental pathology; (3) osteometric description; (4) nonmetric trait description; (5) methods of estimating age at death and sex; (6) quantitative analysis of metric and nonmetric data; and (7) paleopathology.

Science credit

Prerequisite: [ANTC47H3](#)

Exclusion: ANT334H, ANT334Y

Breadth Requirements: Natural Sciences

ANTC49H3 - From Animal to Human Cognition: Senses, Sentience and Smarts

This course will survey and assess the evolution of different animal sensory systems and their ecological underpinnings. The concept of sentience, and the question of when an animal can be said to be sentient, will be critically examined. The cognitive abilities of our extant primate relatives and other animals will be discussed to examine how human cognition is, or is not, unique. The evolutionary forces that may have selected for human cognitive abilities will be considered.

Recommended Preparation: [ANTB22H3](#)

Breadth Requirements: Natural Sciences

ANTC52H3 - Global Politics of Language

Language and ways of speaking are foundational to political cultures. This course covers the politics of language in the age of globalization, including multiculturalism and immigration, citizenship, race and ethnicity, post-colonialism, and indigeneity. Ethnographic examples are drawn from a variety of contexts, including Canadian official bilingualism and First Nations.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [any 4.0 credits]

Breadth Requirements: Arts, Literature and Language

ANTC53H3 - Journalism Around the World

How does journalism engage and feed into broader public debates? And how does journalism from around the world impact such debates differently? This course considers the topic of journalism and public sphere theory, and discusses the relationship between the press and politics, government, and democracy. The course takes a comparative lens to journalism, and will also draw on ethnographic readings and approaches.

Same as [MDSC36H3](#)/(MDSC53H3)

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [any 4.0 credits] or [2.0 credits at the B level in MDS courses] or [2.0 credits at the B level in JOU courses] or [4.5 credits from the Major (Joint) program in New Media Studies Group I and Group II courses]

Exclusion: [MDSC36H3](#)/(MDSC53H3)

Breadth Requirements: Social and Behavioural Sciences

ANTC55H3 - People and the Environment: Approaches to a More-than-Human World

This course introduces students to anthropological perspectives on what is usually referred to as the environment. We will explore ethnographic descriptions of different ways that humans and non-humans live together. Topics include: how do hunting-based collectives see their relation to animals and the forest? What is environmental racism and what does it reveal about race and segregation? What is the relation between Indigeneity and conservation? What is the relation between the human mind and ecology?

Prerequisite: [ANTA02H3](#) or 1.0 credit of courses in social sciences and humanities

Recommended Preparation: [ANTA02H3](#), [ANTB19H3](#), [ANTB20H3](#) and [ANTB01H3](#)

Breadth Requirements: Social and Behavioural Sciences

ANTC58H3 - Constructing the Other: Orientalism through Time and Place

This course reflects on the concept of *Orientalism* and how it informs the fields of Classical Studies and Anthropology. Topics to be discussed include the Orientalization of the past and the origin, role, and significance of ancient representations of the "Other" in contemporary discourses.

Same as [CLAC68H3](#) and [HISC68H3](#)

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in ANT, HIS or CLA courses.

Exclusion: [CLAC68H3](#), [HISC68H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

ANTC59H3 - Anthropology of Language and Media

Anthropology studies language and media in ways that show the impact of cultural context. This course introduces this approach and also considers the role of language and media with respect to intersecting themes: ritual, religion, gender, race/ethnicity, power, nationalism, and globalization. Class assignments deal with lectures, readings, and students' examples.

Same as [MDSC21H3](#)

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or any 2.0 credits in MDS

Exclusion: (ANTB21H3), (MDSB02H3), [MDSC21H3](#)

Breadth Requirements: Arts, Literature and Language

ANTC61H3 - Medical Anthropology: Illness and Healing in Cultural Perspective

Social and symbolic aspects of the body, the life-cycle, the representation and popular explanation of illness, the logic of traditional healing systems, the culture of North American illness and biomedicine, mental illness, social roots of disease, innovations in health care delivery systems.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC62H3 - Medical Anthropology: Biological and Population Perspectives

This course examines health and disease in the genus *Homo* from biological and population perspectives. Emphasis is placed on exploring the variability of populations in disease susceptibility, resistance, and outcomes. In addition, this course will introduce students to the basic concepts, principles and methods of medical anthropology and epidemiology.

Science credit

Breadth Requirements: Natural Sciences

ANTC65H3 - Anthropology of Science, Medicine, and Technology

This course is an enquiry into the social construction of science and scientific expertise, with a particular focus on

medicine and health. The interdisciplinary field of Science and Technology Studies (STS) opens up a very different perspective from what gets taught in biology classes about how medical knowledge is created, disseminated, becomes authoritative (or not), and is taken up by different groups of people. In our current era of increasing anti-science attitudes and “alternative facts,” this course will offer students an important new awareness of the politics of knowledge production.

Prerequisite: [ANTB19H3 and ANTB20H3] or [any 4.0 credits]

Exclusion: Students who enrolled in ANTC69H3 in Fall 2023 may not take this course for credit.

Breadth Requirements: Social and Behavioural Sciences

ANTC66H3 - Anthropology of Tourism

This course explores the global cultural phenomenon of tourism. Using case studies and historical perspectives, we investigate the complex motivations and consequences of travel, the dimensions of tourism as development, the ways tourism commodifies daily life, the politics of tourism representation, and the intersection of travel, authenticity and modernity.

Prerequisite: [ANTB19H3 and ANTB20H3] or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

ANTC67H3 - Foundations in Epidemiology

Epidemiology is the study of disease and its determinants in populations. It is grounded in the biomedical paradigm, statistical reasoning, and that risk is context specific. This course will examine such issues as: methods of sampling, types of controls, analysis of data, and the investigation of epidemics.

Science credit

Recommended Preparation: Any statistics course

Breadth Requirements: Quantitative Reasoning

ANTC68H3 - Deconstructing Epidemics

Colonization, globalization and socio-ecological factors play an important role in origin, maintenance and emergence of old and new infectious diseases in human populations such as yellow fever, cholera, influenza, SARS. Issues of co-morbidity, the epidemiological transition, syndemics and the impact of global warming on the emergence of new diseases are discussed.

Science credit

Recommended Preparation: Any statistics course

Breadth Requirements: Natural Sciences

ANTC69H3 - Ideas That Matter: Key Themes and Thinkers in Anthropology

This course explores key themes, theories, and thinkers that have shaped anthropological thought, past and present. In any given year we will focus on the work of a particular important thinker or a school of thought. As we examine trends and approaches that have been influential to the field, we consider the debates these have generated, the ethnographic innovations they have inspired, and their relevance for core debates in anthropology. Topics and readings will be chosen annually by the instructor.

Prerequisite: [ANTB19H3 and ANTB20H3] or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the specialist program in Anthropology. Additional students will be admitted as space permits.

ANTC70H3 - Ethnographic Methods in Anthropology: Past, Present, and Future

This course is an exploration of the ongoing significance of the ethnographic method to the practice of research in socio-cultural anthropology. How and why have ethnographic methods become so central to anthropology, and what can we continue to learn with them? Students complement readings and lectures on theories and practices of ethnographic methods, both historical and contemporary, with exercises and assignments designed to provide first-hand experience in carrying out various techniques of ethnographic research. We also consider the unique ethical challenges of ethnographic methods and what it means to conduct ethically sound research.

Prerequisite: ANTB19H3 and ANTB20H3 and [at least 0.5 credit at the C-level in socio-cultural anthropology courses].

Exclusion: (ANTC60H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist in Anthropology, followed by students in the Major in Anthropology, followed by students in the Specialist programs in International Development Studies.

ANTC71H3 - Climate, Palaeoecology, and Policy: Archaeology of Humans in the Environment

This course examines the evolution of human-environment systems over deep time as well as the present implications of these relationships. We will examine the archaeological methods used in

reconstructing human palaeoecology and engage with evolutionary and ecological theory as it has been applied to the archaeological record in order to understand how humans have altered ecosystems and adapted to changing climates through time and space. Building upon the perspective of humans as a long-term part of ecological systems, each student will choose a current environmental policy issue and progressively build a proposal for a remediation strategy or research program to address gaps in knowledge.

Prerequisite: [0.5 credit from the following: [ANTA01H3](#), [ANTB80H3](#), [EESA01H3](#) or [BIOB50H3](#)] and [1.0 credit of additional B- or C- level courses in ANT, BIO, or EES]

Recommended Preparation: A knowledge of evolutionary anthropology, archaeology, or relevant courses in ecology.

Breadth Requirements: Natural Sciences

ANTC80H3 - Race and Racism: Anthropological Insights

This course explores ideas of race and racist practice, both past and present. Socio-cultural perspectives on race and racism must address a central contradiction: although biological evidence suggests that racial categories are not scientifically valid, race and racism are real social phenomena with real consequences. In order to address this contradiction, the course will examine the myriad ways that race is produced and reproduced, as well as how racism is perpetuated and sustained.

Prerequisite: [[ANTB19H3](#) and [ANTB20H3](#)] or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC88H3 - Special Topics

The topics presented in this course will represent a range of contemporary issues in Anthropology. Topics will vary by instructor and term.

Prerequisite: [[ANTB19H3](#) and [ANTB20H3](#)] or [any 4.0 credits]

Breadth Requirements: Social and Behavioural Sciences

ANTC90H3 - Cultural Heritage in Action

This course will introduce students to field-based methods used in archaeological fieldwork. This includes all stages of work from archival research to collection, cleaning, and report writing. The focus is on understanding the process of archaeological field research and developing an understanding of archaeological sites in cultural, environmental, and community contexts, not simply locations for artifact retrieval. The course will include training in field safety, archival research, ground survey,

remote sensing, geological coring, excavation, and preliminary interpretation of archaeological data.

Prerequisite: [ANTA01H3](#), [ANTB80H3](#) and 1.0 credit of additional C-level courses in any field

Recommended Preparation: [[ANTA01H3](#)] and [[ANTB80H3](#) or [ANTB11H3](#)]

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

ANTC99H3 - Primate Evolution

This course examines 65 million years of evolutionary history for non-human primates. The primary emphasis will be on the fossil record. Topics covered may include the reconstruction of behaviour from fossil remains, the evolution of modern primate groups, and the origins of the Order.

Prerequisite: [ANTA01H3](#) or [BIOB33H3](#) or [HLTB33H3](#) or [PMDB33H3](#)

Breadth Requirements: Natural Sciences

ANTD04H3 - The Anthropology of Violence and Suffering

This course examines the social life of violence, its cultural production and political effects in a global perspective. It asks how social worlds are made and unmade through, against, and after violent events, how violence is remembered and narrated, and how ethnography might respond to experiences of suffering, trauma, and victimhood.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) and [at least 0.5 credit at the C-level in Socio-Cultural Anthropology].

Breadth Requirements: Social and Behavioural Sciences

ANTD05H3 - Advanced Fieldwork Methods in Social and Cultural Anthropology

This course provides students with experience in carrying out ethnographic research in the Greater Toronto Area. Working with the Center for Ethnography, students define and execute individual research projects of their own design. The course provides students with the opportunity to present and discuss their unfolding research, as well as to present the findings of their research. This course is completed over two terms, and culminates in an original research paper.

Prerequisite: [[ANTB19H3](#) and [ANTB20H3](#) and [([ANTC60H3](#)) or [ANTC70H3](#)]] and [an additional 1.0 credit at the C-level in socio-cultural anthropology] and [a cumulative GPA of 2.7, or permission of the instructor].

Exclusion: (ANTD05Y3)

Breadth Requirements: Social and Behavioural

Sciences

Course Experience: University-Based Experience

Note: Preference will be given to Specialists and Majors in Anthropology, in that order.

ANTD06H3 - Reading Ethnography

This course considers the reading and writing of ethnography - the classic genre of socio-cultural anthropology. We examine what differentiates ethnography from other forms of research and how to distinguish ethnographic works of high quality. Also considered are the politics of representation, including how ethnographic writing may reflect unequal relationships of power.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) and [at least 1.0 credit at the C-level in Socio-Cultural Anthropology].

Breadth Requirements: Social and Behavioural Sciences

ANTD07H3 - Advanced Regional Seminar

This course allows students to examine particular culture areas at an advanced level. Regions to be covered may include South Asia, East Asia, the Muslim World, Latin America, The Pacific, Europe, Africa, or North America. Specific case studies from the region will be used to highlight theoretical and ethnographic issues.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) and [at least 0.5 credit at the C-level in Socio-Cultural Anthropology]

Breadth Requirements: Social and Behavioural Sciences

ANTD10H3 - The Anthropology of 'Life' Itself

This course will examine cultural understandings of 'life' – What is life? What is a life? How do humans value (or alternatively not value) life in different social and cultural settings? What constitutes a 'good life'? To what degree are cultural understandings of 'life' entangled with those of 'death'.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) and [at least 0.5 credit at the C-level in Socio-Cultural Anthropology]

Exclusion: (ANTC11H3)

Breadth Requirements: Social and Behavioural Sciences

ANTD13H3 - Frontiers of Anthropology: A Biological Perspective

An advanced seminar course primarily for majors and specialists in biological anthropology. Topic to be announced annually.

Prerequisite: [ANTA01H3](#)

Breadth Requirements: Social and Behavioural Sciences

ANTD15H3 - Frontiers of Socio-Cultural Anthropology

An advanced seminar course primarily for specialists and majors in Anthropology. Topic changes annually and is linked to the theme of our seminar series for the year. Students will attend talks by 2-3 guest speakers in addition to the regular seminar. In previous years, the theme has been Masculinities, Pilgrimage, History and Historicities.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) and [at least 0.5 credit at the C-level in Socio-Cultural Anthropology]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

ANTD16H3 - Biomedical Anthropology

This course is designed for advanced students seeking an intensive examination of specific problems in medical Anthropology.

Science credit

Prerequisite: [ANTC42H3](#) or [ANTC62H3](#) or [ANTC68H3](#) or [HLTA02H3](#)

Breadth Requirements: Natural Sciences

ANTD17H3 - Medical Osteology: Public Health Perspectives on Human Skeletal Health

This seminar course will examine the clinical, epidemiological and public health literature on osteoporosis and other conditions impacting skeletal health. The course will also explore the potential economic impacts of osteoporosis on Canada's health care system given emerging demographic changes.

Science credit

Prerequisite: [ANTC47H3](#) or [BIOB33H3](#) or [HLTB33H3](#) or [PMDB33H3](#)

Breadth Requirements: Natural Sciences

ANTD18H3 - Palaeolithic Archaeology

This seminar style course provides a foundation in the anthropology and archaeology of small-scale societies, particularly hunter-gatherers. The seminar's temporal remit is broad, spanning ~2.5 million years of human evolution from the earliest tool-making hominins to living human societies. A selection of critical topics will therefore be covered. These include theoretical aspects of and

evolutionary trends in forager subsistence strategies; technologies; mobility and use of space; sociopolitical organization; cognition; symbolism, ritual and religion; and transitions to food production. Topics will be illustrated using diverse case studies drawn from throughout the Paleolithic.

Prerequisite: [ANTA01H3](#)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

ANTD19H3 - Primate Conservation

A large percentage of nonhuman primate species are at risk of extinction due mostly to human-induced processes. Relying on theory from Conservation Biology, this course will consider the intrinsic and extrinsic factors that lead to some primate species being threatened, while others are able to deal with anthropogenic influences. Students will critically examine conservation tactics and the uniqueness of each situation will be highlighted.

Prerequisite: [ANTB22H3](#) or [BIOA02H3](#)

Breadth Requirements: Natural Sciences

Course Experience: Partnership-Based Experience

ANTD20H3 - Culture and Community

A field-based research seminar exploring the cultural dimensions of community and sense of place. Partnering with community-based organizations in Scarborough and the GTA, students will investigate topical issues in the immediate urban environment from an anthropological perspective. Yearly foci may include food, heritage, diaspora, and family.

Prerequisite: [ANTB19H3](#) and [ANTB20H3](#) and [at least 0.5 credit at the C-level in Socio-Cultural Anthropology]

Recommended Preparation: [ANTC60H3](#) or [ANTC70H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

ANTD22H3 - Theory and Methodology in Primatology

This seminar course will examine contemporary theory and questions in primatology and carefully examine the types of data that researchers collect to answer their research questions.
Science credit

Prerequisite: [ANTB22H3](#) or [BIOC54H3](#)

Breadth Requirements: Social and Behavioural Sciences

ANTD25H3 - Medical Primatology: Public Health Perspectives on Zoonotic Diseases

This course will examine the social and cultural contexts of animal-to-human disease transmission globally, and the public risks associated zoonoses present here in Canada. The course will incorporate both anthropological and epidemiological perspectives.
Science credit

Prerequisite: [ANTB14H3](#)

Breadth Requirements: Natural Sciences

ANTD26H3 - Caveman, Farmer, Herder, Trader: Evolution of Diet in Society

Beginning with archaic *Homo sapiens* and ending with a discussion of how diet exists in a modern globalized cash economy, this course engages an archaeological perspective on changes in human diet and corresponding societal shifts. We will explore paradigmatic discourse around topics such as big game hunting, diet breadth, niche construction, and the Agricultural Revolution, while examining the archaeological record to clarify what "cavemen" really ate, inquire whether agriculture was as "revolutionary" as it has been presented, and delve into evidence of how colonialism, capitalism, and globalization have shaped our modern diet. Discussions will aim to interrogate current theories and contextualize why scientists (and the public) think the way they do about diet in the past and present.

Prerequisite: [[ANTA01H3](#) and [ANTB80H3](#) and 1.0 credit from any course at the C-level] or [[FSTA01H3](#) and 1.0 credit from any course at the C-level and permission of the instructor] or [[ANTA01H3](#) and [ANTB11H3](#) and 1.0 credit at the C-level]

Recommended Preparation: Some courses in human evolution and archaeology are highly recommended, knowledge of and interest in food system and the human past are acceptable.

Breadth Requirements: Natural Sciences

ANTD31H3 - Advanced Research in Anthropology

Directed critical examination of specific problems in Anthropology, based on library and/or field research. These courses are available in exceptional circumstances and do not duplicate regular course offerings. Students are advised that they must obtain consent from the supervising instructor before registering. Individual tutorials, as arranged. A minimum B plus average is normally required to be considered for these courses. May be science credit or area course depending on topic.

Prerequisite: [ANTA01H3](#) and [ANTA02H3](#) and [2.0 credits in Anthropology, of which 1.0 credit must be at the the C-

level] and permission of the instructor.

Course Experience: University-Based Experience

ANTD32H3 - Advanced Research in Anthropology

Directed critical examination of specific problems in Anthropology, based on library and/or field research. These courses are available in exceptional circumstances and do not duplicate regular course offerings. Students are advised that they must obtain consent from the supervising instructor before registering. Individual tutorials, as arranged. A minimum B plus average is normally required to be considered for these courses. May be science credit or area course depending on topic.

Prerequisite: ANTA01H3 and ANTA02H3 and [2.0 full credits in Anthropology, one of which must be at the C-level] and permission of the instructor.

Course Experience: University-Based Experience

ANTD33H3 - Geoarchaeological Perspectives of Human-Environment Interactions

This course investigates global diversity in human-environment dialogues from a geoarchaeological perspective. We will emphasize the place of geoarchaeology in evolutionary anthropology, specifically addressing topics such as the role of fire in human evolution, human-ecosystem coevolution, societal resilience and collapse, and the developing Anthropocene. Through “hands-on” authentic research, the class will engage with the collection and interpretation of chronological, geochemical, biomolecular, micromorphological, and micro-sedimentary data for site formation processes, paleoenvironments, and human behaviors. We will collaborate on developing new geoarchaeological perspectives of the human-environment interactions unfolding along the eastern branch of Yat-qui-i-be-no-nick (Highland Creek) coursing through UTSC. How did Highland Creek shape cultures and societies through time? How did people shape the Creek’s environs?

Prerequisite:

One of ANTA01H3, or EESA01H3, or ESTB01H3

Recommended Preparation: Physical Geography and/or Earth Sciences at Secondary or Post-Secondary level (beneficial but not required).

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

ANTD35H3 - Bioarchaeology

This course will focus on a new direction in anthropology, exploring the potential of skeletal remains in reconstructing past lifeways. This seminar style class will build upon concepts introduced in Human Osteology courses. Additionally, more advanced methods of reconstructing patterns of subsistence, diet, disease, demography and physical activity.

Prerequisite: ANTC47H3 or BIOB33H3 or HLTB33H3 or PMDB33H3

Exclusion: ANT434H, ANT441H

Breadth Requirements: Natural Sciences

ANTD40H3 - Topics in Emerging Scholarship in Evolutionary Anthropology

Taught by an advanced PhD student or postdoctoral fellow, and based on his or her doctoral research and area of expertise, this course presents a unique opportunity to explore intensively a particular Evolutionary or Archaeological Anthropology topic in-depth. Topics vary from year to year.

Prerequisite: ANTA01H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students enrolled in the Specialist in Anthropology. Additional students will be admitted as space permits.

ANTD41H3 - Topics in Emerging Scholarship in Socio-Cultural Anthropology

Taught by an advanced PhD student or postdoctoral fellow, and based on his or her doctoral research and area of expertise, this course presents a unique opportunity to explore intensively a particular Socio-Cultural or Linguistic Anthropology topic in-depth. Topics vary from year to year.

Prerequisite: ANTB19H3 and ANTB20H3 and [at least 0.5 credit at the C-level in Sociocultural Anthropology]

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Specialist program in Anthropology. Additional students will be admitted as space permits.

ANTD50H3 - Contemporary Debates in the Study of Human Evolution

This seminar course will allow students to engage with the contemporary literature on topics of controversy in Human Evolution. Topics to be covered may include the evolutionary relationships among hominin species, the

problem of naming and identifying parts of the evolving human lineage, inferences on the behavior of past hominins (e.g., burial of the dead), and the ethical issues that surround the study of our ancestors.

Prerequisite: ANTA01H3

Recommended Preparation: ANTC16H3 and/or ANTC17H3

Breadth Requirements: Natural Sciences

ANTD60H3 - Advanced Archaeological Laboratory Methods

This course provides specialized hands-on training in archaeological laboratory methods. Students will develop their own research project, undertaking analysis of archaeological materials, analyzing the resulting data, and writing a report on their findings. The methodological focus may vary from year to year.

Prerequisite: ANTA01H3 and ANTB80H3 and [1.0 credits at the C-level in any field] and permission of the instructor

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

ANTD70H3 - Archaeological Field Methods

This course provides specialized hands-on experience with field-based archaeology, including planning, survey, testing, and/or excavation, as well as an overview of various archaeological excavation methods and practices. Students may enroll in this course to gain credit for participation in approved off-campus field work. In this case, they will coordinate with the instructor to develop a series of appropriate assignments relevant to their coursework and learning goals.

Prerequisite: ANTA01H3 and ANTB80H3 and [1.0 credits of additional C-level courses in any field] and permission of instructor

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

ANTD71H3 - Community Engaged Fieldwork with Food

This research seminar uses our immediate community of Scarborough to explore continuity and change within

diasporic foodways. Students will develop and practise ethnographic and other qualitative research skills to better understand the many intersections of food, culture, and community. This course culminates with a major project based on original research.

Same as HISD71H3

Prerequisite: HISB14H3/(HISC14H3) or HISC04H3 or [2.0 credits in ANT courses of which 1.0 credit must be at the C-level] or permission of the instructor

Exclusion: HISD71H3

Recommended Preparation: ANTB64H3, ANTC70H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

ANTD98H3 - Advanced Topics in Socio-Cultural Anthropology

This advanced seminar course will examine a range of contemporary issues and current debates in Socio-Cultural Anthropology. Topics will vary by instructor and term.

Prerequisite: ANTB19H3 and ANTB20H3 and [at least 0.5 credit at the C-level in Socio-Cultural Anthropology]

Breadth Requirements: Social and Behavioural Sciences

ANTD99H3 - Advanced Topics in Primate Evolution

This course will examine questions of particular controversy in the study of Primate Evolution. Topics to be covered may include the ecological context of primate origins, species recognition in the fossil record, the identification of the first anthropoids, and the causes of extinction of the subfossil lemurs. Science credit

Prerequisite: ANTA01H3

Exclusion: ANTD13H3 if completed in the 2010/2011 academic year

Recommended Preparation: ANTC99H3

Breadth Requirements: Natural Sciences

Art History and Visual Culture

Faculty List

- M. Gervers, A.B. (Princeton), M.A. (Poitiers), Ph.D. (Toronto), Professor
- Y. Gu, M.Phil (Fudan), Ph.D. (Brown), Associate Professor
- E. Harney, M.A. (Harvard), M.A. (Washington), Ph.D. (London), Associate Professor
- A. Irving, B.F.A. (Nova Scotia College of Art and Design), M.F.A. (York), Associate Professor, Teaching Stream
- E. Webster, B.A., M.A. (Toronto), Ph.D. (Case Western Reserve), Associate Professor, Teaching Stream

ACM Program Manager: Email: acm-pm@utsc.utoronto.ca

Art History and Visual Culture at UTSC focuses on the global and contemporary and gives you a solid grounding in visual materials produced across time, cultures, classes, gender, and geography. You will learn to look, read, and write critically about the visual in the classroom and in real-world learning experience, such as in galleries and museums and other urban situations. You will understand how and why histories are written, how representations are formed, and how artists, critics, curators, dealers, and art historians (in other words, art world players) enter a shared discourse. The courses reveal the multiplicity of perspectives with which art may be approached, using recent methodologies that consider the works of art in the specific visual cultures of their day and in the social, political, and economic contexts in which the artists lived and worked.

For more information, please review the [Art History and Visual Culture page](#) of the ACM website.

Planning a Program in Art History and Visual Culture

Guidelines for First-Year Course Selection:

Students intending to complete a Major or Minor Program in Art History and Visual Culture should include [VPHA46H3](#) in their first-year course selection, as it familiarizes students with the necessary historical, theoretical, and methodological foundations of the discipline of Art History specifically and Humanities more generally. Moreover, it will introduce students to the kinds of reading, research and writing skills they will be expected to develop in the program.

Students are strongly encouraged to enroll in [VPHB39H3](#) early in their program of study and certainly by the beginning of their second year of study. This course further focuses on studies to address deeper questions in the disciplines of Art History and Visual Culture.

After completing these two foundational courses, students are encouraged to build a depth of learning in focused areas of concentration. The table below identifies the four areas of focus in Art History and Visual Culture. Students are encouraged to choose their courses from one or two of these areas.

Program Combination Restrictions in Art History and Visual Culture:

The Minor in Art History and Visual Culture cannot be combined with the Major in Art History and Visual Culture.

Art History and Visual Culture Areas of Focus:

Creative Cities

[VPHB58H3](#), [VPHB68H3](#), [VPHB74H3](#), [VPHC42H3](#), [VPHC68H3](#), [VPHC74H3](#)

Spectacle and Display

[VPHB59H3](#), [VPHB73H3](#), [VPHB78H3](#), [VPHB79H3](#), [VPHC53H3](#)

Dialogues with History

[VPHB53H3](#), [VPHB63H3](#), [VPHC63H3](#), [VPHC41H3](#), [VPHC52H3](#), [VPHD48H3](#)

Constructing Identities

VPHB50H3, VPHB64H3, VPHB77H3, VPHC75H3, VPHC45H3, VPHC73H3

Experiential Learning and Outreach:

For a community-based experiential learning opportunity in your academic field of interest, consider the course CTLB03H3, which can be found in the Teaching and Learning section of the *Calendar*.

Art History and Visual Culture Programs**MAJOR PROGRAM IN ART HISTORY AND VISUAL CULTURE (ARTS) - SCMAJ0616**

ACM Program Manager Email: acm-pm@utsc.utoronto.ca

Program Requirements

This program requires the completion of 7.0 credits in Art History and Visual Culture (VPH) as follows:

1. Courses at the A-level (0.5 credit):

VPHA46H3 Ways of Seeing: Introduction to Art Histories

2. Courses at the B-level (0.5 credit):

VPHB39H3 Ten Key Words in Art History: Unpacking Methodology

3. Courses at the C-level (1.5 credits):

VPHC49H3 Advanced Studies in Art Theory

VPHC54H3 Art Writing

VPHC72H3 Art, the Museum, and the Gallery

4. Courses at the D-level (0.5 credit):

VPHD48H3 Advanced Seminar in Art History and Visual Culture

5. 4.0 additional credits in VPH courses, including:

- (i) At least 1.5 credits must be in courses at the C- or D-level;
- (ii) Must include diversity in the time-period and cultural geography;
- (iii) Must include at least 1.0 credit dealing with periods prior to 1800;
- (iv) Must include at least 1.0 credit dealing with periods after 1800; and
- (v) Must include 0.5 credit dealing with the arts of Asia, Africa, or the Diaspora

[Note that the courses in Req#5 can count towards more than one criteria, as long as 4.0 unique credits are taken. For example, a C-level post-1800 course may fulfill both (i) and (iv)]

Courses dealing with periods prior to 1800: VPHB53H3, VPHB63H3, VPHB64H3, VPHB74H3, VPHC41H3, VPHC42H3, VPHC53H3, VPHC63H3, (VPHD44H3)

Courses dealing with periods after 1800: VPHB58H3, VPHB59H3, VPHC45H3, VPHC68H3, VPHC73H3, (VPHD43H3), as well as (VPAC47H3) and (VPAC48H3).

Courses on the art of Africa: VPHB50H3, (VPHB65H3).

Courses on the art of Asia: VPHB73H3, VPHB77H3, VPHC74H3.

Courses in which content may vary, and which may deal with the art of any place or period: VPHB68H3, VPHB78H3, VPHB79H3, VPHC49H3, (VPHC51H3), VPHC54H3, VPHC75H3 and VPHD48H3.

MINOR PROGRAM IN ART HISTORY AND VISUAL CULTURE (ARTS) - SCMIN0616

Undergraduate Advisor Email: art-history-program-supervisor@utsc.utoronto.ca

Program Requirements

This program requires the completion of 4.0 credits in Art History and Visual Culture (VPH) as follows:

1. Courses at the A-level (0.5 credit):

VPHA46H3 Ways of Seeing: Introduction to Art Histories

2. Courses at the B-level (2.0 credits):

VPHB39H3 Ten Key Words in Art History: Unpacking Methodology
and

Additional 1.5 credits at the B-level in VPH courses

3. Courses at the C- and or D-level (1.5 credits):

1.5 credits at the C- or D-level in VPH courses

Art History and Visual Culture Courses

VPHA46H3 - Ways of Seeing: Introduction to Art Histories

How and why are objects defined as Art? How do these definitions vary across cultures and time periods? Studying different approaches to writing art history and considering a wide range of media from photography to printmaking and installation arts.

Exclusion: (FAH100Y), FAH101H

Breadth Requirements: Arts, Literature and Language

VPHB39H3 - Ten Key Words in Art History: Unpacking Methodology

Key concepts in art history, including intention, meaning, style, materiality, identity, production, reception, gender, visibility, and history. Students will explore critical questions such as whether and how to read artist's biographies into their art. This course helps students understand the discipline and develops critical thinking and research skills required in advanced courses.

Prerequisite: VPHA46H3 or (ACMA01H3)

Exclusion: FAH102H

Breadth Requirements: Arts, Literature and Language

VPHB50H3 - Africa Through the Photographic Lens

The centrality of photographic practice to African cultures and histories from the period of European imperialism, the rise of modernist "primitivism" and the birth of ethnology

and anthropology to contemporary African artists living on the continent and abroad.

Prerequisite: VPHA46H3 or (ACMA01H3) or AFSA01H3

Breadth Requirements: Arts, Literature and Language

VPHB53H3 - Medieval Art

The origins of European artistic traditions in the early Christian, Mediterranean world; how these traditions were influenced by classical, Byzantine, Moslem and pagan forms; how they developed in an entirely new form of artistic expression in the high Middle Ages; and how they led on to the Renaissance.

Prerequisite: VPHA46H3

Exclusion: FAH215H, FAH216H

Breadth Requirements: Arts, Literature and Language

VPHB58H3 - Modern Art and Culture

A study of nineteenth and twentieth-century arts and visual media, across genres and cultures. What did modernity mean in different cultural contexts? How is 'modern' art or 'modernism' defined? How did the dynamic cultural, economic, and socio-political shifts of the globalizing and industrializing modern world affect the visual arts and their framing?

Prerequisite: VPHA46H3

Exclusion: FAH245H, FAH246H

Breadth Requirements: Arts, Literature and Language

VPHB59H3 - Current Art Practices

Shifts in theory and practice in art of the past fifty years. Studying selected artists' works from around the world, we explore how notions of modern art gave way to new ideas about media, patterns of practice, and the relations of art

and artists to the public, to their institutional contexts, and to globalized cultures.

Prerequisite: VPHA46H3 or VPHB39H3

Exclusion: FAH245H, FAH246H

Breadth Requirements: Arts, Literature and Language

VPHB63H3 - Fame, Spectacle and Glory: Objects of the Italian Renaissance

This course is an introduction to art and visual culture produced in Italy ca. 1350-1550. Students will explore new artistic media and techniques, along with critical issues of social, cultural, intellectual, theoretical and religious contexts that shaped the form and function of art made during this era.

Prerequisite: VPHA46H3

Exclusion: FAH230H

Breadth Requirements: Arts, Literature and Language

VPHB64H3 - Baroque Visions

This course introduces the art and culture of 17th century Europe and its colonies. Art of the Baroque era offers rich opportunities for investigations of human exploration in geographic, spiritual, intellectual and political realms. We will also consider the development of the artist and new specializations in subject and media.

Prerequisite: VPHA46H3

Exclusion: FAH231H, FAH279H

Recommended Preparation: VPHB63H3 or VPHB74H3

Breadth Requirements: Arts, Literature and Language

VPHB68H3 - Art and the Everyday: Mass Culture and the Visual Arts

This course explores the relationship between visibility and practices of everyday life. It looks at the interaction of the political, economic and aesthetic aspects of mass media with the realm of "fine" arts across history and cultures. We will explore notions of the public, the mass, and the simulacrum.

Prerequisite: VPHA46H3

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

VPHB69H3 - Back to the Land: Restoring Embodied and Affective Ways of Knowing

In this course students will learn about sustainability thinking, its key concepts, historical development and applications to current environmental challenges. More specifically, students will gain a better understanding of

the complexity of values, knowledge, and problem framings that sustainability practice engages with through a focused interdisciplinary study of land. This is a required course for the Certificate in Sustainability, a certificate available to any student at UTSC.

Same as ESTB03H3

Breadth Requirements: Social and Behavioural Sciences

VPHB73H3 - Visualizing Asia

A survey of the art of China, Japan, Korean, India, and Southeast Asia. We will examine a wide range of artistic production, including ritual objects, painting, calligraphy, architectural monuments, textile, and prints. Special attention will be given to social contexts, belief systems, and interregional exchanges.

Same as GASB73H3

Prerequisite: (ACMA01H3) or VPHA46H3 or GASA01H3

Exclusion: GASB73H3, FAH260H

Breadth Requirements: Arts, Literature and Language

VPHB74H3 - Not the Italian Renaissance: Art in Early Modern Europe

This course explores the rich visual culture produced in northern and central Europe 1400-1600. Topics such as the rise of print culture, religious conflict, artistic identity, contacts with other cultures and the development of the art market will be explored in conjunction with new artistic techniques, styles and materials.

Prerequisite: VPHA46H3

Exclusion: FAH230H, FAH274H

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

VPHB77H3 - Modern Asian Art

An introduction to modern Asian art through domestic, regional, and international exhibitions. Students will study the multilayered new developments of art and art institutions in China, Japan, Korea, India, Thailand, and Vietnam, as well as explore key issues such as colonial modernity, translingual practices, and multiple modernism. Same as GASB77H3

Prerequisite: (ACMA01H3) or VPHA46H3 or GASA01H3

Exclusion: GASB77H3, FAH262H

Breadth Requirements: Arts, Literature and Language

VPHB78H3 - Our Town, Our Art: Local Collections I

Local arts institutions are often taken for granted but understanding how and why collections are formed, why they are significant, and how they relate to larger art historical contexts provides important object-based learning opportunities. Students will explore these issues using a focused collection in the Royal Ontario Museum, the Aga Khan Museum or the Textile Museum.

Prerequisite: VPHA46H3

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

VPHB79H3 - Our Town, Our Art: Local Collections II

Local arts institutions are often taken for granted but understanding how and why collections are formed, why they are significant, and how they relate to larger art historical contexts provides important object-based learning opportunities. Students will explore these using a focused collection in the Art Gallery of Ontario.

Prerequisite: VPHA46H3

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

Note: Some classes will be held at the museum; students should be prepared to travel.

VPHC41H3 - Carolingian and Romanesque Art

Major artistic and architectural monuments of Europe from the Carolingian renaissance to the renaissance of the twelfth century, considered in relation to geographical context, to monasticism and pilgrimage, to artistic developments of the contemporary Mediterranean world, and to the art and architecture of the later Roman Empire, Byzantium and Armenia, Islam and the art of the invasion period.

Prerequisite: VPHB53H3

Exclusion: (VPHB42H3), FAH215H

Breadth Requirements: Arts, Literature and Language

VPHC42H3 - Gothic Art and Architecture

Current scholarship is expanding and challenging how we decide "what is Gothic?" We will examine a variety of artworks, considering artistic culture, social, cultural, and physical contexts as well. Style, techniques, patronage, location in time and space, and importance of decoration (sculpture, stained glass, painting, tapestry) will be among topics discussed.

Prerequisite: VPHB53H3

Exclusion: FAH328H, FAH351H5, (FAH369H)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

VPHC45H3 - Seminar in Modern and Contemporary Art

Special topics in twentieth-century painting and sculpture. The subject will change from time to time. After introductory sessions outlining the subject and ways of getting information about it, seminar members will research and present topics of their choice.

Prerequisite: 1.0 credit at the VPHB-level

Breadth Requirements: Arts, Literature and Language

VPHC49H3 - Advanced Studies in Art Theory

The class will read selected recent cultural theory and art theory and consider its implications for a variety of works of art, and will investigate selected exhibition critiques and the critical discourse surrounding the oeuvres of individual artists.

Prerequisite: VPHA46H3 and VPHB39H3

Corequisite: 1.0 credit at the B-level in VPH and/or VPS courses

Breadth Requirements: Arts, Literature and Language

VPHC52H3 - Ethiopia: Seeing History

This course uses a focus on material history and visual culture to explore Ethiopia from the fourth through the nineteenth century, with particular emphasis on the Christian Church, the monarchy, links with both the Mediterranean world and the Indian subcontinent, and the relationship of individuals to their social, economic, artistic and geographic environments.

Same as AFSC52H3 and HISC52H3

Prerequisite: [1.0 credit in History] or VPHA46H3 and an additional 1.0 credit in VPH courses]

Exclusion: AFSC52H3, HISC52H3

Breadth Requirements: History, Philosophy and Cultural Studies

VPHC53H3 - The Silk Routes

The Silk Routes were a lacing of highways connecting Central, South and East Asia and Europe. Utilizing the Royal Ontario Museum's collections, classes held at the Museum and U of T Scarborough will focus on the art produced along the Silk Routes in 7th to 9th century Afghanistan, India, China and the Taklamakhan regions. Same as GASC53H3

Prerequisite: 1.0 credit in art history or in Asian or medieval European history.

Exclusion: GASC53H3

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

VPHC54H3 - Art Writing

Art criticism as a complex set of practices performed not only by critics, art historians, curators and the like, but also by artists (and collectors). The traditional role of art critics in the shaping of an art world, and the parallel roles played by other forms of writing about art and culture (from anthropology, sociology, film studies).

Prerequisite: 2.0 credits at the B-level in VPA, VPH, and/or VPS courses.

Breadth Requirements: Arts, Literature and Language

VPHC63H3 - Explorations in Early Modern Art

This seminar-format course will offer students the opportunity to investigate critical theories and methodologies of the early modern period (roughly 1400-1700). Focusing on such topics as a single artist, artwork or theme, students will become immersed in an interdisciplinary study that draws on impressive local materials from public museum and library collections.

Prerequisite: VPHA46H3 and [one of VPHB63H3 or VPHB64H3 or VPHB74H3].

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

VPHC68H3 - Art in Global Cities

This course looks at the global city as a hub for the creation of visual, performing arts and architecture. How have cyberspace and increased transnational flows of art and artists changed the dynamic surrounding urban arts? What are the differences between the arts within the modern and global contemporary city?

Prerequisite: VPHB58H3 or VPHB59H3

Exclusion: (VPHC52H3)

Breadth Requirements: Arts, Literature and Language

VPHC72H3 - Art and Visual Culture in Spaces, Places, and Institutions

Art and the settings in which it is seen in cities today. Some mandatory classes to be held in Toronto museums and galleries, giving direct insight into current exhibition practices and their effects on viewer's experiences of art; students must be prepared to attend these classes.

Prerequisite: VPHA46H3, and VPHB39H3

Exclusion: (CRTC72H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

VPHC73H3 - Home, Away, and In Between: Diaspora and Visual Culture

This course considers representations of diaspora, migration, displacement, and placemaking within visual culture. We will employ a comparative, cross-cultural approach and a historical perspective, to consider how artists, theorists, media, and social institutions think about and visualize these widely-held experiences that increasingly characterize our cosmopolitan, interconnected world.

Prerequisite: 1.0 credits at VPHB-level

Exclusion: (VPAB09H3)

Breadth Requirements: Social and Behavioural Sciences

VPHC74H3 - A Tale of Three Cities: Introduction to Contemporary Art in China

An introduction to Chinese contemporary art focusing on three cities: Beijing, Shanghai, and Guangzhou. Increasing globalization and China's persistent self-renovation has brought radical changes to cities, a subject of fascination for contemporary artists. The art works will be analyzed in relation to critical issues such as globalization and urban change.

Same as GASC74H3

Prerequisite: 2.0 credits at the B-level in Art History, Asian History, and/or Global Asia Studies courses, including at least 0.5 credit from the following: VPHB39H3, VPHB73H3, HISB58H3, (GASB31H3), GASB33H3, or (GASB35H3).

Exclusion: GASC74H3

Breadth Requirements: Arts, Literature and Language

VPHC75H3 - The Artist, Maker, Creator

This course focuses on the ideas, career and oeuvre of a single artist. Exploration and comparison of works across and within the context of the artist's output provides substantial opportunities for deeper levels of interpretation, understanding and assessment. Students will utilize and develop research skills and critical methodologies appropriate to biographical investigation.

Prerequisite: VPHB39H3 and [an additional 1.0 credit at the B-level in Art History, Studio Art or Arts Management courses]

Breadth Requirements: Arts, Literature and Language

VPHD42Y3 - Supervised Reading in Art History

A course offering the opportunity for advanced investigation of an area of interest; for students who are nearing completion of art history programs and who have already acquired independent research skills. Students must locate a willing supervisor and topics must be identified and approved by the end of the previous term.

Prerequisite: 1.0 credit at the C-level in art history. Students are advised that they must obtain consent from the supervising instructor before registering for these courses.

Course Experience: University-Based Experience

VPHD48H3 - Advanced Seminar in Art History and Visual Culture

What is art history and visual culture? What do we know, and need to know, about how we study the visual world? This capstone course for senior students will examine the ambiguities, challenges, methods and theories of the discipline. Students will practice methodological and theoretical tenets, and follow independent research agendas.

Prerequisite: 1.5 credits at the C-level in VPH courses

Exclusion: FAH470H

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students in the Major and Minor in Art History and Visual Culture. Additional students will be admitted as space permits.

Arts and Science Co-op

Arts and Science Co-op Contact: askcoop@utoronto.ca

Arts & Science Co-op Student Success & Program Coordinator: coopsuccess.utsc@utoronto.ca

Academic Program Supervisor & Program Advisor: <https://www.utsc.utoronto.ca/artscicoop/faculty>

The Arts & Science Co-op Programs offer co-op across 13 academic departments for students pursuing a Bachelor of Science or Bachelor of Arts degree. Co-op programs combine academic studies with three paid work experiences. Work terms are four, eight, or twelve months in duration and can be in the Greater Toronto Area (GTA), across Canada, or internationally. There are over 50 program streams to choose from across the Arts & Science disciplines. For information about the benefits of Co-op, program areas, co-op fees and services, and work term opportunities, please visit the [Arts & Science Co-op website](#).

Full Year/Trimester Programming

The Arts & Science Co-op programs operate on a trimester schedule, featuring three terms (Fall, Winter, and Summer) in each calendar year. Students work or study in all three terms for four years or until graduation requirements are met. Each Arts & Science Co-op program requires three work terms. Students normally begin with three study terms (Fall, Winter, and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Program Requirements

Co-op students follow the course requirements of one of the Specialist or Major programs offered by the Arts & Science Co-op Department. Students are advised to consult regularly with the Academic Program Supervisor or Advisor if they have course selection and scheduling questions.

For questions about Co-op courses and work term sequences, students can contact the Co-op Student Success & Program Coordinator.

It is the students' responsibility to ensure they have completed the correct courses to make them eligible for each work term, and they have correctly completed the program and degree requirements for graduation.

Status in Co-op Programs

Status in an Arts & Science Co-op program will be determined at the end of each session (Fall, Winter, and Summer) for students who have attempted at least 4.0 credits since beginning their studies at UTSC or in other Arts and Sciences Divisions at the University. Students with a cumulative grade point average (CGPA) of 2.5 or higher are considered in good standing.

- Students whose CGPA falls below 2.5 will be placed on probation.
- Students may clear probation by achieving a CGPA of 2.5 or better in the next study session. Where the CGPA is below 2.5 but above 2.3, and the sessional grade point average (SGPA) is at least 2.5, students may be granted a second probationary semester.
- Students must clear their probation within a maximum of two study sessions in order to remain in a Co-op program.
- Students on probation in the Co-op program may not apply for a work-term until they have successfully cleared their probation. However, if a student's CGPA falls below 2.5 after having secured a co-op work-term through the recruitment process, the student will be permitted to complete the work term but must clear probation before being permitted to participate in the next recruitment process.
- Students whose CGPA falls below 2.3 will be removed from the Co-op program.

For information on fees in Co-op programs and certification of completion of Co-op programs, see the [Co-operative Programs](#) section in the *Calendar*.

Voluntary Withdrawal from the Co-op Program

Your status in the co-op program will not automatically change if you change your program/subject POST on ACORN to a non-co-op stream. This is because you were admitted into a Co-op Degree POST when joining the campus. Students must

follow the withdrawal process through the co-op office. Requests to Withdraw are accepted online through the Arts & Science Co-op Compass at specific points in the semester. Once your request is received, we work with the Registrar's Office to have your enrollment in subject POST and degree changed to the non-Co-op program.

Please note: If you're currently on a work term or have already accepted an offer from a Co-op employer, we need you to honour your commitments, and you won't be permitted to withdraw from Co-op until after you've completed the work term.

Eligibility for Work Terms

While remaining in the Co-op program requires a student to have a minimum CGPA of 2.5, each academic program has specific work term eligibility requirements. It is the student's responsibility to ensure that they have completed the correct courses to make them eligible for a work term and have correctly completed the program and degree requirements for graduation.

Note: You are automatically enrolled in Co-op work term courses by the Arts & Science Co-op Office based on your work term number and program area/subject POST.

Preparation and Work Term search courses COPB50H3 and COPB54H3/(COPB51H3), COPB55H3/(COPB52H3), COPB56H3/(COPB51H3), COPB57H3/(COPB52H3), COPB58H3/(COPB51H3) and COPB59H3/(COPB52H3) are self-enrolled, and students can enroll for these during regular course enrollment periods. Students should enroll in work term search courses based on their work term sequence. Enrollment requests are pending and will be approved by the co-op office based on meeting eligibility requirements.

First Work Term Eligibility Requirements

To compete for a work term, a student must:

1. Maintain a minimum of 2.5 CGPA;
2. Successfully Complete Co-op Work Term Preparation courses COPB50H3 and COPB54H3/(COPB51H3), COPB56H3/(COPB51H3), COPB58H3/(COPB51H3) and be enrolled in a Work Term Job Search course COPB55H3/(COPB52H3), COPB57H3/(COPB52H3), and COPB59H3/(COPB52H3);
3. Be legally entitled to work in Canada - Have a valid co-op work permit (International Students) and Social Insurance Number;
4. Be in a Co-op Subject POST;
Note: Students admitted to a Co-op Degree POST/Admission Category in their first year of study must request a Co-op Subject POST on ACORN upon completion of 4.0 credits and must meet the minimum qualifications for entry as noted in the academic program sections of the Calendar.
5. Complete the minimum required number of credits by the end of their job search semester, 7.0 credits, and have less than 18.5 credits.

For details on point 4, please view the Arts and Science Co-op program.

Second Work Term Eligibility Requirements

1. Maintain a minimum of 2.5 CGPA for Co-op;
2. Be enrolled in Co-op Job Search course COPC98H3 and completed COPC01H3 or [(COPC13H3) or (COPC14H3) or (COPC20H3), (COPC30H3) or (COPC40H3)]
3. Have less than 18.5 credits;
4. Be legally entitled to work in Canada - Have a valid co-op work permit (International Students) and Social Insurance Number;
5. Be in a Co-op Subject POST.

Third or Additional Work Term Requirements (up to a maximum of five)

1. Maintain a minimum of 2.5 CGPA for Co-op;
2. Be enrolled in Co-op Work Term Preparation course COPC99H3 and completed the following work term courses COPC01H3 and COPC02H3 or [(COPC13H3) and (COPC14H3) and (COPC20H3) and (COPC30H3), and (COPC40H3)]
3. Have less than 18.5 credits;
4. Be legally entitled to work in Canada - Have a valid co-op work permit (International Students) and Social Insurance Number;

5. Be in a Co-op Subject POST;
6. Approval from the Co-op Office for additional work terms beyond your program minimum.

Arts and Science Co-op Programs

MAJOR (CO-OPERATIVE) PROGRAM IN BIOCHEMISTRY (SCIENCE) - SCMAJ1762C

For an updated list of Program Supervisors, please visit the [Chemistry website](#).
Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Biochemistry is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Biochemistry upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Note: This program cannot be combined with the Major/Major Co-op programs in Chemistry, or the Major/Major Co-op programs in Environmental Chemistry.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [CHMA11H3](#), [\[MATA29H3 or MATA30H3\]](#) and [\[MATA35H3 or MATA36H3\]](#), plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Biochemistry.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is strongly recommended that CHMB16H3 and BIOB12H3 be completed prior to the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN BIOLOGY (SCIENCE) - SCMAJ1030M

Academic Program Supervisor Email: biology-major@utsc.utoronto.ca

Co-op Program Coordinator Email: coopsuccess.utsc@utoronto.ca

The Major (Co-op) in Biology program complements and punctuates academic course work with full-time work terms in various governmental or non-governmental agencies, in labs or in public or private industry. These work terms help students define and refine their career and/or professional school goals.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including 1.0 credit in Biology (excluding BIOA11H3, BIOA12H3), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding MATA02H3) or Statistics. A minimum cumulative GPA of 2.5 or higher is required for admission.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant you admission to the non-co-op without a request.

Applications must adhere to the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements:

This program consists of 8.0 required credits.

First Year

1. 1.0 Credit of Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry CoursesCHMA10H3 Introductory Chemistry I: Structure and BondingCHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]**3. 0.5 Credit in Mathematics or Statistics Courses**

Choose from:

MATA29H3 Calculus I for the Life SciencesMATA30H3 Calculus I for Physical SciencesSTAB22H3 Statistics IPSYB07H3 Data Analysis in Psychology*Second Year***4. 3.0 Credits of Biology Core Courses**BIOB10H3 Cell BiologyBIOB11H3 Molecular Aspects of Cellular and Genetic ProcessesBIOB34H3 Animal PhysiologyBIOB38H3 Plants and SocietyBIOB50H3 EcologyBIOB51H3 Evolutionary BiologyBIOB90H3 Integrative Research Poster Project (CR/NCR 0.0 credit)****Note:** Completion of BIOB90H3 is a graduation requirement for students in this program. Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN CHEMISTRY (SCIENCE) - SCMAJ1376C

For an updated list of Program Supervisors, please visit the [Chemistry website](#).

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Chemistry is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Chemistry upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Note: This program cannot be combined with the Major/Major Co-op programs in Biochemistry or the Major program in Environmental Chemistry.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [CHMA10H3](#), [CHMA11H3](#), [MATA30H3](#), [MATA36H3](#), [PHYA10H3](#) and [PHYA21H3](#), plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Chemistry.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is strongly recommended that CHMB16H3 be completed before the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3

- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN CITY STUDIES (ARTS) - SCMAJCITC

Program Advisor: cit-advisor@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in City Studies is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to City Studies upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits plus a cumulative GPA of at least 2.50.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major in City Studies.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term

- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN COMPUTER SCIENCE (SCIENCE) - SCMAJ1688C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Computer Science is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Computer Science upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Major (Co-operative) Program in Computer Science is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:**Credits:** Minimum of 4.0 credits to a maximum of 10.0 credits**Required Courses:** As noted in the Enrolment Requirements above**Cumulative GPA:** 2.75 across all attempted courses.**Current Co-op Students:**

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:**Credits:** 4.0 credits**Required Courses:** Program-specific courses described in the Enrolment Requirements above**Cumulative GPA:** 2.50 across all attempted courses.**Academic Program Requirements**

Students must complete the program requirements as described in the Major in Computer Science (Science).

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB56H3/(COPB51H3)

Work Term Search Courses:

- COPB57H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN CONSERVATION AND BIODIVERSITY (SCIENCE) - SCMAJ1150C

Academic Program Supervisor Email: biodiversity@utsc.utoronto.ca

Co-op Program Coordinator: C. Dixon Email: coopsuccess.utsc@utoronto.ca

This program provides background and training in modern biological approaches to the study of biodiversity, ecology, and evolution. The links between these fields are emphasized, and topics covered range from the structure and function of ecosystems to the evolution of behaviour, morphology, and physiology.

The Co-op option of the Conservation and Biodiversity program complements and punctuates academic course work with full-time work terms in the various governmental or non-governmental conservation agencies, in labs or in public or private industry. These placements help students define and refine their career and/or professional school goals.

Enrolment Requirements

Students apply to the Major (Co-operative) Program in Conservation and Biodiversity after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding BIOA11H3, BIOA12H3), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding MATA02H3) or Statistics. A minimum cumulative grade point average (CGPA) of at least 2.5 or higher is required for admission.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant your admission to the non-co-op without a request.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above
Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements:

This program consists of 8.5 required credits

First Year

1. 1.0 Credit of Introductory Biology Courses

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry Courses

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3] Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]

3. 0.5 Credit in Mathematics or Statistics

Choose from:

MATA29H3 Calculus I for the Life Sciences

MATA30H3 Calculus I for Physical Sciences

STAB22H3 Statistics I

PSYB07H3 Data Analysis in Psychology

Second Year

4. 3.0 Credits of Biology Core Courses

BIOB10H3 Cell Biology

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

BIOB34H3 Animal Physiology

BIOB38H3 Plants and Society

BIOB50H3 Ecology

BIOB51H3 Evolutionary Biology

BIOB90H3 Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOB90H3 is a graduation requirement for students in this program. Please see BIOB90H3 in the Calendar for important information.

5. 0.5 Credit of Biology Core Labs

BIOB52H3 Ecology and Evolutionary Biology Laboratory

Third Year

6. 1.0 Credit of Ecology & Evolution Foundation Courses

Choose from:

BIOC16H3 Evolutionary Genetics and Genomics

BIOC50H3 Macroevolution

BIOC52H3 Field Ecology

BIOC61H3 Community Ecology and Environmental Biology

BIOC63H3 Conservation Biology

7. 1.0 Credit of Other C-level Courses

Choose from:

BIOC30H3 From Genetic Codes to Fantastic Creatures

BIOC37H3 Plants: Life on the Edge

BIOC40H3 Plant Physiology

BIOC51H3 Tropical Biodiversity Field Course

BIOC54H3 Animal Behaviour

BIOC58H3 Biological Consequences of Global Change

BIOC59H3 Advanced Population Ecology

BIOC60H3 Winter Ecology

BIOC62H3 Role of Zoos and Aquariums in Conservation

BIOC65H3 Environmental Toxicology

(BIOC67H3) Inter-University Biology Field Course

BIOC90H3 Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

EESC04H3 Biodiversity and Biogeography

EESC30H3 Environmental Microbiology

***Note:** Completion of BIOC90H3 is a graduation requirement for students in this program. Please see BIOC90H3 in the

Calendar for important information.

Fourth Year

8. 0.5 Credit of D-level Courses

Choose from:

[BIOD25H3](#) Genomics
[BIOD26H3](#) Fungal Biology & Pathogenesis
[BIOD34H3](#) Conservation Physiology
[BIOD43H3](#) Animal Movement and Exercise
[BIOD45H3](#) Animal Communication
[BIOD48H3](#) Ornithology
[BIOD52H3](#) Biodiversity and Conservation
[BIOD53H3](#) Special Topics in Animal Behaviour
[BIOD54H3](#) Applied Conservation Biology
[BIOD55H3](#) Experimental Animal Behaviour
[BIOD59H3](#) Models in Ecology, Epidemiology and Conservation
[BIOD60H3](#) Spatial Ecology
[BIOD62H3](#) Symbiosis: Interactions Between Species
[BIOD63H3](#) From Individuals to Ecosystems: Advanced Topics in Ecology
[BIOD66H3](#) Quantitative Ecological and Biodiversity Analysis
[BIOD67H3](#) Inter-University Biology Field Course
[EESD15H3](#) Fundamentals of Site Remediation

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Supervisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB54H3](#)/(COPB51H3)

Work Term Search Courses:

- [COPB55H3](#)/(COPB52H3) (Completed in the semester prior to the first work term)
- [COPC98H3](#) (Taken in the semester prior to the second work term)
- [COPC99H3](#) (Taken in the semester prior to the third work term)

Required Work Term Courses:

- [COPC01H3](#) (First work term)
- [COPC02H3](#) (Second work term)
- [COPC03H3](#) (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) (Fourth work term)
- [COPC05H3](#) (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN ENGLISH (ARTS) - SCMAJ1645C

For more information, contact eng-ugc.utsc@utoronto.ca
Co-op Contact: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in English is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to English upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits plus a cumulative GPA of at least 2.50.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:**Credits:** 4.0 credits**Required Courses:** Program-specific courses described in the Enrolment Requirements above**Cumulative GPA:** 2.50 across all attempted courses**Academic Program Requirements**

Students must complete the program requirements as described in the Major Program in English.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including ENGA01H3 and ENGA02H3, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN ENVIRONMENTAL CHEMISTRY (SCIENCE) - SCMAJ0361C

For an updated list of Academic Program Supervisors, please visit the [Chemistry website](#).
Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Environmental Chemistry is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Environmental Chemistry upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including: [CHMA10H3](#), [[CHMA11H3](#) or [CHMA12H3](#)], [MATA30H3](#), [MATA36H3](#), [EESA01H3](#), and 0.5 credit from: [[EESA06H3](#), [EESA07H3](#), [EESA11H3](#)], plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major in Environmental Chemistry.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is strongly recommended that CHMB16H3 be completed before the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN ENVIRONMENTAL SCIENCE (SCIENCE) - SCMAJ1076A

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Environmental Science is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Environmental Science upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [BIOA01H3](#), [BIOA02H3](#), and [EESA06H3](#), plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Environmental Science.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

MAJOR (CO-OPERATIVE) PROGRAM IN EVOLUTIONARY ANTHROPOLOGY (SCIENCE) - SCMAJ1780M

Co-op Email: coopsuccess.utscc@utoronto.ca

The Major in Evolutionary Anthropology provides a course structure for those students desiring to expand upon or supplement other areas of academic interest by taking advantage of Anthropology's unique global, chronological, and biological perspective on the human condition.

The Major (Co-op) in Evolutionary Anthropology complements and punctuates academic course work with full-time work terms which help students define and refine their career and/or professional school goals.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [ANTA01H3](#) and [ANTA02H3](#), with a minimum cumulative GPA of 2.5 or higher.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major in Evolutionary Anthropology.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

MAJOR (CO-OPERATIVE) PROGRAM IN FRENCH (ARTS) - SCMAJ2156C

For more information, please contact:

Academic Program Coordinator: dls-ua@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in French is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to French upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment in the Major (Co-operative) Program in French will be administratively suspended effective October 3, 2025, and students will no longer be able to enrol in the program thereafter. Students presently enrolled in the

Major (Co-operative) Program in French will be able to complete the program requirements as they are described in the Calendar active at the time students first chose the program as a Subject POST. Students who are not enrolled in the program but are interested in engaging in experiential and/or community-engaged learning activities are recommended to consult with the Department of Language Studies for advising. Students can contact the department via email at dls-ua@utsc.utoronto.ca.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including FREA01H3 and FREA02H3, plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in French.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the Major (Co-op) Program in French, have completed at least 7.0 credits, including [FREB01H3](#) and [FREB02H3](#), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB58H3](#)/[COPB51H3](#)

Work Term Search Courses:

- [COPB59H3](#)/[COPB52H3](#) - Completed in the semester prior to the first work term
- [COPC98H3](#) - Taken in the semester prior to the second work term
- [COPC99H3](#) - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- [COPC01H3](#) - First work term
- [COPC02H3](#) - Second work term
- [COPC03H3](#) - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) - Fourth work term
- [COPC05H3](#) - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN HEALTH POLICY (ARTS) - SCMAJ2086J

Program Supervisor of Study: E. Caron-Beaudoin and R. Antabe

Academic Program Advisor: dhsadvisor.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Health Policy is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Health Policy upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [HLTA02H3](#) and [HLTA03H3](#), plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Health Policy.

Note: the Major/Major (Co-op) Program in Population Health (B.Sc.) and Major/Major (Co-op) Program in Health Policy (B.A.) cannot be combined.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB58H3**/**COPB51H3**)

Work Term Search Courses:

- **COPB59H3**/**COPB52H3**) - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN HISTORY (ARTS) - SCMAJ0652C

For more information, please contact:

Undergraduate Coordinator: 416-287-7184 Email: hcs.advising.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in History is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to History upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including 0.5 credit from: HISA01H3, HISA02H3, HISA03H3, HISA04H3, HISA05H3, HISA06H3/GASA01H3, HISA07H3/CLAA04H3, (HISA08H3), or HISA09H3, plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in History.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the Major (Co-op) Program in History and have completed at least 7.0 credits, including two of [HISA04H3, HISA05H3, HISA06H3/GASA01H3, HISA07H3/CLAA04H3, HISA08H3/AFSA01H3 or HISA09H3] as well as HISB03H3. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term

- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN HUMAN BIOLOGY (SCIENCE) - SCMAJ0215C

Academic Program Supervisor Email: human-biology@utsc.utoronto.ca

Co-op Program Coordinator Email: coopsuccess.utsc@utoronto.ca

The Major in Human Biology provides training and background in general biology with the opportunity to concentrate on courses in upper years that are related to human health. Upper year courses are available in physiology, cell and molecular biology, anatomy, microbiology, pathology, endocrinology, anthropology, psychology and biochemistry. This program is suitable for students with an interest in applied biology in health sciences or in social sciences related to human health.

The Major (Co-op) in Human Biology program complements and punctuates academic course work with full-time work terms in various governmental or non-governmental agencies, in labs or in public or private industry. These work terms help students define and refine their career and/or professional school goals.

Enrolment Requirements

Students apply to the Major (Co-op) in Human Biology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding BIOA11H3, BIOA12H3), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding MATA02H3) or Statistics. A minimum cumulative GPA of 2.5 or higher is required for admission.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant you admission to the non-co-op without a request.

Applications must adhere to the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements:

This program consists of 8.5 credits.

Required Courses and Suggested Course Sequence

First Year

1. 1.0 Credit of Introductory Biology Courses

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

2. 1.0 Credit in Introductory Chemistry Courses

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]

3. 1.0 Credit in Courses Related to Human Health

HLTA02H3 Foundations in Health Studies I

HLTA03H3 Foundations in Health Studies II

HLTB15H3 Introduction to Health Research Methodology

HLTB16H3 Introduction to Public Health

HLTB20H3 Contemporary Human Evolution and Variation

HLTB22H3 Biological Determinants of Health

HLTB40H3 Health Policy and Health Systems

HLTB44H3 Pathophysiology and Etiology of Disease

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

4. 0.5 Credit in Mathematics or Statistics

Choose From:

MATA29H3 Calculus I for the Life Sciences

MATA30H3 Calculus I for Physical Sciences

STAB22H3 Statistics I

PSYB07H3 Data Analysis in Psychology

Second Year

5. 2.5 Credits of Biology Core Courses

BIOB10H3 Cell Biology

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

BIOB34H3 Animal Physiology

BIOB50H3 Ecology

BIOB51H3 Evolutionary Biology

BIOB90H3 Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOB90H3 is a graduation requirement for students in this program. Please see BIOB90H3 in the Calendar for important information.

6. 0.5 Credit in a Biology Core Lab

Choose From:

[BIOB32H3](#) Animal Physiology Laboratory

[BIOB33H3](#) Human Development and Anatomy

Third/Fourth Years

7. 1.5 Credits of C-Level Courses

Choose From:

[ANTC47H3](#) Human and Primate Comparative Osteology

[ANTC48H3](#) Advanced Topics in Human Osteology

[BIOC10H3](#) Cell Biology: Proteins from Life to Death

[BIOC14H3](#) Genes, Environment and Behaviour

[BIOC15H3](#) Genetics

[BIOC16H3](#) Evolutionary Genetics and Genomics

[BIOC17H3](#) Microbiology

[BIOC19H3](#) Animal Developmental Biology

[BIOC20H3](#) Principles of Virology

[BIOC21H3](#) Vertebrate Histology: Cells and Tissues

[BIOC30H3](#) From Genetic Codes to Fantastic Creatures

[BIOC32H3](#) Human Physiology I

[BIOC34H3](#) Human Physiology II

[BIOC35H3](#) Principles of Parasitology

[BIOC39H3](#) Immunology

[BIOC54H3](#) Animal Behaviour

[BIOC58H3](#) Biological Consequences of Global Change

[BIOC65H3](#) Environmental Toxicology

[BIOC90H3](#) Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

***Note:** Completion of [BIOC90H3](#) is a graduation requirement for students in this program. Please see [BIOC90H3](#) in the Calendar for important information.

8. 0.5 Credit of D-Level Courses

Choose From:

[BIOD06H3](#) Advanced Topics in Neural Basis of Motor Control

[BIOD07H3](#) Advanced Topics and Methods in Neural Circuit Analysis

[BIOD08H3](#) Theoretical Neuroscience

[BIOD12H3](#) Protein Homeostasis

[BIOD15H3](#) Mechanisms of Gene Regulation in Health and Disease

[BIOD17H3](#) Seminars in Cellular Microbiology

[BIOD19H3](#) Epigenetics in Health and Disease

[BIOD20H3](#) Special Topics in Virology

[BIOD24H3](#) Human Stem Cell Biology and Regenerative Medicine

[BIOD25H3](#) Genomics

[BIOD26H3](#) Fungal Biology and Pathogenesis

[BIOD27H3](#) Vertebrate Endocrinology

[BIOD29H3](#) Pathobiology of Human Disease

[BIOD32H3](#) Human Respiratory Pathophysiology

[BIOD33H3](#) Comparative Animal Physiology

[BIOD36H3](#) Advanced Topics in Molecular Parasitology

[BIOD43H3](#) Animal Movement and Exercise

[BIOD59H3](#) Models in Ecology, Epidemiology and Conservation

[BIOD65H3](#) Pathologies of the Nervous System

[BIOD95H3](#) Supervised Study in Biology (topic must be human-related and approved by the program supervisor)

[HTLD18H3](#) Dental Sciences

[HLTD44H3](#) Environmental Contaminants, Vulnerability and Toxicity

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic support within the department, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semester.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN LINGUISTICS (ARTS) - SCMAJ0506C

For more information, please contact:

Academic Program Advisor: dls-ua@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Psycholinguistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Psycholinguistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [LINA01H3](#) and [LINA02H3](#), plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Linguistics. To be eligible for their first work term, students must be enrolled in the Major (Co-op) Program in Linguistics and have completed at least 7.0 credits, including [LINB06H3](#) and [LINB09H3](#), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB58H3**/**COPB51H3**

Work Term Search Courses:

- **COPB59H3**/**COPB52H3** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN MATHEMATICS (SCIENCE) - SCMAJ1165C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Mathematics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Mathematics upon graduation.

Enrolment Requirements

Enrolment in the Major (Co-operative) Program in Mathematics is limited.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Mathematics.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB56H3/(COPB51H3)

Work Term Search Courses:

- **COPB57H3**/**(COPB52H3)** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN MENTAL HEALTH STUDIES (SCIENCE) - SCMAJ1160N

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) in Mental Health Studies is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Mental Health upon graduation.

Enrolment in the Program is limited. Admission will require:

- completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and
- completion of Grade 12 U/M high school biology or equivalent (or **BIOA12H3** or equivalent), and
- completion of a minimum of 4.0 credits, including 1.0 credit in Psychology, and
- a cumulative GPA of at least 2.5, and
- either (1) a final grade of 67% or higher in both of **PSYA01H3** and **PSYA02H3**, or (2) a final grade of 60% or higher in both of **PSYA01H3** and **PSYA02H3**, and a final grade of 72% or higher in two B-level psychology courses.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major in Mental Health Studies.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that PSYB07H3, PSYB32H3, PSYB55H3, and PSYB70H3 be completed before the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- **COPB55H3**/**COPB52H3** (Completed in the semester prior to the first work term)
- **COPC98H3** (Taken in the semester prior to the second work term)
- **COPC99H3** (Taken in the semester prior to the third work term)

Required Work Term Courses:

- **COPC01H3** (First work term)
- **COPC02H3** (Second work term)
- **COPC03H3** (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN MOLECULAR BIOLOGY, IMMUNOLOGY AND DISEASE (SCIENCE) - SCMAJ0220C

Academic Program Supervisor Email: molecular-biology-immunology@utsc.utoronto.ca

Co-op Program Coordinator Email: coopsuccess.utsc@utoronto.ca

This program provides training and background in general biology with the opportunity to concentrate on courses in upper years that are related to immunology, infection and disease. Upper year courses are available in microbiology, immunology, biochemistry and pathobiology of disease. This program is suitable for students with an interest in molecular biology and disease.

Enrolment Requirements

Students apply to the Major (Co-op) in Molecular Biology, Immunology and Disease after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding **BIOA11H3**, **BIOA12H3**), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding **MATA02H3**) or Statistics. A minimum cumulative GPA of 2.5 or higher is required for admission.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant you admission to the non-co-op without a request.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements:

This program consists of 8.5 credits.

First Year

1. 1.0 Credit of Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry Courses

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry

3. 0.5 Credit in Mathematics or Statistics

Choose from:

[MATA29H3](#) Calculus I for the Life Sciences

[MATA30H3](#) Calculus I for Physical Sciences

[STAB22H3](#) Statistics I

[PSYB07H3](#) Data Analysis in Psychology

Second Year

4. 2.5 Credits of Biology Core Courses

[BIOB10H3](#) Cell Biology

[BIOB11H3](#) Molecular Aspects of Cellular and Genetic Processes

[BIOB34H3](#) Animal Physiology

[BIOB50H3](#) Ecology

[BIOB51H3](#) Evolutionary Biology

[BIOB90H3](#) Integrative Research Poster Project (CR/NCR 0.0 credit)*

*Note: Completion of [BIOB90H3](#) is a graduation requirement for students in this program. Please see [BIOB90H3](#) in the Calendar for important information.

5. 0.5 Credit in a Biology Core Lab

[BIOB12H3](#) Cell and Molecular Biology Laboratory

Third/Fourth Years

6. 1.5 Credit of Required C-level Courses

[BIOC17H3](#) Microbiology

[BIOC20H3](#) Principles of Virology

[BIOC39H3](#) Immunology

7. 1.0 Credit of Additional C-level Courses

Choose from:

[BIOC10H3](#) Cell Biology: Proteins from Life to Death
[BIOC12H3](#) Biochemistry I: Proteins & Enzymes
[BIOC13H3](#) Biochemistry II: Bioenergetics and Metabolism
[BIOC14H3](#) Genes, Environment and Behaviour
[BIOC15H3](#) Genetics
[BIOC18H3](#) Looking Inside Cells Current Methods in Cell Biology
[BIOC19H3](#) Animal Developmental Biology
[BIOC30H3](#) From Genetic Codes to Fantastic Creatures
[BIOC31H3](#) Plant Development and Biotechnology
[BIOC35H3](#) Principles of Parasitology
[BIOC90H3](#) Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

*Note: Completion of [BIOC90H3](#) is a graduation requirement for students in this program. Please see [BIOC90H3](#) in the Calendar for important information.

8. 0.5 credit of D-level Biology Courses

Choose from:

[BIOD12H3](#) Protein Homeostasis
[BIOD13H3](#) Herbiology: The Science Behind Medicinal Plants
[BIOD15H3](#) Mechanisms of Gene Regulation in Health and Disease
[BIOD17H3](#) Seminars in Cellular Microbiology
[BIOD18H3](#) Practical Approaches in Infection and Immunity
[BIOD19H3](#) Epigenetics in Health and Disease
[BIOD20H3](#) Special Topics in Virology
[BIOD23H3](#) Special Topics in Cell Biology
[BIOD24H3](#) Human Stem Cell Biology and Regenerative Medicine
[BIOD25H3](#) Genomics
[BIOD26H3](#) Fungal Biology and Pathogenesis
[BIOD27H3](#) Vertebrate Endocrinology
[BIOD29H3](#) Pathobiology of Human Disease
[BIOD36H3](#) Advanced Topics in Molecular Parasitology

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semester.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB54H3](#)/(COPB51H3)

Work Term Search Courses:

- [COPB55H3/\(COPB52H3\)](#) (Completed in the semester prior to the first work term)
- [COPC98H3](#) (Taken in the semester prior to the second work term)
- [COPC99H3](#) (Taken in the semester prior to the third work term)

Required Work Term Courses:

- [COPC01H3](#) (First work term)
- [COPC02H3](#) (Second work term)
- [COPC03H3](#) (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) (Fourth work term)
- [COPC05H3](#) (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN NEUROSCIENCE (SCIENCE) - SCMAJ1472C

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major in Neuroscience focuses on both Cellular/Molecular and Systems/Behavioural Neuroscience and requires less research-intensive coursework than the Specialist programs. The Major focuses more on how to be a skilled consumer of neuroscience research, providing a valuable foundation for a variety of career paths.

Students may not combine a Neuroscience Major program with a Minor program from the Department of Biological Sciences. Students who wish to combine the Major in Neuroscience with another Major from the Department of Psychology or Department of Biological Sciences are advised to pay careful attention to the 12.0 distinct credits requirement to receive a certification of the completion of both programs. Consultation with the respective Program Supervisors in the selection of credits is recommended. For more information, see the [Degree Requirements](#) section in the *UTSC Calendar*.

Enrolment Requirements

Enrolment in the Program is limited. The admission requirements may change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major in Neuroscience.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that PSYB07H3, PSYB70H3, NROB60H3, at least one of BIOB10H3, BIOB11H3 and at least one of NROB61H3, PSYB55H3 be completed before the first work term. Any of these courses that are not completed prior to the first work term are recommended to be completed before the second work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- **COPC01H3** (First work term)
- **COPC02H3** (Second work term)
- **COPC03H3** (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN PHILOSOPHY (ARTS) - SCMAJ0231C

For more information, please contact:

Academic Program Advisor: jason.ferreira@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Philosophy is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Philosophy upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:**Credits:** Minimum of 4.0 credits to a maximum of 10.0 credits**Required Courses:** As noted in the Enrolment Requirements above**Cumulative GPA:** 2.50**Current Co-op Students**

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:**Credits:** 4.0 credits**Required Courses:** Program-specific courses described in the Enrolment Requirements above**Cumulative GPA:** 2.50 across all attempted courses**Academic Program Requirements**

Students must complete the program requirements as described in the Major Program in Philosophy. To be eligible for their first work term, students must be enrolled in the Major (Co-op) Program in Philosophy, have completed at least 7.0 credits, including one of [PHLB50H3](#), [PHLB55H3](#) or [MATC09H3](#), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB58H3](#)/[COPB51H3](#)

Work Term Search Courses:

- [COPB59H3](#)/[COPB52H3](#) - Completed in the semester prior to the first work term
- [COPC98H3](#) - Taken in the semester prior to the second work term
- [COPC99H3](#) - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- [COPC01H3](#) - First work term
- [COPC02H3](#) - Second work term
- [COPC03H3](#) - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN PLANT BIOLOGY (SCIENCE) - SCMAJ1060C

Academic Program Supervisor Email: plant-biology@utsc.utoronto.ca

Co-op Program Coordinator Email: coopsuccess.utsc@utoronto.ca

The Major Program in Plant Biology provides a broad education in all areas of contemporary biology and affords students an opportunity to concentrate on Plant Biology courses in upper years. This program is suitable for students with an interest in biochemistry, biotechnology, cell biology, ecology, evolution, genetics, physiology, and/or development of plants.

Enrolment Requirements

Students apply to the Major (Co-op) Program in Plant Biology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding BIOA11H3, BIOA12H3), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding MATA02H3) or Statistics. A minimum cumulative GPA of 2.5 or higher is required for admission.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant your admission to the non-co-op without a request.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above
Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements:

Students are required to complete a total of 8.5 credits.

Required Courses and Suggested Course Sequence:

First Year

1. 1.0 Credit of Introductory Biology Courses

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry Courses

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3] Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]

3. 0.5 Credit in Mathematics or Statistics Courses

Choose From:

MATA29H3 Calculus I for the Life Sciences

MATA30H3 Calculus I for Physical Sciences

STAB22H3 Statistics I

PSYB07H3 Data Analysis in Psychology

Second Year

4. 2.5 Credits of Biology Core Courses

BIOB10H3 Cell Biology

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

BIOB38H3 Plants and Society

BIOB50H3 Ecology

BIOB51H3 Evolutionary Biology

BIOB90H3 Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOB90H3 is a graduation requirement for students in this program. Please see BIOB90H3 in the Calendar for important information.

5. 0.5 Credit of Biology Core Labs

Choose From:

BIOB12H3 Cell and Molecular Biology Laboratory

BIOB52H3 Ecology and Evolutionary Biology Laboratory

Third Year

6. 1.5 Credits of C-level Plant Courses

BIOC31H3 Plant Development and Biotechnology

BIOC37H3 Plants: Life on the Edge

BIOC40H3 Plant Physiology

Third/ Fourth Year

7. 1.0 Credit of Additional C-level Courses

Choose From:

BIOC12H3 Biochemistry I: Proteins and Enzymes

BIOC13H3 Biochemistry II: Bioenergetics and Metabolism

BIOC15H3 Genetics

BIOC17H3 Microbiology

BIOC30H3 From Genetic Codes to Fantastic Creatures

BIOC35H3 Principles in Parasitology

BIOC50H3 Macroevolution

BIOC52H3 Field Ecology

BIOC61H3 Community Ecology and Environmental Biology

BIOC90H3 Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOC90H3 is a graduation requirement for students in this program. Please see BIOC90H3 in the Calendar for important information.

*Fourth Year***8. 0.5 Credit of D-level Biology Courses**

Choose From:

BIOD12H3 Protein Homeostasis

BIOD13H3 Herbiology: The Science Behind Medicinal Plants

BIOD21H3 Advanced Molecular Biology Laboratory

BIOD26H3 Fungal Biology and Pathogenesis

BIOD30H3 Plant Research and Biotechnology: Addressing Global Problems

BIOD36H3 Advanced Topics in Molecular Parasitology

BIOD37H3 Biology of Plant Stress

BIOD62H3 Symbiosis: Interactions Between Species

Note: Students who are interested in research or graduate studies can choose to take BIOC99H3, BIOD95H3, BIOD98Y3 or BIOD99Y3 supervised study courses with faculty to obtain additional research experience and training in plant biology.

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must satisfactorily complete Co-op work term(s) as follows: three 4-month work terms, one 4-month work term and one 8-month work term, or one 12-month work term. To be eligible for their first work term, students must be enrolled in the Major (Co-op) in Biology and have completed at least 7.0 credits, achieve a cumulative GPA of 2.5 or higher, and complete COPB50H3 and COPB51H3.

Students must be available for work terms in each of the Fall, Winter, and Summer semesters and must complete at least one of their required work terms in either a Fall or Winter semester. This requires that students take courses during the Summer semesters.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during at least one Summer semester.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN POPULATION HEALTH (SCIENCE) - SCMAJ2086K

Program Supervisor of Study: E. Caron-Beaudoin and R. Antabe

Academic Program Advisor: dhsadvisor.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Population Health is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Population Health upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Grade 12 math and biology are recommended

Enrolment Requirements

The minimum qualifications for entry are as follows:

A. completion of 4.0 credits including [BIOA01H3 or BIOA11H3], HLTA02H3, HLTA03H3, HLTA20H3, and STAB23H3, and

B. either (1) a final grade of 67% or higher in both [BIOA01H3 or BIOA11H3] and HLTA20H3, or (2) a final grade of 60% or higher in both [BIOA01H3 or BIOA11H3] and HLTA20H3, and a final grade of 72% or higher in HLTB22H3

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Population Health.

Note: the Major/Major (Co-op) Program in Population Health (B.Sc.) and Major/Major (Co-op) Program in Health Policy (B.A.) cannot be combined.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- **COPB55H3**/**COPB52H3** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN PSYCHOLOGY (SCIENCE) - SCMAJ1160C

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) in Psychology is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Psychology upon graduation.

Enrolment Requirements

Enrolment in the Program is limited. Admission will require:

- (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and
- (b.) completion of Grade 12 U/M high school biology or equivalent (or **BIOA12H3** or equivalent), and
- (c.) completion of a minimum of 4.0 UTSC credits, including 1.0 credit in Psychology, and
- (d.) a cumulative GPA of at least 2.5, and
- (e.) either (1) a final grade of 67% or higher in both **PSYA01H3** and **PSYA02H3**, or (2) a final grade of 60% or higher in both **PSYA01H3** and **PSYA02H3** and a final grade of 72% or higher in two B-level psychology courses.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:**Credits:** Minimum of 4.0 credits to a maximum of 10.0 credits.**Required Courses:** Program-specific courses described in the Enrolment Requirements above.**Cumulative GPA:** 2.50**Current Co-op Students**

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:**Credits:** 4.0 credits**Required Courses:** Program-specific courses described in the Enrolment Requirements above**Cumulative GPA:** 2.50 or higher across all attempted courses.**Academic Program Requirements**

Students must complete the program requirements as described in the Major in Psychology.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that PSYB07H3, PSYB70H3, and an additional 1.0 PSY B-level credits be completed before the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN PUBLIC POLICY (ARTS) - SCMAJPUBPC

For more information, please contact:

Academic Program Advisor: pol-advisor@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Public Policy is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors.

The program equips students with the analytical and methodological skills to secure employment as policy analysts in government, business, and the non-governmental sectors, or to continue on to graduate training in public policy. The Program is cross-disciplinary; public policy analysis is the exercise of applying the theoretical frameworks and the positivist and interpretive methodologies of the social sciences and humanities to understand the development, implementation, and evaluation of public policy. It requires the ability to think clearly and critically, to design and execute research projects, to analyze both quantitative and qualitative data, and to write clearly. It also requires an understanding of the context, institutions, and processes of policy-making and implementation, as well as concepts and criteria for policy evaluation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, plus a cumulative GPA of at least 2.5. To be eligible for their first work term, students must be enrolled in the Major (Co-op) Program in Public Policy and have completed at least 7.0 credits. It is strongly recommended that students include [MGEA01H3/MGEA02H3](#), [MGEA05H3/MGEA06H3](#), [POLB56H3](#), [PPGB66H3](#), and 0.5 credit of Statistics (requirement 5) or Methods (requirement 6) as part of meeting the minimum 7.0 FCEs.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and

number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Program Requirements

Students must complete the program requirements as described in the Major Program in Public Policy.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN STATISTICS (SCIENCE) - SCMAJ2289C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca
Co-op Program Coordinator: C. Dixon coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Statistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Statistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Major (Co-operative) Program in Statistics is limited. Students must have passed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Statistics.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB56H3/(COPB51H3)

Work Term Search Courses:

- COPB57H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR (CO-OPERATIVE) PROGRAM IN WOMEN'S AND GENDER STUDIES (ARTS) - SCMAJ0571H

For more information, please contact:

Undergraduate Coordinator: 416-287-7184 Email: hcs.advising.uts@utoronto.ca

Co-op Program Coordinator: coopsuccess.uts@utoronto.ca

The Major (Co-op) Program in Women's and Gender Studies is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Women's and Gender Studies upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including one of [WSTA01H3](#) or [WSTA03H3](#), plus a cumulative GPA of at least 2.50.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students are required to complete the program requirements as described in the Major Program in Women's and Gender Studies.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including WSTA01H3, WSTA03H3 and WSTB05H3, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN CHEMISTRY (SCIENCE) - SCSPE1376C

For an updated list of Program Supervisors, please visit the [Chemistry website](#).
Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Chemistry is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Chemistry upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [CHMA10H3](#), [CHMA11H3](#), [MATA30H3](#), [MATA36H3](#), [PHYA10H3](#) and [PHYA21H3](#), plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Chemistry.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, or

- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses. It is strongly recommended that CHMB16H3 be completed before the first work term.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN COMPUTER SCIENCE - Comprehensive Stream (SCIENCE) - SCSPE0510C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

This program provides a working knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. It also imparts an appreciation of the discipline's transformative impact on science and society. The program prepares students for further study and for careers in the computing industry. It comprises four streams with different emphases:

The Comprehensive Stream provides a broad and balanced exposure to the discipline. It is the stream best-suited for students planning to pursue graduate study in computer science, but it is also suitable for other career paths.

The structure of the program requirements allows one to easily switch streams until relatively late in the program. Consequently, these streams should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides computer science students guidance in their course selection based on their broad (but possibly fluid) interests.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) program in Computer Science (all streams) is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades, described in the Enrolment Requirements for the Specialist in Computer Science.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

*Students must select **one** stream of the CS Specialist Co-op. Admission to the Entrepreneurship stream also requires the submission of a Supplementary Application Form available on the Department of Computer and Mathematical Sciences [webpage](#).

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Computer Science. To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including all first year required courses ([CSCA08H3](#), [CSCA48H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), [MATA37H3](#)), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB56H3/(COPB51H3)**

Work Term Search Courses:

- **COPB57H3/(COPB52H3)** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN COMPUTER SCIENCE - Entrepreneurship Stream (SCIENCE) - SCSPE0805C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca
Co-op Program Coordinator: coopsuccess.uts@utoronto.ca

This program provides a working knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. It also imparts an appreciation of the discipline's transformative impact on science and society. The program prepares students for further study and for careers in the computing industry. It comprises four streams with different emphases:

The Entrepreneurship Stream includes a solid core of computer science and software engineering, while exposing students to the framework and the methodologies that underlie the development of innovative technology ideas into viable commercial opportunities. Enrolment into the Entrepreneurship stream will be limited to highly qualified and motivated students, and preference will be given to students enrolled in the Specialist (Co-op) Program.

The structure of the program requirements allows one to easily switch streams until relatively late in the program. Consequently, these streams should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides computer science students guidance in their course selection based on their broad (but possibly fluid) interests.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) program in Computer Science (all streams) is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

*Students must select **one** stream of the CS Specialist Co-op. Admission to the Entrepreneurship stream also requires the submission of a Supplementary Application Form available on the Department of Computer and Mathematical Sciences [webpage](#).

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Computer Science. To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including all first year required courses ([CSCA08H3](#), [CSCA48H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), [MATA37H3](#)), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their

Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB56H3/(COPB51H3)**

Work Term Search Courses:

- **COPB57H3/(COPB52H3)** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN COMPUTER SCIENCE - Information Systems Stream (SCIENCE) - SCSPE0455C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

This program provides a working knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. It also imparts an appreciation of the discipline's transformative impact on science and society. The program prepares students for further study and for careers in the computing industry. It comprises four streams with different emphases:

The Information Systems Stream has a similar focus as the Software Engineering Stream, but it provides additional exposure to certain aspects of business management. It is of special interest to students wishing to pursue careers in technical management but who have a deep interest in the technology.

The structure of the program requirements allows one to easily switch streams until relatively late in the program. Consequently, these streams should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides computer science students guidance in their course selection based on their broad (but possibly fluid) interests.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) program in Computer Science (all streams) is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

*Students must select **one** stream of the CS Specialist Co-op. Admission to the Entrepreneurship stream also requires the submission of a Supplementary Application Form available on the Department of Computer and Mathematical Sciences [webpage](#).

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Computer Science. To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including all first year required courses ([CSCA08H3](#), [CSCA48H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), [MATA37H3](#)), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB56H3**/(COPB51H3)

Work Term Search Courses:

- **COPB57H3**/(COPB52H3) - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN COMPUTER SCIENCE - Software Engineering Stream (SCIENCE) - SCSPE0795C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

This program provides a working knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. It also imparts an

appreciation of the discipline's transformative impact on science and society. The program prepares students for further study and for careers in the computing industry. It comprises four streams with different emphases:

The Software Engineering Stream places a greater emphasis on the engineering side of the discipline, including computer systems and core applications.

The structure of the program requirements allows one to easily switch streams until relatively late in the program. Consequently, these streams should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides computer science students guidance in their course selection based on their broad (but possibly fluid) interests.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) program in Computer Science (all streams) is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

*Students must select **one** stream of the CS Specialist Co-op. Admission to the Entrepreneurship stream also requires the submission of a Supplementary Application Form available on the Department of Computer and Mathematical Sciences [webpage](#).

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Computer Science. To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including all first year required courses ([CSCA08H3](#), [CSCA48H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), [MATA37H3](#)), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB56H3**/(COPB51H3)

Work Term Search Courses:

- **COPB57H3**/(COPB52H3) - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN CONSERVATION AND BIODIVERSITY (SCIENCE) - SCSPE1150C

Academic Program Supervisor: biodiversity@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

This program presents a foundation for understanding how ecology and evolution shape organismal features (from morphology and physiology to behaviour), and the structure and function of communities and ecosystems. These processes determine the broad patterns of organization of life on earth and biodiversity, and the challenges to biodiversity

are daunting: habitat destruction, biological invasions and climate change are causing loss of species and disruption of ecosystems worldwide. In this program, students are trained to understand and actively seek solutions to these problems. This program will also show how ecological and evolutionary perspectives can be used to understand and predict the outcome of dynamic interactions among organisms, populations, species, and communities. Graduates will be well trained to take on positions in government agencies, consulting firms or NGOs, to pursue careers in business or law related to environmental issues, stewardship and sustainable development, or to continue with graduate studies in science for academic careers.

The co-op option of the Conservation and Biodiversity program complements and punctuates academic course work with full-time work terms in the various governmental or non-governmental conservation agencies, in labs or in public or private industry. These work terms help students define and refine their career and/or professional school goals. For information on fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

Enrolment Requirements

Students apply to the Co-op Specialist Program in Conservation and Biodiversity after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics and with a minimum cumulative grade point average (CGPA) of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant your admission to the non-co-op without a request.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements:

The program requires students to complete a total of 14.5 credits.

A. Required Courses

First Year

1. 1.0 Credit of Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry CoursesCHMA10H3 Introductory Chemistry I: Structure and BondingCHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]**3. 1.0 Credit in Mathematics**

Choose from:

[MATA29H3 Calculus I for the Life Sciences and MATA35H3 Calculus II for Biological Sciences][MATA30H3 Calculus I for Physical Sciences and MATA36H3 Calculus II for Physical Sciences]**4. 0.5 Credit in Physics**

Choose from:

PHYA10H3 Physics I for the Physical SciencesPHYA11H3 Physics I for the Life Sciences**5. 0.5 Credit in Computer Science**

Choose from:

CSCA08H3 Introduction to Computer Science I (most appropriate course for Computer Science students)CSCA20H3 Introduction to Programming (most appropriate course for non-Computer Science students)*Second Year***6. 3.0 Credits of Biology Core Courses**BIOB10H3 Cell BiologyBIOB11H3 Molecular Aspects of Cellular and Genetic ProcessesBIOB34H3 Animal PhysiologyBIOB38H3 Plants and SocietyBIOB50H3 EcologyBIOB51H3 Evolutionary BiologyBIOB90H3 Integrative Research Poster Project (CR/NCR 0.0 credit)****Note:** Completion of BIOB90H3 is a graduation requirement for students in this program. Please see BIOB90H3 in the Calendar for important information.**7. 0.5 Credit of Biology Core Labs**BIOB52H3 Ecology and Evolutionary Biology Laboratory**8. 0.5 Credit in Statistics**

Choose from:

STAB22H3 Statistics IPSYB07H3 Data Analysis in Psychology*Third Year***9. 2.5 Credits of C-level Ecology and Evolution Foundation Courses**BIOC16H3 Evolutionary Genetics and GenomicsBIOC50H3 MacroevolutionBIOC52H3 Field EcologyBIOC61H3 Community Ecology and Environmental BiologyBIOC63H3 Conservation Biology*Third/Fourth Year***10. 4.0 credits of C- & D-level courses from Bins 1 and 2 below. This must include at least 1.0 credit from each bin and at least 1.0 credit total at the D-level.***Bin 1: C- & D-level Ecology and Evolution Courses*

Choose from:

BIOC51H3 Tropical Biodiversity Field CourseBIOC58H3 Biological Consequences of Global ChangeBIOC60H3 Winter EcologyBIOC65H3 Environmental ToxicologyBIOD25H3 GenomicsBIOD52H3 Biodiversity and ConservationBIOD54H3 Applied Conservation BiologyBIOD55H3 Experimental Animal BehaviourBIOD59H3 Models in Ecology, Epidemiology and Conservation

[BIOD60H3](#) Spatial Ecology
[BIOD62H3](#) Symbiosis: Interactions Between Species
[BIOD63H3](#) From Individuals to Ecosystems: Advanced Topics in Ecology
[BIOD66H3](#) Quantitative Ecological and Biodiversity Analysis
[BIOD67H3](#) Inter-University Biology Field Course
[EESC04H3](#) Biodiversity and Biogeography

Bin 2: C- & D-level Organismal Biology Courses

Choose from:

[BIOC29H3](#) Introductory Mycology
[BIOC30H3](#) From Genetic Codes to Fantastic Creatures
[BIOC37H3](#) Plants: Life on the Edge
[BIOC40H3](#) Plant Physiology
[BIOC54H3](#) Animal Behaviour
[BIOC59H3](#) Advanced Population Ecology
[BIOC62H3](#) Role of Zoos and Aquariums in Conservation
[BIOC70H3](#) An Introduction to Bias in STEMM (Science, Technology, Engineering, Mathematics and Medicine)
[BIOD26H3](#) Fungal Biology & Pathogenesis
[BIOD34H3](#) Conservation Physiology
[BIOD37H3](#) Biology of Plant Stress
[BIOD43H3](#) Animal Movement and Exercise
[BIOD45H3](#) Animal Communication
[BIOD48H3](#) Ornithology
[BIOD53H3](#) Special Topics in Animal Behaviour
[BIOC90H3](#) Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*
[EESC30H3](#) Environmental Microbiology

***Note:** Completion of [BIOC90H3](#) is a graduation requirement for students in this program. Please see [BIOC90H3](#) in the Calendar for important information.

B. Senior Research Courses (optional)

Students interested in graduate research are encouraged to take one or more of the independent research courses offered in Biological Sciences as part of their degree.

[BIOD95H3](#) Supervised Study in Biology
[BIOD98Y3](#) Directed Research in Biology
[BIOD99Y3](#) Directed Research in Biology

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB54H3](#)/(COPB51H3)

Work Term Search Courses:

- [COPB55H3](#)/(COPB52H3) (Completed in the semester prior to the first work term)
- [COPC98H3](#) (Taken in the semester prior to the second work term)
- [COPC99H3](#) (Taken in the semester prior to the third work term)

Required Work Term Courses:

- [COPC01H3](#) (First work term)
- [COPC02H3](#) (Second work term)
- [COPC03H3](#) (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) (Fourth work term)
- [COPC05H3](#) (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN ENGLISH (ARTS) - SCSPE1645C

For more information, contact eng-ugc.utsc@utoronto.ca

Co-op Contact: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in English is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to English upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, plus a cumulative GPA of at least 2.50.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in English.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including [ENGA01H3](#) and [ENGA02H3](#), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB58H3](#)/[COPB51H3](#))

Work Term Search Courses:

- [COPB59H3](#)/[COPB52H3](#)) - Completed in the semester prior to the first work term
- [COPC98H3](#) - Taken in the semester prior to the second work term
- [COPC99H3](#) - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- [COPC01H3](#) - First work term

- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN ENVIRONMENTAL CHEMISTRY (SCIENCE) - SCSPE0361C

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Environmental Chemistry is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Environmental Chemistry upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.5 credits, including, BIOA01H3, BIOA02H3, CHMA10H3, CHMA11H3, EESA01H3, EESA06H3, MATA30H3, [MATA35H3 or MATA36H3 or MATA37H3] and [PHYA10H3 or PHYA11H3], plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:**Credits:** 4.0 credits**Required Courses:** Program-specific courses described in the Enrolment Requirements above**Cumulative GPA:** 2.50 or higher across all attempted courses.**Academic Program Requirements**

Students must complete the program requirements as described in the Specialist Program in Environmental Chemistry.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is strongly recommended that CHMB16H3 be completed before the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.**Co-op Course Requirements**

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN ENVIRONMENTAL GEOSCIENCE (SCIENCE) - SCSPE0350D

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Environmental Geoscience is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Environmental Geoscience upon graduation.

This program has been designed to meet the expectations of the Association of Professional Geoscientists of Ontario (APGO) - the licensing and regulatory body responsible for ensuring that geoscientists have the appropriate qualifications to practice. Please visit the APGO website for further information on requirements to become a Professional Geoscientist (P.Geo) in Ontario.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 5.0 credits, including [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [CHMA11H3](#), [EESA01H3](#), [EESA06H3](#), [MATA30H3](#), [[MATA36H3](#) or [MATA37H3](#)], [PHYA10H3](#) and [PHYA21H3](#), plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Environmental Geoscience.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

SPECIALIST (CO-OPERATIVE) PROGRAM IN EVOLUTIONARY ANTHROPOLOGY (SCIENCE) - SCSPE1780M

Co-op Email: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) in Evolutionary Anthropology is intended to provide the professionally oriented student with background preparation of sufficient breadth and depth to pursue specialized training at the graduate level. It is also designed to offer interested students a course structure as background for a wide range of occupations and professions. Students are encouraged to consult with the Undergraduate Counsellor regarding the selection of a course sequence

appropriate to their interests and objectives. In exceptional circumstances, supervised research and reading courses are available at the C- and D-levels ([ANTC04H3](#), [ANTD32H3](#)). These courses require special arrangements prior to registration. Read the descriptions for these courses carefully as restrictions apply.

The Specialist (Co-op) in Evolutionary Anthropology complements and punctuates academic course work with full-time work terms which help students define and refine their career and/or professional school goals.

The minimum qualifications for entry are 4.0 credits, including [ANTA01H3](#) and [ANTA02H3](#), with a minimum cumulative GPA of 2.5 or higher.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Evolutionary Anthropology.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB54H3**/**COPB51H3**

Work Term Search Courses:

- **COPB55H3**/**COPB52H3** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN FRENCH (ARTS) - SCSPE2156C

For more information, please contact:

Academic Program Advisor: dls-ua@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in French is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to French upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment in the Specialist (Co-operative) Program in French will be administratively suspended effective October 3, 2025, and students will no longer be able to enrol in the program thereafter. Students presently enrolled in the Specialist (Co-operative) Program in French will be able to complete the program requirements as they are described in the Calendar active at the time students first chose the program as a Subject POST. Students who are not enrolled in the program but are interested in engaging in experiential and/or community-engaged learning activities are recommended to consult with the Department of Language Studies for advising. Students can contact the department via email at dls-ua@utsc.utoronto.ca.

Enrolment Requirements

The minimum qualifications for entry to the program are 4.0 credits, including [FREA01H3](#) and [FREA02H3](#), plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in French. To be eligible for their first work term, students must be enrolled in the Specialist (Co-op) Program in French, have completed at least 7.0 credits, including [FREB01H3](#) and [FREB02H3](#), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB58H3**/**COPB51H3**

Work Term Search Courses:

- **COPB59H3**/**COPB52H3** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN GLOBAL ENVIRONMENTAL CHANGE (SCIENCE) - SCSPE0371C

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Global Environmental Change is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Environmental Biology upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.5 credits, including BIOA01H3, BIOA02H3, CHMA10H3, CHMA11H3, EESA01H3, EESA06H3, MATA30H3, [MATA35H3 or MATA36H3 or MATA37H3] and [PHYA10H3 or PHYA11H3], plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Global Environmental Change.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- **COPB55H3**/**COPB52H3** (Completed in the semester prior to the first work term)
- **COPC98H3** (Taken in the semester prior to the second work term)
- **COPC99H3** (Taken in the semester prior to the third work term)

Required Work Term Courses:

- **COPC01H3** (First work term)
- **COPC02H3** (Second work term)
- **COPC03H3** (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN HISTORY (ARTS) - SCSPE0652C

For more information, please contact:

Undergraduate Coordinator: 416-287-7184 Email: hcs.advising.utsc@utoronto.ca

Co-op Program Advisor: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in History is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to History upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including 0.5 credits from:

[HISA01H3](#), [HISA02H3](#), [HISA03H3](#), [HISA04H3](#), [HISA05H3](#), [HISA06H3/GASA01H3](#), [HISA07H3/CLAA04H3](#), ([HISA08H3](#)), [HISA09H3](#), plus a cumulative GPA of at least 2.50.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or

Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in History.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including two of HISA01H3, HISA02H3, HISA03H3, HISA04H3, HISA05H3, HISA06H3/GASA01H3, HISA07H3/CLAA04H3, HISA09H3, as well as HISB03H3, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term

- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN HUMAN BIOLOGY (SCIENCE) - SCSPE0215C

Academic Program Supervisor: human-biology@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist in Human Biology provides a solid foundation of introductory science courses and core biology courses while emphasizing, in the upper years, issues related to human health, the nature of humans and their culture as well as the interaction of the human species with the environment. The first year of the program emphasizes introductory courses in biology, chemistry, calculus, physics and psychology. The second year of the program emphasizes core courses in cell biology, molecular biology, physiology, ecology, evolution and anatomy that provide the basis for continued specialization in the third and fourth years. The upper years of the program emphasize specialized courses in anatomy, biochemistry, endocrinology, immunology, microbiology, physiology, psychology, pathology and pathobiology. This program is suited for those students who wish to go onto health-related fields such as medicine, dentistry, nursing, pharmacy, physiotherapy and health policy/management or graduate studies in these, and other, areas such as physiology, medicine and endocrinology.

The Specialist (Co-op) in Human Biology complements and punctuates academic course work with full-time work terms in various governmental or non-governmental agencies, in labs or in public or private industry. These work terms help students define and refine their career and/or professional school goals.

Enrolment Requirements

Students apply to the Specialist (Co-op) in Human Biology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding BIOA11H3, BIOA12H3), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding MATA02H3) or Statistics and with a minimum cumulative grade point average (CGPA) of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and

number of spaces available. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant your admission to the non-co-op without a request.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements

This Program consists of 15.0 credits.

Required Courses and Suggested Course Sequence

First Year

1. 1.0 credit in Introductory Biology Courses

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

2. 1.0 credit in Introductory Chemistry Courses

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]

3. 1.0 credit in Mathematics

[MATA29H3 Calculus I for the Life Sciences or MATA30H3 Calculus I for Physical Sciences]

and

[MATA35H3 Calculus II for Biological Sciences or MATA36H3 Calculus II for Physical Sciences]

4. 1.0 credit in Introductory Physics Courses

[PHYA10H3 Physics I for the Physical Sciences or PHYA11H3 Physics I for the Life Sciences]

[PHYA21H3 Physics II for the Physical Sciences or PHYA22H3 Physics II for the Life Sciences]

5. 0.5 credit in Statistics

Choose From:

STAB22H3 Statistics I

PSYB07H3 Data Analysis in Psychology

Second Year

6. 3.0 credits in Biology Core Courses

BIOB10H3 Cell Biology

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

BIOB34H3 Animal Physiology

BIOB38H3 Plants and Society

BIOB50H3 Ecology

BIOB51H3 Evolutionary Biology

BIOB90H3 Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOB90H3 is a graduation requirement for students in this program. Please see BIOB90H3 in the Calendar for important information.

7. 1.0 credit in Biology Core Labs

BIOB32H3 Animal Physiology Laboratory

BIOB33H3 Human Development and Anatomy

8. 1.0 credit in Organic Chemistry CoursesCHMB41H3 Organic Chemistry ICHMB42H3 Organic Chemistry II*Third/Fourth Years***9. 2.5 credits in C-level Biology Core Courses**

Choose From:

BIOC15H3 GeneticsBIOC17H3 MicrobiologyBIOC20H3 Principles of VirologyBIOC32H3 Human Physiology IBIOC34H3 Human Physiology IIBIOC39H3 Immunology**10. 1.5 credits in Additional C-level Biology Courses**

Choose From:

ANTC47H3 Human and Primate Comparative OsteologyANTC48H3 Advanced Topics In Human OsteologyBIOC10H3 Cell Biology: Proteins from Life to DeathBIOC12H3 Biochemistry I: Proteins and EnzymesBIOC13H3 Biochemistry II: Bioenergetics and MetabolismBIOC14H3 Genes, Environment and BehaviourBIOC16H3 Evolutionary Genetics and GenomicsBIOC18H3 Looking Inside Cells Current Methods in Cell BiologyBIOC19H3 Animal Developmental BiologyBIOC21H3 Vertebrate Histology: Cells and TissuesBIOC30H3 From Genetic Codes to Fantastic CreaturesBIOC35H3 Principles of ParasitologyBIOC40H3 Plant PhysiologyBIOC58H3 Biological Consequences of Global ChangeBIOC65H3 Environmental ToxicologyBIOC70H3 An Introduction to Bias in STEMM (Science, Technology, Engineering, Mathematics and Medicine)BIOC90H3 Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOC90H3 is a graduation requirement for students in this program. Please see BIOC90H3 in the Calendar for important information.

11. 1.0 credit in D-level Courses

Choose From:

BIOD06H3 Advanced Topics in Neural Basis of Motor ControlBIOD07H3 Advanced Topics and Methods in Neural Circuit AnalysisBIOD12H3 Protein HomeostasisBIOD13H3 Herbology: The Science Behind Medicinal PlantsBIOD15H3 Mechanisms of Gene Regulation in Health and DiseaseBIOD17H3 Seminars in Cellular MicrobiologyBIOD18H3 Practical Approaches in Infection and ImmunityBIOD19H3 Epigenetics in Health and DiseaseBIOD20H3 Special Topics in VirologyBIOD24H3 Human Stem Cell Biology and Regenerative MedicineBIOD25H3 GenomicsBIOD26H3 Fungal Biology and PathogenesisBIOD27H3 Vertebrate EndocrinologyBIOD29H3 Pathobiology of Human DiseaseBIOD32H3 Human Respiratory PathophysiologyBIOD33H3 Comparative Animal PhysiologyBIOD34H3 Conservation PhysiologyBIOD36H3 Advanced Topics in Molecular ParasitologyBIOD37H3 Biology of Plant StressBIOD43H3 Animal Movement and ExerciseBIOD59H3 Models in Ecology, Epidemiology and ConservationBIOD65H3 Pathologies of the Nervous SystemHTLD18H3 Dental SciencesHLTD44H3 Environmental Contaminants, Vulnerability and Toxicity**12. 0.5 credit in Psychology or Health Studies**

Choose From:

HLTA02H3 Foundations in Health Studies I

HLTA03H3 Foundations in Health Studies II

HLTB15H3 Introduction to Health Research Methodology

HLTB16H3 Introduction to Public Health

HLTB20H3 Contemporary Human Evolution and Variation

HLTB22H3 Biological Determinants of Health

HLTB40H3 Health Policy and Health Systems

HLTB44H3 Pathophysiology and Etiology of Disease

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)

- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the UTSC *Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN INTEGRATIVE BIOLOGY (SCIENCE) - SCSPE1030M

Academic Program Supervisor Email: integrative-biology@utsc.utoronto.ca

Co-op Program Coordinator Email: coopsuccess.utsc@utoronto.ca

The Integrative Biology program allows students to pursue a specialist program built on a broad, multi-perspective approach towards understanding biological complexity. This program provides students with a solid foundation in core biological areas (cellular and organismal biology, ecology and conservation, genes and development) and builds on this knowledge base in third and fourth years. A key advantage to this program is that it allows students to pursue specialization in more than one area at the same time, providing students with a broad understanding of biology. Many of the biggest issues facing today's planet require scientists that are capable of bringing different and complementary perspectives to look for solutions, and this program provides the coursework and training to help undergraduates build this knowledge base. Students who are interested in careers in conservation biology, ecology, environmental sciences, cellular/organismal biology, as well as ones interested in careers in medicine and other health professions, will benefit from this program.

Enrolment Requirements

Students apply to the Specialist (Co-op) in Integrative Biology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding BIOA11H3, BIOA12H3), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding MATA02H3) or Statistics. A minimum cumulative grade point average (CGPA) of at least 2.5 or higher is required for admission.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant your admission to the non-co-op without a request.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:**Credits:** 4.0 credits**Required Courses:** Program-specific courses described in the Enrolment Requirements above**Cumulative GPA:** 2.50 or higher across all attempted courses.**Program Requirements:**

This program consists of 14.5 required credits.

BIOC60H3 Winter Ecology

BIOC62H3 Role of Zoos and Aquariums in Conservation

BIOC63H3 Conservation Biology

(BIOC67H3) Inter-University Biology Field Course

EESC04H3 Biodiversity and Biogeography

12. 1.0 Credit of Advanced Courses in Genes and Development

Choose from:

BIOC10H3 Cell Biology: Proteins from Life to Death

BIOC14H3 Genes, Environment and Behaviour

BIOC16H3 Evolutionary Genetics and Genomics

BIOC19H3 Animal Developmental Biology

BIOC31H3 Plant Development and Biotechnology

BIOC90H3 Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOC90H3 is a graduation requirement for students in this program. Please see BIOC90H3 in the Calendar for important information.

13. 1.0 Credit of D-Level Biology Courses

Choose from:

Any BIO D-level course offered by the Biological Sciences department.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB54H3](#)/(COPB51H3)

Work Term Search Courses:

- [COPB55H3](#)/(COPB52H3) (Completed in the semester prior to the first work term)
- [COPC98H3](#) (Taken in the semester prior to the second work term)
- [COPC99H3](#) (Taken in the semester prior to the third work term)

Required Work Term Courses:

- [COPC01H3](#) (First work term)
- [COPC02H3](#) (Second work term)
- [COPC03H3](#) (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) (Fourth work term)
- [COPC05H3](#) (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN LINGUISTICS (ARTS) - SCSPE0506C

For more information, please contact:

Academic Program Advisor: dls-ua@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Linguistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Linguistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [LINA01H3](#) and [LINA02H3](#), plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Linguistics. To be eligible for their first work term, students must be enrolled in the Specialist (Co-op) Program in Linguistics, have completed at least 7.0 credits, including [LINB06H3](#) and [LINB09H3](#), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB58H3**/**COPB51H3**

Work Term Search Courses:

- **COPB59H3**/**COPB52H3** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MATHEMATICS - Comprehensive Stream (SCIENCE) - SCSPE1165U

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.uts@utoronto.ca

MAT Specialist Program Supervisor: M. Cavers michael.cavers@utoronto.ca

The Specialist (Co-operative) Program in Mathematics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Mathematics upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

The **Comprehensive Stream** provides a broad and deep knowledge of mathematics at the undergraduate level. It is the recommended program for students who plan to pursue graduate study in mathematics, but it is also suitable for other career paths.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) Program in Mathematics is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Mathematics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: [CSCA08H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), and [MATA37H3](#).

Required Grades:

Students that meet all of the following requirements will be admitted to a Mathematics Specialist POST* of their choice:

- a. A cumulative grade point average (CGPA) of at least 2.5 over the following courses: [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#); and
- b. A final grade of at least B in two of the following: [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#).

*Students must select one stream of the Mathematics Specialist.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Statistics) or any other of the UTSC Year 1 admissions categories are eligible to apply for a Mathematics Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Mathematics. To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a

CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB56H3/(COPB51H3)

Work Term Search Courses:

- COPB57H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MATHEMATICS - Statistics Stream (SCIENCE) - SCSPE1165M

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

MAT Specialist Program Supervisor: M. Cavers michael.cavers@utoronto.ca

The Specialist (Co-operative) Program in Mathematics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Mathematics upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

The **Statistics Stream** provides greater exposure to statistics, and the areas of mathematics most closely associated with it. This stream prepares students for careers in industry, or for graduate study in certain mathematically-oriented subjects, including statistics and financial mathematics.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) Program in Mathematics is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Mathematics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: [CSCA08H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), and [MATA37H3](#).

Required Grades:

Students that meet all of the following requirements will be admitted to a Mathematics Specialist POST* of their choice:

- A cumulative grade point average (CGPA) of at least 2.5 over the following courses: [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#); and
- A final grade of at least B in two of the following: [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#).

*Students must select one stream of the Mathematics Specialist.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Statistics) or any other of the UTSC Year 1 admissions categories are eligible to apply for a Mathematics Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Mathematics.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB56H3/(COPB51H3)

Work Term Search Courses:

- COPB57H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MATHEMATICS - Teaching Stream (SCIENCE) - SCSPE1166T

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.uts@utoronto.ca

MAT Specialist Program Supervisor: M. Cavers michael.cavers@utoronto.ca

The Specialist (Co-operative) Program in Mathematics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Mathematics upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

The **Teaching Stream** is intended for students with a serious interest in mathematics but whose career objectives lie in mathematics education at the elementary or secondary level.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) Program in Mathematics is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Mathematics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: CSCA08H3, CSCA67H3, MATA22H3, MATA31H3, and MATA37H3.

Required Grades:

Students that meet all of the following requirements will be admitted to a Mathematics Specialist POST* of their choice:

- A cumulative grade point average (CGPA) of at least 2.5 over the following courses: CSCA67H3, MATA22H3, and MATA37H3; and
- A final grade of at least B in two of the following: CSCA67H3, MATA22H3, and MATA37H3.

*Students must select one stream of the Mathematics Specialist.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Statistics) or any other of the UTSC Year 1 admissions categories are eligible to apply for a Mathematics Specialist POST. Admission will be based

on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Mathematics.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB56H3/(COPB51H3)**

Work Term Search Courses:

- **COPB57H3/(COPB52H3)** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MEDICINAL AND BIOLOGICAL CHEMISTRY (SCIENCE) - SCSPE1995C

Academic Program Supervisor of Studies: S. Dalili sh.dalili@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Medicinal and Biological Chemistry is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Biological Chemistry upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 3.5 credits, including [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [\[CHMA11H3 or CHMA12H3\]](#), [\[MATA29H3 or MATA30H3\]](#), [\[MATA35H3 or MATA36H3\]](#), and [\[PHYA10H3 or PHYA11H3\]](#), plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through

ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Medicinal and Biological Chemistry.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is strongly recommended that CHMB16H3 and BIOB12H3 be completed prior to the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- **COPB55H3**/**COPB52H3** (Completed in the semester prior to the first work term)
- **COPC98H3** (Taken in the semester prior to the second work term)
- **COPC99H3** (Taken in the semester prior to the third work term)

Required Work Term Courses:

- **COPC01H3** (First work term)
- **COPC02H3** (Second work term)
- **COPC03H3** (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MENTAL HEALTH STUDIES (SCIENCE) - SCSPE1160N

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Mental Health Studies is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Mental Health upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Program is limited. Admission will require:

- (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and
- (b.) completion of Grade 12 U/M high school biology or equivalent (or [BIOA12H3](#) or equivalent), and
- (c.) completion of a minimum of 4.0 credits, including 1.0 credit in Psychology, and
- (d.) a cumulative GPA of at least 2.75, and
- (e.) either: (1) a final grade of 75% or higher in both [PSYA01H3](#) and [PSYA02H3](#), or (2) a final grade of 64% or higher in both [PSYA01H3](#) and [PSYA02H3](#), and a final grade of 72% or higher in [[PSYB07H3](#) or equivalent] and [PSYB70H3](#).

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Academic Program Requirements

The program requires completion of 12.5 credits as follows, including at least 4.0 credits at the C- or D-level, of which at least 1.0 credit must be at the D-level:

1. Introduction to Psychology (1.0 credit)

[PSYA01H3](#) Introduction to Biological and Cognitive Psychology

[PSYA02H3](#) Introduction to Clinical, Developmental, Personality and Social Psychology

2. Laboratory Methods (2.0 credits)

[PSYB70H3](#) Methods in Psychological Science

[PSYC37H3](#) Psychological Assessment

[PSYC70H3](#) Advanced Research Methods Laboratory

[PSYC73H3](#) Wellness and Resilience Laboratory

3. Statistical Methods (1.0 credit)

[PSYB07H3](#) Data Analysis in Psychology

[[PSYC08H3](#) Advanced Data Analysis in Psychology or [PSYC09H3](#) Applied Multiple Regression in Psychology]

4. [PSYC02H3](#) Scientific Communication in Psychology (0.5 credit)

5. [PSYC01H3](#)/([PSYC85H3](#)) History of Psychology (0.5 credit)

6. Personality and Clinical Psychology (1.0 credit):

[PSYB30H3](#) Introduction to Personality

[PSYB32H3](#) Introduction to Clinical Psychology

7. [PSYB55H3](#) Introduction to Cognitive Neuroscience (0.5 credit)

8. Psychosocial and Psychobiological Breadth (2.5 credits)

Students are required to take 1.5 credits from one group and 1.0 credit from the other group:

Psycho-Social Grouping

PSYB38H3 Introduction to Behaviour Modification
PSYC15H3 Foundations in Community Psychology
PSYC17H3 Meeting Minds: The Psychology of Interpersonal Interactions
PSYC18H3 The Psychology of Emotion
PSYC30H3/(PSYC35H3) Advanced Personality Psychology
PSYC34H3 Happiness and Meaning
PSYC36H3 Psychotherapy
PSYC39H3 Psychology and the Law

Psycho-Biological Grouping

PSYB64H3 Introduction to Behavioural Neuroscience
PSYC31H3 Neuropsychological Assessment
(PSYC33H3) Neuropsychological Rehabilitation
PSYC38H3 Adult Psychopathology
PSYC62H3 Drugs and the Brain

9. Seminars in Psychology at the D-level (1.0 credit):

All PSY D-level courses are considered “seminars,” with the exception of PSYD98Y3. Student must take 1.0 credit of seminars in Psychology at the D-level, of which 0.5 credit must come from the PSY D30-series:

PSYD30H3 Current topics in Personality Psychology
PSYD31H3 Cultural-Clinical Psychology
PSYD32H3 Personality Disorders
PSYD33H3 Current Topics in Clinical Psychology
PSYD35H3 Clinical Psychopharmacology
PSYD37H3 Social Context of Mental Health and Illness
PSYD39H3 Cognitive Behavioural Therapy

10. Additional credits in Psychology at the B-level or higher (1.0 credit)

Supervised study [PSYB90H3 or PSYC90H3 or PSYC93H3] or thesis [PSYD98Y3] courses may be used to fulfill a maximum of 0.5 credit.

11. 1.5 credits from the following courses:

BIOC70H3 An Introduction to Bias in STEMM (Science, Technology, Engineering, Mathematics and Medicine)
HLTA91H3 A Health Campus for Students: Prioritizing Mental Health
HLTB40H3 Health Policy and Health Systems
HLTB41H3 Introduction to the Social Determinants of Mental Health
HLTB42H3 Perspectives of Culture, Illness and Healing
HLTB50H3 Introduction to Health Humanities
HLTC22H3 Health, Aging, and the Life Cycle
HLTC23H3 Issues in Child Health and Development
HLTC42H3 Emerging Health Issues and Policy Needs
HLTC49H3 Indigenous Health
IDSB04H3 Introduction to International/Global Health
IDSC11H3 Issues in Global and International Health
LINB20H3 Sociolinguistics
PHLA11H3 Introduction to Ethics
PHLB07H3 Ethics
PHLB09H3 Biomedical Ethics
PHLB18H3 Ethics of Artificial Intelligence
PHLB81H3 Theories of Mind
PHLC07H3 Death and Dying
PHLC10H3 Topics in Bioethics
SOCB22H3 Sociology of Gender
SOCB49H3 Sociology of Family
SOCB50H3 Deviance and Normality I
SOCC49H3 Indigenous Health

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is strongly recommended that PSYB07H3, PSYB32H3, PSYB55H3, and PSYB70H3 be completed before the first work term, and, PSYC02H3, [PSYC08H3 or PSYC09H3], and PSYC70H3 be completed before the second work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MOLECULAR BIOLOGY AND BIOTECHNOLOGY (SCIENCE) - SCSPE1203C

Academic Program Supervisor: molecular-biology-biotechnology@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Molecular Biology and Biotechnology program strives to help students construct a broad foundation of knowledge across the major disciplines of biology in the first two years of study, and combine this knowledge with an increasingly analytical and reflective approach to learning. Upon this base, students deepen their knowledge of biological processes that occur at the cellular and molecular level through course work of their third and fourth years. This is a laboratory-rich program that integrates an understanding of chemical and physical processes with our complex biological systems. Because of broad training in biology and rigorous cross-training in cognate disciplines, graduates are well-positioned to apply to professional and graduate schools or work in a broad range of government regulatory agencies, clinical or research-focused industries and other careers that require the union of strong analytical and technical skills.

The co-op option of the Molecular Biology and Biotechnology program complements and punctuates academic course work with full-time work terms in research laboratories, government, health care, or in public or private industry. These work terms help students define and refine their career and/or professional school goals. For information on fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

Note: This program was formerly known as the Specialist Co-operative in Cell and Molecular Biology (BSc).

Enrolment Requirements

Students apply to the Specialist Program in Molecular Biology and Biotechnology (Co-op) after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics and with a minimum cumulative grade point average (CGPA) of 2.5 or higher is required for admission.

Application for admission is made to the Office of the Registrar through ACORN, in April/May and July/August. See the UTSC Office of the Registrar's website for more information on program selection

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant your admission to the non-co-op without a request.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements

The program requires students to complete a total of 14.5 credits.

First Year

1. 1.0 Credit of Introductory Biology CoursesBIOA01H3 Life on Earth: Unifying PrinciplesBIOA02H3 Life on Earth: Form, Function and Interactions**2. 1.0 Credit of Introductory Chemistry Courses**CHMA10H3 Introductory Chemistry I: Structure and Bonding[CHMA11H3 Introductory Chemistry I: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]**3. 1.0 Credit in Mathematics**

Choose from:

[MATA29H3 Calculus I for the Life Sciences or MATA30H3 Calculus I for Physical Sciences]

and

[MATA35H3 Calculus II for Biological Sciences or MATA36H3 Calculus II for Physical Sciences]**4. 1.0 Credit in Physics**[PHYA10H3 Physics I for the Physical Sciences or PHYA11H3 Physics I for the Life Sciences][PHYA21H3 Physics II for the Physical Sciences or PHYA22H3 Physics II for the Life Sciences]**5. 0.5 Credit in Statistics**

Choose from:

STAB22H3 Statistics I (this course could also be taken in the second year)PSYB07H3 Data Analysis in Psychology (this course could also be taken in the second year)*Second Year***6. 3.0 Credits of Biology Core Courses**BIOB10H3 Cell BiologyBIOB11H3 Molecular Aspects of Cellular and Genetic ProcessesBIOB34H3 Animal PhysiologyBIOB38H3 Plants and SocietyBIOB50H3 EcologyBIOB51H3 Evolutionary BiologyBIOB90H3 Integrative Research Poster Project (CR/NCR 0.0 credit)****Note:** Completion of BIOB90H3 is a graduation requirement for students in this program. Please see BIOB90H3 in the Calendar for important information.**7. 0.5 Credit of Biology Core Labs**BIOB12H3 Cell and Molecular Biology Laboratory**8. 1.0 Credit of Organic Chemistry Courses**CHMB41H3 Organic Chemistry ICHMB42H3 Organic Chemistry II**Note:** Computer Science might be taken in this year and will enhance Co-op placement options.*Third Year***9. 3.5 Credits of Biology C-level Courses**BIOC12H3 Biochemistry I: Proteins and EnzymesBIOC13H3 Biochemistry II: Bioenergetics and MetabolismBIOC15H3 GeneticsBIOC17H3 MicrobiologyBIOC20H3 Principles of VirologyBIOC23H3 Practical Approaches to BiochemistryBIOC39H3 Immunology (can be completed in third or fourth year)**10. 0.5 Credit in Computer Science**

Choose from:

CSCA08H3 Introduction to Computer Science I (most appropriate course for computer science students)CSCA20H3 Introduction to Programming (most appropriate course for non-computer science students)*Third/Fourth Year***11. 0.5 Credit of Cognate Biology Courses**

Choose from:

BIOC10H3 Cell Biology: Proteins from Life to DeathBIOC14H3 Genes, Environment and BehaviourBIOC18H3 Looking Inside Cells Current Methods in Cell Biology

[BIOC19H3](#) Animal Developmental Biology
[BIOC21H3](#) Vertebrate Histology: Cells and Tissues
[BIOC30H3](#) From Genetic Codes to Fantastic Creatures
[BIOC31H3](#) Plant Development and Biotechnology
[BIOC35H3](#) Principles of Parasitology
[BIOC40H3](#) Plant Physiology
[BIOC70H3](#) An Introduction to Bias in STEMM (Science, Technology, Engineering, Mathematics and Medicine)
[BIOD37H3](#) Biology of Plant Stress
[BIOC90H3](#) Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

***Note:** Completion of [BIOC90H3](#) is a graduation requirement for students in this program. Please see [BIOC90H3](#) in the Calendar for important information.

Fourth Year

12. 0.5 Credit in Advanced Molecular Techniques

[BIOD21H3](#) Advanced Molecular Biology Laboratory

13. 0.5 Credit of D-level Research-Oriented "Cell & Molecular" Course Work

Choose from:

[BIOD12H3](#) Protein Homeostasis
[BIOD13H3](#) Herbology: The Science Behind Medicinal Plants
[BIOD15H3](#) Mechanisms of Gene Regulation in Health and Disease
[BIOD17H3](#) Seminars in Cellular Microbiology
[BIOD18H3](#) Practical Approaches in Infection and Immunity
[BIOD19H3](#) Epigenetics in Health and Disease
[BIOD20H3](#) Special Topics in Virology
[BIOD22H3](#) Molecular Biology of the Stress Response
[BIOD23H3](#) Special Topics in Cell Biology
[BIOD24H3](#) Human Stem Cell Biology and Regenerative Medicine
[BIOD25H3](#) Genomics
[BIOD26H3](#) Fungal Biology and Pathogenesis
[BIOD27H3](#) Vertebrate Endocrinology
[BIOD29H3](#) Pathobiology of Human Disease
[BIOD30H3](#) Plant Research and Biotechnology: Addressing Global Problems
[BIOD36H3](#) Advanced Topics in Molecular Parasitology
[BIOD95H3](#) Supervised Study in Biology
[BIOD98Y3](#) Directed Research in Biology

Note: Any of these courses not used to satisfy this requirement can be used to fulfill the '0.5 credit of Cognate Biology Courses.'

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB54H3](#)/(COPB51H3)

Work Term Search Courses:

- [COPB55H3](#)/(COPB52H3) (Completed in the semester prior to the first work term)
- [COPC98H3](#) (Taken in the semester prior to the second work term)
- [COPC99H3](#) (Taken in the semester prior to the third work term)

Required Work Term Courses:

- [COPC01H3](#) (First work term)
- [COPC02H3](#) (Second work term)
- [COPC03H3](#) (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) (Fourth work term)
- [COPC05H3](#) (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN NEUROSCIENCE - Cellular/Molecular Stream (SCIENCE) - SCSPE1272C

Academic Program Advisor: psychundergrad.uts@utoronto.ca

Co-op Program Coordinator: coopsuccess.uts@utoronto.ca

The Specialist program in Neuroscience is a research-intensive program designed to provide students with strong breadth in the major domains of neuroscience, as well as an opportunity to intensively focus on one of three streams. The **Cellular/Molecular** stream explores the nervous system at its most fundamental level, investigating the influence of genes, signaling molecules, and cellular morphology on the development and maintenance of brain function, predominantly through the use of *in vitro* techniques (e.g., immunohistochemistry, patch clamp).

This is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Neuroscience upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of three Co-op work terms.

Students may not combine a Neuroscience Specialist program with a Minor or Major program from the Department of Biological Sciences.

Enrollment Requirements

Enrolment in the Program is limited. The admission requirements may change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Enrolment takes place in two stages:

Stage 1:

The minimum requirements to be considered for admission are:

1. Completion of 4.0 credits, including BIOA01H3, BIOA02H3, CHMA10H3, [CHMA11H3 or CHMA12H3], PSYA01H3, and PSYA02H3
2. A CGPA of 2.75 or higher.

Students will typically apply to Stage 1 at the end of their first year of study. **When applying, note that the Subject POST code for Stage 1 Co-op is SCSPE1072C.** Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the Office of the Registrar website.

Stage 2:

To complete the program, students must choose one of the three available "Stage 2" streams: the Cognitive Stream, the Cellular/Molecular Stream, or the Systems/Behavioural Stream. Students will typically apply to Stage 2 at the end of their second year of study.

The minimum requirements to be considered for stream admission are:

1. Completion of 10.0 credits including: all Stage 1 course requirements, [MATA29H3 or MATA30H3], and all *Neuroscience Foundations* courses: BIOB10H3, NROB60H3, NROB61H3, [PSYB07H3 or STAB22H3], PSYB55H3, PSYB70H3
2. Completion of 1.0 credit in *Stream Foundations* courses from the following list*:
BIOB11H3 Molecular Aspects of Cellular and Genetic Processes
CSCA20H3 Introduction to Programming
CHMB41H3 Organic Chemistry I
CHMB42H3 Organic Chemistry II
MATA23H3 Linear Algebra
PHYA10H3 Physics I for the Physical Sciences or PHYA11H3 Physics I for the Life Sciences
PSYB51H3 Introduction to Perception
PSYC08H3 Advanced Data Analysis in Psychology
PSYC09H3 Applied Multiple Regression in Psychology

**Note: Students are advised to exercise caution when selecting these courses since some can be applied to all three streams (BIOB11H3, CHMB41H3, PSYB51H3, PSYC08H3), but others can be applied to only one or two streams.*

3. A CGPA of 2.5 or higher.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.
Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Academic Program Requirements

This program requires students to complete 6.5 credits in core courses that are common to all streams. Students will complete a further 7.0 credits, specific to the Cellular/Molecular stream, for a total of 13.5 credits.

CORE (6.5 credits)

1. Scientific Foundations (3.5 credits):

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms *or* CHMA12H3 Advanced General Chemistry]

[MATA29H3 Calculus I for the Life Sciences *or* MATA30H3 Calculus I for Physical Sciences]

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

2. Neuroscience Foundations (3.0 credits):

BIOB10H3 Cell Biology

NROB60H3 Neuroanatomy Laboratory

NROB61H3 Neurophysiology

PSYB55H3 Introduction to Cognitive Neuroscience

[PSYB07H3 Data Analysis in Psychology *or* STAB22H3 Statistics I]

PSYB70H3 Methods in Psychological Science

CELLULAR/MOLECULAR STREAM (7.0 credits)

3. Quantitative Logic and Reasoning (1.0 credit):

PSYC08H3 Advanced Data Analysis in Psychology

and one of the following:

CSCA20H3 Introduction to Programming

[PHYA10H3 Physics I for the Physical Sciences *or* PHYA11H3 Physics I for the Life Sciences]

4. Advanced Foundations (2.5 credits):

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

BIOB12H3 Cell and Molecular Biology Laboratory

CHMB41H3 Organic Chemistry I

NROC36H3 Molecular Neuroscience

NROC69H3 Synaptic Organization & Physiology of the Brain

5. Stream-specific electives (1.0 credit):

two of the following:

BIOC12H3 Biochemistry I: Proteins & Enzymes

BIOC13H3 Biochemistry II: Bioenergetics & Metabolism

BIOC14H3 Genes, Environment and Behaviour
BIOC44H3/(NROC34H3) Neuroethology
CHMB42H3 Organic Chemistry II
NROC61H3 Learning and Motivation
NROC64H3 Sensorimotor Systems
PSYC62H3 Drugs and the Brain

6. Breadth in Neuroscience (1.0 credit):

two of the following:

BIOC44H3/(NROC34H3) Neuroethology*
NROC61H3 Learning and Motivation*
NROC64H3 Sensorimotor Systems*
PSYB51H3 Introduction to Perception
PSYC51H3 Cognitive Neuroscience of Vision
PSYC52H3 Cognitive Neuroscience of Attention
PSYC53H3 Cognitive Neuroscience of Memory
PSYC54H3 Auditory Cognitive Neuroscience
PSYC57H3 Cognitive Neuroscience of Decision Making
PSYC59H3 Cognitive Neuroscience of Language
**only if not used to complete component 5 of the requirements*

7. Laboratory Course (0.5 credit):

one of the following:

NROC60H3 Cellular Neuroscience Laboratory (*recommended*)
NROC63H3 Behavioural Neuroscience Laboratory
NROC90H3 Supervised Study in Neuroscience
NROC93H3 Supervised Study in Neuroscience

8. Capstone Courses (1.0 credit):

two of the following:

BIOD06H3 Advanced Topics in Neural Basis of Motor Control
BIOD07H3 Advanced Topics and Methods in Neural Circuit Analysis
BIOD08H3/(NROD08H3) Theoretical Neuroscience
BIOD65H3 Pathologies of the Nervous System
NROD60H3 Current Topics in Neuroscience
NROD61H3 Emotional Learning Circuits
NROD66H3 Drug Addiction
NROD67H3 Neuroscience of Aging
NROD98Y3 Thesis in Neuroscience*
PSYD66H3 Current Topics in Human Brain & Behaviour
**Note: only 0.5 credit of NROD98Y3 can be counted towards the Capstone course requirement*

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that PSYB07H3, PSYB70H3, NROB60H3, at least one of [BIOB10H3, BIOB11H3], and at least one of [NROB61H3, PSYB55H3] be completed before the first work term. Any of

these courses that are not completed prior to the first work term are recommended to be completed before the second work term. The following additional courses are recommended to be completed before the second work term for the Cellular/Molecular stream: BIOB12H3, CHMB41H3, and CHMB42H3. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN NEUROSCIENCE - Cognitive Stream (SCIENCE) - SCSPE1172C

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist program in Neuroscience is a research-intensive program designed to provide students with strong breadth in the major domains of neuroscience, as well as an opportunity to intensively focus on one of three streams. The **Cognitive** stream focuses on understanding the neural basis of human cognition (e.g., language, memory, attention, decision-making) predominantly through the use of patient neuropsychology and neuroimaging techniques (e.g., magnetic resonance imaging (MRI), electroencephalography (EEG)).

This is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic

field related to Neuroscience upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of three Co-op work terms.

Students may not combine a Neuroscience Specialist program with a Minor or Major program from the Department of Biological Sciences.

Enrolment Requirements

Enrolment in the Program is limited. The admission requirements may change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Enrolment takes place in two stages:

Stage 1:

The minimum requirements to be considered for admission are:

1. Completion of 4.0 credits, including BIOA01H3, BIOA02H3, CHMA10H3, [CHMA11H3 or CHMA12H3], PSYA01H3, and PSYA02H3
2. A CGPA of 2.75 or higher.

Students will typically apply to Stage 1 at the end of their first year of study. **When applying, note that the Subject POST code for Stage 1 Co-op is SCSPE1072C.** Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the Office of the Registrar website.

Stage 2:

To complete the program, students must choose one of the three available "Stage 2" streams: the Cognitive Stream, the Cellular/Molecular Stream, or the Systems/Behavioural Stream. Students will typically apply to Stage 2 at the end of their second year of study.

The minimum requirements to be considered for stream admission are:

1. Completion of 10.0 credits including: all Stage 1 course requirements, [MATA29H3 or MATA30H3], and all *Neuroscience Foundations* courses: BIOB10H3, NROB60H3, NROB61H3, [PSYB07H3 or STAB22H3], PSYB55H3, PSYB70H3
2. Completion of 1.0 credit in *Stream Foundations* courses from the following list*:
BIOB11H3 Molecular Aspects of Cellular and Genetic Processes
CSCA20H3 Introduction to Programming
CHMB41H3 Organic Chemistry I
CHMB42H3 Organic Chemistry II
MATA23H3 Linear Algebra
PHYA10H3 Physics I for the Physical Sciences or PHYA11H3 Physics I for the Life Sciences]
PSYB51H3 Introduction to Perception
PSYC08H3 Advanced Data Analysis in Psychology
PSYC09H3 Applied Multiple Regression in Psychology

**Note: Students are advised to exercise caution when selecting these courses since some can be applied to all three streams (BIOB11H3, CHMB41H3, PSYB51H3, PSYC08H3), but others can be applied to only one or two streams.*

3. A CGPA of 2.5 or higher.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

This program requires students to complete 6.5 credits in core courses that are common to all streams. Students will complete a further 7.0 credits, specific to the Cognitive stream, for a total of 13.5 credits.

CORE (6.5 credits)

1. Scientific Foundations (3.5 credits):

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms *or* CHMA12H3 Advanced General Chemistry]

[MATA29H3 Calculus I for the Life Sciences *or* MATA30H3 Calculus I for Physical Sciences]

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

2. Neuroscience Foundations (3.0 credits):

BIOB10H3 Cell Biology

NROB60H3 Neuroanatomy Laboratory

NROB61H3 Neurophysiology

PSYB55H3 Introduction to Cognitive Neuroscience

[PSYB07H3 Data Analysis in Psychology *or* STAB22H3 Statistics I]

PSYB70H3 Methods in Psychological Science

COGNITIVE STREAM (7.0 credits)

3. Quantitative and Methodological Skills (1.5 credits):

PSYC02H3 Scientific Communication in Psychology

PSYC70H3 Advanced Research Methods Laboratory

[PSYC08H3 Advanced Data Analysis in Psychology *or* PSYC09H3 Applied Multiple Regression in Psychology]

4. Advanced Programming (1.5 credits):

MATA23H3 Linear Algebra

[[CSCA08H3 Introduction to Computer Science I *and* CSCA48H3 Introduction to Computer Science II]* *or* [PSYB03H3 Introduction to Computers in Psychological Research *and* PSYC03H3 Introduction to Computers in Psychological Research: Advanced Topics]]

**Note: students are strongly advised to choose the [PSYB03H3 and PSYC03H3] pairing.*

5. Advanced Foundations (1.5 credits):

PSYB51H3 Introduction to Perception

and two of the following:

PSYC51H3 Cognitive Neuroscience of Vision

PSYC52H3 Cognitive Neuroscience of Attention
PSYC53H3 Cognitive Neuroscience of Memory
PSYC54H3 Auditory Cognitive Neuroscience
PSYC57H3 Cognitive Neuroscience of Decision Making
PSYC59H3 Cognitive Neuroscience of Language

6. Breadth in Neuroscience (1.0 credit):

two of the following (at least 0.5 credit must be at the C-level):

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes
BIOC44H3/(NROC34H3) Neuroethology
CHMB41H3 Organic Chemistry I
NROC36H3 Molecular Neuroscience
NROC61H3 Learning and Motivation
NROC64H3 Sensorimotor Systems
NROC69H3 Synaptic Organization & Physiology of the Brain

7. Laboratory Course (0.5 credit):

one of the following:

NROC90H3 Supervised Study in Neuroscience
NROC93H3 Supervised Study in Neuroscience
PSYC75H3 Cognitive Psychology Laboratory
PSYC76H3 Brain Imaging Laboratory

8. Capstone Courses (1.0 credit):

two of the following:

PSYD17H3 Social Neuroscience
PSYD50H3 Current Topics in Memory and Cognition
PSYD51H3 Current Topics in Perception
PSYD54H3 Current Topics in Visual Recognition
PSYD55H3 Functional Magnetic Resonance Imaging Laboratory
PSYD62H3 Neuroscience of Pleasure and Reward
PSYD66H3 Current Topics in Human Brain & Behaviour
NROD98Y3 Thesis in Neuroscience*

**Note: only 0.5 credit of NROD98Y3 can be counted towards the Capstone course requirement*

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that PSYB07H3, PSYB70H3, NROB60H3, at least one of [BIOB10H3, BIOB11H3], and at least one of [NROB61H3, PSYB55H3] be completed before the first work term. Any of these courses that are not completed prior to the first work term are recommended to be completed before the second work term. The following additional courses are recommended to be completed before the second work term for the Cognitive stream: PSYC02H3, [PSYC08H3 *or* PSYC09H3], and PSYC70H3. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB54H3**/**COPB51H3**

Work Term Search Courses:

- **COPB55H3**/**COPB52H3** (Completed in the semester prior to the first work term)
- **COPC98H3** (Taken in the semester prior to the second work term)
- **COPC99H3** (Taken in the semester prior to the third work term)

Required Work Term Courses:

- **COPC01H3** (First work term)
- **COPC02H3** (Second work term)
- **COPC03H3** (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN NEUROSCIENCE - Systems/Behavioural Stream (SCIENCE) - SCSPE1372C

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist Program in Neuroscience is a research-intensive program designed to provide students with strong breadth in the major domains of neuroscience, as well as an opportunity to intensively focus on one of three streams. The **Systems/Behavioural** stream examines the neural mechanisms underlying behaviour and how brain circuits work together to analyze external stimuli, internal biological states, and past experiences in order to coordinate appropriate responses, predominantly through the use of *in vivo* approaches in behaving subjects (e.g., optogenetics, chemogenetics).

This is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Neuroscience upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of three Co-op work terms.

Students may not combine a Neuroscience Specialist program with a Minor or Major program from the Department of Biological Sciences.

Enrolment Requirements

Enrolment in the Program is limited. The admission requirements may change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Enrolment takes place in two stages:

Stage 1:

The minimum requirements to be considered for admission are:

1. Completion of 4.0 credits, including BIOA01H3, BIOA02H3, CHMA10H3, [CHMA11H3 or CHMA12H3], PSYA01H3, and PSYA02H3
2. A CGPA of 2.75 or higher.

Students will typically apply to Stage 1 at the end of their first year of study. **When applying, note that the Subject POST code for Stage 1 Co-op is SCSPE1072C.** Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the Office of the Registrar website.

Stage 2:

To complete the program, students must choose one of the three available "Stage 2" streams: the Cognitive Stream, the Cellular/Molecular Stream, or the Systems/Behavioural Stream. Students will typically apply to Stage 2 at the end of their second year of study.

The minimum requirements to be considered for stream admission are:

1. Completion of 10.0 credits including: all Stage 1 course requirements, [MATA29H3 or MATA30H3], and all *Neuroscience Foundations* courses: BIOB10H3, NROB60H3, NROB61H3, [PSYB07H3 or STAB22H3], PSYB55H3, PSYB70H3
2. Completion of 1.0 credit in *Stream Foundations* courses from the following list*:
BIOB11H3 Molecular Aspects of Cellular and Genetic Processes
CSCA20H3 Introduction to Programming
CHMB41H3 Organic Chemistry I
CHMB42H3 Organic Chemistry II
MATA23H3 Linear Algebra
PHYA10H3 Physics I for the Physical Sciences or PHYA11H3 Physics I for the Life Sciences
PSYB51H3 Introduction to Perception
PSYC08H3 Advanced Data Analysis in Psychology
PSYC09H3 Applied Multiple Regression in Psychology

**Note: Students are advised to exercise caution when selecting these courses since some can be applied to all three streams (BIOB11H3, CHMB41H3, PSYB51H3, PSYC08H3), but others can be applied to only one or two streams.*

3. A CGPA of 2.50 or higher.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.
Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

This program requires students to complete 6.5 credits in core courses that are common to all streams. Students will complete a further 7.0 credits, specific to the Systems/Behavioural stream, for a total of 13.5 credits.

CORE (6.5 credits)

1. Scientific Foundations (3.5 credits):

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms *or* CHMA12H3 Advanced General Chemistry]

[MATA29H3 Calculus I for the Life Sciences *or* MATA30H3 Calculus I for Physical Sciences]

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

2. Neuroscience Foundations (3.0 credits):

BIOB10H3 Cell Biology

NROB60H3 Neuroanatomy Laboratory

NROB61H3 Neurophysiology

PSYB55H3 Introduction to Cognitive Neuroscience

[PSYB07H3 Data Analysis in Psychology *or* STAB22H3 Statistics I]

PSYB70H3 Methods in Psychological Science

SYSTEMS/BEHAVIOURAL STREAM (7.0 credits)

3. Quantitative Logic and Reasoning (1.0 credit):

PSYC08H3 Advanced Data Analysis in Psychology

and one of the following:

CSCA20H3 Introduction to Programming

[PHYA10H3 Physics I for the Physical Sciences *or* PHYA11H3 Physics I for the Life Sciences]

4. Advanced Foundations (2.5 credits):

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

BIOB12H3 Cell and Molecular Biology Laboratory

NROC61H3 Learning and Motivation

and two of the following:

BIOC44H3/(NROC34H3) Neuroethology

NROC64H3 Sensorimotor Systems

NROC69H3 Synaptic Organization & Physiology of the Brain

5. Stream-specific electives (1.0 credit):

CHMB41H3 Organic Chemistry I

and one of the following:

BIOC14H3 Genes, Environment and Behaviour

CHMB42H3 Organic Chemistry II

NROC36H3 Molecular Neuroscience

PSYC62H3 Drugs and the Brain

6. Breadth in Neuroscience (1.0 credit):

two of the following:

NROC36H3 Molecular Neuroscience*

NROC69H3 Synaptic Organization & Physiology of the Brain*

PSYB51H3 Introduction to Perception

PSYC51H3 Cognitive Neuroscience of Vision

PSYC52H3 Cognitive Neuroscience of Attention

PSYC53H3 Cognitive Neuroscience of Memory

PSYC54H3 Auditory Cognitive Neuroscience

PSYC57H3 Cognitive Neuroscience of Decision Making

PSYC59H3 Cognitive Neuroscience of Language

**only if not used to complete components 4 or 5 of the requirements*

7. Laboratory Course (0.5 credit):

one of the following:

NROC60H3 Cellular Neuroscience Laboratory

NROC63H3 Behavioural Neuroscience Laboratory (*recommended*)

NROC90H3 Supervised Study in Neuroscience

NROC93H3 Supervised Study in Neuroscience

PSYC74H3 Human Movement Laboratory

8. Capstone Courses (1.0 credit):

two of the following:

BIOD06H3 Advanced Topics in Neural Basis of Motor Control

BIOD07H3 Advanced Topics and Methods in Neural Circuit Analysis

BIOD08H3/(NROD08H3) Theoretical Neuroscience

BIOD45H3 Animal Communication

BIOD65H3 Pathologies of the Nervous System

NROD60H3 Current Topics in Neuroscience

NROD61H3 Emotional Learning Circuits

NROD66H3 Drug Addiction

NROD67H3 Neuroscience of Aging

NROD98Y3 Thesis in Neuroscience*

PSYD66H3 Current Topics in Human Brain & Behaviour

**Note: only 0.5 credit of NROD98Y3 can be counted towards the Capstone course requirement*

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that PSYB07H3, PSYB70H3, NROB60H3, at least one of [BIOB10H3, BIOB11H3], and at least one of [NROB61H3, PSYB55H3] be completed before the first work term. Any of these courses that are not completed prior to the first work term are recommended to be completed before the second work term. The following additional courses are recommended to be completed before the second work term for the Systems/Behavioural stream: BIOB12H3, CHMB41H3, and CHMB42H3. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB54H3**/**COPB51H3**

Work Term Search Courses:

- **COPB55H3**/**COPB52H3** (Completed in the semester prior to the first work term)
- **COPC98H3** (Taken in the semester prior to the second work term)
- **COPC99H3** (Taken in the semester prior to the third work term)

Required Work Term Courses:

- **COPC01H3** (First work term)
- **COPC02H3** (Second work term)
- **COPC03H3** (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN PHILOSOPHY (ARTS) - SCSPE0231C

For more information, please contact:

Academic Program Advisor: jason.ferreira@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Philosophy is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Philosophy upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Philosophy.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the Specialist (Co-op) Program in Philosophy, have completed at least 7.0 credits, including one of PHLB50H3, PHLB55H3 or MATC09H3, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- **COPB59H3**/**COPB52H3** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN PSYCHOLINGUISTICS (SCIENCE) - SCSPEPLINC

Academic Program Advisor: dls-ua@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Psycholinguistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Psycholinguistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Note: Effective Fall 2024, the Specialist in Psycholinguistics will be designated as a Science program. Students who are enrolled in the program prior to Fall 2024 may consult with the Academic Program Advisor for advice.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [LINA01H3](#) and [LINA02H3](#), plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Psycholinguistics. To be eligible for their first work term, students must be enrolled in the Specialist (Co-op) Program in Psycholinguistics and have completed at least 9.0 credits. It is strongly recommended that LINB06H3 and LINB09H3 be completed before the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN PSYCHOLOGY (SCIENCE) - SCSPE1160A

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Psychology is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Psychology upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Program is limited. Admission will require:

- (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and
- (b.) completion of Grade 12 U/M high school biology or equivalent (or BIOA12H3 or equivalent), and
- (c.) completion of a minimum of 4.0 credits, including 1.0 credit in Psychology, and
- (d.) a cumulative GPA of at least 2.75, and
- (e.) either (1) a final grade of 75% or higher in both PSYA01H3 and PSYA02H3, or (2) a final grade of 64% or higher in both PSYA01H3 and PSYA02H3, and a final grade of 72% or higher in [PSYB07H3 or equivalent] and PSYB70H3.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

The program requires students to complete a total of 12.5 credits, including at least 4.0 credits at the C- or D-level, of which at 1.0 credit must be at the D-level:

1. Introduction to Psychology (1.0 credit)

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

2. Laboratory Methods (1.5 credits)

PSYB70H3 Methods in Psychological Science

PSYC70H3 Advanced Research Methods Laboratory

and 0.5 credit from among the following:

PSYC71H3 Social Psychology Laboratory

PSYC72H3 Developmental Psychology Laboratory

PSYC74H3 Human Movement Laboratory

PSYC75H3 Cognitive Psychology Laboratory

PSYC76H3 Brain Imaging Laboratory

3. Statistical Methods (1.0 credit)

PSYB07H3 Data Analysis in Psychology

PSYC08H3 Advanced Data Analysis in Psychology *or* PSYC09H3 Applied Multiple Regression in Psychology]

4. PSYC02H3 Scientific Communication in Psychology (0.5 credit)

5. PSYC01H3/(PSYC85H3) History of Psychology (0.5 credit)

6. Breadth in Psychology at the B-level and C-level (4.0 credits)

Students are required to take 2.0 credits at the B- or C-level from each of the content groups listed below:

(a) Social and Developmental (courses listed in the 10- and 20-series)

(b) Perception, Cognition and Physiology (courses listed in the 50- and 60-series)

7. Seminars in Psychology at the D-level (1.0 credit)

All PSY D-level courses are considered "seminars", with the exception of PSYD98Y3. Students must take 0.5 credit from each grouping below:

(a) Social and Developmental (courses listed in the 10- and 20-series)

(b) Perception, Cognition and Physiology (courses listed in the 50- and 60-series)

8. Additional credits in Psychology at the B-level or higher (3.0 credits)

Of the 3.0 credits, at least 1.0 credit must be at the C-level. Supervised study [PSYB90H3 *or* PSYC90H3 *or* PSYC93H3] *or* thesis [PSYD98Y3] courses may be used to fulfill a maximum of 0.5 credit.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that PSYB07H3, PSYB70H3, and 1.0 additional PSY B-level credits be completed before the first work term, and PSYC02H3, [PSYC08H3 or PSYC09H3], and PSYC70H3 be completed before the second work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN STATISTICS - Quantitative Finance Stream (SCIENCE) - SCSPE2299T

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca
Co-op Program Coordinator: C. Dixon coopsuccess.utsc@utoronto.ca

The Specialist (Co-operative) Program in Statistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Statistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) Program in Statistics is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Statistics.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB56H3**/(COPB51H3)

Work Term Search Courses:

- **COPB57H3**/(COPB52H3) - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN STATISTICS - Statistical Machine Learning and Data Science Stream (SCIENCE) - SCSPE2289Y

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca
Co-op Program Coordinator: C. Dixon coopsuccess.utsc@utoronto.ca

The Specialist (Co-operative) Program in Statistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Statistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Arts and Science Co-op Courses

COPB50H3 - Foundations for Success in Arts and Science Co-op

This course provides students in their first-year of Arts and Science Co-op to develop skills and tools to manage and thrive during the job search and in the workplace throughout the semester. In addition, students begin to build their job search tool kit, examine their strengths and areas of development, discover the skills employers are seeking in undergraduate Co-op students and in employees in general, and explore possible pathways to achieving their Co-op work terms and long term academic or career goals. Students will learn and practice strategies to best present their skills, knowledge and experience in foundational job search documents. The concept of interviewing is also introduced.

This course is a compulsory requirement for the Arts and Science Co-op programs. Students need to pass the course before proceeding to seek for a Co-op work term, therefore, this course may be repeated.

Prerequisite: Restricted to students in the Arts and Science Co-op programs.

Exclusion: COPB10Y3/(COPD07Y3), (COPB36H3); (COPD01H3)

Course Experience: University-Based Experience

Note: Students should plan to complete this course in the first year of study in their selected Arts and Science Co-op program.

COPB53H3 - Continuing your Co-op Job Search

This course is for students in Arts & Science Co-op who have undertaken a first work term search and successfully completed COPB55H3 or COPB57H3 or COPB59H3, or (COPB52H3) but have not embarked on a first work term experience. Students in this course will continue with job search activities and receive additional support factoring in their overall learning.

Prerequisite: COPB55H3 or COPB57H3 or COPB59H3 or (COPB52H3); restricted to students in the Arts and Science Co-op programs.

Course Experience: Partnership-Based Experience

COPB54H3 - Becoming Job Search Ready: Science Co-op

This course builds on the foundational job search concepts introduced in COPB50H3, providing opportunities to refine application strategies and practice interviewing based on industry hiring practices for organizations hiring Science co-op students. Students experience a Co-op job search cycle by reviewing, selecting, and applying to job postings weekly and receiving feedback similar to when participating in job search. With this feedback, and the support of your Coordinator, students make adjustments to their job search approach and develop strategies for success to be used in the following terms for both job applications and interview performance. The importance of a job search network and research to tailor and prepare during your job search, as well as essential skills for success in the workplace and dynamics of workplace culture are also examined.

This course is a compulsory requirement for the Arts and Science Co-op programs. Students need to pass the

course before proceeding to seek for a Co-op work term, therefore, this course may be repeated.

Prerequisite: COPB50H3/(COPD01H3); restricted to students in the Arts and Science Co-op programs in Science Co-op programs - Life Science, Life Science (Health Sciences stream) Physical and Environmental Sciences, Physical and Environmental Sciences (Health Sciences stream), Psychological and Health Studies, and Psychological and Health Studies (Health Sciences stream).

Exclusion: (COPD03H3), (COPB51H3), COPB56H3, COPB58H3

Course Experience: University-Based Experience

COPB55H3 - Finding Your First Work Term and Getting Workplace Ready: Science Co-op

This course is taken when students are searching for their first co-op work term. During this semester, Science Co-op students are applying to job postings on the Co-op Job Board, attending employer events and interviews until they secure a work term. This course provides students with topical information and insights about the labour market and Co-op employers currently hiring, provides job search trends, job search support and coaching and in a combination of in-class, group and one-on-one appointments.

Students will learn how to onboard and transition to the workplace and navigate situations that may arise on work term in various sectors. Drawing upon the job search knowledge and strategies from previous co-op courses, this course is designed to provide students who are competing for a first Co-op work term with resources and support necessary to meet their goal of securing a co-op work term and be successful in the workplace.

Prerequisite: COPB54H3/(COPB51H3); restricted to students in the Arts and Science Co-op programs in Science Co-op programs - Life Science, Life Science (Health Sciences stream) Physical and Environmental Sciences, Physical and Environmental Sciences (Health Sciences stream), Psychological and Health Studies, and Psychological and Health Studies (Health Sciences stream)

Exclusion: (COPD11H3), (COPB52H3), COPB57H3, COPB59H3

Course Experience: Partnership-Based Experience

COPB56H3 - Becoming Job Search Ready: CMS Co-op

This course builds on the foundational job search concepts introduced in COPB50H3, providing opportunities to refine application strategies and practice interviewing in various formats, based on industry hiring practices for organizations hiring Computer Science,

Mathematics and Statistics co-op students. Students experience a Co-op job search cycle by reviewing, selecting, and applying to job postings weekly and receiving feedback similar to when participating in job search. With this feedback, and the support of your Coordinator, students make adjustments to their job search approach and develop strategies for success to be used in the following terms for both job applications and interview performance. The importance of a job search network and research to tailor and prepare during your job search, as well as essential skills for success in the workplace and dynamics of workplace culture are also examined.

This course is a compulsory requirement for the Arts and Science Co-op programs. Students need to pass the course before proceeding to seek for a Co-op work term, therefore, this course may be repeated.

Prerequisite: COPB50H3/(COPD01H3); restricted to students in the Arts and Science Co-op programs in CMS Co-op programs - Computer Science, Mathematics or Statistics.

Exclusion: (COPD03H3), (COPB51H3), COPB56H3, COPB58H3

Course Experience: University-Based Experience

COPB57H3 - Finding Your First Work Term and Getting Workplace Ready: CMS Co-op

This course is taken when students are searching for their first co-op work term. During this semester, Computer Science, Mathematics and Statistics Co-op students are applying to job postings on the Co-op Job Board, attending employer events and interviews until they secure a work term. This course provides students with topical information and insights about the labour market and Co-op employers currently hiring, provides job search trends, job search support and coaching and in a combination of in-class, group and one-on-one appointments.

Computer Science, Mathematics and Statistics Co-op Students will learn how to onboard and transition to the workplace and navigate situations that may arise on work term in various sectors. Drawing upon the job search knowledge and strategies from previous co-op courses this course is designed to provide students who are competing for a first Co-op work term with resources and support necessary to meet their goal of securing a co-op work term and be successful in the workplace.

Prerequisite: COPB56H3/(COPB51H3), restricted to students in the Arts and Science Co-op programs in CMS Co-op programs - Computer Science, Mathematics or Statistics.

Exclusion: (COPD11H3), (COPB52H3), COPB55H3, COPB59H3

Course Experience: Partnership-Based Experience

COPB58H3 - Becoming Job Search Ready: Arts Co-op

This course builds on the foundational job search concepts introduced in [COPB50H3](#), providing opportunities to refine application strategies and practice interviewing in various formats, based on industry hiring practices for organizations hiring Arts co-op students. Students experience a Co-op job search cycle by reviewing, selecting, and applying to job postings weekly and receiving feedback similar to when participating in job search. With this feedback, and the support of your Coordinator, students make adjustments to their job search approach and develop strategies for success to be used in the following terms for both job applications and interview performance. programs.

Exclusion: ([COPD11H3](#)), ([COPB52H3](#)), [COPB57H3](#), [COPB55H3](#)

Course Experience: Partnership-Based Experience

COPC01H3 - Arts and Science Co-op Work Term 1

While working full time with a Co-op employer, students receive support and guidance from Co-op coordinators, faculty and peers for success in the workplace, and to share and reflect on their work term experiences. A culminating project is completed to bring together industry and academic knowledge and showcase the work and skill development throughout each Co-op work experience. Students are enrolled into this course once hired for a first Co-op work term.

Prerequisite: [COPB55H3](#) or [COPB57H3](#) or [COPB59H3](#) or ([COPB52H3](#)) and permission from the Arts and Science Co-op Office; restricted to students enrolled in Arts and Science Co-op programs.

Exclusion: [COPC03H3](#) (if taken prior to 2025), [COPC05H3](#) (if taken prior to 2025), ([COPC13H3](#)), ([COPC20H3](#)), ([COPC21H3](#)), ([COPC14H3](#)), ([COPC30H3](#)), ([COPC40H3](#))

Course Experience: Professional Work Term

Note: Students may receive a No Credit (NCR) in previous instance of the course and Credit (CR) while in different work locations.

COPC02H3 - Arts and Science Co-op Work Term 2

While working full time with a Co-op employer, students receive support and guidance from Co-op coordinators, faculty and peers for success in the workplace, and to share and reflect on their work term experiences. A culminating project is completed to bring together industry and academic knowledge and showcase the work and skill development throughout each Co-op work experience. Students are enrolled into this course once hired for a second Co-op work term.

Prerequisite: [COPC01H3](#) and permission from the Arts and Science Co-op Office; restricted to students in Arts and Science Co-op programs.

Exclusion: [COPC01H3](#) (if taken prior to 2025), [COPC03H3](#) (if taken prior to 2025); [COPC05H3](#) (if taken prior to 2025), ([COPC13H3](#)), ([COPC20H3](#)), ([COPC21H3](#)), ([COPC14H3](#)), ([COPC30H3](#)), ([COPC40H3](#))

Course Experience: Professional Work Term

Note: Students may receive a No Credit (NCR) in previous instance of the course and Credit (CR) while in different work locations.

COPC03H3 - Arts and Science Co-op Work Term 3

While working full time with a Co-op employer, students receive support and guidance from Co-op coordinators, faculty and peers for success in the workplace and their work term experiences in the co-op program. A culminating project is completed to bring together industry and academic knowledge and showcase the work and skill development throughout each Co-op work experience. Students are enrolled into this course once hired for their third and often final work term in the program.

Prerequisite: COPC02H3 and permission from the Arts and Science Co-op Office; restricted to students in Arts and Science Co-op programs.

Exclusion: COPC01H3 (if taken prior to 2025); COPC05H3 (if taken prior to 2025), (COPC13H3), (COPC20H3), (COPC21H3), (COPC14H3), (COPC30H3), (COPC40H3)

Course Experience: Professional Work Term

Note: Students may receive a No Credit (NCR) in previous instance of the course and Credit (CR) while in different work locations.

COPC04H3 - Additional Arts and Science Co-op Work Term 4

While working full time with a Co-op employer, students receive support and guidance from Co-op coordinators, faculty and peers for success in the workplace, and to share and reflect on their work term experiences. A culminating project is completed to bring together industry and academic knowledge and showcase the work and skill development throughout each Co-op work experience. Students are enrolled into this course once hired for work terms beyond the minimum of 3 Co-op work terms required for their program.

Prerequisite: COPC03H3 and permission from the Arts and Science Co-op Office; restricted to students in Arts and Science Co-op programs.

Exclusion: COPC01H3 (if taken prior to 2025), COPC03H3 (if taken prior to 2025), COPC05H3 (if taken prior to 2025), (COPC13H3), (COPC20H3), (COPC21H3), (COPC14H3), (COPC30H3), (COPC40H3)

Course Experience: Professional Work Term

Note: Students may receive a No Credit (NCR) in previous instance of the course and Credit (CR) while in different work locations.

COPC05H3 - Additional Arts and Science Co-op Work Term 5

While working full time with a Co-op employer, students receive support and guidance from Co-op coordinators, faculty and peers for success in the workplace, and to share and reflect on their work term experiences. A culminating project is completed to bring together industry

and academic knowledge and showcase the work and skill development throughout each Co-op work experience. Students are enrolled into this course once hired for a Co-op work term. Arts and Science Co-op students will complete this course if completing an additional work term in the program - beyond the minimum requirement of 3 work terms for the Co-op program. Students can complete up to 5 work terms (2 additional terms).

Prerequisite: COPC04H3 and permission from the Arts and Science Co-op Office; restricted to students in Arts and Science Co-op programs.

Exclusion: COPC01H3 (if taken prior to 2025), COPC03H3 (if taken prior to 2025), (COPC13H3), (COPC20H3), (COPC21H3), (COPC14H3), (COPC30H3), (COPC40H3)

Course Experience: Professional Work Term

Note: Students may receive a No Credit (NCR) in previous instance of the course and Credit (CR) while in different work locations.

COPC98H3 - Integrating Your Work Term Experience Part I

This course is designed to provide students who have completed their first work term with tools and strategies to effectively integrate their recent work term experience into their job search documents, as well as practice articulating their new or enhanced skills and experience in an interview setting. Students are provided with opportunities to practice and refine their approach as they begin to seek their next Co-op work term. In class Apply Together sessions and one-on-one appointment consultations with your Work Term Engagement Coordinator will provide you with semester specific market trends, tools and resources to succeed in your job search. There are also online and in person forums for sharing work term and job search experience with junior Co-op students and peers.

Prerequisite: COPB55H3/(COPB52H3) and completion of one work term; restricted to students in the Arts and Science Co-op Programs.

Exclusion: (COPD12H3)

Course Experience: Partnership-Based Experience

COPC99H3 - Integrating Your Work Term Experience Part II

This course is designed to provide students who have completed 2 work terms or more with tools and strategies to effectively integrate their recent work term experiences into their job search documents as well as practice articulating their new or enhanced skills and experience in an interview setting. Students are provided with opportunities to practice and refine their approach as they job search/compete for another Co-op work term. In class Apply Together sessions and one-on-one appointment consultations with your Work Term Engagement Coordinator will provide you with semester specific market

trends, tools and resources to succeed in your job search. Having the experience of job searching and at least 8 months of work term experience, students share, compare, and contrast their individual experiences. There are also online and in person forums for sharing their work term and job search experience with junior Co-op students.

Prerequisite: COPC98H3/(COPD12H3) and completion of at least two work terms; restricted to students in the Arts and Science Co-op programs.

Exclusion: (COPD13H3)

Course Experience: Partnership-Based Experience

Note: Students complete this course each time they are job searching for a work term beyond their second work term.

ACM Program Manager: Email: acm-pm@utsc.utoronto.ca

The Department of Arts, Culture and Media (ACM) houses eight distinct disciplines: Art History and Visual Culture, Arts Management, Journalism, Media Studies, New Media Studies, Music, Studio Art, and Theatre and Performance. Faculty research and practice across a wide range of fields, and students benefit from specialized arts facilities such as the

Leigha Lee Browne Theatre and the Doris McCarthy Gallery. ACM also hosts an array of special events and cultural programming through the year, and students are invited to join our departmental students' association, ACMSA.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Arts, Culture and Media Courses

ACMB10H3 - Equity and Diversity in the Arts

Equity and diversity in the arts promotes diversity of all kinds, including those of race, gender, socio-economic status, sexual orientation or identity, age, ability or disability, religion, and aesthetics, tradition or practice. This course examines issues of equity and diversity and how they apply across all disciplines of arts, culture and media through critical readings and analysis of cultural policy.

Prerequisite: Any 4.0 credits

Exclusion: (VPAB07H3)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in Specialist and Major Programs offered by the Department of Arts, Culture & Media. Other students will be admitted as space permits.

ACMC01H3 - ACMEE Applied Practice I

A study of the arts, culture and/or media sector through reflective practice. Students will synthesize their classroom and work place / learning laboratory experiences in a highly focused, collaborative, and facilitated way through a series of assignments and discussions.

Prerequisite: 9.0 credits including [VPAB16H3](#) and [VPAB17H3](#) (or its equivalent with instructor permission) and successful completion of required Field Placement Preparation Activities

Corequisite: Field Placement I (may be taken as a prerequisite with Program Director's permission)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: This course will be graded as a CR if a student successfully completes their internship; and as NCR is the placement was unsuccessful. The NCR will impact the CGPA and count as a 0.0 CGPA value on a transcript.

ACMD01H3 - ACMEE Applied Practice II

An advanced study of the arts, culture and/or media sector through reflective practice. Students will further engage with work places as "learning laboratories", and play a mentorship role for students in earlier stages of the experiential education process.

Prerequisite: [ACMC01H3](#)

Corequisite: Field Placement II (may be taken as a prerequisite with Program Director's permission)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: This course will be graded as a CR if a student successfully completes their internship; and as NCR is the placement was unsuccessful. The NCR will impact the CGPA and count as a 0.0 CGPA value on a transcript.

ACMD02H3 - ACMEE Applied Practice III

An advanced study of the arts, culture and/or media sector through reflective practice. Students will further synthesize their classroom and work place / learning laboratory experiences, and play a mentorship role for students in earlier stages of the experiential education process.

Prerequisite: [ACMD01H3](#)

Corequisite: Field Placement III (may be taken as a prerequisite with Program Director's permission)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: This course will be graded as a CR if a student successfully completes their internship; and as NCR is the placement was unsuccessful. The NCR will impact the CGPA and count as a 0.0 CGPA value on a transcript.

ACMD91H3 - Supervised Readings

Independent study of an advanced and intensive kind, under the direction of a faculty member. The material studied should bear some significant relation to the student's previous work, and should differ significantly in content and/or concentration from topics offered in other courses.

Students are advised that they must obtain consent from the supervising instructor *before* registering for these courses. The student should submit to the instructor a statement of objectives and proposed content for the course; this should be done by 15 April for 'F' courses and by 1 December for 'S' courses. If the proposal is

approved, two faculty members from relevant disciplines will supervise and evaluate the work.

Prerequisite: 3.0 credits at the B-level in the Department of Arts, Culture and Media.

Exclusion: (HUMD91H3)

ACMD92H3 - Supervised Readings

Independent study of an advanced and intensive kind, under the direction of a faculty member. The material studied should bear some significant relation to the student's previous work, and should differ significantly in content and/or concentration from topics offered in other courses.

Students are advised that they must obtain consent from the supervising instructor *before* registering for these courses. The student should submit to the instructor a statement of objectives and proposed content for the course; this should be done by 15 April for 'F' courses and by 1 December for 'S' courses. If the proposal is approved, two faculty members from relevant disciplines will supervise and evaluate the work.

Prerequisite: 3.0 credits at the B-level in the Department of Arts, Culture and Media.

Exclusion: (HUMD92H3)

ACMD93Y3 - Supervised Readings

Independent study of an advanced and intensive kind, under the direction of a faculty member. The material studied should bear some significant relation to the student's previous work, and should differ significantly in content and/or concentration from topics offered in other courses.

Students are advised that they must obtain consent from the supervising instructor *before* registering for these courses. The student should submit a statement of objectives and proposed content for the course to the instructor by 15 April for 'F' and 'Y' courses and by 1 December for 'S' courses. If the proposal is approved, two faculty members from relevant disciplines will supervise and evaluate the work.

Prerequisite: 3.0 credits at the B-level in the Department of Arts, Culture and Media.

Exclusion: (HUMD93Y3)

ACMD94H3 - Senior Collaboration Project in Arts, Culture and Media

This course is an advanced-level collaborative project for senior students in Arts, Culture and Media under the direction of one or more faculty members. While the course nature and focus will vary year to year, the project will likely be rooted in Arts, Culture and Media faculty research or an ongoing community partnership, and will likely involve experiential elements.

Note: Students should contact the ACM Program Manager: acm-pa@utsc.utoronto.ca, to verify if this course could be counted towards their ACM program requirements.

Prerequisite: 15.0 credits and enrolment in any ACM program

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

ACMD98H3 - Experiential Learning for Arts, Culture and Media Programs

This course offers students the opportunity to integrate experiential learning appropriate to students' fields of study within the Department of Arts, Culture and Media. It provides student experiences that develop work and life-related skills and knowledge through a spectrum of interactive approaches with focused reflection. The course allows students to apply ACM-specific program knowledge and/or essential employability skills. Students must complete an application form made available on the UTSC Timetable and on the ACM website.

Prerequisite: [9.0 credits in courses offered by the Department of Arts, and Culture and Media], and cGPA of at least 2.5; selection will be based on the application form

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: Partnership-Based Experience

Note: This is a 0.5 credit course. However, depending on the course content, it may be offered in a single-term or over two-terms. Priority will be given to students enrolled in programs offered by the Department of Arts, Culture and Media.

ACMD99H3 - Work Integrated Learning for Arts Culture and Media Programs

This course offers students the opportunity to integrate academic learning with an internship placement appropriate to students' field of study within the Department of Arts, Culture and Media. The 0.5 credit, two-term course provides students an understanding of workplace dynamics while allowing them to refine and clarify professional and career goals through critical analysis of their work-integrated learning experience.

Prerequisite: [8.0 credits in courses offered by the Department of Arts, Culture and Media] and [CGPA of at least 3.0]; permission of the Arts Culture and Media Internship Coordinator

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: Partnership-Based Experience

Arts Management

Faculty List

- S.L. Helwig, B.A. (Guelph), M.A. (Toronto), Associate Professor, Teaching Stream
- M.E. Luka, B.F.A., (NSCAD), Ph.D. (Concordia), Assistant Professor

ACM Program Manager: Email: acm-pm@utsc.utoronto.ca

Arts Management is designed for students interested in both the creative practice and the business of the arts. It provides students with a solid grounding in the knowledge and skills necessary for fulfilling professional careers in producing, presenting and exhibiting organizations (theatres, opera companies, orchestras, dance companies, galleries, museums), arts councils, arts service organizations, government, and also for graduate studies in disciplines such as Arts Management, Cultural and Public Policy, Arts Education, and Museum or Curatorial Studies.

Students can choose either the Specialist Program in Arts Management* or the Major Program in Arts and Media Management. Students should consult with their ACM Program Manager to ensure proper course/program planning.

*Note: the Specialist (Co-op) Program in Arts Management is suspended to new enrolments. Students already enrolled in the Program should consult the 2012-13 *Calendar*.

Specialist Program in Arts Management Course Selection:

- **First Year:** VPAA10H3, VPAA12H3, MGTA01H3, MGTA02H3
A-level courses in the Art discipline you are intending to collect 6.0 credit from (refer to program requirement 3)
- **Second Year:** VPAB10H3, VPAB13H3, VPAB16H3, VPAB17H3
Additional courses in Arts Management to fulfill the 1.5 credit requirement (see #4 under A if in Standard stream, and B if in Field Placement stream.)
B-level courses in the Art discipline you are intending to collect 6.0 credit from (refer to program requirement 3)
- **Third Year:** VPAC13H3, VPAC15H3*, VPAC16H3*, VPAC17H3*, VPAC18H3*, VPAC21H3* or *VPAC22H3*, ACMC01H3 (if in the Field placement stream)
Management C-level course (ACM Program Manager will discuss options with you and add the course manually; you may choose to take this course in the fourth year as well)
C-level courses in the Art discipline you are intending to collect 6.0 credit from (refer to program requirement 3)
*Please connect with the ACM Program Manager as some of the Arts Management courses are offered in alternate years.
- **Fourth Year:** VPAD12H3, ACMD01H3 (if in the Field placement stream)
VPAD-level or D-level courses in the Art discipline you are intending to collect 6.0 credit from (refer to program requirement 3)

Program Combination Restrictions in Arts Management

The Specialist in Arts Management and Major in Arts and Media Management cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course CTLB03H3, which can be found in the Teaching and Learning section of the *Calendar*.

Arts Management Programs

SPECIALIST PROGRAM IN ARTS MANAGEMENT - Field Placement Stream (ARTS) - SCSPE1180

ACM Program Manager: acm-pm@utsc.utoronto.ca

While a majority of the academic work in the program is based on the not-for-profit arts model, the skills that UTSC's arts management students develop are transferable skills: critical thinking, organizational development, marketing, fundraising, public relations and public policy can be applied to many fields, and graduates may eventually opt to work in for-profit cultural industries such as commercial music, film and television, or even non-arts sectors that require similar abilities. For further information, please visit the Arts Management [website](#).

The **Field Placement Stream** of the program is designed to enhance the students' understanding of Arts Management through substantial exposure to its practice in a minimum of two 300-hour not-for-credit placements.

Enrolment Requirements

Enrolment in the program is limited, and entry is competitive. Admissions are granted on the basis of applicants' academic performance and background in one or more of the arts. For the Field Placement Stream, students must have completed a minimum of 4.0 credits, including [VPAA10H3](#) and [VPAA12H3](#), with a minimum cumulative GPA of 2.8, both overall and in Arts Management-specific courses.

Program Requirements

This program requires the completion of a total of 15.0 credits. Students complete a core of 6.0 credits in Arts Management courses, 1.5 credits in Management courses, 6.0 credits in one or more arts discipline(s), and 1.5 credits specific to either the Standard Stream or the Field Placement Stream.

Students must maintain a minimum cumulative grade point average (CGPA), both overall and in Arts Management-specific courses: 2.8 for the Standard Stream and 2.8 for the Field Placement Stream. Continuous consultation with the Program Manager is strongly encouraged for all students in each year of their program.

Core (13.5 credits)

1. Arts Management Courses (6.0 credits)

(ACMB10H3) Equity and Diversity in the Arts

[VPAA10H3](#) Introduction to Arts and Media Management

[VPAA12H3](#) Developing Audiences, Resources, and Community

[VPAB10H3](#) Equity and Inclusivity in Arts and Media Organizations

[VPAB13H3](#) Financial Management for Arts Managers

[VPAB16H3](#) Managing and Leading in Cultural Organizations

[VPAB17H3](#) From Principles to Practices in Arts Management

[VPAC13H3](#) Planning and Project Management in the Arts and Cultural Sector

[VPAC15H3](#) Cultural Policy

[VPAC16H3](#) Contracts and Copyright

[VPAC17H3](#) Marketing in the Arts and Media

[VPAC18H3](#) Raising Funds in Arts and Media

[VPAD12H3](#) Senior Seminar in Arts and Media Management

2. Management Courses (1.5 credits)

[MGTA01H3](#) Introduction to Business

[MGTA02H3](#) Managing the Business Organization

0.5 credit from Management or Economics at the C- or D-level (unless an alternative is formally approved in advance by the Arts Management Program Director)

Note: Arts Management students have access to select Management courses. A list of available courses will be shared with students around July of each year. Students must approach the Program Manager early in the enrolment period to discuss suitability and to request access. Appropriate prerequisite knowledge is required for all Management courses.

3. Arts Courses (6.0 credits)

[6.0 credits from within the Major program in one of the artistic disciplines offered by the Department of Arts, Culture and Media (Art History, Music and Culture, Studio Art, and Theatre & Performance Studies). At least 1.0 credit of these must be at the C- or D-level.] OR [With the prior written approval of the Arts Management Program Director, students may tailor a coherent group of courses to accommodate their special interests and particular career goals. At least 1.0 credit must be at the C- or D-level.]

Note: Because the completion of a Major program in a chosen artistic field is particularly valuable for students contemplating graduate studies and certain careers related to that subject, students may wish to add the Major Subject POSt and take additional Arts courses to fulfil the Major requirement. Alternatively, one or more Minor program(s) may be valuable in certain fields of work and further studies.

Field Placement Stream

4. Work Term Placements

In addition to the Core requirements above, students must complete a minimum of two 300-hour not-for-credit work term placements:

Field Placement I
Field Placement II

5. (1.5 credits)

ACMC01H3 ACMEE Applied Practice I (to be taken concurrently with, or after, Field Placement I)

ACMD01H3 ACMEE Applied Practice II (to be taken concurrently with, or after Field Placement II)
and

0.5 credit from the following:

ACMD02H3 ACMEE Applied Practice III (to be taken in connection with an optional "Field Placement III")

VPAB18H3 Becoming a Producer

VPAC21H3 Special Topics in Arts Management I

VPAC22H3 Special Topics in Arts Management II

VPAD10H3 Good, Better, Best: Case Study Senior Seminar

VPAD11H3 Focus on the Field: Senior Research Seminar

VPAD14H3 Independent Studies in Arts Management

Courses in the first two years of the program

The first year of study would normally consist of 5.0 credits (10 courses - five in each of the Fall and Winter semesters) including VPAA10H3, VPAA12H3, MGTA01H3, MGTA02H3, at least three courses from the "Arts Courses" section of the program requirements, and electives. The second year of study would normally consist of 5.0 full credits (10 courses) including VPAB10H3, VPAB13H3, VPAB16H3, VPAB17H3, B-level courses from the "Arts Courses" program requirement, and electives.

SPECIALIST PROGRAM IN ARTS MANAGEMENT - Standard Stream (ARTS) - SCSPE1190

ACM Program Manager: acm-pm@utsc.utoronto.ca

While a majority of the academic work in the program is based on the not-for-profit arts model, the skills that UTSC's arts management students develop are transferable skills: critical thinking, organizational development, marketing, fundraising, public relations and public policy can be applied to many fields, and graduates may eventually opt to work in for-profit cultural industries such as commercial music, film and television, or even non-arts sectors that require similar abilities. For further information, please visit the Arts Management [website](#).

The **Standard Stream** of the program is designed to give students a broad and deep understanding of Arts Management at the undergraduate level through academic courses but without full-field placements. This stream is well suited to students who have past or alternate practical experience in arts management.

Enrolment Requirements

Enrolment in the program is limited and entry is competitive. Admissions are granted on the basis of applicants' academic performance and background in one or more of the arts. For the Standard Stream, students must have completed a

minimum of 4.0 credits, including VPAA10H3, VPAA12H3 and VPAB10H3, with a minimum cumulative GPA of 2.5, both overall and in Arts Management-specific courses.

Program Requirements

This program requires the completion of a total of 15.0 credits. Students complete a core of 6.0 credits in Arts Management courses, 1.5 credits in Management courses, 6.0 credits in one or more arts discipline(s), and 1.5 credits specific to either the Standard Stream or the Field Placement Stream.

Students must maintain a minimum cumulative grade point average (CGPA), both overall and in Arts Management-specific courses: 2.8 for the Standard Stream and 2.8 for the Field Placement Stream. Note that continuous consultation with the Program Manager is strongly encouraged for all students in each year of their program.

Core (13.5 credits)

1. Arts Management Courses (6.0 credits)

VPAA10H3 Introduction to Arts and Media Management
VPAA12H3 Developing Audiences, Resources, and Community
VPAB10H3 Equity and Inclusivity in Arts and Media Organizations
VPAB13H3 Financial Management for Arts Managers
VPAB16H3 Managing and Leading in Cultural Organizations
VPAB17H3 From Principles to Practices in Arts Management
VPAC13H3 Planning and Project Management in the Arts and Cultural Sector
VPAC15H3 Cultural Policy
VPAC16H3 Contracts and Copyright
VPAC17H3 Marketing in the Arts and Media
VPAC18H3 Raising Funds in Arts and Media
VPAD12H3 Senior Collaborative Projects

2. Management Courses (1.5 credits)

MGTA01H3 Introduction to Business
MGTA02H3 Managing the Business Organization
 0.5 credit from Management or Economics at the C- or D-level (unless an alternative is formally approved in advance by the Arts Management Program Director)

Note: Because the completion of a Major program in a chosen artistic field is particularly valuable for students contemplating graduate studies and certain careers related to that subject, students may wish to add the Major Subject POST and take additional Arts courses to fulfil the Major requirement. Alternatively, one or more Minor program(s) may be valuable in certain fields of work and further studies.

Standard Stream

In addition to the Core requirements above, students must complete 1.5 credits from the following:

4. (1.5 credits)

Choose from the following:

VPAB18H3 Becoming a Producer
VPAC21H3 Special Topics in Arts Management I
VPAC22H3 Special Topics in Arts Management II
 (VPAD07H3) Agency and Pluralism in Social & Cultural Transformations
VPAD10H3 Good, Better, Best: Case Study Senior Seminar

VPAD11H3 Focus on the Field: Senior Research Seminar
VPAD14H3 Independent Studies in Arts Management

Note: one of the D-level choices is required if a D-level course is not taken as a part of component 2 (Management Courses) or component 3 (Arts Courses).

Courses in the first two years of the program

The first year of study would normally consist of 5.0 credits (10 courses - five in each of the Fall and Winter semesters) including VPAA10H3, VPAA12H3, VPAB10H3, MGTA01H3, MGTA02H3, at least three courses from the “Arts Courses” section of the program requirements, and electives. The second year of study would normally consist of 5.0 full credits (10 courses) including VPAB10H3, VPAB13H3, VPAB16H3, and VPAB17H3 B-level courses from the “Arts Courses” program requirement, and electives.

MAJOR PROGRAM IN ARTS AND MEDIA MANAGEMENT (ARTS) - SCMAJ0617

The Major program offers students an opportunity to acquire a strong foundation in, and understanding of, the theories and practices associated with the management of creative arts and media enterprises. The program exposes students to the scholarship and skills of this multidisciplinary field through a broad range of courses that bring together creative endeavours and business. While the program can be paired with any other Major at UTSC, it is especially intended to be combined with other programs in the Department of Arts, Culture and Media, including: Art History and Visual Culture; Studio Art; Music and Culture; Theatre and Performance; Media Studies; New Media Studies; or Media, Journalism and Digital Cultures.

This Major is for students seeking opportunities and understanding about the always-evolving arts and media environment, where traditional leadership roles are both crucial and constantly challenged, and where community engagement, creative practice, entrepreneurship and leadership are not limited to the private sector but also reach deeply into the non-profit and public sectors.

Program Requirements

This program requires students to complete a total of 7.5 credits as follows:

1. 1.5 credits:

VPAA10H3 Introduction to Arts and Media Management
VPAA12H3 Developing Audiences, Resources, and Community
VPAB10H3 Equity and Inclusivity in Arts and Media Organizations

2. 3.5 credits:

VPAB13H3 Financial Management for Arts Managers
VPAB16H3 Managing and Leading in Cultural Organizations
VPAB18H3 Becoming a Producer
VPAC13H3 Planning and Project Management in the Arts and Cultural Sector
VPAC16H3 Contracts and Copyrights
VPAC17H3 Marketing in the Arts and Media
VPAC18H3 Raising Funds in Arts and Media

3. 0.5 credit:

VPAD10H3 Good, Better, Best: Case Study Senior Seminar

4. 2.0 additional credits in Arts Management (VPA courses). Students may substitute up to 1.0 credit in any courses from the Department of Arts, Culture and Media at the B-, C-, or D-level, for which they hold the pre-requisites; students are encouraged to select Media Studies or Journalism courses.

Arts Management Courses

VPAA10H3 - Introduction to Arts and Media Management

An introduction to the theories and practices of arts and media management within the not-for-profit, public, and social enterprise sectors. It is a general survey course that introduces the broad context of arts and media management in Canadian society and the kinds of original research skills needed for the creative and administrative issues currently faced by the arts and media community.

Breadth Requirements: Arts, Literature and Language

VPAA12H3 - Developing Audience, Resources, and Community

An introduction to the work involved in building and sustaining relationships with audiences, funders, and community, and the vital connections between marketing, development, and community engagement in arts and media organizations. Includes training in observational research during class for independent site visits outside class time.

Prerequisite: VPAA10H3

Exclusion: (VPAB12H3), (VPAB14H3)

Breadth Requirements: Arts, Literature and Language

VPAB10H3 - Equity and Inclusivity in Arts and Media Organizations

An introduction to equity, inclusivity and diversity as it relates to organizational development and cultural policymaking in arts and media management. This course will take students through an overview of critical theories of systemic power and privilege, including those of race, gender, socio-economic status, sexual orientation or identity, age, ability/disability and religion and examine how these impact varied creative working environments and institutions.

Prerequisite: VPAA10H3 and VPAA12H3

Course Experience: University-Based Experience

VPAB13H3 - Financial Management for Arts Managers

An introduction to financial management basics and issues faced by arts and cultural managers, using examples and exercises to introduce basic accounting concepts, financial statement preparation and analysis, internal control and management information systems, budgeting and programming, cash and resource management, and various tax-related issues.

Prerequisite: VPAA10H3 and VPAA12H3

Exclusion: MGTB03H3

Breadth Requirements: Quantitative Reasoning

VPAB16H3 - Managing and Leading in Cultural Organizations

An introduction to the theories and practices of organizational development through arts and media governance, leadership, employee, and volunteer management, using examples from the field. Includes training in original research for professional report-writing through individual and group exercises.

Prerequisite: VPAA10H3 and VPAA12H3

Breadth Requirements: Arts, Literature and Language

Note: VPAA12H3 may be taken as a co-requisite with the express permission of the instructor.

VPAB17H3 - From Principles to Practices in Arts Management

An introduction to the real-world application of knowledge and skills in arts and arts-related organizations. This course allows students to develop discipline-specific knowledge and skills through experiential methods, including original research online, class field visits, and independent site visits for observational research outside class time.

Prerequisite: VPAA12H3 and VPAB16H3

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

Note: Initially restricted to students in the Specialist Program in Arts Management.

VPAB18H3 - Becoming a Producer

An introduction to the producing functions in the arts and in media management. The course will cover the genesis of creative and managing producers in arts and media, and what it is to be a producer today for internet, television, radio and some music industry and social media environments or for arts and media creative hubs, or for non-profit performing and multi-disciplinary theatres in Canada that feature touring artists. Includes individual and group skill-building in sector research to develop and present creative pitch packages and/or touring plans.

Prerequisite: VPAA10H3 and VPAA12H3

Breadth Requirements: Arts, Literature and Language

VPAC13H3 - Planning and Project Management in the Arts and Cultural Sector

This course is designed to provide a foundation for project management and strategic planning knowledge and skills.

Topics such as project and event management as well as strategic and business planning include how to understand organizational resource-management and consultative processes, contexts, and impacts, will be discussed and practiced through group and individual assignments.

Prerequisite: 8.0 credits including [VPAB13H3](#) and [VPAB16H3](#)

Breadth Requirements: Arts, Literature and Language

VPAC15H3 - Cultural Policy

A survey of the principles, structures, and patterns of cultural policy and how these impact arts and media funding structures in Canada, nationally and internationally. Through original research including interviews in the sector, group and individual assignments will explore a wide range of cultural policy issues, processes, and theoretical commitments underpinning the subsidized arts, commercial and public media industries, and hybrid cultural enterprises, critically exploring the role of advocacy and the strengths and weaknesses of particular policy approaches.

Prerequisite: [8.0 credits, including [VPAA10H3](#) and [VPAA12H3](#)] or [8.0 credits, including: [SOCB58H3](#) and registration in the Minor Program in Culture, Creativity, and Cities]

Breadth Requirements: Arts, Literature and Language

VPAC16H3 - Contracts and Copyright

A study of essential legal and practical issues relevant to the arts and media workplace, with a particular focus on contracts, contract negotiation, and copyright.

Prerequisite: 8.0 credits including [VPAA10H3](#) and [VPAA12H3](#) and [VPAB16H3](#)

Breadth Requirements: Arts, Literature and Language

VPAC17H3 - Marketing in the Arts and Media

An advanced study of marketing in the arts and media sectors. Through group and individual assignments including the development of a marketing and promotions plan, this course facilitates a sophisticated understanding of the knowledge and skills required for arts and media managers to be responsive to varied market groups and changing market environments and successfully bring creative and cultural production and audiences together.

Prerequisite: 8.0 credits including [VPAA10H3](#) and [VPAA12H3](#) and [VPAB16H3](#)

Breadth Requirements: Arts, Literature and Language

VPAC18H3 - Raising Funds in Arts and Media

An advanced study of fundraising and resource development in the arts and media sector. This course facilitates a sophisticated understanding of knowledge and skills required for arts and media managers to develop varied revenue streams, including grant writing, media funding, and contributed revenue strategies to support artistic missions. Through group and individual assignments, the course culminates in pitch packages or grant applications for real-life programs including creative briefs, budgets, financing plans, and timelines

Prerequisite: 8.0 credits including [VPAB13H3](#) and [VPAB16H3](#)

Breadth Requirements: Arts, Literature and Language

VPAC21H3 - Special Topics in Arts Management I

Special topics for intensive practical, theoretical and/or experiential study of some specific aspects of Arts Management. The topic(s) to be explored in this course will change from session to session.

Prerequisite: 10.0 credits, including [VPAA10H3](#) and [VPAA12H3](#) and [VPAB16H3](#)

Exclusion: (VPAD13H3)

Breadth Requirements: Arts, Literature and Language

VPAC22H3 - Special Topics in Arts Management II

Special topics for intensive practical, theoretical and/or experiential study of some specific aspects of Arts Management. The topic(s) to be explored in this course will change from session to session.

Prerequisite: 10.0 credits, including [VPAA10H3](#) and [VPAA12H3](#) and [VPAB16H3](#)

Breadth Requirements: Arts, Literature and Language

VPAD10H3 - Good, Better, Best: Case Study Senior Seminar

This course will prepare students for the realities of working in and leading arts and media organizations by challenging them with real-world problems via case studies and simulations. Through individual and group assignments involving research in the field that culminates in an original case presentation and report, students will consider, compare, explain, and defend decisions and actions in real-life organizations to develop their ability to demonstrate effective and ethical approaches to arts and media management.

Prerequisite: At least 14.0 credits, including 1.0 credit at the C-level in VPA courses.

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Preference is given to students enrolled in the Major programs in Arts & Media Management. This course requires ancillary fees (case study fees)

VPAD11H3 - Focus on the Field: Senior Research Seminar

Are you interested in researching hands-on professional practice to synthesize and apply the theory-based learning you have undertaken in arts and media management about how people and organizations work in the culture sector and media industries? In this course, you will propose your own research project to examine how a specific creative business (such as a creative hub, media company or performing or visual arts organization) and its related practices operate, exploring specific areas of arts or media management practice, theory, history or emergent issues. While the creative ecosystem is made up of a broad and sometimes baffling array of for-profit, non-profit and hybrid ways of doing things, this course will provide insights into an organization of your choice.

Prerequisite: At least 14.0 full credits, including 1.0 full credit at the C level in VPA courses.

Course Experience: University-Based Experience

VPAD12H3 - Senior Collaborative Projects

This course is an intensive synthesis and application of prior learning through collaborative project-based practice. Students will lead and actively contribute to one or more major initiative(s) that will allow them to apply the principles and employ the practices of effective arts and media management.

Prerequisite: At least 14.0 credits including VPAC13H3.

Course Experience: University-Based Experience

Note: Restricted to students enrolled in the Specialist Program in Arts Management.

VPAD14H3 - Independent Studies in Arts Management

A directed research and/or project-oriented course for students who have demonstrated a high level of academic maturity and competence. Qualified students will have the opportunity to investigate an area of interest to both student and the Director in traditional or emerging subjects related to the field of Arts Management.

Prerequisite: At least 1.0 credit at the C-level in Arts Management courses. Written consent and approval of a formal proposal in the approved format must be obtained from the supervising instructor and Program Director by the last date of classes in the previous academic session.

Exclusion: MGTD80H3

Course Experience: University-Based Experience

Astronomy

Faculty List

- P. Artymowicz, M.Sc. (Warsaw University), Ph.D. (N. Copernicus Astron. Center, Polish Academy of Sciences), Professor
- J. Bayer Carpintero, B.Sc. (Los Andes, Bogota), M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- C.C. Dyer, B.Sc. (Bishop's), M.Sc., Ph.D. (Toronto), Professor Emeritus
- J.P. Lowman, B.Sc. (Toronto), M.Sc., Ph.D. (York, Canada), Professor
- K. Menou, B.Sc. (Angers), M.Sc. (Toulouse), Ph.D. (Paris XI) Associate Professor
- H. Rein, M.A.St. (Cambridge), Ph.D. (Cambridge), Associate Professor
- D. Valencia, B.Sc., M.Sc. (Toronto), Ph.D. (Harvard), Associate Professor
- D. Weaver, B.Sc., M.Sc., Ph.D. (Toronto), Assistant Professor, Teaching Stream

For an updated list of Program Supervisors, please visit the [Physics and Astrophysics website](#).

For more information, [visit the Department of Physical and Environmental Sciences website](#).

Astronomy is one of the oldest and at the same time also one of the most dynamic areas of science. It is the attempt to understand everything beyond the Earth's atmosphere, from the solar system in which we find our direct and recent origins, to the largest distance scales in the universe typified by galaxies, cosmic voids, and the big bang. The past decades have seen startling discoveries, such as thousands of extrasolar planets, black holes, and gravitational waves. Those discoveries have given us both new understanding of the universe and made us more aware of the problems still facing us in attaining a deeper understanding. As more planets are discovered, there promises to be an even stronger collaborative effort with disciplines such as chemistry and biology to discover the possible origins of life. Astronomy is often a collaborative effort with disciplines such as high energy physics, chemistry, and biology. With new telescopes collecting more data than ever, computer science and data analysis are now important parts of almost every major astronomical discovery.

The introductory courses [ASTA01H3](#) and [ASTA02H3](#) are at a level suitable for students without a mathematical background. In addition, the course [ASTB03H3](#) is intended for students who have taken no previous astronomy, and covers the history of modern astronomy. It is intended to provide a historical perspective on modern astronomy, and by example, an introduction to the evolution of a number of modern scientific areas. For students wishing to further their study in astronomy, there are a number of higher-level courses, which are integral components of Major and Specialist programs in Physics and Astrophysics, and related areas. Refer to the [Physics and Astrophysics](#) section of the *Calendar* for details of these courses and programs.

Program Combination Restrictions

Programs in Astronomy, Physical Sciences, and Physics and Astrophysics cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Astronomy Programs

MINOR PROGRAM IN ASTRONOMY AND ASTROPHYSICS (SCIENCE) - SCMIN1423

For an updated list of Programs Supervisors, please visit the [Physics & Astrophysics website](#).

Students are advised that course substitutions will NOT be permitted without the advance approval of the Program Supervisor.

Program Requirements

Students must complete 5.0 credits as follows:

1.5 credits from the following:

ASTB23H3 Astrophysics of Stars, Galaxies and the Universe

ASTC25H3 Astrophysics of Planetary Systems

[ASTC02H3 Practical Astronomy: Instrumentation and Data Analysis or any other AST C- or D-level course]

and

2.5 credits from the following:

MATA23H3 Linear Algebra I

[MATA30H3 Calculus I for Physical Sciences or MATA31H3 Calculus I for Mathematical Sciences]

[MATA36H3 Calculus II for Physical Sciences or MATA37H3 Calculus II for Mathematical Sciences]

MATB41H3 Techniques of the Calculus of Several Variables I

MATB42H3 Techniques of the Calculus of Several Variables II

and

1.0 credit from the following:

PHYA10H3 Physics I for the Physical Sciences

PHYA21H3 Physics II for the Physical Sciences

Exclusion: AST121H, AST201H

Breadth Requirements: Natural Sciences

Astronomy Courses

ASTA01H3 - Introduction to Astronomy and Astrophysics I: The Sun and Planets

The solar neighbourhood provides examples of astronomical bodies that can be studied by both ground-based and space vehicle based-observational instruments. The astronomical bodies studied range from cold and rocky planets and asteroids to extremely hot and massive bodies, as represented by the sun. This course considers astronomical bodies and their evolution, as well as basic parts of physics, chemistry, etc., required to observe them and understand their structure. The course is suitable for both science and non-science students.

Exclusion: AST101H

Breadth Requirements: Natural Sciences

ASTA02H3 - Introduction to Astronomy and Astrophysics II: Beyond the Sun and Planets

The structure and evolution of stars and galaxies is considered, with our own galaxy, the Milky Way, providing the opportunity for detailed study of a well-observed system. Even this system challenges us with many unanswered questions, and the number of questions increases with further study of the universe and its large-scale character. Current models and methods of study of the universe will be considered. The course is suitable for both science and non-science students.

ASTB03H3 - Great Moments in Astronomy

An examination of the people, the background and the events associated with some major advances in astronomy.

Emphasis is given to the role of a few key individuals and to how their ideas have revolutionized our understanding of nature and the Universe. The perspective gained is used to assess current astronomical research and its impact on society.

Prerequisite: 4.0 full credits

Exclusion: AST210H

Breadth Requirements: Natural Sciences

ASTB23H3 - Astrophysics of Stars, Galaxies and the Universe

Overview of astrophysics (except planetary astrophysics). Appropriate level for science students. Structure and evolution of stars, white dwarfs, neutron stars. Structure of Milky Way. Classification of galaxies. Potential theory, rotation curves, orbits, dark matter. Spiral patterns. Galaxy clusters. Mergers. Black holes in active galactic nuclei. Expansion of universe, dark energy.

Prerequisite: [MATA30H3 or MATA31H3] and

[MATA36H3 or MATA37H3] and PHYA21H3

Corequisite: MATB41H3

Exclusion: (ASTB21H3), (ASTC22H3), [AST221H and AST222H]

Breadth Requirements: Natural Sciences

ASTC02H3 - Practical Astronomy: Instrumentation and Data Analysis

A hands-on introduction to astronomical observing using the UTSC telescope. Lectures cover topics of astronomical instrumentation and data reduction. Observations of Solar System planets, moons, planetary nebula, globular clusters and galaxies will be made. Students will present their results in the style of a scientific paper and a talk.

Prerequisite: ASTB23H3

Exclusion: AST325H, AST326Y

Breadth Requirements: Natural Sciences

ASTC25H3 - Astrophysics of Planetary Systems

Overview of planetary astrophysics at a level appropriate for science students. Planets as a by-product of star formation: theory and observations. Protostellar/protoplanetary disks. Planetesimal and planet formation. Solar system versus extrasolar planetary systems. Giant planets, terrestrial planets, dwarf planets and minor bodies in the Solar System: interiors and environments.

Prerequisite: MATB41H3 and PHYA21H3

Corequisite: MATB42H3

Exclusion: (ASTB21H3), (ASTC22H3), [AST221H and AST222H]

Breadth Requirements: Natural Sciences

Biological Sciences

Faculty List

- M.C.B. Andrade, B.Sc. (Simon Fraser), M.Sc. (Toronto), Ph.D. (Cornell), University Professor

- S.A. Brunt, B.Sc., M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- M.W. Cadotte, B.Sc., M.Sc. (Windsor), Ph.D. (Tennessee), Professor
- I.M. Campbell, B.Sc. (Alberta), M.A., Ph.D. (Toronto), Associate Professor Emeritus
- R.E. Dengler, B.Sc., Ph.D. (California, Davis), Associate Professor Emeritus
- G. Fillion, B.Sc. (Concordia), M.Sc. (École Normale Supérieure), Ph.D. (Université Denis Diderot), Assistant Professor
- M.F. Filosa, B.S. (St. Peter's), M.S. (Fordham), Ph.D. (Princeton), Associate Professor Emeritus
- M.J. Fitzpatrick, B.Sc., M.Sc. (Brock), Ph.D. (Toronto), Associate Professor, Teaching Stream
- K. Gan, B.Sc., M.Sc. (Simon Fraser), Ph.D. (Simon Fraser), Assistant Professor
- S. Gazzarrini, B.Sc., M.Sc. (Milan), Ph.D. (Tuebingen), Professor
- E. Gonzales-Vigil, B.Sc. (National Agrarian University), Ph.D. (Michigan State), Associate Professor
- E. Gruntman, B.Sc., M.Sc. (Tel-Aviv University), Ph.D. (Cold Spring Harbor Laboratory), Assistant Professor
- J.W. Gurd, B.A. (Mount Allison), Ph.D. (McGill), Professor Emeritus
- C. Guzzo, B.Sc., Ph.D. (Queen's), Associate Professor
- R.E. Harrison, B.Sc. (Winnipeg), M.Sc. (Manitoba), Ph.D. (Toronto), Professor
- C.A. Hasenkampf, B.Sc. (Loyola), M.Sc., Ph.D. (Florida State), Professor Emeritus
- M. Koyama, B.Sc., M.Sc., Ph.D. (Tokyo), Assistant Professor
- N.R. Lovejoy, B.Sc., M.Sc. (Toronto), Ph.D. (Cornell), Professor
- J.S. MacIvor, B.Sc. (Guelph), M.Sc. (Saint Mary's), Ph.D. (York), Associate Professor
- N.E. Mandrak, B.Sc., M.Sc., Ph.D. (Toronto), Professor
- A.C. Mason, B.Sc. (Guelph), M.Sc., Ph.D. (Toronto), Professor
- P. McGowan, B.Sc. (Concordia), M.A., Ph.D. (Duke), Professor
- P.K. Molnar, B.Sc., M.Sc. (Ludwig-Maximilians-Universität München), Ph.D. (Alberta), Associate Professor
- G.A. Mott, B.Sc. (British Columbia), Ph.D. (Harvard), Assistant Professor
- C. Nalewajko, B.Sc., Ph.D., D.Sc. (University College London), Professor Emerita
- J.E. Nash, B.Sc. (Aberdeen), M.Sc., Ph.D. (Manchester), Associate Professor
- X. Pan, B.Sc. (Fujian Agriculture and Forestry University), M.Sc. (Dalhousie), Ph.D. (Alberta), Assistant Professor
- C. Porteus, B.Sc., M.Sc. (Guelph), Ph.D. (British Columbia), Assistant Professor
- S. Rajavasireddy, B.Sc. (Osmania University), M.Sc. (Tat Institute of Fundamental Research), Ph.D. (McGill University), Assistant Professor
- S.G. Reid, B.Sc., Ph.D. (Ottawa), Associate Professor
- C.D. Riggs, B.Sc. (North Carolina), Ph.D. (Florida State), Associate Professor Emeritus
- Z. Sabre, B.Sc. (Howard University), Ph.D. (University of Wisconsin-Madison), Associate Professor
- J.C. Silver, B.Sc., Ph.D. (CUNY), Professor Emerita
- I. Stehlik, B.Sc., M.Sc., Ph.D. (Zurich), Associate Professor, Teaching Stream
- R. Sturge, B.Sc., M.Sc. (Toronto), Ph.D. (UMBC), Associate Professor, Teaching Stream
- M.R. Terebiznik, B.Sc., Ph.D. (U.B.A., Buenos Aires, Argentina), Associate Professor
- T.R. Thiele, B.A. (Hamilton College, Clinton, NY), Ph.D. (Oregon), Assistant Professor
- B. Treanor, B.Sc. (Calgary), Ph.D. (Imperial College London), Professor
- G.C. Vanlerberghe, B.Sc., M.Sc. (Western Ontario), Ph.D. (Queen's), Professor
- Y. Wang, B.Sc. (Shanxi University), M.Sc. (Boise State), Ph.D. (Toronto), Assistant Professor
- J.T. Weir, Ph.D. (UBC), Professor
- K.C. Welch, B.Sc. (Trinity University), M.A., Ph.D. (Santa Barbara), Associate Professor
- D.D. Williams, B.Sc. (North Wales), Dip. Ed. (Liverpool), M.Sc., Ph.D. (Waterloo), D.Sc. (Wales), Professor Emeritus

- J.H. Youson, B.A. (Victoria), M.Sc. (McGill), Ph.D. (Western), Professor Emeritus
- R. Zhao, B.Sc. (Peking University), Ph.D. (Chinese Academy of Agricultural Sciences), Associate Professor

Associate Chair Undergraduate: Professor S. Brunt

Undergraduate Program Administrator: biosciundergrad.utsc@utoronto.ca

Program Area Supervisors:

Biology Major: E. Bell Email: biology-major@utsc.utoronto.ca

Biology Minor: I. Stehlik Email: biology-minor@utsc.utoronto.ca

Conservation and Biodiversity: I. Stehlik Email: biodiversity@utsc.utoronto.ca

Human Biology Specialist: J. Brown Email: human-biology-spec@utsc.utoronto.ca

Human Biology Major: J. Brown Email: human-biology-major@utsc.utoronto.ca

Integrative Biology: R. Sturge Email: integrative-biology@utsc.utoronto.ca

Molecular Biology, Immunology and Disease: S. Brunt Email: molecular-biology-immunology@utsc.utoronto.ca

Molecular Biology and Biotechnology: S. Brunt Email: molecular-biology-biotechnology@utsc.utoronto.ca

Plant Biology: X. Pan Email: plant-biology@utsc.utoronto.ca

Please note: Program Supervisors oversee both the co-op and non-co-op versions of the program

Biological Sciences offers eight Specialist programs: Conservation and Biodiversity, Conservation and Biodiversity Co-op, Molecular Biology and Biotechnology, Molecular Biology and Biotechnology Co-op, Human Biology, Human Biology Co-op, Integrative Biology, and Integrative Biology Co-op.

The Conservation and Biodiversity program enables students to explore the origins and maintenance of the Earth's astonishing biodiversity using a variety of perspectives and approaches. In the Molecular Biology and Biotechnology programs, students investigate the cellular and sub-cellular mechanisms underlying life processes. The Human Biology program emphasizes the biology of the human species and is tailored for students who wish to pursue a career in a health-related field. The Integrative Biology program approaches biological questions in a multidisciplinary fashion, with course work in a range of biology sub-disciplines.

Biological Sciences also offers ten Major programs and one Minor program. The Major programs (in Biology, Biology Co-op, Conservation and Biodiversity, Conservation and Biodiversity Co-op, Human Biology, Human Biology Co-op, Molecular Biology, Molecular Biology Co-op, Immunology and Disease, Immunology and Disease Co-op, Plant Biology, and Plant Biology Co-op) allow students to combine their studies in biology with studies in either an unrelated program or in a complementary Major program such as Neuroscience, Environmental Science, Biochemistry, Health and Society or Psychology. The Minor program in Biology is intended for students who have an interest in biology but wish to focus their studies in a different discipline.

Students are advised to consult the specific program requirements for their degree, and, if necessary, to meet with the appropriate program supervisor for advice on completion of their program requirements. In some instances, courses from other University of Toronto campuses or other institutions may be used to satisfy program requirements, but such substitutions must be pre-approved by the program supervisor. Students should check the information that follows thoroughly. Other useful information can be found on the [Department of Biological Sciences Website](#).

Effective July 1, 2023, the (Joint) Specialist in Paramedicine is now administered in the Department of Health and Society.

Pre-program Supervision in Biological Sciences

Biological Sciences has a pre-program supervisor available to advise students who have not yet chosen a program (primarily first-year students) on the degree and program-related matters. Please contact Vania Branker at biosciundergrad.utsc@utoronto.ca if you have questions of this nature.

Combined Degree Programs, Honours Bachelor of Science/ Master of Environmental Science

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBS) with the Master of Environmental Science (MEnvSc) offered by the Graduate Department of Physical and Environmental Sciences allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the MEnvSc program. They are designed for students interested in pursuing a career in environmental sciences within the green-sector, geosciences, industry, consulting, government and policy organizations. These Combined Degree Programs give students the opportunity to: (1) begin exploring their academic interests in Year 4 of their studies; (2) complete 1.0 credit in courses that may be counted towards both degrees; and (3) enrol in the MEnvSc in the Summer session between Years 4 and 5 to complete either a two-month academic or internship opportunity, in addition to the mandatory four-month academic or internship opportunity completed in the MEnvSc program alone.

Combined Degree Programs options are:

- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Environmental Science

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the Calendar.

Combined Degree Programs, Honours Bachelor of Science/ Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBS) /Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provide students with a direct pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and Master's degree. These Combined Degree Programs allow students to complete 1.0 credit in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the Calendar.

Program Combination Restrictions in the Biological Sciences

Students interested in completing a Double Major may combine any two of the following programs offered by the Department of Biological Sciences; Major Program in Conservation and Biodiversity (Science), Major Program in Human Biology (Science); Major Program in Molecular Biology, Immunology and Disease (Science); and Major Program in Plant Biology (Science). Although students are permitted to combine these programs, anyone considering doing so is strongly encouraged to complete one of the Department's Specialist programs instead.

No program combinations other than those listed above are permitted, including any combinations with the Major and Minor programs in Biology

Certificate in Biological Sciences Research Excellence

The Certificate in Biological Sciences Research Excellence will recognize students' research accomplishments in experiential, research-based learning experiences throughout their undergraduate programs. Please see the [Certificate in Biological Sciences Research Excellence webpage](#) for more details on the certificate requirements including enrolment in undergraduate research opportunity courses.

Enrolment in Biological Sciences Courses

Priority access to B-, C-, and D-level Biology courses is given to students enrolled in Biological Sciences Specialist and Major programs and other programs requiring these courses. At the beginning of the Fall/Winter registration period, the courses will be restricted to these students. Provided space is available, the courses will then open up to other students. Some courses in Biological Sciences (BIO) may include Ancillary fees.

Second Year Core Courses

Students are STRONGLY advised to take ALL of the second year core courses [[BIOB10H3](#), [BIOB11H3](#), [BIOB34H3](#), [BIOB38H3](#), [BIOB50H3](#), [BIOB51H3](#), [BIOB90H3](#)] as well as core lab courses [[BIOB12H3](#) or [BIOB32H3](#) or [BIOB52H3](#)] during their second year of study. This will assist in the selection of upper-level courses, provide the greatest flexibility to satisfy the prerequisites of such courses, and give the background and experience needed to excel in upper-level courses. Failure to take the entire set of core courses in the second year can result in course timetabling conflicts and unfavourable exam schedules (e.g. back-to-back exams) in your upper years.

Required Courses in Cognate Disciplines

Students are strongly advised to take all required first and second-year courses in disciplines such as Chemistry, Physics, Math, and Computer Science before their third year of study. This will avoid course timetabling conflicts and will enable enrolment in upper-level courses in our programs that require these prerequisites.

Experiential Learning and Outreach

Please note, several faculty members in Biological Sciences offer experiential learning opportunities in their courses (In-reach) which are advertised on the [Current Placement Opportunities](#) website.

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Biological Sciences Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE / MASTER OF ENVIRONMENTAL SCIENCE

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSoc) with the Master of Environmental Science (MEnvSc) offered by the Graduate Department of Physical and Environmental Sciences allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the MEnvSc program. They are designed for students interested in pursuing a career in environmental sciences within the green-sector, geosciences, industry, consulting, government and policy organizations. These Combined Degree Programs give students the opportunity to: (1) begin exploring their academic interests in Year 4 of their studies; (2) complete 1.0 credit in courses that may be counted towards both degrees; and (3) enrol in the MEnvSc in the Summer session between Years 4 and 5 in order to complete either a two-month academic or internship opportunity, in addition to the mandatory four-month academic or internship opportunity completed in the MEnvSc program alone.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:**Department of Biological Sciences**

- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Environmental Science

Department of Physical and Environmental Sciences

- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science

Application Process:

- Applicants must apply to the Honours Bachelor of Science (HBSc) program, the MEnvSc program, and the CDP.
- Qualified students in Year 3 of their HBSc degree program apply to the MEnvSc program and their chosen CPD through the SGS Online Admission Application system:
 - students will select one of the three fields of study within the MEnvSc program at the time of application:
 - Climate Change Impacts and Adaptation
 - Conservation and Biodiversity, or
 - Terrestrial and Aquatic Systems
 - those accepted will receive a conditional offer to start the MEnvSc program upon completion of their HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MEnvSc program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBSc degree and one of the above listed undergraduate programs at UTSC.
- Meet the minimum admission requirements of the School of Graduate Studies and the MEnvSc program.
- Be enrolled full-time and in good standing in the HBSc program:
 - have a B+ average (CGPA of 3.3) or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- Complete the following undergraduate courses as part of the HBSc degree requirements:
 - Students in the Specialist in Conservation and Biodiversity or the Specialist in Integrative Biology:
 - BIOC63H3 Conservation Biology (0.5 credit)
 - BIOD54H3 Applied Conservation Biology (0.5 credit)
 - Students in the Specialist/Specialist Co-op programs in Global Environmental Change, Environmental Chemistry, Environmental Geoscience, or Environmental Physics:
 - EESC24H3 Advanced Readings in Environmental Science (0.5 credit)
 - EESD10Y3 Research Project in Environmental Science (1.0 credit)

To be given **full, unconditional admission to the MEnvSc program**, applicants must meet the following admission requirements:

- Maintain a B+ average (CGPA of 3.3) or higher in their final year of study in the HBSc program or over upper-level (C- and D-level) courses.
- Achieve at least a grade of B- (70%) in both of the graduate courses taken in Year 4 of undergraduate study; these courses must be chosen in consultation with the Graduate Program Supervisor:
 - for the field in Climate Change Impacts and Adaptation: EES 1133H Climate Change Science and Modelling (0.5 credit), plus an additional 0.5 credit;
 - for the field in Conservation and Biodiversity: EES 3002H Conservation Policy (0.5 credit), plus an additional 0.5 credit;
 - for the field in Terrestrial and Aquatic Systems: 1.0 credit.
- Be conferred with the HBSc degree.

Program Requirements and Path to Completion:

- Year 4: HBSc degree requirements
 - students must complete all HBSc program requirements and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year; where necessary, exceptions will be made for students in Co-op programs;
 - students who receive a conditional offer of admission to the CDP must complete the following undergraduate courses:
 - students in the Specialist in Conservation and Biodiversity or the Specialist in Integrative Biology:
 - BIOC63H3 Conservation Biology (0.5 credit)
 - BIOD54H3 Applied Conservation Biology (0.5 credit)
 - students in the Specialist/Specialist Co-op programs in Global Environmental Change, Environmental Chemistry, Environmental Geoscience, or Environmental Physics:
 - EESC24H3 Advanced Readings in Environmental Science (0.5 credit)
 - EESD10Y3 Research Project in Environmental Science (1.0 credit)
 - students must complete 1.0 credit in graduate courses, chosen in consultation with the Graduate Program Supervisor, as follows:
 - for the field in Climate Change Impacts and Adaptation: EES 1133H Climate Change Science and Modelling (0.5 credit), plus an additional 0.5 credit;
 - for the field in Conservation and Biodiversity: EES 3002H Conservation Policy (0.5 credit), plus an additional 0.5 credit;
 - for the field in Terrestrial and Aquatic Systems: 1.0 credit.
- Optional registration in the Summer session prior to Year 5:
 - students complete one of the following opportunities:
 - EES 4001H Internship Training (0.5 credit)
 - EES 4003H Academic Training (0.5 credit)
- Year 5: Remaining MEnvSc program and degree requirements.

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc)/ Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBSc and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator
Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.

- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
 - if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
 - if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
 - for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
 - for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:
 - students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

SPECIALIST PROGRAM IN CONSERVATION AND BIODIVERSITY (SCIENCE) - SCSPE1150

Academic Program Supervisor: biodiversity@utsc.utoronto.ca

This program presents a foundation for understanding how ecology and evolution shape organismal features (from morphology and physiology to behaviour) and the structure and function of communities and ecosystems. Ultimately these processes determine the broad patterns of organization of life on earth and biodiversity. The challenges to biodiversity are daunting. Habitat destruction, biological invasions and climate change are causing loss of species and disruption of ecosystems worldwide. Graduates are trained to understand and actively seek solutions to these problems. This program will show how ecological and evolutionary perspectives can be used to understand and predict the outcome of dynamic interactions among organisms, populations, species, and communities. Students will be well trained to take positions in government agencies, consulting firms or NGO's, able to continue with graduate studies in science for academic careers, or able to pursue careers in business or law related to environmental issues, stewardship and sustainable development.

Note: This program was formerly known as the Specialist in Biodiversity, Ecology & Evolution (BSc).

Enrolment Requirements

Students apply to the Specialist Program in Conservation and Biodiversity after completing a minimum of 4.0 credits,

including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics and with a minimum cumulative grade point average (CGPA) of at least 2.0.

Application for admission is made to the Office of the Registrar through ACORN, in April/May and July/August. See the UTSC Office of the Registrar's [website](#) for more information on program selection.

Program Requirements

This program consists of 14.5 required credits.

A. Required Courses

First Year

1. 1.0 Credit of Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry Courses

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry]

3. 1.0 Credit in Mathematics

Choose from:

[MATA29H3](#) Calculus I for the Life Sciences or [MATA30H3](#) Calculus I for Physical Sciences]

and

[MATA35H3](#) Calculus II for Biological Sciences or [MATA36H3](#) Calculus II for Physical Sciences]

4. 0.5 Credit in Physics

Choose from:

[PHYA10H3](#) Physics I for the Physical Sciences

[PHYA11H3](#) Physics I for the Life Sciences

5. 0.5 Credit in Computer Science

Choose from:

[CSCA08H3](#) Introduction to Computer Science I (most appropriate course for computer science students)

[CSCA20H3](#) Introduction to Programming (most appropriate course for non-computer science students)

Second Year

6. 3.0 Credits of Biology Core Courses

[BIOB10H3](#) Cell Biology

[BIOB11H3](#) Molecular Aspects of Cellular and Genetic Processes

[BIOB34H3](#) Animal Physiology

[BIOB38H3](#) Plants and Society

[BIOB50H3](#) Ecology

[BIOB51H3](#) Evolutionary Biology

[BIOB90H3](#) Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of [BIOB90H3](#) is a graduation requirement for students in this program. Please see [BIOB90H3](#) in the Calendar for important information.

7. 0.5 Credit of Biology Core Labs

[BIOB52H3](#) Ecology and Evolutionary Biology Laboratory

8. 0.5 Credit in Statistics

Choose from:

[STAB22H3](#) Statistics I

[PSYB07H3](#) Data Analysis in Psychology

Third Year

9. 2.5 Credits of C-level Ecology and Evolution Foundation Courses

[BIOC16H3](#) Evolutionary Genetics and Genomics

[BIOC50H3](#) Macroevolution

[BIOC52H3](#) Field Ecology

[BIOC61H3](#) Community Ecology and Environmental Biology

[BIOC63H3](#) Conservation Biology

Third/Fourth Year

10. 4.0 credits of C- & D-level courses from Bins 1 and 2 below. This must include at least 1.0 credit from each bin and at least 1.0 credit total at the D-level.

Bin 1: C- & D-level Ecology and Evolution Courses

Choose from:

[BIOC51H3](#) Tropical Biodiversity Field Course
[BIOC58H3](#) Biological Consequences of Global Change
[BIOC60H3](#) Winter Ecology
[BIOC65H3](#) Environmental Toxicology
[\(BIOC67H3\)](#) Inter-University Biology Field Course
[BIOD25H3](#) Genomics
[BIOD52H3](#) Biodiversity and Conservation
[BIOD54H3](#) Applied Conservation Biology
[BIOD55H3](#) Experimental Animal Behaviour
[BIOD59H3](#) Models in Ecology, Epidemiology and Conservation
[BIOD60H3](#) Spatial Ecology
[BIOD62H3](#) Symbiosis: Interactions Between Species
[BIOD63H3](#) From Individuals to Ecosystems: Advanced Topics in Ecology
[BIOD66H3](#) Quantitative Ecological and Biodiversity Analysis
[BIOD67H3](#) Inter-University Biology Field Course
[EESC04H3](#) Biodiversity and Biogeography

Bin 2: C- & D-level Organismal Biology Courses

Choose from:

[BIOC29H3](#) Introductory Mycology
[BIOC30H3](#) From Genetic Codes to Fantastic Creatures
[BIOC37H3](#) Plants: Life on the Edge
[BIOC40H3](#) Plant Physiology
[BIOC54H3](#) Animal Behaviour
[BIOC59H3](#) Advanced Population Ecology
[BIOC62H3](#) Role of Zoos and Aquariums in Conservation
[BIOC70H3](#) An Introduction to Bias in STEMM (Science, Technology, Engineering, Mathematics and Medicine)
[BIOD26H3](#) Fungal Biology & Pathogenesis
[BIOD34H3](#) Conservation Physiology
[BIOD37H3](#) Biology of Plant Stress
[BIOD43H3](#) Animal Movement and Exercise
[BIOD45H3](#) Animal Communication
[BIOD48H3](#) Ornithology
[BIOD53H3](#) Special Topics in Animal Behaviour
[BIOC90H3](#) Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*
[EESC30H3](#) Environmental Microbiology

***Note:** Completion of [BIOC90H3](#) is a graduation requirement for students in this program. Please see [BIOC90H3](#) in the Calendar for important information.

B. Senior Research Courses (optional)

Students interested in graduate research are encouraged to take one or more of the independent research courses offered in Biological Sciences as part of their degree.

[BIOD95H3](#) Supervised Study in Biology
[BIOD98Y3](#) Directed Research in Biology
[BIOD99Y3](#) Directed Research in Biology

SPECIALIST (CO-OPERATIVE) PROGRAM IN CONSERVATION AND BIODIVERSITY (SCIENCE) - SCSPE1150C

Academic Program Supervisor: biodiversity@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

This program presents a foundation for understanding how ecology and evolution shape organismal features (from morphology and physiology to behaviour), and the structure and function of communities and ecosystems. These processes determine the broad patterns of organization of life on earth and biodiversity, and the challenges to biodiversity are daunting: habitat destruction, biological invasions and climate change are causing loss of species and disruption of ecosystems worldwide. In this program, students are trained to understand and actively seek solutions to these problems. This program will also show how ecological and evolutionary perspectives can be used to understand and predict the outcome of dynamic interactions among organisms, populations, species, and communities. Graduates will be well trained to take on positions in government agencies, consulting firms or NGOs, to pursue careers in business or law related to environmental issues, stewardship and sustainable development, or to continue with graduate studies in science for academic careers.

The co-op option of the Conservation and Biodiversity program complements and punctuates academic course work with full-time work terms in the various governmental or non-governmental conservation agencies, in labs or in public or private industry. These work terms help students define and refine their career and/or professional school goals. For information on fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

Enrolment Requirements

Students apply to the Co-op Specialist Program in Conservation and Biodiversity after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics and with a minimum cumulative grade point average (CGPA) of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant your admission to the non-co-op without a request.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements:

The program requires students to complete a total of 14.5 credits.

A. Required Courses

First Year

1. 1.0 Credit of Introductory Biology Courses

BIOA01H3 Life on Earth: Unifying Principles
BIOA02H3 Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry Courses

CHMA10H3 Introductory Chemistry I: Structure and Bonding
CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]

3. 1.0 Credit in Mathematics

Choose from:

[MATA29H3 Calculus I for the Life Sciences and MATA35H3 Calculus II for Biological Sciences] or
[MATA30H3 Calculus I for Physical Sciences and MATA36H3 Calculus II for Physical Sciences]

4. 0.5 Credit in Physics

Choose from:

PHYA10H3 Physics I for the Physical Sciences
PHYA11H3 Physics I for the Life Sciences

5. 0.5 Credit in Computer Science

Choose from:

CSCA08H3 Introduction to Computer Science I (most appropriate course for Computer Science students)
CSCA20H3 Introduction to Programming (most appropriate course for non-Computer Science students)

Second Year

6. 3.0 Credits of Biology Core Courses

BIOB10H3 Cell Biology
BIOB11H3 Molecular Aspects of Cellular and Genetic Processes
BIOB34H3 Animal Physiology
BIOB38H3 Plants and Society
BIOB50H3 Ecology
BIOB51H3 Evolutionary Biology
BIOB90H3 Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOB90H3 is a graduation requirement for students in this program. Please see BIOB90H3 in the Calendar for important information.

7. 0.5 Credit of Biology Core Labs

BIOB52H3 Ecology and Evolutionary Biology Laboratory

8. 0.5 Credit in Statistics

Choose from:

STAB22H3 Statistics I
PSYB07H3 Data Analysis in Psychology

Third Year

9. 2.5 Credits of C-level Ecology and Evolution Foundation Courses

BIOC16H3 Evolutionary Genetics and Genomics
BIOC50H3 Macroevolution
BIOC52H3 Field Ecology
BIOC61H3 Community Ecology and Environmental Biology
BIOC63H3 Conservation Biology

Third/Fourth Year

10. 4.0 credits of C- & D-level courses from Bins 1 and 2 below. This must include at least 1.0 credit from each bin and at least 1.0 credit total at the D-level.

Bin 1: C- & D-level Ecology and Evolution Courses

Choose from:

BIOC51H3 Tropical Biodiversity Field Course
BIOC58H3 Biological Consequences of Global Change
BIOC60H3 Winter Ecology
BIOC65H3 Environmental Toxicology
BIOD25H3 Genomics

[BIOD52H3](#) Biodiversity and Conservation
[BIOD54H3](#) Applied Conservation Biology
[BIOD55H3](#) Experimental Animal Behaviour
[BIOD59H3](#) Models in Ecology, Epidemiology and Conservation
[BIOD60H3](#) Spatial Ecology
[BIOD62H3](#) Symbiosis: Interactions Between Species
[BIOD63H3](#) From Individuals to Ecosystems: Advanced Topics in Ecology
[BIOD66H3](#) Quantitative Ecological and Biodiversity Analysis
[BIOD67H3](#) Inter-University Biology Field Course
[EESC04H3](#) Biodiversity and Biogeography

Bin 2: C- & D-level Organismal Biology Courses

Choose from:

[BIOC29H3](#) Introductory Mycology
[BIOC30H3](#) From Genetic Codes to Fantastic Creatures
[BIOC37H3](#) Plants: Life on the Edge
[BIOC40H3](#) Plant Physiology
[BIOC54H3](#) Animal Behaviour
[BIOC59H3](#) Advanced Population Ecology
[BIOC62H3](#) Role of Zoos and Aquariums in Conservation
[BIOC70H3](#) An Introduction to Bias in STEMM (Science, Technology, Engineering, Mathematics and Medicine)
[BIOD26H3](#) Fungal Biology & Pathogenesis
[BIOD34H3](#) Conservation Physiology
[BIOD37H3](#) Biology of Plant Stress
[BIOD43H3](#) Animal Movement and Exercise
[BIOD45H3](#) Animal Communication
[BIOD48H3](#) Ornithology
[BIOD53H3](#) Special Topics in Animal Behaviour
[BIOC90H3](#) Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*
[EESC30H3](#) Environmental Microbiology

***Note:** Completion of BIOC90H3 is a graduation requirement for students in this program. Please see [BIOC90H3](#) in the Calendar for important information.

B. Senior Research Courses (optional)

Students interested in graduate research are encouraged to take one or more of the independent research courses offered in Biological Sciences as part of their degree.

[BIOD95H3](#) Supervised Study in Biology
[BIOD98Y3](#) Directed Research in Biology
[BIOD99Y3](#) Directed Research in Biology

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB54H3](#)/(COPB51H3)

Work Term Search Courses:

- [COPB55H3](#)/(COPB52H3) (Completed in the semester prior to the first work term)
- [COPC98H3](#) (Taken in the semester prior to the second work term)
- [COPC99H3](#) (Taken in the semester prior to the third work term)

Required Work Term Courses:

- [COPC01H3](#) (First work term)
- [COPC02H3](#) (Second work term)
- [COPC03H3](#) (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) (Fourth work term)
- [COPC05H3](#) (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN HUMAN BIOLOGY (SCIENCE) - SCSPE0215

Academic Program Supervisor: human-biology@utsc.utoronto.ca

The Specialist in Human Biology provides a solid foundation of introductory science courses and core biology courses while emphasizing, in the upper years, issues related to human health, the nature of humans and their culture as well as the interaction of the human species with the environment. The first year of the program emphasizes introductory courses in biology, chemistry, calculus, physics and psychology. The second year of the program emphasizes core courses in cell biology, molecular biology, physiology, ecology, evolution and anatomy that provide the basis for continued specialization in the third and fourth years. The upper years of the program emphasize specialized courses in anatomy, biochemistry, endocrinology, immunology, microbiology, physiology, psychology, pathology and pathobiology. This program is suited for those students who wish to go onto health-related fields such as medicine, dentistry, nursing, pharmacy, physiotherapy and health policy/management or graduate studies in these, and other, areas such as physiology, medicine and endocrinology.

Enrolment Requirements

Students apply to the Specialist Program in Human Biology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics and with a minimum cumulative grade point average (CGPA) of at least 2.0.

Application for admission is made to the Office of the Registrar through ACORN, in April/May and July/August. See the UTSC Office of the Registrar's [website](#) for more information on program selection.

Program Requirements

This Program consists of 15.0 credits.

Required Courses and Suggested Course Sequence

First Year

1. 1.0 credit in Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 1.0 credit in Introductory Chemistry Courses

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry]

3. 1.0 credit in Mathematics

[MATA29H3](#) Calculus I for the Life Sciences or [MATA30H3](#) Calculus I for Physical Sciences]

and

[MATA35H3](#) Calculus II for Biological Sciences or [MATA36H3](#) Calculus II for Physical Sciences]

4. 1.0 credit in Introductory Physics Courses

[PHYA10H3](#) Physics I for the Physical Sciences or [PHYA11H3](#) Physics I for the Life Sciences]

[PHYA21H3](#) Physics II for the Physical Sciences or [PHYA22H3](#) Physics II for the Life Sciences]

5. 0.5 credit in Statistics

Choose From:

[STAB22H3](#) Statistics I

[PSYB07H3](#) Data Analysis in Psychology

Second Year

6. 3.0 credits in Biology Core Courses

[BIOB10H3](#) Cell Biology

[BIOB11H3](#) Molecular Aspects of Cellular and Genetic Processes

[BIOB34H3](#) Animal Physiology

[BIOB38H3](#) Plants and Society

[BIOB50H3](#) Ecology

[BIOB51H3](#) Evolutionary Biology

[BIOB90H3](#) Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of [BIOB90H3](#) is a graduation requirement for students in this program. Please see [BIOB90H3](#) in the Calendar for important information.

7. 1.0 credit in Biology Core Labs

[BIOB32H3](#) Animal Physiology Laboratory

[BIOB33H3](#) Human Development and Anatomy

8. 1.0 credit in Organic Chemistry Courses

[CHMB41H3](#) Organic Chemistry I

[CHMB42H3](#) Organic Chemistry II

Third/Fourth Years

9. 2.5 credits in C-level Biology Core Courses

Choose From:

[BIOC15H3](#) Genetics

[BIOC17H3](#) Microbiology

[BIOC20H3](#) Principles of Virology

[BIOC32H3](#) Human Physiology I

[BIOC34H3](#) Human Physiology II

[BIOC39H3](#) Immunology

10. 1.5 credits in Additional C-level Biology Courses

Choose From:

[ANTC47H3](#) Human Skeletal Anatomy and Biology
[ANTC48H3](#) Advanced Topics In Human Osteology
[BIOC10H3](#) Cell Biology: Proteins from Life to Death
[BIOC12H3](#) Biochemistry I: Proteins and Enzymes
[BIOC13H3](#) Biochemistry II: Bioenergetics and Metabolism
[BIOC14H3](#) Genes, Environment and Behaviour
[BIOC16H3](#) Evolutionary Genetics and Genomics
[BIOC18H3](#) Looking Inside Cells Current Methods in Cell Biology
[BIOC19H3](#) Animal Developmental Biology
[BIOC21H3](#) Vertebrate Histology: Cells and Tissues
[BIOC30H3](#) From Genetic Codes to Fantastic Creatures
[BIOC35H3](#) Principles of Parasitology
[BIOC40H3](#) Plant Physiology
[BIOC58H3](#) Biological Consequences of Global Change
[BIOC65H3](#) Environmental Toxicology
[BIOC70H3](#) An Introduction to Bias in STEMM (Science, Technology, Engineering, Mathematics and Medicine)
[BIOC90H3](#) Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

***Note:** Completion of [BIOC90H3](#) is a graduation requirement for students in this program. Please see [BIOC90H3](#) in the Calendar for important information.

11. 1.0 credit in D-level Courses

Choose From:

[BIOD06H3](#) Advanced Topics in Neural Basis of Motor Control
[BIOD07H3](#) Advanced Topics and Methods in Neural Circuit Analysis
[BIOD12H3](#) Protein Homeostasis
[BIOD13H3](#) Herbiology: The Science Behind Medicinal Plants
[BIOD15H3](#) Mechanisms of Gene Regulation in Health and Disease
[BIOD17H3](#) Seminars in Cellular Microbiology
[BIOD18H3](#) Practical Approaches in Infection and Immunity
[BIOD19H3](#) Epigenetics in Health and Disease
[BIOD20H3](#) Special Topics in Virology
[BIOD24H3](#) Human Stem Cell Biology and Regenerative Medicine
[BIOD25H3](#) Genomics
[BIOD26H3](#) Fungal Biology and Pathogenesis
[BIOD27H3](#) Vertebrate Endocrinology
[BIOD29H3](#) Pathobiology of Human Disease
[BIOD32H3](#) Human Respiratory Pathophysiology
[BIOD33H3](#) Comparative Animal Physiology
[BIOD34H3](#) Conservation Physiology
[BIOD36H3](#) Advanced Topics in Molecular Parasitology
[BIOD37H3](#) Biology of Plant Stress
[BIOD43H3](#) Animal Movement and Exercise
[BIOD59H3](#) Models in Ecology, Epidemiology and Conservation
[BIOD65H3](#) Pathologies of the Nervous System
[HTLD18H3](#) Dental Sciences
[HLTD44H3](#) Environmental Contaminants, Vulnerability and Toxicity

12. 0.5 credit in Psychology or Health Studies

Choose From:

[HLTA02H3](#) Exploring Health and Society: Theories, Perspectives, and Patterns
[HLTA03H3](#) Navigating Health and Society: Research, Practice, and Policy
[HLTB15H3](#) Health Research Methodology
[HLTB16H3](#) Public Health
[HLTB20H3](#) Human Biological Variation and Evolution
[HLTB22H3](#) Biological Determinants of Health
[HLTB40H3](#) Health Policy and Health Systems
[HLTB44H3](#) Pathophysiology and Etiology of Disease
[PSYA01H3](#) Introduction to Biological and Cognitive Psychology
[PSYA02H3](#) Introduction to Clinical, Developmental, Personality and Social Psychology

SPECIALIST (CO-OPERATIVE) PROGRAM IN HUMAN BIOLOGY (SCIENCE) - SCSPE0215C

Academic Program Supervisor: human-biology@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist in Human Biology provides a solid foundation of introductory science courses and core biology courses while emphasizing, in the upper years, issues related to human health, the nature of humans and their culture as well as the interaction of the human species with the environment. The first year of the program emphasizes introductory courses in biology, chemistry, calculus, physics and psychology. The second year of the program emphasizes core courses in cell biology, molecular biology, physiology, ecology, evolution and anatomy that provide the basis for continued specialization in the third and fourth years. The upper years of the program emphasize specialized courses in anatomy, biochemistry, endocrinology, immunology, microbiology, physiology, psychology, pathology and pathobiology. This program is suited for those students who wish to go onto health-related fields such as medicine, dentistry, nursing, pharmacy, physiotherapy and health policy/management or graduate studies in these, and other, areas such as physiology, medicine and endocrinology.

The Specialist (Co-op) in Human Biology complements and punctuates academic course work with full-time work terms in various governmental or non-governmental agencies, in labs or in public or private industry. These work terms help students define and refine their career and/or professional school goals.

Enrolment Requirements

Students apply to the Specialist (Co-op) in Human Biology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics and with a minimum cumulative grade point average (CGPA) of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant your admission to the non-co-op without a request.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements

This Program consists of 15.0 credits.

Required Courses and Suggested Course Sequence

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN INTEGRATIVE BIOLOGY (SCIENCE) - SCSPE1030A

Academic Program Supervisor: integrative-biology@utsc.utoronto.ca

The Integrative Biology program allows students to pursue a specialist program built on a broad, multi-perspective approach towards understanding biological complexity. This program provides students with a solid foundation in core

biological areas (cellular and organismal biology, ecology and conservation, genes and development) and builds on this knowledge base in third and fourth years. A key advantage to this program is that it allows students to pursue specialization in more than one area at the same time, providing students with a broad understanding of biology. Many of the biggest issues facing today's planet require scientists that are capable of bringing different and complementary perspectives to look for solutions, and this program provides the coursework and training to help undergraduates build this knowledge base. Students who are interested in careers in conservation biology, ecology, environmental sciences, cellular/organismal biology, as well as ones interested in careers in medicine and other health professions, will benefit from this program.

Enrolment Requirements

Students apply to the Specialist Program in Integrative Biology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics and with a minimum cumulative grade point average (CGPA) of at least 2.0.

Application for admission is made to the Office of the Registrar through ACORN, in April/May and July/August. See the UTSC Office of the Registrar's [website](#) for more information on program selection.

Program Requirements

This program consists of 14.5 required credits.

First Year

1. 1.0 Credit of Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry Courses

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry]

3. 1.0 Credit in Mathematics

Choose from:

[[MATA29H3](#) Calculus I for the Life Sciences or [MATA30H3](#) Calculus I for Physical Sciences]

and

[[MATA35H3](#) Calculus II for Biological Sciences or [MATA36H3](#) Calculus II for Physical Sciences]

4. 0.5 Credit in Physics

Choose from:

[PHYA10H3](#) Physics I for the Physical Sciences

[PHYA11H3](#) Physics I for the Life Sciences

5. 0.5 Credit in Computer Science

Choose from:

[CSCA08H3](#) Introduction to Computer Science I (most appropriate course for computer science students)

[CSCA20H3](#) Introduction to Programming (most appropriate course for non-computer science students)

Second Year

6. 3.0 Credits of Biology Core Courses

[BIOB10H3](#) Cell Biology

[BIOB11H3](#) Molecular Aspects of Cellular and Genetic Processes

[BIOB34H3](#) Animal Physiology

[BIOB38H3](#) Plants and Society

[BIOB50H3](#) Ecology

[BIOB51H3](#) Evolutionary Biology

[BIOB90H3](#) Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of [BIOB90H3](#) is a graduation requirement for students in this program. Please see [BIOB90H3](#) in the Calendar for important information.

7. 0.5 Credit of Biology Core Labs

Choose from:

[BIOB12H3](#) Cell and Molecular Biology Laboratory

[BIOB32H3](#) Animal Physiology Laboratory

[BIOB33H3](#) Human Development and Anatomy

BIOB52H3 Ecology and Evolutionary Biology Laboratory**8. 0.5 Credit in Statistics**

Choose from:

Please see BIOC90H3 in the Calendar for important information.**13. 1.0 Credit of D-Level Biology Courses**

Choose from:

Any BIO D-level course offered by the Biological Sciences department.

SPECIALIST (CO-OPERATIVE) PROGRAM IN INTEGRATIVE BIOLOGY (SCIENCE) - SCSPE1030M

Academic Program Supervisor Email: integrative-biology@utsc.utoronto.ca

Co-op Program Coordinator Email: coopsuccess.utsc@utoronto.ca

The Integrative Biology program allows students to pursue a specialist program built on a broad, multi-perspective approach towards understanding biological complexity. This program provides students with a solid foundation in core biological areas (cellular and organismal biology, ecology and conservation, genes and development) and builds on this knowledge base in third and fourth years. A key advantage to this program is that it allows students to pursue specialization in more than one area at the same time, providing students with a broad understanding of biology. Many of the biggest issues facing today's planet require scientists that are capable of bringing different and complementary perspectives to look for solutions, and this program provides the coursework and training to help undergraduates build this knowledge base. Students who are interested in careers in conservation biology, ecology, environmental sciences, cellular/organismal biology, as well as ones interested in careers in medicine and other health professions, will benefit from this program.

Enrolment Requirements

Students apply to the Specialist (Co-op) in Integrative Biology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics. A minimum cumulative grade point average (CGPA) of at least 2.5 or higher is required for admission.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant your admission to the non-co-op without a request.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements:

This program consists of 14.5 required credits.

First Year

1. 1.0 Credit of Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

SPECIALIST PROGRAM IN MOLECULAR BIOLOGY AND BIOTECHNOLOGY (SCIENCE) - SCSPE1203

Supervisor Email: molecular-biology-biotechnology@utsc.utoronto.ca

The Molecular Biology and Biotechnology program strives to help students construct a broad foundation of knowledge across the major disciplines of biology in the first two years of study, and combines this knowledge with an increasingly analytical and reflective approach to learning. Upon this base, students deepen their knowledge of biological processes that occur at the cellular and molecular level through the course work of their third and fourth years. This is a laboratory-rich program that integrates an understanding of chemical and physical processes with our complex biological systems. Because of broad training in biology and rigorous cross-training in cognate disciplines, graduates are well-positioned to apply to professional and graduate schools or work in a broad range of government regulatory agencies, clinical or research-focused industries and other careers that require the union of strong analytical and technical skills.

Note: This program was formerly known as the Specialist in Cell and Molecular Biology (BSc).

Enrolment Requirements

Students apply to the Specialist Program in Molecular Biology and Biotechnology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics and with a minimum cumulative grade point average (CGPA) of at least 2.0.

Application for admission is made to the Office of the Registrar through ACORN, in April/May and July/August. See the UTSC Office of the Registrar's [website](#) for more information on program selection.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MOLECULAR BIOLOGY AND BIOTECHNOLOGY (SCIENCE) - SCSPE1203C

Academic Program Supervisor: molecular-biology-biotechnology@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Molecular Biology and Biotechnology program strives to help students construct a broad foundation of knowledge across the major disciplines of biology in the first two years of study, and combine this knowledge with an increasingly analytical and reflective approach to learning. Upon this base, students deepen their knowledge of biological processes that occur at the cellular and molecular level through course work of their third and fourth years. This is a laboratory-rich program that integrates an understanding of chemical and physical processes with our complex biological systems. Because of broad training in biology and rigorous cross-training in cognate disciplines, graduates are well-positioned to apply to professional and graduate schools or work in a broad range of government regulatory agencies, clinical or research-focused industries and other careers that require the union of strong analytical and technical skills.

The co-op option of the Molecular Biology and Biotechnology program complements and punctuates academic course work with full-time work terms in research laboratories, government, health care, or in public or private industry. These

work terms help students define and refine their career and/or professional school goals. For information on fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

Note: This program was formerly known as the Specialist Co-operative in Cell and Molecular Biology (BSc).

Enrolment Requirements

Students apply to the Specialist Program in Molecular Biology and Biotechnology (Co-op) after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics and with a minimum cumulative grade point average (CGPA) of 2.5 or higher is required for admission.

Application for admission is made to the Office of the Registrar through ACORN, in April/May and July/August. See the UTSC Office of the Registrar's website for more information on program selection

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant your admission to the non-co-op without a request.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements

The program requires students to complete a total of 14.5 credits.

First Year

1. 1.0 Credit of Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry Courses

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[CHMA11H3](#) Introductory Chemistry I: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry]

3. 1.0 Credit in Mathematics

Choose from:

[MATA29H3](#) Calculus I for the Life Sciences or [MATA30H3](#) Calculus I for Physical Sciences]

and

[[MATA35H3](#) Calculus II for Biological Sciences or [MATA36H3](#) Calculus II for Physical Sciences]

4. 1.0 Credit in Physics

[[PHYA10H3](#) Physics I for the Physical Sciences or [PHYA11H3](#) Physics I for the Life Sciences]

[[PHYA21H3](#) Physics II for the Physical Sciences or [PHYA22H3](#) Physics II for the Life Sciences]

5. 0.5 Credit in Statistics

Choose from:

[STAB22H3](#) Statistics I (this course could also be taken in the second year)

[PSYB07H3](#) Data Analysis in Psychology (this course could also be taken in the second year)

Second Year

6. 3.0 Credits of Biology Core Courses

[BIOB10H3](#) Cell Biology

[BIOB11H3](#) Molecular Aspects of Cellular and Genetic Processes

[BIOB34H3](#) Animal Physiology

[BIOB38H3](#) Plants and Society

[BIOB50H3](#) Ecology

[BIOB51H3](#) Evolutionary Biology

[BIOB90H3](#) Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of [BIOB90H3](#) is a graduation requirement for students in this program. Please see [BIOB90H3](#) in the Calendar for important information.

7. 0.5 Credit of Biology Core Labs

[BIOB12H3](#) Cell and Molecular Biology Laboratory

8. 1.0 Credit of Organic Chemistry Courses

[CHMB41H3](#) Organic Chemistry I

[CHMB42H3](#) Organic Chemistry II

Note: Computer Science might be taken in this year and will enhance Co-op placement options.

Third Year

9. 3.5 Credits of Biology C-level Courses

[BIOC12H3](#) Biochemistry I: Proteins and Enzymes

[BIOC13H3](#) Biochemistry II: Bioenergetics and Metabolism

[BIOC15H3](#) Genetics

[BIOC17H3](#) Microbiology

[BIOC20H3](#) Principles of Virology

[BIOC23H3](#) Practical Approaches to Biochemistry

[BIOC39H3](#) Immunology (can be completed in third or fourth year)

10. 0.5 Credit in Computer Science

Choose from:

[CSCA08H3](#) Introduction to Computer Science I (most appropriate course for computer science students)

[CSCA20H3](#) Introduction to Programming (most appropriate course for non-computer science students)

Third/Fourth Year

11. 0.5 Credit of Cognate Biology Courses

Choose from:

[BIOC10H3](#) Cell Biology: Proteins from Life to Death

[BIOC14H3](#) Genes, Environment and Behaviour

[BIOC18H3](#) Looking Inside Cells Current Methods in Cell Biology

[BIOC19H3](#) Animal Developmental Biology

[BIOC21H3](#) Vertebrate Histology: Cells and Tissues

[BIOC30H3](#) From Genetic Codes to Fantastic Creatures

[BIOC31H3](#) Plant Development and Biotechnology

[BIOC35H3](#) Principles of Parasitology

[BIOC40H3](#) Plant Physiology

[BIOC70H3](#) An Introduction to Bias in STEMM (Science, Technology, Engineering, Mathematics and Medicine)

[BIOD37H3](#) Biology of Plant Stress

[BIOC90H3](#) Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

***Note:** Completion of [BIOC90H3](#) is a graduation requirement for students in this program. Please see [BIOC90H3](#) in the Calendar for important information.

*Fourth Year***12. 0.5 Credit in Advanced Molecular Techniques**BIOD21H3 Advanced Molecular Biology Laboratory**13. 0.5 Credit of D-level Research-Oriented "Cell & Molecular" Course Work**

Choose from:

BIOD12H3 Protein HomeostasisBIOD13H3 Herbology: The Science Behind Medicinal PlantsBIOD15H3 Mechanisms of Gene Regulation in Health and DiseaseBIOD17H3 Seminars in Cellular MicrobiologyBIOD18H3 Practical Approaches in Infection and ImmunityBIOD19H3 Epigenetics in Health and DiseaseBIOD20H3 Special Topics in VirologyBIOD22H3 Molecular Biology of the Stress ResponseBIOD23H3 Special Topics in Cell BiologyBIOD24H3 Human Stem Cell Biology and Regenerative MedicineBIOD25H3 GenomicsBIOD26H3 Fungal Biology and PathogenesisBIOD27H3 Vertebrate EndocrinologyBIOD29H3 Pathobiology of Human DiseaseBIOD30H3 Plant Research and Biotechnology: Addressing Global ProblemsBIOD36H3 Advanced Topics in Molecular ParasitologyBIOD95H3 Supervised Study in BiologyBIOD98Y3 Directed Research in Biology**Note:** Any of these courses not used to satisfy this requirement can be used to fulfill the '0.5 credit of Cognate Biology Courses.'**Planning Your Co-op Work Terms & Academics**

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)

- [COPC98H3](#) (Taken in the semester prior to the second work term)
- [COPC99H3](#) (Taken in the semester prior to the third work term)

Required Work Term Courses:

- [COPC01H3](#) (First work term)
- [COPC02H3](#) (Second work term)
- [COPC03H3](#) (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) (Fourth work term)
- [COPC05H3](#) (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR PROGRAM IN BIOLOGY (SCIENCE) - SCMAJ1030B

Academic Program Supervisor Email: biology-major@utsc.utoronto.ca

Biology is the study of life and this major program in Biology is meant to provide students with a solid basic knowledge of this vast discipline, while also allowing the student to tailor their program in the upper years toward one or more biological sub-disciplines. Many of the world's most important and timely issues (medical science and disease, conservation and biodiversity, food and energy supplies) are issues that require citizens to have a firm understanding of biological principles and practices.

The Major program in Biology (Science) cannot be combined with any other Major program offered by the Department of Biological Sciences.

Enrolment Requirements

Students apply to the Major Program in Biology after completing a minimum of 4.0 full credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics. Students are admitted on the basis of academic performance.

Application for admission is made to the Office of the Registrar through ACORN, in April/May and July/August. See the UTSC Office of the Registrar's [website](#) for more information on program selection.

Program Requirements

This program consists of 8.0 required credits.

First Year

1. 1.0 Credit of Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry Courses

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry]

3. 0.5 Credit in Mathematics or Statistics Courses

Choose from:

[MATA29H3](#) Calculus I for the Life Sciences

[MATA30H3](#) Calculus I for Physical Sciences

STAB22H3 Statistics I
PSYB07H3 Data Analysis in Psychology

Second Year

4. 3.0 Credits of Biology Core Courses

BIOB10H3 Cell Biology
BIOB11H3 Molecular Aspects of Cellular and Genetic Processes
BIOB34H3 Animal Physiology
BIOB38H3 Plants and Society
BIOB50H3 Ecology
BIOB51H3 Evolutionary Biology
BIOB90H3 Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOB90H3 is a graduation requirement for students in this program. Please see BIOB90H3 in the Calendar for important information.

5. 0.5 Credit of Biology Core Labs

Choose from:

BIOB12H3 Cell and Molecular Biology Laboratory
BIOB32H3 Animal Physiology Laboratory
BIOB33H3 Human Development and Anatomy
BIOB52H3 Ecology and Evolutionary Biology Laboratory

Third Year

6. 1.5 Credits of Additional C-level Biology Courses

Choose from: Any BIO C-level courses offered by the department.

BIOC90H3 Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOC90H3 is a graduation requirement for students in this program. Please see BIOC90H3 in the Calendar for important information.

Fourth Year

7. 0.5 Credit of Additional D-Level Biology Courses

Choose from: Any BIO D-level courses offered by the department. Note: that this includes the Biology Supervised Studies and Directed Research courses (BIOD95H3, BIOD98Y3 and BIOD99Y3).

MAJOR (CO-OPERATIVE) PROGRAM IN BIOLOGY (SCIENCE) - SCMAJ1030M

Academic Program Supervisor Email: biology-major@utsc.utoronto.ca

Co-op Program Coordinator Email: coopsuccess.utsc@utoronto.ca

The Major (Co-op) in Biology program complements and punctuates academic course work with full-time work terms in various governmental or non-governmental agencies, in labs or in public or private industry. These work terms help students define and refine their career and/or professional school goals.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including 1.0 credit in Biology (excluding BIOA11H3, BIOA12H3), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding MATA02H3) or Statistics. A minimum cumulative GPA of 2.5 or higher is required for admission.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant you admission to the non-co-op without a request.

Applications must adhere to the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements:

This program consists of 8.0 required credits.

First Year

1. 1.0 Credit of Introductory Biology Courses

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry Courses

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]

3. 0.5 Credit in Mathematics or Statistics Courses

Choose from:

MATA29H3 Calculus I for the Life Sciences

MATA30H3 Calculus I for Physical Sciences

STAB22H3 Statistics I

PSYB07H3 Data Analysis in Psychology

Second Year

4. 3.0 Credits of Biology Core Courses

BIOB10H3 Cell Biology

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

BIOB34H3 Animal Physiology

BIOB38H3 Plants and Society

BIOB50H3 Ecology

BIOB51H3 Evolutionary Biology

BIOB90H3 Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOB90H3 is a graduation requirement for students in this program. Please see BIOB90H3 in the Calendar for important information.

5. 0.5 Credit of Biology Core Labs

Choose from:

BIOB12H3 Cell and Molecular Biology Laboratory

BIOB32H3 Animal Physiology Laboratory

BIOB33H3 Human Development and Anatomy

BIOB52H3 Ecology and Evolutionary Biology Laboratory

Third Year

6. 1.5 Credits of Additional C-level Biology Courses

Choose from: Any BIO C-level courses offered by the department.

BIOC90H3 Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOC90H3 is a graduation requirement for students in this program. Please see BIOC90H3 in the Calendar for important information.

Fourth Year

7. 0.5 Credit of Additional D-Level Biology Courses

Choose from: Any BIO D-level courses offered by the department. Note: that this includes the Biology Supervised Studies and Directed Research courses (BIOD95H3, BIOD98Y3 and BIOD99Y3).

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semester.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR PROGRAM IN CONSERVATION AND BIODIVERSITY (SCIENCE) - SCMAJ1150

Academic Program Supervisor: biodiversity@utsc.utoronto.ca

This program provides background and training in modern biological approaches to the study of biodiversity, ecology, and evolution. The links between these fields are emphasized, and topics covered range from the structure and function of ecosystems to the evolution of behaviour, morphology, and physiology.

Note: This program was formerly known as the Major in Biodiversity, Ecology & Evolution (BSc).

Enrolment Requirements

Students apply to the Major Program in Conservation and Biodiversity after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding BIOA11H3, BIOA12H3), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding MATA02H3) or Statistics. Students are admitted on the basis of academic performance.

Application for admission is made to the Office of the Registrar through ACORN, in April/May and July/August. See the UTSC Office of the Registrar's [website](#) for more information on program selection.

Program Requirements

This program consists of 8.5 required credits.

First Year

1. 1.0 Credit of Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry Courses

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry]

3. 0.5 Credit in Mathematics or Statistics

Choose from:

[MATA29H3](#) Calculus I for the Life Sciences

[MATA30H3](#) Calculus I for Physical Sciences

[STAB22H3](#) Statistics I

[PSYB07H3](#) Data Analysis in Psychology

Second Year

4. 3.0 Credits of Biology Core Courses

EESC04H3 Biodiversity and Biogeography
EESC30H3 Environmental Microbiology

***Note:** Completion of BIOC90H3 is a graduation requirement for students in this program. Please see BIOC90H3 in the Calendar for important information.

*Fourth Year***8. 0.5 Credit of D-level Courses**

Choose from:

BIOD25H3 Genomics
BIOD26H3 Fungal Biology & Pathogenesis
BIOD34H3 Conservation Physiology
BIOD43H3 Animal Movement and Exercise
BIOD45H3 Animal Communication
BIOD48H3 Ornithology
BIOD52H3 Biodiversity and Conservation
BIOD53H3 Special Topics in Animal Behaviour
BIOD54H3 Applied Conservation Biology
BIOD55H3 Experimental Animal Behaviour
BIOD59H3 Models in Ecology, Epidemiology and Conservation
BIOD60H3 Spatial Ecology
BIOD62H3 Symbiosis: Interactions Between Species
BIOD63H3 From Individuals to Ecosystems: Advanced Topics in Ecology
BIOD66H3 Quantitative Ecological and Biodiversity Analysis
BIOD67H3 Inter-University Biology Field Course
EESD15H3 Fundamentals of Site Remediation

MAJOR (CO-OPERATIVE) PROGRAM IN CONSERVATION AND BIODIVERSITY (SCIENCE) - SCMAJ1150C

Academic Program Supervisor Email: biodiversity@utsc.utoronto.caCo-op Program Coordinator: C. Dixon Email: coopsuccess.utsc@utoronto.ca

This program provides background and training in modern biological approaches to the study of biodiversity, ecology, and evolution. The links between these fields are emphasized, and topics covered range from the structure and function of ecosystems to the evolution of behaviour, morphology, and physiology.

The Co-op option of the Conservation and Biodiversity program complements and punctuates academic course work with full-time work terms in the various governmental or non-governmental conservation agencies, in labs or in public or private industry. These placements help students define and refine their career and/or professional school goals.

Enrolment Requirements

Students apply to the Major (Co-operative) Program in Conservation and Biodiversity after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics. A minimum cumulative grade point average (CGPA) of at least 2.5 or higher is required for admission.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant your admission to the non-co-op without a request.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements:

This program consists of 8.5 required credits

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Supervisors, as well as review the standard co-op

sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN HUMAN BIOLOGY (SCIENCE) - SCMAJ0215

Academic Program Supervisor Email: human-biology@utsc.utoronto.ca

The Major in Human Biology provides training and background in general biology with the opportunity to concentrate on courses in upper years that are related to human health. Upper year courses are available in physiology, cell and molecular biology, anatomy, microbiology, pathology, endocrinology, anthropology, psychology and biochemistry. This program is suitable for students with an interest in applied biology in health sciences or in social sciences related to human health.

Enrolment Requirements

Students apply to the Major Program in Human Biology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics. Students are admitted on the basis of academic performance.

Application for admission is made to the Office of the Registrar through ACORN, in April/May and July/August. See the UTSC Office of the Registrar's [website](#) for more information on program selection.

Program Requirements:

This program consists of 8.5 credits.

Required Courses and Suggested Course Sequence

First Year

1. 1.0 Credit of Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 1.0 Credit in Introductory Chemistry Courses

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry]

3. 1.0 Credit in Courses Related to Human Health

[HLTA02H3](#) Foundations in Health Studies I

[HLTA03H3](#) Foundations in Health Studies II

[HLTB15H3](#) Introduction to Health Research Methodology

[HLTB16H3](#) Introduction to Public Health

[HLTB20H3](#) Contemporary Human Evolution and Variation

[HLTB22H3](#) Biological Determinants of Health

[HLTB40H3](#) Health Policy and Health Systems

[HLTB44H3](#) Pathophysiology and Etiology of Disease

[PSYA01H3](#) Introduction to Biological and Cognitive Psychology

[PSYA02H3](#) Introduction to Clinical, Developmental, Personality and Social Psychology

4. 0.5 Credit in Mathematics or Statistics

Choose From:

[MATA29H3](#) Calculus I for the Life Sciences

[MATA30H3](#) Calculus I for Physical Sciences

[STAB22H3](#) Statistics I

[PSYB07H3](#) Data Analysis in Psychology

Second Year

5. 2.5 Credits of Biology Core Courses

[BIOB10H3](#) Cell Biology

[BIOB11H3](#) Molecular Aspects of Cellular and Genetic Processes

[BIOB34H3](#) Animal Physiology

[BIOB50H3](#) Ecology

[BIOB51H3](#) Evolutionary Biology

[BIOB90H3](#) Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of [BIOB90H3](#) is a graduation requirement for students in this program. Please see [BIOB90H3](#) in the

Calendar for important information.

6. 0.5 Credit in a Biology Core Lab

Choose From:

BIOB32H3 Animal Physiology Laboratory

BIOB33H3 Human Development and Anatomy

Third/Fourth Years

7. 1.5 Credits of C-Level Courses

Choose From:

ANTC47H3 Human and Primate Comparative Osteology

ANTC48H3 Advanced Topics In Human Osteology

BIOC10H3 Cell Biology: Proteins from Life to Death

BIOC14H3 Genes, Environment and Behaviour

BIOC15H3 Genetics

BIOC16H3 Evolutionary Genetics and Genomics

BIOC17H3 Microbiology

BIOC19H3 Animal Developmental Biology

BIOC20H3 Principles of Virology

BIOC21H3 Vertebrate Histology: Cells and Tissues

BIOC30H3 From Genetic Codes to Fantastic Creatures

BIOC32H3 Human Physiology I

BIOC34H3 Human Physiology II

BIOC35H3 Principles of Parasitology

BIOC39H3 Immunology

BIOC54H3 Animal Behaviour

BIOC58H3 Biological Consequences of Global Change

BIOC65H3 Environmental Toxicology

BIOC90H3 Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOC90H3 is a graduation requirement for students in this program. Please see BIOC90H3 in the Calendar for important information.

8. 0.5 Credit of D-Level Courses

Choose From:

BIOD06H3 Advanced Topics in Neural Basis of Motor Control

BIOD07H3 Advanced Topics and Methods in Neural Circuit Analysis

BIOD08H3 Theoretical Neuroscience

BIOD12H3 Protein Homeostasis

BIOD15H3 Mechanisms of Gene Regulation in Health and Disease

BIOD17H3 Seminars in Cellular Microbiology

BIOD19H3 Epigenetics in Health and Disease

BIOD20H3 Special Topics in Virology

BIOD24H3 Human Stem Cell Biology and Regenerative Medicine

BIOD25H3 Genomics

BIOD26H3 Fungal Biology and Pathogenesis

BIOD27H3 Vertebrate Endocrinology

BIOD29H3 Pathobiology of Human Disease

BIOD32H3 Human Respiratory Pathophysiology

BIOD33H3 Comparative Animal Physiology

BIOD34H3 Conservation Physiology

BIOD36H3 Advanced Topics in Molecular Parasitology

BIOD43H3 Animal Movement and Exercise

BIOD59H3 Models in Ecology, Epidemiology and Conservation

BIOD65H3 Pathologies of the Nervous System

BIOD95H3 Supervised Study in Biology (topic must be human-related and approved by the program supervisor)

HTLD18H3 Dental Sciences

HLTD44H3 Environmental Contaminants, Vulnerability and Toxicity

MAJOR (CO-OPERATIVE) PROGRAM IN HUMAN BIOLOGY (SCIENCE) - SCMAJ0215C

Academic Program Supervisor Email: human-biology@utsc.utoronto.ca

Co-op Program Coordinator Email: coopsuccess.utsc@utoronto.ca

The Major in Human Biology provides training and background in general biology with the opportunity to concentrate on courses in upper years that are related to human health. Upper year courses are available in physiology, cell and molecular biology, anatomy, microbiology, pathology, endocrinology, anthropology, psychology and biochemistry. This program is suitable for students with an interest in applied biology in health sciences or in social sciences related to human health.

The Major (Co-op) in Human Biology program complements and punctuates academic course work with full-time work terms in various governmental or non-governmental agencies, in labs or in public or private industry. These work terms help students define and refine their career and/or professional school goals.

Enrolment Requirements

Students apply to the Major (Co-op) in Human Biology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding BIOA11H3, BIOA12H3), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding MATA02H3) or Statistics. A minimum cumulative GPA of 2.5 or higher is required for admission.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant you admission to the non-co-op without a request.

Applications must adhere to the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements:

This program consists of 8.5 credits.

Required Courses and Suggested Course Sequence

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Advisors, as well as review the standard co-op

sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semester.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN PLANT BIOLOGY (SCIENCE) - SCMAJ1060

Supervisor Email: plant-biology@utsc.utoronto.ca

The Major Program in Plant Biology provides a broad education in all areas of contemporary biology and affords students an opportunity to concentrate on Plant Biology courses in upper years. This program is suitable for students with an interest in biochemistry, biotechnology, cell biology, ecology, evolution, genetics, physiology, and/or development of plants.

Enrolment Requirements

Students apply to the Major Program in Plant Biology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding [BIOA11H3](#), [BIOA12H3](#)), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding [MATA02H3](#)) or Statistics. Students are admitted based on academic performance.

Application for admission is made to the Office of the Registrar through ACORN, in April/May and July/August. See the UTSC Office of the Registrar's [website](#) for more information on program selection.

Program Requirements

Students are required to complete a total of 8.5 credits.

Required Courses and Suggested Course Sequence:

First Year

1. 1.0 Credit of Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry Courses

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry]

3. 0.5 Credit in Mathematics or Statistics Courses

Choose From:

[MATA29H3](#) Calculus I for the Life Sciences

[MATA30H3](#) Calculus I for Physical Sciences

[STAB22H3](#) Statistics I

[PSYB07H3](#) Data Analysis in Psychology

Second Year

4. 2.5 Credits of Biology Core Courses

[BIOB10H3](#) Cell Biology

[BIOB11H3](#) Molecular Aspects of Cellular and Genetic Processes

[BIOB38H3](#) Plants and Society

[BIOB50H3](#) Ecology

[BIOB51H3](#) Evolutionary Biology

[BIOB90H3](#) Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of [BIOB90H3](#) is a graduation requirement for students in this program. Please see [BIOB90H3](#) in the Calendar for important information.

5. 0.5 Credit of Biology Core Labs

Choose From:

[BIOB12H3](#) Cell and Molecular Biology Laboratory

[BIOB52H3](#) Ecology and Evolutionary Biology Laboratory

Third Year

6. 1.5 Credits of C-level Plant Courses

[BIOC31H3](#) Plant Development and Biotechnology

[BIOC37H3](#) Plants: Life on the Edge

[BIOC40H3](#) Plant Physiology

*Third/ Fourth Year***7. 1.0 Credit of Additional C-level Courses**

Choose From:

BIOC12H3 Biochemistry I: Proteins and EnzymesBIOC13H3 Biochemistry II: Bioenergetics and MetabolismBIOC15H3 GeneticsBIOC17H3 MicrobiologyBIOC30H3 From Genetic Codes to Fantastic CreaturesBIOC35H3 Principles in ParasitologyBIOC50H3 MacroevolutionBIOC52H3 Field EcologyBIOC61H3 Community Ecology and Environmental BiologyBIOC90H3 Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOC90H3 is a graduation requirement for students in this program. Please see BIOC90H3 in the Calendar for important information.

*Fourth Year***8. 0.5 Credit of D-level Biology Courses**

Choose From:

BIOD12H3 Protein HomeostasisBIOD13H3 Herbiology: The Science Behind Medicinal PlantsBIOD21H3 Advanced Molecular Biology LaboratoryBIOD26H3 Fungal Biology and PathogenesisBIOD30H3 Plant Research and Biotechnology: Addressing Global ProblemsBIOD36H3 Advanced Topics in Molecular ParasitologyBIOD37H3 Biology of Plant StressBIOD62H3 Symbiosis: Interactions Between Species

Note: Students who are interested in research or graduate studies can choose to take BIOC99H3, BIOD95H3, BIOD98Y3 or BIOD99Y3 supervised study courses with faculty to obtain additional research experience and training in plant biology.

MAJOR (CO-OPERATIVE) PROGRAM IN PLANT BIOLOGY (SCIENCE) - SCMAJ1060C

Academic Program Supervisor Email: plant-biology@utsc.utoronto.caCo-op Program Coordinator Email: coopsuccess.utsc@utoronto.ca

The Major Program in Plant Biology provides a broad education in all areas of contemporary biology and affords students an opportunity to concentrate on Plant Biology courses in upper years. This program is suitable for students with an interest in biochemistry, biotechnology, cell biology, ecology, evolution, genetics, physiology, and/or development of plants.

Enrolment Requirements

Students apply to the Major (Co-op) Program in Plant Biology after completing a minimum of 4.0 credits, including 1.0 credit in Biology (excluding BIOA11H3, BIOA12H3), 1.0 credit in Chemistry, and 0.5 credit in Mathematics (excluding MATA02H3) or Statistics. A minimum cumulative GPA of 2.5 or higher is required for admission.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program. We strongly encourage you to also request the non-co-op option of this program as an alternative as we are not able to grant your admission to the non-co-op without a request.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Program Requirements:

Students are required to complete a total of 8.5 credits.

Required Courses and Suggested Course Sequence:

First Year

1. 1.0 Credit of Introductory Biology Courses

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

2. 1.0 Credit of Introductory Chemistry Courses

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]

3. 0.5 Credit in Mathematics or Statistics Courses

Choose From:

MATA29H3 Calculus I for the Life Sciences

MATA30H3 Calculus I for Physical Sciences

STAB22H3 Statistics I

PSYB07H3 Data Analysis in Psychology

Second Year

4. 2.5 Credits of Biology Core Courses

BIOB10H3 Cell Biology

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

BIOB38H3 Plants and Society

BIOB50H3 Ecology

BIOB51H3 Evolutionary Biology

BIOB90H3 Integrative Research Poster Project (CR/NCR 0.0 credit)*

***Note:** Completion of BIOB90H3 is a graduation requirement for students in this program. Please see BIOB90H3 in the Calendar for important information.

5. 0.5 Credit of Biology Core Labs

Choose From:

BIOB12H3 Cell and Molecular Biology Laboratory

BIOB52H3 Ecology and Evolutionary Biology Laboratory

Third Year

6. 1.5 Credits of C-level Plant Courses

BIOC31H3 Plant Development and Biotechnology

BIOC37H3 Plants: Life on the Edge

BIOC40H3 Plant Physiology

*Third/ Fourth Year***7. 1.0 Credit of Additional C-level Courses**

Choose From:

[BIOC12H3](#) Biochemistry I: Proteins and Enzymes

[BIOC13H3](#) Biochemistry II: Bioenergetics and Metabolism

[BIOC15H3](#) Genetics

[BIOC17H3](#) Microbiology

[BIOC30H3](#) From Genetic Codes to Fantastic Creatures

[BIOC35H3](#) Principles in Parasitology

[BIOC50H3](#) Macroevolution

[BIOC52H3](#) Field Ecology

[BIOC61H3](#) Community Ecology and Environmental Biology

[BIOC90H3](#) Integrative Multimedia Documentary Project (CR/NCR 0.0 credit)*

***Note:** Completion of [BIOC90H3](#) is a graduation requirement for students in this program. Please see [BIOC90H3](#) in the Calendar for important information.

*Fourth Year***8. 0.5 Credit of D-level Biology Courses**

Choose From:

[BIOD12H3](#) Protein Homeostasis

[BIOD13H3](#) Herbology: The Science Behind Medicinal Plants

[BIOD21H3](#) Advanced Molecular Biology Laboratory

[BIOD26H3](#) Fungal Biology and Pathogenesis

[BIOD30H3](#) Plant Research and Biotechnology: Addressing Global Problems

[BIOD36H3](#) Advanced Topics in Molecular Parasitology

[BIOD37H3](#) Biology of Plant Stress

[BIOD62H3](#) Symbiosis: Interactions Between Species

Note: Students who are interested in research or graduate studies can choose to take [BIOC99H3](#), [BIOD95H3](#), [BIOD98Y3](#) or [BIOD99Y3](#) supervised study courses with faculty to obtain additional research experience and training in plant biology.

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Department Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must satisfactorily complete Co-op work term(s) as follows: three 4-month work terms, one 4-month work term and one 8-month work term, or one 12-month work term. To be eligible for their first work term, students must be enrolled in the Major (Co-op) in Biology and have completed at least 7.0 credits, achieve a cumulative GPA of 2.5 or higher, and complete [COPB50H3](#) and [COPB51H3](#).

Students must be available for work terms in each of the Fall, Winter, and Summer semesters and must complete at least one of their required work terms in either a Fall or Winter semester. This requires that students take courses during the Summer semesters.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during at least one Summer semester.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB54H3/\(COPB51H3\)](#)

Work Term Search Courses:

- [COPB55H3/\(COPB52H3\)](#) (Completed in the semester prior to the first work term)
- [COPC98H3](#) (Taken in the semester prior to the second work term)
- [COPC99H3](#) (Taken in the semester prior to the third work term)

Required Work Term Courses:

- [COPC01H3](#) (First work term)
- [COPC02H3](#) (Second work term)
- [COPC03H3](#) (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) (Fourth work term)
- [COPC05H3](#) (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MINOR PROGRAM IN BIOLOGY (SCIENCE) - SCMIN1030A

Supervisor Email: biology-minor@utsc.utoronto.ca

Enrolment in the Minor in Biology is unlimited. The Minor in Biology cannot be combined with any Major or Specialist programs offered by the Department of Biological Sciences.

Program Requirements

Students are required to complete a total of 4.0 credits.

1. 1.0 credit of Introductory Biology courses:

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 3.0 credits in Biology*, of which at least 1.0 credit must be at the C- or D-level.

**([NROC34H3](#)) may be used toward fulfilling this requirement.

**Neither [BIOA11H3](#) or [BIOA12H3](#) may not be used towards fulfilling this requirement.

CERTIFICATE IN BIOLOGICAL SCIENCES RESEARCH EXCELLENCE - SCCER1020

The Certificate in Biological Sciences Research Excellence will recognize students' research accomplishments in experiential, research-based learning experiences throughout their undergraduate programs.

Note: Courses for which students have selected the CR/NCR option cannot be used towards the completion of this Certificate. However, courses that are graded as CR/NCR courses for all students (e.g., [BIOB98H3](#) and [BIOB99H3](#)), can be used towards the completion of this Certificate.

Enrolment Requirements

Students must be enrolled in any Major or Specialist program offered by the Department of Biological Sciences.

Certificate Requirements

Students must complete a minimum of 1.5 credits as follows:

1. [BIOD98Y3](#)*

and any one of the following:

[BIOB97H3](#)*

[BIOB98H3](#)

[BIOB99H3](#)

[BIOC99H3](#)*

[BIOD99Y3](#)*

*Note: students must earn a grade of A- or higher in these courses in order to be eligible for the Certificate.

2. All students must engage in at least one consultation with the liaison librarian for the Department of Biological Sciences in order to develop their skills in literature mining and using an evidence-based approach to study design and data analysis.

3. Upon completion of the specified courses in component 1 of the Requirements, students must provide an overall summary of their research accomplishments to the Department in order to receive the Certificate.

Biological Sciences Courses

BIOA01H3 - Life on Earth: Unifying Principles

A lecture and laboratory course providing an overview of the origins and cellular basis of life, genetics and molecular biology, evolution and the diversity of microorganisms. **Note:** that both [BIOA01H3](#) and [BIOA02H3](#) must be completed prior to taking any other Biology course.

Prerequisite: [Grade 12 Biology or [BIOA11H3](#) or [BIOA12H3](#)] and [Grade 12 Advanced Functions or Grade 12 Calculus and Vectors or Grade 12 Data Management or the Online Mathematics Preparedness Course]

Exclusion: BIO120H, BIO130H, (BIO150Y)

Breadth Requirements: Natural Sciences
Course Experience: University-Based Experience

BIOA02H3 - Life on Earth: Form, Function and Interactions

A lecture and laboratory course providing an overview of the anatomy and physiology of plants and animals, population biology, ecology and biodiversity. **Note:** that both [BIOA01H3](#) and [BIOA02H3](#) must be completed prior to taking any other Biology course.

Prerequisite: [Grade 12 Biology or [BIOA11H3](#) or [BIOA12H3](#)] and [Grade 12 Advanced Functions or Grade 12 Calculus and Vectors or Grade 12 Data Management or the Online Mathematics Preparedness Course]

Exclusion: (BIO150Y)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOA11H3 - Introduction to the Biology of Humans

An exploration of how molecules and cells come together to build and regulate human organ systems. The course provides a foundation for understanding genetic principles and human disease, and applications of biology to societal needs. This course is intended for non-biology students.

Exclusion: [BIOA01H3](#), [BIOA02H3](#), [BIOA12H3](#), [CSB201H1](#)

Breadth Requirements: Natural Sciences

Note: 1. Priority will be given to students in the Major/Major Co-op in Population Health. Students across all disciplines will be admitted if space permits.
2. Students who have passed [BIOA11H3](#) will be permitted to take [BIOA01H3](#) and [BIOA02H3](#).

BIOA12H3 - General Biology: Concepts and Processes of Biological Systems

This course will explore the fundamentals of biology across organisms. This will include aspects of biochemistry, molecular genetics, cellular biology, ecology, evolution, principles in physiology and biodiversity. The course content will link biology to real-life topics with an emphasis on scientific literacy.

Exclusion: Grade 12 Biology, [BIOA01H3](#), [BIOA02H3](#), [BIOA11H3](#).

Breadth Requirements: Natural Sciences

Note:

1. Students enrolled in Life Science degree posts may not take this course for credit towards any program.
2. Priority will be given to students who do not have grade 12 Biology completed and wish to pursue programs in Psychology, Mental Health Studies or certain programs in Physical & Environmental Sciences that require high school Biology. Students across all disciplines will be admitted if space permits.
3. Students who have passed [BIOA12H3](#) will be permitted to take [BIOA01H3](#) and [BIOA02H3](#).
4. Please refer to the requirements of your intended program to determine whether this course is appropriate for your degree. Specifically, students intending to join a program in Health and Society should enroll in [BIOA11H3](#) instead.

BIOB10H3 - Cell Biology

This course is designed to introduce theory and experimental techniques in cell biology. The course examines the structure and function of major animal and plant organelles and integrates this into a discussion of protein biosynthesis, signal-based sorting and intracellular trafficking using the cytoskeleton. Cell motility and cell interactions with the environment will also be examined to provide a solid foundation on the basic unit of life.

Prerequisite: [BIOA01H3](#) and [BIOA02H3](#) and [CHMA10H3](#) and [CHMA11H3](#)

Breadth Requirements: Natural Sciences

BIOB11H3 - Molecular Aspects of Cellular and Genetic Processes

A course focusing on the central dogma of genetics and how molecular techniques are used to investigate cellular processes. Topics include structure and function of the nucleus, DNA replication and cell cycle control, transcription and translation, gene regulation and signal transduction.

Prerequisite: [BIOA01H3](#) and [BIOA02H3](#) and [CHMA10H3](#) and [CHMA11H3](#)

Exclusion: [BIO230H](#)

Breadth Requirements: Natural Sciences

BIOB12H3 - Cell and Molecular Biology Laboratory

A practical introduction to experimentation in cell and molecular biology. Lab modules will introduce students to concepts and techniques in the general preparation of solutions and buffers, microbiology, molecular biology, biochemistry, microscopy, data analysis, and science communication. This core laboratory course is the gateway for Molecular Biology & Biotechnology Specialists to upper level laboratory offerings.

Prerequisite: [CHMA10H3](#) and [CHMA11H3](#)

Corequisite: [BIOB10H3](#) and [BIOB11H3](#)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Specialist programs in Molecular Biology and Biotechnology (Co-op and non-Co-op), Medicinal and Biological Chemistry, Neuroscience (Stage 1, Co-op only), Neuroscience (Cellular/Molecular Stream), and the Major program in Biochemistry. Additional students will be admitted as space permits.

BIOB20H3 - Introduction to Computational Biology

This course explains the fundamental methods of quantitative reasoning, with applications in medicine, natural sciences, ecology and evolutionary biology. It covers the major aspects of statistics by working through concrete biological problems. The course will help students develop an understanding of key concepts through computer simulations, problem solving and interactive data visualisation using the R programming language (no prior skills with R or specialized math concepts are required).

Prerequisite: [BIOA01H3](#) and [BIOA02H3](#)

Exclusion: [BIO259H5](#)

Breadth Requirements: Quantitative Reasoning

BIOB32H3 - Animal Physiology Laboratory

This course examines physiological mechanisms that control and co-ordinate the function of various systems within the body. The laboratory exercises examine properties of digestive enzymes, characteristics of blood, kidney function, metabolic rate and energetics, nerve function and action potentials, synaptic transmission, skeletal muscle function and mechanoreception.

Corequisite: (BIOB30H3) or BIOB34H3

Exclusion: BIO252Y, BIO270H, BIO271H, (ZOO252Y)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOB33H3 - Human Development and Anatomy

A lecture based course with online learning modules which deals with the functional morphology of the human organism. The subject matter extends from early embryogenesis through puberty to late adult life.

Prerequisite: [BIOA01H3 and BIOA02H3] or [HLTA03H3 and HLTA20H3]

Exclusion: ANA300Y, ANA301H, HLTB33H3, PMDB33H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Human Biology programs. Additional students will be admitted as space permits.

BIOB34H3 - Animal Physiology

An introduction to the principles of animal physiology rooted in energy usage and cellular physiology. A comparative approach is taken, which identifies both the universal and unique mechanisms present across the animal kingdom. Metabolism, thermoregulation, digestion, respiration, water regulation, nitrogen excretion, and neural circuits are the areas of principal focus.

Prerequisite: BIOA01H3 and BIOA02H3 and CHMA11H3

Exclusion: BIO270H

Breadth Requirements: Natural Sciences

BIOB35H3 - Essentials of Human Physiology

An exploration of the normal physiology of the human body. Emphasis will be placed on organ systems associated with head and neck, especially nervous, respiratory, muscular, digestive, cardiovascular, and endocrine. Particular emphasis will be placed on speech, audition, and swallowing. The interrelationship among organ systems and how they serve to maintain homeostasis and human health will also be discussed.

Prerequisite: BIOA01H3 or BIOA11H3

Exclusion: BIOC32H3, BIOC34H3, BIO210Y5, PSL201Y1

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Specialist Program in Psycholinguistics (Co-op and Non co-op). Additional students will be admitted if space permits.

BIOB38H3 - Plants and Society

How do plants feed the world and which plants have the highest impact on human lives? What is the origin of agriculture and how did it change over time? The human population will climb to 10 billion in 2050 and this will tax our planet's ability to sustain life. Environmentally sustainable food production will become even more integral.

Prerequisite: BIOA01H3 and BIOA02H3

Exclusion: (BIOC38H3), EEB202H

Breadth Requirements: Natural Sciences

BIOB50H3 - Ecology

An introduction to the main principles of ecology; the science of the interactions of organisms with each other and with their environment. Topics include physiological, behavioural, population, community, and applied aspects of ecology (e.g. disease ecology, climate change impacts, and approaches to conservation). Emphasis is given to understanding the connections between ecology and other biological subdisciplines.

Prerequisite: BIOA01H3 and BIOA02H3

Breadth Requirements: Natural Sciences

BIOB51H3 - Evolutionary Biology

This course is an introduction to the main principles of evolution; the study of the diversity, relationships, and change over time in organisms at all scales of organization (from individuals to populations to higher taxonomic groups). The theory and principles of evolutionary biology give critical insight into a wide range of fields, including conservation, genetics, medicine, pathogenesis, community ecology, and development.

Prerequisite: BIOA01H3 and BIOA02H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOB52H3 - Ecology and Evolutionary Biology Laboratory

An introduction to field, lab and computational approaches to ecology and evolution. Laboratories will explore a variety of topics, ranging from population genetics to community ecology and biodiversity. Some lab exercises will involve outdoor field work.

Prerequisite: [BIOA01H3](#) and [BIOA02H3](#)
Corequisite: [BIOB50H3](#) or [BIOB51H3](#)
Breadth Requirements: Natural Sciences
Course Experience: University-Based Experience

BIOB90H3 - Integrative Research Poster Project

In this course, students will develop scientific communication skills by working collaboratively with peers to create an informative scientific poster that will be presented in a poster session modelled on those held at most major scientific conferences. Successful posters will engage the interest of the audience in the topic, clearly and concisely outline understanding gained from the primary literature, and discuss how understanding is enhanced by integrating knowledge.

Note: Students in all Specialist/Specialist Co-op and Major programs in Biological Sciences are required to complete [BIOB90H3](#) prior to graduation.

Breadth Requirements: Natural Sciences

BIOB97H3 - Bio-CURE: Course-based Undergraduate Research in Biological Sciences

This course-based undergraduate research experience (CURE) in biological sciences will introduce students to the process of scientific inquiry as they engage in a hypothesis-driven research project with an emphasis on student-driven discovery, critical thinking, and collaboration. Students will learn to effectively access, interpret, and reference scientific literature as they formulate their research question and create an experimental design. Students will gain hands-on experience in research techniques and apply concepts in research ethics, reproducibility, and quantitative analyses to collect and interpret data.

Corequisite: [BIOB11H3](#) and at least one of [BIOB10H3](#), [BIOB34H3](#), [BIOB38H3](#), [BIOB50H3](#), [BIOB51H3](#)

Exclusion: None

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Have completed no more than 11 credits towards a degree program at the time of enrolment.

BIOB98H3 - Supervised Introductory Research in Biology

A course designed to facilitate the introduction to, and experience in, ongoing laboratory or field research in biology. Supervision of the work is arranged by mutual agreement between student and instructor. Students must obtain a permission form (and outline of the planned work) from the Biological Sciences [website](#). This is to be completed and signed by the student and

supervisor and then returned to the Biological Sciences departmental office (SW421E).

Notes:

1. Completion of this course can be used to fulfill a course requirement for the Certificate in Biological Sciences Research Excellence. Details can be found in the Biological Sciences Overview section of the Calendar.
2. This course **does not** satisfy any Biological Sciences program requirements.
3. This course is a credit/no credit course.

Prerequisite: At least 4.0 credits including [BIOA01H3](#) and [BIOA02H3](#).

Exclusion: [BIOB98H3](#) may not be taken after or concurrently with: [BIOB99H3](#), [BIOD95H3](#), [BIOD98Y3](#) or [BIOD99Y3](#)

Course Experience: University-Based Experience

BIOD99H3 - Supervised Introductory Research in Biology

A course designed to facilitate the introduction to, and experience in, ongoing laboratory or field research in biology. Supervision of the work is arranged by mutual agreement between student and instructor. Students must obtain a permission form (and outline of the planned work) from the Biological Sciences website. This is to be completed and signed by the student and supervisor and then returned to the Biological Sciences departmental office (SW421E).

Notes:

1. [BIOB99H3](#) is identical to [BIOB98H3](#) but is intended as a second research experience. In order to be eligible for [BIOB99H3](#), with the same instructor, the student and the instructor will have to provide a plan of study, the scope of which goes beyond the work of [BIOB98H3](#).
2. Completion of this course can be used to fulfill a course requirement for the Certificate in Biological Sciences Research Excellence. Details can be found in the Biological Sciences Overview section of the Calendar.
3. This course **does not** satisfy any Biological Sciences program requirements.

Prerequisite: [BIOB98H3](#)

Exclusion: [BIOB99H3](#) may not be taken after or concurrently with [BIOD95H3](#), [BIOD98Y3](#) or [BIOD99Y3](#).

Course Experience: University-Based Experience

BIOC10H3 - Cell Biology: Proteins from Life to Death

This seminar course builds on fundamental cell biology concepts using primary literature. This course will examine specific organelles and their functions in protein biogenesis, modification, trafficking, and quality control within eukaryotic cells. The experimental basis of knowledge will be emphasized and students will be introduced to hypothesis-driven research in cell biology.

Prerequisite: BIOB10H3 and BIOB11H3

Exclusion: BIO315H, CSB428H

Recommended Preparation: BIOC12H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC12H3 - Biochemistry I: Proteins and Enzymes

A lecture course describing factors involved in determining protein structures and the relationship between protein structure and function. Topics include: amino acids; the primary, secondary, tertiary and quaternary structures of proteins; protein motifs and protein domains; glycoproteins; membrane proteins; classical enzyme kinetics and allosteric enzymes; mechanisms of enzyme action.

Prerequisite: BIOB10H3 and BIOB11H3 and CHMB41H3

Exclusion: CHMB62H3, BCH210H, BCH242Y

Recommended Preparation: CHMB42H3

Breadth Requirements: Natural Sciences

BIOC13H3 - Biochemistry II: Bioenergetics and Metabolism

A lecture course that introduces how cells or organisms extract energy from their environment. The major metabolic pathways to extract energy from carbohydrates, fats and proteins will be discussed, as well as the regulation and integration of different pathways. An emphasis will be placed on real-world applications of biochemistry to metabolism.

Prerequisite: BIOB10H3 and BIOB11H3 and CHMB41H3

Exclusion: CHMB62H3, BCH210H, BCH242Y

Breadth Requirements: Natural Sciences

BIOC14H3 - Genes, Environment and Behaviour

This class will provide a survey of the role of genes in behaviour, either indirectly as structural elements or as direct participants in behaviour. Topics to be covered are methods to investigate complex behaviours in humans and animal models of human disease, specific examples of genetic effects on behaviour in animals and humans, and studies of gene-environment interactions.

Prerequisite: BIOB10H3 and BIOB11H3

Breadth Requirements: Natural Sciences

BIOC15H3 - Genetics

Topics for this lecture and laboratory (or project) course include: inheritance and its chromosomal basis; gene interactions; sources and types of mutations and the relationship of mutation to genetic disease and evolution;

genetic dissection of biological processes; genetic technologies and genomic approaches.

Prerequisite: BIOB10H3 and BIOB11H3 and [PSYB07H3 or STAB22H3]

Exclusion: BIO260H, HMB265H

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC16H3 - Evolutionary Genetics and Genomics

Understanding the process of evolution is greatly enhanced by investigations of the underlying genes. This course introduces modern genetic and genomic techniques used to understand and assess microevolutionary changes at the population level. Topics include DNA sequence evolution, population genetics, quantitative genetics/genomics, positive Darwinian selection, the evolution of new genes, and comparative genomics.

Prerequisite: BIOB51H3

Recommended Preparation: BIOC15H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC17H3 - Microbiology

This course presents an overview of the microbial world and introduces the students, in more detail, to the physiological, cellular and molecular aspects of bacteria. The laboratories illustrate principles and provide training in basic microbiological techniques essential to microbiology and to any field where recombinant DNA technology is used.

Prerequisite: BIOB10H3 and BIOB11H3

Exclusion: MGY377H

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC18H3 - Looking Inside Cells: Current Methods in Cell Biology

Cell biology techniques are at the forefront of biotechnology and biomedical research. This lecture/laboratory course will build on fundamental cell biology topics to understand and apply current methods used in research labs. This course will provide students with practical experience in analyzing eukaryotic cell structure and function, with a strong focus on light and fluorescence microscopy.

Prerequisite: BIOB10H3 and BIOB11H3 and BIOB12H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the following programs in Biological Sciences: Specialist Program in Molecular Biology and Biotechnology Co-op and Non-Co-op; Specialist in Human Biology Co-op and Non-Co-op;

Major in Human Biology and Major in Molecular Biology, Immunology and Disease.

BIOC19H3 - Animal Developmental Biology

Following a discussion of cellular and molecular events in early embryonic life, the development of several model systems will be analyzed such as erythropoiesis, lens development in the eye, spermatogenesis and myogenesis. Particular reference will be given to the concept that regulation of gene expression is fundamental to development.

Prerequisite: BIOB10H3 and BIOB11H3

Exclusion: CSB328H

Breadth Requirements: Natural Sciences

BIOC20H3 - Principles of Virology

This course introduces viruses as infectious agents. Topics include: virus structure and classification among all kingdoms, viral replication strategies, the interactions of viruses with host cells, and how viruses cause disease. Particular emphasis will be on human host-pathogen interactions, with select lectures on antiviral agents, resistance mechanisms, and vaccines.

Prerequisite: BIOB10H3 and BIOB11H3

Exclusion: BIO475H5, CSB351Y1, MGY378H1

Breadth Requirements: Natural Sciences

BIOC21H3 - Vertebrate Histology: Cells and Tissues

A study of the structure of cells and the various tissue types which make up the vertebrate body; epithelial, connective, muscle, nervous, blood, and lymphatic. Emphasis is placed on how form is influenced by function of the cells and tissues.

Prerequisite: BIOB10H3 and BIOB34H3

Exclusion: ANA300Y

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC23H3 - Practical Approaches to Biochemistry

A lecture and laboratory course that introduces students to experimental approaches used in biochemical research. Topics include practical and theoretical aspects of: spectrophotometry; chromatography; electrophoresis; enzyme assays, protein purification and approaches to identify protein-protein interactions. Students are expected to solve numerical problems involving these and related procedures.

Prerequisite: BIOB12H3 and BIOC12H3

Exclusion: BCH370H, (BCH371H), BCH377H, BCH378H

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC29H3 - Introductory Mycology

This course will lead students through an exploration of the Kingdom of Fungi, covering topics in biodiversity, ecology, and evolution. Lectures will also discuss the broad application of fungi in agriculture, industry, medicine, and visual arts. In the laboratory sessions, students will learn to observe, isolate, and identify fungi using microscopy and modern biological techniques. Field trips will be opportunities to observe fungi in their native habitats and to discuss the real-world applications of diverse fungal organisms.

Prerequisite: BIOB50H3 and BIOB51H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC30H3 - From Genetic Codes to Fantastic Creatures

In this interdisciplinary course, students will be introduced to strategies used by organisms – from microscopic bugs to plants and animals- to grow into the correct shape and size to complete their life cycle. The course will highlight molecular mechanisms controlling developmental processes common to all life forms. Within this course, students will integrate evidence and tools from across biology to advance the student understanding of how this knowledge can be critical in improving and advancing human health and well-being.

Prerequisite: BIOB10H3 and BIOB11H3

Breadth Requirements: Natural Sciences

BIOC31H3 - Plant Development and Biotechnology

A central question of developmental biology is how a single cell becomes a complex organism. This lecture course focuses on molecular and cellular mechanisms that control developmental processes in plants, including: embryonic, vegetative and reproductive development; hormone signal transduction pathways; plant-environment interaction and plant biotechnology.

Prerequisite: BIOB10H3 and BIOB11H3

Exclusion: CSB340H

Breadth Requirements: Natural Sciences

BIOC32H3 - Human Physiology I

An introduction to human physiology covering the nervous system, skeletal muscles, hormones, and the immune systems in both healthy and diseased states.

Prerequisite: BIOB34H3 or NROB60H3

Exclusion: PSL300H

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC34H3 - Human Physiology II

This course will cover the physiology of the human respiratory, cardiovascular, renal and digestive systems. Topics include cardiac function, ECG, blood flow/pressure regulation, pulmonary mechanics, gas transfer and transport, the control of breathing, sleep-related breathing disorders, kidney function, ion regulation, water balance, acid-base balance and digestive function/regulation. Students will complete a series of computer-simulated laboratory exercises on their own time.

Prerequisite: BIOB34H3 or NROB60H3 or BIO271H

Exclusion: (BIOC33H3), (PSL302Y), PSL301H

Breadth Requirements: Natural Sciences

BIOC35H3 - Principles in Parasitology

This course introduces principles in parasitic lifestyles. Topics that will be covered include common parasite life strategies, host-parasite interactions and co-evolution, parasite immune evasion strategies, impacts on public health, and treatment and prevention strategies.

Prerequisite: BIOB10H3 and BIOB11H3

Breadth Requirements: Natural Sciences

BIOC37H3 - Plants: Life on the Edge

Plants have evolved adaptations to maximize growth, survival and reproduction under various taxing environmental conditions. This course covers the great diversity of plant structures and function in relation to ecology, focusing mainly on flowering plants.

Prerequisite: BIOB38H3 or BIOB50H3 or BIOB51H3

Exclusion: EEB340H

Breadth Requirements: Natural Sciences

BIOC39H3 - Immunology

This course introduces the molecular and cellular basis of the immune system. Topics include self versus non-self recognition, humoral and cell-mediated immune responses, and the structure and function of antibodies. The importance of the immune system in health and disease will be emphasized and topics include vaccination, autoimmunity, and tumour immunology.

Prerequisite: BIOB10H3 and BIOB11H3

Exclusion: IMM340H, IMM341H, IMM350H, IMM351H

Breadth Requirements: Natural Sciences

BIOC40H3 - Plant Physiology

An introduction to plant biology. Topics include plant and cell structure, water balance, nutrition, transport processes at the cell and whole plant level, physiological and biochemical aspects of photosynthesis, and growth and development in response to hormonal and environmental cues.

Prerequisite: BIOB10H3 and BIOB11H3

Exclusion: BIO251H

Breadth Requirements: Natural Sciences

BIOC44H3 - Neuroethology

Neural basis of natural behaviour; integrative function of the nervous system; motor and sensory systems; mechanisms of decision-making, initiating action, co-ordination, learning and memory. Topics may vary from year to year.

Prerequisite: BIOB34H3 or NROB60H3 or NROB61H3

Exclusion: (NROC34H3)

Breadth Requirements: Natural Sciences

BIOC50H3 - Macroevolution

An overview of recent developments in evolutionary biology that focus on large-scale patterns and processes of evolution. Areas of emphasis may include the evolutionary history of life on earth, phylogenetic reconstruction, patterns of diversification and extinction in the fossil record, the geography of evolution, the evolution of biodiversity, and the process of speciation.

Prerequisite: BIOB50H3 and BIOB51H3

Exclusion: EEB362H

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC51H3 - Biodiversity Field Course

A course with preparatory lectures on the UTSC campus and a field experience in natural settings where ecological, evolutionary, and practical aspects of biodiversity will be explored. Field work will involve outdoor activities in challenging conditions.

Prerequisite: BIOB50H3 and BIOB51H3 and BIOB52H3 and permission of instructor.

Breadth Requirements: Natural Sciences

Course Experience: Partnership-Based Experience

Note: Students should contact the instructor 4 months before the start of the course. Additional course fees are applied, and students will need to place a deposit towards the cost of travel.

BIOC52H3 - Ecology Field Course

This course provides students with the opportunity to experience hands-on learning through informal natural history walks, and group and individual research projects, in a small-class setting. The course covers basic principles and selected techniques of field ecology and ecological questions related to organisms in their natural settings. Most of the field work takes place in the Highland Creek ravine.

Corequisite: BIOB50H3 and BIOB51H3

Exclusion: (EEB305H)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC54H3 - Animal Behaviour

Survey of the study of animal behaviour with emphasis on understanding behavioural patterns in the context of evolutionary theory. Topics include sexual selection and conflict, parental care, social behaviour, and hypothesis testing in behavioural research.

Prerequisite: BIOB50H3 and BIOB51H3

Exclusion: EEB322H,

Breadth Requirements: Natural Sciences

BIOC58H3 - Biological Consequences of Global Change

A lecture and tutorial course that addresses the key environmental factor that will dominate the 21st Century and life on the planet: Global Climate Change. The course will examine the factors that influence climate, from the formation of the earth to the present time, how human activities are driving current and future change, and how organisms, populations, and ecosystems are and will respond to this change. Finally, it will cover human responses and policies that can permit an adaptive response to this change.

Prerequisite: BIOB50H3 and BIOB51H3

Exclusion: EEB428H, GGR314H, (BIO428H)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC59H3 - Advanced Population Ecology

The study of the interactions that determine the distribution and abundance of organisms on the earth. The topics will include an understanding of organism abundance and the factors that act here: population parameters, demographic techniques, population growth, species interactions (competition, predation, herbivory, disease), and population regulation. It will include an understanding of organism distribution and the factors that

act here: dispersal, habitat selection, species interactions, and physical factors.

Prerequisite: BIOB50H3

Exclusion: EEB319H, (BIO319H)

Breadth Requirements: Natural Sciences

BIOC60H3 - Winter Ecology

Canada is characterized by its long and harsh winters. Any Canadian plant or animal has evolved one of three basic survival strategies: (1) migration (avoidance), (2) hibernation, and (3) resistance. These evolutionary adaptations are investigated by the example of common organisms from mainly southern Ontario.

Prerequisite: BIOB50H3 or BIOB51H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC61H3 - Community Ecology and Environmental Biology

An examination of the theory and methodology of community analysis, with an emphasis on the factors regulating the development of communities and ecosystems. The application of ecological theory to environmental problems is emphasized. We will examine the impacts of various factors, such as primary productivity, species interactions, disturbance, variable environments, on community and metacommunity structure, and on ecosystem function. We will also examine the impacts of climate change on the world's ecosystems.

Prerequisite: BIOB50H3

Exclusion: EEB321H, (BIO321H)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC62H3 - Role of Zoos and Aquariums in Conservation

This lecture and tutorial course explores the strategic and operational aspects of zoos and aquariums in conservation. Emphasis is on contemporary issues, including the balance between animal welfare and species conservation; nutrition, health and behavioural enrichment for captive animals; *in situ* conservation by zoos and aquariums; captive breeding and species reintroductions; and public outreach/education.

Prerequisite: BIOB50H3 and BIOB51H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC63H3 - Conservation Biology

A lecture and tutorial course offering an introduction to the scientific foundation and practice of conservation biology. It reviews ecological and genetic concepts constituting the basis for conservation including patterns and causes of global biodiversity, the intrinsic and extrinsic value of biodiversity, the main causes of the worldwide decline of biodiversity and the approaches to save it, as well as the impacts of global climate change.

Prerequisite: [BIOB50H3](#) and [BIOB51H3](#)

Exclusion: EEB365H, (BIO365H)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOC65H3 - Environmental Toxicology

An introduction to the scientific study of the effects of toxic chemicals on biological organisms. Standard methods of assessing toxicant effects on individuals, populations, and communities are discussed. Special emphasis is placed on the chemistry of major toxicant classes, and on how toxicants are processed by the human body.

Prerequisite: [BIOB50H3](#) and [CHMA10H3](#) and [CHMA11H3](#)

Breadth Requirements: Natural Sciences

BIOC70H3 - An Introduction to Bias in STEMM (Science, Technology, Engineering, Mathematics and Medicine)

Research, teaching, and practice in science, technology, engineering, mathematics and medicine (STEMM) often rest on the unquestioned assertion of the impartial analyses of facts. This course will take a data-informed approach to understanding how human biases can, and have, affected science and its applications in a range of fields, with a particular focus on biology. Case studies may include reviews of how science has been used to justify or sustain racism, colonialism, enslavement, and the exploitation of marginalized groups. Links will be drawn to contemporary societal challenges, practices, and technologies. Topics will include how biases can shape science in terms of the questions under study, scientific inferences, and the types of knowledge and assumptions that inform applications, shape teaching, and influence popular understanding. Data on bias and societal costs of bias will be reviewed, as well as evidence-informed practices, structures, and individual actions which could ensure that STEMM disrupts, rather than enables, social inequities.

Prerequisite: [Any of the following A-level courses: [ANTA01H3](#), [BIOA01H3](#) and [BIOA02H3](#)], [BIOA11H3](#), [HLTA02H3](#) and [HLTA03H3](#)] or [PSYA01H3](#) and [PSYA02H3](#)] and [Any of the following B-level courses: any B-level BIO course, any B-level PSY course,

[ANTB14H3](#), [ANTB15H3](#), [HLTB20H3](#) or [HLTB22H3](#)]

Breadth Requirements: Natural Sciences

BIOC90H3 - Integrative Multimedia Documentary Project

In this course, students will produce engaging, documentary-style multimedia narratives that relay scientific evidence on a topic of interest to a lay audience. In order to create their documentaries, students will distill research findings reported in the primary literature and integrate knowledge from multiple fields of biology.

Note: Students in all Specialists/Specialist Co-op and Major programs in Biological Sciences are required to complete [BIOC90H3](#) prior to graduation.

Prerequisite: [BIOB90H3](#)

Breadth Requirements: Natural Sciences

BIOC99H3 - Biology Team Research

In this introduction to academic research, a group of 3-5 students work with a faculty supervisor and TA to develop a research proposal or implement a research project. Prior to registering, students must find a faculty supervisor, form a group, then submit a permission form to the department. The permission form may be downloaded from the [Biological Sciences website](#).

Note: Completion of this course can be used to fulfill a course requirement for the Certificate in Biological Sciences Research Excellence. Details can be found in the Biological Sciences Overview section of the Calendar.

Prerequisite: (1) Enrolment in a UTSC Major or Specialist Subject POST offered by Biological Sciences and (2) completion of all second year core program requirements and (3) have at least 8.0 credits and (4) a commitment from a Biology faculty member to serve as supervisor and (5) formation of a group that includes at least 2 other students

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOD06H3 - Advanced Topics in Neural Basis of Motor Control

Lecture/seminar-based course addressing advanced topics in the neural basis of motor control in vertebrates. The emphasis will be placed on cellular-level understanding of how motor circuits operate.

Prerequisite: [BIOC32H3](#) or [BIOC44H3](#), ([NROC34H3](#)) or [NROC64H3](#) or [NROC69H3](#)

Breadth Requirements: Natural Sciences

BIOD07H3 - Advanced Topics and Methods in Neural Circuit Analysis

This course will survey different fields in neural circuit research ranging from sensory systems to motor control. Emphasis will be placed on new methodologies used to deconstruct circuit function, including advanced functional imaging, optogenetics, anatomical reconstruction and the latest behavioural approaches.

Prerequisite: BIOC32H3 or BIOC44H3 or (NROC34H3) or NROC64H3 or NROC69H3

Breadth Requirements: Natural Sciences

BIOD08H3 - Theoretical Neuroscience

A seminar covering topics in the theory of neural information processing, focused on perception, action, learning and memory. Through reading, discussion and working with computer models students will learn fundamental concepts underlying current mathematical theories of brain function including information theory, population codes, deep learning architectures, auto-associative memories, reinforcement learning and Bayesian optimality.

Same as NROD08H3

Prerequisite: [BIOC44H3 or (NROC34H3) or NROC64H3 or NROC69H3] and [MATA29H3 or MATA30H3 or MATA31H3] and [PSYB07H3 or STAB22H3]

Exclusion: (NROD08H3)

Breadth Requirements: Natural Sciences

BIOD12H3 - Protein Homeostasis

A lecture/seminar course on the cellular mechanisms of protein quality control. Animal and plant models will be used to highlight the mechanisms of action of selected protein folding and degradation machineries critical to cell functions. Primary literature in protein homeostasis and possible consequence of malfunction in eukaryotic cells will also be discussed.

Prerequisite: BIOC10H3 or BIOC12H3

Breadth Requirements: Natural Sciences

BIOD13H3 - Herbiology: The Science Behind Medicinal Plants

The use of plants in medicine has been documented for over 2,000 years. Their use is immersed in major ancient civilizations from around the World. This lecture/seminar/lab course will take the knowledge from indigenous medicine as a starting point and expand it with more recent advances in plant biochemistry, genetics and biotechnology.

Prerequisite: BIOC12H3 or BIOC13H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOD15H3 - Mechanism of Gene Regulation in Health and Disease

Complex mechanisms of gene regulation (e.g., epigenetics, epitranscriptomics, regulatory RNAs) govern life-trajectories in health and disease. This advanced lecture, problem-based learning and seminar course equips students with critical thinking tools to dissect advanced concepts in genetics, including biological embedding, transgenerational inheritance, genetic determinism, gene therapy, and ethics in 21st century transgenics.

Prerequisite: BIOC15H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOD17H3 - Seminars in Cellular Microbiology

An overview of the most significant advances in cellular microbiology. The curriculum will include cellular mechanisms of microbial pathogenesis, as well as recognition and elimination of pathogens by cells. Students will be required to participate in class discussions, and give oral presentations of scientific papers.

Prerequisite: BIOC17H3 or BIOC39H3

Breadth Requirements: Natural Sciences

BIOD18H3 - Practical Approaches in Infection and Immunity

Cell Biology methods are pivotal to study the molecular and cellular mechanisms of infection and immunity. This lecture/laboratory course will build on understanding the role of microbes in health and disease by analyzing how different microbe models interact with eukaryotic host cells. Techniques such as fluorescence microscopy, flow cytometry and immunoassays will unravel the fascinating world of host cell-microbe interactions. Students will also explore the use of model systems using primary research to support their understanding of these interactions.

Prerequisite: BIOC17H3 and BIOC18H3

Recommended Preparation: BIOC39H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Biological Sciences programs: Specialist Program in Molecular Biology and Biotechnology & Specialist program in Human Biology. As space permits, this course will be also opened to students in the Major program in Human Biology and Major program in Molecular Biology, Immunology, and Disease.

BIOD19H3 - Epigenetics in Health and Disease

A lecture/seminar/discussion class on the emerging field of environmental epigenetics. Course will cover basic epigenetic mechanisms, methods in epigenetic research, epigenetic control of gene function, and the role of epigenetics in normal development and human disease.

Prerequisite: [BIOC14H3](#)

Breadth Requirements: Natural Sciences

BIOD20H3 - Special Topics in Virology

This is a lecture/seminar course that will discuss advanced topics in human virology. The course focus will be on human viruses, pathogenicity in human hosts, and current literature on emerging pathogens.

Prerequisite: [BIOC20H3](#)

Exclusion: MGY440H1

Breadth Requirements: Natural Sciences

BIOD21H3 - Advanced Molecular Biology Laboratory

Applications of molecular technology continue to revolutionize our understanding of all areas of life sciences from biotechnology to human disease. This intensive laboratory, lecture / tutorial course provides students with essential information and practical experience in recombinant DNA technology, molecular biology and bio-informatics.

Prerequisite: [BIOB12H3](#) and [BIOC15H3](#) and [BIOC17H3](#)

Corequisite: [BIOC12H3](#) (Note: Although listed as a corequisite, it is recommended that [BIOC12H3](#) be taken in advance of [BIOD21H3](#).)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Specialist programs in Molecular Biology and Biotechnology (Co-op and non-Co-op). Additional students will be admitted only if space permits.

BIOD22H3 - Molecular Biology of the Stress Response

This course is organized around a central theme, namely the expression of heat shock (stress) genes encoding proteins is important in cellular repair/protective mechanisms. Topics include heat shock transcription factors, heat shock proteins as 'protein repair agents' that correct protein misfolding, and diseases triggered by protein misfolding such as neurodegenerative disorders.

Prerequisite: [BIOC10H3](#) or [BIOC12H3](#) or [BIOC15H3](#)

Breadth Requirements: Natural Sciences

BIOD23H3 - Special Topics in Cell Biology

A lecture/seminar/discussion class on contemporary topics in Cell Biology. Students will explore the primary literature becoming familiar with experimental design and methodologies used to decipher cell biology phenomena. Student seminars will follow a series of lectures and journal club discussions.

Prerequisite: [BIOC12H3](#)

Breadth Requirements: Natural Sciences

BIOD24H3 - Human Stem Cell Biology and Regenerative Medicine

In this lecture seminar course, we will explore how human stem cells generate the diverse cell types of the human body, and how they can be harnessed to understand and treat diseases that arise during embryonic development or during aging. We will also discuss current ethical issues that guide research practices and policies, including the destruction of human embryos for research, gene editing, and the premature clinical translation of stem cell interventions.

Prerequisite: [BIOC19H3](#)

Exclusion: CSB329H1

Breadth Requirements: Natural Sciences

BIOD25H3 - Genomics

A course considering the principles of genome organization and the utilization of genomic approaches to studying a wide range of problems in biology. Topics to be presented will include innovations in instrumentation and automation, a survey of genome projects, genomic variation, functional genomics, transcription profiling (microarrays), database mining and extensions to human and animal health and biotechnology.

Prerequisite: [BIOC15H3](#)

Breadth Requirements: Natural Sciences

BIOD26H3 - Fungal Biology and Pathogenesis

A lecture and tutorial based course designed to provide an overview of the fungal kingdom and the properties of major fungal pathogens that contribute to disease in animals (including humans) and plants. This course will address the mechanisms and clinical implications of fungal infections and host defence mechanisms. Topics include virulence factors and the treatment and diagnosis of infection.

Prerequisite: [BIOC17H3](#) or [BIOC39H3](#)

Breadth Requirements: Natural Sciences

BIOD27H3 - Vertebrate Endocrinology

A lecture/discussion class on the structure and function of the major endocrine organs of vertebrates. The course provides knowledge of endocrine systems encompassing hormone biosynthesis, secretion, metabolism, feedback, physiological actions, and pathophysiology. Recent advances in hormone research as well as contemporary issues in endocrinology will be examined.

Prerequisite: BIOB34H3 and [BIOC32H3 or BIOC34H3]
Breadth Requirements: Natural Sciences

BIOD29H3 - Pathobiology of Human Disease

This lecture/seminar format course will critically examine selected topics in human disease pathogenesis. Infectious and inherited diseases including those caused by human retroviruses, genetic defects and bioterrorism agents will be explored. Discussions of primary literature will encompass pathogen characteristics, genetic mutations, disease progression and therapeutic strategies.

Prerequisite: BIOC10H3 or BIOC20H3 or BIOC39H3
Breadth Requirements: Natural Sciences
Course Experience: Partnership-Based Experience

BIOD30H3 - Plant Research and Biotechnology: Addressing Global Problems

Plant scientists working to address pressing global challenges will give presentations. In advance students will identify terminologies and methodologies needed to engage with the speaker and think critically about the research. Student teams will identify and develop background knowledge and go beyond speaker's presentations with new questions and/or applications.

Prerequisite: BIOC15H3 or BIOC30H3 or BIOC31H3 or BIOC40H3
Breadth Requirements: Natural Sciences
Course Experience: Partnership-Based Experience
Note: Priority will be given to students enrolled in the Major Program in Plant Biology. Additional students will be admitted if space permits.

BIOD32H3 - Human Respiratory Pathophysiology

This course will examine how lung disease and other respiratory insults affect pulmonary physiology and lung function. Topics will include methods used to diagnose respiratory disease, pulmonary function in patients with various lung diseases as well as treatment options for both lung disease and lung failure.

Prerequisite: [BIOC34H3 or CSB346H1 or PSL301H1]
Breadth Requirements: Natural Sciences
Note: Priority will be given to the students in the Human Biology Specialist and Human Biology Major programs.

BIOD33H3 - Comparative Animal Physiology

This course will examine how various physiological systems and anatomical features are specialised to meet the environmental challenges encountered by terrestrial and aquatic animals. Topics include respiratory systems and breathing, hearts and cardiovascular systems, cardiorespiratory control, animal energetics, metabolic rate, thermoregulation, defenses against extreme temperatures, hibernation and osmotic/ionic/volume regulation.

Prerequisite: (BIOC33H3) or BIOC34H3
Breadth Requirements: Natural Sciences

BIOD34H3 - Conservation Physiology

This is a combined lecture and seminar course that will discuss topics such as climate change and plastics/microplastics effects on the physiology of animals, and physiological tools and techniques used in conservation efforts. The course will focus on how physiological approaches have led to beneficial changes in human behaviour, management or policy.

Prerequisite: BIOB34H3 and [Completion of at least 0.5 credit at the C level in Biological Sciences]
Breadth Requirements: Natural Sciences

BIOD36H3 - Advanced Topics in Molecular Parasitology

This is a lecture and seminar course that will discuss advanced topics in the molecular study of parasites. The course will cover eukaryotic parasites (helminths, arthropods, and protozoans) that affect both human and plant hosts. The material will focus on the study of host-parasite interactions at the molecular level with a focus on current literature.

Prerequisite: BIOC35H3
Breadth Requirements: Natural Sciences

BIOD37H3 - Biology of Plant Stress

This course examines resistance mechanisms (anatomical, cellular, biochemical, molecular) allowing plants to avoid or tolerate diverse abiotic and biotic stresses. Topics include: pathogen defence; responses to temperature, light, water and nutrient availability, salinity, and oxygen deficit; stress perception and signal

transduction; methods to study stress responses; and strategies to improve stress resistance.

Prerequisite: [BIOC31H3](#) or [BIOC40H3](#)

Breadth Requirements: Natural Sciences

BIOD43H3 - Animal Movement and Exercise

A lecture and seminar/discussion course covering integrative, comparative animal locomotion and exercise physiology. Topics will include muscle physiology, neurophysiology, metabolism, energetics, thermoregulation and biomechanics. These topics will be considered within evolutionary and ecological contexts.

Prerequisite: ([BIOC33H3](#)) or [BIOC34H3](#)

Exclusion: HMB472H

Recommended Preparation: Completion of an A-level Physics course.

Breadth Requirements: Natural Sciences

BIOD45H3 - Animal Communication

This course will examine how animals send and receive signals in different sensory modalities, and the factors that govern the evolution and structure of communication signals. Using diverse examples (from bird songs to electric fish) the course will demonstrate the importance of communication in the organization of animal behaviour, and introduce some theoretical and empirical tools used in studying the origins and structure of animal communication.

Prerequisite: [BIOC44H3](#) or [BIOC54H3](#) or ([NROC34H3](#))

Breadth Requirements: Natural Sciences

BIOD48H3 - Ornithology

An overview of the evolution, ecology, behaviour, and conservation of birds. Field projects and laboratories will emphasize identification of species in Ontario.

Prerequisite: [BIOB50H3](#) and [BIOB51H3](#) and [one of the following: [BIOC50H3](#) or [BIOC54H3](#) or [BIOC61H3](#)]

Exclusion: EEB386H and EEB384H

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOD52H3 - Biodiversity and Conservation

A seminar exploration of current topics in biodiversity and conservation, including genetic, organismal, and community levels. Examples include DNA barcoding, adaptive radiations, phylogenetic trees, and biodiversity hotspots. Skills development in critical thinking and interpretation of the primary literature is emphasized, with

coursework involving group presentations, discussions, and written analyses.

Prerequisite: [BIOC50H3](#) or [BIOC63H3](#)

Breadth Requirements: Natural Sciences

BIOD53H3 - Special Topics in Animal Behaviour

An exploration into current topics in the study of the evolutionary and ecological influences on animal behaviour. Topics may include sexual selection and conflict, social behaviour, communication, and behavioural mechanisms. Emphasis will be on current research and the quantitative and qualitative reasoning underlying our ability to understand and predict animal behaviour.

Prerequisite: [BIOC54H3](#)

Exclusion: EEB496Y, (BIO496Y)

Breadth Requirements: Natural Sciences

BIOD54H3 - Applied Conservation Biology

Canada has a complex conservation landscape. Through lectures and interactive discussions with leading Canadian conservation practitioners, this course will examine how conservation theory is put into practice in Canada from our international obligations to federal, provincial, and municipal legislation and policies.

Prerequisite: [BIOC62H3](#) or [BIOC63H3](#)

Breadth Requirements: Natural Sciences

BIOD55H3 - Experimental Animal Behaviour

A hands-on course emphasizing the logic, creative thinking, and careful methodology required to conduct rigorous research on animal behaviour from an evolutionary perspective. Students will devise and run behavioural experiments, primarily using invertebrate models.

Prerequisite: [BIOC54H3](#)

Breadth Requirements: Natural Sciences

BIOD59H3 - Models in Ecology, Epidemiology and Conservation

Modelling is a critical tool for describing the complex dynamics of ecosystems and for addressing urgent management questions in ecology, epidemiology and conservation. In this practical introduction, students learn how to formulate ecological and epidemiological models, link them to data, and implement/analyze them using computer simulations. The course includes approaches for modelling individuals, populations, and communities,

with applications in population viability assessments, natural resource management and food security, invasive species and pest control, disease eradication, and climate change mitigation. While not a requirement, some experience with computer programming will be beneficial for this course.

Prerequisite: BIOB50H3 and [MATA29H3 or MATA30H3 or MATA31H3]

Breadth Requirements: Natural Sciences

BIOD60H3 - Spatial Ecology

The study of how space and scale influence ecological patterns and species coexistence. The course will cover three main topics: 1) spatial dynamics, such as spatial spread and dispersal models; 2) species coexistence with metapopulation/metacommunity, neutral and lottery models; and 3) spatial analysis of ecological communities. Basic concepts will be applied to ecological problems such as: species invasions, reserve design and understanding threats to island biodiversity. Priority will be given to students enrolled in the specialist program in Biodiversity, Ecology and Evolution.

Prerequisite: BIOB50H3 and STAB22H3 and [Completion of at least 0.5 credit at the C level in Biological Sciences]

Breadth Requirements: Natural Sciences

BIOD62H3 - Symbiosis: Interactions Between Species

A species is the basic unit of evolution and symbiotic interactions are integral to the rise of global biodiversity. Using a multidisciplinary approach, this course will study symbiotic systems such as plant-animal, microbe-plant, and microbe-animal interactions. This course thus provides the student with a deeper understanding of how Earth's biodiversity is maintained through natural selection.

Prerequisite: BIOC16H3 or BIOC50H3

Exclusion: EEB340H

Breadth Requirements: Natural Sciences

BIOD63H3 - From Individuals to Ecosystems: Advanced Topics in Ecology

This lecture/seminar course will discuss advanced topics in behavioural ecology, ecosystem and landscape ecology, and evolutionary ecology, with an emphasis on the impacts of past and present species interactions. Topics will vary based on current scientific literature and student interests. This course will strengthen the research, writing, and presentation skills of students while deepening their understanding of ecology.

Prerequisite: BIOB50H3 and BIOB51H3 and [0.5 credit from the following: BIOC51H3, BIOC52H3, BIOC54H3, BIOC58H3, BIOC59H3, BIOC60H3, BIOC61H3]

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

BIOD65H3 - Pathologies of the Nervous System

An intensive examination of selected pathologies affecting the nervous system such as Alzheimer's and Parkinson's disease, multiple sclerosis, and stroke. These pathologies will be examined from an integrative perspective encompassing the pathogeneses, resulting symptoms, and current therapeutic approaches. This course requires critical examination of research articles.

Prerequisite: BIOB10H3 and BIOB11H3 and [0.5 credits from the following: BIOC32H3, NROC61H3, NROC64H3 or NROC69H3]

Breadth Requirements: Natural Sciences

BIOD66H3 - Quantitative Ecological and Biodiversity Analysis

Advanced analytical skills are required for understanding and addressing the impacts of global change. This course will cover fundamental statistical approaches and techniques for analyzing biodiversity, ecological, and environmental data. In order to prepare for positions in the field, advanced analytical skills are required for addressing the impacts for global change on the environment. Students will have the opportunity to work with and develop skill sets using the R programming language.

Prerequisite: BIOB51H3 and [Completion of at least 0.5 credit at the C level in Biological Sciences]

Breadth Requirements: Natural Sciences

BIOD67H3 - Inter-University Biology Field Course

Field courses offered by the Ontario Universities Program in Field Biology (OUPFB) in a variety of habitats and countries, usually during the summer. OUPFB modules (courses) are posted online in January, and students must apply by the indicated deadline.

Prerequisite: Varies by module (Permission of course co-ordinator required)

Exclusion: (BIOC67H3)

Breadth Requirements: Natural Sciences

Note: Additional information is provided on the Department of Biological Sciences website

<http://www.utoronto.ca/biosci/resources-current-students> and on the OUPFB website <http://www.oupfb.ca/index.html>

BIOD95H3 - Supervised Study in Biology

This course is designed to permit an intensive examination of the primary literature of a select topic. Frequent consultation with the supervisor is necessary and extensive library research is required. The project will culminate in a written report.

Students must obtain a permission form and Supervised Study form from the [Biological Sciences website](#) that is to be completed and signed by the intended supervisor, and returned to SW421E. Five sessions of group instruction will form part of the coursework.

Prerequisite: Satisfactory completion of 12.5 credits, of which at least 4.0 credits must be at the B- or C-level in BIO courses. Students must have permission of the instructor. In order to be eligible for [BIOD95H3](#), with the same instructor as [BIOD98Y3](#) or [BIOD99Y3](#), the student and instructor must provide a plan that goes beyond the work of those courses.

Course Experience: University-Based Experience

BIOD98Y3 - Directed Research in Biology

A course designed to permit laboratory or field research or intensive examination of a selected topic in biology.

Supervision of the work is arranged by mutual agreement between student and instructor.

Students must obtain a permission form from <https://www.utoronto.ca/biosci/undergraduate-research-opportunities> that is to be completed and signed by the intended supervisor, and returned to SW421E. At that time, the student will be provided with an outline of the schedule and general requirements for the course. 10 sessions of group instruction will form part of the coursework.

Note: Completion of this course can be used to fulfill a course requirement for the Certificate in Biological Sciences Research Excellence. Details can be found in the Biological Sciences Overview section of the Calendar.

Prerequisite: Satisfactory completion of 13.5 credits, of which at least 4.0 credits must be at the B- or C-level in BIO courses; and permission of the instructor.

Exclusion: CSB498Y, EEB498Y

BIOD99Y3 - Directed Research in Biology

Identical to [BIOD98Y3](#) but intended as a second research experience. In order to be eligible for [BIOD99Y3](#), with the same instructor, the student and the instructor will have to provide a plan of study that goes beyond the work of [BIOD98Y3](#).

Note: Completion of this course can be used to fulfill a course requirement for the Certificate in Biological

Sciences Research Excellence. Details can be found in the Biological Sciences Overview section of the Calendar.

Prerequisite: Satisfactory completion of 13.5 credits, of which at least 4.0 credits must be at the B- or C-level in BIO courses; and permission of the instructor.

Exclusion: CSB498Y, EEB498Y

Certificates

There are two types of for-credit certificates:

Category 1: is a post-baccalaureate, stand-alone certificate that normally requires completion of an undergraduate degree, or equivalent, for admission:

- Successful completion of the certificate is recorded on the academic transcript;
- Students are registered as undergraduate students and receive a parchment at Convocation.

Category 2: is a certificate that is offered in conjunction with an undergraduate degree program or programs:

- Successful completion of the certificate is recorded on the academic transcript as a component of the undergraduate degree;
- Students do not receive a separate parchment at Convocation.

CERTIFICATE IN BIOARCHAEOLOGY - SCCER1030

This Certificate will provide students with concentrated training in Bioarchaeology, the subdiscipline of Archaeology that focuses on the study of biological materials from archaeological sites, with a particular emphasis on skeletal remains (both human and non-human).

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in either the Specialist or Major program in Evolutionary Anthropology.

Certificate Requirements

Students must complete a total of 2.0 credits as follows*:

ANTB80H3 Introduction to Archaeology: Methods, Theories, and Practices

ANTC47H3 Human Skeletal Anatomy and Biology

ANTC48H3 Advanced Topics In Human Osteology

ANTD35H3 Bioarchaeology

*Students must earn an average GPA of 2.7 across the four courses to be awarded the Certificate.

Category 2

CERTIFICATE IN BIOLOGICAL SCIENCES RESEARCH EXCELLENCE - SCCER1020

The Certificate in Biological Sciences Research Excellence will recognize students' research accomplishments in experiential, research-based learning experiences throughout their undergraduate programs.

Note: Courses for which students have selected the CR/NCR option cannot be used towards the completion of this Certificate. However, **courses that are graded as CR/NCR courses for all students** (e.g., BIOB98H3 and BIOB99H3), can be used towards the completion of this Certificate.

Enrolment Requirements

Students must be enrolled in any Major or Specialist program offered by the Department of Biological Sciences.

Certificate Requirements

Students must complete a minimum of 1.5 credits as follows:

1. BIOD98Y3*

and any one of the following:

BIOB97H3*

BIOB98H3

BIOB99H3

BIOC99H3*

BIOD99Y3*

*Note: students must earn a grade of A- or higher in these courses in order to be eligible for the Certificate.

2. All students must engage in at least one consultation with the liaison librarian for the Department of Biological Sciences in order to develop their skills in literature mining and using an evidence-based approach to study design and data analysis.

3. Upon completion of the specified courses in component 1 of the Requirements, students must provide an overall summary of their research accomplishments to the Department in order to receive the Certificate.

Category 2

CERTIFICATE IN BUSINESS - SCCBUS

The Certificate in Business is a part-time program designed to provide students with the skills they need to function as managers in today's rapidly changing workplace. It also gives students who already have degrees in other fields of study an opportunity to focus on business studies. Courses in the Certificate can be used towards various professional designations.

Contact:

Audrey Quirion, Undergraduate Coordinator

Office: IC 240

Tel: 416-287-7271

Email: audrey.quirion@utoronto.ca

Application Process and Admission Requirements

Please see the Department of Management [website](#) for details.

Certificate Requirements

Students must complete the following:

1. Pass 6.0 credits in Economics for Management Studies courses and Management courses, including:

[[MGEA01H3 and MGEA05H3] or [MGEA02H3 and MGEA06H3]]

MGTA01H3 Introduction to Business

MGTA02H3 Managing the Business Organization

2. Earn a cumulative grade point average of at least 2.00* (if a student's CGPA falls below 2.0, s/he will be removed from the program).

*Students will graduate with honours if their cumulative grade point average is 3.20 or better.

Note: Students in their graduating session who intend to take part in the next Convocation must notify the Office of the Registrar of their intention through [ACORN](#). Students who are unable to request graduation through ACORN should contact the Office of the Registrar.

Category 1

CERTIFICATE IN COMPUTATIONAL SOCIAL SCIENCE - SCCER1040

Computational social science extends theories and analyses from the social science by leveraging tools and techniques from scientific computing and data science. The Certificate in computational social science provides students with training in statistics, modeling, and programming approaches to the analysis of social problems using data, and fosters critical thinking and communication skills crucial to social science research.

Certificate Requirements

Students must complete a minimum of 2.0 credits as follows:

1. 0.5 credit from the following:

SOCB35H3 Numeracy and Society

STAB23H3 Introduction to Statistics for the Social Sciences

2. SOCC70H3 Models of the Social World

3. At least 1.0 credit from the following:

CSCA20H3 Introduction to Programming or equivalent

GGRB30H3 Fundamentals of GIS I

GGRB32H3 Fundamentals of GIS II

GGRC30H3 Advanced GIS

GGRC32H3 Essential Spatial Analysis

GGRC42H3 Making Sense of Data: Applied Multivariate Analysis

HLTC27H3 Community Health and Epidemiology

POLD56H3 Politics and Computational Social Science

Category 2

CERTIFICATE IN ECONOMICS WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1060

The Certificate in Economics Within Management and International Business will recognize that students in the MIB program have taken extra courses in economics and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business.

Certificate Requirements

Students must complete 2.0 credits as follows:

1. 1.0 credit from the following:

MGEC61H3 International Economics: Finance

MGEC62H3 International Economics: Trade Theory

MGEC82H3 International Aspects of Development Policy

2. 1.0 additional credit at the B-, C- or D-level, in Economics (MGE) courses offered by the Department of Management,

or equivalent courses.*

*Note: MGE courses included as core requirements in the MIB program cannot be used towards the completion of this Certificate.

Category 2

CERTIFICATE IN EVOLUTIONARY ANATOMY - SC CEVAN

This certificate will provide students with detailed knowledge of skeletal and dental anatomy in humans and related taxa from diverse perspectives, as well as a solid understanding of the evolutionary processes that led to that anatomy.

Admission Requirements

Successful completion of an undergraduate degree with a CGPA of 3.0 with a Specialist or Major in any Science discipline is required to enrol in the certificate program.

Students who have previously completed courses identified as requirements or options in the Certificate can substitute up to 1.0 credit in previously completed courses for the Certificate requirements. Students are not eligible for admission to the Certificate if they have already completed more than 2.0 credits of the included courses (or their equivalents from other universities).

Certificate Requirements

Students must complete 3.0 credits as follows:

1. Core required courses (1.5 credits):

ANTB14H3* Evolutionary Anthropology

ANTC47H3 Human Skeletal Anatomy and Biology

ANTC48H3 Advanced Topics In Human Osteology

2. Advanced courses (1.5 credits):

Choose 3 from:

ANTC16H3 Human Innovations

ANTC17H3** Human Origins: New Discoveries

ANTC99H3 Primate Evolution

ANTD17H3 Medical Osteology: Public Health Perspectives on Human Skeletal Health

ANTD35H3 Bioarchaeology

ANTD99H3 Advanced Topics in Primate Evolution

Notes:

*ANTA01H3 is a prerequisite for ANTB14H3.

**[ANTA01H3 and ANTA02H3] are prerequisites for ANTC17H3.

Students seeking to complete the certificate who have not completed ANTA01H3 and ANTA02H3 will be assessed for admission to ANTB14H3 and/or ANTC17H3 based on their background. In particular, students whose undergraduate degree included Biology courses will normally be permitted to take ANTB14H3 and ANTC17H3 without the prerequisite(s).

Category 1

CERTIFICATE IN FINANCE WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1070

The Certificate in Finance Within Management and International Business will recognize that students in the MIB program have taken extra courses in finance and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business.

Certificate Requirements

Students must complete 2.0 credits as follows:

1. MGFC50H3 International Financial Management
 2. 1.5 additional credits, at the C- or D-level, in Finance (MGF) courses offered by the Department of Management.*
- *Note: MGFC10H3 cannot be used to towards the completion of this Certificate.

Category 2

CERTIFICATE IN GLOBAL DEVELOPMENT, ENVIRONMENT AND HEALTH (UofT Global Scholar) - SCCER1010

The Certificate in Global Development, Environment, and Health (U of T Global Scholar) builds upon UTSC's longstanding academic strength in globally-oriented, interdisciplinary, and experiential education. This certificate will facilitate, support and ultimately recognize, this global perspective.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Certificate Requirements

1. 1.0 credits from the following:
IDSA01H3 Introduction to International Development Studies
IDSB11H3 Global Development in Comparative Perspective
2. At least 0.5 credit at the B-level, from the list of electives in Table 1 below.
3. At least 0.5 credit at the C- or D-level from the list of electives in Table 1 below.

Table 1

B-level	<u>AFSB51H3</u> , <u>AFSB54H3</u> , <u>ANTB05H3</u> , <u>ANTB18H3</u> , <u>GGRB28H3</u> , <u>HISB30H3</u> , <u>HISB51H3</u> , <u>HISB58H3</u> , <u>IDSB01H3</u> , <u>IDSB02H3</u> , <u>IDSB04H3</u> , <u>IDSB06H3</u> , <u>POLB90H3</u> , <u>POLB91H3</u> , or <u>SOCB60H3</u>

Category 2

CERTIFICATE IN HUMAN RESOURCES WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1080

The Certificate in Human Resources Within Management and International Business will recognize that students in the MIB program have taken extra courses in human resources/organizational behaviour and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business.

Certificate Requirements

Students must complete 2.0 credits at the C- or D-level in human resources/organizational behaviour (MGH) courses offered by the Department of Management.

*Note: MGHC02H3 cannot be used to towards the completion of this Certificate.

Category 2

CERTIFICATE IN MARKETING WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1090

The Certificate in Marketing Within Management and International Business will recognize that students in the MIB program have taken extra courses in marketing and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business.

Certificate Requirements

Students must complete 2.0 credits at the C- or D-level in marketing (MGM) courses offered by the Department of Management.

Category 2

CERTIFICATE IN PATHWAYS TO HEALTH PROFESSIONS - SCCER1110

Students will be admitted to the Certificate directly from high school. Students will select the Certificate in combination with specified science (HBSc) programs at the time of application to UTSC and will be enrolled directly into the Certificate in their first year of study after accepting their offer to UTSC and will need to be admitted to and maintain good standing in

one of the programs below to remain in the certificate. Only students entering UTSC directly from high school in September 2024 and after are eligible for enrolment in this certificate.

The Certificate must be taken in conjunction with a Major/Major (Co-op) or Specialist/Specialist (Co-op) in one of the following programs:

- Biochemistry
- Biology
- Chemistry
- Conservation & Biodiversity
- Environmental Chemistry
- Environmental Geoscience
- Environmental Science
- Evolutionary Anthropology
- Global Environmental Change
- Population Health
- Human Biology
- Integrative Biology
- Medicinal & Biological Chemistry
- Mental Health Studies
- Molecular Biology & Biotechnology
- Molecular Biology, Immunology & Disease
- Neuroscience
- Plant Biology
- Psycholinguistics
- Psychology

Students must complete a minimum of 2.0 credits, including at least 0.5 credit at the C- or D-level, as follows:

1. 0.5 credit from Complex Systems, Structures and Settings:

- ANTA02H3: Introduction to Anthropology: Society, Culture and Language
- ANTC24H3: Culture, Mental Illness, and Psychiatry
- ANTD16H3: Biomedical Anthropology
- EESA06H3: Introduction to Planet Earth
- EESA10H3: Human Health and Environment
- EESA11H3: Environmental Pollution
- EESB16H3: Feeding Humans – The Cost to the Planet
- EESC04H3: Biodiversity and Biogeography
- IDSB04H3: Introduction to International/Global Health
- GGRB28H3: Geographies of Disease
- HLTB40H3: Health Policy and Health Systems
- HLTC42H3: Emerging Health Issues and Policy Needs
- HLTC43H3: Politics of Canadian Health Policy
- HLTC44H3: Comparative Health Policy Systems
- HLTD04H3: Advanced Topics in Health and Society
- HLTD40H3: The Politics of Care, Self-Care and Mutual Aid
- HLTD81H3: Health Professions Education
- (MDSA01H3)/MDSA10H3: Media Foundations
- MGTA01H3: Introduction to Business
- POLD59H3: Politics of Disability
- VPAA10H3: Introduction to Arts and Media Management

2. 0.5 credit from Cultures, Communities and Care:

- ACMB10H3: Equity and Diversity in the Arts
- ANTA01H3: Introduction to Anthropology, Becoming Human
- ANTB64H3: Are You What You Eat? The Anthropology of Food

- ANTC61H3: Medical Anthropology: Illness and Healing in Cultural Perspective
- ANTD26H3: Caveman, Farmer, Herder, Trader: Evolution of Diet in Society
- CITB03H3: Social Planning and Community Development
- GGRD10H3: Health & Sexuality
- HIISC27H3: The History of European Sexuality: From Antiquity to the Present
- HLTB41H3: Social Determinants of Health
- HLTB42H3: Perspectives of Culture, Illness and Healing
- HLTB60H3: Introduction to Interdisciplinary Disability Studies
- HLTC22H3: Health, Aging, and the Life Cycle
- HLTD18H3: Dental Sciences
- HLTD47H3: Advanced Topics in Health and Wellness
- PHLB12H3: Philosophy of Sexuality
- PHLC07H3: Death and Dying
- POLC43H3: Prejudice and Racism
- PSYA02H3: Introduction to Clinical, Developmental, Personality and Social Psychology
- PSYB32H3: Introduction to Clinical Psychology
- PSYC14H3: Cross-Cultural Social Psychology
- PSYC15H3: Foundations in Community Psychology
- PSYC18H3: Psychology of Emotion
- PSYC19H3: Psychology of Self Control
- PSYC34H3: Psychology of Happiness and Meaning
- PSYD10H3: Community and Applied Social Psychology
- PSYD13H3: The Psychology of Emotion Regulation
- SOCB22H3: Sociology of Gender
- SOCB47H3: Social Inequality
- SOCB49H3: Sociology of Family
- SOCC49H3/HLTC49H3: Indigenous Health
- WSTB11H3: Intersections of Inequality

3. 0.5 credit from *Critical and Creative Thinking*:

- ANTB14H3: Evolutionary Anthropology
- ANTB15H3: Contemporary Human Evolution and Variation
- ANTC62H3: Medical Anthropology: Biological and Population Perspectives
- ANTC68H3: Deconstructing Epidemics
- BIOB20H3: Introduction to Computational Biology
- BIOC70H3: An Introduction to Bias in STEMM (Science, Technology, Engineering, Mathematics and Medicine)
- BIOD59H3: Models in Ecology, Epidemiology, and Conservation
- CHMD89H3: Introduction to Green Chemistry
- CSCB20H3: Introduction to Web Development and Applications
- ENGB52H3: Literature and Science
- HLTB15H3: Health Research Methodologies
- HLTC81H3: Health Professions and Practice
- JOUA01H3: Introduction to Journalism and News Literacy I
- LINB30H3: Programming for Linguists
- MATA02H3: The Magic of Numbers
- PHLA10H3: Reason and Truth
- PHLA11H3: Introduction to Ethics
- PHLB09H3: Biomedical Ethics
- PHLC10H3: Topics in Bioethics
- PHLD09H3: Advanced Seminar in Bioethics
- PSYB03H3: Introduction to Computers in Psychological Research
- PSYB80H3: Psychology in Context
- PSYC03H3: Computers in Psychological Research: Advanced Topics
- PSYC13H3: Social Cognition: Understanding Ourselves and Others
- STAB22H3: Statistics I
- STAB52H3: An Introduction to Probability
- STAB53H3: Introduction to Applied Probability

4. 0.5 credit from Communication and Leadership:

- ENGB02H3: Effective Writing in the Sciences
- HLTD49H3: Global Health Governance: Thinking Alongside the World's Leaders
- MGE32H3: Economic Aspects of Public Policy
- MGTA02H3: Managing the Business Organization
- PHLB06H3: Business Ethics
- PHLB58H3: Reasoning Under Uncertainty
- POLC13H3: Program Evaluation
- PSYB38H3: Introduction to Behaviour Modification
- PSYC02H3: Scientific Communication in Psychology
- PSYC10H3: Judgment and Decision-Making
- PSYD19H3: The Science of Behaviour Change

Additional course options may be added in future years.

In addition to the formal curricular components, students are encouraged to participate in at least one of each of the following areas to complement their work in the certificate and build a cohort experience:

- participation in a community of practice or service activity recognized on the Co-curricular Record;
- professional development workshop or learning module offered by at UofT Scarborough or tri-campus office;
- annual program events, including a capstone event upon completion of the certificate.

Category 2

CERTIFICATE IN STRATEGY WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1100

The Certificate in Strategy Within Management and International Business will recognize that students in the MIB program have taken extra courses in strategy and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business

Certificate Requirements

Students must complete 2.0 credits at the C- or D-level in strategy (MGS) courses offered by the Department of Management.

Category 2

CERTIFICATE IN SUSTAINABILITY (UofT Sustainability Scholar) - SCCER1050

The sustainable utilization of our natural, social, economic and cultural resources is one of the most important cross-cutting themes within academia today. The Certificate in Sustainability builds on UTSC's longstanding academic strengths to provide an opportunity for a broad range of students to incorporate sustainability into their undergraduate studies.

Certificate Requirements

Students must complete a minimum of 2.0 credits as follows:

1. ESTB03H3/VPBH69H3 Back to the Land: Restoring Embodied and Affective Ways of Knowing
2. At least 0.5 credit at the A- or B-level, from the list of electives in Table 1 below
3. At least 1.0 credit at the C- or D-level from the list of electives in Table 1 below

Note: Courses for which **students have selected the CR/NCR option**, cannot be used towards the completion of this Certificate; however, **courses that are graded as CR/NCR courses for all students**, can be used towards the completion of this Certificate.

A-level	<u>EESA07H3, EESA11H3, GGRA03H3</u>
B-level	<u>ANTB01H3, ANTB64H3, BIOB38H3, EESB17H3, ESTB01H3, FSTB14H3, GASB05H3, (MDSB05H3)/MDSB32H3, GGRB21H3, (HISB14H3), IDSB02H3, WSTB20H3</u>
C-level	<u>CITC14H3, ENGC59H3, EESC34H3/ESTC34H3, ESTC35H3, ESTC36H3, FSTC15H3, FSTC24H3, FSTC29H3, GGRC21H3, GGRC26H3, GGRC44H3, (HISC29H3), IDSC02H3, POLC53H3, SOCC37H3</u>

Faculty List

- S. Dalili, M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- D.J. Donaldson, B.Sc. (Carleton), Ph.D. (Carleton), Professor Emeritus
- U. Englisch, Vordiplom (Marburg), Diplom (Marburg), Dr. rer. Nat (Marburg) Associate Professor, Teaching Stream
- S. Fraser, B.A. (Oxford), Ph.D. (Cambridge), Professor Emeritus
- A. Hadzovic, B.Sc. (Sarajevo), Ph.D. (Toronto), Associate Professor, Teaching Stream
- A. Izmaylov, M.Sc. (Moscow), M.A. (Rice), Ph.D. (Rice), Professor
- K. Kerman, B.Sc., M.Sc. (Aegean), Ph.D. (Japan Advanced Institute of Science and Technology), Associate Professor
- K. Kim, B.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- B. Kraatz, Vordiplom (Heinrich-Heine), Diplom (Kent at Canterbury), Ph.D. (Calgary), Professor
- R.A. McClelland, B.Sc., Ph.D. (Toronto), Professor Emeritus
- L. Mikhaylichenko, M.Sc., Ph.D. (Krasnodar, Russia), Professor, Teaching Stream
- W. Restivo, B.Sc. (Toronto), Professor Emerita, Teaching Stream
- K. Ruhlandt, Vordiplom (Marburg), Diplom (Marburg), Dr. rer. Nat (Marburg), Professor
- E.L.O. Sauer, B.Sc. (Toronto), Ph.D. (Ottawa), Associate Professor, Teaching Stream
- A. Simpson, B.Sc., Ph.D. (Birmingham), Professor
- M. Simpson, B.Sc.(Alberta), Ph.D. (Alberta), Professor
- R. Sullan, B.Sc. (Philippines), Ph.D. (Toronto), Associate Professor
- N. Thavarajah, B. Sc. (Toronto), Ph.D. (Toronto), Associate Professor, Teaching Steam
- J.C. Thompson, B.A., Ph.D. (Cambridge), Professor Emeritus
- T.T. Tidwell, B.S. (Georgia Inst. Tech.), Ph.D. (Harvard), Professor Emeritus
- F. Wania, Dipl.Geook. (Bayreuth), Ph.D. (Toronto), Professor
- X. Zhang, B.Sc., M.Sc. (Shanghai), Ph.D. (Basel), Associate Professor
- M. Zimmer-de Iuliis, B.Sc. Ph.D. (Toronto), B.Ed (OISE) Associate Professor, Teaching Stream

Please visit the Chemistry website for the most recent list of Program Supervisors.

Chemistry can be viewed as both a challenging intellectual pursuit and a powerful, practical tool for developing and handling the resources of our contemporary society. Sound knowledge of the fundamental concepts of chemistry is useful to any student in the Physical and Environmental or Life Sciences.

All Chemistry Specialist programs (Medicinal & Biological Chemistry, Chemistry, and Environmental Chemistry) are accredited by the Canadian Society for Chemistry (CSC). These UTSC programs have met the national standards of education required by the CSC, ensuring that graduating students possess skills in both the core chemical concepts and practical laboratory skills that are necessary to thrive in today's workforce. Graduates of these programs will receive a certificate stating that they have completed a nationally accredited chemistry program. Please visit the Canadian Society for Chemistry - Accreditation website for more information.

The basic courses in chemistry are CHMA10H3 and one of either CHMA11H3 or CHMA12H3. Completion of these courses is required before any of the B-level courses in chemistry can be taken. Students who are considering enrolling in a program in chemistry are encouraged to take CHMA12H3 instead of CHMA11H3 – though either course may be used as a program requirement. B-level chemistry courses are divided according to the following sub-disciplines: Inorganic Chemistry, Analytical Chemistry, Physical Chemistry, Environmental Chemistry and Organic Chemistry. Thereafter, one can proceed to advanced-level courses at the C- and D-level.

Students who wish to enroll in St. George 400-series courses should note that completion of the following groups of courses, together with their co-requisite and prerequisites, will normally ensure admission to the St. George courses indicated, provided that B standing or permission of the instructor is obtained.

To enter St. George Series 430, complete the following U of T Scarborough courses:

CHMA10H3

CHMA11H3 or CHMA12H3

CHMB16H3

CHMB31H3
CHMC31Y3

To enter St. George Series 440 (except 447), complete the following U of T Scarborough courses:

CHMA10H3
CHMA11H3 or CHMA12H3
CHMB41H3
CHMB42H3
CHMC42H3/(CHMC41H3) and CHMC47H3

Note: Timetabling constraints usually preclude U of T Scarborough C-level and St. George 400-level courses being taken in the same year.

Combined Degree Programs, Honours Bachelor of Science/ Master of Engineering

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) with the Master of Engineering (MEng) offered by the Faculty of Applied Science and Engineering allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the MEng programs in either Chemical Engineering & Applied Chemistry or Civil Engineering. These Combined Degree Programs allow students to complete 1.0 credit in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the Calendar.

Combined Degree Programs, Honours Bachelor of Science/ Master of Environmental Science

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) with the Master of Environmental Science (MEnvSc) offered by the Graduate Department of Physical and Environmental Sciences allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the MEnvSc program. They are designed for students interested in pursuing a career in environmental sciences within the green-sector, geosciences, industry, consulting, government and policy organizations. These Combined Degree Programs give students the opportunity to: (1) begin exploring their academic interests in Year 4 of their studies; (2) complete 1.0 credit in courses that may be counted towards both degrees; and (3) enrol in the MEnvSc in the Summer session between Years 4 and 5 in order to complete either a two-month academic or internship opportunity, in addition to the mandatory four-month academic or internship opportunity completed in the MEnvSc program alone.

Combined Degree Programs options are:

- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the Calendar.

Combined Degree Programs, Honours Bachelor of Science/ Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) /Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provide students with a direct pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and Master's degree. These Combined Degree Programs allow students to complete 1.0 credit in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Program Combination Restrictions in Chemistry

Programs in Environmental Biology, Environmental Chemistry, Environmental Geoscience, Environmental Physics, and Environmental Science cannot be combined. Majors in Chemistry, Biochemistry and Environmental Chemistry cannot be combined.

Guidelines for Course Selection

Students are urged to take [\[PHYA10H3 and PHYA21H3\]](#) early in their Programs even though [PHYA21H3](#) may not be a prerequisite until third-year physical chemistry is chosen. Thus, the suggested first-year Program in Chemistry includes [CHMA10H3](#), [\[CHMA11H3 or CHMA12H3\]](#), [MATA30H3](#), [MATA36H3](#), [PHYA10H3](#) and [PHYA21H3](#). Students interested in Medicinal & Biological Chemistry or Biochemistry should also include [BIOA01H3](#) and [BIOA02H3](#). Some courses in Chemistry (CHM) may include Ancillary fees.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Chemistry Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE / MASTER OF ENGINEERING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) and Master of Engineering (MEng) allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply

during Year 3 of their studies, and be considered, for admission to the Faculty of Engineering & Applied Chemistry MEng programs in either Chemical Engineering & Applied Chemistry or Civil Engineering.

Contact Information:

Mandy Meriano(416-208-2775)

Email: mmeriano@utsc.utoronto.ca

Combined Degree Programs options are:

- Global Environmental Change (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Physics (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Physics (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering

Application Process:

- UTSC students in Year 3 of one the identified HBSc programs who are interested in one of the identified CDPs must contact Professor M. Meriano before the end of the Fall session.
- Qualified UTSC students will be able to apply to their selected CDP.
- UTSC students who are accepted to the CDP will receive a conditional offer to start the Master of Engineering (MEng) program upon completion of their HBSc program requirements.

Minimum Admission Requirements:

- Applicants must meet the admission requirements of the HBSc program, the School of Graduate Studies, and the MEng program.
- Applicants to the HBSc program must:
 - be enrolled full-time and in good standing;
 - have a B+ average (CGPA of 3.3) or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer).
- Applicants to the MEng program must:
 - maintain a B+ average (CGPA of 3.3) or higher in Year 3 and Year 4 of their HBSc program;
 - complete the requirements of their HBSc program;
 - be conferred with the HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBSc degree requirements:
 - students must complete all HBSc program requirements and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the CDP and may be offered conditional admission to the MEng program;
 - in Year 4, students who receive a conditional offer of admission to the CDP and MEng:
 - **must complete two prescribed undergraduate engineering half courses** (1.0 credit) as part of the HBSc degree requirements;
 - may complete up to 1.0 credit in graduate courses with the permission of either the Department of Chemical Engineering and Applied Chemistry or Department of Civil Engineering (depending on the selected CDP); these courses can be counted towards the completion of both the HBSc degree requirements and the MEng program and degree requirements.
 - by the end of Year 4, fulfill both the undergraduate program requirements and the undergraduate degree requirements.
- Year 5: Remaining MEng program and degree requirements:
 - conditions of admission are removed;
 - complete 5.0 credits in MEng courses; students who have completed up to 1.0 credit in MEng courses in Year 4 may subtract those courses from the total 5.0 credits required.

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE / MASTER OF ENVIRONMENTAL SCIENCE

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) with the Master of Environmental Science (MEnvSc) offered by the Graduate Department of Physical and Environmental Sciences allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the MEnvSc program. They are designed for students interested in pursuing a career in environmental sciences within the green-sector, geosciences, industry, consulting, government and policy organizations. These Combined Degree Programs give students the opportunity to: (1) begin exploring their academic interests in Year 4 of their studies; (2) complete 1.0 credit in courses that may be counted towards both degrees; and (3) enrol in the MEnvSc in the Summer session between Years 4 and 5 in order to complete either a two-month academic or internship opportunity, in addition to the mandatory four-month academic or internship opportunity completed in the MEnvSc program alone.

Contact Information:

Combined Degree Programs Coordinator
Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Biological Sciences

- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Environmental Science

Department of Physical and Environmental Sciences

- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science

Application Process:

- Applicants must apply to the Honours Bachelor of Science (HBSc) program, the MEnvSc program, and the CDP.
- Qualified students in Year 3 of their HBSc degree program apply to the MEnvSc program and their chosen CPD through the SGS Online Admission Application system:
 - students will select one of the three fields of study within the MEnvSc program at the time of application:
 - Climate Change Impacts and Adaptation
 - Conservation and Biodiversity, or
 - Terrestrial and Aquatic Systems
 - those accepted will receive a conditional offer to start the MEnvSc program upon completion of their HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MEnvSc program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBSc degree and one of the above listed undergraduate programs at UTSC.
- Meet the minimum admission requirements of the School of Graduate Studies and the MEnvSc program.
- Be enrolled full-time and in good standing in the HBSc program:
 - have a B+ average (CGPA of 3.3) or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- Complete the following undergraduate courses as part of the HBSc degree requirements:
 - Students in the Specialist in Conservation and Biodiversity or the Specialist in Integrative Biology:
 - BIOC63H3 Conservation Biology (0.5 credit)
 - BIOD54H3 Applied Conservation Biology (0.5 credit)
 - Students in the Specialist/Specialist Co-op programs in Global Environmental Change, Environmental Chemistry, Environmental Geoscience, or Environmental Physics:
 - EESC24H3 Advanced Readings in Environmental Science (0.5 credit)
 - EESD10Y3 Research Project in Environmental Science (1.0 credit)

To be given **full, unconditional admission to the MEnvSc program**, applicants must meet the following admission requirements:

- Maintain a B+ average (CGPA of 3.3) or higher in their final year of study in the HBSc program or over upper-level (C- and D-level) courses.
- Achieve at least a grade of B- (70%) in both of the graduate courses taken in Year 4 of undergraduate study; these courses must be chosen in consultation with the Graduate Program Supervisor:
 - for the field in Climate Change Impacts and Adaptation: EES 1133H Climate Change Science and Modelling (0.5 credit), plus an additional 0.5 credit;
 - for the field in Conservation and Biodiversity: EES 3002H Conservation Policy (0.5 credit), plus an additional 0.5 credit;
 - for the field in Terrestrial and Aquatic Systems: 1.0 credit.
- Be conferred with the HBSc degree.

Program Requirements and Path to Completion:

- Year 4: HBSc degree requirements
 - students must complete all HBSc program requirements and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year; where necessary, exceptions will be made for students in Co-op programs;
 - students who receive a conditional offer of admission to the CDP must complete the following undergraduate courses:
 - students in the Specialist in Conservation and Biodiversity or the Specialist in Integrative Biology:
 - BIOC63H3 Conservation Biology (0.5 credit)
 - BIOD54H3 Applied Conservation Biology (0.5 credit)
 - students in the Specialist/Specialist Co-op programs in Global Environmental Change, Environmental Chemistry, Environmental Geoscience, or Environmental Physics:

- EESC24H3 Advanced Readings in Environmental Science (0.5 credit)
 - EESD10Y3 Research Project in Environmental Science (1.0 credit)
- students must complete 1.0 credit in graduate courses, chosen in consultation with the Graduate Program Supervisor, as follows:
 - for the field in Climate Change Impacts and Adaptation: EES 1133H Climate Change Science and Modelling (0.5 credit), plus an additional 0.5 credit;
 - for the field in Conservation and Biodiversity: EES 3002H Conservation Policy (0.5 credit), plus an additional 0.5 credit;
 - for the field in Terrestrial and Aquatic Systems: 1.0 credit.
- Optional registration in the Summer session prior to Year 5:
 - students complete one of the following opportunities:
 - EES 4001H Internship Training (0.5 credit)
 - EES 4003H Academic Training (0.5 credit)
- Year 5: Remaining MEnvSc program and degree requirements.

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc)/ Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBSc and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching

- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
 - if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
 - if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
 - for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching

- subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
- for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:
 - students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

SPECIALIST PROGRAM IN CHEMISTRY (SCIENCE) - SCSPE1376

For an updated list of Program Supervisors, please visit the [Chemistry website](#).

This program offers students a deep theoretical and practical learning experience in all aspects of modern chemistry. The first year of the program emphasizes learning fundamentals across various disciplines, including biology, chemistry, physics, and math. As students progress into upper years, this knowledge is applied to specialized courses focusing on the sub-disciplines of chemistry, including organic, inorganic, analytical, physical, and environmental chemistry. Students in this program will have the opportunity to contribute to the creation of scientific knowledge by participating in a directed research project in their fourth year. This program is ideally suited for students who wish to pursue graduate studies in chemistry or a related discipline, or to work in chemistry-related industries.

The chemistry specialist program is accredited by the Canadian Society for Chemistry (CSC). It meets the national standards of education required by the CSC, ensuring that graduating students possess skills in both the core chemical concepts and practical laboratory skills that are necessary to thrive in today's workforce. Graduates of these programs will receive a certificate stating that they have completed a nationally accredited chemistry program.

Enrolment Requirements

Students may apply to this program after completing at least 4.0 credits, including [CHMA10H3](#), [[CHMA11H3](#) or [CHMA12H3](#)], [PHYA10H3](#), [PHYA21H3](#), and 1.0 credit in either [MATA23H3](#), [MATA30H3](#) or [MATA36H3](#) with a cumulative grade point average (CGPA) of at least 2.0. Application for admission to the program is made to the registrar through ROSI in April/May and July/August. See the UTSC Office of the Registrar's website for information on the program (Subject POST) selection.

Program Requirements

The Program requires completion of 14.0 credits as follows:

First Year:

1. 4.0 credits from the following

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding
[\[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry]
[MATA23H3](#) Linear Algebra I
[MATA30H3](#) Calculus I for Physical Sciences
[MATA36H3](#) Calculus II for Physical Sciences
[PHYA10H3](#) Physics I for the Physical Sciences
[PHYA21H3](#) Physics II for the Physical Sciences
[STAB22H3](#) Statistics I

Second Year:

2. 4.0 credits from the following

[CHMB16H3](#) Techniques in Analytical Chemistry
[CHMB21H3](#) Chemical Structure and Spectroscopy
[CHMB23H3](#) Introduction to Chemical Thermodynamics and Kinetics: Theory and Practice
[CHMB31H3](#) Introduction to Inorganic Chemistry
[CHMB41H3](#) Organic Chemistry I
[CHMB42H3](#) Organic Chemistry II

CHMB62H3 Introduction to Biochemistry
MATB41H3 Techniques of Calculus of Several Variables I

Third Year:

3. 3.0 credits from the following

CHMC11H3 Principles of Analytical Instrumentation
CHMC16H3 Analytical Instrumentation
[CHMC20H3 Intermediate Physical Chemistry *or* CHMC21H3 Topics in Biophysical Chemistry]
CHMC31Y3 Intermediate Inorganic Chemistry
CHMC42H3 Organic Synthesis

Fourth Year:

4. 3.0 credits from the following

PSCD02H3 Current Questions in Mathematics and Science
and
0.5 credit in any C-level or 300-level CHM course not already taken
and
2.0 credits in any D-level or 400-level CHM course including one of the following:
CHMD90Y3 Directed Research
CHMD91H3 Directed Research
CHMD92H3 Advanced Chemistry Laboratory Course

SPECIALIST (CO-OPERATIVE) PROGRAM IN CHEMISTRY (SCIENCE) - SCSPE1376C

For an updated list of Program Supervisors, please visit the [Chemistry website](#).
 Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Chemistry is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Chemistry upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including CHMA10H3, CHMA11H3, MATA30H3, MATA36H3, PHYA10H3 and PHYA21H3, plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Chemistry.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses. It is strongly recommended that CHMB16H3 be completed before the first work term.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN ENVIRONMENTAL CHEMISTRY (SCIENCE) - SCSPE0361

For an updated list of Program Supervisors, please visit the [Chemistry website](#).

This program is intended for students who want an in-depth study of chemistry, with a specialization in how to apply chemistry to solve environmental problems. The first year of the program emphasizes learning fundamentals across various disciplines, including biology, chemistry, physics, math and environmental science. As students progress into upper years, they develop skills in the fundamental areas of chemistry while also taking specialized courses in environmental chemistry. In their fourth year, students have the opportunity to contribute to the creation of scientific knowledge by participating in a directed research project. Students who graduate from this program will be well qualified for positions in government and industry as well as several graduate programs.

This program is accredited by the Canadian Society for Chemistry (CSC). It meets the national standards of education required by the CSC, ensuring that graduating students possess skills in both the core chemical concepts and practical laboratory skills that are necessary to thrive in today's workforce. Graduates of these programs will receive a certificate stating that they have completed a nationally accredited chemistry program.

Enrolment Requirements

Students may apply to this program after completing at least 4.0 credits from the following: [EESA01H3](#), [EESA06H3](#), [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [[CHMA11H3](#) or [CHMA12H3](#)], [[MATA29H3](#) or [MATA30H3](#)], [[MATA35H3](#) or [MATA36H3](#)], and [[PHYA10H3](#) or [PHYA11H3](#)]; in addition, they must have achieved a cumulative grade point average (CGPA) of at least 2.0. Application for admission to the program is made to the Registrar through ACORN. See the UTSC Registrar's website for information on the program (Subject POST) selection, and application window dates on the following [website](#).

Program Requirements

Total requirements: 16.0 credits

First Year (4.5 credits):

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry]

[EESA01H3](#) Introduction to Environmental Science

[EESA06H3](#) Introduction to Planet Earth

[[MATA29H3](#) Calculus I for Life Sciences or [MATA30H3](#) Calculus I for Physical Sciences]

[[MATA35H3](#) Calculus II for Biological Sciences or [MATA36H3](#) Calculus II for Physical Sciences]

[[PHYA10H3](#) Physics I for the Physical Sciences or [PHYA11H3](#) Physics I for the Life Sciences]

Second Year (4.5 credits):CHMB16H3 Techniques in Analytical ChemistryCHMB23H3 Introduction to Chemical Thermodynamics and Kinetics: Theory and PracticeCHMB31H3 Introduction to Inorganic ChemistryCHMB41H3 Organic Chemistry ICHMB42H3 Organic Chemistry IICHMB55H3 Environmental ChemistryEESB15H3 Earth History

and

*0.5 credit from the following:*CHMB21H3 Chemical Structure and SpectroscopyCHMB62H3 Introduction to Biochemistry

and

*0.5 credit from the following:*EESB03H3 Principles of ClimatologyEESB19H3 Mineralogy**Third Year (4.0 credits):**CHMC11H3 Principles of Analytical InstrumentationEESC07H3 GroundwaterEESC20H3 GeochemistrySTAB22H3 Statistics I

and

*1.5 credit from the following:*CHMC16H3 Analytical InstrumentationCHMC31Y3 Intermediate Inorganic ChemistryCHMC42H3 Organic SynthesisCHMC47H3 Bio-Organic Chemistry

and

*0.5 credit from the following:*EESB04H3 Principles of HydrologyEESB05H3 Principles of Soil Science**Fourth Year (3.0 credits):**CHMD16H3 Environmental and Analytical ChemistryEESC13H3 Environmental Impact Assessment and AuditingEESD02H3 Contaminant HydrogeologyEESD15H3 Fundamentals of Site Remediation

and

*1.0 credit from the following, including 0.5 credits from CHMD90Y3, CHMD91H3 and CHMD92H3:*CHMD11H3 Application of Spectroscopy in Chemical Structure DeterminationCHMD59H3 Modelling the Fate of Organic Chemicals in the EnvironmentCHMD89H3 Introduction to Green ChemistryCHMD90Y3 Directed Research in ChemistryCHMD91H3 Directed Research in ChemistryCHMD92H3 Advanced Chemistry Laboratory Course

SPECIALIST (CO-OPERATIVE) PROGRAM IN ENVIRONMENTAL CHEMISTRY (SCIENCE) - SCSPE0361C

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Environmental Chemistry is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Environmental Chemistry upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.5 credits, including, [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [CHMA11H3](#), [EESA01H3](#), [EESA06H3](#), [MATA30H3](#), [[MATA35H3](#) or [MATA36H3](#) or [MATA37H3](#)] and [[PHYA10H3](#) or [PHYA11H3](#)], plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. SPECIALIST PROGRAM IN MEDICINAL AND BIOLOGICAL CHEMISTRY (SCIENCE) - SCSPE1995

For an updated list of Program Supervisors, please visit the [Chemistry website](#).

Chemistry is an integral component of medical science, and fundamentally impacts key aspects of modern medicine, including diagnosis, prevention, treatment, and understanding of diseases. The Medicinal & Biological Chemistry program is intended for students who want to specialize in chemistry, and in particular, its applications to medicine and broader scientific areas related to human health. The first year of the program emphasizes learning fundamentals across various disciplines, including biology, chemistry, physics, and math. In the second year, additional coursework helps students to build the fundamental connection between chemistry and human health. In their third and fourth years, students will explore more specific topics related to medicinal and biological applications, such as drug development and chemical technologies in diagnosis. In their fourth year, students will have the opportunity to contribute to the creation of scientific knowledge in this field by participating in a directed research project. The combination of coursework and research experience makes this program ideally suited for students who wish to pursue graduate studies in medicinal, pharmaceutical and biological chemistry or a related discipline, or to work in health-related industries. It is also excellent preparation for students wishing to pursue professional schools such as medicine, pharmacy or law.

Enrolment Requirements

Students may apply to this program after completing at least 4.0 credits including: [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [CHMA11H3](#) or [CHMA12H3](#), [MATA29H3](#) or [MATA30H3](#) and [PHYA10H3](#) or [PHYA11H3](#) with a cumulative grade point average (CGPA) of at least 2.0. Application for admission to the program is made to the registrar through ROSI in April/May and July/August. See the UTSC Office of the Registrar's website for information on the program (Subject POST) selection.

Program Requirements

The program requires the completion of the following 14.5-15.0 credits:

First Year (4.0 credits):

BIOA01H3 Life On Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]

[MATA29H3 Calculus I for Life Sciences or MATA30H3 Calculus I for Physical Sciences]

[MATA35H3 Calculus II for Biological Sciences or MATA36H3 Calculus II for Physical Sciences]

[PHYA10H3 Physics I for the Physical Sciences or PHYA11H3 Physics I for Life Sciences]

STAB22H3 Introduction to Statistics

Second Year (4.5 credits):

BIOB10H3 Cell Biology

BIOB11H3 Molecular Aspect of Cellular and Genetic Processes

BIOB12H3 Laboratory for Cell and Molecular Biology

CHMB16H3 Techniques in Analytical Chemistry

CHMB21H3 Chemical Structure and Spectroscopy

CHMB23H3 Introduction to Chemical Thermodynamics and Kinetics: Theory and Practice

CHMB31H3 Introduction to Inorganic Chemistry

CHMB41H3 Organic Chemistry I

CHMB42H3 Organic Chemistry II

Third Year (4.0-4.5 credits):

BIOC12H3 Biochemistry I: Proteins and Enzymes

BIOC13H3 Biochemistry II: Bioenergetics and Metabolism

BIOC23H3 Practical Approaches to Biochemistry

CHMC11H3 Principles of Analytical Instrumentation

CHMC42H3 Organic Synthesis

CHMC47H3 Bio-Organic Chemistry

CHMC71H3/(CHMD71H3) Medicinal Chemistry

and

0.5 credit from:

CHMC16H3 Analytical Instrumentation

CHMC21H3 Topics in Biophysical Chemistry

CHMC31Y3 Intermediate Inorganic Chemistry

Fourth Year (2.0 credits):

CHMD79H3 Topics in Biological Chemistry

1.5 credits in D-level CHM courses

including

0.5-1.0 credits from the following:

CHMD90Y3 Directed Research

CHMD91H3 Directed Research

CHMD92H3 Advanced Chemistry Laboratory Course

and

0.5 credit from the following:

BIOD12H3 Protein Homeostasis

BIOD13H3 Herbology: The Science Behind Medicinal Plants

CHMD41H3/(CHMC41H3) Physical Organic Chemistry

CHMD47H3 Advanced Bio-Organic Chemistry

CHMD69H3 Chemical Elements in Living Systems

SPECIALIST (CO-OPERATIVE) PROGRAM IN MEDICINAL AND BIOLOGICAL CHEMISTRY (SCIENCE) - SCSPE1995C

Academic Program Supervisor of Studies: S. Dalili sh.dalili@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Medicinal and Biological Chemistry is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Biological Chemistry upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 3.5 credits, including [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [[CHMA11H3](#) or [CHMA12H3](#)], [[MATA29H3](#) or [MATA30H3](#)], [[MATA35H3](#) or [MATA36H3](#)], and [[PHYA10H3](#) or [PHYA11H3](#)], plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Medicinal and Biological Chemistry.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is strongly recommended that [CHMB16H3](#) and [BIOB12H3](#) be completed prior to the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB54H3](#)/[COPB51H3](#)

Work Term Search Courses:

- [COPB55H3](#)/[COPB52H3](#) (Completed in the semester prior to the first work term)
- [COPC98H3](#) (Taken in the semester prior to the second work term)
- [COPC99H3](#) (Taken in the semester prior to the third work term)

Required Work Term Courses:

- [COPC01H3](#) (First work term)
- [COPC02H3](#) (Second work term)
- [COPC03H3](#) (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) (Fourth work term)
- [COPC05H3](#) (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR PROGRAM IN BIOCHEMISTRY (SCIENCE) - SCMAJ1762

Supervisor Email: biochemistry-major@utsc.utoronto.ca

For an updated list of Program Supervisors, please visit the [Chemistry website](#).

The Major program in Biochemistry provides students with the opportunity to explore the chemistry of living systems. In the first two years, students take a suite of core courses in both biology and chemistry. In later years, students merge these disciplines through courses that explore the chemistry of proteins, enzymes and metabolism. This program is intended for students who are interested in biochemistry, but who do not wish to complete the more focused specialist in

biological chemistry. The program is also excellent preparation for students wishing to pursue professional schools such as medicine, pharmacy or law.

Note: This program cannot be combined with the Major/Major Co-op programs in Chemistry, or the Major/Major Co-op programs in Environmental Chemistry.

Program Requirements

Students should complete the following 9.0 credits:

First Year:

1. 3.0 credits from the following

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms *or* CHMA12H3 Advanced General Chemistry]

[MATA29H3 Calculus I for the Life Sciences *or* MATA30H3 Calculus I for Physical Sciences]

[MATA35H3 Calculus II for Biological Sciences *or* MATA36H3 Calculus II for Physical Sciences]

Second and Later Years:

2. 6.0 credits from the following

BIOB10H3 Cell Biology

BIOB11H3 Molecular Aspect of Cellular and Genetic Processes

BIOB12H3 Cell & Molecular Biology Laboratory

BIOC12H3 Biochemistry I: Proteins & Enzymes

BIOC13H3 Biochemistry II: Bioenergetics & Metabolism

BIOC23H3 Practical Approaches to Biochemistry

CHMB16H3 Techniques in Analytical Chemistry

CHMB41H3 Organic Chemistry I

CHMB42H3 Organic Chemistry II

CHMC47H3 Bio-Organic Chemistry

and

0.5 credit from the following:

CHMB20H3 Chemical Thermodynamics and Elementary Kinetics*

CHMB23H3 Introduction to Chemical Thermodynamics and Kinetics: Theory and Practice*

CHMB31H3 Introduction to Inorganic Chemistry

CHMC11H3 Principles of Analytical Instrumentation

CHMC42H3 Organic Synthesis

CHMC71H3/(CHMD71H3) Medicinal Chemistry

* If CHMB20H3 or CHMB23H3 is selected, one of either [PHYA10H3 or PHYA11H3] is required.

and

0.5 credit from the following:

BIOD12H3 Protein Homeostasis

BIOD13H3 Herbology: The Science Behind Medicinal Plants

CHMD41H3/(CHMC41H3) Physical Organic Chemistry

CHMD47H3 Advanced Bio-Organic Chemistry

CHMD69H3 Chemical Elements in Living Systems

CHMD79H3 Topics in Biological Chemistry

MAJOR (CO-OPERATIVE) PROGRAM IN BIOCHEMISTRY (SCIENCE) - SCMAJ1762C

For an updated list of Program Supervisors, please visit the [Chemistry website](#).

Co-op Program Coordinator: coopsuccess.utsr@utoronto.ca

The Major (Co-op) Program in Biochemistry is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity

to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Biochemistry upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Note: This program cannot be combined with the Major/Major Co-op programs in Chemistry, or the Major/Major Co-op programs in Environmental Chemistry.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [CHMA11H3](#), [MATA29H3](#) or [MATA30H3](#) and [MATA35H3](#) or [MATA36H3](#), plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Biochemistry.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is strongly recommended that [CHMB16H3](#) and [BIOB12H3](#) be completed prior to the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB54H3](#)/[COPB51H3](#)

Work Term Search Courses:

- [COPB55H3](#)/[COPB52H3](#) (Completed in the semester prior to the first work term)
- [COPC98H3](#) (Taken in the semester prior to the second work term)
- [COPC99H3](#) (Taken in the semester prior to the third work term)

Required Work Term Courses:

- [COPC01H3](#) (First work term)
- [COPC02H3](#) (Second work term)
- [COPC03H3](#) (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) (Fourth work term)
- [COPC05H3](#) (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR PROGRAM IN CHEMISTRY (SCIENCE) - SCMAJ1376

For an updated list of Program Supervisors, please visit the [Chemistry website](#).

The Major program in Chemistry provides students with an introduction to all major sub-disciplines within chemistry, including analytical, biological, inorganic, organic and physical chemistry. Students will develop both theoretical knowledge and practical lab skills throughout their course work. This program is intended for students who are interested in chemistry, but who do not wish to complete the more focused specialist program.

Note: This program cannot be combined with the Major/Major Co-op programs in Biochemistry or the Major program in Environmental Chemistry.

Program Requirements

Students should complete the following 8.5 credits:

First Year:

CHMA10H3 Introductory Chemistry I: Structure and Bonding
[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]
MATA30H3 Calculus I for Physical Sciences
MATA36H3 Calculus II for Physical Sciences
PHYA10H3 Physics I for the Physical Sciences
PHYA21H3 Physics II for the Physical Sciences

Second and Later Years:

CHMB16H3 Techniques in Analytical Chemistry
CHMB23H3 Introduction to Chemical Thermodynamics and Kinetics: Theory and Practice
CHMB31H3 Introduction to Inorganic Chemistry
CHMB41H3 Organic Chemistry I
CHMB42H3 Organic Chemistry II
CHMB62H3 Introduction to Biochemistry

and

2.5 credits in CHM of which at least 2.0 credits must be at the C- or D-level and 0.5 credit at the D-level. 0.5 of these C- or D-level credits must include a laboratory component.**

** Students should note that if they are going to select CHMC20H3/CHMC21H3, MATA23H3 and MATB41H3 will need to be taken in addition to their other program requirements.

Note: This program cannot be combined with the Major Program in Biochemistry.

MAJOR (CO-OPERATIVE) PROGRAM IN CHEMISTRY (SCIENCE) - SCMAJ1376C

For an updated list of Program Supervisors, please visit the [Chemistry website](#).

Co-op Program Coordinator: coopsuccess.uts@utoronto.ca

The Major (Co-op) Program in Chemistry is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Chemistry upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Note: This program cannot be combined with the Major/Major Co-op programs in Biochemistry or the Major program in Environmental Chemistry.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including CHMA10H3, CHMA11H3, MATA30H3, MATA36H3, PHYA10H3 and PHYA21H3, plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Chemistry.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is strongly recommended that CHMB16H3 be completed before the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- **COPC01H3** (First work term)
- **COPC02H3** (Second work term)
- **COPC03H3** (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN ENVIRONMENTAL CHEMISTRY (SCIENCE) - SCMAJ0361

For an updated list of Program Supervisors, please visit the Chemistry website.

The Major program in Environmental Chemistry will introduce students to the main areas within chemistry, with an emphasis on analytical, environmental, inorganic, and organic chemistry, and also ensure students gain foundational knowledge of the environmental sciences. Students will develop both theoretical knowledge and practical lab skills throughout their course work. This program is intended for students who are interested in developing basic environmental skills, but who also seek the flexibility of combining this program with other Major and Minor programs. Students interested in developing depth in Environmental Chemistry should consider the Specialist or Specialist (Co-operative) program in Environmental Chemistry.

This program cannot be combined with the Major/Major Co-op programs in Biochemistry, the Major/Major Co-op programs in Chemistry, the Major/Major Co-op programs in Environmental Science, or the Minor in Environmental Science.

Program Requirements

Students must complete 9.0 credits as follows:

First Year (3.0 credits):

CHMA10H3 Introductory Chemistry I: Structure and Bonding
[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]
[MATA29H3 Calculus I for Life Sciences or MATA30H3 Calculus I for Physical Sciences]
[MATA35H3 Calculus II for Biological Sciences or MATA36H3 Calculus II for Physical Sciences]
EESA01H3 Introduction to Environmental Science
and 0.5 credit from:
EESA06H3 Introduction to Planet Earth
EESA07H3 Water
EESA11H3 Environmental Pollution

Second and Later Years (6.0 credits):

CHMB16H3 Techniques in Analytical Chemistry

CHMB31H3 Introduction to Inorganic Chemistry
CHMB41H3 Organic Chemistry I
CHMB42H3 Organic Chemistry II
CHMB55H3 Environmental Chemistry
CHMC11H3 Principles of Analytical Information

and 0.5 credit from:

EESB03H3 Principles of Climatology
EESB04H3 Principles of Hydrology
EESB05H3 Principles of Soil Science

and

2.5 additional credits in CHM courses that meet the following criteria:

- i. at least 2.0 credits must be at the C- or D-level
- ii. at least 0.5 credit must be at the D-level
- iii. at least 0.5 credit at the C- or D-level must be a course with a laboratory component (CHMD16H3 is highly recommended)

MAJOR (CO-OPERATIVE) PROGRAM IN ENVIRONMENTAL CHEMISTRY (SCIENCE) - SCMAJ0361C

For an updated list of Academic Program Supervisors, please visit the [Chemistry website](#).

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Environmental Chemistry is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Environmental Chemistry upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including: CHMA10H3, [CHMA11H3 or CHMA12H3], MATA30H3, MATA36H3, EESA01H3, and 0.5 credit from: [EESA06H3, EESA07H3, EESA11H3], plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above
Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major in Environmental Chemistry.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is strongly recommended that CHMB16H3 be completed before the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

Chemistry Courses

CHMA10H3 - Introductory Chemistry I: Structure and Bonding

This course will introduce the study of chemical properties and transformations of matter. The course starts with the quantum mechanical model of the atom and the principles of how the periodic table is organized. Key reaction types

are explored including acid/base, redox, and precipitation as well as a quantitative description of gases. Bonding and structure in chemical compounds is examined followed by a close look at solutions, solids and intermolecular forces. The course concludes with nuclear chemistry. This course includes a three-hour laboratory every other week.

Exclusion: CHM120H5, CHM151Y1

Recommended Preparation: Grade 12 Chemistry and [Grade 12 Advanced Functions or Grade 12 Calculus] are highly recommended

Breadth Requirements: Natural Sciences

Note: [MATA29H3 or MATA30H3] and [MATA35H3 or MATA36H3] are required for some higher level Physical and Environmental Sciences courses.

CHMA11H3 - Introductory Chemistry II: Reactions and Mechanisms

This course quantitatively examines reactions and equilibria in chemical systems with an emphasis on their thermodynamic properties and chemical kinetics. The course begins with a close examination of solutions followed by dynamic chemical equilibrium. This leads directly to acid/base and solubility equilibria and thermochemistry, including calorimetry. The course concludes with thermodynamics, kinetics and electrochemistry with a strong emphasis on how these are connected to Gibbs Free Energy. This course includes a three hour laboratory every other week.

Prerequisite: CHMA10H3

Exclusion: CHMA12H3, CHM110H5, CHM135H1, CHM139H1, CHM151Y1

Recommended Preparation: [MATA29H3 or MATA30H3]

Breadth Requirements: Natural Sciences

Note: [MATA29H3 or MATA30H3] and [MATA35H3 or

MATA36H3] are required for some higher level Physical and Environmental Sciences courses.

CHMA12H3 - Advanced General Chemistry

This course will build on the topics from CHMA10H3, including a close examination of solutions, dynamic chemical equilibrium, acid/base and solubility equilibria and thermochemistry, including calorimetry and thermodynamics, kinetics and electrochemistry as they relate to Gibbs Free Energy. In this course, students will explore these ideas in more detail both from a theoretical and practical point of view, in comparison to CHMA11H3. The lecture portion will focus on how chemical concepts are applied in cutting edge research. The weekly laboratory period will provide students with access to the most current equipment used in both industrial and research settings as well as workshops that will explore how to analyze and extract data from published, peer-reviewed journal articles.

Prerequisite: CHMA10H3 with a grade of 70% or higher and [MATA29H3 or MATA30H3]

Exclusion: CHMA11H3, CHM151Y1, CHM135H1, CHM110H5

CHMB16H3 - Techniques in Analytical Chemistry

An introduction to the principles and methods of classical analysis and the provision of practical experience in analytical laboratory techniques. The course deals primarily with quantitative chemical analysis. Classical methods of volumetric analysis, sampling techniques, statistical handling of data are studied, as well as a brief introduction to spectro-chemical methods. This course includes a four hour laboratory every week.

Prerequisite: CHMA10H3 and [CHMA11H3 or CHMA12H3] and [MATA29H3 or MATA30H3] and [MATA35H3 or MATA36H3]

Exclusion: CHM211H5, CHM217H1

Recommended Preparation: STAB22H3

Breadth Requirements: Natural Sciences

CHMB20H3 - Chemical Thermodynamics and Elementary Kinetics

The concept of chemical potential; phase equilibria; solutions; chemical equilibria (including electrochemical applications); elementary reactions; multi-step and coupled reactions (with biochemical applications);

elementary collision theory and transition state theory. This course includes a weekly tutorial.

Prerequisite: [\[CHMA11H3 or CHMA12H3\]](#) and [\[MATA35H3 or MATA36H3 or MATA37H3\]](#) and [\[PHYA10H3 or PHYA11H3\]](#)

Exclusion: [CHMB23H3](#), CHM220H1, CHM222H1, CHM225Y1, JCP221H5

Breadth Requirements: Natural Sciences

Note: Students interested in taking C-level Physical Chemistry courses should take [PHYA10H3](#) instead of [PHYA11H3](#). Some C-level Physical Chemistry courses have [PHYA21H3](#) and [MATB41H3](#) as prerequisites, and [PHYA21H3](#) requires [PHYA10H3](#) as a prerequisite.

CHMB21H3 - Chemical Structure and Spectroscopy

This course uses quantum mechanics to describe atomic and molecular structure and bonding. The theory of these systems is treated first and their spectroscopy afterwards. The following topics are covered: motivation for quantum mechanics, Schrödinger's equations, quantum postulates and formalisms, solutions of the time-independent Schrödinger equation for model systems (particle in a box, harmonic oscillator, rigid rotor, hydrogen-like atoms), angular momentum operator, electron spin, many electron atoms, theories of chemical bonding (valence bond theory and molecular orbital theory), quantum mechanics of the internal motion of molecules, spectroscopy of atomic and molecular systems.

Prerequisite: [CHMB20H3](#) or [CHMB23H3](#)

Exclusion: CHM223H1, CHM225Y1

Recommended Preparation: [MATA23H3](#)

Breadth Requirements: Natural Sciences

Note: Students in the Specialist and Specialist Co-op programs in Medicinal and Biological Chemistry are advised to complete [CHMB23H3](#) rather than [CHMB20H3](#) prior to enrolling in [CHMB21H3](#).

CHMB23H3 - Introduction to Chemical Thermodynamics and Kinetics: Theory and Practice

This course explores the concepts of chemical potential, phase equilibria, solutions, chemical equilibria (including electrochemical applications), elementary reactions, multi-step and coupled reactions (with biochemical applications), elementary collision theory and transition state theory.

Prerequisite: [\[CHMA11H3 or CHMA12H3\]](#) and [\[MATA35H3 or MATA36H3 or MATA37H3\]](#) and [\[PHYA10H3 or PHYA11H3\]](#)

Exclusion: [CHMB20H3](#), CHM220H1, CHM222H1, CHM225Y1, JCP221H5

Breadth Requirements: Natural Sciences

Note: 1. Restricted to students in the following programs: Specialist in Biological Chemistry, Specialist in Chemistry,

Major in Biochemistry, Major in Chemistry 2. Lectures are shared with [CHMB20H3](#). 3. Students interested in taking C-level Physical Chemistry courses should take [PHYA10H3](#) instead of [PHYA11H3](#). Some C-level Physical Chemistry courses have [PHYA21H3](#) and [MATB41H3](#) as prerequisites, and [PHYA21H3](#) requires [PHYA10H3](#) as a prerequisite.

CHMB31H3 - Introduction to Inorganic Chemistry

Fundamental periodic trends and descriptive chemistry of the main group elements are covered. The topics include structures, bonding and reactivity; solid state structures and energetics; and selected chemistry of Group 1, 2, and 13-18. The course has an accompanying practical (laboratory) component taking place every second week.

Prerequisite: [CHMA10H3](#) and [\[CHMA11H3 or CHMA12H3\]](#)

Exclusion: CHM238Y, CHM231H

Breadth Requirements: Natural Sciences

CHMB41H3 - Organic Chemistry I

This course begins with a review of chemical bonding in organic structures, followed by an in depth look at conformational analysis and stereochemistry. It explores the reactivity of organic molecules, starting with acid-base reactions, simple additions to carbonyl compounds, reactions of alkenes and alkynes, and substitution reactions. The course includes weekly tutorials and a four hour laboratory every other week.

Prerequisite: [\[CHMA11H3 or CHMA12H3\]](#)

Exclusion: CHM136H1, CHM138H1, CHM151Y1, CHM242H5

Breadth Requirements: Natural Sciences

CHMB42H3 - Organic Chemistry II

This course builds on the topics seen in Organic Chemistry I. Major reactions include electrophilic and nucleophilic aromatic substitutions, and the chemistry of carbonyl compounds. Spectroscopic methods for structure determination are explored (NMR, MS, IR), along with the chemistry of biologically important molecules such as heterocycles and carbohydrates. This course includes a four-hour laboratory every other week, as well as weekly one-hour tutorials.

Prerequisite: [\[CHMA11H3 or CHMA12H3\]](#) and [CHMB41H3](#)

Exclusion: CHM243H5, CHM247H1, CHM249H1

Breadth Requirements: Natural Sciences

CHMB43Y3 - Organic Chemistry I and II

This course provides a comprehensive introduction to the field of organic chemistry. Major topics include organic acids/bases, stereochemistry, substitution/elimination mechanisms, reactions of alkenes/alkynes, radicals, aromatic compounds, carbonyl compounds, oxidation/reduction, radicals, spectroscopy, heterocycles and carbohydrates. Includes a 4 hour lab and 6 hours of lecture each week.

Prerequisite: Completion of at least 4.0 credits, including CHMA10H3 and [CHMA11H3 or CHMA12H3]. Minimum cumulative GPA of 2.7. Permission of instructor.

Exclusion: CHMB41H3, CHMB42H3, CHM138H, CHM151Y, CHM247H, CHM249H, CHM242H, CHM245H

Breadth Requirements: Natural Sciences

CHMB55H3 - Environmental Chemistry

An investigation of aspects of chemical substances and processes as they occur in the environment, including both naturally occurring and synthetic chemicals.

This course will include an introduction to atmospheric chemistry, aqueous chemistry, some agricultural and industrial chemistry, and chemical analysis of contaminants and pollutants.

Prerequisite: CHMA10H3 and [CHMA11H3 or CHMA12H3]

Exclusion: CHM310H

Breadth Requirements: Natural Sciences

CHMB62H3 - Introduction to Biochemistry

This course is designed as an introduction to the molecular structure of living systems. Topics will include the physical and chemical properties of proteins, enzymes, fatty acids, lipids, carbohydrates, metabolism and biosynthesis. Emphasis will be placed on the relationships between the chemical structure and biological function.

Prerequisite: CHMA10H3 and [CHMA11H3 or CHMA12H3] and CHMB41H3

Exclusion: BIOC12H3 and BIOC13H3 and BCH210H and BCH242Y and BCH311H and CHM361H and CHM362H

Breadth Requirements: Natural Sciences

Note: This course cannot be taken by students enrolled in the Specialist Program in Medicinal and Biological Chemistry and Major Program in Biochemistry.

CHMC11H3 - Principles of Analytical Instrumentation

An introduction to the workings and application of modern analytical instrumentation. A range of modern

instrumentation including NMR spectroscopy, Mass Spectrometry, Microscopy. Light Spectroscopy (visible, Ultra Violet, Infrared, Fluorescence, Phosphorescence), X-ray, Chromatography and electrochemical separations will be addressed. Principles of measurement; detection of photons, electrons and ions; instrument and experiment design and application; noise reduction techniques and signal-to-noise optimization will be covered.

Prerequisite: CHMB16H3

Exclusion: CHM317H1, CHM311H5

Recommended Preparation: CHMB20H3 and CHMB21H3

Breadth Requirements: Natural Sciences

CHMC16H3 - Analytical Instrumentation

A laboratory course to complement CHMC11H3, Principles of Analytical Instrumentation.

This course provides a practical introduction and experience in the use of modern analytical instrumentation with a focus on the sampling, sample preparation (extraction, clean-up, concentration, derivatization), instrumental trace analysis and data interpretation of various pharmaceutical, biological and environmental samples.

This course includes a four hour laboratory every week.

Prerequisite: CHMC11H3

Exclusion: CHM317H1, CHM396H5

Breadth Requirements: Natural Sciences

CHMC20H3 - Intermediate Physical Chemistry

Basic statistical mechanics and applications to thermochemistry and kinetics; intermolecular interactions; concepts in reaction dynamics.

Prerequisite: CHMB23H3 and CHMB21H3 and MATB41H3 and PHYA21H3

Exclusion: CHM328H1, JCP322H5

Breadth Requirements: Natural Sciences

CHMC21H3 - Topics in Biophysical Chemistry

Advanced topics in Physical Chemistry with emphasis on biochemical systems. Spectroscopic methods for (bio) molecular structure determination, including IR, NMR, UV/VIS; colloid chemistry; polymers and bio-polymers, bonding structure and statistical mechanics; physical chemistry of membranes, active transport and diffusion; oscillatory (bio)chemical reactions.

Prerequisite: CHMB21H3

Breadth Requirements: Natural Sciences

CHMC31Y3 - Intermediate Inorganic Chemistry

A detailed discussion of the structure, bonding, spectroscopy and reactivity of transition metal compounds. After an overview of descriptive chemistry, the focus is on coordination and organometallic chemistry, with an introduction to catalysis and biocoordination chemistry. The laboratory focuses on intermediate and advanced inorganic syntheses, and classical and instrumental characterization methods. This laboratory is six hours in duration and occurs every week.

Prerequisite: CHMB16H3 and [CHMB20H3 or CHMB23H3] and CHMB31H3 and CHMB42H3

Exclusion: CHM338H and CHM331H

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Specialist programs in Medicinal and Biological Chemistry and Chemistry.

CHMC42H3 - Organic Synthesis

Principles of synthesis organic and functional group transformations; compound stereochemistry, spectroscopy and structure elucidation. This course includes a four hour laboratory every week.

Prerequisite: CHMB41H3 and CHMB42H3

Exclusion: CHM342H1, CHM343H1, CHM345H5

Breadth Requirements: Natural Sciences

CHMC47H3 - Bio-Organic Chemistry

The chemistry of heterocycles, nucleic acids, terpenes, steroids and other natural products; amino acids, proteins and carbohydrates; introduction to enzyme structure and catalysis.

This course includes a four hour laboratory every week.

Prerequisite: CHMB41H3 and CHMB42H3

Exclusion: CHM347H1, CHM347H5

Breadth Requirements: Natural Sciences

CHMC71H3 - Medicinal Chemistry

The course focuses on the important concepts in the design and synthesis of drugs. The course may include the principles of pharmacology, drug metabolism and toxicology. Strategies for generating valuable active compounds and structure/activity relationships involved in selective transformations of available building blocks into diversely functionalized derivatives will be discussed. The course provides an overview of reactions used at different stages of the drug development process, using representative examples from the literature and case studies of drugs where applicable.

Prerequisite: CHMC47H3

Exclusion: (CHMD71H3), CHM440H1, CHM444H5

Recommended Preparation: BIOC12H3 or CHMB62H3

Breadth Requirements: Natural Sciences

CHMD11H3 - Application of Spectroscopy in Chemical Structure Determination

In this course students will learn about the following analytical techniques used in organic structure determination: mass spectrometry, IR spectroscopy, NMR spectroscopy, and ultraviolet-visible spectroscopy. There will be focus on a systematic approach in structure determination through various spectroscopy. Students will receive hands-on training in spectral interpretation, processing and analysis as well as training on the use of different computer software for the purpose of analysis.

Prerequisite: CHMB16H3 and CHMC11H3

Exclusion: CHM442H5

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Specialist/Specialist Co-op programs in Environmental Chemistry. Additional students will be admitted as space permits.

CHMD16H3 - Environmental and Analytical Chemistry

Students will learn about analytical techniques used in environmental chemistry, including: gas and liquid chromatography, mass spectrometry, atomic absorption, and ultraviolet-visible spectroscopy. Environmental sampling and ecotoxicology will also be covered. Students will carry out laboratory analyses and receive hands-on training with analytical instrumentation commonly used in environmental chemistry.

Prerequisite: CHMB55H3 and CHMC11H3

Exclusion: CHM317H, CHM410H

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Specialist/Specialist Co-op in Environmental Chemistry. Additional students will be admitted as space permits.

CHMD39H3 - Topics in Inorganic Chemistry

Advanced topics in inorganic chemistry will be covered at a modern research level. The exact topic will be announced in the Winter Session prior to the course being offered.

Prerequisite: Permission of the instructor. Normally only for individuals who have completed fifteen full credits,

including at least two C-level Chemistry courses, and who are pursuing one of the Chemistry Programs.

CHMD41H3 - Physical Organic Chemistry

This course offers an in-depth understanding of organic chemistry by systematically exploring the factors and principles that govern organic reactions. The first half of the course covers fundamentals including bonding theories, kinetics, thermodynamics, transition state theory, isotope effects, and Hammett equations. In the second half, these topics are applied to the study of different types of organic reactions, such as nucleophilic substitutions, polar additions/eliminations, pericyclic reactions and radical reactions.

Prerequisite: CHMB41H3 and CHMB42H3

Exclusion: (CHMC41H3), CHM341H5, CHM348H1, CHM443H1

Breadth Requirements: Natural Sciences

CHMD47H3 - Advanced Bio-Organic Chemistry

This course will teach biochemical reactions in the context of Organic Chemistry. This course will build on topics from CHMC47H3. Application of enzymes in organic synthesis, chemical synthesis of complex carbohydrates and proteins, enzyme catalyzed proton transfer reactions and co-enzymes will be discussed in depth with recent literature examples. Experiential learning is an integral part of this course. Students will explore the applications of Bio-Organic Chemistry in healthcare and industrial settings as part of an experiential learning project

Prerequisite: BIOC12H3 and BIOC13H3 and CHMC47H3

Exclusion: CHM447H

Recommended Preparation: CHMB20H3

CHMD59H3 - Modelling the Fate of Organic Chemicals in the Environment

This course introduces quantitative approaches to describe the behaviour of organic chemicals in the environment. Building upon a quantitative treatment of equilibrium partitioning and kinetically controlled transfer processes of organic compounds between gaseous, liquid and solid phases of environmental significance, students will learn how to build, use and evaluate simulation models of organic chemical fate in the environment. The course will provide hands-on experience with a variety of such models.

Prerequisite: Permission of the instructor. Normally recommended for individuals who have completed 15.0 credits, including at least 1.0 credit at the C-level in CHM courses, and who are enrolled in one of the Chemistry

programs.

Exclusion: JNC2503H, CHE460H1

CHMD69H3 - Bioinorganic Chemistry

This course will explore the role of the chemical elements other than "the big six" (C, H, O, N, P, S) in living systems, with a focus on metal cations. The topic includes geochemistry and early life, regulation and uptake of metallic elements, structure-function relationships in metalloproteins.

Prerequisite: [[BIOC12H3 and BIOC13H3] or CHMB62H3] and CHMB31H3

Exclusion: CHM333H, CHM437H

Recommended Preparation: CHMC31Y3

Breadth Requirements: Natural Sciences

CHMD79H3 - Topics in Biological Chemistry

Advanced topics in biological chemistry will be covered at a modern research level. The exact topic will be announced in the Winter Session prior to the course being offered.

Prerequisite: Permission of the instructor. Normally recommended for individuals who have completed fifteen full credits, including at least two C-level Chemistry courses, and who are pursuing one of the Chemistry Programs.

CHMD89H3 - Introduction to Green Chemistry

The 'twelve principles' of green chemistry will be discussed in the context of developing new processes and reactions (or modifying old ones) to benefit society while minimizing their environmental impact. Examples will be taken from the recent literature as well as from industrial case studies.

Prerequisite: [CHMC42H3 or CHMC47H3]

Recommended Preparation: CHMB31H3

Breadth Requirements: Natural Sciences

CHMD90Y3 - Directed Research

You can find the names and contact information for the current course coordinators by visiting the [Chemistry website](#).

This course involves participation in an original research project under the direction of a faculty supervisor. Approximately 260 hours of work are expected in CHMD90Y3. The topic will be selected in conference with the course coordinator who will provide project descriptions from potential faculty supervisors. Progress will be monitored during periodic consultations with the

faculty supervisor as well as the submission of written reports. The final results of the project will be presented in a written thesis as well as an oral and/or poster presentation at the end of the term.

Please see the note below on registration in CHMD90Y3.

Prerequisite: Permission of the course coordinator.

Exclusion: CHMD91H3, CHMD92H3

Course Experience: University-Based Experience

Note: Students must apply to the course coordinator for admission into this course. Applications must be received by the end of August for enrolment in the fall/spring semester; for enrolment in the summer semester, applications must be received by the end of April. Applications will consist of:

- 1) A letter of intent indicating the student's wish to enrol in CHMD90Y3;
- 2) A list of relevant courses successfully completed as well as any relevant courses to be taken during the current session;
- 3) Submission of the preferred project form indicating the top four projects of interest to the student. This form is available from the course coordinator, along with the project descriptions. Generally, only students meeting the requirements below will be admitted to CHMD90Y3:

- 1) A Cumulative Grade Point Average of 2.5. Students who do not meet this requirement should consider enrolling in CHMD92H3 instead;
- 2) Completion of at least 15.0 credits;
- 3) Completion of at least 1.0 credits of C-level chemistry or biochemistry courses containing a lab component (i.e. CHMC16H3, CHMC31Y3, CHMC42H3, CHMC47H3, BIOC23H3). Once the course coordinator (or designate)* has approved enrolment to CHMD90Y3, they will sign the course enrolment form for submission to the registrar.

*Note that the course coordinator (or designate) is the only one permitted to give "permission of instructor" on this form.

CHMD91H3 - Directed Research

You can find the names and contact information for the current course coordinators by visiting the Chemistry website.

This course involves participation in an original research project under the direction of a faculty supervisor. Approximately 130 hours of work are expected in CHMD91H3. The topic will be selected in conference with the course coordinator who will provide project descriptions from potential faculty supervisors. Progress will be monitored during periodic consultations with the faculty supervisor as well as the submission of written reports. The final results of the project will be presented in

a written thesis as well as an oral and/or poster presentation at the end of the term.

Please see the note below on registration in CHMD91H3.

Prerequisite: Permission of the course coordinator.

Exclusion: CHMD90Y3, CHMD92H3

Course Experience: University-Based Experience

Note: Students must apply to the course coordinator for admission into this course. Applications must be received by the end of August for enrolment in the fall/spring semester; for enrolment in the summer semester, applications must be received by the end of April. Applications will consist of:

- 1) A letter of intent indicating the student's wish to enroll in either CHMD90Y3 or CHMD91H3;
- 2) A list of relevant courses successfully completed as well as any relevant courses to be taken during the current session;
- 3) Submission of the preferred project form indicating the top four projects of interest to the student. This form is available from the course coordinator, along with the project descriptions.

Generally, only students meeting the following requirements will be admitted to CHMD91H3:

- 1) A Cumulative Grade Point Average of 2.5. Students who do not meet this requirement should consider enrolling in CHMD92H3 instead;
- 2) Completion of at least 15.0 credits;
- 3) Completion of at least 1.0 credits of C-level chemistry or biochemistry courses containing a lab component (i.e. CHMC16H3, CHMC31Y3, CHMC42H3, CHMC47H3, BIOC23H3). Once the course coordinator (or designate)* has approved enrolment to CHMD91H3, s/he will sign the course enrolment form for submission to the registrar.

*Note that the course coordinator (or designate) is the only one permitted to give "permission of instructor" on this form.

CHMD92H3 - Advanced Chemistry Laboratory Course

A lab course designed to introduce students to modern synthetic methods while performing multi-step syntheses. The course will consist of two, six hour lab days every week. Students will develop advanced practical synthetic and analytic skills by working with important reactions taken from different chemistry disciplines.

Prerequisite: CHMC42H3 or CHMC31Y3

Exclusion: CHMD90Y3 and CHMD91H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

City Studies

Faculty List

- A. Allahwala, M.A. (FU Berlin), M.Ed. (Toronto), Ph.D. (York), Professor, Teaching Stream
- S.C. Bunce, B.A. (Guelph), M.E.S. Pl. (York), Ph.D. (York), Associate Professor
- F. Calderon Figueroa, B.A (PUCP), M.A., Ph.D. (Toronto), Assistant Professor
- S. Farber, B.A (McGill), M.S.A. (Ryerson), Ph.D. (McMaster), Associate Professor
- R. Goffe, B.Arch. (Temple University), Ph.D. (City University of New York), Assistant Professor
- J. Hannigan, B.A., M.A. (Western Ontario), Ph.D. (Ohio State), Professor Emeritus
- C. Higgins, B.A. (Brock), M.A. (McMaster), Ph.D. (McMaster), Assistant Professor
- Z. Hyde, B.A. (Simon Fraser), M.A. (Toronto), Ph.D. (University of British Columbia), Assistant Professor
- J. Mah, B.A. (Concordia), M.Sc.Pl. (Toronto), Ph.D. (Toronto), Assistant Professor
- J. Miron, B.A. (Queen's), M.A. (Penn.), M.Sc. (Pl.), Ph.D. (Toronto), Professor Emeritus
- S. Montero, B.A. (Granada), M.A., Ph.D. (UC Berkeley), Associate Professor
- R. Narayanareddy, MEdSc. (Yale University), Ph.D. (Minnesota), Associate Professor
- D. Silver, B.A. (Berkeley), M.A., Ph.D. (Chicago), Professor
- A. Sorensen, B.F.A. (Nova Scotia College of Art and Design), M.Sc., Ph.D. (London), Professor

For curriculum inquiries please contact the CIT Program Advisor. Email: cit-advisor@utsc.utoronto.ca

For more information, [visit the Department of Human Geography website.](#)

The Department of Human Geography offers pre-professional programs for students interested in career paths that may be city-related. Students acquire a combination of conceptual, methodological, and critical skills relevant in a variety of professional fields including city planning, real estate development, transportation, housing, community development, urban governance, and city management. The Specialist, Major/Major (Co-op), and Minor Program in City Studies are multidisciplinary: they are designed to give students the opportunity to see how they might apply ideas about cities from the social sciences and kindred disciplines in their field of professional interest. The programs also offer preparation for students interested in pursuing graduate education in a field of study related to cities.

Guidelines for First-year Course Selection

Students intending to complete a program in City Studies should complete [CITA01H3](#) and [CITA02H3](#) within their first 4.0 credits.

Guidelines for Major Program Completion

The City Studies curriculum has three areas of concentration: (1) City-Building, (2) Community Development, and (3) City Governance.

Students are to take [CITA01H3](#) and [CITA02H3](#) (required for all Specialist, Major/Major Co-op, and Minor students in City Studies) along with at least three of the City Studies B-level core courses: [CITB01H3](#), [CITB03H3](#), [CITB04H3](#), or [CITB08H3](#). These core courses cover foundational concepts of the program and are considered essential preparation for upper-level courses. Students are also welcome to take courses in more than one area of concentration.

Areas of Concentration:

- **City Building:**
[CITC03H3](#), [CITC04H3](#), [CITC09H3](#), [CITC14H3](#), [CITC18H3](#)
- **Community Development:**
[CITC01H3](#), [CITC02H3](#), [CITC07H3](#), [CITC08H3](#)
- **City Governance:**
[CITC12H3](#), [CITC15H3](#), [CITC16H3](#), [CITC17H3](#)

Notes:

1. It is Department policy that students without the prerequisites will be removed from the course. Students should carefully check the prerequisites required for particular B- and C-level courses.
2. Some upper-level courses (e.g. SOC and MGE) are part of limited enrolment programs, with first preference in these courses going to students enrolled in the associated programs.

Program Combination Restrictions

The Specialist, Major/Major Co-op and Minor programs in City Studies cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the courses [CITC01H3](#), [CITC02H3](#), [CITD05H3](#), [CITD06H3](#), [CITD12H3](#), or [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

City Studies Programs

SPECIALIST PROGRAM IN CITY STUDIES (ARTS) - SCSPECIT

The Specialist program in City Studies (BA) will provide students with the skills and knowledge they will need to pursue specialized training at the graduate level in fields like public policy and municipal governance, urban planning, and community development, as well as other city-focused fields of studies. Students in the Specialist program will also have the opportunity to develop in-depth theoretical and conceptual knowledge in applied urban studies, quantitative and qualitative research and GIS skills, practical skills such as project management, facilitation and community consultation, and communication skills needed to succeed in a wide variety of urban professions. Students are encouraged to discuss the selection and sequencing of courses with the Program Advisor or Associate Chair (City Studies).

Enrolment Requirements

Enrolment in the Specialist is limited. Students may apply to enter the program after they have completed at least 4.0 credits, including the courses listed under Requirement 1 of the program.

Admission is based on overall academic performance and grades in the courses in Requirement 1 of the program; students must achieve a minimum CGPA of 2.5. For students applying with more than 8.0-10.0 credits, admission will be on the basis of CGPA in all City Studies (CIT) courses taken. Decisions regarding program admissions will be made only twice a year, in May and August, by the City Studies Supervisor of Studies, and will be based on student requests submitted to the Registrar through ROSI.

Program Requirements:

This program requires the completion of 12.0 credits as follows:

1. Foundations of City Studies (1.0 credit):

[CITA01H3](#)/([CITB02H3](#)) Foundations of City Studies
[CITA02H3](#) Studying Cities

2. Core courses (1.5 credits as from the following):

[CITB01H3](#) Canadian Cities and Planning
[CITB03H3](#) Social Planning and Community Development
[CITB04H3](#) City Politics
[CITB07H3](#) Introduction to Global Urbanisms
[CITB08H3](#) Economy of Cities

3. Research Methods (2.0 credits):

[CITB05H3](#) Researching the City: An Introduction to Methods

GGRA30H3 Geographic Information Systems (GIS) and Empirical Reasoning
and

1.0 credits from the following:

GGRB30H3 Fundamentals of GIS I

GGRB03H3 Writing Geography

GGRC32H3 Essential Spatial Analysis

GGRC31H3 Qualitative Geographical Methods: Place and Ethnography

GGRC42H3 Making Sense of Data: Applied Multivariate Analysis

STAB23H3 Introduction to Statistics for the Social Sciences

4. City Studies Applications (3.5 credits from among the following):

CITC01H3 Urban Communities and Neighbourhoods Case Study

CITC02H3 Placements in Community Development

CITC03H3 Housing Policy and Planning

CITC04H3 Current Municipal and Planning Policy and Practice in Toronto

CITC07H3 Urban Social Policy

CITC08H3 Cities and Community Development

CITC09H3 Introduction to Planning History: Toronto and Its Region

CITC10H3 Selected Issues in City Studies

CITC12H3 City Structures, Problems, and Decisions: Field Research in Urban Policy Making

CITC14H3 Environmental Planning

CITC15H3 Money Matters: How Municipal Finance Shapes the City

CITC16H3 Planning and Governing the Metropolis

CITC17H3 Civic Engagement in Urban Politics

CITC18H3 Transportation Policy Analysis

5. Approaches to Cities (2.0 credits from among the following)*:

GGRB02H3 The Logic of Geographic Thought

GGRB05H3 Urban Geography

GGRB13H3 Social Geography

GGRC02H3 Population Geography

GGRC10H3 Urbanization and Development

GGRC11H3 Current Topics in Urban Geography

GGRC12H3 Transportation Geography

GGRC13H3 Urban Political Geography

GGRC27H3 Location and Spatial Development*

GGRC33H3 The Toronto Region

GGRC40H3 Megacities and Global Urbanization

GGRC43H3 Social Geographies of Street Food*

GGRC48H3 Geographies of Urban Poverty

POLB56H3 Critical Issues in Canadian Politics

POLB57H3 The Canadian Constitution and the Charter of Rights

POLC53H3 Canadian Environmental Policy

PPGB66H3/(PPGC66H3)/(POLC66H3) Public Policy Making

PPGC67H3/(POLC67H3) Public Policy in Canada

SOCB44H3 Sociology of Cities and Urban Life

***Note:** these courses may have prerequisites that are not included in this program

6. City Studies Workshop (1.0 credit):

CITD05H3 City Studies Workshop I

CITD06H3 City Studies Workshop II

7. Advanced Applications (1.0 credit):

CITD01H3 City Issues and Strategies

CITD10H3 Seminar in Selected Issues in City Studies

CITD12H3 Planning and Building Public Spaces in Toronto

CITD30H3 Supervised Research Project

GGRD14H3 Social Justice and the City

MAJOR PROGRAM IN CITY STUDIES (ARTS) - SCMAJCIT

Program Requirements

This program requires students to complete a total of 7.0 credits as follows:

1. Foundations of City Studies (1.0 credit):

CITA01H3/(CITB02H3) Foundations of City Studies

CITA02H3 Studying Cities

2. Core courses (1.5 credits from among the following):

CITB01H3 Canadian Cities and Planning

CITB03H3 Social Planning and Community Development

CITB04H3 City Politics

CITB07H3 Introduction to Global Urbanisms

CITB08H3 Economy of Cities

3. Methods (1.0 credit as follows):

CITB05H3 Researching the City: An Introduction to Methods

and

0.5 credit from among the following:

GGRA30H3 Geographic Information Systems (GIS) and Empirical Reasoning

GGRB30H3 Fundamentals of GIS I

GGRC31H3 Qualitative Geographical Methods: Place and Ethnography

GGRC42H3 Making Sense of Data: Applied Multivariate Analysis

STAB23H3 Introduction to Statistics for the Social Sciences

4. City Studies Applications (at least 2.0 credits from among the following):

CITC01H3 Urban Communities and Neighbourhoods Case Study: East Scarborough

CITC02H3 Placements in Community Development

CITC03H3 Housing Policy and Planning

CITC04H3 Current Municipal and Planning Policy and Practice in Toronto

CITC07H3 Urban Social Policy

CITC08H3 Cities and Community Development

CITC09H3 Introduction to Planning History: Toronto and Its Region

CITC10H3 Selected Issues in City Studies

CITC12H3 City Structures, Problems, and Decisions: Field Research in Urban Policy Making

CITC14H3 Environmental Planning

CITC15H3 Money Matters: How Municipal Finance Shapes the City

CITC16H3 Planning and Governing the Metropolis

CITC17H3 Civic Engagement in Municipal Politics

CITC18H3 Urban Transportation Policy Analysis

CITD01H3 City Issues and Strategies

CITD05H3 City Studies Workshop I

CITD06H3 City Studies Workshop II

CITD10H3 Seminar in Selected Issues in City Studies

CITD12H3 Planning and Building Public Spaces in Toronto

CITD30H3 Supervised Research Project

5. Approaches to Cities (at least 1.5 credits from among the following):

ANTC18H3 Urban Worlds

[EESA05H3 Environmental Hazards or EESA06H3 Introduction to Planet Earth]

EESD20H3 Geological Evolution and Environmental History of North America

GGRB02H3 The Logic of Geographic Thought

GGRB05H3 Urban Geography

GGRB13H3 Social Geography

GGRB28H3 Geographies of Disease

GGRC02H3 Population Geography

GGRC10H3 Urbanization and Development

GGRC11H3 Current Topics in Urban Geography

GGRC12H3 Transportation Geography

GGRC13H3 Urban Political Geography

GGRC27H3 Location and Spatial Development

MAJOR (CO-OPERATIVE) PROGRAM IN CITY STUDIES (ARTS) - SCMAJCITC

Program Advisor: cit-advisor@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in City Studies is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to City Studies upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits plus a cumulative GPA of at least 2.50.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:**Credits:** 4.0 credits**Required Courses:** Program-specific courses described in the Enrolment Requirements above**Cumulative GPA:** 2.50 across all attempted courses**Academic Program Requirements**

Students must complete the program requirements as described in the Major in City Studies.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MINOR PROGRAM IN CITY STUDIES (ARTS) - SCMIN1810

Students taking the Minor Program in City Studies should consider selecting most of their Applications program requirements from one area of focus: City Building, Community Development, or City Governance.

Program Requirements

The program requires the completion of 4.0 credits as follows:

1. Foundations (1.0 credit):

[CITA01H3](#)/([CITB02H3](#)) Foundations of City Studies

[CITA02H3](#) Studying Cities

2. Core Courses (1.5 credits from the following):

[GGRB05H3](#) Urban Geography

[CITB01H3](#) Canadian Cities and Planning

[CITB03H3](#) Social Planning and Community Development

[CITB04H3](#) City Politics

[CITB07H3](#) Introduction to Global Urbanisms

[CITB08H3](#) Economy of Cities

3. Applications (1.5 credits at the C- or D-level, from the following):

[CITC01H3](#) Urban Communities and Neighbourhoods Case Study: East Scarborough

[CITC02H3](#) Placements in Community Development

[CITC03H3](#) Housing Policy and Planning

[CITC04H3](#) Current Municipal and Planning Policy and Practice in Toronto

[CITC07H3](#) Urban Social Policy

[CITC08H3](#) Cities and Community Development

[CITC09H3](#) Introduction to Planning History: Toronto and Its Region

[CITC10H3](#) Selected Issues in City Studies

[CITC12H3](#) City Structures, Problems, and Decisions: Field Research in Urban Policy Making

[CITC14H3](#) Environmental Planning

[CITC15H3](#) Money Matters: How Municipal Finance Shapes the City

[CITC16H3](#) Planning and Governing the Metropolis

[CITC17H3](#) Civic Engagement in Urban Politics

[CITC18H3](#) Urban Transportation Policy Analysis

[CITD01H3](#) City Issues and Strategies

[CITD10H3](#) Seminar in Selected Issues in City Studies

[CITD12H3](#) Planning and Building Public Spaces in Toronto

[GGRC10H3](#) Urbanization and Development

[GGRC11H3](#) Current Topics in Urban Geography

[GGRC12H3](#) Transportation Geography

[GGRC13H3](#) Urban Political Geography

[GGRC27H3](#) Location and Spatial Development

[GGRC33H3](#) The Toronto Region

[GGRC40H3](#) Megacities and Global Urbanization

[GGRC43H3](#) Social Geographies of Street Food

[GGRC48H3](#) Geographies of Urban Poverty

[GGRC50H3](#) Geographies of Education

[GGRD14H3](#) Social Justice and the City

City Studies Courses

CITA01H3 - Foundations of City Studies

A review of the major characteristics and interpretations of cities, urban processes and urban change as a foundation for the Program in City Studies. Ideas from disciplines including Anthropology, Economics, Geography, Planning, Political Science and Sociology, are examined as ways of understanding cities.

Exclusion: CITB02H3

Breadth Requirements: Social and Behavioural Sciences

CITA02H3 - Studying Cities

An introduction to the philosophical foundations of research, major paradigms, and methodological approaches relevant to Programs in City Studies. This course is designed to increase awareness and understanding of academic work and culture, enhance general and discipline-specific academic literacy, and create practical opportunities for skills development to equip students for academic success in City Studies.

Breadth Requirements: Social and Behavioural Sciences

CITB01H3 - Canadian Cities and Planning

After critically examining the history of urban planning in Canada, this course explores contemporary planning challenges and engages with planning's 'progressive potential' to address social justice issues and spatialized inequality through an examination of possible planning solutions.

Prerequisite: [CITA01H3 and CITA02H3] or [CITA01H3 and CITA02H3 as co-requisites with permission]

Exclusion: (GGRB06H3)

Breadth Requirements: Social and Behavioural Sciences

CITB03H3 - Social Planning and Community Development

This course provides an overview of the history, theory, and politics of community development and social planning as an important dimension of contemporary urban development and change.

Prerequisite: [CITA01H3 and CITA02H3] or [CITA01H3 and CITA02H3 as co-requisites with permission]

Breadth Requirements: Social and Behavioural Sciences

CITB04H3 - City Politics

This course is the foundations course for the city governance concentration in the City Studies program, and provides an introduction to the study of urban politics with particular emphasis on different theoretical and methodological approaches to understanding urban decision-making, power, and conflict.

Prerequisite: [CITA01H3 and CITA02H3] or [CITA01H3 and CITA02H3 as co-requisites with permission] or [any 4.0 credits and enrolment in Minor Program in Urban Public Policy and Governance] or [any 4.0 credits and enrolment in Major Program in Public Policy]

Breadth Requirements: Social and Behavioural Sciences

CITB05H3 - Researching the City: An Introduction to Methods

This course introduces quantitative and qualitative methods in city studies. Students will engage in observation and interviews; descriptive data analysis and visualization; surveys and sampling; and document analysis.

Prerequisite: CITA01H3 and CITA02H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in Specialist, Major, Major (Co-op) and Minor Programs in City Studies.

CITB07H3 - Introduction to Global Urbanisms

This introductory course will encourage students to exercise their relational and comparative imagination to understand how the urban issues and challenges they experience in Scarborough and Toronto are interconnected with people, ideas and resources in other parts of the world. Students will examine the complexities of urbanization processes across different regions in the world, including themes such as globalization, urban governance, sustainability, climate change, equity and inclusion. Through interactive lectures, collaborative work and reflective assignments, students will learn to apply comparative and place-based interventions for fostering inclusive, equitable, and sustainable urban futures.

Prerequisite: CITA01H3 and CITA02H3

Breadth Requirements: Social and Behavioural Sciences

CITB08H3 - Economy of Cities

An introduction to economic analysis of cities, topics include: theories of urban economic growth; the economics of land use, urban structure, and zoning; the

economics of environments, transportation, and sustainability; public finance, cost-benefit analysis, the provision of municipal goods and services, and the new institutional economics.

Prerequisite: [CITA01H3 and CITA02H3] or [CITA01H3 and CITA02H3 as co-requisites with permission]

Breadth Requirements: Social and Behavioural Sciences

CITC01H3 - Urban Communities and Neighbourhoods Case Study: East Scarborough

This course engages students in a case study of some of the issues facing urban communities and neighbourhoods today. Students will develop both community-based and academic research skills by conducting research projects in co-operation with local residents and businesses, non-profit organizations, and government actors and agencies.

Prerequisite: 8.0 credits, including at least 1.5 credits at the B-level from City Studies, Geography, Political Science or Sociology.

Recommended Preparation: CITC08H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

Note: Priority enrolment is given students registered in the City Studies programs. Students from other programs may request admission through the Program Advisor at cit-advisor@utsc.utoronto.ca

CITC02H3 - Placements in Community Development

With a focus on building knowledge and skills in community development, civic engagement, and community action, students will 'learn by doing' through weekly community-based placements with community organizations in East Scarborough and participatory discussion and written reflections during class time. The course will explore topics such as community-engaged learning, social justice, equity and inclusion in communities, praxis epistemology, community development theory and practice, and community-based planning and organizing. Students will be expected to dedicate 3-4 hours per week to their placement time in addition to the weekly class time. Community-based placements will be organized and allocated by the course instructor.

Prerequisite: At least 1.5 credits at the B-level in CIT courses

Recommended Preparation: CITC01H3 and CITC08H3

Course Experience: Partnership-Based Experience

Note: Priority enrolment is given students registered in the City Studies programs, students from other programs may request admission through the Program Advisor at cit-advisor@utsc.utoronto.ca

CITC03H3 - Housing Policy and Planning

This course examines how planning and housing policies help shape the housing affordability landscape in North American cities. The course will introduce students to housing concepts, housing issues, and the role planning has played in (re)producing racialized geographies and housing inequality (e.g., historical and contemporary forms of racial and exclusionary zoning). We will also explore planning's potential to address housing affordability issues.

Prerequisite: 8.0 credits including at least 1.5 credits at the B-level from Anthropology, City Studies, Health Studies, Human Geography, Political Science, or Sociology

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in Specialist, Major and Minor Programs in City Studies and Human Geography; and Minor in Urban Public Policy and Governance. Additional students will be admitted as space permits.

CITC04H3 - Current Municipal and Planning Policy and Practice in Toronto

Constitutional authority, municipal corporations, official plans, zoning bylaws, land subdivision and consents, development control, deed restrictions and common interest developments, Ontario Municipal Board.

Prerequisite: 8.0 credits including at least 1.5 credits at the B-level from City Studies, Human Geography, Political Science, or Sociology.

Breadth Requirements: Social and Behavioural Sciences

CITC07H3 - Urban Social Policy

In recent years social policy has been rediscovered as a key component of urban governance. This course examines the last half-century of evolving approaches to social policy and urban inequality, with particular emphasis on the Canadian urban experience. Major issues examined are poverty, social exclusion, labour market changes, housing, immigration and settlement.

Prerequisite: 8.0 credits including at least 1.5 credits at the B-level from City Studies, Human Geography, Political Science, or Sociology

Exclusion: CITC10H3 if taken in the 2011 Winter session

Breadth Requirements: Social and Behavioural Sciences

CITC08H3 - Cities and Community Development

An examination of community development as the practice of citizens and community organizations to empower individuals and groups to improve the social and economic wellbeing of their communities and neighbourhoods. The course will consider different approaches to community development and critically discuss their potential for positive urban social change.

Prerequisite: 8.0 credits including at least 1.5 credits at the B-level from City Studies, Human Geography, Political Science, or Sociology.

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

Note: Priority enrolment is given students registered in the City Studies programs. Students from other programs may request admission through the Program Advisor at cit-advisor@utsc.utoronto.ca

CITC09H3 - Introduction to Planning History: Toronto and Its Region

An introduction to the study of the history of urban planning with particular emphasis on the investigation of the planning ideas, and the plans, that have shaped Toronto and its surrounding region through the twentieth century. The course will consider international developments in planning thought together with their application to Toronto and region.

Prerequisite: 8.0 credits including at least 1.5 credits at the B-level from City Studies, Human Geography, Political Science, or Sociology

Breadth Requirements: Social and Behavioural Sciences

CITC10H3 - Selected Issues in City Studies

Examination of one or more current issues in cities. The specific issues will vary depending on the instructor.

Prerequisite: 8.0 credits including at least 1.5 credits at the B-level from City Studies, Human Geography, Political Science, or Sociology

Breadth Requirements: Social and Behavioural Sciences

CITC12H3 - City Structures, Problems, and Decisions: Field Research in Urban Policy Making

Local governments are constantly making policy decisions that shape the lives of residents and the futures of cities. This course focuses on how these decisions get made,

who has power to make them, and their impact on urban citizens. We will address how challenges in cities are understood by city council, staff, and the public, and how certain “policy solutions” win out over others. In the process, we will draw from both classical and contemporary theories of local government as well as the latest research on urban policy making. We will also be learning field research methods to study policy making as it happens on the ground in cities.

Prerequisite: 8.0 credits including: [CITB04H3](#) and at least 1.0 other credits at the B-level from City Studies, Human Geography, Economics for Management Studies, Management, Political Science, or Sociology.

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

CITC14H3 - Environmental Planning

This course introduces students to questions of urban ecology and environmental planning, and examines how sustainability and environmental concerns can be integrated into urban planning processes and practices.

Prerequisite: 8.0 credits, including at least 1.5 credits at the B-level from City Studies, Human Geography, Environmental Studies, Political Science, or Sociology

Breadth Requirements: Social and Behavioural Sciences

CITC15H3 - Money Matters: How Municipal Finance Shapes the City

This course examines the role of municipal finance in shaping all aspects of urban life. Putting Canada into a comparative perspective, we look at how local governments provide for their citizens within a modern market economy and across different societies and time periods. The course also explores the relationship between municipal finance and various social problems, including movements for racial justice and the ongoing housing crisis.

Prerequisite: 8.0 credits, including at least 1.5 credits at the B-level from City Studies, Human Geography, Economics for Management Studies, Management, Political Science, or Sociology

Breadth Requirements: Social and Behavioural Sciences

CITC16H3 - Planning and Governing the Metropolis

Most of the world's population now lives in large urban regions. How such metropolitan areas should be planned and governed has been debated for over a century. Using examples, this course surveys and critically evaluates leading historical and contemporary perspectives on metropolitan planning and governance, and highlights the

institutional and political challenges to regional coordination and policy development.

Prerequisite: 8.0 credits, including at least 1.0 credits at the B-level from City Studies, Human Geography, Management, Political Science, or Sociology

Recommended Preparation:

Breadth Requirements: Social and Behavioural Sciences

CITC17H3 - Civic Engagement in Urban Politics

This course examines the engagement of citizen groups, neighbourhood associations, urban social movements, and other non-state actors in urban politics, planning, and governance. The course will discuss the contested and selective insertion of certain groups into city-regional decision-making processes and structures.

Prerequisite: 8.0 credits, including at least 1.5 credits at the B-level from City Studies, Human Geography, Political Science, or Sociology

Breadth Requirements: Social and Behavioural Sciences

CITC18H3 - Urban Transportation Policy Analysis

Demand forecasting; methodology of policy analysis; impacts on land values, urban form and commuting; congestion; transit management; regulation and deregulation; environmental impacts and safety.

Prerequisite: [STAB22H3 or equivalent] and [8.0 credits, including at least 1.5 credits at the B-level from City Studies, Human Geography, Economics for Management Studies, Management, or Political Science]

Exclusion: GGR324H and (GGRC18H3)

Breadth Requirements: Social and Behavioural Sciences

CITC54H3 - City Studies Field Trip Course

A central focus of city studies is the attempt to understand the diversity of cities and urbanization processes globally. This course provides an opportunity to engage in field research work on a common research topic in a city outside Toronto. Students will prepare case study questions; engage in data collection including interviews, archives, and observation; networking; and case analysis in a final report.

Prerequisite: CITB05H3

Exclusion: GGRC54H3

Recommended Preparation: CITB07H3

Breadth Requirements: Social and Behavioural

Sciences

Course Experience: Partnership-Based Experience

CITD01H3 - City Issues and Strategies

This course is designed as a culminating City Studies course in which participants are able to showcase the application of their research skills, and share their professional and disciplinary interests in a common case study. Lectures and guests will introduce conceptual frameworks, core questions and conflicts. Students will be expected to actively participate in discussions and debates, and produce shared research resources. Each student will prepare a substantial research paper as a final project.

Prerequisite: 15.0 credits; including 1.5 credits from [CITB01H3 or CITB03H3 or CITB04H3 or CITB07H3 or CITB08H3] and [CITB05H3 or STAB23H3 (or equivalent)] and 0.5 credits from [GGRA30H3 or GGRB30H3 or GGRC31H3 or GGRC42H3]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

CITD05H3 - City Studies Workshop I

City Studies Workshop I provides training in a range of career-oriented research, consulting, and professional skills. Through a series of 4-week modules, students will develop professional practice oriented skills, such as conducting public consultations, participating in design charrettes, making public presentations, writing policy briefing notes, conducting stakeholder interviews, working with community partner organizations, organizing and running public debates, and participant observation of council meetings and policy processes at Toronto City Hall.

Prerequisite: 15.0 credits; including 1.5 credits from [CITB01H3 or CITB03H3 or CITB04H3 or CITB07H3 or CITB08H3] and [CITB05H3 or STAB23H3 (or equivalent)] and 0.5 credits from [GGRA30H3 or GGRB30H3 or GGRC31H3 or GGRC42H3]

Exclusion: (CITC05H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: This course is designed for students in Years 3 and 4 of their programs. Priority will be given to students enrolled in the Specialist and Major/Major Co-op programs in City Studies.

CITD06H3 - City Studies Workshop II

City Studies Workshop II provides training in a range of career-oriented research, consulting, and professional skills. Through a series of 4-week modules, students will develop professional practice oriented skills, such as conducting public consultations, participating in design charrettes, making public presentations, writing policy

briefing notes, conducting stakeholder interviews, working with community partner organizations, organizing and running public debates, and participant observation of council meetings and policy processes at Toronto City Hall.

Prerequisite: 15.0 credits; including 1.5 credits from [CITB01H3 or CITB03H3 or CITB04H3 or CITB07H3 or CITB08H3] and [CITB05H3 or STAB23H3 (or equivalent)] and 0.5 credits from [GGRA30H3 or GGRB30H3 or GGRC31H3 or GGRC42H3]

Exclusion: (CITC06H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: This course is designed for students in Years 3 and 4 of their program of study. Priority will be given to students enrolled in the Specialist and Major/Major Co-op programs in City Studies.

CITD10H3 - Seminar in Selected Issues in City Studies

Designed primarily for final-year City Studies Majors, this research seminar is devoted to the analysis and discussion of current debates and affairs in City Studies using a variety of theoretical and methodological approaches. Specific content will vary from year to year. Seminar format with active student participation.

Prerequisite: 15.0 credits; including 1.5 credits from [CITB01H3 or CITB03H3 or CITB04H3 or CITB07H3 or CITB08H3] and [CITB05H3 or STAB23H3 (or equivalent)] and 0.5 credits from [GGRA30H3 or GGRB30H3 or GGRC31H3 or GGRC42H3]

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Major/Major Co-op programs in City Studies. Additional students will be admitted as space permits.

CITD12H3 - Planning and Building Public Spaces in Toronto

This course is designed to develop career-related skills such as policy-oriented research analysis, report writing, and presentation and networking skills through experiential learning approaches. The policy focus each year will be on a major current Toronto planning policy issue, from 'Complete Streets' to improvements to parks and public space infrastructure, to public transit-related investments. Students work closely in the course with planners and policymakers from the City of Toronto, policy advocates, and community organizers.

Prerequisite: 15.0 credits; including 1.5 credits from [CITB01H3 or CITB03H3 or CITB04H3 or CITB07H3 or CITB08H3] and [CITB05H3 or STAB23H3 (or equivalent)] and 0.5 credits from [GGRA30H3 or GGRB30H3 or GGRC31H3 or GGRC42H3]

Exclusion: CITD10H3 (if taken in the 2018 Fall Session

and 2020 Winter session)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

CITD30H3 - Supervised Research Project

An independent studies course open only to students in the Major and Major Co-op programs in City Studies. An independent studies project will be carried out under the supervision of an individual faculty member.

Prerequisite: 15.0 credits; including 1.5 credits from [CITB01H3 or CITB03H3 or CITB04H3 or CITB07H3 or CITB08H3] and [CITB05H3 or STAB23H3 (or equivalent)] and 0.5 credits from [GGRA30H3 or GGRB30H3 or GGRC31H3 or GGRC42H3], and a cumulative GPA of at least 2.5

Breadth Requirements: Social and Behavioural Sciences

Classical Studies

Faculty List

- K. Blouin, M.A., Ph.D. (Laval and Nice), Associate Professor
- S. Dost, M.A., Ph.D. (Chicago), Assistant Professor

Undergraduate Advisor Email: classics-undergrad-advisor@utsc.utoronto.ca
For more information, [visit the Department of Historical and Cultural Studies website](#).

Classical Studies is a pluridisciplinary field dedicated to the study of the Ancient Greek and Roman worlds. It involves disciplines such as history, literature, religion, languages and linguistics, art history, archaeology, and philosophy and pertains to the study of wide areas of Europe, North Africa and Asia over several millennia (ca. 2000 B.C.-700 A.D.).

The expression "classical" is commonly used to designate the areas and periods populated or dominated by the Greeks and Romans. Yet it was also a complex, heterogeneous, permeable, mixed and constantly evolving world in which the Greeks and the Romans have always been intertwined with other peoples and cultures. Classical Studies at UTSC offers students both a thorough examination of the main features of the Greek and Roman civilizations and a substantial introduction to the other peoples and cultures which were part of or interacted with it. In all courses, the ancient written sources are studied in translation.

Guidelines for First-year Course Selection

Students who intend to complete the Minor program in Classics should include [CLAA04H3](#) and [CLAA06H3](#) in their first-year course selection.

For updates and detailed information regarding Classical Studies please visit the [Department of Historical and Cultural Studies website](#).

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Classical Studies Programs

MINOR PROGRAM IN CLASSICAL STUDIES (ARTS) - SCMIN2049

Undergraduate Coordinator: (416) 287-7184 Email: hcs.advising.utsc@utoronto.ca

Program Requirements

Students must complete 4.0 credits, as follows:

1. Introduction

[CLAA04H3/HISA07H3](#) The Ancient Mediterranean World

Note: Students who have completed both ([CLAA02H3](#)) and ([CLAA03H3](#)) may substitute one of the courses for [CLAA04H3](#).

2. History and Culture

[CLAB05H3/HISB10H3](#) History and Culture of the Greek World

[CLAB06H3/HISB11H3](#) History and Culture of the Roman World

3. Mythology and Religion

[CLAA06H3](#) Ancient Mythology II: Greece and Rome

Note: Students who were enrolled at UTSC prior to the 2009 Summer Session may substitute one of ([CLAA02H3](#)) or ([CLAA03H3](#)) for [CLAA06H3](#).

4. Literature (0.5 credit from the following courses)

[CLAC11H3](#) Classical Literature I: Poetry

[CLAC12H3](#) Classical Literature II: Prose

5. Electives (1.5 credits from the following courses, including at least 1.0 credit at the C or D-level; before choosing their electives, students need to take at least 1.0 credit at the A-level, 1.0 credit at the B-level, and 0.5 credit at the C-level):

Classical Studies

[CLAA05H3](#) Ancient Mythology I: Mesopotamia and Egypt

([CLAB10H3](#)) Greek and Latin for Scientists

[CLAB09H3/HISB09H3](#) Between Two Empires: The World of Late Antiquity

[CLAB20H3/HISB12H3](#) The Ancient World in Film

[CLAC01H3](#) Selected Topics in Classical Literature

[CLAC02H3](#) Selected Topics in Classical Civilization

[CLAC05H3/HISC10H3](#) Beyond Cleopatra: Decolonial Approaches to Ancient Egypt

[CLAC11H3](#) Classical Literature I: Poetry if not taken as a required course

[CLAC12H3](#) Classical Literature II: Prose if not taken as a required course

[CLAC22H3](#) Religions of the Ancient Mediterranean

[CLAC24H3/HISC11H3](#) Race and Ethnicity in the Ancient Mediterranean and West Asian Worlds

[CLAC26H3/HISC16H3](#) Indigeneity and the Classics

[CLAC67H3](#) [HISC67H3](#) Early Islam: Perspectives on the Construction of a Historical Tradition

[CLAC68H3/HISC68H3/ANTC58H3](#) Constructing the Other: Orientalism through Time and Place

[CLAC94H3/HISC94H3](#) The Bible and the Qur'an

[CLAD05H3/HISD10H3](#) Dripping Histories: Water in the Ancient Mediterranean and West Asian Worlds

[CLAD69H3](#) [HISD69H3](#) Sufis and Desert Fathers: Mysticism in Late Antiquity and Early Islam

[HCSB04H3](#) Research Practicum in Historical and Cultural Studies

Classical Studies Courses

CLAA04H3 - The Ancient Mediterranean World

An introduction to the main features of the ancient civilizations of the Mediterranean world from the development of agriculture to the spread of Islam. Long term socio-economic and cultural continuities and ruptures will be underlined, while a certain attention will be dedicated to evidences and disciplinary issues. Same as [HISA07H3](#)

Exclusion: [HISA07H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

CLAA05H3 - Ancient Mythology I: Mesopotamia and Egypt

A study of Mesopotamian and Egyptian mythologies. Special attention will be dedicated to the sources through which these representational patterns are documented and to their influence on Mediterranean civilizations and arts.

Exclusion: [CLAA05H3](#) may not be taken after or concurrently with NMC380Y

Breadth Requirements: History, Philosophy and Cultural Studies

CLAA06H3 - Ancient Mythology II: Greece and Rome

A study of Greek and Roman mythologies. Special attention will be dedicated to the sources through which these representational patterns are documented and to their influence on Mediterranean civilizations and arts.

Exclusion: [CLA204H](#), ([CLAA02H3](#)), ([CLAA03H3](#))

Recommended Preparation: [CLAA05H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

CLAB05H3 - History and Culture of the Greek World

A survey of the history and culture of the Greek world from the Minoan period to the Roman conquest of Egypt (ca

1500-30 BC). Special attention will be dedicated to the nature, variety and limits of the available evidences, to socio-cultural interactions as well as to historical

processes of continuities and ruptures. Same as [HISB10H3](#)

Exclusion: [CLA230H](#), [HISB10H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

CLAB06H3 - History and Culture of the Roman World

A survey of the history and culture of the ancient Roman world, from the Etruscan period to the Justinian dynasty (ca 800 BC-600 AD). Special attention will be dedicated to the nature, variety and limits of the available evidences, to socio-cultural interactions as well as to historical processes of continuities and ruptures.

Same as [HISB11H3](#)

Exclusion: [CLA231H](#), [HISB11H3](#)

Recommended Preparation: [CLAB05H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

CLAB09H3 - Between Two Empires: The World of Late Antiquity

A course to introduce students of history and classical studies to the world of late antiquity, the period that bridged classical antiquity and the Middle Ages. This course studies the period for its own merit as a time when the political structures of the Medieval period were laid down and the major religions of the Mediterranean (Judaism, Christianity, Islam, Zoroastrianism) took their recognizable forms.

Same as [HISB09H3](#)

Exclusion: [HISB09H3](#)

Recommended Preparation: [CLAA04H3](#)/[HISA07H3](#) The Ancient Mediterranean

Breadth Requirements: History, Philosophy and Cultural Studies

CLAB20H3 - The Ancient World in Film

The representation of the classical world and historical events in film. How the Greek and Roman world is reconstructed by filmmakers, their use of spectacle, costume and furnishings, and the influence of archaeology on their portrayals. Films will be studied critically for historical accuracy and faithfulness to classical sources. Same as [HISB12H3](#)

Exclusion: [HISB12H3](#), [CLA388H](#)

Recommended Preparation: [CLAA05H3](#) or [CLAA06H3](#) or ([CLAA02H3](#)) or ([CLAA03H3](#))

Breadth Requirements: History, Philosophy and Cultural Studies

CLAC01H3 - Selected Topics in Classical Literature

A detailed study of an author or a genre in Classical Literature in Translation. Topics will vary from session to session and will alternate between Greek and Roman Epic, Greek and Roman Tragedy and Greek and Roman Comedy.

Prerequisite: One full credit in Classics or in English or another literature

Exclusion: CLA300H

Breadth Requirements: Arts, Literature and Language

CLAC02H3 - Selected Topics in Classical Civilization

A detailed study of a theme in Classical Civilization. Topics will vary from session to session and may be drawn from such areas as the archaeological history of the Roman world, Greek and Roman religion, ancient education or Roman law.

Prerequisite: One full credit in Classics or History

Breadth Requirements: History, Philosophy and Cultural Studies

CLAC05H3 - Beyond Cleopatra: Decolonial Approaches to Ancient Egypt

This course focuses on the History of ancient Egypt, with a focus on the Hellenistic to early Arab periods (4th c. BCE to 7th c. CE). Lectures will emphasize the key role played by Egypt's diverse environments in the shaping of its socio-cultural and economic features as well as in the policies adopted by ruling authorities. Elements of continuity and change will be emphasized and a variety of primary sources and sites will be discussed. Special attention will also be dedicated to the role played by imperialism, Orientalism, and modern identity politics in the emergence and trajectory of the fields of Graeco-Roman Egyptian history, archaeology, and papyrology. Same as (IEEC52H3), [HISC10H3](#).

Prerequisite: 2.0 credits in CLA or HIS courses, including 1.0 credit from the following: [CLAA04H3/HISA07H3](#) or [CLAB05H3/HISB10H3](#) or [CLAB06H3/HISB11H3](#)

Exclusion: [HISC10H3](#), (IEEC52H3)

Breadth Requirements: History, Philosophy and Cultural Studies

CLAC11H3 - Classical Literature I: Poetry

An examination of the main genres, authors and works of ancient Greek and Latin poetry, with particular emphasis on epic, drama and lyrics. Attention will be dedicated to

the study of how these works reflect the socio-cultural features of Classical Antiquity and influenced later literatures. Texts will be studied in translation.

Prerequisite: One full credit in Classics or English

Recommended Preparation: [CLAA06H3](#)

Breadth Requirements: Arts, Literature and Language

CLAC12H3 - Classical Literature II: Prose

An examination of the main genres, authors and works of ancient Greek and Latin prose. History, rhetoric, biography, letters and the novel will be studied. Attention will be dedicated to the study of how these works reflect the socio-cultural features of Classical Antiquity and influenced later literatures. Texts will be studied in translation.

Prerequisite: One full credit in Classics or English

Recommended Preparation: [CLAA06H3](#) and [CLAC11H3](#)

Breadth Requirements: Arts, Literature and Language

CLAC22H3 - Religions of the Ancient Mediterranean

A comparative study of the Mesopotamian, Egyptian, Phoenician and Punic, Celtic, Palmyrene, Persian, Greco-Roman and Judeo-Christian religious beliefs and practices. Special attention will be dedicated to how they document the societies and cultures in which they flourished.

Prerequisite: One full credit in Classics or Religion

Exclusion: CLA366H, NMC380Y

Recommended Preparation: [CLAA05H3](#) and [CLAA06H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

CLAC24H3 - Race and Ethnicity in the Ancient Mediterranean and West Asian Worlds

A critical examination of multiculturalism and cultural identities in the Greek and Roman worlds. Special attention will be dedicated to the evidences through which these issues are documented and to their fundamental influence on the formation and evolution of ancient Mediterranean and West Asian societies and cultures. Same as [HISC11H3](#)

Prerequisite: 1.0 credit in CLA or HIS courses.

Exclusion: [HISC11H3](#)

Recommended Preparation: [CLAB05H3](#) and [CLAB06H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

CLAC26H3 - Indigeneity and the Classics

This course will explore the representations and realities of Indigeneity in the ancient Mediterranean world, as well as the entanglements between modern settler-colonialism, historiography, and reception of the 'Classical' past. Throughout the term, we will be drawn to (un)learn, think, write, and talk about a series of topics, each of which pertains in different ways to a set of overarching questions: What can Classicists learn from ancient and modern indigenous ways of knowing? What does it mean to be a Classicist in Tkaronto, on the land many Indigenous Peoples call Turtle Island? What does it mean to be a Classicist in Toronto, Ontario, Canada? What does it mean to be a Classicist in a settler colony? How did the Classics inform settler colonialism? How does modern settler colonialism inform our reconstruction of ancient indigeneities? How does our relationship to the land we come from and are currently on play a role in the way we think about the ancient Mediterranean world? Why is that so? How did societies of the ancient Mediterranean conceive of indigeneity? How did those relationships manifest themselves at a local, communal, and State levels?

Same as [HISC16H3](#)

Prerequisite: Any 4.0 credits, including 1.0 credit in CLA or HIS courses

Exclusion: [HISC16H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

CLAC67H3 - Early Islam: Perspectives on the Construction of a Historical Tradition

This course examines the history and historiography of the formative period of Islam and the life and legacy of Muḥammad, Islam's founder. Central themes explored include the Late Antique context of the Middle East, pre-Islamic Arabia and its religions, the Qur'ān and its textual history, the construction of biographical accounts of Muḥammad, debates about the historicity of reports from Muḥammad, and the evolving identity and historical conception of the early Muslim community.

Same as [HISC67H3](#)

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses

Exclusion: [HISC67H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

CLAC68H3 - Constructing the Other: Orientalism through Time and Place

This course reflects on the concept of *Orientalism* and how it informs the fields of Classical Studies and Anthropology. Topics to be discussed include the Orientalization of the past and the origin, role, and significance of ancient representations of the "Other" in contemporary discourses.

Same as [ANTC58H3](#) and [HISC68H3](#)

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in ANT, HIS or CLA courses

Exclusion: [ANTC58H3](#), [HISC68H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

CLAC94H3 - The Bible and the Qur'an

The Qur'an retells many narratives of the Hebrew Bible and the New Testament. This course compares the Qur'anic renditions with those of the earlier scriptures, focusing on the unique features of the Qur'anic versions. It will also introduce the students to the history of ancient and late antique textual production, transmission of texts and religious contact. The course will also delve into the historical context in which these texts were produced and commented upon in later generations.

Same as [HISC94H3](#)

Prerequisite: Any 4.0 credits, including [[1.0 credit in Classical Studies or History] or [WSTC13H3](#)]

Exclusion: [HISC94H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

CLAD05H3 - Dripping Histories: Water in the Ancient Mediterranean and West Asian Worlds

This seminar type course addresses issues related to the relationships between ancient Mediterranean and West Asian societies and their hydric environments from 5000 BC to 600 AD.

Same as [HISD10H3](#)

Prerequisite: Any 11.0 credits including 2.0 credits in CLA or HIS courses.

Exclusion: [HISD10H3](#)

Recommended Preparation: [CLAB05H3](#) and [CLAB06H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

CLAD69H3 - Sufis and Desert Fathers: Mysticism in Late Antiquity and Early Islam

This course is an introduction to mystical/ascetic beliefs and practices in late antiquity and early Islam. Often taken as an offshoot of or alternative to “orthodox” representations of Christianity and Islam, mysticism provides a unique look into the ways in which these religions were experienced by its adherents on a more popular, often non-scholarly, “unorthodox” basis throughout centuries. In this class we will examine mysticism in late antiquity and early Islam through the literature, arts, music, and dance that it inspired.

The first half of the term will be devoted to the historical study of mysticism, its origins, its most well-known early practitioners, and the phases of its institutionalization in early Christianity and early Islam; the second part will look into the beliefs and practices of mystics, the literature they produced, the popular expressions of religion they generated, and their effects in the modern world. This study of mysticism will also provide a window for contemporary students of religion to examine the devotional practices of unprivileged members of the late antiquity religious communities, women and slaves in particular.

Same as HISD69H3.

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in CLA or HIS courses] and [0.5 credit at the C-level in CLA or HIS courses]

Exclusion: HISD69H3

Recommended Preparation: CLAB06H3/HISB11H3, CLAB09H3/HISB09H3

Breadth Requirements: Arts, Literature and Language

Climate Change Studies

Faculty List

- G.B. Arhonditsis, B.Sc., M.Sc. (Agricultural Univ. of Athens, Greece), Ph.D. (Univ. of the Aegean, Greece), Professor
- N. Klenk, Ph.D. (British Columbia), Associate Professor
- J.I. MacLellan, R.P.F. (New Brunswick), B.A., B.Sc., M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- A. Martin, B.A.(Hon.), M.F.C., Ph.D. (Toronto), Assistant Professor
- C. Mitchell, B.Sc. (McMaster), M.Sc., Ph.D. (Toronto), Professor
- T. Mohsin, B.Sc. (Dhaka), M.Sc. (Dhaka), M.E.S. (Newcastle), Ph.D. (Toronto), Associate Professor, Teaching Stream
- K. Smith, B.Sc. (Queen's), M.Sc. (California Institute of Technology), Ph.D. (Toronto), Associate Professor, Teaching Stream
- L. Tozer, B.Sc., (Guelph), M.A, Ph.D. (Toronto), Assistant Professor
- D. Weaver, B.Sc., B.Ed., M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream

For an updated list of Program Supervisors, please visit the [Environmental Studies website](#).

For more information, [visit the Department of Physical and Environmental Sciences website](#).

Climate change is a profound challenge for society. The Major in Climate Change Studies prepares students to understand and address the social, economic, political, and ecological aspects of climate change by providing them with a strong foundation in the human dimensions of climate change (e.g., policy responses, social justice concerns, and cultural change), as well as an introduction to the physical science basis of climate change (e.g., global ecological systems and the science of climate change).

Students complete courses in interdisciplinary environmental studies and environmental sciences, as well as courses in politics and social sciences. Through the selection of elective courses, students will have the opportunity to focus on aspects of the climate change challenge in accordance with their interests and career goals, including scientific, political, social and cultural aspects (e.g., politics, Indigenous studies, policy, law, development studies etc.), and/or physical science aspects of climate change (e.g., climatology, climate change impact assessment etc.). These courses also include many opportunities for experiential learning through problem-solving case studies, team-based projects, and individual research. The Major in Climate Change Studies is an excellent companion to Majors such as Anthropology, Human Geography, Political Science, Public Policy, Sociology, Chemistry, Biochemistry, Environmental Science, Biology, Biodiversity, Ecology and Evolution, Physics and Astrophysics, and Physical Sciences.

Program Combination Restrictions

The Major in Climate Change Studies cannot be combined with the Major in Environmental Studies.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Climate Change Studies Programs

MAJOR PROGRAM IN CLIMATE CHANGE STUDIES (ARTS) - SCMAJ2745

Climate change is a profound challenge for society. The Major in Climate Change Studies prepares students to understand and address the social, economic, political, and ecological aspects of climate change by providing them with a strong foundation in the human dimensions of climate change (e.g., policy responses, social justice concerns, and cultural change), as well as an introduction to the physical science basis of climate change (e.g., global ecological systems and the science of climate change).

Students complete courses in interdisciplinary environmental studies and environmental sciences, as well as courses in politics and social sciences. Through the selection of elective courses, students will have the opportunity to focus on aspects of the climate change challenge in accordance with their interests and career goals, including scientific, political, social and cultural aspects (e.g., politics, Indigenous studies, policy, law, development studies etc.), and/or physical science aspects of climate change (e.g., climatology, climate change impact assessment etc.). These courses also include many opportunities for experiential learning through problem-solving case studies, team-based projects, and individual research. The Major in Climate Change Studies is an excellent companion to Majors such as Anthropology, Human Geography, Political Science, Public Policy, Sociology, Chemistry, Biochemistry, Environmental Science, Biology, Biodiversity, Ecology and Evolution, Physics and Astrophysics, and Physical Sciences.

Program Restrictions

The Major in Climate Change Studies cannot be combined with the Major in Environmental Studies.

Program Requirements

Students must complete 8.5 credits as follows:

Foundations (2.5 credits):

EESA01H3 Introduction to Environmental Science

EESA06H3 Introduction to Planet Earth

ESTB01H3 Introduction to Environmental Studies

and 0.5 credit from:

ANTB01H3 Political Ecology*

GGRA03H3 Cities and Environments

POLA01H3 Critical Issues in Politics I

POLA02H3 Critical Issues in Politics II

POLB80H3 Introduction to International Relations I

POLB90H3 Comparative Development in International Perspective

POLB91H3 Introduction to Comparative Politics

and 0.5 credit from:

ANTA02H3 Introduction to Anthropology: Society, Culture and Language

FSTA01H3 Foods That Changed the World

FSTA02H3 Food Futures: Confronting Crises, Improving Lives

IDSA01H3 Introduction to International Development Studies

MGEA01H3 Introduction to Microeconomics

MGEA05H3 Introduction to Macroeconomics

WSTA01H3 Introduction to Women's and Gender Studies

Core Courses (1.5 credits):

ESTB04H3 Addressing the Climate Crisis

ESTB05H3 Climate Science for Everyone

and 0.5 credit from:

EESB03H3 Principles of Climatology*

EESB04H3 Principles of Hydrology

EESB18H3 Natural Hazards

ESTB02H3/ GGRB18H3 Whose Land? Indigenous-Canada-Land Relations

ESTB03H3 Back to the Land: Restoring Embodied and Affective Ways of Knowing

GGRB21H3 Political Ecology: Nature, Society and Environmental Change

IDSB02H3 Development and Environment

STAB22H3 Statistics I (or equivalent)

Applications and Skills (4.5 credits):EESTC35H3 Environmental Science and Technology in SocietyEESTC36H3 Knowledge, Ethics and Environmental Decision-MakingEESTC37H3 Energy and SustainabilityEESTD17Y3/ EESTD17Y3 Cohort Capstone Course in Environmental StudiesEESTD19H3 Risk

and 1.0 credit from:

EESTC40H3 Technical Methods for Climate Change MitigationEESTD16H3/ EESTD16H3 Project Management in Environmental StudiesEESTD20H3 Integrated Natural Resource and Climate Change GovernanceEESTC34H3/ EESTC34H3 Sustainability in Practice

and 0.5 credit from:

ANTB36H3 Anthropology of the End of the WorldEESTC38H3/ EESTC38H3 The Anthropocene*GGRC24H3 Socio-Natures and the Cultural Politics of 'The Environment'GGRC26H3 Geographies of Environmental GovernanceGGRC28H3 Indigenous Peoples, Environment and JusticeGGRC44H3 Environmental Conservation and Sustainable DevelopmentPOLC53H3 Canadian Environmental PolicySOCC37H3 Environment and Society*EESTD06H3 Climate Change Impact Assessment*EESTD13H3 Environmental Law, Policy and EthicsPOLD89H3 Global Environmental PoliticsPSCD11H3 Communicating Science: Film, Media, Journalism, and SocietyEESTD09H3/ EESTD10Y3 Research Project in Environmental ScienceENG59H3 Literature and the Environment

*This course requires prerequisites that are not part of this program. Check all prerequisites carefully.

Climate Change Studies Courses

EESA01H3 - Introduction to Environmental Science

The scientific method and its application to natural systems. The physical and biological processes which drive ecosystem functions. Anthropogenic changes in ecosystem functions at local and global scales. Emphasis on the degradation of the atmosphere, soil, water and biological resources caused by human activity. Renewable and non-renewable resource sustainability. Laboratories will include hands-on field and lab related practical experience.

Exclusion: ENV100Y**Breadth Requirements:** Natural Sciences

EESA06H3 - Introduction to Planet Earth

This general interest course explores the composition, structure and origin of the Earth and the tectonic, chemical and biological processes that have evolved over the last 4.5 billion years. It explains how planet "works" as a

complex system. It provides a fundamental basis for understanding many of the environmental challenges faced by human societies especially natural hazards, water shortages, and climate change, and the importance of natural resources to our economy.

Exclusion: GGR100Y, GLG110H**Breadth Requirements:** Natural Sciences

EESB03H3 - Principles of Climatology

This is an overview of the physical and dynamic nature of meteorology, climatology and related aspects of oceanography. Major topics include: atmospheric composition, nature of atmospheric radiation, atmospheric moisture and cloud development, atmospheric motion including air masses, front formation and upper air circulation, weather forecasting, ocean circulation, climate classification, climate change theory and global warming.

Prerequisite: [EESA06H3 or EESA09H3] and [MATA29H3 or MATA30H3]**Exclusion:** GGR203H, GGR312H**Breadth Requirements:** Natural Sciences

EESB04H3 - Principles of Hydrology

The water and energy balances; fluxes through natural systems. Process at the drainage basin scale: precipitation, evaporation, evapotranspiration and streamflow generation. The measurement of water fluxes,

forecasting of rainfall and streamflow events. Human activity and change in hydrologic processes.

Prerequisite: EESA01H3 or EESA06H3 or any B-level EES course.

Exclusion: GGR206H

Breadth Requirements: Natural Sciences

EESB18H3 - Natural Hazards

This course is an investigation of the geological background and possible solutions to major hazards in the environment.

Environmental hazards to be studied include: landslides, erosion, earthquakes, volcanic eruptions, asteroid impacts, flooding, glaciation, future climate change, subsidence, and the disposal of toxic wastes. This may be of interest to a wide range of students in the life, social, and physical sciences; an opportunity for the non-specialist to understand headline-making geological events of topical interest. No prior knowledge of the Earth Sciences is required.

Exclusion: (EESA05H3), GLG103H

Breadth Requirements: Natural Sciences

EESC38H3 - The Anthropocene

"The Anthropocene" is a term that now frames wide-ranging scientific and cultural debates and research, surrounding how humans have fundamentally altered Earth's biotic and abiotic environment. This course explores the scientific basis of the Anthropocene, with a focus on how anthropogenic alterations to Earth's atmosphere, biosphere, cryosphere, lithosphere, and hydrosphere, have shifted Earth into a novel geological epoch. Students in this course will also discuss and debate how accepting the Anthropocene hypothesis, entails a fundamental shift in how humans view and manage the natural world.

Same as ESTC38H3

Prerequisite: ESTB01H3 and [1.0 credit from the following: EESB03H3, EESB04H3 and EESB05H3]

Exclusion: ESTC38H3

Breadth Requirements: Natural Sciences

EESD06H3 - Climate Change Impact Assessment

Climate change over the last 150 years is reviewed by examining the climate record using both direct measurements and proxy data. Projection of future climate is reviewed using the results of sophisticated climate modeling. The climate change impact assessment formalism is introduced and applied to several examples. Students will acquire practical experience in climate change impact assessment through case studies.

Prerequisite: EESB03H3

Breadth Requirements: Natural Sciences

EESD10Y3 - Research Project in Environmental Science

This course entails the design, implementation, and reporting of an independent and substantial research project, under the direct supervision of a faculty member. Research may involve laboratory, fieldwork, and/or computer-based analyses, with the final products being presented primarily as a written thesis, though other course work, such as oral presentations of student research, may also be required. All areas of environmental science research that are supported by existing faculty members are permissible. The course should be undertaken after the end of the 3rd Year, and is subject to faculty availability. Faculty permission and supervision is required.

Prerequisite: Permission of the course coordinator.

Exclusion: EESD09H3

Recommended Preparation: PSCB90H3 and EESC24H3

Course Experience: University-Based Experience

Note: Students must apply to the course coordinator for admission into this course. Applications must be received by the end of August for enrolment in the fall semester. Applications should consist of a completed 1-page application form (available from the course instructor) that includes: 1. Student name, number, academic program, and current year of study; 2. A note of intent indicating the student's wish to enrol in EESD10Y3; 3. A brief description of the projects of interest to the student; 4. A list of relevant courses successfully completed by the student, as well as any relevant courses to be taken during the concurrent session; 5. The confirmed name of the supervising professor, the date and method in which confirmation of their willingness to supervise was received (i.e., this must be determined ahead of time, through personal correspondence with a professor). Generally, only students meeting the following requirements will be admitted to EESD10Y3: 1. A Cumulative Grade Point Average of 2.5 or higher; 2. Completion of at least 12.0 full credits (see point 4 below); 3. Completion of at least 1.5 full credits of C-level environmental science courses (see point 4 below); 4. For students in the Specialist/Specialist Co-op programs in Environmental Physics, completion of Year 3 and completion of at least 1.0 C-level PHY courses. Students who do not meet these criteria, are strongly encouraged to consider enrolment in PSCB90H3 and/ or EESC24H3 as an alternative to EESD10Y3. Once the course coordinator (or designate) has approved enrolment to EESD10Y3, they will sign the course enrolment form for submission to the registrar. Note that the course coordinator (or designate) is the only one permitted to give "permission of instructor" on this form.

EESD13H3 - Environmental Law, Policy and Ethics

This course reviews the laws and policies governing the management of natural resources in Canada. It examines the role of law and how it can work most effectively with science, economics and politics to tackle environmental problems such as climate change, conservation, and urban sprawl at domestic and international scales.

Prerequisite: Students must have completed at least 15.0 credits

Exclusion: LAW239H

Recommended Preparation: [EESA10H3](#) and [EESA11H3](#) and [EESC13H3](#)

Breadth Requirements: Natural Sciences

Note: Priority will be given to students enrolled in the Specialist and Major programs in Environmental Science. Additional students will be admitted as space permits.

EESD16H3 - Project Management in Environmental Studies

Students will select a research problem in an area of special interest. Supervision will be provided by a faculty member with active research in geography, ecology, natural resource management, environmental biology, or geosciences as represented within the departments. Project implementation, project monitoring and evaluation will form the core elements for this course.

Same as [ESTD16H3](#)

Prerequisite: At least 14.5 credits

Exclusion: [ESTD16H3](#)

Breadth Requirements: Natural Sciences

EESD17Y3 - Cohort Capstone Course in Environmental Studies

This course is designed to provide a strong interdisciplinary focus on specific environmental problems including the socioeconomic context in which environmental issues are resolved. The cohort capstone course is in 2 consecutive semesters, providing final year students the opportunity to work in a team, as environmental researchers and consultants, combining knowledge and skill-sets acquired in earlier courses. Group research to local environmental problems and exposure to critical environmental policy issues will be the focal point of the course. Students will attend preliminary meetings schedules in the Fall semester.

Same as [ESTD17Y3](#)

Prerequisite: At least 14.5 credits

Exclusion: [ESTD17Y3](#)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

ESTB01H3 - Introduction to Environmental Studies

This course introduces the Environmental Studies major and the interdisciplinary study of the environment through a team-teaching format. Students will explore both physical and social science perspectives on the environment, sustainability, environmental problems and their solutions. Emphasis will be on critical thinking, problem solving, and experiential learning.

Breadth Requirements: Social and Behavioural Sciences

ESTB02H3 - Whose Land? Indigenous-Canada-Land Relations

Introduces students to the geography of Indigenous-Crown-Land relations in Canada. Beginning with pre-European contact and the historic Nation-to-Nation relationship, the course will survey major research inquiries from the Royal Commission on Aboriginal Peoples to Missing and Murdered Indigenous Women and Girls. Students will learn how ongoing land and treaty violations impact Indigenous peoples, settler society, and the land in Canada.

Same as [GGRB18H3](#)

Prerequisite: 4.0 credits, including at least 0.5 credit in ANT, CIT, EST, GGR, HLT, IDS, POL or SOC

Exclusion: [GGRB18H3](#)

ESTB03H3 - Back to the Land: Restoring Embodied and Affective Ways of Knowing

In this course students will learn about sustainability thinking, its key concepts, historical development and applications to current environmental challenges. More specifically, students will gain a better understanding of the complexity of values, knowledge, and problem framings that sustainability practice engages with through a focused interdisciplinary study of land. This is a required course for the Certificate in Sustainability, a certificate available to any student at UTSC.

Same as [VPHB69H3](#).

Exclusion: [VPHB69H3](#)

Breadth Requirements: Social and Behavioural Sciences

ESTB04H3 - Addressing the Climate Crisis

Addressing the climate crisis is a profound challenge for society. This course explores climate change and what

people are doing about it. This course emphasizes the human dimensions of the climate crisis. It introduces students to potential solutions, ethical and justice considerations, climate change policies and politics, and barriers standing in the way of effective action. With an emphasis on potential solutions, students will learn how society can eliminate greenhouse gas emissions through potential climate change mitigation actions and about adaptation actions that can help reduce the impacts of climate change on humans. This course is intended for students from all backgrounds interested in understanding the human dimensions of the climate crisis and developing their ability to explain potential solutions.

Prerequisite: Any 4.0 credits

Exclusion: GGR314H1

Breadth Requirements: Social and Behavioural Sciences

ESTB05H3 - Climate Science for Everyone

This course provides a conceptual and qualitative overview of climate science and a discussion of climate science misinformation. The course is intended to be accessible to arts and humanities students seeking to better understand and gain fluency in the physical science basis of climate change. Major topics will include the Earth's climate system, reconstruction of past climates, factors that impact the Earth's climate, climate measurements and models, and future climate change scenarios.

Prerequisite: Any 4.0 credits

Exclusion: GGR314H1, GGR377H5

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority enrollment for students in the Environmental Studies Major Program in Climate Change (Arts)

ESTC34H3 - Sustainability in Practice

This course is intended for students who would like to apply theoretical principles of environmental sustainability learned in other courses to real world problems. Students will identify a problem of interest related either to campus sustainability, a local NGO, or municipal, provincial, or federal government. Class meetings will consist of group discussions investigating key issues, potential solutions, and logistical matters to be considered for the implementation of proposed solutions. Students who choose campus issues will also have the potential to actually implement their solutions. Grades will be based on participation in class discussions, as well as a final report and presentation.

Same as [EESC34H3](#)

Prerequisite: Any 9.5 credits

Exclusion: [EESC34H3](#)

Breadth Requirements: Natural Sciences

ESTC35H3 - Environmental Science and Technology in Society

In this course students will engage critically, practically and creatively with environmental controversies and urgent environmental issues from the standpoint of the sociology of science and technology (STS). This course will contribute to a better understanding of the social and political construction of environmental science and technology.

Prerequisite: [ESTB01H3](#)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Environmental Studies Program. Additional students will be admitted as space permits.

ESTC36H3 - Knowledge, Ethics and Environmental Decision-Making

Most environmental issues have many sides including scientific, social, cultural, ethical, political, and economic. Current national, regional and local problems will be discussed in class to help students critically analyze the roots of the problems and possible approaches to decision-making in a context of pluralism and complexity.

Prerequisite: [ESTB01H3](#)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Environmental Studies Program. Additional students will be admitted as space permits.

ESTC37H3 - Energy and Sustainability

This course will address energy systems and policy, focusing on opportunities and constraints for sustainable energy transitions. The course introduces energy systems, including how energy is used in society, decarbonization pathways for energy, and the social and political challenges of transitioning to zero carbon and resilient energy systems. Drawing on real-world case studies, students will learn about energy sources, end uses, technologies, institutions, politics, policy tools and the social and ecological impacts of energy. Students will learn integrated and interdisciplinary approaches to energy systems analysis and gain skills in imagining and planning sustainable energy futures.

Prerequisite: 10.0 credits including [ESTB04H3](#)

Exclusion: ENV350H1

Breadth Requirements: Social and Behavioural Sciences

ESTC38H3 - The Anthropocene

"The Anthropocene" is a term that now frames wide-ranging scientific and cultural debates and research, surrounding how humans have fundamentally altered Earth's biotic and abiotic environment. This course explores the scientific basis of the Anthropocene, with a focus on how anthropogenic alterations to Earth's atmosphere, biosphere, cryosphere, lithosphere, and hydrosphere, have shifted Earth into a novel geological epoch. Students in this course will also discuss and debate how accepting the Anthropocene hypothesis, entails a fundamental shift in how humans view and manage the natural world.

Same as [EESC38H3](#)

Prerequisite: [ESTB01H3](#) and [1.0 credit from the following: [EESB03H3](#), [EESB04H3](#) and [EESB05H3](#)]

Exclusion: [EESC38H3](#)

Breadth Requirements: Natural Sciences

ESTC40H3 - Technical Methods for Climate Change Mitigation

Addressing the climate crisis requires designing and implementing effective climate change mitigation targets, strategies, policies and actions to eliminate human-caused greenhouse gas emissions. In this course, students will learn the various technical methods required in climate change mitigation. Students will explore the opportunities, barriers, and tools that exist to implement effective climate change mitigation in the energy, industry, waste, and agriculture, forestry and land-use sectors. The emphasis of the course is on the technical methods that climate change mitigation experts require.

Prerequisite: 10.0 credits including [ESTB04H3](#)

Breadth Requirements: Natural Sciences

ESTD16H3 - Project Management in Environmental Studies

Students will select a research problem in an area of special interest. Supervision will be provided by a faculty member with active research in geography, ecology, natural resource management, environmental biology, or geosciences as represented within the departments. Project implementation, project monitoring and evaluation will form the core elements for this course.

Same as [EESD16H3](#)

Prerequisite: At least 14.5 credits

Exclusion: [EESD16H3](#)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

ESTD17Y3 - Cohort Capstone Course in Environmental Studies

This course is designed to provide a strong interdisciplinary focus on specific environmental problems including the socioeconomic context in which environmental issues are resolved. The cohort capstone course is in 2 consecutive semesters, providing final year students the opportunity to work in a team, as environmental researchers and consultants, combining knowledge and skill-sets acquired in earlier courses. Group research to local environmental problems and exposure to critical environmental policy issues will be the focal point of the course. Students will attend preliminary meetings schedules in the Fall semester.

Same as [EESD17Y3](#)

Prerequisite: At least 14.5 credits

Exclusion: [EESD17Y3](#)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

ESTD19H3 - Risk

A practical introduction to the concept of 'risk' as utilized in environmental decision-making. Students are introduced to risk analysis and assessment procedures as applied in business, government, and civil society. Three modules take students from relatively simple determinations of risk (e.g., infrastructure flooding) towards more complex, real-world, inclusive considerations (e.g., ecosystem impacts of climate change).

Prerequisite: 14.5 credits and [STAB22H3](#) (or equivalent)

Breadth Requirements: Natural Sciences

ESTD20H3 - Integrated Natural Resource and Climate Change Governance

Climate change affects all sectors of society, natural ecosystems, and future generations. Addressing climate change, either in terms of mitigation or adaptation, is complex due to its pervasive scope, the heterogeneity of its impacts and the uneven distribution of responsibilities, resources and capacities to respond to it between different levels of government, stakeholder groups, and rightholder groups. This course focuses on nexus approaches in climate policy development and assessment across different public policy domains. In this course, students will learn about how different levels of government frame climate change and climate policy objectives, how they interact with stakeholders (e.g., economic interests and environmental groups) and rightholders (Indigenous people), and how to approach complexity in climate governance.

Prerequisite: 14.0 credits including [ESTB04H3](#)

Breadth Requirements: Social and Behavioural Sciences

FSTA01H3 - Foods That Changed the World

This course introduces students to university-level skills through an exploration of the connections between food, environment, culture, religion, and society. Using a food biography perspective, it critically examines ecological, material, and political foundations of the global food system and how food practices affect raced, classed, gendered, and national identities.

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

FSTA02H3 - Food Futures: Confronting Crises, Improving Lives

This course provides innovation and entrepreneurship skills to address major problems in socially just food production, distribution, and consumption in the time of climate crisis. Students will learn to identify and understand what have been called “wicked problems” -- deeply complicated issues with multiple, conflicting stakeholders -- and to develop community-scale solutions.

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Combined Degree Programs

The University of Toronto Scarborough offers a number of Combined Degree Programs (CDPs). A CDP allows students to be registered in two degree programs (one undergraduate and one graduate) at the same time, creating one approved program combination. Students complete the requirements for both degrees in a manner that provides a benefit that would not be available to students registering in each degree program separately.

COMBINED DEGREE PROGRAMS, BACHELOR OF BUSINESS ADMINISTRATION / MASTER OF ACCOUNTING AND FINANCE

The Combined Degree Programs for UTSC Bachelor of Business Administration (BBA) with the Master of Accounting and Finance (MAccFin) offered by the Graduate Department of Management allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 2 of their undergraduate studies, and be considered, for admission to the MAccFin program. They are designed for students with no prior work experience who are interested in pursuing careers in account management, wealth management, consultancy, and entrepreneurship.

Contact Information:

Email: Maccfin@utsc.utoronto.ca

The Combined Degree Programs options are:

- Management and Accounting (Specialist), Bachelor of Business Administration/ Master of Accounting and Finance
- Management and Accounting (Specialist Co-op), Bachelor of Business Administration/ Master of Accounting and Finance

Application Process:

- Applicants must apply to the Bachelor of Business Administration (BBA) program, the MAccFin program, and the CDP.
- Qualified student in Year 2 of their BBA degree program apply to the MAccFin program and their chosen CDP through the SGS Online Admission Application system:
 - Students may apply after they have completed up to 10.0 credits; however, students who have completed more than 10.0 credits may not be considered for admission to the Program.
- Applicants must:
 - Complete a standardized application form with customized fields through the SGS Online Application System;
 - Provide at least two reference letters; and
 - Provide a resume.
- Applicants will be scored on each admission requirement and then ranked based on their overall score.

Minimum Admission Requirements:

Admission to the program is extremely competitive, and all aspects of the application are considered. Meeting minimum grade requirements does not guarantee admission. To be considered for **conditional admission to the MAccFin program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the BBA degree and one of the Management and Accounting Specialist programs at UTSC.
- Meet the minimum admission requirements of the School of Graduate Studies and the MAccFin program.
- Be enrolled full-time and in good standing in the BBA program:
 - have a B+ average (CGPA of 3.3) or higher in Year 2;

- carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.

Program Requirements and Path to Completion:

- This CDP requires that students follow prescribed co-op term and/or academic study sequencing options as determined and communicated by the Department of Management.
- Complete all of the requirements of the Management and Accounting Specialist programs, with the following modifications:
 - Students must complete MGEC08H3 (0.5 credit in Economics);
 - Students are exempted from MGE12H3 and MGAD70H3;
 - Students must complete MGFC35H3 (0.5 credit in Finance);
 - In the Summer terms of Year 3 of their undergraduate studies, students must complete 1.0 FCE in graduate courses as described below. The 1.0 FCE in graduate courses will be graded as graduate courses, as per the *University Assessment and Grading Practices Policy*, 2012 (section B.4.1.2). The 1.0 FCE in graduate courses will count towards both the BBA degree and the MAccFin program and degree:
 - MAF 2001H
 - MAF 2002H
 - Students must complete all of the following advanced accounting courses, which are necessary for CPA designation: MGAD20H3, MGAD40H3, MGAD45H3, MGAD50H3, MGAD65H3.
- Year 4: BBA degree requirements
 - students must complete all BBA program requirements, with the modifications described above, and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year; where necessary, exceptions will be made for students in Co-op programs.
- Session 1: MAccFin program and degree requirements, with the following modifications:
 - students who have successfully completed MAF 2001H as part of their BBA requirements, do not need to repeat it;
 - students who have successfully completed MAF 2002H as part of their BBA requirements, do not need to repeat it.
- Session 2-4: remaining MAccFin program and degree requirements.

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE / MASTER OF ENGINEERING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) and Master of Engineering (MEng) allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the Faculty of Engineering & Applied Chemistry MEng programs in either Chemical Engineering & Applied Chemistry or Civil Engineering.

Contact Information:

Mandy Meriano(416-208-2775)

Email: mmeriano@utsc.utoronto.ca

Combined Degree Programs options are:

- Global Environmental Change (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering

- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Physics (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Physics (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering

Application Process:

- UTSC students in Year 3 of one the identified HBSc programs who are interested in one of the identified CDPs must contact Professor M. Meriano before the end of the Fall session.
- Qualified UTSC students will be able to apply to their selected CDP.
- UTSC students who are accepted to the CDP will receive a conditional offer to start the Master of Engineering (MEng) program upon completion of their HBSc program requirements.

Minimum Admission Requirements:

- Applicants must meet the admission requirements of the HBSc program, the School of Graduate Studies, and the MEng program.
- Applicants to the HBSc program must:
 - be enrolled full-time and in good standing;
 - have a B+ average (CGPA of 3.3) or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer).
- Applicants to the MEng program must:
 - maintain a B+ average (CGPA of 3.3) or higher in Year 3 and Year 4 of their HBSc program;
 - complete the requirements of their HBSc program;
 - be conferred with the HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBSc degree requirements:
 - students must complete all HBSc program requirements and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the CDP and may be offered conditional admission to the MEng program;
 - in Year 4, students who receive a conditional offer of admission to the CDP and MEng:
 - **must complete two prescribed undergraduate engineering half courses** (1.0 credit) as part of the HBSc degree requirements;
 - may complete up to 1.0 credit in graduate courses with the permission of either the Department of Chemical Engineering and Applied Chemistry or Department of Civil Engineering (depending on the selected CDP); these courses can be counted towards the completion of both the HBSc degree requirements and the MEng program and degree requirements.
 - by the end of Year 4, fulfill both the undergraduate program requirements and the undergraduate degree requirements.
- Year 5: Remaining MEng program and degree requirements:

- conditions of admission are removed;
- complete 5.0 credits in MEng courses; students who have completed up to 1.0 credit in MEng courses in Year 4 may subtract those courses from the total 5.0 credits required.

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE / MASTER OF ENVIRONMENTAL SCIENCE

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) with the Master of Environmental Science (MEnvSc) offered by the Graduate Department of Physical and Environmental Sciences allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the MEnvSc program. They are designed for students interested in pursuing a career in environmental sciences within the green-sector, geosciences, industry, consulting, government and policy organizations. These Combined Degree Programs give students the opportunity to: (1) begin exploring their academic interests in Year 4 of their studies; (2) complete 1.0 credit in courses that may be counted towards both degrees; and (3) enrol in the MEnvSc in the Summer session between Years 4 and 5 in order to complete either a two-month academic or internship opportunity, in addition to the mandatory four-month academic or internship opportunity completed in the MEnvSc program alone.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Biological Sciences

- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Environmental Science

Department of Physical and Environmental Sciences

- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science

Application Process:

- Applicants must apply to the Honours Bachelor of Science (HBSc) program, the MEnvSc program, and the CDP.
- Qualified students in Year 3 of their HBSc degree program apply to the MEnvSc program and their chosen CPD through the SGS Online Admission Application system:
 - students will select one of the three fields of study within the MEnvSc program at the time of application:
 - Climate Change Impacts and Adaptation
 - Conservation and Biodiversity, or
 - Terrestrial and Aquatic Systems
 - those accepted will receive a conditional offer to start the MEnvSc program upon completion of their HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MEnvSc program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBSc degree and one of the above listed undergraduate programs at UTSC.
- Meet the minimum admission requirements of the School of Graduate Studies and the MEnvSc program.
- Be enrolled full-time and in good standing in the HBSc program:
 - have a B+ average (CGPA of 3.3) or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- Complete the following undergraduate courses as part of the HBSc degree requirements:
 - Students in the Specialist in Conservation and Biodiversity or the Specialist in Integrative Biology:
 - BIOC63H3 Conservation Biology (0.5 credit)
 - BIOD54H3 Applied Conservation Biology (0.5 credit)
 - Students in the Specialist/Specialist Co-op programs in Global Environmental Change, Environmental Chemistry, Environmental Geoscience, or Environmental Physics:
 - EESC24H3 Advanced Readings in Environmental Science (0.5 credit)
 - EESD10Y3 Research Project in Environmental Science (1.0 credit)

To be given **full, unconditional admission to the MEnvSc program**, applicants must meet the following admission requirements:

- Maintain a B+ average (CGPA of 3.3) or higher in their final year of study in the HBSc program or over upper-level (C- and D-level) courses.
- Achieve at least a grade of B- (70%) in both of the graduate courses taken in Year 4 of undergraduate study; these courses must be chosen in consultation with the Graduate Program Supervisor:
 - for the field in Climate Change Impacts and Adaptation: EES 1133H Climate Change Science and Modelling (0.5 credit), plus an additional 0.5 credit;
 - for the field in Conservation and Biodiversity: EES 3002H Conservation Policy (0.5 credit), plus an additional 0.5 credit;
 - for the field in Terrestrial and Aquatic Systems: 1.0 credit.
- Be conferred with the HBSc degree.

Program Requirements and Path to Completion:

- Year 4: HBSc degree requirements
 - students must complete all HBSc program requirements and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year; where necessary, exceptions will be made for students in Co-op programs;
 - students who receive a conditional offer of admission to the CDP must complete the following undergraduate courses:
 - students in the Specialist in Conservation and Biodiversity or the Specialist in Integrative Biology:
 - BIOC63H3 Conservation Biology (0.5 credit)
 - BIOD54H3 Applied Conservation Biology (0.5 credit)
 - students in the Specialist/Specialist Co-op programs in Global Environmental Change, Environmental Chemistry, Environmental Geoscience, or Environmental Physics:
 - EESC24H3 Advanced Readings in Environmental Science (0.5 credit)
 - EESD10Y3 Research Project in Environmental Science (1.0 credit)
 - students must complete 1.0 credit in graduate courses, chosen in consultation with the Graduate Program Supervisor, as follows:
 - for the field in Climate Change Impacts and Adaptation: EES 1133H Climate Change Science and Modelling (0.5 credit), plus an additional 0.5 credit;
 - for the field in Conservation and Biodiversity: EES 3002H Conservation Policy (0.5 credit), plus an additional 0.5 credit;
 - for the field in Terrestrial and Aquatic Systems: 1.0 credit.
- Optional registration in the Summer session prior to Year 5:
 - students complete one of the following opportunities:
 - EES 4001H Internship Training (0.5 credit)
 - EES 4003H Academic Training (0.5 credit)
- Year 5: Remaining MEnvSc program and degree requirements.

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE / MASTER OF SOCIAL WORK

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) with the Master of Social Work (MSW) offered by the Factor-Inwentash Faculty of Social Work allow exceptional students who are registered in the UTSC Specialist or Specialist Co-op programs in Mental Health Studies to apply during Year 3 of their studies, and be considered, for admission to the FIFSW Master's program in Social Work. These CDPs offer a rich intellectual pathway for exceptional undergraduate students by providing access to social work research before the completion of the undergraduate degree, and give students an opportunity to become equipped for evidence-informed social work practice, through a research course in Year 4 with a FIFSW co-supervisor.

Contact Information:

Department of Psychology

Email: psychology-undergraduate@utsc.utoronto.ca

Combined Degree Programs options are:

- Mental Health Studies (Specialist), Honours Bachelor of Science/ Master of Social Work
- Mental Health Studies (Specialist Co-op), Honours Bachelor of Science/ Master of Social Work

Application Process:

- Applicants must apply to the HBSc program, the MSW program, and the CDP.
- Qualified students in Year 3 of their HBSc program can apply to the MSW program; those accepted will receive a conditional offer to start the MSW program upon completion of their HBSc program and degree requirements.

Minimum Admission Requirements:

- Applicants must meet the admission requirements of the HBSc program, the School of Graduate Studies, and the MSW program.
- Applicants to the HBSc program must:
 - be enrolled full-time and in good standing;
 - have a B+ average (CGPA of 3.3) or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer).
- Applicants to the MSW program must:
 - maintain a B+ average (CGPA of 3.3) or higher in Year 3 and Year 4 of their HBSc program;
 - complete the requirements of their HBSc program;
 - be conferred with the HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBSc degree requirements:
 - students must complete all HBSc program requirements and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MSW program and the CDP and may be offered conditional admission;
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete 1.5 credits as follows:
 - PSYD98Y3 Thesis in Psychology, under the supervision of a UTSC Psychology faculty member in consultation with a FIFSW faculty member (1.0 credit);
 - PSYD37H3 The Social Context of Mental Health and Illness, which will be taught by a FIFSW faculty member (0.5 credit).
 - by the end of Year 4, fulfill the HBSc program requirements and HBSc degree requirements.
- Year 5 to 6: MSW program and degree requirements:
 - MSW Year 1:
 - conditions of admission are removed;

- students must complete 4.0 credits (see the School of Graduate Studies Calendar: [Specialist](#) or [Specialist Co-op](#))
- students must complete the Year 1 practicum (SWK 4701H)
- by the end of Year 1 of the MSW program, students must select one of the following fields of specialization: Children and Their Families, Gerontology, Health and Mental Health; Social Justice and Diversity, Social Service Administration
- MSW Year 2:
 - students must complete 1.0 credits in elective courses;
 - students must complete the Year 2 practicum (SWK 4702Y);
 - students must complete additional courses in their chosen field of specialization (see the School of Graduate Studies Calendar: [Specialist](#) or [Specialist Co-op](#))

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc)/ Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBSc and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator
Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
 - if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
 - if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
 - for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching

- subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
- for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:
 - students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

Computer Science

Faculty List

- R. Abou Assi, M.Sc., Ph.D. (Beirut), CLTA Assistant Professor, Teaching Stream
- A. Anderson, B.Eng. (McGill), M.Sc., Ph.D. (Stanford), Associate Professor
- A. Bretscher, B.Sc., M.Sc. (Queen's), Ph.D. (Toronto), Associate Professor, Teaching Stream
- N. Cheng, B.Sc. (Toronto), Associate Professor, Teaching Stream
- W.H. Enright, B.Sc. (U.B.C.), M.Sc., Ph.D. (Toronto), Professor Emeritus
- F. Estrada, B.Eng. (ITESM, Mex.), M.Sc., Ph.D. (Toronto), Professor, Teaching Stream
- D.J. Fleet, B.Sc. (Queen's), M.Sc., Ph.D. (Toronto), Professor
- P. Gawde, B.Sc. (Mumbai), M.Sc., Ph.D. (Kent), CLTA Assistant Professor, Teaching Stream
- V. Hadzilacos, B.S.E. (Princeton), Ph.D. (Harvard), Professor
- B. Harrington, Hon. B.Sc. (Toronto), M.Sc., D.Phil. (Oxford), Professor, Teaching Stream
- G. Hirst, B.A., B.Sc. (Monash), M.Sc. (A.N.U., U.B.C.), Ph.D. (Brown), Professor Emeritus
- I. Huang, B.Eng. (Beijing), M.ASc., M.Sc. (Regina), Ph.D. (Waterloo), Assistant Professor, Teaching Stream
- N. Koudas, B.Sc. (Patras), M.Sc. (Maryland), Ph.D. (Toronto), Professor
- M. Molloy, B.Math, M.Math (Waterloo), Ph.D. (Carnegie Mellon), Professor
- R. Pancer, B.Sc., M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- G. Pekhimenko, B.Sc. (Taurida), M.Sc., (Toronto), Ph.D. (Carnegie Mellon), Associate Professor
- M. Ponce, B.Sc., M.Sc. (UdelaR, Uruguay), Ph.D. (RIT), Assistant Professor, Teaching Stream
- A. Rosselet, B.Sc. (NCSU), M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream Emeritus
- T. Sans, B.Sc. (Paul Sabatier), M.Sc. (Supaero), Ph.D. (Telecom-Bretagne), Associate Professor, Teaching Stream
- B. Schroeder, M.Sc. (Saarbrücken), Ph.D. (Carnegie Mellon), Professor
- A. Taffioivich, Hon. B.Sc., M.Sc., Ph.D. (Toronto), Professor, Teaching Stream
- R. Tell, B.A. (Tel Aviv), B.Sc. (OpenU), M.Sc., Ph.D. (Weizmann), Assistant Professor
- N. Vijaykumar, B.E. (PES), M.Sc., Ph.D. (Carnegie Mellon), Assistant Professor
- Q. Zhang, B.E. (Harbin), Ph.D. (Pennsylvania), Assistant Professor

Associate Chair: A. Taffioivich (416-287-7410) anya@cs.utoronto.ca

Computer Science is the study of the use of computers to process information. The form of this information may vary widely, from the business person's records or the scientist's experimental results to the linguist's texts. One of the fundamental concepts in Computer Science is the algorithm - a list of instructions that specify the steps required to solve a problem. Computer Science is concerned with producing correct, efficient, and maintainable algorithms for a wide variety of applications. Closely related is the development of tools to foster these goals: programming languages for expressing algorithms; operating systems to manage the resources of a computer; and various mathematical and statistical techniques to study the correctness and efficiency of algorithms.

Theoretical computer science is concerned with the inherent difficulty of problems that can make them intractable by computers. Numerical analysis, data management systems, computer graphics, and artificial intelligence are concerned with the applications of computers to specific problem areas.

Limited Enrolment

Because of pressures of demand for places, it has been necessary to place enrolment limits on most CSC courses and on admission to the Specialist, Major, and Minor programs. Information on how to apply for admission to a program is given below.

Note: Admission to CSC Courses

CSC courses are open to all students who meet the pre-requisites. Non-CSC program students will be permitted to take CSC courses as required for their programs. Otherwise non-CSC program students who wish to take B-, C-, or D-level courses must meet additional cumulative grade point average (CGPA) requirements:

- A student who is not in a CSC program and does not have a CGPA of at least 3.5 may not take any B-level CSC course, with the exception of CSCB20H3.
- A student who is not in a CSC program and does not have a CGPA of at least 3.5 may not take any C- or D-level CSC course.
- When a B-, C-, or D-level CSC course approaches its capacity, CSC program students will be given preference for further enrollment over non-CSC program students.
- Students admitted to the Major or Specialist programs in Computer Science at any point after the first year will be subject to retroactive program tuition fees.

Program Combination Restrictions in Computer Science

The Specialist/Specialist Co-op, Major/Major Co-op, and Minor programs in Computer Science cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course CTLB03H3, which can be found in the Teaching and Learning section of the *Calendar*.

Computer Science Programs

SPECIALIST PROGRAM IN COMPUTER SCIENCE - Comprehensive Stream (SCIENCE) - SCSPE0510

Supervisor of Studies: R. Pancer (416-287-7679) *Email:* pancer@utsc.utoronto.ca

Program Objectives

This program provides a working knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. It also imparts an appreciation of the discipline's transformative impact on science and society. The program prepares students for further study and for careers in the computing industry. It comprises four streams with different emphases:

The Comprehensive Stream provides a broad and balanced exposure to the discipline. It is the stream best-suited for students planning to pursue graduate study in computer science, but it is also suitable for other career paths.

The structure of the program requirements allows one to easily switch streams until relatively late in the program. Consequently, these streams should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides computer science students guidance in their course selection based on their broad (but possibly fluid) interests.

Enrolment Requirements

Enrolment in the Specialist in Computer Science (all streams) is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Computer Science admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: CSCA08H3, CSCA48H3, CSCA67H3, MATA22H3, MATA31H3, and MATA37H3.

Required Grades:

Students that meet all of the following requirements will be admitted to a CS Specialist POST*:

- a. A cumulative grade point average (CGPA) of at least 2.5 over the following courses: CSCA48H3, CSCA67H3, MATA22H3, and MATA37H3;
- b. A final grade of at least B in CSCA48H3; and
- c. A final grade of at least C- in two of the following: CSCA67H3, MATA22H3, and MATA37H3.

*Students must select **one** stream of the CS Specialist as follows:

- a. Students can select either the Comprehensive stream or the Software Engineering stream.
- b. A limited number of students will be admitted to the Information Systems stream, depending on available space.
- c. Admission to the Entrepreneurship stream will be based in part on submission of a Supplementary Application Form (SAF) available on the Department of Computer and Mathematical Sciences website. Applications for admission will be accepted once per academic year, during the April-May POST admissions round.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to either the UTSC Year 1 Math or UTSC Year 1 Statistics admissions categories are eligible to apply for the Computer Science Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

Students that have not been admitted to a UTSC Year 1 CMS admissions category (Computer Science, Mathematics, or Statistics) must achieve a final grade of at least A- in both MATA31H3 and CSCA67H3 **the first time they complete these courses** in order to be eligible to apply for a CS Specialist POST. **This is a strict requirement.** Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following CMS webpage.

To remain in the program, a student must maintain a CGPA of 2.0 or higher throughout the program.

Note: Students admitted to the program after second or third year will be required to pay retroactive deregulated program fees.

Program Requirements

The program requirements comprise a core of 18 courses (9.0 credits), common to all streams and additional requirements which depend on the stream, for a total of 27 courses (13.5 credits) for the Comprehensive, Software Engineering, and Entrepreneurship streams, and 29 courses (14.5 credits) for the Information Systems stream.

Note: Many Computer Science courses are offered both at U of T Scarborough and at the St. George campus. When a course is offered at both campuses in a given session, U of T Scarborough students are expected to take that course at U of T Scarborough. The Department of Computer Science at the St. George campus cannot guarantee space for U of T Scarborough students in their courses, especially those offered at both campuses.

Core (9.0 credits)

1. Writing Requirement (0.5 credit)*

0.5 credit from the following: ANTA01H3, ANTA02H3, CLAA06H3, CTLA19H3, CTLA01H3, ENGA10H3, ENGA11H3, ENGB06H3, ENGB07H3, ENGB08H3, ENGB09H3, ENGB17H3, ENGB19H3, ENGB50H3, (ENGB51H3), GGRA02H3, GGRA03H3, GGRB05H3, (GGRB06H3), (HISA01H3), (HLTA01H3), (ACMA01H3), (HUMA01H3), (HUMA11H3), (HUMA17H3), (LGGA99H3), LINA01H3, PHLA10H3, PHLA11H3, WSTA01H3.

***Note:** It is recommended that this requirement be satisfied by the end of the second year.

2. A-level courses (3.0 credits)

CSCA08H3 Introduction to Computer Science I

CSCA48H3 Introduction to Computer Science II

CSCA67H3 Discrete Mathematics

MATA22H3 Linear Algebra I for Mathematical Sciences

MATA31H3 Calculus I for Mathematical Sciences

MATA37H3 Calculus II for Mathematical Sciences

3. B-level courses (3.5 credits)

CSCB07H3 Software Design
CSCB09H3 Software Tools and Systems Programming
CSCB36H3 Introduction to the Theory of Computation
CSCB58H3 Computer Organization
CSCB63H3 Design and Analysis of Data Structures
MATB24H3 Linear Algebra II
STAB52H3 Introduction to Probability

4. C-level courses (1.5 credits)

CSCC43H3 Introduction to Databases
CSCC69H3 Operating Systems
CSCC73H3 Algorithm Design and Analysis

5. D-level courses (0.5 credit)

CSCD03H3 Social Impact of Information Technology

Comprehensive Stream

This stream requires a total of 27 courses (13.5 credits). In addition to the core requirements 1-5 common to all streams, 9 other distinct courses (4.5 credits) must be chosen to satisfy all of the following requirements:

6. Additional required courses (2.5 credits)

CSCC24H3 Principles of Programming Languages
CSCC37H3 Introduction to Numerical Algorithms for Computational Mathematics
CSCC63H3 Computability and Computational Complexity
CSCD37H3 Analysis of Numerical Algorithms for Computational Mathematics
MATB41H3 Techniques of the Calculus of Several Variables I

7. Electives from courses on computer systems and applications (1.0 credit)

Choose from:

CSCC01H3 Introduction to Software Engineering
CSCC09H3 Programming on the Web
CSCC10H3 Human-Computer Interaction
CSCC11H3 Introduction to Machine Learning and Data Mining
CSCC46H3 Social and Information Networks
CSCC85H3 Fundamentals of Robotics and Automated Systems
CSCD01H3 Engineering Large Software Systems
CSCD18H3 Computer Graphics
CSCD25H3 Advanced Data Science
CSCD27H3 Computer and Network Security
CSCD43H3 Database System Technology
CSCD58H3 Computer Networks
CSCD70H3 Compiler Optimization
CSCD84H3 Artificial Intelligence
CSC320H1 Introduction to Visual Computing
CSC401H1 Natural Language Computing
CSC413H1 Neural Networks and Deep Learning
CSC469H1 Operating Systems Design and Implementation
CSC485H1 Computational Linguistics
CSC488H1 Compilers and Interpreters

8. Electives from courses related to the theory of computing (0.5 credit)

Choose from:

MATC09H3 Introduction to Mathematical Logic
MATC32H3 Graph Theory and Algorithms for its Applications
MATC44H3 Introduction to Combinatorics
MATD16H3 Coding Theory and Cryptography
CSC438H Computability and Logic
CSC448H Formal Languages and Automata
CSC465H Formal Methods in Software Design

9. CSC, MAT, or STA elective (0.5 credit)

Any C- or D-level CSC, MAT, or STA course, excluding MATC82H3, MATC90H3, STAC32H3, STAC53H3 and STAD29H3.

SPECIALIST (CO-OPERATIVE) PROGRAM IN COMPUTER SCIENCE - Comprehensive Stream (SCIENCE) - SCSPE0510C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

This program provides a working knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. It also imparts an appreciation of the discipline's transformative impact on science and society. The program prepares students for further study and for careers in the computing industry. It comprises four streams with different emphases:

The Comprehensive Stream provides a broad and balanced exposure to the discipline. It is the stream best-suited for students planning to pursue graduate study in computer science, but it is also suitable for other career paths.

The structure of the program requirements allows one to easily switch streams until relatively late in the program. Consequently, these streams should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides computer science students guidance in their course selection based on their broad (but possibly fluid) interests.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) program in Computer Science (all streams) is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades, described in the Enrolment Requirements for the Specialist in Computer Science.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

*Students must select **one** stream of the CS Specialist Co-op. Admission to the Entrepreneurship stream also requires the submission of a Supplementary Application Form available on the Department of Computer and Mathematical Sciences

webpage.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Computer Science. To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including all first year required courses (CSCA08H3, CSCA48H3, CSCA67H3, MATA22H3, MATA31H3, MATA37H3), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB56H3/(COPB51H3)

Work Term Search Courses:

- COPB57H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN COMPUTER SCIENCE - Entrepreneurship Stream (SCIENCE) - SCSPE0805

Supervisor of Studies: R. Pancer (416-287-7679) *Email:* pancer@utsc.utoronto.ca

Program Objectives

This program provides a working knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. It also imparts an appreciation of the discipline's transformative impact on science and society. The program prepares students for further study and for careers in the computing industry. It comprises four streams with different emphases:

The Entrepreneurship Stream includes a solid core of computer science and software engineering, while exposing students to the framework and methodologies that underlie the development of innovative technology ideas into viable commercial opportunities. Enrolment into the Entrepreneurship stream will be limited to highly qualified and motivated students, and preference will be given to students enrolled in the Specialist (Co-operative) program.

The structure of the program requirements allows one to easily switch streams until relatively late in the program. Consequently, these streams should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides computer science students guidance in their course selection based on their broad (but possibly fluid) interests.

Enrolment Requirements

Enrolment in the Specialist in Computer Science (all streams) is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Computer Science admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: [CSCA08H3](#), [CSCA48H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), and [MATA37H3](#).

Required Grades:

Students that meet all of the following requirements will be admitted to a CS Specialist POST*:

- A cumulative grade point average (CGPA) of at least 2.5 over the following courses: [CSCA48H3](#), [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#);
- A final grade of at least B in [CSCA48H3](#); and
- A final grade of at least C- in two of the following: [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#).

*Students must select **one** stream of the CS Specialist as follows:

- Students can select either the Comprehensive stream or the Software Engineering stream.
- A limited number of students will be admitted to the Information Systems stream, depending on available space.
- Admission to the Entrepreneurship stream will be based in part on submission of a Supplementary Application Form (SAF) available on the Department of Computer and Mathematical Sciences [website](#). Applications for admission will be accepted once per academic year, during the April-May POST admissions round.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to either the UTSC Year 1 Math or UTSC Year 1 Statistics admissions categories are eligible to apply for the Computer Science Specialist POST. Admission will be based on academic performance in the

required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

Students that have not been admitted to a UTSC Year 1 CMS admissions category (Computer Science, Mathematics, or Statistics) must achieve a final grade of at least A- in both MATA31H3 and CSCA67H3 **the first time they complete these courses** in order to be eligible to apply for a CS Specialist POST. **This is a strict requirement.** Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

To remain in the program, a student must maintain a CGPA of 2.0 or higher throughout the program.

Note: Students admitted to the program after second or third year will be required to pay retroactive deregulated program fees.

Program Requirements

The program requirements comprise a core of 18 courses (9.0 credits), common to all streams and additional requirements which depend on the stream, for a total of 27 courses (13.5 credits) for the Comprehensive, Software Engineering, and Entrepreneurship streams, and 29 courses (14.5 credits) for the Information Systems stream.

Note: Many Computer Science courses are offered both at U of T Scarborough and at the St. George campus. When a course is offered at both campuses in a given session, U of T Scarborough students are expected to take that course at U of T Scarborough. The Department of Computer Science at the St. George campus cannot guarantee space for U of T Scarborough students in their courses, especially those offered at both campuses.

Core (9.0 credits)

1. Writing Requirement (0.5 credit)*

0.5 credit from the following: [ANTA01H3](#), [ANTA02H3](#), [CLAA06H3](#), [CTLA19H3](#), [CTLA01H3](#), [ENGA10H3](#), [ENGA11H3](#), [ENGB06H3](#), [ENGB07H3](#), [ENGB08H3](#), [ENGB09H3](#), [ENGB17H3](#), [ENGB19H3](#), [ENGB50H3](#), [ENGB51H3](#), [GGRA02H3](#), [GGRA03H3](#), [GGRB05H3](#), [GGRB06H3](#), [HISA01H3](#), [HLTA01H3](#), [ACMA01H3](#), [HUMA01H3](#), [HUMA11H3](#), [HUMA17H3](#), [LGGA99H3](#), [LINA01H3](#), [PHLA10H3](#), [PHLA11H3](#), [WSTA01H3](#).

***Note:** It is recommended that this requirement be satisfied by the end of the second year.

2. A-level courses (3.0 credits)

[CSCA08H3](#) Introduction to Computer Science I
[CSCA48H3](#) Introduction to Computer Science II
[CSCA67H3](#) Discrete Mathematics
[MATA22H3](#) Linear Algebra I for Mathematical Sciences
[MATA31H3](#) Calculus I for Mathematical Sciences
[MATA37H3](#) Calculus II for Mathematical Sciences

3. B-level courses (3.5 credits)

[CSCB07H3](#) Software Design
[CSCB09H3](#) Software Tools and Systems Programming
[CSCB36H3](#) Introduction to the Theory of Computation
[CSCB58H3](#) Computer Organization
[CSCB63H3](#) Design and Analysis of Data Structures
[MATB24H3](#) Linear Algebra II
[STAB52H3](#) Introduction to Probability

4. C-level courses (1.5 credits)

SPECIALIST (CO-OPERATIVE) PROGRAM IN COMPUTER SCIENCE - Entrepreneurship Stream (SCIENCE) - SCSPE0805C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

This program provides a working knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. It also imparts an appreciation of the discipline's transformative impact on science and society. The program prepares students for further study and for careers in the computing industry. It comprises four streams with different emphases:

The Entrepreneurship Stream includes a solid core of computer science and software engineering, while exposing students to the framework and the methodologies that underlie the development of innovative technology ideas into viable commercial opportunities. Enrolment into the Entrepreneurship stream will be limited to highly qualified and motivated students, and preference will be given to students enrolled in the Specialist (Co-op) Program.

The structure of the program requirements allows one to easily switch streams until relatively late in the program. Consequently, these streams should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides computer science students guidance in their course selection based on their broad (but possibly fluid) interests.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) program in Computer Science (all streams) is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

*Students must select **one** stream of the CS Specialist Co-op. Admission to the Entrepreneurship stream also requires the submission of a Supplementary Application Form available on the Department of Computer and Mathematical Sciences [webpage](#).

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Computer Science. To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including all first year required courses ([CSCA08H3](#), [CSCA48H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), [MATA37H3](#)), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB56H3/(COPB51H3)**

Work Term Search Courses:

- **COPB57H3/(COPB52H3)** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN COMPUTER SCIENCE - Information Systems Stream (SCIENCE) - SCSPE0455

Supervisor of Studies: R. Pancer (416-287-7679) *Email:* pancer@utsc.utoronto.ca

Program Objectives

This program provides a working knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. It also imparts an appreciation of the discipline's transformative impact on science and society. The program prepares students for further study and for careers in the computing industry. It comprises four streams with different emphases:

The Information Systems Stream has a similar focus as the Software Engineering Stream, but it provides additional exposure to certain aspects of business management. It is of special interest to students wishing to pursue careers in technical management but who have a deep interest in the technology.

The structure of the program requirements allows one to easily switch streams until relatively late in the program. Consequently, these streams should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides computer science students guidance in their course selection based on their broad (but possibly fluid) interests.

Enrolment Requirements

Enrolment in the Specialist in Computer Science (all streams) is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Computer Science admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: [CSCA08H3](#), [CSCA48H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), and [MATA37H3](#).

Required Grades:

Students that meet all of the following requirements will be admitted to a CS Specialist POST*:

- A cumulative grade point average (CGPA) of at least 2.5 over the following courses: [CSCA48H3](#), [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#);
- A final grade of at least B in [CSCA48H3](#); and
- A final grade of at least C- in two of the following: [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#).

*Students must select **one** stream of the CS Specialist as follows:

- Students can select either the Comprehensive stream or the Software Engineering stream.
- A limited number of students will be admitted to the Information Systems stream, depending on available space.
- Admission to the Entrepreneurship stream will be based in part on submission of a Supplementary Application Form (SAF) available on the Department of Computer and Mathematical Sciences [website](#). Applications for admission will be accepted once per academic year, during the April-May POST admissions round.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to either the UTSC Year 1 Math or UTSC Year 1 Statistics admissions categories are eligible to apply for the Computer Science Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

Students that have not been admitted to a UTSC Year 1 CMS admissions category (Computer Science, Mathematics, or Statistics) must achieve a final grade of at least A- in both [MATA31H3](#) and [CSCA67H3](#) **the first time they complete these courses** in order to be eligible to apply for a CS Specialist POST. **This is a strict requirement.** Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

To remain in the program, a student must maintain a CGPA of 2.0 or higher throughout the program.

Note: Students admitted to the program after second or third year will be required to pay retroactive deregulated program fees.

Program Requirements

The program requirements comprise a core of 18 courses (9.0 credits), common to all streams and additional requirements which depend on the stream, for a total of 27 courses (13.5 credits) for the Comprehensive, Software Engineering, and Entrepreneurship streams, and 29 courses (14.5 credits) for the Information Systems stream.

Note: Many Computer Science courses are offered both at U of T Scarborough and at the St. George campus. When a course is offered at both campuses in a given session, U of T Scarborough students are expected to take that course at U of T Scarborough. The Department of Computer Science at the St. George campus cannot guarantee space for U of T Scarborough students in their courses, especially those offered at both campuses.

Core (9.0 credits)

1. Writing Requirement (0.5 credit)*

0.5 credit from the following: [ANTA01H3](#), [ANTA02H3](#), [CLAA06H3](#), [CTLA19H3](#), [CTLA01H3](#), [ENGA10H3](#), [ENGA11H3](#), [ENGB06H3](#), [ENGB07H3](#), [ENGB08H3](#), [ENGB09H3](#), [ENGB17H3](#), [ENGB19H3](#), [ENGB50H3](#), [ENGB51H3](#), [GGRA02H3](#),

GGRA03H3, GGRB05H3, (GGRB06H3), (HISA01H3), (HLTA01H3), (ACMA01H3), (HUMA01H3), (HUMA11H3), (HUMA17H3), (LGGA99H3), LINA01H3, PHLA10H3, PHLA11H3, WSTA01H3.

***Note:** It is recommended that this requirement be satisfied by the end of the second year.

2. A-level courses (3.0 credits)

CSCA08H3 Introduction to Computer Science I

CSCA48H3 Introduction to Computer Science II

CSCA67H3 Discrete Mathematics

MATA22H3 Linear Algebra I for Mathematical Sciences

MATA31H3 Calculus I for Mathematical Sciences

MATA37H3 Calculus II for Mathematical Sciences

3. B-level courses (3.5 credits)

CSCB07H3 Software Design

CSCB09H3 Software Tools and Systems Programming

CSCB36H3 Introduction to the Theory of Computation

CSCB58H3 Computer Organization

CSCB63H3 Design and Analysis of Data Structures

MATB24H3 Linear Algebra II

STAB52H3 Introduction to Probability

4. C-level courses (1.5 credits)

CSCC43H3 Introduction to Databases

CSCC69H3 Operating Systems

CSCC73H3 Algorithm Design and Analysis

5. D-level courses (0.5 credit)

CSCD03H3 Social Impact of Information Technology

Information Systems Stream

This stream requires a total of 29 courses (14.5 credits). In addition to the core requirements 1-5 common to all streams, 11 other distinct courses (5.5 credits) must be chosen to satisfy all of the following requirements:

6. Required management courses (1.5 credits)

MGTA01H3 Introduction to Business

MGTA02H3 Managing the Business Organization

MGHB02H3 Managing People and Groups in Organizations

7. Additional required mathematics and computer science courses (3.0 credits)

CSCC01H3 Introduction to Software Engineering

CSCC37H3 Introduction to Numerical Algorithms for Computational Mathematics

CSCC63H3 Computability and Computational Complexity

CSCD01H3 Engineering Large Software Systems

CSCD43H3 Database System Technology

MATB41H3 Techniques of the Calculus of Several Variables I

8. Electives from courses on computer systems and applications (1.0 credit)

Choose from:

CSCC09H3 Programming on the Web

CSCC10H3 Human-Computer Interaction

CSCC11H3 Introduction to Machine Learning and Data Mining

CSCC46H3 Social and Information Networks

CSCC85H3 Fundamentals of Robotics and Automated Systems

CSCD18H3 Computer Graphics

CSCD25H3 Advanced Data Science

CSCD27H3 Computer and Network Security

CSCD58H3 Computer Networks

CSCD70H3 Compiler Optimization

CSCD84H3 Artificial Intelligence

CSC320H1 Introduction to Visual Computing

CSC401H1 Natural Language Computing

CSC413H1 Neural Networks and Deep Learning

CSC469H1 Operating Systems Design and Implementation
 CSC485H1 Computational Linguistics
 CSC488H1 Compilers and Interpreters

SPECIALIST (CO-OPERATIVE) PROGRAM IN COMPUTER SCIENCE - Information Systems Stream (SCIENCE) - SCSPE0455C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.uts@utoronto.ca

This program provides a working knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. It also imparts an appreciation of the discipline's transformative impact on science and society. The program prepares students for further study and for careers in the computing industry. It comprises four streams with different emphases:

The Information Systems Stream has a similar focus as the Software Engineering Stream, but it provides additional exposure to certain aspects of business management. It is of special interest to students wishing to pursue careers in technical management but who have a deep interest in the technology.

The structure of the program requirements allows one to easily switch streams until relatively late in the program. Consequently, these streams should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides computer science students guidance in their course selection based on their broad (but possibly fluid) interests.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) program in Computer Science (all streams) is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

SPECIALIST PROGRAM IN COMPUTER SCIENCE - Software Engineering Stream (SCIENCE) - SCSPE0795

Supervisor of Studies: R. Pancer (416-287-7679) *Email:* pancer@utsc.utoronto.ca

Program Objectives

This program provides a working knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. It also imparts an appreciation of the discipline's transformative impact on science and society. The program prepares students for further study and for careers in the computing industry. It comprises four streams with different emphases:

The Software Engineering Stream places a greater emphasis on the engineering side of the discipline, including computer systems and core applications.

The structure of the program requirements allows one to easily switch streams until relatively late in the program. Consequently, these streams should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides computer science students guidance in their course selection based on their broad (but possibly fluid) interests.

Enrolment Requirements

Enrolment in the Specialist in Computer Science (all streams) is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Computer Science admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: [CSCA08H3](#), [CSCA48H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), and [MATA37H3](#).

Required Grades:

Students that meet all of the following requirements will be admitted to a CS Specialist POST*:

- A cumulative grade point average (CGPA) of at least 2.5 over the following courses: [CSCA48H3](#), [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#);
- A final grade of at least B in [CSCA48H3](#); and
- A final grade of at least C- in two of the following: [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#).

*Students must select **one** stream of the CS Specialist as follows:

- Students can select either the Comprehensive stream or the Software Engineering stream.
- A limited number of students will be admitted to the Information Systems stream, depending on available space.
- Admission to the Entrepreneurship stream will be based in part on submission of a Supplementary Application Form (SAF) available on the Department of Computer and Mathematical Sciences [website](#). Applications for admission will be accepted once per academic year, during the April-May POST admissions round.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to either the UTSC Year 1 Math or UTSC Year 1 Statistics admissions categories are eligible to apply for the Computer Science Specialist POST. SPECIALIST (CO-OPERATIVE) PROGRAM IN COMPUTER SCIENCE - Software Engineering Stream (SCIENCE) - SCSPE0795C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

This program provides a working knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. It also imparts an appreciation of the discipline's transformative impact on science and society. The program prepares students for further study and for careers in the computing industry. It comprises four streams with different emphases:

The Software Engineering Stream places a greater emphasis on the engineering side of the discipline, including computer systems and core applications.

The structure of the program requirements allows one to easily switch streams until relatively late in the program. Consequently, these streams should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides computer science students guidance in their course selection based on their broad (but possibly fluid) interests.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) program in Computer Science (all streams) is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through

ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

*Students must select **one** stream of the CS Specialist Co-op. Admission to the Entrepreneurship stream also requires the submission of a Supplementary Application Form available on the Department of Computer and Mathematical Sciences [webpage](#).

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Computer Science. To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including all first year required courses ([CSCA08H3](#), [CSCA48H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), [MATA37H3](#)), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB56H3](#)/([COPB51H3](#))

Work Term Search Courses:

- **COPB57H3**/**(COPB52H3)** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN COMPUTER SCIENCE (SCIENCE) - SCMAJ1688

Supervisor of Studies: R. Pancer (416-287-7679) Email: pancer@utsc.utoronto.ca

Program Objectives

This program provides basic knowledge of the foundations of computer science: modern computer software and hardware, theoretical aspects of computer science, and relevant areas of mathematics and statistics. This program is intended to be combined with other programs, typically a major program in another discipline.

Enrolment Requirements

Enrolment in the Major in Computer Science is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Computer Science admissions category:*Required Courses:*

Students must have passed the following CSC and MAT courses: CSCA08H3, CSCA48H3, CSCA67H3, MATA22H3, MATA31H3, and MATA37H3.

Required Grades:

Students that meet all of the following requirements will be admitted to a CS Major POST:

- A cumulative grade point average (CGPA) of at least 2.5 over the following courses: CSCA48H3, CSCA67H3, MATA22H3, and MATA37H3;
- A final grade of at least B in CSCA48H3; and

c. A final grade of at least C- in two of the following: CSCA67H3, MATA22H3, and MATA37H3.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to either the UTSC Year 1 Math or UTSC Year 1 Statistics admissions categories are eligible to apply for the Computer Science Major POST. Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

Students that have not been admitted to a UTSC Year 1 CMS admissions category (Computer Science, Mathematics, or Statistics) must achieve a final grade of at least A- in both MATA31H3 and CSCA67H3 **the first time they complete these courses** in order to be eligible to apply for a CS Major POST. **This is a strict requirement.** Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following CMS webpage.

Note: Students admitted to the program after second or third year will be required to pay retroactive deregulated program fees.

Program Requirements

This program requires a total of 16 distinct courses (8.0 credits) satisfying all of the requirements listed below.

Note: Many Computer Science courses are offered both at U of T Scarborough and at the St. George campus. When a course is offered at both campuses in a given session, U of T Scarborough students are expected to take that course at U of T Scarborough. The Department of Computer Science at the St. George campus cannot guarantee space for U of T Scarborough students in their courses, especially those offered at both campuses.

1. A-level courses (3.0 credits)

CSCA08H3 Introduction to Computer Science I
CSCA48H3 Introduction to Computer Science II
CSCA67H3 Discrete Mathematics
MATA22H3 Linear Algebra I for Mathematical Sciences
MATA31H3 Calculus I for Mathematical Sciences
MATA37H3 Calculus II for Mathematical Sciences

2. B-level courses (3.0 credits)

CSCB07H3 Software Design
CSCB09H3 Software Tools and Systems Programming
CSCB36H3 Introduction to the Theory of Computation
CSCB58H3 Computer Organization
CSCB63H3 Design and Analysis of Data Structures
and

0.5 credit from the following:*

MATB24H3 Linear Algebra II
STAB52H3 Introduction to Probability

***Note:** In making this choice, students should consider the prerequisites of courses they plan to take to satisfy requirements 3-4.

3. C-level courses in numerical computation and theory of computing (1.0 credit)

CSCC37H3 Introduction to Numerical Algorithms for Computational Mathematics
and

0.5 credit from the following:

CSCC63H3 Computability and Computational Complexity
CSCC73H3 Algorithm Design and Analysis

4. CSC electives (1.0 credit)

1.0 credits in any C- or D-level CSC courses.

Writing Recommendation:

Students are urged to take a course from the following list of courses by the end of their second year: ANTA01H3, ANTA02H3, CLAA06H3, (CTLA19H3), CTLA01H3, ENGA10H3, ENGA11H3, ENGB06H3, ENGB07H3, ENGB08H3, ENGB17H3, ENGB19H3, ENGB50H3, (ENGB51H3), GGRA02H3, GGRA03H3, GGRB05H3, (GGRB06H3), (HISA01H3), (HLTA01H3), (HUMA01H3), (HUMA11H3), (HUMA17H3), (LGGA99H3), LINA01H3, PHLA10H3, PHLA11H3, WSTA01H3.

MAJOR (CO-OPERATIVE) PROGRAM IN COMPUTER SCIENCE (SCIENCE) - SCMAJ1688C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.uts@utoronto.ca

The Major (Co-op) Program in Computer Science is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Computer Science upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Major (Co-operative) Program in Computer Science is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major in Computer Science (Science).

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB56H3/(COPB51H3)**

Work Term Search Courses:

- **COPB57H3/(COPB52H3)** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MINOR PROGRAM IN COMPUTER SCIENCE (SCIENCE) - SCMIN1688

Supervisor of Studies: R. Pancer (416-287-7679) Email: pancer@utsc.utoronto.ca

Program Objectives

This program provides a basic introduction to the tools and methodologies of computer science and equips students with the knowledge necessary to use the tools and methodologies as they relate to other subjects. The program is intended to complement programs in other disciplines.

Enrolment Requirements

Enrolment in the Minor in Computer Science is limited.

Students may apply to enter the program after completing 4.0 credits, and must have passed the following CSC and MAT courses: [CSCA08H3](#), [CSCA48H3](#), and [one of: [CSCA67H3](#), [MATA22H3](#), [MATA23H3](#)]. Admission will be based on academic performance in these A-level courses. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Students in the Minor may take a maximum of 3 CSC elective courses (1.5 credits) at the C-level and D-level.

Program Requirements

This program may not be combined with any Major or Specialist Program in Computer Science, Mathematics or Statistics. It requires 4.0 credits as follows:

1. Introductory programming courses, 1.0 credit as follows:

[CSCA08H3](#) Introduction to Computer Science I*

[CSCA48H3](#) Introduction to Computer Science II

***Note:** [CSCA20H3](#) may be substituted for [CSCA08H3](#) with permission of the Supervisor of Studies.

2. Basic mathematics courses, 0.5 credit from the following:

[CSCA67H3](#) Discrete Mathematics

[MATA22H3](#) Linear Algebra I for Mathematical Sciences

[MATA23H3](#) Linear Algebra I

[MATA30H3](#) Calculus I for Physical Sciences

[MATA31H3](#) Calculus I for Mathematical Sciences

[MATA34H3](#) Calculus for Management

3. Intermediate programming, systems, and theory courses, 1.5 credits from the following:

[CSCB07H3](#) Software Design

[CSCB09H3](#) Software Tools and Systems Programming

[CSCB20H3](#) Introduction to Databases and Web Applications

[CSCB36H3](#) Introduction to the Theory of Computation**

[CSCB58H3](#) Computer Organization

[CSCB63H3](#) Design and Analysis of Data Structures***

****Note:** [CSCB36H3](#) requires [CSCA67H3](#)

*****Note:** [CSCB63H3](#) requires [CSCB36H3](#)

4. CSC electives, 1.0 credit as follows:

Any C- or D-level CSC courses*

***Note:** Some C- or D-level courses have prerequisites that would have to be taken *in addition* to the 4 credits required for this program. Check the prerequisites carefully before selecting courses to satisfy this requirement.

Computer Science Courses

CSCA08H3 - Introduction to Computer Science I

Programming in an object-oriented language such as Python. Program structure: elementary data types, statements, control flow, functions, classes, objects, methods. Lists; searching, sorting and complexity. This course is intended for students having a serious interest in higher level computer science courses, or planning to complete a computer science program.

Prerequisite: Grade 12 Calculus and Vectors and [one other Grade 12 mathematics course or CTL Math Preparedness course with additional resources for CMS students].

Exclusion: CSCA20H3, CSC108H, CSC110H, CSC120H. CSCA08H3 may not be taken after or concurrently with CSCA48H3. CSC110H cannot be taken after or concurrently with CSC111H.

Breadth Requirements: Quantitative Reasoning

Note: This course does not require any prior exposure to computer programming.

CSCA20H3 - Introduction to Programming

An introduction to computer programming, with an emphasis on gaining practical skills. Introduction to

programming, software tools, database manipulation. This course is appropriate for students with an interest in programming and computers who do not plan to pursue a Computer Science program.

Exclusion: CSCA08H3, CSC108H, CSC110H, CSC120H. CSC110H cannot be taken after or at the same time as CSC111H.

Breadth Requirements: Quantitative Reasoning

Note: This course does not require any prior exposure to computer programming.

CSCA48H3 - Introduction to Computer Science II

Abstract data types and data structures for implementing them. Linked data structures. Object Oriented Programming. Encapsulation and information-hiding. Testing. Specifications. Analyzing the efficiency of programs. Recursion.

Prerequisite: CSCA08H3

Exclusion: CSC148H, CSC111H

Breadth Requirements: Quantitative Reasoning

CSCA67H3 - Discrete Mathematics

Introduction to discrete mathematics: Elementary combinatorics; discrete probability including conditional probability and independence; graph theory including trees, planar graphs, searches and traversals, colouring. The course emphasizes topics of relevance to computer science, and exercises problem-solving skills and proof techniques such as well ordering, induction, contradiction, and counterexample.

Same as MATA67H3

Prerequisite: Grade 12 Calculus and Vectors and one other Grade 12 mathematics course

Exclusion: (MATA67H3), (CSCA65H3), CSC165H, CSC240H, MAT102H

Recommended Preparation: CSCA08H3 or CSCA20H3

Breadth Requirements: Quantitative Reasoning

CSCB07H3 - Software Design

An introduction to software design and development concepts, methods, and tools, using a statically-typed object-oriented language such as Java. Topics from: version control, build management, unit testing, refactoring, object-oriented design and development, design patterns and advanced IDE usage.

Prerequisite: CSCA48H3 and [CGPA of at least 3.5, or enrolment in a CSC Subject POST, or enrolment in a non-CSC Subject POST for which this specific course is a program requirement]

Exclusion: CSC207H

Breadth Requirements: Quantitative Reasoning

CSCB09H3 - Software Tools and Systems Programming

Software techniques in a Unix-style environment, using scripting languages and a machine-oriented programming language (typically C). What goes on in the system when programs are executed. Core topics: creating and using software tools, pipes and filters, file processing, shell programming, processes, system calls, signals, basic network programming.

Prerequisite: CSCA48H3 and [CGPA of at least 3.5, or enrolment in a CSC Subject POST, or enrolment in a non-CSC Subject POST for which this specific course is a program requirement]

Exclusion: CSC209H

Breadth Requirements: Quantitative Reasoning

CSCB20H3 - Introduction to Databases and Web Applications

A practical introduction to databases and Web app development. Databases: terminology and applications; creating, querying and updating databases; the entity-

relationship model for database design. Web documents and applications: static and interactive documents; Web servers and dynamic server-generated content; Web application development and interface with databases.

Prerequisite: Some experience with programming in an imperative language such as Python, Java or C.

Exclusion: This course may not be taken after - or concurrently with - any C- or D-level CSC course.

Recommended Preparation: CSCA08H3 or CSCA20H3

Breadth Requirements: Quantitative Reasoning

CSCB36H3 - Introduction to the Theory of Computation

Mathematical induction with emphasis on applications relevant to computer science. Aspects of mathematical logic, correctness proofs for iterative and recursive algorithms, solutions of linear and divide-and-conquer recurrences, introduction to automata and formal languages.

Prerequisite: CSCA48H3 and [(CSCA65H3) or CSCA67H3] and [CGPA of at least 3.5, or enrolment in a CSC Subject POST, or enrolment in a non-CSC Subject POST for which this specific course is a program requirement]

Exclusion: CSC236H, CSC240H

Breadth Requirements: Quantitative Reasoning

CSCB58H3 - Computer Organization

Principles of the design and operation of digital computers. Binary data representation and manipulation, Boolean logic, components of computer systems, memory technology, peripherals, structure of a CPU, assembly languages, instruction execution, and addressing techniques. There are a number of laboratory periods in which students conduct experiments with digital logic circuits.

Prerequisite: [CSCA48H3 or PHYB57H3/(PSCB57H3)] and [CGPA of at least 3.5, or enrolment in a CSC Subject POST, or enrolment in a non-CSC Subject POST for which this specific course is a program requirement]

Exclusion: CSC258H

Breadth Requirements: Quantitative Reasoning

CSCB63H3 - Design and Analysis of Data Structures

Design, analysis, implementation and comparison of efficient data structures for common abstract data types. Priority queues: heaps and mergeable heaps. Dictionaries: balanced binary search trees, B-trees, hashing. Amortization: data structures for managing dynamic tables and disjoint sets. Data structures for representing graphs. Graph searches.

Prerequisite: CSCB36H3 and [CGPA of at least 3.5, or enrolment in a CSC Subject POST, or enrolment in a non-CSC Subject POST for which this specific course is a program requirement]

Corequisite: STAB52H3

Exclusion: CSC263H, CSC265H

Breadth Requirements: Quantitative Reasoning

CSCC01H3 - Introduction to Software Engineering

Introduction to software development methodologies with an emphasis on agile development methods appropriate for rapidly-moving projects. Basic software development infrastructure; requirements elicitation and tracking; prototyping; basic project management; basic UML; introduction to software architecture; design patterns; testing.

Prerequisite: CSCB07H3, CSCB09H3, and [CGPA of at least 3.5, or enrolment in a CSC Subject POST, or enrolment in a non-CSC Subject POST for which this specific course is a program requirement]

Exclusion: CSC301H, (CSCC40H3), (CSCD08H3)

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

CSCC09H3 - Programming on the Web

An introduction to software development on the web. Concepts underlying the development of programs that operate on the web. Operational concepts of the internet and the web, static and dynamic client content, dynamically served content, n-tiered architectures, web development processes and security on the web.

Prerequisite: CSCB09H3 and [CGPA 3.5 or enrolment in a CSC Subject POST]

Corequisite: CSCC43H3

Exclusion: CSC309H

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

CSCC10H3 - Human-Computer Interaction

The course will provide an introduction to the field of Human-Computer Interaction (HCI) with emphasis on guidelines, principles, methodologies, and tools and techniques for analyzing, designing and evaluating user interfaces. Subsequent topics include usability assessment of interactive systems, prototyping tools, information search and visualization, mobile devices, social media and social networking, and accessibility factors.

Prerequisite: CSCB07H3 and [CGPA 3.5 or enrolment in a CSC Subject POST]

Exclusion: CCT380H, CSC318H

Breadth Requirements: Quantitative Reasoning

CSCC11H3 - Introduction to Machine Learning and Data Mining

An introduction to methods for automated learning of relationships on the basis of empirical data. Classification and regression using nearest neighbour methods, decision trees, linear and non-linear models, class-conditional models, neural networks, and Bayesian methods. Clustering algorithms and dimensionality reduction. Model selection. Problems of over-fitting and assessing accuracy. Problems with handling large databases.

Prerequisite: MATB24H3 and MATB41H3 and STAB52H3 and [CGPA of at least 3.5 or enrolment in a CSC Subject POST or enrolment in a non-CSC Subject POST for which this specific course is a program requirement].

Exclusion: CSC411H, (CSCD11H3)

Recommended Preparation: CSCC37H3

Breadth Requirements: Quantitative Reasoning

CSCC24H3 - Principles of Programming Languages

Major topics in the design, definition, analysis, and implementation of modern programming languages. Study of programming paradigms: procedural (e.g., C, Java, Python), functional (e.g., Scheme, ML, Haskell) and logic programming (e.g., Prolog, Mercury).

Prerequisite: CSCB07H3 and CSCB09H3 and CSCB36H3 and [CGPA 3.5 or enrolment in a CSC Subject POST]

Exclusion: CSC324H

Breadth Requirements: Quantitative Reasoning

CSCC37H3 - Introduction to Numerical Algorithms for Computational Mathematics

An introduction to computational methods for solving problems in linear algebra, non-linear equations, approximation and integration. Floating-point arithmetic; numerical algorithms; application of numerical software packages.

Prerequisite: MATA22H3 and [MATA36H3 or MATA37H3] and [CGPA of at least 3.5 or enrolment in a CSC Subject POST or enrolment in a non-CSC Subject POST for which this specific course is a program requirement]

Exclusion: (CSCC36H3), (CSCC50H3), (CSCC51H3), CSC336H, CSC350H, CSC351H, CSC338H

Breadth Requirements: Quantitative Reasoning

CSCC43H3 - Introduction to Databases

Introduction to database management systems. The relational data model. Relational algebra. Querying and updating databases: the SQL query language. Application programming with SQL. Integrity constraints, normal forms, and database design. Elements of database system technology: query processing, transaction management.

Prerequisite: CSCB09H3 and CSCB63H3 and [CGPA 3.5 or enrolment in a CSC Subject POST]

Exclusion: CSC343H

Breadth Requirements: Quantitative Reasoning

CSCC46H3 - Social and Information Networks

How networks underlie the social, technological, and natural worlds, with an emphasis on developing intuitions for broadly applicable concepts in network analysis. Topics include: introductions to graph theory, network concepts, and game theory; social networks; information networks; the aggregate behaviour of markets and crowds; network dynamics; information diffusion; popular concepts such as "six degrees of separation", the "friendship paradox", and the "wisdom of crowds".

Prerequisite: CSCB63H3 and STAB52H3 and [MATA22H3 or MATA23H3] and [a CGPA of 3.5 or enrolment in a CSC Subject POST]

Breadth Requirements: Quantitative Reasoning

CSCC63H3 - Computability and Computational Complexity

Introduction to the theory of computability: Turing machines, Church's thesis, computable and non-computable functions, recursive and recursively enumerable sets, reducibility. Introduction to complexity theory: models of computation, P, NP, polynomial time reducibility, NP-completeness, further topics in complexity theory.

Note: Although the courses CSCC63H3 and CSCC73H3 may be taken in any order, it is recommended that CSCC73H3 be taken first.

Prerequisite: CSCB36H3 and CSCB63H3 and [CGPA of at least 3.5, or enrolment in a CSC Subject POST, or enrolment in a non-CSC Subject POST for which this specific course is a program requirement]

Exclusion: CSC363H, CSC365H, CSC364H

Breadth Requirements: Quantitative Reasoning

CSCC69H3 - Operating Systems

Principles of operating systems. The operating system as a control program and as a resource allocator. The concept of a process and concurrency problem:

synchronization, mutual exclusion, deadlock. Additional topics include memory management, file systems, process scheduling, threads, and protection.

Prerequisite: [CSCB07H3](#) and [CSCB09H3](#) and [CSCB58H3](#) and [CGPA 3.5 or enrolment in a CSC Subject POST]

Exclusion: CSC369H

Breadth Requirements: Quantitative Reasoning

CSCC73H3 - Algorithm Design and Analysis

Standard algorithm design techniques: divide-and-conquer, greedy strategies, dynamic programming, linear programming, randomization, and possibly others.

Prerequisite: [CSCB63H3](#) and [STAB52H3](#) and [CGPA of at least 3.5 or enrolment in a CSC Subject POST or enrolment in a non-CSC Subject POST for which this specific course is a program requirement]

Exclusion: CSC373H, CSC375H, CSC364H

Breadth Requirements: Quantitative Reasoning

CSCC85H3 - Fundamentals of Robotics and Automated Systems

The course introduces the fundamental principles, problems, and techniques involved in the operation of mobile robots and other automated systems. Course topics include: components of automated systems, sensors and sensor management, signal acquisition and noise reduction, principles of robot localization, FSM-based A.I. for planning, fault-tolerance and building fault-tolerant systems, real-time operation and real-time operating systems; and computational considerations such as hardware limitations and code optimization. Ethical considerations in the implementation and deployment of automated systems are discussed. The concepts covered in the course are put in practice via projects developed on a Lego robotic platform.

Prerequisite: [CSCB58H3](#) and [CSCB09H3](#) and [CGPA 3.5 or enrolment in a CSC Subject POST]

Exclusion: ECE385H

Recommended Preparation: [CSCB07H3](#)

Breadth Requirements: Quantitative Reasoning

CSCD01H3 - Engineering Large Software Systems

An introduction to the theory and practice of large-scale software system design, development, and deployment. Project management; advanced UML; requirements engineering; verification and validation; software architecture; performance modeling and analysis; formal methods in software engineering.

Prerequisite: [CSCC01H3](#) and [CGPA 3.5 or enrolment in a CSC Subject POST]

Exclusion: CSC302H, (CSCD08H3)

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

CSCD03H3 - Social Impact of Information Technology

The trade-offs between benefits and risks to society of information systems, and related issues in ethics and public policy. Topics will include safety-critical software; invasion of privacy; computer-based crime; the social effects of an always-online life; and professional ethics in the software industry. There will be an emphasis on current events relating to these topics.

Prerequisite: 14.0 credits and enrolment in a Computer Science Subject POST. Restricted to students in the Specialist/Specialist Co-op programs in Computer Science or in the Specialist/Specialist Co-op programs in Management and Information Technology

Exclusion: CSC300H

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

CSCD18H3 - Computer Graphics

The course will cover in detail the principles and algorithms used to generate high-quality, computer generated images for fields as diverse as scientific data visualization, modeling, computer aided design, human computer interaction, special effects, and video games. Topics covered include image formation, cameras and lenses, object models, object manipulation, transformations, illumination, appearance modeling, and advanced rendering via ray-tracing and path-tracing. Throughout the course, students will implement a working rendering engine in a suitable programming language.

Prerequisite: [MATB24H3](#) and [MATB41H3](#) and [[CSCB09H3](#) or proficiency in C] and [CSCC37H3](#) and [a CGPA of at least 3.5 or enrolment in a Computer Science Subject POST]

Exclusion: (CSC418H1)/CSC317H1

Breadth Requirements: Quantitative Reasoning

CSCD21H3 - Blockchains and Decentralized Applications

The course is meant to expose students to Web3 by covering the technical aspects of blockchain technologies and smart contracts. The course will have three learning outcomes. First, the students will learn how to build blockchains based on different consensus. Secondly, they will learn how to develop decentralized applications using smart contracts. Finally, they will learn about the current challenges of blockchain technologies such as scalability, interoperability and privacy.

Prerequisite: CSCC09H3

Breadth Requirements: Quantitative Reasoning

CSCD25H3 - Advanced Data Science

This course teaches the basic techniques, methodologies, and ways of thinking underlying the application of data science and machine learning to real-world problems. Students will go through the entire process going from raw data to meaningful conclusions, including data wrangling and cleaning, data analysis and interpretation, data visualization, and the proper reporting of results. Special emphasis will be placed on ethical questions and implications in the use of AI and data. Topics include data pre-processing, web scraping, applying supervised and unsupervised machine learning methods, treating text as data, A/B testing and experimentation, and data visualization.

Prerequisite: CSCB63H3 and CSCC11H3 and [a CGPA of 3.5 or enrolment in a CSC Subject POST]

Breadth Requirements: Quantitative Reasoning

CSCD27H3 - Computer and Network Security

Public and symmetric key algorithms and their application; key management and certification; authentication protocols; digital signatures and data integrity; secure network and application protocols; application, system and network attacks and defences; intrusion detection and prevention; social engineering attacks; risk assessment and management.

Prerequisite: CSCB09H3 and CSCB36H3 and CSCB58H3 and [CGPA of at least 3.5 or enrolment in a CSC Subject POST]

Exclusion: CSC427H

Recommended Preparation: CSCC69H3

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

CSCD37H3 - Analysis of Numerical Algorithms for Computational Mathematics

Most mathematical models of real systems cannot be solved analytically and the solution of these models must be approximated by numerical algorithms. The efficiency, accuracy and reliability of numerical algorithms for several classes of models will be considered. In particular, models involving least squares, non-linear equations, optimization, quadrature, and systems of ordinary differential equations will be studied.

Prerequisite: CSCC37H3 and MATB24H3 and MATB41H3 and [CGPA of at least 3.5 or enrolment in a CSC Subject POST or enrolment in a non-CSC Subject POST for which this specific course is a program requirement]

Exclusion: (CSCC50H3), (CSCC51H3), CSC350H, CSC351H

Breadth Requirements: Quantitative Reasoning

CSCD43H3 - Database System Technology

Implementation of database management systems. Storage management, indexing, query processing, concurrency control, transaction management. Database systems on parallel and distributed architectures. Modern database applications: data mining, data warehousing, OLAP, data on the web. Object-oriented and object-relational databases.

Prerequisite: CSCC43H3 and CSCC69H3 and CSCC73H3 and [CGPA 3.5 or enrolment in a CSC Subject POST]

Exclusion: CSC443H

Breadth Requirements: Quantitative Reasoning

CSCD54H3 - Technology Innovation and Entrepreneurship

This course examines high-Tech innovation and entrepreneurship, principles of operation of successful high-tech enterprises, customer identification and validation, product development, business models, lean startup techniques, and financing of high-technology ventures. Students will work in teams to develop their own innovative product idea, and will produce a sound business plan to support their product.

Prerequisite: A minimum of 2.5 credits at the B-level or higher in CSC courses

Corequisite: CSCD90H3

Exclusion: CSC454H

Breadth Requirements: Social and Behavioural Sciences

Note: Restricted to students in the Entrepreneurship stream of the Specialist/Specialist Co-op programs in Computer Science. If space permits, students in other streams of the Specialist/Specialist Co-op programs in Computer Science may be admitted to the course, with the permission of the instructor.

CSCD58H3 - Computer Networks

Computer communication network principles and practice. The OSI protocol-layer model; Internet application layer and naming; transport layer and congestion avoidance; network layer and routing; link layer with local area networks, connection-oriented protocols and error detection and recovery; multimedia networking with quality of service and multicasting. Principles in the context of the working-code model implemented in the Internet.

Prerequisite: CSCB58H3 and CSCB63H3 and STAB52H3 and [CGPA 3.5 or enrolment in a CSC Subject POST]

Exclusion: CSC458H

Breadth Requirements: Quantitative Reasoning

CSCD70H3 - Compiler Optimization

The goal of this course is to examine the design and implementation of a compiler optimized for modern parallel architectures. Students will learn about common optimizations, intermediate representations (IRs), control-flow and dataflow analysis, dependence graphs, instruction scheduling, and register allocation. Advanced topics include static single assignment, memory hierarchy optimizations and parallelization, compiling for multicore machines, memory dependence analysis, automatic vectorization/thread extraction, and predicated/speculative execution.

Prerequisite: CSCB63H3 and CSCC69H3 and [CGPA 3.5 or enrolment in a CSC Subject POST]

Breadth Requirements: Quantitative Reasoning

CSCD71H3 - Topics in Computer Science

A topic from computer science, selected by the instructor, will be covered.

The exact topic will typically change from year to year.

Prerequisite: Permission of the instructor and [CGPA 3.5 or enrolment in a CSC Subject POST]. Normally intended for students who have completed at least 8 credits.

CSCD72H3 - Topics in the Theory of Computing

A topic from theoretical computer science, selected by the instructor, will be covered.

The exact topic will typically change from year to year.

Prerequisite: Permission of the instructor and [CGPA 3.5 or enrolment in a CSC Subject POST]. Normally intended for students who have completed at least 8 credits.

CSCD84H3 - Artificial Intelligence

A study of the theories and algorithms of Artificial Intelligence. Topics include a subset of: search, game playing, logical representations and reasoning, planning, natural language processing, reasoning and decision making with uncertainty, computational perception, robotics, and applications of Artificial Intelligence. Assignments provide practical experience of the core topics.

Prerequisite: STAB52H3 and CSCB63H3 and [a CGPA of 3.5 or enrolment in a CSC subject POST]

Exclusion: CSC484H, CSC384H

Breadth Requirements: Quantitative Reasoning

CSCD90H3 - The Startup Sandbox

In this capstone course, students will work in teams to develop a viable product prototype following the methodologies and techniques covered in CSCD54H3. Students will produce written reports, short videos pitching their idea, and a final presentation showcasing their proposed innovation, as it would be pitched to potential investors. The course instructor and TAs will provide close supervision and mentorship throughout the project.

Prerequisite: A minimum of 2.5 credits at the B-level or higher in CSC courses

Corequisite: CSCD54H3

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

Note: Restricted to students in the Entrepreneurship stream of the Specialist/Specialist Co-op programs in Computer Science. If space permits, students in other streams of the Specialist/Specialist Co-op programs in Computer Science may be admitted to the course, with the permission of the instructor.

CSCD92H3 - Readings in Computer Science

Students will examine an area of interest through reading papers and texts. This course is offered by arrangement with a computer science faculty member. It may be taken in any session, and must be completed by the last day of classes in the session in which it is taken.

Prerequisite: Students must obtain consent from the Supervisor of Studies before registering for this course.

Breadth Requirements: Quantitative Reasoning

Note: UTSC students interested in Computer Science reading or project courses must enroll using the following course codes: CSCD92H3, CSCD94H3 or CSCD95H3, regardless of whether these courses are instructed by faculty from UTSC, UTSG, or UTM.

CSCD94H3 - Computer Science Project

A significant project in any area of computer science. The project may be undertaken individually or in small groups. This course is offered by arrangement with a computer science faculty member, at U of T Scarborough or the St. George campus. This course may be taken in any session and the project must be completed by the last day of classes in the session in which it is taken. Students must obtain consent from the Supervisor of Studies before registering for this course.

Prerequisite: [Three C-level CSC courses] and [permission of the Supervisor of Studies] and [CGPA 3.0 or enrolment in a CSC Subject POST]

Enrolment procedures: Project supervisor's note of agreement must be presented to the Supervisor of Studies, who must issue permission for registration.

Exclusion: CSC494H

Breadth Requirements: Quantitative Reasoning

Note: UTSC students interested in Computer Science reading or project courses must enroll using the following course codes: CSCD92H3, CSCD94H3 or CSCD95H3, regardless of whether these courses are instructed by faculty from UTSC, UTSG, or UTM.

CSCD95H3 - Computer Science Project

Same description as CSCD94H3. Normally a student may not take two project half-courses on closely related topics or with the same supervisor.

If an exception is made allowing a second project on a topic closely related to the topic of an earlier project, higher standards will be applied in judging it. We expect that a student with the experience of a first project

completed will be able to perform almost at the level of a graduate student.

Prerequisite: CSCD94H3 Enrolment procedures: Project supervisor's note of agreement must be presented to the Supervisor of Studies, who must issue permission for registration.

Exclusion: CSC495H

Breadth Requirements: Quantitative Reasoning

Note: UTSC students interested in Computer Science reading or project courses must enroll using the following course codes: CSCD92H3, CSCD94H3 or CSCD95H3, regardless of whether these courses are instructed by faculty from UTSC, UTSG, or UTM.

Concurrent Teacher Education

The Concurrent Teacher Education Program (CTEP) is suspended to new enrolments. Students who are already enrolled in the Program should consult the 2013-14 *Calendar*.

Curatorial Studies

Faculty List

- Y. Gu, M.Phil., Ph.D. (London), Associate Professor
- E. Harney, M.A. (Harvard), M.A. (Washington), Ph.D. (London), Associate Professor
- A. Irving, B.F.A. (Nova Scotia College of Art and Design), M.F.A. (York), Associate Professor, Teaching Stream
- A. MacDonald, B.A. (York), AOCAD, Associate Professor, Teaching Stream
- E. Webster, B.A., M.A. (Toronto), Ph.D. (Case Western Reserve), Associate Professor, Teaching Stream

ACM Program Manager: Email: acm-pm@utsc.utoronto.ca

The Minor in Curatorial Studies is suspended to new enrolments. Students who are already enrolled in the Program should consult the 2019-20 *Calendar*.

Curatorial Studies Courses

CRTB01H3 - Introduction to Curating Art

An introduction to the theory, ethics and contexts of art museum/gallery curatorial practice. Emphasis on communication through exploring interpretations and considering ethical practice. Students will learn specialized knowledge, resources, references and methodologies and explore professional and academic responsibilities of art-based curatorial work.

Prerequisite: Any 2.0 credits at A-level

Exclusion: (VPHB72H3), FAH301H5, FAH310H5

Breadth Requirements: Arts, Literature and Language

Note: Restricted to students who have completed the A-level courses in the Major or Specialist programs in Art History, Arts Management, Studio Art, or Media Studies. Priority will be given to students enrolled in the Minor in Curatorial Studies. Additional students will be admitted as space permits.

CRTC72H3 - Art, the Museum, and the Gallery

Art and the settings in which it is seen in cities today. Some mandatory classes to be held in Toronto museums and galleries, giving direct insight into current exhibition practices and their effects on viewer's experiences of art; students must be prepared to attend these classes. Same as [VPHC72H3](#)

Prerequisite: [CRTB01H3](#) and [CRTB02H3](#)

Exclusion: [VPHC72H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

CRTC80H3 - Curator as Artist; Artist as Curator

Viewed from an artist's perspective, this course considers the exhibition as medium, and curating as a creative act. By studying the history of exhibitions organized by artists and artist collectives, this course considers their influence on contemporary curatorial practice with a focus on historical and contemporary Canadian exhibitions.

Prerequisite: [CRTB01H3](#)

Breadth Requirements: Arts, Literature and Language

Note: Priority will be given to students enrolled in programs in Curatorial Studies, Art History and Visual Culture, Arts Management, Media Studies, and Studio Art.

CRTD43H3 - Curating Contemporary Art

Curatorial practice and the responsibilities of the curator, such as the intellectual and practical tasks of producing a contemporary art exhibition, researching Canadian contemporary art and artists, building a permanent collection, administering a public art competition, and critical writing about works of visual art in their various contexts. Studio and/or gallery visits required.

Prerequisite: 11.0 credits including [VPHB39H3](#) and [CRTB01H3](#) and [CRTB02H3](#)

Exclusion: (VPHD43H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

CRTD44H3 - Curating Historical Art

Time and history bring different factors to our understanding and interpretation of artworks. Students will explore both intellectual and practical factors concerning curating historical art, from conservation, research, and handling issues to importance of provenance, collecting,

and display, through workshops, critical writing and discussion, field trips, and guest speakers.

Prerequisite: 11.0 credits including VPHB39H3, CRTB01H3 and CRTB02H3

Exclusion: (VPHD44H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

VPHB40H3 - Exhibiting Art

This course offers a critical look at ways of exhibiting art, including exploring the exhibitions and collection of the

Doris McCarthy Gallery and the public sculptures located on campus. Through readings, discussions and site visits we will consider the nature of exhibitions, their audiences and current practices juxtaposed with investigations of the history and practice of display.

Prerequisite: VPHA46H3

Exclusion: VPSB73H3, (VPHB71H3), FAH310H

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Diaspora and Transnational Studies

Program Advisor Email: dts-advisor@utsc.utoronto.ca

The Major and Minor Programs in Diaspora and Transnational Studies are suspended to new enrolments. Students who are already enrolled in these programs should consult the 2013-14 *Calendar*.

Diaspora and Transnational Studies Courses

DTSB01H3 - Introduction to Diaspora and Transnational Studies I

An interdisciplinary introduction to the study of diaspora, with particular attention to questions of history, globalization, cultural production and the creative imagination. Material will be drawn from Toronto as well as from diasporic communities in other times and places.

Exclusion: DTS200Y, DTS201H

Breadth Requirements: Social and Behavioural Sciences

Note: It is recommended that students take [DTSB01H3](#) in their second year of study.

DTSB02H3 - Introduction to Diaspora and Transnational Studies II

A continuation of [DTSB01H3](#). An interdisciplinary introduction to the study of diaspora, with particular attention to questions of history, globalization, cultural production and the creative imagination. Material will be drawn from Toronto as well as from diasporic communities in other times and places.

Prerequisite: It is recommended that [DTSB01H3](#) and [DTSB02H3](#) be taken in the same academic year.

Exclusion: DTS200Y, DTS202H

Breadth Requirements: Social and Behavioural Sciences

Double Degree Programs

The Double Degree programs create an accelerated pathway for students who would otherwise have to complete two separate Specialist programs. Students are required to complete a total of 25.0 credits, and can complete both undergraduate programs and degrees within five years, without compromising their learning experience.

1. The Department of Computer and Mathematical Sciences, in partnership with the Department of Management offers the following Double Degree programs:
 - Double Degree: BBA, Specialist Program in Management and Finance/Honours BSc, Specialist Program in Statistics, Quantitative Finance Stream
 - Double Degree: BBA, Specialist (Co-op) Program in Management and Finance/Honours BSc, Specialist (Co-op) Program in Statistics, Quantitative Finance Stream
2. The Department of English, in partnership with the Department of Psychology, offers the following Double Degree program:
 - Double Degree: Honours BA, Specialist program in English/Honours BSc, Specialist program in Psychology

Double Degree Programs

DOUBLE DEGREE: HONOURS BA, SPECIALIST PROGRAM IN ENGLISH / HONOURS BSc, SPECIALIST PROGRAM IN PSYCHOLOGY

This Double Degree program creates an accelerated pathway for students who would otherwise have to complete two separate Specialist programs and two separate degrees. It will provide students with a thorough, interdisciplinary education in both literary studies and Psychology. The Double Degree program takes advantage of existing synergies to allow students to complete both undergraduate programs and degrees within five years, without compromising on the core requirements of either program.

Enrolment Requirements

Enrolment in the Double Degree is limited.

Admission will require: (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and (b.) completion of Grade 12 U/M high school biology or equivalent (or BIOA12H3 or equivalent), and (c.) completion of a minimum of 4.0 credits, including ENGA01H3, ENGA02H3, PSYA01H3, and PSYA02H3, and (d.) a final grade of 75% or higher in both PSYA01H3 and PSYA02H3.

Students should apply to the program before they have completed 7.5 credits; however, students who have completed between 7.5 and 10.0 credits may apply to the program on a case-by-case basis by petitioning the program supervisor. Students who have completed more than 10.0 credits may not apply to the program. Application for admission will be made to the Office of the Registrar through ACORN in March/April and June/July.

Program Requirements

This program requires the completion of 25.0 credits, including at least 7.0 credits at the C-level and at least 3.5 credits at the D-level.

Psychology Courses (10.5 credits)

1. Introduction to Psychology (1.0 credit):PSYA01H3 Introduction to Biological and Cognitive PsychologyPSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology**2. Laboratory Methods (1.5 credits):**PSYB70H3 Methods in Psychological SciencePSYC70H3 Advanced Research Methods Laboratory

and 0.5 credit from among the following:

- PSYC71H3 Social Psychology Laboratory- PSYC72H3 Developmental Psychology Laboratory- PSYC74H3 Human Movement Laboratory- PSYC75H3 Cognitive Psychology Laboratory- PSYC76H3 Brain Imaging Laboratory**3. Statistical Methods (1.0 credit):**PSYB07H3 Data Analysis in Psychology[PSYC08H3 Advanced Data Analysis in Psychology or PSYC09H3 Applied Multiple Regression in Psychology]**4. PSYC02H3 Scientific Communication in Psychology (0.5 credit)****5. PSYC01H3/(PSYC85H3) History of Psychology (0.5 credit)****6. Breadth in Psychology at the B-level and C-level (4.0 credits):**

Students are required to take 2.0 credits at the B- or C-level from each of the content groups listed below:

(a) Social and Developmental (PSY courses listed in the 10- and 20-series)

(b) Perception, Cognition and Physiology (PSY courses listed in the 50- and 60-series)

7. Seminars in Psychology at the D-level (1.0 credit):

Students must take 0.5 credit from each grouping below:

(a) Social and Developmental (PSY courses listed in the 10- and 20-series)

(b) Perception, Cognition and Physiology (PSY courses listed in the 50- and 60-series)

8. Additional 1.0 credit in Psychology at the B- or C-level (1.0 credit)Of the 1.0 credit, at least 0.5 credit must be at the C-level. Supervised study courses [PSYC90H3 or PSYC93H3] may be used to fulfill a maximum of 0.5 credit.**English Courses (10.0 credits)**

Of the 10.0 credits, at least 3.0 credits must be at the C-level and 1.5 credits at the D-level.

1. All of the following (2.5 credits):ENGA01H3 What is Literature?ENGA02H3 Critical Writing About LiteratureENGB27H3 Charting Literary History IENGB28H3 Charting Literary History IIENG15H3 Introduction to Literary Theory and Criticism**2. 1.0 additional credits from courses whose content is pre-1900 (1.0 credit)***See the English Course List for pre-1900 courses**3. 0.5 additional credit in Indigenous Literatures of Turtle Island (0.5 credit)***See the English Course List for courses in Indigenous Literatures of Turtle Island**4. 0.5 credit in Canadian Literature (0.5 credit)***See the English Course List for courses in Canadian Literature**5. 5.5 additional credits in ENG or FLM courses (5.5 credits)****Notes:**(1.) Students may count no more than one of the following courses towards the Specialist requirements: ENGB35H3 Children's Literature, (ENGB36H3) Detective Fiction, (ENGB41H3) Science Fiction.(2.) The following courses do not count towards any English programs: ENG100H, ENG185Y.

Additional Psychology/English Courses (2.0 credits)

Students must complete a further 2.0 credits. Courses selected to complete this component can be in either English or Psychology or a combination of the two.

1. 1.0 credit at the C- or D-level in PSY and/or ENG courses**2. Capstone Requirement (1.0 credit)**

Students must choose one of the options listed below:

ENGD26Y3 Independent Studies in Creative Writing: Poetry

ENGD27Y3 Independent Studies in Creative Writing: Prose

ENGD28Y3 Independent Studies in Creative Writing: Special Topics

ENG98Y3 Senior Essay and Capstone Seminar

PSYD98Y3 Thesis in Psychology

DOUBLE DEGREE: BBA, SPECIALIST PROGRAM IN MANAGEMENT AND FINANCE / HONOURS BSc, SPECIALIST PROGRAM IN STATISTICS, QUANTITATIVE FINANCE STREAM

Academic Directors:

S. Ahmed Email: mgmtss.uts@utoronto.ca (BBA)

S. Damouras Email: sotirios.damouras@utoronto.ca (BSc)

This Double Degree program combines the Specialist Program in Management and Finance and the Specialist Program in Statistics, Quantitative Finance stream. Students completing the Double Degree program will qualify to graduate with two-degree designations – the Bachelor of Business Administration (BBA) and the Honours Bachelor of Science (BSc), assuming all other degree criteria are met.

Enrolment Requirements

Enrolment in this Double Degree program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English, Grade 12 Advanced Functions, and Grade 12 Calculus & Vectors. Applicants must also submit a Supplementary Application Form.

Course Guidelines for Students Admitted to the Double Degree Program Directly from High School

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA22H3, MATA31H3, MATA37H3, MATA67H3/CSCA67H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students already pursuing a BBA program and degree may apply to enter the Double Degree program. The application can be made before the end of the Winter semester and/or before the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request. Students considering switching to the Double Degree program should consult with the Academic Directors as soon as possible.

The minimum Cumulative Grade Point Average (CGPA) for admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed at least 5.0 credits (none of which can be designated as CR/NCR), including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGTA38H3, MATA22H3, MGHA12H3, MATA31H3, MATA37H3, and MATA67H3/CSCA67H3.

Students who have taken MATA34H3 or [(MATA30H3 or (MATA32H3)) and ((MATA33H3) or MATA36H3)] instead of [(MATA31H3 and MATA37H3)] can still apply to the Double Degree program if they are taking or plan to take MATA37H3 at the time of application and could receive admission conditional on their grade in MATA37H3 being above a threshold to be specified each year.

Notes:

1. Students MUST complete the pre-requisite of MATA67H3/CSCA67H3 in order to take MATA37H3.
2. MATA34H3 is not a substitute for MATA31H3. Students who have completed MATA34H3 will be required to take MATA31H3 as an Extra (EXT) course before taking MATA37H3.

Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be admitted to the Double Degree program. For those who apply with more than 5.0 credits, their CGPA at the time of application will be calculated with more weight assigned to the required courses listed under the 5.0 credits.

CGPA Requirement to Remain in the Double Degree (Specialist Programs)

In order to remain in the Double Degree, students must maintain a CGPA of 2.0 or higher after having attempted at least 4.0 credits. Students whose CGPA falls below 2.1 (but not below 2.0) will have the opportunity to move to either the non Co-op BBA Specialist Program in Management and Finance, or the non Co-op BSc Specialist Program in Statistics, Quantitative Finance stream. If they choose to stay in the Double Degree program and their CGPA falls below 2.0, they will be removed from the Double Degree program. Students removed from the program for this reason may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Program Requirements

The Double Degree program requires the completion of 25.0 credits. 21.5 credits are core program requirements as listed below, and 3.5 further credits are required to complete degree requirements.

NOTES:

1. Students who have taken STAB52H3 and STAB57H3 and then transfer to any other BBA program must also take MGEB12H3 to fulfill the program requirements.
2. A single course may only be used once to fulfill one of the following program requirements.

1. Communications requirement (0.5 credit)

MGTA38H3 Management Communications

2. Management requirements (5.0 credits)

MGAB01H3 Introductory Financial Accounting I
MGAB02H3 Introductory Financial Accounting II
MGAB03H3 Introductory Management Accounting
MGHB02H3 Managing People and Groups in Organizations
MGHA12H3 Human Resource Management
MGHC02H3 Management Skills
MGMA01H3 Principles of Marketing
MGMB01H3 Marketing Management
MGOC10H3 Analysis for Decision-Making
MGOC20H3 Operations Management: A Mathematical Approach

3. Science requirements (9.0 credits)

CSCA08H3 Introduction to Computer Science I
(MATA67H3)/CSCA67H3 Discrete Mathematics
CSCC37H3 Introduction to Numerical Algorithms for Computational Mathematics
MATA22H3 Linear Algebra I for Mathematical Sciences
MATA31H3 Calculus I for Mathematical Sciences
MATA37H3 Calculus II for Mathematical Sciences
MATB24H3 Linear Algebra II
MATB41H3 Techniques of the Calculus of Several Variables I
MATB42H3 Techniques of the Calculus of Several Variables II
MATB44H3 Differential Equations I
MATB61H3 Linear Programming and Optimization
MATC46H3 Differential Equations II
STAB52H3 An Introduction to Probability
STAB57H3 An Introduction to Statistics
STAC62H3 Probability and Stochastic Processes I

STAC67H3 Regression Analysis
STAD37H3 Multivariate Analysis
STAD57H3 Time Series Analysis

4. Economics requirements (2.0 credits)

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach
MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach
MGEB02H3 Price Theory: A Mathematical Approach
MGEB06H3 Macroeconomic Theory and Policy: A Mathematical Approach

5. Finance requirements (3.0 credits)

MGFB10H3 Principles of Finance
MGFC10H3 Intermediate Finance
[MGFC30H3 Introduction to Derivatives Markets or STAB41H3 Financial Derivatives]
MGFC35H3/(MGFD10H3) Investments
STAC70H3 Statistics and Finance I
STAD70H3 Statistics and Finance II

6. At least four courses (2.0 credits):

Any C- or D- level Finance courses (MGF) and/or MGEC71H3 Money and Banking.

NOTE: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the Degree Requirements section of this *Calendar*.

DOUBLE DEGREE: BBA, SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND FINANCE / HONOURS BSc, SPECIALIST (CO-OPERATIVE) PROGRAM IN STATISTICS, QUANTITATIVE FINANCE STREAM

Assistant Director: P. Brown Email: mgmtcoop.utsc@utoronto.ca

Academic Directors:

S. Ahmed Email: mgmtss.utsc@utoronto.ca (BBA)

S. Damouras Email: sotirios.damouras@utoronto.ca (BSc)

The Double Degree program combines the Specialist (Co-operative) Program in Management and Finance and the Specialist (Co-operative) Program in Statistics, Quantitative Finance stream. Students completing the Double Degree program will qualify to graduate with two degree designations – the Bachelor of Business Administration (BBA) and the Honours Bachelor of Science (BSc), assuming all other degree criteria are met.

The Double Degree program is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as finance, insurance, data analytics, accounting, consulting, business intelligence, marketing, policy, strategic planning and entrepreneurship. The Double Degree program will equip students with a comprehensive understanding of financial markets, and develop the business and quantitative skills required to function in them.

The Double Degree program operates on a trimester schedule, featuring three terms (Fall, Winter and Summer) in each Calendar year. Students work or study in all three terms for five years, or until graduation requirements are met. It requires 11 four-month terms of study and 3 four-month work terms.

Enrolment Requirements

Enrolment in the Double Degree program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English, Grade 12 Advanced Functions, and Grade 12 Calculus & Vectors. Applicants must also submit a Supplementary Application Form.

Course Guidelines for Students Admitted to Double Degree Program Directly from High School:

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA22H3, MATA31H3, MATA37H3, MATA67H3/CSCA67H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students already pursuing a BBA program and degree may apply to enter this Double Degree program. The application can be made before the end of the Winter semester and/or before the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request. Students considering switching to the Double Degree program should consult with the Academic Directors as soon as possible.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed at least 5.0 credits (none of which can be designated as CR/NCR), including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGTA38H3, MATA22H3, MATA31H3, MATA37H3, and MATA67H3/CSCA67H3.

Students who have taken MATA34H3 or [(MATA30H3 or (MATA32H3)) and ((MATA33H3) or MATA36H3)] instead of [MATA31H3 and MATA37H3] can still apply to the Double Degree program if they are taking or plan to take MATA37H3 at the time of application and could receive admission conditional on their grade in MATA37H3 being above a threshold to be specified each year.

Notes:

1. Students MUST complete the pre-requisite of MATA67H3/CSCA67H3 in order to take MATA37H3.
2. MATA34H3 is not a substitute for MATA31H3. Students who have completed MATA34H3 will be required to take MATA31H3 as an Extra (EXT) course before taking MATA37H3.

Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be able to apply to the Double Degree Program. For those who apply with more than 5.0 credits, their CGPA at the time of application will be calculated with more weight assigned to the required courses listed under the 5.0 credits.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar [website](#). For information on what to include in your resume and covering letter, visit the Management Co-op [website](#). An interview may also be required.

CGPA Requirement to Remain in the Double Degree Co-op Program

Students must maintain a CGPA of 2.5 or higher. Students whose CGPA falls below 2.5 will be placed on probation. Students on probation will be reinstated to the Double Degree program if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.5. Students who cannot get out of probation in two consecutive sessions, or whose CGPA falls below 2.3, will be removed from the Double Degree Co-op Program. Students removed from the Double Degree (Specialist Co-op Programs) can pursue the Double Degree (Specialist Programs), or one of its non Co-op constituent programs (i.e., the BBA Specialist Program in Management and Finance, or the BSc Specialist Program in Statistics, Quantitative Finance stream).

Program Requirements

The Double Degree program requires the completion of 25.0 credits. 21.5 credits are core program requirements as listed below, and 3.5 further credits are required to complete degree requirements.

NOTES:

1. Students who have taken STAB52H3 and STAB57H3 and then transfer to any other BBA program must also take MGEA12H3 to fulfill the program requirements.
2. A single course may only be used once to fulfill one of the following program requirements.

1. Communications requirement (0.5 credit)MGTA38H3 Management Communications**2. Management requirements (5.0 credits)**MGAB01H3 Introductory Financial Accounting IMGAB02H3 Introductory Financial Accounting IIMGAB03H3 Introductory Management AccountingMGHB02H3 Managing People and Groups in OrganizationsMGHA12H3 Human Resource ManagementMGHC02H3 Management SkillsMGMA01H3 Principles of MarketingMGMB01H3 Marketing ManagementMGOC10H3 Analysis for Decision-MakingMGOC20H3 Operations Management: A Mathematical Approach**3. Science requirements (9.0 credits)**CSCA08H3 Introduction to Computer Science I(MATA67H3)/CSCA67H3 Discrete MathematicsCSCC37H3 Introduction to Numerical Algorithms for Computational MathematicsMATA22H3 Linear Algebra I for Mathematical SciencesMATA31H3 Calculus I for Mathematical SciencesMATA37H3 Calculus II for Mathematical ScienceMATB24H3 Linear Algebra IIMATB41H3 Techniques of the Calculus of Several Variables IMATB42H3 Techniques of the Calculus of Several Variables IIMATB44H3 Differential Equations IMATB61H3 Linear Programming and OptimizationMATC46H3 Differential Equations IISTAB52H3 An Introduction to ProbabilitySTAB57H3 An Introduction to StatisticsSTAC62H3 Probability and Stochastic Processes ISTAC67H3 Regression AnalysisSTAD37H3 Multivariate AnalysisSTAD57H3 Time Series Analysis**4. Economics requirements (2.0 credits)**MGEA02H3 Introduction to Microeconomics: A Mathematical ApproachMGEA06H3 Introduction to Macroeconomics: A Mathematical ApproachMGEB02H3 Price Theory: A Mathematical ApproachMGEB06H3 Macroeconomic Theory and Policy: A Mathematical Approach**5. Finance requirements (3.0 credits)**MGFB10H3 Principles of FinanceMGFC10H3 Intermediate Finance[MGFC30H3 Introduction to Derivatives Markets or STAB41H3 Financial Derivatives]MGFC35H3/(MGFD10H3) InvestmentsSTAC70H3 Statistics and Finance ISTAD70H3 Statistics and Finance II**6. At least four courses (2.0 credits):**Any C- or D-level Finance courses (MGF) and/or MGEC71H3 Money and Banking.**NOTE:** In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the Degree Requirements section of this *Calendar*.**Co-op Work Term Requirements**

All Double Degree program Co-op students must take MGTA38H3 prior to commencement of their first work term. Students are advised to consult regularly with the Assistant Director or the Academic Directors, if they have questions regarding course selection and scheduling. It is however the students' individual responsibility to ensure that they have

completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June, and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:
 - a. 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, MATA22H3, MATA31H3 and MATA37H3.
 - b. The Management Co-op Advancing Your Career Exploration Courses (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3
2. For the second work term: 9.0 credits.
3. For the third work term: 11.0 credits.

For information on fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section of this *Calendar*.

Economics for Management Studies

Faculty List

- I. Au, B.A., M.A., Ph.D. (Simon Fraser), Professor, Teaching Stream
- M. Campolieti, B.Sc., M.A., Ph.D. (Toronto), Professor
- L. Cavenaile, M.A. (Liège), M.Sc. (Maastricht), Ph.D. (New York), Assistant Professor
- A. Chandra, B.A. (India), M.A., Ph.D. (Illinois), Associate Professor
- E. Dhuey, B.A. (Colorado), M.A., Ph.D. (California), Professor
- A.M. Franco, B.A. (California), M.A., Ph.D. (Rochester), Professor
- G. Frazer, B. Math. (Waterloo), B.Ed. (Western), M.A. (Toronto), M.Phil., Ph.D. (Yale), Associate Professor
- R. Gillezeau, B.A. (McMaster) Ph.D. (Michigan), Assistant Professor
- J. Hicks, B.A. (Mount Allison) M.A. (Queen's), Ph.D. (British Columbia), Assistant Professor
- H. Krashinsky, B.A. (Queen's), M.A., Ph.D. (Princeton), Associate Professor
- M. Krashinsky, S.B. (M.I.T.), M.Phil., Ph.D. (Yale), Professor
- A. Mazaheri, B.A. (Imam Sadegh), M.A., Ph.D. (Toronto), Associate Professor, Teaching Stream
- J. Parkinson, Hon B.A. (Western), M.A., Ph.D. (Toronto), Associate Professor, Teaching Stream
- P. Medina Quispe, B.A. (PUCP-Peru), M.A., Ph.D. (Duke), Assistant Professor

Chair: A. Franco, mgtchair.uts@utoronto.ca

Economics studies how consumers and producers interact in a market economy to provide goods and services. Economics also studies how this process grows and changes over time, and under what circumstances it may fail to function in an optimal fashion. Economic policies to remedy those failures are also examined.

In the Department of Management, the study of Economics is oriented primarily to the needs of students interested in management studies. Therefore, many of our examples will focus on the ways in which firms and consumers in market economies interact. However, students interested in the wide variety of problems considered by Economists will find those matters are also addressed in our courses.

Economics plays a significant role within the various programs leading to the B.B.A. degree. The curriculum provides an excellent background for careers in business, government, and the professions, and may be of considerable interest to students specializing in other disciplines as well. Students may focus their study of economics in the Specialist/Specialist (Co-op) Program in Economics for Management Studies as part of the B.B.A. or may either major or minor in Economics as part of the B.A. degree.

Students wishing to pursue a graduate program in Economics may require some additional courses such as advanced microeconomics, advanced macroeconomics, and others. Students should consult with the Academic Director in Economics at the University of Toronto Scarborough for advice on selecting appropriate courses for graduate studies.

Programs in Economics for Management Studies

Some students are directly admitted from high school, but generally, most students apply to the program at the end of their first year. Later admission is also possible. Students should consult the detailed discussion below.

The following programs are offered:

1. The Specialist Program in Economics for Management Studies leads to a Bachelor of Business Administration (B.B.A.) and provides a specialization for students wishing for a substantial component of Economics in a Management degree. For full Program details, see the [Management](#) section of this Calendar.
2. The Specialist (Co-op) Program in Economics for Management Studies leads to a Bachelor of Business Administration (B.B.A.) and provides a specialization for students wishing for a substantial component of Economics in a Management degree. This Program includes Co-op work terms. For Program details, see the [Management](#) section of this *Calendar*.
3. The Major Program in Economics for Management Studies. Enrolment in this program is limited. This program is described below.

4. The Minor Program in Economics for Management Studies. Enrolment in this program is unlimited. However, students are cautioned that they will not have guaranteed admission to most of the B-level and C-level Economic courses, and will only be accommodated after the Specialist and Major Program students have been admitted. This program is described below.
5. The Major and Minor programs in Economics for Management Studies cannot be combined.
6. The Major program in Economics for Management Studies cannot be combined with any Specialist Program in Management (BBA).

Courses in Economics for Management Studies

Students who are enrolled in a Specialist or a Major program in the Department of Management will have guaranteed access to enough courses in Economics for Management Studies to complete their programs. To protect that access, program students must register early during the enrolment priority period. After the enrolment priority period ends other students are given access to Economics for Management Studies courses based on academic merit. Students not formally admitted to a Specialist or Major program in the Management Department will likely experience difficulty in gaining access to enough courses to complete an Economics for Management Studies program.

Enrolment in MGEB02H3, MGEB06H3, MGEB11H3, MGEB12H3, MGEC02H3, MGEC06H3, MGEC11H3, MGED11H3, MGED02H3 and MGED06H3 will be strictly limited to students who either are (1) enrolled in Specialist or Major programs offered by the Department of Management, or (2) meet the academic merit criteria.

Courses From Other Disciplines That May Be Counted Towards the Major and Minor Programs in Economics for Management Studies

The following courses may be counted as B-level credits in the Major Program in Economics for Management Studies and the Minor Program in Economics for Management Studies.

CITC18H3 - see the City Studies section of the *Calendar*

GGRC27H3 - see the Geography section of the *Calendar*

IDSB01H3 - see the International Development Studies section of the *Calendar*

IDSC12H3 - see the International Development Studies section of the *Calendar*

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course CTLB03H3, which can be found in the Teaching and Learning section of the *Calendar*.

Economics for Management Studies Programs

MAJOR PROGRAM IN ECONOMICS FOR MANAGEMENT STUDIES (ARTS) - SCMAJ0133

Academic Director: A. Mazaheri Email: ecoss@utsc.utoronto.ca

This Program is designed to give a coordinated exposure to the subject matter of Economics for Management Studies to students pursuing a four-year degree with more than a single area of concentration.

Enrolment Requirements

Enrolment in this Program is limited. Students must have completed a minimum of 4.0 credits, including MGEA02H3, MGEA06H3, and MATA34H3 or [[MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3] and [MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3]]. Decisions are made by the Academic Director, on the basis of the Cumulative Grade Point Average (CGPA).

Students may apply until they have completed up to 10.0 credits, and admission will be on the basis of all grades

received. Students who have completed more than 10.0 credits will not be considered for admission to the Program. Students are cautioned that the Mathematics requirement implies that Grade 12 Calculus is a requirement for entry into this program.

Program Requirements

The Program consists of a total of 8.0 credits, and must include:

0.5 credit in Mathematics

MATA34H3 Calculus for Management

Required Economics Courses (4.5 credits)

MGEA02H3 and MGEA06H3

MGEB02H3 and MGEB06H3

MGEB11H3 and MGEB12H3

MGEC02H3 and MGEC06H3

MGEC11H3

2.0 credits from Economics for Management Studies courses including 1.5 credits at the C-level (or higher) [excluding MGEC91H3, MGEC92H3, and MGEC93H3].

1.0 credit in any economics courses offered by the Department of Management; OR any courses offered by the Department of Language Studies, Department of Arts, Culture and Media, Department of English, Department of Historical and Cultural Studies, and the Department of Philosophy.

Students must also complete MATA34H3 or [MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3] and [MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3].

Note: Students who take MGEA01H3 and MGEA05H3 and then decide to apply to this program will be permitted to substitute MGEA01H3 and MGEA05H3 for [MGEA02H3 & MGEA06H3]. However, these students will be required to complete MATA34H3 or [MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3] and [MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3], **before** registering in MGEB02H3, MGEB06H3, MGEB11H3, and MGEB12H3.

STUDENTS WHO ARE CONSIDERING COMBINING PROGRAMS BETWEEN ECONOMICS AND STATISTICS

For students who are intending to pursue a major in Economics with a major or minor in Statistics, we advise the following recommended sequence of required courses. If the sequence outlined below is not followed, it may result in the student taking exclusions and incurring an "EXTRA" credit. An "EXTRA" credit does NOT count towards the 20-credit degree requirement.

1) Students in the Minor Program in Applied Statistics and the Major Program in Economics should take (in order)

MGEB11H3

MGEB12H3

MGEC11H3*

2) Students in all other Statistics programs and the Major Program in Economics should take (in order).

STAB52H3 or STAB53H3

STAB57H3

MGEB12H3

MGEC11H3*

STAC67H3

* MGEC11H3 may be taken concurrently with STAC67H3. However, if MGEC11H3 is taken after STAC67H3, it will count as an "EXTRA" course and no credit will be given for the degree requirements.

MINOR PROGRAM IN ECONOMICS FOR MANAGEMENT STUDIES (ARTS) - SCMIN0133

Academic Director: A. Mazaheri Email: ecoss@utsc.utoronto.ca

This program is designed to give exposure to the subject matter in some areas of Economics to students who combine the Minor with other programs in order to graduate (see the Degrees section of this *Calendar* for information). Students need not have completed Grade 12 Calculus in order to enter this program.

Enrolment in this Program is unlimited and does not require training in Calculus. However, students are cautioned that they are not guaranteed admission to most of the B-level, C-level, and D-level courses. Students in the Minor will be accommodated only after students in the Specialist and Major programs have been admitted to these courses; therefore, many courses may be unavailable. Students will note that some of the B- and C-level courses in Economics for Management Studies do require Calculus; therefore, students in the Minor Program must choose their courses carefully to ensure that they have the necessary prerequisites.

Program Requirements

The program consists of 4.0 credits in Economics for Management Studies as follows:

MGEA01H3 or MGEA02H3
MGEA05H3 or MGEA06H3
MGEB01H3 or MGEB02H3
MGEB05H3 or MGEB06H3

and

2.0 credits in Economics for Management Studies including 1.0 credit at the C-level.

Note: Students are warned that they are not guaranteed admission to most of the B-level and C-level courses. The following C-level courses, MGEC91H3, MGEC92H3 & MGEC93H3, are available to students in the minor program at the beginning of the registration period.

Note: Students may if they wish, count STAB22H3, (ANTC35H3), PSYB07H3 or (SOCB06H3) or a more advanced statistics course as one half credit B-level Economics course in the Minor Program in Economics for Management Studies. While it is not required, students are strongly encouraged to include a statistics course in the program.

Economics for Management Studies Courses

MGEA01H3 - Introduction to Microeconomics

Economic theory of the firm and the consumer. Although calculus is not used in this course, algebra and graphs are used extensively to illuminate economic analysis.

Note: This course is not for students interested in applying to the Specialists in Management and Economics leading to the B.B.A or for the Major program in Economics.

Exclusion: MGEA02H3, ECO100Y1, ECO105Y1, ECO101H5

Breadth Requirements: Social and Behavioural Sciences

MGEA02H3 - Introduction to Microeconomics: A Mathematical Approach

Economic theory of the firm and the consumer. Calculus, algebra and graphs are used extensively. The course is oriented towards students interested in the Specialist Program in Management, the Specialist program in Economics for Management Studies, and the Major Program in Economics for Management Studies.

Exclusion: MGEA01H3, ECO100Y1, ECO105Y1, ECO101H5

Recommended Preparation: Completion of Grade 12 Calculus is strongly recommended. It is also recommended that MATA34H3 (or equivalents) be taken simultaneously with MGEA02H3 and MGEA06H3.

Breadth Requirements: Social and Behavioural Sciences

MGEA05H3 - Introduction to Macroeconomics

Topics include output, employment, prices, interest rates and exchange rates. Although calculus is not used in this course, algebra and graphs are used extensively to illuminate economic analysis.

Note: This course is not for students interested in applying to the Specialists in Management and Economics leading to the B.B.A or for the Major program in Economics.

Exclusion: MGEA06H3, ECO100Y1, ECO105Y1, ECO102H5

Breadth Requirements: Social and Behavioural Sciences

MGEA06H3 - Introduction to Macroeconomics: A Mathematical Approach

Study of the determinants of output, employment, prices, interest rates and exchange rates. Calculus, algebra and graphs are used extensively. The course is oriented towards students interested in the Specialist Program in Management, the Specialist program in Economics for Management Studies, and the Major Program in Economics for Management Studies.

Exclusion: MGEA05H3, ECO100Y1, ECO105Y1, ECO102H5

Recommended Preparation: Completion of Grade 12 Calculus is strongly recommended. It is also recommended that MATA34H3 (or equivalents) be taken simultaneously with MGEA02H3 and MGEA06H3.

Breadth Requirements: Social and Behavioural Sciences

MGEB01H3 - Price Theory

This course covers the intermediate level development of the principles of microeconomic theory. The emphasis is on static partial equilibrium analysis. Topics covered include: consumer theory, theory of production, theory of the firm, perfect competition and monopoly. This course does not qualify as a credit for either the Major in Economics for Management Studies or the B.B.A.

Prerequisite: MGEA01H3 or MGEA02H3 and MGEA05H3 or MGEA06H3

Exclusion: MGEB02H3, ECO200Y1, ECO204Y1, ECO206Y1

Breadth Requirements: Social and Behavioural Sciences

MGEB02H3 - Price Theory: A Mathematical Approach

Intermediate level development of the principles of microeconomic theory. The course will cover the same

topics as MGEB01H3 but will employ techniques involving calculus so as to make the theory clearer to students. Enrolment is limited to students registered in programs requiring this course.

Prerequisite: MGEA02H3 and MGEA06H3 and MATA34H3 or MGEA02H3 and MGEA06H3 and MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3 and MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3.

Exclusion: MGEB01H3, ECO200Y1, ECO204Y1, ECO206Y1

Breadth Requirements: Social and Behavioural Sciences

Note: 1. Students who have completed MGEA01H3 and MGEA05H3 and MATA34H3 or MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3 and MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3 may be admitted with the permission of the Academic Director, Economics. 2. MGEB01H3 is not equivalent to MGEB02H3

MGEB05H3 - Macroeconomic Theory and Policy

Intermediate level development of the principles of macroeconomic theory. Topics covered include: theory of output, employment and the price level. This course does not qualify as a credit for either the Major in Economics for Management Studies or for the B.B.A.

Prerequisite: MGEA01H3 or MGEA02H3 and MGEA05H3 or MGEA06H3

Exclusion: MGEB06H3, ECO202Y1, ECO208Y1, ECO209Y1

Breadth Requirements: Social and Behavioural Sciences

MGEB06H3 - Macroeconomic Theory and Policy: A Mathematical Approach

Intermediate level development of the principles of macroeconomic theory. The course will cover the same topics as MGEB05H3 but will employ techniques involving calculus so as to make the theory clearer to students. Enrolment is limited to students registered in programs requiring this course.

Prerequisite: MGEA02H3 and MGEA06H3 and MATA34H3 or MGEA02H3 and MGEA06H3 and MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3 and MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3.

Exclusion: MGEB05H3, ECO202Y1, ECO208Y1, ECO209Y1

Breadth Requirements: Social and Behavioural Sciences

Note: Students who have completed: MGEA01H3 and MGEA05H3 and MATA34H3 or MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3 and MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3

may be admitted with the permission of the Academic Director, Economics.

MGE11H3 - Quantitative Methods in Economics I

An introduction to probability and statistics as used in economic analysis. Topics to be covered include: descriptive statistics, probability, special probability distributions, sampling theory, confidence intervals. Enrolment is limited to students registered in programs requiring this course.

Prerequisite: [MGEA02H3 and MGEA06H3 and MATA34H3] or [MGEA02H3 and MGEA06H3 and [MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3] and [MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3]].

Exclusion: (ANTC35H3), ECO220Y1, ECO227Y1, PSYB07H3, (SOCB06H3), STAB22H3, STAB23H3, STAB52H3, STAB53H3, STAB57H3, STA107H5, STA237H1, STA247H1, STA246H5, STA256H5, STA257H1

Breadth Requirements: Quantitative Reasoning

Note: Students who have completed: [MGEA01H3 and MGEA05H3 and MATA34H3] or [[MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3] and [MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3]] may be admitted with the permission of the Academic Director, Economics.

MGE12H3 - Quantitative Methods in Economics II

A second course in probability and statistics as used in economic analysis. Topics to be covered include: confidence intervals, hypothesis testing, simple and multiple regression. Enrolment is limited to students registered in programs requiring this course.

Prerequisite: MGE11H3 or STAB57H3

Exclusion: ECO220Y1, ECO227Y1, STAB27H3, STAC67H3

Breadth Requirements: Quantitative Reasoning

Note: 1. STAB27H3 is not equivalent to MGE12H3.

2. Students are expected to have completed MGEA02H3 and MGEA06H3 (or equivalent) before taking MGE12H3.

MGE31H3 - Public Decision Making

A study of decision-making by governments from an economic perspective. The course begins by examining various rationales for public involvement in the economy and then examines a number of theories explaining the way decisions are actually made in the public sector. The course concludes with a number of case studies of Canadian policy making.

Prerequisite: [MGEA01H3 or MGEA02H3] and [MGEA05H3 or MGEA06H3]

Breadth Requirements: Social and Behavioural Sciences

MGE32H3 - Economic Aspects of Public Policy

Cost-Benefit Analysis (CBA) is a key policy-evaluation tool developed by economists to assess government policy alternatives and provide advice to governments. In this course, we learn the key assumption behind and techniques used by CBA and how to apply these methods in practice.

Prerequisite: [MGEA01H3 or MGEA02H3] and [MGEA05H3 or MGEA06H3]

Corequisite: MGE10H3 or MGE12H3

Breadth Requirements: Social and Behavioural Sciences

MGE02H3 - Topics in Price Theory

Continuing development of the principles of microeconomic theory. This course will build on the theory developed in MGE01H3. Topics will be chosen from a list which includes: monopoly, price discrimination, product differentiation, oligopoly, game theory, general equilibrium analysis, externalities and public goods. Enrolment is limited to students registered in programs requiring this course.

Prerequisite: MGE01H3

Exclusion: MGE09H3, ECO200Y1, ECO204Y1, ECO206Y1

Breadth Requirements: Social and Behavioural Sciences

MGE06H3 - Topics in Macroeconomic Theory

Continuing development of the principles of macroeconomic theory. The course will build on the theory developed in MGE01H3. Topics will be chosen from a list including consumption theory, investment, exchange rates, rational expectations, inflation, neo-Keynesian economics, monetary and fiscal policy. Enrolment is limited to students registered in programs requiring this course.

Prerequisite: MGE01H3

Exclusion: ECO202Y1, ECO208Y1, ECO209Y1

Breadth Requirements: Social and Behavioural Sciences

MGEC08H3 - Economics of Markets and Financial Decision Making

This course covers key concepts and theories in both microeconomics and macroeconomics that are relevant to businesses and investors. Topics to be covered include the market structures; the economics of regulations; the foreign exchange market; economic growth; and policy mix under different macro settings. Aside from enhancing students' understanding of economic analyses, this course also helps students prepare for the economics components in all levels of the CFA exams.

Prerequisite: MGEB02H3 and MGEB06H3

Exclusion: MGEC41H3, MGEC92H3, MGEC93H3, ECO200Y1, ECO204Y1, ECO206Y1, ECO310H1, ECO364H1, ECO365H1

Breadth Requirements: Social and Behavioural Sciences

MGEC11H3 - Introduction to Regression Analysis

This course builds on the introductory regression analysis learned in MGEB12H3 to develop the knowledge and skills necessary to obtain and analyze cross-sectional economic data. Topics includes, multiple regression, Instrumental variables, panel data, maximum likelihood estimation, probit regression & logit regression. “R”, a standard software for econometric and statistical analysis, will be used throughout the course. By the end of the course students will learn how to estimate economic relations in different settings, and critically assess statistical results.

Prerequisite: MGEB12H3

Exclusion: ECO374H5, ECM375H5, STA302H; MGEC11H3 may not be taken after STAC67H3.

Breadth Requirements: Quantitative Reasoning

MGEC20H3 - Economics of the Media

An examination of the role and importance of communications media in the economy. Topics to be covered include: the challenges media pose for conventional economic theory, historical and contemporary issues in media development, and basic media-research techniques. The course is research-oriented, involving empirical assignments and a research essay.

Prerequisite: MGEB01H3 or MGEB02H3

Breadth Requirements: Social and Behavioural Sciences

MGEC22H3 - Behavioural Economics

Intermediate level development of the principles of behavioural economics. Behavioural economics aims to

improve policy and economic models by incorporating psychology and cognitive science into economics. The course will rely heavily on the principles of microeconomic analysis.

Prerequisite: MGEB02H3

Recommended Preparation: Grade B or higher in MGEB02H3, MGEC02H3 and the basics of game theory would be helpful.

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students who have completed MGEC02H3.

MGEC25H3 - Special Topics in Economics

This course covers special topics in an area of Economics. The specific topics will vary from year to year. It will provide students with an opportunity to explore a range of topics through the application of different economic methodologies and analyses. Also, it will highlight current faculty research expertise, and will also allow faculty to present material not covered in our existing course offerings in greater detail.

Prerequisite: MGEB02H3 and MGEB06H3

Breadth Requirements: Social and Behavioural Sciences

MGEC26H3 - Special Topics in Economics

This course covers special topics an area of economics. The specific topics will vary from year to year. It will provide students with an opportunity to explore a range of topics through the application of different economic methodologies and analyses. It will also highlight current faculty research expertise and provide an opportunity to present material not covered in our existing course offerings in greater detail.

Prerequisite: MGEB02H3 and MGEB06H3

Breadth Requirements: Social and Behavioural Sciences

MGEC31H3 - Economics of the Public Sector: Taxation

A course concerned with the revenue side of government finance. In particular, the course deals with existing tax structures, in Canada and elsewhere, and with criteria for tax design.

Prerequisite: MGEB01H3 or MGEB02H3

Exclusion: MGEC91H3, ECO336H1, ECO337H1

Breadth Requirements: Social and Behavioural Sciences

MGEC32H3 - Economics of the Public Sector: Expenditures

A study of resource allocation in relation to the public sector, with emphasis on decision criteria for public expenditures. The distinction between public and private goods is central to the course.

Prerequisite: MGEB01H3 or MGEB02H3

Exclusion: MGEC91H3, ECO336H1, ECO337H1

Breadth Requirements: Social and Behavioural Sciences

MGEC34H3 - Economics of Health Care

A study of the economic principles underlying health care and health insurance.

This course is a survey of some of the major topics in health economics. Some of the topics that will be covered will include the economic determinants of health, the market for medical care, the market for health insurance, and health and safety regulation.

Prerequisite: MGEB02H3

Exclusion: ECO369H1

Breadth Requirements: Social and Behavioural Sciences

MGEC37H3 - Law and Economics

A study of laws and legal institutions from an economic perspective. It includes the development of a positive theory of the law and suggests that laws frequently evolve so as to maximize economic efficiency. The efficiency of various legal principles is also examined. Topics covered are drawn from: externalities, property rights, contracts, torts, product liability and consumer protection, and procedure.

Prerequisite: MGEB01H3 or MGEB02H3

Exclusion: ECO320H1

Breadth Requirements: Social and Behavioural Sciences

MGEC38H3 - The Economics of Canadian Public Policy

This course provides a comprehensive study of selected Canadian public policies from an economic point of view. Topics may include environmental policy, competition policy, inflation and monetary policy, trade policy and others. We will study Canadian institutions, decision-making mechanisms, implementation procedures, policy rationales, and related issues.

Prerequisite: [MGEB01H3 or MGEB02H3] and [MGEB05H3 or MGEB06H3]

Exclusion: ECO336H1, ECO337H1

Breadth Requirements: Social and Behavioural Sciences

MGEC40H3 - Economics of Organization and Management

This course examines the economics of the internal organization of the firm. Emphasis will be on economic relationships between various parties involved in running a business: managers, shareholders, workers, banks, and government.

Topics include the role of organizations in market economies, contractual theory, risk sharing, property rights, corporate financial structure and vertical integration.

Prerequisite: MGEB01H3 or MGEB02H3

Exclusion: ECO310H1, ECO370Y5, ECO380H5

Breadth Requirements: Social and Behavioural Sciences

MGEC41H3 - Industrial Organization

This course covers the economics of the firm in a market environment. The aim is to study business behaviour and market performance as influenced by concentration, entry barriers, product differentiation, diversification, research and development and international trade. There will be some use of calculus in this course.

Prerequisite: MGEB02H3

Exclusion: MGEC08H3, MGEC92H3, ECO310H1

Breadth Requirements: Social and Behavioural Sciences

MGEC45H3 - Sports Data, Analysis and Economics

This course is intended to apply concepts of analytic management and data science to the sports world. Emphasis on model building and application of models studied previously, including economics and econometrics, is intended to deepen the students' ability to apply these skills in other areas as well. The course will address papers at the research frontier, since those papers are an opportunity to learn about the latest thinking. The papers will both be interested in sports intrinsically, and interested in sports as a way to assess other theories that are a part of business education.

Prerequisite: MGEB12H3

Exclusion: RSM314H3

Breadth Requirements: Social and Behavioural Sciences

MGEC51H3 - Labour Economics I

Applications of the tools of microeconomics to various labour market issues. The topics covered will include:

labour supply; labour demand; equilibrium in competitive and non-competitive markets; non-market approaches to the labour market; unemployment. Policy applications will include: income maintenance programs; minimum wages; and unemployment.

Prerequisite: MGEB02H3

Exclusion: ECO339H1

Breadth Requirements: Social and Behavioural Sciences

MGEC54H3 - Economics of Training and Education

This course studies the economic aspects of how individuals and firms make decisions: about education and on-the-job training. Economics and the business world consider education and training as investments. In this class, students will learn how to model these investments, and how to create good policies to encourage individuals and firms to make wise investment decisions.

Prerequisite: MGEB01H3 or MGEB02H3

Exclusion: ECO338H1, ECO412Y5

Breadth Requirements: Social and Behavioural Sciences

MGEC58H3 - Economics of Human Resource Management

This course focuses on the various methods that firms and managers use to pay, recruit and dismiss employees. Topics covered may include: training decisions, deferred compensation, variable pay, promotion theory, incentives for teams and outsourcing.

Prerequisite: MGEB02H3

Exclusion: (MGEC52H3), ECO381H5

Breadth Requirements: Social and Behavioural Sciences

MGEC61H3 - International Economics: Finance

Macroeconomic theories of the balance of payments and the exchange rate in a small open economy. Recent theories of exchange-rate determination in a world of floating exchange rates. The international monetary system: fixed "versus" flexible exchange rates, international capital movements, and their implications for monetary policy.

Prerequisite: MGEB05H3 or MGEB06H3

Exclusion: ECO230Y1, ECO365H1

Breadth Requirements: Social and Behavioural Sciences

MGEC62H3 - International Economics: Trade Theory

An outline of the theories of international trade that explain why countries trade with each other, and the welfare implications of this trade, as well as empirical tests of these theories. The determination and effects of trade policy instruments (tariffs, quotas, non-tariff barriers) and current policy issues are also discussed.

Prerequisite: MGEB02H3 or [MGEB01H3 and MATA34H3] or [MGEB01H3 and [MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3] and [MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3]]

Exclusion: MGEC93H3, ECO230Y1, ECO364H1

Breadth Requirements: Social and Behavioural Sciences

MGEC65H3 - Economics of the Environment and Climate Change

This course provides an Economic framework to understand issues around the environment and climate change. The economic toolkit to understand these issues includes externalities, tradeoffs, cost-benefit analysis, marginal analysis, and dynamic accounting. The course will cover optimal policy approaches to pollution, carbon emissions, and resource extraction. These include carbon taxes, subsidies, cap-and-trade systems, bans, and quotas. Both theoretical and empirical approaches in Economics will be discussed.

Prerequisite: MGEB02H3 and MGEB12H3

Breadth Requirements: Social and Behavioural Sciences

MGEC71H3 - Money and Banking

There will be a focus on basic economic theory underlying financial intermediation and its importance to growth in the overall economy. The interaction between domestic and global financial markets, the private sector, and government will be considered.

Prerequisite: MGEB05H3 or MGEB06H3

Exclusion: ECO349H1

Breadth Requirements: Social and Behavioural Sciences

MGEC72H3 - Financial Economics

This course introduces students to the theoretical underpinnings of financial economics. Topics covered include: intertemporal choice, expected utility, the CAPM, Arbitrage Pricing, State Prices (Arrow-Debreu security), market efficiency, the term structure of interest rates, and option pricing models. Key empirical tests are also reviewed.

Prerequisite: MGEB02H3 and MGEB06H3 and MGEB12H3

Exclusion: ECO358H1

Breadth Requirements: Social and Behavioural Sciences

MGEC81H3 - Economic Development

An introduction to the processes of growth and development in less developed countries and regions. Topics include economic growth, income distribution and inequality, poverty, health, education, population growth, rural and urban issues, and risk in a low-income environment.

Prerequisite: MGEB01H3 or MGEB02H3

Exclusion: ECO324H1

Breadth Requirements: Social and Behavioural Sciences

MGEC82H3 - International Aspects of Development Policy

This course will use the tools of economics to understand international aspects of economic development policy. Development policy will focus on understanding the engagement of developing countries in the global economy, including the benefits and challenges of that engagement. Topics to be discussed will include globalization and inequality, foreign aid, multinational corporations, foreign direct investment, productivity, regional economic integration, and the environment.

Prerequisite: MGEB01H3 or MGEB02H3

Exclusion: ECO324H1, ECO362H5

Breadth Requirements: Social and Behavioural Sciences

MGEC91H3 - Economics and Government

This course provides an overview of what governments can do to benefit society, as suggested by economic theory and empirical research. It surveys what governments actually do, especially Canadian governments. Efficient methods of taxation and methods of controlling government are also briefly covered.

Note: This course may be applied to the C-level course requirements of the Minor Program in Economics for Management Studies. It may not, however, be used to meet the requirements of any program that leads to a B.B.A. or of the Major Program in Economics for Management Studies.

Prerequisite: MGEB01H3 or MGEB02H3

Exclusion: MGEC31H3, MGEC32H3, ECO336Y5, ECO336H1, ECO337H1

Breadth Requirements: Social and Behavioural Sciences

MGEC92H3 - Economics of Markets and Pricing

The course builds on MGEB01H3 or MGEB02H3 by exposing students to the economics of market structure and pricing. How and why certain market structures, such as monopoly, oligopoly, perfect competition, etc., arise. Attention will also be given to how market structure, firm size and performance and pricing relate. Role of government will be discussed.

Note: This course may be applied to the C-level course requirements of the Minor Program in Economics for Management Studies. It may not, however, be used to meet the requirements of any program that leads to a B.B.A. or of the Major Program in Economics for Management Studies.

Prerequisite: MGEB01H3 or MGEB02H3

Exclusion: MGEC02H3, MGEC08H3, MGEC41H3, ECO200Y1, ECO204Y1, ECO206Y1, ECO310H1, ECO310Y5

Breadth Requirements: Social and Behavioural Sciences

MGEC93H3 - International Economics

This course provides general understanding on issues related to open economy and studies theories in international trade and international finance. Topics include why countries trade, implications of various trade policies, theories of exchange rate determination, policy implications of different exchange rate regimes and other related topics.

Note: This course may be applied to the C-level course requirements of the Minor Program in Economics for Management Studies. It may not, however, be used to meet the requirements of any program that leads to a B.B.A. or of the Major Program in Economics for Management Studies.

Prerequisite: [MGEB01H3 or MGEB02H3] and [MGEB05H3 or MGEB06H3]

Exclusion: MGEC08H3, MGEC62H3, ECO230Y1, ECO364H1, ECO365H1

Breadth Requirements: Social and Behavioural Sciences

MGED02H3 - Advanced Microeconomic Theory

An upper-level extension of the ideas studied in MGEC02H3. The course offers a more sophisticated treatment of such topics as equilibrium, welfare economics, risk and uncertainty, strategic and repeated interactions, agency problems, and screening and signalling problems. Enrolment is limited to students registered in programs requiring this course.

Prerequisite: MGEB12H3 and MGEC02H3

Exclusion: ECO326H1

Breadth Requirements: Social and Behavioural Sciences

MGED06H3 - Advanced Macroeconomic Theory

This course will review recent developments in macroeconomics, including new classical and new Keynesian theories of inflation, unemployment and business cycles. Enrolment is limited to students registered in programs requiring this course.

Prerequisite: MGEB12H3 and MGEC06H3

Exclusion: ECO325H1

Breadth Requirements: Social and Behavioural Sciences

MGED11H3 - Theory and Practice of Regression Analysis

This is an advanced course building on MGEC11H3. Students will master regression theory, hypothesis and diagnostic tests, and assessment of econometric results. Treatment of special statistical problems will be discussed. Intensive computer-based assignments will provide experience in estimating and interpreting regressions, preparing students for MGED50H3. Enrolment is limited to students registered in programs requiring this course.

Prerequisite: MGEB02H3 and MGEB06H3 and MGEB11H3 and MGEB12H3 and MGEC11H3

Exclusion: ECO475H1

Breadth Requirements: Quantitative Reasoning

MGED25H3 - Advanced Special Topics in Economics

This course covers more advanced special topics an area of economics. That is, the topics covered will be more advanced than those covered by a C-level special topics course and thus have at least one specified C-level course as a listed prerequisite. The specific topics will vary from year to year. This course will provide students with an opportunity to explore a range of topics through the application of different economic methodologies and analyses. It will highlight current faculty research expertise and provide an opportunity to present material not covered in our existing course offerings in greater detail.

Prerequisite: At least 0.5 credit at the C-level in MGE courses

Breadth Requirements: Social and Behavioural Sciences

MGED26H3 - Advanced Special Topics in Economics

This course covers more advanced special topics an area of economics. That is, the topics covered will be more advanced than those covered by a C-level special topics course and thus have at least one specified C-level course as a listed prerequisite. The specific topics will vary from year to year. This course will provide students with an opportunity to explore a range of topics through the application of different economic methodologies and analyses. It will highlight current faculty research expertise and provide an opportunity to present material not covered in our existing course offerings in greater detail.

Prerequisite: At least 0.5 credit at the C-level in MGE courses

Breadth Requirements: Social and Behavioural Sciences

MGED43H3 - Organization Strategies

Explores the issue of outsourcing, and broadly defines which activities should a firm do "in-house" and which should it take outside? Using a combination of cases and economic analysis, it develops a framework for determining the "best" firm organization.

Prerequisite: MGEB02H3 and [MGEC40H3 or MGEC41H3]

Exclusion: RSM481H1

Breadth Requirements: Social and Behavioural Sciences

MGED50H3 - Workshop in Economic Research

This course introduces to students the techniques used by economists to define research problems and to do research. Students will choose a research problem, write a paper on their topic and present their ongoing work to the class.

Prerequisite: MGEB02H3 and MGEC02H3 and MGEB06H3 and MGEC06H3 and MGEB11H3 and MGEB12H3 and MGEC11H3. This course should be taken among the last 5.0 credits of a twenty-credit degree.

Corequisite: MGED11H3

Exclusion: ECO499H1

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGED63H3 - Financial Crises: Causes, Consequences and Policy Implications

This course studies the causes, consequences and policy implications of recent financial crises. It studies key theoretical concepts of international finance such as

exchange-rate regimes, currency boards, common currency, banking and currency crises. The course will describe and analyze several major episodes of financial crises, such as East Asia, Mexico and Russia in the 1990s, Argentina in the early 2000s, the U.S. and Greece in the late 2000s, and others in recent years.

Prerequisite: MGEC61H3

Breadth Requirements: Social and Behavioural Sciences

MGED70H3 - Financial Econometrics

Financial econometrics applies statistical techniques to analyze the financial data in order to solve problems in Finance. In doing so, this course will focus on four major topics: Forecasting returns, Modeling Univariate and Multivariate Volatility, High Frequency and market microstructure, Simulation Methods and the application to risk management.

Prerequisite: MGEC11H3 and [MGEC72H3 or MGFC10H3]

Exclusion: ECO462H`

Breadth Requirements: Quantitative Reasoning

MGED90H3 - Supervised Reading

These courses will normally be made available only to upper-level students whose interests are not covered by other courses and whose performance in Economics courses has been well above average. Not all faculty will be available for these courses in any single session.

Note: Students must obtain consent from the Economic, Academic Director, the supervising instructor and the Department of Management before registering for this course.

MGED91H3 - Supervised Reading

These courses will normally be made available only to upper-level students whose interests are not covered by other courses and whose performance in Economics courses has been well above average. Not all faculty will be available for these courses in any single session.

Note: Students must obtain consent from the Economic, Academic Director, the supervising instructor and the Department of Management before registering for this course.

English

Faculty List

- K. Akiwenzie-Damm, M.A. (Ottawa), Assistant Professor, Teaching Stream
- M. Assif, B.A. (Hassan II), M.A., Ph.D. (Case Western Reserve), Associate Professor, Teaching Stream
- C. Bolus-Reichert, M.A., Ph.D. (Indiana), Associate Professor
- U. Chakravarty, B.A. (Columbia), Ph.D. (Pennsylvania), Assistant Professor
- R.M. Brown, M.A., Ph.D. (Binghamton), Professor Emeritus
- M.C. Cuddy-Keane, M.A., Ph.D. (Toronto), Professor Emerita
- N. Dolan, M.A., Ph.D. (Harvard), Associate Professor
- A. DuBois, B.A. (Duke), Ph.D. (Harvard), Associate Professor
- D. Flynn, M.A., Ph.D. (Berkeley), Assistant Professor, Teaching Stream
- K. Gaston, A.B. (Princeton), M.Phil. (Cambridge), Ph.D. (Pennsylvania), Associate Professor
- M.B. Goldman, M.A. (Victoria), Ph.D. (Toronto), Professor
- S.D. King, M.A., Ph.D. (Western), Associate Professor, Teaching Stream
- N. ten Kortenaar, M.A., Ph.D. (Toronto), Professor Emeritus
- K.R. Larson, M.Phil., M.St. (Oxford), Ph.D. (Toronto), Professor
- G. Leonard, M.A., Ph.D. (Florida), Professor
- R. Lundy, M.A. (Saskatchewan), Assistant Professor, Teaching Stream
- A. Maurice, M.A., Ph.D. (Cornell), Associate Professor
- A. Milne, M.A., Ph.D. (McMaster), Assistant Professor, Teaching Stream
- I. Morra, M.A. (Queen's), Ph.D. (Toronto), Professor
- S. Nikkila, B.A. (Harvard), Ph.D. (Edinburgh), Assistant Professor, Teaching Stream
- Y. Ryzhik, Ph.D. (Harvard), Assistant Professor (CLTA)
- S. Saljoughi, B.A. (Toronto), M.A. (Ryerson), M.A. (Ryerson), Ph.D. (Minnesota), Assistant Professor
- R. Sengupta, M.A. (Delhi), M.Phil. (Jamia Millia Islamia), Ph.D. (SOAS Univ. of London), Assistant Professor
- D. Tysdal, B.A. (Regina), M.A. (Acadia), M.A. (Toronto), Professor, Teaching Stream
- K. Vernon, B.A., M.A. (Simon Fraser), Ph.D. (Victoria), Associate Professor
- L. Wey, M.A., Ph.D. (Harvard), Assistant Professor, Teaching Stream
- A. Westoll, B.Sc. (Queens), M.F.A. (UBC), Associate Professor, Teaching Stream

Undergraduate Coordinator Email: eng-ugc.utsc@utoronto.ca

For more information, [visit the Department of English website](#).

The discipline of English at UTSC offers programs in literature, creative writing, and film. Students of literature explore the rich variety of texts (including fiction, nonfiction, drama, poetry, but also the graphic novel or the narrative video game) in courses that range across centuries and across the globe. Film courses examine films, also across historical and cultural contexts. Creative writing students learn to express themselves in genres ranging from fiction to non-fiction, poetry, and screenplays. Our curriculum encourages students to think and write critically about the development and significance of the forms that writers and filmmakers work in, which are ways of seeing and expressing experience, and about the relationship between art and the world. The English programs at UTSC give students the tools to engage with the ways people have thought about, written about, and seen the world around them and, in so doing, to act in our own time through critical language and argument.

- A-level courses introduce students to the study of English, Film and Creative Writing at the university level.
- B-level courses have no prerequisites and are available both to beginners and to more advanced students.
- C-level courses are designed to build upon previous work. While they are open to all upper-level students, they presuppose some background in critical skills.
- D-level courses provide opportunities for more sophisticated studies and require some independent work on the part of the student. These courses are generally restricted in enrolment and focus on seminar discussions.

Students are advised to check the prerequisites for C- and D-level courses when planning their individual programs, and to consult with the Program Supervisor before taking courses on other campuses.

Students planning to pursue graduate studies in English are advised to include [ENG15H3](#) within their program (it is required for the English Specialist) and to consider enrolling in [ENG98Y3](#), an intensive capstone seminar that provides qualified students with the opportunity to develop a senior essay project under the supervision of a faculty member in English. The Program Supervisor is available by appointment to advise students selecting courses with graduate study in mind.

Combined Degree Programs, Honours Bachelor of Arts/Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provide students with a direct pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and Master's degree. These Combined Degree Programs allow students to complete 1.0 credit in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Program Combination Restrictions

- a. The Specialist, Major, and Minor programs in English may not be combined.
- b. The Major and Minor programs in Creative Writing may not be combined.
- c. Students may combine one of the programs in English (Specialist or Major or Minor in English) with one of the programs in Creative Writing (Major or Minor) and/or the Minor in Film Studies. Students are cautioned that there can be a maximum overlap of 1.5 credits in ENG/FLM courses taken to complete their selected programs. The possible combinations are:
 - i. The Specialist in English with the Minor in Creative Writing OR the Minor in Film Studies;
 - ii. The Major in English with the Major in Creative Writing;
 - iii. The Major in English with the Minor in Creative Writing and/or the Minor in Film Studies;
 - iv. The Major in Creative Writing with the Minor in English and/or the Minor in Film Studies.

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Guidelines for First-Year Course Selection

[ENGA01H3](#) and [ENGA02H3](#) introduce students to the study of literature at the university level and are part of the core requirements for the English Specialist, Major, and Minor.

[ENGA03H3](#) introduces students to the craft of creative writing and is required for admission to the Creative Writing programs. [ENGA10H3](#) and/or [ENGA11H3](#) provide another valuable entry point to introductory work in literary studies and are part of the core requirements for the Minor in Film Studies. All of these courses are also open to students with a general interest in English. First-year students are welcome to begin taking B-level classes alongside their introductory courses

English Courses

The following categories offer a broad orientation to English as a discipline and suggest some of our department's core areas of strength. They can be a guide for selecting related courses as students move through the program. They also highlight some of the possible routes and threads students can follow as they develop particular areas of interest.

Students should keep in mind that these categories are not mutually exclusive and that an important aspect of studying English literature involves thinking critically about the construction of historical and thematic boundaries. Students are also encouraged to develop thematic routes and threads through the program that reflect their individual areas of interest. Faculty members are available for individual consultation to discuss possibilities.

Medieval Literature

[ENGB26H3](#), [ENGB27H3](#), [ENGB31H3](#), [ENGB39H3](#), [ENG29H3](#), [ENG30H3](#), [ENG40H3](#), [ENG29H3](#), [ENG30H3](#), [ENG31H3](#)

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Double Degree Programs

DOUBLE DEGREE: HONOURS BA, SPECIALIST PROGRAM IN ENGLISH / HONOURS BSc, SPECIALIST PROGRAM IN PSYCHOLOGY

This Double Degree program creates an accelerated pathway for students who would otherwise have to complete two separate Specialist programs and two separate degrees. It will provide students with a thorough, interdisciplinary education in both literary studies and Psychology. The Double Degree program takes advantage of existing synergies to allow students to complete both undergraduate programs and degrees within five years, without compromising on the core requirements of either program.

Enrolment Requirements

Enrolment in the Double Degree is limited.

Admission will require: (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and (b.) completion of Grade 12 U/M high school biology or equivalent (or BIOA12H3 or equivalent), and (c.) completion of a minimum of 4.0 credits, including ENGA01H3, ENGA02H3, PSYA01H3, and PSYA02H3, and (d.) a final grade of 75% or higher in both PSYA01H3 and PSYA02H3.

Students should apply to the program before they have completed 7.5 credits; however, students who have completed between 7.5 and 10.0 credits may apply to the program on a case-by-case basis by petitioning the program supervisor. Students who have completed more than 10.0 credits may not apply to the program. Application for admission will be made to the Office of the Registrar through ACORN in March/April and June/July.

Program Requirements

This program requires the completion of 25.0 credits, including at least 7.0 credits at the C-level and at least 3.5 credits at the D-level.

Psychology Courses (10.5 credits)

1. Introduction to Psychology (1.0 credit):

[PSYA01H3](#) Introduction to Biological and Cognitive Psychology

[PSYA02H3](#) Introduction to Clinical, Developmental, Personality and Social Psychology

2. Laboratory Methods (1.5 credits):

[PSYB70H3](#) Methods in Psychological Science

[PSYC70H3](#) Advanced Research Methods Laboratory

and 0.5 credit from among the following:

- [PSYC71H3](#) Social Psychology Laboratory
- [PSYC72H3](#) Developmental Psychology Laboratory
- [PSYC74H3](#) Human Movement Laboratory
- [PSYC75H3](#) Cognitive Psychology Laboratory
- [PSYC76H3](#) Brain Imaging Laboratory

3. Statistical Methods (1.0 credit):

[PSYB07H3](#) Data Analysis in Psychology

[PSYC08H3](#) Advanced Data Analysis in Psychology or [PSYC09H3](#) Applied Multiple Regression in Psychology]

4. PSYC02H3 Scientific Communication in Psychology (0.5 credit)**5. PSYC01H3/(PSYC85H3) History of Psychology (0.5 credit)****6. Breadth in Psychology at the B-level and C-level (4.0 credits):**

Students are required to take 2.0 credits at the B- or C-level from each of the content groups listed below:

- (a) Social and Developmental (PSY courses listed in the 10- and 20-series)
- (b) Perception, Cognition and Physiology (PSY courses listed in the 50- and 60-series)

7. Seminars in Psychology at the D-level (1.0 credit):

Students must take 0.5 credit from each grouping below:

- (a) Social and Developmental (PSY courses listed in the 10- and 20-series)
- (b) Perception, Cognition and Physiology (PSY courses listed in the 50- and 60-series)

8. Additional 1.0 credit in Psychology at the B- or C-level (1.0 credit)

Of the 1.0 credit, at least 0.5 credit must be at the C-level. Supervised study courses [PSYC90H3 or PSYC93H3] may be used to fulfill a maximum of 0.5 credit.

English Courses (10.0 credits)

Of the 10.0 credits, at least 3.0 credits must be at the C-level and 1.5 credits at the D-level.

1. All of the following (2.5 credits):

ENGA01H3 What is Literature?

ENGA02H3 Critical Writing About Literature

ENGB27H3 Charting Literary History I

ENGB28H3 Charting Literary History II

ENG15H3 Introduction to Literary Theory and Criticism

2. 1.0 additional credits from courses whose content is pre-1900 (1.0 credit)

*See the English Course List for pre-1900 courses

3. 0.5 additional credit in Indigenous Literatures of Turtle Island (0.5 credit)

*See the English Course List for courses in Indigenous Literatures of Turtle Island

4. 0.5 credit in Canadian Literature (0.5 credit)

*See the English Course List for courses in Canadian Literature

5. 5.5 additional credits in ENG or FLM courses (5.5 credits)

Notes:

(1.) Students may count no more than one of the following courses towards the Specialist requirements: ENGB35H3 Children's Literature, (ENGB36H3) Detective Fiction, (ENGB41H3) Science Fiction.

(2.) The following courses do not count towards any English programs: ENG100H, ENG185Y.

Additional Psychology/English Courses (2.0 credits)

Students must complete a further 2.0 credits. Courses selected to complete this component can be in either English or Psychology or a combination of the two.

1. 1.0 credit at the C- or D-level in PSY and/or ENG courses**2. Capstone Requirement (1.0 credit)**

Students must choose one of the options listed below:

ENGD26Y3 Independent Studies in Creative Writing: Poetry

ENGD27Y3 Independent Studies in Creative Writing: Prose

ENGD28Y3 Independent Studies in Creative Writing: Special Topics

ENGD98Y3 Senior Essay and Capstone Seminar

PSYD98Y3 Thesis in Psychology

English Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc)/ Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBSc and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator
Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;

- carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
 - if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
 - if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
 - for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
 - for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:
 - students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

SPECIALIST PROGRAM IN ENGLISH (ARTS) - SCSPE1645

For more information, contact eng-ugc.utsc@utoronto.ca

Program Requirements

12.0 credits in English are required of which at least 3.0 credits must be at the C-level and 1.5 credits at the D-level. They should be selected as follows:

1. All of the following:

[ENGA01H3](#) What is Literature?

[ENGA02H3](#) Critical Writing About Literature

[ENGB27H3](#) Charting Literary History I

[ENGB28H3](#) Charting Literary History II

[ENG15H3](#) Introduction to Literary Theory and Criticism

2. 1.0 additional credits from courses whose content is pre-1900*

*See the [English Course List](#) for courses in pre-1900

3. 0.5 additional credit in Indigenous Literatures of Turtle Island

*See the [English Course List](#) for courses in Indigenous Literatures of Turtle Island

4. 0.5 credit in Canadian Literature*

*See the [English Course List](#) for courses in Canadian Literature

5. 7.5 additional credits in ENG or FLM courses

Note: Students may count no more than one of the following courses towards the Specialist requirements:

[ENGB35H3](#) Children's Literature

[ENGB36H3](#) Detective Fiction

[ENGB41H3](#) Science Fiction

Students may count no more than 1.0 credit of D-level independent study [[ENGD26Y3](#), [ENGD27Y3](#), [ENGD28Y3](#), [ENGD97H3](#)], ([ENGD99H3](#))] towards an English program.

The following courses do not count towards any English programs: ENG100H, ENG185Y.

SPECIALIST (CO-OPERATIVE) PROGRAM IN ENGLISH (ARTS) - SCSPE1645C

For more information, contact eng-ugc.utsc@utoronto.ca

Co-op Contact: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in English is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to English upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, plus a cumulative GPA of at least 2.50.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in English.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including ENGA01H3 and ENGA02H3, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN CREATIVE WRITING (ARTS) - SCMAJ1620

For more information, contact eng-ugc.utsc@utoronto.ca

Program email: creative-writing@utsc.utoronto.ca

The Major in Creative Writing offers students the opportunity to deepen their development as literary artists, and to gain a comprehensive historical and critical understanding of literary and creative practice. Benefiting from workshop-based courses and feedback from award-winning faculty and visiting writers, as well as from peer review, students will produce original work in a range of genres, encompassing poetry, fiction, non-fiction, screenwriting, and comics. Students will graduate with the confidence and tools they need to continue developing as writers. They will also emerge from this program with the practical knowledge and experience to professionalize their creative skills into fields as diverse as publishing, editing, communications, public relations, marketing, and advertising.

Enrolment is limited and admission is by portfolio. Students will be able to apply to the program after they have completed a minimum of 4.0 credits, including ENGA03H3.

Applicants must submit a portfolio of 15-20 pages representing their best writing in poetry, fiction (either short stories or selections from a longer work), and/or creative non-fiction; portfolios may include work completed prior to admission to UTSC. The portfolio must be accompanied by a brief letter of application (1-2 pages) addressed to the Program Advisor in Creative Writing. The letter should discuss the applicant's experience as a writer, their future goals in the creative writing program, and a work of literature that has inspired them. Portfolios should be submitted to creative-writing@utsc.utoronto.ca by the application deadlines for limited enrolment programs - normally March/April for students applying at the end of the Winter session and June/July for students applying at the end of the Summer session. Students should visit the Office of the Registrar website for exact dates.

Students who are not successful in their first attempt at applying for the program will be eligible to apply again. By the deadlines outlined above, these students must submit a **new** portfolio of 15-20 pages representing their best work in poetry, fiction (either short stories or selections from a longer work), and/or creative non-fiction. The portfolio must be accompanied by a brief letter of application (1-2 pages) addressed to the Program Advisor in Creative Writing at the email address above. The letter should discuss the applicant's experience as a writer, their future goals in the creative writing program, and a work of literature that has inspired them.

Program Requirements:

Students must complete a total of 7.5 credits, of which at least 2.0 credits must be at the C- or D-level.

1. 3.0 credits as follows:

ENGA03H3 Introduction to Creative Writing

ENGB60H3 Creative Writing: Poetry I

ENGB61H3 Creative Writing: Fiction I

ENGB63H3 Creative Writing: Non-Fiction I

[ENGC86H3 Creative Writing: Poetry II or ENGC87H3 Creative Writing: Fiction II or ENGC88H3 Creative Writing: Creative Non-Fiction II]

ENGD95H3 Creative Writing as a Profession

2. 2.0 credits to be selected from the following:

ENGC04H3 Creative Writing: Screenwriting

ENGC05H3 Creative Writing: Poetry and New Media

ENGC06H3 Creative Writing: Writing for Comics

ENGC08H3 Special Topics in Creative Writing I

ENGC24H3 Creative Writing: The Art of the Personal Essay

ENGC86H3 Creative Writing: Poetry II (if not already selected as a required course)

ENGC87H3 Creative Writing: Fiction II (if not already selected as a required course)

ENGC88H3 Creative Writing: Creative Non-Fiction II (if not already selected as a required course)

ENGC89H3 Creative Writing and Performance

ENGD22H3 Special Topics in Creative Writing II

ENGD26Y3 Independent Studies in Creative Writing: Poetry

ENGD27Y3 Independent Studies in Creative Writing: Prose

ENGD28Y3 Independent Studies in Creative Writing: Open Genre

3. 2.5 additional credits in ENG and FLM courses

MAJOR PROGRAM IN ENGLISH (ARTS) - SCMAJ1645

For more information, contact eng-ugc.uts@utoronto.ca

Program Requirements

7.5 credits in English are required They should be selected as follows:

1. 2.0 credits

ENGA01H3 What Is Literature?

ENGA02H3 Critical Writing about Literature

ENGB27H3 Charting Literary History I

ENGB28H3 Charting Literary History II

2. 0.5 additional credit from courses whose content is pre-1900*

*See the [English Course List](#) for courses in pre-1900

3. 0.5 additional credit in Indigenous Literatures of Turtle Island

*See the [English Course List](#) for courses in Indigenous Literatures of Turtle Island

4. At least 0.5 credit at the D-level in ENG or FLM courses

5. 4.0 additional credits in ENG or FLM courses of which 2.0 credits must be at the C- or D- level

Notes:

1. Students may count no more than one of the following courses towards the Major requirements: ENGB35H3 Children's Literature, ENGB36H3 Detective Fiction, ENGB41H3 Science Fiction.

2. Students may count no more than one 1.0 credit of D-level independent study [ENGD26Y3, ENGD27Y3, ENGD28Y3, (ENGD97H3), (ENGD99H3)] towards an English program.

3. The following courses do not count towards any English programs: ENG100H, ENG185Y.

MAJOR (CO-OPERATIVE) PROGRAM IN ENGLISH (ARTS) - SCMAJ1645C

For more information, contact eng-ugc.utsc@utoronto.ca

Co-op Contact: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in English is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to English upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits plus a cumulative GPA of at least 2.50.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in English.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including [ENGA01H3](#) and [ENGA02H3](#), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB58H3](#)/[COPB51H3](#)

Work Term Search Courses:

- [COPB59H3](#)/[COPB52H3](#) - Completed in the semester prior to the first work term
- [COPC98H3](#) - Taken in the semester prior to the second work term
- [COPC99H3](#) - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- [COPC01H3](#) - First work term
- [COPC02H3](#) - Second work term
- [COPC03H3](#) - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) - Fourth work term
- [COPC05H3](#) - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR PROGRAM IN FILM STUDIES (ARTS) - SCMAJ1909

The Major in Film Studies provides students with a firm understanding of the historical, aesthetic, cultural, and political contexts of cinema and moving image media. It gives students the tools they need to: analyze films closely; think critically and write persuasively about film and media; understand cinematic forms and genres; understand the history of film and media in a global context; place film and media in the contexts of social and political movements, larger discursive networks, and other forms of art and cultural production, especially literature; understand the aesthetics and politics of diverse traditions and practices in film; and use the vocabulary and research methodologies of film studies.

The program has unlimited enrolment, and students can select the Major after completing 4.0 credits. In A- and B-level courses, students receive a broad introduction to the critical study of film, the global history of cinema, and the larger cultural contexts of cinematic and literary production. In courses at the B- and C-level, students learn about various genres, traditions, and methodologies in film studies. Finally, D-level courses offer a more in-depth approach to specific topics, including a focus on directors, regions, particular practices, and specific theoretical approaches to film. This program is primarily delivered in-person, with some online delivery options for required and selected courses. Methods of assessment at the A-level and B-level include exams, short writing assignments, and collaborative projects. Assessments at the C- and D-level include research-based essays, oral presentations, collaborative projects, and, in some cases, creative/visual media assignments.

Program Requirements

Students must complete a total of 7.5 credits, to be completed as follows:

0.5 credit, as follows:

(ENGB70H3)/[FLMA70H3](#) How to Read a Film

1.5 credits, from the following:

(ENGB75H3)/[FLMB75H3](#) Cinema and Modernity I

(ENGB77H3)/[FLMB77H3](#) Cinema and Colonialism

[FLMB80H3](#) Cinema, Race, and Representation

(ENGC92H3)/[FLMC92H3](#) Film Theory

**As per UTSC's Academic Calendar conventions, courses enclosed in round brackets have been retired and are no longer offered. Students who have completed, in a previous session, a prerequisite or corequisite course that is no longer being offered may make use of the course to meet program requirements.*

4.5 credits from FLM courses and/or from the courses listed below, of which at least 2.5 credits must be at the C- or D-level, with a minimum of 0.5 credit at the D-level:

(ENGB71H3)/[FLMB71H3](#) Writing About Movies

(ENGB75H3)/[FLMB75H3](#) Cinema and Modernity (if unused in component 2)

(ENGB77H3)/[FLMB77H3](#) Cinema and Colonialism (if unused in component 2)

[FLMB80H3](#) Cinema, Race, and Representation (if unused in component 2)

(ENGC44H3)/[FLMC44H3](#) Self and Other in Literature and Film

[FLMC55H3](#) The Documentary Film

(ENGC56H3)/[FLMC56H3](#) Literature and Media: From Page to Screen

(ENGC75H3)/[FLMC75H3](#) Freaks and Geeks: Children in Contemporary Film

[ENGC78H3](#)/FLMC78H3 Dystopian Visions in Fiction and Film

[FLMC81H3](#) Topics in National Cinemas

(ENGC82H3)/[FLMC82H3](#) Topics in Cinema Studies

(ENGC83H3)/[FLMC83H3](#) World Cinema

(ENGC84H3)/[FLMC84H3](#) Cinema and Migration

(ENGC92H3)/[FLMC92H3](#) Film Theory (if unused in component 2)

(ENGC93H3)/[FLMC93H3](#) Gender and Sexuality at the Movies

(ENGC94H3)/[FLMC94H3](#) Women Directors

(ENGC95H3)/[FLMC95H3](#) Indian Cinemas: Bollywood, Before and Beyond

(ENGD52H3)/[FLMD52H3](#) Cinema: The Auteur Theory

(ENGD62H3)/[FLMD62H3](#) Topics in Postcolonial Literature and Film

(ENGD91H3)/[FLMD91H3](#) Avant-Garde Cinema

(ENGD93H3)/[FLMD93H3](#) Theoretical Approaches to Cinema

(ENGD94H3)/[FLMD94H3](#) Theories and Practices of Documentary Film

(ENGD96H3)/[FLMD96H3](#) Iranian Cinema

[ENGA10H3](#) Literature and Film for our Time: Visions and Revisions

[ENGA11H3](#) Literature and Film for our Time: Dawn of the Digital

[ENGB29H3](#) Shakespeare and Film

[ENGB74H3](#) The Body in Literature and Film

[ENGC04H3](#) Creative Writing: Screenwriting*

[MDSC85H3](#) Movies, Music and Meaning

**Please note [ENGC04H3](#) requires [ENGB61H3](#) as a prerequisite, and [ENGB61H3](#) requires [ENGA03H3](#) as a prerequisite.*

1.0 additional credit, either from unused courses from the list above in component 3 of the program requirements, and/or from the following:

[ENG41H3](#) Video Games: Exploring the Virtual Narrative
[ENG54H3](#) Gender and Genre
[ENG79H3](#) Above and Beyond: Superheroes in Fiction and Film
[MDSB63H3](#) Sound and Visual Media
[WSTB13H3](#) Feminist Critiques of Media and Culture
[WSTC22H3](#) Gender and Film

MINOR PROGRAM IN CREATIVE WRITING (ARTS) - SCMIN1620

For more information, contact eng-ugc.utsc@utoronto.ca

Program email: creative-writing@utsc.utoronto.ca

Enrolment Requirements:

Enrolment is limited and admission is by portfolio. Students will be able to apply to the program after they have completed a minimum of 4.0 credits, including [ENGA03H3](#).

Applicants must submit a portfolio of 15-20 pages representing their best writing in poetry, fiction (either short stories or selections from a longer work), and/or creative non-fiction; portfolios may include work completed prior to admission to UTSC. The portfolio must be accompanied by a brief letter of application (1–2 pages) addressed to the Program Advisor in Creative Writing. The letter should discuss the applicant's experience as a writer, their future goals in the creative writing program, and a work of literature that has inspired them.

Portfolios should be submitted to creative-writing@utsc.utoronto.ca by the application deadlines for limited enrolment programs – normally March/April for students applying at the end of the Winter session and June/July for students applying at the end of the Summer session. Students should visit the [Office of the Registrar website](#) for exact dates.

Students who are not successful in their first attempt at applying for the program, will be eligible to apply again. By the deadlines outlined above, these students must submit a new portfolio of 15-20 pages representing their best writing in poetry, fiction (either short stories or selections from a longer work), and/or creative non-fiction. The portfolio must be accompanied by a brief letter of application (1–2 pages) addressed to the Program Advisor in Creative Writing. The letter should discuss the applicant's experience as a writer, their future goals in the creative writing program, and a work of literature that has inspired them.

Program Requirements:

Students must complete 4.0 credits as follows. A maximum of 1.0 credit in creative writing courses may be taken at another campus.

1. 1.0 credit as follows:

[ENGA03H3](#) Introduction to Creative Writing
[ENGB60H3](#) Creative Writing: Poetry I or [ENGB61H3](#) Creative Writing: Fiction I]

2. 3.0 credits to be selected from the following:

[ENGB60H3](#) Creative Writing: Poetry I (if not already counted as a required course)
[ENGB61H3](#) Creative Writing: Fiction I (if not already counted as a required course)
[ENGB63H3](#) Creative Writing: Creative Nonfiction I
[ENG04H3](#) Creative Writing: Screenwriting
[ENG05H3](#) Creative Writing: Poetry, Experimentation, and Activism
[ENG06H3](#) Creative Writing: Writing for Comics
[ENG08H3](#) Special Topics in Creative Writing I
[ENG24H3](#) Creative Writing: The Art of the Personal Essay
[ENG86H3](#) Creative Writing: Poetry II
[ENG87H3](#) Creative Writing: Fiction II
[ENG88H3](#) Creative Writing: Creative Nonfiction II
[ENG89H3](#) Creative Writing and Performance
[ENG22H3](#) Special Topics in Creative Writing II

ENG26Y3 Independent Studies in Creative Writing: Poetry
ENG27Y3 Independent Studies in Creative Writing: Prose
ENG28Y3 Independent Studies in Creative Writing: Open Genre
ENG95H3 Creative Writing as a Profession

MINOR PROGRAM IN ENGLISH (ARTS) - SCMIN0226

For more information, contact eng-ugc.utsc@utoronto.ca

Program Requirements

4.0 credits in ENG or FLM courses are required. They should be selected as follows:

1. All of the following:

ENGA01H3 What is Literature?

ENGA02H3 Critical Writing About Literature

2. 3.0 additional credits in ENG or FLM courses, of which at least 1.0 credit must be at the C- level or D- level

Students may count no more than 1.0 credit of D-level independent study [ENG26Y3, ENG27Y3, ENG28Y3, ENG97H3, ENG98Y3, (ENG99H3)] towards an English program.

The following courses do not count towards any English programs: ENG100H, ENG185Y.

MINOR PROGRAM IN FILM STUDIES (ARTS) - SCMIN1909

For more information, contact eng-ugc.utsc@utoronto.ca

Program Requirements

4.0 credits in ENG/FLM are required, of which 1.0 must be at the C- or D- level.

1. 1.0 credit as follows:

FLMA70H3/(ENGB70H3) How to Read a Film

FLMB75H3/(ENGB75H3) Cinema and Modernity

2. 0.5 credit as follows:

ENGA10H3 Literature and Film for our Time: Visions and Revisions

or ENGA11H3 Literature and Film for our Time: Dawn of the Digital]

3. 1.0 credit from [FLM courses or ENGB29H3 or ENGB74H3 or ENGC04H3]

4. 1.5 additional credits from ENG or FLM courses

Note: Film courses selected from other departments and discipline will be approved for the Minor in Film Studies on a case-by-case basis.

English Courses

ENGA01H3 - What Is Literature?

This course introduces the fundamentals of studying English at the university level, and builds the skills needed to successfully navigate English degree programs as well as a liberal arts education more broadly. Students will

learn how to read texts closely and think critically; they will practice presenting their ideas in a clear, supported way; they will be exposed to a variety of texts in different forms and genres; and they will gain a working familiarity with in-discipline terminology and methodologies. Moreover, the course is an opportunity to explore the power exercised by literature on all levels of society, from the individual and personal to the political and global.

Exclusion: ENG110Y, (ENGB03H3)

Breadth Requirements: Arts, Literature and Language

ENGA02H3 - Critical Writing about Literature

This is a writing-focused, workshop-based course that provides training in critical writing about literature at the university level. Throughout the term, students will examine and develop fundamental writing skills (close reading, critical analysis, organization, argumentation, and research). Specifically, this course aims to equip students with the practical tools and confidence to consult different academic writing styles, develop thesis-driven analyses, and produce short thesis-driven papers. The course will also provide overview of library research methods, MLA-style citation guidelines, and strategies for improving the craft of writing itself (grammar and style). While this course focuses on critical writing about fiction, it will also help students develop a set of transferrable skills that may be applied to various academic and professional settings. English A02 is not a language course. All students entering the course are expected to have a basic grasp of the conventions of academic writing.

Exclusion: (ENGB05H3)

Breadth Requirements: Arts, Literature and Language

ENGA03H3 - Introduction to Creative Writing

An introduction to the fundamentals of creative writing, both as practice and as a profession. Students will engage in reading, analyzing, and creating writing in multiple genres, including fiction, poetry, nonfiction, and drama.

Prerequisite: High school English or Creative Writing

Exclusion: ENG289H1

Breadth Requirements: Arts, Literature and Language

Note: Priority will be given to students who have declared, or are considering, a Major or Minor program in Creative Writing.

ENGA10H3 - Literature and Film for Our Time: Visions and Revisions

An exploration of how literature and film reflect the artistic and cultural concerns that shaped the twentieth century.

Exclusion: ENG140Y

Breadth Requirements: Arts, Literature and Language

ENGA11H3 - Literature and Film for Our Time: Dawn of the Digital

Building on [ENGA10H3](#), this course considers how literature and film responds to the artistic, cultural, and technological changes of the late twentieth and twenty-first centuries.

Exclusion: ENG140Y

Breadth Requirements: Arts, Literature and Language

ENGB01H3 - Introduction to Indigenous Literatures of Turtle Island

This course introduces students to a diverse selection of writing by Indigenous authors (primarily Canadian) from Turtle Island, including novels, poetry, drama, essays, oratory, and autobiography. Discussion of literature is grounded in Indigenous literary criticism, which addresses such issues as appropriation of voice, language, land, spirituality, orality, colonialism, gender, hybridity, authenticity, resistance, sovereignty, and anti-racism.

Indigenous Literatures of Turtle Island course

Prerequisite: Any 6.0 credits

Exclusion: (ENGC01H3)

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENGB02H3 - Effective Writing in the Sciences

This course will provide science students with practical strategies, detailed instructions, and cumulative assignments to help them hone their ability to write clear, coherent, well-reasoned prose for academic and professional purposes. Topics will include scientific journal article formats and standards, peer-review, and rhetorical analysis (of both scientific and lay-science documents).

Exclusion: PCL285H

Breadth Requirements: Arts, Literature and Language

Note: Priority will be given to students enrolled in science programs. Additional students will be admitted as space permits.

ENGB04H3 - How to Read a Poem

An introduction to the understanding of poetry in English. By close reading of a wide range of poems from a variety of traditions, students will learn how poets use the resources of patterned language to communicate with readers in uniquely rich and powerful ways.

Exclusion: ENG201Y

Breadth Requirements: Arts, Literature and Language

ENGB06H3 - Canadian Literature to 1900

A study of Canadian literature from pre-contact to 1900. This course explores the literatures of the "contact zone", from Indigenous oral and orature, to European journals of exploration and discovery, to the works of pioneer settlers,

to the writing of the post-Confederation period.
Pre-1900 course

Exclusion: ENG252Y

Breadth Requirements: Arts, Literature and Language

ENGB07H3 - Canadian Literature 1900 to Present

A continuation of ENGB06H3 introducing students to texts written from 1900 to the present. Focusing on the development of Canada as an imagined national community, this course explores the challenges of imagining an ethical national community in the context of Canada's ongoing colonial legacy: its multiculturalism; Indigenous and Quebec nationalisms; and recent diasporic and transnational reimaginings of the nation and national belonging.

Exclusion: ENG252Y

Breadth Requirements: Arts, Literature and Language

ENGB08H3 - American Literature to 1860

An examination of Early American literature in historical context from colonization to the Civil War. This introductory survey places a wide variety of genres including conquest and captivity narratives, theological tracts, sermons, and diaries, as well as classic novels and poems in relation to the multiple subcultures of the period. Pre-1900 course

Exclusion: ENG250Y

Breadth Requirements: Arts, Literature and Language

ENGB09H3 - American Literature from the Civil War to the Present

An introductory survey of major novels, short fiction, poetry, and drama produced in the aftermath of the American Civil War. Exploring texts ranging from *The Adventures of Huckleberry Finn* to Rita Dove's *Thomas and Beulah*, this course will consider themes of immigration, ethnicity, modernization, individualism, class, and community.

Exclusion: ENG250Y

Breadth Requirements: Arts, Literature and Language

ENGB12H3 - Life Writing

Life-writing, whether formal biography, chatty memoir, postmodern biotext, or published personal journal, is popular with writers and readers alike. This course introduces students to life-writing as a literary genre and explores major issues such as life-writing and fiction, life-

writing and history, the contract between writer and reader, and gender and life-writing.

Exclusion: ENG232H

Breadth Requirements: Arts, Literature and Language

ENGB14H3 - Twentieth-Century Drama

A study of major plays and playwrights of the twentieth century. This international survey might include turn-of-the-century works by Wilde or Shaw; mid-century drama by Beckett, O'Neill, Albee, or Miller; and later twentieth-century plays by Harold Pinter, Tom Stoppard, Caryl Churchill, Peter Shaffer, August Wilson, Tomson Highway, David Hwang, or Athol Fugard.

Exclusion: ENG340H, ENG341H, (ENG342H), (ENGB11H3), (ENGB13H3), (ENG338Y), (ENG339H)

Breadth Requirements: Arts, Literature and Language

ENGB17H3 - Contemporary Literature from the Caribbean

A study of fiction, drama, and poetry from the West Indies. The course will examine the relation of standard English to the spoken language; the problem of narrating a history of slavery and colonialism; the issues of race, gender, and nation; and the task of making West Indian literary forms.

Exclusion: ENG264H, ENG270Y, (NEW223Y), (ENG253Y)

Breadth Requirements: Arts, Literature and Language

ENGB19H3 - Contemporary Literature from South Asia

A study of literature in English from South Asia, with emphasis on fiction from India. The course will examine the relation of English-language writing to indigenous South Asian traditions, the problem of narrating a history of colonialism and Partition, and the task of transforming the traditional novel for the South Asian context.

Exclusion: ENG270Y, (ENG253Y)

Breadth Requirements: Arts, Literature and Language

ENGB22H3 - Contemporary Literature from Africa

A study of fiction, drama, and poetry from English-speaking Africa. The course will examine the relation of English-language writing to indigenous languages, to orality, and to audience, as well as the issues of creating art in a world of suffering and of de-colonizing the narrative of history.

Exclusion: (ENG72H3), ENG278Y

Breadth Requirements: Arts, Literature and Language

ENGB25H3 - The Canadian Short Story

A study of the Canadian short story. This course traces the development of the Canadian short story, examining narrative techniques, thematic concerns, and innovations that captivate writers and readers alike.

Exclusion: ENG215H

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

ENGB26H3 - Inferno

A study of Dante's *Inferno* and its influence on later art and literature. *Inferno* describes a journey through the nine circles of hell, where figures from history, myth, and literature undergo elaborate punishments. Dante's poem has inspired writers and artists since its composition, from Jorge Luis Borges to Gloria Naylor to Neil Gaiman. In this course, we will read *Inferno* together with a selection of 19th, 20th, and 21st century works based on Dante. Throughout, we will explore how Dante's poem informs and inspires poetic creativity, social commentary, and political critique. No prior knowledge of Dante or *Inferno* is necessary; we will encounter the text together.

Pre-1900 course.

Breadth Requirements: Arts, Literature and Language

ENGB27H3 - Charting Literary History I

An introduction to the historical and cultural developments that have shaped the study of literature in English before 1700. Focusing on the medieval, early modern, and Restoration periods, this course will examine the notions of literary history and the literary "canon" and explore how contemporary critical approaches impact our readings of literature in English in specific historical and cultural settings.

Pre-1900 course

Exclusion: ENG202Y

Breadth Requirements: Arts, Literature and Language

ENGB28H3 - Charting Literary History II

An introduction to the historical and cultural developments that have impacted the study of literature in English from 1700 to our contemporary moment. This course will familiarize students with the eighteenth century, Romanticism, the Victorian period, Modernism, and Postmodernism, and will attend to the significance of postcolonial and world literatures in shaping the notions of literary history and the literary "canon."

Pre-1900 course

Recommended Preparation: ENGB27H3

Breadth Requirements: Arts, Literature and Language

ENGB29H3 - Shakespeare and Film

The history of Shakespeare and (on) film is long, illustrious—and prolific: there have been at least 400 film and television adaptations and appropriations of Shakespeare over the past 120 years, from all over the world. But how and why do different film versions adapt Shakespeare? What are the implications of transposing a play by Shakespeare to a different country, era, or even language? What might these films reveal, illuminate, underscore, or re-imagine about Shakespeare, and why? In this course, we will explore several different Shakespearean adaptations together with the plays they adapt or appropriate. We will think carefully about the politics of adaptation and appropriation; about the global contexts and place of Shakespeare; and about the role of race, gender, sexuality, disability, empire and colonialism in our reception of Shakespeare on, and in, film. Pre-1900 course.

Prerequisite: ENGA10H3 or ENGA11H3 or (ENGB70H3) or FLMA70H3

Breadth Requirements: Arts, Literature and Language

ENGB30H3 - Classical Myth and Literature

The goal of this course is to familiarize students with Greek and Latin mythology. Readings will include classical materials as well as important literary texts in English that retell classical myths. Pre-1900 Course

Exclusion: (ENGC58H3), (ENGC60H3), (ENGC61H3)

Breadth Requirements: Arts, Literature and Language

ENGB31H3 - The Romance: In Quest of the Marvelous

A study of the romance a genre whose episodic tale of marvellous adventures and questing heroes have been both criticized and celebrated. This course looks at the range of a form stretching from Malory and Spenser through Scott and Tennyson to contemporary forms such as fantasy, science fiction, postmodern romance, and the romance novel. Pre-1900 course

Breadth Requirements: Arts, Literature and Language

ENGB32H3 - Shakespeare in Context I

An introduction to the poetry and plays of William Shakespeare, this course situates his works in the literary, social and political contexts of early modern England. The main emphasis will be on close readings of Shakespeare's sonnets and plays, to be supplemented by classical, medieval, and renaissance prose and poetry upon which

Shakespeare drew.
Pre-1900 course.

Exclusion: ENG220Y, (ENGB10H3)

Breadth Requirements: Arts, Literature and Language

ENGB33H3 - Shakespeare in Context II

A continuation of [ENGB32H3](#), this course introduces students to selected dramatic comedies, tragedies and romances and situates Shakespeare's works in the literary, social and political contexts of early modern England. Our readings will be supplemented by studies of Shakespeare's sources and influences, short theoretical writings, and film excerpts.
Pre-1900 course.

Exclusion: (ENGB10H3), ENG220Y

Recommended Preparation: [ENGB32H3](#)

Breadth Requirements: Arts, Literature and Language

ENGB34H3 - The Short Story

An introduction to the short story as a literary form. This course examines the origins and recent development of the short story, its special appeal for writers and readers, and the particular effects it is able to produce.

Exclusion: ENG213H

Breadth Requirements: Arts, Literature and Language

ENGB35H3 - Children's Literature

An introduction to children's literature. This course will locate children's literature within the history of social attitudes to children and in terms of such topics as authorial creativity, race, class, gender, and nationhood.

Pre-1900 course.

Exclusion: ENG234H

Breadth Requirements: Arts, Literature and Language

ENGB37H3 - Popular Literature and Mass Culture

This course considers the creation, marketing, and consumption of popular film and fiction. Genres studied might include bestsellers; detective fiction; mysteries, romance, and horror; fantasy and science fiction; "chick lit"; popular song; pulp fiction and fanzines.

Breadth Requirements: Arts, Literature and Language

ENGB38H3 - The Graphic Novel

A study of extended narratives in the comic book form. This course combines formal analysis of narrative artwork

with an interrogation of social, political, and cultural issues in this popular literary form. Works to be studied may include graphic novels, comic book series, and comic book short story or poetry collections.

Exclusion: ENG235H, (ENGC57H3)

Breadth Requirements: Arts, Literature and Language

ENGB39H3 - Tolkien's Middle Ages

This course will explore Tolkien's writing, including selections from the Lord of the Rings trilogy, together with the medieval poetry that inspired it. We will consider how the encounter with medieval literature shapes Tolkien's attitudes toward themes including ecology, race, gender, and history.

Pre-1900 course.

Breadth Requirements: Arts, Literature and Language

ENGB40H3 - Video Games and Literature

What is the relationship between "literature" and video games? This class will explore how we can read this relatively new – but increasingly dominant – media against and alongside more established literary forms like prose, poetry, and film, and will give students the opportunity to practice critical close reading skills. The course will focus on thematic and formal resonances between digital texts ("games") and traditional texts ("literature"), and will also explore questions of direct adaptation (books that become games, games that become film, etc.).

Exclusion: SMC198

Recommended Preparation: [ENGA01H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

ENGB50H3 - Women and Literature: Forging a Tradition

An examination of the development of a tradition of women's writing. This course explores the legacy and impact of writers such as Christine de Pizan, Julian of Norwich, Mary Wollstonecraft, Anne Bradstreet, Margaret Cavendish, Jane Austen, Mary Shelley, Emily Dickinson, and Margaret Fuller, and considers how writing by women has challenged and continues to transform the English literary canon.

Pre-1900 course

Exclusion: (ENG233Y)

Breadth Requirements: Arts, Literature and Language

ENGB52H3 - Literature and Science

An exploration of the many intersections between the worlds of literature and science. The focus will be on classic and contemporary works of fiction, non-fiction, poetry and drama that have illuminated, borrowed from or been inspired by the major discoveries and growing cultural significance of the scientific enterprise.

Breadth Requirements: Arts, Literature and Language

ENGB60H3 - Creative Writing: Poetry I

A focused introduction to the writing of poetry. This course will enable students to explore the writing of poetry through reading, discussion, and workshop sessions.

Prerequisite: [ENGA03H3](#) and enrolment in the Major or Minor program in Creative Writing

Exclusion: (ENG369Y)

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

ENGB61H3 - Creative Writing: Fiction I

A focused introduction to the writing of fiction. This course will enable students to explore the writing of short fiction through reading, discussion, and workshop sessions.

Prerequisite: [ENGA03H3](#) and enrolment in the Major or Minor program in Creative Writing

Exclusion: (ENG369Y)

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

ENGB63H3 - Creative Writing: Creative Nonfiction I

A focused introduction to the writing of creative non-fiction. This course will enable students to explore the writing of creative non-fiction through reading, discussion, and workshop sessions.

Prerequisite: [ENGA03H3](#) and enrolment in the Major or Minor program in Creative Writing

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

ENGB72H3 - Advanced Critical Writing about Literature

Building on the fundamental critical writing skills students have already mastered in English A02, English B72 is designed to advance students' critical thinking and writing skills in response to a wide range of literary texts and genres. In this context, students will learn how to compose, develop, and organize sophisticated arguments; how to integrate and engage with critical sources; and

how to polish their writing craft. Ultimately, students will become more confident in their writing voices and growing abilities.

Prerequisite: [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENGB74H3 - The Body in Literature and Film

An interdisciplinary exploration of the body in art, film, photography, narrative and popular culture. This course will consider how bodies are written or visualized as "feminine" or "masculine", as heroic, as representing normality or perversity, beauty or monstrosity, legitimacy or illegitimacy, nature or culture.

Exclusion: (VPAC47H3), (VPHC47H3), (ENGC76H3)

Breadth Requirements: Arts, Literature and Language

ENGB78H3 - The Digital Text: From Digitized Literature to Born-Digital Works

This course explores the creative, interpretive, social, and political effects of our interactions and experiments with digital forms of literature: novels, short stories, plays, and poems, but also video games, online fan fiction, social media posts, and other texts typically excluded from the category of the "literary." The course attends both to texts written before the digital turn and later digitized, as well as to "born-digital" texts. It surveys the history of shifts within the media landscape - from oral to written, from manuscript to print, from print to digital. Over the course of the semesters, we will explore a variety of questions about digital literary culture, including: How does a text's medium - oral, manuscript, print and/or digital - affect its production, transmission, and reception? How do writers harness, narrate, and depict the use of digital technologies? How does digital textuality challenge earlier conceptions of "literature"? How does digitization shape our work as readers and critics? By reading "traditional" literary forms alongside newer ones, we will investigate how the digital age impacts literature, and how literature helps us grapple with the implications of our digitized world.

Exclusion: ENG287H1, ENG381H5

Breadth Requirements: Arts, Literature and Language

ENGC02H3 - Major Canadian Authors

An examination of three or more Canadian writers. This course will draw together selected major writers of Canadian fiction or of other forms. Topics vary from year to year and might include a focused study of major women writers; major racialized and ethnicized writers such as African-Canadian or Indigenous writers; major writers of a particular regional or urban location or of a specific literary period.

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG03H3 - Topics in Canadian Fiction

An analysis of Canadian fiction with regard to the problems of representation. Topics considered may include how Canadian fiction writers have responded to and documented the local; social rupture and historical trauma; and the problematics of representation for marginalized societies, groups, and identities.

Prerequisite: Any 6.0 credits

Exclusion: ENG353Y, (ENG216Y)

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG04H3 - Creative Writing: Screenwriting

An introduction to the craft of screenwriting undertaken through discussions, readings, and workshop sessions.

Prerequisite: [ENGB61H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

ENG05H3 - Creative Writing: Poetry, Experimentation, and Activism

This course is a creative investigation into how, through experimentation, we can change poetry, and how, through poetry, we can change the world. Our explorations are undertaken through writing assignments, discussions, readings, and workshop sessions.

Prerequisite: [ENGB60H3](#)

Breadth Requirements: Arts, Literature and Language

ENG06H3 - Creative Writing: Writing for Comics

An introduction to the writing of comics undertaken through discussions, readings, and workshop sessions.

Prerequisite: [ENGB61H3](#)

Breadth Requirements: Arts, Literature and Language

ENG07H3 - Canadian Drama

A study of major Canadian playwrights with an emphasis on the creation of a national theatre, distinctive themes that emerge, and their relation to regional and national concerns. This course explores the perspectives of

Québécois, feminist, Native, queer, ethnic, and Black playwrights who have shaped Canadian theatre.

Prerequisite: Any 6.0 credits or

[\[THRB20H3/\(VPDB10H3\) and THRB21H3/\(VPDB11H3\)\]](#)

Exclusion: ENG352H, (ENG223H)

Recommended Preparation: [ENGA01H3](#) or [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG08H3 - Special Topics in Creative Writing I

This multi-genre creative writing course, designed around a specific theme or topic, will encourage interdisciplinary practice, experiential adventuring, and rigorous theoretical reflection through readings, exercises, field trips, projects, etc.

Prerequisite: [ENGB60H3](#) or [ENGB61H3](#)

Breadth Requirements: Arts, Literature and Language

ENG09H3 - Canadian Poetry

A study of contemporary Canadian poetry in English, with a changing emphasis on the poetry of particular time-periods, regions, and communities. Discussion will focus on the ways poetic form achieves meaning and opens up new strategies for thinking critically about the important social and political issues of our world.

Prerequisite: Any 6.0 credits

Exclusion: ENG354Y

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG10H3 - Studies in Shakespeare

An in-depth study of selected plays from Shakespeare's dramatic corpus combined with an introduction to the critical debates within Shakespeare studies. Students will gain a richer understanding of Shakespeare's texts and their critical reception.
Pre-1900 course

Prerequisite: Any 6.0 credits

Exclusion: ENG336H

Recommended Preparation: [\[ENGA01H3 and ENGA02H3 and ENGB27H3\] or ENGB32H3 or ENGB33H3](#)

Breadth Requirements: Arts, Literature and Language

ENG11H3 - Poetry and Popular Culture

Poetry is often seen as distant from daily life. We will instead see how poetry is crucial in popular culture, which in turn impacts poetry. We will read such popular poets as Ginsberg and Plath, look at poetry in film, and consider song lyrics as a form of popular poetry.

Prerequisite: Any 6.0 credits

Exclusion: (ENGA18H3)

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG12H3 - Individualism and Community in American Literature

An exploration of the tension in American literature between two conflicting concepts of self. We will examine the influence on American literature of the opposition between an abstract, "rights-based," liberal-individualist conception of the self and a more traditional, communitarian sense of the self as determined by inherited regional, familial, and social bonds.

Prerequisite: Any 6.0 credits

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG13H3 - Ethnic Traditions in American Literature

A survey of the literature of Native Peoples, Africans, Irish, Jews, Italians, Latinos, and South and East Asians in the U.S, focusing on one or two groups each term. We will look at how writers of each group register the affective costs of the transition from "old-world" communalism to "new-world" individualism.

Prerequisite: Any 6.0 credits

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG14H3 - Black Canadian Literature

A study of the diverse and vibrant forms of literary expression that give voice to the Black experience in Canada, with changing emphasis on authors, time periods, Black geographies, politics and aesthetics. The range of genres considered may include the slave narrative, memoir, historical novel, Afrofuturism and "retrospeculative" fiction, poetry, drama, as well as the performance cultures of spoken word, dub, rap, DJing and turntablism.

Prerequisite: Any 6.0 credits

Recommended Preparation: ENGA01H3 and ENGA02H3 and ENGB06H3 and ENGB07H3

Breadth Requirements: Arts, Literature and Language

ENG15H3 - Introduction to Theory and Criticism

A study of selected topics in literary criticism. Schools of criticism and critical methodologies such as New Criticism,

structuralism, poststructuralism, Marxism, psychoanalysis, gender and sexuality studies, New Historicism, and postcolonialism will be covered, both to give students a roughly century-wide survey of the field and to provide them with a range of models applicable to their own critical work as writers and thinkers. Recommended for students planning to pursue graduate study in English literature.

Prerequisite: Any 6.0 credits

Exclusion: ENG280H, (ENG267H)

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG16H3 - The Bible and Literature I

A literary analysis of the Hebrew Bible (Christian Old Testament) and of texts that retell the stories of the Bible, including the Quran. We will study Biblical accounts of the creation, the fall of Adam and Eve, Noah's flood, Abraham's binding of Isaac, the Exodus from Egypt, and the Judges, Prophets, and Kings of Israel as works of literature in their own right, and we will study British, American, European, African, Caribbean, and Indigenous literary texts that, whether inspired by or reacting against Biblical narratives, retell them. Pre-1900 course.

Prerequisite: Any 6.0 credits

Exclusion: (ENGB42H3), (ENG200Y)

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG17H3 - The Bible and Literature II

A literary analysis of the New Testament and the ways that the stories of Jesus have been reworked in British, American, European, African, Caribbean, and Indigenous literature and visual art. The Gospels, the Acts of the Apostles, and the Book of Revelation will be considered as literature, and we will study later literary texts that, whether inspired by or reacting against Biblical narratives, retell them. Pre-1900 course.

Prerequisite: Any 6.0 credits

Exclusion: (ENGB43H3), (ENG200Y)

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG18H3 - Colonial and Postcolonial Literature

Over the course of five centuries, European empires changed the face of every continent. The present world bears the traces of those empires in the form of nation-states, capitalism, population transfers, and the spread of

European languages. We will consider how empire and resistance to empire have been imagined and narrated in a variety of texts.

Prerequisite: Any 6.0 credits

Exclusion: ENG270Y

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG19H3 - Transnational Literature

The world is increasingly interrelated - economically, digitally, and culturally. Migrants and capitalists move across borders. So do criminals and terrorists. Writers, too, travel between countries; novels and films are set in various locales. How have writers had to re-invent generic conventions to imagine the world beyond the nation and the new links among distant places?

Prerequisite: Any 6.0 credits

Exclusion: ENG370H

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG20H3 - The Antihero in Literature and Film

This course traces the evolution of the antihero trope from its earliest prototypes in pre- and early modern literature, through its Gothic and Byronic nineteenth-century incarnations, twentieth-century existentialists, noir and Beat protagonists, and up to the “difficult” men and women of contemporary film, television, and other media. We will examine the historical and cultural contexts that enabled the construction and enduring popularity of this literary archetype, particularly in relation to gender and sexuality, race, class, religion, and (post-)colonialism.

Prerequisite: Any 6.0 credits

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG21H3 - The Victorian Novel

A study of major novels in the Victorian period. Authors studied might include Charles Dickens, the Bronte sisters, George Eliot, and Thomas Hardy. Central to the study of the novel in the period are concerns about social and political justice, historical awareness, personal perspective and narration, and the development of realism. Pre-1900 course

Prerequisite: Any 6.0 credits

Exclusion: ENG324Y

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG22H3 - Victorian Popular Fiction

A study of popular fiction during the Victorian period. This course examines the nineteenth-century emergence of genres of mass-market fiction, which remain popular today, such as historical romance, mystery and detective fiction, imperial adventure, fantasy, and science fiction. Pre-1900 course

Prerequisite: Any 6.0 credits

Exclusion: ENG324Y

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG23H3 - Fantasy and the Fantastic in Literature and the Other Arts

A study of fantasy and the fantastic from 1800 to the present. Students will consider various theories of the fantastic in order to chart the complex genealogy of modern fantasy across a wide array of literary genres (fairy tales, poems, short stories, romances, and novels) and visual arts (painting, architecture, comics, and film).

Prerequisite: Any 6.0 credits

Exclusion: ENG239H

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

Note: Preference will be given to students enrolled in programs from the Department of English.

ENG24H3 - Creative Writing: The Art of the Personal Essay

This writing workshop is based on the art and craft of the personal essay, a form of creative nonfiction characterized by its commitment to self-exploration and experiment. Students will submit their own personal essays for workshop, and become acquainted with the history and contemporary resurgence of the form.

Prerequisite: ENGB63H3

Breadth Requirements: Arts, Literature and Language

ENG25H3 - Victorian Poetry and Prose

An introduction to the poetry and nonfiction prose of the Victorian period, 1837-1901. Representative authors are studied in the context of a culture in transition, in which questions about democracy, social inequality, the rights of women, national identity, imperialism, and science and religion are prominent. Pre-1900 course

Prerequisite: Any 6.0 credits

Exclusion: (ENGB45H3)

Breadth Requirements: Arts, Literature and Language

ENG26H3 - Drama: Tragedy

An exploration of major dramatic tragedies in the classic and English tradition. European philosophers and literary critics since Aristotle have sought to understand and define the genre of tragedy, one of the oldest literary forms in existence. In this course, we will read representative works of dramatic tragedy and investigate how tragedy as a genre has evolved over the centuries. Pre-1900 course

Prerequisite: Any 6.0 credits or [VPDB10H3 and VPDB11H3]

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG27H3 - Drama: Comedy

An historical exploration of comedy as a major form of dramatic expression. Comedy, like its more august counterpart tragedy, has been subjected to centuries of theoretical deliberation about its form and function. In this course, we will read representative works of dramatic comedy and consider how different ages have developed their own unique forms of comedy. Pre-1900 course

Prerequisite: Any 6.0 credits or [THRB20H3/(VPDB10H3) and THRB21H3/(VPDB11H3)]

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG28H3 - The Fairy Tale

A study of fairy tales in English since the eighteenth century. Fairy tales have been a staple of children's literature for three centuries, though they were originally created for adults. In this course, we will look at some of the best-known tales that exist in multiple versions, and represent shifting views of gender, race, class, and nationality over time. The course will emphasize the environmental vision of fairy tales, in particular, the uses of natural magic, wilderness adventures, animal transformations, and encounters with other-than-human characters.

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG29H3 - Chaucer

Selections from *The Canterbury Tales* and other works by the greatest English writer before Shakespeare. In studying Chaucer's medieval masterpiece, students will encounter a variety of tales and tellers, with subject matter that ranges from broad and bawdy humour through subtle

social satire to moral fable. Pre-1900 course

Prerequisite: Any 6.0 credits

Exclusion: ENG300Y

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#) and [ENGB27H3](#)

Breadth Requirements: Arts, Literature and Language

ENG30H3 - Studies in Medieval Literature

A study of selected medieval texts by one or more authors.

Pre-1900 course

Prerequisite: Any 6.0 credits

Exclusion: ENG311H

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#) and [ENGB27H3](#)

Breadth Requirements: Arts, Literature and Language

ENG31H3 - Medieval Travel Writing

Long before the travel channel, medieval writers described exciting journeys through lands both real and imagined. This course covers authors ranging from scholar Ibn Battuta, whose pilgrimage to Mecca became the first step in a twenty-year journey across India, Southeast Asia, and China; to armchair traveller John Mandeville, who imagines distant lands filled with monsters and marvels. We will consider issues such as: how travel writing negotiates cultural difference; how it maps space and time; and how it represents wonders and marvels. Students will also have the opportunity to experiment with creative responses such as writing their own travelogues.

Pre-1900 course.

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#) and [ENGB27H3](#)

Breadth Requirements: Arts, Literature and Language

ENG33H3 - Deceit, Dissent, and the English Civil Wars, 1603-1660

A study of the poetry, prose, and drama written in England between the death of Queen Elizabeth in 1603 and the Restoration of the monarchy in 1660. This course will examine the innovative literature of these politically tumultuous years alongside debates concerning personal and political sovereignty, religion, censorship, ethnicity, courtship and marriage, and women's authorship. Pre-1900 course

Prerequisite: Any 6.0 credits

Exclusion: ENG304Y

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#) and [ENGB27H3](#)
Breadth Requirements: Arts, Literature and Language

ENG34H3 - Early Modern Women and Literature, 1500-1700

A focused exploration of women's writing in the early modern period. This course considers the variety of texts produced by women (including closet drama, religious and secular poetry, diaries, letters, prose romance, translations, polemical tracts, and confessions), the contexts that shaped those writings, and the theoretical questions with which they engage.
 Pre-1900 course

Prerequisite: Any 6.0 credits
Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#) or [ENGB27H3](#) or [ENGB50H3](#)
Breadth Requirements: Arts, Literature and Language

ENG35H3 - Imagined Communities in Early Modern England, 1500-1700

A study of the real and imagined multiculturalism of early modern English life. How did English encounters and exchanges with people, products, languages, and material culture from around the globe redefine ideas of national, ethnic, and racial community? In exploring this question, we will consider drama and poetry together with travel writing, language manuals for learning foreign tongues, costume books, and maps.
 Pre-1900 course

Prerequisite: Any 6.0 credits
Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#) and [ENGB27H3](#)
Breadth Requirements: Arts, Literature and Language

ENG36H3 - Literature and Culture, 1660-1750

Studies in literature and literary culture during a turbulent era that was marked by extraordinary cultural ferment and literary experimentation. During this period satire and polemic flourished, Milton wrote his great epic, Behn her brilliant comedies, Swift his bitter attacks, and Pope his technically balanced but often viciously biased poetry.
 Pre-1900 course

Prerequisite: Any 6.0 credits
Exclusion: ENG305H
Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)
Breadth Requirements: Arts, Literature and Language

ENG37H3 - Literature and Culture, 1750-1830

An exploration of literature and literary culture during the end of the eighteenth and beginning of the nineteenth centuries. We will trace the development of a consciously national culture, and birth of the concepts of high, middle, and low cultures. Authors may include Johnson, Boswell, Burney, Sheridan, Yearsley, Blake, and Wordsworth.
 Pre-1900 course

Prerequisite: Any 6.0 credits
Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)
Breadth Requirements: Arts, Literature and Language

ENG38H3 - Novel Genres: Fiction, Journalism, News, and Autobiography, 1640-1750

An examination of generic experimentation that began during the English Civil Wars and led to the novel. We will address such authors as Aphra Behn and Daniel Defoe, alongside news, ballads, and scandal sheets: and look at the book trade, censorship, and the growth of the popular press.
 Pre-1900 course

Prerequisite: Any 6.0 credits
Exclusion: ENG322Y
Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)
Breadth Requirements: Arts, Literature and Language

ENG39H3 - The Early Novel in Context, 1740-1830

A contextual study of the first fictions that contemporaries recognized as being the novel. We will examine the novel in relation to its readers, to neighbouring genres such as letters, nonfiction travel writing, and conduct manuals, and to culture more generally. Authors might include Richardson, Fielding, Sterne, Burney, Austen and others.
 Pre-1900 course

Prerequisite: Any 6.0 credits
Exclusion: ENG322Y
Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)
Breadth Requirements: Arts, Literature and Language

ENG40H3 - Medieval Life Writing

From Augustine's *Confessions* to Dante's *New Life*, medieval writers developed creative means of telling their life stories. This course tracks medieval life-writing from Augustine and Dante to later figures such as Margery Kempe—beer brewer, mother of fourteen, and self-proclaimed saint—Thomas Hoccleve, author of the first

description of a mental breakdown in English literature, and Christian convert to Islam Anselmo Turmeda/'Abd Allāh al-Turjumān. In these texts, life writing is used for everything from establishing a reputation to recovering from trauma to religious polemic. The course will also explore how medieval life writing can help us to understand 21st century practices of self-representation, from selfies to social media.

Pre-1900 course.

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#) and [ENGB27H3](#)

Breadth Requirements: Arts, Literature and Language

ENGC41H3 - Video Game Narratives

In what ways can video games be “read” and assessed as storytelling texts? And how do those video game narratives reflect historical, cultural, and social concerns? Students will explore game narratives by learning about critical and structural approaches, but also through personal reflective practices. Although active playing will be a required part of the course, all video game experience levels are welcome.

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#) and [ENGB40H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

ENGC42H3 - Romanticism

A study of the Romantic Movement in European literature, 1750-1850. This course investigates the cultural and historical origins of the Romantic Movement, its complex definitions and varieties of expression, and the responses it provoked in the wider culture. Examination of representative authors such as Goethe, Rousseau, Wollstonecraft, Wordsworth, Coleridge, Blake, P. B. Shelley, Keats, Byron and M. Shelley will be combined with study of the philosophical and historical backgrounds of Romanticism.

Pre-1900 course

Prerequisite: Any 6.0 credits

Exclusion: ENG308Y

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENGC43H3 - Nineteenth-Century Literature and Contemporary Culture

An investigation of how nineteenth-century literature is translated into our contemporary world through art forms like music, architecture, film, television, graphic novels, or online and social media. What is it that makes us keep

returning to the past, and how does each adaptation remake the original into something new and relevant? Pre-1900 course.

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#) and [ENGB27H3](#)

Breadth Requirements: Arts, Literature and Language

ENGC45H3 - Queer Literature and Theory

This course focuses on queer studies in a transhistorical context. It serves as an introduction to queer theory and culture, putting queer theory into conversation with a range of literary texts as well as other forms of media and culture. This course might explore contemporary LGBTQ2+ literature, media and popular culture; the history of queer theory; and literary work from early periods to recover queer literary histories.

Prerequisite: Any 6.0 credits

Exclusion: ENG273Y1, ENG295H5

Breadth Requirements: Arts, Literature and Language

ENGC46H3 - Law and Literature

An examination of how the law and legal practices have been imagined in literature, including the foundations of law, state constitutions, rule of law, rights, trials and judgments, ideas of justice, natural law, enforcement, and punishment. We will examine Western and non-Western experiences of the law, legal documents and works of literature. Authors may include Sophocles, Aeschylus, Shakespeare, Melville, Dostoyevsky, Kafka, Achebe, Soyinka, Borges, Shamsie, R. Wright, Silko.

Prerequisite: Any 6.0 credits

Breadth Requirements: Arts, Literature and Language

ENGC47H3 - Modernist Poetry

A study of poetry written roughly between the World Wars. Poets from several nations may be considered. Topics to be treated include Modernist difficulty, formal experimentation, and the politics of verse. Literary traditions from which Modernist poets drew will be discussed, as will the influence of Modernism on postmodern writing.

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#) and [ENGB04H3](#)

Breadth Requirements: Arts, Literature and Language

ENGC48H3 - Satire

An investigation of the literatures and theories of the unthinkable, the reformist, the iconoclastic, and the

provocative. Satire can be conservative or subversive, corrective or anarchic. This course will address a range of satire and its theories. Writers range from Juvenal, Horace, Lucian, Erasmus, Donne, Jonson, Rochester, Dryden, Swift, Pope, Gay, Haywood, and Behn to Pynchon, Nabokov and Atwood.
Pre-1900 course

Prerequisite: Any 6.0 credits

Exclusion: (ENG67H3)

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG49H3 - The Digital Self: Social Media & Literary Culture

This course explores social media's influence on literary culture and our personal lives. Engaging with contemporary novels, essays and films that deal with the social media, as well as examining social media content itself (from early web blogs, to Facebook, Twitter, Instagram and TikTok), over the course of the semester, we will consider how social media shapes literary texts and our emotional, social and political selves.

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGB78H3](#)

Breadth Requirements: Arts, Literature and Language

ENG50H3 - Studies in Contemporary American Fiction

Developments in American fiction from the end of the 1950's to the present: the period that produced James Baldwin, Saul Bellow, Philip Roth, John Updike, Norman Mailer, Ann Beatty, Raymond Carver, Don DeLillo, Toni Morrison, Maxine Hong Kingston, and Leslie Marmon Silko, among others.

Prerequisite: Any 6.0 credits

Exclusion: ENG365H, (ENG361H)

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG51H3 - Contemporary Arab Women Writers

A study of Arab women writers from the late nineteenth century to the present. Their novels, short stories, essays, poems, and memoirs invite us to rethink western perceptions of Arab women. Issues of gender, religion, class, nationalism, and colonialism will be examined from the perspective of Arab women from both the Arab world and North America.

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGA01H3](#) and

[ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG54H3 - Gender and Genre

An analysis of how gender and the content and structure of poetry, prose, and drama inform each other. Taking as its starting point Virginia Woolf's claim that the novel was the genre most accessible to women because it was not entirely formed, this course will consider how women writers across historical periods and cultural contexts have contributed to specific literary genres and how a consideration of gender impacts our interpretation of literary texts.

Prerequisite: Any 6.0 credits

Exclusion: (ENGB51H3)

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG59H3 - Literature and the Environment

This course introduces students to ecocriticism (the study of the relationship between literature and environment). The course is loosely structured around several topics: the environmental imagination in literature and film, ecological literary theory, the history of the environmental movement and climate activism, literary representations of natural and unnatural disasters, and climate fiction.

Prerequisite: Any 6.0 credits or [SOGB58H3, and an additional 4.0 credits, and enrolment in the Minor in Culture, Creativity, and Cities]

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG60H3 - Indigenous Drama of Turtle Island

A study of plays by Indigenous authors (primarily Canadian), from Turtle Island, paying attention to relations between text and performance, and with an emphasis on distinctive themes that emerge, including colonialism, Indigenous resistance, and Indigenous sovereignty.

Indigenous literatures of Turtle Island course

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGB01H3](#)

Breadth Requirements: Arts, Literature and Language

ENG61H3 - Indigenous Poetry of Turtle Island

A study of poetry by Indigenous authors (primarily Canadian) from Turtle Island. Discussion will focus on the ways poetic form and content combine to achieve meaning and open up new strategies for thinking critically, and with an emphasis on distinctive themes that emerge, including colonialism, Indigenous resistance, and Indigenous sovereignty.

Indigenous literatures of Turtle Island course

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGB01H3](#)

Breadth Requirements: Arts, Literature and Language

ENG62H3 - Indigenous Short Stories of Turtle Island

A study of short stories by Indigenous authors (primarily Canadian) from Turtle Island, examining narrative techniques, thematic concerns, and innovations, and with an emphasis on distinctive themes that emerge, including colonialism, Indigenous resistance, and Indigenous sovereignty.

Indigenous literatures of Turtle Island course

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGB01H3](#)

Breadth Requirements: Arts, Literature and Language

ENG69H3 - Gothic Literature

A study of the Gothic tradition in literature since 1760. Drawing on texts such as Horace Walpole's *The Castle of Otranto*, Jane Austen's *Northanger Abbey*, Henry James' *The Turn of the Screw*, and Anne Rice's *Interview with the Vampire*, this course will consider how the notion of the "Gothic" has developed across historical periods and how Gothic texts represent the supernatural, the uncanny, and the nightmares of the unconscious mind. Pre-1900 course

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

Note: Preference will be given to students enrolled in programs from the Department of English.

ENG70H3 - The Immigrant Experience in Literature to 1980

An examination of twentieth-century literature, especially fiction, written out of the experience of people who leave

one society to come to another already made by others. We will compare the literatures of several ethnic communities in at least three nations, the United States, Britain, and Canada.

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language

ENG71H3 - The Immigrant Experience in Literature since 1980

A continuation of [ENG70H3](#), focusing on texts written since 1980.

Prerequisite: Any 6.0 credits

Recommended Preparation: [ENGA01H3](#) and [ENGA02H3](#) and [ENG70H3](#)

Breadth Requirements: Arts, Literature and Language

ENG74H3 - Persuasive Writing and Community-Engaged Learning

This course is an introduction to the theory and practice of rhetoric, the art of persuasive writing and speech. Students will study several concepts at the core of rhetorical studies and sample thought-provoking work currently being done on disability rhetorics, feminist rhetorics, ethnic rhetorics, and visual rhetorics. A guiding principle of this course is that studying rhetoric helps one to develop or refine one's effectiveness in speaking and writing. Toward those ends and through a 20-hour community-engaged learning opportunity in an organization of their choice, students will reflect on how this community-based writing project shapes or was shaped by their understanding of some key rhetorical concept. Students should leave the course, then, with a "rhetorical toolbox" from which they can draw key theories and concepts as they pursue future work in academic, civic, or professional contexts.

Prerequisite: [ENGA02H3](#)

Breadth Requirements: Arts, Literature and Language
Course Experience: Partnership-Based Experience

ENG79H3 - Above and Beyond: Superheroes in Fiction and Film

This course will explore the literary history and evolution of the superhero, from its roots in the works of thinkers such as Thomas Carlyle and Friedrich Nietzsche to the wartime birth of the modern comic book superhero to the contemporary pop culture dominance of transmedia experiments like the "universes" created by Marvel and DC. We will explore the superhero in various media, from prose to comics to film and television, and we will track the superhero alongside societal and cultural changes from the late 19th century to the present.

Prerequisite: Any 6.0 credits

Breadth Requirements: Arts, Literature and Language

ENG80H3 - Modernist Narrative

Advanced study of a crucial period for the development of new forms of narrative and the beginnings of formal narrative theory, in the context of accelerating modernity.

Prerequisite: Any 6.0 credits

Recommended Preparation: ENGA01H3 and ENGA01H3

Breadth Requirements: Arts, Literature and Language

ENG86H3 - Creative Writing: Poetry II

An intensive study of the writing of poetry through a selected theme, topic, or author. The course will undertake its study through discussions, readings, and workshop sessions.

Prerequisite: ENGB60H3

Breadth Requirements: Arts, Literature and Language

ENG87H3 - Creative Writing: Fiction II

An intensive study of the writing of fiction through a selected theme, topic, or author. The course will undertake its study through discussions, readings, and workshop sessions.

Prerequisite: ENGB61H3

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

ENG88H3 - Creative Writing: Creative Nonfiction II

An advanced study of the craft of creative non-fiction. Through in-depth discussion, close reading of exceptional texts and constructive workshop sessions, students will explore special topics in the genre such as: fact versus fiction, writing real people, the moral role of the author, the interview process, and how to get published. Students will also produce, workshop and rewrite an original piece of long-form creative non-fiction and prepare it for potential publication.

Prerequisite: ENGB63H3

Breadth Requirements: Arts, Literature and Language

ENG89H3 - Creative Writing and Performance

This course connects writers of poetry and fiction, through discussion and workshop sessions, with artists from other disciplines in an interdisciplinary creative process, with the aim of having students perform their work.

Prerequisite: 0.5 credit at the B-level in Creative Writing; students enrolled in performance-based disciplines such as Theatre and Performance (THR) and Music and Culture (VPM) may be admitted with the permission of the instructor.

Breadth Requirements: Arts, Literature and Language

ENG90H3 - Topics in Classical Myth and Literature

This course pursues the in-depth study of a small set of myths. We will explore how a myth or mythological figure is rendered in a range of literary texts ancient and modern, and examine each text as both an individual work of art and a strand that makes up the fabric of each given myth.

Pre-1900 course

Prerequisite: Any 6.0 credits

Exclusion: CLAC01H3, (ENG58H3), (ENG60H3), (ENG61H3)

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG91H3 - American Realisms

An exploration of late nineteenth- and early twentieth-century American realism and naturalism in literary and visual culture. This course will explore the work of writers such as Henry James, William Dean Howells, Edith Wharton, Charles Chesnutt, Stephen Crane, Frank Norris, Kate Chopin, and Theodore Dreiser alongside early motion pictures, photographs, and other images from the period.

Prerequisite: Any 6.0 credits

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

ENG02Y3 - Teaching Academic Writing: Theories, Methods and Service Learning

This course explores the theories and practices of teaching academic writing, mostly in middle and secondary school contexts as well as university writing instruction and/or tutoring in writing. Through its 60-hour service-learning component, the course also provides student educators with the practical opportunities for the planning and delivering of these instruction techniques in different teaching contexts.

Prerequisite: Any 5.0 credits and ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

ENGD03H3 - Topics in Contemporary Literary Theory

A study of selected topics in recent literary theory. Emphasis may be placed on the oeuvre of a particular theorist or on the impact of a given theoretical movement; in either case, the relation of theory to literary critical practice will be considered, as will the claims made by theory across a range of aesthetic and political discourses and in response to real world demands. Recommended for students planning to pursue graduate study in English literature.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Recommended Preparation: [ENGC15H3](#)

ENGD05H3 - Diasporic-Indigenous Relations on Turtle Island

In this course we consider the possibilities opened up by literature for thinking about the historical and ongoing relations between Indigenous and non-Indigenous people on the northern part of Turtle Island (the Iroquois, Anishinabek and Lenape name for North America). How does literature written by both diasporic and Indigenous writers call upon readers to act, identify, empathize and become responsible to history, to relating, and to what effect? Students will have the opportunity to consider how literature can help address histories of colonial violence by helping us to think differently about questions about land, justice, memory, community, the environment, and the future of living together, in greater balance, on Turtle Island.

Prerequisite: 1.0 credit at the C-level in ENG courses
Exclusion: (ENGB71H3)
Recommended Preparation: [ENGB06H3](#) and [ENGB01H3](#) or (ENGC01H3)
Breadth Requirements: Arts, Literature and Language

ENGD07H3 - Studies in Postmodern Poetry

The study of a poet or poets writing in English after 1950. Topics may include the use and abuse of tradition, the art and politics of form, the transformations of an oeuvre, and the relationship of poetry to the individual person and to the culture at large.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Breadth Requirements: Arts, Literature and Language

ENGD08H3 - Topics in African Literature

This advanced seminar will provide intensive study of a selected topic in African literature written in English; for example, a single national literature, one or more authors, or a literary movement.

Prerequisite: [1.0 credit at C-level in ENG or FLM courses] or [AFSA01H3](#) and [ENGB22H3](#) or (ENGC72H3)]

Breadth Requirements: Arts, Literature and Language

ENGD12H3 - Topics in Life Writing

A detailed study of some aspect or aspects of life-writing. Topics may include life-writing and fiction, theory, criticism, self, and/or gender.
 Can count as a pre-1900 course depending on the topic.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses

ENGD13H3 - Rap Poetics

An intensive study of rhetoric, genre, meaning, and form in rap lyrics. The three-decade-plus recorded history of this popular poetry will be discussed in rough chronological order. Aspects of African-American poetics, as well as folk and popular song, germane to the development of rap will be considered, as will narrative and vernacular strategies in lyric more generally; poetry's role in responding to personal need and to social reality will also prove relevant.

Prerequisite: 1.0 credit at the C- level in ENG courses
Exclusion: (ENGC73H3), (ENGD63H3)
Breadth Requirements: Arts, Literature and Language

ENGD14H3 - Topics in Early Modern English Literature and Culture

An advanced inquiry into critical questions relating to the development of sixteenth- and seventeenth-century English literature and culture. Focus may include the intensive study of an author, genre, or body of work.
 Pre-1900 course

Prerequisite: 1.0 credit at the C-level in ENG courses
Recommended Preparation: [ENGC10H3](#) or [ENGC32H3](#) or [ENGC33H3](#) or [ENGC34H3](#) or [ENGC35H3](#)

ENGD18H3 - Topics in the Long Eighteenth Century, 1660-1830

Topics in the literature and culture of the long eighteenth century. Topics vary from year to year and might include a study of one or more authors, or the study of a specific literary or theatrical phenomenon.
 Pre-1900 course

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Recommended Preparation: [ENGC37H3](#) or [ENGC38H3](#) or [ENGC39H3](#)

ENGD19H3 - Theoretical Approaches to Early Modern English Literature and Culture

An in-depth study of sixteenth- and seventeenth-century literature together with intensive study of the theoretical and critical perspectives that have transformed our understanding of this literature.

Pre-1900 course

Prerequisite: 1.0 credit at the C-level in ENG courses

Recommended Preparation: ENGC10H3 or ENGC32H3 or ENGC33H3 or ENGC34H3 or ENGC35H3

Breadth Requirements: Arts, Literature and Language

ENGD22H3 - Special Topics in Creative Writing II

This multi-genre creative writing course, designed around a specific theme or topic, will encourage interdisciplinary practice, experiential adventuring, and rigorous theoretical reflection through readings, exercises, field trips, projects, etc.

Prerequisite: [0.5 credit at the B-level in Creative Writing] and [0.5 credit at the C-level in Creative Writing]

Breadth Requirements: Arts, Literature and Language

ENGD26Y3 - Independent Studies in Creative Writing: Poetry

Advanced study of the writing of poetry for students who have excelled at the introductory and intermediate levels. Admission by portfolio. The portfolio should contain 15-25 pages of your best poetry and a 500-word description of your project. Please email your portfolio to creative-writing@utsc.utoronto.ca by the last Friday of April (for Independent Studies beginning in either the Fall or Winter semesters).

Prerequisite: ENGB60H3 and ENGC86H3 and [additional 0.5 credit at the C-level in Creative Writing] and permission of the instructor.

Note: Students may normally count no more than 1.0 full credit of D-level independent study towards an English program.

ENGD27Y3 - Independent Studies in Creative Writing: Prose

Advanced study of the writing of fiction or creative nonfiction for students who have excelled at the introductory and intermediate levels. Admission by portfolio. The portfolio should contain 30-40 pages of your best fiction or creative nonfiction and a 500-word description of your project. Please email your portfolio to creative-writing@utsc.utoronto.ca by the last Friday of

April (for Independent Studies beginning in either the Fall or Winter semesters).

Prerequisite: [ENGB61H3 or ENGB63H3] and [ENGC87H3 or ENGC88H3] and [additional 0.5 credit at the C-level in Creative Writing] and permission of the instructor

Exclusion: (ENGD27H3)

Note: Students may normally count no more than 1.0 full credit of D-level independent study towards an English program.

ENGD28Y3 - Independent Studies in Creative Writing: Open Genre

Advanced study of the writing of a non poetry/prose genre (for example, screenwriting, comics, etc.), or a multi-genre/multi-media project, for students who have excelled at the introductory and intermediate levels. Admission by portfolio. The portfolio should contain 20-30 pages of your best work composed in your genre of choice and a 500-word description of your project. Please email your portfolio to creative-writing@utsc.utoronto.ca by the last Friday of April (for Independent Studies beginning in either the Fall or Winter semesters).

Prerequisite: [ENGB60H3 and ENGC86H3] or [ENGB61H3 and ENGC87H3] and [additional 0.5 credit at the C-level in Creative Writing] and permission of the instructor.

Exclusion: (ENGD28H3)

Note: Students may normally count no more than 1.0 full credit of D-level independent study towards an English program.

ENGD29H3 - Chaucer's Early Works

Advanced study of Chaucer's early writings, from *The Book of the Duchess* to *Troilus and Criseyde*. Consisting of dream visions, fantastic journeys, and historical fictions, these works all push beyond the boundaries of everyday experience, depicting everything from the lifestyles of ancient Trojans to a flight through the stars. This course will explore the forms and literary genres that Chaucer uses to mediate between the everyday and the extraordinary. We will also consider related problems in literary theory and criticism, considering how scholars bridge the gap between our own time and the medieval past. Texts will be read in Middle English.

Pre-1900 course.

Prerequisite: 1.0 credit at the C-level in ENG courses

Recommended Preparation: ENGC29H3 or ENGC30H3 or ENGC40H3

Breadth Requirements: Arts, Literature and Language

ENGD30H3 - Topics in Medieval Literature

Topics in the literature and culture of the medieval period. Topics vary from year to year and might include a study of one or more authors.
Pre-1900 course

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Recommended Preparation: [ENGC29H3](#) or [ENGC30H3](#)

ENGD31H3 - Medieval Afterlives

Medieval authors answer the question “what happens after we die?” in great detail. This course explores medieval representations of heaven, hell, and the afterlife. Texts under discussion will include: Dante’s *Inferno*, with its creative punishments; the Book of Muhammad’s Ladder, an adaptation of Islamic tradition for Christian readers; the otherworldly visions of female mystics such as Julian of Norwich; and Pearl, the story of a father who meets his daughter in heaven and immediately starts bickering with her. Throughout we will consider the political, spiritual, and creative significance of writing about the afterlife.

Pre-1900 course.

Prerequisite: 1.0 credit at the C-level in ENG courses
Recommended Preparation: [ENGC29H3](#) or [ENGC30H3](#) or [ENGC31H3](#) or [ENGC40H3](#)
Breadth Requirements: Arts, Literature and Language

ENGD33H3 - Studies in Storytelling Games

An advanced study of games as interactive storytelling vehicles. Possible topics and approaches might include: a sustained look at a single video game or closely related set of games; tracing a thematic or structural element across different games; or exploring collaborative storytelling formats like table-top roleplaying games. Note: This is a highly interactive course, in which students will play a variety of different game forms – while no gaming skill is expected or required, presence and willingness is.

Prerequisite: 1.0 credit at the C-level in ENG or FLM
Recommended Preparation: [ENGB4H3](#) and [ENGC41H3](#)
Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience

ENGD42H3 - Studies in Major Modernist Writers

Advanced study of a selected Modernist writer or small group of writers. The course will pursue the development of a single author’s work over the course of his or her entire career or it may focus on a small group of thematically or historically related writers.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Breadth Requirements: Arts, Literature and Language

ENGD43H3 - Topics in Romanticism, 1750-1850

Topics in the literature and culture of the Romantic movement. Topics vary from year to year and may include Romantic nationalism, the Romantic novel, the British 1790s, or American or Canadian Romanticism.
Pre-1900 course

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Recommended Preparation: [ENGC42H3](#)

ENGD48H3 - Studies in Major Victorian Writers

Advanced study of a selected Victorian writer or small group of writers. The course will pursue the development of a single author’s work over the course of his or her entire career or it may focus on a small group of thematically or historically related writers.
Pre-1900 course

Prerequisite: 1.0 credit at the C-level in ENG courses
Breadth Requirements: Arts, Literature and Language

ENGD50H3 - Fake Friends and Artificial Intelligence: the Human-Robot Relationship in Literature and Culture

This course will explore the portrayal of the human-robot relationship in conjunction with biblical and classical myths. The topic is timely in view of the pressing and increasingly uncanny facets of non-divine, non-biological creation that attend the real-world production and marketing of social robots. While the course looks back to early literary accounts of robots in the 1960s, it concentrates on works written in or after the 1990s. The course aims to analyze how a particular narrative treatment of the robot-human relationship potentially alters our understanding of its mythical intertext and, by extension, notions of divinity, humanity, gender, animality, disability, and relations of kinship and care.

Prerequisite: 1.0 credit at the C-level in ENG courses
Breadth Requirements: Arts, Literature and Language

ENGD53H3 - Studies in Popular Genres

Advanced study of a genre or genres not typically categorized as “literature”, including different theoretical approaches and/or the historical development of a genre. Possible topics might include science fiction, fantasy, gothic, horror, romance, children’s or young adult fiction, or comics and graphic novels.

Prerequisite: 1.0 credits at the C-level in ENG courses
Breadth Requirements: Arts, Literature and Language

ENGD54H3 - Comparative Approaches to Literature and Culture

An in-depth examination of a theme or topic through literary texts, films, and/or popular culture. This seminar course will be organized around a particular topic and will include texts from a variety of traditions. Topics might include, for example, "Disability and Narrative" or "Technology in Literature and Popular Culture."

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Breadth Requirements: Arts, Literature and Language

ENGD55H3 - Literature, Politics, Revolution

This advanced seminar will focus on a selected writer or a small group of writers whose literary work engages with themes of politics, revolution and/or resistance. The course will pursue the development of a single author's work over their entire career, or the development of a small group of thematically or historically related writers, and may include film and other media. Topics will vary year to year.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Breadth Requirements: Arts, Literature and Language

ENGD57H3 - Studies in Major Canadian Writers

Advanced study of a selected Canadian writer or small group of writers. The course will pursue the development of a single author's work over the course of his or her entire career or it may focus on a small group of thematically or historically related writers.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Exclusion: (ENGD51H3), (ENGD88H3)
Recommended Preparation: ENGB06H3 or ENGB07H3

ENGD58H3 - Topics in Canadian Literature

Topics in the literature and culture of Canada. Topics vary from year to year and may include advanced study of ethics, haunting, madness, or myth; or a particular city or region.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Exclusion: (ENGD51H3), (ENGD88H3)
Recommended Preparation: ENGB06H3 or ENGB07H3

ENGD59H3 - Topics in American Poetry

This seminar will usually provide advanced intensive study of a selected American poet each term, following the development of the author's work over the course of his or her entire career. It may also focus on a small group of thematically or historically related poets.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Recommended Preparation: ENGB08H3

ENGD60H3 - Topics in American Prose

This seminar course will usually provide advanced intensive study of a selected American prose-writer each term, following the development of the author's work over the course of his or her entire career. It may also focus on a small group of thematically or historically related prose-writers.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Recommended Preparation: ENGB09H3

ENGD68H3 - Topics in Literature and Religion

Topics might explore the representation of religion in literature, the way religious beliefs might inform the production of literature and literary values, or literature written by members of a particular religious group.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses

ENGD71H3 - Studies in Arab North-American Literature

A study of Arab North-American writers from the twentieth century to the present. Surveying one hundred years of Arab North-American literature, this course will examine issues of gender, identity, assimilation, and diaspora in poetry, novels, short stories, autobiographies and nonfiction.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Breadth Requirements: Arts, Literature and Language

ENGD80H3 - Women and Canadian Writing

A study of the remarkable contribution of women writers to the development of Canadian writing. Drawing from a variety of authors and genres (including novels, essays, poems, autobiographies, biographies, plays, and travel writing), this course will look at topics in women and Canadian literature in the context of theoretical questions about women's writing.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses
Recommended Preparation: ENGB06H3 or ENGB07H3
Breadth Requirements: Arts, Literature and Language

ENGD84H3 - Canadian Writing in the 21st Century

An analysis of features of Canadian writing at the end of the twentieth and the beginning of the twenty-first century. This course will consider such topics as changing themes and sensibilities, canonical challenges, and millennial and apocalyptic themes associated with the end of the twentieth century.

Prerequisite: 1.0 credit at the C-level in ENG courses.
Recommended Preparation: ENGB06H3 or ENGB07H3
Breadth Requirements: Arts, Literature and Language

ENGD89H3 - Topics in the Victorian Period

Topics vary from year to year and might include Victorian children's literature; city and country in Victorian literature; science and nature in Victorian writing; aestheticism and decadence; or steampunk.
 Pre-1900 course

Prerequisite: 1.0 credit at the C-level in ENG courses
Exclusion: ENG443Y

ENGD90H3 - Creative Writing: Genre Bending and Other Methods of Breaking Form

Feminist scholar, Gloria Anzaldua writes in *Borderlands/La Frontera*, "I cannot separate my writing from any part of my life. It is all one." In this class, students will engage with a genre-expansive survey of non-linear and experimental forms of life writing in which lived experience inspires and cultivates form. Some of these genres include flash fiction, auto-theory, auto-fiction, book length essays, ekphrasis, anti-memoir, performance texts, and many others. This course is rooted in intersectional feminist philosophy as a foundational tool for interdisciplinary practice. Throughout the semester, we will explore theoretical approaches that center decolonial literary analysis. We will pair these readings with literature that exemplifies these approaches. In this class, "the personal is political" is the fertile center for our rigorous process of writing and craft excavation.

Prerequisite: [0.5 credit at the B-level in Creative Writing] and [0.5 credit at the C-level in Creative Writing]
Breadth Requirements: Arts, Literature and Language

ENGD95H3 - Creative Writing as a Profession

A practical introduction to the tools, skills and knowledge-base required to publish in the digital age and to sustain a professional creative writing career. Topics include: the publishing landscape, pitching creative work, and employment avenues for creative writers. Will also include a workshop component (open to all genres).

Prerequisite: 1.0 credit at the C-level in Creative Writing courses
Breadth Requirements: Arts, Literature and Language

ENGD98Y3 - Senior Essay and Capstone Seminar

An intensive year-long seminar that supports students in the development of a major independent scholarly project. Drawing on workshops and peer review, bi-monthly seminar meetings will introduce students to advanced research methodologies in English and will provide an important framework for students as they develop their individual senior essays. Depending on the subject area of the senior essay, this course can be counted towards the Pre-1900 requirement.

Prerequisite: Minimum GPA of 3.5 in English courses; 15.0 credits, of which at least 2.0 must be at the C-or D-level in ENG or FLM courses.
Exclusion: ENG490Y
Recommended Preparation: 0.5 credit at the D-level in ENG or FLM courses

FLMA70H3 - How to Read a Film

An introduction to the critical study of cinema, including films from a broad range of genres, countries, and eras, as well as readings representing the major critical approaches to cinema that have developed over the past century.

Exclusion: INI115Y, (ENGB70H3)
Breadth Requirements: Arts, Literature and Language

FLMB71H3 - Writing About Movies

In this course, students will learn to write critically about movies. We will watch movies and read film criticism, learning to write about film for various audiences and purposes. Forms of writing covered will include movie reviews, blogs, analytical essays, and research-based essays. This is a writing-intensive course that will include revision and peer review. Students will learn how to write academic essays about movies, while also learning about the goals and tools for writing about film for other audiences and venues.

Exclusion: CIN369H1, (ENGB71H3)

Recommended Preparation: FLMA70H3/(ENGB70H3)

Breadth Requirements: Arts, Literature and Language

FLMB75H3 - Cinema and Modernity

An investigation of film genres such as melodrama, *film noir*, and the western from 1895 to the present alongside examples of twentieth-century prose and poetry. We will look at the creation of an ideological space and of new mythologies that helped organize the experience of modern life.

Exclusion: (ENGB75H3)

Breadth Requirements: Arts, Literature and Language

FLMB77H3 - Cinema and Colonialism

An introduction to cinema's relationship to colonialism, decolonization, and postcolonialism. How has film constructed, perpetuated, and challenged colonial logic? We will explore this question by examining colonial cinema, ethnography, Hollywood genres, anti-colonial film, and postcolonial film practices.

Exclusion: HISC08H3, VCC306H5, (ENGB77H3)

Recommended Preparation: FLMA70H3/(ENGB70H3)

Breadth Requirements: Arts, Literature and Language, History, Philosophy and Cultural Studies

Note: Priority will be given to students enrolled in programs from the Department of English.

FLMB80H3 - Cinema, Race, and Representation

This course examines representations of race in cinema, focusing on methods for analyzing the role of race in the politics and aesthetics of various cinematic modes. Topics may include: ideology, stereotypes, representation, dominant and counter-cinemas, cultural hegemony, and popular culture. Contemporary and classic films will be studied through the lens of race and representation.

Exclusion: CIN332Y

Breadth Requirements: Arts, Literature and Language

FLMC44H3 - Self and Other in Literature and Film

A study of the relation between self and other in narrative fiction. This course will examine three approaches to the self-other relation: the moral relation, the epistemological relation, and the functional relation. Examples will be chosen to reflect engagements with gendered others, with historical others, with generational others, and with cultural and national others.

Prerequisite: Any 6.0 credits

Exclusion: (ENGC44H3)

Recommended Preparation: ENGA01H3 and ENGA02H3 or FLMA70H3/(ENGB70H3)

Breadth Requirements: Arts, Literature and Language

FLMC55H3 - The Documentary Film

This study of films from major movements in the documentary tradition including ethnography, cinéma vérité, social documentary, personal documentary, and "reality television". Schools of thought and major debates in the history of documentary studies will also be introduced.

Prerequisite: 6.0 credits, including 0.5 credit in FLM or ENGA10H3 or ENGA11H3

Exclusion: CIN312Y1

Recommended Preparation: FLMB71H3 or ENGA02H3

Breadth Requirements: Arts, Literature and Language

FLMC56H3 - Literature and Media: From Page to Screen

An exploration of the relationship between written literature and film and television. What happens when literature influences film and vice versa, and when literary works are recast as visual media (including the effects of rewriting, reproduction, adaptation, serialization and sequelization)?

Prerequisite: Any 6.0 credits

Exclusion: (ENGC56H3)

Recommended Preparation: ENGA01H3 and ENGA02H3 or FLMA70H3/(ENGB70H3)

Breadth Requirements: Arts, Literature and Language

FLMC75H3 - Freaks and Geeks: Children in Contemporary Film and Media

This course will look at the depiction of childhood and youth in contemporary film and television, especially focusing on films that feature exceptional, difficult, or magical children. The course will explore how popular culture represents children and teens, and how these films reflect cultural anxieties about parenting, childhood, technology, reproduction, disability and generational change. Films and television shows may include: Mommy, The Babadook, Boyhood, Girlhood, A Quiet Place, We Need to Talk About Kevin, The Shining, Looper, Elephant, Ready Player One, Stranger Things, Chappie, Take Shelter, and Moonlight.

Prerequisite: Any 6.0 credits

Exclusion: (ENGC75H3)

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

FLMC78H3 - Dystopian Visions in Fiction and Film

An exploration of negative utopias and post-apocalyptic worlds in film and literature. The course will draw from novels such as *1984*, *Brave New World*, *Clockwork Orange*, and *Oryx and Crake*, and films such as *Metropolis*, *Mad Max*, *Brazil*, and *The Matrix*. Why do we find stories about the world gone wrong so compelling?

Prerequisite: Any 6.0 credits

Exclusion: (ENGC78H3)

Recommended Preparation: ENGA01H3 and ENGA02H3 or FLMA70H3/(ENGB70H3)

Breadth Requirements: Arts, Literature and Language

FLMC81H3 - Topics in National Cinemas

This is a course on the nation as a framework for film analysis. The topic will be the cinema of a single nation, or a comparison of two or more national cinemas, explored from several perspectives: social, political, and aesthetic. The course will look at how national cinema is shaped by and in turn shapes the cultural heritage of a nation. The course will also consider how changing definitions of national cinema in Film Studies have shaped how we understand film history and global film culture.

Prerequisite: FLMA70H3 or (ENGB70H3)

Recommended Preparation: FLMB71H3/(ENGB71H3) or FLMB77H3/(ENGB77H3) or FLMB80H3/(ENGB80H3)

Breadth Requirements: Arts, Literature and Language, History, Philosophy and Cultural Studies

Note: Priority for students enrolled in programs in the Department of English, including the Literature and Film Minor and the Film Studies Major.

FLMC82H3 - Topics in Cinema Studies

A variable theme course that will feature different theoretical approaches to Cinema: feminist, Marxist, psychoanalytic, postcolonial, and semiotic. Thematic clusters include "Madness in Cinema," and "Films on Films."

Prerequisite: Any 6.0 credits

Exclusion: (ENGC82H3)

Recommended Preparation: ENGA01H3 and ENGA02H3 or FLMA70H3/(ENGB70H3)

Breadth Requirements: Arts, Literature and Language

FLMC83H3 - World Cinema

A study of Non-Western films. This course analyzes a selection of African, Asian, and Middle Eastern films both on their own terms and against the backdrop of issues of colonialism and globalization.

Prerequisite: Any 6.0 credits or SOCB58H3, and an additional 4.0 credits, and enrolment in the Minor in Culture, Creativity, and Cities]

Exclusion: (ENGC83H3)

Recommended Preparation: ENGA01H3 and ENGA02H3 or FLMA70H3/(ENGB70H3)

Breadth Requirements: Arts, Literature and Language

FLMC84H3 - Cinema and Migration

This course introduces students to cinema by, and about, immigrants, refugees, migrants, and exiles. Using a comparative world cinema approach, the course explores how the aesthetics and politics of the cinema of migration challenge theories of regional, transnational, diasporic, and global cinemas.

Prerequisite: Any 6.0 credits

Exclusion: (ENGC84H3)

Recommended Preparation: ENGA01H3 and ENGA02H3

Breadth Requirements: Arts, Literature and Language

FLMC92H3 - Film Theory

An introduction to the major theorists and schools of thought in the history of film theory, from the early 20th century to our contemporary moment. What is our relationship to the screen? How do movies affect our self-image? How can we think about the power and politics of the moving image? We will think about these questions and others by watching movies in conjunction with theoretical texts touching on the major approaches to film theory over the last century.

Prerequisite: Any 6.0 credits

Exclusion: CIN301Y, (ENGC92H3)

Recommended Preparation: ENGA01H3 and ENGA02H3 and 0.5 credit in FLM courses

Breadth Requirements: Arts, Literature and Language

FLMC93H3 - Gender and Sexuality at the Movies

This course is a study of gender and sexuality in cinema. What happens when we watch bodies on screen? Can cinema change the way we understand gender and sexuality? We explore these questions in relation to topics including feminist film theory, LGBTQ2S+ film cultures, women's cinema, and queer theory.

Prerequisite: FLMA70H3 or (ENGB70H3)

Exclusion: CIN336H1, CIN330Y1, (ENGC93H3)

Breadth Requirements: Arts, Literature and Language, History, Philosophy and Cultural Studies

FLMC94H3 - Women Directors

A study of select women filmmakers and the question of women's film authorship. Emphasis may be placed on the filmography of a specific director, or on film movements in which women filmmakers have made major contributions. Aspects of feminist film theory, critical theory, and world cinema will be considered, as well as the historical context of women in film more generally.

Prerequisite: Any 6.0 credits

Exclusion: CIN330Y1, (ENGC94H3)

Recommended Preparation: FLMA70H3/(ENGB70H3)

Breadth Requirements: Arts, Literature and Language

Note: Priority will be given to students enrolled in programs from the Department of English.

FLMC95H3 - Indian Cinemas: Bollywood, Before and Beyond

This course will introduce students to various film cultures in India, with a focus on Bollywood, the world's largest producer of films. The readings will provide an overview of a diverse range of film production and consumption practices in South Asia, from popular Hindi films to 'regional' films in other languages. This is an introductory course where certain key readings and films will be selected with the aim of helping students develop their critical writing skills. These course materials will help students explore issues of aesthetics, politics and reception across diverse mainstream, regional and art cinema in the Indian subcontinent.

Prerequisite: Any 6.0 credits

Exclusion: (ENGC95H3)

Recommended Preparation: ENGA10H3 and

ENGA11H3 and ENGB19H3 and

FLMA70H3/(ENGB70H3) and FLMB77H3/(ENGB77H3)

Breadth Requirements: Arts, Literature and Language

FLMD52H3 - Cinema: The Auteur Theory

An exploration of the genesis of auteur theory. By focusing on a particular director such as Jane Campion, Kubrick, John Ford, Cronenberg, Chaplin, Egoyan, Bergman, Godard, Kurosawa, Sembene, or Bertolucci, we will trace the extent to which a director's vision can be traced through their body of work.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses

Exclusion: INI374H, INI375H, (ENGD52H3)

Breadth Requirements: Arts, Literature and Language

FLMD62H3 - Topics in Postcolonial Literature and Film

An exploration of multicultural perspectives on issues of power, perception, and identity as revealed in

representations of imperialism and colonialism from the early twentieth century to the present.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses

Exclusion: (ENGD62H3)

FLMD91H3 - Avant-Garde Cinema

An exploration of Avant-Garde cinema from the earliest experiments of German Expressionism and Surrealism to our own time. The emphasis will be on cinema as an art form aware of its own uniqueness, and determined to discover new ways to exploit the full potential of the "cinematic".

Prerequisite: 1.0 credit at C-level in ENG or FLM courses

Exclusion: INI322Y, (ENGD91H3)

Breadth Requirements: Arts, Literature and Language

FLMD93H3 - Theoretical Approaches to Cinema

Advanced study of theories and critical questions that inform current directions in cinema studies.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses

Exclusion: INI214Y, (ENGD93H3)

Recommended Preparation: Additional 0.5 credit at the B- or C-level in FLM courses

Breadth Requirements: Arts, Literature and Language

FLMD94H3 - Theories and Practices of Documentary Film

The study of theories, methodologies, and artistic approaches to documentary film. This course takes a critical and creative approach to the study of documentaries and includes a hands-on video production component. Advanced theoretical readings and topics will explore the tensions between reality and representation, art and politics, technology and narrative, film and audience, and trust and exploitation in documentary filmmaking.

Prerequisite: 1.0 credit at C-level in ENG or FLM courses

Exclusion: (ENGD94H3), CIN312Y1

Recommended Preparation: Additional 0.5 credit at the B- or C-level in FLM courses or FLMC55

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

FLMD96H3 - Iranian Cinema

This course examines the development of Iranian cinema, particularly experimental and art cinema. Questions of form, and the political and social dimensions of cinema, will be considered alongside the theory of national cinemas. The course places Iranian cinema in a global context by considering it with other national cinemas.

Prerequisite: 0.5 credit at the B- or C-level in FLM courses

Exclusion: (ENGD96H3)

Breadth Requirements: Arts, Literature and Language

Note: Priority will be given to students enrolled in the Minor Program in Film Studies.

Environmental Science

Faculty List

- G.B. Arhonditsis, B.Sc., M.Sc. (Agricultural Univ. of Athens, Greece), Ph.D. (Univ. of the Aegean, Greece), Professor
- T. Bell, B.Sc., M.Sc. (Western), Ph.D. (McGill), Assistant Professor
- I.F. Creed, M.Sc. (Toronto), Ph.D. (Toronto), Professor
- H. Daxberger, Dipl. Geol. (Fredrich Alexander University, Germany), Ph.D. (McMaster), Associate Professor, Teaching Stream
- M. Dittrich, M.S. (Moscow), Ph.D. (Humbolt), Professor
- N. Eyles, B.Sc. (Leicester), M.Sc. (Memorial University NFLD), Ph.D. (East Anglia), D.Sc. (Leicester), P. Geo., Professor Emeritus
- R.R. Fulthorpe, B.Sc., M.Sc. (Toronto), Ph.D. (Carlton), Professor Emeritus
- W.A. Gough, B.Sc. (Waterloo), M.Sc. (Toronto), Ph.D. (McGill), Professor
- B. Greenwood, B.Sc., Ph.D. (Bristol), Ph.D. (Hons. Causa, Uppsala), Professor Emeritus
- P. Heron, MGeophys. (Leeds), M.Sc., Ph.D. (Toronto), Assistant Professor
- K.W.F. Howard, B.Sc. (Exeter), M.Sc., Ph.D. (Birmingham), P.Geo., C.Geol.F.G.S., P.H.G., Professor Emeritus
- M.E. Isaac, Ph.D. (Toronto), Professor
- N. Klenk, Ph.D. (British Columbia), Associate Professor
- N. Latulippe, B.A. (Hons) (Nipissing), M.A. (Guelph), Ph.D. (Toronto), Assistant Professor
- St. W. Livingstone, Ph.D. (Toronto), Assistant Professor Teaching Stream
- J.P. Lowman, B.Sc. (Toronto), M.Sc., Ph.D. (York, Canada), Professor
- J.I. MacLellan, R.P.F. (New Brunswick), B.A., B.Sc., M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- A. Martin, B.A.(Hon.), M.F.C., Ph.D. (Toronto), Assistant Professor
- M. Meriano, B.Sc., M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- C. Mitchell, B.Sc. (McMaster), M.Sc., Ph.D. (Toronto), Professor
- T. Mohsin, B.Sc. (Dhaka), M.Sc. (Dhaka), M.E.S. (Newcastle), Ph.D. (Toronto), Associate Professor, Teaching Stream
- A.G. Price, B.Sc. (Wales), M.Sc., Ph.D. (McGill), Associate Professor Emeritus
- A. Simpson, B.Sc., Ph.D. (Birmingham), Professor
- M.J. Simpson, B.Sc., Ph.D. (Alberta), Professor
- K. Smith, B.Sc. (Queen's), M.Sc. (California Institute of Technology), Ph.D. (Toronto), Associate Professor, Teaching Stream
- S. Stefanovic, Ph.D. (Toronto), Assistant Professor, Teaching Stream
- F. Wania, Dipl.Geook. (Bayreuth), Ph.D. (Toronto), Professor
- M. Wells, B.Sc., Ph.D. (Australian National), Professor
- J.A. Westgate, B.Sc. (Reading), Ph.D. (Alberta), Professor Emeritus
- D.D. Williams, B.Sc. (North Wales), Dip. Ed. (Liverpool), M.Sc., Ph.D. (Waterloo), D.Sc. (Wales), Professor Emeritus

For an updated list of Program Supervisors, please [visit the Environmental Sciences website](#).

Human activity is a major cause of environmental change. The study of the dynamics of both natural and anthropogenic changes requires knowledge spanning many scientific disciplines. Recent environmental degradation such as surface and subsurface water pollution, air and soil pollution, climate change, depletion of resources, extinction of species, and problems of waste disposal are all a result of the lack of understanding of environmental systems and processes. Environmental degradation has an impact not only on human beings but on all species and most natural systems so that its understanding requires knowledge and skills from many disciplines such as biology, chemistry, geology, geography, mathematics, physics, and ecology.

All Environmental Science Specialist programs (Global Environmental Change, Environmental Chemistry, Environmental Geoscience, and Environmental Physics) and the Major Program in Environmental Science have earned official accreditation from Environmental Careers Organization (ECO) Canada and the Canadian Environmental Accreditation Commission (CEAC). These UTSC programs have met the national standard required to earn accredited status, which connects industry and academics in the environmental sector. Graduates of these programs are eligible to receive their

Environmental Professional in Training (EPt) designation, which is a developmental certification for emerging environmental professionals. To learn more about the EPt program, please visit the [ECO Canada](#) website.

The overall purpose of the programs in Environmental Science is to provide education and training which will produce highly qualified scientists with excellent field and laboratory experience, with a view to future employment in consulting, government, non-governmental organizations, and research and teaching.

Programs in Environmental Chemistry have been moved to the [Chemistry](#) section of the Calendar.

Programs in Environmental Physics have been moved to the [Physics and Astrophysics](#) section of the Calendar.

Students are cautioned that some courses in Environmental Science (EES) may include Ancillary fees.

Combined Degree Programs, Honours Bachelor of Science/ Master of Engineering

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBS) with the Master of Engineering (MEng) offered by the Faculty of Applied Science and Engineering allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the MEng programs in either Chemical Engineering & Applied Chemistry or Civil Engineering. These Combined Degree Programs allow students to complete 1.0 credit in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- Global Environmental Change (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Combined Degree Programs, Honours Bachelor of Science/ Master of Environmental Science

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBS) with the Master of Environmental Science (MEnvSc) offered by the Graduate Department of Physical and Environmental Sciences allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the MEnvSc program. They are designed for students interested in pursuing a career in environmental sciences within the green-sector, geosciences, industry, consulting, government and policy organizations. These Combined Degree Programs give students the opportunity to: (1) begin exploring their academic interests in Year 4 of their studies; (2) complete 1.0 credit in courses that may be counted towards both degrees; and (3) enroll in the MEnvSc in the Summer session between Years 4 and 5 in order to complete either a two-month academic or internship opportunity, in addition to the mandatory four-month academic or internship opportunity completed in the MEnvSc program alone.

Combined Degree Programs options are:

- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Combined Degree Programs, Honours Bachelor of Science or Honours Bachelor of Arts/ Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc)/ Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provide students with a direct pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and Master's degree. These Combined Degree Programs allow students to complete 1.0 credit in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Program Combination Restrictions in Environmental Science

- Programs in Global Environmental Change, Environmental Chemistry, Environmental Geoscience, Environmental Physics, and Environmental Science cannot be combined.
- The Minor program in Natural Sciences and Environmental Management cannot be combined with either the Major program in Environmental Studies or the Minor program in Environmental Science.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Environmental Science Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE / MASTER OF ENGINEERING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) and Master of Engineering (MEng) allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the Faculty of Engineering & Applied Chemistry MEng programs in either Chemical Engineering & Applied Chemistry or Civil Engineering.

Contact Information:

Mandy Meriano(416-208-2775)

Email: mmeriano@utsc.utoronto.ca

Combined Degree Programs options are:

- Global Environmental Change (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Physics (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Physics (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering

Application Process:

- UTSC students in Year 3 of one the identified HBSc programs who are interested in one of the identified CDPs must contact Professor M. Meriano before the end of the Fall session.
- Qualified UTSC students will be able to apply to their selected CDP.
- UTSC students who are accepted to the CDP will receive a conditional offer to start the Master of Engineering (MEng) program upon completion of their HBSc program requirements.

Minimum Admission Requirements:

- Applicants must meet the admission requirements of the HBSc program, the School of Graduate Studies, and the MEng program.
- Applicants to the HBSc program must:
 - be enrolled full-time and in good standing;
 - have a B+ average (CGPA of 3.3) or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer).
- Applicants to the MEng program must:
 - maintain a B+ average (CGPA of 3.3) or higher in Year 3 and Year 4 of their HBSc program;
 - complete the requirements of their HBSc program;
 - be conferred with the HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBSc degree requirements:
 - students must complete all HBSc program requirements and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;

- in Year 3, qualified students may apply to the CDP and may be offered conditional admission to the MEng program;
- in Year 4, students who receive a conditional offer of admission to the CDP and MEng:
 - **must complete two prescribed undergraduate engineering half courses** (1.0 credit) as part of the HBSc degree requirements;
 - may complete up to 1.0 credit in graduate courses with the permission of either the Department of Chemical Engineering and Applied Chemistry or Department of Civil Engineering (depending on the selected CDP); these courses can be counted towards the completion of both the HBSc degree requirements and the MEng program and degree requirements.
- by the end of Year 4, fulfill both the undergraduate program requirements and the undergraduate degree requirements.
- Year 5: Remaining MEng program and degree requirements:
 - conditions of admission are removed;
 - complete 5.0 credits in MEng courses; students who have completed up to 1.0 credit in MEng courses in Year 4 may subtract those courses from the total 5.0 credits required.

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE / MASTER OF ENVIRONMENTAL SCIENCE

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) with the Master of Environmental Science (MEnvSc) offered by the Graduate Department of Physical and Environmental Sciences allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the MEnvSc program. They are designed for students interested in pursuing a career in environmental sciences within the green-sector, geosciences, industry, consulting, government and policy organizations. These Combined Degree Programs give students the opportunity to: (1) begin exploring their academic interests in Year 4 of their studies; (2) complete 1.0 credit in courses that may be counted towards both degrees; and (3) enrol in the MEnvSc in the Summer session between Years 4 and 5 in order to complete either a two-month academic or internship opportunity, in addition to the mandatory four-month academic or internship opportunity completed in the MEnvSc program alone.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Biological Sciences

- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Environmental Science

Department of Physical and Environmental Sciences

- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science

Application Process:

- Applicants must apply to the Honours Bachelor of Science (HBSc) program, the MEnvSc program, and the CDP.

- Qualified students in Year 3 of their HBSc degree program apply to the MEnvSc program and their chosen CPD through the SGS Online Admission Application system:
 - students will select one of the three fields of study within the MEnvSc program at the time of application:
 - Climate Change Impacts and Adaptation
 - Conservation and Biodiversity, or
 - Terrestrial and Aquatic Systems
 - those accepted will receive a conditional offer to start the MEnvSc program upon completion of their HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MEnvSc program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBSc degree and one of the above listed undergraduate programs at UTSC.
- Meet the minimum admission requirements of the School of Graduate Studies and the MEnvSc program.
- Be enrolled full-time and in good standing in the HBSc program:
 - have a B+ average (CGPA of 3.3) or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- Complete the following undergraduate courses as part of the HBSc degree requirements:
 - Students in the Specialist in Conservation and Biodiversity or the Specialist in Integrative Biology:
 - BIOC63H3 Conservation Biology (0.5 credit)
 - BIOD54H3 Applied Conservation Biology (0.5 credit)
 - Students in the Specialist/Specialist Co-op programs in Global Environmental Change, Environmental Chemistry, Environmental Geoscience, or Environmental Physics:
 - EESC24H3 Advanced Readings in Environmental Science (0.5 credit)
 - EESD10Y3 Research Project in Environmental Science (1.0 credit)

To be given **full, unconditional admission to the MEnvSc program**, applicants must meet the following admission requirements:

- Maintain a B+ average (CGPA of 3.3) or higher in their final year of study in the HBSc program or over upper-level (C- and D-level) courses.
- Achieve at least a grade of B- (70%) in both of the graduate courses taken in Year 4 of undergraduate study; these courses must be chosen in consultation with the Graduate Program Supervisor:
 - for the field in Climate Change Impacts and Adaptation: EES 1133H Climate Change Science and Modelling (0.5 credit), plus an additional 0.5 credit;
 - for the field in Conservation and Biodiversity: EES 3002H Conservation Policy (0.5 credit), plus an additional 0.5 credit;
 - for the field in Terrestrial and Aquatic Systems: 1.0 credit.
- Be conferred with the HBSc degree.

Program Requirements and Path to Completion:

- Year 4: HBSc degree requirements
 - students must complete all HBSc program requirements and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year; where necessary, exceptions will be made for students in Co-op programs;
 - students who receive a conditional offer of admission to the CDP must complete the following undergraduate courses:
 - students in the Specialist in Conservation and Biodiversity or the Specialist in Integrative Biology:
 - BIOC63H3 Conservation Biology (0.5 credit)
 - BIOD54H3 Applied Conservation Biology (0.5 credit)
 - students in the Specialist/Specialist Co-op programs in Global Environmental Change, Environmental Chemistry, Environmental Geoscience, or Environmental Physics:
 - EESC24H3 Advanced Readings in Environmental Science (0.5 credit)
 - EESD10Y3 Research Project in Environmental Science (1.0 credit)

- students must complete 1.0 credit in graduate courses, chosen in consultation with the Graduate Program Supervisor, as follows:
 - for the field in Climate Change Impacts and Adaptation: EES 1133H Climate Change Science and Modelling (0.5 credit), plus an additional 0.5 credit;
 - for the field in Conservation and Biodiversity: EES 3002H Conservation Policy (0.5 credit), plus an additional 0.5 credit;
 - for the field in Terrestrial and Aquatic Systems: 1.0 credit.
- Optional registration in the Summer session prior to Year 5:
 - students complete one of the following opportunities:
 - EES 4001H Internship Training (0.5 credit)
 - EES 4003H Academic Training (0.5 credit)
- Year 5: Remaining MEnvSc program and degree requirements.

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc)/ Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBSc and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
 - if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
 - if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
 - for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching

- subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
- for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:
 - students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

SPECIALIST (CO-OPERATIVE) PROGRAM IN ENVIRONMENTAL GEOSCIENCE (SCIENCE) - SCSPE0350D

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Environmental Geoscience is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Environmental Geoscience upon graduation.

This program has been designed to meet the expectations of the Association of Professional Geoscientists of Ontario (APGO) - the licensing and regulatory body responsible for ensuring that geoscientists have the appropriate qualifications to practice. Please visit the APGO website for further information on requirements to become a Professional Geoscientist (P.Geo) in Ontario.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 5.0 credits, including [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [CHMA11H3](#), [EESA01H3](#), [EESA06H3](#), [MATA30H3](#), [[MATA36H3](#) or [MATA37H3](#)], [PHYA10H3](#) and [PHYA21H3](#), plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Environmental Geoscience.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN ENVIRONMENTAL GEOSCIENCE (SCIENCE) - SCSPE0351A

For an updated list of Programs Supervisors, please visit the [Environmental Sciences website](#).

This program has been designed to meet the expectations of the Association of Professional Geoscientists of Ontario (APGO) - the licensing and regulatory body responsible for ensuring that geoscientists have the appropriate qualifications to practice. Students are encouraged to make careful choice of optional/elective courses to meet APGO requirements.

Please visit the [APGO website](#) for further information on requirements to become a Professional Geoscientist (P.Geo) in Ontario.

Program Requirements

Total requirements: 15.5 credits of which 1.0 credit must be at the D-level as follows:

Notes:

1. Possible changes to program-required courses (exceptions/substitutions) can only be considered by gaining permission from the program supervisor BEFORE taking the substitution course.
2. Retroactive substitutions to program-required courses cannot be granted; they will not count toward the degree requirements.

First Year: 5.0 credits

[BIOA01H3](#) Life on Earth: Unifying Principles

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms

[CSCA20H3](#) Introduction to Programming

[EESA06H3](#) Introduction to Planet Earth

[\[MATA30H3](#) Calculus I for Physical Sciences *or* [MATA31H3](#) Calculus I for Mathematical Sciences]*

[\[MATA36H3](#) Calculus II for Physical Sciences *or* [MATA37H3](#) Calculus II for Mathematical Sciences]**

[PHYA10H3](#) Physics I for the Physical Sciences

[PHYA21H3](#) Physics II for the Physical Sciences

and

0.5 credit from the following:

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

[EESA01H3](#) Introduction to Environmental Science

*MAT135H1 will not be accepted as an exceptions/substitutions

**MAT136H1 will not be accepted as an exceptions/substitutions

Second Year: 5.0 credits

[CHMB55H3](#) Environmental Chemistry

[EESB02H3](#) Principles of Geomorphology

[EESB03H3](#) Principles of Climatology

[EESB04H3](#) Principles of Hydrology

[EESB05H3](#) Principles of Soil Science

[EESB15H3](#) Earth History

[EESB18H3](#) Natural Hazards

[EESB19H3](#) Mineralogy

[EESB20H3](#) Sedimentology and Stratigraphy

[STAB22H3](#) Statistics I

Third Year: 3.5 credits

[EESC03H3](#) Geographic Information Systems and Remote Sensing

[EESC07H3](#) Groundwater

[EESC13H3](#) Environmental Impact Assessment and Auditing

[EESC20H3](#) Geochemistry

[EESC22H3](#) Exploration Geophysics

[EESC36H3](#) Petrology

and

0.5 credit from the following:

BIOB50H3 Ecology

EESB22H3 Environmental Geophysics

EESB26H3 Introduction to Global Geophysics

EESC18H3 Limnology

EESC19H3 Oceanography

EESC31H3 Glacial Geology

Fourth Year: 2.0 credits

EESC37H3 Structural Geology

and

0.5 credit from the following:

EESC26H3 Seismology and Seismic Methods

EESD02H3 Contaminant Hydrogeology

EESD06H3 Climate Change Impact Assessment

EESD09H3 Research Project in Environmental Science

EESD10Y3 Research Project in Environmental Science

EESD11H3 Advanced Watershed Hydrology

EESD13H3 Environmental Law, Policy and Ethics

EESD15H3 Fundamentals of Site Remediation

EESD19H3 Professional Development Seminars in Geoscience

EESD20H3 Geological Evolution and Environmental History of North America

EESD21H3 Geophysical and Climate Data Analysis

and

[1.0 credit at the C- or D-level in EES courses] or [0.5 credit at the C- or D-level in EES courses and PSCD11H3 Communicating Science: Film, Media, Journalism, and Society]

Strongly recommended: EESC16H3 Field Camp I or EESD07H3 Field Camp II or EESD33H3 Field Techniques

SPECIALIST PROGRAM IN GLOBAL ENVIRONMENTAL CHANGE (SCIENCE) - SCSPE0371

For an updated list of Programs Supervisors, please visit the [Environmental Sciences website](#).

This program was formerly known as Specialist in Environmental Biology. Humans are considered to be the dominant force shaping nearly all of Earth's biotic and abiotic patterns and processes, including those within the world's atmosphere, biosphere, cryosphere, hydrosphere, and lithosphere. Many scientists now suggest that anthropogenic impacts on the environment are so pervasive, that they have moved Earth into a novel geological epoch called "The Anthropocene": a time in Earth's 4.6 billion-year history where humans are the dominate force shaping the environment. In the Specialist program in Global Environmental Change students will gain a deep understanding of: 1) the fundamental environmental processes occurring within Earth's spheres; 2) how humans are profoundly influencing these processes at local and global scales; and 3) how anthropogenic changes to Earth's environment are both unfolding rapidly, and unique in the context of Earth's history. The program entails learning these themes through a comprehensive mix of: 1) core and advanced scientific courses; 2) applied environmental skills courses; and 3) undergraduate environmental research opportunities.

Program Requirements

Total requirements: 14.5 credits

First Year (4.5 credits):

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

CHMA10H3 Introductory Chemistry I: Structure and Bonding

CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms

EESA01H3 Introduction to Environmental Science

EESA06H3 Introduction to Planet Earth

[MATA29H3 Calculus I for Life Sciences or MATA30H3 Calculus I for Physical Sciences]

[MATA35H3 Calculus II for Biological Sciences or MATA36H3 Calculus II for Physical Sciences]

[PHYA10H3 Physics I for the Physical Sciences or PHYA11H3 Physics I for the Life Sciences]

Second Year (5.0 credits):

[[CSCA08H3](#) Introduction to Computer Science I or [CSCA20H3](#) Introduction to Programming]

[BIOB50H3](#) Ecology

[BIOB51H3](#) Evolutionary Biology

[CHMB55H3](#) Environmental Chemistry

[EESB03H3](#) Principles of Climatology

[EESB04H3](#) Principles of Hydrology

[EESB05H3](#) Principles of Soil Science

[ESTB01H3](#) Introduction to Environmental Studies

[STAB22H3](#) Statistics I

and

0.5 credit from the following:

[BIOB52H3](#) Ecology and Evolutionary Biology Laboratory

[EESB15H3](#) Earth History

[EESB16H3](#) Feeding Humans - The Cost to the Planet

[PSCB90H3](#) Physical Sciences Research Experience

Third and Fourth Years (5.0 credits):

3.5 credits as follows:

[BIOC58H3](#) Biological Consequences of Global Change

[BIOC63H3](#) Conservation Biology

[EESC02H3](#) Invaded Environments

[EESC03H3](#) Geographic Information Systems and Remote Sensing

[EESC04H3](#) Biodiversity and Biogeography

[EESC30H3](#) Environmental Microbiology

[EESD06H3](#) Climate Change Impact Assessment

and

1.5 credits from the following, of which 0.5 credit must be at the D-level:

[BIOC37H3](#) Plants: Life on the Edge

[BIOC51H3](#) Tropical Biodiversity Field Course

[BIOC52H3](#) Ecology Field Course

[BIOD52H3](#) Biodiversity and Conservation

[BIOD54H3](#) Applied Conservation Biology

[EESC13H3](#) Environmental Impact Assessment and Auditing

[EESC16H3](#) Field Camp I

[EESC18H3](#) Limnology

[EESC19H3](#) Oceanography

[EESC20H3](#) Geochemistry

[EESC24H3](#) Advanced Readings in Environmental Science

[EESC38H3/ESTC38H3](#) The Anthropocene

[EESD02H3](#) Contaminant Hydrogeology

[EESD09H3](#) Research Project in Environmental Science

[EESD07H3](#) Field Camp II

[EESD10Y3](#) Research Project in Environmental Sciences

[EESD11H3](#) Advanced Watershed Hydrology

SPECIALIST (CO-OPERATIVE) PROGRAM IN GLOBAL ENVIRONMENTAL CHANGE (SCIENCE) - SCSPE0371C

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Global Environmental Change is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Environmental Biology upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.5 credits, including BIOA01H3, BIOA02H3, CHMA10H3, CHMA11H3, EESA01H3, EESA06H3, MATA30H3, [MATA35H3 or MATA36H3 or MATA37H3] and [PHYA10H3 or PHYA11H3], plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Global Environmental Change.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN ENVIRONMENTAL SCIENCE (SCIENCE) - SCMAJ1076

For an updated list of Programs Supervisors, please visit the Environmental Sciences website.

Program Requirements

This program requires 8.5 credits as follows:

Notes:

1. Possible changes of program-required courses (exceptions or substitutions) can only be considered by gaining permission from the program supervisor BEFORE taking the substitution course.
2. Retroactive substitutions to program-required courses cannot be granted; hence will not count toward the degree requirements.

First Year: 4 credits

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

CHMA10H3 Introductory Chemistry I: Structure and Bonding

CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms

EESA06H3 Planet Earth

[MATA29H3 Calculus I for the Life Sciences or MATA30H3 Calculus I for the Physical Sciences]*

[MATA35H3 Calculus II for the Biological Sciences or MATA36H3 Calculus II for the Physical Sciences]*

[PHYA10H3 Physics I for the Physical Sciences or PHYA11H3 Physics I for the Life Sciences]*

Please note: MAT135H1, MAT136H1 and PHY136H will not be accepted as substitutions

Second Year: 2.5 credits

STAB22H3 Statistics I

and

1.5 credits from the following:

EESB03H3 Principles of Climatology

EESB04H3 Principles of Hydrology

EESB05H3 Principles of Soil Science

EESB15H3 Earth History

EESB16H3 Feeding Humans - The Cost to the Planet

and

0.5 credit from the following:

BIOB50H3 Ecology

EESB02H3 Principles of Geomorphology

EESB22H3 Environmental Geophysics

EESB17H3 Hydro Politics and Transboundary Water Resource Management

[CSCA08H3 Introduction to Computer Science I or CSCA20H3 Introduction to Programming]

CHMB55H3 Environmental Chemistry

Third & Fourth Years: 2 credits

[2.0 credits at the C- or D-level in EES courses with at least 0.5 credit at the D-level] or [1.5 credits at the C- or D-level in EES courses and PSCD11H3 Communicating Science: Film, Media, Journalism, and Society]

MAJOR (CO-OPERATIVE) PROGRAM IN ENVIRONMENTAL SCIENCE (SCIENCE) - SCMAJ1076A

Co-op Program Coordinator: coopsuccess.uts@utoronto.ca

The Major (Co-op) Program in Environmental Science is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Environmental Science upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including BIOA01H3, BIOA02H3, and EESA06H3, plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Environmental Science.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MINOR PROGRAM IN APPLIED CLIMATOLOGY - SCMIN1078

The Minor in Applied Climatology is designed to provide students with a unique educational experience that combines the fundamental understanding of climate change science, associated atmospheric processes and their impacts. The program will prepare students to observe and analyze past and present weather and climate change in the context of Applied Climatology. It will consider the relationship between changing climate conditions and countless climate/weather-sensitive industries through the lens of applied science to find solutions to the ongoing and future challenges faced by various sectors.

As an area of study, climate change intersects with a wide range of disciplines, including computer science, mathematics, statistics, international development studies (science), geography, environmental science, biology, and health studies. This Minor is intended for students with an interest in climate change and preparing for a career that will demand a basic understanding of the physical and dynamical processes associated with climatic events and their impacts.

Students must complete a total of 4.5 credits as follows:

1. First Year (1.5 Credits)

[EESA09H3](#) Wind

[MATA30H3](#) Calculus I for Physical Sciences

[PHYA10H3](#) Physics I for the Physical Sciences

2. Second/Third Year (1.5 Credits)

[EESB03H3](#) Principles of Climatology

[STAB22H3](#) Statistics I or equivalent

and

0.5 credit from the following:

[EESB15H3](#) Earth History

[EESB18H3](#) Natural Hazards

3. Third/Fourth Year (1.5 Credits)

[EESD06H3](#) Climate Change Impact Assessment

[EESD31H3](#) Applied Climatology

and

0.5 credit from the following:

[EESC03H3](#) Geographic Information Systems and Remote Sensing

[EESC13H3](#) Environmental Impact Assessment and Auditing

[EESC19H3](#) Oceanography

[EESC25H3](#) Urban Climatology

[ESTD19H3](#) Risk

[EESD28H3](#) Fundamentals of Environmental Modelling

MINOR PROGRAM IN ENVIRONMENTAL SCIENCE (SCIENCE) - SCMIN1076

For an updated list of Programs Supervisors, please visit the [Environmental Sciences website](#).

The Minor Program is designed to provide insights into the basic principles of Environmental Science and its application to current environmental issues. It is intended for students with an interest in environmental issues but who do not have the necessary background for specialization in the field. In addition to science students, it is appropriate for students pursuing a degree in the social sciences or in management and economics.

Program Requirements

Total requirements: 4.0 credits

First Year:

EESA01H3 Introduction to Environmental Science

EESA06H3 Introduction to Planet Earth

Second Year:

1.5 credits from the following:

EESB02H3 Principles of Geomorphology

EESB03H3 Principles of Climatology

EESB04H3 Principles of Hydrology

EESB05H3 Principles of Soil Science

EESB15H3 Earth History

Third Year:

[1.5 credits in EES courses of which 1.0 credit must be at the C- or D-level] or [1.0 credit at the C- or D-level in EES courses and PSCD11H3 Communicating Science: Film, Media, Journalism, and Society]

MINOR PROGRAM IN NATURAL SCIENCES AND ENVIRONMENTAL MANAGEMENT (SCIENCE) - SCMIN1077

For an updated list of Program Supervisors, please visit the [Environmental Sciences website](#).

This Minor is designed to provide students with a multidisciplinary education encompassing the origin and natural history of the Earth, environmental science and environmental management, with emphasis on how these branches of study relate to one another. Building on foundational courses in natural and environmental science, students will develop decision-analysis techniques and a broad perspective on human impact on the environment. In upper years, knowledge of natural, environmental and social sciences is implemented in analyses of real-world issues through integrative environmental studies courses. The program is well suited to complement degree programs in Management, Economics for Management Studies and the Social Sciences. First-year students are strongly advised to check prerequisites for B- and C-level courses before choosing their A-level courses.

Note: The Minor in Natural Sciences and Environmental Management cannot be combined with the Major in Environmental Science (Science), the Major Environmental Studies (Arts) or the Minor in Environmental Science (Science).

Program Requirements

Students must complete a total of 4.0 credits as follows:

First Year:

1.0 credit from the following:

ASTA01H3 Introduction to Astronomy and Astrophysics I: The Sun and Planets

ASTA02H3 Introduction to Astronomy and Astrophysics II: Beyond the Sun and Planets

EESA06H3 Introduction to Planet Earth

EESA09H3 Wind

EESA10H3 Human Health and the Environment

EESA11H3 Environmental Pollution

ESTB01H3 Introduction to Environmental Studies

Second/Third Year:

1.5 credits from the following:

ASTB03H3 Great Moments in Astronomy*

EESB05H3 Principles of Soil Science**

EESB15H3 Earth History**

EESB16H3 Feeding Humans - The Cost to the Planet***
EESB18H3 Natural Hazards
EESC13H3 Environmental Impact Assessment and Auditing
EESC34H3 Sustainability in Practice

Third/Fourth Year:

1.5 credits from the following:

ESTC35H3 Environmental Science and Technology in Society****
ESTC36H3 Knowledge, Ethics and Environmental Decision-Making****
ESTD16H3 Project Management in Environmental Studies
ESTD17Y3 Cohort Capstone Course in Environmental Studies
POLC53H3 Canadian Environmental Policy
PSCD02H3 Current Questions in Mathematics and Science
PSCD11H3 Communicating Science: Film, Media, Journalism, and Society

Notes:

*ASTB03H3 cannot be taken in combination with any other AST course in the program.

**Students in the Minor in Natural Sciences and Environmental Management must take EESA06H3 as the prerequisite for these courses.

***The prerequisites for this course are BIOA01H3 and BIOA02H3, which are not included in the requirements for the Minor.

****Students in the Minor in Natural Sciences and Environmental Management must take ESTB01H3 as the prerequisite for these courses.

Environmental Science Courses

EESA01H3 - Introduction to Environmental Science

The scientific method and its application to natural systems. The physical and biological processes which drive ecosystem functions. Anthropogenic changes in

ecosystem functions at local and global scales. Emphasis on the degradation of the atmosphere, soil, water and biological resources caused by human activity. Renewable and non-renewable resource sustainability. Laboratories will include hands-on field and lab related practical experience.

Exclusion: ENV100Y

Breadth Requirements: Natural Sciences

EESA06H3 - Introduction to Planet Earth

This general interest course explores the composition, structure and origin of the Earth and the tectonic, chemical and biological processes that have evolved over the last 4.5 billion years. It explains how planet "works" as a complex system. It provides a fundamental basis for understanding many of the environmental challenges faced by human societies especially natural hazards,

water shortages, and climate change, and the importance of natural resources to our economy.

Exclusion: GGR100Y, GLG110H

Breadth Requirements: Natural Sciences

EESA07H3 - Water

This course consists of a survey of the planet's water resources and the major issues facing the use of water. Topics include: Earth, the watery planet; water, the last great resource; Canada's waters; Ontario's waters; water and man; water contamination; and protecting our waters. Case studies such as the Walkerton tragedy will be studied. No prior knowledge of environmental science is required.

Breadth Requirements: Natural Sciences

EESA09H3 - Wind

A survey of the science, history and applications of wind. Topics include storms including hurricanes, tornadoes and mid-latitude cyclones, global circulation, local circulations, measurement of winds, impact of winds on land surfaces, wind power, winds and pollution, historical and literary winds, and contemporary wind research. No prior knowledge of environmental science is required.

Breadth Requirements: Natural Sciences

EESA10H3 - Human Health and the Environment

Because of pollution, our surroundings are becoming increasingly hazardous to our health. The past century has seen intense industrialization characterized by the widespread production and use of chemicals and the intentional and unintentional disposal of a wide range of waste materials. This course explores the relationship between the incidence of disease in human populations and the environmental pollution. Emphasis will be placed on understanding where and what pollutants are produced, how they are taken up by humans and their long term effects on health; the role of naturally-occurring carcinogens will also be examined. The course will include a view of risk assessment and toxicology using case studies. No prior knowledge of environmental or medical science is required.

Breadth Requirements: Natural Sciences

EESA11H3 - Environmental Pollution

This course illustrates the environmental effects of urban expansion, changing methods of agriculture, industrialization, recreation, resource extraction, energy needs and the devastation of war. Drawing on information from a wide spectrum of topics - such as waste disposal, tourism, the arctic, tropical forests and fisheries - it demonstrates what we know about how pollutants are produced, the pathways they take through the global environment and how we can measure them. The course will conclude with an examination of the state of health of Canada's environments highlighting areas where environmental contamination is the subject of public discussion and concern. No prior knowledge of environmental science is required.

Breadth Requirements: Natural Sciences

EESB02H3 - Principles of Geomorphology

The physical and chemical processes responsible for the development of regolith at the surface of the earth and the mechanics of entrainment, transport and deposition of mass by rivers, wind, glaciers, water waves, gravitational stresses, etc., which control the evolution of surface morphology.

Field excursions and laboratory exercises will allow students to apply theory to natural systems and to understand the dynamics of one man-modified geomorphic system.

Prerequisite: EESA06H3

Exclusion: GGR201H

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

EESB03H3 - Principles of Climatology

This is an overview of the physical and dynamic nature of meteorology, climatology and related aspects of oceanography. Major topics include: atmospheric composition, nature of atmospheric radiation, atmospheric moisture and cloud development, atmospheric motion including air masses, front formation and upper air circulation, weather forecasting, ocean circulation, climate classification, climate change theory and global warming.

Prerequisite: EESA06H3 or EESA09H3 and MATA29H3 or MATA30H3

Exclusion: GGR203H, GGR312H

Breadth Requirements: Natural Sciences

EESB04H3 - Principles of Hydrology

The water and energy balances; fluxes through natural systems. Process at the drainage basin scale: precipitation, evaporation, evapotranspiration and streamflow generation. The measurement of water fluxes, forecasting of rainfall and streamflow events. Human activity and change in hydrologic processes.

Prerequisite: EESA01H3 or EESA06H3 or any B-level EES course.

Exclusion: GGR206H

Breadth Requirements: Natural Sciences

EESB05H3 - Principles of Soil Science

A study of the processes of pedogenesis and the development of diverse soil profiles, their field relationships and their response to changing environmental conditions.

An examination of the fundamental soil properties of importance in soil management. An introduction to the techniques of soil examination in the field, soil analysis in the laboratory and the basic principles of soil classification.

Prerequisite: EESA01H3 or EESA06H3

Exclusion: GGR205H

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

EESB15H3 - Earth History

Planet Earth is at least 4,400 million years old and a geological record exists for at least the last 3,900 million years in the form of igneous, metamorphic and sedimentary rocks. The changing dynamics of convection deep within the Earth's mantle and associated super-continent assembly and breakup along with meteorite impacts, are now recognized as the major controls on development of the planet's atmosphere, oceans, biology, climate and geo-chemical cycles. This course reviews this long history and the methods and techniques used by geologists to identify ancient environments.

Prerequisite: EESA06H3

Breadth Requirements: Natural Sciences

Note: Note: Priority will be given to students in Specialist programs in Environmental Geoscience, Environmental Biology, and Environmental Chemistry.

EESB16H3 - Feeding Humans - The Cost to the Planet

Examines the origins and systems of production of the major plants and animals on which we depend for food. Interactions between those species and systems and the local ecology will be examined, looking at issues of over harvesting, genetic erosion, soil erosion, pesticide use, and impacts of genetically modified strains.

Prerequisite: BIOA01H3 and BIOA02H3

Breadth Requirements: Natural Sciences

EESB17H3 - Hydro Politics and Transboundary Water Resources Management

Competition for water resources between countries is common; population and economic growth are exacerbating this. The socio-political, environmental and economic aspects of transboundary water transfers are explored; the success of relevant international treaties and conventions, and the potential for integrated management of transboundary waters are assessed. Examples from Asia, Africa and the Middle East are presented.

Prerequisite: EESA01H3 or EESA07H3

Breadth Requirements: Social and Behavioural Sciences

EESB18H3 - Natural Hazards

This course is an investigation of the geological background and possible solutions to major hazards in the environment.

Environmental hazards to be studied include: landslides, erosion, earthquakes, volcanic eruptions, asteroid impacts, flooding, glaciation, future climate change, subsidence, and the disposal of toxic wastes. This may be of interest to a wide range of students in the life, social, and physical sciences; an opportunity for the non-specialist to understand headline-making geological events of topical interest. No prior knowledge of the Earth Sciences is required.

Exclusion: (EESA05H3), GLG103H

Breadth Requirements: Natural Sciences

EESB19H3 - Mineralogy

A comprehensive introduction to crystalline structure, crystal chemistry, bonding in rock forming minerals, and optical properties of minerals. The course includes

laboratory exercises on the identification of minerals in hand specimen, and identification of minerals using polarizing microscopes.

Prerequisite: CHMA10H3 and CHMA11H3 and EESB15H3

Exclusion: (EESC32H3), (EESC35H3), GLG423H

Breadth Requirements: Natural Sciences

EESB20H3 - Sedimentology and Stratigraphy

Sedimentary basins hold the bulk of Earth's rock record and are fundamental in the study of past environments, tectonic evolution, climates, and biosphere. This course will explore different basin types and the nature of their infills. The course will also emphasize the economic resources within sedimentary basins and paleoenvironmental significance.

Prerequisite: EESB15H3

Exclusion: ESS331H, ESS332H, ERS313H

Breadth Requirements: Natural Sciences

Note: Priority will be given to students enrolled in the Specialist Program in Environmental Geoscience (Co-op and non-Co-op). Additional students will be admitted as space permits.

EESB22H3 - Environmental Geophysics

This course instructs students on the application of geophysical techniques (including gravity and magnetic surveys, electromagnetics, resistivity and seismology) to important environmental issues, such as monitoring climate change and natural hazards, clean energy assessments, and how to build sustainable cities. This lecture-based course teaches students the societal importance of environmental geophysics as well as how to effectively communicate uncertainty when interpreting data.

Prerequisite: EESA06H3 and [PHYA10H3 or PHYA11H3]

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

EESB26H3 - Introduction to Global Geophysics

This course describes the processes and energy sources shaping the solid Earth's physical evolution and the means by which the properties of the planet's interior can be inferred. Topics include detection of the Earth's core, Earth's magnetic field, manifestations of Earth's secular cooling (e.g., mantle convection) and Earth's gravity field.

Prerequisite: MATA36H3 and PHYA21H3

Corequisite: EESB15H3

Exclusion: JPE395H1

Breadth Requirements: Natural Sciences

EESC02H3 - Invaded Environments

This course applies a multi-disciplinary lens to the subject of biological invasions and is intended to build upon foundational understandings of global environmental change. The course explores the foundational ecological theories of biological invasions, ecological conditions and mechanisms driving invasions, multi-scale perspectives on the environmental impact of biological invasions (community, ecosystem), past and current approaches to the management of invaded environments, social and economic impacts of species invasions, and invasion risk assessment and biological invasion policy.

Prerequisite: BIOB50H3 and [1.5 additional credits from EES or BIO courses]

Recommended Preparation: EESA01H3 and ESTB01H3 and BIOB51H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students enrolled in the Specialist Program in Global Environmental Change.

EESC03H3 - Geographic Information Systems and Remote Sensing

This course focuses on the use of Geographic Information Systems (GIS) and Remote Sensing (RS) for solving a range of scientific problems in the environmental sciences and describing their relationship with - and applicability to - other fields of study (e.g. geography, computer science, engineering, geology, ecology and biology). Topics include (but are not limited to): spatial data types, formats and organization; geo-referencing and coordinate systems; remotely sensed image manipulation and analysis; map production.

Prerequisite: EESA06H3 and 0.5 credit at the B-level in EES courses

Corequisite: 0.5 credit at the B-level in EES courses

Recommended Preparation: GGRB30H3

Breadth Requirements: Quantitative Reasoning

EESC04H3 - Biodiversity and Biogeography

Theoretical and practical aspect of the evolution of organismal diversity in a functional context; examination of species distributions and how these are organized for scientific study. Emphasis will be on the highly diverse invertebrate animals. Topics include biomes, dispersal, adaptation, speciation, extinction and the influence of climate history and humans.

Prerequisite: BIOB50H3

Breadth Requirements: Natural Sciences

EESC07H3 - Groundwater

Groundwater represents the world's largest and most important fresh water resource. This basic course in hydrogeology introduces the principles of groundwater flow and aquifer storage and shows how a knowledge of these fundamental tools is essential for effective groundwater resource management and protection. Special emphasis is placed on the practical methods of resource exploration and assessment; examples of the approach are given for aquifers under environmental stress in southern Ontario, the US and Africa.

Prerequisite: EESA06H3 and 1.0 full credit in B-level EES courses

Breadth Requirements: Natural Sciences

EESC13H3 - Environmental Impact Assessment and Auditing

To familiarize students with the relevant legislation, qualitative and quantitative approaches and applications for environmental impact assessments and environmental auditing. The focus will be on the assessment of impacts to the natural environment, however, socio-economic impacts will also be discussed. Environmental auditing and environmental certification systems will be discussed in detail. Examples and case studies from forestry, wildlife biology and land use will be used to illustrate the principles and techniques presented in the course. Students will acquire "hands-on" experience in impact assessment and environmental auditing through case studies.

Prerequisite: 1.0 credit in EES courses

Corequisite: 0.5 credit in EES courses

Exclusion: GGR393H

Breadth Requirements: Natural Sciences

EESC16H3 - Field Camp I

Experiential learning in environmental science is critical for better understanding the world around us, solving pressing environmental issues, and gaining hands-on skills for careers in the environmental sector. This course provides exciting and inspiring experiential learning opportunities, across disciplines with themes ranging from geoscience, ecology, climate change, environmental physics, and sustainability, across Canada and internationally. The course entails a 7-10-day field camp with destinations potentially changing yearly, that prioritizes environmental skills including environmental data collection, in-field interpretation of environmental patterns and processes, and science communication.

Prerequisite: Permission of the instructors.

Recommended Preparation: EESB15H3 and [an additional 0.5 B-level credit in EES courses]

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

EESC18H3 - Limnology

North America is endowed with eight of the twelve largest lakes in the world. The origin and geological history, cycles of carbon, nitrogen and phosphorus, and structures of ecosystems of the North American Great Lakes will be used as examples of large lacustrine systems. Fundamental concepts of limnology will be related to features found in the Great Lakes. Topics include: lake origins, lake classification, lake temperature structure and heat budgets, seasonal water circulations, productivity, plankton ecology, food-web dynamics, exotic species invasions, eutrophication-related phenomena and water quality/fisheries management. Specific anthropogenic influences will be illustrated using case studies from the local environment, and students will be allowed to pursue their own interests through a series of short seminars.

Prerequisite: EESB03H3

Recommended Preparation: EESB02H3

Breadth Requirements: Natural Sciences

EESC19H3 - Oceanography

The world's oceans constitute more than 70% of the earth's surface environments. This course will introduce students to the dynamics of ocean environments, ranging from the deep ocean basins to marginal seas to the coastal ocean. The large-scale water circulation is examined from an observationally based water mass analysis and from a theoretical hydro-dynamical framework. The circulation of marginal seas, the role of tides, waves and other currents are studied in terms of their effects upon the coastal boundary.

Prerequisite: EESB03H3

Recommended Preparation: EESB02H3

Breadth Requirements: Natural Sciences

EESC20H3 - Geochemistry

The course will cover fundamental aspects of chemical processes occurring at the Earth's surface. Terrestrial and aquatic geochemical processes such as: mineral formation and dissolution, redox, aqueous-solid phase interactions, stable isotopes, and organic geochemistry in the environment will be covered.

Prerequisite: CHMA10H3 and CHMA11H3 and EESB15H3

Exclusion: (EESD32H3), CHM210H, GLG202H, GLG351H

Breadth Requirements: Natural Sciences

EESC22H3 - Exploration Geophysics

The course will provide a general introduction to the most important methods of geophysical exploration. Topics covered will include physical principles, methodology,

interpretational procedures and field application of various geophysical survey methods. Concepts/methods used to determine the distribution of physical properties at depths that reflect the local surface geology will be discussed.

Prerequisite: EESB15H3 and PHYA21H3

Exclusion: (EESB21H3), JGA305

Recommended Preparation: EESB20H3

Breadth Requirements: Natural Sciences

EESC24H3 - Advanced Readings in Environmental Science

An advanced supervised readings course that can be taken in any session. Students will follow structured independent readings in any area of Environmental Science. A description of the objectives and scope of the individual offering must be approved by the Supervisor of Studies. Two papers are required in the course; the supervisor and one other faculty member will grade them. The course may not be used as a substitute for EES Program requirements.

Prerequisite: A minimum CGPA of 2.5, and 3.0 credits in EES and/or EST courses. Permission of the Supervisor of Studies.

Course Experience: University-Based Experience

EESC25H3 - Urban Climatology

This course will focus on how urban areas modify the local environment, particularly the climates of cities. The physical basis of urban climatology will be examined considering the energy balance of urban surfaces. The urban heat island phenomenon and its modelling will be studied based on conceptual and applied urban-climate research. The impact of climate change on urban sectors such as urban energy systems, water and wastewater systems, and urban transportation and health systems will be examined through case studies. Students will have the opportunity to choose their own areas of interest to apply the knowledge they learn throughout the course and demonstrate their understanding in tutorial-based discussions. The students will be required to work with community or industry partners on a project to assess the impacts or urban climate change.

Prerequisite: A minimum of 6.0 credits, including at least 2.0 credits in EES courses

Recommended Preparation: EESA09H3 or EESB03H3

Breadth Requirements: Natural Sciences

Course Experience: Partnership-Based Experience

EESC26H3 - Seismology and Seismic Methods

Seismology is the study of earthquakes and how seismic waves move through the Earth. Through application of geological and mathematical techniques, seismology can reveal the inner workings of the Earth and provide hazard

analysis for tectonic events such as earthquakes, volcanic eruptions, and tsunamis. This course will outline the practical applications of seismology to real-world scenarios of academic research and human exploration, while highlighting cutting-edge technological advances. Topics covered include subsurface imaging and surveying, catastrophe modelling, Martian seismology, stress and strain principles, wave theory, data inversion, and data science applications on seismic data analysis.

Prerequisite: [MATA36H3 or MATA37H3] and PHYA10H3

Exclusion: JPE493H1

Recommended Preparation: EESB15H3, EESB26H3

Breadth Requirements: Natural Sciences

EESC30H3 - Environmental Microbiology

This course examines the diversity of microorganisms, their adaptations to special habitats, and their critical role in the ecosystems and biogeochemical cycles. The course covers microbial phylogeny, physiological diversity, species interactions and state of the art methods of detection and enumeration.

Prerequisite: CHMA10H3 and CHMA11H3 and BIOB50H3 and BIOB51H3

Exclusion: (BGYC55H3)

Breadth Requirements: Natural Sciences

EESC31H3 - Glacial Geology

The last 2.5 million years has seen the repeated formation of large continental ice sheets over North America and Europe. The course will review the geologic and geomorphologic record of past glacial and interglacial climates, the formation and flow of ice sheets, and modern day cold-climate processes in Canada's north. The course includes a one-day field trip to examine the glacial record of the GTA.

Prerequisite: EESA06H3 and EESB20H3

Breadth Requirements: Natural Sciences

Course Experience: Partnership-Based Experience

EESC33H3 - Environmental Science Field Course

A field course on selected topics in aquatic environments. Aquatic environmental issues require careful field work to collect related hydrological, meteorological, biological and other environmental data. This hands-on course will teach students the necessary skills for fieldwork investigations on the interactions between air, water, and biota.

Prerequisite: 1.5 full credits at the B-level or higher in EES and permission of instructor.

Exclusion: (EEB310H)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

EESC34H3 - Sustainability in Practice

This course is intended for students who would like to apply theoretical principles of environmental sustainability learned in other courses to real-world problems. Students will identify a problem of interest related either to campus sustainability, a local NGO, or municipal, provincial, or federal government. Class meetings will consist of group discussions investigating key issues, potential solutions, and logistical matters to be considered for the implementation of proposed solutions. Students who choose campus issues will also have the potential to actually implement their solutions. Grades will be based on participation in class discussions, as well as a final report and presentation.

Same as ESTC34H3

Prerequisite: Any additional 9.5 credits

Exclusion: ESTC34H3

Breadth Requirements: Natural Sciences

EESC36H3 - Petrology

This course surveys the processes that produce the chemical and mineralogical diversity of igneous, sedimentary, and metamorphic rocks including: the distribution, chemical and mineral compositions of rocks of the mantle and crust, their physical properties, and their relation to geological environments. Descriptive petrology for various rocks will also be covered.

Prerequisite: EESB19H3 or (EESC35H3)

Exclusion: (EESC32H3), GLG207H, ERS203H

Recommended Preparation: EESB15H3

Breadth Requirements: Natural Sciences

Note: Students who do not have the prerequisites will be removed from the course. Priority will be given to students in Year 4 of their program.

EESC37H3 - Structural Geology

The course introduces mechanics of rock deformation. It examines identification, interpretation, and mechanics of faults, folds, and structural features of sedimentary, igneous and metamorphic rocks as well as global, regional and local scale structural geology and tectonics. Lectures are supplemented by lab exercises and demonstrations as well as local field trips.

Prerequisite: [PHYA10H3 or PHYA11H3] and EESB15H3 and EESB20H3

Exclusion: GLG345H, ESS241H

Breadth Requirements: Natural Sciences

Note: Students who do not have the prerequisites will be removed from the course. Priority will be given to students enrolled in the Specialist Program in Environmental

Geoscience. Additional students will be admitted as space permits.

EESC38H3 - The Anthropocene

"The Anthropocene" is a term that now frames wide-ranging scientific and cultural debates and research, surrounding how humans have fundamentally altered Earth's biotic and abiotic environment. This course explores the scientific basis of the Anthropocene, with a focus on how anthropogenic alterations to Earth's atmosphere, biosphere, cryosphere, lithosphere, and hydrosphere, have shifted Earth into a novel geological epoch. Students in this course will also discuss and debate how accepting the Anthropocene hypothesis, entails a fundamental shift in how humans view and manage the natural world.

Same as [ESTC38H3](#)

Prerequisite: [ESTB01H3](#) and [1.0 credit from the following: [EESB03H3](#), [EESB04H3](#) and [EESB05H3](#)]

Exclusion: [ESTC38H3](#)

Breadth Requirements: Natural Sciences

EESD02H3 - Contaminant Hydrogeology

Natural hydrochemical processes; the use of major ions, minor ions, trace metals and environmental isotopes in studying the occurrence and nature of ground water flow. Point and non-point sources of ground water contamination and the mechanisms of contaminant transport.

Prerequisite: At least 1 full credit in Environmental Science at the C-level.

Breadth Requirements: Natural Sciences

EESD06H3 - Climate Change Impact Assessment

Climate change over the last 150 years is reviewed by examining the climate record using both direct measurements and proxy data. Projection of future climate is reviewed using the results of sophisticated climate modeling. The climate change impact assessment formalism is introduced and applied to several examples. Students will acquire practical experience in climate change impact assessment through case studies.

Prerequisite: [EESB03H3](#)

Breadth Requirements: Natural Sciences

EESD07H3 - Field Camp II

Experiential learning is a critical element of applied environmental science. Hands-on experience in observing, documenting, and quantifying environmental phenomenon, patterns, and processes unlocks a deeper understanding and curiosity of the natural world, and

prepares students for careers in the environment. This advanced field camp course explores applied scientific themes across geoscience, climate science, ecology, hydrology, environmental physics, and sustainability, while emphasizing student-led scientific enquiry and projects. Over a 7-10-day field camp in locations in Canada and abroad, students will develop a deep inquiry-based understanding and appreciation of the natural world, by immersing themselves in some of Earth's most captivating environments.

Prerequisite: [EESC16H3](#) and permission of the instructors

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

EESD09H3 - Research Project in Environmental Science

This course entails the design, implementation, and reporting of an independent and substantial research project, under the direct supervision of a faculty member. Research may involve laboratory, fieldwork, and/or computer-based analyses, with the final products being presented primarily as a written thesis, although other course work, such as oral presentations of student research, may also be required. All areas of environmental science research that are supported by existing faculty members are permissible. The course should be undertaken after the end of the 3rd Year, and is subject to faculty availability. Faculty permission and supervision is required.

Prerequisite: Permission of the course coordinator.

Exclusion: [EESD10Y3](#)

Recommended Preparation: [PSCB90H3](#) and [EESC24H3](#)

Course Experience: University-Based Experience

Note: Students must apply to the course coordinator for admission into this course. Applications must be received by: (i) the end of August for enrolment in the fall semester; (ii) the end of December for enrolment in the spring semester; or (iii) the end of April for enrolment in the summer semester. Applications should consist of a completed 1-page application form (available from the course instructor) that includes: 1. Student name, number, academic program, and current year of study; 2. A note of intent indicating the student's wish to enrol in [EESD09H3](#); 3. A brief description of the projects of interest to the student; 4. A list of relevant courses successfully completed by the student, as well as any relevant courses to be taken during the concurrent session; 5. The confirmed name of the supervising professor, the date and method in which confirmation of their willingness to supervise was received (i.e., this must be determined ahead of time, through personal correspondence with a professor). Generally, only students meeting the following requirements will be admitted to [EESD09H3](#): 1. A Cumulative Grade Point Average of 2.5 or higher; 2. Completion of at least 12.0 full credits (see point 4 below); 3. Completion of at least 1.5 full credits of C-level environmental science courses (see point 4 below); 4. For

students in the Specialist/Specialist Co-op programs Environmental Physics, completion of Year 3 and completion of at least 1.0 C-level PHY courses. Students who do not meet these criteria are strongly encouraged to consider enrolment in PSCB90H3 and/ or EESC24H3 as an alternative to EESD09H3. Once the course coordinator (or designate) has approved enrolment to EESD09H3, they will sign the course enrolment form for submission to the registrar. Note that the course coordinator (or designate) is the only one permitted to give "permission of instructor" on this form.

EESD10Y3 - Research Project in Environmental Science

This course entails the design, implementation, and reporting of an independent and substantial research project, under the direct supervision of a faculty member. Research may involve laboratory, fieldwork, and/or computer-based analyses, with the final products being presented primarily as a written thesis, though other course work, such as oral presentations of student research, may also be required. All areas of environmental science research that are supported by existing faculty members are permissible. The course should be undertaken after the end of the 3rd Year, and is subject to faculty availability. Faculty permission and supervision is required.

Prerequisite: Permission of the course coordinator.

Exclusion: EESD09H3

Recommended Preparation: PSCB90H3 and EESC24H3

Course Experience: University-Based Experience

Note: Students must apply to the course coordinator for admission into this course. Applications must be received by the end of August for enrolment in the fall semester. Applications should consist of a completed 1-page application form (available from the course instructor) that includes: 1. Student name, number, academic program, and current year of study; 2. A note of intent indicating the student's wish to enrol in EESD10Y3; 3. A brief description of the projects of interest to the student; 4. A list of relevant courses successfully completed by the student, as well as any relevant courses to be taken during the concurrent session; 5. The confirmed name of the supervising professor, the date and method in which confirmation of their willingness to supervise was received (i.e., this must be determined ahead of time, through personal correspondence with a professor). Generally, only students meeting the following requirements will be admitted to EESD10Y3: 1. A Cumulative Grade Point Average of 2.5 or higher; 2. Completion of at least 12.0 full credits (see point 4 below); 3. Completion of at least 1.5 full credits of C-level environmental science courses (see point 4 below); 4. For students in the Specialist/Specialist Co-op programs in Environmental Physics, completion of Year 3 and completion of at least 1.0 C-level PHY courses. Students who do not meet these criteria, are strongly encouraged to consider enrolment in PSCB90H3 and/ or EESC24H3 as an alternative to EESD10Y3. Once the course coordinator (or designate) has approved

enrolment to EESD10Y3, they will sign the course enrolment form for submission to the registrar. Note that the course coordinator (or designate) is the only one permitted to give "permission of instructor" on this form.

EESD11H3 - Advanced Watershed Hydrology

The motion of water at the hill slope and drainage basin scales. The relationship between surface and subsurface hydrological processes. Soil hydrologic processes emphasizing infiltration. Stream flow generation mechanisms, hydrometric and isotopic research methods. Problems of physically based and empirical modelling of hydrological processes. Snowmelt energetics and modelling.

Prerequisite: EESB04H3

Breadth Requirements: Natural Sciences

EESD13H3 - Environmental Law, Policy and Ethics

This course reviews the laws and policies governing the management of natural resources in Canada. It examines the role of law and how it can work most effectively with science, economics and politics to tackle environmental problems such as climate change, conservation, and urban sprawl at domestic and international scales.

Prerequisite: Students must have completed at least 15.0 credits

Exclusion: LAW239H

Recommended Preparation: EESA10H3 and EESA11H3 and EESC13H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students enrolled in the Specialist and Major programs in Environmental Science. Additional students will be admitted as space permits.

EESD15H3 - Fundamentals of Site Remediation

This course consists of a study of the ways in which hazardous organic and inorganic materials can be removed or attenuated in natural systems. The theory behind various technologies, with an emphasis on bioremediation techniques and their success in practice. An introduction to the unique challenges associated with the remediation of surface and ground water environments, soils, marine systems, and contaminated sediments.

Prerequisite: BIOA01H3 and BIOA02H3 and CHMA10H3 and CHMA11H3 and PHYA10H3 or PHYA11H3

Breadth Requirements: Natural Sciences

EESD16H3 - Project Management in Environmental Studies

Students will select a research problem in an area of special interest. Supervision will be provided by a faculty member with active research in geography, ecology, natural resource management, environmental biology, or geosciences as represented within the departments. Project implementation, project monitoring and evaluation will form the core elements for this course.
Same as [ESTD16H3](#)

Prerequisite: At least 14.5 credits

Exclusion: [ESTD16H3](#)

Breadth Requirements: Natural Sciences

EESD17Y3 - Cohort Capstone Course in Environmental Studies

This course is designed to provide a strong interdisciplinary focus on specific environmental problems including the socioeconomic context in which environmental issues are resolved. The cohort capstone course is in 2 consecutive semesters, providing final year students the opportunity to work in a team, as environmental researchers and consultants, combining knowledge and skill-sets acquired in earlier courses. Group research to local environmental problems and exposure to critical environmental policy issues will be the focal point of the course. Students will attend preliminary meetings scheduled in the Fall semester.
Same as [ESTD17Y3](#)

Prerequisite: At least 14.5 credits

Exclusion: [ESTD17Y3](#)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

EESD18H3 - Environmental Studies Seminar Series

This course will be organized around the DPES seminar series, presenting guest lecturers around interdisciplinary environmental themes. Students will analyze major environmental themes and prepare presentations for in-class debate.
Same as [ESTD18H3](#)

Prerequisite: At least 14.5 credits

Exclusion: [ESTD18H3](#)

Breadth Requirements: Natural Sciences

EESD19H3 - Professional Development Seminars in Geoscience

This course consists of 12 lectures given by senior industry professionals to prepare students for a post-graduate career in environmental consulting. Lectures will convey the full range of consulting activities, including

visits to environmental investigation sites in the Toronto area. Technical writing and oral communication skills will be stressed in assignments.

Prerequisite: Students must be enrolled in the 4th year of their Environmental Science Program.

Breadth Requirements: Natural Sciences

Course Experience: Partnership-Based Experience

EESD20H3 - Geological Evolution and Environmental History of North America

This course reviews the geological and environmental evolution of the North American continent over the past 4 billion years by exploring the range of plate tectonics involved in continental growth and how those processes continue today. It will explore major changes in terrestrial and marine environments through geologic time and associated organisms and natural resources of economic importance, and will conclude with an examination of recent human anthropogenic influences on our environment especially in regard to urban areas and associated problems of waste management, resource extraction, geological hazards, and the impacts of urbanization on watersheds and water resources. The course will include a weekend field trip to examine the geology and urban environmental problems of The Greater Toronto Area. It provides students in environmental science with a fundamental knowledge of the importance of environmental change on various timescales and the various field methods used to assess such changes.

Prerequisite: 15.0 credits, including at least 4.0 credits at the C- or D-level

Exclusion: ([EESC21H3](#))

Breadth Requirements: Natural Sciences

Course Experience: Partnership-Based Experience

EESD21H3 - Geophysical and Climate Data Analysis

This course offers an advanced introduction to geophysical data analysis. It is intended for upper-level undergraduate students and graduate students interested in data analysis and statistics in the geophysical sciences and is mainly laboratory (computer) based. The goal is to provide an understanding of the theory underlying the statistical analysis of geophysical data, in space, time and spectral domains and to provide the tools to undertake this statistical analysis. Important statistical techniques such as regression, correlation and spectral analysis of time series will be explored with a focus on hypothesis formulation and interpretation of the analysis. Multivariate approaches will also be introduced. Although some previous knowledge of probability and statistics will be helpful, a review will be provided at the beginning of the course. Concepts and notation will be introduced, as needed.

Jointly offered with [EES1132H](#).

Prerequisite: [MATA21H3 or MATA35H3 or MATA36H3] and PHYB57H3/(PSCB57H3) and STAB22H3

Exclusion: EES1132H

Breadth Requirements: Quantitative Reasoning

Note: Graduate students enrolled in the Master of Environmental Science or in a Ph.D. program in DPES have enrollment priority as EESD21H3 is a partner course for an existing graduate course EES1132H.

EESD28H3 - Fundamentals of Environmental Modelling

This course introduces the rapidly growing field of environmental and earth system modelling. Emphasis will be placed on the rationale of model development, the objective of model evaluation and validation, and the extraction of the optimal complexity from complicated/intertwined environmental processes. By focusing on the intersections between climate change and ecological systems, students will develop the ability to integrate information from a variety of disciplines, including geosciences, biology, ecology, chemistry, and other areas of interest. The course will also involve practical training in the computer lab. Students will develop an intermediate complexity mathematical model, calibrate the model and assess the goodness-of-fit against observed data, identify the most influential model parameters (sensitivity analysis), and present their results.

Jointly offered with EES1118H

Prerequisite: [MATA30H3 and STAB22H3 (or equivalent)] and [an additional 6.0 credits, including at least 0.5 credit at the C-level in EES courses]

Exclusion: EES1118H

Breadth Requirements: Natural Sciences

EESD31H3 - Applied Climatology

This course will introduce and discuss the basic topics and tools of applied climatology, and how its concepts can be used in everyday planning and operations (e.g. in transportation, agriculture, resource management, health and energy). The course involves the study of the application of climatic processes and the reciprocal interaction between climate and human activities. Students will also learn the methods of analyzing and interpreting meteorological and climatological data in a variety of applied contexts. Topics include: Solar Energy; Synoptic Climatology and Meteorology; Climate and Agriculture; Climate and Energy; Climate and Human Comfort; Urban Effects on Climate and Air Pollution. Jointly offered with EES1131H

Prerequisite: STAB22H3 and EESB03H3 and [an additional 1.0 credit in EES courses, of which 0.5 credit must be at the C-level]

Exclusion: EES1131H

Breadth Requirements: Natural Sciences

EESD33H3 - Field Techniques

This course consists of a series of modules designed for students to gain practical skills necessary to investigate and characterize complex environmental systems. Field projects will allow students to collect scientific data that they will use to interpret the geology, hydrogeology, and chemistry of natural and anthropogenic environments.

Prerequisite: EESB02H3 and EESC07H3

Exclusion: EES330H, GGR390H, GGR379H

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Specialist/Specialist Co-op programs in Environmental Science.

Environmental Studies

Faculty List

- G.B. Arhonditsis, B.Sc., M.Sc. (Agricultural Univ. of Athens, Greece), Ph.D. (Univ. of the Aegean, Greece), Professor
- S.C. Bunce, B.A. (Guelph), M.E.S. Pl. (York), Ph.D. (York), Associate Professor
- R.R. Fulthorpe, B.Sc., M.Sc. (Toronto), Ph.D. (Carlton), Professor Emerita
- W.A. Gough, B.Sc. (Waterloo), M.Sc. (Toronto), Ph.D. (McGill), Professor
- J. Hannigan, B.A., M.A. (Western Ontario), Ph.D. (Ohio State), Professor
- M. Hoffmann, B.S. (Michigan Technological University), Ph.D. (George Washington University), Professor
- M.E. Isaac, B.Sc., M.Sc. (Guelph), Ph.D. (Toronto), Professor
- T. Kepe, B.Agric. (Fort Hare), M.Sc. (Guelph), Ph.D. (Western Cape), Professor
- N. Klenk, B.Sc., M.Sc. (McGill), Ph.D. (UBC), Associate Professor
- N. Latulippe, B.A. (Hon) (Nipissing), M.A. (Guelph), Ph.D. (Toronto), Assistant Professor
- K. MacDonald, B.A. (Wilfrid Laurier), M.A., Ph.D. (Waterloo), Professor
- J.I. MacLellan, R.P.F. (New Brunswick), B.A., B.Sc., M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- A. Martin, B.A. (Hon), M.F.C., Ph.D. (Toronto), Assistant Professor
- C. Mitchell, B.Sc. (McMaster), M.Sc., Ph.D. (Toronto), Professor
- T. Mohsin, B.Sc. (Dhaka), M.Sc. (Dhaka), M.E.S. (Newcastle), Ph.D. (Toronto), Associate Professor, Teaching Stream
- R. Narayanareddy, M.E.S. (Yale University), Ph.D. (Minnesota), Associate Professor
- L. Tozer, B.Sc., (Guelph), M.A., Ph.D. (Toronto), Assistant Professor

For an updated list of Program Supervisors, please see [the Environmental Studies website](#).

There is significant public and student interest in environmental issues. This Major Program in Environmental Studies (B.A.) gives students an opportunity to develop an understanding of environmental issues from the perspectives of the physical, life and social sciences. It serves as an excellent companion to Majors such as Anthropology, Human Geography, Political Science, Public Policy, Sociology, Chemistry, Biochemistry, Environmental Science, Biology, Biodiversity, Ecology and Evolution, Physics and Astrophysics, and Physical Sciences.

The program is designed as a contemporary rendering of the study of environmental problems and the knowledge/tools needed to solve them. One of its key features is the classification of the courses offered into Foundation & Skills and Capstone & Applications. The former group will build a foundation of socioeconomics and environmental science, while the latter group will integrate insights from different disciplines and nurture an interdisciplinary way of thinking. These courses also include many opportunities for experiential learning through problem-solving case studies, team-based projects and individual research. Special emphasis is placed on the capacity of the program to successfully build the requisite interdisciplinary, problem-solving skill sets needed when tackling environmental management issues. The program effectively balances the need for a strong foundation in basic principles characterizing a typical program in Environmental Studies and the importance of building bridges among the various disciplines involved.

Program Combination Restrictions in Environmental Studies

The Major in Environmental Studies and Minor in Natural Sciences and Environmental Management cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the courses [ESTC34H3](#) /([ESTD17H3](#)), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Environmental Studies Programs

MAJOR PROGRAM IN ENVIRONMENTAL STUDIES (ARTS) - SCMAJ2735

For an updated list of Program Supervisors, please visit the [Environmental Studies website](#).

Companion majors include: Anthropology, Human Geography, Political Science, Public Policy, Sociology, Biology, Biodiversity, Ecology and Evolution, Chemistry, Biochemistry, and Environmental Science, Physics and Astrophysics, and Physical Sciences. Other majors are possible with the permission of the Supervisor of Study.

Program Requirements

Completion of 8.5 credits as follows:

1. Core Courses (2.5 credits)

[EESA01H3](#) Introduction to Environmental Science

[[MGEA01H3](#) Introduction to Microeconomics or [MGEA05H3](#) Introduction to Macroeconomics]

[ESTB01H3](#) Introduction to Environmental Studies

and

0.5 credit chosen from the following:

[ANTB01H3](#) Political Ecology

[ESTB02H3/GGRB18H3](#) Canada, Indigenous Peoples, and the Land

[FSTA01H3](#) Foods That Changed the World

[GGRA03H3](#) Cities and Environments

[POLA01H3](#) Critical Issues in Politics I

[POLA02H3](#) Critical Issues in Politics II

[POLB80H3](#) Introduction to International Relations I

and

0.5 credit chosen from the following:

[EESA06H3](#) Introduction to Planet Earth

[EESA07H3](#) Water

[EESA09H3](#) Wind

[EESA10H3](#) Human Health and the Environment

[EESA11H3](#) Environmental Pollution

[EESB18H3](#) Natural Hazards

[FSTA02H3](#) Foods Futures: Confronting Crises, Improving Lives

[FSTB01H3](#) Methodologies in Food Studies

2. Foundations and Skills (4.0 credits)

[[ESTC35H3](#) Environmental Science and Technology in Society or [ESTC36H3](#) Knowledge, Ethics and Environmental Decision-Making]

[ESTC34H3](#) Sustainability in Practice

[IDSB02H3](#) Development and Environment

[STAB22H3](#) Statistics I (or equivalent)

and

2.0 credits from the following:

[EESB03H3](#) Principles of Climatology

[EESB04H3](#) Principles of Hydrology

[EESB05H3](#) Principles of Soil Science

[EESB17H3](#) Hydro Politics and Transboundary Water Resources Management

[EESC13H3](#) Environmental Impact Assessment and Auditing

[EESD13H3](#) Environmental Law, Policy and Ethics

[ESTB04H3](#) Addressing the Climate Change

[ESTC40H3](#) Technical Methods for Climate Change Mitigation

[ESTD20H3](#) Integrated Natural Resource and Climate Change Governance

[FSTC02H3](#) Mondo Vino: The History and Culture of Wine Around the World

[FSTC05H3](#) Feeding the City: Food Systems in Historical Perspective

[FSTC24H3](#) Gender in the Kitchen

[FSTC37H3](#) Eating and Drinking Across the Americas

[FSTC43H3](#) Social Geographies of Street Food

[FSTC54H3](#) Eating and Drinking Across Global Asia
[FSTD10H3](#) Food Writing
[FSTD11H3](#) Food and Media
[GGRA30H3](#) Geographic Information Systems (GIS) and Empirical Reasoning
[GGRB21H3](#) Political Ecology: Nature, Society and Environmental Change
[\(GGRC22H3\)](#) Political Ecology Theory and Applications
[GGRC26H3](#) Geographies of Environmental Governance
[GGRC28H3](#) Indigenous Peoples, Environment and Justice
[GGRC44H3](#) Environmental Conservation and Sustainable Development
[POLC53H3](#) Canadian Environmental Policy
[POLD89H3](#) Global Environmental Politics
[SOCC37H3](#) Environment and Society

3. Capstone and Applications (2.0 credits)

[\[ESTD16H3](#) Project Management in Environmental Studies *or* [ESTD19H3](#) Risk]
[ESTD17Y3](#) Cohort Capstone Course in Environmental Studies
[ESTD18H3](#) Environmental Studies Seminar Series

CERTIFICATE IN SUSTAINABILITY (UofT Sustainability Scholar) - SCCER1050

The sustainable utilization of our natural, social, economic and cultural resources is one of the most important cross-cutting themes within academia today. The Certificate in Sustainability builds on UTSC's longstanding academic strengths to provide an opportunity for a broad range of students to incorporate sustainability into their undergraduate studies.

Certificate Requirements

Students must complete a minimum of 2.0 credits as follows:

1. [ESTB03H3/VPHB69H3](#) Back to the Land: Restoring Embodied and Affective Ways of Knowing
2. At least 0.5 credit at the A- or B-level, from the list of electives in Table 1 below
3. At least 1.0 credit at the C- or D-level from the list of electives in Table 1 below

Note: Courses for which **students have selected the CR/NCR option**, cannot be used towards the completion of this Certificate; however, **courses that are graded as CR/NCR courses for all students**, can be used towards the completion of this Certificate.

A-level	EESA07H3 , EESA11H3 , GGRA03H3
B-level	ANTB01H3 , ANTB64H3 , BIOB38H3 , EESB17H3 , ESTB01H3 , FSTB14H3 , GASB05H3 , (MDSB05H3)/ MDSB32H3 , GGRB21H3 , (HISB14H3), IDSB02H3 , WSTB20H3
C-level	CITC14H3 , ENGC59H3 , EESC34H3/ESTC34H3 , ESTC35H3 , ESTC36H3 , FSTC15H3 , FSTC24H3 , FSTC29H3 , GGRC21H3 , GGRC26H3 , GGRC44H3 , (HISC29H3), IDSC02H3 , POLC53H3 , SOCC37H3
D-level	AFSD07H3/IDSD07H3 , BIOD30H3 , EESD09H3 , ESTD19H3 , POLD89H3

Environmental Studies Courses

ESTB01H3 - Introduction to Environmental Studies

This course introduces the Environmental Studies major and the interdisciplinary study of the environment through a team-teaching format. Students will explore both

physical and social science perspectives on the environment, sustainability, environmental problems and their solutions. Emphasis will be on critical thinking, problem solving, and experiential learning.

Breadth Requirements: Social and Behavioural Sciences

ESTB02H3 - Whose Land? Indigenous-Canada-Land Relations

Introduces students to the geography of Indigenous-Crown-Land relations in Canada. Beginning with pre-European contact and the historic Nation-to-Nation relationship, the course will survey major research inquiries from the Royal Commission on Aboriginal Peoples to Missing and Murdered Indigenous Women and Girls. Students will learn how ongoing land and treaty violations impact Indigenous peoples, settler society, and the land in Canada.

Same as GGRB18H3

Prerequisite: 4.0 credits, including at least 0.5 credit in ANT, CIT, EST, GGR, HLT, IDS, POL or SOC
Exclusion: GGRB18H3

ESTB03H3 - Back to the Land: Restoring Embodied and Affective Ways of Knowing

In this course students will learn about sustainability thinking, its key concepts, historical development and applications to current environmental challenges. More specifically, students will gain a better understanding of the complexity of values, knowledge, and problem framings that sustainability practice engages with through a focused interdisciplinary study of land. This is a required course for the Certificate in Sustainability, a certificate available to any student at UTSC.

Same as VPHB69H3.

Exclusion: VPHB69H3
Breadth Requirements: Social and Behavioural Sciences

ESTB04H3 - Addressing the Climate Crisis

Addressing the climate crisis is a profound challenge for society. This course explores climate change and what people are doing about it. This course emphasizes the human dimensions of the climate crisis. It introduces students to potential solutions, ethical and justice considerations, climate change policies and politics, and barriers standing in the way of effective action. With an emphasis on potential solutions, students will learn how society can eliminate greenhouse gas emissions through potential climate change mitigation actions and about adaptation actions that can help reduce the impacts of climate change on humans. This course is intended for students from all backgrounds interested in understanding the human dimensions of the climate crisis and developing their ability to explain potential solutions.

Prerequisite: Any 4.0 credits

Exclusion: GGR314H1

Breadth Requirements: Social and Behavioural Sciences

ESTB05H3 - Climate Science for Everyone

This course provides a conceptual and qualitative overview of climate science and a discussion of climate science misinformation. The course is intended to be accessible to arts and humanities students seeking to better understand and gain fluency in the physical science basis of climate change. Major topics will include the Earth's climate system, reconstruction of past climates, factors that impact the Earth's climate, climate measurements and models, and future climate change scenarios.

Prerequisite: Any 4.0 credits

Exclusion: GGR314H1, GGR377H5

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority enrollment for students in the Environmental Studies Major Program in Climate Change (Arts)

ESTC34H3 - Sustainability in Practice

This course is intended for students who would like to apply theoretical principles of environmental sustainability learned in other courses to real world problems. Students will identify a problem of interest related either to campus sustainability, a local NGO, or municipal, provincial, or federal government. Class meetings will consist of group discussions investigating key issues, potential solutions, and logistical matters to be considered for the implementation of proposed solutions. Students who choose campus issues will also have the potential to actually implement their solutions. Grades will be based on participation in class discussions, as well as a final report and presentation.

Same as EESC34H3

Prerequisite: Any 9.5 credits

Exclusion: EESC34H3

Breadth Requirements: Natural Sciences

ESTC35H3 - Environmental Science and Technology in Society

In this course students will engage critically, practically and creatively with environmental controversies and urgent environmental issues from the standpoint of the sociology of science and technology (STS). This course will contribute to a better understanding of the social and political construction of environmental science and technology.

Prerequisite: ESTB01H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Environmental Studies Program. Additional students will be admitted as space permits.

ESTC36H3 - Knowledge, Ethics and Environmental Decision-Making

Most environmental issues have many sides including scientific, social, cultural, ethical, political, and economic. Current national, regional and local problems will be discussed in class to help students critically analyze the roots of the problems and possible approaches to decision-making in a context of pluralism and complexity.

Prerequisite: ESTB01H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Environmental Studies Program. Additional students will be admitted as space permits.

ESTC37H3 - Energy and Sustainability

This course will address energy systems and policy, focusing on opportunities and constraints for sustainable energy transitions. The course introduces energy systems, including how energy is used in society, decarbonization pathways for energy, and the social and political challenges of transitioning to zero carbon and resilient energy systems. Drawing on real-world case studies, students will learn about energy sources, end uses, technologies, institutions, politics, policy tools and the social and ecological impacts of energy. Students will learn integrated and interdisciplinary approaches to energy systems analysis and gain skills in imagining and planning sustainable energy futures.

Prerequisite: 10.0 credits including ESTB04H3

Exclusion: ENV350H1

Breadth Requirements: Social and Behavioural Sciences

ESTC38H3 - The Anthropocene

“The Anthropocene” is a term that now frames wide-ranging scientific and cultural debates and research, surrounding how humans have fundamentally altered Earth’s biotic and abiotic environment. This course explores the scientific basis of the Anthropocene, with a focus on how anthropogenic alterations to Earth’s atmosphere, biosphere, cryosphere, lithosphere, and hydrosphere, have shifted Earth into a novel geological epoch. Students in this course will also discuss and debate how accepting the Anthropocene hypothesis, entails a fundamental shift in how humans view and manage the natural world.

Same as EESC38H3

Prerequisite: ESTB01H3 and [1.0 credit from the following: EESB03H3, EESB04H3 and EESB05H3]

Exclusion: EESC38H3

Breadth Requirements: Natural Sciences

ESTC40H3 - Technical Methods for Climate Change Mitigation

Addressing the climate crisis requires designing and implementing effective climate change mitigation targets, strategies, policies and actions to eliminate human-caused greenhouse gas emissions. In this course, students will learn the various technical methods required in climate change mitigation. Students will explore the opportunities, barriers, and tools that exist to implement effective climate change mitigation in the energy, industry, waste, and agriculture, forestry and land-use sectors. The emphasis of the course is on the technical methods that climate change mitigation experts require.

Prerequisite: 10.0 credits including ESTB04H3

Breadth Requirements: Natural Sciences

ESTD16H3 - Project Management in Environmental Studies

Students will select a research problem in an area of special interest. Supervision will be provided by a faculty member with active research in geography, ecology, natural resource management, environmental biology, or geosciences as represented within the departments. Project implementation, project monitoring and evaluation will form the core elements for this course.

Same as EESD16H3

Prerequisite: At least 14.5 credits

Exclusion: EESD16H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

ESTD17Y3 - Cohort Capstone Course in Environmental Studies

This course is designed to provide a strong interdisciplinary focus on specific environmental problems including the socioeconomic context in which environmental issues are resolved. The cohort capstone course is in 2 consecutive semesters, providing final year students the opportunity to work in a team, as environmental researchers and consultants, combining knowledge and skill-sets acquired in earlier courses. Group research to local environmental problems and exposure to critical environmental policy issues will be the focal point of the course. Students will attend preliminary meetings schedules in the Fall semester.

Same as EESD17Y3

Prerequisite: At least 14.5 credits

Exclusion: EESD17Y3

Breadth Requirements: Natural Sciences
Course Experience: University-Based Experience

ESTD18H3 - Environmental Studies Seminar Series

This course will be organized around the DPES seminar series, presenting guest lecturers around interdisciplinary environmental themes. Students will analyze major environmental themes and prepare presentations for in-class debate.

Same as [EESD18H3](#)

Prerequisite: At least 14.5 credits
Exclusion: [EESD18H3](#)
Breadth Requirements: Natural Sciences

ESTD19H3 - Risk

A practical introduction to the concept of 'risk' as utilized in environmental decision-making. Students are introduced to risk analysis and assessment procedures as applied in business, government, and civil society. Three modules take students from relatively simple determinations of risk (e.g., infrastructure flooding) towards more complex, real-world, inclusive considerations (e.g., ecosystem impacts of climate change).

Prerequisite: 14.5 credits and [STAB22H3](#) (or equivalent)
Breadth Requirements: Natural Sciences

ESTD20H3 - Integrated Natural Resource and Climate Change Governance

Climate change affects all sectors of society, natural ecosystems, and future generations. Addressing climate change, either in terms of mitigation or adaptation, is complex due to its pervasive scope, the heterogeneity of its impacts and the uneven distribution of responsibilities, resources and capacities to respond to it between different levels of government, stakeholder groups, and rightholder groups. This course focuses on nexus approaches in climate policy development and assessment across different public policy domains. In this course, students will learn about how different levels of government frame climate change and climate policy objectives, how they interact with stakeholders (e.g., economic interests and environmental groups) and rightholders (Indigenous people), and how to approach complexity in climate governance.

Prerequisite: 14.0 credits including [ESTB04H3](#)
Breadth Requirements: Social and Behavioural Sciences

Food Studies

Faculty List

- D. Bender, M.A., Ph.D. (New York), Professor
- M. Ekers, B.Sc., (Lakehead), M.E.S. (York), Ph.D. (Oxford), Assistant Professor (Department of Human Geography)
- M. Isaac, Ph.D. (Toronto), Professor (Department of Physical and Environmental Sciences)
- R. Isakson, Ph.D. (Massachusetts, Amherst), Associate Professor (Department of Global Development Studies)
- K. MacDonald, B.A., M.A., Ph.D. (Waterloo), Associate Professor (Department of Human Geography)
- L. Mortensen, B.A. (Cornell), M.A., Ph.D. (Indiana), Assistant Professor (Department of Anthropology)
- J. Pilcher, M.A. (New Mexico State), Ph.D. (Texas Christian), Professor
- J. Sharma, M.A. (Delhi), M.Phil. (Delhi), Ph.D. (Cambridge), Associate Professor

Effective July 1, 2024, the administration of the Minor program in Food Studies and the undergraduate-level FST courses has been moved from the Department of Historical and Cultural Studies (HCS) to the Department of Physical and Environmental Sciences (DPES).

Undergraduate Advisor Email: fst.undergrad.advisor.utoronto.ca

For more information, visit the [Department of Physical and Environmental Sciences website](#).

Food Studies is an interdisciplinary field dedicated to understanding where our food comes from and how it shapes our bodies and identities. The Minor Program in Food Studies focuses on five basic themes: global food cultures, flavour, health, sustainability, and food justice while drawing from a number of disciplinary methodologies. Courses will span all of human history, from our foraging ancestors to the contemporary industrial food system, and around the world, examining diverse cultural traditions of farming, cooking, and eating.

Particular attention will be given to the material nature of food, the way it tastes and smells, and the changes caused by cooking, preservation, and rotting. Tutorials and seminars will meet in the Culinaria Kitchen Laboratory (SW313) to provide experiential learning and small group discussion.

The program will also leverage the university's urban location to use Scarborough as a classroom to understand the rich traditions and special challenges involved in feeding diasporic communities.

Food Studies provides both theoretical understanding and practical knowledge for professional careers in health care, business, communications, government service, non-governmental organizations, teaching, and community programs.

For updates and detailed information regarding Food Studies, please [visit the Food Studies Program website](#).

Food Studies Courses:

- **A-level:** [FSTA01H3](#), [FSTA02H3](#), [FSTA03H3](#)
- **B-level:** [ANTB64H3](#), [BIOB38H3](#), [EESB16H3](#), [FSTB01H3](#), [FSTB14H3](#), [HLTB11H3](#)
- **C-level:** [FSTC02H3](#), [FSTC05H3](#), [FSTC37H3](#), [FSTC43H3/GGRC43H3](#), [FSTC54H3](#), [FSTC24H3](#), [FSTC13H3](#), [FSTC29H3](#), [IDSC14H3](#).
- **D-level:** [ANTD71H3](#), [FSTD02H3](#), [FSTD10H3](#), [FSTD11H3](#).

Note: Students are advised to consult the prerequisites for B-, C-, and D-level courses when planning their individual program.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Food Studies Programs

MINOR PROGRAM IN FOOD STUDIES (ARTS) - SCMIN0580

To contact the Undergraduate Advisor please email: fst.undergrad.advisor.utoronto@utoronto.ca

Program Requirements

Students must complete at least 4.0 credits in Food Studies-focused courses, including the following:

1. [FSTB01H3](#) Methodologies in Food Studies
2. An additional 3.5 credits, of which at least 2.0 credits must be at the C- or D-level

Food Studies Courses

FSTA01H3 - Foods That Changed the World

This course introduces students to university-level skills through an exploration of the connections between food, environment, culture, religion, and society. Using a food biography perspective, it critically examines ecological, material, and political foundations of the global food system and how food practices affect raced, classed, gendered, and national identities.

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

FSTA02H3 - Food Futures: Confronting Crises, Improving Lives

This course provides innovation and entrepreneurship skills to address major problems in socially just food production, distribution, and consumption in the time of climate crisis. Students will learn to identify and understand what have been called “wicked problems” -- deeply complicated issues with multiple, conflicting stakeholders -- and to develop community-scale solutions.

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

FSTA03H3 - Wines of the World

This class will introduce students to the wine regions of the world. They will learn methods of grape cultivation and wine making, the fundamentals of viticulture, cultures of terroir, tasting skills, marketing strategies, and the effects of climate change.

Breadth Requirements: Natural Sciences

Note: Students must be above 19 years old to participate in wine tasting sessions.

FSTB01H3 - Methodologies in Food Studies

This course, which is a requirement in the Minor program in Food Studies, provides students with the basic content and methodological training they need to understand the connections between food, culture, and society. The course examines fundamental debates around food politics, health, culture, sustainability, and justice. Students will gain an appreciation of the material, ecological, and political foundations of the global food system as well as the ways that food shapes personal and collective identities of race, class, gender, and nation. Tutorials will meet in the Culinaria Kitchen Laboratory.

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

Note: Priority will be given to students in the Minor program in Food Studies.

FSTB14H3 - Why We Cook

An exploration of how eating and cooking traditions around the world have been affected by economic, environmental, and social changes, including imperialism, migration, climate change, and urbanization. Topics include: immigrant cuisines, commodity exchanges, and the rise of the restaurant. Tutorials focus on exploring cooking traditions from across time and around the world. exploration of how eating traditions around the world have been affected by economic and social changes, including imperialism, migration, the rise of a global economy, and urbanization. Lectures will be supplemented by cooking demonstrations.

Exclusion: (HISB14H3)

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

FSTC02H3 - Mondo Vino: The History and Culture of Wine Around the World

This course explores vine cultivation and wine making, marketing, and consumption around the world, linking it to challenges of social, cultural, and environmental sustainability. This course includes in-class tastings

Prerequisite: FSTB01H3

Recommended Preparation: At least 1.0 credit at the B-level or higher in FST courses

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Minor Program in Food Studies Minor program and programs in Environmental Studies. Additional students will be admitted as space permits.

FSTC05H3 - Feeding the City: Food Systems in Historical Perspective

This course puts urban food systems in world historical perspective using case studies from around the world and throughout time. Topics include provisioning, food preparation and sale, and cultures of consumption in courts, restaurants, street vendors, and domestic settings. Students will practice historical and geographical methodologies to map and interpret foodways.

Same as [HISC05H3](#)

Prerequisite: Any 4.0 credits, including 0.5 credit at the A or B-level in CLA, FST, GAS HIS or WST courses

Exclusion: HISC05H3

Breadth Requirements: History, Philosophy and Cultural Studies

FSTC13H3 - Food Policy and Nutritional Health

Through engagement with policymakers, researchers, and industry stakeholders, this course explores the political economy of the Canadian food system and, broadly, global food systems. The course provides an introduction to the commercial determinants of health and relevant theoretical frameworks; examines the role of private industry in the research and policymaking process; explores the role of power within political and economic structures that affects human behaviour, preferences, and culture; and presents examples of current research related to corporate influence of food policies in Canada and globally.

Prerequisite: 4.0 credits or [FSTB01H3](#)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Food Studies, Environmental Studies, and Health Studies programs. Additional students will be admitted as space permits.

FSTC15H3 - Food Justice

This course will help students learn to identify inequalities around food and gain skills to help ensure broad access to healthy, sustainable, and culturally appropriate food. Frameworks will include race, gender, class, indigeneity, and generational differences.

Prerequisite: [FSTB01H3](#)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Food Studies and Environmental Studies programs. Additional students will be admitted as space permits.

FSTC24H3 - Gender in the Kitchen

Across cultures, women are the main preparers and servers of food in domestic settings; in commercial food production and in restaurants, and especially in elite dining establishments, males dominate. Using agricultural histories, recipes, cookbooks, memoirs, and restaurant reviews and through the exploration of students' own domestic culinary knowledge, students will analyze the origins, practices, and consequences of such deeply gendered patterns of food labour and consumption.

Prerequisite: 8.0 credits, including [0.5 credit at the A or B-level in FST courses]

Exclusion: [WSTC24H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Priority will be given to students enrolled in Food Studies, and Environmental Studies programs. Additional students will be admitted as space permits.

FSTC29H3 - Global Foods, Local Seeds

This course explores familiar foods - from field to plate and microbiome - as plants, seeds, crops, comestibles, commodities, and nutrients. Case-studies select from chocolate, tea, coffee, sugar, grains, and produce. Topics include socio-cultural, socio-political, and nutritional transitions, evolving supply chains, and climate change impact on production and consumption.

Prerequisite: Any 9.5 credits

Exclusion: HISC29H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Food Studies and Environmental Studies programs. Additional students will be admitted as space permits.

FSTC37H3 - Eating and Drinking Across the Americas

Students in this course will examine the development of regional cuisines in North and South America. Topics will include indigenous foodways, the role of land expropriation, commodity production and alcohol trade in the rise of colonialism, the formation of national cuisines, industrialization, migration, and contemporary globalization. Tutorials will be conducted in the Culinaria Kitchen Laboratory.

Prerequisite: Any 4.0 credits

Exclusion: (HISC37H3)

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Priority will be given to students enrolled in the Food Studies, and Environmental Studies programs. Additional students will be admitted as space permits.

FSTC43H3 - Social Geographies of Street Food

This course uses street food to comparatively assess the production of 'the street', the legitimization of bodies and substances on the street, and contests over the boundaries of, and appropriate use of public and private space. It also considers questions of labour and the culinary infrastructure of contemporary cities around the world.

Same as [GGRC34H3](#)

Prerequisite: FSTA01H3 or GGRA02H3 or GGRA03H3

Exclusion: GGRC41H3 (if taken in the 2019 Winter and 2020 Winter sessions), GGRC43H3

Breadth Requirements: History, Philosophy and Cultural Studies

FSTC54H3 - Eating and Drinking Across Global Asia

Students examine historical themes for local and regional cuisines across Global Asia, including but not limited to Anglo-Indian, Arab, Bengali, Chinese, Himalayan, Goan, Punjabi, Japanese, Persian, Tamil, and Indo-Caribbean. Themes include religious rituals, indigenous foodways; colonialism, industrialization, labour, gender, class, migration, globalization, and media. Tutorials are in the Culinaria Kitchen Lab.

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level from CLA, FST, GAS, HIS or WST courses

Exclusion: (GASC54H3), (HISC54H3)

Breadth Requirements: Social and Behavioural Sciences

FSTD01H3 - Independent Studies: Senior Research Project

This option is available in rare and exceptional circumstances to students who have demonstrated a high level of academic maturity and competence. Qualified students will have the opportunity to investigate a topic in Food Studies that is of common interest to both student and supervisor.

Prerequisite: At least 10.0 credits, including [FSTB01H3](#), and written permission from the instructor.

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

FSTD02H3 - Special Topics in Food Studies

This seminar will expose students to advanced subject matter and research methods in Food Studies. Each seminar will explore a selected topic.

Prerequisite: Any 8.0 credits including 1.0 credit from the Food Studies Courses Table

Breadth Requirements: History, Philosophy and Cultural Studies

FSTD10H3 - Food Writing

This course introduces students to a range of writing about food and culture, exposing them to different genres and disciplines, and assisting them to experiment with and develop their own prose. The course is designed as a capstone offering in Food Studies, and as such, asks students to draw on their own expertise and awareness of food as a cultural vehicle to write in a compelling way about social dynamics, historical meaning, and - drawing specifically on the Scarborough experience - the diasporic imaginary.

Prerequisite: FSTB01H3

Breadth Requirements: Arts, Literature and Language

Note: Priority will be given to students enrolled in the Minor program in Food Studies. Additional students will be admitted as space permits.

FSTD11H3 - Food and Media: Documenting Culinary Traditions Through Photography and Videography

This course combines elements of a practicum with theoretical approaches to the study and understanding of the place of food in visual culture. It aims to equip students with basic to intermediate-level skills in still photography, post-processing, videography, and editing. It also seeks to further their understanding of the ways in which scholars have thought and written about food and the visual image, with special emphasis on the “digital age” of the last thirty years.

Prerequisite: FSTB01H3

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

FSTD12H3 - Cuisine, Culture, Ecology

This course examines the central place of cuisine and ecology to cultures around the world, with a focus on community growing, home cooking, food preservation, and experiences of gardens, restaurants, kitchens and marketplaces. Learning methods include oral interviews, field trips, sensory tasting and cooking sessions, multi-

media experiential learning, as well as critical reading and writing.

Prerequisite: 9.5 credits

Exclusion: GASD72H3

Recommended Preparation: FSTA01H3 or FSTA02H3 or FSTB01H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Food Studies, Environmental Studies, and Environmental Sciences programs. Additional students will be admitted as space permits.

FSTD16H3 - Field Course in Food Studies

Experiential learning in Food Studies is critical for understanding the complexities of the global food system. This course provides exciting and inspiring experiential learning opportunities with food innovators across Canada and internationally. The course entails a 7-10-day field camp with destinations potentially changing yearly, that prioritizes innovative production methods, agroecological understanding, food cultures and communication, and taste analysis.

Prerequisite: Permission of the Instructor

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Food Studies, Environmental Studies programs. Additional students will be admitted as space permits.

French

Faculty List

- C. Beauquis, M.A., Ph.D. (Western), Associate Professor, Teaching Stream
- C. Bertrand-Jennings, L. ès L. (Paris), Ph.D. (Wayne State), Professor Emerita
- L.E. Doucette, B.A. (London), Ph.D. (Brown), Professor Emeritus
- S. Drouin, Ph.D. (Laval & Versailles/Saint-Quentin-en-Yvelines), Associate Professor
- J. English, M.A., Ph.D. (Toronto), Associate Professor, Teaching Stream
- K. McCrindle, M.A., Ph.D. (Toronto), Associate Professor, Teaching Stream
- S. Mittler, M.A. (Toronto), Ph.D. (Strasbourg), Associate Professor
- F. Mugnier, M.A. (Lyon), Ph.D. (Grenoble), Senior Lecturer Emerita
- J. Ndayiragije, M.A. (Montreal-UQAM), Ph.D. (Montreal-UQAM), Associate Professor
- M. Pillet, Ph.D. (Toronto), Part-time Assistant Professor
- P. Riendeau, M.A., Ph.D. (Montreal), Associate Professor
- S. Sonina, Ph.D. (Toronto), Part-time Assistant Professor
- M. Tsimenis, B.A. (Athens), M.A., Ph.D. (Montreal), Associate Professor, Teaching Stream

Chair: S. Drouin Email: dls-chair.utsc@utoronto.ca

For curriculum inquiries please contact the department's Program Coordinator at dls-ua@utsc.utoronto.ca.

Please visit the [Department of Language Studies website](#) to read more about our faculty events and news items.

Studies in French allow for a wide range of interests: the enhancement of practical language skills, including translation, and pronunciation ([FREB08H3](#), [FREB17H3](#), [FREB44H3](#), [FREC18H3](#), [FRED28H3](#)); the study of how the language is structured ([FREB45H3](#), [FREC46H3](#), [FREC47H3](#)); the development of approaches to the teaching of French ([FREB11H3](#), [FREB20H3](#), [FREC11H3](#)); the exploration of the rich kinds of literature and cultures of French Canada, France and other parts of the francophone world ([FREB22H3](#), [FREB35H3](#), [FREB70H3](#), [FREC54H3](#), [FREC63H3](#), [FREC70H3](#)); and hands-on experiences in practical applications of French ([FREC03H3](#), [FREC04H3](#), [FREC10H3](#)).

Notice Regarding Suspension of Enrolment in Co-operative Programs in French

Enrolment in the Major (Co-operative) and Specialist (Co-operative) programs in French will no longer be available as of October 3, 2025. Students currently enrolled in these programs will be able to complete their program requirements as outlined in the Calendar in effect at the time they first selected the program as a Subject POST.

Students who are not enrolled in these programs but are interested in experiential and/or community-engaged learning opportunities are encouraged to consult the Department of Language Studies for advising. Students can contact the department at dls-ua@utsc.utoronto.ca.

Combined Degree Programs, Honours Bachelor of Arts/ Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBA) /Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provide students with a direct pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and Master's degree. These Combined Degree Programs allow students to complete 1.0 credit in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching*
- French (Major), Honours Bachelor of Arts/ Master of Teaching

- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching*

*Note: enrolment in the Major (Co-operative) and Specialist (Co-operative) programs in French will no longer be available as of October 3, 2025.

Program Combination Restrictions in French

The following programs are offered at the University of Toronto Scarborough: the Specialist Program in French, the Major Program in French, and the Minor Program in French.

The Specialist/Specialist Co-op, Major/Major Co-op, and Minor programs in French cannot be combined. For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the Calendar.

Guidelines for Course Selection

The first French language course that counts towards the French Minor, Major, or Specialist, is [FREA01H3](#) (Language Practice I), which serves to consolidate previous knowledge, and is the prerequisite for more advanced courses in all areas for most non-Francophone students. Note that the Language Practice courses [FREA01H3](#) & [FREA02H3](#), [FREB01H3](#) & [FREB02H3](#), [FREC01H3](#) & [FREC02H3](#), and [FRED01H3](#) & [FRED06H3](#) must be taken in sequence. An A-level FRE course should not be taken at the same time as, or after, a B-level FRE course.

However, not all students will start at [FREA01H3](#): **all students who have completed Grade 10 French or higher, must complete a language placement test before enrolling in French courses for the first time at UTSC.** Instructions for the [Language Placement Test](#) are found on our website.

Students who have never received any formal education in French and do not speak any French should enrol in [FREA96H3](#). Students who have completed up to Grade 9 French should enrol in [FREA97H3](#).

Students' level of proficiency will be further assessed by the course instructor during the first week of classes and will be monitored throughout the term. If the course instructor feels that a student's proficiency is not appropriate for the level of the class (whether too high or too low), they will have the student removed from the class.

Please consult with the Associate Chair of French if you have any further questions or would like further guidance on enrolment in the above-mentioned courses. Please also note that students should begin their French studies in the Fall semester, with the course that best corresponds to their level.

Please do not hesitate to consult the Program Coordinator or the Associate Chair for further advice about course selection and programs.

Students of French have the opportunity to earn academic credit while studying in another province or country. For further information about this opportunity and about Letters of Permission, please visit the [Studying at Other Universities](#) website, and speak to our Program Coordinator.

Students with Grade 12 French who took Summer Bursary Program courses prior to attending U of T must see the Associate Chair of French during the first week of classes. After assessing the course, the Associate Chair will advise the student as to the appropriate level in which to register. Failure to seek advice at that time may result in a loss of credit to which the student is entitled.

Students must consult the Associate Chair of French about possible exclusions if they are considering registering in French courses in the Faculty of Arts and Science on the St. George campus or at the University of Toronto Mississauga. Failure to do so may leave the student short a course for degree credit and thus delay graduation and increase tuition fees.

Language Citation

U of T Scarborough offers a growing range of language opportunities and, as students seek international study, work opportunities and post-graduate study, they may be assisted by a notation of language proficiency. The Language Citation provides that notation. See the [Language Citation](#) section of the Calendar for more information.

St. George Equivalencies

[FREA96H3](#) and [FREA97H3](#) or [FREA90Y3](#): FSL100H1 and FSL102H1

[FREA98H3](#) and [FREA99H3](#) or [FREA91Y3](#): FSL120H1 and FSL122H1

[FREA01H3](#) and [FREA02H3](#): FSL220H1 and FSL222H1

[FREB01H3](#) and [FREB02H3](#): FSL224H1/FSH225H1 and FSL320H1

[FREC01H3](#) and [FREC02H3](#): FSL322H1 and FSL420H1

[FRED01H3](#) and [FRED06H3](#): FSL442H and FSL443H

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

French Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc)/ Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBSc and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching

- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;

- in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
- if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
- if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
- in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
- for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
- for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:
 - students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

SPECIALIST PROGRAM IN FRENCH (ARTS) - SCSPE2156

For curriculum inquiries, contact the department's Program Coordinator: dls-ua@utsc.utoronto.ca

This program is designed to provide students with a fundamental knowledge and grasp of principles and practices in core areas of French: language, grammar, linguistics, literature and culture.

Enrolment in the CTEP program in French has been suspended indefinitely. Students who enrolled at UTSC prior to the 2014 Summer Session should refer to the 2013/14 UTSC *Calendar*.

Program Requirements

This program requires 12.0 credits as follows including at least 4.0 credits at the C- or D-level of which at least 1.0 credit must be at the D-level:

1. 3.5 credits in Language Practice:

[FREA01H3](#) Language Practice I

[FREA02H3](#) Language Practice II

[FREB01H3](#) Language Practice III

[FREB02H3](#) Language Practice IV

[FREC01H3](#) Language Practice V

[FREC02H3](#) Language Practice VI

[FRED01H3](#) Language Practice VII: Written French

(Except where substitution of other French credits is permitted for students with special proficiency in the French language)

2. 2.0 credits in Linguistics:

[FREB08H3](#) Practical Translation I

[FREB44H3](#) Introduction to Linguistics: French Phonetics and Phonology

[FREB45H3](#) Introduction to Linguistics: French Morphology and Syntax

[FREB46H3](#) History of the French Language

[FREC44H3](#) French Semantics

[FREC46H3](#) French Syntax

[FREC47H3](#) Pidgin and Creole Languages (taught in English)

[FREC48H3](#) Sociolinguistics of French

3. 1.5 credits in Culture:

FREB22H3 The Society and Culture of Québec
FREB27H3 Modern France
FREB28H3 The Francophone World
FREB70H3 Introduction to Film Analysis in French
FREB84H3 Folktale, Myth and the Fantastic in the French-Speaking World
FREC03H3 French in Action I: Practical Workshop in Theatre
FREC04H3 French in Action II: Creative Writing in French
FREC54H3 Paris Through the Ages
FREC70H3 Cinema, Movements and Genres
FREC83H3 Cultural Identities and Stereotypes in the French-Speaking World

4. 3.0 credits in Literature which must include:

FREB50H3 Introduction to French Literature I
FREB35H3 Francophone Literature

and

1.0 credit in literature from Québec, selected from the following:

FREB36H3 The 20th Century Québec Novel
FREB37H3 Contemporary Québec Drama
FREC38H3 Topics in the Literature of Québec
FRED14H3 Advanced Topics in the Literature of Québec

and

1.0 credit in French Literature, selected from the following:

FREB51H3 Literary History in Context: From the Middle Ages to the 17th Century
FREB55H3 Literary History in Context: 18th and 19th Centuries
FREC57H3 French Fiction of the 19th Century
FREC58H3 Literature of the Ancient Regime
FREC63H3 Topics in French Literature: Encountering Foreign Cultures: Travel Writing in France
FREC64H3 French Fiction of the 20th and 21st Centuries
FRED13H3 Advanced Topics in French Literature

5. 2.0 additional credits in French Linguistics, French Culture or Literature (where not already taken) or from the list below:

FREB11H3 French Language in the School System
FREB17H3 Spoken French: Conversation and Pronunciation
FREB18H3 Business French
FREB20H3 Teaching Children's Literature in French

FREC10H3 Community-Engaged Learning in the Francophone Community
FREC11H3 Teaching French as a Second Language
FREC18H3 Translation for Business and Professional Needs
FRED06H3 Language Practice VIII: Oral French

Notes:

1. Specialist students (including CTEP) cannot obtain more than 0.5 credit (out of 12.0) by taking a course in English. This does not include CTEP courses taught in English through OISE.
2. At the A-level, only FREA01H3 and FREA02H3 may be counted towards a French Program.

SPECIALIST (CO-OPERATIVE) PROGRAM IN FRENCH (ARTS) - SCSPE2156C

For more information, please contact:

Academic Program Advisor: dls-ua@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in French is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity

to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to French upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment in the Specialist (Co-operative) Program in French will be administratively suspended effective October 3, 2025, and students will no longer be able to enrol in the program thereafter. Students presently enrolled in the Specialist (Co-operative) Program in French will be able to complete the program requirements as they are described in the Calendar active at the time students first chose the program as a Subject POST. Students who are not enrolled in the program but are interested in engaging in experiential and/or community-engaged learning activities are recommended to consult with the [Department of Language Studies](#) for advising. Students can contact the department via email at dls-ua@utsc.utoronto.ca.

Enrolment Requirements

The minimum qualifications for entry to the program are 4.0 credits, including [FREA01H3](#) and [FREA02H3](#), plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in French. To be eligible for their first work term, students must be enrolled in the Specialist (Co-op) Program in French, have completed at least 7.0 credits, including [FREB01H3](#) and [FREB02H3](#), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB58H3**/**COPB51H3**

Work Term Search Courses:

- **COPB59H3**/**COPB52H3** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN FRENCH (ARTS) - SCMAJ2156

For curriculum inquiries, contact the department's Program Coordinator: dls-ua@utsc.utoronto.ca

Program Requirements

Students must complete 8.0 credits in French, including 2.0 credits at the C- or D-level, of which 0.5 credit must be at the D-level, as follows:

1. 3.5 credits in Language Practice:

FREA01H3 Language Practice I
FREA02H3 Language Practice II
FREB01H3 Language Practice III
FREB02H3 Language Practice IV
FREC01H3 Language Practice V

FREC02H3 Language Practice VI

FRED01H3 Language Practice VII: Written French

(Students with special proficiency in the French language may substitute other FRE courses with the permission of the Associate Chair)

2. 1.0 credit in Linguistics:

FREB08H3 Practical Translation I

FREB44H3 Introduction to Linguistics: French Phonetics and Phonology

FREB45H3 Introduction to Linguistics: French Morphology and Syntax

FREB46H3 History of the French Language

FREC44H3 French Semantics

FREC46H3 French Syntax

FREC48H3 Sociolinguistics of French

FREC47H3 Pidgin and Creole Languages (taught in English)

3. 1.0 credit in Culture:

Culture courses are:

FREB22H3 The Society and Culture of Québec

FREB27H3 Modern France

FREB28H3 The Francophone World

FREB70H3 Introduction to Film Analysis in French

FREB84H3 Folktale, Myth and the Fantastic in the French-Speaking World

FREC03H3 French in Action I: Practical Workshop in Theatre

FREC04H3 French in Action II: Creative Writing in French

FREC54H3 Paris Through the Ages

FREC70H3 Cinema, Movements and Genres

FREC83H3 Cultural Identities and Stereotypes in the French-Speaking World

4. 1.5 credits in Literature:

FREB50H3 Introduction to Literature in French I

and

1.0 credit in French Literature taken from the following:

FREB35H3 Francophone Literature

FREB36H3 The 20th Century Québec Novel

FREB37H3 Contemporary Québec Drama

FREB51H3 Literary History in Context: From the Middle Ages to the 17th Century

FREB55H3 Literary History in Context: 18th and 19th Centuries

FREC38H3 Topics in the Literature of Québec

FREC57H3 French Fiction of the 19th Century

FREC58H3 Literature of the Ancien Regime

FREC63H3 Topics in French Literature: Encountering Foreign Cultures: Travel Writing in French

FREC64H3 French Fiction of the 20th and 21st Centuries

FRED13H3 Advanced Topics in French Literature

FRED14H3 Advanced Topics in the Literature of Québec

5. 1.0 credit in French Linguistics, French Culture or Literature (where not already taken) or from the list below:

FREB11H3 French Language in the School System

FREB17H3 Spoken French: Conversation and Pronunciation

FREB18H3 Business French

FREB20H3 Teaching Children's Literature in French

FREC10H3 Community-Engaged Learning in the Francophone Community

FREC11H3 Teaching French as a Second Language

FREC18H3 Translation for Business and Professional Needs

FRED06H3 Language Practice VIII: Oral French

Notes:

1. At the A-level, only FREA01H3 and FREA02H3 may be counted towards a French Program.

2. For Co-op opportunities related to the Major Program in French, please see the Co-operative Programs section and the Arts and Science Co-op section in the UTSC *Calendar*.

3. Major students cannot obtain more than 0.5 credit (out of 8.0 credits) by taking a course taught in English.

MAJOR (CO-OPERATIVE) PROGRAM IN FRENCH (ARTS) - SCMAJ2156C

For more information, please contact:

Academic Program Coordinator: dls-ua@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in French is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to French upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment in the Major (Co-operative) Program in French will be administratively suspended effective October 3, 2025, and students will no longer be able to enrol in the program thereafter. Students presently enrolled in the Major (Co-operative) Program in French will be able to complete the program requirements as they are described in the Calendar active at the time students first chose the program as a Subject POST. Students who are not enrolled in the program but are interested in engaging in experiential and/or community-engaged learning activities are recommended to consult with the [Department of Language Studies](#) for advising. Students can contact the department via email at dls-ua@utsc.utoronto.ca.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [FREA01H3](#) and [FREA02H3](#), plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above
Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in French.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the Major (Co-op) Program in French, have completed at least 7.0 credits, including FREB01H3 and FREB02H3, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MINOR PROGRAM IN FRENCH (ARTS) - SCMIN2156

For curriculum inquiries, contact the department's Program Coordinator: dls-ua@utsc.utoronto.ca

Program Requirements

Students must complete 4.0 credits in total, of which 1.0 must be at the C-level or higher.

1. 2.0 credits from the following:

[FREA01H3](#) Language Practice I
[FREA02H3](#) Language Practice II
[FREB01H3](#) Language Practice III
[FREB02H3](#) Language Practice IV
[FREC01H3](#) Language Practice V
[FREC02H3](#) Language Practice VI
[FRED01H3](#) Language Practice VII: Written French
[FRED06H3](#) Language Practice VIII: Oral French

2. Additional 2.0 credits in French

Notes:

1. At the A-level, only [FREA01H3](#) and [FREA02H3](#) may be counted towards the program completion requirements.
2. Where student's proficiency in French is advanced enough to skip some or all of the courses in requirement 1, substitutions can be made in consultation with the Associate Director of French.

French Courses

FREA01H3 - Language Practice I

This course is designed to consolidate the language skills necessary for higher-level French courses through an action-oriented approach to language teaching and learning. Students will improve their communicative language competencies (listening, reading, speaking and writing) by engaging in task-based activities in real-world, contextual situations.

By the end of [FREA01H3](#) and [FREA02H3](#), students will have completed the level A2 of the Common European Framework of Reference.

Prerequisite: Grade 12 French or [FREA91Y3](#) or [FREA99H3](#) or equivalent

Exclusion: Native or near-native fluency in French, (FSL161Y), (FSL181Y), FSL221Y, FSL220H1

Breadth Requirements: Arts, Literature and Language

Note: [FREA01H3](#) is a prerequisite for all B-level French courses.

FREA02H3 - Language Practice II

A continuation of [FREA01H3](#). Students will continue to improve their communicative language competencies (listening, reading, speaking and writing) by engaging in task-based activities in real-world, contextual situations.

By the end of [FREA01H3](#) and [FREA02H3](#), students will have completed the level A2 of the Common European Framework of Reference.

Prerequisite: [FREA01H3](#)

Exclusion: Native or near-native fluency in French; (FREA10Y3), (FSL161Y), (FSL181Y), FSL221Y, FSL22H1

Breadth Requirements: Arts, Literature and Language

Note: [FREA02H3](#) is a prerequisite for all B-level French courses.

FREA90Y3 - Intensive Introductory French

This course is for students with no prior knowledge of French. Based on a communicative approach, it will help students learn French vocabulary, understand grammatical structures and concepts, and gain oral and written communication skills. Students will develop their

listening, speaking, reading and writing skills through a variety of contextually specific activities. Class periods will include explanations of grammatical concepts, as well as communicative and interactive exercises. In addition to preparation at home, regular class attendance is paramount for student success.

Exclusion: (LGGA21H3), (LGGA22H3), (LGGB23H3), (LGGB24H3), FREA96H3, FREA97H3, [FSL100H1 or equivalent], or any prior knowledge of French

Breadth Requirements: Arts, Literature and Language

Note: 1. This course does not satisfy any French program requirements. It is a 6 week, 1.0 credit course that will be offered only in the Summer semesters as part of the Summer Language Institute. Students will be expected to attend up to 12 hours of class per week. 2. Priority will be given to students in the Specialist Co-op program in Management and International Business (MIB), Specialist/Specialist Co-op and Major/Major Co-op programs in Linguistics, and Specialist Co-op programs in International Development Studies (both BA and BSc).

FREA91Y3 - Intensive Intermediate French

This course is for students who have studied some French in high school or who have some prior knowledge of French, and who wish to bring their proficiency up to the level required for UTSC French programs. Students will continue to improve their listening, speaking, reading and writing skills through a variety of contextually specific activities. Class periods will include explanations of grammatical concepts, as well as communicative and interactive exercises. In addition to preparation at home, regular class attendance is paramount in order to succeed in the class.

Prerequisite: FREA90Y3 or FREA97H3

Exclusion: FREA98H3, FREA99H3, [LGGB23H3 or equivalent], or FSL121Y1

Breadth Requirements: Arts, Literature and Language

Note: 1. This course does not satisfy any French program requirements. Students who complete this course may continue into FREA01H3. This is a 6 week, 1.0 credit course that will be offered only in the Summer semesters as part of the Summer Language Institute. Students will be expected to attend up to 12 hours of class per week. 2. Priority will be given to students in the Specialist program in Management and International Business (MIB), Specialist/Specialist Co-op and Major/Major Co-op programs in Linguistics, and Specialist Co-op programs in International Development Studies (both BA and BSc).

FREA96H3 - Beginner French I

An intensive basic course in written and spoken French; comprehension, speaking, reading and writing. This intensive, practical course is designed for students

who have no previous knowledge of French.

Note: This course **does not** satisfy any French program requirements.

Exclusion: (LGGA21H3), (LGGA22H3), (LGGB23H3), (LGGB24H3), FSL100H or equivalent

Breadth Requirements: Arts, Literature and Language

FREA97H3 - Beginner French II

An intensive course in written and spoken French; a continuation of FREA96H3.

This course is designed for students who have some knowledge of French. It continues the basic, comprehensive training in both written and oral French begun in FREA96H3, using the second half of the same textbook.

Notes: This course **does not** satisfy any French program requirements.

Prerequisite: FREA96H3 or (LGGA21H3)

Exclusion: (LGGA22H3), FSL102H or equivalent.

Breadth Requirements: Arts, Literature and Language

FREA98H3 - Beginner French III

Intended for students who have studied some French in high school or have some knowledge of French. Offers a review of all basic grammar concepts and training in written and spoken French. Reinforces reading comprehension, written skills and oral/aural competence.

Notes: This course **does not** satisfy any French program requirements.

Prerequisite: FREA97H3 or (LGGA22H3)

Exclusion: FSL121Y, (LGGB23H3) or equivalent

Breadth Requirements: Arts, Literature and Language

FREA99H3 - Beginner French IV

Intended for students who have some knowledge of French and who wish to bring their proficiency up to the level of normal University entrance; a continuation of FREA98H3; prepares students for FREA01H3. Offers training in written and spoken French, reinforcing reading comprehension, written skills and oral/aural competence.

Notes: This course **does not** satisfy any French program requirements.

Prerequisite: FREA98H3, (LGGB23H3) or equivalent.

Exclusion: Grade 12 French, (LGGB24H3), FSL121Y or equivalent. Cannot be taken concurrently or after FREA01H3.

Breadth Requirements: Arts, Literature and Language

FREB01H3 - Language Practice III

This course is designed to reinforce and develop fluency, accuracy of expression and style through an action-oriented approach to language teaching and learning. Students will improve their communicative language competencies (listening, reading, speaking and writing) by engaging in task-based activities in real-world, contextual situations.

By the end of [FREB01H3](#) and [FREB02H3](#), students will have completed the level B1 of the Common European Framework of Reference.

Prerequisite: [FREA01H3](#) and [FREA02H3](#) or equivalent.

Exclusion: FSL224H1, FSL225H1, (FSL261Y), (FSL281Y), FSL321Y, (FSL331Y), (FSL341Y) or equivalent or native proficiency

Breadth Requirements: Arts, Literature and Language

FREB02H3 - Language Practice IV

A continuation of [FREB01H3](#). Students will continue to develop their accuracy of expression and improve their fluency by engaging in activities in real-world, contextual situations.

By the end of [FREB01H3](#) and [FREB02H3](#), students will have completed the level B1 of the Common European Framework of Reference.

Prerequisite: [FREB01H3](#)

Exclusion: FSL320H1, (FSL261Y), (FSL281Y), FSL321Y, (FSL331Y), (FSL341Y) or equivalent or native proficiency

Breadth Requirements: Arts, Literature and Language

FREB08H3 - Practical Translation I

An introduction to translation. The course will use a wide selection of short texts dealing with a variety of topics. Grammatical and lexical problems will be examined with special attention to interference from English.

Prerequisite: [FREA01H3](#) and [FREA02H3](#) or equivalent.

Exclusion: Native proficiency. [FREB08H3](#) may not be taken after or concurrently with [FREC18H3](#), FRE480Y or FRE481Y.

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

FREB11H3 - French Language in the School System

This course is intended for students considering a career in language teaching.

It involves a series of seminars as well as preparation for observations in local schools throughout the duration of the course.

Prerequisite: [FREA01H3](#) and [FREA02H3](#) or equivalent.

Breadth Requirements: Arts, Literature and Language

Note: Students taking this course will need to have a police check completed with the police board in the jurisdiction for which they reside. Completed police checks must be submitted to the instructor during the first day of class.

FREB17H3 - Spoken French: Conversation and Pronunciation

Designed for students who wish to improve their speaking abilities. The course examines the French sound system with the goal of improving students' pronunciation in reading and everyday speech. Theoretical concepts are put into practice via structured exercises and various dialogues involving useful colloquial expressions.

Prerequisite: [FREA01H3](#) and [FREA02H3](#) or equivalent

Exclusion: [FREC01H3](#), [FREC02H3](#), [FRED01H3](#), [FRED06H3](#); and any Francophone students

Breadth Requirements: Arts, Literature and Language

FREB18H3 - Business French

The French language in a commercial or economic context. Of interest, among others, to students in French, Business, Accounting, Management, and Economics, this course emphasizes commercial writing techniques and exercises that include the vocabulary and structures of business language.

Prerequisite: [FREA01H3](#) and [FREA02H3](#) or equivalent.

Exclusion: FSL366H

Breadth Requirements: Arts, Literature and Language

FREB20H3 - Teaching Children's Literature in French

An analysis of the varied forms and contents of children's literature written in French. The course examines different texts in terms of target age, pictorial illustrations, didactic bent, socio-cultural dimensions etc., focusing on, among other things, fairy tales urban and otherwise, cartoons, detective stories, adventure tales, and art, science and history books.

Prerequisite: [FREA01H3](#) and [FREA02H3](#) or equivalent.

Exclusion: FRE385H

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

FREB22H3 - The Society and Culture of Québec

A study of the historical, cultural and social development of Québec society from its origins to today. Aspects such as history, literature, art, politics, education, popular culture and cinema will be examined. Emphasis will be

placed on the elements of Québec culture and society that make it a distinct place in North America.

Prerequisite: [FREA01H3](#) and [FREA02H3](#) or equivalent.

Breadth Requirements: History, Philosophy and Cultural Studies

FREB27H3 - Modern France

An examination of political, social and cultural developments in France in the last hundred years. Topics will include: the impact of two World Wars; the decolonization process; the European Community; the media; the educational system; immigration etc.

Prerequisite: [FREA01H3](#) and [FREA02H3](#) or equivalent.

Breadth Requirements: History, Philosophy and Cultural Studies

FREB28H3 - The Francophone World

An examination of historical, political and cultural realities in different parts of the Francophone world excluding France and Canada. Topics to be discussed will include slavery, colonization, de-colonization and multilingualism.

Prerequisite: [FREA01H3](#) and [FREA02H3](#) or equivalent.

Exclusion: FSL362Y

Breadth Requirements: History, Philosophy and Cultural Studies

FREB35H3 - Francophone Literature

A study of a variety of literary texts from the French-speaking world, excluding France and Canada. Attention will be given to the cultural and historical background as well as to the close study of works from areas including the West Indies, North and West Africa.

Prerequisite: [FREA01H3](#) and [FREA02H3](#) or equivalent.

Exclusion: FRE332H

Breadth Requirements: Arts, Literature and Language

FREB36H3 - The 20th Century Quebec Novel

A study of some of the major novels written in Québec since 1945. The course will focus on the evolution of the novelistic form and its relevance within modern Western literature. We will also examine the link between the novels studied and the transformation of Québec society.

Prerequisite: [FREA01H3](#) and [FREA02H3](#)

Exclusion: FRE210Y

Breadth Requirements: Arts, Literature and Language

FREB37H3 - Contemporary Quebec Drama

An examination of contemporary Québec theatre. We will study texts representative of a variety of dramatic styles. The focus will be primarily on dramatic texts; significant theatrical performances, however, will also be considered.

Prerequisite: [FREA01H3](#) and [FREA02H3](#)

Exclusion: FRE312H

Breadth Requirements: Arts, Literature and Language

FREB44H3 - Introduction to Linguistics: French Phonetics and Phonology

An examination of the sound system of modern French. The course will acquaint student with acoustic phonetics and the basic concept and features of the French phonetic system. Phonological interpretation of phonetic data (from speech samples) and prosodic features such as stress and intonation will be examined.

Prerequisite: [FREA01H3](#) and [FREA02H3](#) or equivalent.

Exclusion: (FRE272Y), FRE272H, FRE274H

Breadth Requirements: Arts, Literature and Language

FREB45H3 - Introduction to Linguistics: French Morphology and Syntax

An examination of the internal structure of words and sentences in French.

Covered are topics including word formation, grammatical categories, syntactic structure of simple and complex clauses, and grammatical relations of subject, predicate and complement.

This course complements (FREB43H3) and [FREB44H3](#).

Prerequisite: [FREA01H3](#) and [FREA02H3](#)

Exclusion: (FRE272Y) and FRE272H and FRE274H

Breadth Requirements: Arts, Literature and Language

FREB46H3 - History of the French Language

An introduction to the origin and development of French, from the Latin of the Gauls to current varieties of the language. The course examines the internal grammatical and phonological history undergone by the language itself as well as the external history which includes ethnic, social, political, technological, and cultural changes.

Prerequisite: [FREA01H3](#) and [FREA02H3](#)

Exclusion: FRE273H, FRE372H, FRE373H

Breadth Requirements: Arts, Literature and Language

FREB50H3 - Introduction to Literature in French I

A study of representative texts from the three major literary genres (fiction, drama, poetry). The course will introduce students to the critical reading of literary texts in French; students will acquire the basic concepts and techniques needed to analyze literature.

Prerequisite: [\[FREA01H3\]](#) and [\[FREA02H3\]](#) or equivalent.

Corequisite: [FREB01H3](#)

Exclusion: FRE240Y

Breadth Requirements: Arts, Literature and Language

Note: [FREB50H3](#) is a pre-requisite for all other French Literature courses at the C-, and D-level.

FREB51H3 - Literary History in Context: From the Middle Ages to the 17th Century

A study of the evolution of the major trends of French literature from the Middle Ages to the 17th century through representative texts (short novels, poetry and short stories) selected for their historical relevance and literary importance.

Prerequisite: [\[FREA01H3\]](#) and [\[FREA02H3\]](#) or equivalent.

Exclusion: FRE250Y

Breadth Requirements: Arts, Literature and Language

FREB55H3 - Literary History in Context: 18th and 19th Centuries

A study of the evolution of the major trends of French literature from the 18th and 19th centuries through representative texts (short stories, poetry and novels), selected for their historical relevance and literary importance. Students will also learn to use some tools required for text analysis and will apply them in context.

Prerequisite: [\[FREA01H3\]](#) and [\[FREA02H3\]](#) or equivalent.

Exclusion: FRE250Y

Breadth Requirements: Arts, Literature and Language

FREB70H3 - Introduction to Film Analysis in French

This course introduces students to the fundamental aspects of the language of cinema. By examining important films from the French-speaking world, students will learn to analyse the composition of shots and sequences, the forms of expression used in cinematographic language, film editing and certain aspects of filmic narrative.

Prerequisite: [\[FREA01H3\]](#) and [\[FREA02H3\]](#) or equivalent.

Breadth Requirements: Arts, Literature and Language

FREB84H3 - Folktale, Myth and the Fantastic in the French-Speaking World

An examination of the imagined/imaginative in cultures and belief systems in the francophone world. Myths and folktales from Canada, the U.S., French Guyana, North and West Africa will be examined in terms of form, function, psychological dimensions and cultural interpretations of, for instance, life, death, food and individualism.

Prerequisite: [\[FREA01H3\]](#) and [\[FREA02H3\]](#) or equivalent.

Breadth Requirements: Arts, Literature and Language

FREC01H3 - Language Practice V

This course is designed to hone students' reading, writing, listening and speaking skills through group work, written projects, oral presentations and robust engagement with authentic materials. Students will improve their communicative language competencies by participating in activities in real-world, contextual situations.

By the end of [FREC01H3](#) and [FREC02H3](#), students will be closer to the level B2 of the Common European Framework of Reference.

Prerequisite: [\[FREB01H3\]](#) and [\[FREB02H3\]](#) or equivalent.

Exclusion: FSL322H1, (FSL361Y), (FSL382H), (FSL383H), FSL421Y, FSL431Y or equivalent.

Breadth Requirements: Arts, Literature and Language

FREC02H3 - Language Practice VI

A continuation of [FREC01H3](#). Students will continue to hone their language competencies by participating in activities in real-world, contextual situations and by engaging with authentic materials.

By the end of [FREC01H3](#) and [FREC02H3](#), students will be closer to the level B2 of the Common European Framework of Reference.

Prerequisite: [FREC01H3](#)

Exclusion: FSL420H1, (FSL361Y), (FSL382H), (FSL383H), FSL421Y, FSL431Y or equivalent

Breadth Requirements: Arts, Literature and Language

FREC03H3 - French in Action I: Practical Workshop in Theatre

This is a practical application of French in which students engage in writing and performing their own short play. Students will study French and Québécois plays, participate in acting and improvisation workshops, engage in a collaborative writing assignment, rehearse and produce their play and create a promotional poster. The final project for the course is a performance of the play.

Prerequisite: FREB02H3 and FREB50H3

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Students will meet the professors during the first week of class to have their French oral proficiency assessed. Students who are not at the appropriate level may be removed from the course.

FREC04H3 - French in Action II: Creative Writing in French

This course develops students' communication skills in French through creative writing while also incorporating oral exercises such as discussions. By focusing on short texts (short stories, tales, fragments, essays), students will discover the art of creative writing, using precise ideas and techniques. To better understand the phenomenon of creation, students will read short literary texts by different authors and from different periods, which will serve as models. We will explore creation through forms and genres, from impersonal style to autobiographical writing, from science fiction to hyperrealism.

Prerequisite: FREB02H3 and FREB50H3

Exclusion: FRE482H5

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

FREC10H3 - Community-Engaged Learning in the Francophone Community

In this Community-Engaged course, students will have opportunities to strengthen their French skills (such as communication, interpersonal, intercultural skills) in the classroom in order to effectively complete a placement in the GTA's Francophone community. By connecting the course content and their practical professional experience, students will gain a deeper understanding of the principles of experiential education: respect, reciprocity, relevance and reflection; they will enhance and apply their knowledge and problem-solving skills; they will develop their critical thinking skills to create new knowledge and products beneficial to the Francophone community partners.

Prerequisite: FREC01H3 or equivalent. For students who have not taken FRE courses at UTSC, or students who have advanced French proficiency, they must pass the international B1 level of a CEFR-based proficiency exam.

Corequisite: FREC02H3

Exclusion: CTLB03H3

Breadth Requirements: Arts, Literature and Language

Note: Ideally, students will complete FREC02H3 concurrently with FREC10H3, rather than prior to FREC10H3.

FREC11H3 - Teaching French as a Second Language

A study of different theories of language teaching and learning and their application to the teaching of French as a second language.

Prerequisite: FREB01H3 and FREB02H3 or equivalent]] and FREB11H3

Exclusion: FRE384H

Breadth Requirements: Arts, Literature and Language

FREC18H3 - Translation for Business and Professional Needs

Practice in translating commercial, professional and technical texts. Students will have the opportunity to widen their knowledge of the vocabulary and structures particular to the language of business as well as to such fields as industrial relations, insurance, software, health care, social work and finance.

Prerequisite: FREB01H3 and FREB08H3 or (FREB09H3) or equivalent.

Corequisite: FREB02H3

Exclusion: FREC18H3 may not be taken after or concurrently with FRE480Y or FRE481Y.

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

FREC38H3 - Topics in the Literature of Quebec

This course considers how Québec's literature, especially the novel, has changed since 1980. It focuses on the literary forms of the novel, the dialogues between novels and texts from different literatures (Anglo-Canadian, French, American), and various elements related to the contemporary or the postmodern.

Prerequisite: FREB50H3 or equivalent.

Breadth Requirements: Arts, Literature and Language

FREC44H3 - French Semantics

An introduction to the role of meaning in the structure, function and use of language. Approaches to the notion of meaning as applied to French data will be examined.

Prerequisite: FREB44H3 and FREB45H3

Exclusion: (FREC12H3), LINC12H3, LIN241H3, LIN341H, FRE386H

Breadth Requirements: History, Philosophy and Cultural Studies

FREC46H3 - French Syntax

Core issues in syntactic theory, with emphasis on French universal principles and syntactic variation.

Prerequisite: FREB45H3

Exclusion: LINC11H3, FRE378H, LIN232H, LIN331H

Breadth Requirements: Arts, Literature and Language

FREC47H3 - Pidgin and Creole Languages

A study of pidgin and Creole languages worldwide. The course will introduce students to the often complex grammars of these languages and examine French, English, Spanish and Dutch-based Creoles, as well as regional varieties. It will include some socio-historical discussion.

Same as LINC47H3

Taught in English

Prerequisite: [LINA01H3 and LINA02H3] or [FREB44H3 and FREB45H3]

Exclusion: LINC47H3

Breadth Requirements: Arts, Literature and Language

FREC48H3 - Sociolinguistics of French

An exploration of the relationship between language and society within a francophone context. We examine how language use is influenced by social factors. Topics include dialect, languages in contact, language shift, social codes and pidgin and Creole languages. Fieldwork is an integral part of this course.

Prerequisite: [[FREB01H3 and FREB02H3] or equivalent] and [one of FREB44H3, FREB45H3, FREB46H3]

Exclusion: LINB20H3, (LINB21H3)

Breadth Requirements: Social and Behavioural Sciences

FREC54H3 - Paris through the Ages

This course is designed to provide students with an introduction to Paris' great monuments, buildings, streets, and neighbourhoods through art history (painting, sculpture, and architecture), music, and literature from the Middle ages to the beginning of the 20th century.

Prerequisite: FREB27H3 or FREB50H3

Breadth Requirements: History, Philosophy and Cultural Studies

FREC57H3 - French Fiction of the 19th Century

This course will examine themes and literary techniques in various forms of narrative prose from across the 19th

century. Attention will also be paid to the historical and sociocultural context in which these works were produced.

Prerequisite: [FREB01H3 and FREB02H3] and [FREB50H3 or equivalent]

Exclusion: (FREC56H3)

Breadth Requirements: Arts, Literature and Language

FREC58H3 - Literature of the Ancien Régime

An introduction to major French writers from the 16th century (Rabelais, Montaigne), 17th century (Corneille, Molière, La Fontaine) or 18th century (Voltaire, Rousseau, Diderot). Students will learn skills required for textual analysis and will apply them to the cultural and intellectual context of literature from the Ancien Régime.

Prerequisite: FREB50H3

Exclusion: FRE319H and FRE320H

Breadth Requirements: Arts, Literature and Language

FREC63H3 - Topics in French Literature: Encountering Foreign Cultures: Travel Writing in French

An examination of the trends and attitudes embodied in travel writing from the early 20th century to now. The course considers aspects of exoticism, imperialism and ethnography as well as more contemporary cultural tourism, heritage and memory tourism, eco-tourism etc. Selections are drawn from commentators such as Gide, Camus, Kessel, Hubler and Belkaïd.

Prerequisite: [[FREB01H3 and FREB02H3] and [FREB50H3 or equivalent]]

Breadth Requirements: Arts, Literature and Language

FREC64H3 - French Fiction of the 20th and 21st Centuries

This course will examine French texts, such as comic writing, women's writing, postmodern and postcolonial works, autobiographical works, and fantasy.

Prerequisite: FREB50H3 or equivalent

Exclusion: (FREC61H3)

Breadth Requirements: Arts, Literature and Language

FREC70H3 - Cinema, Movements and Genres

This course is a study of major genres (such as the musical, comedy, drama, documentary) and movements (such as the French New Wave, le Cinéma du look, social cinema, Beur cinema, political cinema) of the French-speaking world. We will study motion pictures from France, Québec, Africa and other parts of the

Francophone world that have made a significant contribution to modern cinematography and culture.

Prerequisite: [FREB70H3](#), or permission of the instructor

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

FREC83H3 - Cultural Identities and Stereotypes in the French-Speaking World

The history and development of perceptions of "us" and "them" in France and the francophone world. The course examines language and culture, and the historic role of Eurocentrism and colonialism in the construction of cultural stereotypes. "Others" considered include the "noble savage", the "Oriental", the "country bumpkin" and the "foreigner". This course was formerly taught in English, but will now be taught in French.

Prerequisite: [[FREB01H3](#) and [FREB02H3](#)] or equivalent, and one of [FREB22H3](#), [FREB27H3](#) and [FREB28H3](#) or equivalent.

Breadth Requirements: History, Philosophy and Cultural Studies

FRED01H3 - Language practice VII: Written French

A continuation of [FREC01H3](#) and [FREC02H3](#). Through an action-oriented approach, students will continue to hone their language competencies by participating in task-based activities in real-world, contextual situations and by engaging with authentic materials. Students will also work on developing the necessary techniques for the production of various types of discourse.

By the end of [FRED01H3](#), students will be at the level B2 of the Common European Framework of Reference.

Prerequisite: [FREC02H3](#) or equivalent.

Exclusion: FSL431Y, FSL461Y, FSL442H or equivalent

Breadth Requirements: Arts, Literature and Language

FRED02H3 - Supervised Reading

These courses offer the student an opportunity to carry out independent study of an advanced and intensive kind, under the direction of a faculty member. Student and instructor work out in consultation the course's objectives, content, bibliography, and methods of approach. The material studied should bear a clear relation to the student's previous work, and should differ significantly in content and/or concentration from topics offered in regular courses. In applying to a faculty supervisor, students should be prepared to present a brief written statement of the topic they wish to explore. Final approval of the project rests with the French Discipline. Students are advised that they must obtain consent from the supervising instructor

before registering for these courses. Interested students should contact the Discipline Representative or Program Supervisor for guidance.

Prerequisite: 1.0 credit at the C-level in FRE courses

FRED03H3 - Supervised Reading

These courses offer the student an opportunity to carry out independent study of an advanced and intensive kind, under the direction of a faculty member. Student and instructor work out in consultation the course's objectives, content, bibliography, and methods of approach. The material studied should bear a clear relation to the student's previous work, and should differ significantly in content and/or concentration from topics offered in regular courses. In applying to a faculty supervisor, students should be prepared to present a brief written statement of the topic they wish to explore. Final approval of the project rests with the French Discipline. Students are advised that they must obtain consent from the supervising instructor before registering for these courses. Interested students should contact the Discipline Representative or Program Supervisor for guidance.

Prerequisite: 1.0 credit at the C-level in FRE courses

FRED04H3 - Supervised Reading

These courses offer the student an opportunity to carry out independent study of an advanced and intensive kind, under the direction of a faculty member. Student and instructor work out in consultation the course's objectives, content, bibliography, and methods of approach. The material studied should bear a clear relation to the student's previous work, and should differ significantly in content and/or concentration from topics offered in regular courses. In applying to a faculty supervisor, students should be prepared to present a brief written statement of the topic they wish to explore. Final approval of the project rests with the French Discipline. Students are advised that they must obtain consent from the supervising instructor before registering for these courses. Interested students should contact the Discipline Representative or Program Supervisor for guidance.

Prerequisite: 1.0 credit at the C-level in FRE courses

FRED05H3 - Supervised Reading

These courses offer the student an opportunity to carry out independent study of an advanced and intensive kind, under the direction of a faculty member. Student and instructor work out in consultation the course's objectives, content, bibliography, and methods of approach. The material studied should bear a clear relation to the student's previous work, and should differ significantly in content and/or concentration from topics offered in regular courses. In applying to a faculty supervisor, students should be prepared to present a brief written statement of the topic they wish to explore. Final approval of the project

rests with the French Discipline. Students are advised that they must obtain consent from the supervising instructor before registering for these courses. Interested students should contact the Discipline Representative or Program Supervisor for guidance.

Prerequisite: 1.0 credit at the C-level in FRE courses

FRED06H3 - Language Practice VIII: Oral French

This is an advanced language course designed for students who want to consolidate their oral/aural skills. In-class discussions, debates and oral presentations will enhance their fluency, expand their vocabulary and improve their pronunciation.

Prerequisite: FREC02H3 or equivalent.

Exclusion: FSL443H and FSL473H or equivalent

Breadth Requirements: Arts, Literature and Language

FRED07H3 - Supervised Reading

These courses offer the student an opportunity to carry out independent study of an advanced and intensive kind, under the direction of a faculty member. Student and instructor work out in consultation the course's objectives, content, bibliography, and methods of approach. The material studied should bear a clear relation to the student's previous work, and should differ significantly in content and/or concentration from topics offered in regular courses. In applying to a faculty supervisor, students should be prepared to present a brief written statement of the topic they wish to explore. Final approval of the project rests with the French Discipline. Students are advised that they must obtain consent from the supervising instructor before registering for these courses. Interested students should contact the Discipline Representative or Program Supervisor for guidance.

Prerequisite: 1.0 credit at the C-level in FRE courses

FRED13H3 - Advanced Topics in French Literature

Topics will vary from year to year. This seminar provides intensive study of a specific aspect of French literature from France. Emphasis may be placed on the importance of a particular movement or theme that will be explored in a variety of genres (novels, short stories, essays, autobiographies) and different authors. This course will require student participation and will involve a major paper.

Prerequisite: FREB50H3 and at least 0.5 credit at the C-level in FRE literature courses

Breadth Requirements: Arts, Literature and Language

FRED14H3 - Advanced Topics in the Literature of Quebec

The focus of this seminar will vary from year to year and may examine one specific advanced aspect of Québec's literature by studying a variety of genres (novels, short stories, essays, autobiographies). The course will include questions of identity, the Self, migration, etc. It may also explore literatures from culturally-diverse communities based in Québec.

Prerequisite: FREB50H3 and [0.5 credit in Quebec literature and 0.5 credit in French literature, one of which must be at the C-level]

Exclusion: (FRED12H3)

Breadth Requirements: Arts, Literature and Language

FRED28H3 - Special Topics in Translation

A continuation of FREB08H3 and FREC18H3 involving translation of real-world documents and practical exercises as well as a theoretical component. Students will use a variety of conceptual and practical tools to examine problems that arise from lexical, syntactic and stylistic differences and hone skills in accessing and evaluating both documentary resources and specific professional terminology. The course includes two field trips. Different translation fields (e.g. Translation for Government and Public Administration, or Translation for Medicine and Health Sciences) will be chosen from year to year.

Prerequisite: FREC18H3 or equivalent

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

FRED90Y3 - Supervised Reading

These courses offer the student an opportunity to carry out independent study of an advanced and intensive kind, under the direction of a faculty member. Student and instructor work out in consultation the course's objectives, content, bibliography, and methods of approach. The material studied should bear a clear relation to the student's previous work, and should differ significantly in content and/or concentration from topics offered in regular courses. In applying to a faculty supervisor, students should be prepared to present a brief written statement of the topic they wish to explore. Final approval of the project rests with the French Discipline. Students are advised that they must obtain consent from the supervising instructor before registering for these courses. Interested students should contact the Discipline Representative or Program Supervisor for guidance.

Prerequisite: One B-level course in the group FREB01H3-FREB84H3, except FREB17H3 and FREB18H3.

Geography

Faculty List

- H. Arik, B.A. (Bogazici University), M.A. (Central European University), Ph.D. (York), Assistant Professor
- G. Brauen, B.Sc (New Brunswick), M.C.S, Ph.D. (Carleton), Associate Professor, Teaching Stream
- M. Buckley, B.Sc., M.E.S. (York), Ph.D. (Oxford), Associate Professor
- M. F. Bunce, B.A. (Sheffield), Ph.D. (Sheffield), Associate Professor Emeritus
- S.C. Bunce, B.A. (Guelph), M.E.S. Pl. (York), Ph.D. (York), Associate Professor
- M. Ekers, B.Sc., (Lakehead), M.E.S. (York), Ph.D. (Oxford), Associate Professor
- S. Farber, B.A. (McGill), M.S.A (Ryerson), Ph.D. (McMaster), Associate Professor
- M. Hunter, B.A. (Sussex), M.A. (Univ. of Natal), Ph.D. (Univ. California Berkeley), Professor
- R. Goffe, B.Arch. (Temple University), Ph.D. (City University of New York), Assistant Professor
- C. Higgins, B.A. (Brock), M.A. (McMaster), Ph.D. (McMaster), Assistant Professor
- T. Kepe, B.Agric. (Fort Hare), M.Sc. (Guelph), Ph.D. (Western Cape), Professor
- N. Latulippe, B.A. (Nipissing), M.A. (Guelph), Ph.D. (Toronto), Assistant Professor
- K. MacDonald, B.A., M.A., Ph.D. (Waterloo), Associate Professor
- J. R. Miron, B.A. (Queen's), M.A. (Penn.), M.Sc. (pl.), Ph.D. (Toronto), Professor Emeritus
- S. Mollett, B.A., M.E.S. (York), Ph.D. (Toronto), Professor
- S. Montero, B.A. (Granada), M.A., Ph.D. (UC Berkeley), Associate Professor
- A. Mountz, B.A. (Dartmouth), M.A. (Hunter), Ph.D (University of British Columbia), Professor
- R. Narayanareddy, MEd. (Yale University), Ph.D. (University of Minnesota), Associate Professor
- N. Oswin, B.A. (Toronto), M.A. (Dalhousie), Ph.D. (University of British Columbia), Associate Professor
- E.C. Relph, B.A., M.Phil. (London), Ph.D. (Toronto), Professor Emeritus
- A. Sorensen, B.F.A. (Nova Scotia College of Art and Design), M.Sc., Ph.D. (London), Professor
- I. Szeman, B.A. (Queens), M.A. (Western), Ph.D. (Duke), Professor

Chair: T. Kepe

For curriculum inquiries please contact the [Geography Program Advisor](#).

For more information, [visit the Department of Human Geography website](#).

Geography is a broad-ranging subject. As a social science, it is concerned with the spatial patterns of human activity and the character of regions and places. It is a subject that is well placed to explore the complex relationships between society and the natural environment as well as the social and economic problems of human land use and settlement. It, therefore, complements other programs such as: City Studies, Environmental Science, Political Science, Sociology, Anthropology, Economics for Management Studies and International Development Studies. Geography courses are also listed as options in several UTSC programs including City Studies, Economics, Environmental Studies, Health Studies, International Development Studies, Public Policy and Women's and Gender Studies.

Combined Degree Programs, Honours Bachelor of Arts/ Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBA) Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provide students with a direct pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and Master's degree. These Combined Degree Programs allow students to complete 1.0 credit in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- Combined Degree Program: UTSC, Honours Bachelor of Arts, Specialist in Human Geography/ Master of Teaching
- Combined Degree Program: UTSC, Honours Bachelor of Arts, Major in Human Geography/ Master of Teaching

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Program Combination Restrictions

The Specialist, Major and Minor programs in Human Geography cannot be combined.

Human Geography Areas of Concentration:

Nature, Society and Environmental Change

Environments, whether at a planetary or everyday level, are changing in dramatic ways, and quickly, and demand critical thinking and problem solving. This area of concentration explores some of the most pressing issues related to the environment, nature and society and:

- Challenges students to think critically about what drives environmental change;
- Envisions how to foster more sustainable and ecologically abundant futures;
- Unpacks what is “nature”, what is “land” and how people relate to both;
- Investigates how matters of “race”, class, gender, sexuality, and more, shape experiences of environmental change and the pursuit of environmental justice.

In the broadest sense, this area of concentration explores how politics, the economy, history, culture and social difference give meaning to, shape, and are shaped by, interactions with the environment. Research and teaching in environmental geography seek to move beyond the roles of government and interest groups in shaping environmental policies, to expand our understanding of politics in environmental discourses and knowledge, economic systems, natural resource extraction and use, and everyday struggles within and between communities, government and businesses as they shape human-nature relationships.

Students in the Nature, Society and Environmental Change concentration will take courses that include:

- GGRA02H3: The Geography of Global Processes
- GGRA03H3: Cities and Environments
- GGRB21H3: Political Ecology: Nature, Society and Environmental Change
- GGRB18H3: Whose Land? Indigenous-Canada-Land Relations
- GGRC21H3: Current Topics in Environmental Geography
- GGRC24H3: Socio-Natures and the Cultural Politics of 'The Environment'
- GGRC25H3: Land Reform and Development
- GGRC26H3: Geographies of Environmental Governance
- GGRC28H3: Indigenous Peoples, Environment and Justice
- GGRC44H3: Environmental Conservation and Sustainable Development
- GGRD49H3: Land & Land Conflicts in the Americas
- GGRD08H3: Research Seminar in Environmental Geography

People, Place and Power

In a world of abundant resources, why do so many people and places lack what they need to survive and thrive? At present, our global community faces seemingly insurmountable crises. For example, mass incarceration, rising rates of homelessness, concentration of wealth, climate catastrophe, and resurgent fascism and authoritarianism. The benefits and costs of these crises are borne out unequally along the lines of race, class, gender, nationality, ability, sexuality, and other categories of social difference. For our bodies are microcosms of global and historical processes like colonialism and settler colonialism, heteropatriarchy, and racial capitalism.

Thinking spatially gives us tools we need to understand the roots of the multiple crises we face. It opens up analytical and political possibilities for understanding foundational violences and their enduring legacies across scales. In this concentration, students learn to denaturalize place-based hierarchies and modes of dispossession through engagement with anti-racist, Black, Indigenous, materialist, feminist, and queer and trans geographical scholarship. We explore together how our mutual survival involves being actively entangled with others and working collectively to refuse the inequitable status quo and create livable lives.

Students in the People, Place and Power concentration will take courses that include:

- [GGRA02H3](#): The Geography of Global Processes
- [GGRB02H3](#): The Logic of Geographical Thought
- [GGRB03H3](#): Writing Geography
- [GGRB13H3](#): Social Geography
- [GGRB18H3](#): Whose Land? Indigenous-Canada-Land Relations
- [GGRB28H3](#): Geographies of Disease
- [GGRB55H3](#): Cultural Geography
- [GGRC02H3](#): Population Geography
- [GGRC09H3](#): Current Topics in Social Geography
- [GGRC13H3](#): Urban Political Geography
- [GGRC24H3](#): Socio-Natures and the Cultural Politics of 'The Environment'
- [GGRC28H3](#): Indigenous Peoples, Environment and Justice
- [GGRC31H3](#): Qualitative Geographical Methods: Place and Ethnography
- [GGRC48H3](#): Geographies of Urban Poverty
- [GGRC50H3](#): Geographies of Education
- [GGRD09H3](#): Feminist Geographies
- [GGRD10H3](#): Health and Sexuality
- [GGRD15H3](#): Queer Geographies
- [GGRD49H3](#): Land and Land Conflicts in the Americas

Urban Sustainability

We live in an urban world. Today more than half of the world's population are urban dwellers. By 2050 it is projected that the world's urban population will be nearly 70 percent. Cities already account for 80 percent of the world's GDP, dominate economic, social, and cultural life and have consequential impacts on climate change and sustainability. Urban geography, a subfield of human geography, is well positioned to make sense of the urban transformations of the 21st century and envision sustainability through the challenge of building ecologically sustainable, economically equitable and socially just cities. Students in the Urban Sustainability area of concentration will:

- Explore the world of cities from a global perspective and learn new and exciting ways of thinking about the city and urban life,
- Gain expertise in the urban dimensions of many of today's most pressing questions relating to environmental sustainability, socioeconomic vulnerability, resilience and resistance,
- Examine topics including climate change and the city; housing systems and housing access, gender rights and urban life; global urbanization processes, fair and sustainable employment; urban transportation and mobility; possession and dispossession.

Students enrolled in the Urban Sustainability concentration will take courses that include:

- [GGRA03H3](#): Cities and Environments
- [GGRB05H3](#): Urban Geography
- [GGRC10H3](#): Urbanization and Development
- [GGRC11H3](#): Current Topics in Urban Geography
- [GGRC12H3](#): Transportation Geography
- [GGRC27H3](#): Location and Spatial Development
- [GGRC33H3](#): The Toronto Region
- [GGRC40H3](#): Megacities and Global Urbanization
- [GGRC48H3](#): Geographies of Urban Poverty
- [GGRD08H3](#): Local Geographies of the Urban Environment
- [GGRD09H3](#): Feminist Geographies
- [GGRD14H3](#): Social Justice and the City
- [GGRD16H3](#): Work and Livelihoods in the GTA
- [GGRD25H3](#): Research Seminar in Urban Spaces

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Geography Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBA and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
 - if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
 - if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
 - for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
 - for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:

- students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

SPECIALIST PROGRAM IN HUMAN GEOGRAPHY (ARTS) - SCSPE1666H

The Specialist in Human Geography expands upon, and enhances, the course requirements and learning outcomes of the Major in Human Geography. It is a more in-depth program that allows a deeper exploration of Human Geography, thus creating an opportunity for advanced students to engage in a richer, more intensive program, and allowing them to gain a sufficient depth of knowledge, and the enhanced methods and skills training they will need, for graduate studies or to compete in employment markets. The Specialist program will pair nicely with the Minor in GIS, or the Minor in City Studies.

Program Requirements

Students must complete 12.0 credits as follows:

1. Foundations of Human Geography (1.0 credit from among the following):

GGRA02H3 The Geography of Global Processes

GGRA03H3 Cities and Environments

GGRA35H3 The Great Scarborough Mashup: People, Place, Community, Experience

2. Theory and Concepts in Human Geography (2.5 credits):

GGRB02H3 The Logic of Geographical Thought

GGRB03H3 Writing Geography

and

1.5 credits from the following:

GGRB05H3 Urban Geography

GGRB13H3 Social Geography

GGRB18H3/EESB02H3 Whose Land Is It Anyway?, Indigenous Peoples, the Crown, and Land in Canada

GGRB21H3 Political Ecology: Nature, Society and Environmental Change

GGRB28H3 Geographies of Disease

GGRB55H3 Cultural Geography

3. Methods (2.0 credits):

GGRA30H3 Geographic Information Systems (GIS) and Empirical Reasoning

STAB23H3 Introduction to Statistics for the Social Sciences (or equivalent)

and

1.0 credit from the following:

GGRB30H3 Fundamentals of GIS I

GGRB32H3 Fundamentals of GIS II

GGRC31H3 Qualitative Geographical Methods: Place and Ethnography

4. Applications (5.5 credits):

5.5 additional credits at the C- and/or D-level in GGR courses

5. Advanced Applications (1.0 credit):

1.0 credit at the D-level in GGR courses

MAJOR PROGRAM IN HUMAN GEOGRAPHY (ARTS) - SCMAJ1666H

A Major Program for students interested in Human Geography as an academic discipline. This Program equips students with the knowledge and skills needed to understand contemporary social science thought in the context of the communities, societies, and economies formed by human populations, and the ways in which location, landscape, and spatial context shape (and are shaped by) social structures, functioning, and behaviour.

Guidelines for 1st year course selection Students intending to complete the Major Program in Human Geography are required to take two of [GGRA02H3](#), [GGRA03H3](#) or [GGRA35H3](#). Enrollment in [GGRA35H3](#) is limited and restricted to first year students. Students are also encouraged to take [GGRA30H3](#) in their first year as a methods course.

Guidelines for Major Program completion: Courses in the Major Program in Human Geography are divided into three main subdisciplinary areas of focus: Urban Geography, Social/Cultural Geography and Environmental Geography. Major students are encouraged to focus on two areas of focus after second year.

Program Requirements

The Major Program in Human Geography requires a total of 7.0 full credits as follows:

1. Foundations of Human Geography (1.0 credit from the following):

[GGRA02H3](#) The Geography of Global Processes

[GGRA03H3](#) Cities and Environments

[GGRA35H3](#) The Great Scarborough Mashup: People, Place, Community, Experience

2. Theory and Concepts in Human Geography (2.0 credits):

[GGRB02H3](#) The Logic of Geographical Thought

and

1.5 credits from the following:

[GGRB05H3](#) Urban Geography

[GGRB13H3](#) Social Geography

[GGRB18H3/ESTB02H3](#) Whose Land Is It Anyway?, Indigenous Peoples, the Crown, and Land in Canada

[GGRB21H3](#) Political Ecology: Nature, Society and Environmental Change

[GGRB28H3](#) Geographies of Disease

[GGRB55H3](#) Cultural Geography

3. Methods (1.0 credit from the following):

[GGRA30H3](#) Geographic Information Systems (GIS) and Empirical Reasoning

[GGRB03H3](#) Writing Geography

[GGRB30H3](#) Fundamentals of GIS I

[GGRB32H3](#) Fundamentals of GIS II

[GGRC31H3](#) Qualitative Geographical Methods: Place and Ethnography

[STAB23H3](#) Introduction to Statistics for the Social Sciences

4. Applications (2.5 credits):

2.5 credits at the C- and/or D-level in GGR courses

5. Advanced Applications (0.5 credit):

0.5 credit at the D-level in GGR courses

MAJOR PROGRAM IN PHYSICAL AND HUMAN GEOGRAPHY (ARTS) - SCMAJ1666P

This is an interdepartmental program leading to a B.A. degree in which students combine courses in human geography (GGR prefix) with courses in physical geography (EES prefix).

Guidelines for first year course selection

EES courses presume a background in physical sciences and mathematics. It is recommended that first year students take [EESA01H3](#), [EESA06H3](#), [GGRA02H3](#) and [GGRA03H3](#) and at least 1.0 credit from among [[BIOA01H3](#) and [BIOA02H3](#)], [[CHMA10H3](#) and [CHMA11H3](#)], [[PHYA10H3](#) or [PHYA11H3](#)], [[MATA30H3](#) and [MATA35H3/A36H3/A37H3](#)].

Program Requirements

The Major Program in Physical and Human Geography requires the completion of a total of 8.0 credits of which 4.0 credits are to be EES courses, and 4.0 credits are to be GGR or CIT courses. Among these 8.0 credits, the student must include:

1. 2.0 credits as follows:

[EESA01H3](#) Introduction to Environmental Science

[EESA06H3](#) Introduction to Planet Earth

GGRA02H3 The Geography of Global Processes
GGRA03H3 Cities and Environments

2. 1.5 credits from the following:

EESB02H3 Principles of Geomorphology
EESB03H3 Principles of Climatology
EESB04H3 Principles of Hydrology
EESB05H3 Principles of Soil Science
EESB15H3 Earth History

3. At least 1.5 credits from the following:

CITB01H3 Canadian Cities and Planning
GGRB02H3 The Logic of Geographical Thought
GGRB05H3 Urban Geography
GGRB13H3 Social Geography
GGRB18H3/ESTB02H3 Whose Land Is It Anyway?, Indigenous Peoples, the Crown, and Land in Canada
GGRB21H3 Political Ecology: Nature, Society and Environmental Change
GGRB28H3 Geographies of Disease
GGRB55H3 Cultural Geography

4. At least 1.0 credit at the C- or D-level from EES courses

5. At least 1.0 credit at the C- or D-level from GGR or CIT courses

6. At least one additional 0.5 credit from GGR or CIT courses

7. At least one additional 0.5 credit from EES courses

MINOR PROGRAM IN GEOGRAPHIC INFORMATION SCIENCE (GIS) (ARTS) - SCMIN1800

GIS is based on the integration of digital spatial data, mapping software, and spatial analysis tools. GIS has been a core method in Geographical research for almost two decades, but is also rapidly growing in importance outside Geography, in part because of the huge amounts of new spatial data being generated by ubiquitous sensors such as smartphones with GPS locators.

A growing number of research areas and careers require knowledge of GIS and cartographic presentation skills. This minor program provides training in the theory and practical application of Geographic Information Science and systems for spatial analysis, spatial data management, and cartographic representation, and is an excellent option for students pursuing Human Geography, City Studies, Critical Development Studies, Historical and Cultural Studies, Sociology, Political Science, Anthropology, Environmental Studies and Environmental Science.

Program Requirements

This program requires students to complete 4.0 credits as follows:

1. At least 0.5 credit from the following:

GGRA30H3 Geographic Information Systems (GIS) and Empirical Reasoning
EESC03H3 Geographic Information Systems and Remote Sensing

2. 2.5 credits as follows:

GGRB30H3 Fundamentals of GIS I
GGRB32H3 Fundamentals of GIS II
GGRC30H3 Advanced GIS
GGRC32H3 Essential Spatial Analysis
GGRD30H3 GIS Research Project

3. 1.0 credit from the following:

CSCA20H3 Introduction to Programming
EESC03H3 Geographic Information Systems and Remote Sensing (if not used to complete component 1 of the

requirements)

GGRC12H3 Transportation Geography

GGRC15H3 Spatial Databases and Applications

GGRC27H3 Location and Spatial Development

GGRC34H3 Crowd-sourced Urban Geographies

GGRC42H3 Making Sense of Data: Applied Multivariate Analysis

***Note:** CITC18H3, CITD01H3, GGRD01H3, GGRD08H3, GGRD25H3, and GGRD31H3 can be counted towards the Minor in Geographic Information Science (GIS) with permission. Permission must be received from the Departmental Chair or the Program Advisor and will be granted in cases where the student's major research project employs GIS research methods.

MINOR PROGRAM IN HUMAN GEOGRAPHY (ARTS) - SCMIN1666H

The minor program is designed to give students a general introduction to Human Geography. Students are encouraged to select their B-, C-, and D -evel courses from one of the three areas of focus: Environmental, Urban or Social/Cultural Geography.

Program Requirements

This program requires the completion of 4.0 credits in Geography including:

1. 1.0 credit as follows:

GGRA02H3 The Geography of Global Processes

GGRA03H3 Cities and Environments

2. 3.0 credits in GGR courses, of which at least 1.0 credit must be at the C- or D-level

Geography Courses

GGRA02H3 - The Geography of Global Processes

Globalization from the perspective of human geography. The course examines how the economic, social, political, and environmental changes that flow from the increasingly global scale of human activities affect spatial patterns and relationships, the character of regions and places, and the quality of life of those who live in them.

Exclusion: GGR107H, (GGR107Y), GGR117Y

Breadth Requirements: Social and Behavioural Sciences

GGRA03H3 - Cities and Environments

An introduction to the characteristics of modern cities and environmental issues, and their interconnections. Linkages between local and global processes are emphasized. Major topics include urban forms and systems, population change, the complexity of environmental issues such as climate change and water scarcity, planning for sustainable cities.

Exclusion: GGR107H, (GGR107Y), GGR117Y

Breadth Requirements: Social and Behavioural Sciences

GGRA30H3 - Geographic Information Systems (GIS) and Empirical Reasoning

Students learn fundamental concepts concerning the structure and effective uses of geographical data and practical skills that will help them to find and apply geographical data appropriately in their studies. Hands-on exercises using a variety of software allow students to gain experience in finding, processing, documenting, and visualizing geographic data. Lecture topics introduce students to the opportunities and challenges of using geographical data as empirical evidence across a range of social science topics.

Breadth Requirements: Quantitative Reasoning

GGRA35H3 - The Great Scarborough Mashup: People, Place, Community, Experience

Scarborough is a place of rapidly changing social geographies, and now contains one of the world's most extraordinary mixes of people. What do these changes mean, how can we understand and interpret them? This course introduces Human Geography as the study of

people, place, and community through field trips, interviews, and guest lectures.

Breadth Requirements: Social and Behavioural Sciences

Note: Restricted to first year undergraduate students.

GGRB02H3 - The Logic of Geographical Thought

Many of today's key debates - for instance, on globalization, the environment, and cities - draw heavily from geographical thinking and what some have called the "spatial turn" in the social sciences. This course introduces the most important methodological and theoretical aspects of contemporary geographical and spatial thought, and serves as a foundation for other upper level courses in Geography.

Prerequisite: Any 4 credits

Breadth Requirements: Social and Behavioural Sciences

GGRB03H3 - Writing Geography

This course aims to develop critical reading and writing skills of human geography students. Through a variety of analytical, reflexive, and descriptive writing assignments, students will practice how to draft, revise, and edit their writing on spatial concepts. Students will learn how to conduct research for literature reviews, organize materials, and produce scholarly papers. They will also learn to cultivate their writing voice by engaging in a range of writing styles and forms such as blog posts, critical commentaries, travelogues, field notes, and research briefs. The course emphasizes writing clearly, succinctly, and logically.

Prerequisite: Any 4.0 credits

Breadth Requirements: Arts, Literature and Language

Note: Priority will be given to students enrolled in the Major program in Human Geography. Additional students will be admitted as space permits.

GGRB05H3 - Urban Geography

This course will develop understanding of the geographic nature of urban systems and the internal spatial patterns and activities in cities. Emphasis is placed on the North American experience with some examples from other regions of the world. The course will explore the major issues and problems facing contemporary urban society and the ways they are analysed.

Area of Focus: Urban Geography

Prerequisite: Any 4 credits

Exclusion: GGR124H, (GGR124Y)

Breadth Requirements: Social and Behavioural Sciences

GGRB13H3 - Social Geography

The reciprocal relations between spatial structures and social identities. The course examines the role of social divisions such as class, 'race'/ethnicity, gender and sexuality in shaping the social geographies of cities and regions. Particular emphasis is placed on space as an arena for the construction of social relations and divisions. Area of Focus: Social/Cultural Geography

Prerequisite: Any 4 credits

Breadth Requirements: Social and Behavioural Sciences

GGRB18H3 - Whose Land? Indigenous-Canada-Land Relations

Introduces students to the geography of Indigenous-Crown-Land relations in Canada. Beginning with pre-European contact and the historic Nation-to-Nation relationship, the course will survey major research inquiries from the Royal Commission on Aboriginal Peoples to Missing and Murdered Indigenous Women and Girls. Students will learn how ongoing land and treaty violations impact Indigenous peoples, settler society, and the land in Canada.

Area of Focus: Environmental Geography
Same as [ESTB02H3](#)

Prerequisite: 4.0 credits, including at least 0.5 credit in ANT, CIT, EST, GGR, HLT, IDS, POL or SOC

Exclusion: [ESTB02H3](#)

Breadth Requirements: Social and Behavioural Sciences

GGRB21H3 - Political Ecology: Nature, Society and Environmental Change

This foundational course explores different conceptions of 'the environment' as they have changed through space and time. It also analyzes the emergence of different variants of environmentalism and their contemporary role in shaping environmental policy and practice.

Area of Focus: Environmental Geography

Exclusion: GGR222H, GGR223H, [GGRC22H3](#)

Breadth Requirements: Social and Behavioural Sciences

GGRB28H3 - Geographies of Disease

Examines the geographical distribution of disease and the spatial processes in which diseases are embedded. Themes include spatial theories of health and disease and uneven development and health. Special attention will be given to the geographical dimension of the HIV pandemic. Area of Focus: Social/Cultural Geography

Prerequisite: Any 4 credits

Breadth Requirements: Social and Behavioural Sciences

GGRB30H3 - Fundamentals of GIS I

This course provides a practical introduction to digital mapping and spatial analysis using a geographic information system (GIS). The course is designed to provide hands-on experience using GIS to analyse spatial data, and create maps that effectively communicate data meanings. Students are instructed in GIS methods and approaches that are relevant not only to Geography but also to many other disciplines. In the lectures, we discuss mapping and analysis concepts and how you can apply them using GIS software. In the practice exercises and assignments, you then learn how to do your own data analysis and mapping, gaining hands-on experience with ArcGIS software, the most widely used GIS software.

Exclusion: GGR272H, GGR278H

Recommended Preparation: GGRA30H3

Breadth Requirements: Quantitative Reasoning

GGRB32H3 - Fundamentals of GIS II

This course builds on GGRB30 Fundamentals of GIS, continuing the examination of theoretical and analytical components of GIS and spatial analysis, and their application through lab assignments. The course covers digitizing, topology, vector data models, remote sensing and raster data models and analysis, geoprocessing, map design and cartography, data acquisition, metadata, and data management, and web mapping.

Prerequisite: GGRB30H3

Exclusion: GGR273H1

Breadth Requirements: Quantitative Reasoning

GGRB55H3 - Cultural Geography

The course introduces core concepts in cultural geography such as race and ethnicity, identity and difference, public and private, landscape and environment, faith and community, language and tradition, and mobilities and social change. Emphasis will be on cross-disciplinary, critical engagement with current events, pop culture, and visual texts including comics, photos, and maps.

Area of Focus: Social/Cultural Geography

Prerequisite: Any 4.0 credits

Breadth Requirements: Social and Behavioural Sciences

GGRC01H3 - Supervised Readings in Human Geography

An independent supervised reading course open only to students in the Major Program in Human Geography. An independent literature review research project will be carried out under the supervision of an individual faculty member.

Prerequisite: 10 full credits including completion of the following requirements for the Major Program in Human Geography: 1) Introduction, 2) Theory and Concepts, 3) Methods; and a cumulative GPA of at least 2.5.

GGRC02H3 - Population Geography

An examination of the geographical dimension to human population through the social dynamics of fertility, mortality and migration. Themes include disease epidemics, international migration, reproductive technologies, and changing family structure. Area of focus: Social/Cultural Geography

Prerequisite: Any 8.0 credits

Exclusion: GGR323H, GGR208H

Recommended Preparation: CITA01H3/(CITB02H3) or GGRB02H3

Breadth Requirements: Social and Behavioural Sciences

GGRC09H3 - Current Topics in Social Geography

Examination and discussion of current trends and issues in social geography, with particular emphasis on recent developments in concepts and methods. This course is a unique opportunity to explore a particular topic in-depth, the specific content will vary from year to year. Area of focus: Social/Cultural Geography

Prerequisite: Any 8.0 credits

Breadth Requirements: Social and Behavioural Sciences

GGRC10H3 - Urbanization and Development

Examines global urbanization processes and the associated transformation of governance, social, economic, and environmental structures particularly in the global south. Themes include theories of development, migration, transnational flows, socio-spatial polarization, postcolonial geographies of urbanization. Area of focus: Urban Geography

Prerequisite: Any 8.0 credits

Recommended Preparation: CITA01H3/(CITB02H3) or GGRB05H3 or IDSA01H3

Breadth Requirements: Social and Behavioural Sciences

GGRC11H3 - Current Topics in Urban Geography

Examination and discussion of current trends and issues in urban geography, with particular emphasis on recent developments in concepts and methods. This course is an unique opportunity to explore a particular topic in-depth, the specific content will vary from year to year.

Area of focus: Urban Geography

Prerequisite: Any 8.0 credits

Recommended Preparation: CITA01H3/(CITB02H3) or GGRB05H3

Breadth Requirements: Social and Behavioural Sciences

GGRC12H3 - Transportation Geography

Transportation systems play a fundamental role in shaping social, economic and environmental outcomes in a region. This course explores geographical perspectives on the development and functioning of transportation systems, interactions between transportation and land use, and costs and benefits associated with transportation systems including: mobility, accessibility, congestion, pollution, and livability.

Area of focus: Urban Geography

Prerequisite: Any 8.0 credits including GGRA30H3 and [GGRB05H3 or CITA01H3/(CITB02H3)]

Exclusion: GGR370H, GGR424H

Recommended Preparation: GGRB30H3

Breadth Requirements: Social and Behavioural Sciences

GGRC13H3 - Urban Political Geography

Geographical approach to the politics of contemporary cities with emphasis on theories and structures of urban political processes and practices. Includes nature of local government, political powers of the property industry, big business and community organizations and how these shape the geography of cities.

Area of focus: Urban Geography

Prerequisite: Any 8.0 credits

Recommended Preparation: CITA01H3/(CITB02H3) or GGRB05H3 or PPGB66H3/(PPGC66H3)/(POLC66H3)

Breadth Requirements: Social and Behavioural Sciences

GGRC15H3 - Spatial Databases and Applications

Given the importance of the management of data within geographic information modelling, this course provides

students with the opportunity to develop skills for creating, administering and applying spatial databases. Overview of relational database management systems, focusing on spatial data, relationships and operations and practice creating and using spatial databases. Structured Query Language (SQL) and extensions to model spatial data and spatial relationships. Topics are introduced through a selection of spatial data applications to contextualize, explain, and practice applying spatial databases to achieve application objectives: creating data from scanned maps; proximity and spatial relations; vehicle routing; elementary web services for spatial data. Students will complete a term project applying spatial data to study or model a topic of their choosing.

Prerequisite: GGRB32H3

Breadth Requirements: Social and Behavioural Sciences

GGRC21H3 - Current Topics in Environmental Geography

Examination and discussion of current trends and issues in environmental geography, with particular emphasis on recent developments in concepts and methods. This course is an unique opportunity to explore a particular topic in-depth, the specific content will vary from year to year.

Area of focus: Environmental Geography

Prerequisite: Any 8.0 credits

Recommended Preparation: GGRB21H3

Breadth Requirements: Social and Behavioural Sciences

GGRC24H3 - Socio-Natures and the Cultural Politics of 'The Environment'

Explores the processes through which segments of societies come to understand their natural surroundings, the social relations that produce those understandings, popular representations of nature, and how 'the environment' serves as a consistent basis of social struggle and contestation.

Areas of focus: Environmental Geography; Social/Cultural Geography

Prerequisite: Any 8.0 credits

Recommended Preparation: GGRB21H3

Breadth Requirements: Social and Behavioural Sciences

GGRC25H3 - Land Reform and Development

Land reform, which entails the redistribution of private and public lands, is broadly associated with struggles for social justice. It embraces issues concerning how land is transferred (through forceful dispossession, law, or markets), and how it is currently held. Land inequalities

exist all over the world, but they are more pronounced in the developing world, especially in countries that were affected by colonialism. Land issues, including land reform, affect most development issues.
Area of focus: Environmental Geography

Prerequisite: Any 8.0 credits

Recommended Preparation: GGRB21H3 or AFSB01H3 or IDSB02H3 or ESTB01H3

Breadth Requirements: Social and Behavioural Sciences

GGRC26H3 - Geographies of Environmental Governance

This course addresses the translation of environmentalisms into formalized processes of environmental governance; and examines the development of environmental institutions at different scales, the integration of different forms of environmental governance, and the ways in which processes of governance relate to forms of environmental practice and management.

Area of focus: Environmental Geography

Prerequisite: Any 8.0 credits

Recommended Preparation: GGRB21H3 or ESTB01H3

Breadth Requirements: Social and Behavioural Sciences

GGRC27H3 - Location and Spatial Development

Location of a firm; market formation and areas; agricultural location; urban spatial equilibrium; trade and spatial equilibrium; locational competition; equilibrium for an industry; trade and location.

Area of focus: Urban Geography

Prerequisite: MGEA01H3 and [(GGRB02H3 and GGRB05H3) or (CITB01H3 and CITA01H3/(CITB02H3))] or [(MGEB01H3 or MGEB02H3) and (MGEB05H3 or MGEB06H3)]

Exclusion: (GGRB27H3) GGR220Y

Breadth Requirements: Social and Behavioural Sciences

GGRC28H3 - Indigenous Peoples, Environment and Justice

Engages Indigenous perspectives on the environment and environmental issues. Students will think with Indigenous concepts, practices, and theoretical frameworks to consider human-environment relations. Pressing challenges and opportunities with respect to Indigenous environmental knowledge, governance, law, and justice will be explored. With a focus primarily on Canada, the course will include case studies from the US, Australia, and Aotearoa New Zealand

Prerequisite: Any 8.0 credits

Recommended Preparation: GGRB18H3/ESTB02H3

Breadth Requirements: Social and Behavioural Sciences

GGRC30H3 - Advanced GIS

This course covers advanced theoretical and practical issues of using GIS systems for research and spatial analysis. Students will learn how to develop and manage GIS research projects, create and analyze three-dimensional surfaces, build geospatial models, visualize geospatial data, and perform advanced spatial analysis. Lectures introduce concepts and labs implement them.

Prerequisite: GGRB32H3

Exclusion: GGR373H

Breadth Requirements: Quantitative Reasoning

GGRC31H3 - Qualitative Geographical Methods: Place and Ethnography

Explores the practice of ethnography (i.e. participant observation) within and outside the discipline of geography, and situates this within current debates on methods and theory. Topics include: the history of ethnography, ethnography within geography, current debates within ethnography, the "field," and ethnography and "development."

Prerequisite: Any 8.0 credits

Breadth Requirements: History, Philosophy and Cultural Studies

GGRC32H3 - Essential Spatial Analysis

This course builds on introductory statistics and GIS courses by introducing students to the core concepts and methods of spatial analysis. With an emphasis on spatial thinking in an urban context, topics such as distance decay, distance metrics, spatial interaction, spatial distributions, and spatial autocorrelation will be used to quantify spatial patterns and identify spatial processes. These tools are the essential building blocks for the quantitative analysis of urban spatial data.

Area of focus: Urban Geography

Prerequisite: Any 8.0 credits including [STAB23H3 and GGRB30H3]

Exclusion: GGR276H

Breadth Requirements: Quantitative Reasoning

GGRC33H3 - The Toronto Region

This course examines issues of urban form and structure, urban growth and planning in the Toronto region. Current trends in population, housing, economy, environment, governance, transport, urban design and planning practices at the local level and the regional scale will be

examined critically.
Area of focus: Urban Geography

Prerequisite: Any 8.0 credits

Recommended Preparation: CITA01H3/(CITB02H3) or GGRB05H3

Breadth Requirements: Social and Behavioural Sciences

GGRC34H3 - Crowd-sourced Urban Geographies

Significant recent transformations of geographic knowledge are being generated by the ubiquitous use of smartphones and other distributed sensors, while web-based platforms such as Open Street Map and Public Participation GIS (PPGIS) have made crowd-sourcing of geographical data relatively easy. This course will introduce students to these new geographical spaces, approaches to creating them, and the implications for local democracy and issues of privacy they pose.

Area of focus: Urban Geography

Prerequisite: GGRB05H3 or GGRB30H3

Recommended Preparation: GGRB32H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

GGRC40H3 - Megacities and Global Urbanization

The last 50 years have seen dramatic growth in the global share of population living in megacities over 10 million population, with most growth in the global south. Such giant cities present distinctive infrastructure, health, water supply, and governance challenges, which are increasingly central to global urban policy and health.

Area of focus: Urban Geography

Prerequisite: Any 8.0 credits

Exclusion: (CITC40H3)

Recommended Preparation: CITA01H3/(CITB02H3) or GGRB05H3

Breadth Requirements: Social and Behavioural Sciences

GGRC41H3 - Current Topics in Human Geography

Examination and discussion of current trends and issues in human geography, with particular emphasis on recent developments in concepts and methods. This course is a unique opportunity to explore a particular topic in-depth, the specific content will vary from year to year.

Prerequisite: Any 8.0 credits

Recommended Preparation: GGRB20H3

Breadth Requirements: Social and Behavioural Sciences

GGRC42H3 - Making Sense of Data: Applied Multivariate Analysis

This course introduces students to the main methods of multivariate analysis in the social sciences, with an emphasis on applications incorporating spatial thinking and geographic data. Students will learn how to evaluate data quality, construct analysis datasets, and perform and interpret multivariate analyses using the R statistical programming language.

Prerequisite: STAB22H3 or equivalent

Exclusion: GGRC41H3 (if taken in the 2019 Fall session)

Breadth Requirements: Quantitative Reasoning

GGRC43H3 - Social Geographies of Street Food

This course uses street food to comparatively assess the production of 'the street', the legitimization of bodies and substances on the street, and contests over the boundaries of, and appropriate use of public and private space. It also considers questions of labour and the culinary infrastructure of contemporary cities around the world.

Area of Focus: Social/Cultural Geography

Same as FSTC43H3

Prerequisite: FSTA01H3 or GGRA02H3 or GGRA03H3

Exclusion: FSTC43H3, GGRC41H3 (if taken in the 2019 Winter and 2020 Winter sessions)

Breadth Requirements: History, Philosophy and Cultural Studies

GGRC44H3 - Environmental Conservation and Sustainable Development

Deals with two main topics: the origins of environmental problems in the global spread of industrial capitalism, and environmental conservation and policies. Themes include: changes in human-environment relations, trends in environmental problems, the rise of environmental awareness and activism, environmental policy, problems of sustainable development.

Area of focus: Environmental Geography

Prerequisite: Any 8.0 credits

Exclusion: GGR233Y, (GGRB20H3)

Recommended Preparation: GGRB21H3 or IDSB02H3 or ESTB01H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

GGRC48H3 - Geographies of Urban Poverty

How have social and economic conditions deteriorated for many urban citizens? Is the geographic gap widening between the rich and the poor? This course will explore the following themes: racialization of poverty, employment and poverty, poverty and gender socio-spatial polarization, and housing and homelessness.

Area of focus: Urban Geography

Prerequisite: Any 8.0 credits

Recommended Preparation: CITA01H3/(CITB02H3) or GGRB05H3 or IDSA01H3

Breadth Requirements: Social and Behavioural Sciences

GGRC50H3 - Geographies of Education

Explores the social geography of education, especially in cities. Topics include geographical educational inequalities; education, class and race; education, the family, and intergenerational class immobility; the movement of children to attend schools; education and the 'right to the city.'

Areas of focus: Urban or Social/Cultural Geography

Prerequisite: Any 8.0 credits

Recommended Preparation: GGRB05H3 or GGRB13H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

GGRC54H3 - Human Geography Field Trip

Provides an opportunity to engage in a field trip and field research work on a common research topic. The focus will be on: preparation of case study questions; methods of data collection including interviews, archives, and observation; snowballing contacts; and critical case-study analysis in a final report.

Prerequisite: GGRB02H3 and 1.0 additional credit at the B-level in GGR

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

GGRD01H3 - Supervised Research Project

An independent studies course open only to students in the Major Program in Human Geography. An independent studies project will be carried out under the supervision of an individual faculty member.

Prerequisite: 13.0 credits including GGRB02H3

GGRD08H3 - Research Seminar in Environmental Geography

Designed for final-year Human Geography Majors, this seminar is devoted to analysis and discussion of advanced theoretical and methodological issues in Environmental Geography. Specific content will vary from year to year. Seminar format with active student participation.

Area of focus: Environmental Geography

Prerequisite: 13.0 credits including GGRB21H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

GGRD09H3 - Feminist Geographies

How do gender relations shape different spaces? We will explore how feminist geographers have approached these questions from a variety of scales - from the home, to the body, to the classroom, to the city, to the nation, drawing on the work of feminist geographers.

Area of focus: Social/Cultural Geography

Prerequisite: 13.0 credits

Breadth Requirements: Social and Behavioural Sciences

GGRD10H3 - Health and Sexuality

Examines links between health and human sexuality. Particularly explores sexually transmitted infections. Attention will be given to the socially and therefore spatially constructed nature of sexuality. Other themes include sexual violence, masculinities and health, reproductive health, and transnational relationships and health. Examples will be taken from a variety of countries.

Area of focus: Social/Cultural Geography

Prerequisite: 13.0 credits including [GGRB13H3 or IDSB04H3 or WSTB05H3]

Breadth Requirements: Social and Behavioural Sciences

GGRD11H3 - Advanced Geographical Theory and Methods

Designed for final-year Human Geography Majors, this reading-intensive seminar course develops analytical and methodological skills in socio-spatial analysis. We explore major theoretical/methodological traditions in geography including positivism, humanism, Marxism, and feminism, and major analytical categories such as place, scale, and networks. Particularly recommended for students intending to apply to graduate school.

Prerequisite: 13.0 credits including [GGRB02H3](#)
Breadth Requirements: Social and Behavioural Sciences

GGRD12H3 - Seminar in Selected Topics in Human Geography

Designed for final-year Human Geography Majors, this seminar is devoted to analysis and discussion of current theoretical and methodological issues in human geography. This course is an unique opportunity to explore a particular topic in-depth, the specific content will vary from year to year. Seminar format with active student participation.

Prerequisite: 13.0 credits including [GGRB02H3](#)

GGRD13H3 - Space, Place, People: Practice of Ethnographic Inquiry

This course focuses on the practice of ethnography in geographic research and allows students to design and conduct their own ethnographic research projects. Utilizing various approaches in geographic scholarship, in the first part of the course students will learn about ethnographic research methods and methodologies and finalize their research proposals. In the second part, they will carry out their research under the supervision of the course director and with support from their peers. Course assignments will assist each student throughout their research design, ethics approval, ethnography, and writing a final paper. Course meetings will be conducted in a seminar format.

Prerequisite: Any 13.0 credits, including [GGRC31H3](#)
Breadth Requirements: Social and Behavioural Sciences
Course Experience: University-Based Experience

GGRD14H3 - Social Justice and the City

Examines links between politics of difference, social justice and cities. Covers theories of social justice and difference with a particular emphasis placed on understanding how contemporary capitalism exacerbates urban inequalities and how urban struggles such as Occupy Wall Street seek to address discontents of urban dispossession. Examples of urban social struggles will be drawn from global North and South.
 Areas of focus: Urban or Social/Cultural Geography

Prerequisite: 13.0 credits including [\[GGRB05H3 or GGRB13H3 or CITA01H3/\(CITB02H3\) or IDSB06H3\]](#)
Breadth Requirements: Social and Behavioural Sciences

GGRD15H3 - Queer Geographies

How do sex and gender norms take and shape place? To examine this question, we will explore selected queer and trans scholarship, with a particular emphasis on queer scholars of colour and queer postcolonial literatures. Course topics include LGBTQ2S lives and movements, cities and sexualities, cross-border migration flows, reproductive justice, and policing and incarceration.

Prerequisite: Any 8.0 credits
Recommended Preparation: [GGRB13H3](#) or [WSTB25H3](#)
Breadth Requirements: Social and Behavioural Sciences

GGRD16H3 - Work and Livelihoods in the GTA

As major engines of the global economy, cities are also concentrated sites of work and employment. Popular and political understandings about what constitutes "fair" and "decent" work, meanwhile, are currently facing profound challenges. From the rise of platformed gig work to the rising cost of living in many cities – this course introduces students to approaches within Geography that help to conceptualize what "work" is, and to major forces shaping the laboured landscapes of cities, with a focus on the Greater Toronto Area. In this course students will get the opportunity to explore the varied forms of production and reproduction that make the GTA function and thrive, and to develop a vocabulary and critical lens to identify the geographies of different kinds of work and employment relations. Students will also have the chance to develop labour market research skills, and to critically examine the forms of work they themselves undertake every day.

Prerequisite: 13.0 credits including [\[GGRB05H3 or CITA01H3/\(CITB02H3\)\]](#)
Exclusion: [SOCB54H3](#) and [GGRD25H3](#) (if taken in Winter 2022)
Breadth Requirements: Social and Behavioural Sciences

GGRD25H3 - Research Seminar in Urban Spaces

Designed for final-year Human Geography Majors, this seminar is devoted to analysis and discussion of current theoretical and methodological issues in urban geography. Specific content will vary from year to year. Seminar format with active student participation.
 Area of focus: Urban Geography

Prerequisite: 13.0 credits including [\[GGRB05H3 or CITA01H3/\(CITB02H3\)\]](#)
Breadth Requirements: Social and Behavioural Sciences
Note: Priority will be given to Geography Majors with the highest CGPA.

GGRD30H3 - GIS Research Project

Students will design, manage and complete a research project using GIS. Students will work in teams of 4-6 to pose a research question, acquire a dataset, and organize and analyze the data to answer their question. The course will teach research design, project management, data analysis, team work, and presentation of final results.

Prerequisite: GGRC30H3

Exclusion: GGR462H

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

GGRD31H3 - Independent Research Project

Independent research extension to one of the courses already completed in Human Geography. Enrolment requires written permission from a faculty supervisor and Associate Chair, Human Geography. Only open to students who have completed 13.0 credits and who are enrolled in the Human Geography Major, Human and Physical Geography Major programs, or Minor Program in GIS sponsored by the Department of Human Geography.

Prerequisite: Any 13.0 credits

Breadth Requirements: Social and Behavioural

Sciences

Course Experience: University-Based Experience

GGRD49H3 - Land and Land Conflicts in the Americas

This course explores various ways of making claims to possess or use land by first unsettling commonsense ideas about ownership and then tracing these through examples of classed, gendered and racialized property regimes. Through this exploration, the course shows that claims to land are historically and geographically specific, and structured by colonialism, and capitalism. Informed by a feminist interpretation of "conflict," we look at microprocesses that scale up to largescale transformations in how land is lived. We end by engaging with Black and Indigenous epistemologies regarding how land might be differently cared for and occupied. Areas of focus: Environmental or Social/Cultural Geography

Prerequisite: 13.0 credits including at least 0.5 credit at the B-level from (AFS, ANT, CIT, GGR, HLT, IDS, POL, PPG, or SOC)

Exclusion: (GGRC49H3)

Recommended Preparation: GGRB13H3 or GGRB21H3 or IDSA01H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

Global Asia Studies

Faculty List

- R. Bai, M.A. (Beijing Foreign Studies), Ph.D. (Illinois), Associate Professor
- L. Chen, M.A. (SUNY Buffalo), J.D.(Illinois), M.A., M.Phil., Ph.D. (Columbia), Associate Professor
- S. deSouza, Ph.D. (Toronto), Assistant Professor, Teaching Stream
- E. Elhalaby, Ph.D. (Rice), Assistant Professor
- Y. Gu, M.A. (Fudan), Ph.D. (Brown), Assistant Professor
- S. Maunaguru, M.A. (Johns Hopkins), Ph.D. (Johns Hopkins), Associate Professor
- B. Raman, M.A., Ph.D. (Michigan), Associate Professor
- S. Ye, M.A. (Cincinnati), Ph.D. (Minnesota), Assistant Professor

Undergraduate Advisor Email: gas-undergrad-advisor@utsc.utoronto.ca

For more information, [visit the Department of Historical and Cultural Studies website](#).

Global Asia Studies (GAS) has interdisciplinary undergraduate programs that enable students to intensively study Asia as part of a dynamic global and diasporic context in the past and present. Students learn cutting-edge Humanities methods and theories from a range of different disciplines. GAS programs link the academic study of Asia to Toronto's vibrant Asian communities through exciting co- and extra-curricular programming that nurtures socially responsible and educationally rigorous experiential learning. It incorporates various thematic interests such as the study of gender, diasporas and migration, religion, development, nationalism in contexts as different as mainland China and Tamil worlds.

The Specialist Program in Global Asia Studies and Major Program in Global Asia Studies are designed for those students who wish to acquire more in-depth knowledge of Asia that spans a number of disciplines, and may help better prepare them for a variety of careers.

The curriculum combines a variety of approaches. The first-year A-level courses [GASA01H3/HISA06H3](#) and [GASA02H3](#) provide a general introduction to Asia in a global context through historical and cultural perspectives respectively.

GAS students then move onto courses at the B-level which provide a comprehensive foundation of knowledge in particular areas and fields relevant to the study of Asia. For example, see courses such as [GASB57H3/HISB57H3](#).

In C-level courses, students investigate specific areas and problems pertaining to East and South Asia in greater depth. These courses are conducted in a lecture and tutorial discussion format. For example, see courses such as [GASC20H3](#).

All D-level courses are conducted as small-group seminars where students conduct research and analysis of particular questions or topics, actively participate in class discussions and present their findings in class and in their research essays. For example, see courses such as [GASD01H3](#).

Language study for the Global Asia Studies program is particularly important for those students who wish to move onto advanced studies of East or South Asia at the university level, and to acquire a specialized knowledge base for a range of professional and academic opportunities. Languages offered at the university that count towards the Global Asia Studies degree includes Hindi, Mandarin Chinese, and Japanese. Students should get the Program Director's written approval before taking any language courses offered outside the University of Toronto Scarborough. The language study requirement is waived in specific cases.

Guidelines for First-year Course Selection

Students who intend to complete a Global Asia Studies program should include [GASA01H3/HISA06H3](#) or [GASA02H3](#) in their first-year course selection.

For updates and detailed information regarding Global Asia Studies please visit the [Department of Historical and Cultural Studies website](#).

Program Combination Restrictions

The Specialist, Major and Minor programs in Global Asia Studies cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course CTLB03H3, which can be found in the Teaching and Learning section of the Calendar.

Global Asia Studies Programs

SPECIALIST PROGRAM IN GLOBAL ASIA STUDIES (ARTS) - SCSPEGAS

Undergraduate Coordinator: (416) 287-7184 Email: hcs.advising.utsc@utoronto.ca

Program Requirements

Students must complete 12.0 credits, of which at least 4.0 credits must be at the C- or D-level, including at least 1.0 credit at the D-level:

1. 0.5 credit as follows:

GASA01H3/ HISA06H3 Introducing Global Asia and its Histories

or

GASA02H3 Introduction to Global Asia Studies

2. 9.5 credits at the B- or C-level in GAS courses, of which 3.0 credits should be at the C-level (students should check course descriptions for prerequisites)

3. At least 1.0 credit at the D-level in GAS courses (students should check the course description for prerequisites)

4. 1.0 credit from Asian language courses taught at the University

MAJOR PROGRAM IN GLOBAL ASIA STUDIES (ARTS) - SCMAJGAS

Undergraduate Coordinator: (416) 287-7184 Email: hcs.advising.utsc@utoronto.ca

Program Requirements

Students must complete 7.0 credits.

1. 0.5 credit as follows:

GASA01H3/HISA06H3 Introducing Global Asia and its Histories

or

GASA02H3 Introduction to Global Asia Studies

2. 5.5 credits in GAS courses, of which at least 1.5 credits must be at the C-level and 1.0 credit at the D-level (students should check course description for prerequisites)

3. 1.0 credit from Asian language courses taught at the university

MINOR PROGRAM IN GLOBAL ASIA STUDIES (ARTS) - SCMINGAS

Undergraduate Coordinator: (416) 287-7184 Email: hcs.advising.utsc@utoronto.ca

Program Requirements

Students must complete 4.0 credits.

1. 0.5 credit as follows:

GASA01H3/ HISA06H3 Introducing Global Asia and its Histories

or

GASA02H3 Introduction to Global Asia Studies

2. For the remaining 3.5 credits, students have two options:

Complete 3.5 credits in GAS courses, of which at least 1.5 credits must be at the C- or D-level

or

Complete 2.5 credits in GAS courses, of which at least 1.0 credit must be at the C- or D-level, plus 1.0 credit from Asian language courses.

Global Asia Studies Courses

GASA01H3 - Introducing Global Asia and its Histories

This course introduces Global Asia Studies through studying historical and political perspectives on Asia. Students will learn how to critically analyze major historical texts and events to better understand important cultural, political, and social phenomena involving Asia and the world. They will engage in intensive reading and writing for humanities.
Same as HISA06H3

Exclusion: HISA06H3

Breadth Requirements: History, Philosophy and Cultural Studies

GASA02H3 - Introduction to Global Asia Studies

This course introduces Global Asia Studies through the study of cultural and social institutions in Asia. Students will critically study important elements of culture and society over different periods of history and in different parts of Asia. They will engage in intensive reading and writing for humanities.

Breadth Requirements: Arts, Literature and Language

GASB05H3 - Media and Globalization

This course examines the role of technological and cultural networks in mediating and facilitating the social,

economic and political processes of globalization. Key themes include imperialism, militarization, global political economy, activism, and emerging media technologies. Particular attention is paid to cultures of media production and reception outside of North America.
Same as MDSB32H3/(MDSB05H3)

Prerequisite: 4.0 credits and [MDSA11H3 or (MDSA01H3)]

Exclusion: MDSB32H3/(MDSB05H3)

Breadth Requirements: History, Philosophy and Cultural Studies

GASB12H3 - South Asian Kinship: Mapping, Love, Marriage, Sexuality in Global South Asia

What are marriage and love in South Asia? What do we understand about South Asian societies by studying about marriage, love, and sexuality? In South Asia, marriage is classically understood as an alliance between families or social groups for economic and political reasons, and as an instrument for maintaining a particular normative social order and perpetuating certain hierarchies. Marriage is seen as an institution which legitimizes sex and engineers social/biological reproduction. It is also placed within the private domain of society. However, recent studies on marriage show how, in this era of globalization, mobility, the notions of love, marriage and sexuality intersect with larger political, social, legal and global structures, on the one hand, and notions of gender, class, caste, morality, and modernity on the other. In these ever-changing global South Asian societies, 'alternative' and 'non-normative' conjugal relationships, love, and sexuality have been seen as part of the globalization and modernizing process. Through this course, we will critically analyse such claims and examine how love, marriage sexuality and kinships are constructed, shaped, governed and constituted

politically, culturally, legally, and ideologically. How do the larger structures such as state, legal institutions, colonialism and globalisation, migration processes, class and caste configurations, gender formations, and new communication/visual technologies shape the everyday life of people by entering their private domains through the notions of love, and marriage? Moreover, by studying marriage, kinship and love in South Asia, we critically examine and unpack the dualistic ideas of private vs public, individual vs community, global vs local, modern vs traditional, change vs stagnation, and 'non-normative' vs 'non-normative' in South Asian societies.

Prerequisite: 1.0 credit at the A-level in any Humanities or Social Science courses

Breadth Requirements: Social and Behavioural Sciences

GASB15H3 - The Arts of South Asia

The course will provide students with an introduction to the arts of South Asia, from classical to modern, and from local to global. Fields of study may include music, dance, drama, literature, film, graphic arts, decorative arts, magic, yoga, athletics, and cuisine, fields viewed as important arts for this society.

Breadth Requirements: Arts, Literature and Language

GASB20H3 - Gender and Social Institutions in Asia

This course examines the role of gender in shaping social institutions in Asia.

Breadth Requirements: History, Philosophy and Cultural Studies

GASB30H3 - Asian Religions and Culture

This course examines the close relationship between religions and cultures, and the role they play in shaping the worldviews, aesthetics, ethical norms, and other social ideals in Asian countries and societies.

Breadth Requirements: History, Philosophy and Cultural Studies

GASB33H3 - Global Buddhism in Historical and Contemporary Societies

This course examines the global spread of different versions of Buddhism across historical and contemporary societies.

Breadth Requirements: History, Philosophy and Cultural Studies

GASB42H3 - Culture and Society in Contemporary South Asia

This course surveys central issues in the ethnographic study of contemporary South Asia (Afghanistan, Bangladesh, Bhutan, India, the Maldives, Nepal, Pakistan and Sri Lanka). Students will engage with classical and recent ethnographies to critically examine key thematic fault lines within national imaginations, especially along the lines of religion, caste, gender, ethnicity, and language. Not only does the course demonstrate how these fault lines continually shape the nature of nationalism, state institutions, development, social movements, violence, and militarism across the colonial and post-colonial periods but also, demonstrates how anthropological knowledge and ethnography provide us with a critical lens for exploring the most pressing issues facing South Asia in the world today.

Same as [ANTB42H3](#)

Prerequisite: [[ANTB19H3](#) and [ANTB20H3](#), or permission of the instructor] or [Any 4.0 credits, including 0.5 credit at the A- or B-level in GAS or Africa and Asia Area HIS courses]

Exclusion: ANTB42H3, (ANTC12H3)/(GASC12H3)

Breadth Requirements: Social and Behavioural Sciences

GASB53H3 - Mughals and the World, 1500-1858 AD

Why does Southern Asia's pre-colonial history matter? Using materials that illustrate the connected worlds of Central Asia, South Asia and the Indian Ocean rim, we will query conventional histories of Asia in the time of European expansion.

Same as [HISB53H3](#)

Exclusion: [HISB53H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

GASB57H3 - Sub-Continental Histories: South Asia in the World

A survey of South Asian history. The course explores diverse and exciting elements of this long history, such as politics, religion, trade, literature, and the arts, keeping in mind South Asia's global and diasporic connections.

Same as [HISB57H3](#)

Exclusion: HIS282Y, HIS282H, [HISB57H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

GASB58H3 - Modern Chinese History

This course provides an overview of the historical changes and continuities of the major cultural, economic, political, and social institutions and practices in modern Chinese history.

Same as [HISB58H3](#)

Prerequisite: Any 2.0 credits

Exclusion: HIS280Y, [HISB58H3](#)

Recommended Preparation: 0.5 credit at the A-level in HIS or GAS courses

Breadth Requirements: History, Philosophy and Cultural Studies

GASB73H3 - Visualizing Asia

A survey of the art of China, Japan, Korea, India, and Southeast Asia. We will examine a wide range of artistic production, including ritual objects, painting, calligraphy, architectural monuments, textile, and prints. Special attention will be given to social contexts, belief systems, and interregional exchanges.

Same as [VPHB73H3](#)

Prerequisite: [VPHA46H3](#) or [GASA01H3](#)

Exclusion: [VPHB73H3](#), FAH261H

Breadth Requirements: Arts, Literature and Language

GASB77H3 - Modern Asian Art

An introduction to modern Asian art through domestic, regional, and international exhibitions. Students will study the multilayered new developments of art and art institutions in China, Japan, Korea, India, Thailand, and Vietnam, as well as explore key issues such as colonial modernity, translingual practices, and multiple modernism.

Same as [VPHB77H3](#)

Exclusion: [VPHB77H3](#)

Recommended Preparation: [VPHA46H3](#) or [GASA01H3](#)

Breadth Requirements: Arts, Literature and Language

GASC13H3 - Where is home? The Past, Present and Future of Tamil Diasporic Belonging

Using the experience of the Tamil diaspora as a case study, this course examines how ideas of home, identity, gender, politics, belonging, kinship and citizenship are transformed by migration and globalization. Tamil mobility has a long history. It has been shaped by colonial and post-colonial forces, war, labor and global business markets. What are the lived experiences of transnational/refugee families of Tamil communities? How is Tamil romance, marriage and intimacy actualized across national borders? How has mobility shaped Tamil politics, ideas of belonging and home? Through these questions about lived experience and drawing on

ethnography fiction, and film, the course will explore debates about race, migration and diaspora, exile and nationalism, gender and immigration regimes. Prior knowledge of Tamil is not required.

Prerequisite: Any 8.0 credits, including [0.5 at the A- or B-level in CLA, GAS, HIS or WST courses] and [0.5 credit at the C-level courses in any Social Science or Humanities]

Breadth Requirements: Social and Behavioural Sciences

GASC20H3 - Gendering Global Asia

This course offers students a critical and analytical perspective on issues of gender history, equity, discrimination, resistance, and struggle facing societies in East and South Asia and their diasporas.

Prerequisite: Any 4.0 credits, including 1.0 credit at the B-level in Humanities and Social Science courses.

Recommended Preparation: [GASA01H3](#) or [GASA02H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

GASC33H3 - Critical Perspectives in Global Buddhism

This course critically examines different aspects of Buddhism in global context.

Prerequisite: Any 4.0 credits

Breadth Requirements: History, Philosophy and Cultural Studies

GASC40H3 - Chinese Media and Politics

This course examines the complex and dynamic interplay of media and politics in contemporary China, and the role of the government in this process.

Same as [MDSC32H3](#)/(MDSC40H3)

Prerequisite: 4.0 credits

Exclusion: [MDSC32H3](#)/(MDSC40H3)

Breadth Requirements: History, Philosophy and Cultural Studies

GASC41H3 - Media and Popular Culture in East Asia

This course introduces students to media industries and commercial popular cultural forms in East Asia. Topics include reality TV, TV dramas, anime, and manga as well as issues such as regional cultural flows, global impact of Asian popular culture, and the localization of global media in East Asia.

Same as [MDSC14H3](#)/(MDSC41H3)

Prerequisite: 4.0 credits

Exclusion: MDSC14H3/(MDSC41H3)

Breadth Requirements: History, Philosophy and Cultural Studies

GASC42H3 - Film and Popular Culture in South Asia

This course offers students a critical perspective on film and popular cultures in South Asia. Topics include Bombay, Tamil, and other regional filmic industries, their history, production, and distribution strategies, their themes and musical genres, and a critical look at the larger social and political meanings of these filmic cultures.

Prerequisite: Any 4.0 credits

Breadth Requirements: Arts, Literature and Language

GASC43H3 - Colonialisms and Cultures in Modern East Asia

This course explores the development of colonialism, modernity, and nationalism in modern Japan, Korea, China, and Taiwan. Key issues include sexuality, race, medicine, mass media, and consumption.

Prerequisite: Any one of [GASB20H3 or GASB58H3/HISB58H3 or GASC20H3]

Breadth Requirements: History, Philosophy and Cultural Studies

GASC45H3 - Film and Popular Cultures in East Asia

This course offers students a critical perspective on film and popular cultures in East Asia. The course examines East Asian filmic industries, and the role they play in shaping worldviews, aesthetics, ethical norms, folk beliefs, and other socio-cultural aspects in China, Hong Kong, Taiwan, Korea, and Japan.

Prerequisite: Any 4.0 credits

Breadth Requirements: Arts, Literature and Language

GASC48H3 - Partition in South Asia

This course examines the history of South Asia's partition in 1947, in the process of decolonization, into the independent nation-states of India and Pakistan. Major course themes include nationalism, violence, and memory. Students will read historical scholarship on this topic and also engage with literature, film, oral histories, and photography. Partitioning lands and peoples is an old colonial technology of rule. Why did it become such a compelling solution to the problems of group conflict in the Indian subcontinent and beyond in the twentieth century even after 1947? How did the emergence of different ideas of nationalism – Indian, Pakistani, Hindu, Islamic,

and beyond – contribute to this? Why was the Partition of India so violent? What happened to the people who were displaced at the time of Partition? How has the Partition been remembered and narrated and how does it continue to echo through national and regional politics? Beyond the subcontinent's partition into India and Pakistan, the course will introduce comparative case studies of Burma and Sri Lanka, among others.

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS or GAS courses

Recommended Preparation: HISB02H3 or HISB57H3/GASB57H3

Breadth Requirements: History, Philosophy and Cultural Studies

GASC50H3 - Comparative Studies of East Asian Legal Cultures

An introduction to the distinctive East Asian legal tradition shared by China, Japan, and Korea through readings about selected thematic issues. Students will learn to appreciate critically the cultural, political, social, and economic causes and effects of East Asian legal cultures and practices.

Same as HISC56H3

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in GAS or HIS courses

Exclusion: HISC56H3

Recommended Preparation: GASB58H3/HISB58H3

Breadth Requirements: History, Philosophy and Cultural Studies

GASC51H3 - From Opium to Maximum City: Narrating Political Economy in China and India

This course addresses literary, historical, ethnographic, and filmic representations of the political economy of China and the Indian subcontinent from the early 19th century to the present day. We will look at such topics as the role and imagination of the colonial-era opium trade that bound together India, China and Britain in the 19th century, anticolonial conceptions of the Indian and Chinese economies, representations of national physical health, as well as critiques of mass-consumption and capitalism in the era of the 'liberalization' and India and China's rise as major world economies. Students will acquire a grounding in these subjects from a range of interdisciplinary perspectives.

Same as HISC51H3

Prerequisite: Any 4.0 credits, including 0.5 credit at the A-level and 0.5 credit at the B-level in HIS, GAS or other Humanities and Social Sciences courses

Exclusion: HISC51H3

Recommended Preparation: GASA01H3/HISA06H3 or GASA02H3

Breadth Requirements: History, Philosophy and Cultural Studies

GASC53H3 - The Silk Routes

The Silk Routes were a lacing of highways connecting Central, South and East Asia and Europe. Utilizing the Royal Ontario Museum's collections, classes held at the Museum and U of T Scarborough will focus on the art produced along the Silk Routes in 7th to 9th century Afghanistan, India, China and the Taklamakhan regions. Same as [VPHC53H3](#)

Prerequisite: One full credit in art history or in Asian or medieval European history.

Exclusion: [VPHC53H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

GASC57H3 - China and the World

A study of the history of China's relationship with the rest of the world in the modern era. The readings focus on China's role in the global economy, politics, religious movements, transnational diasporas, scientific/technological exchanges, and cultural encounters and conflicts in the ages of empire and globalization.

Same as [HISC57H3](#)

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in GAS or HIS courses

Exclusion: [HISC57H3](#)

Recommended Preparation: [GASB58H3/HISB58H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

GASC59H3 - The Making of Tamil Worlds

This course explores the transnational history of Tamil worlds. In addition to exploring modern Tamil identities, the course will cover themes such as mass migration, ecology, social and economic life, and literary history.

Same as [HISC59H3](#)

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in GAS or HIS courses

Exclusion: [HISC59H3](#), (GASB54H3), (HISB54H3)

Recommended Preparation: [GASB57H3/HISB57H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

GASC73H3 - Making the Global South

The course will explore the history and career of a term: The Global South. The global south is not a specific place but expressive of a geopolitical relation. It is often used to

describe areas or places that were remade by geopolitical inequality. How and when did this idea emerge? How did it circulate? How are the understandings of the global south kept in play? Our exploration of this term will open up a world of solidarity and circulation of ideas shaped by grass-roots social movements in different parts of the world

Same as [HISC73H3](#)

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in GAS or HIS courses

Exclusion: [HISC73H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

GASC74H3 - A Tale of Three Cities: Introduction to Contemporary Art in China

An introduction to Chinese contemporary art focusing on three cities: Beijing, Shanghai, and Guangzhou. Increasing globalization and China's persistent self-renovation has brought radical changes to cities, a subject of fascination for contemporary artists. The art works will be analyzed in relation to critical issues such as globalization and urban change.

Same as [VPHC74H3](#)

Prerequisite: 2.0 credits at the B-level in Art History, Asian History, and/or Global Asia Studies courses, including at least 0.5 credit from the following:

[VPHB39H3](#), [VPHB73H3](#), [HISB58H3](#), (GASB31H3), [GASB33H3](#), or (GASB35H3).

Exclusion: [VPHC74H3](#)

Breadth Requirements: Arts, Literature and Language

GASD01H3 - Senior Seminar: Topics in Global Asian Migrations

This course offers an in-depth and historicized study of important cultural issues in historical and contemporary Asian, diasporic and borderland societies, including migration, mobility, and circulation. It is conducted in seminar format with emphasis on discussion, critical reading and writing, digital skills, and primary research.

Same as [HISD09H3](#)

Prerequisite: Any 8.0 credits, including [0.5 at the A- or B-level in CLA, FST, GAS, HIS or WST courses] and [0.5 credit at the C-level in CLA, FST, GAS, HIS or WST courses]

Exclusion: [HISD09H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

GASD02H3 - Senior Seminar: Topics in Global Asian Societies

This course offers a capstone experience of issues which confront Asian and diasporic societies. Themes include gender, environment, human rights, equity, religion, politics, law, migration, labour, nationalism, post-colonialism, and new social movements. It is conducted in seminar format with emphasis on discussion, critical reading, and writing of research papers.

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in GAS courses] and [0.5 credit at the C-level in GAS courses]

Course Experience: University-Based Experience

GASD03H3 - Senior Seminar: Topics in Global Asia Studies

The course offers an in-depth, special study of important topics in the study of Global Asia. Special topics will vary from year to year depending on the expertise of the visiting professor. It is conducted in seminar format with emphasis on discussion, critical reading, and writing of research papers.

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in GAS courses] and [0.5 credit at the C-level in GAS courses]

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Topics vary from year to year. Check the website: www.utoronto.ca/~hcs/programs/global-asia-studies.html for current offerings.

GASD06H3 - Global History of Crime and Punishment since 1750

An exploration of the global problem of crime and punishment. The course investigates how the global processes of colonialism, industrialization, capitalism and liberalization affected modern criminal justice and thus the state-society relationship and modern citizenry in different cultures across time and space.

Same as [HISD06H3](#)

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in GAS or HIS courses] and [0.5 credit at the C-level in GAS or HIS courses]

Exclusion: [HISD06H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

GASD13H3 - Living within Violence: Exploring South Asia

What is violence? How do we study violence and its impact? How do people subjected to violence communicate, cope and live with violence? The course is

designed to study South Asian communities through the concept of violence by exploring various texts. By looking at the various cases, structures and concepts in relation to violence in different parts of South Asia the course will analyze and understand how forms of violence transfigure, impact, make and remake individual life, and communities within and beyond South Asia. We will analyze different forms of violence from structural, symbolic to discreet and every-day expressions of violence. The course closely looks at how, on the one hand, violence operates in the everyday life of people and how it creates social suffering, pain, silence, loss of voice, difficulties of communicating the experience of violence, etc. On the other hand, the course will focus on how ordinary people who were subjected to violence cope, live, recover and rebuild their life during and in the aftermath of violence.

Prerequisite: Any 8.0 credits, including [0.5 at the A- or B-level in CLA, GAS, HIS or WST courses] and [0.5 credit at the C-level in CLA, GAS, HIS or WST courses]

Breadth Requirements: Social and Behavioural Sciences

GASD20H3 - Advanced Seminar: Social Change and Gender Relations in Chinese Societies

This seminar examines the transformation and perpetuation of gender relations in contemporary Chinese societies. It pays specific attention to gender politics at the micro level and structural changes at the macro level through in-depth readings and research.

Same as [SOCD20H3](#)

Prerequisite: [[SOCB05H3](#) and 0.5 credit in SOC course at the C-level] or [[GASA01H3](#) and [GASA02H3](#) and 0.5 credit at the C-level from the options in requirement #2 of the Specialist or Major programs in Global Asia Studies] or [10.0 credits including [IDSB11H3](#) and enrolment in the Certificate in Global Development, Environment and Health]

Exclusion: [SOCD20H3](#)

Recommended Preparation: [GASB20H3](#) and [GASC20H3](#)

Course Experience: University-Based Experience

GASD30H3 - Gender and Techno-Orientalism

This course examines how popular culture projects its fantasies and fears about the future onto Asia through sexualized and racialized technology. Through the lens of techno-Orientalism this course explores questions of colonialism, imperialism and globalization in relation to cyborgs, digital industry, high-tech labor, and internet/media economics. Topics include the hyper-sexuality of Asian women, racialized and sexualized trauma and disability. This course requires student engagement and participation. Students are required to watch films in class, and creative assignments such as

filmmaking and digital projects are encouraged.
Same as [WSTD30H3](#)

Prerequisite: 1.0 credit at the B-level and 1.0 credit at the C-level in WST courses or other Humanities and Social Sciences courses

Exclusion: [WSTD30H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Priority will be given to students enrolled in the Major/Major Co-op and Minor programs in Women's and Gender Studies, and the Specialist, Major and Minor programs in Global Asia Studies. Additional students will be admitted as space permits.

GASD40H3 - Senior Seminar: Issues in Chinese Media Studies

The Chinese government has played a central role in the development of print, electronic and digital media. Recent changes in the political economy of Chinese media have had strong political and cultural implications. This senior seminar course examines the complex and dynamic interplay of media and politics in contemporary China.

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in GAS courses] and [0.5 credit at the C-level in GAS courses]

Note: Topics vary from year to year. Check the website www.utoronto.ca/~hcs/programs/global-asia-studies.html for current offerings.

GASD53H3 - Africa and Asia in the First World War

This seminar course examines the First World War in its imperial and colonial context in Africa and Asia. Topics include forgotten fronts in Africa, the Middle East, Asia and the Pacific, colonial armies and civilians, imperial economies and resources, the collapse of empires and the remaking of the colonial world.

Same as [AFSD53H3](#) and [HISD53H3](#)

Prerequisite: 8.0 credits, including: 1.0 credit in AFS, GAS or Africa and Asia area HIS courses

Exclusion: [AFSD53H3](#), [HISD53H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

GASD54H3 - Watermarks: Environmental Justice and Histories of Water

This upper-level seminar will explore how water has shaped human experience. It will explore water landscapes, the representation of water in legal and political thought, slave narratives, and water management in urban development from the 16th century. Using case

studies from South Asia and North America we will understand how affective, political and social relations to water bodies are made and remade over time.

Same as [HISD54H3](#)

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in GAS or HIS courses] and [0.5 credit at the C-level in GAS or HIS courses]

Exclusion: [HISD54H3](#)

GASD55H3 - Transnational Asian Thought

This course explores the transnational connections and contexts that shaped ideas in modern Asia such as secularism, modernity, and pan Asianism. Through the intensive study of secondary sources and primary sources in translation, the course will introduce Asian thought during the long nineteenth-century in relation to the social, political, cultural, and technological changes. Using the methods of studying transnational history the course will explore inter-Asian connections in the world of ideas and their relation to the new connectivity afforded by steamships and the printing press. We will also explore how this method can help understand the history of modern Asia as a region of intellectual ferment rather than a passive recipient of European modernity.

Same as [HISD55H3](#)

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in GAS or HIS courses] and [0.5 credit at the C-level in GAS or HIS courses]

Exclusion: [HISD55H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

GASD56H3 - 'Coolies' and Others: Asian Labouring Diasporas in the British Empire

'Coolie' labourers formed an imperial diaspora linking South Asia and China to the Caribbean, Africa, the Indian Ocean, South-east Asia, and North America. The long-lasting results of this history are evident in the cultural and ethnic diversity of today's Caribbean nations and Commonwealth countries such as Great Britain and Canada.

Same as [HISD56H3](#)

Prerequisite: [8.0 credits, at least 2.0 credits should be at the B- or C-level in GAS or Modern History courses] or [15.0 credits, including [SOCP60H3](#)]

Exclusion: [HISD56H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

GASD58H3 - Culture, Politics, and Society in Late Imperial China

A study of major cultural trends, political practices, social customs, and economic developments in late imperial China (1400-1911) as well as their relevance to modern and contemporary China. Students will read the most recent literature and write a substantive research paper. Same as [HISD58H3](#)

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in GAS or HIS courses] and [0.5 credit at the C-level in GAS or HIS courses]

Exclusion: [HISD58H3](#)

Recommended Preparation: [GASB58H3/HISB58H3](#) or [GASC57H3/HISC57H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

GASD59H3 - Law and Society in Chinese History

A seminar course on Chinese legal tradition and its role in shaping social, political, economic, and cultural developments, especially in late imperial and modern China. Topics include the foundations of legal culture, regulations on sexuality, women's property rights, crime fictions, private/state violence, laws of ethnicities, prison reforms and modernization.

Same as [HISD59H3](#)

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in GAS or HIS courses] and [0.5 credit at the C-level in GAS or HIS courses]

Exclusion: [HISD59H3](#)

Recommended Preparation: [GASB58H3/HISB58H3](#) or [GASC57H3/HISC57H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

Global Leadership

J. Trougakos, Ph.D. Professor

Global Leadership Programs

MINOR PROGRAM IN GLOBAL LEADERSHIP - SCMIN0134

Now, more than ever, the world needs principled, inclusive, and empathetic global leaders. The Minor in Global Leadership will develop students' collaborative global leadership skills and capacity to critique what is global leadership and how this concept is understood and challenged in diverse disciplines and contexts. Studying alongside students from all three campuses, with diverse backgrounds, students will critique leadership approaches applied across teams and networks, and prepare for a global workplace post-graduation. Through a combination of online and in-person learning, students partake in small group work, community engagement, and a global-partnered capstone project, and gain formal recognition for global leadership development.

Enrolment in the Minor in Global Leadership is limited. Students will be able to apply to the program after completing 4.0 credits, and must have achieved an average GPA of 2.7 across their best 3.0 credits taken (e.g., 6 half-credit courses, or 4 half-credit and 1 full-credit course).

In addition, students must submit an application as described at the [Minor in Global Leadership website](#), and will need to include an unofficial transcript.

The Minor in Global Leadership will be available for Fall 2023 enrolment. At UTSC, students will be able to request the Minor beginning in the Spring of 2023.

Students must complete a total of 4.0 credits as described below:

1. 2.0 credits in core Global Leadership courses:

In Year 2 of studies: GLB201H5 Global Leadership: Past, Present, Futures

In Year 3 of studies: [GLBC01H3](#) Global Leadership: Theory, Research and Practice

In Year 4 of studies: GLB401Y1 Global Leadership: Capstone Project

2. An additional 2.0 credits in UTSC elective courses selected from the UTSC Elective Course Clusters below, of which 0.5 credit must be from outside the students' Specialist or Major program:

Note: Elective courses are categorized into three groups: Leadership; Global Issues; and Ethics/Equity, Diversity, Inclusion. Students must take at least one course from each of the three groups; where a course falls into more than one group it will count toward both groups.

Leadership

[ANTB20H3](#) Ethnography and the Global Contemporary

[HLTD49H3](#) Global Health Governance: Thinking Alongside the World's Leaders

[MGHB02H3](#) Managing People and Groups in Organizations

Global Leadership Courses

GLBC01H3 - Global Leadership: Theory, Research and Practice

Whether corporate, not for profit or governmental, modern organizations require leaders who are willing to take on complex challenges and work with a global community. Effective leaders must learn how to consider and recognize diverse motivations, behaviours, and perspectives across teams and networks. Building upon content learned in GLB201H5 and focusing on applications and real-life case studies; this course will

provide students with knowledge and skills to become global leaders of the future. Upon completion of this course, students will be able to adapt culturally sensitive communication, motivation and negotiation techniques, preparing them to apply new principled, inclusive, and appreciative approaches to the practice of global leadership. In preparation for GLB401Y1, this course will include group-based activities in which students collaborate on current issues of global importance. An experiential learning component will help develop skills through interactions with guest lecturers and community partners. Community partners will present real-world global leadership problems to the class, which students will work to analyze and solve. At the end of the term, students will meet in person for final group presentations to deliver key solutions to community partners. This course will be delivered primarily online through

synchronous/asynchronous delivery, with specific in-person activities scheduled throughout the course.

Prerequisite: GLB201H5

Recommended Preparation: None

Breadth Requirements: Social and Behavioural

Sciences

Course Experience: Partnership-Based Experience

Note: 25 UTSC students in each course section (up to 4 sections). This is a tri-campus course and the enrolment limit for the Minor it supports is 100 students (25 UTSC, 25 UTM, 50 FAS)

Health and Society

Faculty List

- R. Antabe, B.A. (Ghana), M.A., Ph.D. (Western), Assistant Professor
- A. Benoit, B.Sc. (Mount Allison), M.Sc. (Ottawa), M.Sc. (Toronto), Ph.D. (Ottawa), Assistant Professor
- L. Bisailon, B.A. (Bishop's), M.Pl. (McGill), Ph.D. (Ottawa), Associate Professor
- H. Brown, B.A., M.Sc. (Queen's), Ph.D. (Western), Associate Professor
- E. Caron-Beaudoin, B.Sc., M.Sc. (Québec à Montréal), Ph.D. (Institut National de la Recherche Scientifique), Assistant Professor
- A. Charise, B.A., B.Sc. (McMaster), M.A. (Western), Ph.D. (Toronto), Associate Professor
- K. Colaco, B.Sc. (Waterloo), M.Sc. (McMaster), M.Sc. (Maastricht), Ph.D. (Toronto), Assistant Professor, Teaching Stream
- O. Ezezika, B.Sc. (Lagos), Ph.D. (Georgia), M. Env. Management (Yale), Assistant Professor, Teaching Stream (Status Only)
- J. Fields, B.A. (NYU), MA, Ph.D. (UNC Chapel Hill), Professor
- P. Galvez-Hernandez, B.Sc., M.H.R. (Catalonia), Ph.D. (Toronto), Assistant Professor
- C. Hartblay, B.A. (Macalaster), M.A., Ph.D. (UNC Chapel Hill), Associate Professor
- N. Massaquoi, B.A. (Western), M.S.W., Ph.D. (Toronto), Assistant Professor
- A. Nair, B.A. (Michigan-Flint), M.S. (London School of Economics), M.P.H. (Cambridge), Ph.D. (Australian National), Assistant Professor

Paramedicine Program: paramedicine.utsc@utoronto.ca

Pathways in Health Professions Certificate: health.certificate.utsc@utoronto.ca

For more information, [visit the Department of Health and Society website](#).

The Department of Health and Society, formally known as the Interdisciplinary Centre for Health and Society (ICHS), offers two interdisciplinary Major programs that provide students with a critical and comprehensive understanding of health, the biological and social determinants of health, and the impacts of public policy on health and well-being. In the Major/Major (Co-op) Program in Population Health (B.Sc.), students focus on the biological and environmental determinants of health, epidemiology, aging and the life cycle, and the importance of social and behavioural determinants of health. In the Major/Major (Co-op) Program in Health Policy (B.A.), students examine the character and consequences of different health care systems, public health policies, and governmental and civil society responses to ongoing societal issues related to health.

The Department of Health and Society also offers Canada's first Minor Program in Health Humanities, which explores human health and illness through the methods and materials of the creative arts and interpretive social sciences.

Effective July 1, 2023, the (Joint) Specialist in Paramedicine (B.Sc.) is now administered in the Department of Health and Society. Note, the program requirements for 2023-24 remain unchanged; students who are presently enrolled in the program or entering in Fall 2023 will follow the program as outlined in the calendar for the year they began the program. For more details regarding this program please contact paramedicine.utsc@utoronto.ca, or refer to the [Paramedicine](#) section of the *Calendar* or the [Joint Programs website](#). The Specialist (Joint) in Paramedicine is offered in collaboration with Centennial College. Completion of this unique four-year program leads to a B.Sc. from UTSC and an Ontario College Diploma in Paramedicine from Centennial College. Upon completion of the diploma portion from

Centennial College, students are eligible to take the Ministry of Health exams required to qualify as a Primary Care Paramedic.

In addition to pursuing a rich core curriculum, students are strongly encouraged to diversify their learning by drawing upon relevant courses in various programs including Anthropology, Arts, Culture and Media Studies, Economics, Environmental Studies, Human Biology, International Development Studies, Mental Health, Philosophy, Public Policy, Sociology, and Statistics.

Students are encouraged to contact the Program Coordinator or Associate Chair, Undergraduate to discuss program requirements and their individual course of study.

Planning a Program in Health and Society

Students are advised to take required courses in the Major programs as early in their careers as possible. [HLTA02H2](#) and [HLTA03H3](#) should be taken during the first year. Failure to do so may lead to timetable conflicts and could prolong the completion of the program.

Prerequisites:

Students are not permitted to register in courses for which they have not completed the prerequisites indicated in the Calendar. Students may only enter a course for which they lack the prerequisites by obtaining the permission of the instructor prior to registration. Ineligible students will be removed from courses.

Special Topic and Advanced Topic Courses:

Themes for special topic courses will vary year to year. For more information, please visit the [Department of Health and Society](#) website.

Routes and Threads

Here, we present comprehensive frameworks for exploration within the realm of Health and Society, showcasing the robustness of our department and faculty. These frameworks, termed 'routes and threads,' act as guideposts for students in their course selection and academic journey, providing avenues for delving into specific interests. Dynamic and interwoven, these categories underscore various aspects within Health and Society, offering suggestions for thematic exploration. Students are also urged to chart their own thematic pathways tailored to their individual passions:

Aging, Development, and the Lifespan

[HLTA20H3](#), [HLTB24H3](#), [HLTB33H3](#), [HLTC22H3](#), [HLTD20H3](#), [HLTD26H3](#), [HLTD51H3](#)

A more comprehensive list can be found on the DHS website.

Program Combination Restrictions

The Major/Major (Co-op) Program in Population Health (B.Sc.) and Major/Major (Co-op) Program in Health Policy (B.A.) cannot be combined. For students that choose to pair one of the major programs with the Minor in Aging and Society (B.A.), please visit the Aging and Society section of the calendar for sequencing suggestions.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Health and Society Programs

SPECIALIST (JOINT) PROGRAM IN PARAMEDICINE (SCIENCE) - SCSPEPMD

Program Supervisor: W. Tavares

Program Coordinator: paramedicine.uts@utoronto.ca

The Specialist (Joint) Program in Paramedicine is administered by the Department of Health and Society. Students who complete the requirements of the program will also qualify for the Paramedic Diploma from Centennial College. Students who have completed the requirements for Centennial's diploma are eligible to take the Ministry of Health exams required to qualify as a Primary Care Paramedic.

Enrolment Requirements

This program has limited enrolment. Applicants must fill out a Paramedicine Declaration form. Prior to taking courses at Centennial College, students must also fill out a medical certificate and have current qualifications in CPR and standard first aid. Other non-academic requirements such as a vulnerable sector police check, fitness standards and face mask fit certification will also ultimately be required. Additional details regarding these requirements may be found at Centennial's website. Applicants may arrange to complete some of these requirements during their first year of study at the University of Toronto Scarborough. For more information on admission and deadlines, see the [Joint Programs with Centennial College](#) section of this *Calendar*.

Program Requirements

This program requires the completion of 16.5 credits. Including electives, students should take 2.5 credits in each semester of their four year degree.

Note: three of the PMD courses are 1.0 credit (Y courses) rather than 0.5 credit (H courses).

1. 1.0 Credit of Introductory Biology Courses

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

2. 1.5 Credits of Core Biology Courses

BIOB10H3 Cell Biology

BIOB11H3 Molecular Aspects of Genetic Processes

BIOB34H3 Animal Physiology

3. 1.5 Credits of Foundational Biology Courses

BIOC17H3 Microbiology

[BIOC21H3 Vertebrate Histology: Cells and Tissues or BIOC32H3 Human Physiology I]

BIOC34H3 Human Physiology II

4. 1.0 Credit of Advanced Biology Courses

Choose From:

BIOD17H3 Seminars in Cellular Microbiology

BIOD26H3 Fungal Biology and Pathogenesis

BIOD29H3 Pathobiology of Human Disease

BIOD33H3 Comparative Animal Physiology

BIOD43H3 Animal Movement and Exercise

BIOD65H3 Pathologies of the Nervous System

BIOD96Y3 Directed Research in Paramedicine

5. 1.0 Credit of Introductory Chemistry Courses

CHMA10H3 Introductory Chemistry I: Structure and Bonding

CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms

6. 1.0 Credit of Introductory Psychology Courses

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

7. 1.0 Credit of B-Level Psychology Courses

PSYB20H3 Introduction to Developmental Psychology

PSYB32H3 Introduction to Clinical Psychology

8. 1.0 Credit of Statistics/Data Analysis Courses

[STAB22H3 Statistics I or PSYB07H3 Data Analysis in Psychology]

PSYC08H3 Advanced Data Analysis in Psychology

9. 7.5 Credits of Paramedicine Courses

*PMDB22H3 Pre-Hospital Care 1: Theory and Lab

*PMDB25H3 Therapeutic Approaches to Behaviour in Crisis

*PMDB30H3 Alterations of Human Body Function I

*PMDB32Y3 Pre-Hospital Care 2: Theory, Lab and Clinical

*PMDB33H3 Anatomy

*PMDB36H3 Pharmacology for Allied Health Pre-requisite

*PMDB41H3 Professional Issues, Research and Leadership

*PMDC40H3 Alterations in Human Body Function II

*PMDC42Y3 Pre-Hospital Care 3: Theory, Lab and Field

*PMDC43H3 Medical Directed Therapeutics and Paramedic Responsibilities

*PMDC54Y3 Pre-Hospital Care 4: Theory, Lab and Field

*PMDC56H3 Primary Care Practice Integration and Decision Making

*A grade of 60% is required in these courses both to pass the course and to maintain standing in the program. All PMD courses are taught at Centennial College. Note, some PMD courses require that 60% be achieved in all components of the course (i.e., lecture component, practical component, and clinical-placement component).

Note: In order to remain in the program, students must typically maintain a cumulative GPA of at least 2.0. Students whose cumulative GPA falls below 2.0 should consult the program supervisor to discuss their options. Please also note,

space in some Centennial College courses is limited. Students who must repeat one of these courses and whose cumulative GPA has fallen below 2.0 will be allowed to register in these courses only if space permits.

Suggested Course Sequence

Year 1: Fall Semester*

1. [BIOA01H3](#) Life on Earth: Unifying Principles
2. [CHMA10H3](#) Introductory Chemistry I: Structure and Bonding
3. [PSYA01H3](#) Introduction to Biological and Cognitive Psychology

Year 1: Winter Semester*

1. [BIOA02H3](#) Life on Earth: Form, Function and Interactions
2. [CHMA11H3](#) Introductory Chemistry II; Reactions and Mechanisms
3. [PSYA02H3](#) Introduction to Clinical, Developmental, Personality and Social Psychology

*In Year 1 students must also complete 0.5 credit in statistics [[STAB22H3](#) Statistics I or [PSYB07H3](#) Data Analysis in Psychology].

Year 2: Fall Semester

1. [BIOB10H3](#) Cell Biology
2. [PMDB33H3](#) Anatomy
3. [PMDB22H3](#) Pre-Hospital Care 1: Theory and Lab
4. [PMDB25H3](#) Therapeutic Approaches to Behaviour in Crisis
5. [PMDB41H3](#) Professional Issues, Research and Leadership

Year 2: Winter Semester

1. [BIOB11H3](#) Molecular Aspects of Genetic Processes
2. [PMDB30H3](#) Alterations of Human Body Function I
3. [PMDB32Y3](#) Pre-Hospital Care 2: Theory, Lab and Clinical
4. [PMDB36H3](#) Pharmacology for Allied Health Pre-requisite

Year 3: Fall Semester

1. [BIOB34H3](#) Animal Physiology
2. [PMDC40H3](#) Alterations in Human Body Function II
3. [PMDC42Y3](#) Pre-Hospital Care 3: Theory, Lab and Field
4. [PMDC43H3](#) Medical Directed Therapeutics and Paramedic Responsibilities

Year 3: Winter Semester

1. [BIOC17H3](#) Microbiology
2. [BIOC34H3](#) Human Physiology II
3. [PMDC54Y3](#) Pre-Hospital Care 4: Theory, Lab and Field
4. [PMDC56H3](#) Primary Care Practice Integration and Decision Making

Year 4: Fall Semester

1. [BIOC21H3](#) Vertebrate Histology: Cells and Tissues or [BIOC32H3](#) Human Physiology I
2. [PSYB20H3](#) Introduction to Developmental Psychology
3. [PSYB32H3](#) Abnormal Psychology
4. [[BIOD33H3](#) Comparative Animal Physiology or [BIOD65H3](#) Pathologies of the Nervous System or [BIOD26H3](#) Fungal Biology and Pathogenesis or [BIOD96Y3](#) Directed Research in Paramedicine*]

Year 4: Winter Semester

1. [PSYC08H3](#) Advanced Data Analysis in Psychology

2. BIOD17H3 Seminars in Cellular Microbiology *or* BIOD43H3 Animal Movement and Exercise *or* BIOD29H3 Pathobiology of Human Disease
3. 0.5 credits of elective courses

*Students may take any 2 of the D-level courses listed above to meet program requirements. The sequence here merely reflects the current scheduling of courses in the various sessions.

MAJOR PROGRAM IN HEALTH POLICY (ARTS) - SCMAJ2086G

Grade 12 math is recommended

Program Requirements

This program requires the completion of 8.0 credits, as described below.

Note: The Major/Major (Co-op) Program in Population Health (B.Sc.) and Major/Major (Co-op) Program in Health Policy (B.A.) cannot be combined.

First Year

2.0 credits

1. 2.0 credits as follows:

HLTA02H3 Exploring Health and Society: Theories, Perspectives, and Patterns

HLTA03H3 Navigating Health and Society: Research, Practice, and Policy

PHLB09H3 Biomedical Ethics

STAB23H3 Introduction to Statistics for the Social Sciences

Second Year

3.0 credits

2. 2.0 credits as follows:

HLTB15H3 Health Research Methodology

HLTB16H3 Public Health

HLTB40H3 Health Policy and Health Systems

HLTB41H3 Social Determinants of Health

3. 0.5 credit from the following:

HLTB50H3 Introduction to Health Humanities

HLTB60H3 Introduction to Interdisciplinary Disability Studies

4. 0.5 credit from the following:

GGRB28H3 Geographies of Disease

HLTB11H3 Human Nutrition

HLTB20H3 Human Biological Variation and Evolution

HLTB27H3 Applied Statistics for Public Health

HLTB42H3 Perspectives of Culture, Illness, and Healing

HLTB50H3 Introduction to Health Humanities (if not used towards requirement 3)

HLTB60H3 Introduction to Interdisciplinary Disability Studies (if not used towards requirement 3)

IDSB04H3 Introduction to International/Global Health*

*Note: IDSB04H3 has prerequisites that are not part of this program.

The following courses may be used as a program requirement if the content is arts or policy focused; please consult with the Program Coordinator to have the topic assessed for program usage:

HLTB30H3 Current Issues in Health

HLTB31H3 Synergies Among Science, Policy, and Action

Third Year

2.5 Credits

5. 0.5 credit from the following:HLTC04H3 Qualitative Health ResearchHLTC27H3 Community Health and Epidemiology

***Note:** HLTC04H3 would be beneficial if the desire is to focus on social determinants of health, community work, or how policy affects the human dimension. If the goal is to analyze health systems, policies, and outcomes through measurable data, then HLTC27H3 may be a better choice. Students interested in pursuing graduate studies are encouraged to review the admissions and academic requirements for the prospective program to ensure they are making the best decision for their application.

6. 1.0 credit from the following:HLTC42H3 Emerging Health Issues and Policy NeedsHLTC43H3 Politics of Canadian Health PolicyHLTC44H3 Comparative Health Policy Systems**7. 1.0 credit from the following:**ANTC24H3 Culture, Mental Illness, and PsychiatryANTC61H3 Medical Anthropology: Illness and Healing in Cultural PerspectiveHLTC02H3 Gender and HealthHLTC04H3 Qualitative Health Research (if not used towards requirement 5)HLTC16H3 Health Information SystemsHLTC17H3 Rehabilitation SciencesHLTC19H3 Chronic DiseasesHLTC20H3 Global Disability StudiesHLTC22H3 Health, Aging and the Life CycleHLTC27H3 Community Health and Epidemiology (if not used towards requirement 5)HLTC42H3 Emerging Health Issues and Policy Needs (if not used towards requirement 6)HLTC43H3 Politics of Canadian Health Policy (if not used towards requirement 6)HLTC44H3 Comparative Health Policy Systems (if not used towards requirement 6)HLTC46H3 Globalization, Gender, and HealthHLTC47H3 Institutional Ethnography in ActionHLTC48H3 Special Topics in Health and SocietyHLTC49H3 Indigenous HealthHLTC50H3 The Human-Animal InterfaceHLTC51H3 Special Topics in Health and SocietyHLTC52H3 Special Topics in Health HumanitiesHLTC53H3 Creative Research Practices in AgingHLTC56H3 Drawing IllnessHLTC81H3 Health Professions and PracticeIDSC11H3 Issues in Global and International Health*

***Note:** IDSC11H3 has prerequisites that are not part of this program.

MAJOR (CO-OPERATIVE) PROGRAM IN HEALTH POLICY (ARTS) - SCMAJ2086J

Program Supervisor of Study: E. Caron-Beaudoin and R. Antabe
 Academic Program Advisor: dhsadvisor.utsc@utoronto.ca
 Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Health Policy is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Health Policy upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including HLTA02H3 and HLTA03H3, plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Health Policy.

Note: the Major/Major (Co-op) Program in Population Health (B.Sc.) and Major/Major (Co-op) Program in Health Policy (B.A.) cannot be combined.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN POPULATION HEALTH (SCIENCE) - SCMAJ2086H

Grade 12 math and biology are recommended

Enrolment in the program is limited. Admissions will require:

A. completion of 4.0 credits including [BIOA01H3 or BIOA11H3], HLTA02H3, HLTA03H3, HLTA20H3, and STAB23H3, and

B. either (1) a final grade of 67% or higher in both [BIOA01H3 or BIOA11H3] and HLTA20H3, or (2) a final grade of 60% or higher in both [BIOA01H3 or BIOA11H3] and HLTA20H3, and a final grade of 72% or higher in HLTB22H3

Program Requirements

This program requires the completion of 8.5 credits, as described below.

Note: The Major/Major (Co-op) Program in Population Health (B.Sc.) and Major/Major (Co-op) Program in Health Policy (B.A.) cannot be combined.

First Year

2.5 credits

1. 0.5 credit from the following:

BIOA01H3 Life on Earth: Unifying Principles or
BIOA11H3 Introduction to the Biology of Humans

2. 2.0 credits as follows:

HLTA02H3 Exploring Health and Society: Theories, Perspectives, and Patterns
HLTA03H3 Navigating Health and Society: Research, Practice, and Policy
HLTA20H3 Physiology Through the Life Course: From Birth Through Death
STAB23H3 Introduction to Statistics for the Social Sciences

Second Year

3.5 credits

3. 2.5 credits as follows:

HLTB15H3 Health Research Methodology
HLTB16H3 Public Health
HLTB22H3 Biological Determinants of Health
HLTB27H3 Applied Statistics for Public Health
HLTB41H3 Social Determinants of Health

4. 0.5 credit from the following:

BIOB35H3 Essentials of Human Physiology

HLTB33H3 Human Development and Anatomy
HLTB44H3 Pathophysiology and Etiology of Disease

5. 0.5 credit from the following:

BIOB35H3 Essentials of Human Physiology (if not used towards requirement 4)
GGRB28H3 Geographies of Disease
HLTB11H3 Human Nutrition
HLTB20H3 Human Biological Variation and Evolution
HLTB33H3 Human Development and Anatomy (if not used towards requirement 4)
HLTB40H3 Health Policy and Health Systems
HLTB42H3 Perspectives of Culture, Illness, and Healing
HLTB44H3 Pathophysiology and Etiology of Disease (if not used towards requirement 4)
HLTB50H3 Introduction to Health Humanities
HLTB60H3 Introduction to Interdisciplinary Disability Studies
PHLB09H3 Biomedical Ethics
STAB27H3 Statistics II

The following courses may be used as a program requirement if the content is science-focused; please consult with the Program Coordinator to have the topic assessed for program usage:

HLTB30H3 Current Issues in Health
HLTB31H3 Synergies Among Science, Policy, and Action

Third Year
2.0 credits

6. 0.5 credit as follows:

HLTC27H3 Community Health and Epidemiology

7. 0.5 credit from the following:

HLTC19H3 Chronic Diseases
HLTC25H3 Infectious Diseases

8. 1.0 credit from the following:

ANTC47H3 Human Skeletal Anatomy and Biology
ANTC48H3 Advanced Topics in Human Osteology
ANTC68H3 Deconstructing Epidemics
BIOC70H3 An Introduction to Bias in STEMM (Science, Technology, Engineering, Mathematics, and Medicine)
HLTC04H3 Qualitative Health Research
HLTC16H3 Health Information Systems
HLTC17H3 Rehabilitation Sciences
HLTC19H3 Chronic Diseases (if not used towards requirement 7)
HLTC22H3 Health, Aging and the Life Cycle
HLTC23H3 Child Health and Development
HLTC24H3 Environment and Health
HLTC25H3 Infectious Diseases (if not used towards requirement 7)
HLTC26H3 Global Health and Human Biology
HLTC28H3 Special Topics in Health Sciences
HLTC29H3 Special Topics in Health Sciences
HLTC30H3 Understanding Cancer: From Cells to Communities
HLTC31H3 Pick Your Poison! Toxicology and Risk Assessment
HLTC46H3 Globalization, Gender, and Health
HLTC49H3 Indigenous Health
HLTC81H3 Health Professions and Practice

The following courses may be used as a program requirement if the content is science-focused; please consult with the Program Coordinator to have the topic assessed for program usage:

HLTC48H3 Special Topics in Health and Society
HLTC51H3 Special Topics in Health and Society

Fourth Year
0.5 credits

9. 0.5 credit from the following:

HLTD07H3 Advanced Rehabilitation Sciences: Disability Studies and Lived Experiences of 'Normalcy'
HLTD08H3 Advanced Topics in Health Sciences
HLTD09H3 Population Perspectives on Reproductive Health
HLTD13H3 Advanced Topics in Global Health and Human Biology
HLTD18H3 Dental Sciences
HLTD20H3 Advanced Topics in Sex, Gender, and the Life Course
HLTD23H3 Indigenous Peoples: Pandemics, Epidemics, and Outbreaks
HLTD25H3 Advanced Topics in Environmental Health
HLTD26H3 Embodiment Across the Life Course
HLTD27H3 Food Security, Food Sovereignty, and Health
HLTD28H3 Innovations for Global Health
HLTD29H3 Advanced Topics in Inequality, Inequity, and Health
HLTD40H3 The Politics of Care, Self-Care, and Mutual Aid
HLTD44H3 Environmental Contaminants, Vulnerability, and Toxicity
HLTD46H3 Violence and Health: Critical Perspectives
HLTD47H3 Advanced Topics in Health and Wellness
HLTD48H3 Advanced Topics in Global Health
HLTD49H3 Global Health Governance: Thinking Alongside the World's Leaders
HLTD80H3 Critical Health Education
HLTD81H3 Health Professions Education

The following courses may be used as a program requirement if the content is science-focused; please consult with the Program Coordinator to have the topic assessed for program usage:

HLTD01H3 Directed Readings in Health and Society
HLTD02H3 Health Research Seminar
HLTD04H3 Advanced Topics in Health and Society
HLTD05H3 Directed Research on Health Services and Institutions
HLTD12H3 Advanced Topics in Health and Society
HLTD21H3 Advanced Topics in Health and Society
HLTD22H3 Advanced Topics in Health and Society
HLTD71Y3 Directed Research in Health and Society

MAJOR (CO-OPERATIVE) PROGRAM IN POPULATION HEALTH (SCIENCE) - SCMAJ2086K

Program Supervisor of Study: E. Caron-Beaudoin and R. Antabe
 Academic Program Advisor: dhsadvisor.utsc@utoronto.ca
 Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Population Health is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Population Health upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Grade 12 math and biology are recommended

Enrolment Requirements

The minimum qualifications for entry are as follows:

- A. completion of 4.0 credits including [\[BIOA01H3 or BIOA11H3\]](#), [HLTA02H3](#), [HLTA03H3](#), [HLTA20H3](#), and [STAB23H3](#), and
- B. either (1) a final grade of 67% or higher in both [\[BIOA01H3 or BIOA11H3\]](#) and [HLTA20H3](#), or (2) a final grade of 60% or higher in both [\[BIOA01H3 or BIOA11H3\]](#) and [HLTA20H3](#), and a final grade of 72% or higher in [HLTB22H3](#)

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Population Health.

Note: the Major/Major (Co-op) Program in Population Health (B.Sc.) and Major/Major (Co-op) Program in Health Policy (B.A.) cannot be combined.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MINOR PROGRAM IN AGING AND SOCIETY (ARTS) - SCMINAGS

The Minor in Aging and Society provides an interdisciplinary exploration of the aging process and individuals across the life course. This includes the study of social, mental, and physical changes in people as they age, the investigation of changes in society resulting from our aging population, and the application of this knowledge to policies and programs. This interdisciplinary Minor program is open to all undergraduate students regardless of major or disciplinary backgrounds.

Students who choose to combine this Minor with a Major in Health Policy (BA) or Population Health (BSc) must take care to ensure that no more than 2.0 credits are used to satisfy the requirements of both this Minor and their Major. Additional course guidance for these students is provided below.

Note: Relevant aging-related courses selected from other academic units and disciplines not listed below, may be approved for the Minor in Aging and Society on a case-by-case basis. Please contact DHS Undergraduate Advising to request approval for such courses prior to registering in them.

Program Requirements

This program requires the completion of 4.5 credits, as follows:

1. 1.5 credits in Foundations as follows:

HLTA02H3 Exploring Health and Society: Theories, Perspectives, and Patterns

HLTA03H3 Navigating Health and Society: Research, Practice, and Policy

and one of the following:

HLTA20H3 Physiology Through the Life Course: From Birth Through Death*

HLTB15H3 Health Research Methodology

2. 1.5 credits in Core Concepts as follows:

HLTB24H3 Aging with Agility

HLTB40H3 Health Policy and Health Systems

and one of the following:

HLTB22H3 Biological Determinants of Health*

HLTB41H3 Social Determinants of Health

3. 1.5 credits in Aging and Society in Practice as follows:

HLTC22H3 Health, Aging, and the Life Cycle

and two of the following:

HLTC19H3 Chronic Diseases*

HLTC42H3 Emerging Health Issues and Policy Needs*

HLTC43H3 Politics of Canadian Health Policy*

HLTC44H3 Comparative Health Policy Systems*

HLTC53H3 Creative Research Practices in Aging*

HLTC81H3 Health Professions and Practice*

HLTD26H3 Embodiment Across the Life Course*

* Students who choose to combine the Minor in Aging and Society with either the Major/Major Co-op in Health Policy or the Major/Major Co-op in Population Health are cautioned that, in accordance with degree regulations, they must ensure that the combination of programs used to meet the degree requirement include a minimum of 12.0 distinct credits.

In particular:

Students who combine the Minor with the Major/Major Co-op in Health Policy:

- Must complete one of HLTA20H3 or HLTB22H3.
- May apply the following to the completion of either the Major OR the Minor, but not both: HLTC19H3, HLTC42H3, HLTC43H3, HLTC44H3, HLTC53H3, HLTC81H3, and/or HLTD26H3.

Students who combine the Minor with the Major/Major Co-op in Population Health may apply the following courses to the completion of either the Major OR the Minor, but not both: HLTC19H3, HLTC81H3, and/or HLTD26H3.

MINOR PROGRAM IN HEALTH HUMANITIES (ARTS) - SCMIN2088

The Minor in Health Humanities provides an interdisciplinary exploration of human health and illness through the methods and materials of the creative arts, humanities, and critical social sciences. Students' understanding of the humanistic, philosophical, historical, and artistic study of health—past and present—will be developed by attending closely to how

literature, philosophy, history, and critical social sciences reveal the aesthetic, ethical, and multicultural contexts of health, disability, medical research and policy. This interdisciplinary Minor program is open to all undergraduates regardless of major or disciplinary backgrounds. See the following [website](#) for more information.

Students will note that some courses at the B-, C-, and D-levels may have additional prerequisites; therefore, students selecting the Minor as a Subject POST must choose their courses carefully to ensure that they have the necessary prerequisites. Permission to count courses indicated by an asterisk (*) towards the Minor in Health Humanities must be received from the Program Supervisor, and will be granted in cases where the student's work demonstrably engages Health Humanities-related content and/or research methods.

Note: Relevant Health Humanities-related courses selected from other academic units and disciplines, not already listed below, may be approved for the Minor in Health Humanities on a case-by-case basis. Please consult the Program Supervisor to determine the potential eligibility of relevant courses that are not listed below.

Program Requirements

This program requires the completion of 4.0 credits, as follows:

1. 1.5 credit in Core Concepts in Health Humanities

[HLTB50H3](#) Introduction to Health Humanities

[HLTC55H3](#) Methods in Arts-Based Research

[PHLB09H3](#) Biomedical Ethics

2. 0.5 credit in Critical Writing to be chosen from:

[ENGA02H3](#) Critical Writing about Literature

[ENGB02H3](#) Effective Writing in the Sciences

3. At least 0.5 credit at the C-level to be chosen from the following*:

[ANTC24H3](#) Culture, Mental Illness, and Psychiatry

[ANTC61H3](#) Medical Anthropology: Illness and Healing in Cultural Perspective

[HLTC20H3](#) Global Disability Studies

[HLTC50H3](#) The Human-Animal Interface

[HLTC52H3](#) Special Topics in Health Humanities

[HLTC53H3](#) Creative Research Practices in Aging

[HLTC56H3](#) Drawing Illness

[HLTC60H3](#) Disability History

[MUZC02H3](#)/(VPMC02H3) Music, Health and Wellness

[WSTC12H3](#) Writing the Self: Global Women's Autobiographies

[WSTC40H3](#) Gender and Disability

4. 0.5 credit at the D-level to be chosen from the following*:

[ANTD01H3](#) The Body in Culture and Society

[ANTD10H3](#) The Anthropology of 'Life' Itself

[ENGD12H3](#) Topics in Life Writing

[HLTD07H3](#) Advanced Rehabilitation Sciences: Disability Studies and Lived Experiences of 'Normalcy'

[HLTD50H3](#) Advanced Topics in Health Humanities

[HLTD51H3](#) Aging and the Arts

[HLTD52H3](#) Health Histories

[HLTD53H3](#) Advanced Topics in Health Humanities

[HLTD54H3](#) Toronto's Stories of Health and Illness

[HLTD56H3](#) Health Humanities Workshop: Documentary & Memoir

[HLTD80H3](#) Critical Health Education

5. 1.0 credits to be chosen from the following*:

[ANTC24H3](#) Culture, Mental Illness, and Psychiatry (if not used to complete Requirement 3)

[ANTC61H3](#) Medical Anthropology: Illness and Healing in Cultural Perspective (if not used to complete Requirement 3)

[ANTD01H3](#) The Body in Culture and Society (if not used to complete Requirement 3)

[ANTD10H3](#) The Anthropology of 'Life' Itself (if not used to complete Requirement 3)

[CTLB03H3](#) Introduction to Service Learning

[ENGA02H3](#) Critical Writing about Literature (if not used to complete Requirement 2)

[ENGB02H3](#) Effective Writing in the Sciences (if not used to complete Requirement 2)

[ENGB12H3](#) Life Writing

[ENGB52H3](#) Literature and Science

[ENGB74H3](#) The Body in Literature and Film

[ENGD12H3](#) Topics in Life Writing (if not used to complete Requirement 4)

FLMC44H3 Self and Other in Literature and Film
HLTB30H3 Current Issues in Health
HLTB42H3 Perspectives of Culture, Illness and Healing
HLTB60H3 Introduction to Interdisciplinary Disability Studies
HLTC04H3 Qualitative Research in Action
HLTC20H3 Global Disability Studies (if not used to complete Requirement 3)
HLTC47H3 Institutional Ethnography in Action
HLTC50H3 The Human-Animal Interface (if not used to complete Requirement 3)
HLTC52H3 Special Topics in Health Humanities (if not used to complete Requirement 3)
HLTC53H3 Creative Research Practices in Aging (if not used to complete Requirement 3)
HLTC56H3 Drawing Illness (if not used to complete Requirement 3)
HLTC60H3 Disability History (if not used to complete Requirement 3)
HLTD01H3 Directed Readings in Health and Society**
HLTD06H3 Migration, Medicine, and the Law
HLTD07H3 Advanced Rehabilitation Sciences: Disability Studies and Lived Experiences of 'Normalcy' (if not used to complete Requirement 4)
HLTD50H3 Advanced Topics in Health Humanities (if not used to complete Requirement 4)
HLTD51H3 Aging and the Arts (if not used to complete Requirement 4)
HLTD52H3 Health Histories (if not used to complete Requirement 4)
HLTD53H3 Advanced Topics in Health Humanities (if not used to complete Requirement 4)
HLTD54H3 Toronto's Stories of Health and Illness (if not used to complete Requirement 4)
HLTD56H3 Health Humanities Workshop: Documentary & Memoir (if not used to complete Requirement 4)
HLTD71Y3 Directed Research in Health and Society **
HLTD80H3 Critical Health Education (if not used to complete Requirement 4)
MUZC02H3/(VPMC02H3) Music, Health and Wellness
WSTC12H3 Writing the Self: Global Women's Autobiographies (if not used to complete Requirement 3)
WSTC40H3 Gender and Disability (if not used to complete Requirement 3)

Notes:

1. The courses listed in requirements 3, 4, and 5 (designated with a *) engage methods, content, and/or issues relevant to arts and humanities-based approaches to health. They provide students with the opportunity to explore more specialized topics related to Health Humanities based on their academic interests and professional aspirations.
2. 0.5 credit can be earned by taking for-credit fine arts classes (e.g., music performance, visual arts, creative writing, etc).
3. Permission to count CLTB03H3 (**), HLTB30H3 (**), HLTD01H3, (**) or HLTD71Y3 (**) towards the Minor in Health Humanities must be received from the Program Supervisor. Permission will be granted only in cases where the student's work demonstrably engages Health Humanities-related content and/or research methods.

CERTIFICATE IN PATHWAYS TO HEALTH PROFESSIONS - SCCER1110

Students will be admitted to the Certificate directly from high school. Students will select the Certificate in combination with specified science (HBSc) programs at the time of application to UTSC and will be enrolled directly into the Certificate in their first year of study after accepting their offer to UTSC and will need to be admitted to and maintain good standing in one of the programs below to remain in the certificate. Only students entering UTSC directly from high school in September 2024 and after are eligible for enrolment in this certificate.

The Certificate must be taken in conjunction with a Major/Major (Co-op) or Specialist/Specialist (Co-op) in one of the following programs:

- Biochemistry
- Biology
- Chemistry
- Conservation & Biodiversity
- Environmental Chemistry
- Environmental Geoscience
- Environmental Science
- Evolutionary Anthropology
- Global Environmental Change

- Population Health
- Human Biology
- Integrative Biology
- Medicinal & Biological Chemistry
- Mental Health Studies
- Molecular Biology & Biotechnology
- Molecular Biology, Immunology & Disease
- Neuroscience
- Plant Biology
- Psycholinguistics
- Psychology

Students must complete a minimum of 2.0 credits, including at least 0.5 credit at the C- or D-level, as follows:

1. *0.5 credit from Complex Systems, Structures and Settings:*

- ANTA02H3: Introduction to Anthropology: Society, Culture and Language
- ANTC24H3: Culture, Mental Illness, and Psychiatry
- ANTD16H3: Biomedical Anthropology
- EESA06H3: Introduction to Planet Earth
- EESA10H3: Human Health and Environment
- EESA11H3: Environmental Pollution
- EESB16H3: Feeding Humans – The Cost to the Planet
- EESC04H3: Biodiversity and Biogeography
- IDSB04H3: Introduction to International/Global Health
- GGRB28H3: Geographies of Disease
- HLTB40H3: Health Policy and Health Systems
- HLTC42H3: Emerging Health Issues and Policy Needs
- HLTC43H3: Politics of Canadian Health Policy
- HLTC44H3: Comparative Health Policy Systems
- HLTD04H3: Advanced Topics in Health and Society
- HLTD40H3: The Politics of Care, Self-Care and Mutual Aid
- HLTD81H3: Health Professions Education
- (MDSA01H3)/MDSA10H3: Media Foundations
- MGTA01H3: Introduction to Business
- POLD59H3: Politics of Disability
- VPAA10H3: Introduction to Arts and Media Management

2. *0.5 credit from Cultures, Communities and Care:*

- ACMB10H3: Equity and Diversity in the Arts
- ANTA01H3: Introduction to Anthropology, Becoming Human
- ANTB64H3: Are You What You Eat? The Anthropology of Food
- ANTC61H3: Medical Anthropology: Illness and Healing in Cultural Perspective
- ANTD26H3: Caveman, Farmer, Herder, Trader: Evolution of Diet in Society
- CITB03H3: Social Planning and Community Development
- GGRD10H3: Health & Sexuality
- HISC27H3: The History of European Sexuality: From Antiquity to the Present
- HLTB41H3: Social Determinants of Health
- HLTB42H3: Perspectives of Culture, Illness and Healing
- HLTB60H3: Introduction to Interdisciplinary Disability Studies
- HLTC22H3: Health, Aging, and the Life Cycle
- HLTD18H3: Dental Sciences
- HLTD47H3: Advanced Topics in Health and Wellness
- PHLB12H3: Philosophy of Sexuality
- PHLC07H3: Death and Dying
- POLC43H3: Prejudice and Racism
- PSYA02H3: Introduction to Clinical, Developmental, Personality and Social Psychology

- PSYB32H3: Introduction to Clinical Psychology
- PSYC14H3: Cross-Cultural Social Psychology
- PSYC15H3: Foundations in Community Psychology
- PSYC18H3: Psychology of Emotion
- PSYC19H3: Psychology of Self Control
- PSYC34H3: Psychology of Happiness and Meaning
- PSYD10H3: Community and Applied Social Psychology
- PSYD13H3: The Psychology of Emotion Regulation
- SOCB22H3: Sociology of Gender
- SOCB47H3: Social Inequality
- SOCB49H3: Sociology of Family
- SOCC49H3/HLTC49H3: Indigenous Health
- WSTB11H3: Intersections of Inequality

3. 0.5 credit from *Critical and Creative Thinking*:

- ANTB14H3: Evolutionary Anthropology
- ANTB15H3: Contemporary Human Evolution and Variation
- ANTC62H3: Medical Anthropology: Biological and Population Perspectives
- ANTC68H3: Deconstructing Epidemics
- BIOB20H3: Introduction to Computational Biology
- BIOC70H3: An Introduction to Bias in STEMM (Science, Technology, Engineering, Mathematics and Medicine)
- BIOD59H3: Models in Ecology, Epidemiology, and Conservation
- CHMD89H3: Introduction to Green Chemistry
- CSCB20H3: Introduction to Web Development and Applications
- ENGB52H3: Literature and Science
- HLTB15H3: Health Research Methodologies
- HLTC81H3: Health Professions and Practice
- JOUA01H3: Introduction to Journalism and News Literacy I
- LINB30H3: Programming for Linguists
- MATA02H3: The Magic of Numbers
- PHLA10H3: Reason and Truth
- PHLA11H3: Introduction to Ethics
- PHLB09H3: Biomedical Ethics
- PHLC10H3: Topics in Bioethics
- PHLD09H3: Advanced Seminar in Bioethics
- PSYB03H3: Introduction to Computers in Psychological Research
- PSYB80H3: Psychology in Context
- PSYC03H3: Computers in Psychological Research: Advanced Topics
- PSYC13H3: Social Cognition: Understanding Ourselves and Others
- STAB22H3: Statistics I
- STAB52H3: An Introduction to Probability
- STAB53H3: Introduction to Applied Probability

4. 0.5 credit from *Communication and Leadership*:

- ENGB02H3: Effective Writing in the Sciences
- HLTD49H3: Global Health Governance: Thinking Alongside the World's Leaders
- MGEB32H3: Economic Aspects of Public Policy
- MGTA02H3: Managing the Business Organization
- PHLB06H3: Business Ethics
- PHLB58H3: Reasoning Under Uncertainty
- POLC13H3: Program Evaluation
- PSYB38H3: Introduction to Behaviour Modification
- PSYC02H3: Scientific Communication in Psychology
- PSYC10H3: Judgment and Decision-Making
- PSYD19H3: The Science of Behaviour Change

Additional course options may be added in future years.

In addition to the formal curricular components, students are encouraged to participate in at least one of each of the following areas to complement their work in the certificate and build a cohort experience:

- participation in a community of practice or service activity recognized on the Co-curricular Record;
- professional development workshop or learning module offered by at UofT Scarborough or tri-campus office;
- annual program events, including a capstone event upon completion of the certificate.

Health and Society Courses

HLTA02H3 - Exploring Health and Society: Theories, Perspectives, and Patterns

This is the initial component of a two-part series dedicated to the exploration of theories, contemporary themes, and analytical methodologies associated with the study of health-related matters. Areas of focus encompass the social and biological determinants of health, globalization and international health issues, health technology and information systems, and fundamentals of epidemiology.

Exclusion: HST209H1

Breadth Requirements: Social and Behavioural Sciences

HLTA03H3 - Navigating Health and Society: Research, Practice, and Policy

This course marks the continuation of a two-part series that seeks to provide an understanding of inquiry and analysis, practical applications, and policy formulation as it

pertains to the study of health-related matters. Areas of focus encompass foundational concepts in research methodology, the Canadian health care system and practical approaches, international comparisons, political systems, and ethical considerations.

Prerequisite: HLTA02H3

Breadth Requirements: Social and Behavioural Sciences

HLTA20H3 - Physiology Through the Life Course: From Birth Through Death

An introduction to human functional processes will be presented through the various stages of the life cycle. Focusing on the body's complex interacting systems, the physiology of all stages of human development, from prenatal development to adolescence to death, will be covered. Students will also develop a working scientific vocabulary in order to communicate effectively across

health disciplines.

This course is intended for students who have not previously taken a course in Physiology.

Prerequisite: Grade 12 Biology

Exclusion: Any course in Physiology across the campuses.

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Students that have not taken Grade 12 Biology must enroll and successfully pass BIOA11H3 before enrolling in HLTA20H3.

HLTA91H3 - A Healthy Campus for Students: Prioritizing Mental Health and Wellness

Students need to be and feel part of a community that allows them to flourish and thrive. This course focuses on creating a healthy campus community by equipping students with practical knowledge, theoretical frameworks, and skills to prioritize their mental health, physical health, and self-care activities. Emphasis is placed on examining theoretical frameworks and practical activities that ameliorate mental health and self care practices, particularly those included in UTSC's Healthy Campus Initiative Pillars (i.e. Arts & Culture, Equity & Diversity, Food & Nutrition, Mental Health, Physical Activity, and Physical Space). Drawing on theoretical frameworks and current peer-reviewed research from fields including medicine, psychology, nutrition, exercise and fitness, as well as social and cultural studies, students will learn to debate and integrate theoretical and practical concepts relevant to contemporary understandings of what it means to be healthy. In addition, students will engage in experiential learning activities that will expose them to campus resources in ways that they can apply to creating healthy communities.

Exclusion: (CTLA10H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Note: This is an experiential learning course and active participation may be required

HLTB11H3 - Human Nutrition

An introductory course to provide the fundamentals of human nutrition to enable students to understand and

think critically about the complex interrelationships between food, nutrition, health, and environment.

Prerequisite: [HLTA02H3](#) and [HLTA03H3](#)

Exclusion: NFS284H1

Recommended Preparation: [BIOA01H3](#) or [BIOA11H3](#)

Breadth Requirements: Natural Sciences

HLTB15H3 - Health Research Methodology

The objective of this course is to introduce students to the main principles that are needed to undertake health-related research. Students will be introduced to the concepts and approaches to health research, the nature of scientific inquiry, the role of empirical research, and epidemiological research designs.

Prerequisite: [[HLTA02H3](#) and [HLTA03H3](#)] or [any 4.0 credits, including [SOCB60H3](#)]

Exclusion: (HLTA10H3)

Breadth Requirements: Social and Behavioural Sciences

HLTB16H3 - Public Health

This course will present a brief history about the origins and development of the public health system and its role in health prevention. Using a case study approach, the course will focus on core functions, public health practices, and the relationship of public health with the overall health system.

Prerequisite: [HLTA02H3](#) and [HLTA03H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTB20H3 - Human Biological Variation and Evolution

This course will explore biological variation in the genus *Homo* from evolutionary and anthropological perspectives. Topics such as human adaptability, genetic variation and evolution, the non-existence of biological race, and the ecogeographic patterning of human phenotypic variation will be covered.

Science credit

Same as [ANTB15H3](#)

Prerequisite: [ANTA01H3](#) or [[HLTA02H3](#) and [HLTA03H3](#)]

Exclusion: [ANTB15H3](#), [ANT203Y](#)

Breadth Requirements: Natural Sciences

HLTB22H3 - Biological Determinants of Health

This course is an introduction to the basic biological principles underlying the origins and development of both infectious and non-infectious diseases in human populations. It covers population genetics and principles of inheritance.

Prerequisite: [HLTA02H3](#) and [HLTA03H3](#) and [[BIOA11H3](#) or [BIOA01H3](#)]

Breadth Requirements: Natural Sciences

HLTB24H3 - Aging with Agility

This course uses a life-course perspective, considering diversity among mature adults and accounting for the influence of cultural and economic inequity on access to resources, to examine what it means to sustain an age-friendly community. Sample topics covered include: environmental gerontology, global aging, demographics of aging, aging in place, and sustainable aging.

Prerequisite: [HLTA03H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

HLTB27H3 - Applied Statistics for Public Health

This is a survey course in population health numeracy. This course will build upon foundational statistical knowledge and offers students the opportunity to both understand and apply a range of techniques to public health research. Topics include hypothesis testing, sensitivity/specificity, regression (e.g., logistic regression), diagnostics and model fitting, time-to-event analysis, basic probability theory including discrete and continuous random variables, sampling, and conditional probability and their use and application in public health.

Prerequisite: [[HLTA03H3](#) and [STAB23H3](#)] or [[HLTA02H3](#) and [STAB23H3](#) and enrollment in the Paramedicine Specialist Program]

Recommended Preparation: [HLTB15H3](#) and introductory programming

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

HLTB30H3 - Current Issues in Health and Society

An interdisciplinary consideration of current and pressing issues in health, including health crises, care, education, policy, research, and knowledge mobilization and translation. The course will focus on emerging questions

and research, with attention to local and global experts from a range of disciplines and sectors.

Recommended Preparation: [HLTA02H3](#) and [HLTA03H3](#)

Breadth Requirements: Arts, Literature and Language, Social and Behavioural Sciences

HLTB31H3 - Synergies Among Science, Policy, and Action

An interdisciplinary examination of a case study of a major contemporary health issue--the biological, physiological, social, economic, epidemiological, and environmental contexts of current and pressing issues in health, including health crises, care, education, policy, research, and knowledge mobilization and translation. This course will explore the science that underpins policy responses and actions and the policy and social change agendas that inform science, with attention to local and global experts from a range of disciplines and sectors.

Recommended Preparation: [HLTA02H3](#) and [HLTA03H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTB33H3 - Human Development and Anatomy

A lecture based course with online learning modules which deals with the functional morphology of the human organism. The subject matter extends from early embryogenesis through puberty to late adult life.

Prerequisite: [BIOA01H3](#) and [BIOA02H3](#) or [HLTA03H3](#) and [HLTA20H3](#)

Exclusion: ANA300Y, ANA301H, [BIOB33H3](#), [PMDB33H3](#)

Breadth Requirements: Natural Sciences

HLTB40H3 - Health Policy and Health Systems

This course focuses on public and private financing mechanisms for health care in Canada, emphasizing provincial differences and discussing the systems in place in other developed nations. Topics will include the forces of market competition and government regulation as well as the impact of health policy on key stakeholders. Students will also learn how to apply simple economic reasoning to examine health policy issues.

Prerequisite: [HLTA02H3](#) and [HLTA03H3](#)

Exclusion: HST211H1

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

HLTB41H3 - Social Determinants of Health

This course introduces students to Social Determinants of Health (SDOH) approaches to reducing health inequities, and improving individual and population health. Students will critically explore the social, political, economic, and historic conditions that shape the everyday lives, and influence the health of people.

Prerequisite: [HLTA02H3](#) and [HLTA03H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTB42H3 - Perspectives of Culture, Illness, and Healing

This course introduces students to anthropological perspectives of culture, society, and language, to foster understanding of the ways that health intersects with political, economic, religious and kinship systems. Topics will include ethnographic theory and practice, cultural relativism, and social and symbolic meanings and practices regarding the body.

Prerequisite: [HLTA02H3](#) and [HLTA03H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

HLTB44H3 - Pathophysiology and Etiology of Disease

This course focuses on functional changes in the body that result from the disruption of the normal balance of selected systems of the human body. Building on the knowledge of human biology, students will learn the biological basis, etiopathology and clinical manifestations of selected diseases and other perturbations, with a focus on cellular and tissue alterations in children.

Prerequisite: [HLTA02H3](#) and [HLTA03H3](#) and [HLTA20H3](#) and [BIOA11H3](#) or [BIOA01H3](#)

Recommended Preparation: Grade 12 Biology

Breadth Requirements: Natural Sciences

HLTB50H3 - Introduction to Health Humanities

An introduction to human health through literature, narrative, and the visual arts. Students will develop strong critical skills in text-centered methods of analysis (i.e., the written word, visual images) through topics including representations of health, illness narratives, death and dying, patient-professional relationships, technoscience, and the human body.

Prerequisite: Any 4.0 credits

Recommended Preparation: Prior experience in humanities courses at the secondary or post-secondary level.

Breadth Requirements: Arts, Literature and Language

Note: Preference will be given to students enrolled in a Health and Society program

HLTB60H3 - Introduction to Interdisciplinary Disability Studies

An introduction to interdisciplinary disability studies through humanities, social science, and fine arts, with a strong basis in a social justice orientation that understands disability as a relational, social, and historical symbolic category, and ableism as a form of oppression. Students will develop strong critical skills in interpretation and analysis of artworks (i.e., the written word, visual images, performance) and theoretical texts. Topics including representations of disability in media, including literature and film; medicalization and tropes of disability; disability activism; and intersectional analysis of disability in relation to gender, race, sexuality, ethnicity, and class.

Prerequisite: Completion of 2.0 credits

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Students considering a Major Program in Health and Society should complete [HLTA02H3](#) and [HLTA03H3](#) prior to enrolling in this course.

Preference will be given to students enrolled in a Health and Society program.

HLTB80H3 - Paramedicine as a Community Based Health and Social Service

This course introduces students to the foundational principles shaping paramedicine in Canada. Emphasizing patient-centered care, integration within healthcare systems, and the continuum of health and social services, the course explores the evolving healthcare and professional landscape and paramedicine's role within it. Students will also learn about the guiding principles for effective paramedicine, including professional autonomy, community health prioritization, evidence-informed practice, social responsiveness, prioritizing the health professionals and how quality is determined. The course aims to provide an understanding of paramedicine as it exists and how it is evolving in several areas. Designed for paramedic students (and other 2nd year students), this course emphasizes evolving paramedicine to meet modern healthcare challenges effectively and prepares learners for future studies by establishing a strong foundation in the values and direction of modern paramedicine.

Prerequisite: [HLTA02H3](#) and [HLTA03H3](#) and [HLTB27H3](#)

Corequisite: [HLTB40H3](#)

Breadth Requirements: Social and Behavioural Sciences

Note: This course is designed for paramedicine students and therefore priority should be given to students enrolled in the Joint Paramedicine Specialist degree program with Centennial College. However, other students in health policy, population health or health humanities streams can enroll in this course. Understanding how health professions exist in the healthcare system, provides a mechanism (of many) for how health is achieved. Students in all streams will be given an opportunity to understand why and how paramedicine as a community-based health and social service can contribute to broader health system goals, including attending to disparities. This will assist students (and future graduates) to explore various strategies when navigating change in the health care system.

HLTC02H3 - Women and Health: Past and Present

This course uses historical, anthropological, philosophical approaches to further understand the relationships intertwining women, health and society. Women's interactions with the health sector will be examined. Particular attention will be devoted to the social and gender construction of disease and the politics of women's health.

Prerequisite: [HLTB41H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTC04H3 - Qualitative Health Research

This course explores qualitative research methodologies and methods in health research. From an interpretive lens, students will examine different qualitative research approaches (such as phenomenology, grounded theory or ethnography), learn data collection methods (such as focus groups, interviews, observational methods and document analysis), gain skills with data interpretation, and other aspects of ethical research practices in qualitative health research.

Prerequisite: [HLTB15H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTC16H3 - Health Information Systems

An introduction to the fundamental concepts in health informatics (HI) and the relevance of HI to current and future Canadian and international health systems. Students will be introduced to traditional hospital-based/clinician-based HI systems, as well as present and emerging applications in consumer and public HI, including global applications.

Prerequisite: HLTB16H3

Breadth Requirements: Natural Sciences

HLTC17H3 - Rehabilitation Sciences

This course will provide students with an introduction to the rehabilitation sciences in the Canadian context. Students will gain knowledge regarding the pressing demographic needs for rehabilitation services and research, as well as the issues affecting the delivery of those services.

Prerequisite: HLTB16H3

Breadth Requirements: Natural Sciences

HLTC19H3 - Chronic Diseases

This course will introduce students to the regional, national, and global patterns of chronic disease and demonstrate how demography, behaviour, socio-economic status, and genetics impact patterns of chronic disease in human populations. Using epidemiological studies we will examine these patterns, assess their complex causes, and discuss strategies for broad-based preventative action.

Prerequisite: HLTB22H3 or HLTB41H3

Exclusion: (HLTC07H3), (HLTC21H3)

Breadth Requirements: Natural Sciences

HLTC20H3 - Global Disability Studies

This course considers how the category of disability works globally across geographic locations and cultural settings. Combining an interdisciplinary social justice-oriented disability studies perspective with a critical decolonial approach, students continue to develop an understanding of disability as a relational, social, and historical symbolic category, and ableism. Students will develop strong critical skills in interpretation and analysis of both social science texts, works of theory, and artworks (i.e., the written word, visual images, performance). Topics including representations of disability in global and diasporic media, including literature and film; medicalization and tropes of disability across cultures; human rights and disability activism around the world; and intersectional analysis of disability in relation to gender, race, sexuality, ethnicity, and class in diverse global contexts.

Prerequisite: HLTB60H3

Breadth Requirements: History, Philosophy and Cultural Studies

HLTC22H3 - Health, Aging, and the Life Cycle

This course focuses on the transition from birth to old age and changes in health status. Topics to be covered

include: socio-cultural perspectives on aging, the aging process, chronic and degenerative diseases, caring for the elderly.

Prerequisite: HLTB22H3 or HLTB41H3

Exclusion: (HLTB01H3), HST308H1

Breadth Requirements: Social and Behavioural Sciences

HLTC23H3 - Child Health and Development

This course will explore bio-social aspects of health and development in children. Topics for discussion include genetics and development, growth and development, childhood diseases, the immune system, and nutrition during the early years.

Prerequisite: HLTB22H3 or HLTB41H3

Exclusion: (HLTB02H3)

Breadth Requirements: Social and Behavioural Sciences

HLTC24H3 - Environment and Health

Environmental issues are often complex and require a holistic approach where the lines between different disciplines are often obscured. The environment, as defined in this course, includes the natural (biological) and built (social, cultural, political) settings. Health is broadly defined to include the concept of well-being. Case studies will be used to illustrate environment and health issues using an ecosystem approach that includes humans as part of the ecosystem.

Prerequisite: HLTB22H3

Exclusion: (ANTB56H3), (HLTB04H3)

Breadth Requirements: Natural Sciences

HLTC25H3 - Infectious Diseases

Adopting ecological, epidemiological, and social approaches, this course examines the impact of infectious disease on human populations. Topics covered include disease ecology, zoonoses, and the role of humans in disease occurrence. The aim is to understand why infectious diseases emerge and how their occurrence is intimately linked to human behaviours.

Prerequisite: HLTB22H3

Exclusion: (HLTB21H3)

Breadth Requirements: Natural Sciences

HLTC26H3 - Global Health and Human Biology

This course will apply students' knowledge of health, society, and human biology to solving real-life cases in global health, such as the Ebola outbreaks in Africa or the

acute toxic encephalopathy mystery illness among children in India. This case-study-oriented course will focus on the application of human biology principles in addressing current cases in global health.

Prerequisite: [HLTB22H3](#)

Exclusion: [HLTC28H3](#) if taken in the Winter 2018 or the Winter 2019 semester

Breadth Requirements: Natural Sciences

HLTC27H3 - Community Health and Epidemiology

Epidemiology is the study of the pattern and causes of health-related outcomes and the application of findings to improve public health. This course will examine the history of epidemiology and its principles and terminology, measures of disease occurrence, study design, and application of concepts to specific research areas.

Prerequisite: [[HLTB15H3](#) and [HLTB16H3](#) and [HLTB27H3](#)] or [enrolment in the Certificate in Computational Social Science]

Exclusion: [ANTC67H3](#)

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

HLTC28H3 - Special Topics in Health Sciences

An examination of a current topic relevant to health sciences. The specific topic will vary from year to year, and may include: Ecosystem Approaches to Zoonotic Disease; Climate Change and Health; Food Insecurity, Nutrition, and Health; Health and the Human-Insect Interface.

Prerequisite: [HLTB22H3](#)

Breadth Requirements: Natural Sciences

HLTC29H3 - Special Topics in Health Sciences

An examination of a current topic relevant to health sciences. The specific topic will vary from year to year, and may include: Ecosystem Approaches to Zoonotic Disease; Climate Change and Health; Food Insecurity, Nutrition, and Health; Health and the Human-Insect Interface.

Prerequisite: [HLTB22H3](#)

Breadth Requirements: Natural Sciences

HLTC30H3 - Understanding Cancer: From Cells to Communities

This course introduces students to the cellular and molecular mechanisms underlying cancer and how these

overlap with social and environmental determinants of health. This will allow for a wider exploration of risk factors and public health approaches to individual and population health. The social impact of cancer and the importance of patient advocacy and support will also be examined. This course will also delve into evolving concepts of cancer and breakthroughs in cancer therapies.

Prerequisite: [HLTB22H3](#)

Exclusion: [BIO477H5](#), [LMP420H1](#)

Recommended Preparation: [HLTB44H3](#)

Breadth Requirements: Natural Sciences

Course Experience: Partnership-Based Experience

HLTC31H3 - Pick Your Poison: Toxicology and Risk Assessment

This course explores several topics in toxicology with emphasis on exposure pathways, mechanisms of toxicity and effects of chemicals on human health. Through lectures, case studies and a semester-long project, this course covers principles of toxicology, models and methodologies used to investigate the toxicity of environmental chemicals, the mechanisms of toxicity of selected environmental chemicals, and the applications of toxicology in risk assessment.

Prerequisite: [[HLTA20H3](#) and [HLTB22H3](#)] or [HLTB44H3](#) or [BIOB10H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTC42H3 - Emerging Health Issues and Policy Needs

This course takes an interdisciplinary approach to helping students prepare to tackle complex emerging health issues and to explore ways of addressing these issues through public policy. A range of contemporary and newly-emerging health issues are discussed and analyzed in the context of existing policy constraints within Canada and worldwide.

Prerequisite: [HLTB40H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTC43H3 - Politics of Canadian Health Policy

This course examines the role of all levels of Canadian government in health and health care. The impact of public policies, health care policy, and access to health care services on the health of populations is considered. The course also examines the role of political parties and social movements in the policy change process.

Prerequisite: [HLTB40H3](#)

Exclusion: ([POLC55H3](#)), ([HLTC03H3](#))

Breadth Requirements: Social and Behavioural Sciences

HLTC44H3 - Comparative Health Policy Systems

This course surveys a selection of health care systems worldwide in relation to financing, reimbursement, delivery systems and adoption of new technologies. In this course students will explore questions such as: which systems and which public/private sector mixes are better at achieving efficiency and equity? How do these different systems deal with tough choices, such as decisions about new technologies? The set of international health care systems we focus on are likely to vary by term but will include a subset of OECD countries as well as countries with large populations that are heavily represented in Toronto such as China and India.

Prerequisite: [HLTB40H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTC46H3 - Globalization, Gender, and Health

This interdisciplinary course draws on diverse theoretical and analytical approaches that span the humanities, social sciences and life sciences to critically explore the diverse relationships between gender and health, in local and global contexts. Particular attention is given to intersections between sex, gender and other social locations and processes that impact health and health inequities across the lifespan, including the impacts of ableism, colonialism, hetero-normativity, poverty, racialization, and sexism on women's and men's health, and related health research and practice. Through course readings, case studies, group discussions, class activities, and course assignments, students will apply these theoretical lenses and develop analytical skills that : (1) advance a more contextualized understanding of gender and health across the lifespan, (2) provide important insights into gendered health inequities, and (3) speak to strategies and social movements that begin to address these challenges.

Prerequisite: [HLTB41H3](#) or [IDSB04H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTC47H3 - Institutional Ethnography in Action

How can we empirically research and understand the powers shaping the social organization of daily life? Engaging with the theory and methods pioneered by Canadian feminist sociologist Dorothy Smith, students learn to analyze and document how health care, social services, education, financial, pharmaceutical, psychiatry, labor, legal aid, criminal justice, emergency, and

immigration systems frame and shape their everyday lives.

Prerequisite: [HLTB42H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTC48H3 - Special Topics in Health and Society

An examination of a current topic relevant to health and society. The specific topic will vary from year to year. Topics may include: Social Justice and Health Activism; Climate Change and Health; Labour, Precarity, and Health.

Prerequisite: [HLTB41H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTC49H3 - Indigenous Health

This course will examine the health and well-being of Indigenous peoples, given historic and contemporary issues. A critical examination of the social determinants of health, including the cultural, socioeconomic and political landscape, as well as the legacy of colonialism, will be emphasized. An overview of methodologies and ethical issues working with Indigenous communities in health research and developing programs and policies will be provided. The focus will be on the Canadian context, but students will be exposed to the issues of Indigenous peoples worldwide.

Same as [SOCC49H3](#)

Prerequisite: [HLTB41H3](#) or [[SOCB05H3](#) or [SOCB35H3](#)] and [0.5 credit from the following: [SOCB30H3](#) , [SOCB42H3](#), [SOCB43H3](#), [SOCB47H3](#)]

Exclusion: [SOCC49H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTC50H3 - The Human-Animal Interface

An intensive, interdisciplinary study of the human-animal relationship as represented through a range of literature, film, and other critical writings. Students will explore the theoretical underpinnings of "animality" as a critical lens through which human identity, health, and policy are conceptualized. Key topics include: animals in the human imagination, particularly in relation to health; animal-human mythologies; health, ethics, and the animal.

Prerequisite: [HLTB50H3](#)

Recommended Preparation: Prior experience in humanities courses at the secondary or post-secondary level.

Breadth Requirements: Arts, Literature and Language

HLTC51H3 - Special Topics in Health and Society

An examination of a current topic relevant to the study of health and society. The specific topic will vary from year to year.

Same as [SOCC51H3](#)

Prerequisite: [HLTB41H3](#) or [[SOCB05H3](#) or [SOCB35H3](#)] and [0.5 from [SOCB30H3](#), [SOCB42H3](#), [SOCB43H3](#), [SOCB47H3](#)]

Exclusion: [SOCC51H3](#)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Major programs in Health and Society

HLTC52H3 - Special Topics in Health Humanities

An examination of a current topic in Health Humanities. The specific topic will vary from year to year.

Prerequisite: [HLTB50H3](#)

Breadth Requirements: Arts, Literature and Language

HLTC53H3 - Creative Research Practices in Aging

In this course, we will examine older age from an arts-based humanistic perspective, with particular focus on the representation of older age in the arts, and the role of arts-based therapies, creative engagement, and humanities-informed research initiatives involving older people and/or the aging process.

Prerequisite: [HLTB50H3](#) or enrolment in the Minor in Aging and Society

Recommended Preparation: [HLTB15H3](#) and [HLTC55H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

HLTC55H3 - Methods in Arts-Based Health Research

This course introduces students to the practice of arts-based health research (ABHR), which involves the formal integration of creative art forms into health research methods and outcomes. Students will learn about the conceptual foundations of ABHR and explore various methods for generating, interpreting and representing health-related research (e.g., narrative, performance, visual arts, digital storytelling, or body mapping). With reference to concrete exemplars and experiential learning in creative forms, students will examine critical issues of methodological quality, evidence, research ethics,

implementation challenges, and opportunities for arts-based health research in Canada and the global context.

Prerequisite: [HLTB50H3](#)

Recommended Preparation: [HLTB15H3](#), [HLTC04H3](#), [PHLB09H3](#)

Breadth Requirements: Arts, Literature and Language

HLTC56H3 - Drawing Illness

For close to a century, comics as a medium have examined diverse topics, from the serious to the silly. Drawing Illness draws on interdisciplinary scholarship from disability studies, comics studies, comic histories, medical anthropology, history of medicine and public health to examine the ways in which graphic narratives have been utilized to tell a range of stories about illness, disability, grief, dying, death, and medicine.

Prerequisite: [HLTB50H3](#) or [[HLTB60H3](#) in combination with any course in Historical and Cultural Studies]

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

HLTC60H3 - Disability History

This course introduces students to disability history, a subfield within both history and the interdisciplinary field of disability studies. Students will use critical perspectives from disability studies to interpret how the concept of disability has changed over time and across cultures. This course understands disability as a social and political phenomenon and seeks to understand the experiences of disabled people in the past around the world. Students enrolled in this course will read secondary and primary source texts, and draw on lectures, films, memoirs, popular culture, and art to examine the social and cultural construction and experiences of disability. Students will also gain an understanding of how historians conduct research, and the methods and problems of researching disability history. Historical themes include colonialism, industrialization, war, and bureaucracy; regions and time periods studied will be selected at the discretion of the instructor.

Prerequisite: [HLTB60H3](#) or [[HLTB50H3](#) and any course in Historical and Cultural Studies]

Recommended Preparation: An A-level course in Health and Society or Historical and Cultural Studies

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

HLTC81H3 - Health Professions and Practice

This course introduces students to health professions and practice with a focus on understanding the roles and responsibilities of health professionals, their scope of

practices, and the key issues and challenges they face. The course will explore the evolution of healthcare delivery systems, the regulatory environment, and the ethical and professional considerations that impact the delivery of health care services through the lens of various health professions. Topics will also include the history and development of health professions and the interprofessional nature of health care delivery. The course will also examine, from the lens of various health professions, key issues and challenges facing health professionals such as health care disparities, health care reform, the use of technology, and other contemporary issues in healthcare.

Throughout the course students will engage in critical thinking, analysis, and discussion of current issues in health professions and practice. The course will also provide opportunities for students to explore potential career paths within the healthcare field and to develop skills necessary for success in health professions such as communication, teamwork and cultural competence.

Prerequisite: HLTB40H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

HLTD01H3 - Directed Readings in Health and Society

This is an advanced reading course in special topics for upper level students who have completed the available basic courses in Health and Society and who wish to pursue further intensive study on a relevant topic. Topic selection and approval will depend on the supervising instructor.

Prerequisite: Completion of at least 6.0 credits, including at least 1.5 credits at the C-level from the program requirements from one of the Major/Major Co-op programs in Health and Society; students must also have achieved a minimum CGPA of 2.5 and have permission of an instructor for enrollment.

HLTD02H3 - Health Research Seminar

Provides senior students with the opportunity to apply methodological skills to a health research problem. Students will give presentations of their research proposals, and there may be a guest seminar on health research projects.

Prerequisite: Completion of at least 1.5 credits at the C-Level in HLT courses from the program requirements from one of the Major/Major Co-op programs in Health and Society

Course Experience: University-Based Experience

HLTD04H3 - Advanced Topics in Health and Society

The topics presented in this course will represent a range of contemporary issues in health research. Topics will vary by instructor and term.

Prerequisite: Completion of at least 1.5 credits at the C-Level in HLT courses from the program requirements from one of the Major/Major Co-op programs in Health and Society

HLTD05H3 - Directed Research on Health Services and Institutions

Provides students with the opportunity to analyze work of health institutions. Students taking this course will arrange, in consultation with the instructor, to work as a volunteer in a health institution. They will write a major research paper related to some aspect of their experience.

Prerequisite: Completion of at least 1.5 credits at the C-Level in HLT courses from the program requirements from one of the Major/Major Co-op programs in Health and Society and a minimum cGPA of 2.5 and permission of the instructor

Exclusion: (HLTC01H3)

Course Experience: Partnership-Based Experience

HLTD06H3 - Migration, Medicine, and the Law

How does cultural representation and social construction shape understandings of persons with chronic illness, disability and genetic difference? Engaging with history and the present cross-culturally, students learn about language and framing; lay and medical knowledge; family memory and public secrets; the professions and immigration medicine; front-line bureaucracy and public health authority; asymptomatic disease and stigmatized illness; and dual loyalty dilemmas and institutionalized medicine.

Prerequisite: 1.5 credits from the following: ANTC24H3, ANTC61H3, HLTC02H3, HLTC20H3, HLTC46H3, or IDSC11H3

Recommended Preparation: HLTB42H3

Breadth Requirements: Social and Behavioural Sciences

HLTD07H3 - Advanced Rehabilitation Sciences: Disability Studies and Lived Experiences of 'Normalcy'

This course builds on HLTC17H3 by examining rehabilitation from the perspectives of researchers, clinicians, and clients. The course focuses on the

historical role of rehabilitation, not only in improving health, but also in perpetuating the goal of 'normalcy'. Students will examine how rehabilitation impacts people, both at an individual and societal level, and explore the field of disability studies and its critical engagement with the message that disabled people "need to be repaired."

Prerequisite: HLTC17H3 and an additional 1.0 credit at the C-level in HLT courses from the program requirements from one of the Major/Major Co-op programs in Health and Society

Exclusion: HLTD47H3 if taken before Summer 2018

Breadth Requirements: Social and Behavioural Sciences

HLTD08H3 - Advanced Topics in Health Sciences

An examination of a current health sciences topic. The specific topic will vary from year to year, and may include: clinical epidemiology, an advanced nutrition topic, or the biology and population health impacts of a specific disease or illness condition.

Prerequisite: HLTC27H3 and an additional 1.0 credit at the C-Level from the program requirements from the Major/Major Co-op programs in Population Health

Recommended Preparation: HLTC19H3 or HLTC25H3

Breadth Requirements: Natural Sciences

HLTD09H3 - Population Perspectives on Reproductive Health

Reproductive health is defined by the World Health Organization as physical, mental, and social wellbeing across the life course in all domains related to the reproductive system. This course will draw on theories and methods from demography, epidemiology, medicine, and public health to examine the determinants and components of reproductive health. A particular emphasis will be placed on sexual health, family planning, preconception health, and perinatal health and on how these are understood in the context of a growing global population.

Prerequisite: HLTC27H3 and 1.0 credit at the C-level in HLT courses from the requirements of the Major/Major Co-op programs in Population Health

Breadth Requirements: Natural Sciences

HLTD11H3 - Program and Policy Evaluation

This course provides an introduction to the field of program and policy evaluation. Evaluation plays an important role in evidence based decision making in all aspects of society. Students will gain insight into the theoretical, methodological, practical, and ethical aspects of evaluation across different settings. The relative

strengths and weaknesses of various designs used in applied social research to examine programs and policies will be covered.

Same as SOCD11H3

Prerequisite: [[STAB22H3 or STAB23H3] and [0.5 credit from HLTC42H3, HLTC43H3, HLTC44H3] and [an additional 1.0 credit at the C-level from courses from the Major/Major Coop programs in Health Policy]] or [10.0 credits and [SOCB05H3 and SOCB35H3] and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, or SOCB47H3]]

Exclusion: SOCD11H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

HLTD12H3 - Advanced Topics in Health and Society

The topics presented in this course will represent a range of contemporary issues in health research. Topics will vary by instructor and term.

Prerequisite: Completion of 1.5 credits at the C-Level in HLT courses from the program requirements from one of the Major/Major Co-op programs in Health and Society

Breadth Requirements: Social and Behavioural Sciences

HLTD13H3 - Advanced Topics in Global Health and Human Biology

An examination of a current topic relevant to global health, especially diseases or conditions that predominately affect populations in low-income countries. The specific topics will vary from year to year, and may include: HIV/AIDS; insect-borne diseases; the biology of poverty and precarity. The course will provide students with relevant information about social context and health policy, but will focus on the processes of disease transmission and its biological impact on human health.

Prerequisite: HLTC26H3 and an additional 1.0 credit at the C-level from the programs requirements from the Major/Major Co-op programs in Population Health

Breadth Requirements: Natural Sciences

HLTD18H3 - Dental Sciences

Dentistry is one of the oldest branches of medicine responsible for the treatment of diseases of oral cavity. This course will introduce students to the key concepts as well as the latest research in the dental sciences, including but not limited to craniofacial structures, bone physiology, odontogenesis, pathogenesis of oral diseases, and technology in dental sciences.

Prerequisite: [HLTB44H3](#), [HLTC19H3](#), [HLTC23H3](#) and 0.5 credit in any Physiology course] or [BIOC32H3](#) and [BIOC34H3](#)

Exclusion: HMB474H1

Recommended Preparation: [ANTC47H3](#), [ANTC48H3](#), [BIOB33H3](#), and a working background in chemistry, biochemistry, genetics, and principles of inheritance would be beneficial

Breadth Requirements: Natural Sciences

HLTD20H3 - Advanced Topics in Sex, Gender, and the Life Course

An examination of a current health topic relevant to sex, gender, and the life course. The specific topic will vary from year to year, and topics may include: reproductive health; the biology and health impacts of aging; infant feeding, weaning, and nutrition; sexual health among youth. The course will provide students with relevant information about social context and health policy, but will focus on biological processes at specific life stages.

Prerequisite: 1.5 credits at the C-level from the program requirements from the Major/Major Co-op programs in Population Health

Breadth Requirements: Natural Sciences

HLTD21H3 - Advanced Topics in Health and Society

The topics presented in this course will represent a range of contemporary issues in health research. Topics will vary by instructor and term.

Prerequisite: 1.5 credits at the C-level from the program requirements from the Major/Major Co-op programs in Health and Society

Breadth Requirements: Social and Behavioural Sciences

HLTD22H3 - Advanced Topics in Health and Society

The topics presented in this course will represent a range of contemporary issues in health research. Topics will vary by instructor and term.

Prerequisite: 1.5 credits at the C-level from the program requirements from the Major/Major Co-op programs in Health and Society

Breadth Requirements: Social and Behavioural Sciences

HLTD23H3 - Indigenous Peoples: Pandemics, Epidemics, and Outbreaks

This course will examine pandemics, epidemics, and outbreaks of contagious infectious diseases, specifically

viruses (i.e. HIV, Ebola, SARS, hantavirus, smallpox, influenza) among Indigenous Peoples. Students will learn about the social, cultural, and historical impacts of the virus on Indigenous peoples and their communities with regards to transmission, treatment and prevention, public health measures and strategies, as well as ethical issues.

Prerequisite: [HLTC25H3](#) and 1.0 credit at the C-level from the program requirements from the Major/Major Co-op programs in Population Health

Corequisite: [HLTC27H3](#)

Recommended Preparation: [HLTC49H3](#)/[SOCC49H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTD25H3 - Advanced Topics in Environmental Health

The didactic portion of this course will examine emerging environmental health issues using case studies. In the hands-on portion of the course, students will learn a range of research skills - how to use the Systematic Reviews and Meta-Analyses (PRISMA) guidelines, evidence-based health and best practices, and the different elements of a successful grant proposal - while honing their researching, writing, and presenting skills.

Prerequisite: [HLTC24H3](#) with a minimum GPA of 2.7 (B-)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

HLTD26H3 - Embodiment Across the Life Course

This course will introduce students to key conceptual and methodological approaches to studying experiences of embodiment at different points in the life course. It draws on range of social and cultural perspectives on bodily activity, exercise, disability, and representations of the body to encourage students to critically examine relationships between sociocultural dynamics and health.

Prerequisite: [HLTB15H3](#) and [HLTC22H3](#) and an additional 1.0 credit at the C-level from the program requirements from the Major/Major Co-op programs in Health and Society or enrolment in the Minor in Aging and Society

Exclusion: [HLTD12H3](#) if taken in the Winter 2019 semester

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in Health Studies programs offered by the Department of Health and Society

HLTD27H3 - Food Security, Food Sovereignty, and Health

Food security is an important determinant of health and well being, and yet in many areas of the world there are

profound challenges to achieving it. Food sovereignty – the right of peoples to self-determined food production – has an important and complex relationship with food security. This course will examine the implications of food security and food sovereignty for health equity in the context of sub Saharan Africa.

Prerequisite: [HLTC26H3](#) and an additional 1.0 credit at the C-level from the program requirements from the Major/Major Co-op programs in Population Health

Exclusion: [HLTD22H3](#) if taken in Winter 2018 or Fall 2018 semester

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

HLTD28H3 - Innovations for Global Health

This course is designed to provide students with an in-depth knowledge of the role of technological and social innovations in global health. Through lectures, case studies, group projects and exciting guest lectures, students will gain an understanding of the process of developing and scaling technological and social innovations in low- and middle-income countries, taking into account the unique socio-cultural, financial and logistical constraints that are present in such settings.

Prerequisite: [HLTC26H3](#) and an additional 1.0 credit at the C-level from the program requirements from the Major/Major Co-op programs in Health and Society

Exclusion: [[HLTC47H3](#) if taken in Fall 2017 semester], [[HLTD04H3](#) if taken in Winter 2019 semester]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

HLTD29H3 - Advanced Topics in Inequality, Inequity, and Health

An examination of a current topic in inequality, inequity, marginalization, social exclusion, and health outcomes. Topics may include: health and homelessness, poverty and sexual health, political conflict and refugee health. The course will provide students with relevant information about social context and health policy, but will focus on the physical and mental health impacts of various forms of inequity.

Prerequisite: 1.5 credits at the C-level from the program requirements from the Major/Major Co-op programs in Health and Society

Breadth Requirements: Natural Sciences

HLTD40H3 - The Politics of Care, Self-Care, and Mutual Aid

Drawing on insights from critical social theory and on the experience of community partners, this course critically

explores the ethics, economics, and politics of care and mutual aid. The course begins with a focus on informal care in our everyday lives, including self-care. We then move on to interrogate theories of care and care work in a variety of settings including schools, community health centres, hospitals, and long-term care facilities. The course is interdisciplinary, drawing on insights from scholarship across the humanities, social sciences, medicine, and public health.

Prerequisite: 1.5 credits at the C-level from the program requirements from the Major/Major Co-op programs in Health Policy

Recommended Preparation: Interest in the Social Sciences or prior coursework in the Social Sciences.

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

HLTD44H3 - Environmental Contaminants, Vulnerability, and Toxicity

This course is designed to provide an in-depth understanding of the potential effects on human health of exposure to environmental contaminants, with special attention to population groups particularly vulnerable to toxic insults.

Prerequisite: [[ANTC67H3](#) or [HLTC27H3](#)] and [BIOB10H3](#) or [HLTB22H3](#)

Breadth Requirements: Natural Sciences

HLTD46H3 - Violence and Health: Critical Perspectives

Violence is a significant public health, human rights, and human development problem that impacts millions of people worldwide. Relying on a critical public health perspective, critical social theories, and local and global case studies on anti-oppression, this course explores structural (causes of) violence, the impact violence has on (public) health and human development, and societal responses to treatment, prevention, and social transformation.

Prerequisite: 1.5 credits at the C-level from the program requirements from the Major/Major Co-op programs in Health Policy

Recommended Preparation: [HLTC02H3](#) and [HLTC46H3](#)

Breadth Requirements: Social and Behavioural Sciences

HLTD47H3 - Advanced Topics in Health and Wellness

An examination of a current topic in health and wellness. Topics may include: disability, addiction, psychosocial wellbeing, social activism around health issues, Wellness

Indices, Community Needs and Assets Appraisals. The course will focus on the contributing historical, social, and/or cultural factors, as well as relevant health policies.

Prerequisite: 1.5 credits at the C-level from the program requirements from the Major/Major Co-op programs in Health and Society

Breadth Requirements: Social and Behavioural Sciences

HLTD48H3 - Advanced Topics in Global Health

An examination of a current topic in global health, especially a disease or condition that predominantly impacts populations in low-income countries. The specific topic will vary from year to year. Topics may include: HIV/AIDS; war and violence, insect-borne diseases; policies and politics of water and sanitation; reproductive health and population policies, etc. The course will focus on historical factors, socio-political contexts, and health policies.

Prerequisite: 1.5 credits at the C-level from the program requirements from the Major/Major Co-op programs in Health and Society

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

HLTD49H3 - Global Health Governance: Thinking Alongside the World's Leaders

This advanced seminar course explores contemporary topics in global health governance as they are being discussed and debated by world leaders at key international summits, such as the World Health Summit. After developing an understanding of the historical and political economy context of the main actors and instruments involved in global health governance, contemporary global health challenges are explored. Topics and cases change based on global priorities and student interests, but can include: the impact of international trade regimes on global health inequities; the role transnational corporations and non-governmental organizations play in shaping the global health agenda; the impact globalization has had on universal health care and health human resources in low-income countries; and health care during complex humanitarian crises.

Prerequisite: 0.5 credit from [HLTC02H3 or HLTC43H3 or HLTC46H3] and an additional 1.0 credit at the C-level from the program requirements from the Major/Major Co-op program in Health Policy

Breadth Requirements: Social and Behavioural Sciences

HLTD50H3 - Advanced Topics in Health Humanities

This advanced seminar will provide intensive study of a selected topic in and/or theoretical questions about the health humanities. Topics will vary by instructor and term but may include narrative medicine, stories of illness and healing, representations of older age and aging in literature and film, AIDS and/or cancer writing, representations of death and dying in literature and film, and the role of creative arts in health.

Prerequisite: HLTB50H3 and an additional 1.5 credits at the C-level from the program requirements from the Minor program in Health Humanities

Breadth Requirements: Arts, Literature and Language

HLTD51H3 - Aging and the Arts

In this advanced seminar students will examine older age using the methods and materials of the humanities, with particular focus on: 1) the representation of aging and older age in the arts; and 2) the role of arts-based therapies and research initiatives involving older people and/or the aging process.

Prerequisite: HLTB50H3 and an additional 1.5 credits at the C-level from the program requirements from the Minor program in Health Humanities

Breadth Requirements: Arts, Literature and Language

HLTD52H3 - Health Histories

An examination of a health topic in historical perspective. The specific topics will vary from year to year, and may include: histories of race, racialization, and health policy; history of a specific medical tradition; or histories of specific health conditions, their medical and popular representations, and their treatment (e.g. historical changes in the understanding and representation of leprosy or depression).

Prerequisite: HLTB50H3 and an additional 1.5 credits at the C-level from the program requirements from the Minor program in Health Humanities

Breadth Requirements: History, Philosophy and Cultural Studies

HLTD53H3 - Advanced Topics in Health Humanities

An examination of a current topic in Health Humanities. The specific topic will vary from year to year.

Prerequisite: HLTB50H3 and an additional 1.5 credits at the C-level from the program requirements from the Minor program in Health Humanities

Breadth Requirements: Arts, Literature and Language

HLTD54H3 - Toronto's Stories of Health and Illness

This seminar course explores stories of health, illness, and disability that are in some way tied to the City of Toronto. It asks how the Canadian healthcare setting impacts the creation of illness narratives. Topics will include major theorizations of illness storytelling ("restitution", "chaos," and "quest" narratives); narrative medicine; ethics and digital health storytelling.

Prerequisite: [HLTB50H3](#) and an additional 1.5 credits at the C-level from the program requirements from the Minor program in Health Humanities

Exclusion: [HLTD50H3](#) if taken in the Winter 2018 semester.

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

HLTD56H3 - Health Humanities Workshop: Documentary and Memoir

Advanced students of Health Humanities already know that creative work about important contemporary issues in health can help doctors, patients, and the public understand and live through complex experiences. But now, as health humanities practitioners, do we go about making new creative works and putting them out into the world? This upper-level seminar explores Documentary and Memoir as a political practice and supports students already versed in the principles and methods of health humanities in developing their own original work. Through a workshop format, students encounter artistic and compositional practices of documentary and memoir writing, film, and theatre to draw conclusions about what makes a documentary voice compelling, and consider the impact of works as a modality for communicating human experiences of health, illness, and disability through these mediated expressions.

Prerequisite: 1.5 credits at the C-level from the program requirements from the Minor program in Health Humanities

Recommended Preparation: [HLTB60H3](#) and [HLTC55H3](#)

Breadth Requirements: Arts, Literature and Language

HLTD71Y3 - Directed Research in Health and Society

In this year-long directed research course, the student will work with a faculty supervisor to complete an original undergraduate research project. During fall term the student will prepare the research proposal and ethics protocol, and begin data collection. In the winter term the student will complete data collection, analysis, and write-up.

Prerequisite: [HLTB15H3](#) and [STAB23H3](#) and a minimum CGPA of 3.0 and permission of the faculty supervisor

Recommended Preparation: [HLTB27H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

HLTD80H3 - Critical Health Education

This course will investigate school- and community-based health education efforts that approach health as a complex social, biological, and cultural experience; critique and challenge prevailing understandings of health; and offer alternative theoretical, pedagogical, and curricular approaches to health and illness. Issues such as sexuality, gender, nation, race, social class, age, ability, and indigeneity will be central concerns in this study of health pedagogy, curriculum, and promotion.

Prerequisite: [HLTB41H3](#) and an additional 1.5 credits at the C-level from the program requirements from the Major/Major Co-op programs in Health and Society

Breadth Requirements: Social and Behavioural Sciences

HLTD81H3 - Health Professions Education

The quality of our health care system is dependent on initial and ongoing education supporting our health professionals. In response to ongoing and new challenges in health care, governments and institutions respond with novel ideas of enacting health care in improved ways. Health care institutions, policy makers, and the public have expectations of highly skilled, knowledgeable, and prepared individuals. As our understanding of health and health systems change, these expectations also change. Keeping up is in part the work of health professions education. Preparing individuals for these dynamic, complex, in some cases unpredictable, and everchanging health care service demands is necessary and complex. In this course, we explore the role and governance, structure, and contemporary multidisciplinary scientific advances of initial and continuing health professions education as a means of supporting the practice and quality of health care. We also explore the future of health professions and how health professions education is working to keep up.

Prerequisite: 0.5 credit from [[HLTC42H3](#) or [HLTC43H3](#) or [HLTC44H3](#) or [HLTC81H3](#)] and an additional 1.0 credit at the C-level from the program requirements from the Major/Major Co-op programs in Health and Society

Recommended Preparation: [HLTC43H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Whether students are in Health Policy, Population Health Sciences or Health Humanities streams, education of health professions/professionals provides a mechanism (of many) for how health is achieved. Students in all

streams will be given an opportunity to understand why and how health professions education (a specialized branch of education) can contribute. This will assist students (and future graduates) explore the role education may play in their contributions to the health care system.

HLTD82H3 - Black Community Health: Education and Promotion

This course will delve into health promotion's inequities, notably those impacting Black communities. We examine how social determinants intersect with anti-Black racism, particularly during pandemics like HIV/AIDS and COVID-19. The Toronto Board of Health's 2020 declaration of anti-Black racism as a public health crisis underscores the urgency of addressing this issue, as Black Canadians continue to face disproportionate health disparities in areas such as life expectancy and chronic diseases.

Prerequisite: HLTB41H3 and completion of 1.5 credits at the C-level in HLT courses from the program requirements from one of the Major/Major Co-operative programs in

Health and Society

Recommended Preparation: HLTC27H3 and HLTC42H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

HLTD96Y3 - Directed Research in Paramedicine

This course is designed to permit critical analysis of current topics relevant to the broad topic of paramedicine. Students will work independently but under the supervision of an industry leader, practitioner and/or researcher involved in paramedicine, who will guide the in-depth study/research. Students report to the course instructor and paramedicine program supervisor to complete course information and their formal registration.

Prerequisite: Minimum of 14.0 credits including PMDC54Y3 and PMDC56H3 and [PSYB07H3 or STAB23H3]

Exclusion: (BIOD96Y3)

Historical and Cultural Studies

For more information, [visit the Department of Historical and Cultural Studies website](#).

The courses identified below are offered for Historical and Cultural Studies.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Historical and Cultural Studies Courses

HCSB01H3 - Public Memory: Power, Knowledge and Community

How – and why – do societies remember? How do institutions like museums and archives work, and how do they connect to their political, social, and cultural environments? What is the relationship between memory, knowledge and power? This course examines the ways in which groups conserve, commemorate, and contest memories, as well as the roles played by institutions and professional practices, political and social factors, and community stakeholders in their development. Students will explore key methodological and conceptual frameworks, meet practitioners in the field, and develop original research in collaboration with community partners.

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: Partnership-Based Experience

HCSB02H3 - Every Thing Tells a Story: Interpreting Material Evidence

What do ‘things’ tell us about the society that made them? This is a fundamental question for historians, anthropologists, and anyone studying social or cultural issues. By interpreting the material evidence produced – from monuments and buildings to everyday items or images – we find clues about how a society thinks, works, lives, and presents itself. This course will teach you how to recognise and interpret the ‘stuff’ that societies have made as a way of understanding those societies. It will introduce you to a range of examples of material evidence produced in different time periods and how this is studied by different disciplines. You will interact with ‘things’ and develop your critical, analytical, and communication skills.

Breadth Requirements: History, Philosophy and Cultural Studies

HCSB03H3 - Ready for Research: HCS Skills Lab

This course prepares students to actively use a wide variety of research methods in the Humanities. Students will develop hands-on skills in key methods and interpretive perspectives, cultivating skills and knowledge applicable to their future research and professional lives. These will include textual, visual, and material analysis; digital humanities methods; community-engaged research; feminist research methods; archival research; and oral interviewing methods. The course also specifically prepares students to contribute to faculty-led research projects.

Prerequisite: Any 4.0 credits, including 0.5 credit at the A or B-level in CLA, GAS, HIS, or WST courses.

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

Note: Students who successfully complete the course will receive priority placement in [HCSB04H3](#).

HCSB04H3 - Research Practicum in Historical and Cultural Studies

This course offers students the opportunity to collaborate in ongoing faculty research in Historical and Cultural Studies. Working alongside faculty mentors, students will engage hands-on with key methods and interpretive perspectives, and contribute directly to project outcomes. In the process, they will cultivate skills and knowledge applicable to their future research and professional lives.

Prerequisite: [HCSB03H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

Note: Students may contribute to ongoing faculty research projects across multiple semesters.

HCSC01H3 - Experiential Learning in Historical and Cultural Studies

In this experiential learning course, students will have opportunities to apply their HCS program-specific knowledge and skills, develop learning, technology and/or transferable competencies, and serve the GTA community. This experience will allow students to meaningfully contribute to and support projects and activities that address community needs by completing a placement at a community organization.

Prerequisite: Students must be in Year 3 or 4 of their studies, and enrolled in an HCS subject POST, and must have completed 3.0 credits of their HCS program

Exclusion: CTLB03H3, WSTC23H3

Breadth Requirements: History, Philosophy and Cultural Studies

HCSD05H3 - Intellectual Property in Arts and Humanities

The course provides an introduction to Canada's intellectual property (IP) systems, copyright, patent, trademark and confidential information. Topics include use, re-use and creation of IP, the impact of the digital environment, the national implication of international agreements and treaties and information policy development.

Prerequisite: Any 2.0 credits; and an additional 2.0 credits at the C-level in ACM, Language Studies, HCS, ENG and PHL

Breadth Requirements: History, Philosophy and Cultural Studies

History

Faculty List

- J. Arthurs, M.A., Ph.D. (Chicago), Associate Professor
- C. Berkowitz, Ph.D. (Toronto), Professor, Emerita
- K. Blouin, M.A., Ph.D. (Laval and Nice), Associate Professor
- L. Chen, M.A. (SUNY Buffalo), J.D. (Illinois), M.A., M.Ph., Ph.D. (Columbia), Associate Professor
- A. Cooper, Ph.D. (Toronto), Professor
- S. deSouza, Ph.D. (Toronto), Assistant Professor, Teaching Stream
- H. Dinani, M.A., (Toronto), Ph.D. (Emory), Assistant Professor
- S. Dost, M.A., Ph.D. (Chicago), Assistant Professor
- E.W. Dowler, M.A. (Harvard), Ph.D. (London School of Economics), Professor, Emeritus
- M. Eksteins, B.Phil., D.Phil. (Oxon.), Professor, Emeritus
- E. Elhalaby, Ph.D. (Rice), Assistant Professor
- D.Gabaccia, M.A., Ph.D. (Michigan), Professor, Emerita
- M. Gervers, A.B. (Princeton), M.A. (Poitiers), Ph.D. (Toronto), Professor
- A. Grewal, M.A., Ph.D. (Chicago), Assistant Professor
- R. Halpern, M.A. (Wisconsin), Ph.D. (Pennsylvania), Professor
- P. Hastings, M.A. (Carleton), Ph.D. (Duke), Associate Professor
- F. Iacovetta, M.A., Ph.D. (York), Professor, Emerita
- R.A. Kazal, M.A., Ph.D. (Pennsylvania), Associate Professor
- J.S. Moir, M.A., Ph.D. (Toronto), D.D. (Presb. College, Montreal), Professor, Emeritus
- W. Nelson, M.A., Ph.D. (UCLA), Associate Professor
- M. Price, A.B. (Stanford), Ph.D. (Stanford), Assistant Professor, Teaching Stream
- B. Raman, M.A., Ph.D. (Michigan), Associate Professor
- I.R. Robertson, M.A. (McGill), Ph.D. (Toronto), Professor, Emeritus
- S.J. Rockel, M.A., Ph.D. (Toronto), Associate Professor
- E.N. Rothman, M.A. (Tel Aviv), Ph.D. (Michigan), Professor

The study of History is vital for our understanding of the present. It offers multiple ways of explaining how the contemporary world emerged, and how past societies differed from our own. The History programs at UTSC provide a dynamic introduction to the global transformations that have taken place over the past two millennia, while also focusing on the experiences and contributions of ordinary people to these transformations. Our curriculum spans the history of all parts of the world in their complex, transnational connections, and covers a broad range of topics, including everyday life, colonialism, gender relations, the history of work, religion, the environment, urbanization, ideas, immigration, race and ethnicity, and material culture. Findings in history depend upon the precise evaluation of specific evidence, be it texts, images, or objects, and the History programs emphasize the critical reading, research, and writing skills which are necessary for the study of the past and for a wide range of professional activities beyond the university. Innovative and interdisciplinary, History courses play a part in a number of other programs, including Classics, Global Asia Studies, African Studies, Women and Gender Studies, and Food Studies, and can also complement and enhance courses in Politics, Philosophy, Literature, Arts, Economics, Sociology, Anthropology, and Geography, among others.

The History curriculum encompasses a variety of approaches in order to build a range of knowledge and skills. A-level courses provide both a general introduction to the study of history at the university level and the preparation for further studies in transnational and global history. B-level surveys offer a comprehensive foundation of knowledge in their particular areas, including the histories of particular nation-states and regions of the world. In C-level courses, students investigate more specific places, periods, or problems through lectures and tutorials. D-level courses are conducted as seminars, where students make close and thorough studies of particular questions and present their findings in discussions, essays, and other research projects. History courses at all levels cover a range of periods, from antiquity to the present, and explore a variety of world regions, from North America and Africa, through Europe and the Mediterranean, to South and East Asia. The History curriculum as a whole stresses training in writing, research, and historical methods; these skills are also the focal point of two specialized courses, [HISB03H3](#) and [HISC01H3](#). We likewise offer courses that build digital literacy and provide opportunities for public engagement and experiential learning.

Knowledge of other languages is essential to advanced study in history. If you plan to take history to an advanced level, we strongly encourage the early study of an appropriate language for your program or areas of interest. Specialists may enroll in the Language Stream, which is designed to foster such language training.

For updates and detailed information regarding History, please visit the [Department of Historical and Cultural Studies website](#).

Combined Degree Programs, Honours Bachelor of Arts/ Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) /Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provide students with a direct pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and Master's degree. These Combined Degree Programs allow students to complete 1.0 credit in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Program Combination Restrictions in History

The Specialist/Specialist Co-op, Major/Major Co-op and Minor programs in History cannot be combined.

Guidelines for First-year Course Selection

Students intending to complete a program in History should take two of the following courses in the first year: [HISA04H3](#), [HISA05H3](#), [HISA06H3/GASA01H3](#), [HISA07H3/CLAA04H3](#), [HISA08H3/AFSA01H3](#).

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

History Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) / Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBSc and MT), and be

recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.

- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
 - if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
 - if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
 - for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
 - for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:
 - students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

SPECIALIST PROGRAM IN HISTORY (ARTS) - SCSPE0652

Undergraduate Coordinator: (416) 287-7184 Email: hcs.advising.uts@utoronto.ca

Program Requirements

Students must complete at least 12.0 credits in History, including:

1. 1.0 credit from the following:

[HISA01H3](#) Drugs: A History

[HISA02H3](#) Rise of the Machines: How Technology Remakes the World

[HISA03H3](#) The Global Middle East

[HISA04H3](#) Themes in World History I

HISA05H3 Themes in World History II
HISA06H3/ GASA01H3 Introducing Global Asia and its Histories
HISA07H3/ CLAA04H3 The Ancient Mediterranean World
 (HISA08H3) Africa in the World: An Introduction
HISA09H3 Capitalism: A Global History

2. 1.0 credit as follows:

HISB03H3 Critical Writing and Research for Historians
HISC01H3 History and Evidence

3. 4.5 credits at the C-level

4. 1.0 credit at the D-level

5. Additional 4.5 credits in History

6. Within the 12.0 credits required, students must also complete:

2.0 credits must deal with the period prior to 1800

and

1.0 credit in Canadian history

and

4.0 credits distributed over four of the following areas of history:

- a. United States and Latin America
- b. Medieval
- c. European
- d. Africa and Asia
- e. Transnational
- f. Ancient World

Specialist Program in History--Language Stream

Students registered in the Specialist Program in History have the option of registering in the Language Stream. Students in the Language Stream must complete the Specialist Program in History and 2.0 credits in a single language. This option is designed to encourage Specialists to undertake language study with an eye to engaging historical writing and sources in the original language. Specialists who wish to demonstrate proficiency in a given language on their transcript should undertake the additional study that would qualify them for the UTSC Language Citation.

SPECIALIST (CO-OPERATIVE) PROGRAM IN HISTORY (ARTS) - SCSPE0652C

For more information, please contact:

Undergraduate Coordinator: 416-287-7184 Email: hcs.advising.utsc@utoronto.ca

Co-op Program Advisor: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in History is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to History upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including 0.5 credits from:

HISA01H3, HISA02H3, HISA03H3, HISA04H3, HISA05H3, HISA06H3/GASA01H3, HISA07H3/CLAA04H3, (HISA08H3), HISA09H3, plus a cumulative GPA of at least 2.50.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in History.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including two of [HISA01H3](#), [HISA02H3](#), [HISA03H3](#), [HISA04H3](#), [HISA05H3](#), [HISA06H3/GASA01H3](#), [HISA07H3/CLAA04H3](#), [HISA09H3](#), as well as [HISB03H3](#), and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB58H3](#)/[COPB51H3](#)

Work Term Search Courses:

- [COPB59H3](#)/[COPB52H3](#) - Completed in the semester prior to the first work term

- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN HISTORY (ARTS) - SCMAJ0652

Undergraduate Coordinator: 416-287-7184 Email: hcs.advising.utsc@utoronto.ca

Program Requirements

Students must complete at least 7.0 credits in History.

1.0 credit from the following:

HISA01H3 Drugs: A History
HISA02H3 Rise of the Machines: How Technology Remakes the World
HISA03H3 The Global Middle East
HISA04H3 Themes in World History I
HISA05H3 Themes in World History II
HISA06H3/ GASA01H3 Introducing Global Asia and its Histories
HISA07H3/ CLAA04H3 The Ancient Mediterranean World
HISA08H3 Africa in the World: An Introduction
HISA09H3 Capitalism: A Global History

2. 0.5 credit as follows:

HISB03H3 Critical Writing and Research for Historians

3. 3.0 credits at the C- or D-level

4. Additional 2.5 credits in History

5. Within the above 7.0 credits required, students must also complete:

1.5 credits must deal with a period prior to 1800

and

1.0 credit in Canadian History

and

at least 0.5 credit in two of the following areas of history

- United States and Latin America
- Medieval
- European

- d. Africa and Asia
- e. Transnational
- f. Ancient World

MAJOR (CO-OPERATIVE) PROGRAM IN HISTORY (ARTS) - SCMAJ0652C

For more information, please contact:

Undergraduate Coordinator: 416-287-7184 Email: hcs.advising.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in History is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to History upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including 0.5 credit from: [HISA01H3](#), [HISA02H3](#), [HISA03H3](#), [HISA04H3](#), [HISA05H3](#), [HISA06H3/GASA01H3](#), [HISA07H3/CLAA04H3](#), [HISA08H3](#), or [HISA09H3](#), plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year.

The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in History.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their

Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the Major (Co-op) Program in History and have completed at least 7.0 credits, including two of [\[HISA04H3, HISA05H3, HISA06H3/GASA01H3, HISA07H3/CLAA04H3, HISA08H3/AFSA01H3 or HISA09H3\]](#) as well as [HISB03H3](#). In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB58H3](#)/[\(COPB51H3\)](#)

Work Term Search Courses:

- [COPB59H3](#)/[\(COPB52H3\)](#) - Completed in the semester prior to the first work term
- [COPC98H3](#) - Taken in the semester prior to the second work term
- [COPC99H3](#) - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- [COPC01H3](#) - First work term
- [COPC02H3](#) - Second work term
- [COPC03H3](#) - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) - Fourth work term
- [COPC05H3](#) - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MINOR PROGRAM IN HISTORY (ARTS) - SCMIN0652

Undergraduate Coordinator: (416) 287-7184 Email: hcs.advising.utsc@utoronto.ca

Program Requirements

Students must complete 4.0 credits in History, of which at least 1.0 credit must be at the C- and/or D-level.

History Courses

HISA01H3 - Drugs: A History

The course investigates licit and illicit drugs over time and place to reveal shifts in how they have been used, understood, controlled, and represented. Zooming in and out on specific drugs in specific historical contexts, we will look at how they have played a role in religious ceremonies, imperial struggles, criminal enterprises, medical treatments, cultural movements, and attempts at consciousness expansion.

Breadth Requirements: History, Philosophy and Cultural Studies

HISA02H3 - Rise of the Machines: How Technology Remakes the World

We live in a world that has been profoundly altered by technology. Our homes, our work, our relationships, even our bodies all give evidence of our complex historical and cultural relationship with the tools we use. In this course, we examine how technology makes our world by studying pivotal moments in which technology has deeply transformed economic, social, and cultural relationships. We end by considering some of the ways in which contemporary technology is changing how we think and act. Students will explore theories of technological change and apply them to historical and cultural analysis, including an examination of their own experience. We pay particular attention to the ways that information technology both enable and constrain our work as investigators of historical and cultural phenomena, and we make extensive use of tools from the digital humanities to enhance our understanding and abilities.

Breadth Requirements: History, Philosophy and Cultural Studies

HISA03H3 - The Global Middle East

For those who reside east of it, the Middle East is generally known as West Asia. By reframing the Middle East as West Asia, this course will explore the region's modern social, cultural, and intellectual history as an outcome of vibrant exchange with non-European world

regions like Asia. It will foreground how travel and the movement fundamentally shape modern ideas. Core themes of the course such as colonialism and decolonization, Arab nationalism, religion and identity, and feminist thought will be explored using primary sources (in translation). Knowledge of Arabic is not required.

Africa and Asia Area

Exclusion: (HISB65H3)/(GASB65H3)

Breadth Requirements: History, Philosophy and Cultural Studies

HISA04H3 - Themes in World History I

An introduction to history that focuses on a particular theme in world history, which will change from year to year. Themes may include migration; empires; cultural encounters; history and film; global cities.

Breadth Requirements: History, Philosophy and Cultural Studies

HISA05H3 - Themes in World History II

An introduction to history that focuses on a particular theme in world history, which will change from year to year. Themes may include migration; empires; cultural encounters; history and film; global cities.

Breadth Requirements: History, Philosophy and Cultural Studies

HISA06H3 - Introducing Global Asia and its Histories

This course introduces Global Asia Studies through studying historical and political perspectives on Asia. Students will learn how to critically analyze major historical texts and events to better understand important cultural, political, and social phenomena involving Asia and the world. They will engage in intensive reading and writing for humanities.
Same as [GASA01H3](#)

Africa and Asia Area

Exclusion: [GASA01H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

HISA07H3 - The Ancient Mediterranean World

An introduction to the main features of the ancient civilizations of the Mediterranean world from the development of agriculture to the spread of Islam. Long term socio-economic and cultural continuities and ruptures will be underlined, while a certain attention will be dedicated to evidences and disciplinary issues.

Same as [CLAA04H3](#)

0.50 pre-1800 credit

Ancient World Area

Exclusion: [CLAA04H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

HISA09H3 - Capitalism: A Global History

This course explores the rise of capitalism – understood not simply as an economic system but as a political and cultural one as well – from roughly the 14th century to the present day. It aims to acquaint students with many of the more important socio-economic changes of the past seven hundred years and informing the way they think about some of the problems of the present time: globalization, growing disparities of wealth and poverty, and the continuing exploitation of the planet's natural resources.

Exclusion: [HISA04H3](#) (if taken in the Fall 2017, Summer 2018 and Summer 2019 semesters)

Breadth Requirements: History, Philosophy and Cultural Studies

HISB02H3 - The British Empire: A Short History

The British Empire at one time controlled a quarter of the world's population. This course surveys the nature and scope of British imperialism from the sixteenth to the twentieth century, through its interactions with people and histories of Asia, Africa, the Americas, the Caribbean, the Pacific, and the British Isles.

Transnational Area

Breadth Requirements: History, Philosophy and Cultural Studies

HISB03H3 - Critical Writing and Research for Historians

Practical training in critical writing and research in History. Through lectures, discussion and workshops, students will learn writing skills (including essay organization, argumentation, documentation and bibliographic style), an introduction to methodologies in history and basic source finding techniques.

Exclusion: (HISB01H3)

Breadth Requirements: History, Philosophy and Cultural Studies

HISB05H3 - How We Became Digital: Introduction to our Information Age

This course provides a general introduction to digital methods in History through the study of the rise of information as a concept and a technology. Topics include the history of information theory, the rise of digital media, and, especially, the implications of digital media, text processing, and artificial intelligence for historical knowledge. Using simple tools, students learn to encode texts as data structures and transform those structures programmatically.

Exclusion: DHU235H1

Recommended Preparation: 0.5 credit at the A or B-level in CLA, FST, GAS, HIS or WST courses

Breadth Requirements: History, Philosophy and Cultural Studies

HISB09H3 - Between Two Empires: The World of Late Antiquity

A course to introduce students of history and classical studies to the world of late antiquity, the period that bridged classical antiquity and the Middle Ages. This course studies the period for its own merit as a time when political structures of the Medieval period were laid down and the major religions of the Mediterranean (Judaism, Christianity, Islam, Zoroastrianism) took their recognizable forms.

Same as [CLAB09H3](#)

Ancient World Area

Exclusion: [CLAB09H3](#)

Recommended Preparation: [CLAA04H3](#)/[HISA07H3](#) The Ancient Mediterranean

Breadth Requirements: History, Philosophy and Cultural Studies

HISB10H3 - History and Culture of the Greek World

A survey of the history and culture of the Greek world from the Minoan period to the Roman conquest of Egypt (ca 1500-30 BC). Special attention will be dedicated to the nature, variety and limits of the available evidences, to socio-cultural interactions as well as to historical processes of continuities and ruptures.

Same as [CLAB05H3](#)

0.50 pre-1800 credit

Ancient World Area

Exclusion: CLAB05H3, CLA230H

Breadth Requirements: History, Philosophy and Cultural Studies

HISB11H3 - History and Culture of the Roman World

A survey of the history and culture of the ancient Roman world, from the Etruscan period to the Justinian dynasty (ca 800 BC-600 AD). Special attention will be dedicated to the nature, variety and limits of the available evidences, to socio-cultural interactions as well as to historical processes of continuities and ruptures.

Same as CLAB06H3

0.5 pre-1800 credit

Ancient World Area

Exclusion: CLAB06H3, CLA231H

Breadth Requirements: History, Philosophy and Cultural Studies

HISB12H3 - The Ancient World in Film

The representation of the classical world and historical events in film. How the Greek and Roman world is reconstructed by filmmakers, their use of spectacle, costume and furnishings, and the influence of archaeology on their portrayals. Films will be studied critically for historical accuracy and faithfulness to classical sources.

Same as CLAB20H3

Ancient World Area

Exclusion: CLAB20H3, CLA388H

Recommended Preparation: CLAA05H3 or CLAA06H3 or (CLAA02H3) or (CLAA03H3)

Breadth Requirements: History, Philosophy and Cultural Studies

HISB22H3 - From Freedom Runners to #BlackLivesMatter: Histories of Black Feminism in Canada

This introductory survey course connects the rich histories of Black radical women's acts, deeds, and words in Canada. It traces the lives and political thought of Black women and gender-non-conforming people who refused and fled enslavement, took part in individual and collective struggles against segregated labour, education, and immigration practices; providing a historical context for the emergence of the contemporary queer-led #BlackLivesMatter movement. Students will be introduced, through histories of activism, resistance, and refusal, to multiple concepts and currents in Black feminist studies. This includes, for example, theories of power, race, and gender, transnational/diasporic Black feminisms, Black-Indigenous solidarities, abolition and decolonization. Students will participate in experiential learning and engage an interdisciplinary array of key texts

and readings including primary and secondary sources, oral histories, and online archives.

Same as WSTB22H3

Canadian Area

Prerequisite: 1.0 credit at the A-level in any Humanities or Social Science courses

Exclusion: WSTB22H3, WGS340H5

Recommended Preparation: WSTA01H3 or WSTA03H3

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

HISB23H3 - Latin America and the World

This class will examine Latin America's social and cultural history from the ancient Aztecs and Incas to the twentieth-century populist revolutions of Emiliano Zapata and Evita Perón. It will also focus on Latin America's connections to the wider world through trade, migration, and cuisine.

Exclusion: HIS290H, HIS291H, HIS292H

Breadth Requirements: History, Philosophy and Cultural Studies

HISB30H3 - American History to the Civil War

A survey of American history from contact between Indians and Europeans up through the Civil War. Topics include the emergence of colonial societies; the rise and destruction of racial slavery; revolution and republic-making; economic and social change in the new nation; western conquest; and the republic's collapse into internal war.

United States and Latin America Area

Exclusion: HIS271Y

Breadth Requirements: History, Philosophy and Cultural Studies

HISB31H3 - History of the United States since the Civil War

This course offers a survey of U.S. history from the post-Civil War period through the late 20th century, examining key episodes and issues such as settlement of the American West, industrialization, urbanization, immigration, popular culture, social movements, race relations, and foreign policy.

United States and Latin America Area

Exclusion: HIS271Y

Breadth Requirements: History, Philosophy and Cultural Studies

HISB40H3 - Early Canada and the Atlantic World

The history of northern North America from the first contacts between Europeans and Aboriginal peoples to the late 19th century. Topics include the impact of early exploration and cultural encounters, empires, trans-Atlantic migrations, colonization and revolutions on the development of northern North America.

Canadian Area

Exclusion: (HIS262Y), HIS263Y

Breadth Requirements: History, Philosophy and Cultural Studies

HISB41H3 - Making of Modern Canada

Students will be introduced to historical processes central to the history of Canada's diverse peoples and the history of the modern age more generally, including the industrial revolution, women's entry in social and political "publics," protest movements, sexuality, and migration in the context of international links and connections.

Canadian Area

Breadth Requirements: History, Philosophy and Cultural Studies

HISB43H3 - Slavery in Canada: 1629-1834

Slavery was the dominant condition for Black women, men, and children in Canada from 1629 to 1834. Both the French and British colonial regimes enacted laws and ordinances that legalized slavery and gave enslavers property rights in and over Black people. This course probes the experience of enslaved Black people in New France, the five older colonies of Canada (Prince Edward Island, New Brunswick, Nova Scotia, Quebec and Ontario), with attention also paid to Newfoundland and the Ohio and Illinois valleys. Links will be drawn between slavery in Canada, the United States, and the Caribbean.

Breadth Requirements: History, Philosophy and Cultural Studies

HISB48H3 - Animals, Science, and Society

How have relationships between humans and animals depended on and shaped the development of science? This course examines precisely how these relationships have been mediated through various forms of science – veterinary science, laboratory and biological sciences, medical sciences, agricultural sciences, and zoology, among others – and how these scientific modes interact with broader socio-cultural understandings of animal life across the globe.

Breadth Requirements: History, Philosophy and Cultural Studies

HISB50H3 - Africa in the Era of the Slave Trade

An introduction to the history of Sub-Saharan Africa, from the era of the slave trade to the colonial conquests. Throughout, the capacity of Africans to overcome major problems will be stressed. Themes include slavery and the slave trade; pre-colonial states and societies; economic and labour systems; and religious change.

Africa and Asia Area

Same as [AFSB50H3](#)

Exclusion: [AFSB50H3](#), (HISC50H3), HIS295H, HIS396H, (HIS396Y)

Recommended Preparation: 0.5 credit in a AFS or ANT or CLA or IDS or GEO or GAS or HIS or POL or SOC or WST course

Breadth Requirements: History, Philosophy and Cultural Studies

HISB51H3 - Africa from the Colonial Conquests to Independence

Modern Sub-Saharan Africa, from the colonial conquests to the end of the colonial era. The emphasis is on both structure and agency in a hostile world. Themes include conquest and resistance; colonial economies; peasants and labour; gender and ethnicity; religious and political movements; development and underdevelopment; Pan-Africanism, nationalism and independence.

Same as [AFSB51H3](#)

Africa and Asia Area

Exclusion: [AFSB51H3](#), (HISC51H3), HIS396H, (HIS396Y)

Breadth Requirements: History, Philosophy and Cultural Studies

HISB52H3 - African Religious Traditions Through History

An interdisciplinary introduction to African and African diasporic religions in historic context, including traditional African cosmologies, Judaism, Christianity, Islam, as well as millenarian and syncretic religious movements.

Same as [AFSB01H3](#)

Africa and Asia Area

Exclusion: AFSB01H3, (AFSA02H3)

Recommended Preparation: 0.5 credit in a AFS or ANT or CLA or IDS or GEO or GAS or HIS or POL or SOC or WST course

Breadth Requirements: History, Philosophy and Cultural Studies

HISB53H3 - Mughals and the World, 1500-1858 AD

Why does Southern Asia's pre-colonial history matter? Using materials that illustrate the connected worlds of Central Asia, South Asia and the Indian Ocean rim, we will query conventional histories of Asia in the time of European expansion.

Same as GASB53H3

0.5 pre-1800 credit

Africa & Asia Area

Exclusion: GASB53H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISB54H3 - Africa in the Postcolonial Era

Africa from the 1960s to the present. After independence, Africans experienced great optimism and then the disappointments of unmet expectations, development crises, conflict and AIDS. Yet the continent's strength is its youth. Topics include African socialism and capitalism; structural adjustment and resource economies; dictatorship and democratization; migration and urbanization; social movements.

Same as AFSB54H3

Asia and Africa Area

Exclusion: AFSB54H3, NEW250Y1

Recommended Preparation: 0.5 credit in a AFS or ANT or CLA or IDS or GEO or GAS or HIS or POL or SOC or WST course

Breadth Requirements: History, Philosophy and Cultural Studies

HISB57H3 - Sub-Continental Histories: South Asia in the World

A survey of South Asian history. The course explores diverse and exciting elements of this long history, such as politics, religion, trade, literature, and the arts, keeping in mind South Asia's global and diasporic connections.

Africa and Asia Area

Same as GASB57H3

Exclusion: HIS282Y, HIS282H, GASB57H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISB58H3 - Modern Chinese History

This course provides an overview of the historical changes and continuities of the major cultural, economic, political, and social institutions and practices in modern Chinese history.

Same as GASB58H3

Africa and Asia Area

Prerequisite: Any 2.0 credits

Exclusion: HIS280Y, GASB58H3

Recommended Preparation: 0.5 credit at the A-level in HIS or GAS courses

Breadth Requirements: History, Philosophy and Cultural Studies

HISB59H3 - Science, Technology, Medicine and Empire

This is a gateway course to the study of the history of science, technology, and medicine, examining the development of modern science and technology in service of and as a response to mercantile and colonial empires. Students will read historical scholarship and also get a basic introduction to the methods, big ideas, and sources for the history of science, technology and medicine. Such scientific and technological advances discussed will include geography and cartography; botany and agricultural science; race science and anthropology; tropical medicine and disease control; transportation and communication technologies.

Breadth Requirements: History, Philosophy and Cultural Studies

HISB60H3 - Europe in the Early Middle Ages (305-1053)

The development of Europe from the Late Roman period to the eleventh-century separation of the Roman and Byzantine Churches. The course includes the foundation and spread of Christianity, the settlement of "barbarians" and Vikings, the establishment of Frankish kingship, the Empire of Charlemagne, and feudalism and manorialism.

0.50 pre-1800 credit

Medieval Area

Exclusion: HIS220Y

Breadth Requirements: History, Philosophy and Cultural Studies

HISB61H3 - Europe in the High and Late Middle Ages (1053-1492)

An introduction to the social, political, religious and economic foundations of the Western world, including Church and State relations, the Crusades, pilgrimage, monasticism, universities and culture, rural exploitation, town development and trade, heresy, plague and war.

Particular attention will be devoted to problems which continue to disrupt the modern world.

0.50 pre-1800 credit

Medieval Area

Exclusion: HIS220Y

Breadth Requirements: History, Philosophy and Cultural Studies

HISB62H3 - The Early Modern Mediterranean, 1500-1800

An exploration of the interplay of culture, religion, politics and commerce in the Mediterranean region from 1500 to 1800. Through travel narratives, autobiographical texts, and visual materials we will trace how men and women on the Mediterranean's European, Asian, and African shores experienced their changing world.

0.50 pre-1800 credit

Transnational Area.

Breadth Requirements: History, Philosophy and Cultural Studies

HISB63H3 - Muhammad to the Mongols: Islamic History 600-1300

This course explores the history of early and medieval Islamic societies, from the rise of Islam in the seventh century up to the Mongol invasions (c. 1300). The course will trace the trajectory of the major Islamic dynasties (i.e.: Umayyads, Abbasids, Seljuks, Fatimids, and Ayyubids) and also explore the cultural and literary developments in these societies. Geographically, the course spans North Africa, the Mediterranean, the Middle East, and Central Asia.

Pre-1800 course

Medieval Area

Exclusion: NMC273Y1, NMC274H1, NMC283Y1, HIS201H5, RLG204H5

Breadth Requirements: History, Philosophy and Cultural Studies

HISB64H3 - The Making of the Modern Middle East: Islamic History 1300-2000

This course explores the political and cultural history of early modern and modern Muslim societies including the Mongols, Timurids, Mamluks, and the Gunpowder empires (Ottomans, Safavids and Mughals). It concludes with the transformations in the Middle East in the nineteenth and twentieth centuries: European colonialism, modernization, and the rise of the nation-states.

Pre-1800 course

Medieval Area

Exclusion: NMC278H1

Breadth Requirements: History, Philosophy and Cultural Studies

HISB93H3 - Modern Europe I: The Nineteenth Century

Europe from the French Revolution to the First World War. Major topics include revolution, industrialization, nationalism, imperialism, science, technology, art and literature.

European Area

Exclusion: HIS241H, (HISB90H3), (HISB92H3)

Breadth Requirements: History, Philosophy and Cultural Studies

HISB94H3 - Modern Europe II: The Twentieth Century

Europe from the First World War to the present day. War, political extremism, economic crisis, scientific and technological change, cultural modernism, the Holocaust, the Cold War, and the European Union are among the topics covered.

European Area

Exclusion: HIS242H, (HISB90), (HISB92)

Breadth Requirements: History, Philosophy and Cultural Studies

HISB96H3 - Dangerous Ideas: Radical Books and Reimagined Worlds in Modern Europe

The course is an introduction to some of the most radical European ideas from the eighteenth to the twentieth century. We will study ideas that challenged the existing political order and aimed to overturn the social status quo, ideas that undermined centuries of religious belief and ideas that posed new visions of what it meant to be human. This will include the study of classic texts written by well-known intellectual figures, as well as the study of lesser-known writers and people who challenged the received wisdom of the day.

European Area

Breadth Requirements: History, Philosophy and Cultural Studies

HISC01H3 - History and Evidence

An examination of the nature and uses of evidence in historical and related studies.

Historians use a wide variety of sources as evidence for making meaningful statements about the past. This course explores what is meant by history and how

historians evaluate sources and test their reliability as historical evidence.

Prerequisite: HISB03H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISC02H3 - Marx and History

This is an intensive reading course that explores the Marxist historical tradition in critical perspective. It builds upon HISA09H3, and aims to help students acquire a theoretical and practical appreciation of the contributions, limitations, and ambiguities of Marxian approaches to history. Readings include classical philosophers and social critics, contemporary historians, and critics of Marxism.

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses

Recommended Preparation: HISA09H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISC03H3 - History of Animals and People

An examination of the places of animals in global history. The course examines on-going interactions between humans and animals through hunting, zoos, breeding, and pets and the historical way the divide between humans and animals has been measured. Through animals, people have often thought about what it means to be human.

Same as (IEEC03H3)
Transnational Area

Prerequisite: Any 2.5 credits in History.

Exclusion: (HISD03H3), (IEEC03H3)

Breadth Requirements: History, Philosophy and Cultural Studies

HISC06H3 - Futures of the Past: Introduction to Digital History

In the oft-titled "Information age" how has historical practice changed? How will researchers analyze the current moment, which produces ever more, and ever-more fragile information? This third-year seminar explores the foundations of digital history by understanding the major shifts in historiography and historical research that have occurred through computing. Students taking this class will be prepared to take HISD18 and further extend their knowledge of digital methodologies.

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses

HISC07H3 - The Past is a Sea of Data: Writing History in a Digital Age

This course prepares students to work in the field of digital history. We focus on the development of concrete skills in spatial and visual analysis; web technologies including HTML, CSS, JavaScript, and Web Components; and multi-media authoring. Each year, we choose a different thematic focus and use techniques of digital history to explore it. Students completing this class will acquire skills that qualify them to participate in ongoing Digital History and Digital Humanities projects run by department faculty, as well as to initiate their own research projects.

Prerequisite: HISB05H3

Exclusion: HIS355H1, HISC06H3

Recommended Preparation: 0.5 credit at the A or B-level in CLA, FST, GAS, HIS or WST courses

Breadth Requirements: History, Philosophy and Cultural Studies

HISC08H3 - Colonialism on Film

An examination of the depiction of empires and the colonial and postcolonial experience on film. This course also introduces students to the development of national cinemas in Asia, Africa, the Caribbean and the South Pacific. The relationship between academic history and history as imagined by filmmakers is a key theme.
Transnational Area

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses

Exclusion: (HISB18H3)

Breadth Requirements: History, Philosophy and Cultural Studies

HISC09H3 - Pirates of the Caribbean

This course examines early modern globalization through that cosmopolitan actor, the pirate. Beginning in the Caribbean, we will explore networks of capitalism, migration, empire, and nascent nationalism. By studying global phenomena through marginalized participants—pirates, maroons, rebels, and criminals—we seek alternate narratives on the modern world's origins.

Prerequisite: 1.0 credit in HIS courses

Breadth Requirements: History, Philosophy and Cultural Studies

HISC10H3 - Beyond Cleopatra: Decolonial Approaches to Ancient Egypt

This course focuses on the History of ancient Egypt, with a focus on the Hellenistic to early Arab periods (4th c. BCE to 7th c. CE). Lectures will emphasize the key role played by Egypt's diverse environments in the shaping of

its socio-cultural and economic features as well as in the policies adopted by ruling authorities. Elements of continuity and change will be emphasized and a variety of primary sources and sites will be discussed. Special attention will also be dedicated to the role played by imperialism, Orientalism, and modern identity politics in the emergence and trajectory of the fields of Graeco-Roman Egyptian history, archaeology, and papyrology.

Same as (IEEC52H3), CLAC05H3
0.5 pre-1800 credit
Ancient World Area

Prerequisite: 2.0 credits in CLA or HIS courses, including 1.0 credit from the following: CLAA04H3/HISA07H3 or CLAB05H3/HISB10H3 or CLAB06H3/HISB11H3

Exclusion: CLAC05H3, (IEEC52H3)

Breadth Requirements: History, Philosophy and Cultural Studies

HISC11H3 - Race and Ethnicity in the Ancient Mediterranean and West Asian Worlds

A critical examination of multiculturalism and cultural identities in the Greek and Roman worlds. Special attention will be dedicated to the evidences through which these issues are documented and to their fundamental influence on the formation and evolution of ancient Mediterranean and West Asian societies and cultures.

Same as CLAC24H3

0.5 pre-1800 credit
Ancient World Area

Prerequisite: 1.0 credit in CLA or HIS courses.

Exclusion: CLAC24H3

Recommended Preparation: CLAB05H3 and CLAB06H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISC16H3 - Indigeneity and the Classics

This course will explore the representations and realities of Indigeneity in the ancient Mediterranean world, as well as the entanglements between modern settler colonialism, historiography, and reception of the 'Classical' past. Throughout the term, we will be drawn to (un)learn, think, write, and talk about a series of topics, each of which pertains in different ways to a set of overarching questions: What can Classicists learn from ancient and modern indigenous ways of knowing? What does it mean to be a Classicist in Tkaronto, on the land many Indigenous Peoples call Turtle Island? What does it mean to be a Classicist in Toronto, Ontario, Canada? What does it mean to be a Classicist in a settler colony? How did the Classics inform settler colonialism? How does modern settler colonialism inform our reconstruction of ancient indigeneities? How does our relationship to the land we come from and are currently on play a role in the way we think about the ancient Mediterranean world? Why is that

so? How did societies of the ancient Mediterranean conceive of indigeneity? How did those relationships manifest themselves at a local, communal, and State levels?

Same as CLAC26H3
Ancient World Area

Prerequisite: Any 4.0 credits, including 1.0 credit in CLA or HIS courses

Exclusion: CLAC26H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISC18H3 - Europe in the Enlightenment, 1700-1789

An examination of the ideals of the Enlightenment against the background of social and political change in eighteenth-century Europe.

This course looks at Enlightenment thought and the ways in which European monarchs like Frederick the Great and Catherine the Great adapted it to serve their goals of state building.

0.50 pre-1800 credit
European Area

Prerequisite: 1.0 credit at B-level in European history

Exclusion: HIS244H, HIS341Y

Breadth Requirements: History, Philosophy and Cultural Studies

HISC20H3 - Fascism and the Far Right

This course examines the political, cultural and social history of fascism, from historical regimes and movements to contemporary expressions of the far right, alt-right and populist nationalism. We will explore topics including intellectual origins, the mobilization of culture, the totalitarian state, political violence, and global networks.

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses

Breadth Requirements: History, Philosophy and Cultural Studies

HISC22H3 - The Second World War in Europe

This course examines the impact of Second World War on the political, social, and cultural fabric of European societies. Beyond the military and political history of the war, it will engage topics including, but not limited to, geopolitical and ideological contexts; occupation, collaboration and resistance; the lives of combatants and civilians in total war; the Holocaust and the radicalisation of violence; and postwar memory.

European Area

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses

Breadth Requirements: History, Philosophy and Cultural Studies

HISC26H3 - The French Revolution and the Napoleonic Empire

The course will present the causes, processes, principles, and effects of the French Revolution. It will additionally present the relationship between the French Revolution and the Haitian Revolution, and look at the rise of Napoleon Bonaparte.

0.5 pre-1800 credit

European Area

Exclusion: HIS457H

Breadth Requirements: History, Philosophy and Cultural Studies

HISC27H3 - The History of European Sexuality: From Antiquity to the Present

The course will cover major developments in sexuality in Europe since antiquity. It will focus on the manner in which social, political, and economic forces influenced the development of sexuality. It will also analyze how religious beliefs, philosophical ideas, and scientific understanding influenced the ways that sexuality was understood.

European Area

Breadth Requirements: History, Philosophy and Cultural Studies

HISC29H3 - Global Commodities: Nature, Culture, History

This course explores familiar commodities in terms of natural origins, everyday cultures of use, and global significance. It analyses environmental conditions, socio-economic transactions, political, religious, and cultural contexts around their production, distribution, and consumption. Commodity case studies will be selected among tea, opium, chocolate, rice, bananas, cotton, rubber, coffee, and sugar.

Transnational Area

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses

Recommended Preparation: HISB03H3

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Priority will be given to students enrolled in the Specialist and Major programs in History

HISC30H3 - The U.S. and the World

Collectively, immigrants, businesspeople, investors, missionaries, writers and musicians may have been as important as diplomats' geopolitical strategies in creating networks of connection and exchange between the United States and the world. This course focuses on the changing importance and interactions over time of key groups of state and non-state actors.

United States and Latin America Area

Prerequisite: 1.0 credit at the A-level in AFS, GAS or HIS courses

Breadth Requirements: History, Philosophy and Cultural Studies

HISC32H3 - The Emergence of Modern America, 1877-1933

Overview of the political and social developments that produced the modern United States in the half-century after 1877. Topics include urbanization, immigration, industrialization, the rise of big business and of mass culture, imperialism, the evolution of the American colour line, and how Americans used politics to grapple with these changes.

United States and Latin America Area

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses

Recommended Preparation: HISB30H3 and HISB31H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISC33H3 - Modern American Political Culture

An examination of the relationship between culture and politics in modern American history. The course considers culture as a means through which Americans expressed political desires. Politics, similarly, can be understood as a forum for cultural expression. Topics include imperialism, immigration and migration, the Cold War, and the "culture wars".

United States and Latin America Area

Prerequisite: HISB30H3 and HISB31H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISC34H3 - Race, Segregation, Protest: South Africa and the United States

This transnational history course explores the origins, consolidation, and unmaking of segregationist social orders in the American South and South Africa. It examines the origins of racial inequality, the structural and socio-political roots of segregation, the workings of racial

practices and ideologies, and the various strategies of both accommodation and resistance employed by black South Africans and African Americans from the colonial era up to the late twentieth century.

Transnational Area

Prerequisite: [AFSB51H3](#) or [HISB31H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

HISC36H3 - People in Motion: Immigrants and Migrants in U.S. History

Overview of the waves of immigration and internal migration that have shaped America from the colonial period to the present. Topics include colonization and westward migration, immigrants in the industrial and contemporary eras, nativism, stances towards pluralism and assimilation, and how migration experiences have varied by race, class, and gender.

United States and Latin America Area

Prerequisite: [Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses] or [any 8.0 credits, including [SOCB60H3](#)]

Recommended Preparation: [HISB30H3](#) and [HISB31H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

HISC39H3 - Hellhound on My Trail: Living the Blues in the Mississippi Delta, 1890-1945

This course examines black life and culture in the cotton South through the medium of the blues. Major topics include: land tenure patterns in southern agriculture, internal and external migration, mechanisms of state and private labour control, gender conventions in the black community, patterns of segregation and changing race relations.

United States and Latin America Area

Exclusion: HIS478H

Breadth Requirements: History, Philosophy and Cultural Studies

HISC45H3 - Immigrants and Race Relations in Canadian History

An examination of aspects of the history of immigrants and race relations in Canada, particularly for the period 1840s-1960s.

The course covers various immigrant and racialized groups and explores how class, gender and race/ethnicity shaped experiences and racial/ethnic relations.

Canadian Area

Prerequisite: Any 4.0 credits

Exclusion: HIS312H

Breadth Requirements: History, Philosophy and Cultural Studies

HISC46H3 - Canada and the World

A look at Canada's evolution in relation to developments on the world stage. Topics include Canada's role in the British Empire and its relationship with the U.S., international struggles for women's rights, Aboriginal peoples' sovereignty and LGBT equality, socialism and communism, the World Wars, decolonization, the Cold War, humanitarianism, and terrorism.

Canadian Area

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses

Exclusion: HIS311H, HIS311Y

Recommended Preparation: [HISB40H3](#) or [HISB41H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

HISC51H3 - From Opium to Maximum City: Narrating Political Economy in China and India

This course addresses literary, historical, ethnographic, and filmic representations of the political economy of China and the Indian subcontinent from the early 19th century to the present day. We will look at such topics as the role and imagination of the colonial-era opium trade that bound together India, China and Britain in the 19th century, anticolonial conceptions of the Indian and Chinese economies, representations of national physical health, as well as critiques of mass-consumption and capitalism in the era of the 'liberalization' and India and China's rise as major world economies. Students will acquire a grounding in these subjects from a range of interdisciplinary perspectives.

Same as [GASC51H3](#)

Asia and Africa Area

Prerequisite: Any 4.0 credits, including 0.5 credit at the A-level and 0.5 credit at the B-level in HIS, GAS or other Humanities and Social Sciences courses

Exclusion: [GASC51H3](#)

Recommended Preparation: [GASA01H3](#)/[HISA06H3](#) or [GASA02H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

HISC52H3 - Ethiopia: Seeing History

This course uses a focus on material history and visual culture to explore Ethiopia from the fourth through the nineteenth century, with particular emphasis on the Christian Church, the monarchy, links with both the

Mediterranean world and the Indian subcontinent, and the relationship of individuals to their social, economic, artistic and geographic environments.

Same as [AFSC52H3](#) and [VPHC52H3](#)

0.50 pre-1800 credit

Africa and Asia Area

Prerequisite: [1.0 credit in History] or [\[VPHA46H3\]](#) and an additional 1.0 credit in VPH courses]

Exclusion: [AFSC52H3](#), [VPHC52H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

HISC55H3 - War and Society in Modern Africa

Conflict and social change in Africa from the slave trade to contemporary times. Topics include the politics of resistance, women and war, repressive and weak states, the Cold War, guerrilla movements, resource predation. Case studies of anticolonial rebellions, liberation wars, and civil conflicts will be chosen from various regions.

Same as [AFSC55H3](#)

Africa and Asia Area

Breadth Requirements: History, Philosophy and Cultural Studies

HISC71H3 - Race and Caste: A Connected History

Using the methods of intellectual history, this course explores the connected histories of two distinct systems of social oppression: caste and race. While caste is understood to be a peculiarly South Asian historical formation, race is identified as foundational to Atlantic slavery. Yet ideas about race and caste have intersected with each other historically from the early modern period through the course of European colonialism. How might

we understand those connections and why is it important to do so? How has the colonial and modern governance of society, economy and sexuality relied on caste and race while keeping those categories resolutely apart? How have Black and Oppressed caste intellectuals and sociologists insisted on thinking race and caste together? We will explore these questions by examining primary texts and essays and the debates they provoked among thinkers from Latin America, the Caribbean, the American South, South Africa, and South Asia.

African and Asia Area

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses

Breadth Requirements: History, Philosophy and Cultural Studies

HISC73H3 - Making the Global South

The course will explore the history and career of a term: The Global South. The global south is not a specific place but expressive of a geopolitical relation. It is often used to describe areas or places that were remade by geopolitical inequality. How and when did this idea emerge? How did it circulate? How are the understandings of the global south kept in play? Our exploration of this term will open up a world of solidarity and circulation of ideas shaped by grass-roots social movements in different parts of the world

Same as [GASC73H3](#)
Africa and Asia Area

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in GAS or HIS courses

Exclusion: [GASC73H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

HISC75H3 - Migration in Global History

A survey of human mobility from the era when humans first populated the earth to the global migrations of our own time. An introduction to the main categories of human movement and to historical and modern arguments for fostering or restricting migration.

Transnational Area

Prerequisite: Any 4.0 credits

Breadth Requirements: History, Philosophy and Cultural Studies

HISC76H3 - Dirt and Disease in the Global City

Over millennia, urban communities globally have existed alongside, produced, harboured, and found ways to deal with whatever they considered dirty and disease-carrying – from sewage and smoke to cholera and COVID-19 to sex workers and pilgrim travellers. This course explores the history of urban sanitation and health in a variety of global cities, with a focus on the 16th to 21st centuries. You will travel through course your reading of research and primary sources we will travel to cities like London, Bombay, Hong Kong, New York, Mexico City, Istanbul, and Dar Es Salaam. Over the semester, you will follow the journeys of germs, pollutants, waste, and the humans and animals seen as their carriers or causes, as they were made subject to governments, the law, science, medicine, and technology striving to control or eliminate everything understood as dirt and disease, toward the goal of making cities that reflected frequently colonial, capitalist and nationalist ideals. Assessment will be through a combination of class participation, reading notes, primary source analysis and essays.

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses.

Breadth Requirements: History, Philosophy and Cultural Studies

HISC77H3 - Soccer and the Modern World

Soccer ("football" to most of the world) is the world's game and serves as a powerful lens through which to examine major questions in modern world history. How did a game that emerged in industrial Britain spread so quickly throughout the globe? How has the sport been appropriated politically and become a venue for contests over class, ethnic and national identity? Why have wars been fought over the outcome of matches? In short, how does soccer explain the modern world?

Transnational Area

Prerequisite: Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses

Exclusion: HIS482H1/(HIS199H1)

Breadth Requirements: History, Philosophy and Cultural Studies

HISC94H3 - The Bible and the Qur'an

The Qur'an retells many narratives of the Hebrew Bible and the New Testament. This course compares the Qur'anic renditions with those of the earlier scriptures, focusing on the unique features of the Qur'anic versions. It will also introduce the students to the history of ancient and late antique textual production, transmission of texts and religious contact. The course will also delve into the historical context in which these texts were produced and

commented upon in later generations.

Breadth Requirements: History, Philosophy and Cultural Studies

HISD12H3 - Making it Strange: Modernisms in European Art and Ideas, 1900-1945

The course will focus on major developments in art and ideas in early twentieth century Europe. We will study experimental forms of art and philosophy that fall under the broad category of Modernism, including painting, music, literature, and film, as well as philosophical essays, theoretical manifestos, and creative scholarly works.

European Area

Prerequisite: 0.5 credit at the C-level in a European History course

Breadth Requirements: History, Philosophy and Cultural Studies

HISD14H3 - Selected Topics in Modern European History

This is a seminar-style course organized around a selected topic in Modern European History.

European Area

Prerequisite: 7.5 credits in HIS courses, including [(HISB90H3) or (HISB91H3) or (HISB92H3) or [HISB93H3](#)]

Breadth Requirements: History, Philosophy and Cultural Studies

HISD16H3 - Socialist Feminism in Global Context

A comparative exploration of socialist feminism, encompassing its diverse histories in different locations, particularly China, Russia, Germany and Canada. Primary documents, including literary texts, magazines, political pamphlets and group manifestos that constitute socialist feminist ideas, practices and imaginaries in different times and places will be central. We will also seek to understand socialist feminism and its legacies in relation to other contemporary stands of feminism.

Same as WSTD16H3

Transnational Area

Prerequisite: 4.0. credits, including 1.0 credit at the C-level in Humanities and Social Sciences courses

Exclusion: WSTD16H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD18H3 - Digital History

This seminar/lab introduces students to the exploding field of digital history. Through a combination of readings and hands-on digital projects, students explore how the Web radically transforms how both professional historians and others envision the past and express these visions in various media. Technical background welcome but not required.

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]

Recommended Preparation: HISB03H3 or HISC01H3

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Priority will be given to students enrolled in the Specialist and Major programs in History. Additional students will be admitted as space permits.

HISD21H3 - Black Women in Canadian History

This D-level seminar course examines Black women's history. It will investigate how a multi-play of gender, class, sexuality, and race has shaped the historical experiences of Black women in Canada and the African Diaspora. We will explore important concepts and themes such as Black feminist thought, Black feminist methodologies, and such key issues as transnationalism, migration, slavery and freedom, consciousness, Black women sexualities, community building, leadership, civil rights, and activism, work and labour, family, education, the Black press, and spirituality. The course is taught from a feminist and critical race perspective grounded in the concept of intersectionality.

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level

in HIS courses]

Breadth Requirements: History, Philosophy and Cultural Studies

HISD25H3 - Oral History and Urban Change

An applied research methods course that introduces students to the methods and practice of Oral history, the history of Scarborough, the field of public history and community-based research. A critical part of the class will be to engage in fieldwork related to designing and conducting oral history interviews.

Canadian Area

Prerequisite: Any 8.0 credits, including [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]

Exclusion: WSTC02H3 (if taken in Fall 2013), CITC10H3 (if taken in Fall 2013), (HISC28H3), WSTD10H3, HISD44H3 (if taken in Fall 2013)

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: Partnership-Based Experience

HISD31H3 - Thinking of Diversity: Perspectives on American Pluralisms

A seminar exploring the evolution of American thinking about diversity -- ethnic, religious, and regional -- from colonial-era defenses of religious toleration to today's multiculturalism. Participants will consider pluralist thought in relation to competing ideologies, such as nativism, and compare American pluralisms to formulations arrived at elsewhere, including Canada.

Transnational Area

Prerequisite: [Any 8.0 credits, including: [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]] or [10.0 credits including SOCB60H3]

Breadth Requirements: History, Philosophy and Cultural Studies

HISD32H3 - Slavery and Emancipation in the American South

This course explores the origins, growth, and demise of slavery in the United States. It focuses on slavery as an economic, social, and political system that shaped and defined early America. There will be an emphasis on developing historical interpretations from primary sources.

United States and Latin America Area

Prerequisite: Any 8.0 credits, including [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]

Recommended Preparation: HISB30H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD33H3 - Black Reconstruction: W.E.B. DuBois, African American History, and the Politics of the Past

This course focuses on three interrelated themes. First, it explores the social and political history of Reconstruction (1865 to 1877) when questions of power, citizenship, and democracy were fiercely contested. Second, it considers W.E.B. Du Bois's magnum opus, *Black Reconstruction*, a book that not only rebutted dominant characterizations of this period but anticipated future generations of scholarship by placing African American agency at the centre of both Civil War and Reconstruction history, developed the idea of racial capitalism as an explanatory concept, and made a powerful argument about race and democracy in the USA. Third, the course looks at the politics of historical writing and knowledge in the past and today.

Prerequisite: Any 8.0 credits, including: HISB03H3 and [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]

Recommended Preparation: HISB30H3, HISB31H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD34H3 - Topics in American Social and Cultural History

This fourth-year seminar is funded by the Canada Research Chair in Urban History and is taught by an advanced graduate student in American history. The course, with topics varying from year to year will focus on major themes in American social and cultural history, such as, women's history, labour history, and/or the history of slavery and emancipation.

United States and Latin America Area

Prerequisite: HISB30H3 and HISB31H3

Note: Topics vary from year to year. Check the website www.utoronto.ca/~hcs/programs/history.html for current offerings.

HISD35H3 - The Politics of American Immigration, 1865-present

A seminar that puts contemporary U.S. debates over immigration in historical context, tracing the roots of such longstanding controversies as those over immigration restriction, naturalization and citizenship, immigrant political activism, bilingual education and "English-only" movements, and assimilation and multiculturalism. Extensive reading and student presentations are required.

United States and Latin America Area

Prerequisite: [Any 8.0 credits, including: [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]] or [10.0 credits including SOCB60H3]

Recommended Preparation: HISB30H3 and HISB31H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD36H3 - From New Deal to New Right: American Politics since 1933

The most striking development in U.S. politics in the last half century has been the rebirth and rise to dominance of conservatism. This seminar examines the roots of today's conservative ascendancy, tracing the rise and fall of New Deal liberalism and the subsequent rise of the New Right.

United States and Latin America Area

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]

Recommended Preparation: HISB30H3 and HISB31H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD44H3 - Nearby History: The Method and Practice of Local History

This course introduces students to the methods and practice of the study of local history, in this case the history of Scarborough. This is a service learning course that will require a commitment to working and studying in the classroom and the community as we explore forms of public history.

Canadian Area

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: Partnership-Based Experience

HISD45H3 - Canadian Settler Colonialism in Comparative Context

A seminar on Canadian settler colonialism in the 19th and 20th centuries that draws comparisons from the United States and elsewhere in the British Empire. Students will discuss colonialism and the state, struggles over land and labour, the role of race, gender, and geography in ideologies and practices of colonial rule, residential schools, reconciliation and decolonization.

Canadian Area

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]

Recommended Preparation: HISB40H3 or HISB41H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD46H3 - Selected Topics in Canadian Women's History

Weekly discussions of assigned readings. The course covers a broad chronological sweep but also highlights certain themes, including race and gender relations, working women and family economies, sexuality, and women and the courts. We will also explore topics in gender history, including masculinity studies and gay history.

Same as WSTD46H3
Transnational Area

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in CLA, FST, GAS, HIS or WST courses] and [0.5 credit at the C-level in CLA, FST, GAS, HIS or WST courses]

Exclusion: WSTD46H3

Recommended Preparation: HISB02H3 or HISB03H3 or (HISB14H3) or WSTB06H3 or HISB50H3 or GASB57H3/HISB57H3 or HISC09H3 or HISC29H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD47H3 - Cold War Canada in Comparative Contexts

A seminar on Cold War Canada that focuses on the early post-war era and examines Canadian events, developments, experience within a comparative North American context. Weekly readings are organized around a particular theme or themes, including the national insecurity state; reds, spies, and civil liberties; suburbia; and sexuality.
Canadian Area

Prerequisite: HISB41H3 and at least one other B- or C-level credit in History

Breadth Requirements: History, Philosophy and Cultural Studies

HISD48H3 - The World Through Canadian Eyes

How have Canadians historically experienced, and written about, the world? In what ways have nationalism, imperialism, and ideas about gender and race given meaning to Canadian understandings of the world? Students will consider these questions by exploring the work of Canadian travel writers, missionaries, educators, diplomats, trade officials, and intellectuals.
Canadian Area

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]

Recommended Preparation: HISB40H3 or HISB41H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD49H3 - Environments and People in African History

This seminar course examines how Africans have interacted with their natural environments across time and space in varying regions. Topics may include rainmakers and nature shrines; crops and food production; climate change; animal and plant diseases; colonial invasions and environmental crisis; demographic change and urbanization; wildlife and conservation; big dams and resource exploitation.

Prerequisite: AFSB50H3/HISB50H3 or AFSB51H3/HISB51H3 or AFSB54H3/HISB54H3 or AFSC55H3/HISC55H3 or AFSC97H3/HISC97H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD50H3 - Southern Africa: Conquest and Resistance, 1652-1900

A seminar study of the history of the peoples of southern Africa, beginning with the hunter-gatherers but concentrating on farming and industrializing societies. Students will consider pre-colonial civilizations, colonialism and white settlement, violence, slavery, the frontier, and the mineral revolution. Extensive reading and student presentations are required.
Africa and Asia Area

Prerequisite: Any 8.0 credits, including: AFSB50H3/HISB50H3 or AFSB51H3/HISB51H3 or AFSC55H3/HISC55H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD51H3 - Southern Africa: Colonial Rule, Apartheid and Liberation

A seminar study of southern African history from 1900 to the present. Students will consider industrialization in South Africa, segregation, apartheid, colonial rule, liberation movements, and the impact of the Cold War. Historiography and questions of race, class and gender will be important. Extensive reading and student presentations are required.
Same as AFSD51H3
Africa and Asia Area

Prerequisite: 8.0 credits including HISB50H3/AFSB50H3 or HISB51H3/AFSB51H3 or HISB54H3/AFSB54H3 or HISC55H3/AFSC55H3

Exclusion: AFSD51H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD52H3 - East African Societies in Transition

A seminar study of East African peoples from late pre-colonial times to the 1990's, emphasizing their rapid although uneven adaptation to integration of the region into the wider world. Transitions associated with migrations, commercialization, religious change, colonial conquest, nationalism, economic development and conflict, will be investigated. Student presentations are required.

Same as [AFSD52H3](#)

Africa and Asia Area

Prerequisite: 8.0 credits including [HISB50H3/AFSB50H3](#) or [HISB51H3/AFSB51H3](#) or [HISB54H3/AFSB54H3](#) or [HISC55H3/AFSC55H3](#)

Exclusion: [AFSD52H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

HISD53H3 - Africa and Asia in the First World War

This seminar course examines the First World War in its imperial and colonial context in Africa and Asia. Topics include forgotten fronts in Africa, the Middle East, Asia and the Pacific, colonial armies and civilians, imperial economies and resources, the collapse of empires and the remaking of the colonial world.

Same as [AFSD53H3](#) and [GASD53H3](#)

Africa and Asia Area

Prerequisite: 8.0 credits, including: 1.0 credit in AFS, GAS, or Africa and Asia area HIS courses

Exclusion: [AFSD53H3](#), [GASD53H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

HISD54H3 - Watermarks: Environmental Justice and Histories of Water

This upper-level seminar will explore how water has shaped human experience. It will explore water landscapes, the representation of water in legal and political thought, slave narratives, and water management in urban development from the 16th century. Using case studies from South Asia and North America we will understand how affective, political and social relations to water bodies are made and remade over time.

Same as [GASD54H3](#)

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in GAS or HIS courses] and [0.5 credit at the C-level in GAS or HIS courses]

Exclusion: [GASD54H3](#)

HISD55H3 - Transnational Asian Thought

This course explores the transnational connections and contexts that shaped ideas in modern Asia such as secularism, modernity, and pan Asianism. Through the intensive study of secondary sources and primary sources in translation, the course will introduce Asian thought during the long nineteenth-century in relation to the social, political, cultural, and technological changes. Using the methods of studying transnational history the course will explore inter-Asian connections in the world of ideas and their relation to the new connectivity afforded by steamships and the printing press. We will also explore how this method can help understand the history of modern Asia as a region of intellectual ferment rather than a passive recipient of European modernity.

Same as [HISD55H3](#)

Transnational Area

Prerequisite: Any 8.0 credits, including [0.5 credit at the A- or B-level in GAS or HIS courses] and [0.5 credit at the C-level in GAS or HIS courses]

Exclusion: [GASD55H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

HISD56H3 - 'Coolies' and Others: Asian Labouring Diasporas in the British Empire

'Coolie' labourers formed an imperial diaspora linking South Asia and China to the Caribbean, Africa, the Indian Ocean, South-east Asia, and North America. The long-lasting results of this history are evident in the cultural and ethnic diversity of today's Caribbean nations and Commonwealth countries such as Great Britain and Canada.

Africa and Asia Area

Same as [GASD56H3](#)

Prerequisite: [8.0 credits, at least 2.0 credits should be at the B- or C-level in GAS or Modern History courses] or [15.0 credits, including [SOCB60H3](#)]

Exclusion: [GASD56H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

HISD57H3 - Conflict in the Horn of Africa, 13th through 21st Centuries

This course will consider the long history of conflicts that have rippled across the Horn of Africa and Sudan. In particular, it will explore the ethnically and religiously motivated civil wars that have engulfed the region in recent decades. Particular attention will be given to Ethiopia and its historic provinces where warfare is experienced on a generational basis.

Africa and Asia Area

Prerequisite: AFSC52H3/HISC52H3/VPHC52H3

Recommended Preparation: AFSB05H3/ANTB05H3, AFSC55H3/HISC55H3

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

HISD58H3 - Culture, Politics, and Society in Late Imperial China

A study of major cultural trends, political practices, social customs, and economic developments in late imperial China (1400-1911) as well as their relevance to modern and contemporary China. Students will read the most recent literature and write a substantive research paper. Same as GASD58H3

0.5 pre-1800 credit
Africa and Asia area

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in GAS or HIS courses] and [0.5 credit at the C-level in GAS or HIS courses]

Exclusion: GASD58H3

Recommended Preparation: GASB58H3/HISB58H3 or GASC57H3/HISC57H3

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

HISD59H3 - Law and Society in Chinese History

A seminar course on Chinese legal tradition and its role in shaping social, political, economic, and cultural developments, especially in late imperial and modern China. Topics include the foundations of legal culture, regulations on sexuality, women's property rights, crime fictions, private/state violence, laws of ethnicities, prison reforms and modernization.

Same as GASD59H3

0.5 pre-1800 credit

Africa and Asia Area

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in GAS or HIS courses] and [0.5 credit at the C-level in GAS or HIS courses]

Exclusion: GASD59H3

Recommended Preparation: GASB58H3/HISB58H3 or GASC57H3/HISC57H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD60H3 - Travel and Travel-Writing from the Middle Ages to the Early Modern Period

The development of travel and travel narratives before 1800, and their relationship to trade and colonization in the Mediterranean and beyond. Topics include: Marco Polo, pilgrimage and crusading, the history of geography and ethnography. Extensive reading, oral presentations, and a final paper based on research in primary documents are required.

0.50 pre-1800 credit

Transnational Area

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]

Recommended Preparation: HISB50H3 or HISB53H3 or HISB60H3 or HISB61H3 or HISB62H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD63H3 - The Crusades: I

Modern interpretations of the Crusades will be investigated in the broad context of Western expansion into the Middle East (1099-1204), Spain and southern Europe, and, North-Eastern Europe. Also considered will be the Christian Military Orders, the Mongols and political crusades within Europe itself.

0.50 pre-1800 credit

Medieval Area

Prerequisite: HISB60H3 and HISB61H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD64H3 - The Crusades: II

An intensive study of the primary sources of the First through Fourth Crusades, including works by Eastern and Western Christian, Arab and Jewish authors. The crusading period will be considered in terms of Western Christian expansion into the Middle East, Spain and Northern Europe in the 11th through 13th centuries.

0.50 pre-1800 credit

Medieval Area

Prerequisite: HISB60H3 and HISB61H3

Breadth Requirements: History, Philosophy and Cultural Studies

HISD65H3 - The Good in Islam: Ethics in Islamic Thought

What is good and evil? Are they known by human reason or revelation? How is happiness achieved? How is the human self-cultivated? This course will explore the diverse approaches that Muslim thinkers took to answering these

perennial questions. Beginning with early Islam (the Qur'an and Prophet Muhammad), we will examine ethical thought in various intellectual traditions (e.g.: Islamic law, philosophy, mysticism, literature). Finally, we will analyze contemporary ethical dilemmas (e.g.; Muslim political, sexual, and environmental ethics).

Transnational area

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]

Breadth Requirements: History, Philosophy and Cultural Studies

HISD66H3 - Documenting Conflict and Peacemaking in the Modern Middle East

This course explores the practices of documentation involved in investigating, explaining and containing the varieties of conflict that have shaped the history of the Middle East over the past two centuries. Wars, episodes of sectarian violence and political terrorism have all contributed centrally to the formation of states and subjects in the region. Drawing on key works by political historians, anthropologists of state violence and specialists in visual culture, the course examines such events and their many reverberations for Middle Eastern societies from 1798 to the present.

Course readings draw on a range of primary source materials produced by witnesses, partisans to conflict, political activists, memoirists and investigators. Classroom discussions will engage theoretical texts that have brought to bear conflicts in the Middle East on larger questions concerning humanitarian intervention, democratic publics and liberal internationalism.

Prerequisite: Any 8.0 credits, including [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]

Breadth Requirements: History, Philosophy and Cultural Studies

HISD69H3 - Sufis and Desert Fathers: Mysticism in Late Antiquity and Early Islam

This course is an introduction to mystical/ascetic beliefs and practices in late antiquity and early Islam. Often taken as an offshoot of or alternative to "orthodox" representations of Christianity and Islam, mysticism provides a unique look into the ways in which these religions were experienced by its adherents on a more popular, often non-scholarly, "unorthodox" basis throughout centuries. In this class we will examine mysticism in late antiquity and early Islam through the literature, arts, music, and dance that it inspired.

The first half of the term will be devoted to the historical study of mysticism, its origins, its most well-known early practitioners, and the phases of its institutionalization in early Christianity and early Islam; the second part will look into the beliefs and practices of mystics, the literature they produced, the popular expressions of religion they generated, and their effects in the modern world. This study of mysticism will also provide a window for contemporary students of religion to examine the devotional practices of unprivileged members of the late antiquity religious communities, women and slaves in particular.

Same as CLAD69H3.

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in CLA or HIS courses] and [0.5 credit at the C-level in CLA or HIS courses]

Exclusion: CLAD69H3

Recommended Preparation: CLAB06H3/HISB11H3, CLAB09H3/HISB09H3

Breadth Requirements: Arts, Literature and Language

HISD71H3 - Community Engaged Fieldwork With Food

This research seminar uses our immediate community of Scarborough to explore continuity and change within diasporic foodways. Students will develop and practise ethnographic and other qualitative research skills to better understand the many intersections of food, culture, and community. This course culminates with a major project based on original research.

Prerequisite: (HISB14H3) or (HISC04H3) or [2.0 credits in ANT courses of which 1.0 credit must be at the C-level] or permission of the instructor

Exclusion: (ANTD71H3)

Recommended Preparation: ANTB64H3, ANTC70H3

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: Partnership-Based Experience

HISD93H3 - The Politics of the Past: Memories, Monuments and Museums

This course examines the politics of historical commemoration. We explore how the representation of the past both informs and reflects political, social, and cultural contexts, and examine case studies involving controversial monuments; debates over coming to terms with historical legacies of genocide, slavery, and imperialism; and processes of truth, reconciliation, and cultural restitution. We also examine the role played by institutions (like museums and archives) and disciplines (archaeology, history, anthropology) in the construction of local, national, transnational, and colonial identities.

Prerequisite: Any 8.0 credits, including: [0.5 credit at the A- or B-level in HIS courses] and [0.5 credit at the C-level in HIS courses]

Breadth Requirements: History, Philosophy and Cultural Studies

HISD95H3 - Presenting the Past

This course introduces students to creative ways of telling/conveying stories about historical moments, events, figures and the social context in which these have

occurred. The course will enable students to narrate the past in ways, from film to fiction, accessible to contemporary audiences.

Prerequisite: Any 4.0 credits in HIS courses

Breadth Requirements: History, Philosophy and Cultural Studies

International Development Studies

The International Development Studies (IDS) programs provide students with a critical understanding of international development issues through exposure to a variety of academic disciplines, cultures, and, in the case of the Specialist Co-op program options, overseas work experience in the field of international development. The IDS programs are challenging and intended for bright and self-motivated students who are interested in both excelling academically and actively engaging themselves in the pursuit of social justice around such issues as poverty, inequality, and oppression. Students in the IDS programs take initiatives, seek empowerment, are driven to solve social and environmental problems, understand the importance of teamwork and coordination, and are responsible and accountable. They have diverse interests that span the social sciences, humanities, and environmental science, all of which are underpinned by a strong sense of social responsibility.

The IDS programs provide students with a critical understanding of international development issues through exposure to a variety of academic disciplines, cultures, and, in the case of the Specialist Co-op programs, overseas work experience in the field of international development. The specific academic objectives of our IDS programs are to:

1. Introduce students to the broad and interconnected range of issues and disciplinary approaches within the field of critical development studies.
2. Provide students with a critical understanding of development theories - their origins and purposes for addressing problems of power, inequality and oppression.
3. Stress the crucial importance of context and power - historical, social-cultural, economic, and political - when critically analyzing development theory and development practice.
4. Promote the development of strong analytical, writing, and professional skills and, where possible, experiential learning opportunities in the field of critical development studies.
5. Promote the development of a vibrant intellectual community - that includes students, faculty, administrators, alumni, and development partners -- that is committed to active involvement in the critical debates within the field of development studies and to critical engagement in development practice.

As a way of enhancing the interdisciplinary nature of the IDS programs, students are also encouraged to consider complementing their particular program in IDS with a parallel program in a related discipline. For example, those doing a Major in IDS might consider a parallel Major or Minor in any one of Anthropology, Environmental Science, Environmental Studies, Economics for Management Studies, Human Geography, Health Studies, History, Political Science, Public Policy, Sociology or Women's and Gender Studies. While not required for graduation, Specialist/Specialist (Co-op)

students are also encouraged to consider fulfilling the requirements for a Major or Minor program in a related discipline alongside their Specialist/Specialist (Co-op) program. For details about how these combinations can be worked out, please contact the Program Advisor.

The Major Program in International Development Studies (Science) is suspended to new enrolments. Students who are already enrolled in this Major program should consult the 2009-10 *Calendar*.

Guidelines for First-year Course Selection

Students intending to complete any currently offered IDS program should include the following required courses in their first-year selection:

Specialist/Specialist (Co-op) Program in International Development Studies (B.Sc.) should enroll in [IDSA01H3](#), [EESA01H3](#), [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [CHMA11H3](#), [[MGEA01H3](#) or [MGEA02H3](#)], [[MGEA05H3](#) or [MGEA06H3](#)].

Specialist/ Specialist (Co-op) Program in International Development Studies (B.A.) should enroll in [IDSA01H3](#), [EESA01H3](#), [[MGEA01H3](#) or [MGEA02H3](#)], [[MGEA05H3](#) or [MGEA06H3](#)].

Major Program in International Development Studies (B.A.) should enroll in [IDSA01H3](#).

Minor Program in International Development Studies (B.A.) should enroll in [IDSA01H3](#).

Program Combination Restrictions

The Specialist/Specialist Co-op (BSc), Specialist/Specialist Co-op (BA), Major (BA), Major (BSc) and Minor programs in International Development Studies cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

International Development Studies Programs

SPECIALIST PROGRAM IN INTERNATIONAL DEVELOPMENT STUDIES (ARTS) - SCSPE2540A

Program Requirements

This program requires the completion of 13.0 credits, of which at least 4.0 credits must be at the C- or D-level including at least 1.0 credit at the D-level.

1. Introduction to International Development Studies (2.0 credits as follows)

[IDSA01H3](#) Introduction to International Development Studies

[[MGEA01H3](#) Introduction to Microeconomics or [MGEA02H3](#) Introduction to Microeconomics: A Mathematical Approach]

[[MGEA05H3](#) Introduction to Macroeconomics or [MGEA06H3](#) Introduction to Macroeconomics: A Mathematical Approach]

[EESA01H3](#) Introduction to Environmental Science

2. Core courses in International Development (at least 3.0 credits from among the following)

[IDSB01H3](#) Political Economy of International Development

[IDSB02H3](#) Development and Environment

[IDSB04H3](#) Introduction to International/Global Health

[IDSB06H3](#) Equity, Ethics and Justice in International Development

[IDSB07H3](#) Confronting Development's Racist Past and Present

[POLB90H3](#) Comparative Development in International Perspective

[POLB91H3](#) Comparative Development in Political Perspective

Note: We highly recommend that students select [IDSB07H3](#) as part of their core B-level courses. Students in the IDS co-op program must complete [IDSB07H3](#) prior to enrolling in [IDSC01H3](#).

3. Methods for International Development Studies (1.5 credits as follows)

IDSC04H3 Project Management I

and

0.5 credit in Quantitative/statistical methods from the following:

GGRA30H3 Geographic Information Systems (GIS) and Empirical Reasoning

GGRB30H3 Fundamentals of GIS I

HLTB15H3 Introduction to Health Research Methodology

MGE11H3 Quantitative Methods in Economics I

STAB23H3 Introduction to Statistics for the Social Sciences

and

0.5 credit in Qualitative methods from the following:

ANTB19H3 Ethnography and the Comparative Study of Human Societies

GGRC31H3 Qualitative Geographical Methods: Place and Ethnography

HLTC04H3 Qualitative Health Research

POLC78H3 Political Analysis I

WSTB05H3 Power in Knowledge Production

4. Research in International Development Requirement (0.5 credit):

IDSD02H3 Advanced Research Seminar in Critical Development Studies

5. Specialized Courses: Approaches to International Development (6.0 credits)

A minimum of 2.0 credits must be chosen from two different clusters below for a total of 4.0 credits. The other 2.0 credits may be selected from any of the courses listed below, and IDSC07H3, IDSC10H3, IDSC15H3, IDSC20H3, IDSC21H3, IDSC22H3, IDSD10H3, IDSD12H3, IDSD13H3, IDSD14H3 and IDSD15H3 may also be counted towards the completion of this requirement.

Culture and Society

AFSA01H3/HISA08H3 Africa in the World: An Introduction

AFSB01H3/HISB52H3 African Religious Traditions Through History

AFSB05H3/ANTB05H3 Culture and Society in Africa

AFSB50H3/HISB50H3 Africa in the Era of the Slave Trade

AFSB51H3/HISB51H3 Africa from the Colonial Conquests to Independence

AFSB54H3/HISB54H3 Africa in the Postcolonial Era

AFSC52H3/HISC52H3/VPHC52H3 Ethiopia: Seeing History

AFSC55H3/HISC55H3 War and Society in Modern Africa

SPECIALIST (CO-OPERATIVE) PROGRAM IN INTERNATIONAL DEVELOPMENT STUDIES (ARTS) - SCSPE2540

Co-op Contact: ids-coop@utsc.utoronto.ca

Enrolment Requirements

Enrolment in the program is limited. The minimum qualifications for entry are 4.0 credits and a cumulative GPA of at least 2.5. Most students are accepted into the program directly from secondary school. Transfer students and current UTSC students may also apply for admission but require a minimum of 4.0 credits up to a maximum of 6.0 credits.

Current Co-op Students:

Students admitted to a Co-op Degree POST in their first year of study must request a Co-op Subject POST on ACORN upon completion of 4.0 credits and must meet the minimum qualifications for entry as noted above.

Prospective Co-op Students:

In addition to requesting the program on ACORN, prospective Co-op students (i.e., those not yet admitted to a Co-op Degree POST) must also submit a Co-op Supplementary Application Form for consideration. The form can be requested via email from the IDS Co-op Program Manager at ids.coop@utsc.utoronto.ca and can be found online on the [International Development Studies Co-op Office website](#). Successful applicants will demonstrate strong academic performance, language skills, extra-curricular involvement, and demonstrate an interest in international development.

Submission deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit both the Supplementary Application Form and the program request on ACORN will result in that student's application not being considered.

Program Requirements

The program requires a total of 15.0 credits, 4.0 credits of which must be at the C- or D-level, including at least 1.0 credit at the D-level. Students must complete components 1-3 and 5 of the program requirements as described in the Specialist Program in International Development Studies (Arts).

In addition, students must complete:

Co-operative, Language and Thesis Requirements (2.5 credits)

1.0 credit in a second language

[IDSC01H3](#) Research Design for Development Fieldwork (must be taken prior to co-op placement)

[IDSD01Y3](#) Post-placement Seminar and Thesis

Co-op Work Term Requirements

To be eligible for placement, students must have completed 14.5 credits, including [IDSC01H3](#), [IDSC04H3](#), and 6.0 credits from Requirements 1-3, as noted above. It is highly recommended that students complete courses towards fulfilling their specialized courses from Requirement 5, as well as the required 1.0 credit in a second language when completing the remainder of the 14.5 credits that are required prior to placement.

The co-op work terms are a minimum of 8-months and a maximum of 12-months in country.

During placement, students are required to attend a monthly check-in meeting with the IDS Co-op Program Manager and submit 4 bi-monthly placement progress reports (one every 2 months). Students also begin working on a research project under the supervision of a faculty member.

In addition to the academic course requirements, students are required to complete three additional non-credit courses: COPB30H3/(COPD02H3), COPB31H3/(COPD04H3), and COPB33H3. Students entering the program prior to Fall 2021 will have two non-credit courses: COP30H3/(COPD02H3), and COPB31H3/(COPD04H3). These courses are taken in the first and third year of the program with the aim of providing students with the skills and knowledge needed to successfully navigate the placement experience. These credits are in addition to the 20.0 credits required for the degree. Work terms are evaluated by the program faculty, the co-op office, and the employer. A grade of CR (credit)/NCR (no credit) is recorded on the transcript.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section or the International Development Studies Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN INTERNATIONAL DEVELOPMENT STUDIES (SCIENCE) - SCSPE25406

Submission deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit both the Supplementary Application Form and the program request on ACORN will result in that student's application not being considered.

Program Requirements

The program requires students to complete a total 15.5 credits, of which 4.0 credits must be at the C-or D- level including at least 1.0 credit at the D-level.

1. Introduction to Sciences and International Development Studies (4.5 credits):

IDSA01H3 Introduction to International Development Studies

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

CHMA10H3 Introductory Chemistry I: Structure and Bonding

CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms

EESA01H3 Introduction to Environmental Science

EESA06H3 Introduction to Planet Earth

[MGEA01H3 Introduction to Microeconomics or MGEA02H3 Introduction to Microeconomics: A Mathematical Approach]

[MGEA05H3 Introduction to Macroeconomics or MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach]

2. Core Courses in International Development (At least 2.0 credits from the following):

IDSB01H3 Political Economy of International Development

IDSB02H3 Development and Environment

IDSB04H3 Introduction to International/Global Health

IDSB06H3 Equity, Ethics and Justice in International Development

IDSB07H3 Confronting Development's Racist Past and Present

Note: We highly recommend students enroll in IDSB07H3 as part of their core B-level courses. Students in the IDS co-op program must complete IDSB07H3 prior to enrolling in IDSC01H3.

3. Core courses in Environmental Biology (2.5 credits):

BIOB50H3 Ecology

BIOB51H3 Evolutionary Biology

EESB03H3 Principles of Climatology

EESB05H3 Principles of Soil Science

EESB16H3 Feeding Humans - The Cost to the Planet

4. Methods for International Development Studies (1.5 credits):

IDSC04H3 Project Management I

STAB22H3 Statistics I or equivalent

and

0.5 credit from the following:

GGRA30H3 Geographic Information Systems (GIS) and Empirical Reasoning

EESC03H3 Geographic Information Systems and Remote Sensing

5. Advanced Courses in Environmental Biology (2.0 credits of which 0.5 must be at the D-level):

Choose from:

BIOC37H3 Plants: Life on the Edge

BIOC58H3 Biological Consequences of Global Change

BIOC61H3 Community Ecology and Environmental Biology

BIOC62H3 Role of Zoos and Aquariums in Conservation

BIOC63H3 Conservation Biology

EESC04H3 Biodiversity and Biogeography

BIOD54H3 Applied Conservation Biology

EESD06H3 Climate Change Impact Assessment

6. Environmental Science in Practice (0.5 credit):

Choose from:

EESC13H3 Environmental Impact Assessment and Auditing

(GGRC22H3) Political Ecology Theory and Applications

GGRC25H3 Land Reform and Development

GGRC26H3 Geographies of Environmental Governance

GGRC44H3 Environmental Conservation and Sustainable Development

IDSC02H3 Environmental Science and Evidence-Based Policy

7. Co-operative, Language and Thesis Requirements (2.5 credits):

1.0 credit in a second language

IDSC01H3 Research Design for Development Fieldwork (must be taken prior to Co-op placement)

IDSD01Y3 Post-placement Seminar and Thesis

Co-op Work Term Requirements

To be eligible for placement, students must have completed 14.5 credits, including 10.5 credits from Requirements 1. through 4. as noted above and IDSC01H3. It is highly recommended that students complete courses towards fulfilling their specialized courses from Requirement 6., as well as the required 1.0 credit in a second language, when completing the remainder of the 14.5 credits that are required prior to placement.

The Co-op work terms are a minimum of 8-months and a maximum of 12-months in country.

During placement, students are required to attend a monthly check-in meeting with the IDS Co-op Program Manager and submit 4 bi-monthly placement progress reports (one every 2 months). Students also begin working on a research project under the supervision of a faculty member.

In addition to the academic course requirements, students are required to complete three additional non-credit courses: COPB30H3/(COPD02H3), COPB31H3/(COPD04H3), and COPB33H3. Students entering the program prior to Fall 2021 will have two non-credit courses: COP30H3/(COPD02H3), and COPB31H3/(COPD04H3). These courses are taken in the first, second and third year of the program with the aim of providing students with the skills and knowledge needed to successfully navigate the placement experience. These credits are in addition to the 20.0 credits required for the degree. Work terms are evaluated by the program faculty, the Co-op Office, and the employer. A grade of CR (credit)/NCR (no

credit) is recorded on the transcript.

International Development Studies Courses

IDSA01H3 - Introduction to International Development Studies

History, theory and practice of international development, and current approaches and debates in international development studies. The course explores the evolution of policy and practice in international development and the academic discourses that surround it. Lectures by various faculty and guests will explore the multi-disciplinary nature of international development studies. This course is a prerequisite for all IDS B-level courses.

Breadth Requirements: Social and Behavioural Sciences

IDSA02H3 - Experiencing Development in Africa

This experiential learning course allows students to experience first hand the realities, challenges, and opportunities of working with development organizations in Africa. The goal is to allow students to actively engage in research, decision-making, problem solving, partnership building, and fundraising, processes that are the key elements of development work.

Same as [AFSA03H3](#)

Exclusion: AFSA03H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

IDSB01H3 - Political Economy of International Development

Introduces students to major development problems, focusing on international economic and political economy

factors. Examines trade, aid, international institutions such as the World Bank, the IMF and the WTO. Examines both conventional economic perspectives as well as critiques of these perspectives. This course can be counted for credit in ECM Programs.

Prerequisite: [\[MGEA01H3/\(ECMA01H3\) and MGEA05H3/\(ECMA05H3\)\]](#) or [\[MGEA02H3/\(ECMA04H3\) and MGEA06H3/\(ECMA06H3\)\]](#) and [IDSA01H3](#)

Exclusion: ECO230Y

Breadth Requirements: Social and Behavioural Sciences

IDSB02H3 - Development and Environment

The environmental consequences of development activities with emphasis on tropical countries. Environmental change in urban, rainforest, semi-arid, wetland, and mountainous systems. The influences of development on the global environment; species extinction, loss of productive land, reduced access to resources, declining water quality and quantity, and climate change.

Prerequisite: [IDSA01H3](#) or [EESA01H3](#)

Breadth Requirements: Natural Sciences

IDSB04H3 - Introduction to International/Global Health

This course offers an introduction to the political, institutional, social, economic, epidemiological, and ideological forces in the field of international/global health. While considerable reference will be made to “high-income” countries, major emphasis will be placed on the health conditions of “low- and middle-income” countries – and their interaction with the development “aid” milieu. After setting the historical and political economy context, the course explores key topics and themes in global health including: international/global health agencies and activities; data on health; epidemiology and the global distribution of health and disease; the societal determinants of health and health equity; health economics and the organization of health care systems in comparative perspective; globalization, trade, work, and health; health humanitarianism in the context of crisis, health and the environment; the ingredients of healthy societies across the world; and social justice approaches to global health.

Prerequisite: 5.0 credits including [IDSA01H3](#)

Breadth Requirements: Social and Behavioural Sciences

IDSB06H3 - Equity, Ethics and Justice in International Development

What constitutes equitable, ethical as well as socially and environmentally just processes and outcomes of

development? This course explores these questions with particular emphasis on their philosophical and ideological foundations and on the challenges of negotiating global differences in cultural, political and environmental values in international development.

Prerequisite: [IDSA01H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

IDSB07H3 - Confronting Development's Racist Past and Present

This course offers students an in-depth survey of the role race and racism plays in Development of Thought and Practice across the globe. Students will learn the multiple ways colonial imaginaries and classificatory schemes continue to shape International Development and Development Studies. A variety of conceptual frameworks for examining race, racism and racialization will also be introduced.

Breadth Requirements: History, Philosophy and Cultural Studies

IDSB10H3 - Political Economy of Knowledge Technology and Development

Examines in-depth the roles of information and communication technology (ICT) in knowledge production and their impact on development. Do new forms of social media make communication more effective, equitable, or productive in the globalized world? How has network media changed governance, advocacy, and information flow and knowledge exchange and what do these mean for development?

Prerequisite: [IDSA01H3](#)

Exclusion: (ISTB01H3)

Breadth Requirements: Social and Behavioural Sciences

Note: Effective Summer 2013 this course will not be delivered online; instead, it will be delivered as an in-class seminar.

IDSB11H3 - Global Development in Comparative Perspective

This course will focus on the importance of historical, socio-economic, and political context in understanding the varying development experiences of different parts of the Global South. In addition to an introductory and concluding lecture, the course will be organized around two-week modules unpacking the development experience in four different regions of the Global South – Latin America/Caribbean, Africa, the Middle East, and South/South East Asia.

Prerequisite: [IDSA01H3](#)

Breadth Requirements: Social and Behavioural Sciences

IDSC01H3 - Research Design for Development Fieldwork

Examines research design and methods appropriate to development fieldwork. Provides 'hands on' advice (practical, personal and ethical) to those preparing to enter "the field"; or pursuing development work as a career. Students will prepare a research proposal as their main course assignment.

Prerequisite: [9.0 credits including: [IDSA01H3](#) and [IDSB07H3](#)] and [at least 6.0 credits satisfying Specialist Co-op Program in International Development Studies Requirements 1 through 4]

Breadth Requirements: Social and Behavioural Sciences

Note: Limited to students enrolled in the Specialist (Co-op) Program in IDS. Students in other IDS programs may be admitted with permission of instructor subject to the availability of spaces.

IDSC02H3 - Environmental Science and Evidence-Based Policy

The role science plays in informing environmental policy is sometimes unclear. Students in this interdisciplinary class will examine key elements associated with generating scientific environmental knowledge, and learn how this understanding can be used to inform and critique environmental policy. Discussions of contemporary domestic and international examples are used to highlight concepts and applications.

Prerequisite: 8.0 credits including [EESA01H3](#)

Recommended Preparation: [IDSB02H3](#)

Breadth Requirements: Natural Sciences

IDSC03H3 - Contemporary Africa: State, Society, and Politics

This course is intended as an advanced critical introduction to contemporary African politics. It seeks to examine the nature of power and politics, state and society, war and violence, epistemology and ethics, identity and subjectivities, history and the present from a comparative and historical perspective. It asks what the main drivers of African politics are, and how we account for political organization and change on the continent from a comparative and historical perspective.

Same as [AFSC03H3](#).

Prerequisite:

[IDSA01H3](#) or [AFSA01H3](#)] or by instructor's permission

Exclusion: [AFSC03H3](#)

Breadth Requirements: Social and Behavioural Sciences

IDSC04H3 - Project Management I

Studies the phases of the project management cycle with emphasis on situational analysis and identification of needs, project implementation, project monitoring and evaluation. Examines basic organizational development, the role of Canadian non-governmental organizations engaged in the delivery of development assistance as well as with CIDA's policies and practices.

Prerequisite: [IDSA01H3](#) and [1.0 credit at the B-level in IDS courses]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Restricted to students in the IDS Specialist and Major programs.

IDSC06H3 - Directed Reading on Canadian Institutions and International Development

This Directed Readings course is designed for students who **already have an ongoing working relationship with a Canadian Development institution** (both non-government organizations and private agencies). The course will run parallel to the work experience. Students interested in this course must contact and obtain permission from the CCDS Associate Director prior to the beginning of term.

Prerequisite: [IDSA01H3](#) and [1.0 credit at the B-level in IDS courses]

Recommended Preparation: [IDSC04H3](#)

Course Experience: Partnership-Based Experience

IDSC07H3 - Project Management II

A case study approach building on Project Management I. Examines: the art of effective communication and negotiation, visioning, participatory and rapid rural appraisal; survey design and implementation; advanced financial management and budgeting; basic bookkeeping and spreadsheet design; results based management; environmental impact assessments; cross-cultural effectiveness; and gender and development.

Prerequisite: [IDSA01H3](#) and [IDSC04H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Limited to students in IDS Specialist and Major programs. Other students may be admitted with permission of instructor.

IDSC08H3 - Media and Development

Critical perspectives on the effects of traditional and 'new' media on development policy and practice. The course examines the increasingly significant role the media plays in the development process, the ways in which media-generated images of development and developing countries affect development policy and the potential of 'new' media for those who are marginalized from the development process.

Prerequisite: [IDSA01H3](#) and [IDSB10H3](#)

Breadth Requirements: Social and Behavioural Sciences

IDSC10H3 - Topics in International Development Studies

Contents to be determined by instructor.

Prerequisite: [IDSA01H3](#)

IDSC11H3 - Issues in Global and International Health

Key global and international health issues are explored in-depth in three learning phases. We begin with a reading and discussion seminar on international/global health policy and politics. (Exact topic changes each year based on student interest and developments in the field). Next, students develop group projects designed to raise awareness around particular global and international health problems, culminating in UTSC International Health Week in the Meeting Place. The third phase --which unfolds throughout the course-- involves individual research projects and class presentations.

Prerequisite: 8.0 credits including [IDSA01H3](#) and [IDSB04H3](#)

Breadth Requirements: Social and Behavioural Sciences

IDSC12H3 - Economics of Small Enterprise and Microcredit

Considers the role of micro- and small/medium enterprise in the development process, as compared to the larger firms. Identifies the role of smaller enterprises in employment creation and a more equitable distribution of income. Examines policies which can contribute to these outcomes, including micro-credit. This course can be counted for credit in ECM Programs.

Prerequisite: [IDSA01H3](#) and [IDSB01H3](#)

Exclusion: (IDSB05H3)

Breadth Requirements: Social and Behavioural Sciences

IDSC13H3 - State Formation and the Politics of Development in the Global South: Explaining Divergent Outcomes

The state has proven to be one of the key factors paving the way for some countries in the Global South to escape conditions of underdevelopment and launch successful development programs over time. But, why have effective states emerged in some countries in the Global South and not in others? This course seeks to answer this question by investigating processes of "state formation" using a comparative historical approach.

The course will begin by introducing students to theories of state formation. These theories will raise important questions about state formation processes that include: What is a modern, "rational-legal" state in theory? What do states look like in practice? What is state capacity and what are its components? What is the infrastructural power of the state and how does it differ from the despotic power of a state? How do state efforts to extend infrastructural power ignite political battles for social control at both elite and popular sector levels of society? Finally, how do processes of state formation unfold over time? The course, then, dives into comparative examinations of state formation using examples from across the Global South – from Central and South America to Africa, the Middle East, South Asia, and East Asia.

Prerequisite: [IDSA01H3](#) or [POLB90H3](#)

Exclusion: [IDSC10H3](#) if taken in Winter 2023; [POLC90H3](#) if taken in Winter 2018, Winter 2019, Winter 2020, Winter 2021.

Recommended Preparation: [POLB91H3](#)

Breadth Requirements: Social and Behavioural Sciences

IDSC14H3 - The Political Economy of Food

Examines how institutions and power relations shape the production and distribution of food, particularly in the global South. The course evaluates competing theories of hunger and malnutrition. It also explores the historical evolution of contemporary food provisioning and evaluates the viability and development potential of alternative food practices.

Prerequisite: [IDSB01H3](#) or [[FSTA01H3](#) and [FSTB01H3](#)]

Breadth Requirements: Social and Behavioural Sciences

IDSC15H3 - Special Topics in International Development Studies

The topics presented in this course will represent a range of issues in international development studies. Topics will vary by instructor and term.

Prerequisite: 10.0 credits including [IDSA01H3](#)

Breadth Requirements: Social and Behavioural Sciences

IDSC16H3 - Populism, Development, and Globalization in the Global South

The rise of populism has been widespread and often linked to processes of economic globalization. This course explores the historical and more recent economic and social factors shaping populist movements and leaderships in the Global South.

Prerequisite: [IDSA01H3](#) or [POLB90H3](#)

Exclusion: [POL492H1](#)

Breadth Requirements: Social and Behavioural Sciences

IDSC17H3 - Development, Citizen Action and Social Change in the Global South

Explores the question of citizenship through theories of citizen participation and action in dialogue with a wide range of recent empirical case studies from the global south. Going beyond formal rights and status, the course looks at deeper forms of political inclusion and direct participation in decision-making on political and policy issues.

Prerequisite: [IDSA01H3](#) and [1.0 credit at the B-level in IDS courses]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

IDSC18H3 - New Paradigms in Development: The Role of Emerging Powers

This course examines the growing role of the emerging powers - the BRICS countries grouping of Brazil, Russia, India, China and South Africa - in international development. The course examines recent development initiatives by these actors in Africa, Latin America and Asia. It also explores the question of whether BRICS-led development programs and practices challenge the top-down, expert led stances of past development interventions – from colonialism to the western aid era.

Prerequisite: [IDSA01H3](#) and [1.0 credit at the B-level in IDS courses]

Breadth Requirements: Social and Behavioural Sciences

IDSC19H3 - Community-Driven Development: Cooperatives, Social Enterprises and the Black Social Economy

This course introduces students to alternative business institutions (including cooperatives, credit unions, worker-owned firms, mutual aid, and social enterprises) to challenge development. It investigates the history and theories of the solidarity economy as well as its potential contributions to local, regional and international socio-economic development. There will be strong experiential education aspects in the course to debate issues. Students analyze case studies with attention paid to Africa and its diaspora to combat exclusion through cooperative structures.

Same as [AFSC19H3](#)

Prerequisite: [AFSA01H3](#) or [IDSA01H3](#) or [POLB90H3](#) or permission of the instructor

Exclusion: [AFSC19H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

IDSC20H3 - Critical Approaches to Community Engagement in Development

This course focuses on critical approaches to community engagement in international development. The first half of the course traces the history of critical and participatory approaches to community engagement in development. In the second half of the course students are trained in critical and ethical approaches to participatory community-engaged research. Student's learning will be guided by an iterative pedagogical approach aimed at facilitating dialogue between theory, practice and experience. Students taking this course will learn about the challenges faced by communities in their interactions with a range of development actors, including international development agencies, local NGOs, state actors and universities.

Prerequisite: [IDSA01H3](#) and [IDSB06H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

IDSC21H3 - Power and Community-Based Research in Development

The course introduces students to the history and ethics of community-based research in development. We will focus on critical debates in Action Research (AR), Participatory Action Research (PAR), and Community Based Participatory Research (CBPR). Cases will be used to illustrate the politics of community-based research.

Prerequisite: [IDSC20H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

IDSC22H3 - Humanitarian Aid and Global Development

The rise of both political and climate instability across the world has led to global instability and conflict. Millions have been displaced by wars that have erupted across and within national borders. In the Sudan, Ukraine and Gaza, entire communities have been forced to flee their homes as a result of military conflict. The climate crisis is linked to, and will continue to intersect with, such conflict. Climate migration, precipitated by extreme weather events, highlights the need for transformative responses to humanitarian crises. These conflicts are increasingly posing new challenges for globally "just" approaches to humanitarian aid (Redfield, 2020), food insecurity (Wingfield, 2024), human rights and gender violence. In this course, students will collaborate with students from South Africa and Sweden, and engage with leading academics, civil society leaders and activists to learn more about new approaches to global justice through a humanitarian lens. Drawing from insights from a global learning project named the *Global Classroom for Democracy Innovation*, students will engage in a learning environment which is designed around international and intercultural engagement, to work on and co-design around "borderless" problems. Questions around the widespread undermining and erosion of democracy, and (inter)national responses to increasing humanitarian crises, will be at the center of student engagements, allowing them to think from particular localities while also working across local/national/planetary scales.

Prerequisite: [IDSA01H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

IDSD01Y3 - Post-placement Seminar and Thesis

Normal enrolment in this course will be made up of IDS students who have completed their work placement. Each student will give at least one seminar dealing with their research project and/or placement. The research paper will be the major written requirement for the course, to be submitted no later than mid-March. The course will also include seminars by practicing professionals on a variety of development topics.

Prerequisite: [IDSA01H3](#) and students must have completed the first four years of the IDS Specialist Co-op Program or its equivalent and have completed their placement. Also, permission of the instructor is required.

Course Experience: Partnership-Based Experience

IDSD02H3 - Advanced Research Seminar in Critical Development Studies

An advanced seminar in critical development studies with an emphasis on perspectives and theories from the global South. The main purpose of the course is to help prepare students theoretically and methodologically for the writing of a major research paper based on secondary data collection. The theoretical focus on the course will depend on the interests of the faculty member teaching it.

Prerequisite: 14.0 credits including [IDSC04H3](#)
Breadth Requirements: Social and Behavioural Sciences

Note: Restricted to students in the Specialist (non Co-op) Programs in IDS. If space is available, students from the Major Program in IDS may gain admission with the permission of the instructor.

IDSD05H3 - Historical Perspectives on Global Health and Development

This seminar course examines the history of global/international health and invites students to contemplate the ongoing resonance of past ideologies, institutions, and practices of the field for the global health and development arena in the present. Through exploration of historical documents (primary sources, images, and films) and scholarly works, the course will cover themes including: the role of health in empire-building and capitalist expansion via invasion/occupation, missionary work, enslavement, migration, trade, and labor/resource extraction; perennial fears around epidemics/pandemics and their economic and social consequences; the ways in which international/global health has interacted with and reflected overt and embedded patterns of oppression and discrimination relating to race, Indigeneity, gender, and social class; and colonial and post-colonial health governance, research, and institution-building.

Prerequisite: [12.0 credits, including [IDSB04H3](#)] or permission of the instructor
Breadth Requirements: Social and Behavioural Sciences

IDSD06H3 - Feminist and Postcolonial Perspectives in Development Studies

This interdisciplinary course traces the advance of feminist and postcolonial thinking in development studies. The course serves as a capstone experience for IDS students and social science majors looking to fully engage with feminist and postcolonial theories of development. This course combines short lectures with student led-discussions and critical analyses of development thought and practice.

Prerequisite: 12.0 credits

Recommended Preparation: [IDSB06H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

IDSD07H3 - Extractive Industries in Africa

This course examines resource extraction in African history. We examine global trade networks in precolonial Africa, and the transformations brought by colonial extractive economies. Case studies, from diamonds to uranium, demonstrate how the resource curse has affected states and economies, especially in the postcolonial period.

Same as [AFSD07H3](#)

Prerequisite: [10.0 credits including [AFSA01H3](#) or [IDSA01H3](#) or [POLB90H3](#)] or permission of instructor
Exclusion: [AFSD07H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

IDSD08H3 - Community-Centered Media Tactics for Development Advocacy and Social Change

This course explores the intersection of community-centered research, art, media, politics, activism and how they intertwine with grass-root social change strategies. Students will learn about the multiple forms of media tactics, including alternative and tactical media (fusion of art, media, and activism) that are being used by individuals and grass-root organizations to promote public debate and advocate for changes in development-related public policies. Through case studies, hands-on workshops, community-led learning events, and a capstone project in collaboration with community organizations, students will gain practical research, media and advocacy skills in formulating and implementing strategies for mobilizing public support for social change.

Prerequisite: [IDSA01H3](#) and [1.0 credit in C-level IDS courses] and [0.5 credit in D-level IDS courses]
Exclusion: [IDSD10H3](#) (if taken in the Winter 2018, 2019, 2020 or 2021 sessions)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

IDSD10H3 - Topics in International Development Studies

The topics presented in this course will represent a range of issues in international development studies. Topics will vary by instructor and term.

Prerequisite: 12.0 credits, including [IDSA01H3](#)

IDSD12H3 - Topics in International Development Studies

The topics presented in this course will represent a range of issues in international development studies. Topics will vary by instructor and term.

Prerequisite: 12.0 credits, including [IDSA01H3](#)

IDSD13H3 - Topics in International Development Studies

The topics presented in this course will represent a range of issues in international development studies. Topics will vary by instructor and term.

Prerequisite: 12.0 credits, including [IDSA01H3](#)

IDSD14H3 - Directed Reading

The goal of the course is for students to examine in a more extensive fashion the academic literature on a particular topic in International Development Studies not covered by existing course offering. Courses will normally only be available to students in their final year of study at UTSC. It is the student's responsibility to find a faculty member who is willing to supervise the course, and the students must obtain consent from the supervising instructor and from the Chair/Associate Chair of the Department of Global Development Studies before registering for this course.

Prerequisite: 12.0 credits, including [IDSA01H3](#) and permission of the instructor

IDSD15H3 - Directed Research

The goal of the course is for students to prepare and write a senior undergraduate research paper in International Development Studies. For upper-level students whose interests are not covered in one of the other courses normally offered. Courses will normally only be available to students in their final year of study at UTSC. It is the student's responsibility to find a faculty member who is willing to supervise the course, and the students must obtain consent from the supervising instructor and from the Chair/Associate Chair of the Department of Global Development Studies before registering for this course.

Prerequisite: 12.0 credits including [IDSA01H3](#) and permission of the instructor
Course Experience: University-Based Experience

IDSD16H3 - Africana Political Economy in Comparative Perspective

This course analyzes racial capitalism among persons of African descent in the Global South and Global North with

a focus on diaspora communities. Students learn about models for self-determination, solidarity economies and cooperativism as well as Black political economy theory.

Same as [AFSD16H3](#)

Prerequisite: [10.0 credits including [AFSA01H3](#) or [IDSA01H3](#) or [POLB90H3](#)] or permission of instructor

Exclusion: [AFSD16H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

IDSD19H3 - The Role of Researcher-Practitioner Engagement in Development

This course focuses on recent theories and approaches to researcher-practitioner engagement in development. Using case studies, interviews, and extensive literature review, students will explore whether such engagements offer opportunities for effective social change and improved theory.

Prerequisite: 12.0 credits, including [IDSA01H3](#)

Recommended Preparation: [IDSC04H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

IDSD20H3 - Thinking Conflict, Security, and Development

This course offers an advanced critical introduction to the security-development nexus and the political economy of conflict, security, and development. It explores the major issues in contemporary conflicts, the securitization of development, the transformation of the security and development landscapes, and the broader implications they have for peace and development in the Global South.

Same as [AFSD20H3](#).

Prerequisite: [12.0 including ([IDSA01H3](#) or [AFSA01H3](#) or [POLC09H3](#))] or by instructor's permission

Exclusion: [AFSD20H3](#)

Breadth Requirements: Social and Behavioural Sciences

IDSD90H3 - Public Policy and Human Development in the Global South

While domestic and international political factors have discouraged pro human development public policies in much of the global south, there have been some important success stories. This course examines the economic and social policies most successful in contributing to human development and explores the reasons behind these rare cases of relatively successful human development.

Same as POLD90H3

Prerequisite: [1.0 credit from: IDSB01H3, IDSB04H3, IDSB06H3, POLB90H3 or POLB91H3] and [2.0 credits at

the C-level in any courses]

Exclusion: POLD90H3

Breadth Requirements: Social and Behavioural Sciences

International Development Studies (IDS) Co-op

Contact Email: ids-coop@utoronto.ca or sharlene.mollett@utoronto.ca
For more information, [visit the Department of Global Development Studies website](#).

The Specialist (Co-op) Program in International Development Studies (Arts/Sciences) provides students with a critical understanding of international development issues through a highly interdisciplinary approach, with emphasis on both development theories and practices. In the fourth year of this distinguished five-year program, students embark on an 8 – 12 month placement with an organization in international development.

The Specialist Co-op program is completed as either a B.A. or B.Sc. The broad Social Science stream (B.A.) covers such areas as gender and development, human rights, project management, land economics, global health, economic development, citizenship and migration, climate justice and media and development, whereas the Environmental Science stream (B.Sc.), emphasizes agroecosystems and sustainable livelihood.

Now in its third decade, International Development Studies Co-op is the longest-running program (B.A./B.Sc.) of its kind in Canada, with placement partnerships with over 70 organizations across multiple regions around the world. The work term will normally begin between May and August of the fourth year. The work term is an integral part of the Co-op curriculum and is designed to provide students with practical hands-on experience with a development organization. All streams are relevant to the SDGs (Sustainable Development Goals).

The majority of work terms are with Canadian NGOs with overseas presence, local civil society organizations, research institutes, and private sector firms. The location of placements will vary according to each student's disciplinary and regional interests and abilities, the availability of positions, and the practicability and safety of the area. Placement employers are asked to cover the living allowance, and a stipend where possible, for the student. A variety of scholarships to support student placements are also available.

For more information, please visit the [International Development Studies Co-op website](#). For more information on the programs, please see the Specialist (Co-op) Program in International Development Studies (Arts) and the Specialist (Co-op) Program in International Development Studies (Science). Interested students can also email the program at ids-coop@utoronto.ca.

The specific academic objectives of the IDS programs are to:

1. Introduce students to the broad and interconnected range of issues and disciplinary approaches within the field of critical development studies.
2. Provide students with a critical understanding of development theories - their origins and purposes for addressing problems of power, inequality and oppression.
3. Stress the crucial importance of context and power - historical, social-cultural, economic, and political - when critically analyzing development theory and development practice.
4. Promote the development of strong analytical, writing, and professional skills and, where possible, experiential learning, opportunities in the field of critical development studies.
5. Promote the development of a vibrant intellectual community - including students, faculty, administrators, alumni, and development partners - that is committed to active involvement in the critical debates within the field of development studies and to critical engagement in development practice.

Status in Co-op Programs:

Status in the IDS Co-op program will be determined at the end of each session (Fall, Winter, and Summer) for students who have attempted at least 4.0 credits since beginning their studies at UTSC, or in other Arts and Sciences Divisions at the University. Students with a cumulative grade point average (CGPA) of 2.5 or higher are considered to be in good standing.

- Students whose CGPA falls below 2.5 will be placed on probation.
- Students may clear probation by achieving a CGPA of 2.5 or better in the next study session. Where the CGPA is below 2.5, but the sessional grade point average (SGPA) is at least 2.5, students may be granted a second probationary semester.

- Students must clear their probation within a maximum of two study sessions in order to remain in a Co-op program.
- Students on probation in the Co-op program may not apply for a work-term until they have successfully cleared their probation.
- Students whose CGPA falls below 2.3 will be removed from the Co-op program. A student may switch to the Specialist (Non-Co-op) Program in International Development Studies or to the Major Program in International Development Studies (Arts).

For information on fees in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section in the *UTSC Calendar*.

International Development Studies (IDS) Co-op Courses

COPB30H3 - Passport to Placement I

This course is designed to prepare students in the International Development Studies Co-op programs with the skills, tools and experience to have a successful placement search. This course is an opportunity for students to explore the stages and dynamics of job searching, investigate various career options based on their skill set and interests, develop a placement search plan and create placement search documents. In addition, through workshops and events, students will have an opportunity to interact with IDS placement partners, senior students, and faculty, and gain insight into trends in the field of international development.

Exclusion: (COPD02H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Restricted to students enrolled in the Specialist (Co-op) Programs in International Development Studies. Students should plan to complete this course in the first year of study in their selected IDS Co-op program.

COPB31H3 - Passport to Placement II

In this course, students build upon skills and knowledge gained in [COPB30H3](#). This course focuses on the job search and goal setting, culminating in students creating an Action Plan that focuses on developing and polishing their job search and application process skills in preparation for the Co-op application process in [COPB33H3](#). By the end of this course, students should feel confident in their ability to network, write a job application, and communicate professionally.

Prerequisite: [COPB30H3](#)/(COPD02H3)

Exclusion: (COPD04H3); [COPB30H3](#) (if taken in Fall 2020 or earlier)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Restricted to students enrolled in the Specialist (Co-op) Programs in International Development Studies. IDS Co-op students must successfully complete this course prior to [COPB33H3](#).

COPB33H3 - Passport to Placement III

This course is designed to prepare students in the International Development Studies Co-op programs with the skills, tools and preparation to be successful during the placement year. Building on the skills developed in the first two years of the program, students will explore placement opportunities based on their skill set and interests. The course will include presentations from International Development Studies placement partners, group exercises, and individual assignments designed to prepare students for the placement experience. Pre-departure orientation activities will include intercultural learning, health and safety issues, placement research, and other key topics. A weekend retreat with returned placement students (fifth-year) provides an opportunity for sharing first-hand experience and knowledge.

Prerequisite: [COPB30H3](#) and [COPB31H3](#) (if taken Fall 2021 or later)

Exclusion: [COPB31H3](#) (if taken Fall 2020 or earlier)

Course Experience: University-Based Experience

Note: Restricted to students enrolled in the Specialist (Co-op) Programs in International Development Studies.

COPC09H3 - International Development Studies Co-op Work Term

The purpose of the work term placement is for students to gain experience in the professional world of development while applying knowledge gained in the classroom to real life experiences. The majority of students secure work terms with Canadian NGOs, research institutes or private sector consulting firms. Work terms are 8-12 months in length. The location and duration of the work terms will vary according to each student's disciplinary and regional preferences, their experience and abilities, the availability of positions, and the practicability and safety of work.

Prerequisite: [COPB33H3](#) and [IDSC01H3](#) and [IDSC04H3](#); restricted to students in the International Development Studies Co-op programs.

Course Experience: Professional Work Term

Joint Programs

UTSC and Centennial College collaborate to offer Joint programs. These programs build on the academic strengths of the University of Toronto degree together with Centennial College's strengths in technical and practical education. Students earn a University of Toronto degree and can have the opportunity to qualify for a diploma or certificate from Centennial College, which in some cases may require the completion of an additional academic session.

All Joint Programs are limited enrolment Specialist or Major programs and may be taken only as part of an Honours BA or BSc degree. Currently, the following Joint programs are offered:

- Specialist (Joint) Program in Journalism (Arts)
- Specialist (Joint) Program in Music Industry and Technology (Arts)
- Major (Joint) Program in New Media Studies (Arts)
- Specialist (Joint) Program in Paramedicine (Science)

For specific program details, including application procedures, admission requirements, and program requirements, visit the Joint Programs website. Program admission and course requirements are also described in this section, as well as in the relevant discipline sections of the Calendar. Registration and academic information for the Joint programs are shared with the relevant Program Supervisors and Departments at Centennial College.

Students are encouraged to meet regularly with the UTSC departmental Program Manager/Coordinators to ensure they are progressing appropriately through their programs.

For academic advising:

- Program Manager for Journalism, Music Industry and Technology, and New Media Studies: acm-pm@utsc.utoronto.ca
- Program Coordinator for Paramedicine: paramedicine.utsc@utoronto.ca

For course enrollment or academic matters in courses offered through Centennial College:

- Joint Programs Coordinator: jtprogs@utsc.utoronto.ca

Tuition and incidental fees are payable to the University in the usual manner. In each session in which students are taking one or more courses at Centennial College, a program fee relating to the use of materials is charged. The amount of the fee varies by program.

Joint Programs: Courses

For full details regarding course descriptions, requisites, and breadth requirement categories, please consult the Journalism, Music Industry and Technology, New Media Studies, and Paramedicine sections of the Academic Calendar. Note that the JOU, NME, MBT and PMD courses are specific to the Centennial College portion of the relevant joint programs; other courses are taken at the University of Toronto Scarborough.

Journalism

- JOUA01H3 - Introduction to Journalism and News Literacy I
- JOUA02H3 - Introduction to Journalism II
- JOUA06H3 - Contemporary Issues in Law and Ethics
- JOUB01H3 - Covering Immigration and Transnational Issues
- JOUB02H3 - Critical Journalism
- JOUB03H3 - Business of Journalism
- JOUB11H3 - News Reporting
- JOUB14H3 - Mobile Journalism
- JOUB18H3 - Visual Storytelling: Photography and Videography
- JOUB19H3 - Data Management and Presentation
- JOUB20H3 - Interactive: Data and Analytics
- JOUB21H3 - Witnessing and Bearing Witness

JOUB24H3 - Journalism in the Age of Digital Media
JOUB39H3 - Fundamentals of Journalistic Writing
JOUC13H3 - Entrepreneurial Reporting
JOUC18H3 - Storyworks
JOUC19H3 - Social Media and Mobile Storytelling
JOUC21H3 - Podcasting
JOUC22H3 - Advanced Video and Documentary Storytelling
JOUC25H3 - Field Placement
JOUC30H3 - Critical Approaches to Style, Form and Narrative
JOUC31H3 - Journalism, Information Sharing and Technological Change
JOUC60H3 - Diasporic Media
JOUC62H3 - Media, Journalism and Digital Labour
JOUC80H3 - Understanding Audiences in the Digital Age
JOUD10H3 - Senior Seminar in Journalism
JOUD11H3 - Senior Research Seminar in Media and Journalism
JOUD12H3 - Journalism at the Intersection of Politics, Economics and Ethics
JOUD13H3 - Surveillance, Censorship, and Press Freedom

Music Industry and Technology

MBTB11H3 - Orchestral Arranging
MBTB12H3 - Vocal Arranging
MBTB13H3 - Songwriting 2
MBTB30H3 - Art of Performance
MBTB41H3 - Introduction to Audio Engineering
MBTB50H3 - Music Business Fundamentals
MBTB51H3 - Musical Entrepreneurship
MBTC52H3 - Contemporary Music Industry Issues
MBTC60H3 - Live Sound Engineering
MBTC62H3 - Advanced Sound Mixing and Editing
MBTC63H3 - Advanced Sound Production and Recording
MBTC66H3 - Studio Session Management
MBTC67H3 - Audio Mastering
MBTC68H3 - Audio Engineering for Gaming and VR
MBTC70H3 - Copyright, Royalties, Licensing, and Publishing
MBTC71H3 - Music Marketing and Social Media
MBTC72H3 - Advanced Music Business
MBTC73H3 - Artist Management and Promotion
MBTC74H3 - Music Supervision and Consulting
MBTC75H3 - Music Journalism
MBTC82H3 - Indie Artist Development
MBTC98H3 - Music Career Development
MBTD99H3 - Field Placement

New Media Studies

NMEA01H3 - Digital Fundamentals
NMEA02H3 - Introduction to New Media Communications
NMEA03H3 - The Language of Design
NMEA04H3 - Interface Design, Navigation and Interaction I
NMEB05H3 - Interface Design, Navigation and Interaction II
NMEB06H3 - Project Development and Presentation
NMEB08H3 - Application Software for Interactive Media
NMEB09H3 - Sound Design
NMEB10H3 - New Media Design
NMEC01H3 - Theory and Practice of New Media
NMED10Y3 - New Media Senior Project

Paramedicine

PMDB22H3 - Pre-hospital Care 1: Theory and Lab
PMDB25H3 - Therapeutic Communications and Crisis Intervention

PMDB30H3 - Alterations of Human Body Function I
PMDB32Y3 - Pre-hospital Care 2: Theory, Lab and Clinical
PMDB33H3 - Anatomy
PMDB36H3 - Pharmacology for Allied Health
PMDB41H3 - Professional and Legal Issues, Research, Responsibilities and Leadership
PMDC40H3 - Alterations of Human Body Function II
PMDC42Y3 - Pre-hospital Care 3: Theory, Lab and Field
PMDC43H3 - Medical Directed Therapeutics and Paramedic Responsibilities
PMDC54Y3 - Pre-hospital Care 4: Theory, Lab and Field
PMDC56H3 - Primary Care Paramedic Integration and Decision Making

Joint Programs: Programs

SPECIALIST (JOINT) PROGRAM IN PARAMEDICINE (SCIENCE) - SCSPEPMD

Program Supervisor: W. Tavares

Program Coordinator: paramedicine.utscc@utoronto.ca

The Specialist (Joint) Program in Paramedicine is administered by the Department of Health and Society. Students who complete the requirements of the program will also qualify for the Paramedic Diploma from Centennial College. Students who have completed the requirements for Centennial's diploma are eligible to take the Ministry of Health exams required to qualify as a Primary Care Paramedic.

Enrolment Requirements

This program has limited enrolment. Applicants must fill out a Paramedicine Declaration form. Prior to taking courses at Centennial College, students must also fill out a medical certificate and have current qualifications in CPR and standard first aid. Other non-academic requirements such as a vulnerable sector police check, fitness standards and face mask fit certification will also ultimately be required. Additional details regarding these requirements may be found at Centennial's website. Applicants may arrange to complete some of these requirements during their first year of study at the University of Toronto Scarborough. For more information on admission and deadlines, see the [Joint Programs with Centennial College](#) section of this *Calendar*.

Program Requirements

This program requires the completion of 16.5 credits. Including electives, students should take 2.5 credits in each semester of their four year degree.

Note: three of the PMD courses are 1.0 credit (Y courses) rather than 0.5 credit (H courses).

1. 1.0 Credit of Introductory Biology Courses

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

2. 1.5 Credits of Core Biology Courses

BIOB10H3 Cell Biology

BIOB11H3 Molecular Aspects of Genetic Processes

BIOB34H3 Animal Physiology

3. 1.5 Credits of Foundational Biology Courses

BIOC17H3 Microbiology

[BIOC21H3 Vertebrate Histology: Cells and Tissues or BIOC32H3 Human Physiology I]

BIOC34H3 Human Physiology II

4. 1.0 Credit of Advanced Biology Courses

Choose From:

BIOD17H3 Seminars in Cellular Microbiology

BIOD26H3 Fungal Biology and Pathogenesis

BIOD29H3 Pathobiology of Human Disease
BIOD33H3 Comparative Animal Physiology
BIOD43H3 Animal Movement and Exercise
BIOD65H3 Pathologies of the Nervous System
BIOD96Y3 Directed Research in Paramedicine

5. 1.0 Credit of Introductory Chemistry Courses

CHMA10H3 Introductory Chemistry I: Structure and Bonding
CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms

6. 1.0 Credit of Introductory Psychology Courses

PSYA01H3 Introduction to Biological and Cognitive Psychology
PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

7. 1.0 Credit of B-Level Psychology Courses

PSYB20H3 Introduction to Developmental Psychology
PSYB32H3 Introduction to Clinical Psychology

8. 1.0 Credit of Statistics/Data Analysis Courses

[STAB22H3 Statistics I or PSYB07H3 Data Analysis in Psychology]
PSYC08H3 Advanced Data Analysis in Psychology

9. 7.5 Credits of Paramedicine Courses

*PMDB22H3 Pre-Hospital Care 1: Theory and Lab
 *PMDB25H3 Therapeutic Approaches to Behaviour in Crisis
 *PMDB30H3 Alterations of Human Body Function I
 *PMDB32Y3 Pre-Hospital Care 2: Theory, Lab and Clinical
 *PMDB33H3 Anatomy
 *PMDB36H3 Pharmacology for Allied Health Pre-requisite
 *PMDB41H3 Professional Issues, Research and Leadership
 *PMDC40H3 Alterations in Human Body Function II
 *PMDC42Y3 Pre-Hospital Care 3: Theory, Lab and Field
 *PMDC43H3 Medical Directed Therapeutics and Paramedic Responsibilities
 *PMDC54Y3 Pre-Hospital Care 4: Theory, Lab and Field
 *PMDC56H3 Primary Care Practice Integration and Decision Making

*A grade of 60% is required in these courses both to pass the course and to maintain standing in the program. All PMD courses are taught at Centennial College. Note, some PMD courses require that 60% be achieved in all components of the course (i.e., lecture component, practical component, and clinical-placement component).

Note: In order to remain in the program, students must typically maintain a cumulative GPA of at least 2.0. Students whose cumulative GPA falls below 2.0 should consult the program supervisor to discuss their options. Please also note, space in some Centennial College courses is limited. Students who must repeat one of these courses and whose cumulative GPA has fallen below 2.0 will be allowed to register in these courses only if space permits.

Suggested Course Sequence

Year 1: Fall Semester*

1. BIOA01H3 Life on Earth: Unifying Principles
2. CHMA10H3 Introductory Chemistry I: Structure and Bonding
3. PSYA01H3 Introduction to Biological and Cognitive Psychology

Year 1: Winter Semester*

1. BIOA02H3 Life on Earth: Form, Function and Interactions
2. CHMA11H3 Introductory Chemistry II; Reactions and Mechanisms
3. PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

*In Year 1 students must also complete 0.5 credit in statistics [STAB22H3 Statistics I or PSYB07H3 Data Analysis in Psychology].

Year 2: Fall Semester

1. [BIOB10H3](#) Cell Biology
2. [PMDB33H3](#) Anatomy
3. [PMDB22H3](#) Pre-Hospital Care 1: Theory and Lab
4. [PMDB25H3](#) Therapeutic Approaches to Behaviour in Crisis
5. [PMDB41H3](#) Professional Issues, Research and Leadership

Year 2: Winter Semester

1. [BIOB11H3](#) Molecular Aspects of Genetic Processes
2. [PMDB30H3](#) Alterations of Human Body Function I
3. [PMDB32Y3](#) Pre-Hospital Care 2: Theory, Lab and Clinical
4. [PMDB36H3](#) Pharmacology for Allied Health Pre-requisite

Year 3: Fall Semester

1. [BIOB34H3](#) Animal Physiology
2. [PMDC40H3](#) Alterations in Human Body Function II
3. [PMDC42Y3](#) Pre-Hospital Care 3: Theory, Lab and Field
4. [PMDC43H3](#) Medical Directed Therapeutics and Paramedic Responsibilities

Year 3: Winter Semester

1. [BIOC17H3](#) Microbiology
2. [BIOC34H3](#) Human Physiology II
3. [PMDC54Y3](#) Pre-Hospital Care 4: Theory, Lab and Field
4. [PMDC56H3](#) Primary Care Practice Integration and Decision Making

Year 4: Fall Semester

1. [BIOC21H3](#) Vertebrate Histology: Cells and Tissues or [BIOC32H3](#) Human Physiology I
2. [PSYB20H3](#) Introduction to Developmental Psychology
3. [PSYB32H3](#) Abnormal Psychology
4. [[BIOD33H3](#) Comparative Animal Physiology or [BIOD65H3](#) Pathologies of the Nervous System or [BIOD26H3](#) Fungal Biology and Pathogenesis or [BIOD96Y3](#) Directed Research in Paramedicine*]

Year 4: Winter Semester

1. [PSYC08H3](#) Advanced Data Analysis in Psychology
2. [BIOD17H3](#) Seminars in Cellular Microbiology or [BIOD43H3](#) Animal Movement and Exercise or [BIOD29H3](#) Pathobiology of Human Disease
3. 0.5 credits of elective courses

*Students may take any 2 of the D-level courses listed above to meet program requirements. The sequence here merely reflects the current scheduling of courses in the various sessions.

MAJOR (JOINT) PROGRAM IN NEW MEDIA STUDIES (ARTS) - SCMAJNME

Program Manager: Email: acm-pm@utsc.utoronto.ca

Enrolment Requirements

Enrolment in the program is limited and admission is by competitive application. Please refer to the UTSC Registrar's Office for enrolment timelines. Students must have completed [MDSA10H3](#) and [MDSA13H3](#) and have a minimum cumulative GPA of 2.0 to apply. Students must request admission to the program through ACORN and submit a

Supplementary Application Form to the Department that includes an unofficial copy of their academic record, a personal statement of interest, and links (if any) to work published online. Students are strongly advised to meet with the Program Manager during their first year, and before preparing an application for admission. Students may be required to attend an interview with the Program Manager before an admission decision is made. All applicants will be notified through ACORN in early June.

Program Requirements

Students must complete 8.0 full credits of which at least 2.0 must be at the C- or D-level, including:

1. 1.0 credit:

MDSA10H3 Media Foundations

MDSA13H3 Media History

2. 4.5 credits from Centennial College:

New Media Group 1:

NMEA01H3 Digital Fundamentals

NMEA02H3 Introduction to New Media Communications

NMEA03H3 The Language of Design

NMEA04H3 Interface Design, Navigation and Interaction I

New Media Group 2:

[Students will be eligible to enrol in these courses after successfully completing all courses in New Media Group 1]

NMEB05H3 Interface Design, Navigation and Interaction II

NMEB06H3 Project Development and Presentation

NMEB08H3 Application Software for Interactive Media

NMEB09H3 Sound Design

NMEB10H3 Design for New Media

3. 0.5 credit:

NMEC01H3 Theory and Practice of New Media

4. 1.0 additional credit at the C-level in MDS courses:

5. 1.0 credit:

NMED10Y3 New Media Senior Project

Note: NMEC01H3 and NMED10Y3 are taught at UTSC. All other NME courses are taught at Centennial College. For details, including campus location changes, consult the Joint Programs [website](#) for the most up-to-date information.

SPECIALIST (JOINT) PROGRAM IN JOURNALISM (ARTS) - SCSPEJOU

Program Advisor Email: acm-pm@utsc.utoronto.ca

This program may be taken in fulfillment of the requirements of a four-year (20.0 credit) Honours Bachelor of Arts (BA) degree and requires four to five years to complete. In addition to completing the requirements for the Honours BA, students will also qualify for the Ontario Graduate Certificate in Contemporary Journalism from Centennial College.

Courses are taught at both U of T Scarborough and Centennial College. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.

Year 1 and Year 2 of the program are taught at UTSC. Centennial courses are taken during three consecutive college semesters starting in the Fall semester of Year 3 of the program, prior to returning to UTSC for a final semester of instruction in the Fall semester of Year 4 of the program. Students must be registered on a full-time basis while at Centennial College. The course work during the Centennial College portions of the program may include evenings and weekends. The Centennial College portions of the program also includes a 7-week, 35-hour field placement (JOU25H3). The final semester prior to graduation will take place on the UTSC campus where students will complete the C- and D-level program requirements, including the D-level capstone course.

Guidelines for first-year course selection

Students intending to complete the program should include the following in their first-year course selection: JOUA01H3, JOUA02H3, MDSA10H3, and MDSA13H3. Students are encouraged to take other elective courses based on their academic interests.

Guidelines for computer and software selection

Students accepted in the Joint Program in Journalism are advised to purchase an industry standard laptop and obtain designated software and hardware.

- Computer: 13-inch Apple MacBook Pro capable of running the current version of Adobe software.
- Software: Microsoft Office Suite (Word, Excel, PowerPoint), 2010 or more recent version, and Adobe Photoshop (most recent version).
- For questions regarding camera equipment, please contact Karuna Ratnarajah, Academic Partnerships Coordinator at kratnarajah@centennialcollege.ca

The Journalism Study Guide, please visit the following website.

Enrolment Requirements

This program has limited enrolment. Students with a CGPA of 2.0 or above are able to apply after completing JOUA01H3, JOUA02H3, MDSA10H3 and MDSA13H3.

Students must maintain a Cumulative Grade Point Average (CGPA) of 2.0 or higher to remain in the program.

Program Requirements

This program requires the completion of at least 14.0 credits, as indicated below:

1. First Year (2.0 credits):

Introductory Journalism Courses (1.0 credit)

JOUA01H3 Introduction to Journalism and News Literacy I

JOUA02H3 Introduction to Journalism II

Media Studies Courses (1.0 credit)

MDSA10H3 Media Foundations

MDSA13H3 Media History

Note: Courses for Year 1 of the program are taught on the UTSC Campus.

2. Second Year (2.5 credits):

Journalism Core Courses

JOUB01H3 Covering Immigration and Transnational Issues

JOUB02H3 Critical Journalism

JOUB24H3 Journalism in the Age of Digital Media

JOUB39H3 Fundamentals of Journalistic Writing

0.5 credits from the following:

(MDSB05H3)/MDSB32H3 Media and Globalization

or

(MDSB25H3) Political Economy of Media

JOUB21H3 Witnessing and Bearing Witness

Note: Courses for Year 2 of the program are taught on the UTSC Campus.

3. Third Year (6.5 credits): **Note that students are required to be on full-time status while they are taking courses at Centennial College**

Journalism Application Courses

(a) Centennial College Group 1 (2.5 credits)

*JOUA06H3 Contemporary Issues in Law and Ethics

*JOUB11H3 News Reporting

*JOUB14H3 Mobile Journalism

*JOUB18H3 Visual Storytelling: Photography and Videography

*JOUB19H3 Data Management and Presentation

*A minimum grade of 60% is required in these courses to pass and maintain standing in the program.

Note: students will be eligible to enrol in Centennial College Group 1 courses after successfully completing at least 10.0 credits at the University of Toronto Scarborough (or obtaining permission of the Program Director), including JOUA01H3, JOUA02H3, (MDSA01H3)/MDSA10H3, JOUB01H3, JOUB02H3, JOUB24H3, JOUB39H3.

(b) Centennial College Group 2 (2.5 credits)

*JOUB20H3 Interactive: Data and Analytics

*JOUC18H3 Storyworks

*JOUC19H3 Social Media and Mobile Storytelling

*JOUC21H3 Podcasting

*JOUC22H3 Advanced Video and Documentary Storytelling

*A minimum grade of 60% is required in these courses to pass and maintain standing in the program.

Note: students will be eligible to enrol in Centennial College Group 2 courses after successfully completing the courses from Centennial College Group 1 above.

Advanced Journalism Application Courses

(c) Centennial College Group 3, Summer Semester (1.5 credits)

*JOUB03H3 Business of Journalism

*JOUC13H3 Entrepreneurial Reporting

*JOUC25H3 Field Placement

*A minimum grade of 60% is required in these courses to pass and maintain standing in the program.

Notes:

- Students will be eligible to enrol in Centennial College Group 3 courses after successfully completing the courses from Centennial College Group 2 above.
- Courses for Year 3 of the program are taught at Centennial College. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.
- Students are advised not to enrol in UTSC courses during the same term they are taking courses at Centennial College.

4. Fourth Year (3.0 credits):

Senior Journalism Studies Courses

* 2.5 credits at the C- or D-level in MDS or JOU courses, of which at least 0.5 credit must be at the D-level.

* JOUD10H3 Senior Seminar in Journalism

Note: courses for Year 4 of the program are taught on the UTSC campus

SPECIALIST (JOINT) PROGRAM IN MUSIC INDUSTRY AND TECHNOLOGY - SCSPMIT

The Specialist (Joint) program in Music Industry and Technology is a 4-year, undergraduate Joint program that will allow students to earn an Honours Bachelor of Arts (H.B.A.) degree from the University of Toronto and an Ontario College Certificate in Music Business and Technology from Centennial. The Specialist (Joint) program in Music Industry and Technology aims to provide long-term career preparation by offering practical, career-oriented courses in music business and technology, as well as their industry connections, in order to meet the needs of students who seek a combination of broad-based knowledge that can adapt to the rapidly changing landscape of music, business, and technology and career-ready skills.

This program has limited enrolment. In addition to meeting the 2.0 CGPA requirement, applicants must fill out a joint program application form, which will be made available on ACM website closer to the enrollment timeline.

The program requires 15.5 credits, of which 7.5 credits are taught at UTSC and 8.0 credits are taught at Centennial. The program takes four years (including one spring internship) to complete. In addition to attaining an Honours BA from UTSC,

students will also qualify for the Ontario College Certificate in Music Business and Technology. Students will be able to choose from two possible Certificate options, depending on their course selections in the program:

1. Audio Engineering: this track focusses on audio production; or
2. Music Business: this track focuses on management, marketing, publishing, and licensing.

Students must choose either the Audio Engineering or Music Business track in Year 2 of the program, and will not be able to change tracks without adding additional time to degree completion. Please consult with ACM Program Manager if you intend to complete both tracks. Note: Students will indicate to ACM Program Manager their preference before taking Winter courses.

Courses in this Specialist (Joint) program are currently taught at the UTSC campus and Centennial College. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.

Students will begin the program by taking courses on the UTSC campus, then spend three consecutive sessions at Centennial College – Winter of Year 2, and Year 3 (Fall, and Winter) – followed by a required internship in Winter (March-April) of Year 3. Students complete the program by taking courses on the UTSC campus.

Notes:

1. A minimum grade of 60% is required in the Centennial College courses to pass and maintain standing in the program.
2. Students at Centennial College must be enrolled on a full-time basis.
3. Courses at Centennial have a technology requirement. Please check with the ACM Program Manager for the latest specifications.
4. Students must maintain a Cumulative Grade Point Average (CGPA) of 2.0 or higher to remain in the program. Students whose CGPA falls below 2.0 will be removed from the Program. Students removed from the program, for this reason, may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Enrolment in this program is limited. Although students will enter directly from high school, there is also a pathway for students who have already begun their studies at UTSC.

Direct from high school:

- Students enrolling directly from high school are admitted on the basis of academic performance and the information provided in a Supplementary Application form (SAF).

Current UTSC students:

- Current UTSC students with a CGPA of at least 2.0 may apply to the program, after they have completed 4.0 credits, and must submit a Supplementary Application form (SAF). Students may apply until they have completed up to 10.0 credits, but once they have completed more than 10.0 credits will not be considered for admission.
- Admission will be based on the grades received and information in the SAF. Students should request the program on ACORN and submit the SAF by the specified application deadline; consult the Music and Culture website for details.
- In order to ensure degree completion in four years, students should ensure they complete the first 2.0 credits of the program ([MUZA80H3](#), [VPAA10H3](#), and 1.0 credit in performance courses) in their first year of studies.

Students must complete a total of 15.5 credits as follows.

1. First Year (2.5 credits; offered at UTSC):

[MUZA80H3](#) Foundations in Musicianship

[MUZA81H3](#) Introduction to Music Industry and Technology

[VPAA10H3](#) Introduction to Arts and Media Management

and 1.0 credit in performance ensembles* (Concert Choir, Concert Band, String Orchestra, Small Ensembles)

*Students can register for the ensemble of their choice. Students who play electric or electronic instruments should register for Small Ensembles. For additional information, see the [Music and Culture program page](#).

Note: Courses for Year 1 of the program are taught on the UTSC Campus.

2. Second Year (4.5 credits):

Fall Session (2.0 credits; offered at UTSC)

[MUZB80H3](#) Developing Musicianship

[MUZB40H3](#) Music and Technology

[MUZB41H3](#) DJ Cultures: Analogue Innovations, Digital Aesthetics

and 0.5 credit in performance ensembles* (Concert Choir, Concert Band, String Orchestra, Small Ensembles)

*Students can register for the ensemble of their choice. Students who play electric or electronic instruments should register for Small Ensembles. For additional information, see the [Music and Culture program page](#).

Note: Courses for Fall session of the program are taught on the UTSC Campus.

Winter Session – Group A (2.5 credits; offered at Centennial College)

[MBTB13H3](#) Songwriting 2

[MBTB41H3](#) Introduction to Audio Engineering

[MBTB50H3](#) Music Business Fundamentals

and 1.0 credit in track-specific courses, as follows:

- Students pursuing the Audio Engineering Certificate** must complete: [MBTC62H3](#) Advanced Sound Mixing and Editing
[MBTC63H3](#) Advanced Sound Production and Recording
- Students pursuing the Music Business Certificate** must complete: [MBTC70H3](#) Copyright, Royalties, Licensing, and Publishing
[MBTC72H3](#) Advanced Music Business

** Students must choose either Audio Engineering OR Music Business. This choice affects courses in Year 3; **students are cautioned that they cannot switch tracks.**

Note: Courses for the Winter session are taught at Centennial College. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.

Students are advised not to enrol in UTSC courses during the same term they are taking courses at Centennial College.

3. Third Year (5.5 credits):

Fall Session – Group B (2.5 credits; offered at Centennial College)

[Note: students will be eligible to enrol in these courses after successfully completing all courses in Group A]

[MBTB30H3](#) Art of Performance

[MBTB51H3](#) Musical Entrepreneurship

[MBTB11H3](#) Orchestral Arranging or [MBTB12H3](#) Vocal Arranging]

and 1.0 credit in track-specific courses, as follows:

- Students pursuing the Audio Engineering Certificate must complete: [MBTC60H3](#) Live Sound Engineering
[MBTC66H3](#) Studio Session Management
- Students pursuing the Music Business Certificate must complete: [MBTC71H3](#) Music Marketing and Social Media
[MBTC73H3](#) Artist Management and Promotion

Winter Session– Group C (2.5 credits; offered at Centennial College)

[Note: students will be eligible to enrol in these courses after successfully completing all courses in Group B]

MBTC52H3 Contemporary Music Industry Issues
MBTC98H3 Music Career Development
 and 1.5 credits selected from the following:
MBTC67H3 Audio Mastering
MBTC68H3 Audio Engineering for Gaming and VR
MBTC74H3 Music Supervision and Consulting
MBTC75H3 Music Journalism
MBTC82H3 Indie Artist Development

Winter Session – Group D (0.5 credit)

[Note: students will be eligible to enrol in these courses after successfully completing all courses in Group C]

MBTD99H3 Field Placement***

***Note: this 6-week placement takes place in March-April

Note: Courses for Year 3 of the program are taught at Centennial College. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.

Students are advised not to enrol in UTSC courses during the same term they are taking courses at Centennial College.

4. Fourth Year (3.0 credits; offered at UTSC):

MUZB81H3 The Independent Music-Maker
MUZY41H3 Digital Music Creation
MUZY21H3 Musical Diasporas
MUZY43H3 Music, Technologies, Media
MUZY42H3 Creative Audio Design Workshop
MUZD80H3 Music and Culture Senior Project Note: courses for Year 4 of the program are taught on the UTSC campus

Journalism

Faculty List

- K. Burchell, B.A. (McGill), MSc. (London), Ph.D. (London), Assistant Professor
- H. Roderique, B.Sc. (McGill), J.D./M.A. (U of T), Ph.D. (U of T)
- S. Yu, B.A. (Simon Fraser), M.I.S. (Yonsei), Ph.D. (Simon Fraser), Associate Professor

ACM Program Manager: Email: acm-pm@utsc.utoronto.ca

Students interested in Journalism have two options: The Specialist (Joint) Program in Journalism and the Major Program in Media, Journalism and Digital Cultures - Journalism Stream.

The Specialist (Joint) Program in Journalism focuses on the critical thinking, research, writing and communications skills needed to examine issues concerning news media, journalism and society. In addition to completing the requirements for the Honours B.A., students pursuing the Specialist (Joint) Program in Journalism will also qualify for the Ontario Graduate Certificate in Contemporary Journalism from Centennial College. In this Specialist (Joint) program, students learn to tell the story from every angle in every media form relevant to today's audiences. Graduates take with them a portfolio demonstrating experience gained from producing a real community newspaper, online publications and internet radio, and are ready for professional careers in the media or in public or private sector communications.

High school students can directly apply to the Specialist (Joint) Program in Journalism. UTSC students interested in pursuing the Specialist (Joint) Program in Journalism can declare this program at the end of year 1, having taken the required JOUA-level courses.

Students are required to complete three consecutive sessions (Fall, Winter, and Summer) at Centennial College in Year 3 of their undergraduate program at UTSC. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.

Note that although 50% is a passing grade at UTSC, a final grade of 60% or above is required in all Centennial College courses in order to continue with the curriculum. Students with a final grade between 50% and 60% will be required to repeat the course as an extra (EXT) credit.

Please also note that there is a small additional fee charged for the term(s) when you will be attending Centennial College. Contact the department for more information.

Students who are interested in the critical analysis of journalism, rather than in becoming a working journalist, may want to consider the Major Program in Media, Journalism and Digital Cultures, which includes a stream in Journalism Studies. For a description of the program, see the [Media Studies](#) section of the *Calendar*.

Program Combination Restrictions in Journalism

The Specialist in Journalism cannot be combined with the Major in Media, Journalism and Digital Cultures.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Journalism Programs

SPECIALIST (JOINT) PROGRAM IN JOURNALISM (ARTS) - SCSPEJOU

Program Advisor Email: acm-pm@utsc.utoronto.ca

This program may be taken in fulfillment of the requirements of a four-year (20.0 credit) Honours Bachelor of Arts (BA) degree and requires four to five years to complete. In addition to completing the requirements for the Honours BA, students will also qualify for the Ontario Graduate Certificate in Contemporary Journalism from Centennial College.

Courses are taught at both U of T Scarborough and Centennial College. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.

Year 1 and Year 2 of the program are taught at UTSC. Centennial courses are taken during three consecutive college semesters starting in the Fall semester of Year 3 of the program, prior to returning to UTSC for a final semester of instruction in the Fall semester of Year 4 of the program. Students must be registered on a full-time basis while at Centennial College. The course work during the Centennial College portions of the program may include evenings and weekends. The Centennial College portions of the program also includes a 7-week, 35-hour field placement (JOUA25H3). The final semester prior to graduation will take place on the UTSC campus where students will complete the C- and D-level program requirements, including the D-level capstone course.

Guidelines for first-year course selection

Students intending to complete the program should include the following in their first-year course selection: [JOUA01H3](#), [JOUA02H3](#), [MDSA10H3](#), and [MDSA13H3](#). Students are encouraged to take other elective courses based on their academic interests.

Guidelines for computer and software selection

Students accepted in the Joint Program in Journalism are advised to purchase an industry standard laptop and obtain designated software and hardware.

- Computer: 13-inch Apple MacBook Pro capable of running the current version of Adobe software.
- Software: Microsoft Office Suite (Word, Excel, PowerPoint), 2010 or more recent version, and Adobe Photoshop (most recent version).
- For questions regarding camera equipment, please contact Karuna Ratnarajah, Academic Partnerships Coordinator at kratnarajah@centennialcollege.ca

*JOUA06H3 Contemporary Issues in Law and Ethics*JOUB11H3 News Reporting*JOUB14H3 Mobile Journalism*JOUB18H3 Visual Storytelling: Photography and Videography*JOUB19H3 Data Management and Presentation

*A minimum grade of 60% is required in these courses to pass and maintain standing in the program.

Note: students will be eligible to enrol in Centennial College Group 1 courses after successfully completing at least 10.0 credits at the University of Toronto Scarborough (or obtaining permission of the Program Director), including JOUA01H3, JOUA02H3, (MDSA01H3)/MDSA10H3, JOUB01H3, JOUB02H3, JOUB24H3, JOUB39H3.

(b) Centennial College Group 2 (2.5 credits)

*JOUB20H3 Interactive: Data and Analytics*JOUC18H3 Storyworks*JOUC19H3 Social Media and Mobile Storytelling*JOUC21H3 Podcasting*JOUC22H3 Advanced Video and Documentary Storytelling

*A minimum grade of 60% is required in these courses to pass and maintain standing in the program.

Note: students will be eligible to enrol in Centennial College Group 2 courses after successfully completing the courses from Centennial College Group 1 above.*Advanced Journalism Application Courses*

(c) Centennial College Group 3, Summer Semester (1.5 credits)

*JOUB03H3 Business of Journalism*JOUC13H3 Entrepreneurial Reporting*JOUC25H3 Field Placement

*A minimum grade of 60% is required in these courses to pass and maintain standing in the program.

Notes:

- Students will be eligible to enrol in Centennial College Group 3 courses after successfully completing the courses from Centennial College Group 2 above.
- Courses for Year 3 of the program are taught at Centennial College. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.
- Students are advised not to enrol in UTSC courses during the same term they are taking courses at Centennial College.

4. Fourth Year (3.0 credits):*Senior Journalism Studies Courses*

* 2.5 credits at the C- or D-level in MDS or JOU courses, of which at least 0.5 credit must be at the D-level.

* JOUD10H3 Senior Seminar in Journalism

Note: courses for Year 4 of the program are taught on the UTSC campus

Journalism Courses

JOUA01H3 - Introduction to Journalism and News Literacy I

An introduction to the social, historical, philosophical, and practical contexts of journalism. The course will examine the skills required to become news literate. The course will look at various types of media and the role of the journalist. Students will be introduced to specific techniques to distinguish reliable news from so-called fake news. Media coverage and analysis of current issues will be discussed.

Exclusion: (MDSA21H3)

Breadth Requirements: Arts, Literature and Language

JOUA02H3 - Introduction to Journalism II

A continuation of JOUA01H3.

Prerequisite: (MDSA21H3) or JOUA01H3

Exclusion: (MDSA22H3)

Breadth Requirements: Arts, Literature and Language

JOUA06H3 - Contemporary Issues in Law and Ethics

An examination of the key legal and ethical issues facing Canadian journalists, with an emphasis on the practical: what a journalist needs to know to avoid legal problems and develop strategies for handling ethical challenges. This course is taught at Centennial College and is open only to students in the Specialist (Joint) program in Journalism.

Prerequisite: 9.0 credits, including: JOUA01H3 and JOUA02H3 and JOUB01H3 and JOUB02H3 and CGPA of 2.0

Corequisite: JOUB11H3 and JOUB14H3 and JOUB18H3 and JOUB19H3

Exclusion: (MDSB04H3)

Breadth Requirements: History, Philosophy and Cultural Studies

JOUB01H3 - Covering Immigration and Transnational Issues

An examination of Canadian coverage of immigration and transnational issues. With the shift in Canada's

demographics, media outlets are struggling to adapt to new realities. We will explore how media frame the public policy debate on immigration, multiculturalism, diaspora communities, and transnational issues which link Canada to the developing world.

Prerequisite: JOUA01H3 and JOUA02H3

Exclusion: (MDSB26H3)

Breadth Requirements: Arts, Literature and Language

JOUB02H3 - Critical Journalism

The course examines the representation of race, gender, class and power in the media, traditional journalistic practices and newsroom culture. It will prepare students who wish to work in a media-related industry with a critical perspective towards understanding the marginalization of particular groups in the media.

Prerequisite: 4.0 credits including JOUA01H3 and JOUA02H3

Exclusion: (MDSB27H3)

Breadth Requirements: Arts, Literature and Language

JOUB03H3 - Business of Journalism

Today's 'contract economy' means full-time staff jobs are rare. Students will dissect models of distribution and engagement, discussing trends, predictions and future opportunities in media inside and outside the traditional newsroom. This course is taught at Centennial College and is open only to students in the Specialist (Joint) program in Journalism.

Prerequisite: 14 credits, including: [JOUB20H3 and JOUC18H3 and JOUC19H3 and JOUC21H3 and JOUC22H3]; students must have a minimum CGPA of 2.0

Corequisite: JOUC13H3 and JOUC25H3

Breadth Requirements: Arts, Literature and Language

JOUB11H3 - News Reporting

Through research and practice, students gain an understanding of news judgment and value, finding and developing credible sources and developing interviewing, editing and curating skills. This course is taught at Centennial College and is open only to students in the Specialist (Joint) program in Journalism.

Prerequisite: 9.0 credits, including: JOUA01H3 and JOUA02H3 and JOUB01H3 and JOUB02H3 and CGPA of 2.0

Corequisite: JOUA06H3 and JOUB14H3 and JOUB18H3 and JOUB19H3

Breadth Requirements: Arts, Literature and Language

JOUB14H3 - Mobile Journalism

Today, content creators and consumers both use mobile tools and technologies. Students will explore the principles of design, including responsive design, and how they apply to various platforms and devices. This course is taught at Centennial College and is open only to students in the Specialist (Joint) program in Journalism.

Prerequisite: 9.0 credits, including: JOUA01H3 and JOUA02H3 and JOUB01H3 and JOUB02H3 and CGPA of 2.0

Corequisite: JOUA06H3 and JOUB11H3 and JOUB18H3 and JOUB19H3

Breadth Requirements: Arts, Literature and Language

JOUB18H3 - Visual Storytelling: Photography and Videography

Applying photo-journalism principles to the journalist's tool of choice, the smartphone. Students will take professional news and feature photos, video optimized for mobile use and will capture credible, shareable visual cross-platform stories. This course is taught at Centennial College and is open only to students in the Specialist (Joint) program in Journalism.

Prerequisite: 9.0 credits, including: JOUA01H3 and JOUA02H3 and JOUB01H3 and JOUB02H3 and CGPA of 2.0

Corequisite: JOUA06H3 and JOUB11H3 and JOUB14H3 and JOUB19H3

Breadth Requirements: Arts, Literature and Language

JOUB19H3 - Data Management and Presentation

To develop stories from raw numbers, students will navigate spreadsheets and databases, and acquire raw data from web pages. Students will learn to use Freedom of Information requests to acquire data. This course is taught at Centennial College and is open only to students in the Specialist (Joint) program in Journalism.

Prerequisite: 9.0 credits, including: JOUA01H3 and JOUA02H3 and JOUB01H3 and JOUB02H3 and CGPA of 2.0

Corequisite: JOUA06H3 and JOUB11H3 and JOUB14H3 and JOUB18H3

Breadth Requirements: Arts, Literature and Language

JOUB20H3 - Interactive: Data and Analytics

Building the blending of traditional skills in reporting and writing with interactive production protocols for digital news. The course provides an introduction to web development and coding concepts. This course is taught

at Centennial College and is open only to students in the Specialist (Joint) program in Journalism.

Prerequisite: 11.5 credits, including: JOUA06H3 and JOUB11H3 and JOUB14H3 and JOUB18H3 and JOUB19H3 and CGPA of 2.0

Corequisite: JOUC18H3 and JOUC19H3 and JOUC21H3 and JOUC22H3

Breadth Requirements: Arts, Literature and Language

JOUB21H3 - Witnessing and Bearing Witness

Journalists must observe and understand while responsibly contextualizing and communicating. This course critically examines the motivations and methods of how current events are witnessed but also how changing journalistic forms mediate the social function of bearing witness to communicate a diversity of experiences across matrices of time, space, power, and privilege.

Prerequisite: Enrollment in Major program in Media Studies and Journalism – Journalism Stream or Enrolment in the Specialist (Joint) Program in Journalism

Exclusion: (ACMB02H3)

Breadth Requirements: Social and Behavioural Sciences

JOUB24H3 - Journalism in the Age of Digital Media

Journalism is undergoing a revolutionary change. Old trusted formats are falling away and young people are consuming, producing, exchanging, and absorbing news in a different way. The course will help students critically analyze new media models and give them the road map they will need to negotiate and work in New Media.

Exclusion: (MDSB24H3)

Breadth Requirements: Arts, Literature and Language

JOUB39H3 - Fundamentals of Journalistic Writing

An overview of the standard rules and techniques of journalistic writing. The course examines the basics of good writing style including words and structures most likely to cause problems for writers. Students will develop their writing skills through assignments designed to help them conceive, develop, and produce works of journalism.

Prerequisite: [(MDSA21H3) or JOUA01H3] and [(MDSA22H3) or JOUA02H3] and (HUMA01H3).

Exclusion: (MDSB39H3)

Breadth Requirements: Arts, Literature and Language

JOUC13H3 - Entrepreneurial Reporting

Working in groups under faculty supervision from the newsroom, students will create, present and share significant portfolio pieces of multiplatform content, demonstrating expertise in credible, verifiable storytelling for discerning audiences. This course is taught at Centennial College and is open only to students in the Specialist (Joint) program in Journalism.

Prerequisite: 14 credits, including: JOUB20H3 and JOUC18H3 and JOUC19H3 and JOUC21H3 and JOUC22H3; students must have a minimum CGPA of 2.0

Corequisite: JOUB03H3 and JOUC25H3

Breadth Requirements: Arts, Literature and Language

JOUC18H3 - Storyworks

This experiential learning course provides practical experience in communication, media and design industries, supporting the student-to-professional transition in advance of work placements, and graduation towards becoming practitioners in the field. This course is taught at Centennial College and is open only to students in the Specialist (Joint) program in Journalism.

Prerequisite: 11.5 credits, including: JOUA06H3, JOUB11H3, JOUB14H3, JOUB18H3 and JOUB19H3; students must have a minimum CGPA of 2.0

Corequisite: JOUB20H3 and JOUC19H3 and JOUC21H3 and JOUC22H3

Breadth Requirements: Arts, Literature and Language

JOUC19H3 - Social Media and Mobile Storytelling

Students will effectively use their mobile phones in the field to report, edit and share content, while testing emerging apps, storytelling tools and social platforms to connect with audiences. This course is taught at Centennial College and is open only to students in the Specialist (Joint) program in Journalism.

Prerequisite: 11.5 credits, including: JOUA06H3 and JOUB11H3 and JOUB14H3 and JOUB18H3 and JOUB19H3; students must have a CGPA of 2.0

Corequisite: JOUB20H3 and JOUC18H3 and JOUC21H3 and JOUC22H3

Breadth Requirements: Arts, Literature and Language

JOUC21H3 - Podcasting

Students will learn the technical fundamentals and performance skills of audio storytelling and explore best practices before researching, interviewing, reporting, editing and producing original podcasts of professional journalistic quality.

Prerequisite: 11.5 credits, including: JOUA06H3 and JOUB11H3 and JOUB14H3 and JOUB18H3 and JOUB19H3; students must have a CGPA of 2.0

Corequisite: JOUB20H3, JOUC18H3, JOUC19H3, JOUC21H3, JOUC22H3

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

JOUC22H3 - Advanced Video and Documentary Storytelling

Students will build on the skills in the Visual Storytelling course from the previous semester and focus on the creation and distribution of short- and long-form video for mobile devices and social platforms. Emphasis will be placed on refining interviewing skills and performance and producing documentary-style journalism.

Prerequisite: 11.5 credits, including: JOUA06H3 and JOUB11H3 and JOUB14H3 and JOUB18H3 and JOUB19H3; students must have a CGPA of 2.0

Corequisite: JOUB20H3, JOUC18H3, JOUC19H3, JOUC21H3

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

JOUC25H3 - Field Placement

In Field Placement, students use theoretical knowledge and applied skills in professional journalistic environments. Through individual work and as team members, students create editorial content on various platforms and undertake academic research and writing assignments that require them to reflect upon issues arising from their work placement experience. This course is taught at Centennial College and is open only to students in the Specialist (Joint) program in Journalism.

Prerequisite: 14.0 credits, including JOUB20H3, JOUC18H3, JOUC19H3, JOUC21H3, and JOUC22H3

Corequisite: JOUB03H3 and JOUC13H3

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

Note: This course will be graded as a CR if a student successfully completes their internship; and as NCR if the internship was unsuccessful. The NCR will impact the CGPA and count as a 0.0 CGPA value on a transcript.

JOUC30H3 - Critical Approaches to Style, Form and Narrative

The forms of Journalism are being challenged as reporting styles diverge and change overtime, across genres and media. New forms of narrative experimentation are opened up by the Internet and multimedia platforms. How do participatory cultures challenge journalists to experiment with media and language to create new audience experiences?

Prerequisite: (MDSB05H3)/MDSB32H3 and JOUB39H3
Breadth Requirements: Arts, Literature and Language
Note: Priority will be given to students in the Specialist (Joint) program in Journalism.

JOUC31H3 - Journalism, Information Sharing and Technological Change

The nexus between journalism, civic engagement and changing technologies presents opportunities and challenges for the way information is produced, consumed and shared. Topics range from citizen and networked journalism, mobile online cultures of social movements and everyday life, to the complicated promises of the internet's democratizing potential and data-based problem solving.

Prerequisite: JOUB24H3
Breadth Requirements: Arts, Literature and Language
Note: Priority will be given to students in the Specialist (Joint) program in Journalism.

JOUC60H3 - Diasporic Media

New media technologies enable more production and distribution of culturally, ethnically and linguistically diverse voices than ever before. Who produces these diverse voices and how accessible are these media? This course explores various types of diasporic media from century-old newspapers to young and hip news and magazine blogs, produced by and for members of a multicultural society.

Same as MDSC34H3

Prerequisite: [2.0 credits at the B-level in MDS courses] or [2.0 credits at the B-level in JOU courses] or [4.5 credits from the Major (Joint) program in New Media Studies Group I and Group II courses]
Exclusion: MDSC34H3, (MDSC60H3)
Breadth Requirements: History, Philosophy and Cultural Studies

JOUC62H3 - Media, Journalism and Digital Labour

This course explores themes of labour in *news* media and *new* media. Topics include labour conditions for media workers across sectors; the labour impacts of media convergence; and the global distribution of media labour including content generation and management. The course is structured by intersectional analyses, studying how race and racism, class, gender, sex and sexism, sexuality, nationality, global location and citizenship status, Indigeneity and religion shape our experiences of media, journalism and labour.

Same as MDSC37H3

Prerequisite: [(MDSA01H3)/MDSA10H3 and (MDSB05H3)/MDSB32H3] or [JOUA01H3 and

JOUA02H3] or [4.5 credits from the Major (Joint) program in New Media Studies Group I and Group II courses]
Exclusion: MDSC37H3, (MDSC62H3)
Breadth Requirements: Arts, Literature and Language

JOUC80H3 - Understanding Audiences in the Digital Age

Understanding the interests and goals of audiences is a key part of media production. This course introduces communication research methods including ratings, metrics, in-depth interviews, and focus groups. The focus of class discussion and research project is to use these methods to be able to understand the nature of audiences' media use in the digital age.

Same as MDSC25H3

Prerequisite: [2.0 credits at the B level in MDS courses] or [2.0 credits at the B level in JOU courses] or [4.5 credits from the Major (Joint) program in New Media Studies Group I and Group II courses]
Exclusion: MDSC25H3, (MDSC80H3)
Breadth Requirements: History, Philosophy and Cultural Studies

JOUD10H3 - Senior Seminar in Journalism

A project-oriented capstone course requiring students to demonstrate the skills and knowledge necessary for contemporary journalism. Students will create a project that will serve as part of a portfolio or as a scholarly exploration of the state of the mass media. This course is open only to students in the Journalism Joint Program.

Prerequisite: JOUB03H3 and JOUC13H3 and JOUC25H3
Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience

JOUD11H3 - Senior Research Seminar in Media and Journalism

Focusing on independent research, this course requires students to demonstrate the necessary analysis, research and writing skills required for advanced study. This seminar course provides the essential research skills for graduate work and other research-intensive contexts. Students will design and undertake unique and independent research about the state of journalism.

Prerequisite: ACMB02H3 and [an additional 4.5 credits in MDS or JOU courses, 1.0 credit of which must be at the C-level]
Exclusion: (MDSD11H3)
Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist (Joint) program in Journalism.

JOUD12H3 - Journalism at the Intersection of Politics, Economics and Ethics

Journalism is a field that influences – and is influenced by – politics, finance, and civil society. This course raises contentious questions about power and responsibility at the core of journalism's role in society. Challenges to the obligations of responsible journalism are examined through changing economic pressures and ties to political cultures.

Prerequisite: [1.0 credit from the following: JOUC30H3, JOUC31H3, JOUC62H3, JOUC63H3]

Breadth Requirements: Arts, Literature and Language

Note: Priority will be given to students in the Specialist (Joint) program in Journalism.

JOUD13H3 - Surveillance, Censorship, and Press Freedom

There is a technological and strategic arms race between governmental, military, and corporate entities on the one hand and citizens, human rights workers, and journalists on the other. Across diverse geopolitical contexts, journalistic work faces systematic surveillance alongside the censorship of free speech and a free internet. This course examines those threats to press freedom and how the same technologies support collaboration among citizens and journalists—across borders, languages, and legal regimes— to hold abuses of power to account.

Prerequisite: 0.5 credits at JOU C-level

Breadth Requirements: Arts, Literature and Language

- C.V. Ponomareff, M.A., Ph.D. (Toronto), Professor Emeritus
- R. Skyrme, B.A., M.Litt. (Bristol), M.A., Ph.D. (Michigan), Professor Emeritus
- H. Wittmann, M.A., Ph.D. (Mass.), Professor Emeritus
- J. Ma, Ph.D. (Toronto), Part-time Assistant Professor
- C.N. Payne, M.A. (McGill), Ph.D. (SOAS, London), Assistant Professor, Teaching Stream
- C. Song, Ph.D. (Lingnan University, Hong Kong), Assistant Professor
- R. Wang, Ph.D. (Beijing Language and Culture University), Part-time Assistant Professor
- H.X. Wu, M.A., Ph.D. (Toronto), Associate Professor, Teaching Stream

Chair: S. Drouin Email: dls-chair.utsc@utoronto.ca

For curriculum inquiries please contact the department's Program Coordinator: dls-ua@utsc.utoronto.ca

Please visit the [Department of Language Studies website](#) to read more about our faculty, events, and news items.

The English and Chinese Translation program is designed for students, fluent in both English and Chinese, who are interested in English and Chinese translation. It will equip students with the fundamental theoretical knowledge and practical skills required in this profession.

The courses listed under Languages include English and Chinese Translation (ECT) courses and language courses in Modern Standard Arabic, Bengali, Chinese (Mandarin), Hindi, Japanese, Spanish, Tamil, and a featured language that will be announced when the course is offered. These courses are offered on a rotational basis.

Registration in all courses with the prefixes ECT and LGG are subject to the approval of the instructor. Students who intend to take any LGG A- or B-level Chinese course for the first time must take the placement test/survey on the [Department of Language Studies - Chinese website](#). Students who are interested in other languages will be assessed at the beginning of the course in a manner to be determined by the instructor. Students whose level of proficiency in the language is inappropriate for the level of the course will not be approved for enrolment. In some courses, the status of students will be listed as "interim" (INT) until they are "approved" (APP) by their instructors.

Note: Students are not permitted to take language courses in the wrong sequence (i.e., a lower-level course after a higher-level course).

For further information about language courses, please consult the Department of Language Studies Program Coordinator at dls-ua@utsc.utoronto.ca or, where appropriate, the instructors of these courses.

Language Citation

UTSC offers a range of language opportunities and, as students seek international study, work opportunities and post-graduate study, they may be assisted by a notation of language proficiency. See the [Language Citation](#) section of the *Calendar* for more information about this notation.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Languages Programs

MINOR PROGRAM IN ENGLISH AND CHINESE TRANSLATION (ARTS) - SCMIN0180

This program is designed for students, fluent in both English and Chinese, who are interested in English and Chinese translation. It will equip students with the fundamental theoretical knowledge and practical skills required in this profession.

Program Requirements

Students are required to complete a total of 4.0 credits, of which 1.0 must be at the C-level or higher.

1. 2.0 credits as follows:

[CTLA01H3 Foundations in Effective Academic Communication or LINA01H3 Introduction to Linguistics]

[LINB06H3 Syntax or LINB18H3 English Grammar]

LINB60H3 Comparative Study of English and Chinese

[ECTB58H3 Foundations of Translation or ECTB61H3 English and Chinese Translation: Theory and Practice]

2. Additional 2.0 credits in English and Chinese Translation (ECT) courses

Note: LGG*** courses cannot be used to satisfy program requirements

Languages Courses

ECTB58H3 - Foundations of Translation

This course is a gateway to translation. After dealing with essential skills necessary in translation such as logical thinking, reading proficiency, and precision and clarity in writing, it focuses on fundamental aspects of translation at the conceptual, lexical, syntactic, grammatical, and stylistic levels. It also discusses the practical issues encountered by translators. A variety of real-world documents will be used for practice.

Breadth Requirements: Arts, Literature and Language

ECTB60H3 - Agri-Food, Cultures, and Translation

From wheat to seafood, Canada's agri-food exports to China are increasing and Chinese food is popular in Canada. This course explores agri-food, cultures, and translation using materials in Chinese and English. It gives text analysis in translation and hands-on translation experience from English to Chinese and/or from Chinese into English. Students must be able to read and write Chinese and English well.

Breadth Requirements: Arts, Literature and Language

Note: Students will be assessed by the instructor in their

first week of class, and must have a good command of both English and Chinese.

ECTB61H3 - English and Chinese Translation: Theory and Practice

An introduction to the major concepts and theories of translation and a survey of English/Chinese translation in modern history. It discusses linguistic, cognitive, socio-political, and cultural aspects of translation. Through analysis and application of translation theory, students practice the art of translation and develop awareness of issues that translators face.

Exclusion: CHI411H5

Recommended Preparation: Proficiency in Chinese and English

Breadth Requirements: Arts, Literature and Language

Note: Students must already have mastered the principles of grammar and composition in both English and Chinese.

ECTB66H3 - English and Chinese Interpreting Skills and Practices

This course discusses the responsibilities, ethical principles, and codes of professional conduct for interpreters. The course introduces three types of interpreting: sight translation, consecutive interpreting, and simultaneous interpreting. Students will practice various skills and techniques required of a qualified interpreter, including note-taking, active listening,

shadowing, retelling, paraphrasing, and memory retention. Students will also develop abilities in comprehension, analysis of language, and terminology. The course focuses on effective interpreting in the settings of the Ministry of Immigration and Citizenship, the Ontario Ministry of the Attorney General, and Community Service agencies.

Prerequisite: Students must have oral and written communication skills in both English and Chinese languages.

Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience

ECTB71H3 - Medical Terminology, Translation and Interpretation I

Medical Language is a unique linguistic phenomenon. Medical translation and interpretation play a vital role in healthcare delivery to patients with limited English proficiency. In this comprehensive foundation course, students will study medical terminology in the context needed to translate and/or interpret in various healthcare settings, including Greek and Latin root words, prefixes, suffixes, combining forms and abbreviations, etc., and their Chinese language versions. This course also covers W.H.O. international standard terminologies on traditional Chinese medicine from Chinese to English.

Recommended Preparation: Proficiency in English and Chinese

Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience

ECTC60H3 - Translation and Gender

This course examines the role of translation in understanding the social production of gender and sexuality as crucial systems of power. Students will use gender and translation to interrogate cultural production and social systems, paying close attention to how gender and sexuality intersect with other categories of social difference, such as sexuality, race, ethnicity, class, and (dis)ability. Students will connect the assigned academic readings to “real-life” examples in the news, media, and their own lives, thereby producing critical reflection on their role as translators in facilitating dialogues for change.

Prerequisite: Completion of 4.0 credits, with 2.0 credits at the B-level

Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major or Minor Program in English to Chinese Translation. Other students will be admitted as space permits.

ECTC61H3 - Translation Studies in Literature

This course focuses on the principles and techniques of literary translation from English to Chinese and vice versa. Students will study various translations and practice translating the works of Canadian writers such as those by Alice Munro and Margaret Atwood. Style and technique will be stressed throughout the course.

Prerequisite: [ECTB61H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

Note: Priority will be given to students enrolled in the Minor in English To Chinese Translation. Other students will be admitted as space permits.

ECTC62H3 - Translation in Media

The course examines linguistic aspects of translation in different writing media from new media, such as social media and websites, to traditional media, such as film, television, and printed press. It also explores approaches from cultural and social perspectives of media translation. The course delves deeply into translation strategies to deal with the conflict between Chinese and Western cultures in mass media.

Prerequisite: [ECTB58H3](#) or [ECTB61H3](#) (or an equivalent through an interview).

Recommended Preparation: High proficiency in both Chinese and English

Breadth Requirements: Arts, Literature and Language

ECTC63H3 - Translation and the Environment

This course aims to foster in students a greater awareness and appreciation of how translation plays a vital role in our relationship to and with the environment. Through translation practice and by examining how the environment is translated in a selection of Chinese and English language texts and concepts in multiple mediums including cinema, television and the visual arts, the course will demonstrate that our perception of environmental issues is intimately connected to the translation of concepts, ideas and movements and how they have been transplanted into and out of English and Chinese.

Prerequisite: [ECTB58H3](#) or [ECTB61H3](#)

Recommended Preparation: Recommended preparation: high level of proficiency in both Chinese and English

Breadth Requirements: Arts, Literature and Language

ECTC64H3 - Translating Cultures in a Polarizing World

This course focuses on understanding and applying concepts of cultural translation and “otherness” from the perspectives of anthropology and translation studies. By taking this course, students will learn that translators are mediators between cultures beyond language translations. The wider concept of translation requires understanding culture and otherness, and almost any intercultural communication involves translation. Students will be able to locate themselves in the wider context as translators/interpreters, understand cultural production and social systems, and pay close attention to how cultural translation intersects with other categories of social difference. Students will connect the assigned academic readings to “real-life” examples in the news, media, and their own lives, thereby forming new understandings of cultural translation.

Prerequisite: 4.0 credits, with 2.0 credits at the B-level

Breadth Requirements: Arts, Literature and Language

Note: Priority will be given to students enrolled in the Major or Minor Program in English to Chinese Translation. Other students will be admitted as space permits.

ECTC65H3 - Translation and Religion

Religious translations facilitated some of the most vibrant cultural exchanges throughout history. Catholic missionaries and Chinese scholars translated not only the Bible but also Euclid’s Elements. Many Protestant missionaries later became the earliest Sinologists and translated foundational Confucian texts including The Analects. The translation of Buddhist scriptures influenced Daoist discourses, Chinese philosophy, neo-Confucianism, everyday practices and way of life. The course will open with an introduction to these fascinating histories and explore the complex relationship between religion and translation in various contexts, with an emphasis on both institutional religions, such as Christianity, Buddhism, Islam, Confucianism, and Daoism, and also on what are known as Chinese popular or folk religions.

Prerequisite: Completion of 4.0 credits, with 2.0 credits at the B-level

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major or Minor Program in English to Chinese Translation. Other students will be admitted as space permits.

ECTC66H3 - History of Translation

This course aims to introduce students to the history of translation from both Western and Chinese perspectives. Students will learn the evolution of thoughts about translation through studying extracts of articles by Chinese and Western thinkers as well as examples of translation to understand the various approaches and

methodologies in their cultural, social, and historical contexts. The course provides opportunities for students to deepen their knowledge of translation studies and prepare them for higher level content of the discipline.

Prerequisite: [ECTB58H3 or ECTB61H3], and completion of 4.0 credits

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major or Minor Program in English to Chinese Translation. Other students will be admitted as space permits.

ECTC67H3 - Special Topics in Translation

This course is a special seminar on a subject determined by the instructor’s research interest or expertise in translation that fall outside of the English and Chinese Translation Major/Minor program’s current course offerings. Special topics can include selected issues and problems in the theory and practice of translation. This course may be repeated for credit when topic changes.

Prerequisite: [ECTB58H3 or ECTB61H3] and completion of 4.0 credits

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major or Minor Program in English to Chinese Translation. Other students will be admitted as space permits.

ECTD60H3 - Translating Modernity

What are the greatest critical theories that helped shape our modern world? How are these ideas translated across geopolitical and cultural contexts? How did they help people envision a different way to live, think, and love? This course examines how some of the greatest thoughts and ideas that shaped our modern world get translated. We will look at key thinkers, their texts, the social, cultural, and political contexts of their times and that of their translators. We will discuss the role of translation in facilitating cross-cultural exchanges and societal changes.

Prerequisite: Completion of 4.0 credits, with 2.0 credits at the B-level

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major or Minor Program in English to Chinese Translation. Other students will be admitted as space permits.

ECTD63H3 - Cultural Translation and Interpretation

This course will introduce students to the processes of negotiation and adaptation associated with the translation and interpretation of languages behind the cultural phenomena of everyday life. Students will explore

examples from across cultural domains (film, TV, and literature) and develop understanding the concept of “cultural translation” as a gesture of interpretation of the objects of human expression that suffuse the practice of everyday life in the social sphere. Students will also have ample experience in audience-focused English and Chinese translation.

Prerequisite: ECTB58H3 or ECTB61H3

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the English to Chinese Translation program(s). Other students will be admitted as space permits.

ECTD65H3 - Translation Studies and Theory After the Cultural Turn

This course examines theoretical developments in the field of Translation Studies from the late 1980s to the present day. First, it considers the linguistic approach to translation that held sway for much of the first half and more of the 20th century. Attention then shifts to how culture impacts not just the translated product, but also the process by which translators operate (the so-called ‘cultural turn’). Focus is on close readings of formative theoretical texts (for example, those by Bassnett, Lefevere, Pym, Venuti and others). Students will critically engage with significant translation theories since the late 1980s, analyse translations to identify how these theories function, and consider how they influence their own translation practice.

Prerequisite: Completion of 4.0 credits, with 2.0 credits at the B-level

Recommended Preparation: Experience in translating is recommended (although not required); translation experience can be in any language pair, e.g., Chinese – English; French – English; Korean – English, etc.

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

ECTD66H3 - Translation and Adaptation

This course aims to introduce students to critical engagements with intersemiotic translation (i.e., the practices of interpretation between different sign systems) through adaptation in the English-Chinese transcultural context. Students will interpret a broad range of transcultural intermedia productions across literary works, films, comics, pop songs, manga, etc., through the lenses of ideas such as rewriting, intertextuality, multimodality, cultural appropriation, etc. The course emphasizes the ideological implications and power dynamics in intersemiotic translation between works of Anglophone and Sinophone cultures.

Prerequisite: ECTB58H3 or ECTB61H3 and completion of 4.0 credits

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major or Minor Program in English to Chinese Translation. Other students will be admitted as space permits.

ECTD67H3 - Translation and the Arts

This course aims to introduce students to the essential knowledge and skills needed in translating texts related to the arts. Students will learn to identify the linguistic, cultural, and ideological features of texts for exhibitions, festivals, and other curated arts activities, and use appropriate strategies in translating the texts of this genre. The course provides ample opportunities for students to practice translating real-world texts from a wide range of museum exhibitions, literary festivals, film festivals, and other arts events between English and Chinese.

Prerequisite: ECTB58H3 or ECTB61H3 and completion of 4.0 credits

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major or Minor Program in English to Chinese Translation. Other students will be admitted as space permits.

ECTD68H3 - Translation for Business

Guided by translation theories and techniques, students learn the lexicon, structure, and style used in business discourse and gain hands-on experience in translating real-life documents regarding business for large Chinese communities within Canada.

Prerequisite: ECTB58H3 or ECTB61H3.

Recommended Preparation: High proficiency in both Chinese and English.

Breadth Requirements: Arts, Literature and Language

ECTD69H3 - Translation for Government and Public Administration

This course covers the English/Chinese translation of documents used in government, public administration, and publicly-funded organizations. It introduces the terminologies and special strategies used to translate official documents. Examples of relevant documents will be translated as part of the course work.

Prerequisite: ECTB58H3 or ECTB61H3

Recommended Preparation: High proficiency in both Chinese and English.

Breadth Requirements: Arts, Literature and Language

ECTD70H3 - Transcultural Translations of the Wild

This course connects to the subfields of ecocriticism and eco translation to explore transcultural translations of the ‘wild’. Focusing especially on modern/contemporary

fiction from the Sinosphere and linking such texts to other World Literatures, the aim is to analyze how the 'wild' is represented and translated interlingually and intersemiotically. The analysis of these literary translations of the 'wild' is important to understanding the impact and influence literature has on human appreciation and respect for the natural world.

Prerequisite: ECTC63H3

Breadth Requirements: Arts, Literature and Language

LGGA10H3 - Beginner Korean I

Beginner Korean I is an introductory course to the Korean language. Designed for students with no or minimal knowledge of the language, the course will first introduce the Hangeul alphabet (consonants and vowels) and how words are constructed (initial, medial, final sounds). Basic grammar patterns, frequently used vocabulary, and common everyday topics will be covered. Weekly cultural tidbits will also be introduced to assist and enrich the language learning experience. The overall aim of the course is to give students a strong grasp of the basics of the Korean language as well as elements of contemporary Korean culture.

Exclusion: EAS110Y1 (UTSG)

EAS211Y1 (UTSG) Not open to native speakers of Korean (more than minimal knowledge of Korean etc.); the instructor has the authority to exclude students whose level of proficiency is unsuitable for the course, with support from program administration as needed.

Breadth Requirements: Arts, Literature and Language

LGGA12H3 - Beginner Korean II

Beginner Korean II is the continuation of Beginner Korean I. Designed for students who have completed Beginner Korean I, the course will build upon and help to solidify knowledge of the Korean language already learnt. Additional grammar patterns, as well as commonly used vocabulary and expressions will be covered. Further weekly cultural tidbits will also be introduced to assist and enrich the language learning experience. The overall aim of the course is to give students a stronger grasp of beginner level Korean, prepare them for higher levels of Korean language study, increase their knowledge of contemporary Korean culture and enable them to communicate with Korean native speakers about daily life.

Prerequisite: LGGA10H3: Beginner Korean I

Exclusion: EAS110Y1 (UTSG) EAS211Y1 (UTSG) Not open to native speakers of Korean (more than minimal knowledge of Korean etc.); the instructor has the authority to exclude students whose level of proficiency is unsuitable for the course, with support from program administration as needed.

Breadth Requirements: Arts, Literature and Language

LGGA60H3 - Introductory Standard Chinese I

A comprehensive introduction to Modern Standard Chinese (also known as Mandarin) as a foreign or second language for students with minimal or no previous knowledge of any Chinese dialect. This course emphasizes integrated practical Chinese in listening, speaking, reading, writing (from characters to compositions) and translation.

Exclusion: All EAS, CHI and LGG Chinese language courses. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

LGGA61H3 - Introductory Standard Chinese II

A continuation of LGGA60H3. This course will build on the skills learned in LGGA60H3.

Prerequisite: LGGA60H3 or (LGGA01H3)

Exclusion: All EAS, CHI and LGG Chinese courses except LGGA60H3 or (LGGA01H3). The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course, including those students who meet the prerequisite.

Breadth Requirements: History, Philosophy and Cultural Studies

LGGA64H3 - Chinese I for Students with Prior Backgrounds

An introduction to Modern Standard Chinese for students who speak some Chinese (any dialect) because of their family backgrounds but have minimal or no literacy skills in the language. Emphasis is placed on Mandarin phonetics and written Chinese through reading, writing and translation.

Exclusion: (LGGA62H3), (LGGB64H3), EAS101Y1, CHI101H5. LGGB60H3, LGGB61H3, LGGB62H3, LGGB63H3, LGGC60H3, LGGC61H3, and all EAS/CHI 200- and higher-level Chinese language courses. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

LGGA65H3 - Chinese II for Students with Prior Backgrounds

A continuation of LGGA64H3.

Prerequisite: LGGA64H3 or (LGGA62H3)

Exclusion: (LGGA63H3), (LGGB65H3), EAS101Y1, CHI101H5. LGGB60H3, LGGB61H3, LGGB62H3,

LGGB63H3, LGGC60H3, LGGC61H3, and all EAS/CHI 200- and higher-level Chinese language courses. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.
Breadth Requirements: History, Philosophy and Cultural Studies

LGGA70H3 - Introductory Hindi I

An elementary course for students with no knowledge of Hindi. Students learn the Devanagari script and the Hindi sound system in order to start reading and writing in Hindi. The course also develops listening and speaking skills through culturally-based materials. Course materials are enhanced by audio-visual and computer-based activities.

Exclusion: HIN212Y, NEW212Y, LGGA72Y3, or any knowledge of Hindi. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

Note: Students who speak Hindi or Urdu as a home language should enrol in LGGB70H3 or LGGB71H3.

LGGA71H3 - Introductory Hindi II

A continuation of LGGA70H3.

Prerequisite: LGGA70H3

Exclusion: HIN212Y, NEW212Y, LGGA72Y3, or knowledge of Hindi beyond materials covered in LGGA70H3. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course, including those students who meet the prerequisite.

Breadth Requirements: History, Philosophy and Cultural Studies

LGGA72Y3 - Intensive Introductory Hindi

This is an intensive elementary course for students with no knowledge of Hindi. It combines the materials taught in both LGGA70H3 and LGGA71H3. Students will learn the Devanagari script and the Hindi sound system in order to start reading and writing in Hindi. The course also develops listening and speaking skills through culturally-based materials. Course materials are enhanced by audio-visual and computer-based activities.

Exclusion: LGGA70H, LGGA71H, HIN212Y, NEW212Y, any prior knowledge of Hindi. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

Note: This is a 1.0 credit course that will be offered only in the Summer semesters as part of the Summer Language Institute.

LGGA74H3 - Introductory Tamil I

An elementary course for students with minimal or no knowledge of Tamil. Students learn the Tamil script and sound system. The course also develops listening and speaking skills through culturally-based materials. Course materials are enhanced by audio-visual and computer-based activities.

Exclusion: NEW213Y, LGGA76Y3, or high school Tamil, more than minimal knowledge of Tamil. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

LGGA75H3 - Introductory Tamil II

A continuation of LGGA74H3.

Prerequisite: LGGA74H3

Exclusion: NEW213Y, LGGA76Y3, or knowledge of Tamil beyond materials covered in LGGA74H3. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course, including those students who meet the prerequisite.

Breadth Requirements: History, Philosophy and Cultural Studies

LGGA76Y3 - Intensive Introductory Tamil

An intensive elementary course for students with minimal or no knowledge of Tamil. Students learn the Tamil script and sound system. The course also develops listening and speaking skills through culturally-based materials. Course materials are enhanced by audio-visual and computer based activities.

Exclusion: LGGA74H3, LGGA75H3, NEW213Y, high school Tamil, more than minimal knowledge of Tamil. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

Note: This is a 1.0 credit course that will be offered only in the Summer semesters as part of the Summer Language Institute.

LGGA78Y3 - Intensive Introductory Bengali

This is an elementary course for students with no knowledge of Bengali. Students will learn the Bengali script and sound system in order to start reading and writing in Bengali. The course also develops listening and speaking skills through culturally-based materials. Course materials are enhanced by audio-visual and computer based activities.

Exclusion: Any knowledge of Bengali. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

Note: This is a 1.0 credit course that will be offered only in the Summer semesters as part of the Summer Language Institute.

LGGA80H3 - Introductory Japanese I

A beginning course for those with minimal or no knowledge of Japanese. The course builds proficiency in both language and culture. Language practice includes oral skills for simple daily conversation; students will be introduced to the Japanese writing systems and learn to read and write simple passages.

Exclusion: EAS120Y or LGGA82Y3. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

LGGA81H3 - Introductory Japanese II

Continuation of Introductory Japanese I.

Prerequisite: LGGA80H3

Exclusion: EAS120Y or LGGA82Y3. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course, including those students who meet the prerequisite.

Breadth Requirements: History, Philosophy and Cultural Studies

LGGA82Y3 - Intensive Introductory Japanese

This course is an intensive elementary course for those with minimal or no knowledge of Japanese. It combines the materials taught in both LGGA80H3 and LGGA81H3, and builds on proficiency in both language and culture. Language practice includes oral skills for simple daily conversation. Students will also be introduced to the Japanese writing systems and learn to read and write simple passages.

Exclusion: LGGA80H, LGGA81H, EAS120Y. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

Note: This is a 1.0 credit course that will be offered only in the Summer semesters as part of the Summer Language Institute.

LGGA90Y3 - Intensive Introductory Spanish

This course is an intensive elementary course in written and spoken Spanish, including comprehension, speaking,

reading, and writing. It is designed for students who have no previous knowledge of Spanish. The course will develop listening and speaking skills through culturally-based materials, which will be enhanced by audio-visual and computer-based activities.

Exclusion: Grade 12 Spanish, LGGA30H, LGGA31H, SPA100Y, native or near-native proficiency in Spanish. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

Note: This is a 1.0 credit course that will be offered only in the Summer semesters as part of the Summer Language Institute at UTSC.

LGGA91Y3 - Intensive Introductory Modern Standard Arabic

An introduction to the basic grammar and vocabulary of standard Arabic - the language common to the Arab world. Classroom activities will promote speaking, listening, reading, and writing. Special attention will be paid to reading and writing in the Arabic script.

Exclusion: LGGA40H, LGGA41H, ARA212Y, (NMC210Y), NML210Y, Arabic instruction in high school, prior knowledge of spoken Arabic. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

Note: This is a 1.0 credit course that will be offered only in the Summer semesters as part of the Summer Language Institute.

LGGA95Y3 - Intensive Introduction to a Featured Language

This is an intensive elementary course for students with minimal to no knowledge of the featured language. Students will learn the script and sound system so they may begin to read and write in this language. The course will develop listening and speaking skills through culturally-based materials, which will be enhanced by audio-visual and computer-based activities. **Students may not repeat this course for credit**, including when the current featured language is different from previous featured languages.

Exclusion: Exclusions will vary, dependent on the language offered; students are cautioned that duplicating their studies, whether inadvertently or otherwise, contravenes UTSC academic regulations.

Breadth Requirements: Arts, Literature and Language

Note: This is a 1.0 credit course that will be offered only in the Summer semesters as part of the Summer Language Institute; it may not be offered every summer. When the course is offered, the featured language and exclusions will be indicated on the Course Timetable.

LGGA96H3 - Introductory Anishinaabemowin (Ojibwe) I

Introductory Anishinaabemowin I is a beginner's course that aims to introduce students to the Anishinaabemowin language. Anishinaabemowin is classified as a severely endangered language by UNESCO and is the second most widely spoken First Nations language in Canada. Learners will be equipped with basic skills to understand conjugation patterns, memorize the 500 most used words, master the beginnings of sentence structure through usage of spaced repetition software.

Exclusion: INS210Y1

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

LGGB60H3 - Intermediate Chinese I

This course will develop listening, speaking, reading, and writing skills in Standard Chinese. Writing tasks will help students to progress from characters to compositions and will include translation from Chinese to English and vice versa. The course is not open to students who have more than the rudiments of Chinese.

Prerequisite: LGGA61H3 or (LGGA02H3)

Exclusion: All EAS and CHI 200- and higher level Chinese language courses; all B- and higher level LGG Chinese language courses; native speakers of any variety of Chinese. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course, including those students who meet the prerequisite.

Breadth Requirements: Arts, Literature and Language

LGGB61H3 - Intermediate Chinese II

A continuation of LGGB60H3.

Prerequisite: LGGB60H3

Exclusion: All EAS and CHI 200- and higher level language Chinese courses; all B- and higher level LGG Chinese language courses except LGGB60H3, LGGA64H3, and (LGGB64H3). All native speakers of any variety of Chinese. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course, including those students who meet the prerequisite.

Breadth Requirements: Arts, Literature and Language

LGGB62H3 - Intermediate Chinese for Heritage Students I

This course will further improve the literacy skills of heritage students by studying more linguistically sophisticated and topically extensive texts. Those who have not studied pinyin, the Mandarin pronunciation tool, but know about 600-800 complex or simplified Chinese

characters should take this course instead of courses LGGA64H3 and LGGA65H3.

Prerequisite: LGGA65H3 or (LGGA63H3) or equivalent

Exclusion: All EAS and CHI 200- and higher level language Chinese courses; all B- and higher level LGG language Chinese courses. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course, including those students who meet the prerequisite.

Breadth Requirements: Arts, Literature and Language

LGGB63H3 - Intermediate Chinese for Heritage Students II

A continuation of LGGB62H3.

Prerequisite: LGGB62H3

Exclusion: All EAS and CHI 200- and higher level language Chinese courses; all B- and higher level LGG Chinese language courses except LGGB62H3.

Breadth Requirements: History, Philosophy and Cultural Studies

LGGB70H3 - Hindi I for Students with Prior Background

Develops language and literacy through the study of Hindi cinema, music and dance along with an introduction to theatrical and storytelling traditions. The course enhances acquisition of cultural competence in Hindi with composition and conversation, complemented by culture-based material, film and other media.

Exclusion: Not for students educated in India. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

LGGB71H3 - Hindi II for Students with Prior Background

Continuation of LGGB70H3.

Prerequisite: LGGB70H3

Exclusion: Not for students educated in India. The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course including those students who meet the prerequisite.

Breadth Requirements: History, Philosophy and Cultural Studies

LGGB74H3 - Intermediate Tamil

Tamil language taught through culture for students with heritage language skills or prior formal study. The cultures of South India, Sri Lanka and diaspora populations will be

studied to build literacy skills in the Tamil script as well as further development of speaking and listening skills.

Prerequisite: LGA75H3

Exclusion: Not for students educated in Tamil Nadu or Sri Lanka.

Breadth Requirements: Arts, Literature and Language

LGGC60H3 - Advanced Chinese I

This course develops all language skills in speaking, listening, reading, writing, and translation, with special attention to idiomatic expressions. Through a variety of texts and interactive materials, students will be introduced to aspects of Chinese life and culture.

Prerequisite: LGGB61H3 or (LGGB04H3) or equivalent

Exclusion: LGGC61H3 or higher at UTSC, and all third and fourth year Chinese language courses at FAS/UTSG and UTM

Breadth Requirements: Arts, Literature and Language

LGGC61H3 - Advanced Chinese II

A continuation of LGGC60H3.

Prerequisite: LGGC60H3 or equivalent

Exclusion: LGGC62H3 or higher at UTSC and all third and fourth year Chinese language courses at FAS/UTSG and UTM.

Breadth Requirements: History, Philosophy and Cultural Studies

LGGC62H3 - Cultures in the East and West

This course focuses on similarities and differences between Chinese and Western cultures through a variety of cultural and literary materials. Students will further develop their language skills and cultural awareness through reading, writing, and translation.

Exclusion: (LGGB66H3), (LGGB67H3), LGGC64H3, LGGC65H3, LGGB66H3/(LGGC67H3), LGGB67H3/(LGGC66H3)

Breadth Requirements: Arts, Literature and Language

Note: 1. This course is not required for the Minor program in English and Chinese Translation. 2. Students may take this course before or after LGGC63H3.

LGGC63H3 - Canada, China, and Beyond

This course focuses on aspects of Canadian and Chinese societies, and related regions overseas. Through a variety of text and non-text materials, in Chinese with English translation and in English with Chinese translation, students will further improve their language skills and

have a better understanding of Canada, China, and beyond.

Exclusion: (LGGB66H3), (LGGB67H3), LGGC64H3, LGGC65H3, LGGB66H3/(LGGC67H3), and LGGB67H3/(LGGC66H3)

Breadth Requirements: History, Philosophy and Cultural Studies

Note: 1. This course is not required for the Minor program in English and Chinese Translation.

2. Students may take LGGC63H3 before or after LGGC62H3.

LGGC64H3 - Reading Chinese and English: China Inside Out

Intended for students who read Chinese and English well. Complex-simplified character conversion and vice versa, as well as English-Chinese and Chinese-English bilingual texts, are emphasized through reading, discussion, and translation in a variety of topics from, and outside of, Greater China, presentations, translation comparison, translation, and translation criticism.

Exclusion: (LGGB66H3). The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: Arts, Literature and Language

Note: 1. This course is bilingual, and priority will be given to students enrolled in the Minor in English and Chinese Translation.

2. This course may be taken before or after LGGC65H3, LGGB66H3, and/or LGGB67H3.

3. Students who have taken this course should not subsequently take LGGC60H3, LGGC61H3, LGGC62H3, LGGC63H3, or any lower level LGG Chinese courses for credit.

LGGC65H3 - Reading Chinese and English: Global Perspectives

Designed for students who read Chinese and English well. Complex-simplified Chinese character conversion and vice versa, as well as English-Chinese and Chinese-English bilingual texts are emphasized through reading, discussion, and translation in a variety of topics from global perspectives, presentations, translation and translation comparison, and translation criticism.

Exclusion: (LGGB67H3). The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course.

Breadth Requirements: History, Philosophy and Cultural Studies

Note: 1. This course is bilingual and priority will be given to students enrolled in the Minor in English and Chinese Translation.

2. This course may be taken before or after LGGC64H3, LGGB66H3, and/or LGGB67H3.

3. Students who have taken this course may not subsequently take LGGC60H3, LGGC61H3, LGGC62H3,

LGGC63H3, or any lower level LGG Chinese courses for credit.

LGGC70H3 - Advanced Hindi: From Hindustan to Modern India

Advanced language learning through an introduction to the historical development of the Hindi language. Students develop language skills through the study of educational structure, and literary and cultural institutions in colonial and postcolonial India. The course studies a variety of texts and media and integrates composition and conversation.

Prerequisite: LGGB70H3 and LGGB71H3

Exclusion: Not for students educated in India.

Breadth Requirements: Arts, Literature and Language

LGGD66H3 - Literary Chinese and English Translations

This course examines Chinese literary masterpieces of the pre-modern era and their English translations. They include the prose and poetry of many dynasties as well as examples in Literary Chinese of other genres that are still very much alive in Chinese language and society today. An in-depth review of the English translations will be strongly emphasized.

Prerequisite: A working knowledge of Modern Chinese and English

Exclusion: (LGGC67H3), (EAS306Y), EAS358Y1, EAS455H1, EAS458H1, CHI311H5, CHI408H5, CHI409H5

Breadth Requirements: History, Philosophy and Cultural Studies

Note: 1. Priority will be given to students enrolled in the Minor in English and Chinese Translation.

2. Students who have taken this course should not subsequently take lower-level Chinese or Chinese/English bilingual courses for credit except LGGC64H3 and LGGC65H3.

3. This course may be taken before or after LGGC64H3, LGGC65H3, and/or LGGD67H3.

LGGD67H3 - Classical Chinese and English Translations

This course examines Chinese classics and their English translations, such as *The Book of Documents*, *The Analects of Confucius*, *The Mencius*, *The Dao De Jing*, and other philosophical maxims, proverbial sayings, rhyming couplets, idioms and poems that still have an impact on Chinese language and culture today.

Prerequisite: A working knowledge of Modern Chinese and English

Exclusion: (LGGC66H3), (EAS206Y), EAS218H1, (EAS306Y), EAS358Y1, EAS455H1, EAS458H1, CHI311H5, CHI408H5, CHI409H5

Breadth Requirements: Arts, Literature and Language

Note: 1. Priority will be given to students enrolled in the Minor in English and Chinese Translation.

2. This course may be taken before or after LGGC64H3, LGGC65H3, and/or LGGD66H3

3. Students who have taken this course should not subsequently take lower-level Chinese or Chinese/English bilingual courses for credit except LGGC64H3 and/or LGGC65H3.

Linguistics

Faculty List

- S. Bhattasali, B.A. (Bryn Mawr), M.A., Ph.D. (Cornell), Assistant Professor
- R. Helms-Park, M.A., Ph.D. (Toronto), Associate Professor
- Y. Kang, B.A. (Seoul National), Ph.D. (MIT), Professor
- D. Kush, B.A. (Michigan), Ph.D. (Maryland), Assistant Professor
- K. McCrindle, M.A., Ph.D. (Toronto), Associate Professor, Teaching Stream
- S. Moghaddam, M.A. (Tehran), Ph.D. (Toronto), Associate Professor, Teaching Stream
- P. Monahan, B.A., M.A. (Florida), Ph.D. (Maryland), Associate Professor
- J. Ndayiragije, M.A. (Montreal-UQAM), Ph.D. (Montreal-UQAM), Associate Professor

Chair: S. Drouin Email: dls-chair.utsc@utoronto.ca

For curriculum inquiries please contact the department's Program Coordinator: dls-ua@utsc.utoronto.ca

Please visit the [Department of Language Studies website](#) to read more about our faculty, events, and news items.

Linguistics is the scientific study of human language. It encompasses theories of linguistic structure in all domains: speech sounds (phonetics and phonology), words (morphology), sentences (syntax), meaning (semantics), and texts or conversations (discourse). Other subfields of linguistics include psycholinguistics (language acquisition, language processing, learning how to read, and associated disorders, as well as the neural architecture underlying all of these); sociolinguistics (language variation according to region, gender, class, etc., as well as the social functions of language); historical linguistics (how languages change across time, and why); and applied linguistics (e.g. second language learning, translation, clinical linguistics).

The Major Program in Linguistics is designed to help students prepare for entry into professional programs in areas with a significant language component, such as speech/language pathology, education, and language teaching. Students with a particular interest in psycholinguistics can enroll in the Specialist Program in Psycholinguistics which provides excellent preparation for entry into postgraduate programs in speech/language pathology, psycholinguistics and education. The Specialist Program in Linguistics is designed for students who are interested in a more intensive study of linguistics or entry into a graduate program in linguistics.

Guidelines for First-Year Course Selection

Students intending to complete the Specialist Program in Psycholinguistics should include the following in their first-year course selection: [LINA01H3](#), [LINA02H3](#), [PSYA01H3](#), [PSYA02H3](#). They should also consider [BIOA01H3](#) or [BIOA11H3](#) in their first year. Students intending to complete the Specialist or Major Program in Linguistics should include [LINA01H3](#) and [LINA02H3](#) and should consider including a language course. Students intending to complete the Minor Program in Linguistics should include [LINA01H3](#) and [LINA02H3](#).

Students considering graduate studies in Speech-Language Pathology should consider taking 1.0 credit in Physiology during their undergraduate studies or consult the admissions requirements for any graduate program in Speech-Language Pathology they may be interested in to build recommended courses into their undergraduate studies. Students should also be aware that completing these requirements will require undertaking all necessary prerequisites. Please contact the Department of Language Studies Program Coordinator at dls-ua@utsc.utoronto.ca for further guidance.

Program Combination Restrictions in Linguistics

- The Specialist/Specialist Co-op, Major/Major Co-op, and Minor programs in Linguistics cannot be combined.
- The Specialist/Specialist Co-op programs in Psycholinguistics cannot be combined with any Linguistics programs.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course CTLB03H3, which can be found in the Teaching and Learning section of the *Calendar*.

Linguistics Programs

SPECIALIST PROGRAM IN LINGUISTICS (ARTS) - SCSPE0506

For curriculum inquiries, contact the department's Program Coordinator: dls-ua@utsc.utoronto.ca

Program Requirements

Students must complete 12.0 credits, including 4.0 credits at the C- and D-level of which 1.0 credit must be at the D-level as follows:

1. 4.5 Credits in Foundations of Linguistics:

LINA01H3 Introduction to Linguistics
LINA02H3 Applications of Linguistics
LINB04H3 Phonology I
LINB06H3 Syntax I
LINB09H3 Phonetics: The Study of Speech Sounds
LINB10H3 Morphology
LINC02H3 Phonology II
LINC11H3 Syntax II
LINC12H3 Semantics: The Study of Meaning

2. 4.5 credits from the following, including at least 1.5 credits from Group A and at least 1.5 credits from Group B:

Group A – Applied Linguistics

LINB18H3 English Grammar
LINB20H3 Sociolinguistics
LINB60H3 Comparative Study of English and Chinese
LINB62H3 Structure of American Sign Language
LINC13H3 Language Diversity and Universals
LINC28H3 Language and Gender
LINC47H3 Pidgin and Creole Languages
LINC61H3 Structure of a Language
LIND09H3 Phonetic Analysis
LIND29H3 Linguistic Research Methodologies

Group B - Psycholinguistics and Computational Linguistics

LINB19H3 Computers in Linguistics
LINB29H3 Quantitative Methods in Linguistics
LINB30H3 Programming for Linguists
LINC35H3 Introduction to Computational Linguistics
PLIC24H3 First Language Acquisition
PLIC25H3 Second Language Acquisition
PLIC55H3 Psycholinguistics
PLIC75H3 Language and the Brain
PLID34H3 The Psycholinguistics of Reading
PLID44H3 Acquisition of the Mental Lexicon
PLID50H3 Speech Perception
PLID53H3 Sentence Processing
PLID74H3 Language and Aging

3. 1.0 credit of language study in one or more languages, which may include LINB60H3 or LINB62H3 or LINC61H3; ECT, FRE or LGG courses or language courses at another campus.

4. 2.0 credits in any LIN, PLI, JAL or JLP courses.

SPECIALIST (CO-OPERATIVE) PROGRAM IN LINGUISTICS (ARTS) - SCSPE0506C

For more information, please contact:

Academic Program Advisor: dls-ua@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Linguistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Linguistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [LINA01H3](#) and [LINA02H3](#), plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Linguistics. To be eligible for

their first work term, students must be enrolled in the Specialist (Co-op) Program in Linguistics, have completed at least 7.0 credits, including LINB06H3 and LINB09H3, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN PSYCHOLINGUISTICS (SCIENCE) - SCSPEPLIN

For curriculum inquiries, contact the department's Program Coordinator: dls-ua@utsc.utoronto.ca

Note: Effective Fall 2024, the Specialist in Psycholinguistics will be designated as a Science program. Students who are enrolled in the program prior to Fall 2024 may consult with the Program Coordinator for advice.

Program Requirements

Students must complete 13.5 credits, including 4.0 credits at the C- and D-levels of which 1.0 credit must be at the D-level as follows:

1. 5.5 credits as follows:

[LINA01H3](#) Introduction to Linguistics

[LINA02H3](#) Applications of Linguistics

[PSYA01H3](#) Introduction to Biological and Cognitive Psychology

[PSYA02H3](#) Introduction to Clinical, Developmental, Personality and Social Psychology

[LINB04H3](#) Phonology I

[LINB06H3](#) Syntax I

[LINB09H3](#) Phonetics: The Study of Speech Sounds

[LINB29H3](#) Quantitative Methods in Linguistics

[LINC29H3](#) Advanced Quantitative Methods in Linguistics

[PLIC24H3](#) First Language Acquisition

[PLIC55H3](#) Psycholinguistics

2. 1.5 credits from the following :

1.0 credit from:

[LINB10H3](#) Morphology

[LINB20H3](#) Sociolinguistics

[LINC02H3](#) Phonology II

0.5 credit from:

[LINC11H3](#) Syntax II

[LINC12H3](#) Semantics: The Study of Meaning

3. 3.0 credits from the following:

[LINB62H3](#) Structure of American Sign Language

[LIND09H3](#) Phonetic Analysis

[PLIC25H3](#) Second Language Acquisition

[PLID34H3](#) Psycholinguistics of Reading

[PLID44H3](#) Acquisition of the Mental Lexicon

[PLID50H3](#) Speech Perception

[PLID53H3](#) Sentence Processing

[PLID74H3](#) Language and Aging

4. 3.0 credits from the following:

[BIOA11H3](#) Introduction to the Biology of Humans

[BIOB35H3](#) Essentials of Human Physiology

[LINB19H3](#) Computers in Linguistics

[LINB35H3](#) Introduction to Computational Linguistics

[PLIC54H3](#) Speech Physiology and Speech Disorders in Children and Adults

[PLIC75H3](#) Language and the Brain

[PLID56H3](#) Special Topics in Language Disorders in Children

[PSYB20H3](#) Introduction to Developmental Psychology

[\[PSYB51H3](#) Introduction to Perception or [PSYB57H3](#) Introduction to Cognitive Psychology]

[\(PSYB65H3\)](#) Human Brain and Behaviour

[PSYC21H3](#) Adulthood and Aging

5. 0.5 further credits in LIN and/or PLI

Note: students interested in pursuing Speech Language Pathology as an option for graduate studies should complete BIOA11H3 and BIOB35H3 (of component 4 of the program requirements) in order to satisfy a portion of the physiology requirement necessary for admissions.

SPECIALIST (CO-OPERATIVE) PROGRAM IN PSYCHOLINGUISTICS (SCIENCE) - SCSPEPLINC

Academic Program Advisor: dls-ua@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Psycholinguistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Psycholinguistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Note: Effective Fall 2024, the Specialist in Psycholinguistics will be designated as a Science program. Students who are enrolled in the program prior to Fall 2024 may consult with the Academic Program Advisor for advice.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including LINA01H3 and LINA02H3, plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Psycholinguistics. To be eligible for their first work term, students must be enrolled in the Specialist (Co-op) Program in Psycholinguistics and have completed at least 9.0 credits. It is strongly recommended that LINB06H3 and LINB09H3 be completed before the first

work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB54H3/(COPB51H3)**

Work Term Search Courses:

- **COPB55H3/(COPB52H3)** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN LINGUISTICS (ARTS) - SCMAJ0506

For curriculum inquiries, contact the department's Program Coordinator: dls-ua@utsc.utoronto.ca

Program Requirements

Students must complete 8.0 credits, as follows:

1. 2.5 credits as follows:

[LINA01H3](#) Introduction to Linguistics

[LINA02H3](#) Applications of Linguistics

[LINB04H3](#) Phonology I

[LINB06H3](#) Syntax I

[LINB09H3](#) Phonetics: The Study of Speech Sounds

2. 0.5 credit from the following:

[LINB10H3](#) Morphology

[LINB20H3](#) Sociolinguistics

[LINC12H3](#) Semantics: The Study of Meaning

3. 4.0 further credits in LIN and/or PLI, of which at least 2.0 credits must be at the C- or D-level.

4. 1.0 credit of language study in one or more languages, which may include ECT, FRE, or LGG courses; language courses at another campus; [LINB60H3](#) or [LINB62H3](#) or [LINC61H3](#).

MAJOR (CO-OPERATIVE) PROGRAM IN LINGUISTICS (ARTS) - SCMAJ0506C

For more information, please contact:

Academic Program Advisor: dls-ua@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Psycholinguistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Psycholinguistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including [LINA01H3](#) and [LINA02H3](#), plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:**Credits:** Minimum of 4.0 credits to a maximum of 10.0 credits**Required Courses:** As noted in the Enrolment Requirements above**Cumulative GPA:** 2.50**Current Co-op Students**

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:**Credits:** 4.0 credits**Required Courses:** Program-specific courses described in the Enrolment Requirements above**Cumulative GPA:** 2.50 across all attempted courses**Academic Program Requirements**

Students must complete the program requirements as described in the Major Program in Linguistics. To be eligible for their first work term, students must be enrolled in the Major (Co-op) Program in Linguistics and have completed at least 7.0 credits, including LINB06H3 and LINB09H3, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MINOR PROGRAM IN LINGUISTICS (ARTS) - SCMIN0506

For curriculum inquiries, contact the department's Program Coordinator: dls-ua@utsc.utoronto.ca

Program Requirements

Students must complete 4.0 credits.

1. 1.0 credit as follows:

LINA01H3 Introduction to Linguistics
LINA02H3 Applications of Linguistics

2. 1.0 credit from the following:

LINB04H3 Phonology I
LINB06H3 Syntax I
LINB09H3 Phonetics: The Study of Speech Sounds
LINB10H3 Morphology

3. 2.0 further credits in LIN and/or PLI of which at least 1.0 credit must be at the C- or D-level.

Linguistics Courses

LINA01H3 - Introduction to Linguistics

An introduction to the various methods and theories of analyzing speech sounds, words, sentences and meanings, both in particular languages and language in general.

Exclusion: (LIN100Y), LIN101H, LIN102H
Breadth Requirements: Arts, Literature and Language

LINA02H3 - Applications of Linguistics

Application of the concepts and methods acquired in LINA01H3 to the study of, and research into, language history and language change; the acquisition of languages; language disorders; the psychology of language; language and in the brain; and the sociology of language.

Prerequisite: LINA01H3

Exclusion: (LIN100Y), LIN101H, LIN102H

Breadth Requirements: Arts, Literature and Language

LINB04H3 - Phonology I

Practice in analysis of sound patterns in a broad variety of languages.

Prerequisite: LINB09H3

Exclusion: LIN229H

Breadth Requirements: Social and Behavioural Sciences

LINB06H3 - Syntax I

Practice in analysis of sentence structure in a broad variety of languages.

Prerequisite: LINA01H3

Exclusion: LIN232H

Breadth Requirements: History, Philosophy and Cultural Studies

LINB09H3 - Phonetics: The Study of Speech Sounds

An examination of physiological and acoustic bases of speech.

Prerequisite: [LINA01H3](#)

Exclusion: LIN228H

Breadth Requirements: Natural Sciences

LINB10H3 - Morphology

Core issues in morphological theory, including properties of the lexicon and combinatorial principles, governing word formation as they apply to French and English words.

Prerequisite: [LINA01H3](#)

Corequisite: [LINB04H3](#) and [LINB06H3](#)

Exclusion: LIN231H, LIN333H, (LINB05H3), (LINC05H3) FRE387H, (FREC45H3)

Breadth Requirements: Social and Behavioural Sciences

LINB18H3 - English Grammar

Description and analysis of the structure of English, including the sentence and word structure systems, with emphasis on those distinctive and characteristic features most of interest to teachers and students of the language.

Exclusion: LIN204H

Breadth Requirements: Arts, Literature and Language

LINB19H3 - Computers in Linguistics

The course will provide an introduction to the use of computer theory and methods to advance the understanding of computational aspects of linguistics. It will provide basic training in computer programming techniques employed in linguistics such as corpus mining, modifying speech stimuli, experimental testing, and data analysis.

Prerequisite: [LINA02H3](#)

Exclusion: Any computer science course except [CSCA20H3](#), [PSYC03H3](#)

Breadth Requirements: Quantitative Reasoning

Note: Priority will be given to students in Specialist/Specialist Co-op programs in Linguistics or Psycholinguistics, or Major/Major Co-op programs in Linguistics. Students in the Minor program in Linguistics, followed by students in other programs, will be admitted as space permits.

LINB20H3 - Sociolinguistics

The study of the relationship between language and society. Topics include: how language reflects and

constructs aspects of social identity such as age, gender, socioeconomic class and ethnicity; ways in which social context affects speakers' use of language; and social factors which cause the spread or death of languages.

Prerequisite: [LINA02H3](#)

Exclusion: (LINB21H3), (LINB22H3), LIN251H, LIN256H, [FREC48H3](#)

Breadth Requirements: Social and Behavioural Sciences

LINB29H3 - Quantitative Methods in Linguistics

An introduction to experimental design and statistical analysis for linguists. Topics include both univariate and multivariate approaches to data analysis for acoustic phonetics, speech perception, psycholinguistics, language acquisition, language disorders, and sociolinguistics.

Prerequisite: [LINA02H3](#)

Exclusion: LIN305H, (PLIC65H3), [PSYB07H3](#), [STAB23H3](#)

Recommended Preparation: [LINB19H3](#)

Breadth Requirements: Quantitative Reasoning

LINB30H3 - Programming for Linguists

This course provides students a practical, hands-on introduction to programming, with a focus on analyzing natural language text as quantitative data. This course will be taught in Python and is meant for students with no prior programming background. We will cover the basics of Python, and students will gain familiarity with existing tools and packages, along with algorithmic thinking skills such as abstraction and decomposition.

Prerequisite: [LINA01H3](#)

Exclusion: [LINB19H3](#), [CSCA08H3](#), [CSCA48H3](#), [CSCA20H3](#), CSC108H1, CSC110H1, CSC120H1, CSC108H5, CSC148H5

Breadth Requirements: Quantitative Reasoning

LINB60H3 - Comparative Study of English and Chinese

This course is an investigation into the lexicon, morphology, syntax, semantics, discourse and writing styles in Chinese and English. Students will use the tools of linguistic analysis to examine the structural and related key properties of the two languages. Emphasis is on the comparison of English and Chinese sentences encountered during translation practice.

Prerequisite: [LINB06H3](#) or [LINB18H3](#)

Exclusion: [LGGA60H3](#), [LGGA61H3](#), (LINC60H3)

Breadth Requirements: Arts, Literature and Language

Note: Students are expected to be proficient in Chinese and English.

LINB62H3 - Structure of American Sign Language

An introduction to the structure of American Sign Language (ASL): Comparison to spoken languages and other signed languages, together with practice in using ASL for basic communication.

Prerequisite: [LINA01H3](#) and [LINA02H3](#)

Exclusion: (LINA10H3)

Breadth Requirements: Social and Behavioural Sciences

LINB98H3 - Supervised Introductory Research in Linguistics

This course provides an introduction to, and experience in, ongoing theoretical and empirical research in any field of linguistics. Supervision of the work is arranged by mutual agreement between student and instructor.

Prerequisite: [4.0 credits including [[LINA01H3](#) or [LINA02H3](#)]] and a CGPA of 3.3

Exclusion: [PSYB90H3](#) and [ROP299Y](#)

Recommended Preparation: 0.5 credit at the B-level in LIN or PLI courses

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Enrolment is limited based on the research opportunities available with each faculty member and the interests of the students. Students must complete and submit a permission form available from the Registrar's Office, along with an outline of work to be performed, signed by the intended supervisor. Priority will be given to students enrolled in the Specialist/Specialist Co-op programs in Linguistics or Psycholinguistics, and the Major/Major Co-op programs in Linguistics.

LINC02H3 - Phonology II

Basic issues in phonological theory. This course assumes familiarity with phonetic principles, as discussed in [LINB09H3](#), and with phonological problem-solving methods, as discussed in [LINB04H3](#).

Prerequisite: [LINB04H3](#) and [LINB09H3](#)

Exclusion: [LIN322H](#)

Breadth Requirements: Social and Behavioural Sciences

LINC10H3 - Linguistic Analysis and Argumentation

In this course, students will develop skills that are needed in academic writing by reading and analyzing articles

regarding classic and current issues in Linguistics. They will also learn skills including summarizing, paraphrasing, making logical arguments, and critically evaluating linguistic texts. They will also learn how to make references in their writing using the APA style.

Prerequisite: [LINA02H3](#) and [LINB04H3](#) and [LINB06H3](#) and [LINB10H3](#)

Exclusion: [LIN410H5](#), [LIN481H1](#)

Breadth Requirements: Arts, Literature and Language

Note: Priority will be given to students enrolled in any Linguistics programs.

LINC11H3 - Syntax II

Core issues in syntactic theory, with emphasis on universal principles and syntactic variation.

Prerequisite: [LINB06H3](#)

Exclusion: [FREC46H3](#), [LIN232H](#), [LIN331H](#), [FRE378H](#)

Breadth Requirements: History, Philosophy and Cultural Studies

LINC12H3 - Semantics: The Study of Meaning

An introduction to the role of meaning in the structure, function, and use of language. Approaches to the notion of meaning as applied to English data will be examined.

Prerequisite: [LINA01H3](#) or [[FREB44H3](#) and [FREB45H3](#)]

Exclusion: [FREC12H3](#), [FREC44H3](#), [FRE386H](#), [LIN241H](#), [LIN247H](#), [LIN341H](#)

Breadth Requirements: History, Philosophy and Cultural Studies

LINC13H3 - Language Diversity and Universals

An introduction to linguistic typology with special emphasis on cross-linguistic variation and uniformity in phonology, morphology, and syntax.

Prerequisite: [LINB04H3](#) and [LINB06H3](#) and [LINB10H3](#)

Exclusion: [LIN306H](#), ([LINB13H3](#))

Breadth Requirements: Arts, Literature and Language

LINC28H3 - Language and Gender

An introduction to the research on differences between women and men in how they use language and how they behave in conversational interaction, together with an examination of the role of language in reflecting and perpetuating cultural attitudes towards gender. Same as [WSTC28H3](#)

Prerequisite: [LINA01H3](#) and one full credit at the B-level in ANT, LIN, SOC or WST

Exclusion: [JAL355H](#), [WSTC28H3](#)

Breadth Requirements: Social and Behavioural Sciences

LINC29H3 - Advanced Quantitative Methods in Linguistics

This course provides students with advanced statistical methods in linguistics and psycholinguistics. Specifically, an introduction to multiple linear regression (MLR) and its applications in linguistic and psycholinguistic research are presented. The course covers the data analysis process from data collection, to visualization, to interpretation. The goal is to provide students with the theoretical and practical skills needed to reason about and conduct MLR analyses.

Prerequisite: [LINB29H3 or STAB22H3 or STAB23H3 or PSYB07H3] and an additional 1.0 FCE at the B-level or above in Linguistics or Psycholinguistics

Exclusion: PSYC09H3, MGE11H3

Recommended Preparation: Any prior math or statistics course

Breadth Requirements: Quantitative Reasoning

Course Experience: Partnership-Based Experience
Note:

- Priority will be given to students enrolled in a Linguistics or Psycholinguistics Specialist or Major degree. If additional space remains, the course will be open to all students who meet the prerequisites.
- This course will be run in an experiential learning format with students alternating between learning advanced statistical methods and applying that theory using a computer to inspect and analyze data in a hands-on manner. If the possibility exists, students will also engage in a consultancy project with a partner or organization in Toronto or a surrounding community that will provide students with data that require analysis to meet certain goals/objectives or to guide future work. Care will be taken to ensure that the project is of linguistic/psycholinguistic relevance. If no such opportunity exists, students will conduct advanced exploration, visualization, and analysis of data collected in our laboratories. Together, managing the various aspects of the course and sufficient interactions with students leads to this course size restriction.

LINC35H3 - Introduction to Computational Linguistics

This course focuses on computational methods in linguistics. It is geared toward students with a background in linguistics but minimal background in computer science. This course offers students a foundational understanding of two domains of computational linguistics: cognitive modeling and natural language processing. Students will be introduced to the tools used by computational linguists in both these domains and to the fundamentals of

computer programming in a way that highlights what is important for working with linguistic data.

Prerequisite: LINB30H3 or with permission of instructor

Corequisite: LINB29H3

Exclusion: (LINB35H3), LIN340H5(UTM), LIN341H5(UTM)

Breadth Requirements: Quantitative Reasoning

LINC47H3 - Pidgin and Creole Languages

A study of pidgin and Creole languages worldwide. The course will introduce students to the often complex grammars of these languages and examine French, English, Spanish, and Dutch-based Creoles, as well as regional varieties. It will include some socio-historical discussion.

Same as FREC47H3.

Prerequisite: [LINA01H3 and LINA02H3] or [FREB44H3 and FREB45H3]

Exclusion: FREC47H3, LIN366H

Breadth Requirements: Arts, Literature and Language

LINC61H3 - Structure of a Language

An introduction to the phonetics, phonology, word-formation rules, syntax, and script of a featured language other than English or French. Students will use the tools of linguistic analysis learned in prior courses to examine the structural properties of this language. No prior knowledge of the language is necessary.

Prerequisite: LINB04H3 and LINB06H3

Exclusion: LIN409H

Breadth Requirements: Arts, Literature and Language

LINC98H3 - Supervised Research in Linguistics

This course provides an opportunity to build proficiency and experience in ongoing theoretical and empirical research in any field of linguistics. Supervision of the work is arranged by mutual agreement between student and instructor. For any additional requirements, please speak with your intended faculty supervisor. Students must download the [Supervised Study Form](#), that is to be completed with the intended faculty supervisor, along with an agreed-upon outline of work to be performed., The form must then be signed by the student and the intended supervisor and submitted to the [Program Coordinator](#) by email or in person.

Note: This course **does not** satisfy any Linguistics program requirements.

Prerequisite: 5.0 credits including: [LINA01H3 or LINA02H3] and [1.0 credits at the B-level or higher in

Linguistics or Psycholinguistics]; and a minimum cGPA of 3.3

Breadth Requirements: Social and Behavioural Sciences

Note: 1. Priority will be given to students enrolled in a Specialist or Major program in Linguistics or Psycholinguistics. 2. Students who have taken the proposed course cannot enroll in [LINB98H3](#). 3. Enrollment will depend each year on the research opportunities available with each individual faculty member and the interests of the students who apply for enrollment.

LIND01H3 - Independent Study in Linguistics

Independent study and research in an area of interest to the student. Students must obtain consent from a supervising instructor before registering. Interested students should contact the Undergraduate Assistant for Linguistics for further information.

Prerequisite: At least 1.0 credit at the C-level in LIN courses; and a CGPA of 3.3; and permission of the supervising instructor.

Course Experience: University-Based Experience

Note: Students must complete and submit a Supervised Study Form available at the Office of the Registrar.

LIND02H3 - Independent Study in Linguistics

Independent study and research in an area of interest to the student. Students must obtain consent from a supervising instructor before registering. Interested students should contact the Undergraduate Assistant for Linguistics for further information.

Prerequisite: At least 1.0 credit at the C-level in LIN courses; and a CGPA of 3.3; and permission of the supervising instructor.

Course Experience: University-Based Experience

Note: Students must complete and submit a Supervised Study Form available at the Office of the Registrar.

LIND03H3 - Independent Study in Linguistics

Independent study and research in an area of interest to the student. Students must obtain consent from a supervising instructor before registering. Interested students should contact the Program Supervisor for Linguistics.

Prerequisite: At least 1.0 credit at the C-level in LIN courses; and a CGPA of 3.3; and permission of the supervising instructor.

Course Experience: University-Based Experience

Note: Students must complete and submit a Supervised Study Form available at the Office of the Registrar.

LIND07Y3 - Independent Study in Linguistics

A reading and research independent study course on a topic of interest to the student. Students must obtain consent from a supervising instructor before registering. Interested students should contact the Undergraduate Assistant for Linguistics for further information.

Prerequisite: At least 1.0 credit at the C-level in LIN courses; and a CGPA of 3.3; and permission of the supervising instructor.

Exclusion: LIN495Y

Course Experience: University-Based Experience

Note: Students must complete and submit a Supervised Study Form available at the Office of the Registrar.

LIND09H3 - Phonetic Analysis

Practical application of phonetic theory with special emphasis on instrumental and experimental techniques.

Prerequisite: [LINB09H3](#) and [LINB29H3](#)

Exclusion: LIN423H, (LINC09H3)

Breadth Requirements: Natural Sciences

LIND11H3 - Advanced Sociolinguistic Theory and Method

This course is concerned with modern sociolinguistic theory as well as methods of conducting sociolinguistic research including data collection and the analysis of sociolinguistic data. The theoretical approaches learned include discourse analysis, language variation, conversation analysis, and variationist sociolinguistics.

Prerequisite: [LINB20H3](#)

Exclusion: LIN456H1, LIN351H1, LIN458H

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Linguistics program.

LIND29H3 - Linguistic Research Methodologies

This course focuses on research methodologies (interviews, corpus collection, surveys, ethnography, etc.). Students conduct individual research studies in real-life contexts.

Prerequisite: [LINB04H3](#) and [LINB06H3](#) and [LINB10H3](#)

Breadth Requirements: Arts, Literature and Language

Note: Topics will vary each time the course is offered. Please check with the department's Undergraduate Assistant or on the Web Timetable on the Office of the Registrar website for details regarding the proposed subject matter.

LIND46H3 - Field Methods in Linguistics

Practice in language analysis based on elicited data from second language learners and foreign speakers. Emphasis is put on procedures and techniques of data collection, as well as theoretical implications arising from data analysis.

Prerequisite: [FREB44H3 and FREC46H3] or LINB10H3

Exclusion: (FRED46H3), JAL401H

Recommended Preparation: LINC02H3 and LINC11H3

Breadth Requirements: Arts, Literature and Language

PLIC24H3 - First Language Acquisition

Descriptions of children's pronunciation, vocabulary and grammar at various stages of learning their first language. Theories of the linguistic knowledge and cognitive processes that underlie and develop along with language learning.

Prerequisite: LINB06H3 and LINB09H3

Exclusion: JLP315H

Breadth Requirements: Natural Sciences

PLIC25H3 - Second Language Acquisition

The stages adults and children go through when learning a second language. The course examines linguistic, cognitive, neurological, social, and personality variables that influence second language acquisition.

Prerequisite: [LINB06H3 and LINB09H3] or [FREB44H3 and FREB45H3]

Exclusion: (LINB25H3), (PLIB25H3)

Breadth Requirements: Natural Sciences

PLIC54H3 - Speech Physiology and Speech Disorders in Children and Adults

An introduction to the physics of sound and the physiology of speech perception and production for the purpose of assessing and treating speech disorders in children and adults. Topics will include acoustic, perceptual, kinematic, and aerodynamic methods of assessing speech disorders as well as current computer applications that facilitate assessment.

Prerequisite: LINB09H3

Breadth Requirements: Natural Sciences

PLIC55H3 - Psycholinguistics

Experimental evidence for theories of how humans produce and understand language, and of how language is represented in the mind. Topics include speech

perception, word retrieval, use of grammar in comprehension and production, discourse comprehension, and the role of memory systems in language processing.

Prerequisite: LINB06H3 or LINB09H3

Corequisite: LINB29H3

Exclusion: JLP374H

Breadth Requirements: Natural Sciences

PLIC75H3 - Language and the Brain

An introduction to neurolinguistics, emphasizing aphasia and healthy individuals. We will introduce recent results understanding how the brain supports language comprehension and production. Students will be equipped with necessary tools to critically evaluate the primary literature. No prior knowledge of brain imaging is necessary.

Prerequisite: PLIC55H3

Breadth Requirements: Social and Behavioural Sciences

PLID01H3 - Independent Study in Psycholinguistics

Independent study and research in an area of interest to the student. Students must obtain consent from a supervising instructor before registering. Interested students should contact the Undergraduate Assistant for Psycholinguistics for further information.

Prerequisite: At least 1.0 credit at the C-level in PLI courses; and a CGPA of 3.3; and permission of the supervising instructor.

Course Experience: University-Based Experience

Note: Students must complete and submit a Supervised Study Form available at the Office of the Registrar.

PLID02H3 - Independent Study in Psycholinguistics

Independent study and research in an area of interest to the student. Students must obtain consent from a supervising instructor before registering. Interested students should contact the Undergraduate Assistant for Psycholinguistics for further information.

Prerequisite: At least 1.0 credit at the C-level in PLI courses; and a CGPA of 3.3; and permission of the supervising instructor.

Course Experience: University-Based Experience

Note: Students must complete and submit a Supervised Study Form available at the Office of the Registrar.

PLID03H3 - Independent Study in Psycholinguistics

Independent study and research in an area of interest to the student. Students must obtain consent from a supervising instructor before registering. Interested students should contact the Undergraduate Assistant for Psycholinguistics for further information.

Prerequisite: At least 1.0 credit at the C-level in PLI courses; and a CGPA of 3.3; and permission of the supervising instructor.

Course Experience: University-Based Experience

Note: Students must complete and submit a Supervised Study Form available at the Office of the Registrar.

PLID07Y3 - Independent Study in Psycholinguistics

A reading and research independent study course on a topic of interest to the student. Students must obtain consent from a supervising instructor before registering. Interested students should contact the Undergraduate Assistant for Psycholinguistics for further information.

Prerequisite: At least 1.0 credit at the C-level in PLI courses; and a CGPA of 3.3; and permission of the supervising instructor.

Exclusion: LIN495Y

Course Experience: University-Based Experience

Note: Students must complete and submit a Supervised Study Form available at the Office of the Registrar.

PLID34H3 - The Psycholinguistics of Reading

An examination of linguistic and psycholinguistic issues pertinent to reading, as well as the role of a language's writing system and orthography in the learning process.

Prerequisite: [LINA01H3 or [FREB44H3 and FREB45H3]] and [PLIC24H3 or PLIC25H3 or PLIC55H3]

Exclusion: (LINC34H3), (PLIC34H3)

Breadth Requirements: Natural Sciences

PLID44H3 - Acquisition of the Mental Lexicon

An examination of L1 (first language) and L2 (second language) lexical (vocabulary) acquisition. Topics include: the interaction between linguistic and cognitive development; the role of linguistic/non-linguistic input; the developing L2 lexicon and its links with the L1 lexicon; the interface between lexical and syntactic acquisition within psycholinguistic and linguistic frameworks.

Prerequisite: PLIC24H3 or PLIC55H3

Breadth Requirements: Natural Sciences

PLID50H3 - Speech Perception

An examination of the acoustics and perception of human speech. We will explore how humans cope with the variation found in the auditory signal, how infants acquire their native language sound categories, the mechanisms underlying speech perception and how the brain encodes and represents speech sounds. An emphasis will be placed on hands-on experience with experimental data analysis.

Prerequisite: LINB29H3 and PLIC55H3

Exclusion: (PLIC15H3)

Breadth Requirements: Social and Behavioural Sciences

PLID53H3 - Sentence Processing

This course focuses on how humans process sentences in real-time. The course is intended for students interested in psycholinguistics above the level of speech perception and lexical processing. The goals of this course are to (i) familiarize students with classic and recent findings in sentence processing research and (ii) give students a hands-on opportunity to conduct an experiment. Topic areas will include, but are not limited to, incrementality, ambiguity resolution, long-distance dependencies, and memory.

Prerequisite: LINB06H3 and PLIC55H3

Recommended Preparation: LINC11H3: Syntax II or PLIC75H3 Language and the Brain

Breadth Requirements: Social and Behavioural Sciences

PLID56H3 - Special Topics in Language Disorders in Children

An in-depth investigation of a particular type of language or communication disorder, for example, impairment due to hearing loss, Down syndrome, or autism. Topics will include: linguistic and non-linguistic differences between children with the disorder and typically-developing children; diagnostic tools and treatments for the disorder; and its genetics and neurobiology.

Prerequisite: PLIC24H3 or (PLID55H3)

Breadth Requirements: Natural Sciences

PLID74H3 - Language and Aging

A seminar-style course on language and communication in healthy and language-impaired older adults. The course covers normal age-related neurological, cognitive, and perceptual changes impacting language, as well as language impairments resulting from dementia, strokes, etc. Also discussed are the positive aspects of aging, bilingualism, ecologically valid experimentation, and clinical interventions.

Prerequisite: PLIC24H3 and PLIC55H3

Breadth Requirements: Natural Sciences

Management

Faculty List

- P. Aggarwal, B.A., M.B.A. (India), M.B.A., Ph.D. (Chicago), Professor
- S.W. Ahmed, B.Com., M.A. (Sind), M.B.A. (Concordia), Associate Professor, Teaching Stream
- I. Averbakh, M.Sc., Ph.D. (Moscow Institute of Physics & Technology), Professor
- J-E. de Bettignies, B.A. (London School of Economics), M.A. (Universite Catholique de Louvain), MBA, PhD (Chicago), Professor
- C. Chan, B.A. (Huron), B.A. (Western), M.Sc., Ph.D. (Pennsylvania), Associate Professor
- L. H. Chen, B.S.Ed. (U Penn), M.B.A. (Toronto), Ph.D. (Toronto), FCPA, FCGA., Associate Professor, Teaching Stream
- A.A. Cire, B.Sc., M.Sc. (University of Campinas), M.Sc., Ph.D. (Carnegie Mellon University), Associate Professor
- B. Connelly, B.A. (Emory), Ph.D. (Minnesota), Associate Professor
- S. L. Daga, B.A. (Waterloo), M. Ed. (Toronto), CPA, CA (CICA) CPA (CPA Canada), Associate Professor, Teaching Stream
- T. Dewan, B.Sc., M.B.A. (Panjab), Ph.D. (Texas), Associate Professor, Teaching Stream
- A. Down, B.A. (Western), M.A., Ph.D. (Michigan), Assistant Professor
- S. D. Hansen, B.A. (Laurentian), M.A. (Wilfrid Laurier), Ph.D. (Waterloo), Associate Professor
- L. Harvey, B.B.A. (Toronto), MAcc (Brock). CPA, CA, Associate Professor, Teaching Stream
- J. Heathcote, B.A., M.A., Ph.D. (Western), Associate Professor, Teaching Stream
- M. Khapko, B.A., M.A., Ph.D. (Stockholm School of Economics), Associate Professor
- D. Kong, B.B.A. (Hawaii), M.B.A. (York), CPA, CMA., Assistant Professor, Teaching Stream
- N. Li, B.A. (Zhejiang), M.A. (Peking), M.B.A., Ph.D. (Chicago), Assistant Professor
- S. Maglio III, B.A., Stanford University (USA), Ph.D. (New York), Professor
- C. Martineau, B.Com. (Concordia), M.Sc., (HEC Montreal), Ph.D., (UBC), Associate Professor
- J. McCarthy, B.A., M.A., Ph.D. (Western), Professor
- K. McElheran, B.A. Albion College (USA), Ph.D. (Northwestern University), Associate Professor
- Y. Nozawa, B.A. (Monash University), M.B.A., Ph.D. (Chicago), Assistant Professor
- T. Nwadei, BPhil (Pittsburgh), Ph.D. (Emory), Assistant Professor
- V. Quan, B.A.Sc., M.A.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- G. Quan Fun, B.A. (Toronto), M.B.A. (Laurentian), CPA, CA, CMA, CGA., Professor, Teaching Stream
- P. Radhakrishnan, B.A. (Windsor), M.A., Ph.D. (Illinois), Associate Professor, Teaching Stream
- S. Riddiough, B.Sc. (Warwick), M.Phil (Cambridge), Ph.D. Warwick, Associate Professor
- A. Saks, B.A. (Western), M.A.Sc. (Waterloo), Ph.D. (Toronto), Professor
- S. Sekar, B.Tech. (Indian Institute of Technology), Ph.D. (Rensselaer Polytechnic Institute), Assistant Professor
- A. Shah, B.A. (Dartmouth College), Ph.D. (Duke University), Assistant Professor
- R. Shalev, LLB. (Hebrew University), E.M.BA. (Northwestern University & Tel-Aviv University Economics), M.Phil., Ph.D. (Columbia Business School), Associate Professor
- A. Sood, B.A. (Colorado College), M.A., Ph.D. (Minnesota), Assistant Professor
- A. Stark, B.A. (U.B.C.), M.Sc. (London), M.A., Ph.D. (Harvard), Professor
- J. Tong, B.Sc. (Fudan University), M.Sc. (Columbia University), Ph.D. (University of Minnesota), Assistant Professor
- J. Trougakos, B.S., M.B.A. (Oklahoma State), Ph.D. (Purdue), Professor
- A. Wahid, B.A. (Brandeis), M.A. (Brandeis), D.B.A. (Harvard), Associate Professor
- J. Wei, B.Sc. (Harbin Inst. (China)), M.B.A. (York), Ph.D. (Toronto), Professor
- Y. Jin, B.A. The University of California, Berkeley, Ph.D. Harvard, Assistant Professor
- A. Yang, B.Sc. (East China Normal), M.Sc. (Shanghai Jiao Tong), Ph.D. (Chicago)
- Y. Yu, B.A. (Peking), Ph.D. (Columbia), Assistant Professor
- D. Zweig, B.A., M.A.Sc., Ph.D. (Waterloo), Associate Professor

Chair: A. Franco, Email: mgtchair.uts@utoronto.ca

The design of the curriculum in Management is guided by our mission statement, which is as follows:

"The mission of the Department of Management at the University of Toronto Scarborough is to provide our students with the best pre-professional undergraduate management education in Canada. With special emphasis on our Co-op model of education, we aim to provide a coherent set of learning experiences that simultaneously teaches management skills and develops the capacity to think analytically about managerial, economic, and societal problems and opportunities. Our faculty engages in nationally and internationally recognized research, which advances the frontiers of knowledge, serves the interests of our community, and brings new insights to our students. We will improve our students' current and future experiences by building and maintaining close links with private and public sector organizations, by helping students to bridge the gap between education and employment, and by providing a continuing and lively connection among current and former students of the Department."

The University of Toronto Scarborough offers the Bachelor of Business Administration (B.B.A.) degree to students who complete one of the Specialist/Specialist (Co-op) Programs in Management. The Department of Management also offers a Certificate Program in Business. For more information, see the [Certificates](#) section of the *Calendar*.

Management Programs

We admit 500 students each year to the Specialist and Specialist (Co-op) Programs in Management.

1. Most students are admitted directly from high school.
2. A small number of students may be admitted at the end of the first year. The first round of admissions takes place at the end of the Winter session of their first year. The second round of admissions takes place at the end of the following Summer session.
3. There are a limited number of places in the B.B.A. available to students beyond these two application periods. Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits are not eligible for admission to the programs. Since the number of students accepted in this category is very limited, students who are denied admission after the first year (in the periods at the end of the Winter session and the end of the Summer session in the first year) are strongly advised to contact the [Academic Advising & Career Centre](#), to explore alternative program options.

Students must request only ONE Management program. Students who request a Management Co-op Subject POST are automatically considered for Management Non-Co-op programs.

Management Courses

There are enrolment limits on most Management courses including those offered in the Summer session.

Prerequisites

Students are responsible for ensuring that they have the prerequisites for all Management courses. Students who register for courses for which they do not have the appropriate prerequisites are denied access to those courses. A Standing Deferred (SDF) in a course does not meet the prerequisite for the subsequent course.

Overall Course Load Limit for B.B.A. Students

Students may take a maximum of 3.0 credits per semester. On occasion, B.B.A. students who have completed at least 12.0 credits and who have a CGPA of at least 3.5 may be permitted into an additional 0.5 credit course. Requests to add an additional course must be made in writing to the Management Academic Director at mgmtss@utsc.utoronto.ca. This must be done after the waitlist period has ended and before the last day to add courses for the session (see the Academic Dates available on the [Office of the Registrar](#) website). Students must provide an academic rationale for the request and include their name, student number, the course code, and the lecture section requested.

Notes

1. Approval of a request to add a course outside Management and Economics does not guarantee a place in the course. Requests from students who do not meet the above criteria will not be considered.
2. UTSC Management courses are not open to students from other campuses. Similarly, St. George Rotman Commerce courses and UTM Management courses are not open to UTSC students.

Double Degrees: B.B.A./B.Sc.

The Department of Management, in partnership with the Department of Computer and Mathematical Sciences, offers the following Double Degree programs:

- Double Degree: B.B.A., Specialist Program in Management and Finance/Honours B.Sc., Specialist Program in Statistics, Quantitative Finance Stream
- Double Degree: B.B.A., Specialist (Co-op) Program in Management and Finance/Honours B.Sc., Specialist (Co-op) Program in Statistics, Quantitative Finance Stream

The Double Degree programs create an accelerated pathway for students who would otherwise have to complete two separate Specialist programs. They explicitly focus on finance and quantitative methods, providing students with a thorough education in both the business and the quantitative aspects of the financial industry. The Double Degree programs take advantage of existing synergies to allow students to complete both undergraduate programs and degrees within five years without compromising their learning experience. Students will complete a total of 25.0 credits and, those enrolled in the Double Degree (Specialist Co-op programs), must also complete three mandatory Co-op work terms. For more information, including Admission and Program requirements, see the [Double Degree Programs](#) section of the *Calendar*.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Double Degree Programs

DOUBLE DEGREE: BBA, SPECIALIST PROGRAM IN MANAGEMENT AND FINANCE / HONOURS BSc, SPECIALIST PROGRAM IN STATISTICS, QUANTITATIVE FINANCE STREAM

Academic Directors:

S. Ahmed Email: mgmtss.utsc@utoronto.ca (BBA)

S. Damouras Email: sotirios.damouras@utoronto.ca (BSc)

This Double Degree program combines the Specialist Program in Management and Finance and the Specialist Program in Statistics, Quantitative Finance stream. Students completing the Double Degree program will qualify to graduate with two-degree designations – the Bachelor of Business Administration (BBA) and the Honours Bachelor of Science (BSc), assuming all other degree criteria are met.

Enrolment Requirements

Enrolment in this Double Degree program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English, Grade 12 Advanced Functions, and Grade 12 Calculus & Vectors. Applicants must also submit a Supplementary Application Form.

Course Guidelines for Students Admitted to the Double Degree Program Directly from High School

Students must complete the following courses in their first year of study: [MGEA02H3](#), [MGEA06H3](#), [MATA22H3](#), [MATA31H3](#), [MATA37H3](#), [MATA67H3/CSCA67H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGHA12H3](#), [MGMA01H3](#) and [MGTA38H3](#).

2. Students already pursuing a BBA program and degree may apply to enter the Double Degree program. The application can be made before the end of the Winter semester and/or before the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request. Students considering switching to the Double Degree program should consult with the Academic Directors as soon as possible.

The minimum Cumulative Grade Point Average (CGPA) for admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed at least 5.0 credits (none of which can be designated as CR/NCR), including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGTA38H3, MATA22H3, MGHA12H3, MATA31H3, MATA37H3, and MATA67H3/CSCA67H3.

Students who have taken MATA34H3 or [(MATA30H3 or (MATA32H3)) and ((MATA33H3) or MATA36H3)] instead of [MATA31H3 and MATA37H3] can still apply to the Double Degree program if they are taking or plan to take MATA37H3 at the time of application and could receive admission conditional on their grade in MATA37H3 being above a threshold to be specified each year.

Notes:

1. Students MUST complete the pre-requisite of MATA67H3/CSCA67H3 in order to take MATA37H3.
2. MATA34H3 is not a substitute for MATA31H3. Students who have completed MATA34H3 will be required to take MATA31H3 as an Extra (EXT) course before taking MATA37H3.

Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be admitted to the Double Degree program. For those who apply with more than 5.0 credits, their CGPA at the time of application will be calculated with more weight assigned to the required courses listed under the 5.0 credits.

CGPA Requirement to Remain in the Double Degree (Specialist Programs)

In order to remain in the Double Degree, students must maintain a CGPA of 2.0 or higher after having attempted at least 4.0 credits. Students whose CGPA falls below 2.1 (but not below 2.0) will have the opportunity to move to either the non Co-op BBA Specialist Program in Management and Finance, or the non Co-op BSc Specialist Program in Statistics, Quantitative Finance stream. If they choose to stay in the Double Degree program and their CGPA falls below 2.0, they will be removed from the Double Degree program. Students removed from the program for this reason may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Program Requirements

The Double Degree program requires the completion of 25.0 credits. 21.5 credits are core program requirements as listed below, and 3.5 further credits are required to complete degree requirements.

NOTES:

1. Students who have taken STAB52H3 and STAB57H3 and then transfer to any other BBA program must also take MGEA12H3 to fulfill the program requirements.
2. A single course may only be used once to fulfill one of the following program requirements.

1. Communications requirement (0.5 credit)

MGTA38H3 Management Communications

2. Management requirements (5.0 credits)

MGAB01H3 Introductory Financial Accounting I

MGAB02H3 Introductory Financial Accounting II

MGAB03H3 Introductory Management Accounting

MGHB02H3 Managing People and Groups in Organizations

MGHA12H3 Human Resource Management

MGHC02H3 Management Skills

MGMA01H3 Principles of Marketing

MGMB01H3 Marketing Management

MGOC10H3 Analysis for Decision-Making

MGOC20H3 Operations Management: A Mathematical Approach

3. Science requirements (9.0 credits)

CSCA08H3 Introduction to Computer Science I

(MATA67H3)/CSCA67H3 Discrete Mathematics

CSCC37H3 Introduction to Numerical Algorithms for Computational Mathematics

MATA22H3 Linear Algebra I for Mathematical Sciences

MATA31H3 Calculus I for Mathematical Sciences

MATA37H3 Calculus II for Mathematical Sciences

[MATB24H3](#) Linear Algebra II
[MATB41H3](#) Techniques of the Calculus of Several Variables I

[MGFC35H3](#)/([MGFD10H3](#)) Investments
[STAC70H3](#) Statistics and Finance I
[STAD70H3](#) Statistics and Finance II

6. At least four courses (2.0 credits):

Any C- or D- level Finance courses (MGF) and/or [MGEC71H3](#) Money and Banking.

NOTE: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the [Degree Requirements](#) section of this *Calendar*.

DOUBLE DEGREE: BBA, SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND FINANCE / HONOURS BSc, SPECIALIST (CO-OPERATIVE) PROGRAM IN STATISTICS, QUANTITATIVE FINANCE STREAM

Assistant Director: P. Brown Email: mgmtcoop.utsc@utoronto.ca

Academic Directors:

S. Ahmed Email: mgmtss.utsc@utoronto.ca (BBA)

S. Damouras Email: sotirios.damouras@utoronto.ca (BSc)

The Double Degree program combines the Specialist (Co-operative) Program in Management and Finance and the Specialist (Co-operative) Program in Statistics, Quantitative Finance stream. Students completing the Double Degree program will qualify to graduate with two degree designations – the Bachelor of Business Administration (BBA) and the Honours Bachelor of Science (BSc), assuming all other degree criteria are met.

The Double Degree program is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as finance, insurance, data analytics, accounting, consulting, business intelligence, marketing, policy, strategic planning and entrepreneurship. The Double Degree program will equip students with a comprehensive understanding of financial markets, and develop the business and quantitative skills required to function in them.

The Double Degree program operates on a trimester schedule, featuring three terms (Fall, Winter and Summer) in each Calendar year. Students work or study in all three terms for five years, or until graduation requirements are met. It requires 11 four-month terms of study and 3 four-month work terms.

Enrolment Requirements

Enrolment in the Double Degree program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English, Grade 12 Advanced Functions, and Grade 12 Calculus & Vectors. Applicants must also submit a Supplementary Application Form.

Course Guidelines for Students Admitted to Double Degree Program Directly from High School:

Students must complete the following courses in their first year of study: [MGEA02H3](#), [MGEA06H3](#), [MATA22H3](#), [MATA31H3](#), [MATA37H3](#), [MATA67H3/CSCA67H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGHA12H3](#), [MGMA01H3](#) and [MGTA38H3](#).

2. Students already pursuing a BBA program and degree may apply to enter this Double Degree program. The application can be made before the end of the Winter semester and/or before the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request. Students considering switching to the Double Degree program should consult with the Academic Directors as soon as possible.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed at least 5.0 credits (none of which can be designated as CR/NCR), including: [MGEA02H3](#), [MGEA06H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGHA12H3](#), [MGTA38H3](#), [MATA22H3](#), [MATA31H3](#), [MATA37H3](#), and [MATA67H3/CSCA67H3](#).

Students who have taken [MATA34H3](#) or [([MATA30H3](#) or ([MATA32H3](#)))] and [([MATA33H3](#) or [MATA36H3](#))] instead of [([MATA31H3](#) and [MATA37H3](#))] can still apply to the Double Degree program if they are taking or plan to take [MATA37H3](#) at the time of application and could receive admission conditional on their grade in [MATA37H3](#) being above a threshold to be specified each year.

Notes:

1. Students MUST complete the pre-requisite of [MATA67H3/CSCA67H3](#) in order to take [MATA37H3](#).
2. [MATA34H3](#) is not a substitute for [MATA31H3](#). Students who have completed [MATA34H3](#) will be required to take [MATA31H3](#) as an Extra (EXT) course before taking [MATA37H3](#).

Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be able to apply to the Double Degree Program. For those who apply with more than 5.0 credits, their CGPA at the time of application will be calculated with more weight assigned to the required courses listed under the 5.0 credits.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar [website](#). For information on what to include in your resume and covering letter, visit the Management Co-op [website](#). An interview may also be required.

CGPA Requirement to Remain in the Double Degree Co-op Program

Students must maintain a CGPA of 2.5 or higher. Students whose CGPA falls below 2.5 will be placed on probation. Students on probation will be reinstated to the Double Degree program if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.5. Students who cannot get out of probation in two consecutive sessions, or whose CGPA falls below 2.3, will be removed from the Double Degree Co-op Program. Students removed from the Double Degree (Specialist Co-op Programs) can pursue the Double Degree (Specialist Programs), or one of its non Co-op constituent programs (i.e., the BBA Specialist Program in Management and Finance, or the BSc Specialist Program in Statistics, Quantitative Finance stream).

Program Requirements

The Double Degree program requires the completion of 25.0 credits. 21.5 credits are core program requirements as listed below, and 3.5 further credits are required to complete degree requirements.

NOTES:

1. Students who have taken STAB52H3 and STAB57H3 and then transfer to any other BBA program must also take MGE12H3 to fulfill the program requirements.
2. A single course may only be used once to fulfill one of the following program requirements.

1. Communications requirement (0.5 credit)

MGTA38H3 Management Communications

2. Management requirements (5.0 credits)

MGAB01H3 Introductory Financial Accounting I
MGAB02H3 Introductory Financial Accounting II
MGAB03H3 Introductory Management Accounting
MGHB02H3 Managing People and Groups in Organizations
MGHA12H3 Human Resource Management
MGHC02H3 Management Skills
MGMA01H3 Principles of Marketing
MGMB01H3 Marketing Management
MGOC10H3 Analysis for Decision-Making
MGOC20H3 Operations Management: A Mathematical Approach

3. Science requirements (9.0 credits)

CSCA08H3 Introduction to Computer Science I
(MATA67H3)/CSCA67H3 Discrete Mathematics
CSCC37H3 Introduction to Numerical Algorithms for Computational Mathematics
MATA22H3 Linear Algebra I for Mathematical Sciences
MATA31H3 Calculus I for Mathematical Sciences
MATA37H3 Calculus II for Mathematical Science
MATB24H3 Linear Algebra II
MATB41H3 Techniques of the Calculus of Several Variables I
MATB42H3 Techniques of the Calculus of Several Variables II
MATB44H3 Differential Equations I
MATB61H3 Linear Programming and Optimization
MATC46H3 Differential Equations II
STAB52H3 An Introduction to Probability
STAB57H3 An Introduction to Statistics
STAC62H3 Probability and Stochastic Processes I
STAC67H3 Regression Analysis
STAD37H3 Multivariate Analysis
STAD57H3 Time Series Analysis

4. Economics requirements (2.0 credits)

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach
MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach
MGE02H3 Price Theory: A Mathematical Approach
MGE06H3 Macroeconomic Theory and Policy: A Mathematical Approach

5. Finance requirements (3.0 credits)

MGFB10H3 Principles of Finance
MGFC10H3 Intermediate Finance
[MGFC30H3 Introduction to Derivatives Markets or STAB41H3 Financial Derivatives]
MGFC35H3/(MGFD10H3) Investments
STAC70H3 Statistics and Finance I
STAD70H3 Statistics and Finance II

6. At least four courses (2.0 credits):

Any C- or D-level Finance courses (MGF) and/or MGEC71H3 Money and Banking.

NOTE: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the [Degree Requirements](#) section of this *Calendar*.

Co-op Work Term Requirements

All Double Degree program Co-op students must take [MGTA38H3](#) prior to commencement of their first work term. Students are advised to consult regularly with the Assistant Director or the Academic Directors, if they have questions regarding course selection and scheduling. It is however the students' individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June, and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:
 - a. 7.0 credits, including: [MGEA02H3](#), [MGEA06H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGHA12H3](#), [MGMA01H3](#), [MGTA38H3](#), [MATA22H3](#), [MATA31H3](#) and [MATA37H3](#).
 - b. The Management Co-op Advancing Your Career Exploration Courses (AYCE): [COPB11H3](#) and [COPB12H3](#) or [COPB10Y3](#)
2. For the second work term: 9.0 credits.
3. For the third work term: 11.0 credits.

For information on fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section of this *Calendar*.

Management Programs

COMBINED DEGREE PROGRAMS, BACHELOR OF BUSINESS ADMINISTRATION / MASTER OF ACCOUNTING AND FINANCE

The Combined Degree Programs for UTSC Bachelor of Business Administration (BBA) with the Master of Accounting and Finance (MAccFin) offered by the Graduate Department of Management allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 2 of their undergraduate studies, and be considered, for admission to the MAccFin program. They are designed for students with no prior work experience who are interested in pursuing careers in account management, wealth management, consultancy, and entrepreneurship.

Contact Information:

Email: Maccfin@utsc.utoronto.ca

The Combined Degree Programs options are:

- Management and Accounting (Specialist), Bachelor of Business Administration/ Master of Accounting and Finance
- Management and Accounting (Specialist Co-op), Bachelor of Business Administration/ Master of Accounting and Finance

Application Process:

- Applicants must apply to the Bachelor of Business Administration (BBA) program, the MAccFin program, and the CDP.

- Qualified student in Year 2 of their BBA degree program apply to the MAccFin program and their chosen CDP through the SGS Online Admission Application system:
 - Students may apply after they have completed up to 10.0 credits; however, students who have completed more than 10.0 credits may not be considered for admission to the Program.
- Applicants must:
 - Complete a standardized application form with customized fields through the SGS Online Application System;
 - Provide at least two reference letters; and
 - Provide a resume.
- Applicants will be scored on each admission requirement and then ranked based on their overall score.

Minimum Admission Requirements:

Admission to the program is extremely competitive, and all aspects of the application are considered. Meeting minimum grade requirements does not guarantee admission. To be considered for **conditional admission to the MAccFin program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the BBA degree and one of the Management and Accounting Specialist programs at UTSC.
- Meet the minimum admission requirements of the School of Graduate Studies and the MAccFin program.
- Be enrolled full-time and in good standing in the BBA program:
 - have a B+ average (CGPA of 3.3) or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.

Program Requirements and Path to Completion:

- This CDP requires that students follow prescribed co-op term and/or academic study sequencing options as determined and communicated by the Department of Management.
- Complete all of the requirements of the Management and Accounting Specialist programs, with the following modifications:
 - Students must complete MGEC08H3 (0.5 credit in Economics);
 - Students are exempted from MGE12H3 and MGAD70H3;
 - Students must complete MGFC35H3 (0.5 credit in Finance);
 - In the Summer terms of Year 3 of their undergraduate studies, students must complete 1.0 FCE in graduate courses as described below. The 1.0 FCE in graduate courses will be graded as graduate courses, as per the *University Assessment and Grading Practices Policy*, 2012 (section B.4.1.2). The 1.0 FCE in graduate courses will count towards both the BBA degree and the MAccFin program and degree:
 - MAF 2001H
 - MAF 2002H
 - Students must complete all of the following advanced accounting courses, which are necessary for CPA designation: MGAD20H3, MGAD40H3, MGAD45H3, MGAD50H3, MGAD65H3.
- Year 4: BBA degree requirements
 - students must complete all BBA program requirements, with the modifications described above, and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year; where necessary, exceptions will be made for students in Co-op programs.
- Session 1: MAccFin program and degree requirements, with the following modifications:
 - students who have successfully completed MAF 2001H as part of their BBA requirements, do not need to repeat it;
 - students who have successfully completed MAF 2002H as part of their BBA requirements, do not need to repeat it.
- Session 2-4: remaining MAccFin program and degree requirements.

SPECIALIST PROGRAM IN ECONOMICS FOR MANAGEMENT STUDIES (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE0133

Academic Director: A. Mazaheri Email: ecoss.uts@utoronto.ca

This program will provide a specialization for those wishing for a substantial component of Economics in a Management degree leading to a B.B.A. The Program is designed to allow students to learn practical skills of data analysis and to combine them with the interpretive skills given by knowledge of economic theory.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students enrolling directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Programs Directly from High School

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after first year must request ONLY ONE Management Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits just in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

In order to remain in the Program, students must maintain a CGPA of 2.0 or higher after having attempted at least 4.0 credits. Students whose CGPA falls below 2.0 will be removed from the Program. Students removed from the program, for this reason, may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Program Requirements

The Specialist Program in Economics for Management Studies requires the completion of 16.0 credits as part of a twenty-credit B.B.A. degree.

Note: A single course may only be used once to fulfill one of the following requirements:

1. 8.5 credits in Economics for Management Studies:

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach

MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach

MGEB02H3 Price Theory: A Mathematical Approach

MGEB06H3 Macroeconomic Theory and Policy: A Mathematical Approach

MGEB11H3 Quantitative Methods in Economics I

MGEB12H3 Quantitative Methods in Economics II

MGEC02H3 Topics in Price Theory

MGEC06H3 Topics in Macroeconomics Theory

MGEC11H3 Introduction to Regression Analysis

MGED02H3 Advanced Microeconomic Theory

MGED06H3 Advanced Macroeconomic Theory

MGED11H3 Theory and Practice of Regression Analysis

MGED50H3 Workshop in Economic Research,

and

2.0 credits in Economics for Management Studies courses including at least 1.0 credit at the C-level [excluding MGEC91H3, MGEC92H3, and MGEC93H3].

2. (0.5 credit):

MATA34H3

or

[[MATA29H3/MATA30H3/MATA31H3/(MATA32H3)] and [(MATA33H3)/MATA35H3/MATA36H3/MATA37H3]]

3. (6.5 credits):

MGMA01H3 Principles of Marketing

MGTA38H3 Management Communications

MGAB01H3 Introductory Financial Accounting I

MGAB02H3 Introductory Financial Accounting II

MGAB03H3 Introductory Management Accounting

MGFB10H3 Principles of Finance

MGFC10H3 Intermediate Finance

MGHA12H3 Human Resource Management

MGHB02H3 Managing People and Groups in Organizations

MGHC02H3 Management Skills

MGMB01H3 Marketing Management

MGOC10H3 Analytics for Decision Making

MGOC20H3 Operations Management

4. At least 0.5 credit of courses emphasizing strategic management, chosen from:

MGSB01H3 Introduction to Strategy

MGSB22H3 Entrepreneurship

MGSC01H3 Strategic Management I

MGSC03H3 Public Management

MGSC05H3 The Changing World of Business-Government Relations

MGSC10H3 Business Strategy in the Digital Age

MGSC12H3 Narrative and Management

MGSC14H3 Management Ethics

MGSC20H3 Consulting and Contracting: New Ways of Work

MGSC30H3 The Legal Environment of Business I

MGSD24H3 New Venture Creation and Planning

Note: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the Degree Requirements section of the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN ECONOMICS FOR MANAGEMENT STUDIES (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE01332

Academic Director: A. Mazaheri E-mail: ecoss.utsc@utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Economics for Management Studies is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

This program will provide a specialization for those wishing for a substantial component of Economics in a Management degree leading to a B.B.A. It is designed to allow students to learn practical skills of data analysis and to combine them with the interpretive skills given by the knowledge of economic theory.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.
Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High school students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, and MGTA38H3.
2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar website. For information on what to include in your resume and covering letter, visit the Management Co-op Office website. An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Economics for Management Studies.

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the students' individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement.

b) The Management Co-op Advancing Your Career Exploration (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the Co-operative Programs section or the Management Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN MANAGEMENT (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE24313

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

This program is designed to give students a broad exposure to all functional areas of Management as well as a solid grounding in Economics.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students enrolling directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Programs Directly from High School Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, and MGTA38H3.

2. Students requesting admission after first year must request ONLY ONE Management Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits just in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

In order to remain in the Program, students must maintain a CGPA of 2.0 or higher after having attempted at least 4.0 credits. Students whose CGPA falls below 2.0 will be removed from the Program. Students removed from the program, for this reason, may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Program Requirements

This program requires the completion of 13.0 credits as part of a twenty-credit B.B.A. degree.

Note: A single course may only be used once to fulfill one of the following requirements:

1. (6.5 credits):

MGMA01H3 Principles of Marketing
MGTA38H3 Management Communications
MGAB01H3 Introductory Financial Accounting I
MGAB02H3 Introductory Financial Accounting II
MGAB03H3 Introductory Management Accounting
MGFB10H3 Principles of Finance
MGHA12H3 Human Resource Management
MGHB02H3 Managing People and Groups in Organizations
MGMB01H3 Marketing Management
MGFC10H3 Intermediate Finance
MGHC02H3 Management Skills
MGOC10H3 Analytics for Decision Making
MGOC20H3 Operations Management

2. (0.5 credit):

MATA34H3

or

[[MATA29H3/MATA30H3/MATA31H3/(MATA32H3)] and [(MATA33H3)/MATA35H3/MATA36H3/MATA37H3]]

3. At least 0.5 credit of courses emphasizing strategic management, chosen from:

MGSB01H3 Introduction to Strategy
MGSB22H3 Entrepreneurship
MGSC01H3 Strategic Management I
MGSC03H3 Public Management
MGSC05H3 The Changing World of Business-Government Relations
MGSC10H3 Business Strategy in the Digital Age

MGSC14H3 Management Ethics
MGSC20H3 Consulting and Contracting: New Ways of Work
MGSC30H3 The Legal Environment of Business I
MGSD24H3 New Venture Creation and Planning

4. (3.0 credits):

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach
MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach
MGEB02H3 Price Theory: A Mathematical Approach
MGEB06H3 Macroeconomic Theory and Policy: A Mathematical Approach
MGEB11H3 Quantitative Methods in Economics I
MGEB12H3 Quantitative Methods in Economics II

5. 1.5 credits of any C or D-level Management or Economic courses.**6. 1.0 credit of D-level in Management or Economic courses.**

Note: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the Degree Requirements section of the UTSC *Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE24315

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Management is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

This Program is designed to give students a broad exposure to all functional areas of Management as well as a solid grounding in Economics.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, and MGTA38H3.

2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar website. For information on what to include in your resume and covering letter, visit the Management Co-op Office website. An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Management.

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the students' individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MATA34H3, and MGTA38H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement.

b) The Management Co-op Advancing Your Career Exploration (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the Co-operative Programs section or the Management Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN MANAGEMENT AND ACCOUNTING (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432A

Academic Director: S. Ahmed Email: mgmtss@utsc.utoronto.ca

This Program is designed students interested in acquiring a concentrated core of accounting and related knowledge that is required to become a professional accountant. It provides a solid foundation to prepare students to become Chartered Professional Accountants after graduation. In addition, the Specialist Program provides students with the personal and professional attributes necessary to build a successful career in senior management.

The Program encompasses topics such as introductory to advanced financial and managerial accounting, assurance, taxation, economics, and finance. There is also a range of more advanced electives which cover topics and competencies that incorporate critical thinking and ethical decision making.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students enrolling directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Programs Directly from High School Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after the first year must request ONLY ONE Management Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits just in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

In order to remain in the Program, students must maintain a CGPA of 2.0 or higher after having attempted at least 4.0 credits. Students whose CGPA falls below 2.0 will be removed from the Program. Students removed from the program, for

this reason, may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Program Requirements

The Program requires the completion of 14.5 credits as part of a twenty-credit B.B.A. degree.

Note: A single course may only be used once to fulfill one of the following requirements:

1. (6.5 credits):

MGMA01H3 Principles of Marketing
MGTA38H3 Management Communications
MGAB01H3 Introductory Financial Accounting I
MGAB02H3 Introductory Financial Accounting II
MGAB03H3 Introductory Management Accounting
MGFB10H3 Principles of Finance
MGHA12H3 Human Resource Management
MGHB02H3 Managing People and Groups in Organizations
MGMB01H3 Marketing Management
MGFC10H3 Intermediate Finance
MGHC02H3 Management Skills
MGOC10H3 Analytics for Decision Making
MGOC20H3 Operations Management

2. (0.5 credit):

MATA34H3

or

[(MATA29H3/MATA30H3/MATA31H3/(MATA32H3))] and [(MATA33H3)/MATA35H3/MATA36H3/MATA37H3]

3. (3.0 credits):

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach
MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach
MGEB02H3 Price Theory: A Mathematical Approach
MGEB06H3 Macroeconomic Theory and Policy: A Mathematical Approach
MGEB11H3 Quantitative Methods in Economics I
MGEB12H3 Quantitative Methods in Economics II

4. (4.0 credits):

MGAC01H3 Intermediate Financial Accounting I
MGAC02H3 Intermediate Financial Accounting II
MGAC03H3 Intermediate Management Accounting
MGSC30H3 The Legal Environment of Business I
MGAC50H3 Canadian Income Taxation I
MGAC70H3 Management Information Systems
MGAC10H3 Auditing
MGAD70H3 Advanced Accounting Case Analysis: A Capstone Course

5. At least 0.5 credit at the D-level course from:

MGAD20H3 Advanced Auditing
MGAD40H3 Management Control Systems
MGAD45H3 Corporate Governance and Strategy: CPA Perspective
MGAD50H3 Advanced Financial Accounting
MGAD65H3 Canadian Income Taxation II

Notes:

1. In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the Degree Requirements section of the *UTSC Calendar*.

2. The Chartered Professional Accountancy (CPA) requirements:

Students interested in the CPA designation must also complete: MGAD40H3 Management Control Systems, MGAD50H3 Advanced Financial Accounting, MGAD65H3 Canadian Income Taxation II, MGAD20H3 Advanced Auditing and MGAD45H3 Corporate Governance and Strategy: CPA Perspective.

Students are strongly advised to refer to the CPA Ontario website. This website will have the designation's specified minimum grade and the updated program requirements. It is imperative that students check the following [website](#) regularly for current information.

SPECIALIST PROGRAM IN MANAGEMENT AND HUMAN RESOURCES (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432H

Academic Director: S. Ahmed Email: mgmtss@utsc.utoronto.ca

This Program is designed to give students a broad exposure to all functional areas of Management as well as specialization in the area of Human Resource Management (HRM). HRM is an area that encompasses topics such as recruitment and selection, performance management, compensation, and industrial relations. By taking a B.B.A. with a specialist in HRM, you will be qualified to work in any area of Human Resource Management, to take a graduate degree in HRM (potentially with advance standing), and you will be well prepared for the CHRP certification exam required by many organizations for upper-level HR positions. In order to qualify for CHRP certification, you must maintain an average of at least 70% across the 9 courses required by CHRP and at least 65% in each of those 9 courses.

By completing this Specialist Program in Management and Human Resources, you will cover the nine required CHRP courses.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students enrolling directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Programs Directly from High School Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after first year must request ONLY ONE Management Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits just in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

In order to remain in the Program, students must maintain a CGPA of 2.0 or higher after having attempted at least 4.0 credits. Students whose CGPA falls below 2.0 will be removed from the Program. Students removed from the program, for this reason, may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Program Requirements

The Program requires the completion of 13.5 credits as part of a twenty-credit B.B.A. degree.

Note: A single course may only be used once to fulfill one of the following requirements:

1. (6.5 credits):

MGMA01H3 Principles of Marketing

MGTA38H3 Management Communications

MGAB01H3 Introductory Financial Accounting I

MGAB02H3 Introductory Financial Accounting II

MGAB03H3 Introductory Management Accounting

MGFB10H3 Principles of Finance

MGHA12H3 Human Resource Management
MGHB02H3 Managing People and Groups in Organizations
MGMB01H3 Marketing Management
MGFC10H3 Intermediate Finance
MGHC02H3 Management Skills
MGOC10H3 Analytics for Decision Making
MGOC20H3 Operations Management

2. (0.5 credit):

MATA34H3

or

[(MATA29H3/MATA30H3/MATA31H3/(MATA32H3))] and [(MATA33H3)/MATA35H3/MATA36H3/MATA37H3]

3. At least 0.5 credit of courses emphasizing strategic management, chosen from:

MGSB01H3 Introduction to Strategy
MGSC01H3 Strategic Management I
MGSC03H3 Public Management
MGSC05H3 The Changing World of Business-Government Relations
MGSC10H3 Business Strategy in the Digital Age
MGSC12H3 Narrative and Management
MGSC14H3 Management Ethics
MGSC20H3 Consulting and Contracting: New Ways of Work
MGSB22H3 Entrepreneurship
MGSD24H3 New Venture Creation and Planning
MGSC30H3 The Legal Environment of Business I

4. (3.0 credits):

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach
MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach
MGEB02H3 Price Theory: A Mathematical Approach
MGEB06H3 Macroeconomic Theory and Policy: A Mathematical Approach
MGEB11H3 Quantitative Methods in Economics I
MGEB12H3 Quantitative Methods in Economics II

5. (3.0 credits):

MGHC53H3 Introduction to Industrial Relations
MGHD24H3 Occupational Health and Safety Management
MGHD25H3 Human Resources Recruitment & Selection
MGHD26H3 Training and Development
MGHD27H3 Human Resources Planning and Strategy
MGHD28H3 Compensation

Note: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the Degree Requirements section of the UTSC *Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND HUMAN RESOURCES (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432J

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Management and Human Resources is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

This Program is designed to give students a broad exposure to all functional areas of Management as well as specialization in the area of Human Resource Management (HRM). HRM is an area that encompasses topics such as recruitment and selection, performance management, compensation, and industrial relations. By taking a B.B.A. with a specialist in HRM, you will be qualified to work in any area of Human Resource Management, to take a graduate degree in HRM (potentially with advanced standing), and you will be well prepared for the CHRP certification exam required by many organizations for upper-level HR positions. In order to qualify for CHRP certification, you must maintain an average of at least 70% across the 9 courses required by CHRP and at least 65% in each of those 9 courses.

By completing this Program, you will cover the nine required CHRP courses.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar website. For information on what to include in your resume and covering letter, visit the Management Co-op Office website. An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Management and Human Resources.

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to

consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the student's individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed the program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement.

b) The Management Co-op Advancing Your Career Exploration (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the Co-operative Programs section or the Management Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN MANAGEMENT AND INFORMATION TECHNOLOGY (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2431Q

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

This Program is designed to give students a broad exposure to all functional areas of Management as well as a solid grounding in Computer Science.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students enrolling directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Programs Directly from High School Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, CSCA08H3, CSCA48H3, MATA34H3, MGHA12H3, MGMA01H3, and MGTA38H3.

2. Students requesting admission after first year must request ONLY ONE Management Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits just in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

In order to remain in the Program, students must maintain a CGPA of 2.0 or higher after having attempted at least 4.0 credits. Students whose CGPA falls below 2.0 will be removed from the Program. Students removed from the program, for this reason, may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Program Requirements

The Program requires the completion of 14.0 credits as part of a twenty-credit B.B.A. degree.

Note: A single course may only be used once to fulfill one of the following requirements:

1. (6.5 credits):

MGMA01H3 Principles of Marketing
MGTA38H3 Management Communications
MGAB01H3 Introductory Financial Accounting I
MGAB02H3 Introductory Financial Accounting II
MGAB03H3 Introductory Management Accounting
MGFB10H3 Principles of Finance
MGHA12H3 Human Resource Management
MGHB02H3 Managing People and Groups in Organizations
MGMB01H3 Marketing Management
MGFC10H3 Intermediate Finance
MGHC02H3 Management Skills
MGOC10H3 Analytics for Decision Making
MGOC20H3 Operations Management

2. (0.5 credit):

MATA34H3

or

[[MATA29H3/MATA30H3/MATA31H3/(MATA32H3)] and [(MATA33H3)/MATA35H3/MATA36H3/MATA37H3]]

3. (3.0 credits):

CSCA08H3 Introduction to Computer Science I
CSCA48H3 Introduction to Computer Science II
CSCB07H3 Software Design
CSCB09H3 Software Tools and Systems Software
CSCB20H3 Introduction to Databases and Web Applications
CSCC01H3 Introduction to Software Engineering

4. (3.0 credits):

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach
MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach
MGEB02H3 Price Theory: A Mathematical Approach
MGEB06H3 Macroeconomic Theory and Policy: A Mathematical Approach
MGEB11H3 Quantitative Methods in Economics I
MGEB12H3 Quantitative Methods in Economics II

5. (0.5 credit):

MGSD15H3 Managing in the Information Economy

or

MGSD55H3 Strategy and Technology

6. 0.5 credit at the D-level in Management, Economics or CSC courses.

Note: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the Degree Requirements section of the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND INFORMATION TECHNOLOGY (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2431R

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND INTERNATIONAL BUSINESS (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2431J

Academic Director: J. Trougakos Email: mibss@utsc.utoronto.ca

Assistant Director: P. Brown Email: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Management and International Business (MIB) is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

This Specialist (Co-operative) Program in Management and International Business is designed to give students a broad exposure to all functional areas of Management while providing a unique understanding of the business world in a global context. Academically, the program requires a language development component and a number of specially designed courses emphasizing international business. Through the high-level curricular programming as well as the practical experiences abroad, students will experience an emphasis on cross-cultural communications and leadership, while simultaneously maintaining a quantitative and analytical focus. Students will also have the opportunity to maintain a more general academic approach or use their electives to focus on a specific discipline within the Management Program.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. At least one of the work terms and one of

the study terms must be outside of Canada. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

For more information on the Certificates available for students in the Specialist (Co-operative) Program in Management and International Business, students should refer to the [Certificates](#) section of the Calendar.

Enrolment Requirements

Enrolment in this Program is limited.

Most students will be accepted into the program directly from secondary school. Transfer students and current UTSC students may also apply for admission, but generally, only those students who are in the early stages of their academic careers will be considered. Admission is based on the applicant's academic performance as well as a supplementary application, and an interview process. Interviews are held in February, March and April for students who pass the initial screening. Successful students will demonstrate strength in academics, extra-curricular and volunteer activities, as well as an interest in, and focus on, developing global competencies. For further information please see the [Co-operative Programs](#) section in this Calendar and the MIB section of the [Department of Management](#) website.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: [MGEA02H3](#), [MGEA06H3](#), [MATA34H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGIA01H3](#), [MGIA12H3](#), [MGIB02H3](#), and [MGTA38H3](#).

Course Guidelines for Students Admitted to B.B.A. Co-op Programs from other UTSC Programs

Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): [MGEA02H3](#), [MGEA06H3](#), and [MATA34H3](#). However, [MATA29H3](#) or [MATA30H3](#) or [MATA31H3](#) or [MATA32H3](#) and [MATA33H3](#) or [MATA35H3](#) or [MATA36H3](#) or [MATA37H3](#) may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the [Office of the Registrar](#) website. For information on what to include in your resume and covering letter, visit the [Management Co-op Office](#) website. An interview may also be required.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Program Requirements

The Program requires the completion of 13.5 credits as part of a twenty-credit B.B.A. degree.

Note: A single course may only be used once to fulfill one of the following requirements:

1. 8.0 credits in Management as follows:

[MGIA01H3](#) Principles of International Marketing

[MGTA38H3](#) Management Communications

[MGAB01H3](#) Introductory Financial Accounting I

[MGIA12H3](#) International Human Resources

[MGIB01H3](#) Global Marketing

MGAB02H3 Introductory Financial Accounting II
MGIB02H3 International Organizational Behaviour
MGAB03H3 Introductory Management Accounting
MGFB10H3 Principles of Finance
MGIC01H3 International Corporate Strategy
MGIC02H3 International Leadership Skills
MGOC10H3 Analytics for Decision Making
MGFC10H3 Intermediate Finance
MGOC20H3 Operations Management
MGID40H3 Introduction to International Business Law
MGID79H3 International Capstone Case Analysis

2. 0.5 credit in Calculus from:

MATA34H3

or

[(MATA29H3/MATA30H3/MATA31H3/(MATA32H3)) and ((MATA33H3)/MATA35H3/MATA36H3/MATA37H3)]

3. 3.0 credits in Economics for Management Studies as follows:

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach
MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach
MGEB02H3 Price Theory: A Mathematical Approach
MGEB06H3 Macroeconomic Theory and Policy: A Mathematical Approach
MGEB11H3 Quantitative Methods in Economics I
MGEB12H3 Quantitative Methods in Economics II

4. 2.0 credits in Foreign Languages:

If those courses are taken at UTSC, they would be in either Language (LGG) or French (FRE) courses. For courses taken at UTSC, student language skills will be assessed by the Department of Language Studies before being formally placed in the course. The intent of the requirement is to have gained some proficiency in a foreign language, students should ideally take 2.0 credits in one language or at least 1.5 credits in the same language. Students may, with the permission of the MIB Academic Director, take 1.0 credit in one language and 1.0 credit in another.

If courses are taken elsewhere, they should be courses in language proficiency, or if the student already has some proficiency in the language in question, the course should be in the literature of that language and delivered in that language.

Complementary Elective Courses (optional)

The following are some courses from other departments that can be used to complement the Specialist Program in Management and International Business. Students may want to consider these courses as potential electives. Please note that some of these courses require prerequisites which are not included in this program:

- GASB30H3
- ANTA02H3
- ANTB20H3
- GGRA02H3
- IDSB01H3
- IDSC12H3
- POLB80H3
- POLB81H3

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the student's individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed the program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June, and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

- a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGIA12H3, MGIB02H3, MGMA01H3, MGTA38H3, and MATA34H3. However [MATA29H3 or MATA30H3 or MATA31H3] and [MATA35H3 or MATA36H3 or MATA37H3] may also be used to satisfy the calculus requirement.
- b) The Management Co-op Advancing Your Career Exploration (AYCE): [COPB13H3 and COPB14H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

International Work and Study Term Requirements

Students are required to complete at least one work term outside of Canada. The location of the international placements will vary according to student interest, availability of positions, practicability and safety of an area, as well as established international relationships.

Students are also required to complete one study term outside of Canada, typically in their third year with an approved partner University, and may be required to complete some of the program requirements during this time. Although scholarships may be available, students are expected to budget for the additional costs of studying abroad.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the Co-operative Programs section or the Management Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN MANAGEMENT AND MARKETING (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432M

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

This Program gives students the perspective of the overall organization and beyond. In addition to the company focus, Marketing also ensures that students take an external orientation by having an in-depth understanding of the competition and the consumer. While developing a good understanding of all the issues involved in developing marketing strategy, the student will learn to implement the tools of marketing tactics.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students enrolling directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Programs Directly from High School Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after first year must request ONLY ONE Management Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However [MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits just in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

In order to remain in the Program, students must maintain a CGPA of 2.0 or higher after having attempted at least 4.0 credits. Students whose CGPA falls below 2.0 will be removed from the Program. Students removed from the program, for this reason, may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Program Requirements

The Program requires the completion of 13.5 credits as part of a twenty-credit B.B.A. degree.

Note: A single course may only be used once to fulfill one of the following requirements:

1. (6.5 credits):

MGMA01H3 Principles of Marketing
MGTA38H3 Management Communications
MGAB01H3 Introductory Financial Accounting I
MGAB02H3 Introductory Financial Accounting II
MGAB03H3 Introductory Management Accounting
MGFB10H3 Principles of Finance
MGHA12H3 Human Resource Management
MGHB02H3 Managing People and Groups in Organizations
MGMB01H3 Marketing Management
MGFC10H3 Intermediate Finance
MGHC02H3 Management Skills
MGOC10H3 Analytics for Decision Making
MGOC20H3 Operations Management

2. (0.5 credit):

MATA34H3

or

[(MATA29H3/MATA30H3/MATA31H3/(MATA32H3))] and [(MATA33H3)/MATA35H3/MATA36H3/MATA37H3]

3. At least 0.5 credit of courses emphasizing strategic management, chosen from:

MGSB01H3 Introduction to Strategy
MGSC01H3 Strategic Management I
MGSC03H3 Public Management
MGSC05H3 The Changing World of Business-Government Relations
MGSC10H3 Business Strategy in the Digital Age
MGSC12H3 Narrative and Management
MGSC14H3 Management Ethics
MGSC20H3 Consulting and Contracting: New Ways of Work
MGSB22H3 Entrepreneurship
MGSD24H3 New Venture Creation and Planning
MGSC30H3 The Legal Environment of Business I

4. (3.0 credits):

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach
MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach
MGEB02H3 Price Theory: A Mathematical Approach
MGEB06H3 Macroeconomic Theory and Policy: A Mathematical Approach
MGEB11H3 Quantitative Methods in Economics I
MGEB12H3 Quantitative Methods in Economics II

5. 6 of the following courses (3.0 credits):

MGMC01H3 Market Research
MGMC02H3 Consumer Behaviour
MGMC11H3 Product Management and Branding
MGMC12H3 Advertising: From Theory to Practice
MGMC13H3 Pricing Strategy
MGMC14H3 Sales and Distribution Management
MGMD01H3 Applied Marketing Models
MGMD02H3 Judgement and Decision Making
MGMD10H3 Seminar in Consumer Psychology I
MGMD11H3 Seminar in Consumer Psychology II
MGMD19H3 Advanced Special Topics in Marketing II

MGMD20H3 Advanced Special Topics in Marketing I
MGMD21H3 Competitive Marketing in Action

Note: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the Degree Requirements section of the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND MARKETING (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432N

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca
 Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Management and Marketing is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

This Program gives students the perspective of the overall organization and beyond. In addition to the company focus, Marketing also ensures that students take an external orientation by having an in-depth understanding of the competition and the consumer. While developing a good understanding of all the issues involved in developing a marketing strategy, the student will learn to implement the tools of marketing tactics.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar website. For information on what to include in your resume and

covering letter, visit the [Management Co-op Office](#) website. An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Management and Marketing.

Co-op Work Term Requirements

All Co-op students must take [MGTA38H3](#) prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the student's individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed the program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) beginning in the third week of June and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

a) 7.0 credits, including: [MGEA02H3](#), [MGEA06H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGHA12H3](#), [MGMA01H3](#), [MGTA38H3](#), and [MATA34H3](#). However, [\[MATA29H3 or MATA30H3 or MATA31H3 or \(MATA32H3\)\]](#) and [\[\(MATA33H3\) or MATA35H3 or MATA36H3 or MATA37H3\]](#) may also be used to satisfy the calculus requirement.

b) The Management Co-op Advancing Your Career Exploration (AYCE): [\[COPB11H3 and COPB12H3\]](#) or [COPB10Y3](#).

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the [Co-operative Programs](#) section or the [Management Co-op](#) section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN STRATEGIC MANAGEMENT - Entrepreneurship Stream (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432Q

Academic Director: S. Ahmed, *Email:* mgmtss@utsc.utoronto.ca

At its most fundamental level, effective strategic management is about understanding and successfully managing strategic interactions with other firms and individuals. Strategic interactions take place whenever our fortunes depend not only on our own actions, but also on the actions of our rivals (and vice versa). In these instances, our optimal actions and those of our partners and competitors are inextricably connected. How should we think about these interactions and formulate an action plan?

The [Specialist Program in Strategic Management](#), which includes a Management Strategy Stream and an Entrepreneurship Stream, will give students the skills to address this essential question. Integrating tools from economics and other management disciplines, you will gain a profound understanding of business and corporate strategy and their sub-disciplines, and/or entrepreneurship.

Overall, as a Strategic Management specialist, students will develop an ability to identify, simplify, and analyze highly complex business problems, to strategize implementable solutions, and to articulate the key elements of their strategic reasoning in a simple, compelling and engaging way to a non-expert audience. Indeed, the strategic mindset that students will gain from this specialty will help them successfully navigate the stormy waters of business, whether they plan a career as a management consultant, economic consultant, manager in private-sector, public sector and non-profit organizations, investment banker, or entrepreneur.

Both streams have a non-co-op and a co-op component. Co-op students should see the section regarding work term requirements for specific details on courses required before each work term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students enrolling directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Programs Directly from High School Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after first year must request ONLY ONE Management Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits just in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

In order to remain in the Program, students must maintain a CGPA of 2.0 or higher after having attempted at least 4.0 credits. Students whose CGPA falls below 2.0 will be removed from the Program. Students removed from the program for this reason may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

To complete the program, a student must meet the course requirements described below. The program requirements comprise a core 10.5 credits, and an additional 3.5 credits for the Entrepreneurship stream (14.0 credits total.)

Note: A single course may only be used once to fulfill one of the following program requirements.

Core (10.5 credits):

1. (7.0 credits):

MGAB01H3 Introductory Financial Accounting I
MGAB02H3 Introductory Financial Accounting II
MGAB03H3 Introductory Management Accounting
MGFB10H3 Principles of Finance
MGFC10H3 Intermediate Finance
MGHC02H3 Management Skills
MGHA12H3 Human Resource Management
MGHB02H3 Managing People and Groups in Organizations
MGMA01H3 Principles of Marketing
MGMB01H3 Marketing Management
MGOC10H3 Analytics for Decision Making
MGOC20H3 Operations Management

MGTA38H3 Management Communications

and

0.5 credit at the D-level in either Management or Economics for Management Studies courses

2. (0.5 credit):

MATA34H3

or

[[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]]

3. (3.0 credits):

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach

MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach

MGEB02H3 Price Theory: A Mathematical Approach

MGEB06H3 Macroeconomic Theory and Policy: A Mathematical Approach

MGEB11H3 Quantitative Methods in Economics I

MGEB12H3 Quantitative Methods in Economics II

Entrepreneurship Stream (3.5 credits):

4. Foundation Courses - 1.0 credit:

MGSB01H3 Introduction to Strategy

MGSC01H3 Strategic Management I

5. Concentration Courses – 1.5 credits:

MGSB22H3 Entrepreneurship

MGSC35H3 Innovation

[MGSC26H3 Venture Capital or MGFD15H3 Private Equity]

6. Advanced Course – 0.5 credit:

MGSD24H3 New Venture Creation and Planning

7. Elective Courses – 0.5 credit from:

MGEC11H3 Introduction to Regression Analysis

MGEC41H3 Industrial Organization

MGED43H3 Organization Strategies.

or any C- or D-level Strategy course (MGS)

Note: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the Degree Requirements section of the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN STRATEGIC MANAGEMENT - Entrepreneurship Stream (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432R

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Strategic Management is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

At its most fundamental level, effective strategic management is about understanding and successfully managing strategic interactions with other firms and individuals. Strategic interactions take place whenever our fortunes depend not only on our own actions, but also on the actions of our rivals (and vice versa). In these instances, our optimal actions – and those

of our partners and competitors - are inextricably connected. How should we think about these interactions and formulate an action plan?

The Specialist Program in Strategic Management - which includes a Management Strategy Stream and an Entrepreneurship Stream - will give students the skills to address this essential question. Integrating tools from economics and other management disciplines, students will gain a profound understanding of business and corporate strategy and their sub-disciplines, and/or entrepreneurship.

Overall, as a Strategic Management specialist students will develop an ability to identify, simplify, and analyze highly complex business problems, to strategize implementable solutions, and to articulate the key elements of their strategic reasoning in a simple, compelling and engaging way to a non-expert audience. Indeed, the strategic mindset that students will gain from this specialty will help them successfully navigate the stormy waters of business, whether they plan a career as a management consultant, economic consultant, manager in private-sector, public sector and non-profit organizations, investment banker, or entrepreneur. Both streams have a non-co-op and a co-op component. Co-op students should see the section regarding work term requirements for specific details on courses required before each work term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar's [website](#). For information on what to include in your resume and covering letter, visit the Management Co-op [website](#). An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Strategic Management.

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the student's individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June, and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

- a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, and MATA34H3. However, [[MATA29H3 or MAT30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement.
- b) The Management Co-op Advancing Your Career Exploration (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the Co-operative Programs section or the Management Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN STRATEGIC MANAGEMENT - Management Strategy Stream (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE24320

Academic Director: S. Ahmed, Email: mgmtss@utsc.utoronto.ca

At its most fundamental level, effective strategic management is about understanding and successfully managing strategic interactions with other firms and individuals. Strategic interactions take place whenever our fortunes depend not only on our own actions, but also on the actions of our rivals (and vice versa). In these instances, our optimal actions and those of our partners and competitors are inextricably connected. How should we think about these interactions and formulate an action plan?

The Specialist Program in Strategic Management, which includes a Management Strategy Stream and an Entrepreneurship Stream, will give students the skills to address this essential question. Integrating tools from economics and other management disciplines, you will gain a profound understanding of business and corporate strategy and their sub-disciplines, and/or entrepreneurship.

Overall, as a Strategic Management specialist, students will develop an ability to identify, simplify, and analyze highly complex business problems, to strategize implementable solutions, and to articulate the key elements of their strategic reasoning in a simple, compelling and engaging way to a non-expert audience. Indeed, the strategic mindset that students will gain from this specialty will help them successfully navigate the stormy waters of business, whether they plan a career as a management consultant, economic consultant, manager in private-sector, public sector and non-profit organizations, investment banker, or entrepreneur.

Both streams have a non-co-op and a co-op component. Co-op students should see the section regarding work term requirements for specific details on courses required before each work term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students enrolling directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Programs Directly from High School Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after first year must request ONLY ONE Management Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits just in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

In order to remain in the Program, students must maintain a CGPA of 2.0 or higher after having attempted at least 4.0 credits. Students whose CGPA falls below 2.0 will be removed from the Program. Students removed from the program for this reason may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

To complete the program, a student must meet the course requirements described below. The program requirements comprise a core 10.5 credits, and an additional 3.5 credits for the Management Strategy stream (14.0 credits total.)

Note: A single course may only be used once to fulfill one of the following program requirements.

Core (10.5 credits):

1. (7.0 credits):

MGAB01H3 Introductory Financial Accounting I
MGAB02H3 Introductory Financial Accounting II
MGAB03H3 Introductory Management Accounting
MGFB10H3 Principles of Finance
MGFC10H3 Intermediate Finance
MGHA12H3 Human Resource Management
MGHB02H3 Managing People and Groups in Organizations
MGHC02H3 Management Skills
MGMA01H3 Principles of Marketing
MGMB01H3 Marketing Management
MGOC10H3 Analytics for Decision Making
MGOC20H3 Operations Management
MGTA38H3 Management Communications

and

0.5 credit at the D-level in either Management or Economics for Management Studies courses

2. (0.5 credit):

MATA34H3

or

[[MATA29H3/MATA30H3/MATA31H3/(MATA32H3)] and [(MATA33H3)/MATA35H3/MATA36H3/MATA37H3]]

3. (3.0 credits):

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach
MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach
MGEB02H3 Price Theory: A Mathematical Approach

MGEB06H3 Macroeconomic Theory and Policy: A Mathematical Approach

MGEB11H3 Quantitative Methods in Economics I

MGEB12H3 Quantitative Methods in Economics II

Management Strategy Stream (3.5 credits):

4. Foundation Courses - 1.0 credit:

MGSB01H3 Introduction to Strategy

MGSC01H3 Strategic Management I

5. Concentration Courses – 1.5 credits from:

MGEC11H3 Introduction to Regression Analysis

MGSC05H3 The Changing World of Business-Government Relations

MGSC10H3 Business Strategy in the Digital Age

MGSC14H3 Management Ethics

MGSC35H3 Innovation

MGSD05H3 Strategic Management II

MGSD40H3 Corporate Social Responsibility

Based on courses selected, students can obtain the following concentrations within the Management Strategy stream:

Quantitative Strategy and Analysis:

MGSC10H3, MGEC11H3 and MGSD55H3

Technology Strategy:

MGSC10H3, MGSC35H3, and [MGSD15H3 or MGSD55H3]

Strategy, Government and Society:

MGSC05H3, MGSC14H3 and MGSD40H3

General Strategic Management:

MGSD05H3 and 1.0 credit from list of concentration courses from requirement 5

6. Advanced Course – 0.5 credit:

MGSD01H3 Senior Seminar in Strategic Management

7. Elective Courses – 0.5 credit from:

MGEC11H3 - Introduction to Regression Analysis

MGEC41H3 - Industrial Organization

MGED43H3 - Organization Strategies.

or any B-, C- or D-level Strategy course (MGS)

Note: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the Degree Requirements section of the UTSC *Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN STRATEGIC MANAGEMENT - Management Strategy Stream (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432P

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Strategic Management is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

At its most fundamental level, effective strategic management is about understanding and successfully managing strategic interactions with other firms and individuals. Strategic interactions take place whenever our fortunes depend not only on our own actions, but also on the actions of our rivals (and vice versa). In these instances, our optimal actions – and those of our partners and competitors - are inextricably connected. How should we think about these interactions and formulate an action plan?

The Specialist Program in Strategic Management - which includes a Management Strategy Stream and an Entrepreneurship Stream - will give students the skills to address this essential question. Integrating tools from economics and other management disciplines, students will gain a profound understanding of business and corporate strategy and their sub-disciplines, and/or entrepreneurship.

Overall, as a Strategic Management specialist students will develop an ability to identify, simplify, and analyze highly complex business problems, to strategize implementable solutions, and to articulate the key elements of their strategic reasoning in a simple, compelling and engaging way to a non-expert audience. Indeed, the strategic mindset that students will gain from this specialty will help them successfully navigate the stormy waters of business, whether they plan a career as a management consultant, economic consultant, manager in private-sector, public sector and non-profit organizations, investment banker, or entrepreneur. Both streams have a non-co-op and a co-op component. Co-op students should see the section regarding work term requirements for specific details on courses required before each work term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [(MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar's [website](#). For information on what to include in your resume and covering letter, visit the Management Co-op [website](#). An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Strategic Management.

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the student's individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June, and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H2)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement.

b) The Management Co-op Advancing Your Career Exploration (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the Co-operative Programs section or the Management Co-op section in the UTSC *Calendar*.

CERTIFICATE IN BUSINESS - SCCBUS

The Certificate in Business is a part-time program designed to provide students with the skills they need to function as managers in today's rapidly changing workplace. It also gives students who already have degrees in other fields of study an opportunity to focus on business studies. Courses in the Certificate can be used towards various professional designations.

Contact:

Audrey Quirion, Undergraduate Coordinator

Office: IC 240

Tel: 416-287-7271

Email: audrey.quirion@utoronto.ca

Application Process and Admission Requirements

Please see the Department of Management website for details.

Certificate Requirements

Students must complete the following:

1. Pass 6.0 credits in Economics for Management Studies courses and Management courses, including:

[[MGEA01H3 and MGEA05H3] or [MGEA02H3 and MGEA06H3]]

MGTA01H3 Introduction to Business

MGTA02H3 Managing the Business Organization

2. Earn a cumulative grade point average of at least 2.00* (if a student's CGPA falls below 2.0, s/he will be removed from the program).

*Students will graduate with honours if their cumulative grade point average is 3.20 or better.

Note: Students in their graduating session who intend to take part in the next Convocation must notify the Office of the Registrar of their intention through ACORN. Students who are unable to request graduation through ACORN should contact the Office of the Registrar.

CERTIFICATE IN ECONOMICS WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1060

The Certificate in Economics Within Management and International Business will recognize that students in the MIB program have taken extra courses in economics and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business.

Certificate Requirements

Students must complete 2.0 credits as follows:

1. 1.0 credit from the following:

MGEC61H3 International Economics: Finance

MGEC62H3 International Economics: Trade Theory

MGEC82H3 International Aspects of Development Policy

2. 1.0 additional credit at the B-, C- or D-level, in Economics (MGE) courses offered by the Department of Management, or equivalent courses.*

*Note: MGE courses included as core requirements in the MIB program cannot be used towards the completion of this Certificate.

CERTIFICATE IN FINANCE WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1070

The Certificate in Finance Within Management and International Business will recognize that students in the MIB program have taken extra courses in finance and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business.

Certificate Requirements

Students must complete 2.0 credits as follows:

1. MGFC50H3 International Financial Management

2. 1.5 additional credits, at the C- or D-level, in Finance (MGF) courses offered by the Department of Management.*

*Note: MGFC10H3 cannot be used towards the completion of this Certificate.

CERTIFICATE IN HUMAN RESOURCES WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1080

The Certificate in Human Resources Within Management and International Business will recognize that students in the MIB program have taken extra courses in human resources/organizational behaviour and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business.

Certificate Requirements

Students must complete 2.0 credits at the C- or D-level in human resources/organizational behaviour (MGH) courses offered by the Department of Management.

*Note: MGHC02H3 cannot be used to towards the completion of this Certificate.

CERTIFICATE IN MARKETING WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1090

The Certificate in Marketing Within Management and International Business will recognize that students in the MIB program have taken extra courses in marketing and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business.

Certificate Requirements

Students must complete 2.0 credits at the C- or D-level in marketing (MGM) courses offered by the Department of Management.

CERTIFICATE IN STRATEGY WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1100

The Certificate in Strategy Within Management and International Business will recognize that students in the MIB program have taken extra courses in strategy and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business

Certificate Requirements

Students must complete 2.0 credits at the C- or D-level in strategy (MGS) courses offered by the Department of Management.

Management Courses

MGAB01H3 - Introductory Financial Accounting I

Together with MGAB02H3, this course provides a rigorous introduction to accounting techniques and to the principles and concepts underlying these techniques.

The preparation of financial statements is addressed from the point of view of both preparers and users of financial information.

Exclusion: VPAB13H3, MGT120H5, RSM219H1

Breadth Requirements: Social and Behavioural Sciences

MGAB02H3 - Introductory Financial Accounting II

This course is a continuation of MGAB01H3. Students are encouraged to take it immediately after completing MGAB01H3. Technical topics include the reporting and interpretation of debt and equity issues, owners' equity, cash flow statements and analysis. Through cases, choices of treatment and disclosure are discussed, and the development of professional judgment is encouraged.

Prerequisite: MGAB01H3

Exclusion: VPAB13H3, MGT220H5, RSM220H1

Breadth Requirements: Social and Behavioural Sciences

MGAB03H3 - Introductory Management Accounting

An introduction to management and cost accounting with an emphasis on the use of accounting information in managerial decision-making. Topics include patterns of cost behaviour, transfer pricing, budgeting and control systems.

Prerequisite: [[MGEA02H3 and MGEA06H3] or [MGEA01H3 and MGEA05H3]] and MGAB01H3

Exclusion: VPAB13H3, MGT223H5, MGT323H5, RSM222H1, RSM322H1

Breadth Requirements: Social and Behavioural Sciences

MGAC01H3 - Intermediate Financial Accounting I

Together with MGAC02H3, this course examines financial reporting in Canada. Through case analysis and the technical material covered, students will build on their knowledge covered in MGAB01H3, MGAB02H3 and, to a lesser extent, MGAB03H3.

Prerequisite: MGAB03H3 and MGAB02H3 and [MGTA38H3 or (MGTA35H3) or (MGTA36H3)]

Exclusion: MGT224H5, MGT322H5, RSM221H1, RSM320H1

Breadth Requirements: Social and Behavioural Sciences

MGAC02H3 - Intermediate Financial Accounting II

This course is a continuation of MGAC01H3. Students will further develop their case writing, technical skills and professional judgment through the study of several complex topics. Topics include leases, bonds, pensions, future taxes and earnings per share.

Prerequisite: MGAC01H3

Exclusion: MGT224H5, MGT322H5, RSM221H1, RSM320H1

Breadth Requirements: Social and Behavioural Sciences

MGAC03H3 - Intermediate Management Accounting

An examination of various cost accumulation and performance evaluation systems and decision-making tools. Topics include job and process costing, flexible budgeting, and variance analysis and cost allocations.

Prerequisite: MGAB03H3

Exclusion: MGT323H5, RSM322H1

Breadth Requirements: Social and Behavioural Sciences

MGAC10H3 - Auditing

An introduction to the principles and practice of auditing. The course is designed to provide students with a

foundation in the theoretical and practical approaches to auditing by emphasizing auditing theory and concepts, with some discussion of audit procedures and the legal and professional responsibilities of the auditor.

Prerequisite: MGAC01H3

Breadth Requirements: Social and Behavioural Sciences

MGAC50H3 - Canadian Income Taxation

First of two courses in Canadian income taxation. It provides the student with detailed instruction in income taxation as it applies to individuals and small unincorporated businesses. Current tax laws are applied to practical problems and cases. Covers employment income, business and property income, and computation of tax for individuals.

Prerequisite: Completion of at least 10.0 credits including MGAB01H3 and MGAB02H3 and MGAB03H3.

Exclusion: MGT423H5, RSM324H1

Recommended Preparation: MGAC01H3 is highly recommended.

Breadth Requirements: Social and Behavioural Sciences

MGAC70H3 - Management Information Systems

This course is intended to help students understand the information systems that are a critical component of modern organizations. The course covers the technology, design, and application of data processing and information systems, with emphasis on managerial judgment and decision-making. This course includes work-integrated-learning components, and satisfies the WIL requirement of the BBA degree.

Prerequisite: MGAB03H3 and MGHB02H3

Exclusion: MGT371H5, RSM327H1

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGAC80H3 - Special Topics in Accounting

This course covers special topics in the area of accounting. The specific topics will vary from year to year, but could include topics in: data analytics for accounting profession, accounting for finance professionals, forensic accounting, bankruptcy management and integrated reporting, etc. The specific topics to be covered will be set out in the syllabus for the course for each semester in which it is offered.

Prerequisite: MGAB02H3 and MGAB03H3

Breadth Requirements: Social and Behavioural Sciences

MGAD20H3 - Advanced Auditing

An extension of the study of areas covered in the introductory audit course and will include the application of risk and materiality to more advanced topic areas such as pension and comprehensive auditing. Other topics include special reports, future oriented financial information and prospectuses. This will include a review of current developments and literature.

Prerequisite: MGAC10H3

Breadth Requirements: Social and Behavioural Sciences

MGAD40H3 - Management Control Systems

An examination of how organizations support the implementation of strategy through the design of planning processes, performance evaluation, reward systems and HR policies, as well as corporate culture. Class discussion will be based on case studies that illustrate a variety of system designs in manufacturing, service, financial, marketing and professional organizations, including international contexts. This course includes work-integrated-learning components, and satisfies the WIL requirement of the BBA degree.

Prerequisite: MGAB03H3 and MGHB02H3

Exclusion: MGT428H5, RSM422H1

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

MGAD45H3 - Corporate Governance and Strategy - CPA Perspective

This course examines issues in Corporate Governance in today's business environment. Through case studies of corporate "ethical scandals", students will consider workplace ethical risks, opportunities and legal issues. Students will also examine professional accounting in the public interest as well as accounting and planning for sustainability. This course includes work-integrated-learning components, and satisfies the WIL requirement of the BBA degree.

Prerequisite: MGAC01H3 and MGSC30H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGAD50H3 - Advanced Financial Accounting

An in-depth study of advanced financial accounting topics: long-term inter-corporate investment; consolidation (including advanced measurements and reporting issues); foreign currency translation and consolidation of foreign subsidiaries and non-profit and public sector accounting. This course is critical to the education of students preparing for a career in accounting.

Prerequisite: MGAC01H3 and MGAC02H3

Breadth Requirements: Social and Behavioural Sciences

MGAD60H3 - Controversial Issues in Accounting

Through case analysis and literature review, this seminar addresses a variety of controversial reporting issues, impression management, the politics of standard setting and the institutional context. Topics may include: international harmonization, special purpose entities, whistle-blowing, the environment and social responsibility and professional education and career issues.

Prerequisite: MGAC01H3 and MGAC02H3

Breadth Requirements: Social and Behavioural Sciences

MGAD65H3 - Canadian Income Taxation II

This course is designed to give the student an understanding of the more complex issues of federal income taxation, by applying current tax law to practical problems and cases. Topics include: computation of corporate taxes, corporate distributions, corporate re-organizations, partnerships, trusts, and individual and corporate tax planning.

Prerequisite: MGAC50H3

Exclusion: MGT429H5, RSM424H1

Breadth Requirements: Social and Behavioural Sciences

MGAD70H3 - Advanced Accounting Case Analysis: A Capstone Course

A capstone case course integrating critical thinking, problem solving, professional judgement and ethics. Business simulations will strategically include the specific technical competency areas and the enabling skills of the CPA Competency Map. This course should be taken as part of the last 5.0 credits of the Specialist/Specialist Co-op in Management and Accounting.

Prerequisite: MGAC02H3 and MGAC03H3 and MGAC10H3 and MGAC50H3

Breadth Requirements: History, Philosophy and Cultural Studies

MGAD80H3 - Accounting Issues in International Business

An overview of international accounting and financial reporting practices with a focus on accounting issues related to international business activities and foreign operations. Understanding the framework used in establishing international accounting standards, preparation and translation of financial statements, transfer pricing and taxation, internal and external auditing issues and discussion of the role of accounting and performance measurement for multinational corporations.

Prerequisite: MGAB02H3 and MGAB03H3

Breadth Requirements: Social and Behavioural Sciences

MGAD85H3 - Advanced Special Topics in Accounting

This course covers special topics in the area of accounting. The special topics will vary from year to year but could include topics in bankruptcies, forensic accounting, controversial issues in financial reporting, accounting principles for non-accounting students, accounting for international business, accounting for climate change, ESG accounting and Accounting for general financial literacy. The specific topics to be covered will be set out in the syllabus for the course for the term in which the course is offered.

Prerequisite: MGAB02H3 and MGAB03H3

Breadth Requirements: Social and Behavioural Sciences

MGFB10H3 - Principles of Finance

An introduction to basic concepts and analytical tools in financial management. Building on the fundamental concept of time value of money, the course will examine stock and bond valuations and capital budgeting under certainty. Also covered are risk-return trade-off, financial planning and forecasting, and long-term financing decisions.

Prerequisite: MGE11H3 and MGAB01H3 and [MGTA38H3 or (MGTA35H3) or (MGTA36H3)]

Exclusion: MGT338H5, RSM332H1, MGM230H5, RSM230H1

Breadth Requirements: Social and Behavioural Sciences

MGFC10H3 - Intermediate Finance

This course covers mainstream finance topics. Besides a deeper examination of certain topics already covered in MGFB10H3, the course will investigate additional subjects such as working capital management, capital budgeting under uncertainty, cost of capital, capital structure, dividend policy, leasing, mergers and acquisitions, and international financial management.

Prerequisite: MGFB10H3

Exclusion: MGT339H5, RSM333H1, MGM332H5

Breadth Requirements: Social and Behavioural Sciences

MGFC20H3 - Personal Financial Management

This course covers goal setting, personal financial statements, debt and credit management, risk management, investing in financial markets, real estate appraisal and mortgage financing, tax saving strategies, retirement and estate planning. The course will benefit students in managing their personal finances, and in their future careers with financial institutions.

Prerequisite: MGFB10H3

Breadth Requirements: Social and Behavioural Sciences

MGFC30H3 - Introduction to Derivatives Markets

This course introduces students to the fundamentals of derivatives markets covering futures, swaps, options and other financial derivative securities. Detailed descriptions of, and basic valuation techniques for popular derivative securities are provided. As each type of derivative security is introduced, its applications in investments and general risk management will be discussed.

Corequisite: MGFC10H3

Exclusion: MGT438H5, RSM435H1

Breadth Requirements: Social and Behavioural Sciences

MGFC35H3 - Investments

This course deals with fundamental elements of investments. Basic concepts and techniques are introduced for various topics such as risk and return characteristics, optimal portfolio construction, security analysis, investments in stocks, bonds and derivative securities, and portfolio performance measurements.

Corequisite: MGFC10H3

Exclusion: (MGFD10H3), MGT330H5, RSM330H1

Breadth Requirements: Social and Behavioural Sciences

MGFC45H3 - Portfolio Management: Theory and Practice

This course introduces students to both the theoretical and practical elements of portfolio management. On the theoretical side, students learn the investment theories and analytic models applicable to portfolio management. Students gain fundamental knowledge of portfolio construction, optimization, and performance attribution. The hands-on component of the course aims to provide students with a unique experiential learning opportunity, through participation in the different stages of the portfolio management process. The investment exercises challenge students to apply and adapt to different risk and return scenarios, time horizons, legal and other unique investment constraints.

Classes are conducted in the experiential learning lab, where students explore academic, research and practical components of Portfolio Management.

Corequisite: MGFC35H3

Breadth Requirements: Quantitative Reasoning

MGFC50H3 - International Financial Management

This course provides students with a framework for making financial decisions in an international context. It discusses foreign exchange markets, international portfolio investment and international corporate finance. Next to covering the relevant theories, students also get the opportunity to apply their knowledge to real world issues by practicing case studies.

Prerequisite: MGFC10H3

Exclusion: MGT439H5, RSM437H1

Breadth Requirements: Social and Behavioural Sciences

MGFC60H3 - Financial Statement Analysis and Security Valuation

This course introduces the tools and skills required to perform a comprehensive financial statement analysis from a user perspective. Students will learn how to integrate the concepts and principles in accounting and finance to analyze the financial statements and to utilize that information in earnings-based security valuation.

Prerequisite: MGFC10H3

Exclusion: RSM429H1

Breadth Requirements: Social and Behavioural Sciences

MGFC85H3 - Special Topics in Finance

This course covers special topics in the area of finance. The specific topics will vary from year to year, but could

include topics in Financial Markets, Financial Intermediation, Corporate Governance, Real Estate Finance, Retirement Planning, and Sustainable Finance. The specific topics to be covered will be set out in the syllabus for the course for each semester in which it is offered.

Prerequisite: MGFB10H3 and MGFC10H3

Breadth Requirements: Social and Behavioural Sciences

MGFD15H3 - Private Equity

This course explores the private equity asset class and the private equity acquisition process. It covers both the academic and practical components of private equity investing, including: deal sourcing, financial modelling and valuations, transaction structuring, financing, diligence, negotiations, post transaction corporate strategy and governance.

Prerequisite: MGAB02H3 and MGFC10H3

Exclusion: RSM439H1, MGT495H5

Breadth Requirements: Social and Behavioural Sciences

MGFD25H3 - Financial Technologies and Applications (FinTech)

Financial Technologies (FinTech) are changing our everyday lives and challenging many financial institutions to evolve and adapt. The course explores disruptive financial technologies and innovations such as mobile banking, cryptocurrencies, Robo-advisory and the financial applications of artificial intelligence (AI) etc. The course covers the various areas within the financial industry that are most disrupted, thus leading to discussions on the challenges and opportunities for both the financial institutions and the regulators. Classes are conducted in the experiential learning lab where students explore academic, research and practical components of FinTech.

Prerequisite: MGFC10H3

Corequisite: MGFC35H3/(MGFD10H3)

Exclusion: RSM316H1, MGT415H5

Recommended Preparation: CSCA20H3

Breadth Requirements: Quantitative Reasoning

MGFD30H3 - Risk Management

This course develops analytical skills in financial risk management. It introduces techniques used for evaluating, quantifying and managing financial risks. Among the topics covered are market risk, credit risk, operational risk, liquidity risk, bank regulations and credit derivatives.

Prerequisite: MGFC10H3

Exclusion: ECO461H1, RSM432H1

Breadth Requirements: Social and Behavioural Sciences

MGFD40H3 - Investor Psychology and Behavioural Finance

This course is designed to help students understand how different psychological biases can affect investor behaviours and lead to systematic mispricing in the financial market. With simulated trading games, students will learn and practice various trading strategies to take advantage of these market anomalies.

Prerequisite: MGFC10H3 and MGE12H3

Exclusion: MGT430H5

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGFD50H3 - Mergers and Acquisitions: Theory and Practice

This course provides a general introduction to the important aspects of M&A, including valuation, restructuring, divestiture, takeover defences, deal structuring and negotiations, and legal issues.

Prerequisite: MGFC10H3

Exclusion: MGT434H5

Breadth Requirements: Social and Behavioural Sciences

MGFD60H3 - Financial Modeling and Trading Strategies

This course integrates finance theories and practice by using financial modeling and simulated trading. Students will learn how to apply the theories they learned and to use Excel and VBA to model complex financial decisions. They will learn how the various security markets work under different simulated information settings.

Corequisite: MGFC30H3 and MGFC35H3/(MGFD10H3)

Exclusion: MGT441H5, RSM434H1

Breadth Requirements: Social and Behavioural Sciences

MGFD70H3 - Advanced Financial Management

This course reinforces and expands upon the topics covered in MGFB10H3/(MGTB09H3), (MGTC03H3) and MGFC10H3/(MGTC09H3). It examines more advanced and complex decision making situations a financial manager faces in such areas as capital budgeting, capital structure, financing, working capital management, dividend policy, leasing, mergers and acquisitions, and risk management.

Prerequisite: MGFC10H3

Exclusion: MGT431H5, MGT433H5, RSM433H1

Breadth Requirements: Social and Behavioural Sciences

MGFD85H3 - Advanced Special Topics in Finance

This course covers special topics in the area of finance. The specific topics will vary from year to year but could include topics in Financial Markets, Financial Intermediation, Corporate Governance, Real Estate Finance, Retirement Planning, Sustainable Finance, and Fixed Income. The specific topics to be covered will be set out in the syllabus for the course for each semester in which it is offered.

Prerequisite: MGFB10H3 and MGFC10H3

Breadth Requirements: Social and Behavioural Sciences

MGHA12H3 - Human Resource Management

An introduction to current human resource practices in Canada, emphasizing the role of Human Resource Management in enhancing performance, productivity and profitability of the organization. Topics include recruitment, selection, training, career planning and development, diversity and human rights issues in the work place.

Exclusion: (MGHB12H3), (MGIB12H3), MGIA12H3, MGT460H5, RSM460H1

Breadth Requirements: Social and Behavioural Sciences

MGHB02H3 - Managing People and Groups in Organizations

An introduction to micro- and macro-organizational behaviour theories from both conceptual and applied perspectives. Students will develop an understanding of the behaviour of individuals and groups in different organizational settings. Topics covered include: individual differences, motivation and job design, leadership, organizational design and culture, group dynamics and inter-group relations.

Prerequisite: MGTA38H3 or (MGTA35H3) or (MGTA36H3)

Exclusion: MGIB02H3, MGT262H5, RSM260H1, PSY332H

Breadth Requirements: Social and Behavioural Sciences

MGHC02H3 - Management Skills

This course will help students develop the critical skills required by today's managers. Topics covered include

self-awareness, managing stress and conflict, using power and influence, negotiation, goal setting, and problem-solving. These skills are important for leadership and will enable students to behave more effectively in their working and personal lives. This course includes work-integrated-learning components, and satisfies the WIL requirement of the BBA degree.

Prerequisite: [MGHB02H3 or MGIB02H3] and

[MGHA12H3/(MGHB12H3) or MGIA12H3/(MGIB12H3)]

Exclusion: MGIC02H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

MGHC23H3 - Diversity in the Workplace

Examines the nature and effects of diversity in the workplace. Drawing on theories and research from psychology, the course will examine topics like stereotyping, harassment, discrimination, organizational climate for diversity, conflict resolution within diverse teams, and marketing to a diverse clientele.

Prerequisite: MGHB02H3 or MGIB02H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

MGHC50H3 - Special Topics in Human Resources

This course covers special topics in the area of organizational behaviour. The specific topics will vary from year to year but could include topics in organizational culture, motivation, leadership, communication, organizational design, work attitudes, or equity, diversity and inclusion at work. The specific topics to be covered will be set out in the syllabus for the course for each semester in which it is offered.

Prerequisite: 7.5 credits including MGHB02H3

Recommended Preparation: [MGHA12H3 or MGIA12H3] and [MGTA35H3 or MGTA36H3 or MGTA38H3]

Breadth Requirements: Social and Behavioural Sciences

MGHC51H3 - Special Topics in Organizational Behaviour

This course covers special topics in the area of organizational behaviour. The specific topics will vary from year to year but could include topics in organizational culture, motivation, leadership, communication, organizational design, work attitudes, or equity, diversity and inclusion at work. The specific topics to be covered will be set out in the syllabus for the course for each semester in which it is offered.

Prerequisite: 7.5 credits including MGHB02H3 or MGIB02H3

Recommended Preparation: MGTA35H3 or MGTA36H3 or MGTA38H3 and MGHA12H3 or MGIA12H3

Breadth Requirements: Social and Behavioural Sciences

MGHC52H3 - Business Negotiation

An introduction to the theory and practice of negotiation in business. This course develops approaches and tactics to use in different forums of negotiation, and an introduction to traditional and emerging procedures for resolving disputes. To gain practical experience, students will participate in exercises which simulate negotiations.

Prerequisite: MGHB02H3 or MGIB02H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGHC53H3 - Introduction to Industrial Relations

An overview of the industrial system and process. The course will introduce students to: industrial relations theory, the roles of unions and management, law, strikes, grievance arbitration, occupational health and safety, and the history of the industrial relations system. Students will participate in collective bargaining simulations. This course includes work-integrated-learning components, and satisfies the WIL requirement of the BBA degree.

Prerequisite: Completion of at least 10.0 credits including [MGEA01H3 and MGEA05H3] or [MGEA02H3 and MGEA06H3].

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGHC55H3 - International Management OBHR Field Course

This course examines the principles and challenges of Organizational Behaviour and Human Resource Management principles (e.g., Leadership, Work Team Effectiveness, Recruitment & Selection, Health & Safety, etc.) in international contexts, focusing on leading theories and best practices. Through interactions with host nation University faculty and business leaders, industry tours of local businesses, case examples, skill-building exercises, and academic research, students will learn about OBHR topics from the perspective of the host country.

Prerequisite: The completion of 7.5 credits including MGHA12H3 or MGIA12H3 and MGHB02H3 or MGIB02H3

Recommended Preparation: MGTA35H3 or MGTA36H3 or MGTA38H3

Breadth Requirements: Social and Behavioural

Sciences

Course Experience: University-Based Experience

MGHD14H3 - Leadership

This advanced leadership seminar builds on Management Skills and International Leadership Skills, focusing on leadership theories and practices. Through case studies, skill-building exercises, and world-class research, students will learn critical leadership theories and concepts while gaining an understanding of how effective leaders initiate and sustain change at the individual and corporate levels, allowing each student to harness their full leadership potential.

Prerequisite: MGHC02H3 or MGIC02H3

Breadth Requirements: Social and Behavioural Sciences

MGHD24H3 - Occupational Health and Safety Management

Occupational health and safety is a management function, however, many managers are not prepared for this role when they arrive in their first jobs. This course will consider the physical, psychological, social, and legal environments relevant to health and safety in the workplace.

Prerequisite: MGHA12H3/(MGHB12H3) or MGIA12H3/(MGIB12H3)

Breadth Requirements: Social and Behavioural Sciences

MGHD25H3 - Human Resources Recruitment and Selection

An in-depth look at recruitment and selection practices in organizations. Students will learn about organizational recruitment strategies, the legal issues surrounding recruitment and selection, how to screen job applicants, and the role of employee testing and employee interviews in making selection decisions.

Prerequisite: MGHA12H3/(MGHB12H3) or MGIA12H3/(MGIB12H3)

Breadth Requirements: Social and Behavioural Sciences

MGHD26H3 - Training and Development

This course is designed to teach students about the training and development process. Topics include how training and development fits within the larger organizational context as well as learning, needs analysis, the design and delivery of training programs, on and off-the-job training methods, the transfer of training, and training evaluation.

Prerequisite: MGHA12H3/(MGHB12H3) or MGIA12H3/(MGIB12H3)

Breadth Requirements: Social and Behavioural Sciences

MGHD27H3 - Human Resources Planning and Strategy

This course is designed to provide students with an understanding of strategic human resources management and the human resource planning process. Students will learn how to forecast, design, and develop human resource plans and requirements using both qualitative and quantitative techniques.

Prerequisite: MGHA12H3/(MGHB12H3) or MGIA12H3/(MGIB12H3)

Breadth Requirements: Social and Behavioural Sciences

MGHD28H3 - Compensation

This course is designed to provide students with an understanding of compensation programs and systems. Students will learn how to design and manage compensation and benefit programs; individual and group reward and incentive plans; and how to evaluate jobs and assess employee performance.

Prerequisite: MGHA12H3/(MGHB12H3) or MGIA12H3/(MGIB12H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGHD60H3 - Advanced Special Topics in Organizational Behaviour and Human Resources

This course covers advanced special topics in the area of organizational behaviour and human resources. The specific topics will vary from year to year, but could include topics in: organizational culture, motivation, leadership, communication, organizational design, work attitudes, job analysis, employee well-being and performance, performance management, selection, training, or equity, diversity and inclusion at work. The specific topics to be covered will be set out in the syllabus for the course for each semester in which it is offered.

Prerequisite: [MGHA12H3 or MGIA12H3] and [MGHB02H3 or MGIB02H3] and 7.5 credits

Recommended Preparation: MGTA38H3 or MGTA35H3 or MGTA36H3

Breadth Requirements: Social and Behavioural Sciences

MGIA01H3 - Principles of International Marketing

An introduction to basic marketing concepts and tools that provide students with a conceptual framework for analyzing marketing problems facing global managers. Topics are examined from an international marketing perspective and include: buyer behaviour, market segmentation and basic elements of the marketing mix.

Prerequisite: Enrolment in the MIB program

Exclusion: MGMA01H3, MGT252H5, RSM250H1

Breadth Requirements: Social and Behavioural Sciences

MGIA12H3 - International Human Resources

This course examines how human resource practices are different across cultures and how they are affected when they "go global." It examines how existing organizational structures and human resource systems need to adapt to globalization, in order to succeed domestically and internationally.

Exclusion: (MGIB12H3), (MGHB12H3), MGT460H5, RSM406H1, MGHA12H3

Breadth Requirements: Social and Behavioural Sciences

MGIB01H3 - Global Marketing

This course examines the challenge of entering and operating in foreign markets. Topics such as international marketing objectives, foreign market selection, adaptation of products, and communication and cultural issues, are examined through case discussions and class presentations. The term project is a detailed plan for marketing a specific product to a foreign country.

Prerequisite: MGMA01H3 or MGIA01H3

Exclusion: MGMB01H3

Breadth Requirements: Social and Behavioural Sciences

MGIB02H3 - International Organizational Behaviour

Examines how and why people from different cultures differ in their workplace behaviours, attitudes, and in how they behave in teams. Uses discussion and case studies to enable students to understand how employees who relocate or travel to a different cultural context, can manage and work in that context.

Exclusion: MGHB02H3, RSM260H1

Breadth Requirements: Social and Behavioural Sciences

MGIC01H3 - International Corporate Strategy

International Corporate Strategy examines the analyses and choices that corporations make in an increasingly globalized world. Topics will include: recent trends in globalization, the notion of competitive advantage, the choice to compete through exports or foreign direct investment, and the risks facing multinational enterprises.

Prerequisite: Minimum of 10.0 credits including MGAB02H3 and MGIA01H3 and MGFB10H3 and MGIB02H3

Exclusion: MGSC01H3

Breadth Requirements: Social and Behavioural Sciences

MGIC02H3 - International Leadership Skills

Leaders who work internationally must learn how to customize their leadership competencies to the different cultures in which they practice. By using role plays, simulations, cases, and class discussions, students will develop the culturally appropriate leadership skills of articulating a vision, planning and implementing goals, negotiation, and providing effective feedback.

Prerequisite: MGIB02H3

Exclusion: MGHC02H3

Breadth Requirements: Social and Behavioural Sciences

MGID40H3 - Introduction to International Business Law

This course offers an introduction to key topics in the law governing international trade and business transactions, including the law and conventions governing foreign investment, and the legal structure of doing business internationally, the international sale and transportation of goods, international finance, intellectual property and international dispute settlement.

Prerequisite: Completion of 10.0 credits

Breadth Requirements: Social and Behavioural Sciences

MGID79H3 - International Capstone Case Analysis

This course focuses on critical thinking and problem solving skills through analyzing, researching and writing comprehensive business cases, and is offered in the final semester of the MIB specialist program. It is designed to provide students the opportunity to apply the knowledge acquired from each major area of management studies to international real-world situations.

Prerequisite: MGAB03H3 and MGIA01H3 and MGIA12H3/(MGIB12H3) and MGIB02H3 and MGFC10H3 and MGIC01H3

Exclusion: MGSD01H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

MGMA01H3 - Principles of Marketing

An introduction to basic concepts and tools of marketing designed to provide students with a conceptual framework for the analysis of marketing problems. The topics include an examination of buyer behaviour, market segmentation; the basic elements of the marketing mix. Enrolment is limited to students registered in Programs requiring this course. This course includes work-integrated-learning components, and satisfies the WIL requirement of the BBA degree.

Prerequisite: Enrolment in any Bachelor of Business Administration (BBA) program.

Exclusion: MGIA01H3, RSM250H1

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGMB01H3 - Marketing Management

This course builds on the introductory course in marketing and takes a pragmatic approach to develop the analytical skills required of marketing managers. The course is designed to help improve skills in analyzing marketing situations, identifying market opportunities, developing marketing strategies, making concise recommendations, and defending these recommendations. It will also use case study methodology to enable students to apply the concepts learned in the introductory course to actual issues facing marketing managers.

Prerequisite: [MGMA01H3 or MGIA01H3] and [MGTA38H3 or (MGTA35H3) or (MGTA36H3)]

Exclusion: MGIB01H3

Breadth Requirements: Social and Behavioural Sciences

MGMC01H3 - Market Research

A decision oriented course, which introduces students to the market research process. It covers different aspects of marketing research, both quantitative and qualitative, and as such teaches some essential fundamentals for the students to master in case they want to specialize in marketing. And includes alternative research approaches (exploratory, descriptive, causal), data collection, sampling, analysis and evaluation procedures are discussed. Theoretical and technical considerations in design and execution of market research are stressed. Instruction involves lectures and projects including computer analysis.

Prerequisite: MGMA01H3 or MGIA01H3

Exclusion: MGT453H5, RSM452H1

Breadth Requirements: Social and Behavioural Sciences

MGMC02H3 - Consumer Behaviour

This course provides an overview of the role of products in the lives of consumers. Drawing on theories from psychology, sociology and economics, the course provides (1) a conceptual understanding of consumer behaviour (e.g. why people buy), and (2) an experience in the application of these concepts to marketing decisions. This course includes work-integrated-learning components, and satisfies the WIL requirement of the BBA degree.

Prerequisite: MGMA01H3/(MGTB04H3) or MGIA01H3/(MGTB07H3)

Exclusion: (MGTD13H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

MGMC11H3 - Product Management and Branding

Managing products and brands is one of the most important functions of a successful marketer. Product lines and extensions and other issues of product portfolio will be covered in this course. This course also examines issues about brand equity, its measurement and contemporary challenges faced by marketers about branding product management.

Prerequisite: MGMA01H3 or MGIA01H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

MGMC12H3 - Advertising: From Theory to Practice

An introduction to the basic communication tools used in planning, implementing and evaluating promotional strategies. The course reviews basic findings of the behavioural sciences dealing with perception, personality, psychological appeals, and their application to advertising as persuasive communication. Students will gain experience preparing a promotional plan for a small business. The course will rely on lectures, discussions, audio-visual programs and guest speakers from the local advertising industry.

Prerequisite: MGMA01H3 or MGIA01H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

MGMC13H3 - Pricing Strategy

Pricing right is fundamental to a firm's profitability. This course draws on microeconomics to develop practical approaches for optimal pricing decision-making. Students develop a systematic framework to think about, analyze and develop strategies for pricing right. Key issues covered include pricing new product, value pricing, behavioural issues, and price segmentation.

Prerequisite: MGMA01H3 or MGIA01H3 and MGE02H3

Breadth Requirements: Social and Behavioural Sciences

MGMC14H3 - Sales and Distribution Management

Sales and distribution are critical components of a successful marketing strategy. The course discusses key issues regarding sales force management and distribution structure and intermediaries. The course focuses on how to manage sales force rather than how to sell, and with the design and management of an effective distribution network.

Prerequisite: MGMA01H3 or MGIA01H3

Breadth Requirements: Social and Behavioural Sciences

MGMC40H3 - Special Topics in Marketing

This course covers special topics in the area of Marketing. The specific topics will vary from year to year but could include topics in consumer behaviour, marketing management, marketing communication, new developments in the marketing area and trends. The specific topics to be covered will be set out in the syllabus for the course for each semester in which it is offered.

Prerequisite: MGMA01H3 or MGIA01H3 and MGMB01H3 or MGIB01H3

Breadth Requirements: Social and Behavioural Sciences

MGMD01H3 - Applied Marketing Models

Marketing is a complex discipline incorporating not only an "art" but also a "science". This course reviews the "science" side of marketing by studying multiple models used by companies. Students will learn how to assess marketing problems and use appropriate models to collect, analyze and interpret marketing data.

Prerequisite: MGMA01H3 or MGIA01H3 and MGE01H3 and MGE02H3

Exclusion: MGT455H5

Breadth Requirements: Quantitative Reasoning

MGMD02H3 - Judgement and Decision Making

This course combines the elements of behavioural research as applied to consumers' decision making models and how this can be used to predict decisions within the marketing and consumer oriented environment. It also delves into psychology, economics, statistics, and other disciplines.

Prerequisite: MGMA01H3 or MGIA01H3

Exclusion: PSYC10H3

Breadth Requirements: Social and Behavioural Sciences

MGMD10H3 - Seminar in Consumer Psychology I

This seminar style course has advanced discussions that will go in-depth into a variety of topics in consumer psychology. Students will read papers from academic journals each week, lead the discussions, and share their ideas. Students are expected to submit a research paper at the end of the term. This course is appropriate for senior marketing students who are keen on getting insights into consumer psychology and/or those who want to get exposure to academic research in consumer psychology.

Prerequisite: MGMA01H3 or MGIA01H3 and MGMB01H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGMD11H3 - Seminar in Consumer Psychology II

This seminar style course has advanced discussions that will go in-depth into a variety of topics in consumer psychology. Students will read papers from academic journals each week, lead the discussions, and share their ideas. Students are expected to submit a research paper at the end of the term. This course is appropriate for senior marketing students who are keen on getting insights into consumer psychology and/or those who want to get exposure to academic research in consumer psychology.

Prerequisite: MGMA01H3 or MGIA01H3 and MGMB01H3

Breadth Requirements: Social and Behavioural Sciences

MGMD19H3 - Advanced Special Topics in Marketing I

This course focuses on current faculty research in areas like consumer behaviour and choice, pricing, promotions,

etc. and their importance to marketing and research methodology. Topics covered will include specific theoretical or functional areas in marketing. The particular content in any given year will depend on the faculty member.

Prerequisite: MGMA01H3 or MGIA01H3 and MGMB01H3 or MGIB01H3

Exclusion: MGMD21H3

Recommended Preparation: Some interest in or additional knowledge of different aspects of Marketing

Breadth Requirements: Social and Behavioural Sciences

Note: This course can be taken as CR/NCR only for degree requirements, not program requirements.

MGMD20H3 - Advanced Special Topics in Marketing I

This course focuses on current faculty research in areas like consumer behaviour and choice, pricing, promotions etc. and their importance to marketing and research methodology. Topics covered will include specific theoretical or functional areas in marketing. The particular content in any given year will depend on the faculty member.

Prerequisite: MGMA01H3 or MGIA01H3 and MGMB01H3 or MGIB01H3

Recommended Preparation: Some interest in or additional knowledge of different aspects of Marketing

Breadth Requirements: Social and Behavioural Sciences

MGMD21H3 - Competitive Marketing in Action

This course focuses on the analysis required to support marketing decisions and aid in the formation of marketing strategy. This is a Marketing simulation course which will challenge students to make real-time decisions with realistic consequences in a competitive market scenario. As part of a team, students will make decisions on Pricing, branding, distribution strategy, commissioning and using market research, new product launches and a variety of related marketing actions while competing with other teams in a simulation that will dynamically unfold over the semester. This is an action-packed capstone course and will give students the chance to apply what they have learned and to polish their skills in a realistic environment.

Prerequisite: MGMA01H3 or MGIA01H3 and MGMB01H3 or MGIB01H3

Recommended Preparation: Some interest in or additional knowledge of different aspects of Marketing

Breadth Requirements: Social and Behavioural Sciences

MGOC10H3 - Analytics for Decision Making

The course develops understanding and practical skills of applying quantitative analysis for making better management decisions. Studied analytics methodologies include linear programming; multi-criteria optimization; network and waiting-line models; decision analysis. Methodologies are practiced in a broad range of typical business problems drawn from different areas of management, using spreadsheet modelling tools.

Prerequisite: MGEB02H3 and [MGEB12H3 or MAF2001H or CDPD00] and [MGTA38H3 or (MGTA36H3) or (MGTA35H3)]

Breadth Requirements: Quantitative Reasoning

Note: Students enrolled in the Combined Degree Program with Master of Accounting and Finance may take MGOC10H3 and MAF2001H concurrently in the same term.

MGOC15H3 - Introductory Business Data Analytics

The course lays the foundation of business data analytics and its application to Management. Using state-of-the-art computational tools, students learn the fundamentals of processing, visualizing, and identifying patterns from data to draw actionable insights and improve decision making in business processes.

Prerequisite: MGEB12H3

Corequisite: MGOC10H3

Exclusion: MGT458H5, (MGOD30H3)

Breadth Requirements: Quantitative Reasoning

MGOC20H3 - Operations Management

An introduction to a broad scope of major strategic and tactical issues in Operations Management. Topics include project management, inventory management, supply chain management, forecasting, revenue management, quality management, lean and just-in-time operations, and production scheduling.

Prerequisite: MGOC10H3

Exclusion: MGT374H5, RSM370H1

Breadth Requirements: Quantitative Reasoning

MGOC50H3 - Special Topics in Analytics and Operations

This course will focus on topics in Analytics and Operations Management that are not covered or are covered only lightly in regularly offered courses. The particular content in any given year will depend on the faculty member. Possible topics include (but are not limited to) production planning, revenue management, project management, logistics planning, operations

management in shared economy, and health care operations management.

Prerequisite: MGEB02H3 and MGEB12H3

Corequisite: MGOC10H3

Breadth Requirements: Quantitative Reasoning

MGOD31H3 - Advanced Business Data Analytics

The course covers advanced Management concepts of Big Data analytics via state-of-the-art computational tools and real-world case studies. By the end of the course, students will be able to conceptualize, design, and implement a data-driven project to improve decision-making.

Prerequisite: MGOC10H3 and MGOC15H3

Exclusion: (MGOD30H3)

Breadth Requirements: Quantitative Reasoning

Course Experience: Partnership-Based Experience

MGOD40H3 - Simulation and Analysis of Business Processes

Students will learn how to construct and implement simulation models for business processes using a discrete-event approach. They will gain skills in the statistical analysis of input data, validation and verification of the models. Using these models, they can evaluate the alternative design and make system improvements. Students will also learn how to perform a Monte Carlo simulation. Spreadsheet and simulation software are integral components to this course and will enhance proficiency in Excel.

Prerequisite: MGOC10H3

Corequisite: MGOC20H3

Exclusion: MIE360H1

Breadth Requirements: Quantitative Reasoning

MGOD50H3 - Advanced Special Topics in Analytics and Operations Management

This course will focus on topics in Analytics and Operations Management that are not covered in regularly offered courses. The particular content in any given year will depend on the faculty member.

Prerequisite: MGOC10H3

Breadth Requirements: Quantitative Reasoning

MGSB01H3 - Introduction to Strategy

This course offers an introduction to strategic management. It analyzes strategic interactions between rival firms in the product market, provides conceptual tools

for analyzing these interactions, and highlights the applications of these tools to key elements of business strategy. The course then moves beyond product market competition and considers (among other things) strategic interactions inside the organization, and in the context of corporate strategy.

Prerequisite: Minimum 4.0 credits including MGEA02H3 and MATA34H3 or [(MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3)] and [(MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3)]

Exclusion: RSM392H1 and MGT492H5

Recommended Preparation: MGAB01H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGSB22H3 - Entrepreneurship

This course focuses on the skills required and issues such as personal, financial, sales, operational, and personnel, which entrepreneurs face as they launch and then manage their early-stage ventures. Particular focus is placed on developing the analytical skills necessary to assess opportunities, and applying the appropriate strategies and resources in support of an effective business launch. This course includes work-integrated-learning components, and satisfies the WIL requirement of the BBA degree.

Prerequisite: MGAB01H3 and [MGHB02H3 or MGIB02H3]

Exclusion: MGT493H5, RSM493H1

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGSC01H3 - Strategic Management I

Begins with an examination of the concept of business mission. Students are then challenged to evaluate the external and industry environments in which businesses compete, to identify sources of competitive advantage and value creation, and to understand and evaluate the strategies of active Canadian companies.

Prerequisite: MGHB02H3 and [MGEA02H3 or MGEA06H3]

Exclusion: MGIC01H3, VPAC13H3, MGT492H5, RSM392H1

Breadth Requirements: Social and Behavioural Sciences

MGSC03H3 - Public Management

An introduction to key public sector management processes: strategic management at the political level, planning, budgeting, human resource management, and the management of information and information technology. Makes use of cases, and simulations to develop management skills in a public sector setting.

Prerequisite: MGHB02H3 or [POLB56H3 and POLB57H3/(POLB50Y3)]

Breadth Requirements: Social and Behavioural Sciences

Note: POLB56H3 and POLB57H3 are prerequisites only for students enrolled in Public Policy programs

MGSC05H3 - The Changing World of Business - Government Relations

How regulation, privatization and globalization are affecting today's managers.

Most major management issues and business opportunities involve government (domestic or foreign) at some level - whether as lawmaker, customer, partner, investor, tax-collector, grant-giver, licensor, dealmaker, friend or enemy. This course provides students with an understanding of the issues and introduces some of the skills necessary to successfully manage a business's relationship with government.

Prerequisite: 4.0 credits or [POLB56H3 and POLB57H3/(POLB50Y3)]

Breadth Requirements: Social and Behavioural Sciences

Note:

POLB56H3 and POLB57H3 are prerequisites only for students enrolled in Public Policy programs

MGSC07H3 - Introduction to Case Analysis Techniques

This course focuses on the theory and techniques of analyzing and writing business cases. The main focus is to assist students in developing their conceptual and analytical skills by applying the theory learned from each major area of management studies to practical situations. Critical thinking and problem solving skills are developed through extensive use of case analysis.

Prerequisite: MGAB03H3 and MGFB10H3 and MGHB02H3

Corequisite: MGMA01H3 and MGAB02H3

Breadth Requirements: Social and Behavioural Sciences

MGSC10H3 - Business Strategy in the Digital Age

This course teaches students the ways in which business strategy and strategic decisions are affected by the recent explosion of digital technologies. Key considerations include the market and organizational context, process design, and managerial practices that determine value from data, digital infrastructures, and AI. It provides classic frameworks augmented by frontier research to make sense of digital transformation from the perspective of a general manager. Learning on case study analysis and in-class discussion, this course will surface both practical and ethical pitfalls that can emerge in an

increasingly digital world and equip students to operate effectively in professional contexts affected by these fast-moving trends.

Prerequisite: Completion of 10.0 credits including MGEB11H3 and MGEB12H3

Recommended Preparation: Introductory Logic, Probability and Statistics Econometrics (Linear Regression)

Breadth Requirements: Social and Behavioural Sciences

MGSC12H3 - Narrative and Management

Through the analysis of fiction and non-fiction narratives, particularly film, dealing with managers in both private and public sector organizations, the course explores the ethical dilemmas, organizational politics and career choices that managers can expect to face.

Prerequisite: MGHB02H3 or (ENG94H3) or [2.0 credits at the C-level in POL courses]

Breadth Requirements: Arts, Literature and Language

MGSC14H3 - Management Ethics

Increasingly, the marketplace has come to reward, and government regulators have come to demand a sophisticated managerial approach to the ethical problems that arise in business. Topics include ethical issues in international business, finance, accounting, advertising, intellectual property, environmental policy, product and worker safety, new technologies, affirmative action, and whistle-blowing.

Prerequisite: MGTA38H3 or (MGTA35H3) or (MGTA36H3)

Exclusion: (MGIC14H3), PHLB06H3

Breadth Requirements: History, Philosophy and Cultural Studies

MGSC20H3 - Consulting and Contracting: New Ways of Work

Tomorrow's graduates will enjoy less career stability than previous generations. Technology and demography are changing the nature of work. Instead of having secure progressive careers, you will work on contract or as consultants. You will need to think, and act like entrepreneurs. This course includes work-integrated-learning components, and satisfies the WIL requirement of the BBA degree.

Prerequisite: MGAB03H3 and MGHB02H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGSC26H3 - Venture Capital

Venture capital and other sources of private equity play a critical role in the founding and development of new enterprises. In this course, we will review all aspects of starting and operating a venture capital firm. At the end of the course, students will better understand how the venture capital industry works; what types of businesses venture capitalists invest in and why; how contract structures protect investors; how venture capitalists create value for their investors and for the companies in which they invest; and how the North American venture capital model ports to other contexts.

Prerequisite: MGFB10H3 and MGEC40H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Specialist program in Strategic Management: Entrepreneurship Stream. Additional students will be admitted as space permits.

MGSC30H3 - The Legal Environment of Business I

An introduction to the Canadian legal system and its effects on business entities. The course includes an examination of the Canadian court structure and a discussion of the various forms of business ownership, tort law, contract law, and property law.

Prerequisite: Completion of at least 10.0 credits including MGAB01H3 and MGAB02H3 and [MGTA38H3 or (MGTA35H3) or (MGTA36H3)]

Exclusion: MGT393H5, RSM225H1

Breadth Requirements: Social and Behavioural Sciences

MGSC35H3 - Innovation

This course introduces students to the nature and elements of innovation and explores the application of innovation to various stages of business evolution and to different business sectors. The course has a significant practical component, as student groups will be asked to provide an innovation plan for a real company. This course includes work-integrated-learning components, and satisfies the WIL requirement of the BBA degree.

Prerequisite: Completion of 10.0 credits and [MGSB22H3 or MGSC01H3 or MGSC20H3]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

Note: Priority will be given to students enrolled in the Entrepreneurship Stream of the Specialist/Specialist Co-op programs in Strategic Management.

MGSC44H3 - International Business Management

This Course deals with: political risk & contingency planning; human threats; weather extremes; NGOs (WTO, IMF and World Bank); government influences - dumping, tariffs, subsidies; cultures around the world; foreign exchange issues; export financing for international business; international collaborative arrangements; and pro-active/re-active reasons for companies going international. There will also be guest speakers.

Prerequisite: MGHB02H3

Exclusion: MGT491H1, RSM490H1

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

MGSC91H3 - Special Topics in Strategy

This course covers special topics in the area of strategy. The specific topics will vary from year to year, but could include topics in business or corporate strategy, strategy and technology, strategy for sustainability, international business strategy, entrepreneurship, or managing emerging enterprises. The specific topics to be covered will be set out in the syllabus for the course for each semester in which it is offered.

Prerequisite: MGSB01H3

Breadth Requirements: Social and Behavioural Sciences

MGSD01H3 - Senior Seminar in Strategic Management

This course allows 4th-year Specialists students in Strategic Management to deepen and broaden their strategic skills by strengthening their foundational knowledge of the field and by highlighting applications to key strategic management issues facing modern organizations. It will improve students' ability to think strategically and understand how strategic decisions are made at the higher levels of management.

Prerequisite: Completion of at least 11.0 credits, including MGSC01H3 and one of [MGSC03H3 or MGSC05H3]

Exclusion: MGID79H3

Breadth Requirements: Social and Behavioural Sciences

MGSD05H3 - Strategic Management II

Topics include competitive advantage, organizing for competitive advantage, and failures in achieving competitive advantage. Through case analysis and class discussion, the course will explore competitive positioning, sustainability, globalization and international expansion,

vertical integration, ownership versus outsourcing, economies of scale and scope, and the reasons for failure.

Prerequisite: MGSC01H3 or MGIC01H3

Breadth Requirements: Social and Behavioural Sciences

Note: Admission is restricted to students enrolled in a BBA subject POST. Priority will be given to students enrolled in the Management Strategy stream of the Specialist/Specialist Co-op in Strategic Management.

MGSD15H3 - Managing in the Information Economy

Topics include identifying, managing and exploiting information assets, the opportunities and limits of dealing with Big Data, the impact of digitalization of information, managing under complexity, globalization, and the rise of the network economy. Students will explore a topic in greater depth through the writing of a research paper.

Prerequisite: MGSC01H3 or MGIC01H3 or enrolment in the Specialist/Specialist (Co-op) program in Management and Information Technology (BBA).

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

Note: Admission is restricted to students enrolled in a BBA subject POST.

MGSD24H3 - New Venture Creation and Planning

Aimed at students interested in launching their own entrepreneurial venture. The core of the course is the development of a complete business plan which details the student's plans for the venture's initial marketing, finance and growth. This course provides a framework for the evaluation of the commercial potential of business ideas. This course includes work-integrated-learning components, and satisfies the WIL requirement of the BBA degree.

Prerequisite: MGMA01H3 and MGAB01H3 and MGAB02H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGSD30H3 - Intellectual Property Law

This course considers patents, trademarks, copyright and confidential information. Canada's international treaty obligations as well as domestic law will be covered. Policy considerations, such as the patentability of life forms, copyright in an Internet age of easy copying and patents and international development will be included.

Prerequisite: MGSC30H3

Recommended Preparation: 9.5 credits in addition to the prerequisite.

Breadth Requirements: Social and Behavioural Sciences

MGSD32H3 - The Legal Environment of Business II

This course further examines the issues raised in Legal Environment of Business I. It focuses on relevant areas of law that impact business organizations such as consumer protection legislation and agency and employment law, and it includes a discussion of laws affecting secured transactions and commercial transactions.

Prerequisite: MGSC30H3

Exclusion: MGT394H5, RSM325H1

Breadth Requirements: Social and Behavioural Sciences

MGSD40H3 - Principles of Corporate Social Responsibility

This course will examine the role of business in society including stakeholder rights and responsibilities, current important environmental and social issues (e.g., climate change, ethical supply chains, etc.) and management practices for sustainable development. It is designed for students who are interested in learning how to integrate their business skills with a desire to better society.

Prerequisite: Completion of 10.0 credits

Breadth Requirements: History, Philosophy and Cultural Studies

MGSD55H3 - Strategy and Technology

This is an advanced course tackling critical issues in technology and information strategy. We focus on the theory and application of platform, screening, and AI strategies. The course combines lectures with case discussions to apply business frameworks in real-life complex and high-stakes settings.

Prerequisite: MGAB02H3 and [MGEB02H3 or MGEB11H3] and MGSB01H3 and [MGSC01H3 or MGIC01H3 or enrolment in the Specialist/Specialist (Co-op) program in Management and Information Technology (BBA)]

Exclusion: MGSD15H3 and [MGSD91H3 if taken in Fall 2023]

Breadth Requirements: Social and Behavioural Sciences

MGSD91H3 - Advanced Special Topics in Strategy

This course covers special topics in the area of strategy. The specific topics will vary from year to year but could include topics in corporate strategy, strategy for public organizations, strategy for sustainability, international business strategy or entrepreneurship. The specific topics to be covered will be set out in the syllabus for the course for each semester in which it is offered.

Prerequisite: Completion of 10.0 credits

Recommended Preparation: MGSC01H3 or MGIC01H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

MGTA01H3 - Introduction to Business

This course serves as an introduction to the organizations called businesses. The course looks at how businesses are planned, organized and created, and the important role that businesses play within the Canadian economic system.

Exclusion: MGTA05H3, MGM101H1, RSM100Y1

Breadth Requirements: Social and Behavioural Sciences

MGTA02H3 - Managing the Business Organization

This course serves as an introduction to the functional areas of business, including accounting, finance, production and marketing. It builds on the material covered in MGTA01H3.

Prerequisite: MGTA01H3

Exclusion: MGTA05H3, MGM101H5, MGM102H5, RSM100Y1

Breadth Requirements: Social and Behavioural Sciences

MGTA38H3 - Management Communications

In this course, students will learn skills and techniques to communicate effectively in an organization. Creativity, innovation and personal style will be emphasized. Students will build confidence in their ability to communicate effectively in every setting while incorporating equity, diversity, and inclusion considerations. This course is a mandatory requirement for all management students. It includes work-integrated-learning components, and satisfies the WIL requirement of the BBA degree.

Exclusion: (MGTA35H3) and (MGTA36H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

MGTB60H3 - Introduction to the Business of Sport

This course provides an introductory overview to the business of sport as it has become one of the largest industries in the world. Drawing from relevant theories applied to sports management, the course will incorporate practical case studies, along with critical thinking assignments and guest speakers from the industry.

Exclusion: (HLTB05H3)

Breadth Requirements: Social and Behavioural Sciences

MGTC28H3 - Computer Programming Applications for Business

This is an introductory coding course for Management students who have little programming experience. Beginning with the introduction to the fundamentals of computer scripting languages, students will then learn about the popular tools and libraries often used in various business areas. The case studies used in the course prepare students for some Management specializations that require a certain level of computer programming skills.

Prerequisite: MGEB12H3

Exclusion: CSCA20H3, CSC120H1, MGT201H1

Breadth Requirements: Quantitative Reasoning

Note: Students are expected to know introductory algebra, calculus, and statistics to apply coding solutions to these business cases successfully.

MGTD80H3 - Supervised Reading In Management

These courses are intended for upper level students whose interests are not covered in one of the other Management courses normally offered. The courses will

only be offered when a faculty member is available for supervision and to students whose Management performance has been well above average. Students interested in these courses should consult with the Management Academic Director well in advance.

Note: Students must obtain consent from the Management, Academic Director, the supervising instructor and the Department of Management before registering for this course.

MGTD81H3 - Supervised Reading In Management

These courses are intended for upper level students whose interests are not covered in one of the other Management courses normally offered. The courses will only be offered when a faculty member is available for supervision and to students whose Management performance has been well above average. Students interested in these courses should consult with the Management Academic Director well in advance.

Note: Students must obtain consent from the Management, Academic Director, the supervising instructor and the Department of Management before registering for this course.

MGTD82Y3 - Supervised Reading In Management

These courses are intended for upper level students whose interests are not covered in one of the other Management courses normally offered. The courses will only be offered when a faculty member is available for supervision and to students whose Management performance has been well above average. Students interested in these courses should consult with the Management Academic Director well in advance.

Note: Students must obtain consent from the Management, Academic Director, the supervising instructor and the Department of Management before registering for this course.

Management Co-op

Assistant Director: P. Brown (416-287-7421), Email: mgmtcoop.uts@utoronto.ca
 Management Co-op Academic Director: S. Ahmed, Email: mgmtss.uts@utoronto.ca
 Management and International Business Academic Director: J. Trougakos, Email: mibss@uts.utoronto.ca
 Double Degree in Quantitative Finance and Statistics Co-op Supervisor of Studies: S. Damouras, Email: sdamouras@uts.utoronto.ca

The Management Co-op Programs are enriched programs that combine academic studies with paid work experience in public and private enterprises. Depending on their needs and abilities students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, and strategic planning. For information about the benefits of Co-op, the work term preparation course and fees, please visit the [Management Co-op website](#).

Full Year/Trimester Programming

The Management Co-op programs operate on a trimester schedule, featuring three terms (Fall, Winter and Summer) in each *Calendar* year. Students work or study in all three terms for four years or until graduation requirements are met. With the exception of the Double Degree (Co-op) programs that require nine (9) four-month terms of study, each Management (Co-op) program requires eight (8) four-month terms of study and three work terms. Students normally begin with three to five study terms (Fall, Winter, and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Program Requirements

Co-op students follow the course requirements of one of the Specialist programs offered by the Department of Management. Also, all Co-op students must take [MGTA38H3](#) before their first work term. In the first two years of study, most students will follow a common core curriculum of studies (please refer to the detailed requirements in the Management Co-op programs). Students are advised to consult regularly with the Academic Director if they have questions regarding course selection and scheduling. It is, however, the student's individual responsibility to ensure they have completed the correct courses to make them eligible for each work term and they have correctly completed program and degree requirements for graduation.

Work Terms

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:
 - a. [Management Co-op](#)
 7.0 credits, including: [MGEA02H3](#), [MGEA06H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGMA01H3](#), [MGHA12H3](#), [MGTA38H3](#), and [MATA34H3](#). However, [[MATA29H3](#)/[MATA30H3](#)/[MATA31H3](#)]/([MATA32H3](#)) and ([MATA33H3](#))/[MATA35H3](#)/[MATA36H3](#)/[MATA37H3](#)] may also be used to satisfy the calculus requirement.

[MIB](#)
 7.0 credits, including: [MGEA02H3](#), [MGEA06H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGIA01H3](#), [MGIA12H3](#), [MGTA38H3](#), and [MATA34H3](#). However, [[MATA29H3](#)/[MATA30H3](#)/[MATA31H3](#)]/([MATA32H3](#)) and ([MATA33H3](#))/[MATA35H3](#)/[MATA36H3](#)/[MATA37H3](#)] may also be used to satisfy the calculus requirement.

[Double Degree](#)
 7.0 credits, including: [MGEA02H3](#), [MGEA06H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGHA12H3](#), [MGMA01H3](#), [MGTA36H3](#), [MGTA38H3](#), and [MATA22H3](#), [MATA31H3](#), and [MATA37H3](#).
 - b. Regular Co-op students will take Advancing Your Career Exploration (AYCE) Part I & II [COPB11H3](#) and [COPB12H3](#).
 MIB students will take Advancing Your Career Exploration (AYCE) MIB Part I & II [COPB13H3](#) and [COPB14H3](#). However, [COPB10Y3](#)/([COPD07Y3](#)) is available to all Co-op students during the summer.

2. For the second work term: 9.0 credits.
3. For the third work term: 11.0 credits.

Status in Co-op Programs

Status in a Management Co-op program will be determined at the end of each session (Fall, Winter, and Summer) for students who have attempted at least 4.0 credits since beginning their studies at UTSC, or in other Arts and Sciences Divisions at the University. Students with a cumulative grade point average (CGPA) of 2.5 or higher are considered to be in good standing.

- Students whose CGPA falls below 2.5 and above 2.29 will be placed on probation.
- Students may clear probation by achieving a CGPA of 2.5 or better in the next study session. Where the CGPA is below 2.5, but the sessional grade point average (SGPA) is at least 2.5, students may be granted a second probationary semester.
- Students must clear their probation within a maximum of two study sessions to remain in a Co-op program.
- Students on probation in the Co-op program may not apply for a work term until they have successfully cleared their probation. However, if a student's CGPA falls below 2.5 after having secured a job placement through the recruitment process, the student will be permitted to complete the work term but must clear probation before being permitted to participate in the next recruitment process.
- Students whose CGPA falls below 2.3 will be removed from the Co-op program; students whose CGPA falls below 2.0 will be removed from all B.B.A. programs. A student may request reinstatement to a Specialist Non-Co-op program only, if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Status in Double Degree Co-op Programs

Status in the Double Degree: B.B.A, Specialist (Co-op) Program in Management and Finance/Hon.B.Sc., Specialist (Co-op) Program in Statistics, Quantitative Finance Stream will be determined at the end of each session (Fall, Winter, and Summer) for students who have attempted at least 4.0 credits since beginning their studies at UTSC, or in other Arts and Sciences Divisions at the University. Students with a cumulative grade point average (CGPA) of 2.5 or higher are considered to be in good standing.

- To remain in the Double Degree (Co-op) program students must maintain a CGPA of 2.5 or higher after having attempted at least 4.0 credits.
- Students whose CGPA falls below 2.5 and above 2.29 will be placed on probation.
- Students may clear probation by completing at least 2.0 credits (none of which can be designated as CR/NCR) and achieving a CGPA of 2.5 or better in the next study session.
- Students who cannot clear probation in two consecutive sessions, or whose CGPA falls below 2.3, will be removed from the Double Degree (Co-op) program; these students can pursue a Double Degree Non-Co-op program, or one of the constituent Specialist Non-Co-op programs (i.e., the B.B.A. Specialist Program in Management and Finance, or the B.Sc. Specialist Program in Statistics, Quantitative Finance stream).

Double Degree Programs

DOUBLE DEGREE: BBA, SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND FINANCE / HONOURS BSc, SPECIALIST (CO-OPERATIVE) PROGRAM IN STATISTICS, QUANTITATIVE FINANCE STREAM

Assistant Director: P. Brown Email: mgmtcoop.utsc@utoronto.ca

Academic Directors:

S. Ahmed Email: mgmtss.utsc@utoronto.ca (BBA)

S. Damouras Email: sotirios.damouras@utoronto.ca (BSc)

The Double Degree program combines the Specialist (Co-operative) Program in Management and Finance and the Specialist (Co-operative) Program in Statistics, Quantitative Finance stream. Students completing the Double Degree program will qualify to graduate with two degree designations – the Bachelor of Business Administration (BBA) and the Honours Bachelor of Science (BSc), assuming all other degree criteria are met.

The Double Degree program is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as finance, insurance, data analytics, accounting, consulting, business intelligence, marketing, policy, strategic planning and entrepreneurship. The Double Degree program will equip students with a comprehensive understanding of financial markets, and develop the business and quantitative skills required to function in them.

The Double Degree program operates on a trimester schedule, featuring three terms (Fall, Winter and Summer) in each Calendar year. Students work or study in all three terms for five years, or until graduation requirements are met. It requires 11 four-month terms of study and 3 four-month work terms.

Enrolment Requirements

Enrolment in the Double Degree program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English, Grade 12 Advanced Functions, and Grade 12 Calculus & Vectors. Applicants must also submit a Supplementary Application Form.

Course Guidelines for Students Admitted to Double Degree Program Directly from High School:

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA22H3, MATA31H3, MATA37H3, MATA67H3/CSCA67H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students already pursuing a BBA program and degree may apply to enter this Double Degree program. The application can be made before the end of the Winter semester and/or before the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request. Students considering switching to the Double Degree program should consult with the Academic Directors as soon as possible.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed at least 5.0 credits (none of which can be designated as CR/NCR), including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGTA38H3, MATA22H3, MATA31H3, MATA37H3, and MATA67H3/CSCA67H3.

Students who have taken MATA34H3 or [(MATA30H3 or (MATA32H3)] and [(MATA33H3) or MATA36H3] instead of [MATA31H3 and MATA37H3] can still apply to the Double Degree program if they are taking or plan to take MATA37H3 at the time of application and could receive admission conditional on their grade in MATA37H3 being above a threshold to be specified each year.

Notes:

1. Students MUST complete the pre-requisite of MATA67H3/CSCA67H3 in order to take MATA37H3.
2. MATA34H3 is not a substitute for MATA31H3. Students who have completed MATA34H3 will be required to take MATA31H3 as an Extra (EXT) course before taking MATA37H3.

Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be able to apply to the Double Degree Program. For those who apply with more than 5.0 credits, their CGPA at the time of application will be calculated with more weight assigned to the required courses listed under the 5.0 credits.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar [website](#). For information on what to include in your resume and covering letter, visit the Management Co-op [website](#). An interview may also be required.

CGPA Requirement to Remain in the Double Degree Co-op Program

Students must maintain a CGPA of 2.5 or higher. Students whose CGPA falls below 2.5 will be placed on probation. Students on probation will be reinstated to the Double Degree program if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.5. Students who cannot get out of probation in two consecutive sessions, or whose CGPA falls below 2.3, will be removed from the Double Degree Co-op Program. Students removed from the Double Degree (Specialist Co-op Programs) can pursue the Double Degree (Specialist Programs), or one of its non Co-op constituent programs (i.e., the BBA Specialist Program in Management and Finance, or the BSc Specialist Program in Statistics, Quantitative Finance stream).

Program Requirements

The Double Degree program requires the completion of 25.0 credits. 21.5 credits are core program requirements as listed below, and 3.5 further credits are required to complete degree requirements.

NOTES:

1. Students who have taken STAB52H3 and STAB57H3 and then transfer to any other BBA program must also take MGE12H3 to fulfill the program requirements.
2. A single course may only be used once to fulfill one of the following program requirements.

1. Communications requirement (0.5 credit)

MGTA38H3 Management Communications

2. Management requirements (5.0 credits)

MGAB01H3 Introductory Financial Accounting I
MGAB02H3 Introductory Financial Accounting II
MGAB03H3 Introductory Management Accounting
MGHB02H3 Managing People and Groups in Organizations
MGHA12H3 Human Resource Management
MGHC02H3 Management Skills
MGMA01H3 Principles of Marketing
MGMB01H3 Marketing Management
MGOC10H3 Analysis for Decision-Making
MGOC20H3 Operations Management: A Mathematical Approach

3. Science requirements (9.0 credits)

CSCA08H3 Introduction to Computer Science I
(MATA67H3)/CSCA67H3 Discrete Mathematics
CSCC37H3 Introduction to Numerical Algorithms for Computational Mathematics
MATA22H3 Linear Algebra I for Mathematical Sciences
MATA31H3 Calculus I for Mathematical Sciences
MATA37H3 Calculus II for Mathematical Science
MATB24H3 Linear Algebra II
MATB41H3 Techniques of the Calculus of Several Variables I
MATB42H3 Techniques of the Calculus of Several Variables II
MATB44H3 Differential Equations I
MATB61H3 Linear Programming and Optimization
MATC46H3 Differential Equations II
STAB52H3 An Introduction to Probability
STAB57H3 An Introduction to Statistics
STAC62H3 Probability and Stochastic Processes I
STAC67H3 Regression Analysis
STAD37H3 Multivariate Analysis
STAD57H3 Time Series Analysis

4. Economics requirements (2.0 credits)

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach
MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach
MGE02H3 Price Theory: A Mathematical Approach
MGE06H3 Macroeconomic Theory and Policy: A Mathematical Approach

5. Finance requirements (3.0 credits)

MGFB10H3 Principles of Finance
MGFC10H3 Intermediate Finance

[[MGFC30H3](#) Introduction to Derivatives Markets or [STAB41H3](#) Financial Derivatives]
[MGFC35H3](#)/([MGFD10H3](#)) Investments
[STAC70H3](#) Statistics and Finance I
[STAD70H3](#) Statistics and Finance II

6. At least four courses (2.0 credits):

Any C- or D-level Finance courses (MGF) and/or [MGEC71H3](#) Money and Banking.

NOTE: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the [Degree Requirements](#) section of this *Calendar*.

Co-op Work Term Requirements

All Double Degree program Co-op students must take [MGTA38H3](#) prior to commencement of their first work term. Students are advised to consult regularly with the Assistant Director or the Academic Directors, if they have questions regarding course selection and scheduling. It is however the students' individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June, and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:
 - a. 7.0 credits, including: [MGEA02H3](#), [MGEA06H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGHA12H3](#), [MGMA01H3](#), [MGTA38H3](#), [MATA22H3](#), [MATA31H3](#) and [MATA37H3](#).
 - b. The Management Co-op Advancing Your Career Exploration Courses (AYCE): [COPB11H3](#) and [COPB12H3](#) or [COPB10Y3](#)
2. For the second work term: 9.0 credits.
3. For the third work term: 11.0 credits.

For information on fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section of this *Calendar*.

Management Co-op Programs

SPECIALIST (CO-OPERATIVE) PROGRAM IN ECONOMICS FOR MANAGEMENT STUDIES (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE01332

Academic Director: A. Mazaheri E-mail: ecoss.utsc@utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Economics for Management Studies is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

This program will provide a specialization for those wishing for a substantial component of Economics in a Management degree leading to a B.B.A. It is designed to allow students to learn practical skills of data analysis and to combine them with the interpretive skills given by the knowledge of economic theory.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.
Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High school students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, and MGTA38H3.
2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar website. For information on what to include in your resume and covering letter, visit the Management Co-op Office website. An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Economics for Management Studies.

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the students' individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement.

b) The Management Co-op Advancing Your Career Exploration (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the Co-operative Programs section or the Management Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE24315

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Management is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

This Program is designed to give students a broad exposure to all functional areas of Management as well as a solid grounding in Economics.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, and MGTA38H3.

2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST

request period outlined on the [Office of the Registrar](#) website. For information on what to include in your resume and covering letter, visit the [Management Co-op Office](#) website. An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Management.

Co-op Work Term Requirements

All Co-op students must take [MGTA38H3](#) prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the students' individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

a) 7.0 credits, including: [MGEA02H3](#), [MGEA06H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGHA12H3](#), [MGMA01H3](#), [MATA34H3](#), and [MGTA38H3](#). However, [\[MATA29H3 or MATA30H3 or MATA31H3 or \(MATA32H3\)\]](#) and [\[\(MATA33H3\) or MATA35H3 or MATA36H3 or MATA37H3\]](#) may also be used to satisfy the calculus requirement.

b) The Management Co-op Advancing Your Career Exploration (AYCE): [\[COPB11H3 and COPB12H3\]](#) or [COPB10Y3](#).

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the [Co-operative Programs](#) section or the [Management Co-op](#) section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND ACCOUNTING (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432B

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Management and Accounting is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship. This Program is designed for students interested in acquiring a concentrated core of accounting and related knowledge that is required to become a professional accountant. It provides a solid foundation to prepare students to become Chartered Professional Accountants after graduation. In addition, the Program provides students with the personal and professional attributes necessary to build a successful career in senior management.

This Program encompasses topics such as introductory to advanced financial and managerial accounting, assurance, taxation, economics, and finance. There is also a range of more advanced electives that cover topics and competencies that incorporate critical thinking and ethical decision making.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, MATA34H3. However, [MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar website. For information on what to include in your resume and covering letter, visit the Management Co-op Office website. An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Management and Accounting.

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the students' individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement.

b) The Management Co-op Advancing Your Career Exploration (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the Co-operative Programs section or the Management Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND FINANCE (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432G

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Management and Finance is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

This Program builds on the core of the Specialist and Specialist Co-op Programs in Management, and offers a deeper and wider coverage of Finance topics. The Program will equip students with a comprehensive understanding of financial issues and concepts, and with a firm mastery of methodologies and problem-solving skills required in modern-day finance.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar website. For information on what to include in your resume and covering letter, visit the Management Co-op Office website. An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Management and Finance.

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the student's individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed the program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

- a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement.
- b) The Management Co-op Advancing Your Career Exploration (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the Co-operative Programs section or the Management Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND HUMAN RESOURCES (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432J

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Management and Human Resources is a Work Integrated Learning (WIL)

program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

This Program is designed to give students a broad exposure to all functional areas of Management as well as specialization in the area of Human Resource Management (HRM). HRM is an area that encompasses topics such as recruitment and selection, performance management, compensation, and industrial relations. By taking a B.B.A. with a specialist in HRM, you will be qualified to work in any area of Human Resource Management, to take a graduate degree in HRM (potentially with advanced standing), and you will be well prepared for the CHRP certification exam required by many organizations for upper-level HR positions. In order to qualify for CHRP certification, you must maintain an average of at least 70% across the 9 courses required by CHRP and at least 65% in each of those 9 courses.

By completing this Program, you will cover the nine required CHRP courses.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar website. For information on what to include in your resume and covering letter, visit the Management Co-op Office website. An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Management and Human Resources.

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the student's individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed the program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, and MATA34H3. However, [(MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3] may also be used to satisfy the calculus requirement.

b) The Management Co-op Advancing Your Career Exploration (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the Co-operative Programs section or the Management Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND INFORMATION TECHNOLOGY (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2431R

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Management and Information Technology is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

This Program is designed to give students a broad exposure to all functional areas of Management as well as a solid grounding in Computer Science.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, CSCA08H3, CSCA48H3, MATA34H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar website. For information on what to include in your resume and covering letter, visit the Management Co-op Office website. An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Management and Information Technology.

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the students' individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete the Advancing Your Career Exploration (AYCE) course beginning in the third week of June and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

- a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement.
- b) The Management Co-op Advancing Your Career Exploration course (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the [Co-operative Programs](#) section or the [Management Co-op](#) section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND INTERNATIONAL BUSINESS (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2431J

Academic Director: J. Trougakos Email: mibss@utsc.utoronto.ca

Assistant Director: P. Brown Email: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Management and International Business (MIB) is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

This Specialist (Co-operative) Program in Management and International Business is designed to give students a broad exposure to all functional areas of Management while providing a unique understanding of the business world in a global context. Academically, the program requires a language development component and a number of specially designed courses emphasizing international business. Through the high-level curricular programming as well as the practical experiences abroad, students will experience an emphasis on cross-cultural communications and leadership, while simultaneously maintaining a quantitative and analytical focus. Students will also have the opportunity to maintain a more general academic approach or use their electives to focus on a specific discipline within the Management Program.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. At least one of the work terms and one of the study terms must be outside of Canada. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

For more information on the Certificates available for students in the Specialist (Co-operative) Program in Management and International Business, students should refer to the [Certificates](#) section of the Calendar.

Enrolment Requirements

Enrolment in this Program is limited.

Most students will be accepted into the program directly from secondary school. Transfer students and current UTSC students may also apply for admission, but generally, only those students who are in the early stages of their academic careers will be considered. Admission is based on the applicant's academic performance as well as a supplementary application, and an interview process. Interviews are held in February, March and April for students who pass the initial screening. Successful students will demonstrate strength in academics, extra-curricular and volunteer activities, as well as an interest in, and focus on, developing global competencies. For further information please see the [Co-operative Programs](#) section in this Calendar and the MIB section of the [Department of Management](#) website.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: [MGEA02H3](#), [MGEA06H3](#), [MATA34H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGIA01H3](#), [MGIA12H3](#), [MGIB02H3](#), and [MGTA38H3](#).

Course Guidelines for Students Admitted to B.B.A. Co-op Programs from other UTSC Programs

Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): [MGEA02H3](#), [MGEA06H3](#), and [MATA34H3](#).

However, [MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the [Office of the Registrar](#) website. For information on what to include in your resume and covering letter, visit the [Management Co-op Office](#) website. An interview may also be required.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Program Requirements

The Program requires the completion of 13.5 credits as part of a twenty-credit B.B.A. degree.

Note: A single course may only be used once to fulfill one of the following requirements:

1. 8.0 credits in Management as follows:

MGIA01H3 Principles of International Marketing
MGTA38H3 Management Communications
MGAB01H3 Introductory Financial Accounting I
MGIA12H3 International Human Resources
MGIB01H3 Global Marketing
MGAB02H3 Introductory Financial Accounting II
MGIB02H3 International Organizational Behaviour
MGAB03H3 Introductory Management Accounting
MGFB10H3 Principles of Finance
MGIC01H3 International Corporate Strategy
MGIC02H3 International Leadership Skills
MGOC10H3 Analytics for Decision Making
MGFC10H3 Intermediate Finance
MGOC20H3 Operations Management
MGID40H3 Introduction to International Business Law
MGID79H3 International Capstone Case Analysis

2. 0.5 credit in Calculus from:

MATA34H3

or

[(MATA29H3/MATA30H3/MATA31H3/(MATA32H3)] and [(MATA33H3)/MATA35H3/MATA36H3/MATA37H3]

3. 3.0 credits in Economics for Management Studies as follows:

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach
MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach
MGEB02H3 Price Theory: A Mathematical Approach
MGEB06H3 Macroeconomic Theory and Policy: A Mathematical Approach
MGEB11H3 Quantitative Methods in Economics I
MGEB12H3 Quantitative Methods in Economics II

4. 2.0 credits in Foreign Languages:

If those courses are taken at UTSC, they would be in either Language (LGG) or French (FRE) courses. For courses taken at UTSC, student language skills will be assessed by the Department of Language Studies before being formally placed in the course. The intent of the requirement is to have gained some proficiency in a foreign language, students should ideally take 2.0 credits in one language or at least 1.5 credits in the same language. Students may, with the permission of the MIB Academic Director, take 1.0 credit in one language and 1.0 credit in another.

If courses are taken elsewhere, they should be courses in language proficiency, or if the student already has some proficiency in the language in question, the course should be in the literature of that language and delivered in that language.

Complementary Elective Courses (optional)

The following are some courses from other departments that can be used to complement the Specialist Program in Management and International Business. Students may want to consider these courses as potential electives. Please note that some of these courses require prerequisites which are not included in this program:

- [GASB30H3](#)
- [ANTA02H3](#)
- [ANTB20H3](#)
- [GGRA02H3](#)
- [IDSB01H3](#)
- [IDSC12H3](#)
- [POLB80H3](#)
- [POLB81H3](#)

Co-op Work Term Requirements

All Co-op students must take [MGTA38H3](#) prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the student's individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed the program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June, and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

a) 7.0 credits, including: [MGEA02H3](#), [MGEA06H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGIA12H3](#), [MGIB02H3](#), [MGMA01H3](#), [MGTA38H3](#), and [MATA34H3](#). However [[MATA29H3](#) or [MATA30H3](#) or [MATA31H3](#)] and [[MATA35H3](#) or [MATA36H3](#) or [MATA37H3](#)] may also be used to satisfy the calculus requirement.

b) The Management Co-op Advancing Your Career Exploration (AYCE): [[COPB13H3](#) and [COPB14H3](#)] or [COPB10Y3](#).

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

International Work and Study Term Requirements

Students are required to complete at least one work term outside of Canada. The location of the international placements will vary according to student interest, availability of positions, practicability and safety of an area, as well as established international relationships.

Students are also required to complete one study term outside of Canada, typically in their third year with an approved partner University, and may be required to complete some of the program requirements during this time. Although scholarships may be available, students are expected to budget for the additional costs of studying abroad.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the [Co-operative Programs](#) section or the [Management Co-op](#) section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND MARKETING (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432N

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Management and Marketing is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

This Program gives students the perspective of the overall organization and beyond. In addition to the company focus, Marketing also ensures that students take an external orientation by having an in-depth understanding of the competition and the consumer. While developing a good understanding of all the issues involved in developing a marketing strategy, the student will learn to implement the tools of marketing tactics.

The Program operates on a trimester schedule, featuring three semesters (Fall, Winter and Summer) in each Calendar year. Students work or study in all three semesters for four years, or until graduation requirements are met. The Program requires eight four-month semesters of study and three four-month work terms. Students normally begin with three to five study terms (Fall, Winter and Summer), then alternate study and work terms. Students always conclude their degree with a study term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: [MGEA02H3](#), [MGEA06H3](#), [MATA34H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGHA12H3](#), [MGMA01H3](#) and [MGTA38H3](#).

2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): [MGEA02H3](#), [MGEA06H3](#), and [MATA34H3](#). However [\[MATA29H3 or MATA30H3 or MATA31H3 or \(MATA32H3\)\]](#) and [\[\(MATA33H3\) or MATA35H3 or MATA36H3 or MATA37H3\]](#) may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). SPECIALIST (CO-OPERATIVE) PROGRAM IN STRATEGIC MANAGEMENT - Entrepreneurship Stream (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432R

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Strategic Management is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

At its most fundamental level, effective strategic management is about understanding and successfully managing strategic interactions with other firms and individuals. Strategic interactions take place whenever our fortunes depend not only on our own actions, but also on the actions of our rivals (and vice versa). In these instances, our optimal actions – and those of our partners and competitors - are inextricably connected. How should we think about these interactions and formulate an action plan?

The Specialist Program in Strategic Management - which includes a Management Strategy Stream and an Entrepreneurship Stream - will give students the skills to address this essential question. Integrating tools from economics and other management disciplines, students will gain a profound understanding of business and corporate strategy and their sub-disciplines, and/or entrepreneurship.

Overall, as a Strategic Management specialist students will develop an ability to identify, simplify, and analyze highly complex business problems, to strategize implementable solutions, and to articulate the key elements of their strategic

reasoning in a simple, compelling and engaging way to a non-expert audience. Indeed, the strategic mindset that students will gain from this specialty will help them successfully navigate the stormy waters of business, whether they plan a career as a management consultant, economic consultant, manager in private-sector, public sector and non-profit organizations, investment banker, or entrepreneur. Both streams have a non-co-op and a co-op component. Co-op students should see the section regarding work term requirements for specific details on courses required before each work term.

Enrolment Requirements

Enrolment in this Program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English and Grade 12 Calculus.

Course Guidelines for Students Admitted to B.B.A. Co-op Programs Directly from High School

Students must complete the following courses in their first year of study: MGEA02H3, MGEA06H3, MATA34H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3 and MGTA38H3.

2. Students requesting admission after the first year must request ONLY ONE Management Co-op Subject POST on ACORN. Students may apply at the end of the Winter semester and/or at the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Normally, the minimum CGPA requirement for Co-op Programs will be higher than for non Co-op Programs. Decisions are made when all grades have been received.

Students must have completed the following courses (or their equivalent): MGEA02H3, MGEA06H3, and MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement. None of the courses listed above (or their equivalent) can be designated as CR/NCR. Of the total credits that students have completed when they apply, at least 4.0 credits must be in University of Toronto courses that have been graded (i.e., not designated as CR/NCR). Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be considered for admission to the Program.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar's [website](#). For information on what to include in your resume and covering letter, visit the Management Co-op [website](#). An interview may also be required.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Strategic Management.

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the student's individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June, and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

- a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, and MATA34H3. However, [[MATA29H3 or MAT30H3 or MATA31H3 or (MATA32H3)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement.
- b) The Management Co-op Advancing Your Career Exploration (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the Co-operative Programs section or the Management Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN STRATEGIC MANAGEMENT - Management Strategy Stream (BACHELOR OF BUSINESS ADMINISTRATION) - SCSPE2432P

Academic Director: S. Ahmed E-mail: mgmtss@utsc.utoronto.ca

Assistant Director: P. Brown E-mail: mgmtcoop@utsc.utoronto.ca

The Specialist (Co-operative) Program in Strategic Management is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as accounting, public administration, auditing, communications, economic development, finance, human resources/personnel, information systems, marketing, policy, strategic planning and entrepreneurship.

At its most fundamental level, effective strategic management is about understanding and successfully managing strategic interactions with other firms and individuals. Strategic interactions take place whenever our fortunes depend not only on our own actions, but also on the actions of our rivals (and vice versa). In these instances, our optimal actions – and those of our partners and competitors – are inextricably connected. How should we think about these interactions and formulate an action plan?

The Specialist Program in Strategic Management - which includes a Management Strategy Stream and an Entrepreneurship Stream - will give students the skills to address this essential question. Integrating tools from economics and other management disciplines, students will gain a profound understanding of business and corporate strategy and their sub-disciplines, and/or entrepreneurship.

CGPA Requirement to Remain in the Program

Students whose CGPA falls below 2.5 will be placed on probation; Students whose CGPA falls below 2.3 will be removed from Co-op, and students whose CGPA falls below 2.0 will be removed from all BBA programs. A student may request reinstatement to the non Co-op Specialist Program only if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Most internal admissions to Management Co-op will be done at the end of the Winter semester. Based on availability, a small number of students who apply at the end of the Summer semester may be admitted.

Program Requirements

Students must complete the program requirements as described in the Specialist Program in Strategic Management.

Co-op Work Term Requirements

All Co-op students must take MGTA38H3 prior to the commencement of their first work term. Students are advised to consult regularly with the Academic Director, or the Program Advisor if they have questions regarding course selection and scheduling. It is, however, the student's individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer to any Management Co-op program will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June, and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:

a) 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, MATA34H3. However, [[MATA29H3 or MATA30H3 or MATA31H3 or (MATA32H2)] and [(MATA33H3) or MATA35H3 or MATA36H3 or MATA37H3]] may also be used to satisfy the calculus requirement.

b) The Management Co-op Advancing Your Career Exploration (AYCE): [COPB11H3 and COPB12H3] or COPB10Y3.

2. For the second work term: 9.0 credits.

3. For the third work term: 11.0 credits.

For information on fees and status in Co-op programs, and certification of completion of Co-op programs, please see the [Co-operative Programs](#) section or the [Management Co-op](#) section in the UTSC *Calendar*.

CERTIFICATE IN ECONOMICS WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1060

The Certificate in Economics Within Management and International Business will recognize that students in the MIB program have taken extra courses in economics and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business.

Certificate Requirements

Students must complete 2.0 credits as follows:

1. *1.0 credit from the following:*

MGEC61H3 International Economics: Finance

MGEC62H3 International Economics: Trade Theory

MGEC82H3 International Aspects of Development Policy

2. 1.0 additional credit at the B-, C- or D-level, in Economics (MGE) courses offered by the Department of Management, or equivalent courses.*

*Note: MGE courses included as core requirements in the MIB program cannot be used to towards the completion of this Certificate.

CERTIFICATE IN FINANCE WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1070

The Certificate in Finance Within Management and International Business will recognize that students in the MIB program have taken extra courses in finance and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business.

Certificate Requirements

Students must complete 2.0 credits as follows:

1. MGFC50H3 International Financial Management

2. 1.5 additional credits, at the C- or D-level, in Finance (MGF) courses offered by the Department of Management.*

*Note: MGFC10H3 cannot be used to towards the completion of this Certificate.

CERTIFICATE IN HUMAN RESOURCES WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1080

The Certificate in Human Resources Within Management and International Business will recognize that students in the MIB program have taken extra courses in human resources/organizational behaviour and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business.

Certificate Requirements

Students must complete 2.0 credits at the C- or D-level in human resources/organizational behaviour (MGH) courses offered by the Department of Management.

*Note: MGHC02H3 cannot be used to towards the completion of this Certificate.

CERTIFICATE IN MARKETING WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1090

The Certificate in Marketing Within Management and International Business will recognize that students in the MIB program have taken extra courses in marketing and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business.

Certificate Requirements

Students must complete 2.0 credits at the C- or D-level in marketing (MGM) courses offered by the Department of Management.

CERTIFICATE IN STRATEGY WITHIN MANAGEMENT AND INTERNATIONAL BUSINESS - SCCER1100

The Certificate in Strategy Within Management and International Business will recognize that students in the MIB program have taken extra courses in strategy and will record that extra concentration on their transcripts.

Note: Courses for which students have selected the CR/NCR option, cannot be used towards the completion of this Certificate

Enrolment Requirements

Students must be enrolled in the Specialist (Co-operative) program in Management and International Business. Students

wanting to enrol in more than one MIB Certificate must first have the permission of the Academic Director of the Specialist (Co-operative) program in Management and International Business

Certificate Requirements

Students must complete 2.0 credits at the C- or D-level in strategy (MGS) courses offered by the Department of Management.

Management Co-op Courses

COPB10Y3 - Advancing Your Career Exploration

This preparatory course helps students navigate the challenges ahead in the world of Co-op and business. This course is highly interactive and practical, and is completed before students start seeking their Co-op work term opportunity. Management experienced Coordinators and expert guests instruct students on how to succeed in their work terms.

This course is a compulsory requirement for all Management Co-op programs. Students must pass this course before proceeding to seek for a work term opportunity, therefore, this course may be repeated.

Prerequisite: Restricted to students in the Management Co-op programs.

Exclusion: COPB11H3 and COPB12H3; COPB13H3 and COPB14H3; (COPD07Y3); (COPD08Y3)

Course Experience: Partnership-Based Experience

Note: 1. If you are enrolled in this course, you would not be required to complete: COPB11H3 and COPB12H3 or COPB13H3 and COPB14H3. 2. UTSC internal applicants are accepted into the Management Co-op in early May.

COPB11H3 - Advancing Your Career Exploration Part I

This preparatory course helps students navigate the challenges ahead in the world of Co-op and business. This course is highly interactive and practical, and is completed before students start seeking their Co-op work term opportunity. Management experienced Coordinators, and expert guests instruct students on how to succeed in their work terms.

This course is a compulsory requirement for all Management Co-op programs. Students must pass this course before proceeding to seek for a work term opportunity, therefore, this course may be repeated.

Prerequisite: Restricted to students in the Management Co-op programs.

Exclusion: COPB10Y3/(COPD07Y3); (COPD08Y3)

Course Experience: Partnership-Based Experience

Note: Students in their first year Management Co-op Programs will be core-loaded into this course.

COPB12H3 - Advancing Your Career Exploration Part II

This preparatory course helps students navigate the challenges ahead in the world of Co-op and business. This course is highly interactive and practical, and is completed before students start seeking their Co-op work term opportunity. Management experienced Coordinators and expert guests continue to instruct students on how to succeed in their work terms.

This course is a compulsory requirement for all Management Co-op programs. Students must pass this course before proceeding to seek a work term opportunity, therefore, this course may be repeated.

Prerequisite: Restricted to students in the Management Co-op programs.

Exclusion: COPB10Y3/(COPD07Y3); (COPD08Y3)

Course Experience: Partnership-Based Experience

Note: Students in their first year Management Co-op Programs will be core-loaded into this course.

COPB13H3 - Advancing Your Career Exploration Management International Business Part I

This preparatory course helps Management International Business (MIB) students navigate the challenges ahead in the world of Co-op and business. This course is highly interactive, and practical, and is completed before students start seeking for their Co-op work term opportunity. Management experienced Coordinators and expert guests instruct students on how to succeed in their work terms.

This course is a compulsory requirement for the Management MIB Co-op program. Students need to pass this course before proceeding to seek a Co-op work term opportunity, therefore, this course may be repeated.

Prerequisite: Restricted to students in the Management International Business Co-op program.

Exclusion: COPB10Y3/(COPD07Y3); (COPD08Y3)

Course Experience: Partnership-Based Experience

Note: Students in their first year Management International Business Co-op program will be core-loaded into this course.

COPB14H3 - Advancing Your Career Exploration Management International Business Part II

This preparatory course helps Management International Business (MIB) students navigate the challenges ahead in the world of Co-op and business. This course is highly interactive and practical, and is completed before students start seeking their Co-op work term opportunity. Management experienced Coordinators and expert guests continue to instruct students on how to succeed in their work terms.

This course is a compulsory requirement for the Management MIB Co-op program. Students need to pass this course before proceeding to seek a Co-op work term opportunity, therefore, this course may be repeated.

Prerequisite: Restricted to students in the Management International Business Co-op program.

Exclusion: COPB10Y3/(COPD07Y3); (COPD08Y3)

Course Experience: Partnership-Based Experience

Note: Students in their first year Management International Business Co-op program will be core-loaded into this course.

COPC07H3 - Management Co-op Work Term

In this course, Management Co-op students engage in a work term opportunity, which is a form of work-integrated learning, to improve their employability skills and workplace productivity by concentrating on key areas to foster their development.

Prerequisite: COPB10Y3/(COPD07Y3) or (COPD08Y3) or [COPB11H3 and COPB12H3] or [COPB13H3 and COPB14H3]; restricted to students in the Management Co-op and/or Management International Business Co-op programs.

Course Experience: Professional Work Term

Mathematics

Faculty List

- S. Aretakis, B.Sc. (Patras), M.Sc., Ph.D. (Cambridge), Associate Professor
- N. Bogachev, M.Sc. (Lomonosov), Ph.D. (HSE Moscow), CLTA Assistant Professor
- J. Bremer, B.Sc., B.Sc. (Maryland), Ph.D. (Yale), Professor
- N. Breuss, B.Sc., M.Sc. (Kharkov), Ph.D. (Moscow), Associate Professor, Teaching Stream
- M. Cavers, B.Sc. (McMaster), M.Math. (Waterloo), Ph.D. (Regina) Assistant Professor, Teaching Stream
- S. Chrysostomou, B.Sc., M.Sc. (Toronto), Associate Professor, Teaching Stream Emerita
- E. Elmanto, B.Sc. (Chicago), Ph.D. (Northwestern), Assistant Professor
- J. Friedlander, B.Sc. (Toronto), M.A. (Waterloo), Ph.D. (Penn. State), F.R.S.C., University Professor Emeritus
- P. Glynn-Adey, B.Sc. (Trent), M.Sc., Ph.D. (Toronto), Assistant Professor, Teaching Stream
- R. Grinnell, B.Sc. (Toronto), M.A. (York), Ph.D. (Queen's), Associate Professor, Teaching Stream
- R. Haslhofer, B.Sc., M.Sc., Ph.D. (ETH Zurich), Professor
- L.C. Jeffrey, A.B. (Princeton), M.A. (Cambridge), D. Phil. (Oxford), F.R.S.C., Professor
- X. Jiang, B.Sc., M.Sc., Ph.D. (Glasgow), Associate Professor, Teaching Stream
- T. Kielstra, B.Sc., M.Sc., Ph.D. (Guelph), Assistant Professor, Teaching Stream
- A. Kupers, B.Sc., M.Sc. (Utrecht), Ph.D. (Stanford), Assistant Professor
- E. Mendelsohn, B.Sc., M.Sc. (Manitoba), Ph.D. (McGill), Professor Emeritus
- E. Moore, Hon. B.A., B.Ed., M.A. (Memorial), Ph.D. (Toronto), Associate Professor, Teaching Stream Emeritus
- J. Scherk, B.Sc., M.Sc. (Toronto), D.Phil. (Oxford), Associate Professor Emeritus
- P. Selick, B.Sc., M.Sc., Ph.D. (Princeton), Professor Emeritus
- Z. Shahbazi, B.Sc. (Sharif), M.Sc., Ph.D. (Toronto), Professor, Teaching Stream
- R.W. Sharpe, B.Sc., M.Sc. (Toronto), Ph.D. (Yale), Professor Emeritus
- K. Smith, Hon. B.Sc., M.Sc., Ph.D. (Toronto), Assistant Professor, Teaching Stream
- G. Tiozzo, M.Sc. (Università di Pisa), M.Sc. (Scuola Normale Superiore), Ph.D. (Harvard), Associate Professor
- B. Virag, B.A. (Harvard), M.A., Ph.D.(Berkeley), Professor

Associate Chair: B. Virág (416-287-7261) Email: balint@math.toronto.edu

For more information, [visit the Department of Computer and Mathematical Sciences website.](#)

Our Mathematics began in the ancient Mesopotamian civilizations. The Babylonians already knew much of the mathematics taught traditionally in our schools. Their algebra and geometry were phrased in terms of crops and fields and money. Since the Renaissance, much of mathematics has come from problems in physics and astronomy; for example, calculus arose from problems in mechanics. In turn, mathematics has provided the theoretical framework and tools in the Physical Sciences. In the 19th century, some parts of mathematics appeared to develop away from their origins in the physical world. To the great surprise of many scientists and mathematicians, some of the "pure" mathematics has turned out to be essential in many aspects of 20th-century science. Differential geometry provides the language for general relativity and cosmology, and Hilbert space theory and group representations are the tools for quantum mechanics. Similarly, graph theory, combinatorics and number theory play a major role in computer science.

Note on Admission to MAT programs

Beginning in 2018-19 there are admissions criteria for the Specialist/Specialist (Co-op) and Major/Major (Co-op) Program in Mathematics. Details and information on how to apply for admission to these programs can be found in the program descriptions below.

Combined Degree Programs, Honours Bachelor of Science/ Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBS) /Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provide students with a direct pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and

Master's degree. These Combined Degree Programs allow students to complete 1.0 credit in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Program Combination Restrictions

The Specialist/Specialist Co-op and Major/Major Co-op programs in Mathematics cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Mathematics Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBA and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching

- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:

- students must complete all of the HBA/ HBSc program and degree requirements;
- students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
- in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
- if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
- if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
- in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
- for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
- for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:
 - students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

SPECIALIST PROGRAM IN MATHEMATICS - Comprehensive Stream (SCIENCE) - SCSPE11659

Supervisor of Studies: Prof. Michael Cavers michael.cavers@utoronto.ca

Program Objectives

This program provides the student with a sound foundation in the main areas of mathematics, and some exposure to computer programming and statistics. It comprises three streams: Comprehensive, Statistics, and Teaching, each serving a more specific goal.

The **Comprehensive Stream** provides a broad and deep knowledge of mathematics at the undergraduate level. It is the recommended program for students who plan to pursue graduate study in mathematics, but it is also suitable for other career paths.

Enrolment Requirements

Enrolment in the Specialist Program in Mathematics (all streams) is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Mathematics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: [CSCA08H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), and [MATA37H3](#).

Required Grades:

Students that meet all of the following requirements will be admitted to a Mathematics Specialist POST* of their choice:

- a. A cumulative grade point average (CGPA) of at least 2.5 over the following courses: [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#); and

b. A final grade of at least B in two of the following: [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#).

*Students must select one stream of the Mathematics Specialist.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Statistics) or any other of the UTSC Year 1 admissions categories are eligible to apply for a Mathematics Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Program Requirements

The Program requirements consist of a core 15 courses (7.5 credits), common to all streams, and additional requirements that depend on the stream, for a total of 26-27 courses (13.0-13.5 credits).

The structure of the programs allows for easy switching between streams until relatively late. Consequently, these programs should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides guidance to students in their course selection based on their broad (but possibly fluid) interests.

Core (7.5 credits)

1. Writing Requirement (0.5 credit)(*)

0.5 credits from the following: [ANTA01H3](#), [ANTA02H3](#), [CLAA06H3](#), (CTLA19H3), [CTLA01H3](#), [ENGA10H3](#), [ENGA11H3](#), [ENGB06H3](#), [ENGB07H3](#), [ENGB08H3](#), [ENGB09H3](#), [ENGB17H3](#), [ENGB19H3](#), [ENGB50H3](#), (ENGB51H3), [GGRA02H3](#), [GGRA03H3](#), [GGRB05H3](#), (GGRB06H3), (HISA01H3), (HLTA01H3), (ACMA01H3), (HUMA01H3), (HUMA11H3), (HUMA17H3), (LGGA99H3), [LINA01H3](#), [PHLA10H3](#), [WSTA01H3](#).

(*) It is recommended that this requirement be satisfied by the end of the second year.

2. A-level courses (2.5 credits)

[CSCA08H3](#) Introduction to Computer Science I
[MATA22H3](#) Linear Algebra I for Mathematical Sciences
[MATA31H3](#) Calculus I for Mathematical Sciences
[MATA37H3](#) Calculus II for Mathematical Sciences
 [([MATA67H3](#)) or [CSCA67H3](#) Discrete Mathematics]

3. B-level courses (3.5 credits)

[MATB24H3](#) Linear Algebra II
[MATB41H3](#) Techniques of the Calculus of Several Variables I
[MATB42H3](#) Techniques of the Calculus of Several Variables II
[MATB43H3](#) Introduction to Analysis
[MATB44H3](#) Differential Equations I
[STAB52H3](#) Introduction to Probability (**)
[STAB57H3](#) Introduction to Statistics (**)

(**) This course may be taken after the second year, except for the Statistics stream.

4. C-level courses (1.0 credit)

[MATC01H3](#) Groups and Symmetry
[MATC34H3](#) Complex Variables

Comprehensive Stream

This stream requires a total of 27 courses (13.5 credits) In addition to the core requirements 1-4 common to all streams, 12 other distinct courses must be chosen satisfying all of the following requirements:

5. Additional courses in analysis and algebra (1.5 credits):

1.5 credits from the following:

[MATC37H3](#) Introduction to Real Analysis
[MATC46H3](#) Differential Equations II

MATD01H3 Fields and Groups

MATD35H3 Introduction to Discrete Dynamical Systems

6. Courses in key areas of mathematics (1.0 credit):

1.0 credit from the following:

MATC15H3 Introduction to Number Theory

MATC27H3 Introduction to Topology

MATC63H3 Differential Geometry

MATD02H3 Classical Plane Geometries and their Transformations

MATD34H3 Complex Variables II

7. Mathematics of computation (1.0 credit):

1.0 credit from the following:

CSCC37H3 Introduction to Numerical Algorithms for Computational Mathematics

CSCC63H3 Computability and Computational Complexity

CSCC73H3 Algorithm Design and Analysis

MATC09H3 Introduction to Mathematical Logic

MATC32H3 Graph Theory and Algorithms for its Applications

MATC44H3 Introduction to Combinatorics

MATD16H3 Coding Theory and Cryptography

MATD44H3 Topics in Combinatorics

8. Electives (2.5 credits):

2.5 credits from CSC/MAT/STA/PHY of which at least 1.5 must be at the C- or D-level MAT courses.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MATHEMATICS - Comprehensive Stream (SCIENCE) - SCSPE1165U

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.uts@utoronto.ca

MAT Specialist Program Supervisor: M. Cavers michael.cavers@utoronto.ca

The Specialist (Co-operative) Program in Mathematics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Mathematics upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

The **Comprehensive Stream** provides a broad and deep knowledge of mathematics at the undergraduate level. It is the recommended program for students who plan to pursue graduate study in mathematics, but it is also suitable for other career paths.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) Program in Mathematics is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Mathematics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: CSCA08H3, CSCA67H3, MATA22H3, MATA31H3, and MATA37H3.

Required Grades:

Students that meet all of the following requirements will be admitted to a Mathematics Specialist POST* of their choice:

- a. A cumulative grade point average (CGPA) of at least 2.5 over the following courses: CSCA67H3, MATA22H3, and MATA37H3; and
- b. A final grade of at least B in two of the following: CSCA67H3, MATA22H3, and MATA37H3.

*Students must select one stream of the Mathematics Specialist.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Statistics) or any other of the UTSC Year 1 admissions categories are eligible to apply for a Mathematics Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Mathematics. To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*

- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB56H3/(COPB51H3)

Work Term Search Courses:

- COPB57H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN MATHEMATICS - Statistics Stream (SCIENCE) - SCSPE11655

Supervisor of Studies: Prof. Michael Cavers michael.cavers@utoronto.ca

Program Objectives

This program provides the student with a sound foundation in the main areas of mathematics, and some exposure to computer programming and statistics. It comprises three streams: Comprehensive, Statistics, and Teaching, each serving a more specific goal.

The **Statistics Stream** provides greater exposure to statistics, and the areas of mathematics most closely associated with it. This stream prepares students for careers in industry, or for graduate study in certain mathematically-oriented subjects, including statistics and financial mathematics.

Enrolment Requirements

Enrolment in the Specialist Program in Mathematics (all streams) is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Mathematics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: CSCA08H3, CSCA67H3, MATA22H3, MATA31H3 and MATA37H3.

Required Grades:

Students that meet all of the following requirements will be admitted to a Mathematics Specialist POST* of their choice:

- A cumulative grade point average (CGPA) of at least 2.5 over the following courses: CSCA67H3, MATA22H3, and MATA37H3; and
- A final grade of at least B in two of the following: CSCA67H3, MATA22H3, and MATA37H3.

*Students must select one stream of the Mathematics Specialist.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Statistics) or any other of the UTSC Year 1 admissions categories are eligible to apply for a Mathematics Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Program Requirements

The Program requirements consist of a core 15 courses (7.5 credits), common to all streams, and additional requirements that depend on the stream, for a total of 26-27 courses (13.0-13.5 credits).

The structure of the programs allows for easy switching between streams until relatively late. Consequently, these programs should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides guidance to students in their course selection based on their broad (but possibly fluid) interests.

Core (7.5 credits)

1. Writing Requirement (0.5 credit)(*)

0.5 credits from the following: ANTA01H3, ANTA02H3, CLAA06H3, (CTLA19H3), CTLA01H3, ENGA10H3, ENGA11H3, ENGB06H3, ENGB07H3, ENGB08H3, ENGB09H3, ENGB17H3, ENGB19H3, ENGB50H3, (ENGB51H3), GGRA02H3, GGRA03H3, GGRB05H3, (GGRB06H3), (HISA01H3), (HLTA01H3), (ACMA01H3), (HUMA01H3), (HUMA11H3), (HUMA17H3), (LGGA99H3), LINA01H3, PHLA10H3, WSTA01H3.

(*) It is recommended that this requirement be satisfied by the end of the second year.

2. A-level courses (2.5 credits)

CSCA08H3 Introduction to Computer Science I
MATA22H3 Linear Algebra I for Mathematical Sciences
MATA31H3 Calculus I for Mathematical Sciences
MATA37H3 Calculus II for Mathematical Sciences
 [(MATA67H3) or CSCA67H3 Discrete Mathematics]

3. B-level courses (3.5 credits)

MATB24H3 Linear Algebra II
MATB41H3 Techniques of the Calculus of Several Variables I
MATB42H3 Techniques of the Calculus of Several Variables II
MATB43H3 Introduction to Analysis
MATB44H3 Differential Equations I
STAB52H3 Introduction to Probability (**)

STAB57H3 Introduction to Statistics (**)

(**) This course may be taken after the second year, except for the Statistics stream.

4. C-level courses (1.0 credit)

MATC01H3 Groups and Symmetry

MATC34H3 Complex Variables

Statistics Stream

This stream requires a total of 26 courses (13.0 credits). In addition to the core requirements 1-4 common to all streams, 11 other distinct courses must be chosen, satisfying all of the following requirements (in choosing courses to satisfy requirements 7-9, students must select at least one D-level course).

5. Algebra and Analysis (1.5 credits):

MATB61H3 Linear Programming and Optimization

MATC46H3 Differential Equations II

MATD01H3 Fields and Groups

6. Statistics (1.5 credits):

STAC58H3 Statistical Inference

STAC62H3 Probability and Stochastic Processes I

STAC67H3 Regression Analysis

7. Discrete mathematics and geometry (0.5 credit):

0.5 credit from the following:

MATC32H3 Graph Theory and Algorithms for its Applications

MATC44H3 Introduction to Combinatorics

MATD02H3 Classical Plane Geometries and their Transformations

MATD44H3 Topics in Combinatorics

MATD50H3 Mathematical Introduction to Game Theory

8. Upper-level MAT electives (1.0 credit):

1.0 credit from any C- or D-level MAT courses (*)

(*) For students wishing to pursue graduate studies in Mathematics or Statistics it is recommended that MATC37H3 be chosen as one of these two courses.

9. Upper-level STA electives (1.0 credit):

1.0 credit from the following:

(ACTB47H3) Introductory Life Contingencies

Any C- or D-level STA course, excluding STAC32H3, STAC53H3 and STAD29H3

SPECIALIST (CO-OPERATIVE) PROGRAM IN MATHEMATICS - Statistics Stream (SCIENCE) - SCSPE1165M

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.uts@utoronto.ca

MAT Specialist Program Supervisor: M. Cavers michael.cavers@utoronto.ca

The Specialist (Co-operative) Program in Mathematics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Mathematics upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

The **Statistics Stream** provides greater exposure to statistics, and the areas of mathematics most closely associated with it. This stream prepares students for careers in industry, or for graduate study in certain mathematically-oriented subjects, including statistics and financial mathematics.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) Program in Mathematics is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Mathematics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: CSCA08H3, CSCA67H3, MATA22H3, MATA31H3, and MATA37H3.

Required Grades:

Students that meet all of the following requirements will be admitted to a Mathematics Specialist POST* of their choice:

- a. A cumulative grade point average (CGPA) of at least 2.5 over the following courses: CSCA67H3, MATA22H3, and MATA37H3; and
- b. A final grade of at least B in two of the following: CSCA67H3, MATA22H3, and MATA37H3.

*Students must select one stream of the Mathematics Specialist.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Statistics) or any other of the UTSC Year 1 admissions categories are eligible to apply for a Mathematics Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Mathematics.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB56H3/(COPB51H3)

Work Term Search Courses:

- COPB57H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN MATHEMATICS - Teaching Stream (SCIENCE) - SCSPE11653

Supervisor of Studies: Prof. Michael Cavers michael.cavers@utoronto.ca

Program Objectives

This program provides the student with a sound foundation in the main areas of mathematics, and some exposure to computer programming and statistics. It comprises three streams: Comprehensive, Statistics, and Teaching, each serving a more specific goal.

The **Teaching Stream** is intended for students with a serious interest in mathematics but whose career objectives lie in mathematics education at the elementary or secondary level.

Enrolment Requirements

Enrolment in the Specialist Program in Mathematics (all streams) is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Mathematics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: [CSCA08H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), and [MATA37H3](#).

Required Grades:

Students that meet all of the following requirements will be admitted to a Mathematics Specialist POST* of their choice:

- A cumulative grade point average (CGPA) of at least 2.5 over the following courses: [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#); and
- A final grade of at least B in two of the following: [CSCA67H3](#), [MATA22H3](#), and [MATA37H3](#).

*Students must select one stream of the Mathematics Specialist.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Statistics) or any other of the UTSC Year 1 admissions categories are eligible to apply for a Mathematics Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Program Requirements

The Program requirements consist of a core 15 courses (7.5 credits), common to all streams, and additional requirements that depend on the stream, for a total of 26-27 courses (13.0-13.5 credits).

The structure of the programs allows for easy switching between streams until relatively late. Consequently, these programs should not be viewed as rigidly separated channels feeding students to different career paths, but as a flexible structure that provides guidance to students in their course selection based on their broad (but possibly fluid) interests.

Core (7.5 credits)

1. Writing Requirement (0.5 credit)(*)

0.5 credits from the following: [ANTA01H3](#), [ANTA02H3](#), [CLAA06H3](#), (CTLA19H3), [CTLA01H3](#), [ENGA10H3](#), [ENGA11H3](#), [ENGB06H3](#), [ENGB07H3](#), [ENGB08H3](#), [ENGB09H3](#), [ENGB17H3](#), [ENGB19H3](#), [ENGB50H3](#), (ENGB51H3), [GGRA02H3](#), [GGRA03H3](#), [GGRB05H3](#), (GGRB06H3), (HISA01H3), (HLTA01H3), (ACMA01H3), (HUMA01H3), (HUMA11H3),

(HUMA17H3), (LGGA99H3), LINA01H3, PHLA10H3, WSTA01H3.

(*) It is recommended that this requirement be satisfied by the end of the second year.

2. A-level courses (2.5 credits)

CSCA08H3 Introduction to Computer Science I

MATA22H3 Linear Algebra I for Mathematical Sciences

MATA31H3 Calculus I for Mathematical Sciences

MATA37H3 Calculus II for Mathematical Sciences

[(MATA67H3) or CSCA67H3 Discrete Mathematics]

3. B-level courses (3.5 credits)

MATB24H3 Linear Algebra II

MATB41H3 Techniques of the Calculus of Several Variables I

MATB42H3 Techniques of the Calculus of Several Variables II

MATB43H3 Introduction to Analysis

MATB44H3 Differential Equations I

STAB52H3 Introduction to Probability (**)

STAB57H3 Introduction to Statistics (**)

(**) This course may be taken after the second year, except for the Statistics stream.

4. C-level courses (1.0 credit)

MATC01H3 Groups and Symmetry

MATC34H3 Complex Variables

Teaching Stream

This stream requires a total of 26 courses (13.0 credits). In addition to the core requirements 1-4 common to all streams, 11 other distinct courses must be chosen, satisfying all of the following requirements:

5. Algebra, analysis, and geometry (1.5 credits):

1.5 credits from the following:

MATC15H3 Introduction to Number Theory

MATC46H3 Differential Equations II

MATD01H3 Fields and Groups

MATD02H3 Classical Plane Geometries and their Transformations

MATD35H3 Introduction to Discrete Dynamical Systems

6. Discrete mathematics (0.5 credit):

0.5 credit from the following:

MATC32H3 Graph Theory and Algorithms for its Applications

MATC44H3 Introduction to Combinatorics

MATD44H3 Topics in Combinatorics

7. MAT electives (1.5 credits):

1.5 credits of any C- or D-level MAT courses

8. MAT/STA/CSC electives (2.0 credits):

2.0 credits of any C- or D-level MAT, STA, CSC courses, excluding STAC32H3, STAC53H3 and STAD29H3

It is recommended that students obtain a TA-ship within the Department of Computer and Mathematical Sciences.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MATHEMATICS - Teaching Stream (SCIENCE) - SCSPE1166T

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

MAT Specialist Program Supervisor: M. Cavers michael.cavers@utoronto.ca

The Specialist (Co-operative) Program in Mathematics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Mathematics upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

The **Teaching Stream** is intended for students with a serious interest in mathematics but whose career objectives lie in mathematics education at the elementary or secondary level.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) Program in Mathematics is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Mathematics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: CSCA08H3, CSCA67H3, MATA22H3, MATA31H3, and MATA37H3.

Required Grades:

Students that meet all of the following requirements will be admitted to a Mathematics Specialist POST* of their choice:

- a. A cumulative grade point average (CGPA) of at least 2.5 over the following courses: CSCA67H3, MATA22H3, and MATA37H3; and
- b. A final grade of at least B in two of the following: CSCA67H3, MATA22H3, and MATA37H3.

*Students must select one stream of the Mathematics Specialist.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Statistics) or any other of the UTSC Year 1 admissions categories are eligible to apply for a Mathematics Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Mathematics.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB56H3/(COPB51H3)

Work Term Search Courses:

- COPB57H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR PROGRAM IN MATHEMATICS (SCIENCE) - SCMAJ1165

Supervisor of Studies: N. Breuss (416-287-7226) Email: n.breuss@utoronto.ca

Program Objectives

This program provides a solid foundation in basic areas of mathematics, especially those with applications in other disciplines. This program is intended to be combined with other programs, typically a major program in another discipline.

Enrolment Requirements

Enrolment in the Major Program in Mathematics is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Mathematics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: [CSCA08H3](#), [CSCA67H3](#), [MATA22H3](#), [MATA31H3](#), and [MATA37H3](#).

Required Grades:

Students that meet all of the following requirements will be admitted to the Mathematics Major POST:

- A cumulative grade point average (CGPA) of at least 2.0 over the following courses: [CSC/MATA67H3](#), [MATA22H3](#), and [MATA37H3](#); and
- A final grade of at least B in one of the following: [CSC/MATA67H3](#), [MATA22H3](#), and [MATA37H3](#).

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Statistics) or any other of the UTSC Year 1 admissions categories are eligible to apply for a Mathematics Major POST. Admission will be based on academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Program Requirements

This stream requires a total of 8.5 credits, chosen so as to satisfy all of the following requirements:

1. Foundational courses - 5.5 credits from the following:

[\[\(MATA67H3\) or CSCA67H3 Discrete Mathematics\]](#)
[MATA22H3 Linear Algebra I for Mathematical Sciences](#)
[MATA31H3 Calculus I for Mathematical Sciences](#)
[MATA37H3 Calculus II for Mathematical Sciences](#)
[CSCA08H3 Introduction to Computer Science I](#)
[MATB24H3 Linear Algebra II](#)
[MATB41H3 Techniques of the Calculus of Several Variables I](#)
[MATB42H3 Techniques of the Calculus of Several Variables II](#)

MATB44H3 Differential Equations I
STAB52H3 Introduction to Probability
[MATC01H3 Groups and Symmetry OR MATC15H3 Introduction to Number Theory]

2. Further analysis courses - 1.0 credit from the following:

MATB43H3 Introduction to Analysis
MATC27H3 Introduction to Topology
MATC34H3 Complex Variables
MATC46H3 Differential Equations II
MATD35H3 Introduction to Discrete Dynamical Systems
MATD67H3 - Differentiable Manifolds

3. Further algebra, geometry, and discrete mathematics courses - 1.0 credit from the following:

MATC01H3 Groups and Symmetry
MATC09H3 Introduction to Mathematical Logic
MATC15H3 Introduction to Number Theory
MATC32H3 Graph Theory and Algorithms for its Applications
MATC44H3 Introduction to Combinatorics
MATC63H3 Differential Geometry
MATD01H3 Fields and Groups
MATD02H3 Classical Plane Geometries and their Transformations
MATD44H3 Topics in Combinatorics

4. Elective courses - 1.0 credit from the following:

MATB61H3 Linear Programming and Optimization
STAB57H3 Introduction to Statistics
MATD50H3 Mathematical Introduction to Game Theory

Any C- or D-level MAT, STA, or CSC course, excluding STAC32H3, STAC53H3 and STAD29H3

Recommended Writing Course

Students are urged to take a course from the following list of courses by the end of their second year.

ANTA01H3, ANTA02H3, CLAA06H3, (CTLA19H3), CTLA01H3, ENGA10H3, ENGA11H3, ENGB06H3, ENGB07H3, ENGB08H3, ENGB09H3, ENGB17H3, ENGB19H3, ENGB50H3, (ENGB51H3), GGRA02H3, GGRA03H3, GGRB05H3, (GGRB06H3), (HISA01H3), (HLTA01H3), (ACMA01H3), (HUMA01H3), (HUMA11H3), (HUMA17H3), (LGGA99H3), LINA01H3, PHLA10H3, PHLA11H3, WSTA01H3.

MAJOR (CO-OPERATIVE) PROGRAM IN MATHEMATICS (SCIENCE) - SCMAJ1165C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Mathematics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Mathematics upon graduation.

Enrolment Requirements

Enrolment in the Major (Co-operative) Program in Mathematics is limited.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through

ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Mathematics.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB56H3/(COPB51H3)

Work Term Search Courses:

- COPB57H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term

- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

Mathematics Courses

MATA02H3 - The Magic of Numbers

A selection from the following topics: the number sense (neuroscience of numbers); numerical notation in different cultures; what is a number; Zeno's paradox; divisibility, the fascination of prime numbers; prime numbers and encryption; perspective in art and geometry; Kepler and platonic solids; golden mean, Fibonacci sequence; elementary probability.

Exclusion: MATA29H3, MATA30H3, MATA31H3, (MATA32H3), MATA34H3 (or equivalent). These courses cannot be taken previously or concurrently with [MATA02H3](#).

Breadth Requirements: Quantitative Reasoning

Note: [MATA02H3](#) is primarily intended as a breadth

requirement course for students in the Humanities and Social Sciences.

MATA22H3 - Linear Algebra I for Mathematical Sciences

A conceptual and rigorous approach to introductory linear algebra that focuses on mathematical proofs, the logical development of fundamental structures, and essential computational techniques. This course covers complex numbers, vectors in Euclidean n -space, systems of linear equations, matrices and matrix algebra, Gaussian reduction, structure theorems for solutions of linear

systems, dependence and independence, rank equation, linear transformations of Euclidean n -space, determinants, Cramer's rule, eigenvalues and eigenvectors, characteristic polynomial, and diagonalization.

Prerequisite: Grade 12 Calculus and Vectors or [Grade 12 Advanced Functions and Introductory Calculus and Geometry and Discrete Mathematics]

Exclusion: [MATA23H3](#), MAT223H, MAT240H

Breadth Requirements: Quantitative Reasoning

Note: Students are cautioned that MAT223H cannot be used as a substitute for [MATA22H3](#) in any courses for which [MATA22H3](#) appears as a prerequisite.

MATA23H3 - Linear Algebra I

Systems of linear equations, matrices, Gaussian elimination; basis, dimension; dot products; geometry to $\mathbb{R}^n$; linear transformations; determinants, Cramer's rule; eigenvalues and eigenvectors, diagonalization.

Prerequisite: Grade 12 Calculus and Vectors or [Grade 12 Advanced Functions and Introductory Calculus and Geometry and Discrete Mathematics]

Exclusion: [MATA22H3](#), MAT223H

Breadth Requirements: Quantitative Reasoning

MATA29H3 - Calculus I for the Life Sciences

A course in differential calculus for the life sciences. Algebraic and transcendental functions; semi-log and log-log plots; limits of sequences and functions, continuity; extreme value and intermediate value theorems; approximation of discontinuous functions by continuous ones; derivatives; differentials; approximation and local

linearity; applications of derivatives; antiderivatives and indefinite integrals.

Prerequisite: Grade 12 Calculus and Vectors

Exclusion: (MATA20H3), (MATA27H3), MATA30H3, MATA31H3, (MATA32H3), MATA34H3, MAT123H, MAT124H, MAT125H, MAT126H, MAT133Y, MAT137H5 and MAT139H5, MAT157H5 and MAT159H5, JMB170Y

Breadth Requirements: Quantitative Reasoning

MATA30H3 - Calculus I for Physical Sciences

An introduction to the basic techniques of Calculus. Elementary functions: rational, trigonometric, root, exponential and logarithmic functions and their graphs. Basic calculus: limits, continuity, derivatives, derivatives of higher order, analysis of graphs, use of derivatives; integrals and their applications.

Prerequisite: Grade 12 Calculus and Vectors

Exclusion: (MATA20H3), (MATA27H3), MATA29H3, MATA31H3, (MATA32H3), MATA34H3, MAT123H, MAT124H, MAT125H, MAT126H, MAT133Y, MAT137H5 and MAT139H5, MAT157H5 and MAT159H5, JMB170Y

Breadth Requirements: Quantitative Reasoning

MATA31H3 - Calculus I for Mathematical Sciences

A conceptual introduction to Differential Calculus of algebraic and transcendental functions of one variable; focus on logical reasoning and fundamental notions; first introduction into a rigorous mathematical theory with applications. Course covers: real numbers, set operations, supremum, infimum, limits, continuity, Intermediate Value Theorem, derivative, differentiability, related rates, Fermat's, Extreme Value, Rolle's and Mean Value Theorems, curve sketching, optimization, and antiderivatives.

Prerequisite: Grade 12 Calculus and Vectors

Exclusion: (MATA20H3), (MATA27H3), MATA29H3, MATA30H3, (MATA32H3), MATA34H3, MAT123H, MAT124H, MAT125H, MAT126H, MAT133Y, MAT137H5 and MAT139H5, MAT157H5 and MAT159H5, JMB170Y

Breadth Requirements: Quantitative Reasoning

MATA34H3 - Calculus for Management

This is a calculus course designed primarily for students in management. The main concepts of calculus of one and several variables are studied with interpretations and applications to business and economics. Systems of linear equations and matrices are covered with applications in business.

Prerequisite: Ontario Grade 12 Calculus and Vectors or approved equivalent.

Exclusion: MATA29H3, MATA30H3, MATA31H3, MATA33H3, MATA35H3, MATA36H3, MATA37H3, MAT133Y

Breadth Requirements: Quantitative Reasoning

Note: Students who are pursuing a BBA degree or who are interested in applying to the BBA programs or the Major Program in Economics must take MATA34H3 for credit (i.e., they should not take the course as CR/NCR).

MATA35H3 - Calculus II for Biological Sciences

A calculus course emphasizing examples and applications in the biological and environmental sciences. Discrete probability; basic statistics: hypothesis testing, distribution analysis. Basic calculus: extrema, growth rates, diffusion rates; techniques of integration; differential equations; population dynamics; vectors and matrices in 2 and 3 dimensions; genetics applications.

Prerequisite: MATA29H3

Exclusion: (MATA21H3), (MATA33H3), MATA34H3, MATA36H3, MATA37H3, MAT123H, MAT124H, MAT125H, MAT126H, MAT133Y, MAT137H5 and MAT139H5, MAT157H5 and MAT159H5, JMB170Y, (MATA27H3)

Breadth Requirements: Quantitative Reasoning

Note: This course will not satisfy the Mathematics requirements for any Program in Computer and Mathematical Sciences, nor will it normally serve as a prerequisite for further courses in Mathematics. Students who are not sure which Calculus II course they should choose are encouraged to consult with the supervisor(s) of Programs in their area(s) of interest.

MATA36H3 - Calculus II for Physical Sciences

This course is intended to prepare students for the physical sciences. Topics to be covered include: techniques of integration, Newton's method, approximation of functions by Taylor polynomials, numerical methods of integration, complex numbers, sequences, series, Taylor series, differential equations.

Prerequisite: MATA30H3

Exclusion: (MATA21H3), MATA35H3, MATA37H3, MAT123H, MAT124H, MAT125H, MAT126H, MAT133Y, MAT137H5 and MAT139H5, MAT157H5 and MAT159H5, JMB170Y

Breadth Requirements: Quantitative Reasoning

Note: Students who have completed MATA34H3 must still take MATA30H3

MATA37H3 - Calculus II for Mathematical Sciences

A rigorous introduction to Integral Calculus of one variable and infinite series; strong emphasis on combining theory and applications; further developing of tools for

mathematical analysis. Riemann Sum, definite integral, Fundamental Theorem of Calculus, techniques of integration, improper integrals, numerical integration, sequences and series, absolute and conditional convergence of series, convergence tests for series, Taylor polynomials and series, power series and applications.

Prerequisite: MATA31H3 and [(MATA67H3) or CSCA67H3]

Exclusion: (MATA21H3), (MATA33H3), MATA35H3, MATA36H3, MAT123H, MAT124H, MAT125H, MAT126H, MAT133Y, MAT137H5 and MAT139H5, MAT157H5 and MAT159H5, JMB170Y

Breadth Requirements: Quantitative Reasoning

MATB24H3 - Linear Algebra II

Fields, vector spaces over a field, linear transformations; inner product spaces, coordinatization and change of basis; diagonalizability, orthogonal transformations, invariant subspaces, Cayley-Hamilton theorem; hermitian inner product, normal, self-adjoint and unitary operations. Some applications such as the method of least squares and introduction to coding theory.

Prerequisite: MATA22H3 or MAT240H

Exclusion: MAT224H

Breadth Requirements: Quantitative Reasoning

Note: Students are cautioned that MAT224H cannot be used as a substitute for MATB24H3 in any courses for which MATB24H3 appears as a prerequisite.

MATB41H3 - Techniques of the Calculus of Several Variables I

Partial derivatives, gradient, tangent plane, Jacobian matrix and chain rule, Taylor series; extremal problems, extremal problems with constraints and Lagrange multipliers, multiple integrals, spherical and cylindrical coordinates, law of transformation of variables.

Prerequisite: [MATA22H3 or MATA23H3 or MAT223H] and [(MATA36H3 or MATA37H3) or [MAT137H5 and MAT139H5] or [MAT157H5 and MAT159H5]]

Exclusion: MAT232H, MAT235Y, MAT237Y, MAT257Y

Breadth Requirements: Quantitative Reasoning

MATB42H3 - Techniques of the Calculus of Several Variables II

Fourier series. Vector fields in R^n , Divergence and curl, curves, parametric representation of curves, path and line integrals, surfaces, parametric representations of surfaces, surface integrals. Green's, Gauss', and Stokes' theorems will also be covered. An introduction to differential forms, total derivative.

Prerequisite: MATB41H3

Exclusion: MAT235Y, MAT237Y, MAT257Y, MAT368H

Breadth Requirements: Quantitative Reasoning

MATB43H3 - Introduction to Analysis

Generalities of sets and functions, countability. Topology and analysis on the real line: sequences, compactness, completeness, continuity, uniform continuity. Topics from topology and analysis in metric and Euclidean spaces. Sequences and series of functions, uniform convergence.

Prerequisite: [MATA37H3 or [MAT137H5 and MAT139H5]] and MATB24H3

Breadth Requirements: Quantitative Reasoning

MATB44H3 - Differential Equations I

Ordinary differential equations of the first and second order, existence and uniqueness; solutions by series and integrals; linear systems of first order; non-linear equations; difference equations.

Prerequisite: [MATA36H3 or MATA37H3] and [MATA22H3 or MATA23H3]

Corequisite: MATB41H3

Exclusion: MAT244H, MAT267H

Breadth Requirements: Quantitative Reasoning

MATB61H3 - Linear Programming and Optimization

Linear programming, simplex algorithm, duality theory, interior point method; quadratic and convex optimization, stochastic programming; applications to portfolio optimization and operations research.

Prerequisite: [MATA22H3 or MATA23H3] and MATB41H3

Exclusion: APM236H

Breadth Requirements: Quantitative Reasoning

MATC01H3 - Groups and Symmetry

Congruences and fields. Permutations and permutation groups. Linear groups. Abstract groups, homomorphisms, subgroups. Symmetry groups of regular polygons and Platonic solids, wallpaper groups. Group actions, class formula. Cosets, Lagrange's theorem. Normal subgroups, quotient groups. Emphasis on examples and calculations.

Prerequisite: [MATA36H3 or MATA37H3] and [MATB24H3 or MAT224H]

Exclusion: MAT301H, MAT347Y

Breadth Requirements: Quantitative Reasoning

MATC09H3 - Introduction to Mathematical Logic

Predicate calculus. Relationship between truth and provability; Gödel's completeness theorem. First order arithmetic as an example of a first-order system. Gödel's incompleteness theorem; outline of its proof. Introduction to recursive functions.

Prerequisite: [MATB24H3](#) and [[MATB43H3](#) or [CSCB36H3](#)]

Exclusion: MAT309H, CSC438H

Breadth Requirements: Quantitative Reasoning

MATC15H3 - Introduction to Number Theory

Elementary topics in number theory; arithmetic functions; polynomials over the residue classes modulo m , characters on the residue classes modulo m ; quadratic reciprocity law, representation of numbers as sums of squares.

Prerequisite: [MATB24H3](#) and [MATB41H3](#)

Exclusion: MAT315H

Breadth Requirements: Quantitative Reasoning

MATC27H3 - Introduction to Topology

Fundamentals of set theory, topological spaces and continuous functions, connectedness, compactness, countability, separability, metric spaces and normed spaces, function spaces, completeness, homotopy.

Prerequisite: [MATB41H3](#) and [MATB43H3](#)

Exclusion: MAT327H

Breadth Requirements: Quantitative Reasoning

MATC32H3 - Graph Theory and Algorithms for its Applications

Graphs, subgraphs, isomorphism, trees, connectivity, Euler and Hamiltonian properties, matchings, vertex and edge colourings, planarity, network flows and strongly regular graphs; applications to such problems as timetabling, personnel assignment, tank form scheduling, traveling salesmen, tournament scheduling, experimental design and finite geometries.

Prerequisite: [[MATB24H3](#) or [CSCB36H3](#)] and at least one other B-level course in Mathematics or Computer Science

Breadth Requirements: Quantitative Reasoning

MATC34H3 - Complex Variables

Theory of functions of one complex variable, analytic and meromorphic functions. Cauchy's theorem, residue

calculus, conformal mappings, introduction to analytic continuation and harmonic functions.

Prerequisite: [MATB42H3](#)

Exclusion: MAT334H, MAT354H

Breadth Requirements: Quantitative Reasoning

MATC37H3 - Introduction to Real Analysis

Topics in measure theory: the Lebesgue integral, Riemann-Stieltjes integral, L_p spaces, Hilbert and Banach spaces, Fourier series.

Prerequisite: [MATB43H3](#)

Exclusion: MAT337H, (MATC38H3)

Recommended Preparation: [MATC27H3](#)

Breadth Requirements: Quantitative Reasoning

MATC44H3 - Introduction to Combinatorics

Basic counting principles, generating functions, permutations with restrictions. Fundamentals of graph theory with algorithms; applications (including network flows). Combinatorial structures including block designs and finite geometries.

Prerequisite: [MATB24H3](#)

Exclusion: MAT344H

Breadth Requirements: Quantitative Reasoning

MATC46H3 - Differential Equations II

Sturm-Liouville problems, Green's functions, special functions (Bessel, Legendre), partial differential equations of second order, separation of variables, integral equations, Fourier transform, stationary phase method.

Prerequisite: [MATB44H3](#)

Corequisite: [MATB42H3](#)

Exclusion: APM346H

Breadth Requirements: Quantitative Reasoning

MATC58H3 - An Introduction to Mathematical Biology

Mathematical analysis of problems associated with biology, including models of population growth, cell biology, molecular evolution, infectious diseases, and other biological and medical disciplines. A review of mathematical topics: linear algebra (matrices, eigenvalues and eigenvectors), properties of ordinary differential equations and difference equations.

Prerequisite: [MATB44H3](#)

Breadth Requirements: Quantitative Reasoning

MATC63H3 - Differential Geometry

Curves and surfaces in Euclidean 3-space. Serret-Frenet frames and the associated equations, the first and second fundamental forms and their integrability conditions, intrinsic geometry and parallelism, the Gauss-Bonnet theorem.

Prerequisite: MATB42H3 and MATB43H3

Exclusion: MAT363H

Breadth Requirements: Quantitative Reasoning

MATC82H3 - Mathematics for Teachers

The course discusses the Mathematics curriculum (K-12) from the following aspects: the strands of the curriculum and their place in the world of Mathematics, the nature of proofs, the applications of Mathematics, and its connection to other subjects.

Prerequisite: [(MATA67H3) or CSCA67H3 or (CSCA65H3)] and [MATA22H3 or MATA23H3] and [MATA37H3 or MATA36H3]

Exclusion: MAT382H

Breadth Requirements: Quantitative Reasoning

MATC90H3 - Beginnings of Mathematics

Mathematical problems which have arisen repeatedly in different cultures, e.g. solution of quadratic equations, Pythagorean theorem; transmission of mathematics between civilizations; high points of ancient mathematics, e.g. study of incommensurability in Greece, Pell's equation in India.

Prerequisite: 10.0 credits, including 2.0 credits in MAT courses [excluding MATA02H3], of which 0.5 credit must be at the B-level

Exclusion: MAT390H

Breadth Requirements: Quantitative Reasoning

MATD01H3 - Fields and Groups

Abstract group theory: Sylow theorems, groups of small order, simple groups, classification of finite abelian groups. Fields and Galois theory: polynomials over a field, field extensions, constructibility; Galois groups of polynomials, in particular cubics; insolubility of quintics by radicals.

Prerequisite: MATC01H3

Exclusion: (MAT302H), MAT347Y, (MATC02H3), MAT401H

Recommended Preparation: MATC34H3

Breadth Requirements: Quantitative Reasoning

MATD02H3 - Classical Plane Geometries and their Transformations

An introduction to geometry with a selection of topics from the following: symmetry and symmetry groups, finite geometries and applications, non-Euclidean geometry.

Prerequisite: [MATA22H3 or MATA23H3]

Corequisite: MATC01H3

Exclusion: MAT402H, (MAT365H), (MATC25H3)

Breadth Requirements: Quantitative Reasoning

MATD09H3 - Set Theory

This course is an introduction to axiomatic set theory and its methods. Set theory is a foundation for practically every other area of mathematics and is a deep, rich subject in its own right. The course will begin with the Zermelo-Fraenkel axioms and general set constructions. Then the natural numbers and their arithmetic are developed axiomatically. The central concepts of cardinality, cardinal numbers, and the Cantor-Bernstein theorem are studied, as are ordinal numbers and transfinite induction. The Axiom of Choice and its equivalents are presented along with applications.

Prerequisite: MATB43H3 and [MATC09H3 or MATC27H3 or MATC37H3].

Exclusion: MAT409H1

Breadth Requirements: Quantitative Reasoning

MATD10H3 - Topics in Mathematics

A variety of topics from geometry, analysis, combinatorics, number theory and algebra, to be chosen by the instructor.

Prerequisite: Permission from the instructor is required. Typically, this will require that the student has completed courses such as: MATC01H3 and MATC34H3 and [(MATC35H3) or MATC37H3] and [MATC15H3 or MATD02H3] but, depending on the topics covered, the instructor may specify alternative course requirements.

MATD11H3 - Topics in Mathematics

A variety of topics from geometry, analysis, combinatorics, number theory and algebra, to be chosen by the instructor.

Prerequisite: Permission from the instructor is required. Typically this will require that the student has completed courses such as MATC01H3 and MATC34H3 and [(MATC35H3) or MATC37H3] and [MATC15H3 or MATD02H3] but, depending on the topics covered, the instructor may specify alternative course requirements.

MATD12H3 - Topics in Mathematics

A variety of topics from geometry, analysis, combinatorics, number theory and algebra, to be chosen by the instructor.

Prerequisite: Permission from the instructor is required. Typically this will require that the student has completed courses such as MATC01H3 and MATC34H3 and [(MATC35H3) or MATC37H3] and [MATC15H3 or MATD02H3] but, depending on the topics covered, the instructor may specify alternative course requirements.

MATD16H3 - Coding Theory and Cryptography

The main problems of coding theory and cryptography are defined. Classic linear and non-linear codes. Error correcting and decoding properties. Cryptanalysis of classical ciphers from substitution to DES and various public key systems [e.g. RSA] and discrete logarithm based systems. Needed mathematical results from number theory, finite fields, and complexity theory are stated.

Prerequisite: MATC15H3 and [STAB52H3 or STAB53H3]
Exclusion: (MATC16H3)
Breadth Requirements: Quantitative Reasoning

MATD26H3 - Geometric Analysis and Relativity

An intuitive and conceptual introduction to general relativity with emphasis on a rigorous treatment of relevant topics in geometric analysis. The course aims at presenting rigorous theorems giving insights into fundamental natural phenomena. Contents: Riemannian and Lorentzian geometry (parallelism, geodesics, curvature tensors, minimal surfaces), Hyperbolic differential equations (domain of dependence, global hyperbolicity). Relativity (causality, light cones, inertial observers, trapped surfaces, Penrose incompleteness theorem, black holes, gravitational waves).

Prerequisite: MATC63H3
Exclusion: APM426H1
Breadth Requirements: Quantitative Reasoning

MATD34H3 - Complex Variables II

Applications of complex analysis to geometry, physics and number theory. Fractional linear transformations and the Lorentz group. Solution to the Dirichlet problem by conformal mapping and the Poisson kernel. The Riemann mapping theorem. The prime number theorem.

Prerequisite: MATB43H3 and MATC34H3
Exclusion: (MATC65H3)
Breadth Requirements: Quantitative Reasoning

MATD35H3 - Introduction to Discrete Dynamical Systems

This course provides an introduction and exposure to dynamical systems, with particular emphasis on low-dimensional systems such as interval maps and maps of the plane. Through these simple models, students will become acquainted with the mathematical theory of chaos and will explore strange attractors, fractal geometry and the different notions of entropy. The course will focus mainly on examples rather than proofs; students will be encouraged to explore dynamical systems by programming their simulations in Mathematica.

Prerequisite: [(MATA37H3 or MATA36H3) with a grade of B+ or higher] and MATB41H3 and MATC34H3
Breadth Requirements: Quantitative Reasoning

MATD44H3 - Topics in Combinatorics

This course will focus on combinatorics. Topics will be selected by the instructor and will vary from year to year.

Prerequisite: [MATC32H3 or MATC44H3]
Breadth Requirements: Quantitative Reasoning

MATD50H3 - Mathematical Introduction to Game Theory

This course introduces students to combinatorial games, two-player (matrix) games, Nash equilibrium, cooperative games, and multi-player games. Possible additional topics include: repeated (stochastic) games, auctions, voting schemes and Arrow's paradox. Numerous examples will be analyzed in depth, to offer insight into the mathematical theory and its relation to real-life situations.

Prerequisite: MATB24H3 and [STAB52H3 or STAB53H3]
Exclusion: MAT406H
Breadth Requirements: Quantitative Reasoning

MATD67H3 - Differentiable Manifolds

Manifolds, vector fields, tangent spaces, vector bundles, differential forms, integration on manifolds.

Prerequisite: MATB43H3
Exclusion: MAT367H1
Breadth Requirements: Quantitative Reasoning

MATD92H3 - Mathematics Project

A significant project in any area of mathematics. The project may be undertaken individually or in small groups. This course is offered by arrangement with a mathematics faculty member. This course may be taken in any session and the project must be completed by the last day of classes in the session in which it is taken.

Prerequisite: [1.5 credits at the C-level in MAT courses] and [permission of the Supervisor of Studies] and [a CGPA of at least 3.0 or enrolment in a Mathematics Subject POST]

Breadth Requirements: Quantitative Reasoning

Note: Notes: 1. UTSC students interested in Mathematics reading or project courses must enroll using the following course codes: MATD92H3, MATD93H3, MATD94H3 or MATD95H3, regardless of whether these courses are instructed by faculty from UTSC, UTSG, or UTM. 2. Enrolment procedures: the project supervisor's note of agreement must be presented to the Supervisor of Studies who will issue permission for registration.

MATD93H3 - Mathematics Project

A significant project in any area of mathematics. The project may be undertaken individually or in small groups. This course is offered by arrangement with a mathematics faculty member. This course may be taken in any session and the project must be completed by the last day of classes in the session in which it is taken.

Prerequisite: [1.5 credits at the C-level in MAT courses] and [permission of the Supervisor of Studies] and [a CGPA of at least 3.0 or enrolment in a Mathematics Subject POST]

Breadth Requirements: Quantitative Reasoning

Note: Notes: 1. UTSC students interested in Mathematics reading or project courses must enroll using the following course codes: MATD92H3, MATD93H3, MATD94H3 or MATD95H3, regardless of whether these courses are instructed by faculty from UTSC, UTSG, or UTM. 2. Enrolment procedures: the project supervisor's note of agreement must be presented to the Supervisor of Studies who will issue permission for registration.

MATD94H3 - Readings in Mathematics

Independent study under direction of a faculty member.

Prerequisite: [1.5 credits at the C-level in MAT courses] and [permission of the Supervisor of Studies] and [a CGPA of at least 3.0 or enrolment in a Mathematics Subject POST]

Note: Notes: 1. UTSC students interested in Mathematics reading or project courses must enroll using the following course codes: MATD92H3, MATD93H3, MATD94H3 or MATD95H3, regardless of whether these courses are instructed by faculty from UTSC, UTSG, or UTM. 2. Enrolment procedures: the project supervisor's note of agreement must be presented to the Supervisor of Studies who will issue permission for registration.

MATD95H3 - Readings in Mathematics

Independent study under direction of a faculty member.

Prerequisite: [1.5 credits at the C-level in MAT courses] and permission of the Supervisor of Studies] and [a CGPA of at least 3.0 or enrolment in a Mathematics Subject POST]

Note: Notes: 1. UTSC students interested in Mathematics reading or project courses must enroll using the following course codes: MATD92H3, MATD93H3, MATD94H3 or MATD95H3, regardless of whether these courses are instructed by faculty from UTSC, UTSG, or UTM. 2. Enrolment procedures: the project supervisor's note of agreement must be presented to the Supervisor of Studies who will issue permission for registration.

Media Studies

Faculty List

- R. Bai, B.A., M.A. (Beijing Foreign Studies), Ph.D. (Illinois), Associate Professor
- T.L. Cowan, B.A. (Simon Fraser), M.A., Ph.D. (Alberta), Associate Professor
- J. Cudjoe, B.Sc. (Webber International), M.Sc. (Florida International), Ph.D. (Rutgers), Assistant Professor, Teaching Stream
- R. Grohmann, B.A. (Juiz de Fora, Brazil), M.A., Ph.D. (São Paulo, Brazil), Assistant Professor
- D. Nieborg, B.A. (Utrecht), M.A. (Utrecht) Ph.D. (Amsterdam), Associate Professor
- M. Petit, M.A., Ph.D. (Colorado), Assistant Professor, Teaching Stream, Emeritus
- T. Phu, B.A., M.A. (McMaster), Ph.D. (California, Berkeley), Professor
- J. Rault, B.A. (Alberta), M.A. (York), Ph.D. (McGill), Associate Professor
- H. Roderique, B.Sc. (McGill), J.D./M.A. (U of T), Ph.D. (U of T)
- S. Yu, B.A. (Simon Fraser), M.I.S. (Yonsei), Ph.D. (Simon Fraser), Associate Professor

A.C.M. Program Manager: Email: acm-pm@utsc.utoronto.ca

Media are ubiquitous in contemporary society. Every aspect of human experience – the personal, social, economic, political, cultural, moral, and aesthetic – is mediated. We live in a world that is increasingly fragmented yet globally connected; a world saturated with fast-paced, intensive online and mobile communication and the accompanying ads that pay for it; a world in which new documentary formats and interactive ways of knowing about the world such as Virtual Reality (V.R.) are appearing; a world in which YouTube, Snapchat and Social Media have replaced traditional network television for many as sources of news about current events and issues. We live in a world where individuals and the cultural industries and institutions that produce, control, and disseminate media texts and images operate as consciousness industries that influence how we understand ourselves and the world around us. They compete for our attention 24/7, and the distinction between "everyday reality" and "media reality" is becoming increasingly blurred for many. At the same time, the development of digital technologies and the forms of new media they make possible are in the process of destabilizing these very same cultural industries and institutions, including traditional understandings of the role of media and journalism in a democratic capitalist society.

Related Programs

Major (Joint) Program in New Media Studies

Students interested in systematic practice-based and industry-specific training in digital media design and communication should consider applying to the Major (Joint) Program in New Media Studies offered in partnership with Centennial College and listed in the [New Media Studies](#) section of the Calendar. Interested students should complete the core first-year courses and submit a Supplementary Application form by the end of the Winter session, please refer to the [New Media Studies Program](#) website for details.

Specialist (Joint) Program in Journalism

Students interested in systematic practice-based and industry-specific training as a journalist should consider applying to the Specialist (Joint) Program in Journalism, offered in partnership with Centennial College and listed in the [Journalism](#) section of the Calendar. Interested students should contact the ACM Program Manager.

Notes:

1. Students cannot combine the Minor Program in Media Studies with any of the two streams of the Major Program in Media and Communication Studies (formerly the Major Program in Media, Journalism and Digital Cultures).
2. Students cannot combine the Major Program in Media and Communication Studies – Media Studies Stream (formerly the Major Program in Media, Journalism and Digital Cultures – Media Studies Stream) with the Major Program in Media and Communication Studies – Journalism Studies Stream (formerly the Major Program in Media, Journalism and Digital Cultures – Journalism Studies Stream).
3. The Major Program in Media and Communication Studies (formerly the Major Program in Media, Journalism and Digital Cultures) cannot be combined with the Specialist Program in Journalism.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Media Studies Programs

MAJOR PROGRAM IN MEDIA AND COMMUNICATION STUDIES - Journalism Studies Stream (ARTS) - SCMAJJSS2

ACM Program Manager Email: acm-pm@utsc.utoronto.ca

In the context of the complexity of the contemporary media environment and journalism's central role in how information is disseminated, the Major in Media, Journalism and Digital Cultures has two streams: Media Studies and Journalism Studies. Through common core courses and courses unique to each stream, students consider the ubiquity of media in contemporary society and examine media's cultural, political, economic, and social implications. Because media is centrally placed as a means through which democratic discussion occurs in the public sphere, the development of media literacy skills is crucial in maintaining an informed citizenry and paramount to students' individual empowerment.

As media scholar W. James Potter has written: "Becoming more media literate gives you a much clearer perspective to see the border between your real world and the world manufactured by the media. When you are media literate, you have clear maps to help you navigate better in the media world so that you can get to those experiences and information you want without becoming distracted by those things that harm you." (Media Literacy, 2012)

The **Media Studies Stream** offers students theoretical and critical thinking tools to examine what it means to live in a highly-mediated, media-focused visual and auditory culture. Students study how media works in today's world at local, regional and global scales; the history of media and technology and its development and use across different cultures; how media industries manufacture, manage, and disseminate information; and how media form and content shape knowledge and meaning from historical, philosophical, cinematic and artistic perspectives, among many others. In studying media, students hone their media literacy skills and learn to critically evaluate the content of media and analyze its underlying ideologies and their implications within the cultural, political, economic, and social realms.

While all forms of journalism are examples of media, not all media are journalistic in nature. The **Journalism Studies Stream** is ideal for students who are interested in studying media with a specific focus on journalism, the news media industry, as well as journalism's form, function and meaning in a global and democratic society. It offers a comprehensive program of study and research with an emphasis on scholarly, conceptual understandings of journalism, including how journalism functions as an agent of change. It provides students a critical understanding of the role of journalism, its relationship to new technologies, and how cultures of information sharing are in the process of social change and what this means from cultural, political, economic, and social points of view. In critically studying journalism, students hone their media literacy skills to comprehend, navigate, and adapt to today's complicated and ever changing media environment, whether as journalists, policy advocates, or simply as informed citizens.

Guide to Course Selection

The Media Studies and Journalism Studies streams require 3.0 credits as a common core.

During their first year, students in both streams should take MDSA10H3 Media Foundations, and MDSA11H3 Media Ethics. Students in the Journalism Studies stream should also take JOUA01H3 Introduction to Journalism and News Literacy I and JOUA02H3 Introduction to Journalism II.

Program Requirements

Students must complete 8.0 credits including 2.0 credits at the C- or D-level:

Core (3.0 credits)

1. 1.0 credits as follows:

MDSA10H3 Media Foundations

MDSA11H3 Media Ethics

2. 2.0 additional credits at MDS B-level

Journalism Studies Stream (5.0 credits)

5. 1.0 credit as follows:

JOUA01H3 Introduction to Journalism and News Literacy I

JOUA02H3 Introduction to Journalism II

6. 2.0 credits as follows:

JOUB01H3 Covering Immigration and Transnational Issues

JOUB02H3 Critical Journalism

JOUB24H3 Journalism in the Age of Digital Media

JOUB39H3 Fundamentals of Journalistic Writing

7. 1.5 additional credit at JOUC-level

8. 0.5 additional credit at JOUD-level (except JOUD10H3)

MAJOR PROGRAM IN MEDIA AND COMMUNICATION STUDIES - Media Studies Stream (ARTS) - SCMAJMSS2

Undergraduate Advisor: Email: acm-pm@utsc.utoronto.ca

In the context of the complexity of the contemporary media environment and journalism's central role in how information is disseminated, the Major in Media and Communication Studies has two streams: Media Studies and Journalism Studies. Through common core courses and courses unique to each stream, students consider the ubiquity of media in contemporary society and examine media's cultural, political, economic, and social implications in the contexts of class, race, gender, sexuality, and other forms of diversity with a focus on national and transnational intersectional perspectives. The program also highlights three critical cluster areas that inform the critical study of media: (i) media and the arts; (ii) media and society; (iii) media and institutions. Because media is centrally placed as a means through which democratic discussion occurs in the public sphere, the development of media literacy skills is crucial in maintaining an informed citizenry and paramount to students' individual empowerment. Students can navigate through the program flexibly across the three cluster areas, while also developing the capacity to recognize how these clusters relate to one another and the contexts in which they intersect to shape identities and communities and to influence power relations.

The **Media Studies Stream** offers students theoretical and analytical tools, alongside digital methods, to examine what it means to live in a highly-mediated, media-focused visual and auditory culture. Students study how media works in today's world at local, regional and global scales; the history of media and technology and its development and use across different cultures; how media industries manufacture, manage, and circulate information; and how media form and content shape knowledge and meaning from historical, philosophical, and artistic perspectives, among many others. In studying media, students hone their media literacy skills and learn to critically evaluate the content of media and analyze its underlying ideologies and their implications within the distinct yet intersecting realms of art, society, and institutions.

While all forms of journalism are examples of media, not all media are journalistic in nature. The **Journalism Studies Stream** is ideal for students who are interested in studying media with a specific focus on journalism, the news media industry, as well as journalism's form, function and meaning in a global and democratic society. It offers a comprehensive program of study and research with an emphasis on scholarly, conceptual understandings of journalism, including how journalism functions as an agent of change. It provides students a critical understanding of the role of journalism, its relationship to new technologies, and how cultures of information sharing are in the process of social change and what this means from cultural, political, economic, and social points of view. In critically studying journalism, students hone their media literacy skills to comprehend, navigate, and adapt to today's complicated and ever-changing media environment, whether as journalists, policy advocates, or simply as informed citizens.

Guide to Course Selection

The Media Studies and Journalism Studies streams require 4.0 credits as a common core. During their first year, students in both streams should take MDSA10H3 Media Foundations, and MDSA13H3 Media Ethics. In addition to these shared courses, students in the Media Studies stream should take MDSA13H3 Media History. Students in the Journalism Studies stream should also take JOUA01H3 Introduction to Journalism and News Literacy I and JOUA02H3 Introduction to Journalism II.

Program Requirements

Students must complete 8.0 credits including 2.0 credits at the C- or D-level:

Core (3.0 credits)**1. Introductory Courses (1.0 credit):**

MDSA10H3 Media Foundations

MDSA11H3 Media Ethics

2. 2.0 additional credits at MDSB-level**Media Studies Stream (5.0 credits)****3. MDSA13H3 Media History****4. 1.5 additional credits at MDSB-level****5. 2.5 additional credits at MDSC-level****6. 0.5 credit from the following (please note that you can enroll in a maximum of 0.5 credit from the following list):**

MDSD10H3 Senior Seminar: Topics in Media and Arts

MDSD20H3 Senior Seminar: Topics in Media and Society

MDSD30H3 Senior Seminar: Topics in Media and Institutions

MINOR PROGRAM IN MEDIA STUDIES (ARTS) - SCMINMDS

Undergraduate Advisor: Email: mds-undergrad-advisor@utsc.utoronto.ca

Program Requirements

Students must complete 4.0 credits, including 1.0 credit at the C- or D-level:

1. 1.0 credits as follows:

MDSA11H3 Media Ethics

MDSA13H3 Media Histories

2. 2.0 credits at MDS B-level**3. 1.0 additional credit in MDS C-level courses (please note that you can enroll in a maximum of 1.0 credits at MDS C-level).**

Media Studies Courses

MDSA10H3 - Media Foundations

A survey of foundational critical approaches to media studies, which introduces students to transnational and intersectional perspectives on three core themes in Media Studies: arts, society, and institutions.

Exclusion: (MDSA01H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSA11H3 - Media Ethics

Introduces students to ethical issues in media. Students learn theoretical aspects of ethics and apply them to media industries and practices in the context of advertising, public relations, journalism, mass media entertainment, and online culture.

Exclusion: (JOUA63H3), (MDSC63H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSA12H3 - Writing for Media Studies

An introduction to diverse forms and genres of writing in Media Studies, such as blog entries, Twitter essays, other forms of social media, critical analyses of media texts, histories, and cultures, and more. Through engagement with published examples, students will identify various conventions and styles in Media Studies writing and develop and strengthen their own writing and editing skills.

Exclusion: ACMB10H3

Breadth Requirements: Arts, Literature and Language

MDSA13H3 - Media History

This course surveys the history of media and communication from the development of writing through the printing press, newspaper, telegraph, radio, film, television and internet. Students examine the complex interplay among changing media technologies and cultural, political and social changes, from the rise of a public sphere to the development of highly-mediated forms of self identity.

Corequisite: MDSA10H3

Exclusion: (MDSA02H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSB11H3 - Media and the Arts

A course that explores the media arts, with a focus on the creation and circulation of artistic and cultural works

including photographs, films, games, gifs, memes and more. Through this exploration, students will develop critical skills to engage with these forms and genres, and investigate their capacity to produce meaning and shape our political, cultural, and aesthetic realities. This course will also introduce students to creation-based research (research-creation) methods.

Prerequisite:

Enrolment in the Major program in Media and Communication Studies and [MDSA10H3 or (MDSA01H3)] and MDSA11H3 and [MDSA13H3 or (MDSA02H3)]

Breadth Requirements: Arts, Literature and Language

MDSB12H3 - Visual Culture

Visual Culture studies the construction of the visual in art, media, technology and everyday life. Students learn the tools of visual analysis; investigate how visual depictions such as YouTube and advertising structure and convey ideologies; and study the institutional, economic, political, social, and market factors in the making of contemporary visual culture.

Prerequisite: [MDSA11H3 or (MDSC63H3)] and [MDSA13H3 or (MDSA02H3)]

Exclusion: (MDSB62H3) (NMEB20H3)

Breadth Requirements: Arts, Literature and Language

MDSB13H3 - Media Studies in the Global South

The course presents an overview of media studies in the Global South, discussing the complexity of 'Global South' notion. It explores media theory towards de-westernization and decolonizing studies. Research examples drawn from several contexts.

Prerequisite: [MDSA10H3, MDSA11H3, MDSA12H3, and MDSA13H3] OR [MDSA10H3, MDSA11H3, JOUA01H3, and JOUA02H3] if enrolled in Major program in Media, Journalism and Digital Cultures; or MDSA11H3 and MDSA13H3 if enrolled in Minor program in Media Studies.

Breadth Requirements: Arts, Literature and Language

MDSB14H3 - Human, Animal, Machine

What makes humans humans, animals animals, and machines machines? This course probes the leaky boundaries between these categories through an examination of various media drawn from science fiction, contemporary art, film, TV, and the critical work of media and posthumanist theorists on cyborgs, genetically-modified organisms, and other hybrid creatures.

Corequisite: MDSA11H3 or (MDSC63H3)

Exclusion: (IEEB01H3), (MDSB01H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSB16H3 - Indigenous Media Studies

This course centres Indigenous critical perspectives on media studies to challenge the colonial foundations of the field. Through examination of Indigenous creative expression and critique, students will analyze exploitative approaches, reexamine relationships to land, and reorient connections with digital spaces to reimagine Indigenous digital world-making.

Prerequisite: [MDSA11H3 or (MDSC63H3)] or VPHA46H3

Breadth Requirements: Arts, Literature and Language

Note: Priority enrolment is for MDS, VPH and JOU students

MDSB17H3 - Popular Culture and Media Studies

An exploration of critical approaches to the study of popular culture that surveys diverse forms and genres, including television, social media, film, photography, and more. Students will learn key concepts and theories with a focus on the significance of processes of production, representation, and consumption in mediating power relations and in shaping identity and community in local, national, and global contexts.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and [MDSA10H3 or (MDSA01H3)] and MDSA11H3 or [Enrolment in the Minor Program in Media Studies and MDSA11H3 and [MDSA13H3 or (MDSA02H3)]]

Breadth Requirements: Arts, Literature and Language

MDSB20H3 - Media, Science and Technology Studies

This course offers an introduction to the field of Science and Technology Studies (STS) as it contributes to the field of media studies. We will explore STS approaches to media technologies, the materiality of communication networks, media ecologies, boundary objects and more. This will ask students to consider the relationship between things like underground cables and colonialism, resource extraction (minerals for media technologies) and economic exploitation, plants and border violences, Artificial Intelligence and policing.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and [MDSA10H3 or (MDSA01H3)] and MDSA11H3 or [Enrolment in the Minor Program in Media Studies and MDSA11H3 and [MDSA13H3 or (MDSA02H3)]]

Exclusion: (MDSB10H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSB21H3 - Media and Society

This course introduces students to perspectives and frameworks to critically analyze complex media-society relations. How do we understand media in its textual, cultural technological, institutional forms as embedded in and shaped by various societal forces? How do modern media and communication technologies impact the ways in which societies are organized and social interactions take place? To engage with these questions, we will be closely studying contemporary media texts, practices and phenomena while drawing upon insights from various disciplines such as sociology, anthropology, art history and visual culture, and cultural studies.

Prerequisite: Enrolment in the Major program in Media and Communication Studies and [MDSA10H3 or (MDSA01H3)] and MDSA11H3 and [MDSA13H3 or (MDSA02H3)]

Breadth Requirements: Arts, Literature and Language

MDSB22H3 - Feminist Media Studies

This course offers an introduction to the major topics, debates and issues in contemporary Feminist Media Studies – from digital coding and algorithms to film, television, music and social networks – as they interact with changing experiences, expressions and possibilities for gender, race, sexuality, ethnicity and economic power in their social and cultural contexts. We will explore questions such as: how do we study and understand representations of gender, race and sexuality in various media? Can algorithms reproduce or interrupt racism and sexism? What roles can media play in challenging racial, gendered, sexual and economic violence? How can media technologies normalize or transform relations of oppression and exploitation in specific social and cultural contexts?

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and [MDSA10H3 or (MDSA01H3)] and MDSA11H3 and [MDSA13H3 or (MDSA02H3)]] or [Enrolment in the Minor Program in Media Studies and MDSA11H3 and [MDSA13H3 or (MDSA02H3)]]

Breadth Requirements: Arts, Literature and Language

MDSB23H3 - Media and Militarization

Media not only represents war; it has also been deployed to advance the ends of war, and as part of antiwar struggles. This course critically examines the complex relationship between media and war, with focus on historicizing this relationship in transnational contexts.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and [MDSA10H3 or (MDSA01H3)] and MDSA11H3 and [MDSA13H3 or (MDSA02H3)]] or [Enrolment in the Minor Program in Media Studies and MDSA11H3 and [MDSA13H3 or

(MDSA02H3))

Breadth Requirements: Arts, Literature and Language

MDSB28H3 - Kids These Days: Youth, Language and Media

Around the world, youth is understood as liminal phase in our lives. This course examines how language and new media technologies mark the lives of youth today. We consider social media, smartphones, images, romance, youth activism and the question of technological determinism. Examples drawn from a variety of contexts. Same as [ANTB35H3](#), (MDSB09H3)

Prerequisite: [ANTA02H3](#) or [\[MDSA10H3 or \(MDSA01H3\)\]](#) or [any 2.0 credits in ANT, HLT, IDS, CIT, GGR, POL, SOC or HCS courses]

Exclusion: [ANTB35H3](#), (MDSB09H3)

Breadth Requirements: Arts, Literature and Language

MDSB29H3 - Mapping New Media

This course introduces students to the key terms and concepts in new media studies as well as approaches to new media criticism. Students examine the myriad ways that new media contribute to an ongoing reformulation of the dynamics of contemporary society, including changing concepts of community, communication, identity, privacy, property, and the political.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and [\[MDSA10H3 or \(MDSA01H3\)\]](#) and [MDSA11H3](#) and [\[MDSA13H3 or \(MDSA02H3\)\]](#)] or [Enrolment in the Minor Program in Media Studies and [MDSA11H3](#) and [\[MDSA13H3 or \(MDSA02H3\)\]](#)]

Exclusion: (MDSB61H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSB30H3 - Social Media and Digital Culture

This course introduces students to the interdisciplinary and transnational field of media studies that helps us to understand the ways that social media and digital culture have impacted social, cultural, political, economic and ecological relations. Students will be introduced to Social Media and Digital Cultural studies of social movements, disinformation, changing labour conditions, algorithms, data, platform design, environmental impacts and more

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and [\[MDSA10H3 or \(MDSA01H3\)\]](#) and [MDSA11H3](#) and [\[MDSA13H3 or \(MDSA02H3\)\]](#)] or [Enrolment in the Minor Program in Media Studies and [MDSA11H3](#) and [\[MDSA13H3 or \(MDSA02H3\)\]](#)]

Exclusion: CCT331H5, (MDSB15H3)

Breadth Requirements: Arts, Literature and Language

MDSB31H3 - Media and Institutions

This course follows the money in the media industries. It introduces a variety of economic theories, histories, and methods to analyse the organization of media and communication companies. These approaches are used to better understand the critical political economy of media creation, distribution, marketing and monetization.

Prerequisite: Enrolment in the Major program in Media and Communication Studies and [\[MDSA10H3 or \(MDSA01H3\)\]](#) and [MDSA11H3](#) and [\[MDSA13H3 or \(MDSA02H3\)\]](#)

Breadth Requirements: Arts, Literature and Language

MDSB32H3 - Media and Globalization

This course examines the role of technological and cultural networks in mediating and facilitating the social, economic, and political processes of globalization. Key themes include imperialism, militarization, global political economy, activism, and emerging media technologies. Particular attention is paid to cultures of media production and reception outside of North America.

Same as [GASB05H3](#)

Prerequisite: 4.0 credits and [\[MDSA11H3 or \(MDSA01H3\)\]](#)

Exclusion: [GASB05H3](#), (MDSB05H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSB33H3 - Media and Consumer Cultures

This course introduces students to the study of advertising as social communication and provides a historical perspective on advertising's role in the emergence and perpetuation of "consumer culture". The course examines the strategies employed to promote the circulation of goods as well as the impact of advertising on the creation of new habits and expectations in everyday life.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and [\[MDSA10H3 or \(MDSA01H3\)\]](#) and [MDSA11H3](#) and [\[MDSA12H3 and \[MDSA13H3 or \(MDSA02H3\)\] \]](#) or [\[JOUA01H3 and JOUA02H3\] \]](#) or [Enrolment in the Minor Program in Media Studies and [MDSA11H3](#) and [\[MDSA13H3 or \(MDSA02H3\)\] \]](#) or [SOCB58H3](#)

Exclusion: (MDSB03H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSB34H3 - Comparative Media Industries

This course provides an overview of various segments of the media industries, including music, film, television, social media entertainment, games, and digital advertising. Each segment's history, business models, and labour practices will be examined taking a comparative media approach.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and [\[MDSA10H3 or \(MDSA01H3\)\]](#) and [\[MDSA11H3 and \(MDSA13H3 or \(MDSA02H3\)\)\]](#) or [Enrolment in the Minor Program in Media Studies and [\[MDSA11H3 and \(MDSA13H3 or \(MDSA02H3\)\)\]](#)]

Breadth Requirements: Arts, Literature and Language

MDSB35H3 - Platform Labour

The course explores the different types of platform labour around the world, including micro-work, gig work and social media platforms. It presents aspects of the platformization of labour, as algorithmic management, datafication, work conditions and platform infrastructures. The course also emphasizes workers' organization, platform cooperativism and platform prototypes.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and [\[MDSA10H3 or \(MDSA01H3\)\]](#) and [\[MDSA11H3 and \(MDSA13H3 or \(MDSA02H3\)\)\]](#) or [Enrolment in the Minor Program in Media Studies and [\[MDSA11H3 and \(MDSA13H3 or \(MDSA02H3\)\)\]](#)]

Breadth Requirements: Arts, Literature and Language

MDSC10H3 - Advanced Studies in Media and the Arts

A seminar that explores historical and contemporary movements and issues in media art as well as creation-based research methods that integrate media studies inquiry and analysis through artistic and media-making practice and experimentation.

Prerequisite: Enrollment in the Major program in Media and Communication Studies and 3.0 credits at MDS B-level and a minimum GPA of 3.3 in MDS A-, B- and C-level courses

Breadth Requirements: Arts, Literature and Language

MDSC11H3 - Media Activism

This course examines the history, organization and social role of a range of independent, progressive, and oppositional media practices. It emphasizes the ways alternative media practices, including the digital, are the product of and contribute to political movements and

perspectives that challenge the status quo of mainstream consumerist ideologies.

Prerequisite: [2.0 credits at the B-level in MDS courses] or [2.0 credits at the B-level in JOU courses] or [4.5 credits from the Major (Joint) program in New Media Studies Group I and Group II courses]

Exclusion: (MDSC61H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSC12H3 - Trans-Feminist Queer Media Studies

This course builds on a foundation in Feminist Media Studies to engage the scholarly field of Trans-Feminist Queer (TFQ) Media Studies. While these three terms (trans, feminist and queer) can bring us to three separate areas of media studies, this course immerses students in scholarship on media and technology that is shaped by and committed to their shared critical, theoretical and political priorities. This scholarship centers transgender, feminist and queer knowledges and experiences to both understand and reimagine the ways that media and communication technologies contribute to racial, national, ethnic, gender, sexual and economic relations of power and possibility.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and 3.0 credits at the MDS B-level including [\[MDSB22H3\]](#) or [Enrolment in the Minor in Media Studies and 2.0 credits at the MDS B-level including [\[MDSB22H3\]](#)]

Exclusion: (MDSC02H3)

Breadth Requirements: Arts, Literature and Language

MDSC13H3 - Popular Music and Media Cultures

This course explores the importance of sound and sound technology to visual media practices by considering how visuality in cinema, video, television, gaming, and new media art is organized and supported by aural techniques such as music, voice, architecture, and sound effects.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and 3.0 credits at the MDS or JOU B-level] or [Enrolment in the Minor program in Media Studies and 2.0 credits at the MDS or JOU B-level]

Exclusion: (MDSB63H3)

Breadth Requirements: Arts, Literature and Language

MDSC14H3 - Media and Popular Culture in East Asia

This course introduces students to media industries and commercial popular cultural forms in East Asia. Topics include reality TV, TV dramas, anime and manga, as well as issues such as regional cultural flows, global impact of Asian popular culture, and the localization of global media

in East Asia.

Same as GASC41H3, (MDSC41H3)

Prerequisite: Any 4.0 credits

Exclusion: GASC41H3, (MDSC41H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSC20H3 - Advanced Studies in Media and Society

This seminar provides students with a theoretical toolkit to understand, analyze and evaluate media-society relations in the contemporary world. Students will, through reading and writing, become familiar with social theories that intersect with questions and issues related to media production, distribution and consumption. These theories range from historical materialism, culturalism, new materialism, network society, public sphere, feminist and queer studies, critical race theory, disability media theories, and so on. Special attention is paid to the mutually constitutive relations between digital media and contemporary societies and cultures.

Prerequisite: Enrollment in the Major program in Media and Communication Studies, and 3.0 credits at MDS B-level and a minimum GPA of 3.3 in MDS A-, B- and C-level courses

Breadth Requirements: Arts, Literature and Language

MDSC21H3 - Anthropology of Language and Media

Anthropology studies language and media in ways that show the impact of cultural context. This course introduces this approach and also considers the role of language and media with respect to intersecting themes: ritual, religion, gender, race/ethnicity, power, nationalism, and globalization. Class assignments deal with lectures, readings, and students' examples.

Same as ANTC59H3

Prerequisite: ANTB19H3 and ANTB20H3 or any 4.0 credits in MDS

Exclusion: (MDSB02H3), (ANTB21H3), ANTC59H3

Breadth Requirements: Arts, Literature and Language

MDSC22H3 - Understanding Scandals

This course focuses on modern-day scandals, ranging from scandals of politicians, corporate CEOs, and celebrities to scandals involving ordinary people. It examines scandals as conditioned by technological, social, cultural, political, and economic forces and as a site where meanings of deviances of all sorts are negotiated and constructed. It also pays close attention to media and journalistic practices at the core of scandals.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and 3.0 credits at the MDS

B-level] or [Enrolment in the Minor program in Media Studies and 2.0 credits at the MDS B-level]

Exclusion: SOC342H5, (MDSC35H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSC23H3 - Black Media Studies

This course explores Black media production, representation, and consumption through the analytical lenses of Black diaspora studies, critical race studies, political economy of media and more. Themes include, Black media histories, radical traditions, creative expression, and social movements. Students will explore various forms of media production created and influenced by Black communities globally. The course readings and assignments examine the interconnection between the lived cultural, social, and historical experiences of the African diaspora and the media artefacts they create as producers, or they are referenced as subjects. Students will critically examine media artefacts (music, television shows, movies, social media content) through various lenses, including race and gender theory, rhetoric, visual communication, and digital media analysis.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies - Media Studies stream and 3.0 credits at the MDS B-level] or [Enrolment in the Major program in Media and Communication Studies - Journalism stream and 3.0 credits at the MDS B-level/JOU B-level] or [Enrolment in the Minor program in Media Studies and 2.0 credits at the MDS B-level]

MDSC24H3 - Selfies and Society

Selfies are an integral component of contemporary media culture and used to sell everyone from niche celebrities to the Prime Minister. This class examines the many meanings of selfies to trace their importance in contemporary media and digital cultures as well as their place within, and relationship to, historically and theoretically grounded concepts of photography and self portraiture.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and 3.0 credits at the MDS B-level] or [Enrolment in the Minor in Media Studies and 2.0 credits at the MDS B-level]

Exclusion: (MDSC66H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSC25H3 - Understanding Audiences in the Digital Age

Understanding the interests and goals of audiences is a key part of media production. This course introduces communication research methods including ratings, metrics, in-depth interviews, and focus groups. The focus of class discussion and research project is to use these

methods to be able to understand the nature of audiences' media use in the digital age.

Same as JOUC80H3

Prerequisite: [2.0 credits at the B-level in MDS courses] or [2.0 credits at the B-level in JOU courses] or [4.5 credits from the Major (Joint) program in New Media Studies Group I and Group II courses]

Exclusion: JOUC80H3, (MDSC80H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSC26H3 - Media, Technology & Disability Justice

This course will examine Critical Disability Studies as it intersects with and informs Media Studies and Science & Technology Studies with a focus on the advancement of disability justice goals as they relate to topics that may include: interspecies assistances and co-operations, military/medical technologies that enhance "ability," the possibilities and limitations of cyborg theory for a radical disabilities politics and media practice informed by the disability justice ethics of "nothing about us without us."

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and 3.0 credits at the MDS B-level including MDSB21H3] or [Enrolment in the Minor program in Media Studies and 2.0 credits at the MDS B-level including MDSB21H3]

Breadth Requirements: Arts, Literature and Language

MDSC27H3 - Digital Research Ethics

This course will examine ethical considerations for conducting digital research with a focus on privacy, consent, and security protections, especially as these issues affect underrepresented and minoritized communities.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies and 3.0 credits at the MDS B-level] or [Enrolment in the Minor program in Media Studies and 2.0 credits at the MDS B-level]

Breadth Requirements: Arts, Literature and Language

MDSC28H3 - Data and Artificial Intelligence

The course explores critical data studies and considers critical understandings of artificial intelligence, with a focus on topics that may include algorithmic fairness, data infrastructures, AI colonialism, algorithmic resistance, and interplays between race/gender/sexuality issues and data/artificial intelligence.

Prerequisite: [3.0 credits at MDS B-level and enrolment in Major program in Media and Communication Studies -

Media Studies stream] or [3.0 credits at MDS B-level/JOU B-level and enrolment in Major program in Media and Communication Studies - Journalism Studies stream] or [2.0 credits at the MDS B-level and enrolment in the Minor program in Media Studies]

Breadth Requirements: Arts, Literature and Language

MDSC29H3 - Media and Religion

The advancement of religious concepts and movements has consistently been facilitated - and contested - by contemporaneous media forms, and this course considers the role of media in the creation, development, and transmission of religion(s), as well as the challenges posed to modern religiosities in a digital era.

Prerequisite: 2.0 credits at the B-level in MDS courses

Breadth Requirements: History, Philosophy and Cultural Studies

MDSC30H3 - Advanced Studies in Media and Institutions

This seminar elaborates on foundational concepts and transformations in the media industries, such as conglomeration, platformization, datafication, and digitization. Taking a global perspective, emerging industry practices will be discussed, such as gig labour, digital advertising, and cryptocurrency.

Prerequisite: Enrollment in Major program in Media and Communication Studies; and 3.0 credits at MDS B-level and a minimum GPA of 3.3 in MDS A-, B- and C-level courses

Breadth Requirements: Arts, Literature and Language

MDSC31H3 - Platforms and Cultural Production

This course focuses on the process of platformization and how it impacts cultural production. It provides an introduction into the fields of software, platform, and app studies. The tenets of institutional platform power will be discussed, such as economics, infrastructure, and governance, as well as questions pertaining to platform labour, digital creativity, and democracy.

Prerequisite: [Enrolment in the Major program in Media and Communication Studies - Media Studies stream and 3.0 credits at the MDS B-level] or [Enrolment in the Major program in Media and Communication Studies - Journalism stream and 3.0 credits at the MDS B-level/JOU B-level] or [Enrolment in the Minor program in Media Studies and 2.0 credits at the MDS B-level]

Breadth Requirements: Arts, Literature and Language

MDSC32H3 - Chinese Media and Politics

This course examines the complex and dynamic interplay of media and politics in contemporary China, and the role of the government in this process.

Same as GASC40H3

Prerequisite: 4.0 credits

Exclusion: GASC40H3, (MDSC40H3)

Breadth Requirements: Arts, Literature and Language

MDSC33H3 - Games and Play

This course introduces students to academic perspectives on games and play. Students develop a critical understanding of a variety of topics and discussions related to games, gamification, and play in the physical and virtual world.

Prerequisite: [2.0 credits at the B-level in MDS courses] or [4.5 credits from the Major (Joint) program in New Media Studies Group I and Group II courses]

Exclusion: (MDSC65H3)

Breadth Requirements: Arts, Literature and Language

MDSC34H3 - Diasporic Media

New media technologies enable more production and distribution of culturally, ethnically and linguistically diverse voices than ever before. Who produces these diverse voices and how accessible are these media? This course explores various types of diasporic media from century-old newspapers to young and hip news and magazine blogs, produced by and for members of a multicultural society.

Same as JOUC60H3

Prerequisite: [2.0 credits at the B-level in MDS courses] or [2.0 credits at the B-level in JOU courses] or [4.5 credits from the Major (Joint) program in New Media Studies Group I and Group II courses]

Exclusion: JOUC60H3, (MDSC60H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MDSC36H3 - Journalism Around the World

How does journalism engage and feed into broader public debates? And how does journalism from around the world impact such debates differently? This course considers the topic of journalism and public sphere theory, and discusses the relationship between the press and politics, government, and democracy. The course takes a comparative lens to journalism, and will also draw on

ethnographic readings and approaches.
Same as ANTC53H3, (MDSC53H3)

Prerequisite: [ANTB19H3 and ANTB20H3] or [any 4.0 credits] or [2.0 credits at the B level in MDS courses] or [2.0 credits at the B level in JOU courses] or [4.5 credits from the Major (Joint) program in New Media Studies Group I and Group II courses]

Exclusion: ANTC53H3, (MDSC53H3)

Breadth Requirements: Social and Behavioural Sciences

MDSC37H3 - Media, Journalism and Digital Labour

This course explores themes of labour in *news* media and *new* media. Topics include labour conditions for media workers across sectors; the labour impacts of media convergence; and the global distribution of media labour including content generation and management. The course is structured by intersectional analyses, studying how race and racism, class, gender, sex and sexism, sexuality, nationality, global location and citizenship status, Indigeneity and religion shape our experiences of media, journalism and labour.

Same as JOUC62H3

Prerequisite: [(MDSA01H3)/MDSA10H3 and (MDSB05H3)/MDSB32H3] or [JOUA01H3 and JOUA02H3] or [4.5 credits from the Major (Joint) program in New Media Studies Group I and Group II courses]

Exclusion: JOUC62H3, (MDSC62H3)

Breadth Requirements: Arts, Literature and Language

MDSC85H3 - Movies, Music and Meaning

This course examines the synergistic relationship between the moving image and music and how these synergies result in processes of meaning-making and communication. Drawing on readings in cultural theory, cultural studies, musicology and film studies, the course considers examples from the feature film, the Hollywood musical, and the animated cartoon.

Same as MUZC20H3/(VPMC85H3)

Prerequisite: [2.0 credits at the B-level in MDS courses] or [2.0 credits at the B-level in MUZ/(VPM) courses]

Exclusion: MUZC20H3/(VPMC85H3)

Breadth Requirements: Arts, Literature and Language

Note: No Specialist knowledge in Musicology or Film Studies required.

MDSD10H3 - Senior Seminar: Topics in Media and Arts

This is a senior seminar that focuses on the connections among media and the arts. Students explore how artists use the potentials offered by various media forms, including digital media, to create new ways of expression. Topics vary.

Prerequisite: 3.0 credits in MDS courses, including 1.0 credit at the C-level

Exclusion: (MDSD01H3)

Course Experience: University-Based Experience

MDSD20H3 - Senior Seminar: Topics in Media and Society

This is a senior seminar that focuses on media and society. It explores the social and political implications of media, including digital media, and how social forces shape their development. Topics vary.

Prerequisite: 3.0 credits in MDS courses, including 1.0 credit at the C-level

Exclusion: (MDSD02H3)

Course Experience: University-Based Experience

MDSD30H3 - Senior Seminar: Topics in Media and Institutions

This is a senior seminar that closely examines media as institutions such as media regulatory bodies, firms, and organizations, as well as media in relation to other institutions in broader political economies. In this course, students will have the opportunity to interrogate key theoretical concepts developed in critical media industry studies and apply them to real-life cases through research and writing.

Prerequisite: Enrollment in Major program in Media and Communication Studies and 2.5 credits at MDS C-level

Breadth Requirements: Arts, Literature and Language

Music

Faculty List

- W.R. Bowen, M.A., Ph.D. (Toronto), Associate Professor, Emeritus
- M. Campbell, B. Ed. (York), M.A. (York), Ph.D. (Toronto), Assistant Professor
- R.Mantie, B.Mus.Ed, M.Mus.Ed.(Brandon), Ph.D.(Toronto), Professor
- A. Rapoport, Mus.M., Mus.Doc. (Toronto), Senior Lecturer, Emeritus
- L. Risk, B.A. (UC Berkeley), M.A. (McGill), Ph.D. (McGill), Assistant Professor
- A. Stanbridge, M.A. (Wolverhampton), Ph.D. (Carleton), Associate Professor
- K. Suzuki, B.Mus. (Indiana), D.M.A. (Stanford), Associate Professor
- L.C. Tucker, B.Mus., B.Mus.Ed. (Memorial), M.Mus. Mus.Ed, M.Mus. Perf. (Wisconsin-Madison), Associate Professor, Teaching Stream

ACM Program Manager: Email: acm-pm@utsc.utoronto.ca

Music offers innovative programming that focuses on music as it is experienced and lived today in all its diversity and complexity. Our faculty engage in performance, creation and composition, research and scholarly leadership, and community engagement — all of which embrace the program's commitment to access inclusion and empowerment. The Music program serves the diverse needs and interests of UTSC students. In providing cultural, artistic, intellectual, and civic leadership, we put music in conversation with a variety of social, cultural, and historical issues.

Music course offerings challenge students to work towards self-directedness and develop their capacities as creative leaders in community cultural development. Students create, join, and enliven musical and artistic communities, both on the UTSC campus and beyond, with a focus on civic participation, arts entrepreneurship, health and wellness, and community development.

Multiple experiential learning opportunities across the program prepare students for a wide range of professional careers in areas related to music and are also ideally suited for those interested in music as part of lifelong learning and engagement. The Music program complements studies in many fields, including adult education and community development, arts management, city studies, computer science, health studies, historical and cultural studies, media arts, media studies, music education, psychology, sociology, studio art, and visual studies.

The Music program includes and accommodates students of all musical backgrounds and abilities. Some courses involve music creation and performance dependent on prior experience. The performance courses, for example, are open-enrollment but are not a place to learn music for the first time. The Small Ensembles course provides opportunities for students whose musicianship (of all types) may not align with the three large ensembles (Concert Choir, Concert Band, String Orchestra).^{*} Courses in the Music & Society area of focus (below) are generally lecture-based and involve rigorous scholarly training mixed with experiential learning opportunities in field research and community engagement.

Planning a Program in Music

Students in their first year take [MUZA80H3](#) Foundations in Musicianship, along with 1.0 credits of performance courses. Students planning a Major or Minor in Music are strongly advised to meet with the ACM Program Manager at the beginning of their second year for advice on the completion of program requirements.

Students (Majors) in their second year take three B-level courses ([MUZB80H3](#) Developing Musicianship, [MUZB01H3](#) Introduction to Community Music, and [MUZB20H3](#) Music in the Contemporary World) intended to provide a breadth of knowledge.

Music courses are grouped into “program-wide” and focus areas (Community Music; Music and Society; Music, Creativity, and Technology). Students in their third and fourth years are encouraged to develop depth in an area of focus, the courses of which are intended to create a developmental sequence of learning.

Students are cautioned that some courses in Music (MUZ) may include Ancillary fees.

Performance Courses

The following performance courses are available to all students, alumni, staff and faculty, upon successful placement interviews. Students registered in courses will be given placement priority. For more details, please visit the [Music and Culture program website](#).

String Orchestra

[MUZA64H3](#), [MUZA65H3](#), [MUZB64H3](#), [MUZB65H3](#), [MUZC64H3](#), [MUZC65H3](#)

Small Ensemble

[MUZA66H3](#), [MUZA67H3](#), [MUZB66H3](#), [MUZB67H3](#), [MUZC66H3](#), [MUZC67H3](#)*There are two LEC sections of Small Ensembles. Students interested in popular, rock, jazz, or other contemporary styles should register for LEC 01. Students interested in classical, folk, "world," or other acoustic-based styles should register for LEC 02.

Concert Choir

[MUZA62H3](#), [MUZA63H3](#), [MUZB62H3](#), [MUZB63H3](#), [MUZC62H3](#), [MUZC63H3](#)

Concert Band

[MUZA60H3](#), [MUZA61H3](#), [MUZB60H3](#), [MUZB61H3](#), [MUZC60H3](#), [MUZC61H3](#)

General Interest Courses

[MUZA99H3](#) and [MUZA80H3](#) assume no previous experience in music.

Music Areas of Focus

The program offers three areas of focus. Students are encouraged to develop the depth of learning through study in one or two areas of focus as follows:

Program-Wide Courses

Concert Choir (offered Fall & Winter), Concert Band (offered Fall & Winter), String Orchestra (offered Fall & Winter), Small Ensembles (offered Fall & Winter), [MUZA99H3](#), [MUZA80H3](#), [MUZB80H3](#), [MUZB81H3](#), [MUZC80H3](#), [MUZD80H3](#)

Community Music

[MUZB01H3](#), [MUZB02H3](#), [MUZC01H3](#), [MUZC02H3](#), [MUZD01H3](#)

Music and Society

[MUZB20H3](#), [MUZB21H3](#), [MUZC20H3](#), [MUZC21H3](#), [MUZC22H3](#), [MUZC23H3](#)

Music, Creativity, and Technology

[MUZB40H3](#), [MUZB41H3](#), [MUZC40H3](#), [MUZC41H3](#), [MUZC42H3](#), [MUZC43H3](#)

Program Combination Restrictions in Music

The Minor in Music cannot be combined with the Major in Music

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Music Programs

MAJOR PROGRAM IN MUSIC (ARTS) - SCMAJ15912

ACM Program Manager Email: acm-pm@utsc.utoronto.ca

Program Requirements

Students are required to complete 8.0 credits as follows:

1. Courses at the A-level (1.5 credits)

MUZA80H3/(VPMA95H3) Foundations in Musicianship
and

1.0 credit in Performance. Students must choose the graded option for this credit.

2. Courses at the B-level (1.5 credits)

MUZH01H3/(VPMB01H3) Introduction to Community Music
MUZH20H3/(VPMB82H3) Music in the Contemporary World
MUZH80H3/(VPMB88H3) Developing Musicianship

3. 5.0 additional credits in Music (MUZ) courses, at least 2.0 of which must be at the C-level, and at least 0.5 of which must be at the D-level.

Students are encouraged to develop the depth of learning through study in one or two of the areas of focus described in the Music Areas of Focus Table.

Students can count a maximum of 2.0 credits of Performance courses toward component 3 of the program completion requirements. Students who count Performance courses towards component 3 must choose the graded option.

MINOR PROGRAM IN MUSIC (ARTS) - SCMIN1591

ACM Program Manager. Email: acm-pm@utsc.utoronto.ca

Program Requirements

Students are required to complete 4.0 full credits as follows:

1. Courses at the A-level (1.0 credit)

MUZA80H3/(VPMA95H3) Foundations in Musicianship
and

0.5 credit in Performance. Students must choose the graded option for this credit.

2. Courses at the B-level (1.0 credits from the following list)

MUZH01H3/(VPMB01H3) Introduction to Community Music
MUZH20H3/(VPMB82H3) Music in the Contemporary World
MUZH80H3/(VPMB88H3) Developing Musicianship

3. 2.0 additional credits in Music (MUZ) courses, of which at least 1.0 credit must be at the C- and/or D-level.*

Students can count a maximum of 1.0 credit of Performance courses toward these 3 program completion requirements. Students who count Performance courses must choose the graded option.

*Students must consult with the ACM Program Manager (acm-pm@utsc.utoronto.ca) regarding the selection of the courses to fulfill this program requirement.

Music Courses

MUZA02H3 - Introduction to Music and Health

This course introduces the histories, contexts, and theories of music in relation to health and wellness. Students will develop understandings of how music is used for therapeutic and non-therapeutic purposes.

Breadth Requirements: Social and Behavioural Sciences

MUZA60H3 - Concert Band Ia

The practical study of instrumental ensemble performance in the Concert Band setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Concert Band attempts to accommodate everyone but is not a course to learn an instrument for the first time.

Exclusion: (VPMA73H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

MUZA61H3 - Concert Band Ib

The practical study of instrumental ensemble performance in the Concert Band setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Concert Band attempts to accommodate everyone but is not a course to learn an instrument for the first time.

Prerequisite: MUZA60H3/(VPMA73H3)

Exclusion: (VPMA74H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

MUZA62H3 - Concert Choir Ia

The practical study of vocal ensemble performance in the Concert Choir setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement Interview required. Concert Choir attempts to accommodate everyone.

Exclusion: (VPMA70H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

MUZA63H3 - Concert Choir Ib

The practical study of vocal ensemble performance in the Concert Choir setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Concert Choir attempts to accommodate everyone.

Prerequisite: MUZA62H3/(VPMA70H3)

Exclusion: (VPMA71H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

MUZA64H3 - String Orchestra Ia

The practical study of instrumental ensemble performance in the String Orchestra setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. String Orchestra attempts to accommodate everyone, but is not a course to learn an instrument for the first time.

Exclusion: (VPMA66H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major and Minor programs in Music and Culture.

Additional students will be admitted as space permits.

MUZA65H3 - String Orchestra 1b

The practical study of instrumental ensemble performance in the String Orchestra setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. String Orchestra attempts to accommodate everyone, but is not a course to learn an instrument for the first time.

Prerequisite: MUZA64H3/(VPMA66H3)

Exclusion: (VPMA67H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major and Minor programs in Music and Culture.

Additional students will be admitted as space permits.

MUZA66H3 - Small Ensembles Ia

The practical study of small ensemble performance, including public presentations and group recitals. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Small Ensembles attempts to accommodate everyone, but is not a course to learn an instrument for the first time.

Exclusion: (VPMA68H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: 1. Priority will be given to students enrolled in the Major and Minor programs in Music and Culture. Additional students will be admitted as space permits. 2. Students interested in popular, rock, jazz, or other contemporary styles should register for LEC 01. Students interested in classical, folk, "world," or other acoustic-based styles should register for LEC 02.

MUZA67H3 - Small Ensembles Ib

The practical study of small ensemble performance, including public presentations and group recitals. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Small Ensembles attempts to accommodate everyone, but is not a course to learn an instrument for the first time.

Prerequisite: MUZA66H3/(VPMA68H3)

Exclusion: (VPMA69H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: 1. Priority will be given to students enrolled in the Major and Minor programs in Music and Culture. Additional students will be admitted as space permits. 2. Students interested in popular, rock, jazz, or other contemporary styles should register for LEC 01. Students interested in classical, folk, "world," or other acoustic-based styles should register for LEC 02.

MUZA80H3 - Foundations in Musicianship

A practical introduction to musicianship through music-making and creation, with an emphasis on aural skills, rhythmic fluency, notation, and basic vocal and instrumental techniques. This course is open to students with no musical training and background.

Exclusion: (VPMA95H3)

Breadth Requirements: Arts, Literature and Language

Note: Priority will be given to first and second-year students in Major and Minor Music programs. Additional students will be admitted as space permits.

MUZA81H3 - Introduction to Music Industry and Technology

This course will provide a broad overview of the music industry and fundamentals in audio theory and engineering. It will cover the physics of sound, psychoacoustics, the basics of electricity, and music business and audio engineering to tie into the Centennial College curriculum.

Prerequisite: Enrollment in the SPECIALIST (JOINT) PROGRAM IN MUSIC INDUSTRY AND TECHNOLOGY

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

MUZA99H3 - Listening to Music

An introduction to music through active listening and the consideration of practical, cultural, historical and social contexts that shape our aural appreciation of music. No previous musical experience is necessary.

Exclusion: (VPMA93H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MUZH01H3 - Introduction to Community Music

Music within communities functions in ways that differ widely from formal models. Often the defining activity, it blurs boundaries between amateur, professional, audience and performer, and stresses shared involvement. Drawing upon their own experience, students will examine a variety of community practices and current research on this rapidly evolving area.

Prerequisite: MUZA80H3/(VPMA95H3)

Exclusion: (VPMB01H3)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Major and Minor programs in Music and Culture. Additional students will be admitted as space permits.

MUZH02H3 - Introduction to Music Teaching, Facilitation, and Learning

An introduction to the theory and practice of music teaching, facilitation, and learning. Students will develop practical skills in music leadership, along with theoretical understandings that distinguish education, teaching, facilitation, and engagement as they occur in formal, informal, and non formal spaces and contexts.

Prerequisite: MUZA80H3/(VPMA95H3) or successful clearance of the MUZA80H3 exemption test

Exclusion: (VPMB02H3)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Major and Minor programs in Music and Culture. Additional students will be admitted as space permits.

MUZH20H3 - Music in the Contemporary World

An examination of art and popular musics. This course will investigate the cultural, historical, political and social contexts of music-making and practices as experienced in the contemporary world.

Exclusion: (VPMB82H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MUZZ21H3 - Exploring Music in Social and Cultural Contexts

A critical investigation of a wide range of twentieth and twenty-first-century music. This interdisciplinary course will situate music in its historical, social, and cultural environments.

Prerequisite: MUZZ20H3/(VPMB82H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MUZZ40H3 - Music and Technology

A comprehensive study of the technologies in common use in music creation, performance and teaching. This course is lab and lecture based.

Exclusion: (VPMB91H3)

Breadth Requirements: Arts, Literature and Language

Note: Priority will be given to students enrolled in the Major and Minor programs in Music and Culture. Additional students will be admitted as space permits.

MUZZ41H3 - DJ Cultures: Analogue Innovations and Digital Aesthetics

This course explores the aesthetic innovations of DJs from various musical genres, from disco to drum'n'bass to dub. We also spend time exploring the political, legal, and social aspects of DJs as their production, remixes, touring schedules, and community involvement reveal what is at stake when we understand DJs as more than entertainers. The course utilizes case studies and provides a hands-on opportunity to explore some of the basic elements of DJ-ing, while simultaneously providing a deep dive into critical scholarly literature.

Prerequisite: MUZZ40H3/(VPMA95H3)

Exclusion: (VPMC88H3) if taken in Winter 2020 session

Breadth Requirements: History, Philosophy and Cultural Studies

MUZZ60H3 - Concert Band Ila

The practical study of instrumental ensemble performance in the Concert Band setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Concert Band attempts to accommodate everyone but is not a course to learn an instrument for the first time.

Prerequisite: MUZZ61H3/(VPMA74H3)

Exclusion: (VPMB73H3)

Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience

MUZZ61H3 - Concert Band Iib

The practical study of instrumental ensemble performance in the Concert Band setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Concert Band attempts to accommodate everyone but is not a course to learn an instrument for the first time.

Prerequisite: MUZZ60H3/(VPMB73H3)

Exclusion: (VPMB74H3)

Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience

MUZZ62H3 - Concert Choir Ila

The practical study of vocal ensemble performance in the Concert Choir setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement Interview required. Concert Choir attempts to accommodate everyone.

Prerequisite: MUZZ63H3/(VPMA71H3)

Exclusion: (VPMB70H3)

Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience

MUZZ63H3 - Concert Choir Iib

The practical study of vocal ensemble performance in the Concert Choir setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement Interview required. Concert Choir attempts to accommodate everyone.

Prerequisite: MUZZ62H3/(VPMB70H3)

Exclusion: (VPMB71H3)

Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience

MUZZ64H3 - String Orchestra Ila

The practical study of instrumental ensemble performance in the String Orchestra setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. String Orchestra attempts to accommodate everyone, but is not a course to learn an instrument for the first time.

Prerequisite: MUZZ65H3/(VPMA67H3)

Exclusion: (VPMB66H3)

Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major and Minor programs in Music and Culture. Additional students will be admitted as space permits.

MUZH65H3 - String Orchestra IIb

The practical study of instrumental ensemble performance in the String Orchestra setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. String Orchestra attempts to accommodate everyone, but is not a course to learn an instrument for the first time.

Prerequisite: MUZH64H3/(VPMH66H3)

Exclusion: (VPMH67H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major and Minor programs in Music and Culture.

Additional students will be admitted as space permits.

MUZH66H3 - Small Ensembles IIa

The practical study of small ensemble performance, including public presentations and group recitals. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Small Ensembles attempts to accommodate everyone but is not a course to learn an instrument for the first time.

Prerequisite: MUZA67H3/(VPMH69H3)

Exclusion: (VPMH68H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: 1. Priority will be given to students enrolled in the Major and Minor programs in Music and Culture. Additional students will be admitted as space permits. 2. Students interested in popular, rock, jazz, or other contemporary styles should register for LEC 01. Students interested in classical, folk, "world," or other acoustic-based styles should register for LEC 02.

MUZH67H3 - Small Ensembles IIb

The practical study of small ensemble performance, including public presentations and group recitals. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Small Ensembles attempts to accommodate everyone but is not a course to learn an instrument for the first time.

Prerequisite: MUZH66H3/(VPMH68H3)

Exclusion: (VPMH69H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: 1. Priority will be given to students enrolled in the Major and Minor programs in Music and Culture. Additional students will be admitted as space permits. 2. Students interested in popular, rock, jazz, or other contemporary styles should register for LEC 01. Students interested in classical, folk, "world," or other acoustic-based styles should register for LEC 02.

MUZH80H3 - Developing Musicianship

The continuing development of musicianship through music-making and creation, including elementary harmony, musical forms, introductory analytical and compositional techniques, and aural training.

Prerequisite: MUZA80H3/(VPMH95H3) or successful clearance of the MUZA80H3 exemption test.

Exclusion: (VPMH90H3)

Breadth Requirements: Arts, Literature and Language

MUZH81H3 - The Independent Music-Maker

Building upon Developing Musicianship, this course involves further study of musicianship through music-making and creation, with increased emphasis on composition. The course will provide theory and formal analysis, dictation, notation methods, and ear-training skills.

Prerequisite: MUZH80H3/(VPMH88H3)

Exclusion: (VPMH90H3)

Breadth Requirements: Arts, Literature and Language

MUZH01H3 - Exploring Community Music

Our local communities are rich with music-making engagement. Students will critically examine community music in the GTA through the lenses of intergenerational music-making, music and social change, music and wellbeing, and interdisciplinary musical engagement. Off-campus site visits are required.

Prerequisite: MUZH01H3/(VPMH01H3)

Exclusion: (VPMH01H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

Note: Priority will be given to students enrolled in the Major and Minor programs in Music and Culture. Additional students will be admitted as space permits.

MUZH02H3 - Music, Health, and Wellness

This course extends the examination of theories and practices covered in MUZA02H3. Students will develop deeper understandings of how music can be used for therapeutic and non-therapeutic purposes. Off-campus observations and musical participation outside of class time are a requirement of this course.

Prerequisite: Any 7.0 credits including MUZA02H3

Exclusion: (VPMH02H3)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Minor and Major programs in Music . Additional students will be admitted as space permits.

MUZY20H3 - Movies, Music and Meaning

This course examines the synergistic relationship between the moving image and music and how these synergies result in processes of meaning-making and communication. Drawing on readings in cultural theory, cultural studies, musicology and film studies, the course considers examples from the feature film, the Hollywood musical, and the animated cartoon.

Prerequisite: 2.0 credits at the B-level in MUZ/(VPM) courses

Exclusion: (MDSC85H3), (VPMC85H3)

Breadth Requirements: Arts, Literature and Language

Note: No Specialist knowledge in Musicology or Film Studies required.

MUZY21H3 - Musical Diasporas

This course examines the unique role of music and the arts in the construction and maintenance of transnational identity in the diaspora. The examples under study will cover a wide range of communities (e.g. Asian, Caribbean and African) and places.

Prerequisite: MUZY80H3/(VPMB88H3) and [an additional 0.5 credit at the B-level in MUZ/(VPM) courses]

Exclusion: (VPMC95H3)

Breadth Requirements: Social and Behavioural Sciences

MUZY22H3 - Jazz Roots and Routes

A history of jazz from its African and European roots to present-day experiments. Surveys history of jazz styles, representative performers and contexts of performance.

Prerequisite: MUZY20H3/(VPMB82H3) and [an additional 1.0 credit at the B-level in MUZ/(VPM) courses]

Exclusion: (VPMC94H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MUZY23H3 - Critical Issues in Music and Society

An investigation into significant issues in music and society. Topics will vary but may encompass art, popular and world music. Issues may include music's relationship to technology, commerce and industry, identity, visual culture, and performativity. Through readings and case studies we consider music's importance to and place in society and culture.

Prerequisite: MUZY20H3/(VPMB82H3) and 1.0 credit at the C-level in MUZ/(VPM) courses

Exclusion: (VPMC65H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MUZY40H3 - The Composer's Studio

Students will write original works for diverse styles and genres while exploring various compositional methods. The class provides opportunities for students to work with musicians and deliver public performances of their own work.

Prerequisite: MUZY81H3/(VPMB90H3) and an additional 1.0 credit at the B-level in MUZ/(VPM) courses

Exclusion: (VPMC90H3)

Breadth Requirements: Arts, Literature and Language

MUZY41H3 - Digital Music Creation

This course will explore various techniques for digital audio production including recording, editing, mixing, sequencing, signal processing, and sound synthesis. Students will develop creative skills for electronic media through theoretical, aesthetic, and practical perspectives.

Prerequisite: MUZY40H3/(VPMB91H3) and MUZY80H3/(VPMB88H3)

Exclusion: (VPMC91H3)

Breadth Requirements: Arts, Literature and Language

MUZY42H3 - Creative Audio Design Workshop

This course will explore music production and sound design techniques while examining conceptual underpinnings for creating works that engage with space and live audiences. Students will develop creative skills for electronic media through theoretical, aesthetic, and practical perspectives.

Prerequisite: MUZY40H3/(VPMB91H3) and MUZY80H3/(VPMB88H3)

Breadth Requirements: Arts, Literature and Language

MUZY43H3 - Music, Technologies, Media

This course examines critical issues of music technology and the ways in which digital technology and culture impact the ideologies and aesthetics of musical artists. Students will become familiar with contemporary strategies for audience building and career development of technology-based musicians.

Prerequisite: [2.0 credits at the B-level in MUZ/(VPM) courses] or [2.0 credits at the B-level in MDS courses]

Exclusion: (VPMC97H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MUZYC60H3 - Concert Band IIIa

The practical study of instrumental ensemble performance in the Concert Band setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Concert Band attempts to accommodate everyone, but is not a course to learn an instrument for the first time.

Prerequisite: MUZYB61H3/(VPMB74H3)

Exclusion: (VPMC73H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

MUZYC61H3 - Concert Band IIIb

The practical study of instrumental ensemble performance in the Concert Band setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Concert Band attempts to accommodate everyone, but is not a course to learn an instrument for the first time.

Prerequisite: MUZYC60H3/(VPMC73H3)

Exclusion: (VPMC74H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

MUZYC62H3 - Concert Choir IIIa

The practical study of vocal ensemble performance in the Concert Choir setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement Interview required. Concert Choir attempts to accommodate everyone.

Prerequisite: MUZYB63H3/(VPMB71H3)

Exclusion: (VPMC70H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

MUZYC63H3 - Concert Choir IIIb

The practical study of vocal ensemble performance in the Concert Choir setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement Interview required. Concert Choir attempts to accommodate everyone.

Prerequisite: MUZYC62H3/(VPMC70H3)

Exclusion: (VPMC71H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

MUZYC64H3 - String Orchestra IIIa

The practical study of instrumental ensemble performance in the String Orchestra setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. String Orchestra attempts to accommodate everyone, but is not a course to learn an instrument for the first time.

Prerequisite: MUZYB65H3/(VPMB67H3)

Exclusion: (VPMC66H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major and Minor programs in Music and Culture.

Additional students will be admitted as space permits.

MUZYC65H3 - String Orchestra IIIb

The practical study of instrumental ensemble performance in the String Orchestra setting. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. String Orchestra attempts to accommodate everyone, but is not a course to learn an instrument for the first time.

Prerequisite: MUZYC64H3/(VPMC66H3)

Exclusion: (VPMC67H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Major and Minor programs in Music and Culture.

Additional students will be admitted as space permits.

MUZYC66H3 - Small Ensembles IIIa

The practical study of small ensemble performance, including public presentations and group recitals. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Small Ensembles attempts to accommodate everyone, but is not a course to learn an instrument for the first time.

Prerequisite: MUZYB67H3/(VPMB69H3)

Exclusion: (VPMC68H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: 1. Priority will be given to students enrolled in the Major and Minor programs in Music and Culture.

Additional students will be admitted as space permits. 2. Students interested in popular, rock, jazz, or other contemporary styles should register for LEC 01. Students interested in classical, folk, "world," or other acoustic-based styles should register for LEC 02.

MUZYC67H3 - Small Ensembles IIIb

The practical study of small ensemble performance, including public presentations and group recitals. Students are normally expected to complete both Fall and Winter sessions in the same ensemble. Placement interview required. Small Ensembles attempts to accommodate everyone, but is not a course to learn an instrument for the first time.

Prerequisite: MUZYC66H3/(VPMC68H3)

Exclusion: (VPMC69H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Students interested in popular, rock, jazz, or other contemporary styles should register for LEC 01. Students interested in classical, folk, "world," or other acoustic-based styles should register for LEC 02.

MUZYC80H3 - Topics in Music and Culture

The investigation of an area of current interest and importance in musical scholarship. The topic to be examined will change from year to year and will be available in advance on the ACM department website.

Prerequisite: 1.0 credit at the B-level from the following: MUZYB01H3, MUZYB20H3, or MUZYB80H3

Exclusion: (VPMC88H3)

Breadth Requirements: History, Philosophy and Cultural Studies

MUZYC81H3 - Issues in Popular Music: Heritage, Preservation & Archives

Popular music, especially local music, are cultural artifacts that shape local communities and the navigation of culturally hybrid identities. Music is also a significant technology of "remembering in everyday life," a storehouse of our memories. In this course we examine acts of popular music preservation and consider questions such as: what happens when museums house popular music exhibitions? Who has the authority to narrate popular music, and how does popular music become a site of cultural heritage? Throughout this course, we will work with a notion of "heritage" as an act that brings the past into conversation with the present and can powerfully operate to bring people together while simultaneously excluding others or strategically forgetting. We will spend time with bottom-up heritage projects and community archives to better understand how memory is becoming democratized beyond large cultural institutions. As more and more cultural heritage becomes digitally born, new possibilities and new risks emerge for the preservation of popular music cultures.

Prerequisite: 1.0 credit at the B-level from the following: MUZYB01H3, MUZYB20H3, or MUZYB80H3

Breadth Requirements: History, Philosophy and Cultural Studies

MUZYD01H3 - Senior Seminar: Music in Our Communities

Through advanced studies in community music, students will combine theory and practice through intensive seminar-style discussions and an immersive service-learning placement with a community music partner. Off-campus site visits are required.

Prerequisite: MUZYC01H3/(VPMC01H3)

Exclusion: (VPMD01H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

Note: Priority will be given to students enrolled in the Major and Minor programs in Music and Culture. Additional students will be admitted as space permits.

MUZYD80H3 - Music and Culture Senior Project

This course will help students develop their self-directed projects that will further their research and interests. This project is intended to function as a capstone in the Major program in Music and Culture, reflecting rigorous applied and/or theoretical grounding in one or more areas of focus in the Music and Culture program.

Prerequisite: 1.5 credits at the C-level in VPM/MUZ courses.

Exclusion: (VPMD02H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

MUZYD81H3 - Independent Study in Music

A directed research, composition or performance course for students who have demonstrated a high level of academic maturity and competence. Students in performance combine a directed research project with participation in one of the performance ensembles.

Note: Students must submit a proposed plan of study for approval in the term prior to the beginning of the course, and must obtain consent from the supervising instructor and the Music Program Director.

Prerequisite: A minimum overall average of B+ in MUZY/VPM courses, and at least 1.0 full credit in music at the C-level. Students in the Composition option must also have completed MUZYC40H3/(VPMC90H3). Students in the Performance/research option must complete at least one course in performance at the C-level.

Exclusion: (VPMD80H3)

Music Industry and Technology

ACM Program Manager: Email: acm-pm@utsc.utoronto.ca

The Specialist (Joint) program in Music Industry, Business, and Technology is a 4-year, undergraduate Joint program that will allow students to earn an Honours Bachelor of Arts (H.B.A.) degree from the University of Toronto and an Ontario College Certificate in Music Business and Technology from Centennial. The Specialist (Joint) program in Music Industry and Technology aims to provide long-term career preparation by offering practical, career oriented courses in music business and technology, as well as their industry connections, in order to meet the needs of students who seek a combination of broad-based knowledge that can adapt to the rapidly changing landscape of music, business, and technology and career ready skills.

The program requires 15.5 credits, of which 7.5 credits are taught at UTSC and 8.0 credits are taught at Centennial. The program takes four years (including one spring internship) to complete. In addition to attaining an Honours BA from UTSC, students will also qualify for the Ontario College Certificate in Music Business and Technology. Students will be able to choose from two possible Certificate options, depending on their course selections in the program.

1. Audio Engineering: this track focusses on audio production; or
2. Music Business: this track focuses on management, marketing, publishing, and licensing. Students must choose either the Audio Engineering or Music Business track in Year 2 of the program. They will be required to submit their track preference to ACM Program Manager before transitioning to Centennial College.

Courses in this Specialist (Joint) program are currently taught at the UTSC campus and Centennial College. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.

Students will begin the program by taking courses on the UTSC campus, then spend three consecutive sessions at Centennial College – Winter of Year 2, and Year 3 (Fall, and Winter) – followed by a required internship in Winter (March-April) of Year 3. Students complete the program by taking courses on the UTSC campus.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Music Industry and Technology Programs

SPECIALIST (JOINT) PROGRAM IN MUSIC INDUSTRY AND TECHNOLOGY - SCSPMIT

The Specialist (Joint) program in Music Industry and Technology is a 4-year, undergraduate Joint program that will allow students to earn an Honours Bachelor of Arts (H.B.A.) degree from the University of Toronto and an Ontario College Certificate in Music Business and Technology from Centennial. The Specialist (Joint) program in Music Industry and Technology aims to provide long-term career preparation by offering practical, career-oriented courses in music business and technology, as well as their industry connections, in order to meet the needs of students who seek a combination of broad-based knowledge that can adapt to the rapidly changing landscape of music, business, and technology and career-ready skills.

This program has limited enrolment. In addition to meeting the 2.0 CGPA requirement, applicants must fill out a joint program application form, which will be made available on ACM website closer to the enrollment timeline.

The program requires 15.5 credits, of which 7.5 credits are taught at UTSC and 8.0 credits are taught at Centennial. The program takes four years (including one spring internship) to complete. In addition to attaining an Honours BA from UTSC,

students will also qualify for the Ontario College Certificate in Music Business and Technology. Students will be able to choose from two possible Certificate options, depending on their course selections in the program:

1. Audio Engineering: this track focusses on audio production; or
2. Music Business: this track focuses on management, marketing, publishing, and licensing.

Students must choose either the Audio Engineering or Music Business track in Year 2 of the program, and will not be able to change tracks without adding additional time to degree completion. Please consult with ACM Program Manager if you intend to complete both tracks. Note: Students will indicate to ACM Program Manager their preference before taking Winter courses.

Courses in this Specialist (Joint) program are currently taught at the UTSC campus and Centennial College. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.

Students will begin the program by taking courses on the UTSC campus, then spend three consecutive sessions at Centennial College – Winter of Year 2, and Year 3 (Fall, and Winter) – followed by a required internship in Winter (March-April) of Year 3. Students complete the program by taking courses on the UTSC campus.

Notes:

1. A minimum grade of 60% is required in the Centennial College courses to pass and maintain standing in the program.
2. Students at Centennial College must be enrolled on a full-time basis.
3. Courses at Centennial have a technology requirement. Please check with the ACM Program Manager for the latest specifications.
4. Students must maintain a Cumulative Grade Point Average (CGPA) of 2.0 or higher to remain in the program. Students whose CGPA falls below 2.0 will be removed from the Program. Students removed from the program, for this reason, may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Enrolment in this program is limited. Although students will enter directly from high school, there is also a pathway for students who have already begun their studies at UTSC.

Direct from high school:

- Students enrolling directly from high school are admitted on the basis of academic performance and the information provided in a Supplementary Application form (SAF).

Current UTSC students:

- Current UTSC students with a CGPA of at least 2.0 may apply to the program, after they have completed 4.0 credits, and must submit a Supplementary Application form (SAF). Students may apply until they have completed up to 10.0 credits, but once they have completed more than 10.0 credits will not be considered for admission.
- Admission will be based on the grades received and information in the SAF. Students should request the program on ACORN and submit the SAF by the specified application deadline; consult the Music and Culture website for details.
- In order to ensure degree completion in four years, students should ensure they complete the first 2.0 credits of the program ([MUZA80H3](#), [VPAA10H3](#), and 1.0 credit in performance courses) in their first year of studies.

Students must complete a total of 15.5 credits as follows.

1. First Year (2.5 credits; offered at UTSC):

[MUZA80H3](#) Foundations in Musicianship

[MUZA81H3](#) Introduction to Music Industry and Technology

[VPAA10H3](#) Introduction to Arts and Media Management

and 1.0 credit in performance ensembles* (Concert Choir, Concert Band, String Orchestra, Small Ensembles)

*Students can register for the ensemble of their choice. Students who play electric or electronic instruments should register for Small Ensembles. For additional information, see the [Music and Culture program page](#).

Note: Courses for Year 1 of the program are taught on the UTSC Campus.

2. Second Year (4.5 credits):

Fall Session (2.0 credits; offered at UTSC)

[MUZB80H3](#) Developing Musicianship

[MUZB40H3](#) Music and Technology

[MUZB41H3](#) DJ Cultures: Analogue Innovations, Digital Aesthetics

and 0.5 credit in performance ensembles* (Concert Choir, Concert Band, String Orchestra, Small Ensembles)

*Students can register for the ensemble of their choice. Students who play electric or electronic instruments should register for Small Ensembles. For additional information, see the [Music and Culture program page](#).

Note: Courses for Fall session of the program are taught on the UTSC Campus.

Winter Session – Group A (2.5 credits; offered at Centennial College)

[MBTB13H3](#) Songwriting 2

[MBTB41H3](#) Introduction to Audio Engineering

[MBTB50H3](#) Music Business Fundamentals

and 1.0 credit in track-specific courses, as follows:

- Students pursuing the Audio Engineering Certificate** must complete: [MBTC62H3](#) Advanced Sound Mixing and Editing
[MBTC63H3](#) Advanced Sound Production and Recording
- Students pursuing the Music Business Certificate** must complete: [MBTC70H3](#) Copyright, Royalties, Licensing, and Publishing
[MBTC72H3](#) Advanced Music Business

** Students must choose either Audio Engineering OR Music Business. This choice affects courses in Year 3; **students are cautioned that they cannot switch tracks.**

Note: Courses for the Winter session are taught at Centennial College. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.

Students are advised not to enrol in UTSC courses during the same term they are taking courses at Centennial College.

3. Third Year (5.5 credits):

Fall Session – Group B (2.5 credits; offered at Centennial College)

[Note: students will be eligible to enrol in these courses after successfully completing all courses in Group A]

[MBTB30H3](#) Art of Performance

[MBTB51H3](#) Musical Entrepreneurship

[MBTB11H3](#) Orchestral Arranging or [MBTB12H3](#) Vocal Arranging]

and 1.0 credit in track-specific courses, as follows:

- Students pursuing the Audio Engineering Certificate must complete: [MBTC60H3](#) Live Sound Engineering
[MBTC66H3](#) Studio Session Management
- Students pursuing the Music Business Certificate must complete: [MBTC71H3](#) Music Marketing and Social Media
[MBTC73H3](#) Artist Management and Promotion

Winter Session– Group C (2.5 credits; offered at Centennial College)

[Note: students will be eligible to enrol in these courses after successfully completing all courses in Group B]

MBTC52H3 Contemporary Music Industry Issues
MBTC98H3 Music Career Development
 and 1.5 credits selected from the following:
MBTC67H3 Audio Mastering
MBTC68H3 Audio Engineering for Gaming and VR
MBTC74H3 Music Supervision and Consulting
MBTC75H3 Music Journalism
MBTC82H3 Indie Artist Development

Winter Session – Group D (0.5 credit)

[Note: students will be eligible to enrol in these courses after successfully completing all courses in Group C]

MBTD99H3 Field Placement***

***Note: this 6-week placement takes place in March-April

Note: Courses for Year 3 of the program are taught at Centennial College. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.

Students are advised not to enrol in UTSC courses during the same term they are taking courses at Centennial College.

4. Fourth Year (3.0 credits; offered at UTSC):

MUZB81H3 The Independent Music-Maker

MUZY41H3 Digital Music Creation

MUZY21H3 Musical Diasporas

MUZY43H3 Music, Technologies, Media

MUZY42H3 Creative Audio Design Workshop

MUZD80H3 Music and Culture Senior Project Note: courses for Year 4 of the program are taught on the UTSC campus

Music Industry and Technology Courses

MBTB11H3 - Orchestral Arranging

Students will learn and practice a variety of techniques relating to orchestral and choral composition and arranging. Essential concepts relating to clefs and pitch range will be taught, as well as compositional principles and techniques such as voice leading and counterpoint. An emphasis will be placed on honing creativity and applying a variety of non-Western musical influences. Students will be able to apply the material learned in this course to all other courses relating to music creation.

Prerequisite: MBTB13H3, MBTB41H3, MBTB50H3, [MBTC62H3 or MBTC70H3] or [MBTC63H3 or MBTC72H3]

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTB12H3 - Vocal Arranging

Students will apply concepts learned during the first two years of the program to the creation and performance of advanced multi-part vocal arrangements. A variety of methods of vocal arranging will be explored, and

performance techniques such as balancing, diction, breath control, projection, and dynamics will be applied to the execution of the created arrangements.

Prerequisite: MBTB13H3, MBTB41H3, MBTB50H3, [MBTC62H3 or MBTC70H3] or [MBTC63H3 or MBTC72H3]

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTB13H3 - Songwriting 2

In this course students explore a variety of topics relating to songwriting. Advanced techniques relating to melody, lyric, and chord writing will be discussed and applied creatively to original songs. This course is taught at Centennial College.

Prerequisite: MUZA80H3 and MUZB40H3 and MUZB41H3 and MUZB80H3 and 1.0 credit in performance ensembles

Corequisite: MBTB41H3 and MBTB50H3 and [MBTC62H3 and MBTC63H3] or [MBTC70H3 and MBTC72H3]

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTB30H3 - Art of Performance

This course will prepare students to become professional performers that meet and exceed audience expectations. From the perspective of an "indie" musician, students will learn how to perform in line with contemporary standards of excellence and entertainment.

Prerequisite: MBTB13H3, MBTB41H3, MBTB50H3, [MBTC62H3 or MBTC70H3] or [MBTC63H3 or MBTC72H3]

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTB41H3 - Introduction to Audio Engineering

This course will introduce students to live and studio sound by giving them hands-on experience on equipment in a professional recording studio. This course is taught at Centennial College.

Prerequisite: MUZA80H3 and MUZA40H3 and MUZA41H3 and MUZA80H3 and 1.0 credit in performance ensembles

Corequisite: MBTB13H3 and MBTB50H3 and [[MBTC62H3 and MBTC63H3] or [MBTC70H3 and MBTC72H3]]

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTB50H3 - Music Business Fundamentals

Students will develop a foundational knowledge of the music industry that will serve as a base for all other music business-related courses. Students will be introduced to the terminology, history, infrastructure, and careers of the music industry. Students will be introduced to fundamental areas of business management. Legal issues and the future of the music industry will also be discussed. All material will be taught from a uniquely Canadian perspective.

Prerequisite: MUZA80H3 and MUZA40H3 and MUZA41H3 and MUZA80H3 and 1.0 credit in performance ensembles

Corequisite: MBTB13H3 and MBTB41H3 and [[MBTC62H3 and MBTC63H3] or [MBTC70H3 and MBTC72H3]]

Breadth Requirements: Arts, Literature and Language

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTB51H3 - Musical Entrepreneurship

Students will learn how to earn a sustainable full-time living as a self-employed musician and creative professional. Topics covered include grant writing, publishing, licensing, contracts, and copyright. Students will also learn some basic accounting and marketing skills. The course will provide students with a foundation for courses in the Music Creation and Business track and for the pursuit of a music career.

Prerequisite: MBTB13H3, MBTB41H3, MBTB50H3, [MBTC62H3 or MBTC70H3] or [MBTC63H3 or MBTC72H3]

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTC52H3 - Contemporary Music Industry Issues

Students will learn how to apply principles and values relating to global citizenship and equity to the music industry. Issues relating to women, visible minorities, and members of the LBGT+ community in the music industry will be explored as students consider ways they can act as catalysts for positive change. Students will also learn about recent and upcoming political, economic, social and technological changes that affect the music industry of the present and future.

Prerequisite: MBTB30H3, MBTB51H3, [MBTB11H3 or MBTB12H3], [MBTC60H3 or MBTC71H3], [MBTC66H3 or MBTC73H3]

Corequisite: MBTC98H3

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTC60H3 - Live Sound Engineering

This course will train students for the role of live sound engineer. Students will learn how to setup, operate, take down, maintain, and store all components of a live sound system. Other topics to be discussed include acoustics, sound tests, working with performers, and career options.

Prerequisite: MBTB13H3, MBTB41H3, MBTB50H3, [MBTC62H3 or MBTC70H3] or [MBTC63H3 or MBTC72H3]

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology and pursuing Audio Engineering Certificate.

MBTC62H3 - Advanced Sound Mixing and Editing

This course focuses specifically on sound mixing and editing – all stages of post-production. Students will learn how to work efficiently with a variety of different musical content. This course will help students with regard to software proficiency, and to develop a producer's ear. This course is taught at Centennial College.

Prerequisite: [MUZA80H3](#) and [MUZB80H3](#) and [MUZB40H3](#) and [MUZB41H3](#) and 1.0 credit in performance ensembles

Corequisite: [MBTB13H3](#), [MBTB41H3](#), and [MBTB50H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTC63H3 - Advanced Sound Production and Recording

This course focuses on a variety of techniques for achieving the best possible sound quality during the sound recording process. Topics discussed include acoustics, microphone selection and placement, drum tuning, guitar and bass amplifiers, preamplifiers, and dynamics processors. This course will help prepare students for work as recording studio engineers, and to be self-sufficient when outputting recorded works as a composer/musician. This course is taught at Centennial College.

Prerequisite: [MUZA80H3](#) and [MUZB80H3](#) and [MUZB40H3](#) and [MUZB41H3](#) and 1.0 credit in performance ensembles

Corequisite: [MBTB13H3](#), [MBTB41H3](#), and [MBTB50H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTC66H3 - Studio Session Management

Students will learn how to successfully run a professional recording studio session by assuming a leadership role as audio engineer and producer, and by synthesizing techniques relating to audio production and recording, audio mixing and editing, and audio consoles. This experiential course will also provide opportunities for students to exercise and develop troubleshooting and critical thinking skills that are necessary in a recording studio. Students will also learn about studio equipment and maintenance in ways that build on prior courses.

Prerequisite: [MBTB13H3](#), [MBTB41H3](#), [MBTB50H3](#), [\[MBTC62H3 or MBTC70H3\]](#) or [\[MBTC63H3 or](#)

[MBTC72H3\]](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology and pursuing Audio Engineering Certificate.

MBTC67H3 - Audio Mastering

Students will explore a variety of techniques associated with creating a professional mastered stereo mix. Students will learn how to use various digital and analog tools during the mastering process in order to create final stereo mixes that reflect industry practices and standards.

Prerequisite: [MBTB30H3](#), [MBTB51H3](#), [\[MBTB11H3 or MBTB12H3\]](#), [\[MBTC60H3 or MBTC71H3\]](#), [\[MBTC66H3 or MBTC73H3\]](#)

Corequisite: [MBTC52H3](#) and [MBTC98H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTC68H3 - Audio Engineering for Gaming and VR

Students will learn how to mix audio for projects associated with video games and virtual reality (VR). Students will explore techniques for recording sound that accompanies video filmed by a 360-degree camera, and how to effectively use a variety of software programs and tools associated with gaming and VR.

Prerequisite: [MBTB30H3](#), [MBTB51H3](#), [\[MBTB11H3 or MBTB12H3\]](#), [\[MBTC60H3 or MBTC71H3\]](#), [\[MBTC66H3, OR MBTC73H3\]](#)

Corequisite: [MBTC52H3](#) and [MBTC98H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTC70H3 - Copyright, Royalties, Licensing, and Publishing

This course will delve deeper into the overlapping areas of copyright, royalties, licensing, and publishing. These topics will be discussed from an agency perspective. Students will learn about the processes and activities that occur at publishing and licensing agencies in order to prepare for careers at such businesses. This course is taught at Centennial College.

Prerequisite: [MUZA80H3](#) and [MUZB80H3](#) and [MUZB40H3](#) and [MUZB41H3](#) and 1.0 credit in performance ensembles

Corequisite: [MBTB13H3](#), [MBTB41H3](#), and [MBTB50H3](#)

Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience
Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology

MBTC71H3 - Music Marketing and Social Media

Students will explore a variety of strategies and techniques relating to music marketing. An emphasis will be placed on social media, the most important growth area in music marketing. Students will develop the computer and Internet savvy necessary to engage in music marketing and social media practices.

Prerequisite: MBTB13H3, MBTB41H3, MBTB50H3, [MBTC62H3 or MBTC70H3] or [MBTC63H3 or MBTC72H3]

Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience
Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology and pursuing Music Business Certificate.

MBTC72H3 - Advanced Music Business

Students will delve deeper into a variety of topics relating to working in the music industry. Topics include grant writing, bookkeeping, contracts, and the future of the music industry. Students will be taught how to be innovative, flexible team players in a rapidly changing industry. This course is taught at Centennial College.

Prerequisite: MUZA80H3 and MUZB80H3 and MUZB40H3 and MUZB41H3 and 1.0 credit in performance ensembles

Corequisite: MBTB13H3, MBTB41H3, and MBTB50H3
Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience
Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTC73H3 - Artist Management and Promotion

Students will learn about the activities and strategies of artist managers and promoters. After discussing industry practices and key businesses of the past and present, students will gain hands-on experience by providing managerial services for artists and organizing and promoting musical events. This will provide students with valuable training that they can apply to a career as a manager, promoter, or professional artist.

Prerequisite: MBTB13H3, MBTB41H3, MBTB50H3, [MBTC62H3 or MBTC70H3] or [MBTC63H3 or MBTC72H3]

Corequisite: MBTC52H3 and MBTC98H3

Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience
Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology and pursuing Music Business Certificate

MBTC74H3 - Music Supervision and Consulting

Students will learn how to apply their knowledge of a variety of music cultures and their training in licensing and copyright to a career as a music supervisor or consultant. After discussing techniques, processes, and career options, students will engage in a number of projects involving the pairing of visual media with music. Such projects will give students hands-on training and experience related to jobs as music supervisors and consultants.

Prerequisite: Successful completion of courses listed in Group B of the Specialist (Joint) program in Music Industry and Technology

Breadth Requirements: Arts, Literature and Language
Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTC75H3 - Music Journalism

This course will teach students how to write about music for the popular press and how to write a personal bio they can use. After discussing the career options associated with music journalism, students will engage in a variety of writing projects including album reviews, concert reviews, artist profiles, "Q & A" pieces, news stories along with bios and press releases for press kits. This course will nurture creative writing that can be applied to a variety of music-related careers.

Prerequisite: MBTB30H3, MBTB51H3, [MBTB11H3 or MBTB12H3], [MBTC60H3 or MBTC71H3], [MBTC66H3, OR MBTC73H3]

Corequisite: MBTC52H3 and MBTC98H3

Breadth Requirements: Arts, Literature and Language
Course Experience: University-Based Experience
Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTC82H3 - Indie Artist Development

This course will serve as a culmination of everything that students have learned relating to the music industry by applying a variety of concepts toward the early development independent recording artists' careers. Students will work on the development of their own careers as artists and the burgeoning careers of other emerging artists.

Prerequisite: MBTB30H3, MBTB51H3, [MBTB11H3 or MBTB12H3], [MBTC60H3 or MBTC71H3], [MBTC66H3, OR MBTC73H3]

Corequisite: MBTC52H3 and MBTC98H3

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.

MBTC98H3 - Music Career Development

This course will equip students with practical tools necessary to successfully acquire a field placement (in the short term) and a sustainable full-time music career (in the long term). Students will engage in reflective practice on their experience in the Specialist (Joint) program in Music Industry and Technology in order to identify their greatest strengths and determine the best career path to pursue. Students will then be guided through each step of the field placement acquisition process, thereby gaining valuable experience useful for pursuing a full-time career after graduation.

Prerequisite: MBTB30H3, MBTB51H3, [MBTB11H3 or MBTB12H3], [MBTC60H3 or MBTC71H3], [MBTC66H3, OR MBTC73H3]

Corequisite: MBTC52H3

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: Enrollment is restricted to students enrolled in

Specialist (Joint) program in Music Industry and Technology.

MBTD99H3 - Field Placement

In this course, students will engage in a six-week field placement. Students will take courses for the first 8 weeks of the semester and then in the last 6 weeks they will do their field placement. This field placement will allow students to apply what they have learned in the Specialist (Joint) program in Music Industry and Technology in a real-life work setting. This will enable students to gain valuable work experience, network with possible future employers and collaborators, and refine their career goals.

Prerequisite: MBTB30H3, MBTB51H3, [MBTB11H3 or MBTB12H3], [MBTC60H3 or MBTC71H3], [MBTC66H3, OR MBTC73H3]

Corequisite: MBTC52H3 and MBTC98H3

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

Note: Notes:

1. Enrollment is restricted to students enrolled in Specialist (Joint) program in Music Industry and Technology.
2. The material covered in Course MBTC98H3 Music Career Development aids students for the preparation of their field placement.
3. Note: this 6-week placement takes place in March - April.

Neuroscience

Faculty List

- I. Anreiter, B. Sc. (Universidade Técnica de Lisboa), M.Sc. (Universidade Nova de Lisboa), Ph. D. (Toronto), Assistant Professor
- B.C. Armstrong, B.Sc., M.A. (Toronto), M.S., Ph.D., (Carnegie Mellon), Assistant Professor
- M. Arruda-Carvalho, B.Sc., M.Sc. (Rio de Janeiro), Ph.D. (Toronto), Assistant Professor
- M.W. Best, B.Sc., M.Sc., Ph.D. (Queens), Assistant Professor
- R. Boonstra, B.Sc. (Calgary), Ph.D. (British Columbia), Professor Emeritus
- J.S. Cant, B.A., M.Sc., Ph.D. (Western), Associate Professor
- L. Cirelli, B.A. (Laurentian), Ph.D. (McMaster), Assistant Professor
- S. Erb, B.Sc. (Wilfrid Laurier), M.A., Ph.D. (Concordia), Associate Professor
- M. Gadziola, B.Sc. (McMaster), Ph.D. (Kent State), Assistant Professor
- V. Goghari, B.A. (British Columbia), M.A., Ph.D. (Minnesota), Professor
- J.W. Gurd, B.A. (Mount Allison), Ph.D. (McGill), Professor Emeritus
- D.W. Haley, B.A. (Annapolis), M.A. (San Francisco), Ph.D. (Albuquerque), Associate Professor
- C. Hutcherson, B.A. (Harvard), Ph.D. (Stanford), Associate Professor
- M. Inzlicht, B.A. (McGill), M.Sc., Ph.D. (Brown), Professor
- R. Ito, B.A. (Oxford), Ph.D. (Cambridge), Professor
- J.C. LeBoutillier, B.Sc., M.A., Ph.D. (Toronto), Associate Professor Emerita, Teaching Stream
- A.C.H. Lee, B.A. (Oxford), Ph.D. (Cambridge), Professor
- A.C. Mason, B.Sc. (Guelph), M.Sc., Ph.D. (Toronto), Professor
- P. McGowan, B.Sc. (Concordia), M.A., Ph.D. (Duke), Professor
- J.E. Nash, B.Sc. (Aberdeen), M.Sc., Ph.D. (Manchester), Associate Professor
- A. Nestor, B.A. (Bucharest), M.Sc. (New Bulgarian), Ph.D. (Brown), Associate Professor
- M. Niemeier, M.A. (Hamburg), Ph.D. (Tubingen), Professor
- T.L. Petit, B.Sc., M.A. (Louisiana), Ph.D. (Florida), Professor Emeritus
- O. Podolak Lewandowska, B.Sc (McMaster), M.A., Ph.D. (Toronto), Assistant Professor, Teaching Stream
- S.G. Reid, B.Sc., Ph.D. (Ottawa), Associate Professor
- R. Rozeske, B.A. (St. Olaf), M.A., Ph.D. (Colorado), Assistant Professor
- A.C. Ruocco, B.Sc. (York), M.Sc., Ph.D., C. Psych (Drexel), Professor
- M. Souza, B.A., M.A. (UC Davis), Ph.D. (Berkeley), Associate Professor, Teaching Stream
- T.R. Thiele, B.A. (Hamilton College, Clinton, NY), Ph.D. (Oregon), Assistant Professor
- R. Thiruchselvam, B.Sc. (Toronto), Ph.D. (Stanford), Assistant Professor, Teaching Stream
- K.K. Zakzanis, B.A., M.A., Ph.D., C.Psych. (York), Professor

Chair: S. Erb

Associate Chair, Undergraduate and Program Supervisor: K. Danielson

Undergraduate Program Administrator: psychundergrad.utsc@utoronto.ca

Co-op Contact: askcoop@utoronto.ca

For more information, [visit the Department of Psychology website](#).

Neuroscience is a highly interdisciplinary scientific field of study that offers insight into the structure and function of the brain and the nervous system. Our nervous system is responsible for an enormous range of tasks, from regulating essential body functions such as breathing and digestion to producing our thoughts, emotions, and behaviours. Neuroscientists are interested in understanding the normal development and activity of the nervous system, as well as what happens under atypical circumstances such as neurological injury (e.g., stroke, brain injury), neurodegenerative diseases (e.g., Alzheimer's, Parkinson's disease), neuropsychiatric disorders (e.g., addiction, schizophrenia, depression) and neurodevelopmental disorders (e.g., autism). Applied neuroscience research has the potential to produce evidence-based strategies for the diagnosis and treatment of nervous system disorders.

Neuroscience education can be a powerful tool for many future endeavours. Given the interdisciplinary nature of neuroscience, students interested in pursuing research-focused graduate programs may have a variety of viable options (e.g., Ph.D. in Neuroscience, Psychology, or Biology). A neuroscience background is also valuable for a range of applied

professional programs (e.g., Master's Degree in Physiotherapy, Occupational Therapy, Public Health), including medical school. Undergraduate education in neuroscience can also lead to a variety of direct-entry careers (e.g., research technician, data analyst, pharmaceutical sales).

Subdisciplines in neuroscience examine nervous system functioning at different levels of organization and analysis.

- Cellular and Molecular Neuroscience explores the nervous system at its most fundamental level, investigating the influence of genes, signalling molecules, and cellular morphology on the development and maintenance of brain function, predominantly through the use of *in vitro* techniques (e.g., immunohistochemistry, patch clamp).
- Systems and Behavioral Neuroscience examines the neural mechanisms underlying behaviour and how brain circuits work together to analyze external stimuli, internal biological states and past experiences in order to coordinate appropriate responses, predominantly through the use of *in vivo* approaches in behaving subjects (e.g., optogenetics, chemogenetics).
- Cognitive Neuroscience focuses on understanding the neural basis of human cognition (e.g., language, memory, attention, decision-making) predominantly through the use of patient neuropsychology and neuroimaging techniques (e.g., magnetic resonance imaging (MRI), electroencephalography (EEG)). Taken together, these complementary approaches work to foster a comprehensive understanding of nervous system dynamics.

The Specialist Program in Neuroscience is research-intensive and allows students to choose one of three streams to concentrate their studies: Cellular/Molecular, Systems/Behavioural, or Cognitive. Our Major program, which focuses on both Cellular/Molecular and Systems/Behavioural Neuroscience, requires less coursework and allows students to pursue a second major in a different area of interest. The Specialist (Co-op) and Major (Co-op) Programs in Neuroscience also require successful completion of twelve months of work-term experience.

A program in Neuroscience pairs well with many other courses and programs here at UTSC. A few of the most common double major pairings with Neuroscience include Psychology, Mental Health Studies, and Human Biology. While these are the most common pairings, there are many other options that are highly complementary to training in neuroscience (e.g., Computer Science, Population Health, and Molecular Biology, Immunology and Disease), and we encourage students to explore and identify the combinations that are most consistent with their interests.

Planning Your Program in Neuroscience

Creating an academic plan - a road map of the courses you wish to take on the timeline you wish to take them - is crucial for the efficient and successful completion of your program. We strongly encourage our students to either develop an academic plan independently and then to consult the Department of Psychology Advisors for feedback, or to work with the Advisors to develop an academic plan. These advisors can provide valuable guidance to help you structure your program to improve your competitiveness for further studies after your undergraduate degree. For more information, please see the [Department of Psychology website](#).

First-year Course Selection

Students interested in pursuing a program in Neuroscience must take [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [CHMA11H3](#), [PSYA01H3](#), and [PSYA02H3](#) (or their equivalents) to be considered for admission.

Second-year Course Selection

Upon admission to any of the Neuroscience programs, students should prioritize taking [BIOB10H3](#), [NROB60H3](#), [NROB61H3](#), [PSYB07H3](#), [PSYB55H3](#), and [PSYB70H3](#). These courses collectively serve as prerequisites to a number of more advanced courses at the NRO C-level (e.g., [NROC61H3](#)).

[BIOB11H3](#) is a program requirement for students in the Major program, and the Systems/Behavioural and Cellular/Molecular streams of the Specialist program. Students in the Major or in pursuit of the Systems/Behavioural or Cellular/Molecular streams should plan to take [BIOB11H3](#) in the second year.

Students in the Specialist/Specialist (Co-op) programs have additional course requirements in the second year, including [\[MATA29H3 or MATA30H3\]](#). It is essential that you carefully review these requirements and plan your course selection appropriately to ensure that you can declare your stream of choice in a timely manner.

Courses in Psychology and Neuroscience

Enrolment controls exist for all PSY/NRO C- and D-level courses, and some B-level courses. Eligibility is based on current program enrolment. Refer to the [timetable](#) for this information.

Prerequisites: Students are responsible for ensuring that they have successfully completed the prerequisites for all PSY/NRO courses they register for. Students who register for courses for which they have not completed the prerequisites will be removed. Please consult with the Undergraduate Program Administrator immediately if you have petitioned for an exam deferral or have a Standing Deferred (SDF) status in a prerequisite course.

D-level enrolment: Students in a Specialist program in Psychology, Mental Health Studies, or Neuroscience, or in a Double Major in Psychology/Mental Health Studies and Neuroscience, may complete a maximum of 1.0 PSY/NRO D-level credits. Students in a single Major program in Psychology, Mental Health Studies, or Neuroscience may complete a maximum of 0.5 PSY/NRO D-level credits. Students in the Minor Program in Psychology are not eligible for enrolment in PSY/NRO D-level courses. Students will be refused from any PSY/NRO D-levels beyond this limit. [PSYD98Y3](#) and [NROD98Y3](#) are exempt from the above requirements and do not count toward the D-level limit. Full information about PSY/NRO D-level courses can be found [here](#).

Course Equivalents at Other Campuses

Students are strongly encouraged to complete all Neuroscience program requirements at UTSC. In only a very few instances, courses from the other campuses may be used to satisfy program requirements. Please direct any questions about taking program requirements at the other UofT campuses to the Undergraduate Program Administrator in the Department of Psychology *prior* to enrolment.

Research Experience

The Department offers a wide array of opportunities for students to become actively involved in scholarly research, including some opportunities that also result in course credit (e.g., [PSYB90H3](#), [NROC90H3](#), and [NROD98Y3](#)). Supervised study and thesis courses are highly competitive and are essential for students interested in pursuing research-focused graduate studies. Interested students should review the prerequisites for these courses and plan their course of study accordingly. Our Specialist programs prepare students particularly well for pursuing a thesis [NROD98Y3](#), as the requirements of the program provide students with the necessary background to succeed in completing a thesis project. Interested Majors may also discuss the option of writing a thesis with the Department of Psychology Advisors, provided that they meet other prerequisites for that course. Students are encouraged to visit the [Department of Psychology](#) website and/or faculty member websites to search for opportunities. Students may also seek supervision off campus (e.g., at Baycrest, Sunnybrook, CAMH), after confirming the appropriateness of the proposed supervisor with a Psychology Advisor and after securing the agreement of a UTSC faculty member to serve as secondary supervisor.

Co-curricular and Extra-curricular Experiences

While your coursework is an integral piece of your education, it can and should be supplemented by relevant co-curricular and extra-curricular experiences, more information is available on the [Career & Co-Curricular Learning Network](#) website. There are valuable professional development resources in our departments and on our campus (e.g., [Academic Advising and Career Centre](#)), as well as opportunities to volunteer or work on- or off-campus to broaden your skillset (e.g., clinical work exposure, leadership skills). For more information on some of these opportunities, please see the [Department of Psychology](#) website.

Program Combination Restrictions

The Specialist/Specialist Co-op programs in Neuroscience cannot be combined with the Major/Major Co-op programs in Neuroscience.

The Specialist/Specialist Co-op programs in Neuroscience cannot be combined with any Major or Minor program offered by the Department of Biological Sciences.

The Major/Major Co-op programs in Neuroscience cannot be combined with the Minor Program in Biology.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Neuroscience Programs

SPECIALIST PROGRAM IN NEUROSCIENCE - Cellular/Molecular Stream (SCIENCE) - SCSPE1272

The Specialist program in Neuroscience is a research-intensive program designed to provide students with strong breadth in the major domains of neuroscience. The **Cellular/Molecular** stream explores the nervous system at its most fundamental level, investigating the influence of genes, signaling molecules, and cellular morphology on the development and maintenance of brain function, predominantly through the use of *in vitro* techniques (e.g., immunohistochemistry, patch clamp).

Students may not combine a Neuroscience Specialist program with a Minor or Major program from the Department of Biological Sciences.

Enrolment in the Program is limited. The admission requirements may change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

Enrolment takes place in two stages:

Stage 1:

The minimum requirements to be considered for admission are:

1. Completion of 4.0 credits, including [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [[CHMA11H3](#) or [CHMA12H3](#)], [PSYA01H3](#), and [PSYA02H3](#)
2. A CGPA of 2.75 or higher.

Students will typically apply to Stage 1 at the end of their first year of study. **When applying, note that the Subject POST code for Stage 1 is SCSPE1072.** Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the [Office of the Registrar](#) website.

Stage 2:

To complete the program, students must choose one of the three available "Stage 2" streams: the Cognitive Stream, the Cellular/Molecular Stream, or the Systems/Behavioural Stream. Students will typically apply to Stage 2 at the end of their second year of study.

The minimum requirements to be considered for stream admission are:

1. Completion of 10.0 credits including: all Stage 1 course requirements, [[MATA29H3](#) or [MATA30H3](#)], and all *Neuroscience Foundations* courses: [BIOB10H3](#), [NROB60H3](#), [NROB61H3](#), [[PSYB07H3](#) or [STAB22H3](#)], [PSYB55H3](#), [PSYB70H3](#)
2. Completion of 1.0 credit in *Stream Foundations* courses from the following list*:
[BIOB11H3](#) Molecular Aspects of Cellular and Genetic Processes
[CSCA20H3](#) Introduction to Programming
[CHMB41H3](#) Organic Chemistry I
[CHMB42H3](#) Organic Chemistry II
[MATA23H3](#) Linear Algebra

[[PHYA10H3](#) Physics I for the Physical Sciences or [PHYA11H3](#) Physics I for the Life Sciences]
[PSYB51H3](#) Introduction to Perception
[PSYC08H3](#) Advanced Data Analysis in Psychology
[PSYC09H3](#) Applied Multiple Regression in Psychology

**Note: Students are advised to exercise caution when selecting these courses since some can be applied to all three streams ([BIOB11H3](#), [CHMB41H3](#), [PSYB51H3](#), [PSYC08H3](#)), but others can be applied to only one or two streams.*

3. A CGPA of 2.5 or higher.

Students who are not enrolled in the Stage 1 Neuroscience Specialist can still apply to the program at Stage 2. The minimum requirements to be considered for admission via this pathway are: completion of 10.0 credits, including all Stage 1 course requirements, [[MATA29H3](#) or [MATA30H3](#)], all *Neuroscience Foundations* courses, and 1.0 credits from *Stream Foundations*. Students must also have achieved a CGPA of 2.5 or higher across all courses, and a CGPA of 2.75 or higher across the *Neuroscience Foundations* and *Stream Foundations* courses.

Application for admission to a Stage 2 stream will be made to the Office of the Registrar through ACORN, during the Limited Program application periods.

Program Requirements

This program requires students to complete 6.5 credits in core courses that are common to all streams. Students will complete a further 6.5 credits, specific to the Cellular/Molecular stream, for a total of 13.0 credits.

CORE (6.5 credits)

1. Scientific Foundations (3.5 credits):

[BIOA01H3](#) Life on Earth: Unifying Principles
[BIOA02H3](#) Life on Earth: Form, Function and Interactions
[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding
[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry]
[MATA29H3](#) Calculus I for the Life Sciences or [MATA30H3](#) Calculus I for Physical Sciences]
[PSYA01H3](#) Introduction to Biological and Cognitive Psychology
[PSYA02H3](#) Introduction to Clinical, Developmental, Personality and Social Psychology

2. Neuroscience Foundations (3.0 credits):

[BIOB10H3](#) Cell Biology
[NROB60H3](#) Neuroanatomy Laboratory
[NROB61H3](#) Neurophysiology
[PSYB55H3](#) Introduction to Cognitive Neuroscience
[PSYB07H3](#) Data Analysis in Psychology or [STAB22H3](#) Statistics I]
[PSYB70H3](#) Methods in Psychological Science

CELLULAR/MOLECULAR STREAM (6.5 credits)

3. Quantitative Logic and Reasoning (1.0 credit):

[PSYC08H3](#) Advanced Data Analysis in Psychology
and one of the following:
[CSCA20H3](#) Introduction to Programming
[PHYA10H3](#) Physics I for the Physical Sciences or [PHYA11H3](#) Physics I for the Life Sciences]

4. Advanced Foundations (2.0 credits)

[BIOB11H3](#) Molecular Aspects of Cellular and Genetic Processes
[CHMB41H3](#) Organic Chemistry I
[NROC36H3](#) Molecular Neuroscience
[NROC69H3](#) Synaptic Organization & Physiology of the Brain

5. Stream-specific electives (1.0 credit)

two of the following:
[BIOC12H3](#) Biochemistry I: Proteins & Enzymes
[BIOC13H3](#) Biochemistry II: Bioenergetics & Metabolism
[BIOC14H3](#) Genes, Environment and Behaviour
[BIOC44H3](#)/([NROC34H3](#)) Neuroethology

CHMB42H3 Organic Chemistry II
NROC61H3 Learning and Motivation
NROC64H3 Sensorimotor Systems
PSYC62H3 Drugs and the Brain

6. Breadth in Neuroscience (1.0 credit):

two of the following:

BIOC44H3/(NROC34H3)* Neuroethology
NROC61H3* Learning and Motivation
NROC64H3* Sensorimotor Systems
PSYB51H3 Introduction to Perception
PSYC51H3 Cognitive Neuroscience of Vision
PSYC52H3 Cognitive Neuroscience of Attention
PSYC53H3 Cognitive Neuroscience of Memory
PSYC54H3 Auditory Cognitive Neuroscience
PSYC57H3 Cognitive Neuroscience of Decision Making
PSYC59H3 Cognitive Neuroscience of Language
**only if not used to complete component 5 of the requirements*

7. Laboratory Course (0.5 credit):

one of the following:

BIOB12H3 Cell and Molecular Biology Laboratory
NROC60H3 Cellular Neuroscience Laboratory (*recommended*)
NROC63H3 Behavioural Neuroscience Laboratory
NROC90H3 Supervised Study in Neuroscience
NROC93H3 Supervised Study in Neuroscience

8. Capstone Courses (1.0 credit):

two of the following:

BIOD06H3 Advanced Topics in Neural Basis of Motor Control
BIOD07H3 Advanced Topics and Methods in Neural Circuit Analysis
BIOD08H3/(NROD08H3) Theoretical Neuroscience
BIOD65H3 Pathologies of the Nervous System
NROD60H3 Current Topics in Neuroscience
NROD61H3 Emotional Learning Circuits
NROD66H3 Drug Addiction
NROD67H3 Neuroscience of Aging
NROD98Y3 Thesis in Neuroscience*
PSYD66H3 Current Topics in Human Brain & Behaviour

**Note: only 0.5 credit of NROD98Y3 can be counted towards the Capstone course requirement*

SPECIALIST (CO-OPERATIVE) PROGRAM IN NEUROSCIENCE - Cellular/Molecular Stream (SCIENCE) - SCSPE1272C

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist program in Neuroscience is a research-intensive program designed to provide students with strong breadth in the major domains of neuroscience, as well as an opportunity to intensively focus on one of three streams. The **Cellular/Molecular** stream explores the nervous system at its most fundamental level, investigating the influence of genes, signaling molecules, and cellular morphology on the development and maintenance of brain function, predominantly through the use of *in vitro* techniques (e.g., immunohistochemistry, patch clamp).

This is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Neuroscience upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of three Co-op work terms.

Students may not combine a Neuroscience Specialist program with a Minor or Major program from the Department of Biological Sciences.

Enrollment Requirements

Enrolment in the Program is limited. The admission requirements may change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Enrolment takes place in two stages:

Stage 1:

The minimum requirements to be considered for admission are:

1. Completion of 4.0 credits, including [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [[CHMA11H3](#) or [CHMA12H3](#)], [PSYA01H3](#), and [PSYA02H3](#)
2. A CGPA of 2.75 or higher.

Students will typically apply to Stage 1 at the end of their first year of study. **When applying, note that the Subject POST code for Stage 1 Co-op is SCSPE1072C.** Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the [Office of the Registrar](#) website.

Stage 2:

To complete the program, students must choose one of the three available "Stage 2" streams: the Cognitive Stream, the Cellular/Molecular Stream, or the Systems/Behavioural Stream. Students will typically apply to Stage 2 at the end of their second year of study.

The minimum requirements to be considered for stream admission are:

1. Completion of 10.0 credits including: all Stage 1 course requirements, [[MATA29H3](#) or [MATA30H3](#)], and all *Neuroscience Foundations* courses: [BIOB10H3](#), [NROB60H3](#), [NROB61H3](#), [[PSYB07H3](#) or [STAB22H3](#)], [PSYB55H3](#), [PSYB70H3](#)
2. Completion of 1.0 credit in *Stream Foundations* courses from the following list*:
[BIOB11H3](#) Molecular Aspects of Cellular and Genetic Processes
[CSCA20H3](#) Introduction to Programming
[CHMB41H3](#) Organic Chemistry I
[CHMB42H3](#) Organic Chemistry II
[MATA23H3](#) Linear Algebra
[PHYA10H3](#) Physics I for the Physical Sciences or [PHYA11H3](#) Physics I for the Life Sciences
[PSYB51H3](#) Introduction to Perception
[PSYC08H3](#) Advanced Data Analysis in Psychology
[PSYC09H3](#) Applied Multiple Regression in Psychology

**Note: Students are advised to exercise caution when selecting these courses since some can be applied to all three streams ([BIOB11H3](#), [CHMB41H3](#), [PSYB51H3](#), [PSYC08H3](#)), but others can be applied to only one or two streams.*

3. A CGPA of 2.5 or higher.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or

Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Academic Program Requirements

This program requires students to complete 6.5 credits in core courses that are common to all streams. Students will complete a further 7.0 credits, specific to the Cellular/Molecular stream, for a total of 13.5 credits.

CORE (6.5 credits)

1. Scientific Foundations (3.5 credits):

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms *or* CHMA12H3 Advanced General Chemistry]

[MATA29H3 Calculus I for the Life Sciences *or* MATA30H3 Calculus I for Physical Sciences]

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

2. Neuroscience Foundations (3.0 credits):

BIOB10H3 Cell Biology

NROB60H3 Neuroanatomy Laboratory

NROB61H3 Neurophysiology

PSYB55H3 Introduction to Cognitive Neuroscience

[PSYB07H3 Data Analysis in Psychology *or* STAB22H3 Statistics I]

PSYB70H3 Methods in Psychological Science

CELLULAR/MOLECULAR STREAM (7.0 credits)

3. Quantitative Logic and Reasoning (1.0 credit):

PSYC08H3 Advanced Data Analysis in Psychology

and one of the following:

CSCA20H3 Introduction to Programming

[PHYA10H3 Physics I for the Physical Sciences *or* PHYA11H3 Physics I for the Life Sciences]

4. Advanced Foundations (2.5 credits):

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

BIOB12H3 Cell and Molecular Biology Laboratory

CHMB41H3 Organic Chemistry I

NROC36H3 Molecular Neuroscience

NROC69H3 Synaptic Organization & Physiology of the Brain

5. Stream-specific electives (1.0 credit):

two of the following:

BIOC12H3 Biochemistry I: Proteins & Enzymes
BIOC13H3 Biochemistry II: Bioenergetics & Metabolism
BIOC14H3 Genes, Environment and Behaviour
BIOC44H3/(NROC34H3) Neuroethology
CHMB42H3 Organic Chemistry II
NROC61H3 Learning and Motivation
NROC64H3 Sensorimotor Systems
PSYC62H3 Drugs and the Brain

6. Breadth in Neuroscience (1.0 credit):

two of the following:

BIOC44H3/(NROC34H3) Neuroethology*
NROC61H3 Learning and Motivation*
NROC64H3 Sensorimotor Systems*
PSYB51H3 Introduction to Perception
PSYC51H3 Cognitive Neuroscience of Vision
PSYC52H3 Cognitive Neuroscience of Attention
PSYC53H3 Cognitive Neuroscience of Memory
PSYC54H3 Auditory Cognitive Neuroscience
PSYC57H3 Cognitive Neuroscience of Decision Making
PSYC59H3 Cognitive Neuroscience of Language

**only if not used to complete component 5 of the requirements*

7. Laboratory Course (0.5 credit):

one of the following:

NROC60H3 Cellular Neuroscience Laboratory (*recommended*)
NROC63H3 Behavioural Neuroscience Laboratory
NROC90H3 Supervised Study in Neuroscience
NROC93H3 Supervised Study in Neuroscience

8. Capstone Courses (1.0 credit):

two of the following:

BIOD06H3 Advanced Topics in Neural Basis of Motor Control
BIOD07H3 Advanced Topics and Methods in Neural Circuit Analysis
BIOD08H3/(NROD08H3) Theoretical Neuroscience
BIOD65H3 Pathologies of the Nervous System
NROD60H3 Current Topics in Neuroscience
NROD61H3 Emotional Learning Circuits
NROD66H3 Drug Addiction
NROD67H3 Neuroscience of Aging
NROD98Y3 Thesis in Neuroscience*
PSYD66H3 Current Topics in Human Brain & Behaviour

**Note: only 0.5 credit of NROD98Y3 can be counted towards the Capstone course requirement*

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that [PSYB07H3](#), [PSYB70H3](#), [NROB60H3](#), at least one of [BIOB10H3](#), [BIOB11H3](#), and at least one of [NROB61H3](#), [PSYB55H3](#) be completed before the first work term. Any of these courses that are not completed prior to the first work term are recommended to be completed before the second work term. The following additional courses are recommended to be completed before the second work term for the Cellular/Molecular stream: [BIOB12H3](#), [CHMB41H3](#), and [CHMB42H3](#). In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- [COPB50H3](#)
- [COPB54H3](#)/[COPB51H3](#)

Work Term Search Courses:

- [COPB55H3](#)/[COPB52H3](#) (Completed in the semester prior to the first work term)
- [COPC98H3](#) (Taken in the semester prior to the second work term)
- [COPC99H3](#) (Taken in the semester prior to the third work term)

Required Work Term Courses:

- [COPC01H3](#) (First work term)
- [COPC02H3](#) (Second work term)
- [COPC03H3](#) (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) (Fourth work term)
- [COPC05H3](#) (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN NEUROSCIENCE - Cognitive Stream (SCIENCE) - SCSPE1172

The Specialist program in Neuroscience is a research-intensive program designed to provide students with strong breadth in the major domains of neuroscience. The **Cognitive** stream focuses on understanding the neural basis of human cognition (e.g., language, memory, attention, decision-making) predominantly through the use of patient neuropsychology and neuroimaging techniques (e.g., magnetic resonance imaging (MRI), electroencephalography (EEG)).

Students may not combine a Neuroscience Specialist program with a Minor or Major program from the Department of Biological Sciences.

Enrolment in the Program is limited. The admission requirements may change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

Enrolment takes place in two stages:

Stage 1:

The minimum requirements to be considered for admission are:

1. Completion of 4.0 credits, including BIOA01H3, BIOA02H3, CHMA10H3, [CHMA11H3 or CHMA12H3], PSYA01H3, and PSYA02H3
2. A CGPA of 2.75 or higher.

Students will typically apply to Stage 1 at the end of their first year of study. **When applying, note that the Subject POST code for Stage 1 is SCSPE1072.** Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the Office of the Registrar website.

Stage 2:

To complete the program, students must choose one of the three available "Stage 2" streams: the Cognitive Stream, the Cellular/Molecular Stream, or the Systems/Behavioural Stream. Students will typically apply to Stage 2 at the end of their second year of study.

The minimum requirements to be considered for stream admission are:

1. Completion of 10.0 credits including: all Stage 1 course requirements, [MATA29H3 or MATA30H3], and all *Neuroscience Foundations* courses: BIOB10H3, NROB60H3, NROB61H3, [PSYB07H3 or STAB22H3], PSYB55H3, PSYB70H3
2. Completion of 1.0 credit in *Stream Foundations* courses from the following list*:
BIOB11H3 Molecular Aspects of Cellular and Genetic Processes
CSCA20H3 Introduction to Programming
CHMB41H3 Organic Chemistry I
CHMB42H3 Organic Chemistry II
MATA23H3 Linear Algebra
PHYA10H3 Physics I for the Physical Sciences or PHYA11H3 Physics I for the Life Sciences]
PSYB51H3 Introduction to Perception
PSYC08H3 Advanced Data Analysis in Psychology
PSYC09H3 Applied Multiple Regression in Psychology

**Note: Students are advised to exercise caution when selecting these courses since some can be applied to all three streams (BIOB11H3, CHMB41H3, PSYB51H3, PSYC08H3), but others can be applied to only one or two streams.*

3. A CGPA of 2.5 or higher.

Students who are not enrolled in the Stage 1 Neuroscience Specialist can still apply to the program at Stage 2. The minimum requirements to be considered for admission via this pathway are: completion of 10.0 credits, including all Stage 1 course requirements, [MATA29H3 or MATA30H3], all *Neuroscience Foundations* courses, and 1.0 credits from *Stream Foundations*. Students must also have achieved a CGPA of 2.5 or higher across all courses, and a CGPA of 2.75 or higher across the *Neuroscience Foundations* and *Stream Foundations* courses.

Application for admission to a Stage 2 stream will be made to the Office of the Registrar through ACORN, during the Limited Program application periods.

Program Requirements

This program requires students to complete 6.5 credits in core courses that are common to all streams. Students will complete a further 7.0 credits, specific to the Cognitive stream, for a total of 13.5 credits.

CORE (6.5 credits)

1. Scientific Foundations (3.5 credits):

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]

[MATA29H3 Calculus I for the Life Sciences or MATA30H3 Calculus I for Physical Sciences]

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

2. Neuroscience Foundations (3.0 credits):

BIOB10H3 Cell Biology

NROB60H3 Neuroanatomy Laboratory

NROB61H3 Neurophysiology

PSYB55H3 Introduction to Cognitive Neuroscience

[PSYB07H3 Data Analysis in Psychology or STAB22H3 Statistics I]

PSYB70H3 Methods in Psychological Science

COGNITIVE STREAM (7.0 credits)

3. Quantitative and Methodological Skills (1.5 credits):

PSYC02H3 Scientific Communication in Psychology

PSYC70H3 Advanced Research Methods Laboratory

[PSYC08H3 Advanced Data Analysis in Psychology or PSYC09H3 Applied Multiple Regression in Psychology]

4. Advanced Programming (1.5 credits)

MATA23H3 Linear Algebra

[[CSCA08H3 Introduction to Computer Science I and CSCA48H3 Introduction to Computer Science II]* or [PSYB03H3 Introduction to Computers in Psychological Research and PSYC03H3 Introduction to Computers in Psychological Research: Advanced Topics]]

**Note: students are strongly advised to choose the [PSYB03H3 and PSYC03H3] pairing.*

5. Advanced Foundations (1.5 credits)

PSYB51H3 Introduction to Perception

and two of the following:

PSYC51H3 Cognitive Neuroscience of Vision

PSYC52H3 Cognitive Neuroscience of Attention

PSYC53H3 Cognitive Neuroscience of Memory

PSYC54H3 Auditory Cognitive Neuroscience

PSYC57H3 Cognitive Neuroscience of Decision Making

PSYC59H3 Cognitive Neuroscience of Language

6. Breadth in Neuroscience (1.0 credit):

two of the following (at least 0.5 credit must be at the C-level):

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

BIOC44H3/(NROC34H3) Neuroethology

CHMB41H3 Organic Chemistry I

NROC36H3 Molecular Neuroscience

NROC61H3 Learning and Motivation

NROC64H3 Sensorimotor Systems

NROC69H3 Synaptic Organization & Physiology of the Brain

7. Laboratory Course (0.5 credit):

one of the following:

NROC90H3 Supervised Study in Neuroscience

NROC93H3 Supervised Study in Neuroscience

PSYC75H3 Cognitive Psychology Laboratory

PSYC76H3 Brain Imaging Laboratory

8. Capstone Courses (1.0 credit):

two of the following:

PSYD17H3 Social Neuroscience

PSYD50H3 Current Topics in Memory and Cognition

PSYD51H3 Current Topics in Perception

PSYD54H3 Current Topics in Visual Recognition

PSYD55H3 Functional Magnetic Resonance Imaging Laboratory

PSYD62H3 Neuroscience of Pleasure and Reward
PSYD66H3 Current Topics in Human Brain & Behaviour
NROD98Y3 Thesis in Neuroscience*

**Note: only 0.5 credit of NROD98Y3 can be counted towards the Capstone course requirement*

SPECIALIST (CO-OPERATIVE) PROGRAM IN NEUROSCIENCE - Cognitive Stream (SCIENCE) - SCSPE1172C

Academic Program Advisor: psychundergrad.utsc@utoronto.ca
 Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist program in Neuroscience is a research-intensive program designed to provide students with strong breadth in the major domains of neuroscience, as well as an opportunity to intensively focus on one of three streams. The **Cognitive** stream focuses on understanding the neural basis of human cognition (e.g., language, memory, attention, decision-making) predominantly through the use of patient neuropsychology and neuroimaging techniques (e.g., magnetic resonance imaging (MRI), electroencephalography (EEG)).

This is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Neuroscience upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of three Co-op work terms.

Students may not combine a Neuroscience Specialist program with a Minor or Major program from the Department of Biological Sciences.

Enrolment Requirements

Enrolment in the Program is limited. The admission requirements may change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Enrolment takes place in two stages:

Stage 1:

The minimum requirements to be considered for admission are:

1. Completion of 4.0 credits, including BIOA01H3, BIOA02H3, CHMA10H3, [CHMA11H3 or CHMA12H3], PSYA01H3, and PSYA02H3
2. A CGPA of 2.75 or higher.

Students will typically apply to Stage 1 at the end of their first year of study. **When applying, note that the Subject POST code for Stage 1 Co-op is SCSPE1072C.** Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the [Office of the Registrar](#) website.

Stage 2:

To complete the program, students must choose one of the three available "Stage 2" streams: the Cognitive Stream, the Cellular/Molecular Stream, or the Systems/Behavioural Stream. Students will typically apply to Stage 2 at the end of their second year of study.

The minimum requirements to be considered for stream admission are:

1. Completion of 10.0 credits including: all Stage 1 course requirements, [MATA29H3 or MATA30H3], and all

Neuroscience Foundations courses: BIOB10H3, NROB60H3, NROB61H3, [PSYB07H3 or STAB22H3], PSYB55H3, PSYB70H3

2. Completion of 1.0 credit in *Stream Foundations* courses from the following list*:

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

CSCA20H3 Introduction to Programming

CHMB41H3 Organic Chemistry I

CHMB42H3 Organic Chemistry II

MATA23H3 Linear Algebra

[PHYA10H3 Physics I for the Physical Sciences or PHYA11H3 Physics I for the Life Sciences]

PSYB51H3 Introduction to Perception

PSYC08H3 Advanced Data Analysis in Psychology

PSYC09H3 Applied Multiple Regression in Psychology

**Note: Students are advised to exercise caution when selecting these courses since some can be applied to all three streams (BIOB11H3, CHMB41H3, PSYB51H3, PSYC08H3), but others can be applied to only one or two streams.*

3. A CGPA of 2.5 or higher.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

This program requires students to complete 6.5 credits in core courses that are common to all streams. Students will complete a further 7.0 credits, specific to the Cognitive stream, for a total of 13.5 credits.

CORE (6.5 credits)

1. Scientific Foundations (3.5 credits):

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

CHMA10H3 Introductory Chemistry I: Structure and Bonding

[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]

[MATA29H3 Calculus I for the Life Sciences or MATA30H3 Calculus I for Physical Sciences]

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

2. Neuroscience Foundations (3.0 credits):

BIOB10H3 Cell Biology

NROB60H3 Neuroanatomy Laboratory

NROB61H3 Neurophysiology
PSYB55H3 Introduction to Cognitive Neuroscience
[PSYB07H3] Data Analysis in Psychology or STAB22H3 Statistics I]
PSYB70H3 Methods in Psychological Science

COGNITIVE STREAM (7.0 credits)

3. Quantitative and Methodological Skills (1.5 credits):

PSYC02H3 Scientific Communication in Psychology
PSYC70H3 Advanced Research Methods Laboratory
[PSYC08H3] Advanced Data Analysis in Psychology or PSYC09H3 Applied Multiple Regression in Psychology]

4. Advanced Programming (1.5 credits):

MATA23H3 Linear Algebra
[CSCA08H3] Introduction to Computer Science I and CSCA48H3 Introduction to Computer Science II]* or [PSYB03H3] Introduction to Computers in Psychological Research and PSYC03H3 Introduction to Computers in Psychological Research: Advanced Topics]]

**Note: students are strongly advised to choose the [PSYB03H3] and PSYC03H3 pairing.*

5. Advanced Foundations (1.5 credits):

PSYB51H3 Introduction to Perception
and two of the following:
PSYC51H3 Cognitive Neuroscience of Vision
PSYC52H3 Cognitive Neuroscience of Attention
PSYC53H3 Cognitive Neuroscience of Memory
PSYC54H3 Auditory Cognitive Neuroscience
PSYC57H3 Cognitive Neuroscience of Decision Making
PSYC59H3 Cognitive Neuroscience of Language

6. Breadth in Neuroscience (1.0 credit):

two of the following (at least 0.5 credit must be at the C-level):
BIOB11H3 Molecular Aspects of Cellular and Genetic Processes
BIOC44H3/(NROC34H3) Neuroethology
CHMB41H3 Organic Chemistry I
NROC36H3 Molecular Neuroscience
NROC61H3 Learning and Motivation
NROC64H3 Sensorimotor Systems
NROC69H3 Synaptic Organization & Physiology of the Brain

7. Laboratory Course (0.5 credit):

one of the following:
NROC90H3 Supervised Study in Neuroscience
NROC93H3 Supervised Study in Neuroscience
PSYC75H3 Cognitive Psychology Laboratory
PSYC76H3 Brain Imaging Laboratory

8. Capstone Courses (1.0 credit):

two of the following:
PSYD17H3 Social Neuroscience
PSYD50H3 Current Topics in Memory and Cognition
PSYD51H3 Current Topics in Perception
PSYD54H3 Current Topics in Visual Recognition
PSYD55H3 Functional Magnetic Resonance Imaging Laboratory
PSYD62H3 Neuroscience of Pleasure and Reward
PSYD66H3 Current Topics in Human Brain & Behaviour
NROD98Y3 Thesis in Neuroscience*

**Note: only 0.5 credit of NROD98Y3 can be counted towards the Capstone course requirement*

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that PSYB07H3, PSYB70H3, NROB60H3, at least one of [BIOB10H3, BIOB11H3], and at least one of [NROB61H3, PSYB55H3] be completed before the first work term. Any of these courses that are not completed prior to the first work term are recommended to be completed before the second work term. The following additional courses are recommended to be completed before the second work term for the Cognitive stream: PSYC02H3, [PSYC08H3 *or* PSYC09H3], and PSYC70H3. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN NEUROSCIENCE - Systems/Behavioural Stream (SCIENCE) - SCSPE1372

The Specialist program in Neuroscience is a research-intensive program designed to provide students with strong breadth in the major domains of neuroscience. The **Systems/Behavioural** stream examines the neural mechanisms underlying behaviour and how brain circuits work together to analyze external stimuli, internal biological states, and past experiences in order to coordinate appropriate responses, predominantly through the use of *in vivo* approaches in behaving subjects (e.g., optogenetics, chemogenetics).

Students may not combine a Neuroscience Specialist program with a Minor or Major program from the Department of Biological Sciences.

Enrolment in the Program is limited. The admission requirements may change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

Enrolment takes place in two stages:

Stage 1:

The minimum requirements to be considered for admission are:

1. Completion of 4.0 credits, including BIOA01H3, BIOA02H3, CHMA10H3, [CHMA11H3 or CHMA12H3], PSYA01H3, and PSYA02H3
2. A CGPA of 2.75 or higher.

Students will typically apply to Stage 1 at the end of their first year of study. **When applying, note that the Subject POST code for Stage 1 is SCSPE1072.** Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the Office of the Registrar website.

Stage 2:

To complete the program, students must choose one of the three available "Stage 2" streams: the Cognitive Stream, the Cellular/Molecular Stream, or the Systems/Behavioural Stream. Students will typically apply to Stage 2 at the end of their second year of study.

The minimum requirements to be considered for stream admission are:

1. Completion of 10.0 credits including: all Stage 1 course requirements, [MATA29H3 or MATA30H3], and all *Neuroscience Foundations* courses: BIOB10H3, NROB60H3, NROB61H3, [PSYB07H3 or STAB22H3], PSYB55H3, PSYB70H3
2. Completion of 1.0 credit in *Stream Foundations* courses from the following list*:
BIOB11H3 Molecular Aspects of Cellular and Genetic Processes
CSCA20H3 Introduction to Programming
CHMB41H3 Organic Chemistry I
CHMB42H3 Organic Chemistry II
MATA23H3 Linear Algebra
[PHYA10H3 Physics I for the Physical Sciences or PHYA11H3 Physics I for the Life Sciences]
PSYB51H3 Introduction to Perception
PSYC08H3 Advanced Data Analysis in Psychology
PSYC09H3 Applied Multiple Regression in Psychology

**Note: Students are advised to exercise caution when selecting these courses since some can be applied to all three streams (BIOB11H3, CHMB41H3, PSYB51H3, PSYC08H3), but others can be applied to only one or two streams.*

3. A CGPA of 2.5 or higher.

Students who are not enrolled in the Stage 1 Neuroscience Specialist can still apply to the program at Stage 2. The minimum requirements to be considered for admission via this pathway are: completion of 10.0 credits, including all Stage

1 course requirements, [[MATA29H3](#) or [MATA30H3](#)], all *Neuroscience Foundations* courses, and 1.0 credits from *Stream Foundations*. Students must also have achieved a CGPA of 2.5 or higher across all courses, and a CGPA of 2.75 or higher across the *Neuroscience Foundations* and *Stream Foundations* courses.

Application for admission to a Stage 2 stream will be made to the Office of the Registrar through ACORN, during the Limited Program application periods.

Program Requirements

This program requires students to complete 6.5 credits in core courses that are common to all streams. Students will complete a further 6.5 credits, specific to the Systems/Behavioural stream, for a total of 13.0 credits.

CORE (6.5 credits)

1. Scientific Foundations (3.5 credits):

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms or [CHMA12H3](#) Advanced General Chemistry]

[MATA29H3](#) Calculus I for the Life Sciences or [MATA30H3](#) Calculus I for Physical Sciences]

[PSYA01H3](#) Introduction to Biological and Cognitive Psychology

[PSYA02H3](#) Introduction to Clinical, Developmental, Personality and Social Psychology

2. Neuroscience Foundations (3.0 credits):

[BIOB10H3](#) Cell Biology

[NROB60H3](#) Neuroanatomy Laboratory

[NROB61H3](#) Neurophysiology

[PSYB55H3](#) Introduction to Cognitive Neuroscience

[PSYB07H3](#) Data Analysis in Psychology or [STAB22H3](#) Statistics I]

[PSYB70H3](#) Methods in Psychological Science

SYSTEMS/BEHAVIOURAL STREAM (6.5 credits)

3. Quantitative Logic and Reasoning (1.0 credit):

[PSYC08H3](#) Advanced Data Analysis in Psychology

and one of the following:

[CSCA20H3](#) Introduction to Programming

[PHYA10H3](#) Physics I for the Physical Sciences or [PHYA11H3](#) Physics I for the Life Sciences]

4. Advanced Foundations (2.0 credits)

[BIOB11H3](#) Molecular Aspects of Cellular and Genetic Processes

[NROC61H3](#) Learning and Motivation

and two of the following:

[BIOC44H3](#)/([NROC34H3](#)) Neuroethology

[NROC64H3](#) Sensorimotor Systems

[NROC69H3](#) Synaptic Organization & Physiology of the Brain

5. Stream-specific electives (1.0 credit)

two of the following:

[BIOC14H3](#) Genes, Environment and Behaviour

[CHMB41H3](#) Organic Chemistry I

[CHMB42H3](#) Organic Chemistry II

[NROC36H3](#) Molecular Neuroscience

[PSYC62H3](#) Drugs and the Brain

6. Breadth in Neuroscience (1.0 credit):

two of the following:

[CHMB41H3](#)* Organic Chemistry I

[NROC36H3](#)* Molecular Neuroscience

[NROC69H3](#)* Synaptic Organization & Physiology of the Brain

[PSYB51H3](#) Introduction to Perception

[PSYC51H3](#) Cognitive Neuroscience of Vision

[PSYC52H3](#) Cognitive Neuroscience of Attention

[PSYC53H3](#) Cognitive Neuroscience of Memory

[PSYC54H3](#) Auditory Cognitive Neuroscience
[PSYC57H3](#) Cognitive Neuroscience of Decision Making
[PSYC59H3](#) Cognitive Neuroscience of Language
**only if not used to complete components 4 or 5 of the requirements*

7. Laboratory Course (0.5 credit):

one of the following:

[NROC60H3](#) Cellular Neuroscience Laboratory
[NROC63H3](#) Behavioural Neuroscience Laboratory (*recommended*)
[NROC90H3](#) Supervised Study in Neuroscience
[NROC93H3](#) Supervised Study in Neuroscience
[PSYC74H3](#) Human Movement Laboratory

8. Capstone Courses (1.0 credit):

two of the following:

[BIOD06H3](#) Advanced Topics in Neural Basis of Motor Control
[BIOD07H3](#) Advanced Topics and Methods in Neural Circuit Analysis
[BIOD08H3/\(NROD08H3\)](#) Theoretical Neuroscience
[BIOD45H3](#) Animal Communication
[BIOD65H3](#) Pathologies of the Nervous System
[NROD60H3](#) Current Topics in Neuroscience
[NROD61H3](#) Emotional Learning Circuits
[NROD66H3](#) Drug Addiction
[NROD67H3](#) Neuroscience of Aging
[NROD98Y3](#) Thesis in Neuroscience*
[PSYD66H3](#) Current Topics in Human Brain & Behaviour

**Note: only 0.5 credit of [NROD98Y3](#) can be counted towards the Capstone course requirement*

SPECIALIST (CO-OPERATIVE) PROGRAM IN NEUROSCIENCE - Systems/Behavioural Stream (SCIENCE) - SCSPE1372C

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist Program in Neuroscience is a research-intensive program designed to provide students with strong breadth in the major domains of neuroscience, as well as an opportunity to intensively focus on one of three streams. The **Systems/Behavioural** stream examines the neural mechanisms underlying behaviour and how brain circuits work together to analyze external stimuli, internal biological states, and past experiences in order to coordinate appropriate responses, predominantly through the use of *in vivo* approaches in behaving subjects (e.g., optogenetics, chemogenetics).

This is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Neuroscience upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of three Co-op work terms.

Students may not combine a Neuroscience Specialist program with a Minor or Major program from the Department of Biological Sciences.

Enrolment Requirements

Enrolment in the Program is limited. The admission requirements may change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Enrolment takes place in two stages:

Stage 1:

The minimum requirements to be considered for admission are:

1. Completion of 4.0 credits, including BIOA01H3, BIOA02H3, CHMA10H3, [CHMA11H3 or CHMA12H3], PSYA01H3, and PSYA02H3
2. A CGPA of 2.75 or higher.

Students will typically apply to Stage 1 at the end of their first year of study. **When applying, note that the Subject POST code for Stage 1 Co-op is SCSPE1072C.** Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the Office of the Registrar website.

Stage 2:

To complete the program, students must choose one of the three available "Stage 2" streams: the Cognitive Stream, the Cellular/Molecular Stream, or the Systems/Behavioural Stream. Students will typically apply to Stage 2 at the end of their second year of study.

The minimum requirements to be considered for stream admission are:

1. Completion of 10.0 credits including: all Stage 1 course requirements, [MATA29H3 or MATA30H3], and all *Neuroscience Foundations* courses: BIOB10H3, NROB60H3, NROB61H3, [PSYB07H3 or STAB22H3], PSYB55H3, PSYB70H3

2. Completion of 1.0 credit in *Stream Foundations* courses from the following list*:

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

CSCA20H3 Introduction to Programming

CHMB41H3 Organic Chemistry I

CHMB42H3 Organic Chemistry II

MATA23H3 Linear Algebra

[PHYA10H3 Physics I for the Physical Sciences or PHYA11H3 Physics I for the Life Sciences]

PSYB51H3 Introduction to Perception

PSYC08H3 Advanced Data Analysis in Psychology

PSYC09H3 Applied Multiple Regression in Psychology

**Note: Students are advised to exercise caution when selecting these courses since some can be applied to all three streams (BIOB11H3, CHMB41H3, PSYB51H3, PSYC08H3), but others can be applied to only one or two streams.*

3. A CGPA of 2.50 or higher.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:**Credits:** 4.0 credits**Required Courses:** Program-specific courses described in the Enrolment Requirements above**Cumulative GPA:** 2.50 or higher across all attempted courses.**Academic Program Requirements**

This program requires students to complete 6.5 credits in core courses that are common to all streams. Students will complete a further 7.0 credits, specific to the Systems/Behavioural stream, for a total of 13.5 credits.

CORE (6.5 credits)**1. Scientific Foundations (3.5 credits):**BIOA01H3 Life on Earth: Unifying PrinciplesBIOA02H3 Life on Earth: Form, Function and InteractionsCHMA10H3 Introductory Chemistry I: Structure and Bonding[CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms *or* CHMA12H3 Advanced General Chemistry][MATA29H3 Calculus I for the Life Sciences *or* MATA30H3 Calculus I for Physical Sciences]PSYA01H3 Introduction to Biological and Cognitive PsychologyPSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology**2. NROC60H3 Cellular Neuroscience Laboratory

NROC63H3 Behavioural Neuroscience Laboratory (*recommended*)

NROC90H3 Supervised Study in Neuroscience

NROC93H3 Supervised Study in Neuroscience

PSYC74H3 Human Movement Laboratory

8. Capstone Courses (1.0 credit):

two of the following:

BIOD06H3 Advanced Topics in Neural Basis of Motor Control

BIOD07H3 Advanced Topics and Methods in Neural Circuit Analysis

BIOD08H3/(NROD08H3) Theoretical Neuroscience

BIOD45H3 Animal Communication

BIOD65H3 Pathologies of the Nervous System

NROD60H3 Current Topics in Neuroscience

NROD61H3 Emotional Learning Circuits

NROD66H3 Drug Addiction

NROD67H3 Neuroscience of Aging

NROD98Y3 Thesis in Neuroscience*

PSYD66H3 Current Topics in Human Brain & Behaviour

**Note: only 0.5 credit of NROD98Y3 can be counted towards the Capstone course requirement*

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that PSYB07H3, PSYB70H3, NROB60H3, at least one of [BIOB10H3, BIOB11H3], and at least one of [NROB61H3, PSYB55H3] be completed before the first work term. Any of these courses that are not completed prior to the first work term are recommended to be completed before the second work term. The following additional courses are recommended to be completed before the second work term for the Systems/Behavioural stream: BIOB12H3, CHMB41H3, and CHMB42H3. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- **COPB55H3**/**COPB52H3** (Completed in the semester prior to the first work term)
- **COPC98H3** (Taken in the semester prior to the second work term)
- **COPC99H3** (Taken in the semester prior to the third work term)

Required Work Term Courses:

- **COPC01H3** (First work term)
- **COPC02H3** (Second work term)
- **COPC03H3** (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR PROGRAM IN NEUROSCIENCE (SCIENCE) - SCMAJ1472

The Major program in Neuroscience focuses on both Cellular/Molecular and Systems/Behavioural Neuroscience and requires less research-intensive coursework than the Specialist programs. The Major focuses more on how to be a skilled consumer of neuroscience research, providing a valuable foundation for a variety of career paths.

Students may not combine a Neuroscience Major program with a Minor program from the Department of Biological Sciences. Students who wish to combine the Major in Neuroscience with another Major from the Department of Psychology or Department of Biological Sciences are advised to pay careful attention to the 12.0 distinct credits requirement to receive a certification of the completion of both programs. Consultation with the respective Program Supervisors in the selection of credits is recommended. For more information, see the [Degree Requirements](#) section in the *UTSC Calendar*.

Enrolment in the Program is limited. The admission requirements may change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

The minimum requirements to be considered for admission are: Completion of 4.0 credits including [BIOA01H3](#), [BIOA02H3](#), [CHMA10H3](#), [[CHMA11H3](#) or [CHMA12H3](#)], [PSYA01H3](#), and [PSYA02H3](#), and a CGPA of 2.0 or higher.

Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the [Office of the Registrar](#) website.

Program Requirements

Students must complete a total of 8.5 credits.

1. Scientific Foundations (3.0 credits)

BIOA01H3 Life on Earth: Unifying Principles

BIOA02H3 Life on Earth: Form, Function and Interactions

CHMA10H3 Introductory Chemistry I: Structure and Bonding

CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms or CHMA12H3 Advanced General Chemistry]

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

2. Neuroscience Foundations (3.5 credits)

BIOB10H3 Cell Biology

BIOB11H3 Molecular Aspects of Cellular and Genetic Processes

NROB60H3 Neuroanatomy Laboratory

NROB61H3 Neurophysiology

PSYB55H3 Introduction to Cognitive Neuroscience

PSYB70H3 Methods in Psychological Science

[PSYB07H3 Data Analysis in Psychology or STAB22H3 Statistics I]

3. Advanced Foundations (1.5 credits)

at least 1.0 credit must be taken from:

BIOC44H3/(NROC34H3) Neuroethology

NROC36H3 Molecular Neuroscience

NROC61H3 Learning and Motivation

NROC64H3 Sensorimotor Systems

NROC69H3 Synaptic Organization and Physiology of the Brain

the remaining 0.5 credit should be taken from the following:

BIOC14H3 Genes, Environment and Behaviour

NROC60H3 Cellular Neuroscience Laboratory

NROC63H3 Behavioural Neuroscience Laboratory

NROC90H3 Supervised Study in Neuroscience

NROC93H3 Supervised Study in Neuroscience

PSYC62H3 Drugs and the Brain

4. Capstone Course (0.5 credit)

one of the following:

BIOD06H3 Advanced Topics in Neural Basis of Motor Control

BIOD07H3 Advanced Topics and Methods in Neural Circuit Analysis

BIOD08H3/(NROD08H3) Theoretical Neuroscience*

BIOD45H3 Animal Communication

BIOD65H3 Pathologies of the Nervous System

NROD60H3 Current Topics in Neuroscience

NROD61H3 Emotional Learning Circuits

NROD66H3 Drug Addiction

NROD67H3 Neuroscience of Aging

NROD98Y3 Thesis in Neuroscience

PSYD62H3 Neuroscience of Pleasure and Reward

PSYD66H3 Current Topics in Human Brain and Behaviour

*Note: BIOD08H3/(NROD08H3) has a calculus prerequisite that is not part of this program. Students interested in this course should plan accordingly.

MAJOR (CO-OPERATIVE) PROGRAM IN NEUROSCIENCE (SCIENCE) - SCMAJ1472C

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major in Neuroscience focuses on both Cellular/Molecular and Systems/Behavioural Neuroscience and requires less research-intensive coursework than the Specialist programs. The Major focuses more on how to be a skilled consumer of neuroscience research, providing a valuable foundation for a variety of career paths.

Students may not combine a Neuroscience Major program with a Minor program from the Department of Biological Sciences. Students who wish to combine the Major in Neuroscience with another Major from the Department of Psychology or Department of Biological Sciences are advised to pay careful attention to the 12.0 distinct credits requirement to receive a certification of the completion of both programs. Consultation with the respective Program Supervisors in the selection of credits is recommended. For more information, see the [Degree Requirements](#) section in the *UTSC Calendar*.

Enrolment Requirements

Enrolment in the Program is limited. The admission requirements may change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major in Neuroscience.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that [PSYB07H3](#), [PSYB70H3](#), [NROB60H3](#), at least one of [BIOB10H3](#), [BIOB11H3](#) and at least one of [NROB61H3](#), [PSYB55H3](#) be completed before the first work term. Any of

these courses that are not completed prior to the first work term are recommended to be completed before the second work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

Neuroscience Courses

NROB60H3 - Neuroanatomy Laboratory

This course focuses on functional neuroanatomy of the brain at both the human and animal level. Topics include gross anatomy of the brain, structure and function of neurons and glia, neurotransmitters and their receptors, and examples of major functional systems. Content is delivered through lecture and laboratories.

Prerequisite: BIOA01H3 and BIOA02H3 and CHMA10H3 and [CHMA11H3 or CHMA12H3] and PSYA01H3 and PSYA02H3

Exclusion: CSB332H, HMB320H, PSY290H, PSY391H, (ZOO332H)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Specialist/Specialist Co-op and Major/Major Co-op programs in Neuroscience. Students in other programs will be admitted as space permits.

NROB61H3 - Neurophysiology

This course focuses on the electrical properties of neurons and the ways in which electrical signals are generated, received, and integrated to underlie neuronal communication. Topics include principles of bioelectricity, the ionic basis of the resting potential and action potential, neurotransmission, synaptic integration, and neural coding schemes. Content will be delivered through lectures, labs, and tutorials.

Prerequisite: BIOA01H3 and BIOA02H3 and CHMA10H3 and [CHMA11H3 or CHMA12H3] and PSYA01H3 and PSYA02H3

Corequisite: NROB60H3

Breadth Requirements: Natural Sciences
Course Experience: University-Based Experience
Note: Priority will be given to students enrolled in the

Specialist/Specialist Co-op and Major/Major Co-op programs in Neuroscience. Students in other programs will be admitted as space permits.

NROC36H3 - Molecular Neuroscience

This course will focus on the molecular mechanisms underlying neuronal communication in the central nervous system. The first module will look into synaptic transmission at the molecular level, spanning pre and postsynaptic mechanisms. The second module will focus on molecular mechanisms of synaptic plasticity and learning and memory. Additional topics will include an introduction to the molecular mechanisms of neurodegenerative diseases and channelopathies.

Prerequisite: BIOB11H3 and NROB60H3 and NROB61H3 and PSYB55H3 and [PSYB07H3 or STAB22H3] and PSYB70H3

Recommended Preparation: BIOC13H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students enrolled in the Specialist/Specialist Co-op programs in Neuroscience (all Stage 2 streams) and students enrolled in the Major/Major Co-op programs in Neuroscience. Students in the Specialist/Specialist Co-op programs in Neuroscience - Stage 1 will be admitted as space permits.

NROC60H3 - Cellular Neuroscience Laboratory

This course involves a theoretical and a hands-on cellular neuroscience laboratory component. Advanced systems, cellular and molecular neuroscience techniques will be covered within the context of understanding how the brain processes complex behaviour. Practical experience on brain slicing, immunohistochemistry and cell counting will feature in the completion of a lab project examining the cellular mechanisms underlying schizophrenia-like behavioural deficits. These experiments do not involve contact with animals.

Prerequisite: BIOB10H3 and NROB60H3 and NROB61H3 and PSYB55H3 and [PSYB07H3 or STAB22H3] and PSYB70H3

Corequisite: NROC69H3 and PSYC08H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: 1. Priority will be given to students enrolled in the Specialist/Specialist Co-op programs in Neuroscience - Cellular/Molecular Stream. Students enrolled in the Specialist/Specialist Co-op programs in Neuroscience - Systems/Behavioural Stream and the Major/Major Co-op programs in Neuroscience will be admitted as space permits. 2. Students may complete a maximum of 0.5 credits from [NROC60H3 or NROC63H3].

NROC61H3 - Learning and Motivation

This course will explore the neural and neurochemical bases of learning and motivation. Topics covered under the category of learning include: Pavlovian learning, instrumental learning, multiple memory systems, and topics covered under motivation include: regulation of eating, drinking, reward, stress and sleep.

Prerequisite: BIOB10H3 and NROB60H3 and NROB61H3 and PSYB55H3 and [PSYB07H3 or STAB22H3] and PSYB70H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students enrolled in the Specialist/Specialist Co-op programs in Neuroscience (all Stage 2 streams) and students enrolled in the Major/Major Co-op programs in Neuroscience. Students in the Specialist/Specialist Co-op programs in Neuroscience - Stage 1 will be admitted as space permits.

NROC63H3 - Behavioural Neuroscience Laboratory

This is a lecture and hands-on laboratory course that provides instruction on various experimental approaches, design, data analysis and scientific communication of research outcomes in the field of systems/behavioural neuroscience, with a focus on the neural basis of normal and abnormal learning and cognition. Topics covered include advanced pharmacological and neurological manipulation techniques, behavioural techniques and animal models of psychological disease (e.g., anxiety, schizophrenia). The class involves the use of experimental animals.

Prerequisite: BIOB10H3 and NROB60H3 and NROB61H3 and PSYB55H3 and [PSYB07H3 or STAB22H3] and PSYB70H3

Corequisite: NROC61H3 and PSYC08H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: 1. Priority will be given to students enrolled in the Specialist/Specialist Co-op programs in Neuroscience - Systems/Behavioural stream. Students enrolled in the Specialist/Specialist Co-op programs in Neuroscience - Cellular/Molecular stream and the Major/Major Co-op programs in Neuroscience will be admitted as space permits. 2. Students may complete a maximum of 0.5 credits from [NROC60H3 or NROC63H3].

NROC64H3 - Sensorimotor Systems

A focus on the mechanisms by which the nervous system processes sensory information and controls movement. The topics include sensory transduction and the physiology for sensory systems (visual, somatosensory, auditory, vestibular). Both spinal and central mechanisms of motor control are also covered.

Prerequisite: BIOB10H3 and NROB60H3 and NROB61H3 and PSYB55H3 and [PSYB07H3 or

STAB22H3] and PSYB70H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students enrolled in the Specialist/Specialist Co-op programs in Neuroscience (all Stage 2 streams) and students enrolled in the Major/Major Co-op programs in Neuroscience. Students in the Specialist/Specialist Co-op programs in Neuroscience - Stage 1 will be admitted as space permits.

NROC69H3 - Synaptic Organization and Physiology of the Brain

The course will provide an in-depth examination of neural circuits, synaptic connectivity and cellular mechanisms of synaptic function. Similarities and differences in circuit organization and intrinsic physiology of structures such as the thalamus, hippocampus, basal ganglia and neocortex will also be covered. The goal is to engender a deep and current understanding of cellular mechanisms of information processing in the CNS.

Prerequisite: BIOB10H3 and NROB60H3 and NROB61H3 and PSYB55H3 and [PSYB07H3 or STAB22H3] and PSYB70H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students enrolled in the Specialist/Specialist Co-op programs in Neuroscience (all Stage 2 streams) and students enrolled in the Major/Major Co-op programs in Neuroscience. Students in the Specialist/Specialist Co-op programs in Neuroscience - Stage 1 will be admitted as space permits.

NROC90H3 - Supervised Study in Neuroscience

An intensive research project intended to provide laboratory/field experience in data collection and analysis. The project must be completed over 2 consecutive terms. NROC90H3 and NROC93H3 provide an opportunity to engage in research in an area after completing basic coverage in regularly scheduled courses. The student must demonstrate a background adequate for the project proposed and should present a clear rationale to prospective supervisors. Regular consultation with the supervisor is necessary, and extensive data collection and analysis will be required. Such a project will culminate in a written research report. Students must first find a supervisor before the start of the academic term in which the project will be initiated. They must then obtain a permission form from the Department of Psychology's website that is to be completed and signed by the intended supervisor, and returned to the Psychology Office. Students seeking supervision off campus are further advised to check the appropriateness of the proposed advisor with the Program Supervisor. If the proposed supervisor is not appointed to the Neuroscience faculty at UTSC then a secondary supervisor who is a member of the Neuroscience group at UTSC will be required.

Prerequisite: BIOB10H3 and NROB60H3 and NROB61H3 and [(PSYB01H3) or (PSYB04H3) or PSYB70H3] and [PSYB07H3 or STAB22H3] and [PSYB55H3 or (PSYB65H3)] and permission of the proposed supervisor.

Exclusion: PSYC90H3

Course Experience: University-Based Experience

NROC93H3 - Supervised Study in Neuroscience

An intensive research project intended to provide laboratory/field experience in data collection and analysis. The project must be completed over 2 consecutive terms. NROC90H3 and NROC93H3 provide an opportunity to engage in research in an area after completing basic coverage in regularly scheduled courses. The student must demonstrate a background adequate for the project proposed and should present a clear rationale to prospective supervisors. Regular consultation with the supervisor is necessary, and extensive data collection and analysis will be required. Such a project will culminate in a written research report. Students must first find a supervisor before the start of the academic term in which the project will be initiated. They must then obtain a permission form from the Department of Psychology's website that is to be completed and signed by the intended supervisor, and returned to the Psychology Office. Students seeking supervision off campus are further advised to check the appropriateness of the proposed advisor with the Program Supervisor. If the proposed supervisor is not appointed to the Neuroscience faculty at UTSC then a secondary supervisor who is a member of the Neuroscience group at UTSC will be required.

Prerequisite: BIOB10H3 and NROB60H3 and NROB61H3 and [(PSYB01H3) or (PSYB04H3) or PSYB70H3] and [PSYB07H3 or STAB22H3] and [PSYB55H3 or (PSYB65H3)] and permission of the proposed supervisor.

Exclusion: PSYC93H3

Course Experience: University-Based Experience

NROD60H3 - Current Topics in Neuroscience

An intensive examination of selected issues and research problems in the Neurosciences.

Prerequisite: 0.5 credit from the following: [BIOC44H3/(NROC34H3) or NROC36H3 or NROC61H3 or NROC64H3 or NROC69H3]

Corequisite: An additional 0.5 credit from the following: [BIOC44H3/(NROC34H3) or NROC36H3 or NROC61H3 or NROC64H3 or NROC69H3]

Breadth Requirements: Natural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Neuroscience. Third-year students in these programs will be admitted as space permits.

Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. [PSYD98Y3/NROD98Y3](#) are excluded from these limits. Please see [this website](#) for full information.

NROD61H3 - Emotional Learning Circuits

A seminar based course covering topics on emotional learning based on animal models of fear and anxiety disorders in humans. Through readings, presentations and writing students will explore the synaptic, cellular, circuit and behavioural basis of fear memory processing, learning how the brain encodes fearful and traumatic memories, how these change with time and developmental stage, as well as how brain circuits involved in fear processing might play a role in depression and anxiety.

Prerequisite: [NROC61H3](#) and [NROC64H3](#) and [NROC69H3](#)

Exclusion: [NROD60H3](#) if taken in Fall 2018]

Recommended Preparation: [NROC60H3](#)

Breadth Requirements: Natural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Neuroscience. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. [PSYD98Y3/NROD98Y3](#) are excluded from these limits. Please see [this website](#) for full information.

NROD66H3 - Drug Addiction

An examination of the major phases of the addiction cycle, including drug consumption, withdrawal, and relapse. Consideration will be given to what basic motivational and corresponding neurobiological processes influence behaviour during each phase of the cycle. Recent empirical findings will be examined within the context of major theoretical models guiding the field.

Prerequisite: [NROC61H3](#) or [NROC64H3](#) and [PSYC62H3](#)

Recommended Preparation: [PSYC08H3](#)

Breadth Requirements: Natural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-

op programs in Neuroscience. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. [PSYD98Y3/NROD98Y3](#) are excluded from these limits. Please see [this website](#) for full information.

NROD67H3 - Neuroscience of Aging

This course will characterize various anatomical, biochemical, physiological, and psychological changes that occur in the nervous system with age. We will examine normal aging and age-related cognitive deterioration (including disease states) with a focus on evaluating the validity of current theories and experimental models of aging.

Prerequisite: [NROC61H3](#) and [NROC64H3](#)

Breadth Requirements: Natural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Neuroscience. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. [PSYD98Y3/NROD98Y3](#) are excluded from these limits. Please see [this website](#) for full information.

NROD98Y3 - Thesis in Neuroscience

This course offers the opportunity to engage in a year long research project under the supervision of an interested member of the faculty in Neuroscience. The project will culminate in a written report in the form of a thesis and a poster presentation. During the course of the year, at appropriate times, students will meet to present their own research proposals, to appraise the proposals of others, and to discuss the results of their investigation. Students must first find a supervisor, which is usually confirmed before the start of the academic term in which the project will be initiated. Students will meet as a group with the coordinator as well as individually with their supervisor. Students planning to pursue graduate studies are especially encouraged to enrol in the course. Students must obtain a [permission form](#) from the Department of Psychology's website that is to be completed and signed by the intended supervisor, and submitted to the Psychology Office. Students seeking supervision off campus will need to arrange co supervision with a faculty member in Neuroscience at UTSC.

Prerequisite: BIOB10H3 and NROB60H3 and NROB61H3 and [PSYB07H3 or STAB22H3] and PSYB55H3 and PSYB70H3 and [0.5 credits from the NRO C-level courses or PSY 50-series C-level courses or BIOC44H3] and [enrolment in the Specialist Co-op, Specialist, or Major Program in Neuroscience] and [GPA

of 3.3 or higher over the last 5.0 credit equivalents completed] and permission of the proposed neuroscience faculty supervisor.

Corequisite: [PSYC08H3 or PSYC09H3]

Exclusion: BIOD98Y3, BIOD99Y3, PSYD98Y3

Course Experience: University-Based Experience

New Media Studies

Faculty List

- R. Bai, B.A., M.A. (Beijing Foreign Studies), Ph.D. (Illinois), Assistant Professor
- T.L. Cowan, B.A. (Simon Fraser), M.A., Ph.D. (Alberta), Associate Professor
- R. Grohmann, B.A. (Juiz de Fora, Brazil), M.A., Ph.D (São Paulo, Brazil), Assistant Professor
- D. Nieborg, B.A. (Utrecht), M.A. (Utrecht), Ph.D. (Amsterdam), Associate Professor
- M. Petit, M.A., Ph.D. (Colorado), Assistant Professor, Teaching Stream, Emeritus
- T. Phu, B.A., M.A. (McMaster), Ph.D. (California, Berkeley), Professor

ACM Program Manager: Email: acm-pm@utsc.utoronto.ca

The University of Toronto Scarborough offers a Major (Joint) Program in New Media Studies, which is a competitive-entry professionalization program designed to help students prepare for careers in web communication and new media industries. It combines the academic study of media at UTSC with the technical education and industry experience provided through practice-based courses on multimedia design for Web and mobile applications at Centennial College.

In addition to earning an Honours Bachelor of Arts degree from the University of Toronto, students can earn a certificate in New Media Design from Centennial College by completing one additional summer session, which includes a new media internship and a professional practice course. Courses in this major are currently taught at the UTSC campus and Centennial College. For details, including campus location changes, please consult the Joint Programs [website](#) for the most up-to-date information.

Notes:

1. Students intending to pursue a Major (Joint) Program in New Media Studies are required to demonstrate advanced knowledge in new media design.
2. Students who are not accepted after their first year of studies may apply again at the end of their second year of studies.
3. Majority of admissions are done in early May, and space permitting, additional students are admitted into late summer.
4. Students will spend two consecutive sessions (Fall and Winter) at Centennial College in year 2 of their undergraduate career at UTSC. Note that although 50% is a passing grade at UTSC, a final grade of 60% or above is required in all Centennial College courses in order to continue with the curriculum. Students with a final grade between 50% to 60% will need to repeat the course as an extra (EXT) credit.
5. Note that there is a small additional fee charged for the term(s) when you will be at Centennial College. Contact the department for more information.

A supplementary application will be uploaded on the departmental website closer to the limited program enrollment period.

Guidelines for Course Selection

Students admitted to the program must follow the course selection guidelines described below:

First Year (at UTSC): *Please contact ACM Program Manager if you are pairing Major Program in Studio Art with Major (Joint) Program in New Media Studies

- **Fall:** (MDSA01H3)/[MDSA10H3](#)
- **Winter:** (MDSA02H3)/[MDSA13H3](#)

Please note that you need 4.0 credits in order to request a limited program.

Second Year (at Centennial College):

Notes:

1. Students must be enrolled full-time in year 2 of the program.
2. Due to the course and project workload, students are not permitted to take additional courses at UTSC.

- **Fall:** New Media Group 1*: [NMEA01H3](#), [NMEA02H3](#), [NMEA03H3](#), [NMEA04H3](#)
*students must enrol in all courses in Group 1
- **Winter:** New Media Group 2*: [NMEB05H3](#), [NMEB06H3](#), [NMEB08H3](#), [NMEB09H3](#), [NMEB10H3](#)
*students must enrol in all courses in Group 2

Third Year (at UTSC):

Note: Students complete Media Studies electives in year 3 and 4

- **Fall:** [NMEC01H3](#)
(Fulfill the prerequisites for the MDS C-level courses that students will take in the Winter session)
- **Winter:** 1.0 credit at the C-level in Media Studies courses

Fourth Year (at UTSC):

Note: Students complete Media Studies electives in year 3 and 4.

- **Fall/Winter:** [NMED10Y3](#)

Guidelines for Computer and Software Selection

Students accepted in the Joint Program in New Media Studies are expected to purchase an industry-standard laptop and obtain designated software and hardware. Please see the [New Media Studies \(Joint\) Program - Program Requirements](#) for more details.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

New Media Studies Programs

MAJOR (JOINT) PROGRAM IN NEW MEDIA STUDIES (ARTS) - SCMAJNME

Program Manager: Email: acm-pm@utsc.utoronto.ca

Enrolment Requirements

Enrolment in the program is limited and admission is by competitive application. Please refer to the UTSC Registrar's Office for enrolment timelines. Students must have completed [MDSA10H3](#) and [MDSA13H3](#) and have a minimum cumulative GPA of 2.0 to apply. Students must request admission to the program through ACORN and submit a Supplementary Application Form to the Department that includes an unofficial copy of their academic record, a personal statement of interest, and links (if any) to work published online. Students are strongly advised to meet with the Program Manager during their first year, and before preparing an application for admission. Students may be required to attend an interview with the Program Manager before an admission decision is made. All applicants will be notified through ACORN in early June.

Program Requirements

Students must complete 8.0 full credits of which at least 2.0 must be at the C- or D-level, including:

1. 1.0 credit:

[MDSA10H3](#) Media Foundations

[MDSA13H3](#) Media History

2. 4.5 credits from Centennial College:

New Media Group 1:

NMEA01H3 Digital Fundamentals
NMEA02H3 Introduction to New Media Communications
NMEA03H3 The Language of Design
NMEA04H3 Interface Design, Navigation and Interaction I

New Media Group 2:

[Students will be eligible to enrol in these courses after successfully completing all courses in New Media Group 1]

NMEB05H3 Interface Design, Navigation and Interaction II
NMEB06H3 Project Development and Presentation
NMEB08H3 Application Software for Interactive Media
NMEB09H3 Sound Design
NMEB10H3 Design for New Media

3. 0.5 credit:

NMEC01H3 Theory and Practice of New Media

4. 1.0 additional credit at the C-level in MDS courses:

5. 1.0 credit:

NMED10Y3 New Media Senior Project

Note: NMEC01H3 and NMED10Y3 are taught at UTSC. All other NME courses are taught at Centennial College. For details, including campus location changes, consult the Joint Programs [website](#) for the most up-to-date information.

New Media Studies Courses

NMEA01H3 - Digital Fundamentals

This course introduces basic hardware and software for new media. Students will learn basics of HTML (tags, tables and frames) and JavaScript for creation of new media. Discusses hardware requirements including storage components, colour palettes and different types of graphics (bitmap vs. vector-based). Students will be introduced to a variety of software packages used in new media production. This course is taught at Centennial College.

Prerequisite: 5.0 credits including MDSA01H3 and MDSA02H3

Corequisite: NMEA02H3, NMEA03H3, NMEA04H3

Breadth Requirements: Social and Behavioural Sciences

Note: This course is only open to students registered in the Joint Major Program in New Media.

NMEA02H3 - Introduction to New Media Communications

This course enables students to develop strong written communications skills for effective project proposals and communications, as well as non-linear writing skills that can be applied to a wide range of interactive media

projects. The course examines the difference between successful writing for print and for new media, and how to integrate text and visual material. This course is taught at Centennial College.

Prerequisite: 5.0 credits including MDSA01H3 and MDSA02H3

Corequisite: NMEA01H3, NMEA03H3, NMEA04H3

Breadth Requirements: History, Philosophy and Cultural Studies

Note: This course is only open to students registered in the Joint Major Program in New Media.

NMEA03H3 - The Language of Design

This course introduces the fundamentals of two-dimensional design, graphic design theory, graphic design history, colour principles, typographic principles and visual communication theories applied to New Media Design. Working from basic form generators, typography, two-dimensional design principles, colour and visual communication strategies, learners will be introduced to the exciting world of applied graphic design and multi-media. This course is taught at Centennial College.

Prerequisite: 10 full credits

Corequisite: 5.0 credits including MDSA01H3 and MDSA02H3

Breadth Requirements: Arts, Literature and Language

Note: This course is only open to students registered in the Joint Major Program in New Media.

NMEA04H3 - Interface Design, Navigation and Interaction I

This course introduces students to the discipline of user interface and software design, and in particular their impact and importance in the world of new media. The course uses theory and research in combination with practical application, to bring a user-centred design perspective to developing new media software. This course is taught at Centennial College.

Prerequisite: 5.0 credits including MDSA01H3 and MDSA02H3

Corequisite: NMEA01H3, NMEA02H3, NMEA03H3

Breadth Requirements: Arts, Literature and Language

Note: This course is only open to students registered in the Joint Major Program in New Media.

NMEB05H3 - Interface Design, Navigation and Interaction II

Extends work on interface design. Students have opportunities to gain real world experience in the techniques of user interface design. Participants learn to do a "requirements document" for projects, how to design an interface which meets the needs of the requirements of the document and how to test a design with real world users.

Prerequisite: NMEA01H3 and NMEA02H3 and NMEA03H3 and NMEA04H3

Breadth Requirements: Arts, Literature and Language

Note: This course is only open to students registered in the Joint Major Program in New Media.

NMEB06H3 - Project Development and Presentation

This course enables the participant to understand the new media production process. Learners will develop the skills to conduct benchmarking, scoping and testing exercises that lead to meaningful project planning documents. Learners will develop and manage production schedules for their group projects that support the development efforts using the project planning documents.

Prerequisite: NMEA01H3 and NMEA02H3 and NMEA03H3 and NMEA04H3

Corequisite: NMEB05H3 and NMEB08H3 and NMEB09H3 and NMEB10H3

Breadth Requirements: Social and Behavioural Sciences

Note: This course is only open to students registered in the Joint Major Program in New Media.

NMEB08H3 - Application Software for Interactive Media

This course builds on NMEA01H3. It enables learners to extend their understanding of software requirements and of advanced software techniques. Software used may include Dreamweaver, Flash, Director, and animation (using Director).

Prerequisite: NMEA01H3 and NMEA02H3 and NMEA03H3 and NMEA04H3

Breadth Requirements: Social and Behavioural Sciences

Note: This course is only open to students registered in the Joint Major Program in New Media.

NMEB09H3 - Sound Design

This course introduces students to the scope of sound design - creative audio for new media applications. Students will work with audio applications software to sample, create and compress files, and in the planning and post-production of new media. Students will also learn to use audio in interactive ways such as soundscapes.

Prerequisite: NMEA01H3 and NMEA02H3 and NMEA03H3 and NMEA04H3

Corequisite: NMEB05H3 and NMEB06H3 and NMEB08H3 and NMEB10H3

Breadth Requirements: Arts, Literature and Language

Note: This course is only open to students registered in the Joint Major Program in New Media.

NMEB10H3 - New Media Design

This course discusses the integration of multiple media with the art of good design. The course examines the conventions of typography and the dynamics between words and images, with the introduction of time, motion and sound. The course involves guest speakers, class exercises, assignments, field trips, group critiques and major projects.

Prerequisite: NMEA01H3 and NMEA02H3 and NMEA03H3 and NMEA04H3

Corequisite: NMEB05H3 and NMEB06H3 and NMEB08H3 and NMEB09H3

Breadth Requirements: Arts, Literature and Language

Note: This course is only open to students registered in the Joint Major Program in New Media.

NMEC01H3 - Theory and Practice of New Media

This seminar examines the ideological, political, structural, and representational assumptions underlying new media production and consumption from both theoretical and practice-based perspectives. Students critically reflect on and analyze digital media applications and artefacts in

contemporary life, including business, information, communication, entertainment, and creative practices.

Prerequisite: 4.5 credits from the Major (Joint) program in New Media Studies Group I and Group II courses

Exclusion: (NMED20H3)

Breadth Requirements: History, Philosophy and Cultural Studies

NMED10Y3 - New Media Senior Project

Students develop a new media project that furthers their research into theoretical issues around digital media

practices and artefacts. Projects may focus on digital media ranging from the internet to gaming, to social networking and the Web, to CD-ROMS, DVDs, mobile apps, and Virtual and Augmented Reality technologies.

Prerequisite: Completion of 15.0 credits including 4.5 credits from the Major (Joint) program in New Media Studies Group I and Group II courses

Exclusion: (NMED01H3)

Course Experience: University-Based Experience

Paramedicine

Faculty List

- W. Tavares, H.B.Sc, (Toronto) Ph.D. (McMaster), Assistant Professor

Paramedicine Program Coordinator: paramedicine.utsc@utoronto.ca

This is a unique program, offered jointly by the University of Toronto Scarborough and Centennial College, which combines a four-year Honours Bachelor of Science (HBSc) with a two-year Ontario College Diploma in Paramedicine into a specialized degree that is completed over a four-year period. In the Specialist (Joint) Program in Paramedicine students benefit from tailored curricular design and exceptional faculty at UTSC and Centennial College. The program gives students the critical thinking, analytical and technical skills to succeed in the knowledge and performance-based field of Paramedicine. Graduates of the Specialist (Joint) Program in Paramedicine receive a B.Sc. and are qualified for certification as Primary Care Paramedics (PCPs) in Ontario, contingent on passing the Advanced Emergency Care Assistant Exam (AEMCA) offered by the Ontario Ministry of Health.

Students spend the first year of their degree at UTSC; in the second and third year, students complete a total of 7.5 credits at the Centennial College Morningside Campus alongside taking courses at UTSC. Students complete the program by finishing off year four of their studies at UTSC. Upon successful completion of the Centennial College portion of the program, students are eligible to write the AEMCA exam. Program graduates are well prepared for employment in the field of Paramedicine and have a strong foundation for future studies in professional fields related to health care.

Effective July 1, 2023, the (Joint) Specialist in Paramedicine is administered by the Department of Health and Society. Further information about the program is available on this page or on the [Joint Programs website](#). Questions may be directed to the Program Coordinator at paramedicine.utsc@utoronto.ca.

Program Combination Restrictions in Paramedicine

The Specialist in Paramedicine cannot be combined with any programs in Biological Sciences.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Paramedicine Programs

SPECIALIST (JOINT) PROGRAM IN PARAMEDICINE (SCIENCE) - SCSPEPMD

Program Supervisor: W. Tavares
Program Coordinator: paramedicine.utsc@utoronto.ca

The Specialist (Joint) Program in Paramedicine is administered by the Department of Health and Society. Students who complete the requirements of the program will also qualify for the Paramedic Diploma from Centennial College. Students who have completed the requirements for Centennial's diploma are eligible to take the Ministry of Health exams required to qualify as a Primary Care Paramedic.

Enrolment Requirements

This program has limited enrolment. Applicants must fill out a Paramedicine Declaration form. Prior to taking courses at Centennial College, students must also fill out a medical certificate and have current qualifications in CPR and standard first aid. Other non-academic requirements such as a vulnerable sector police check, fitness standards and face mask fit certification will also ultimately be required. Additional details regarding these requirements may be found at Centennial's website. Applicants may arrange to complete some of these requirements during their first year of study at the University of Toronto Scarborough. For more information on admission and deadlines, see the [Joint Programs with Centennial College](#) section of this *Calendar*.

Program Requirements

This program requires the completion of 16.5 credits. Including electives, students should take 2.5 credits in each semester of their four year degree.

Note: three of the PMD courses are 1.0 credit (Y courses) rather than 0.5 credit (H courses).

1. 1.0 Credit of Introductory Biology Courses

[BIOA01H3](#) Life on Earth: Unifying Principles

[BIOA02H3](#) Life on Earth: Form, Function and Interactions

2. 1.5 Credits of Core Biology Courses

[BIOB10H3](#) Cell Biology

[BIOB11H3](#) Molecular Aspects of Genetic Processes

[BIOB34H3](#) Animal Physiology

3. 1.5 Credits of Foundational Biology Courses

[BIOC17H3](#) Microbiology

[[BIOC21H3](#) Vertebrate Histology: Cells and Tissues or [BIOC32H3](#) Human Physiology I]

[BIOC34H3](#) Human Physiology II

4. 1.0 Credit of Advanced Biology Courses

Choose From:

[BIOD17H3](#) Seminars in Cellular Microbiology

[BIOD26H3](#) Fungal Biology and Pathogenesis

[BIOD29H3](#) Pathobiology of Human Disease

[BIOD33H3](#) Comparative Animal Physiology

[BIOD43H3](#) Animal Movement and Exercise

[BIOD65H3](#) Pathologies of the Nervous System

[BIOD96Y3](#) Directed Research in Paramedicine

5. 1.0 Credit of Introductory Chemistry Courses

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding

[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms

6. 1.0 Credit of Introductory Psychology Courses

[PSYA01H3](#) Introduction to Biological and Cognitive Psychology

[PSYA02H3](#) Introduction to Clinical, Developmental, Personality and Social Psychology

7. 1.0 Credit of B-Level Psychology Courses

[PSYB20H3](#) Introduction to Developmental Psychology

[PSYB32H3](#) Introduction to Clinical Psychology

8. 1.0 Credit of Statistics/Data Analysis Courses

[[STAB22H3](#) Statistics I or [PSYB07H3](#) Data Analysis in Psychology]

[PSYC08H3](#) Advanced Data Analysis in Psychology

9. 7.5 Credits of Paramedicine Courses

*[PMDB22H3](#) Pre-Hospital Care 1: Theory and Lab

*[PMDB25H3](#) Therapeutic Approaches to Behaviour in Crisis

*[PMDB30H3](#) Alterations of Human Body Function I

*[PMDB32Y3](#) Pre-Hospital Care 2: Theory, Lab and Clinical

*[PMDB33H3](#) Anatomy

- *[PMDB36H3](#) Pharmacology for Allied Health Pre-requisite
- *[PMDB41H3](#) Professional Issues, Research and Leadership
- *[PMDC40H3](#) Alterations in Human Body Function II
- *[PMDC42Y3](#) Pre-Hospital Care 3: Theory, Lab and Field
- *[PMDC43H3](#) Medical Directed Therapeutics and Paramedic Responsibilities
- *[PMDC54Y3](#) Pre-Hospital Care 4: Theory, Lab and Field
- *[PMDC56H3](#) Primary Care Practice Integration and Decision Making

*A grade of 60% is required in these courses both to pass the course and to maintain standing in the program. All PMD courses are taught at Centennial College. Note, some PMD courses require that 60% be achieved in all components of the course (i.e., lecture component, practical component, and clinical-placement component).

Note: In order to remain in the program, students must typically maintain a cumulative GPA of at least 2.0. Students whose cumulative GPA falls below 2.0 should consult the program supervisor to discuss their options. Please also note, space in some Centennial College courses is limited. Students who must repeat one of these courses and whose cumulative GPA has fallen below 2.0 will be allowed to register in these courses only if space permits.

Suggested Course Sequence

*Year 1: Fall Semester**

1. [BIOA01H3](#) Life on Earth: Unifying Principles
2. [CHMA10H3](#) Introductory Chemistry I: Structure and Bonding
3. [PSYA01H3](#) Introduction to Biological and Cognitive Psychology

*Year 1: Winter Semester**

1. [BIOA02H3](#) Life on Earth: Form, Function and Interactions
2. [CHMA11H3](#) Introductory Chemistry II; Reactions and Mechanisms
3. [PSYA02H3](#) Introduction to Clinical, Developmental, Personality and Social Psychology

*In Year 1 students must also complete 0.5 credit in statistics [[STAB22H3](#) Statistics I or [PSYB07H3](#) Data Analysis in Psychology].

Year 2: Fall Semester

1. [BIOB10H3](#) Cell Biology
2. [PMDB33H3](#) Anatomy
3. [PMDB22H3](#) Pre-Hospital Care 1: Theory and Lab
4. [PMDB25H3](#) Therapeutic Approaches to Behaviour in Crisis
5. [PMDB41H3](#) Professional Issues, Research and Leadership

Year 2: Winter Semester

1. [BIOB11H3](#) Molecular Aspects of Genetic Processes
2. [PMDB30H3](#) Alterations of Human Body Function I
3. [PMDB32Y3](#) Pre-Hospital Care 2: Theory, Lab and Clinical
4. [PMDB36H3](#) Pharmacology for Allied Health Pre-requisite

Year 3: Fall Semester

1. [BIOB34H3](#) Animal Physiology
2. [PMDC40H3](#) Alterations in Human Body Function II
3. [PMDC42Y3](#) Pre-Hospital Care 3: Theory, Lab and Field
4. [PMDC43H3](#) Medical Directed Therapeutics and Paramedic Responsibilities

Year 3: Winter Semester

1. [BIOC17H3](#) Microbiology
2. [BIOC34H3](#) Human Physiology II

3. [PMDC54Y3](#) Pre-Hospital Care 4: Theory, Lab and Field
4. [PMDC56H3](#) Primary Care Practice Integration and Decision Making

Year 4: Fall Semester

1. [BIOC21H3](#) Vertebrate Histology: Cells and Tissues or [BIOC32H3](#) Human Physiology I
2. [PSYB20H3](#) Introduction to Developmental Psychology
3. [PSYB32H3](#) Abnormal Psychology
4. [[BIOD33H3](#) Comparative Animal Physiology or [BIOD65H3](#) Pathologies of the Nervous System or [BIOD26H3](#) Fungal Biology and Pathogenesis or [BIOD96Y3](#) Directed Research in Paramedicine*]

Year 4: Winter Semester

1. [PSYC08H3](#) Advanced Data Analysis in Psychology
2. [BIOD17H3](#) Seminars in Cellular Microbiology or [BIOD43H3](#) Animal Movement and Exercise or [BIOD29H3](#) Pathobiology of Human Disease
3. 0.5 credits of elective courses

*Students may take any 2 of the D-level courses listed above to meet program requirements. The sequence here merely reflects the current scheduling of courses in the various sessions.

Paramedicine Courses

HLTB80H3 - Paramedicine as a Community Based Health and Social Service

This course introduces students to the foundational principles shaping paramedicine in Canada. Emphasizing patient-centered care, integration within healthcare systems, and the continuum of health and social services, the course explores the evolving healthcare and professional landscape and paramedicine's role within it. Students will also learn about the guiding principles for effective paramedicine, including professional autonomy, community health prioritization, evidence-informed practice, social responsiveness, prioritizing the health professionals and how quality is determined. The course aims to provide an understanding of paramedicine as it exists and how it is evolving in several areas. Designed for paramedic students (and other 2nd year students), this course emphasizes evolving paramedicine to meet modern healthcare challenges effectively and prepares learners for future studies by establishing a strong foundation in the values and direction of modern paramedicine.

Prerequisite: [HLTA02H3](#) and [HLTA03H3](#) and [HLTB27H3](#)

Corequisite: [HLTB40H3](#)

Breadth Requirements: Social and Behavioural Sciences

Note: This course is designed for paramedicine students and therefore priority should be given to students enrolled in the Joint Paramedicine Specialist degree program with Centennial College. However, other students in health

professions exist in the healthcare system, provides a mechanism (of many) for how health is achieved. Students in all streams will be given an opportunity to understand why and how paramedicine as a community-based health and social service can contribute to broader health system goals, including attending to disparities. This will assist students (and future graduates) to explore various strategies when navigating change in the health care system.

PMDB22H3 - Pre-hospital Care 1: Theory and Lab

Allows students to develop the critical thinking skills and problem solving approaches needed to provide quality pre-hospital emergency care. Emphasizes the components of primary and second assessment, and the implementation of patient care based on interpretation of assessment findings. Discusses principles of physical and psycho-social development, and how these apply to the role of the paramedic. Students must pass each component (theory and lab) of the course to be successful. This course is taught at the Centennial HP Science and Technology Centre.

Prerequisite: [BIOA01H3](#) and [BIOA02H3](#)

Corequisite: [PMDB25H3](#) and [PMDB41H3](#) and [PMDB33H3](#)

Breadth Requirements: Social and Behavioural Sciences

Note: Enrolment is restricted to students in the Specialist Program in Paramedicine.

policy, population health or health humanities streams can enroll in this course. Understanding how health

PMDB25H3 - Therapeutic Communications and Crisis Intervention

Focuses on the utilization of effective communication tools when dealing with persons facing health crisis. Students will learn about coping mechanisms utilized by patients and families, and the effects of death and dying on the individual and significant others. Students will have the opportunity to visit or examine community services and do class presentations. This course is taught at the Centennial HP Science and Technology Centre.

Prerequisite: BIOA01H3 and BIOA02H3

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: Partnership-Based Experience

Note: Enrolment is restricted to students in the Specialist Program in Paramedicine.

PMDB30H3 - Alterations of Human Body Function I

Discusses how human body function is affected by a variety of patho-physiological circumstances. The theoretical framework includes the main concepts of crisis, the adaptation of the body by way of compensatory mechanisms, the failure of these compensatory mechanisms and the resulting physiological manifestations. Students will learn to identify such manifestations. This course is taught at the Centennial HP Science and Technology Centre.

Prerequisite: PMDB22H3 and PMDB25H3 and PMDB41H3 and PMDB33H3

Corequisite: PMDB32Y3 and PMDB36H3

Breadth Requirements: Natural Sciences

Note: Enrolment is limited to students in the Specialist Program in Paramedicine

PMDB32Y3 - Pre-hospital Care 2: Theory, Lab and Clinical

Provides the necessary knowledge, skill and value base that will enable the student to establish the priorities of assessment and management for persons who are in stress or crisis due to the effects of illness or trauma. The resulting patho-physiological or psychological manifestations are assessed to determine the degree of crisis and/or life threat. Students must pass each component (theory, lab and clinical) of the course to be successful. This course is taught at the Centennial HP Science and Technology Centre.

Prerequisite: PMDB22H3 and PMDB25H3 and PMDB41H3 and PMDB33H3

Corequisite: PMDB30H3 and PMDB36H3

Breadth Requirements: Natural Sciences

Note: Enrolment is limited to students in the Specialist Program in Paramedicine

PMDB33H3 - Anatomy

The basic anatomy of all the human body systems will be examined. The focus is on the normal functioning of the anatomy of all body systems and compensatory mechanisms, where applicable, to maintain homeostasis. Specific differences with respect to the pediatric/geriatric client will be highlighted. This course is taught at the Centennial HP Science and Technology Centre.

Prerequisite: BIOA01H3 and BIOA02H3

Corequisite: PMDB22H3

Exclusion: ANA300Y, ANA301H, BIOB33H3

Breadth Requirements: Natural Sciences

Note: Restricted to students in the Specialist (Joint) Program in Paramedicine.

PMDB36H3 - Pharmacology for Allied Health

Introduces principles of Pharmacology, essential knowledge for paramedics who are expected to administer medications in Pre-hospital care. Classifications of drugs will be discussed in an organized manner according to their characteristics, purpose, physiologic action, adverse effects, precautions, interactions and Pre-hospital applications. Students will use a step-by-step process to calculate drug dosages. This course is taught at the Centennial HP Science and Technology Centre.

Prerequisite: PMDB22H3 and PMDB25H3 and PMDB41H3 and PMDB33H3

Breadth Requirements: Natural Sciences

Note: Enrolment is limited to students in the Specialist Program in Paramedicine

PMDB41H3 - Professional and Legal Issues, Research, Responsibilities and Leadership

Discusses the changing role of the paramedic and introduces the student to the non-technical professional expectations of the profession. Introduces fundamental principles of medical research and professional principles. Topics covered include the role of professional organizations, the role of relevant legislation, the labour/management environment, the field of injury prevention, and basic concepts of medical research. This course is taught at the Centennial HP Science and Technology Centre.

Prerequisite: BIOA01H3 and BIOA02H3

Breadth Requirements: Social and Behavioural Sciences

Note: Enrolment is restricted to students in the Specialist Program in Paramedicine.

PMDC40H3 - Alterations of Human Body Function II

Strengthens students' decision-making skills and sound clinical practices. Students continue to develop an understanding of various complex alterations in human body function from a variety of patho-physiological topics. Physiologic alterations will be discussed in terms of their potential life threat, their effect on the body's compensatory and decompensatory mechanisms, their manifestations and complications and treatment. This course is taught at the Centennial HP Science and Technology Centre.

Prerequisite: PMDB30H3 and PMDB32Y3 and PMDB36H3 and BIOB11H3

Corequisite: PMDC42Y3 and PMDC43H3

Breadth Requirements: Natural Sciences

Note: Enrolment is limited to students in the Specialist Program in Paramedicine

PMDC42Y3 - Pre-hospital Care 3: Theory, Lab and Field

Provides students with the necessary theoretical concepts and applied knowledge and skills for managing a variety of pre-hospital medical and traumatic emergencies. Particular emphasis is placed on advanced patient assessment, ECG rhythm interpretation and cardiac emergencies, incorporation of symptom relief pharmacology into patient care and monitoring of intravenous fluid administration. Students must pass each component (theory, lab and field) of the course to be successful. This course is taught at the Centennial HP Science and Technology Centre.

Prerequisite: PMDB30H3 and PMDB32Y3 and PMDB36H3 and BIOB11H3

Corequisite: PMDC40H3 and PMDC43H3

Breadth Requirements: Natural Sciences

Note: Enrolment is limited to students in the Specialist Program in Paramedicine

PMDC43H3 - Medical Directed Therapeutics and Paramedic Responsibilities

Applies concepts and principles from pharmacology, patho-physiology and pre-hospital care to make decisions and implementation of controlled or delegated medical acts for increasingly difficult case scenarios in a class and lab setting. Ethics and legal implications/responsibilities of

actions will be integrated throughout the content. Patient care and monitoring of intravenous fluid administration. This course is taught at the Centennial HP Science and Technology Centre.

Prerequisite: PMDB30H3 and PMDB32Y3 and PMDB36H3 and BIOB11H3

Corequisite: PMDC40H3 and PMDC42Y3

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Enrolment is limited to students in the Specialist Program in Paramedicine

PMDC54Y3 - Pre-hospital Care 4: Theory, Lab and Field

Combines theory, lab and field application. New concepts of paediatric trauma and Basic Trauma Life Support will be added to the skill and knowledge base. Students will be guided to develop a final portfolio demonstrating experiences, reflection and leadership. Students must pass each component (theory, lab and field) of the course to be successful. This course is taught at the Centennial HP Science and Technology Centre.

Prerequisite: PMDC40H3 and PMDC42Y3 and PMDC43H3

Corequisite: PMDC56H3

Breadth Requirements: Natural Sciences

Note: Enrolment is limited to students in the Specialist Program in Paramedicine

PMDC56H3 - Primary Care Paramedic Integration and Decision Making

Challenges students with increasingly complex decisions involving life-threatening situations, ethical-legal dilemmas, and the application of sound foundational principles and knowledge of pharmacology, patho-physiology, communication, assessment and therapeutic interventions. Students will analyze and discuss real field experiences and case scenarios to further develop their assessment, care and decision-making. This course is taught at the Centennial HP Science and Technology Centre.

Prerequisite: PMDC40H3 and PMDC42Y3 and PMDC43H3

Corequisite: PMDC54Y3

Breadth Requirements: Natural Sciences

Note: Enrolment is limited to students in the Specialist Program in Paramedicine

Philosophy

Faculty List

- W.C. Graham, M.A., Ph.D. (Toronto), Professor, Emeritus
- B. Hellie, B.A. (Stanford), Ph.D. (Princeton), Professor
- N. Howard, B.A. (McGill), M.A. (Toronto), Ph.D. (Southern California), Assistant Professor
- P.A. Kremer, B.Sc. (Toronto), Ph.D. (Pittsburgh), Professor
- L.M. Lange, B.A., M.A. (Manitoba), Ph.D. (Toronto), Professor, Emerita
- A. Lee, B.A., M.A. (Brown), Ph.D. (New York), Assistant Professor
- J. Nefsky, B.A. (McMaster), Ph.D. (Berkeley), Associate Professor
- C. Pfeiffer, M.A. (Humboldt and Berlin), Ph.D. (Humboldt), Associate Professor
- W.E. Seager, M.A. (Alberta), Ph.D. (Toronto), Professor, Emeritus
- S. Sedivy, B.A. (Toronto), Ph.D. (Pittsburgh), Professor
- C. Tarsney, B.A. (Minnesota), Ph.D. (Maryland)
- J. Wilson, B.A. (U.C. San Diego), Ph.D. (Cornell), Professor

Program Supervisor Email: philosophy-program-supervisor@utsc.utoronto.ca

For more information, [visit the Department of Philosophy website.](#)

Philosophy is the study of the ideas that shape our thought and activity. While we do discuss controversial issues in politics, morality, science, religion, art, etc., philosophy is more concerned with the ideas that underlie all such debates. We consider what the role of government should be, what reasons there could be to describe anything as good or bad, what proves that something is true, whether there could be a reality beyond the physical world, and whether the only value of art is the pleasure it gives. Such questions have been answered in a variety of theories, and any study in philosophy begins with learning what others have thought, but our purpose is not primarily to be historians of ideas, and assignments focus on developing the intellectual abilities and techniques required to think effectively for oneself at this deeper level. Therefore, philosophy emphasizes interpretation and original thought, reasoning, discussion and assessment.

[PHLA10H3](#) and [PHLA11H3](#) are a survey of the main topic-areas of philosophy. They are recommended both as courses of general interest and as an introduction to the Major and Specialist Programs.

B-level courses address specific topics such as theories of human nature, theories of mind, theories of knowledge, metaphysics, techniques of argumentation, ethics, politics, feminism, and art as well as specific periods in the History of Philosophy. Since they have no prerequisites they also serve as entry-points to philosophy. Foundational courses have been grouped into Areas of Focus, which serve as prerequisites to the C-level seminars.

C-level seminars in Philosophy are advanced courses for students who have completed an introductory course in the relevant Area of Focus. (Instructors will admit students whose courses have adequately prepared them for a seminar. Students must provide transcripts when requesting special permission to enroll in a seminar.)

D-level seminars in Philosophy are advanced courses for students with 3.5 credits in Philosophy including 1.0 credits at the C-level. (Instructors will admit students whose courses have adequately prepared them for a seminar. Students must provide transcripts when requesting special permission to enroll in a seminar.)

D-level independent study courses are intended for qualified students who wish to engage in advanced-level work on a well-defined topic of their choice. These courses are only available with the prior agreement of an instructor.

Philosophy Areas of Focus

- **Value Theory:** [PHLB02H3](#), [PHLB05H3](#), [PHLB06H3](#), [PHLB07H3](#), [PHLB09H3](#), (PHLB08H3), (PHLB36H3)
- **Mind, Metaphysics and Epistemology:** [PHLB20H3](#), [PHLB55H3](#), [PHLB60H3](#), [PHLB81H3](#), (PHLB70H3), (PHLB72H3), (PHLB80H3), (PHLB86H3)
- **History of Philosophy:** [PHLB31H3](#), [PHLB33H3](#), [PHLB35H3](#), (PHLB16H3), (PHLB36H3)

*Students who have completed, in a previous session, a course that is no longer being offered (i.e., appears in round brackets) may make use of that course to fulfill the prerequisite requirement.

Students who are unsure whether they meet a course prerequisite are encouraged to contact the program supervisor for further guidance: philosophy-program-supervisor@utsc.utoronto.ca.

Program Combination Restrictions in Philosophy

The Specialist, Major and Minor program in Philosophy may not be combined; Students may combine the Minor program in Biomedical Ethics with either the Specialist in Philosophy or the Major in Philosophy.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Philosophy Programs

SPECIALIST PROGRAM IN PHILOSOPHY (ARTS) - SCSPE0231

Program Supervisor Email: philosophy-program-supervisor@utsc.utoronto.ca

Program Requirements

Students must complete at least 12.0 credits in Philosophy including [PHLB50H3](#) Symbolic Logic I or [PHLB55H3](#) Puzzles and Paradoxes, and at least 5.0 credits at the C- or D-level of which 1.0 must be at the D-level. [MATC09H3](#) can be used as a Philosophy course for these purposes. Students are encouraged, though not required, to complete at least 0.5 credit as a reading course at the D-level.

Note: [PHLB99H3](#) Philosophical Writing and Methodology, is strongly recommended for the Philosophy Specialist and Major programs and is important preparation for advanced C- and D-level studies in Philosophy.

SPECIALIST (CO-OPERATIVE) PROGRAM IN PHILOSOPHY (ARTS) - SCSPE0231C

For more information, please contact:

Academic Program Advisor: jason.ferreira@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Philosophy is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Philosophy upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Philosophy.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the Specialist (Co-op) Program in Philosophy, have completed at least 7.0 credits, including one of PHLB50H3, PHLB55H3 or MATC09H3, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- **COPB59H3**/**(COPB52H3)** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN PHILOSOPHY (ARTS) - SCMAJ0231

Program Supervisor Email: philosophy-program-supervisor@utsc.utoronto.ca

Program Requirements

Students must complete at least 7.0 credits in Philosophy including PHLB50H3 Symbolic Logic 1 or PHLB55H3 Puzzles and Paradoxes and at least 3.0 credits must be at the C- or D-level of which 0.5 must be at the D-level. MATC09H3 can be used as a Philosophy course for these purposes.

Note: PHLB99H3 Philosophical Writing and Methodology, is strongly recommended for the Philosophy Specialist and Major programs and is important preparation for advanced C- and D-level studies in Philosophy.

MAJOR (CO-OPERATIVE) PROGRAM IN PHILOSOPHY (ARTS) - SCMAJ0231C

For more information, please contact:

Academic Program Advisor: jason.ferreira@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Philosophy is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Philosophy upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, plus a cumulative GPA of at least 2.5.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Philosophy. To be eligible for their first work term, students must be enrolled in the Major (Co-op) Program in Philosophy, have completed at least 7.0 credits, including one of PHLB50H3, PHLB55H3 or MATC09H3, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MINOR PROGRAM IN BIOMEDICAL ETHICS (ARTS) - SCMIN0241

Program Requirements

This program requires students to complete a total of 4.0 credits:

1. 0.5 credit:

PHLB09H3 Biomedical Ethics

2. 1.0 credit in Biomedical Ethics (select from the following courses):

PHLC07H3 Death and Dying

PHLC10H3 Topics in Bioethics

PHLD09H3 Advanced Seminar in Bioethics

3. 0.5 credit in Value Theory (select from the following courses):

PHLA11H3 Introduction to Ethics

PHLB02H3 Environmental Ethics

PHLB05H3 Social Issues

PHLB06H3 Business Ethics

PHLB07H3 Ethics

[PHLB11H3](#) Philosophy of Law
[PHLB17H3](#) Introduction to Political Philosophy
[PHLC05H3](#) Ethical Theory
[PHLC06H3](#) Topics in Ethical Theory
[PHLC92H3](#) Political Philosophy
[PHLC93H3](#) Topics in Political Philosophy
[PHLD05H3](#) Advanced Seminar in Ethics
[PHLD78H3](#) Advanced Seminar in Political Philosophy

4. 2.0 additional credits in Philosophy courses*:

*[HLTA02H3](#) and [MATC09H3](#) can be counted for the purpose of fulfilling this general philosophy credit requirement.

Note: The Minor program in Biomedical Ethics cannot be combined with the Minor program in Philosophy; however, students may combine the Minor program in Biomedical Ethics with either the Major or Specialist programs in Philosophy.

MINOR PROGRAM IN PHILOSOPHY (ARTS) - SCMIN0231

Program Supervisor Email: philosophy-program-supervisor@utsc.utoronto.ca

Program Requirements

Students must complete 4.0 credits in Philosophy of which at least 1.0 credit must be at the C- or D-level. [MATC09H3](#) can be used as a Philosophy course for these purposes.

Philosophy Courses

PHLA10H3 - Reason and Truth

An introduction to philosophy focusing on issues of rationality, metaphysics and the theory of knowledge. Topics may include: the nature of mind, freedom, the existence of God, the nature and knowability of reality. These topics will generally be introduced through the study of key texts from the history of philosophy.

Exclusion: PHL100Y1, PHL101Y1

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

PHLA11H3 - Introduction to Ethics

Ethics is concerned with concrete questions about how we ought to treat one another as well as more general questions about how to justify our ethical beliefs. This course is an introduction that both presents basic theories

of ethics and considers their application to contemporary moral problems.

Exclusion: PHL275H, PHL100Y1, PHL101Y1

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

PHLB02H3 - Environmental Ethics

This course examines ethical issues raised by our actions and our policies for the environment. Do human beings stand in a moral relationship to the environment? Does the environment have moral value and do non-human animals have moral status? These fundamental questions underlie more specific contemporary issues such as sustainable development, alternative energy, and animal rights.

Exclusion: PHL273H

Recommended Preparation: [PHLA11H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB03H3 - Philosophy of Aesthetics

An examination of challenges posed by the radical changes and developments in modern and contemporary art forms. For example, given the continuously exploding nature of art works, what do they have in common - what is it to be an artwork?

Exclusion: PHL285H

Breadth Requirements: Arts, Literature and Language

PHLB04H3 - Philosophy and Literature

This course examines some of the classic problems concerning literary texts, such as the nature of interpretation, questions about the power of literary works and their relationship to ethical thought, and problems

posed by fictional works - how can we learn from works that are fictional and how can we experience genuine emotions from works that we know are fictional?

Breadth Requirements: Arts, Literature and Language

PHLB05H3 - Social Issues

An examination of contemporary or historical issues that force us to consider and articulate our values and commitments. The course will select issues from a range of possible topics, which may include globalization, medical ethics, war and terrorism, the role of government in a free society, equality and discrimination.

Breadth Requirements: Social and Behavioural Sciences

PHLB06H3 - Business Ethics

An examination of philosophical issues in ethics, social theory, and theories of human nature as they bear on business. What moral obligations do businesses have? Can social or environmental costs and benefits be calculated in a way relevant to business decisions? Do political ideas have a role within business?

Exclusion: MGSC14H3/(MGTC59H3), PHL295H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB07H3 - Ethics

What is the difference between right and wrong? What is 'the good life'? What is well-being? What is autonomy? These notions are central in ethical theory, law, bioethics, and in the popular imagination. In this course we will explore these concepts in greater depth, and then consider how our views about them shape our views about ethics.

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB09H3 - Biomedical Ethics

This course is an examination of moral and legal problems in medical practice, in biomedical research, and in the development of health policy. Topics may include: concepts of health and disease, patients' rights, informed consent, allocation of scarce resources, euthanasia, risks and benefits in research and others.

Exclusion: PHL281H, (PHL281Y)

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB11H3 - Philosophy of Law

A discussion of right and rights, justice, legality, and related concepts. Particular topics may include: justifications for the legal enforcement of morality, particular ethical issues arising out of the intersection of law and morality, such as punishment, freedom of expression and censorship, autonomy and paternalism, constitutional protection of human rights.

Exclusion: PHL271H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB12H3 - Philosophy of Sexuality

Philosophical issues about sex and sexual identity in the light of biological, psychological and ethical theories of sex and gender; the concept of gender; male and female sex roles; perverse sex; sexual liberation; love and sexuality.

Exclusion: PHL243H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB13H3 - Philosophy and Feminism

What is feminism? What is a woman? Or a man? Are gender relations natural or inevitable? Why do gender relations exist in virtually every society? How do gender relations intersect with other social relations, such as economic class, culture, race, sexual orientation, etc.?

Exclusion: PHL267H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB17H3 - Introduction to Political Philosophy

This course will introduce some important concepts of and thinkers in political philosophy from the history of political philosophy to the present. These may include Plato, Aristotle, Augustine, Aquinas, Thomas Hobbes, John Locke, Jean-Jacques Rousseau, G.W.F. Hegel, John Stuart Mill, or Karl Marx. Topics discussed may include political and social justice, liberty and the criteria of good government.

Exclusion: PHL265H, (POLB71H3); in addition, PHLB17H3 may not be taken after or concurrently with POLB72H3

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB18H3 - Ethics of Artificial Intelligence

This course will provide an accessible understanding of AI systems, such as ChatGPT, focusing on the ethical issues raised by ongoing advances in AI. These issues include the collection and use of big data, the use of AI to manipulate human beliefs and behaviour, its application in the workplace and its impact on the future of employment, as well as the ethical standing of autonomous AI systems.

Prerequisite: None

Corequisite: None

Exclusion: None

Recommended Preparation: PHLA10H3 or PHLA11H3.

These courses provide an introductory background of philosophical reasoning and core background concepts, which would assist students taking a B level course in Philosophy.

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

PHLB20H3 - Belief, Knowledge, and Truth

An examination of the nature of knowledge, and our ability to achieve it. Topics may include the question of whether any of our beliefs can be certain, the problem of scepticism, the scope and limits of human knowledge, the nature of perception, rationality, and theories of truth.

Exclusion: (PHL230H)

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB30H3 - Existentialism

A study of the views and approaches pioneered by such writers as Kierkegaard, Husserl, Jaspers, Heidegger and Sartre. Existentialism has had influence beyond philosophy, impacting theology, literature and psychotherapy. Characteristic topics include the nature of the self and its relations to the world and society, self-deception, and freedom of choice.

Exclusion: PHL220H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB31H3 - Introduction to Ancient Philosophy

A survey of some main themes and figures of ancient philosophical thought, concentrating on Plato and Aristotle. Topics include the ultimate nature of reality, knowledge, and the relationship between happiness and virtue.

Exclusion: PHL200Y, PHL202H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB33H3 - God, Self, World

This course is a thematic introduction to the history of metaphysics, focusing on topics such as the nature of God, our own nature as human beings, and our relation to the rest of the world. We will read a variety of texts, from ancient to contemporary authors, that will introduce us to concepts such as substance, cause, essence and existence, mind and body, eternity and time, and the principle of sufficient reason. We will also look at the ethical implications of various metaphysical commitments.

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB35H3 - Introduction to Early Modern Philosophy

This course is an introduction to the major themes and figures of seventeenth and eighteenth century philosophy, from Descartes to Kant, with emphasis on metaphysics, epistemology, and ethics.

Exclusion: PHL210Y

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB50H3 - Symbolic Logic I

An introduction to formal, symbolic techniques of reasoning. Sentential logic and quantification theory (or predicate logic), including identity will be covered. The emphasis is on appreciation of and practice in techniques, for example, the formal analysis of English statements and arguments, and for construction of clear and rigorous proofs.

Exclusion: PHL245H

Breadth Requirements: Quantitative Reasoning

PHLB55H3 - Puzzles and Paradoxes

Time travel, free will, infinity, consciousness: puzzling and paradoxical issues like these, brought under control with logic, are the essence of philosophy. Through new approaches to logic, we will find new prospects for understanding philosophical paradoxes.

Breadth Requirements: Quantitative Reasoning

PHLB58H3 - Reasoning Under Uncertainty

Much thought and reasoning occur in a context of uncertainty. How do we know if a certain drug works against a particular illness? Who will win the next election? This course examines various strategies for dealing with uncertainty. Topics include induction and its problems, probabilistic reasoning and the nature of probability, the assignment of causes and the process of scientific confirmation and refutation. Students will gain an appreciation of decision making under uncertainty in life and science.

Exclusion: PHL246H1, PHL246H5

Breadth Requirements: Quantitative Reasoning

PHLB60H3 - Introduction to Metaphysics

A consideration of problems in metaphysics: the attempt to understand 'how everything fits together' in the most general sense of this phrase. Some issues typically covered include: the existence of God, the nature of time and space, the nature of mind and the problem of the freedom of the will.

Exclusion: (PHL231H)

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB81H3 - Theories of Mind

An examination of questions concerning the nature of mind. Philosophical questions considered may include: what is consciousness, what is the relation between the mind and the brain, how did the mind evolve and do animals have minds, what is thinking, what are feelings and emotions, and can machines have minds.

Exclusion: PHL240H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB91H3 - Theories of Human Nature

An exploration of theories which provide answers to the question 'What is a human being?', answers that might be summarized with catchphrases such as: 'Man is a rational animal,' 'Man is a political animal,' 'Man is inherently individual,' 'Man is inherently social,' etc. Authors studied are: Aristotle, Hobbes, Rousseau, Darwin, Marx, Freud and Sartre.

Exclusion: PHL244H, (PHLC91H3)

Breadth Requirements: History, Philosophy and Cultural Studies

PHLB99H3 - Philosophical Writing and Methodology

In this writing-intensive course, students will become familiar with tools and techniques that will enable them to competently philosophize, on paper and in person. Students will learn how to write an introduction and how to appropriately structure philosophy papers, how to accurately present someone else's position or argumentation, how to critically assess someone else's view or argumentation, and how to present and defend their own positive proposal or argumentation concerning a given topic. Students will learn many more specific skills, such as, how to 'signpost' what students are doing, how to identify and charitably interpret ambiguities in another discussion, and how to recognize and apply various argumentative strategies.

Prerequisite: 0.5 credit in PHL courses, excluding [PHLB50H3 and PHLB55H3]

Breadth Requirements: History, Philosophy and Cultural Studies

Note: This course is strongly recommended for students enrolled in the Specialist and Major program in Philosophy. It is open to students enrolled in the Minor program in Philosophy as well as all other students by permission of the instructor.

PHLC03H3 - Topics in the Philosophy of Aesthetics

An exploration of some current issues concerning the various forms of art such as: the role of the museum, the loss of beauty and the death of art.

Prerequisite: Any 4.5 credits and [PHLB03H3 and an additional 1.0 credit in PHL courses]

Breadth Requirements: Arts, Literature and Language

PHLC05H3 - Ethical Theory

Philosophers offer systematic theories of ethics: theories that simultaneously explain what ethics is, why it matters, and what it tells us to do. This course is a careful reading of classic philosophical texts by the major systematic thinkers in the Western tradition of ethics. Particular authors read may vary from instructor to instructor.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Value Theory area of focus – see Table 1.0 for reference]

Exclusion: (PHLC01H3), PHL375H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC06H3 - Topics in Ethical Theory

Philosophical ethics simultaneously aims to explain what ethics is, why it matters, and what it tells us to do. This is what is meant by the phrase 'ethical theory.' In this class we will explore specific topics in ethical theory in some depth. Specific topics may vary with the instructor.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Value Theory area of focus – see Table 1.0 for reference]

Exclusion: (PHLC01H3)

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC07H3 - Death and Dying

An intermediate-level study of the ethical and legal issues raised by death and dying. Topics may vary each year, but could include the definition of death and the legal criteria for determining death, the puzzle of how death can be harmful, the ethics of euthanasia and assisted suicide, the relationship between death and having a meaningful life, and the possibility of surviving death.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Value Theory area of focus, see Table 1.0 for reference]

Exclusion: PHL382H1

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC08H3 - Topics in Arabic and Jewish Philosophy

This is an advanced, reading and discussion intensive course in the history of Arabic and Jewish thought, beginning with highly influential medieval thinkers such as Avicenna (Ibn Sīnā), al-Ghazālī, Al Fārābī, Averroes (Ibn Rushd), and Maimonides, and ending with 20th century philosophers (among them Arendt, Freud and Levinas).

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the History of Philosophy area of focus – see Table 1.0 for reference]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC09H3 - Topics in Continental Philosophy

This course is a reading and discussion intensive course in 20th century German and French European Philosophy. Among the movements we shall study will be phenomenology, existentialism, and structuralism. We will look at the writings of Martin Heidegger, Jean-Paul Sartre,

Maurice Merleau-Ponty, Michel Foucault, and Gilles Deleuze, among others.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC10H3 - Topics in Bioethics

An intermediate-level study of bioethical issues. This course will address particular issues in bioethics in detail. Topics will vary from year to year, but may include such topics as reproductive ethics, healthcare and global justice, ethics and mental health, the patient-physician relationship, or research on human subjects.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Value Theory area of focus, see Table 1.0 for reference]

Recommended Preparation: PHLB09H3 is strongly recommended

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC13H3 - Topics in Philosophy and Feminism

Feminist philosophy includes both criticism of predominant approaches to philosophy that may be exclusionary for women and others, and the development of new approaches to various areas of philosophy. One or more topics in feminist philosophy will be discussed in some depth. Particular topics will vary with the instructor.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Value Theory sub-discipline area of focus – see Table 1.0 for reference]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC14H3 - Topics in Non-Western Philosophy

Contemporary Philosophy, as taught in North America, tends to focus on texts and problematics associated with certain modes of philosophical investigation originating in Greece and developed in Europe and North America. There are rich alternative modes of metaphysical investigation, however, associated with Arabic, Indian, East Asian, and African philosophers and philosophizing. In this course, we will explore one or more topics drawn from metaphysics, epistemology, or value theory, from the points of view of these alternative philosophical traditions.

Prerequisite: Any 4.5 credits and an additional 1.5 credits in PHL courses

Recommended Preparation: PHLB99H3

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC20H3 - Theory of Knowledge

A follow up to [PHLB20H3](#). This course will consider one or two epistemological topics in depth, with an emphasis on class discussion.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Mind, Metaphysics and Epistemology area of focus – see Table 1.0 for reference]

Exclusion: PHL332H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC22H3 - Topics in Theory of Knowledge

This course addresses particular issues in the theory of knowledge in detail. Topics will vary from year to year but may typically include such topics as The Nature of Knowledge, Scepticism, Epistemic Justification, Rationality and Rational Belief Formation.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Mind, Metaphysics and Epistemology area of focus – see Table 1.0 for reference]

Exclusion: PHL332H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC31H3 - Topics in Ancient Philosophy: Plato

This course examines the foundational work of Plato in the major subject areas of philosophy: ethics, politics, metaphysics, theory of knowledge and aesthetics.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the History of Philosophy area of focus, see Table 1.0 for reference]

Exclusion: PHL303H1

Recommended Preparation: [PHLB31H3](#) is strongly recommended

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC32H3 - Topics in Ancient Philosophy: Aristotle

This course examines the foundational work of Aristotle in the major subject areas of philosophy: metaphysics, epistemology, ethics, politics, and aesthetics.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the History of Philosophy area of focus, see Table 1.0 for reference]

Exclusion: PHL304H1

Recommended Preparation: [PHLB31H3](#) strongly recommended

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC35H3 - Topics in Early Modern Philosophy: Rationalism

In this course we study the major figures of early modern rationalism, Descartes, Spinoza, and Leibniz, with a particular emphasis on topics such as substance, knowledge and sense perception, the mind-body problem, and the existence and nature of God.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the History of Philosophy area of focus – see Table 1.0 for reference]

Exclusion: PHL310H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC36H3 - Topics in Early Modern Philosophy: Empiricism

In this course we study major figures of early modern empiricism, Locke, Berkeley, Hume, with a particular emphasis on topics such as substance, knowledge and sense perception, the mind-body problem, and the existence and nature of God.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the History of Philosophy area of focus – see Table 1.0 for reference]

Exclusion: PHL311H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC37H3 - Kant

This course focuses on the thought of Immanuel Kant, making connections to some of Kant's key predecessors such as Hume or Leibniz. The course will focus either on Kant's metaphysics and epistemology, or his ethics, or his aesthetics.

Prerequisite: Any 4.5 credits and [[[PHLB33H3](#) or [PHLB35H3](#)] and additional 1.0 credit in PHL courses]

Exclusion: PHL314H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC43H3 - History of Analytic Philosophy

This course explores the foundation of Analytic Philosophy in the late 19th and early 20th century, concentrating on Frege, Russell, and Moore. Special attention paid to the discovery of mathematical logic, its motivations from and consequences for metaphysics and the philosophy of mind.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, including PHLB50H3 and 0.5 credit from the Mind, Metaphysics and Epistemology area of focus – see Table 1.0 for reference]

Exclusion: PHL325H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC45H3 - Advanced Topics in Philosophy

This course critically examines advanced topics in philosophy.

Prerequisite: Any 4.5 credits and [an additional 1.0 credit in PHL courses]

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

PHLC51H3 - Symbolic Logic II

After consolidating the material from Symbolic Logic I, we will introduce necessary background for metalogic, the study of the properties of logical systems. We will introduce set theory, historically developed in parallel to logic. We conclude with some basic metatheory of the propositional logic learned in Symbolic Logic I.

Prerequisite: PHLB50H3 or CSCB36H3 or MATB24H3 or MATB43H3

Exclusion: MATC09H3, PHL345H

Breadth Requirements: Quantitative Reasoning

PHLC60H3 - Metaphysics

A follow up to PHLB60H3. This course will consider one or two metaphysical topics in depth, with an emphasis on class discussion.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Mind, Metaphysics and Epistemology area of focus – see Table 1.0 for reference]

Exclusion: PHL331H, PHL332H (UTM only)

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC72H3 - Philosophy of Science

This course will consider one or two topics in the Philosophy of Science in depth, with an emphasis on class discussion.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Mind, Metaphysics and Epistemology area of focus – see Table 1.0 for reference]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC80H3 - Philosophy of Language

An examination of philosophical issues about language. Philosophical questions to be covered include: what is the relation between mind and language, what is involved in linguistic communication, is language an innate biological feature of human beings, how do words manage to refer to things, and what is meaning.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Mind, Metaphysics and Epistemology area of focus – see Table 1.0 for reference]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC86H3 - Issues in the Philosophy of Mind

Advance Issues in the Philosophy of Mind. For example, an examination of arguments for and against the idea that machines can be conscious, can think, or can feel. Topics may include: Turing's test of machine intelligence, the argument based on Gödel's theorem that there is an unbridgeable gulf between human minds and machine capabilities, Searle's Chinese Room thought experiment.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Mind, Metaphysics and Epistemology area of focus – see Table 1.0 for reference]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC89H3 - Topics in Analytic Philosophy

Advanced topic(s) in Analytic Philosophy. Sample contemporary topics: realism/antirealism; truth; interrelations among metaphysics, epistemology, philosophy of mind and of science.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Mind, Metaphysics and Epistemology area of focus – see Table 1.0 for reference]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC92H3 - Political Philosophy

An examination of some central philosophical problems of contemporary political philosophy.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Value Theory area of focus – see Table 1.0 for reference]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC93H3 - Topics in Political Philosophy

This course will examine some contemporary debates in recent political philosophy. Topics discussed may include the nature of justice, liberty and the criteria of good government, and problems of social coordination.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Value Theory area of focus – see Table 1.0 for reference]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC95H3 - Topics in the Philosophy of Mind

Advanced topics in the Philosophy of mind, such as an exploration of philosophical problems and theories of consciousness. Topics to be examined may include: the nature of consciousness and 'qualitative experience', the existence and nature of animal consciousness, the relation between consciousness and intentionality, as well as various philosophical theories of consciousness.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses, of which 0.5 credit must be from the Mind, Metaphysics and Epistemology area of focus – see Table 1.0 for reference]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLC99H3 - Philosophical Development Seminar

This course aims to foster a cohesive cohort among philosophy specialists and majors. The course is an intensive seminar that will develop advanced philosophical skills by focusing on textual analysis, argumentative techniques, writing and oral presentation. Students will work closely with the instructor and their peers to develop a conference-style, research-length paper. Each year, the course will focus on a different topic drawn from the core

areas of philosophy for its subject matter. This course is *strongly recommended* for students in the Specialist and Major programs in Philosophy.

Prerequisite: Any 4.5 credits and [an additional 1.5 credits in PHL courses]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLD05H3 - Advanced Seminar in Ethics

This course offers an in-depth investigation into selected topics in moral philosophy.

Prerequisite: 3.5 credits in PHL courses, including [[PHLC05H3 or PHLC06H3] and 0.5 credit at the C-level]

Exclusion: PHL407H, PHL475H

Breadth Requirements: History, Philosophy and Cultural Studies

PHLD09H3 - Advanced Seminar in Bioethics

This advanced seminar will delve deeply into an important topic in bioethics. The topics will vary from year to year. Possible topics include: a detailed study of sperm and ovum donation; human medical research in developing nations; informed consent; classification of mental illness.

Prerequisite: 3.5 credits in PHL courses, including [PHLC10H3 and 0.5 credit at the C-level]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLD20H3 - Advanced Seminar in Theory of Knowledge

This courses addresses core issues in the theory of knowledge at an advanced level. Topics to be discussed may include The Nature of Knowledge, Scepticism, Epistemic Justification, Rationality and Rational Belief Formation.

Prerequisite: 3.5 credits in PHL courses, including [[PHLC20H3 or PHLC22H3] and 0.5 credit at the C-level]

Breadth Requirements: History, Philosophy and Cultural Studies

PHLD31H3 - Advanced Seminar in Ancient Philosophy

This course offers in-depth examination of selected topics from the philosophy of Plato and Aristotle, as well as the Epicurean and Stoic schools of thought. Topics will range from the major areas of philosophy: metaphysics, epistemology, ethics, politics and aesthetics.

Prerequisite: 3.5 credits in PHL courses, including [\[PHLC31H3 or PHLC32H3\]](#) and [an additional 0.5 credit at the C-level]

Recommended Preparation: It is strongly recommended that students take both PHLC31H3 and PHLC32H3.

Breadth Requirements: History, Philosophy and Cultural Studies

PHLD35H3 - Advanced Seminar in Rationalism

This course offers in-depth examination of the philosophical approach offered by one of the three principal Rationalist philosophers, Descartes, Spinoza or Leibniz.

Prerequisite: 3.5 credits in PHL courses, including [\[PHLC35H3\]](#) and 0.5 credit at the C-level

Breadth Requirements: History, Philosophy and Cultural Studies

PHLD36H3 - Advanced Seminar in Empiricism

In this course, we will explore in depth certain foundational topics in the philosophy of Berkeley and Hume, with an eye to elucidating both the broadly Empiricist motivations for their approaches and how their approaches to key topics differ. Topics may address the following questions: Is there a mind-independent world? What is causation? Is the ontological or metaphysical status of persons different from that of ordinary objects? Does God exist?

Prerequisite: 3.5 credits in PHL courses, including [\[PHLC36H3\]](#) and an additional 0.5 credit at the C-level

Breadth Requirements: History, Philosophy and Cultural Studies

PHLD43H3 - Advanced Seminar in History of Analytic Philosophy

This course examines Analytic Philosophy in the mid-20th century, concentrating on Wittgenstein, Ramsey, Carnap, and Quine. Special attention paid to the metaphysical foundations of logic, and the nature of linguistic meaning, including the relations between "truth-conditional" and "verificationist" theories.

Prerequisite: 3.5 credits in PHL courses, including [\[PHLC43H3\]](#) and 0.5 credit at the C-level

Exclusion: PHL325H, (PHLC44H3)

Breadth Requirements: History, Philosophy and Cultural Studies

PHLD51H3 - Metalogic

Symbolic Logic deals with formal languages: you work inside formal proof systems, and also consider the "semantics", dealing with truth, of formal languages.

Instead of working inside formal systems, Metalogic treats systems themselves as objects of study, from the outside.

Prerequisite: [PHLC51H3](#)

Exclusion: PHL348H, (PHLC54H3)

Breadth Requirements: Quantitative Reasoning

PHLD78H3 - Advanced Seminar in Political Philosophy

This advanced seminar will delve more deeply into an issue in political philosophy. Topics will vary from year to year, but some examples include: distributive justice, human rights, and the political morality of freedom. Students will be required to present material to the class at least once during the semester.

Prerequisite: 3.5 credits in PHL courses, including 1.0 credit at the C-level

Breadth Requirements: History, Philosophy and Cultural Studies

PHLD79H3 - Advanced Seminar in Metaphysics

This seminar addresses core issues in metaphysics. Topics to be discussed may include the nature of persons and personal identity, whether physicalism is true, what is the relation of mind to reality in general, the nature of animal minds and the question of whether machines can possess minds.

Prerequisite: 3.5 credits in PHL courses, including 1.0 credit at the C-level

PHLD85H3 - Advanced Seminar in Philosophy: Socrates Project Mentorship

The Socrates Project Mentorship Seminar is a half-year seminar course that provides experiential learning in philosophy in conjunction with a teaching assignment to lead tutorials and mark assignments in [PHLA10H3](#). This course is designed for a select number of returning Socrates Project participants chosen to mentor new Project participants. These students will solidify their teaching/grading skills and advise new participants in the Project. The seminar course will further enhance their philosophical abilities in an extension of [PHLD88Y3](#). Roughly 75% of the seminar will be devoted to a more in-depth study of the topics taken up in the [PHLA10H3](#) Reason and Truth. Students will write a seminar paper on one of these topics under the supervision of a UTSC Philosophy faculty member working in the relevant area, and they will give an oral presentation on their research topic each semester. The remaining 25% of the seminar will focus on the further exploration of the methods and challenges of teaching philosophy, benchmark grading, and grading generally and, most distinctively, issues of

mentorship of new participants to the Socrates Project.

Note: The teaching component of the Socrates Project will consist of the following components. Students will optionally attend two 1-hour [PHLA10H3](#) lectures each week, and teach one tutorial of approximately 25 students, meeting with them for 1 hour every other week. Students will grade papers, hold office hours, and meet with the relevant professor as needed as well as provide mentorship to new participants in the Socrates Project.

Prerequisite: [PHLD88Y3](#)

Exclusion: [PHL489Y1](#), [PHL489Y5](#)

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

PHLD86H3 - Advanced Seminar in Philosophy: Socrates Project Mentorship

The Socrates Project Mentorship Seminar is a half-year seminar course that provides experiential learning in philosophy in conjunction with a teaching assignment to lead tutorials and mark assignments in [PHLA11H3](#). This course is designed for a select number of returning Socrates Project participants chosen to mentor new Project participants. These students will solidify their teaching/grading skills and advise new participants in the Project. The seminar course will further enhance their philosophical abilities in an extension of [PHLD88Y3](#). Roughly 75% of the seminar will be devoted to a more in-depth study of the topics taken up in the [PHLA11H3](#) Introduction to Ethics. Students will write a seminar paper on one of these topics under the supervision of a UTSC Philosophy faculty member working in the relevant area, and they will give an oral presentation on their research topic each semester. The remaining 25% of the seminar will focus on the further exploration of the methods and challenges of teaching philosophy, benchmark grading, and grading generally and, most distinctively, issues of mentorship of new participants to the Socrates Project.

Note: The teaching component of the Socrates Project will consist of the following components. Students will optionally attend two 1-hour [PHLA11H3](#) lectures each week, and teach one tutorial of approximately 25 students, meeting with them for 1 hour every other week. Students will grade papers, hold office hours, and meet with the relevant professor as needed as well as provide mentorship to new participants in the Socrates Project.

Prerequisite: [PHLD88Y3](#)

Exclusion: [PHL489Y1](#), [PHL489Y5](#)

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

PHLD87H3 - Advanced Seminar in Philosophy of Mind

This course offers in-depth examination of selected contemporary theories and issues in philosophy of mind, such as theories of perception or of consciousness, and contemporary research examining whether minds must be embodied or embedded in a larger environment.

Prerequisite: 3.5 credits in PHL courses, including [[PHLC95H3](#) or [PHLC86H3](#)] and 0.5 credit at the C-level]

Exclusion: [PHL405H](#)

Recommended Preparation: [PHLC95H3](#)

Breadth Requirements: History, Philosophy and Cultural Studies

PHLD88Y3 - Advanced Seminar in Philosophy: Socrates Project

The Socrates Project Seminar is a full-year seminar course that provides experiential learning in philosophy in conjunction with a teaching assignment to lead tutorials and mark assignments in [PHLA10H3](#) and [PHLA11H3](#). Roughly 75% of the seminar will be devoted to more in-depth study of the topics taken up in [PHLA10H3](#) and [PHLA11H3](#). Students will write a seminar paper on one of these topics under the supervision of a UTSC Philosophy faculty member working in the relevant area, and they will give an oral presentation on their research topic each semester. The remaining 25% of the seminar will focus on the methods and challenges of teaching philosophy, benchmark grading, and grading generally.

Prerequisite: Permission of the instructor and Department.

Exclusion: [PHL489Y1](#), [PHL489Y5](#)

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

PHLD89Y3 - Advanced Seminar in Philosophy: The Socrates Project for Applied Ethics

The Socrates Project for Applied Ethics is a seminar course which occurs over two terms that provides experiential learning in philosophy in conjunction with a teaching assignment to lead tutorials and mark assignments in [PHLB09H3](#). Roughly 75% of the seminar will be devoted to a more in-depth study of the topics taken up in [PHLB09H3](#). Students will write a seminar paper on one of these topics under the supervision of a UTSC Philosophy faculty member working in the relevant area, and they will give an oral presentation on their research topic each semester. The remaining 25% of the seminar will focus on the methods and challenges of teaching philosophy, benchmark grading, and grading generally.

Prerequisite: Permission of the instructor and Department.

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

PHLD90H3 - Independent Study

These courses are intended for qualified students who wish to engage in advanced level work on a well-defined topic of their choice. These courses are only available with the prior arrangement of an instructor.

PHLD91H3 - Independent Study

These courses are intended for qualified students who wish to engage in advanced level work on a well-defined topic of their choice. These courses are only available with the prior arrangement of an instructor.

PHLD92H3 - Independent Study

These courses are intended for qualified students who wish to engage in advanced level work on a well-defined topic of their choice. These courses are only available with the prior arrangement of an instructor.

PHLD93H3 - Independent Study

These courses are intended for qualified students who wish to engage in advanced level work on a well-defined topic of their choice. These courses are only available with the prior arrangement of an instructor.

PHLD94H3 - Independent Study

These courses are intended for qualified students who wish to engage in advanced level work on a well-defined topic of their choice. These courses are only available with the prior arrangement of an instructor.

PHLD95H3 - Independent Study

These courses are intended for qualified students who wish to engage in advanced level work on a well-defined topic of their choice. These courses are only available with the prior arrangement of an instructor.

PHLD96H3 - Independent Study

These courses are intended for qualified students who wish to engage in advanced level work on a well-defined topic of their choice. These courses are only available with the prior arrangement of an instructor.

PHLD97H3 - Independent Study

These courses are intended for qualified students who wish to engage in advanced level work on a well-defined topic of their choice. These courses are only available with the prior arrangement of an instructor.

PHLD98H3 - Independent Study

These courses are intended for qualified students who wish to engage in advanced level work on a well-defined topic of their choice. These courses are only available with the prior arrangement of an instructor.

PHLD99H3 - Independent Study

These courses are intended for qualified students who wish to engage in advanced level work on a well-defined topic of their choice. These courses are only available with the prior arrangement of an instructor.

Physical Sciences

Faculty List

- P. Artymowicz, M.Sc. (Warsaw University), Ph.D. (N. Copernicus Astron. Center, Polish Academy of Sciences), Professor
- J. Bayer Carpintero, B.Sc. (Los Andes, Bogota), M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- C.C. Dyer, B.Sc. (Bishop's), M.Sc., Ph.D. (Toronto), Professor Emeritus
- A. Jacobs, B.A.Sc., B.Sc. (Waterloo), Ph.D. (Illinois), Professor Emeritus
- J.D. King, B.A. (Toronto), Ph.D. (Saskatchewan), Professor Emeritus
- G. Lorincz, B.Sc., M.Sc. (Toronto), Associate Professor Emeritus, Teaching Stream
- J.P. Lowman, B.Sc. (Toronto), M.Sc., Ph.D. (York, Canada), Professor
- K. Menou, B.Sc. (Angers), M.Sc. (Toulouse), Ph.D. (Paris XI), Associate Professor
- J.M. Perz, B.A.Sc., M.A.Sc. (Toronto), Ph.D. (Cantab), Professor Emeritus
- H. Rein, M.A.St. (Cambridge), Ph.D. (Cambridge), Associate Professor
- S. Tawfiq, B.Sc., M.Sc. (Al-Mustansiriyah), Ph.D. (Trieste, Italy), Associate Professor, Teaching Stream
- D. Valencia, B.Sc., M.Sc. (Toronto), Ph.D. (Harvard), Associate Professor
- D. Weaver, B.Sc., B.Ed., M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream

Students considering, or enrolled in, a program in Physical Sciences listed below should note the following:

1. Given the current nature of research in the Physical Sciences, students interested in any of the programs listed below are advised to take an introductory course in programming in their first year of studies when it is not already a program requirement. Suitable options include [CSCA08H3](#) for students with interest in subsequent programming courses or [CSCA20H3](#) for students without interest in subsequent programming courses.
2. [MATB24H3](#) is a strongly recommended option for students in their second year of studies following any of the programs listed below when it is not already a program requirement. This course will enhance the mathematical preparation of students for topics in core areas of Classical Mechanics, Electromagnetism, and Quantum Mechanics, as well as provide quantitative and analytical skills needed for advanced studies in most fields in physical sciences.
3. [PHYD01H3](#) and [PHYD72H3](#) have a minimum CGPA requirement of 2.5. Students who do not meet the minimum requirement will not be given permission to take these courses and will not be able to complete programs that include these courses as a requirement.

Combined Degree Programs, Honours Bachelor of Science/ Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBA) /Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provides students with a direct pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and Master's degree. These Combined Degree Programs allow students to complete 1.0 credits in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Program Combination Restrictions in Physical Sciences

Programs in Astronomy, Physical Sciences, and Physics and Astrophysics cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course CTLB03H3, which can be found in the Teaching and Learning section of the *Calendar*.

Physical Sciences Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBA and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator
Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
 - if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
 - if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
 - for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
 - for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:

- students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

SPECIALIST PROGRAM IN PHYSICAL AND MATHEMATICAL SCIENCES (SCIENCE) - SCSPE1660

For a list of updated Program Supervisors, please visit the [Physics and Astrophysics website](#).

This program provides a framework of courses in the Physical Sciences based upon a firm Mathematical foundation, relating Astronomy, Chemistry, Computer Science, Physics and Statistics. It prepares students for careers in teaching, industry, and government as well as for further studies at the graduate level.

Students are advised that course substitutions will not be permitted without the advance approval of the Program Supervisor.

Program Requirements

This program requires 15.5 credits as follows:

First Year:

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding
[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms
 *[[CSCA08H3](#) Introduction to Computer Science or [CSCA20H3](#) Introduction to Programming]
[MATA30H3](#) Calculus I for Physical Sciences or [MATA31H3](#) Calculus for Mathematical Sciences]
[MATA22H3](#) Linear Algebra I for Mathematical Sciences
[MATA36H3](#) Calculus II for Physical Sciences or [MATA37H3](#) Calculus II for Mathematical Sciences]
[PHYA10H3](#) Physics I for the Physical Sciences
[PHYA21H3](#) Physics II for the Physical Sciences

*The preferred and recommended course for this program is [CSCA20H3](#). However, students planning to take upper-level Computer Science courses should take [CSCA08H3](#) instead

Second Year

[MATB24H3](#) Linear Algebra II
[MATB41H3](#) Techniques of the Calculus of Several Variables I
[MATB42H3](#) Techniques of the Calculus of Several Variables II
[MATB44H3](#) Differential Equations
[PHYB10H3](#) Intermediate Physics Laboratory I
[PHYB56H3](#) Introduction to Quantum Physics
[PHYB21H3](#) Electricity and Magnetism
[PHYB52H3](#) Thermal Physics

Second or Third Year

[ASTB23H3](#) Astrophysics of Stars, Galaxies and the Universe
[CHMB20H3](#) Chemical Thermodynamics and Elementary Kinetics
[CHMB21H3](#) Chemical Structure and Spectroscopy
[MATB61H3](#) Linear Programming
[PHYB54H3](#) Mechanics: From Oscillations to Chaos
[PHYB57H3](#) Introduction to Scientific Computing
[STAB52H3](#) An Introduction to Probability or [STAB53H3](#) Introduction to Applied Probability]

Third or Fourth Year

4.0 credits from the following:
[ASTC25H3](#) Astrophysics of Planetary Systems
[CSCC37H3](#) Introduction to Numerical Algorithms for Computational Mathematics
[CSCD37H3](#) Analysis of Numerical Algorithms for Computational Mathematics
[MATC34H3](#) Complex Variables
[MATC46H3](#) Differential Equations II
[PHYC11H3](#) Intermediate Physics Laboratory II

PHYC14H3 Introduction to Atmospheric Physics

PHYC50H3 Electromagnetic Theory

PHYC54H3 Classical Mechanics

PHYC56H3 Quantum Mechanics I

[PHYD01H3 Research Project in Physics and Astrophysics or **PHYD02Y3 Extended Research Project in Physics and Astrophysics or PHYD72H3 Supervised Reading in Physics and Astrophysics]

PHYD26H3 Planetary Geophysics

PHYD37H3 Introduction to Fluid Mechanics

PHYD38H3 Introduction to Nonlinear Systems and Chaos

PHYD57H3 Advanced Computational Methods in Physics

PSCD02H3 Current Questions in Mathematics and Science

PSCD50H3 Advanced Topics in Quantum Mechanics

** A maximum of 0.5 credit from PHYD02Y3 will count against this requirement. The remaining 0.5 credit can be used to satisfy degree-level requirements.

MAJOR PROGRAM IN PHYSICAL SCIENCES (SCIENCE) - SCMAJ2010

For an updated list of Program Supervisors, please visit the [Physics and Astrophysics page](#)

The Major Program in Physical Sciences is intended for students desiring a general background in the physical sciences (with an emphasis in the area of astronomy, physics and physical chemistry) but who do not intend to pursue graduate studies. Parallel major Programs for students more interested in the mathematical sciences or in chemistry are offered in Mathematical Sciences, in Chemistry, and in Biochemistry.

Program Requirements:

This program requires 8.0 credits as follows:

First Year:

PHYA10H3 Physics I for the Physical Sciences

PHYA21H3 Physics II for the Physical Sciences

CHMA10H3 Introductory Chemistry I: Structure and Bonding

CHMA11H3 Introductory Chemistry II: Reactions and Mechanisms

[MATA30H3 Calculus I for Physical Sciences or MATA31H3 Calculus I for Mathematical Sciences]

MATA22H3 Linear Algebra I for Mathematical Sciences

[MATA36H3 Calculus II for Physical Sciences or MATA37H3 Calculus II for Mathematical Sciences]

Second or Third Year

2.5 credits from the following:

PHYB10H3 Intermediate Physics Laboratory I

PHYB21H3 Electricity and Magnetism

PHYB52H3 Thermal Physics

PHYB54H3 Mechanics: From Oscillations to Chaos

PHYB56H3 Introduction to Quantum Physics

MATB24H3 Linear Algebra II

MATB41H3 Techniques of the Calculus of Several Variables I

MATB42H3 Techniques of the Calculus of Several Variables II

MATB44H3 Differential Equations I

ASTB23H3 Astrophysics of Stars, Galaxies and the Universe

CHMB20H3 Chemical Thermodynamics and Elementary Kinetics

CHMB21H3 Chemical Structure and Spectroscopy

[STAB52H3 Introduction to Probability or STAB53H3 Introduction to Applied Probability]

Third or Fourth Year

2.0 credits from the following:

PHYB57H3 Introduction to Scientific Computing

ASTC25H3 Astrophysics of Planetary Systems

MATC34H3 Complex Variables

[MATC46H3](#) Differential Equations II
[PHYC50H3](#) Electromagnetic Theory
[PHYC56H3](#) Quantum Mechanics I
[PHYC11H3](#) Intermediate Physics Laboratory II
[PHYC14H3](#) Introduction to Atmospheric Physics
[PHYC54H3](#) Classical Mechanics
[PHYD37H3](#) Introduction to Fluid Mechanics
[PHYD38H3](#) Introduction to Nonlinear Systems and Chaos
[PSCD02H3](#) Current Questions in Mathematics and Science
[PHYD26H3](#) Planetary Geophysics
[PSCD50H3](#) Advanced Topics in Quantum Mechanics
[\[PHYD01H3 Research Project in Physics and Astrophysics or *PHYD02Y3 Research Project in Physics and Astrophysics or PHYD72H3 Supervised Reading in Physics and Astrophysics\]](#)

*Note: A maximum of 0.5 credit from [PHYD02Y3](#) will count against this requirement. The remaining 0.5 credit can be used to satisfy degree-level requirements.

Physical Sciences Courses

PSCB90H3 - Physical Sciences Research Experience

This course provides an opportunity for students to work with a faculty member. Students will provide assistance with one of the faculty member's research projects, while also earning credit. Students will gain first-hand exposure to current research methods, and share in the excitement of discovery of knowledge acquisition. Progress will be monitored by regular meetings with the faculty member and through a reflective journal. Final results will be presented in a written report and/or a poster presentation at the end of the term. Approximately 120 hours of work is expected for the course.

Prerequisite: Permission of the Course Coordinator

Recommended Preparation: Completion of at least 4.0 credits in a relevant discipline.

Breadth Requirements: Natural Sciences

Note: Students must send an application to the course Coordinator for admission into this course. Applications must be received by the end of August for Fall enrolment, December 15th for Winter enrolment, and end of April for Summer enrolment. Typically, students enrolled in a program offered by the Department of Physical and Environmental Sciences and students who have a CGPA of at least 2.5 or higher are granted admission. Approved students will receive a signed course enrolment form that

will be submitted to the Office of the Registrar.

Applications will include: 1) A letter of intent indicating the student's wish to enrol in the course; 2) A list of relevant courses successfully completed by the student, as well as any relevant courses to be taken during the upcoming semester; 3) Submission of the preferred project form, indicating the top four projects of interest to the student. This form is available from the Course Coordinator, along with the project descriptions.

PSCD01H3 - The Physical Sciences in Contemporary Society

Current issues involving physical science in modern society. Topics include: complex nature of the scientific method; inter-connection between theory, concepts and experimental data; characteristics of premature, pathological and pseudo-science; organization and funding of scientific research in Canada; role of communication and publishing; public misunderstanding of scientific method. These will be discussed using issues arising in chemistry, computer science, earth sciences, mathematics and physics.

Note: Where [PSCD01H3](#) is a Program requirement, it may be replaced by PHY341H with the approval of the Program supervisor.

Prerequisite: Completion of at least one-half of the credits required in any one of the programs offered by the Department of Physical & Environmental Sciences.

Corequisite: Continued participation in one of the Physical and Environmental Sciences programs.

Exclusion: PHY341H

Breadth Requirements: Social and Behavioural Sciences

PSCD02H3 - Current Questions in Mathematics and Science

Topics of current prominence arising in chemistry, computer science, earth sciences, mathematics and physics will be discussed, usually by faculty or outside guests who are close to the areas of prominence. Topics will vary from year to year as the subject areas evolve.

Prerequisite: Completion of at least 3.5 credits of a Physical Sciences program

Corequisite: Continued participation in one of the Physical Sciences programs or enrolment in the Minor Program in Natural Sciences and Environmental Management

Exclusion: PHY342H

Breadth Requirements: Natural Sciences

PSCD11H3 - Communicating Science: Film, Media, Journalism, and Society

Communicating complex science issues to a wider audience remains a major challenge. This course will use film, media, journalism and science experts to explore the role of science and scientists in society. Students will engage with media and academic experts to get an insight into the 'behind the scenes' world of filmmaking, media, journalism, and scientific reporting. The course will be of interest to all students of environmental science, media, education, journalism and political science.

Prerequisite: Any 14.5 credits

Exclusion: (PSCA01H3)

Breadth Requirements: Arts, Literature and Language

PSCD50H3 - Advanced Topics in Quantum Mechanics

This course provides exposure to a variety of theoretical concepts and practical methods for treating various problems in quantum mechanics. Topics include perturbation theory, variational approach, adiabatic approximation, mean field approximation, Hamiltonian symmetry implementation, light-matter interaction, second quantization.

Prerequisite: Any one of the following courses
[PHYC56H3 or CHMC20H3 or (CHMC25H3)]

Exclusion: PHY456H, CHM423H, CHM421H, JCP421H

Breadth Requirements: Natural Sciences

Physics and Astrophysics

Faculty List

- P. Artymowicz, M.Sc. (Warsaw University), Ph.D. (N. Copernicus Astron. Center, Polish Academy of Sciences), Professor
- J. Bayer Carpintero, B.Sc. (Los Andes, Bogota), M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- C.C. Dyer, B.Sc. (Bishop's), M.Sc., Ph.D. (Toronto), Professor Emeritus
- W.A. Gough, B.Sc. (Waterloo), M.Sc. (Toronto), Ph.D. (McGill), Professor
- A. Jacobs, B.A.Sc., B.Sc. (Waterloo), Ph.D. (Illinois), Professor Emeritus
- J.D. King, B.A. (Toronto), Ph.D. (Saskatchewan), Professor Emeritus
- G. Lorincz, B.Sc., M.Sc. (Toronto), Professor Emeritus, Teaching Stream
- J.P. Lowman, B.Sc. (Toronto), M.Sc., Ph.D. (York, Canada), Professor
- K. Menou, B.Sc. (Angers), M.Sc. (Toulouse), Ph.D. (Paris XI), Associate Professor
- J.M. Perz, B.A.Sc., M.A.Sc. (Toronto), Ph.D. (Cantab), Professor Emeritus
- H. Rein, M.A.St. (Cambridge), Ph.D. (Cambridge), Associate Professor
- S. Tawfiq, B.Sc., M.Sc. (Al-Mustansiriyah), Ph.D. (Trieste, Italy), Associate Professor, Teaching Stream
- D. Valencia, B.Sc., M.Sc. (Toronto), Ph.D. (Harvard), Associate Professor
- D. Weaver, B.Sc., B.Ed., M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- M. Wells, B.Sc., Ph.D. (Australian National) Professor

For an updated list of Program Supervisors, please visit the [Physics and Astrophysics website](#).

Physics is the study of the basic laws that govern how material objects move and influence each other. Astrophysics is the application of the principles of physics to the study of objects in the universe and their interactions and evolution, thus covering objects such as planets, stars, galaxies, black holes, and the universe as a whole. The laws of physics can accurately describe the effect of a star on the motion of a planet, or of the Earth on the motion of a satellite, the effect of a molecule on a nearby atom, or of an atomic nucleus on an electron. Although Newton's laws of motion adequately describe some of these situations, in most cases it is necessary to apply the more recently discovered refinements of these laws - quantum mechanics and Einstein's theories of special and general relativity, together with the understanding of electric and magnetic effects so beautifully synthesized in Maxwell's theory of electromagnetism. From these basic principles many of the properties of gases, liquids, solids, plasmas, nuclear matter, planets, stars, etc., can be related to the interactions among the individual units of which these forms of matter are composed. Physics allows us to describe the properties of light, sound and heat up to the point where these enter our senses, as well as x-ray, radio, cosmic and other radiations of which we are not directly aware. The remarkable properties of some materials under extreme conditions of temperature and pressure, and of other materials when an electric current passes through them, form the basis of a wide range of applications in the technology of our every-day lives, from microwave ovens to cellular telephones and GPS navigation. It is possible to develop, in mathematical language, theories that so accurately describe physical phenomena that they may be used to predict the results of many carefully controlled experiments. The study of physics and astrophysics, therefore, involves both mathematics and the techniques of experimentation.

At the University of Toronto Scarborough, students who are interested in Physics and Astrophysics can take the Specialist Program in Physics and Astrophysics, the Specialist Program in Physical & Mathematical Sciences, the Specialist Program in Environmental Physics, the Major Program in Physics and Astrophysics, or the Major Program in Physical Sciences.

Students interested, or enrolled in a Physics program should note the following:

1. Given the current nature of research in the physical sciences, students interested in any of the programs listed below are advised to take an introductory course in programming in their first year of studies when it is not already a program requirement. Suitable options include [CSCA08H3](#) for students with interest in subsequent programming courses or [CSCA20H3](#) for students without interest in subsequent programming courses.
2. [MATB24H3](#) is a strongly recommended option for students in their second year of studies following any of the programs listed below. This course will enhance the mathematical preparation of students for topics in core areas of Classical Mechanics, Electromagnetism, and Quantum Mechanics, as well as provide quantitative and analytical skills needed for advanced studies in most fields in physical sciences.

3. [PHYD01H3](#) and [PHYD72H3](#) have a minimum CGPA requirement of 2.5. Students who do not meet the minimum requirement will not be given permission to take these courses and will not be able to complete programs that include these courses as a requirement.

Combined Degree Programs, Honours Bachelor of Science/ Master of Engineering

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) with the Master of Engineering (MEng) offered by the Faculty of Applied Science and Engineering allow exceptional students who are registered in the Specialist/Specialist Co-op programs in Environmental Physics to apply during Year 3 of their studies and be considered, for admission to the MEng programs in either Chemical Engineering & Applied Chemistry or Civil Engineering. These Combined Degree Programs allow students to complete 1.0 credits in courses that may be counted towards both degrees.

Combined Degree Programs options are:

- Environmental Physics (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Physics (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Combined Degree Programs, Honours Bachelor of Science/ Master of Environmental Science

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) with the Master of Environmental Science (MEnvSc) offered by the Graduate Department of Physical and Environmental Sciences allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies and be considered, for admission to the MEnvSc program. They are designed for students interested in pursuing a career in environmental sciences within the green-sector, geosciences, industry, consulting, government and policy organizations. These Combined Degree Programs give students the opportunity to: (1) begin exploring their academic interests in Year 4 of their studies; (2) complete 1.0 credit in courses that may be counted towards both degrees; and (3) enrol in the MEnvSc in the Summer session between Years 4 and 5 in order to complete either a two-month academic or internship opportunity, in addition to the mandatory four-month academic or internship opportunity completed in the MEnvSc program alone.

Combined Degree Programs options are:

- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Combined Degree Programs, Honours Bachelor of Science/ Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) /Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provides students with a direct pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and Master's degree. These Combined Degree Programs allow students to complete 1.0 credits in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Program Combination Restrictions in Physics and Astrophysics

Programs in Environmental Biology, Environmental Chemistry, Environmental Geoscience, Environmental Physics, and Environmental Science cannot be combined.

Programs in Astronomy, Physical Sciences, and Physics and Astrophysics cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Physics and Astrophysics Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE / MASTER OF ENGINEERING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSoc) and Master of Engineering (MEng) allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the Faculty of Engineering & Applied Chemistry MEng programs in either Chemical Engineering & Applied Chemistry or Civil Engineering.

Contact Information:

Mandy Meriano(416-208-2775)

Email: mmeriano@utsc.utoronto.ca

Combined Degree Programs options are:

- Global Environmental Change (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering

- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Physics (Specialist), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Chemical Engineering & Applied Chemistry, Master of Engineering
- Environmental Physics (Specialist), Honours Bachelor of Science/ Civil Engineering, Master of Engineering
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Civil Engineering, Master of Engineering

Application Process:

- UTSC students in Year 3 of one the identified HBSc programs who are interested in one of the identified CDPs must contact Professor M. Meriano before the end of the Fall session.
- Qualified UTSC students will be able to apply to their selected CDP.
- UTSC students who are accepted to the CDP will receive a conditional offer to start the Master of Engineering (MEng) program upon completion of their HBSc program requirements.

Minimum Admission Requirements:

- Applicants must meet the admission requirements of the HBSc program, the School of Graduate Studies, and the MEng program.
- Applicants to the HBSc program must:
 - be enrolled full-time and in good standing;
 - have a B+ average (CGPA of 3.3) or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer).
- Applicants to the MEng program must:
 - maintain a B+ average (CGPA of 3.3) or higher in Year 3 and Year 4 of their HBSc program;
 - complete the requirements of their HBSc program;
 - be conferred with the HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBSc degree requirements:
 - students must complete all HBSc program requirements and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the CDP and may be offered conditional admission to the MEng program;
 - in Year 4, students who receive a conditional offer of admission to the CDP and MEng:
 - **must complete two prescribed undergraduate engineering half courses** (1.0 credit) as part of the HBSc degree requirements;
 - may complete up to 1.0 credit in graduate courses with the permission of either the Department of Chemical Engineering and Applied Chemistry or Department of Civil Engineering (depending on the selected CDP); these courses can be counted towards the completion of both the HBSc degree requirements and the MEng program and degree requirements.
 - by the end of Year 4, fulfill both the undergraduate program requirements and the undergraduate degree requirements.
- Year 5: Remaining MEng program and degree requirements:
 - conditions of admission are removed;
 - complete 5.0 credits in MEng courses; students who have completed up to 1.0 credit in MEng courses in Year 4 may subtract those courses from the total 5.0 credits required.

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE / MASTER OF ENVIRONMENTAL SCIENCE

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) with the Master of Environmental Science (MEnvSc) offered by the Graduate Department of Physical and Environmental Sciences allow exceptional students who are registered in one of the Specialist/Specialist Co-op programs identified below to apply during Year 3 of their studies, and be considered, for admission to the MEnvSc program. They are designed for students interested in pursuing a career in environmental sciences within the green-sector, geosciences, industry, consulting, government and policy organizations. These Combined Degree Programs give students the opportunity to: (1) begin exploring their academic interests in Year 4 of their studies; (2) complete 1.0 credit in courses that may be counted towards both degrees; and (3) enrol in the MEnvSc in the Summer session between Years 4 and 5 in order to complete either a two-month academic or internship opportunity, in addition to the mandatory four-month academic or internship opportunity completed in the MEnvSc program alone.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Biological Sciences

- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Environmental Science

Department of Physical and Environmental Sciences

- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Geoscience (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Geoscience (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Environmental Science
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Environmental Science

Application Process:

- Applicants must apply to the Honours Bachelor of Science (HBSc) program, the MEnvSc program, and the CDP.
- Qualified students in Year 3 of their HBSc degree program apply to the MEnvSc program and their chosen CPD through the SGS Online Admission Application system:
 - students will select one of the three fields of study within the MEnvSc program at the time of application:
 - Climate Change Impacts and Adaptation
 - Conservation and Biodiversity, or
 - Terrestrial and Aquatic Systems
 - those accepted will receive a conditional offer to start the MEnvSc program upon completion of their HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MEnvSc program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBSc degree and one of the above listed undergraduate programs at UTSC.
- Meet the minimum admission requirements of the School of Graduate Studies and the MEnvSc program.
- Be enrolled full-time and in good standing in the HBSc program:

- have a B+ average (CGPA of 3.3) or higher in Year 2;
- carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- Complete the following undergraduate courses as part of the HBSc degree requirements:
 - Students in the Specialist in Conservation and Biodiversity or the Specialist in Integrative Biology:
 - BIOC63H3 Conservation Biology (0.5 credit)
 - BIOD54H3 Applied Conservation Biology (0.5 credit)
 - Students in the Specialist/Specialist Co-op programs in Global Environmental Change, Environmental Chemistry, Environmental Geoscience, or Environmental Physics:
 - EESC24H3 Advanced Readings in Environmental Science (0.5 credit)
 - EESD10Y3 Research Project in Environmental Science (1.0 credit)

To be given **full, unconditional admission to the MEnvSc program**, applicants must meet the following admission requirements:

- Maintain a B+ average (CGPA of 3.3) or higher in their final year of study in the HBSc program or over upper-level (C- and D-level) courses.
- Achieve at least a grade of B- (70%) in both of the graduate courses taken in Year 4 of undergraduate study; these courses must be chosen in consultation with the Graduate Program Supervisor:
 - for the field in Climate Change Impacts and Adaptation: EES 1133H Climate Change Science and Modelling (0.5 credit), plus an additional 0.5 credit;
 - for the field in Conservation and Biodiversity: EES 3002H Conservation Policy (0.5 credit), plus an additional 0.5 credit;
 - for the field in Terrestrial and Aquatic Systems: 1.0 credit.
- Be conferred with the HBSc degree.

Program Requirements and Path to Completion:

- Year 4: HBSc degree requirements
 - students must complete all HBSc program requirements and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year; where necessary, exceptions will be made for students in Co-op programs;
 - students who receive a conditional offer of admission to the CDP must complete the following undergraduate courses:
 - students in the Specialist in Conservation and Biodiversity or the Specialist in Integrative Biology:
 - BIOC63H3 Conservation Biology (0.5 credit)
 - BIOD54H3 Applied Conservation Biology (0.5 credit)
 - students in the Specialist/Specialist Co-op programs in Global Environmental Change, Environmental Chemistry, Environmental Geoscience, or Environmental Physics:
 - EESC24H3 Advanced Readings in Environmental Science (0.5 credit)
 - EESD10Y3 Research Project in Environmental Science (1.0 credit)
 - students must complete 1.0 credit in graduate courses, chosen in consultation with the Graduate Program Supervisor, as follows:
 - for the field in Climate Change Impacts and Adaptation: EES 1133H Climate Change Science and Modelling (0.5 credit), plus an additional 0.5 credit;
 - for the field in Conservation and Biodiversity: EES 3002H Conservation Policy (0.5 credit), plus an additional 0.5 credit;
 - for the field in Terrestrial and Aquatic Systems: 1.0 credit.
- Optional registration in the Summer session prior to Year 5:
 - students complete one of the following opportunities:
 - EES 4001H Internship Training (0.5 credit)
 - EES 4003H Academic Training (0.5 credit)
- Year 5: Remaining MEnvSc program and degree requirements.

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSoc)/ Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBSoc and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.

- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
 - if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
 - if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
 - for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
 - for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:
 - students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

SPECIALIST PROGRAM IN ENVIRONMENTAL PHYSICS (SCIENCE) - SCSPE1076B

For a list of updated Program Supervisors, please visit the [Physics and Astrophysics website](#).

Program Requirements

Total Requirements: 16.0 credits

First Year (4.0 credits):

[CHMA10H3](#) Introductory Chemistry I: Structure and Bonding
[CHMA11H3](#) Introductory Chemistry II: Reactions and Mechanisms
[EESA06H3](#) Introduction to Planet Earth
[MATA23H3](#) Linear Algebra I
[MATA30H3](#) Calculus I for Physical Sciences
[MATA36H3](#) Calculus II for Physical Sciences
[PHYA10H3](#) Physics I for the Physical Sciences
[PHYA21H3](#) Physics II for the Physical Sciences

Second Year (5.0 credits):

[EESB15H3](#) Earth History
[EESB19H3](#) Mineralogy
[MATB41H3](#) Techniques of Calculus of Several Variables I
[MATB42H3](#) Techniques of Calculus of Several Variables II
[MATB44H3](#) Differential Equations I
[PHYB10H3](#) Intermediate Physics Laboratory I
[PHYB21H3](#) Electricity and Magnetism
[PHYB54H3](#) Mechanics: From Oscillations to Chaos
[PHYB57H3](#) Introduction to Scientific Computing

and

0.5 credit from the following:

[CHMB55H3](#) Environmental Chemistry
[EESB02H3](#) Principles of Geomorphology
[EESB03H3](#) Principles of Climatology
[EESB04H3](#) Principles of Hydrology
[EESB05H3](#) Principles of Soil Science
[EESB22H3](#) Environmental Geophysics
[EESB26H3](#) Introduction to Global Geophysics
[PHYB52H3](#) Thermal Physics

Third Year (3.5 credits):

[EESB20H3](#) Sedimentology and Stratigraphy
[EESC22H3](#) Exploration Geophysics
[MATC46H3](#) Differential Equations II
[STAB22H3](#) Statistics I

and

1.0 credits from the following:

[EESC26H3](#) Seismology and Seismic Methods
[PHYC11H3](#) Intermediate Physics Laboratory II*
[PHYC50H3](#) Electromagnetic Theory
[PHYC54H3](#) Classical Mechanics

and

0.5 credit from the following:

[EESC07H3](#) Groundwater
[EESC18H3](#) Limnology
[EESC19H3](#) Oceanography
[EESC20H3](#) Geochemistry
[EESC31H3](#) Glacial Geology

*Please note: need to have [PHYB52H3](#) as a prerequisite for [PHYC11H3](#)

Fourth Year (3.5 credits):

[EESC36H3](#) Petrology

EESC37H3 Structural Geology
EESD21H3 Geophysical and Climate Data Analysis
PHYD37H3 Introduction to Fluid Mechanics

and

1.5 credits from the following:

ASTC25H3 Astrophysics of Planetary Systems
EESC03H3 Geographic Information Systems and Remote Sensing
EESC16H3 Field Camp 1*
EESD02H3 Contaminant Hydrogeology
EESD07H3 Field Camp 2*
EESD09H3 Research Project in Environmental Science**
EESD10Y3 Research Project in Environmental Science**
EESD13H3 Environmental Law, Policy and Ethics
EESD33H3 Field Techniques*
PHYC14H3 Introduction to Atmospheric Physics
PHYC50H3 Electromagnetic Theory
PHYC54H3 Classical Mechanics
PHYD01H3 Research Project in Physics and Astrophysics**
PHYD02Y3 Extended Research Project in Physics and Astrophysics**
PHYD26H3 Planetary Geophysics
PHYD38H3 Nonlinear Systems and Chaos
PHYD72H3 Supervised Reading in Physics and Astrophysics**

*Strongly recommended: EESC16H3 Field Camp I or EESD07H3 Field Camp II or EESD33H3 Field Techniques.

**no more than 1.0 credit from EESD09H3, EESD10Y3, PHYD01H3, PHYD02Y3 and PHYD72H3 may be counted as fulfilling the program requirements.

Note:

Where any course appears on more than one option list, it may only be counted as fulfilling the requirements for one of those lists of options.

SPECIALIST (CO-OPERATIVE) PROGRAM IN ENVIRONMENTAL PHYSICS (SCIENCE) - SCSPE1076C

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Environmental Physics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Environmental Physics upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 3.5 credits, including CHMA10H3, CHMA11H3, EESA06H3, MATA30H3, [MATA36H3] or MATA237H3, PHYA10H3 and PHYA21H3, plus a cumulative GPA of at least 2.50.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:**Credits:** Minimum of 4.0 credits to a maximum of 10.0 credits.**Required Courses:** Program-specific courses described in the Enrolment Requirements above.**Cumulative GPA:** 2.50**Current Co-op Students**

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:**Credits:** 4.0 credits**Required Courses:** Program-specific courses described in the Enrolment Requirements above**Cumulative GPA:** 2.50 or higher across all attempted courses.**Academic Program Requirements**

Students must complete the program requirements as described in the Specialist Program in Environmental Physics.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)

- **COPC03H3** (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN PHYSICS AND ASTROPHYSICS (SCIENCE) - SCSPE1234A

For a list of updated Program Supervisors, please visit the Physics and Astrophysics website.

Students are advised that course substitutions will NOT be permitted without the advance approval of the Program Supervisor.

Program Requirements:

The Program requires 13.5 credits as follows:

First Year

PHYA10H3 Physics I for the Physical Sciences

PHYA21H3 Physics II for the Physical Sciences

[MATA30H3 Calculus I for Physical Sciences or MATA31H3 Calculus I for Mathematical Sciences]

[MATA22H3 Linear Algebra I for Mathematical Sciences or MATA23H3 Linear Algebra I]

[MATA36H3 Calculus II for Physical Sciences or MATA37H3 Calculus II for Mathematical Sciences]

*[CSCA08H3 Introduction to Computer Science or CSCA20H3 Introduction to Programming]

*The preferred and recommended course for this program is CSCA20H3. However, students planning to take upper-level Computer Science courses should take CSCA08H3 instead.

Second Year

ASTB23H3 Astrophysics of Stars, Galaxies and the Universe

PHYB10H3 Intermediate Physics Laboratory I

PHYB56H3 Introduction to Quantum Physics

PHYB21H3 Electricity and Magnetism

PHYB52H3 Thermal Physics

PHYB54H3 Mechanics: From Oscillations to Chaos

MATB41H3 Techniques of the Calculus of Several Variables I

MATB42H3 Techniques of the Calculus of Several Variables II

MATB44H3 Differential Equations I

Third Year

PHYC50H3 Electromagnetic Theory

PHYC56H3 Quantum Mechanics I

[PHYC11H3 Intermediate Physics Laboratory II or ASTC02H3 Practical Astronomy: Instrumentation and Data Analysis]

PHYC54H3 Classical Mechanics

PHYB57H3 Introduction to Scientific Computing

MATC34H3 Complex Variables

MATC46H3 Differential Equations II**Fourth Year**

1.5 credit from the following:

ASTC25H3 Astrophysics of Planetary Systems
PHYC14H3 Introduction to Atmospheric Physics
PHYD26H3 Planetary Geophysics
PHYD27H3 Physics of Climate Modeling
PHYD28H3 Introduction to Magnetohydrodynamics for Astrophysics and Geophysics
PHYD37H3 Introduction to Fluid Mechanics
PHYD38H3 Introduction to Nonlinear Systems and Chaos
PHYD57H3 Advanced Computational Methods in Physics
PHY452H1 Basic Statistical Mechanics
PHY456H1 Quantum Mechanics II
PHY483H1 Relativity Theory I
PHY484H1 Relativity Theory II
PHY487H1 Condensed Matter Physics
PHY489H1 Introduction to High Energy Physics
PHY491H1 Current Interpretations of Quantum Mechanics
PHY492H1 Advanced Atmospheric Physics
PSCD50H3 Advanced Topics in Quantum Mechanics

and

0.5 credit from the following:

PHYD01H3 Research Project in Physics and Astrophysics
 **PHYD02Y3 Extended Research Project in Physics and Astrophysics
PHYD72H3 Supervised Reading in Physics and Astrophysics

and

[0.5 credit from a course in AST or PHY at the C-, D-, 300-, or 400-level] or [PSCD02H3 Current Questions in Mathematics and Science]

**A maximum of 0.5 credit from PHYD02Y3 will count against this requirement. The remaining 0.5 credit can be used to satisfy degree-level requirements.

MAJOR PROGRAM IN PHYSICS AND ASTROPHYSICS (SCIENCE) - SCMAJ0272B

For a list of updated Program Supervisors, please visit the [Physics and Astrophysics website](#).

Students are advised that course substitutions will NOT be permitted without the advance approval of the Program Supervisor.

Program Requirements

This program requires 8.5 credits as follows:

First Year

PHYA10H3 Physics I for the Physical Sciences
PHYA21H3 Physics II for the Physical Sciences
[MATA30H3 Calculus I for Physical Sciences or MATA31H3 Calculus I for Mathematical Sciences]
[MATA22H3 Linear Algebra I for Mathematical Sciences or MATA23H3 Linear Algebra I]
[MATA36H3 Calculus II for Physical Sciences or MATA37H3 Calculus II for Mathematical Sciences]

Second and Later Years

ASTB23H3 Astrophysics of Stars, Galaxies and the Universe
MATB41H3 Techniques of the Calculus of Several Variables I
MATB42H3 Techniques of the Calculus of Several Variables II
MATB44H3 Differential Equations I
PHYB10H3 Intermediate Physics Laboratory I

and

1.5 credits from the following:

PHYB56H3 Introduction to Quantum Physics
PHYB21H3 Electricity and Magnetism
PHYB52H3 Thermal Physics
PHYB54H3 Mechanics: From Oscillations to Chaos
 and

2.0 credits from the following:

ASTC02H3 Practical Astronomy: Instrumentation and Data Analysis

ASTC25H3 Astrophysics of Planetary Systems

MATC34H3 Complex Variables

MATC46H3 Differential Equations II

PHYB57H3 Introduction to Scientific Computing

PHYC50H3 Electromagnetic Theory

PHYC56H3 Quantum Mechanics I

PHYC11H3 Intermediate Physics Laboratory II

PHYC14H3 Introduction to Atmospheric Physics

PHYC54H3 Classical Mechanics

PHYD26H3 Planetary Geophysics

PHYD37H3 Introduction to Fluid Mechanics

PHYD38H3 Nonlinear Systems and Chaos

PHYD57H3 Advanced Computational Methods in Physics

PSCD02H3 Current Questions in Mathematics and Science

PSCD50H3 Advanced Topics in Quantum Mechanics

[PHYD01H3 Research Project in Physics and Astrophysics or PHYD02Y3 Extended Research Project in Physics* and Astrophysics or PHYD72H3 Supervised Reading in Physics and Astrophysics]

*Note: A maximum of 0.5 credit from PHYD02Y3 will count for this requirement. The remaining 0.5 credit can be used to satisfy the overall degree-level requirements.

Physics and Astrophysics Courses

PHYA10H3 - Physics I for the Physical Sciences

The course is intended for students in physical, environmental and mathematical sciences. The course introduces the basic concepts used to describe the physical world with mechanics as the working example. This includes mechanical systems (kinematics and dynamics), energy, momentum, conservation laws, waves, and oscillatory motion.

Prerequisite: Physics 12U - SPH4U (Grade 12 Physics) and Calculus and Vectors (MCV4U) and Advanced Functions (MHF4U)

Corequisite: MATA30H3 or MATA31H3

Exclusion: PHYA11H3, PHY131H, PHY135Y, PHY151H,

(PHY110Y), (PHY138Y)

Breadth Requirements: Natural Sciences

PHYA11H3 - Physics I for the Life Sciences

This first course in Physics at the university level is intended for students enrolled in the Life sciences. It covers fundamental concepts of classical physics and its

applications to macroscopic systems. It deals with two main themes; which are Particle and Fluid Mechanics and Waves and Oscillations. The approach will be phenomenological with applications related to life and biological sciences.

Prerequisite: Grade 12 Advanced Functions (MHF4U) and Grade 12 Calculus and Vectors (MCV4U)

Corequisite: MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3 or MATA20H3 or MATA34H3

Exclusion: PHYA10H3, PHY131H, PHY135Y, PHY151H, (PHY110Y), (PHY138Y)

Recommended Preparation: Grade 12 Physics (SPH4U)

Breadth Requirements: Natural Sciences

PHYA21H3 - Physics II for the Physical Sciences

This second physics course is intended for students in physical and mathematical sciences programs. Topics include electromagnetism and special relativity.

Prerequisite: PHYA10H3 and [MATA30H3 or MATA31H3]

Corequisite: [MATA36H3 or MATA37H3]

Exclusion: PHYA22H3, (PHY110Y1), PHY132H1, PHY135Y1, (PHY138Y1), PHY152H1

Breadth Requirements: Natural Sciences

PHYA22H3 - Physics II for the Life Sciences

The course covers the main concepts of Electricity and Magnetism, Optics, and Atomic and Nuclear Physics. It provides basic knowledge of these topics with particular emphasis on its applications in the life sciences. It also covers some of the applications of modern physics such as atomic physics and nuclear radiation.

Prerequisite: [PHYA10H3 or PHYA11H3 or (PHYA01H3)] and [MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3]

Corequisite: MATA35H3 or MATA36H3 or MATA37H3 or MATA33H3 or (MATA21H3).

Exclusion: PHYA21H3, (PHY110Y), PHY132H, PHY135Y, (PHY138Y), PHY152H

Breadth Requirements: Natural Sciences

Note: Students interested in completing programs in science are cautioned that (MATA21H3) and MATA35H3 do not fulfill the program completion requirements of most science programs.

PHYB01H3 - Modern Physics for Non-Scientists

A conceptual overview of some of the most interesting advances in physics and the intellectual background in which they occurred. The interrelationship of the actual practice of physics and its cultural and intellectual context is emphasized. (Space time; Symmetries; Quantum Worlds; Chaos.)

Prerequisite: 4.0 credits

Breadth Requirements: Natural Sciences

PHYB10H3 - Intermediate Physics Laboratory I

Experimental and theoretical study of AC and DC circuits with applications to measurements using transducers and electronic instrumentation. Practical examples are used to illustrate several physical systems.

Prerequisite: PHYA21H3 and [MATA36H3 or MATA37H3]

Corequisite: MATB41H3

Exclusion: (PHYB23H3)

Breadth Requirements: Natural Sciences

PHYB21H3 - Electricity and Magnetism

A first course at the intermediate level in electricity and magnetism. The course provides an in-depth study of electrostatics and magnetostatics. Topics examined include Coulomb's Law, Gauss's Law, electrostatic energy, conductors, Ampere's Law, magnetostatic energy, Lorentz Force, Faraday's Law and Maxwell's equations.

Prerequisite: PHYA21H3 and MATB41H3

Corequisite: MATB42H3

Exclusion: PHY241H, PHY251H

Breadth Requirements: Natural Sciences

PHYB52H3 - Thermal Physics

The quantum statistical basis of macroscopic systems; definition of entropy in terms of the number of accessible states of a many particle system leading to simple expressions for absolute temperature, the canonical distribution, and the laws of thermodynamics. Specific effects of quantum statistics at high densities and low temperatures.

Prerequisite: PHYA21H3 and MATB41H3

Corequisite: MATB42H3

Exclusion: PHY252H1

Breadth Requirements: Natural Sciences

PHYB54H3 - Mechanics: From Oscillations to Chaos

The linear, nonlinear and chaotic behaviour of classical mechanical systems such as oscillators, rotating bodies, and central field systems. The course will develop analytical and numerical tools to solve such systems and determine their basic properties. The course will include mathematical analysis, numerical exercises (Python), and demonstrations of mechanical systems.

Prerequisite: PHYA21H3 and MATB41H3 and MATB44H3

Corequisite: MATB42H3

Exclusion: PHY254H, (PHYB20H3)

Breadth Requirements: Natural Sciences

PHYB56H3 - Introduction to Quantum Physics

The course introduces the basic concepts of Quantum Physics and Quantum Mechanics starting with the experimental basis and the properties of the wave function. Schrödinger's equation will be introduced with some applications in one dimension. Topics include Stern-Gerlach effect; harmonic oscillator; uncertainty principle; interference packets; scattering and tunnelling in one-dimension.

Prerequisite: PHYA21H3 and [MATA36H3 or MATA37H3]

Corequisite: MATB41H3

Exclusion: PHY256H1, (PHYB25H3)

Breadth Requirements: Natural Sciences

PHYB57H3 - Introduction to Scientific Computing

Scientific computing is a rapidly growing field because computers can solve previously intractable problems and simulate natural processes governed by equations that do not have analytic solutions. During the first part of this course, students will learn numerical algorithms for various standard tasks such as root finding, integration, data fitting, interpolation and visualization. In the second part, students will learn how to model physical systems. At the end of the course, students will be expected to write small programs by themselves. Assignments will regularly include programming exercises.

Prerequisite: [\[MATA36H3 or MATA37H3\]](#) and [\[MATA22H3 or MATA23H3\]](#) and [PHYA21H3](#)

Corequisite: [MATB44H3](#)

Exclusion: (PSCB57H3)

Breadth Requirements: Quantitative Reasoning

PHYC11H3 - Intermediate Physics Laboratory II

The main objective of this course is to help students develop skills in experimental physics by introducing them to a range of important measuring techniques and associated physical phenomena. Students will carry on several experiments in Physics and Astrophysics including electricity and magnetism, optics, solid state physics, atomic and nuclear physics.

Prerequisite: [PHYB10H3](#) and [PHYB21H3](#) and [PHYB52H3](#)

Exclusion: (PHYB11H3)

Breadth Requirements: Natural Sciences

PHYC14H3 - Introduction to Atmospheric Physics

This course provides an introduction to atmospheric physics. Topics include atmospheric structure, atmospheric thermodynamics, convection, general circulation of the atmosphere, radiation transfer within atmospheres and global energy balance. Connections will be made to topics such as climate change and air pollution.

Prerequisite: [PHYB21H3](#) and [PHYB52H3](#) and [MATB42H3](#) and [MATB44H3](#)

Exclusion: PHY392H1, PHY315H1, PHY351H5

Breadth Requirements: Natural Sciences

PHYC50H3 - Electromagnetic Theory

Solving Poisson and Laplace equations via method of images and separation of variables, Multipole expansion for electrostatics, atomic dipoles and polarizability, polarization in dielectrics, Ampere and Biot-Savart laws,

Multipole expansion in magnetostatics, magnetic dipoles, magnetization in matter, Maxwell's equations in matter.

Prerequisite: [PHYB54H3](#) and [PHYB21H3](#) and [\[MATA22H3 or MATA23H3\]](#) and [MATB42H3](#) and [MATB44H3](#)

Exclusion: PHY350H1

Breadth Requirements: Natural Sciences

PHYC54H3 - Classical Mechanics

A course that will concentrate in the study of symmetry and conservation laws, stability and instability, generalized co-ordinates, Hamilton's principle, Hamilton's equations, phase space, Liouville's theorem, canonical transformations, Poisson brackets, Noether's theorem.

Prerequisite: [PHYB54H3](#) and [MATB44H3](#)

Exclusion: PHY354H

Breadth Requirements: Natural Sciences

PHYC56H3 - Quantum Mechanics I

The course builds on the basic concepts of quantum theory students learned in [PHYB56H3](#). Topics include the general structure of wave mechanics; eigenfunctions and eigenvalues; operators; orbital angular momentum; spherical harmonics; central potential; separation of variables; hydrogen atom; Dirac notation; operator methods; harmonic oscillator and spin.

Prerequisite: [PHYB56H3](#) and [PHYB21H3](#) and [\[MATA22H3 or MATA23H3\]](#) and [MATB42H3](#) and [MATB44H3](#)

Exclusion: PHY356H1

Breadth Requirements: Natural Sciences

PHYC83H3 - Introduction to General Relativity

An introduction to the basic principles and mathematics of General Relativity. Tensors will be presented after a review of Special Relativity. The metric, spacetime, curvature, and Einstein's field equations will be studied and applied to the Schwarzschild solution. Further topics include the Newtonian limit, classical tests, and black holes.

Prerequisite: [MATB42H3](#) and [MATB44H3](#) and [PHYB54H3](#)

Corequisite: [MATC46H3](#)

Exclusion: PHY483H1

Breadth Requirements: Natural Sciences

PHYD01H3 - Research Project in Physics and Astrophysics

Introduces students to current research in physics or astrophysics under the supervision of a professorial faculty member. Students undertake an independent project that can be of a theoretical, computational or experimental nature. Evaluation is by the supervising faculty member in consultation with the course supervisor. Students must obtain consent of the course supervisor to enroll in this course.

Prerequisite: 14.0 credits and cGPA of at least 2.5 and permission from the coordinator.

Exclusion: PHY478H, PHY479Y1

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

PHYD02Y3 - Extended Research Project in Physics and Astrophysics

Introduces students to a current research topic in physics or astrophysics under the supervision of a faculty member. Students undertake an independent project that can be of a theoretical, computational, or experimental nature. Evaluation is by the supervising faculty member in consultation with the course supervisor. Students must obtain consent from the course supervisor to enroll in this course.

Prerequisite: 14.0 credits and cGPA of at least 3.0 and permission from the coordinator.

Exclusion: PHY478H, PHY479Y1, PHYD01H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: This supervised research course should only be undertaken if the necessary background is satisfied, a willing supervisor has been found, and the department/course coordinator approves the project. This enrolment limit should align with other supervised research courses (i.e., PHYD01H3), which are:

Enrolment Control A: Supervised Study/Research & Independent Study Courses In order to qualify for a Supervised Study course, students must locate a professor who will agree to supervise the course, and then follow the steps outlined below. Step 1: Request the course on ACORN. Your status will be INT. You will not be officially enrolled until you complete the remaining steps. Step 2: Fill the 'Student' section on a 'Supervised Study Form' available at: <https://www.utoronto.ca/registrar/supervised-study-form>. Step 3: Once you fill-in the 'Student' section, contact your Supervisor and provide them with the form. Your supervisor will complete their section and forward the form for departmental approval. Step 4: Once the project is approved at the departmental level, the form will be submitted to the Registrar's Office and your status on ACORN will be updated from interim (INT) to approved (APP).

PHYD26H3 - Planetary Geophysics

A course introducing some of the key physical processing governing the evolution of planets and moons. Topics covered will include: planetary heat sources and thermal evolution, effects of high temperature and pressure in planetary interiors, planetary structure and global shape; gravity, rotation, composition and elasticity.

Prerequisite: Completion of at least 1.0 credit at the C-level in PHY or AST courses

Breadth Requirements: Natural Sciences

Note: No previous knowledge of Earth Sciences or Astrophysics is assumed.

PHYD27H3 - Physics of Climate Modeling

A course focusing on physical and numerical methods for modelling the climate systems of Earth and other planets. Topics covered will include: the primitive equations of meteorology, radiative transfer in atmospheres, processes involved in atmosphere-surface exchanges, and atmospheric chemistry (condensable species, atmospheric opacities).

Prerequisite: PHYB57H3 and MATC46H3 and PHYC14H3

Breadth Requirements: Natural Sciences

PHYD28H3 - Introduction to Magnetohydrodynamics for Astrophysics and Geophysics

A course introducing the basic concepts of magnetohydrodynamics (broadly defined as the hydrodynamics of magnetized fluids). Topics covered will include: the essentials of hydrodynamics, the magnetohydrodynamics (MHD) approximation, ideal and non-ideal MHD regimes, MHD waves and shocks, astrophysical and geophysical applications of MHD.

Prerequisite: PHYB57H3 and PHYC50H3 and MATC46H3

Breadth Requirements: Natural Sciences

PHYD37H3 - Introduction to Fluid Mechanics

A course describing and analyzing the dynamics of fluids.

Topics include: Continuum mechanics; conservation of mass, momentum and energy; Bernoulli's equation; vorticity; potentials; stream function; the Biot-Savart equation; nondimensional analysis; Reynolds number; inviscid and viscous flows; the Navier-Stokes equation; stress and strain-rate tensors; boundary layers, laminar flows; turbulence.

Prerequisite: MATC46H3 and at least 0.5 credits at C-level in any PHY course

Recommended Preparation: PHYB21H3

Breadth Requirements: Natural Sciences

PHYD38H3 - Nonlinear Systems and Chaos

The theory of nonlinear dynamical systems with applications to many areas of physics and astronomy. Topics include stability, bifurcations, chaos, universality, maps, strange attractors and fractals. Geometric, analytical and computational methods will be developed.

Prerequisite: PHYC54H3

Exclusion: PHY460H

Breadth Requirements: Natural Sciences

PHYD57H3 - Advanced Computational Methods in Physics

Intermediate and advanced topics in numerical analysis with applications to physical sciences. Ordinary and partial differential equations with applications to potential theory, particle and fluid dynamics, multidimensional optimization

and machine intelligence, are explained. The course includes programming in Python, and C or Fortran, allowing multi-threading and vectorization on multiple platforms, in Linux operating environment.

Prerequisite: PHYB57H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students enrolled in the Specialist in Physical and Mathematical Sciences and the Major in Physical Sciences.

PHYD72H3 - Supervised Reading in Physics and Astrophysics

An individual study program chosen by the student with the advice of, and under the direction of a faculty member. A student may take advantage of this course either to specialize further in a field of interest or to explore interdisciplinary fields not available in the regular syllabus.

Prerequisite: 14.0 credits and cGPA of at least 2.5 and permission from the coordinator.

Exclusion: PHY371H and PHY372H and PHY471H and PHY472H

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Political Science

Faculty List

- E. Acorn, B.A. (Victoria), M.A. (Dalhousie), J.D. (Toronto), Ph.D. (Cornell), Assistant Professor
- A. Ahmad, B.A., M.A. (Toronto), Ph.D. (McGill), Associate Professor
- E.G. Andrew, B.A. (British Columbia), Ph.D. (London), Professor Emeritus
- N. Bernhardt, B.A. (Queens), Ph.D. (York), Assistant Professor
- C. Cochrane, B.A. (St. Thomas), M.A. (McGill), Ph.D. (Toronto), Associate Professor
- S.J. Colman, M.A. (Oxon), Professor Emeritus
- C. Cowie, B.A. (Western), M.A. (Manitoba), Ph.D. (Alberta), Assistant Professor
- D. Fu, B.A. (Minnesota), M.Phil, Ph.D. (Oxford), Associate Professor
- M. Hoffmann, B.S. (Michigan Technological), Ph.D. (George Washington), Professor
- R. Hurl, B.A. (Toronto), M.A., Ph.D. (Cornell), Lecturer
- F. Kahraman, B.A. (Boğaziçi), M.A., Ph.D. (Washington), Assistant Professor
- P. Kingston, B.A. (Toronto), M.A. (London), D.Phil. (Oxford), Professor
- M.L. Kohn, B.A. (Williams College), M.A., Ph.D. (Cornell), Professor
- R. Levine, B.A. (Rochester), Ph.D. (Duke), Associate Professor, Teaching Stream
- R. Manzer, B.A., B.Ed. (New Brun.), M.A. (Oxon.), Ph.D. (Harvard), Professor Emeritus
- A. McDougall, B.A. (Toronto), M.A. (Queens), LL.B. (Queens), Ph.D. (Toronto), Assistant Professor
- C. Norrlöf, B.A., M.A. (Lund), Ph.D. (Geneva), Professor
- S. Renckens, B.A., M.A., M.Sc. (Leuven), Ph.D. (Yale), Associate Professor
- N. Roberts, B.A. (Brown), M.A., Ph.D. (Chicago), Professor
- A. Rubinoff, A.B. (Allegheny), M.A., Ph.D. (Chicago), Professor Emeritus
- R. Schertzer, B.A. (Carleton), M.Sc., Ph.D. (London School of Economics), Associate Professor
- T. Shanks, B.A. (Berkeley), Ph.D. (Northwestern), Associate Professor
- G. Skogstad, B.A., M.A. (Alberta), Ph.D. (British Columbia), Professor Emerita
- S. Solomon, B.A. (McGill), M.A., Ph.D. (Columbia), Professor Emerita
- T. Soremi, B.A. (Obafemi Awolowo), M.A. (Sussex), Ph.D. (Exeter), Assistant Professor, Teaching Stream
- P. Triadafilopoulos, B.A. (Toronto), M.A., (Brock), Ph.D. (New School NY), Professor
- L. Way, B.A. (Harvard), M.A., Ph.D. (UC Berkeley), Professor

Chair: Christopher Cochrane

Program Advisor Email: pol-advisor@utsc.utoronto.ca

For more information, [visit the Department of Political Science website](#).

Political Science explores how power operates, why conflicts arise, and how society can address critical global challenges. From climate change and civil war to immigration and racial justice, our curriculum equips students with fresh perspectives and analytical tools to understand and shape the issues that matter most. Through rigorous study of political ideas and theories, students gain the skills and insights needed to influence public discourse and effect meaningful change.

Our curriculum is structured around seven primary areas of focus, each providing specialized insights into the study of politics and governance:

Canadian Politics

- Explores the institutional foundations, political processes, and public policies of Canada. Students analyze how these elements shape governance, democracy, and the broader political landscape within Canada.
1. **Comparative Politics**
 - Examines the systems and challenges of politics in countries across the world. Themes covered include political participation and mobilization, transitions to democracy, as well as ethnic and religious conflict.
 2. **International Relations**

- Investigates the foreign policies of individual nation-states and the patterns of conflict and cooperation among them. Topics range from diplomacy and global alliances to transnational issues and the role of international organizations.
- 3. **Political Theory**
 - Engages with foundational ideas, such as justice and legitimacy, through the study of classic and contemporary texts. From ancient Greek philosophers to postmodern theorists, students consider how these concepts inform modern political thought and practice.
- 4. **Public Law**
 - Covers the foundations of justice and human rights, the role of courts in democratic politics and policymaking in Canada, and the study of law and politics within a comparative and international context.
- 5. **Public Policy**
 - Analyzes the context, institutions, and processes involved in policymaking and implementation. This area also addresses the concepts and criteria used to evaluate policy effectiveness and public outcomes.
- 6. **Quantitative and Qualitative Analysis**
 - Focuses on the logic of argumentation, research design, and evidence-based reasoning in political science, public policy, and public law, equipping students with robust analytical and methodological skills.

Political Science Areas of Focus

Canadian Government and Politics

POLB56H3* Understanding Canadian Politics
POLB57H3* The Canadian Constitution and the Charter of Rights
POLC07H3 Practicing Model Parliaments: Legislative Assemblies in Canada
POLC21H3* Voting and Elections
POLC32H3* The Canadian Judicial System
POLC52H3 Indigenous Nations and the Canadian State
POLC53H3* Canadian Environmental Policy
POLC54H3* Intergovernmental Relations in Canada
POLC56H3* Indigenous Politics and Law
POLC57H3* Intergovernmental Relations and Public Policy
POLC58H3* The Politics of National Identity and Diversity
POLD46H3* Public Law and the Canadian Immigration System
POLD50H3* Political Interests, Political Identity, and Public Policy
POLD51H3* Topics in Canadian and Comparative Politics
PPGB66H3* Public Policy Making
POLD52H3* Immigration and Canadian Political Development
POLD53H3 Political Disagreement in Canada
POLD54H3 Michi-Saagiig Nishnaabeg Nation Governance and Politics
POLD55H3 The Politics of Equality and Inequality in Canada
POLD58H3 The New Nationalism in Liberal Democracies
POLD59H3 Politics of Disability
(PPGC66H3)*
PPGC67H3* Public Policy in Canada

Comparative Politics

POLB90H3 Comparative Development in International Perspective
POLB91H3 Introduction to Comparative Politics
POLB95H3 Democracy in Crisis: The Roots of Populism and Sources of Democratic Resilience in the World Today
POLC16H3 Chinese Politics
POLC21H3* Voting and Elections
POLC22H3 Ethnic Conflict and Democratization in Europe After the Cold War
POLC34H3* The Politics of Crime
POLC39H3* Comparative Law and Politics
POLC42H3 Topics in Comparative Politics
POLC43H3 Prejudice and Racism
POLC58H3* The Politics of National Identity and Diversity
POLC65H3* Political Strategy
POLC69H3* Political Economy: International and Comparative Perspectives

POLC83H3* Applications of American Foreign Policy
POLC90H3 Development Studies: Political and Historical Perspectives
POLC91H3 Latin America: Dictatorship and Democracy
POLC92H3 U.S. Government and Politics
POLC93H3* Public Policies in the United States
POLC94H3 Globalization, Gender and Development
POLC96H3 State Formation and Authoritarianism in the Middle East
POLC97H3 Protest Politics in the Middle East
POLD44H3* Comparative Law and Social Change
POLD50H3* Political Interests, Political Identity, and Public Policy
POLD51H3* Topics in Canadian and Comparative Politics
POLD58H3 The New Nationalism in Liberal Democracies
POLD67H3* The Limits of Rationality
POLD90H3* Public Policy and Human Development in the Global South
POLD91H3 Protests and Social Movements in Comparative Perspective
POLD92H3 Survival and Demise of Dictatorships
POLD94H3 Selected Topics on Developing Areas
PPGB66H3* Public Policy Making
(PPGC66H3)*
PPGD64H3* Comparative Public Policy

International Relations

POLB80H3 Introduction to International Relations I
POLB81H3 Introduction to International Relations II
POLC09H3 International Security: Conflict, Crisis and War
POLC33H3* Politics of International Human Rights
POLC38H3* International Law
POLC69H3 Political Economy: International and Comparative Perspectives
POLC80H3 International Relations of Africa
POLC83H3* Applications of American Foreign Policy
POLC87H3 Great Power Politics
POLC88H3 The New International Agenda
POLC98H3 International Political Economy of Finance
POLD09H3 Advanced Topics in International Security
POLD38H3* Law and Global Business
POLD87H3 Rational Choice and International Cooperation
POLD89H3* Global Environmental Politics

Political Theory

POLB30H3* Law, Justice and Rights
POLB72H3 Introduction to Political Theory
POLC31H3 Contemporary African Social and Political Philosophy
POLC35H3* Law and Politics: Contradictions, Approaches, and Controversies
POLC37H3 Global Justice
POLC70H3 Political Thought: Democracy, Justice and Power
POLC71H3 Political Thought: Rights, Revolution and Resistance
POLC72H3 Liberty
POLC73H3 Modern Political Theory
POLC74H3 Contemporary Political Thought
POLC79H3 Feminist Political Thought
POLD02Y3* Senior Research Seminar in Political Science
POLD45H3* Constitutionalism
POLD67H3* The Limits of Rationality
POLD70H3 Topics in Political Theory
POLD74H3 The Black Radical Tradition
POLD75H3 Property and Power

Public Law

POLB30H3* Law, Justice and Rights
POLB56H3* Understanding Canadian Politics
POLB57H3* The Canadian Constitution and the Charter of Rights
POLC30H3 Law, Politics and Technology
POLC32H3* The Canadian Judicial System
POLC33H3* Politics of International Human Rights
POLC34H3* The Politics of Crime
POLC35H3* Law and Politics: Contradictions, Approaches, and Controversies
POLC36H3* Law and Public Policy
POLC38H3* International Law
POLC39H3* Comparative Law and Politics
POLC56H3* Indigenous Politics and Law
POLD30H3* Legal Reasoning
POLD31H3* Mooting Seminar
POLD32H3* Racism, the Law, and Public Policy
POLD38H3* Law and Global Business
POLD42H3 Advanced Topics in Public Law
POLD44H3* Comparative Law and Social Change
POLD45H3* Constitutionalism
POLD46H3* Public Law and the Canadian Immigration System

Public Policy

POLB40H3* Quantitative Reasoning for Political Science and Public Policy
POLC11H3 Applied Statistics for Politics and Public Policy
POLC12H3 Global Public Policy and the Sustainable Development Goals (SDGs)
POLC13H3 Program Evaluation
POLC36H3* Law and Public Policy
POLC53H3* Canadian Environmental Policy
POLC54H3* Intergovernmental Relations in Canada
POLC57H3* Intergovernmental Relations and Public Policy
POLC65H3 Political Strategy
POLC83H3* Applications of American Foreign Policy
POLC93H3* Public Policies in the United States
POLD32H3* Racism, the Law, and Public Policy
POLD50H3* Political Interests, Political Identity, and Public Policy
POLD52H3* Immigration and Canadian Political Development
POLD67H3* The Limits of Rationality
POLD89H3* Global Environmental Politics
POLD90H3* Public Policy and Human Development in the Global South
PPGB11H3 Policy Communications with Data
PPGB66H3* Public Policy Making
 (PPGC66H3)*
PPGC67H3* Public Policy in Canada
PPGD64H3* Comparative Public Policy
PPGD68H3 Capstone: The Policy Process in Theory and Practice

Quantitative and Qualitative Analysis

POLB40H3* Quantitative Reasoning for Political Science and Public Policy
POLC11H3* Applied Statistics for Politics and Public Policy
POLC13H3 Program Evaluation
POLC35H3* Law and Politics: Contradictions, Approaches, and Controversies
POLC78H3 Political Analysis I
POLD30H3 Legal Reasoning
POLD56H3 Politics and Computational Social Science
POLD78H3 Advanced Political Analysis
POLD87H3 Rational Choice and International Cooperation
PPGB11H3 Policy Communications with Data

Special Topics and General Courses

[POLA01H3](#) Critical Issues in Politics I
[POLA02H3](#) Critical Issues in Politics II

[POLD82H3](#) Politics and Literature

Guidelines for First-Year Course Selection

Students who intend to complete the Political Science programs should include the following in their first-year course selection: 1.0 credit at the A-level in Political Science.

Program Combination Restrictions in Political Science

The Department of Political Science hosts the Specialist, Major, and Minor programs in Political Science, the Major and Major (Co-op) Programs in Public Policy, and the Major and Minor programs in Public Law.

The Specialist, Major and Minor programs in Political Science cannot be combined.

The Major and Minor programs in Public Law cannot be combined.

Students are eligible to combine the Programs in Public Policy and Public Law with Programs in Political Science. Students combining programs in Political Science, Public Policy and Public Law (2 major programs or 1 major and 2 minors) must ensure the combinations of programs used to meet the degree requirement include at least 12.0 distinct credits.

For more information on the Major Program in Public Policy and the Major (Co-op) Program in Public Policy, refer to the [Public Policy](#) section of the Calendar.

For more information on the Major and Minor Programs in Public Law, refer to the [Public Law](#) section of the Calendar.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the Calendar.

Political Science Programs

SPECIALIST PROGRAM IN POLITICAL SCIENCE (ARTS) - SCSPE2015

Program Requirements

Students must complete at least 12.0 full credits in Political Science including:

1. Introduction to Political Science (1.0 credit):

[POLA01H3](#) Critical Issues in Politics I
[POLA02H3](#) Critical Issues in Politics II

2. Political Theory (1.0 credit):POLB72H3 Introduction to Political Theory0.5 credit from among the courses listed in the Political Theory Area of Focus Table**3. Canadian Politics (1.0 credit):**POLB56H3 Canadian Politics and GovernmentPOLB57H3 The Canadian Constitution and the Charter of Rights**4. International Relations (1.0 credit):**POLB80H3 Introduction to International Relations IPOLB81H3 Introduction to International Relations II**5. Comparative Politics (1.0 credit):**POLB90H3 Comparative Development in International PerspectivePOLB91H3 Introduction to Comparative Politics**6. Research Methods (1.0 credit):**POLC78H3 Political Analysis I

And 0.5FCEs from either:

POLB40H3 Quantitative Reasoning for Political Science and Public Policy

OR

STAB23H3 Introduction to Statistics for the Social Sciences or equivalent]**7. Applications (5.0 credits):**

5.0 credits in POL or PPG courses at the C- and/or D-level

8. Advanced Applications (1.0 credit)

At least 1.0 credit in POL or PPG courses at the D-level

MAJOR PROGRAM IN POLITICAL SCIENCE (ARTS) - SCMAJ2015

Program Requirements

Students must complete at least 8.0 credits in Political Science as follows:

1. Introduction to Political Science (1.0 credit):POLA01H3 Critical Issues in Politics IPOLA02H3 Critical Issues in Politics II**2. Political Theory (1.0 credit):**POLB72H3 Introduction to Political Theory0.5 credit from among the courses listed in the Political Theory Area of Focus Table**3. Canadian Politics (1.0 credit):**POLB56H3 Canadian Politics and GovernmentPOLB57H3 The Canadian Constitution and the Charter of Rights**4. At least two of International Relations and/or Comparative Politics (1.0 credit):**POLB80H3 Introduction to International Relations IPOLB81H3 Introduction to International Relations IIPOLB90H3 Comparative Development in International PerspectivePOLB91H3 Introduction to Comparative Politics

5. Research Methods (1.0 credit):POLC78H3 Political Analysis I

And 0.5 FCEs from either:

POLB40H3 Quantitative Reasoning for Political Science and Public Policy

OR

[STAB23H3 Introduction to Statistics for the Social Sciences or equivalent]**6. Applications (2.5 credits):**

2.5 credits in POL or PPG courses of which at least 2.0 must be at the C- and/or D-level

7. Advanced Applications (0.5 credit)

At least 0.5 credit in POL or PPG courses at the D-level

MINOR PROGRAM IN POLITICAL SCIENCE (ARTS) - SCMIN2015

Program Requirements

The Program requires the completion of 4.0 credits, including at least 2.0 credits at the C- or D-level.

1. Introduction to Political Science (0.5 credits from):POLA01H3 Critical Issues in Politics IPOLA02H3 Critical Issues in Politics II**2. Core Courses (1.5 credits from):**POLB56H3 Canadian Politics and GovernmentPOLB57H3 The Canadian Constitution and the Charter of RightsPOLB72H3 Introduction to Political TheoryPOLB80H3 Introduction to International Relations IPOLB81H3 Introduction to International Relations IIPOLB90H3 Comparative Development in International PerspectivePOLB91H3 Introduction to Comparative Politics**3. Applications (2.0 credits):**

2.0 credits at the C-level and/or D-level in POL or PPG courses

Political Science Courses

POLA01H3 - Critical Issues in Politics I

An introduction to crucial political issues of the day (e.g. globalization, migration, political violence, corruption, democracy, global justice, climate change, human rights, revolution, terrorism) and key concepts in Political Science. Students will be introduced to and practice techniques of critical reading and analytic essay writing. Topics will vary by semester and professor.

Exclusion: POL101Y, POL115H, POL112H, POL113H, POL114H**Breadth Requirements:** Social and Behavioural Sciences**Note:** POLA01H3 and POLA02H3 are not sequential courses and can be taken out of order or concurrently.

POLA02H3 - Critical Issues in Politics II

An introduction to crucial political issues of the day (e.g. globalization, migration, political violence, corruption, democracy, global justice, climate change, human rights, revolution, terrorism) and key concepts in Political Science. Students will develop techniques of critical reading and analytic essay writing. Topics will vary by semester and professor.

Exclusion: POL101Y, POL115H, POL112H, POL113H, POL114H**Breadth Requirements:** Social and Behavioural Sciences**Note:** POLA01H3 and POLA02H3 are not sequential courses and can be taken out of order or concurrently.

POLB30H3 - Law, Justice and Rights

This is a lecture course that helps students understand the theoretical justifications for the rule of law. We will study different arguments about the source and limitations of law: natural law, legal positivism, normative jurisprudence and critical theories. The course will also examine some key court cases in order to explore the connection between theory and practice. This is the foundation course for the Minor program in Public Law. Areas of Focus: Political Theory and Public Law

Prerequisite: Any 4.0 credits

Exclusion: PHLB11H3 (students who have taken PHLB11H3 prior to POLB30H3 may count PHLB11H3 in place of POLB30H3 in the Minor in Public Law)

Recommended Preparation: 0.5 credit in Political Science

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Priority will be given to students enrolled in the Minor program in Public Law. Additional students will be admitted as space permits.

POLB40H3 - Quantitative Reasoning for Political Science and Public Policy

This course introduces students to tools and foundational strategies for developing evidence-based understandings of politics and public policy. The course covers cognitive and other biases that distort interpretation. It then progresses to methodological approaches to evidence gathering and evaluation, including sampling techniques, statistical uncertainty, and deductive and inductive methods. The course concludes by introducing tools used in advanced political science and public policy courses. Areas of Focus: Public Policy, and Quantitative and Qualitative Analysis

Prerequisite: Any 4.0 credits

Exclusion: POL222H1, SOCB35H3, STAB22H3, STAB23H3

Breadth Requirements: Quantitative Reasoning

POLB56H3 - Canadian Politics and Government

The objective of this course is to introduce students to the fundamentals of the Canadian political system and the methods by which it is studied. Students will learn about the importance of Parliament, the role of the courts in Canada's democracy, federalism, and the basics of the constitution and the *Charter of Rights and Freedoms*, and other concepts and institutions basic to the functioning of the Canadian state. Students will also learn about the major political cleavages in Canada such as those arising from French-English relations, multiculturalism, the urban-rural divide, as well as being introduced to settler-Indigenous relations. Students will be expected to think critically about the methods that are used to approach the

study of Canada along with their strengths and limitations. Area of Focus: Canadian Government and Politics

Prerequisite: Any 4.0 credits or enrolment in an Arts and Science Co-op Degree POST

Exclusion: (POLB50Y3), (POL214Y), POL214H

Breadth Requirements: Social and Behavioural Sciences

POLB57H3 - The Canadian Constitution and the Charter of Rights

This class will introduce students to the Canadian constitution and the Charter of Rights and Freedoms. Students will learn the history of and constitutional basis for parliamentary democracy, Canadian federalism, judicial independence, the role of the monarchy, and the origins and foundations of Indigenous rights. The course will also focus specifically on the role of the Charter of Rights and Freedoms, and students will learn about the constitutional rights to expression, equality, assembly, free practice of religion, the different official language guarantees, and the democratic rights to vote and run for office. Special attention will also be paid to how rights can be constitutionally limited through an examination of the notwithstanding clause and the Charter's reasonable limits clause.

Areas of Focus: Canadian Government and Politics and Public Law

Prerequisite: Any 4.0 credits or enrolment in an Arts and Science Co-op Degree POST

Exclusion: (POLB50Y3), (POLC68H3), (POL214Y)

Breadth Requirements: Social and Behavioural Sciences

POLB72H3 - Introduction to Political Theory

This course presents a general introduction to political theory and investigates central concepts in political theory, such as liberty, equality, democracy, and the state. Course readings will include classic texts such as Plato, Aristotle, Hobbes, Rousseau, and Marx, as well as contemporary readings.

Area of Focus: Political Theory

Prerequisite: Any 4.0 credits

Exclusion: PHLB17H3

Breadth Requirements: History, Philosophy and Cultural Studies

POLB80H3 - Introduction to International Relations I

This course examines different approaches to international relations, the characteristics of the

international system, and the factors that motivate foreign policies.

Area of Focus: International Relations

Prerequisite: Any 4.0 credits

Exclusion: (POL208Y)

Breadth Requirements: Social and Behavioural Sciences

POLB81H3 - Introduction to International Relations II

This course examines how the global system is organized and how issues of international concern like conflict, human rights, the environment, trade, and finance are governed.

Area of Focus: International Relations

Prerequisite: POLB80H3

Exclusion: (POL208Y)

Breadth Requirements: Social and Behavioural Sciences

Note: Note: It is strongly recommended that students take POLB80H3 and POLB81H3 in consecutive semesters.

POLB90H3 - Comparative Development in International Perspective

This course examines the historical and current impact of the international order on the development prospects and politics of less developed countries. Topics include colonial conquest, multi-national investment, the debt crisis and globalization. The course focuses on the effects of these international factors on domestic power structures, the urban and rural poor, and the environment.

Area of Focus: Comparative Politics

Prerequisite: Any 4.0 credits

Exclusion: POL201H or (POL201Y)

Breadth Requirements: Social and Behavioural Sciences

POLB91H3 - Introduction to Comparative Politics

This course examines the role of politics and the state in the processes of development in less developed countries. Topics include the role of the military and bureaucracy, the relationship between the state and the economy, and the role of religion and ethnicity in politics.

Area of Focus: Comparative Politics

Prerequisite: Any 4.0 credits

Exclusion: (POL201Y)

Breadth Requirements: Social and Behavioural Sciences

POLB95H3 - Democracy in Crisis: The Roots of Populism and Sources of Democratic Resilience in the World Today

In recent years, democracy has confronted surprising challenges in countries, such as the United States where pluralism is well established. What explains the current crisis and what are the prospects for democracy in America and the rest of the world? Why are autocrats such as Trump in the United States and Viktor Orbán in Hungary suddenly so popular? To what extent is Canada vulnerable to populism? This course will provide an introduction to the study of democracy and dictatorship with a focus on recent events, such as the election of Trump, that threaten long existing institutions.

Area of Focus: Comparative Politics

Breadth Requirements: Social and Behavioural Sciences

POLC07H3 - Practicing Model Parliaments: Legislative Assemblies in Canada

This experiential learning course provides students with an in depth understanding of the role and functioning of Legislative Assemblies/Parliaments in Canada, with a focus on Ontario Provincial Politics and key policy issues. Throughout the semester, students will engage in a policy-driven model parliament simulation exercise, culminating in a mock question period at Queen's Park, and in informal partnership with other GTA political science departments. It will allow students to hone their debating and collaboration-building skills in a political environment.

Area of Focus: Canadian Politics & Government

Prerequisite: POLB56H3

Recommended Preparation: POLB57H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

Note: The Department will endeavour to deliver this course in informal partnership with York University and other GTA politics departments, and with the help of the Ontario Legislature Internship Programme (OLIP) and the Legislative Assembly of Ontario.

POLC09H3 - International Security: Conflict, Crisis and War

This course explores the causes and correlates of international crises, conflicts, and wars. Using International Relations theory, it examines why conflict occurs in some cases but not others. The course examines both historical and contemporary cases of inter-state conflict and covers conventional, nuclear, and non-

traditional warfare.

Area of Focus: International Relations

Prerequisite: POLB80H3 and POLB81H3

Breadth Requirements: Social and Behavioural Sciences

POLC11H3 - Applied Statistics for Politics and Public Policy

In this course, students learn to apply data analysis techniques to examples drawn from political science and public policy. Students will learn to complete original analyses using quantitative techniques commonly employed by political scientists to study public opinion and government policies. Rather than stressing mathematical concepts, the emphasis of the course will be on the application and interpretation of the data as students learn to communicate their results through papers and/or presentations.

Area of Focus: Quantitative and Qualitative Analysis

Prerequisite: STAB23H3 or equivalent

Exclusion: (POLB11H3)

Breadth Requirements: Quantitative Reasoning

POLC12H3 - Global Public Policy and the Sustainable Development Goals (SDGs)

This course will introduce students to the global policymaking process, with an emphasis on the Sustainable Development Goals (SDGs). Students will make practical contributions to the policy areas under the SDGs through partnerships with community not-for-profit organizations, international not-for-profit organizations, or international governmental organizations. Students will learn about problem definition and the emergence of global policy positions in the SDG policy areas. They will assess the roles of non-state actors in achieving the SDGs and analyze the mechanisms that drive the global partnership between developing countries and developed countries.

Area of Focus: Public Policy

Prerequisite: 8.0 credits including [1.0 credit from POLB80H3, POLB81H3, POLB90H3 or POLB91H3]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

POLC13H3 - Program Evaluation

This course introduces students to the frameworks and practice of program evaluation. It focuses on the policy evaluation stage of the policy cycle. The course explains the process of assessing public programs to determine if they achieved the expected change. Students will learn about program evaluation methods and tools and will apply these in practical exercises. They will also learn

about the use of indicators to examine if the intended outcomes have been met and to what extent. Students will engage in critical analysis of program evaluation studies and reports.

Areas of Focus: Public Policy and Quantitative and Qualitative Analysis

Prerequisite: PPGB66H3 and a minimum CGPA of 2.5

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

POLC16H3 - Chinese Politics

This course covers a range of topics in contemporary Chinese politics and society post 1989. It exposes students to state of the art literature and probes beyond the news headlines. No prior knowledge of China required.

Area of Focus: Comparative Politics

Prerequisite: 1.0 credit from POLB80H3, POLB81H3, POLB90H3, or POLB91H3

Exclusion: JPA331Y, JMC031Y

Breadth Requirements: Social and Behavioural Sciences

POLC21H3 - Voting and Elections

Why do some citizens vote when others do not? What motivates voters? This course reviews theories of voting behaviour, the social and psychological bases of such behaviour, and how candidate and party campaigns influence the vote. By applying quantitative methods introduced in STAB23H3 or other courses on statistical methods, students will complete assignments examining voter behaviour in recent Canadian and/or foreign elections using survey data and election returns.

Areas of Focus: Canadian Government and Politics; Comparative Politics

Prerequisite: [STAB23H3 or equivalent] or POL222H1 or (POL242Y)

Exclusion: (POL314H), (POL314Y)

Breadth Requirements: Social and Behavioural Sciences

POLC22H3 - Ethnic Conflict and Democratization in Europe After the Cold War

This course explores post-Cold War politics in Europe through an examination of democratization and ethnic conflict since 1989 - focusing in particular on the role of the European Union in shaping events in Eastern Europe and the former Soviet Union. The first part of the course will cover theories of democratization, ethnic conflict as well as the rise of the European Union while the second part of the course focuses on specific cases, including

democratization and conflict in the Balkans and Ukraine.
Area of Focus: Comparative Politics

Prerequisite: Any 8.0 credits

Exclusion: (POLB93H3)

Breadth Requirements: Social and Behavioural Sciences

POLC30H3 - Law, Politics and Technology

Today's legal and political problems require innovative solutions and heavily rely on the extensive use of technology. This course will examine the interaction between law, politics, and technology. It will explore how technological advancements shape and are shaped by legal and political systems. Students will examine the impact of technology on the legal and political landscape, and will closely look at topics such as cybersecurity, privacy, intellectual property, social media, artificial intelligence and the relationship of emerging technologies with democracy, human rights, ethics, employment, health and environment. The course will explore the challenges and opportunities that technology poses to politics and democratic governance. The topics and readings take a wider global perspective – they are not confined only on a Canadian context but look at various countries' experiences with technology.

Area of Focus: Public Law

Prerequisite: POLB30H3 and POLB56H3

Corequisite: N/A

Exclusion: N/A

Recommended Preparation: POLC32H3, POLC36H3

Breadth Requirements: Social and Behavioural Sciences

POLC31H3 - Contemporary Africana Social and Political Philosophy

This course investigates the relationship between three major schools of thought in contemporary Africana social and political philosophy: the African, Afro-Caribbean, and Afro-North American intellectual traditions. We will discuss a range of thinkers including Dionne Brand, Aimé Césaire, Angela Davis, Édouard Glissant, Kwame Gyekye, Cathy Cohen, Paget Henry, Katherine McKittrick, Charles Mills, Nkiru Nzegwu, Oyèrónke Oyewùmí, Ngũgĩ wa Thiong'o, Cornel West, and Sylvia Wynter.

Area of Focus: Political Theory

Prerequisite: 8.0 credits including 1.0 credit in Political Science [POL or PPG courses]

Breadth Requirements: History, Philosophy and Cultural Studies

POLC32H3 - The Canadian Judicial System

This course explores the structure, role and key issues associated with the Canadian judicial system. The first section provides the key context and history associated with Canada's court system. The second section discusses the role the courts have played in the evolution of the Canadian constitution and politics – with a particular focus on the Supreme Court of Canada. The final section analyzes some of the key debates and issues related to the courts in Canada, including their democratic nature, function in establishing public policy and protection of civil liberties.

Areas of Focus: Canadian Government and Politics and Public Law

Prerequisite: [POLB56H3 and POLB57H3] or (POLB50Y3)

Recommended Preparation: POLB30H3

Breadth Requirements: Social and Behavioural Sciences

POLC33H3 - Politics of International Human Rights

This course aims to provide students with an overview of the way human rights laws, norms, and institutions have evolved. In the first half of the class, we will examine the legal institutions and human rights regimes around the world, both global and regional. In the second half, we will take a bottom-up view by exploring how human rights become part of contentious politics. Special attention will be given to how human rights law transform with mobilization from below and how it is used to contest, challenge and change hierarchical power relationships. The case studies from the Middle East, Latin America, Europe and the US aim at placing human rights concerns in a broader sociopolitical context.

Areas of Focus: International Relations and Public Law

Prerequisite: POLB30H3

Recommended Preparation: POLB90H3 and POLB91H3

Breadth Requirements: Social and Behavioural Sciences

POLC34H3 - The Politics of Crime

This course will explore how the world of criminal justice intersects with the world of politics. Beginning with a history of the "punitive turn" in the criminal justice policy of the late 1970s, this course will look at the major political issues in criminal justice today. Topics studied will include the constitutional context for legislating the criminal and quasi-criminal law, race and class in criminal justice, Canada's Indigenous peoples and the criminal justice system, the growth of restorative justice, drug prohibition and reform, the value of incarceration, and white-collar

crime and organizational liability. More broadly, the class aims to cover why crime continues to be a major political issue in Canada and the different approaches to addressing its control.

Areas of Focus: Comparative Politics and Public Law

Prerequisite: POLB30H3 and [(POLB56H3 and POLB57H3) or (POLB50Y3)]

Breadth Requirements: Social and Behavioural Sciences

POLC35H3 - Law and Politics: Contradictions, Approaches, and Controversies

This course examines different methods and approaches to the study of law and politics. Students will learn how the humanities-based study of law traditionally applied by legal scholars interacts or contradicts more empirically driven schools of thought common in social science, such as law and economics or critical race theory. Students will understand the substantive content of these different approaches and what can be gained from embracing multiple perspectives.

Areas of Focus: Quantitative and Qualitative Analysis, Political Theory, and Public Law

Prerequisite: POLB30H3 and POLB56H3 and POLB57H3

Breadth Requirements: Social and Behavioural Sciences

Note: Enrolment is limited to students enrolled in the Major Program in Public Law.

POLC36H3 - Law and Public Policy

This course examines how different types of legal frameworks affect processes and outcomes of policy-making. It contrasts policy-making in Westminster parliamentary systems and separation of powers systems; unitary versus multi-level or federal systems; and systems with and without constitutional bills of rights.

Areas of Focus: Public Policy and Public Law

Prerequisite: [(POLB56H3 and POLB57H3) or (POLB50Y3)]

Recommended Preparation: PPGB66H3/(POLC66H3)/(PPGC66H3)

Breadth Requirements: Social and Behavioural Sciences

POLC37H3 - Global Justice

This course examines theoretical debates about the extent of moral and political obligations to non-citizens. Topics include human rights, immigration, global poverty,

development, terrorism, and just war.
Area of Focus: Political Theory

Prerequisite: [(POLB70H3) and (POLB71H3)] or POLB72H3 or [1.0 credit at the B-level in IDS courses]

Exclusion: (PHLB08H3)

Breadth Requirements: History, Philosophy and Cultural Studies

POLC38H3 - International Law

This course introduces students to the foundations of international law, its sources, its rationale, and challenges to its effectiveness and implementation. Areas of international law discussed include the conduct of war, trade, and diplomacy, as well as the protection of human rights and the environment.

Areas of Focus: International Relations and Public Law

Prerequisite: POLB30H3 or POLB80H3

Exclusion: POL340Y

Breadth Requirements: Social and Behavioural Sciences

POLC39H3 - Comparative Law and Politics

This course examines the interaction between law, courts, and politics in countries throughout the world. We begin by critically examining the (alleged) functions of courts: to provide for "order," resolve disputes, and to enforce legal norms. We then turn to examine the conditions under which high courts have expanded their powers by weighing into contentious policy areas and sometimes empower individuals with new rights. We analyze case studies from democracies, transitioning regimes, and authoritarian states.

Areas of Focus: Comparative Politics and Public Law

Prerequisite: POLB30H3

Breadth Requirements: Social and Behavioural Sciences

POLC40H3 - Current Topics in Politics

Topics and Area of Focus will vary depending on the instructor.

Prerequisite: One B-level full credit in Political Science

Breadth Requirements: Social and Behavioural Sciences

POLC42H3 - Topics in Comparative Politics

Topics will vary depending on the regional interests and expertise of the Instructor.

Area of Focus: Comparative Politics

Prerequisite: One B-level full credit in Political Science
Breadth Requirements: Social and Behavioural Sciences

POLC43H3 - Prejudice and Racism

To best understand contemporary political controversies, this course draws from a variety of disciplines and media to understand the politics of racial and ethnic identity. The class will explore historical sources of interethnic divisions, individual level foundations of prejudice and bias, and institutional policies that cause or exacerbate inequalities.

Prerequisite: Any 8.0 credits
Breadth Requirements: Social and Behavioural Sciences

POLC44H3 - Current Topics in Politics II

Topics and Area of Focus will vary depending on the instructor.

Prerequisite: One B-level full credit in Political Science
Breadth Requirements: Social and Behavioural Sciences

POLC45H3 - Current Topics in Politics III

Topics and Area of Focus will vary depending on the instructor.

Prerequisite: One B-level full credit in Political Science.
Breadth Requirements: Social and Behavioural Sciences

POLC52H3 - Indigenous Nations and the Canadian State

This course is an introduction to Indigenous/Canadian relations and will give students a chance to begin learning and understanding an important component of Canadian politics and Canadian political science. A vast majority of topics in Canadian politics and Canadian political science can, and do, have a caveat and component that reflects, or should reflect, Indigenous nations and peoples that share territory with the Canadian state. Both Indigenous and Settler contexts will be used to guide class discussion. The course readings will also delve into Canadian/Indigenous relationships, their development, histories, contemporary existence, and potential futures.

Prerequisite: [POLB56H3 and POLB57H3] or (POLB50Y3)
Exclusion: POL308H1
Breadth Requirements: Social and Behavioural Sciences

POLC53H3 - Canadian Environmental Policy

This course examines the ideas and success of the environmental movement in Canada. The course focuses on how environmental policy in Canada is shaped by the ideas of environmentalists, economic and political interests, public opinion, and Canada's political-institutional framework. Combined lecture-seminar format.

Areas of Focus: Canadian Government and Politics; Public Policy

Prerequisite: (POLB50Y3) or [POLB56H3 and POLB57H3] or ESTB01H3 or [1.5 credits at the B-level in CIT courses]
Breadth Requirements: Social and Behavioural Sciences

POLC54H3 - Intergovernmental Relations in Canada

This course examines relations between provincial and federal governments in Canada, and how they have been shaped by the nature of Canada's society and economy, judicial review, constitutional amendment, and regionalisation and globalization. The legitimacy and performance of the federal system are appraised. Lecture-seminar format.

Areas of Focus: Canadian Government and Politics; Public Policy

Prerequisite: [POLB56H3 and POLB57H3] or (POLB50Y3)
Exclusion: POL316Y
Breadth Requirements: Social and Behavioural Sciences

POLC56H3 - Indigenous Politics and Law

This course explores key historical and contemporary issues in indigenous politics. Focusing on the contemporary political and legal mobilization of Indigenous peoples, it will examine their pursuit of self-government, land claims and resource development, treaty negotiations indigenous rights, and reconciliation. A primary focus will be the role of Canada's courts, its political institutions, and federal and provincial political leaders in affecting the capacity of indigenous communities to realize their goals.

Areas of Focus: Canadian Government and Politics, and Public Law

Prerequisite: [POLB56H3 and POLB57H3] or (POLB50Y3)
Exclusion: POL308H, ABS353H, ABS354H
Breadth Requirements: Social and Behavioural Sciences

POLC57H3 - Intergovernmental Relations and Public Policy

This course examines intergovernmental relations in various areas of public policy and their effects on policy outcomes. It evaluates how federalism affects the capacity of Canadians to secure desirable social, economic, environmental and trade policies. Lecture-seminar format. Areas of Focus: Canadian Government and Politics; Public Policy

Prerequisite: [(POLB50Y3) or (POLB56H3 and POLB57H3)]

Exclusion: POL316Y

Breadth Requirements: Social and Behavioural Sciences

POLC58H3 - The Politics of National Identity and Diversity

This course explores the foundational concepts of nation and nationalism in Canadian and comparative politics, and the related issues associated with diversity. The first section looks at the theories related to nationalism and national identity, while the second applies these to better understand such pressing issues as minorities, multiculturalism, conflict and globalization.

Areas of Focus: Canadian Government and Politics; Comparative Politics

Prerequisite: (POLB92H3) or (POLB56H3 and POLB57H3) or (POLB50Y3)

Breadth Requirements: Social and Behavioural Sciences

POLC65H3 - Political Strategy

This course focuses on analyzing and influencing individual and collective choices of political actors to understand effective strategies for bringing about policy changes. We will draw on the psychology of persuasion and decision-making, as well as literature on political decision-making and institutions, emphasizing contemporary issues. During election years in North America, special attention will be paid to campaign strategy. There may be a service-learning requirement. Areas of Focus: Comparative Politics, and Public Policy

Prerequisite: Any 4.0 credits

Breadth Requirements: Social and Behavioural Sciences

POLC69H3 - Political Economy: International and Comparative Perspectives

This course provides an introduction to the field of political economy from an international and comparative

perspective. The course explores the globalization of the economy, discusses traditional and contemporary theories of political economy, and examines issues such as trade, production, development, and environmental change.

Areas of Focus: Comparative Politics; International Relations

Prerequisite: [1.0 credit from: POLB80H3, POLB81H3, POLB90H3, POLB91H3, or (POLB92H3)]

Exclusion: POL361H1

Breadth Requirements: Social and Behavioural Sciences

POLC70H3 - Political Thought: Democracy, Justice and Power

This course introduces students to central concepts in political theory. Readings will include classical and contemporary works that examine the meaning and justification of democracy as well as the different forms it can take. Students will also explore democracy in practice in the classroom and/or in the local community.

Area of Focus: Political Theory

Prerequisite: POLB72H3 or PHLB17H3

Exclusion: POL200Y, (POLB70H3)

Breadth Requirements: History, Philosophy and Cultural Studies

POLC71H3 - Political Thought: Rights, Revolution and Resistance

This course introduces students to central concepts in political theory, such as sovereignty, liberty, and equality. Readings will include modern and contemporary texts, such as Hobbes' *Leviathan* and Locke's *Second Treatise of Government*.

Area of Focus: Political Theory

Prerequisite: POLB72H3 or PHLB17H3

Exclusion: POL200Y, (POLB71H3)

Breadth Requirements: History, Philosophy and Cultural Studies

POLC72H3 - Liberty

The course investigates the concept of political liberty in various traditions of political thought, especially liberalism, republicanism, and Marxism. The course will investigate key studies by such theorists as Berlin, Taylor, Skinner, Pettit, and Cohen, as well as historical texts by Cicero, Machiavelli, Hobbes, Hegel, Constant, Marx, and Mill. Area of Focus: Political Theory

Prerequisite: POLB72H3 or (POLB70H3) or (POLB71H3)

Breadth Requirements: History, Philosophy and Cultural Studies

POLC73H3 - Modern Political Theory

This course is a study of the major political philosophers of the nineteenth century, including Hegel, Marx, J.S. Mill and Nietzsche.

Area of Focus: Political Theory

Prerequisite: [(POLB70H3) and (POLB71H3)] or POLB72H3

Exclusion: POL320Y

Breadth Requirements: History, Philosophy and Cultural Studies

POLC74H3 - Contemporary Political Thought

This course is a study of the major political philosophers of the twentieth century. The theorists covered will vary from year to year.

Area of Focus: Political Theory

Prerequisite: [(POLB70H3) and (POLB71H3)] or POLB72H3

Exclusion: POL320Y

Breadth Requirements: History, Philosophy and Cultural Studies

POLC78H3 - Political Analysis I

This course examines the principles of research design and methods of analysis employed by researchers in political science. Students will learn to distinguish between adequate and inadequate use of evidence and between warranted and unwarranted conclusions.

Area of Focus: Quantitative and Qualitative Analysis

Prerequisite: 8.0 credits including 0.5 credit in POL, PPG, or IDS courses

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

POLC79H3 - Feminist Political Thought

This course examines the challenges and contributions of feminist political thought to the core concepts of political theory, such as rights, citizenship, democracy, and social movements. It analyzes the history of feminist political thought, and the varieties of contemporary feminist thought, including: liberal, socialist, radical, intersectional, and postcolonial.

Area of Focus: Political Theory

Prerequisite: POLB72H3 or [(POLB70H3) and (POLB71H3)] or PHLB13H3 or WSTA03H3

Exclusion: POL432H

Breadth Requirements: History, Philosophy and Cultural Studies

POLC80H3 - International Relations of Africa

This course introduces students to the International Relations of Africa. This course applies the big questions in IR theory to a highly understudied region. The first half of the course focuses on security and politics, while the latter half pays heed to poverty, economic development, and multilateral institutions.

Area of Focus: International Relations

Prerequisite: 1.0 credit from POLB80H3, POLB81H3, POLB90H3, or POLB91H3

Breadth Requirements: Social and Behavioural Sciences

POLC83H3 - Applications of American Foreign Policy

This course examines the foreign policy of the United States by analyzing its context and application to a specific region, regions or contemporary problems in the world.

Areas of Focus: International Relations; Public Policy; Comparative Politics

Prerequisite: Any 4.0 credits

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

POLC87H3 - Great Power Politics

This course explores the possibilities and limits for international cooperation in different areas and an examination of how institutions and the distribution of power shape bargained outcomes.

Area of Focus: International Relations

Prerequisite: POLB80H3 and POLB81H3

Breadth Requirements: Social and Behavioural Sciences

POLC88H3 - The New International Agenda

Traditional International Relations Theory has concentrated on relations between states, either failing to discuss, or missing the complexities of important issues such as terrorism, the role of women, proliferation, globalization of the world economy, and many others. This course serves as an introduction to these issues - and how international relations theory is adapting in order to cover them.

Area of Focus: International Relations

Prerequisite: 1.0 credit from POLB80H3, POLB81H3, POLB90H3, or POLB91H3

Breadth Requirements: Social and Behavioural Sciences

POLC90H3 - Development Studies: Political and Historical Perspectives

This course provides students with a more advanced examination of issues in development studies, including some of the mainstream theoretical approaches to development studies and a critical examination of development practice in historical perspective. Seminar format.

Area of Focus: Comparative Politics

Prerequisite: POLB90H3 and POLB91H3

Breadth Requirements: Social and Behavioural Sciences

POLC91H3 - Latin America: Dictatorship and Democracy

This course explores the origins of Latin America's cycles of brutal dictatorship and democratic rule. It examines critically the assumption that Latin American countries have made the transition to democratic government.

Area of Focus: Comparative Politics

Prerequisite: 1.0 credit from POLB80H3, POLB81H3, POLB90H3, or POLB91H3

Exclusion: POL305Y

Breadth Requirements: Social and Behavioural Sciences

POLC92H3 - U.S. Government and Politics

This course analyses the American federal system and the institutions and processes of government in the United States.

Area of Focus: Comparative Politics

Prerequisite: Any 8.0 credits

Exclusion: (POL203Y) and POL386H1

Breadth Requirements: Social and Behavioural Sciences

POLC93H3 - Public Policies in the United States

This course focuses on selected policy issues in the United States.

Areas of Focus: Comparative Politics; Public Policy

Prerequisite: One full credit in Political Science at the B-level

Exclusion: POL203Y

Breadth Requirements: Social and Behavioural

Sciences

Course Experience: University-Based Experience

POLC94H3 - Globalization, Gender and Development

This course explores the gendered impact of economic Globalization and the various forms of resistance and mobilization that women of the global south have engaged in their efforts to cope with that impact. The course pays particular attention to regional contextual differences (Latin America, Africa, Asia and the Middle East) and to the perspectives of global south women, both academic and activist, on major development issues.

Area of Focus: Comparative Politics

Prerequisite: POLB90H3

Breadth Requirements: Social and Behavioural Sciences

POLC96H3 - State Formation and Authoritarianism in the Middle East

This course examines the origins of, and political dynamics within, states in the contemporary Middle East. The first part of the course analyses states and state formation in historical perspective - examining the legacies of the late Ottoman and, in particular, the colonial period, the rise of monarchical states, the emergence of various forms of "ethnic" and/or "quasi" democracies, the onset of "revolutions from above", and the consolidation of populist authoritarian states. The second part of the course examines the resilience of the predominantly authoritarian state system in the wake of socio-economic and political reform processes.

Area of Focus: Comparative Politics

Prerequisite: 1.0 credit from POLB80H3, POLB81H3, POLB90H3, POLB91H3 or (POLB92H3)

Breadth Requirements: Social and Behavioural Sciences

POLC97H3 - Protest Politics in the Middle East

This course examines various forms of protest politics in the contemporary Middle East. The course begins by introducing important theoretical debates concerning collective action in the region - focusing on such concepts as citizenship, the public sphere, civil society, and social movements. The second part of the course examines case studies of social action - examining the roles played by crucial actors such as labour, the rising Islamist middle classes/bourgeoisie, the region's various ethnic and religious minority groups, and women who are entering into the public sphere in unprecedented numbers. The course concludes by examining various forms of collective and non-collective action in the region from Islamist social movements to everyday forms of resistance.

Area of Focus: Comparative Politics

Prerequisite: 1.0 credit from POLB80H3, POLB81H3, POLB90H3, POLB91H3 or (POLB92H3)

Breadth Requirements: Social and Behavioural Sciences

POLC98H3 - International Political Economy of Finance

The course explains why financial markets exist, and their evolution, by looking at the agents, actors and institutions which generate demand for them. We also consider the consequences of increasingly integrated markets, the causes of systemic financial crises, as well as the implications and feasibility of regulation.

Area of Focus: International Relations

Prerequisite: [POLB80H3 and POLB81H3] and [MGEA01H3 or MGEA02H3] and [MGEA05H3 or MGEA06H3]

Exclusion: POL411H1

Breadth Requirements: Social and Behavioural Sciences

POLD01H3 - Research Seminar in Political Science

This course provides an opportunity to design and carry out individual or small-group research on a political topic. After class readings on the topic under study, research methods and design, and research ethics, students enter "the field" in Toronto. The seminar provides a series of opportunities to present and discuss their unfolding research.

Prerequisite: 1.5 credits at the C-level in POL courses

Course Experience: University-Based Experience

POLD02Y3 - Senior Research Seminar in Political Science

This course provides an opportunity for students to propose and carry out intensive research on a Political Science topic of the student's choosing under the supervision of faculty with expertise in that area. In addition to research on the topic under study, class readings and seminar discussions focus on the practice of social science research, including methods, design, ethics, and communication.

Prerequisite: Open to 4th Year students with a CGPA of at least 3.3 in the Specialist and Major programs in Political Science or Public Policy or from other programs with permission of the instructor.

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

POLD09H3 - Advanced Topics in International Security

This seminar course investigates the most urgent topics in the field of International Security, including American hegemonic decline, rising Chinese power, Russian military actions in Eastern Europe, great power competition, proxy wars, and international interventions. The readings for this course are drawn from the leading journals in International Relations, which have been published within the past five years. The major assignment for this course is the production of an original research paper on any topic in international security, which would meet the standard of publication in a reputable student journal.

Area of Focus: International Relations

Prerequisite: POLC09H3 and [an additional 1.0 credit at the C-level in POL or IDS courses]

Exclusion: POL466H1, POL468H1

Breadth Requirements: Social and Behavioural Sciences

POLD10Y3 - Grand Challenges UTSC

This course challenges students to address global wicked problems that have catastrophic consequences for human life, such as climate change, extreme poverty, war, and famine. Students will select a wicked problem affecting human survival in one target region and will commit to tackling that problem for the entire academic year. This is neither a seminar nor lecture course, but an ideas incubator where students will work together in interdisciplinary teams to develop and stress test ideas for increasing human resilience in the most fragile parts of the world, using both design thinking and strategic analysis. In the first semester, students will engage in extensive library research in their respective fields of study, equal to the volume of a supervised reading course. The second semester focuses more heavily on group collaborations and project deliverables, which will require approximately 4 hours of work per week outside the classroom.

Prerequisite: Any 14.0 credits

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

Note: This is an interdisciplinary D-level course open to all fields of study.

POLD30H3 - Legal Reasoning

This course will introduce students to the ideas and methods that guide judges and lawyers in their work. How does the abstract world of the law get translated into predictable, concrete decisions? How do judges decide what is the "correct" decision in a given case? The class will begin with an overview of the legal system before delving into the ideas guiding statute drafting and interpretation, judicial review and administrative discretion, the meaning of "evidence" and "proof," constitutionalism,

and appellate review. Time will also be spent exploring the ways that foreign law can impact and be reconciled with Canadian law in a globalizing world.

Areas of Focus: Public Law, and Quantitative and Qualitative Analysis

Prerequisite: [POLB30H3](#) and an additional 1.5 credits at the C-level in POL courses

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Minor in Public Law.

POLD31H3 - Mooting Seminar

This course will offer senior students the opportunity to engage in a mock court exercise based around a contemporary legal issue. Students will be expected to present a legal argument both orally and in writing, using modern templates for legal documents and argued under similar circumstances to those expected of legal practitioners. The class will offer students an opportunity to understand the different stages of a court proceeding and the theories that underpin oral advocacy and procedural justice. Experiential learning will represent a fundamental aspect of the course, and expertise will be sought from outside legal professionals in the community who can provide further insight into the Canadian legal system where available.

Area of Focus: Public Law

Prerequisite: [POLB30H3](#) and [POLC32H3](#) and an additional 1.5 credits at the C-level in POL courses

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

Note: Enrolment is limited to students enrolled in the Major Program in Public Law.

POLD32H3 - Racism, the Law, and Public Policy

Is the Canadian state racist? Is the law a tool of anti-racist resistance or a tool of racial oppression? Is racial categorization in public policy inherently inequitable or strategically necessary? This seminar course explores the complex relationship between racism, the law, and public policy within the context of Canadian institutions. Students will engage with critical race theory, case law, state policy documents, race-based data collection, and Canadian political science scholarship.

Areas of Focus: Public Law and Public Policy

Prerequisite: [POLB56H3](#) and [POLB57H3](#) and [2.0 credits at the C-level in any courses]

Breadth Requirements: Social and Behavioural Sciences

POLD38H3 - Corporate Crime and Corruption: Law and Governance in a Global Context

This course examines the challenges of governing business in a global context. Focusing on Canada and Canadian corporations, the course first introduces students to business governance in a national context, exploring how law regulates business and foundational concepts like legal personality and the rights and obligations of corporate entities. The course then examines multinational businesses and the myriad efforts to govern these transnational actors, including through international law and corporate self-regulation. Using real-world examples and case studies of corporate crime, corruption, and wrongdoing, students will uncover the governance gaps that can emerge as corporations operate across borders.

Areas of Focus: International Relations and Public Law

Prerequisite: [POLC32H3](#) and 1.0 credit at the C-level in POL courses

Recommended Preparation: [POLB80H3](#)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

POLD41H3 - Advanced Topics in Politics

Topics and Area of Focus will vary depending on the instructor.

Prerequisite: 1.5 credits at the C-level in POL courses

Exclusion: ([POLC41H3](#))

POLD42H3 - Advanced Topics in Public Law

Topics and area of focus will vary depending on the instructor and may include global perspectives on social and economic rights, judicial and constitutional politics in diverse states and human rights law in Canada.

Area of Focus: Public Law

Prerequisite: 1.0 credits from the following [[POLC32H3](#), [POLC36H3](#), [POLC39H3](#)]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

POLD43H3 - Writing about Politics

Some of the most powerful political texts employ literary techniques such as narrative, character, and setting. This class will examine political themes in texts drawn from a range of literary genres (memoire, literary non-fiction, science fiction). Students will learn about the conventions of these genres, and they will also have the opportunity to

write an original piece of political writing in one of the genres. This course combines the academic analysis of political writing with the workshop method employed in creative writing courses.

Prerequisite: [1.5 credits at the C-level in POL, CIT, PPG, GGR, ANT, SOC, IDS, HLT courses] or [JOUB39H3 or ENGB63H3]

Recommended Preparation: At least one course in creative writing at the high school or university level.

Breadth Requirements: History, Philosophy and Cultural Studies

POLD44H3 - Comparative Law and Social Change

This seminar examines how legal institutions and legal ideologies influence efforts to produce or prevent social change. The course will analyze court-initiated action as well as social actions “from below” (social movements) with comparative case studies.

Areas of Focus: Comparative Politics and Public Law

Prerequisite: POLB30H3 and [POLC33H3 or POLC38H3 or POLC39H3] and [0.5 credit in Comparative Politics]

Exclusion: POL492H1

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Minor Program in Public Law.

POLD45H3 - Constitutionalism

This course studies the theory of constitutionalism through a detailed study of its major idioms such as the rule of law, the separation of powers, sovereignty, rights, and limited government.

Areas of Focus: Political Theory and Public Law

Prerequisite: [(POLB70H3) and (POLB71H3)] or POLB72H3 or POLB30H3] and [1.5 credits at the C-level in POL courses]

Breadth Requirements: History, Philosophy and Cultural Studies

POLD46H3 - Public Law and the Canadian Immigration System

Immigration is one of the most debated and talked about political issues in the 21st century. Peoples' movement across continents for a whole host of reasons is not new; however, with the emergence of the nation-state, the drawing of borders, and the attempts to define and shape of membership in a political and national community, migration became a topic for public debate and legal challenge. This course dives into Canada's immigration system and looks at how it was designed, what values and objectives it tries to meet, and how global challenges affect its approach and attitude toward newcomers. The

approach used in this course is that of a legal practitioner, tasked with weighing the personal narratives and aspirations of migrants as they navigate legal challenges and explore the available programs and pathways to complete their migration journey in Canada.

Areas of Focus: Canadian Government and Politics, and Public Law

Prerequisite: 1.0 credits from the following: POLC32H3, POLC36H3, POLC39H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

POLD50H3 - Political Interests, Political Identity, and Public Policy

This course examines the interrelationship between organized interests, social movements and the state in the formulation and implementation of public policy in Canada and selected other countries.

Areas of Focus: Canadian Government and Politics; Public Policy

Prerequisite: [(POLB50Y3) or POLB56H3 and POLB57H3] and [1.5 credits at the C-level in POL or PPG courses]

Breadth Requirements: Social and Behavioural Sciences

POLD51H3 - Topics in Canadian and Comparative Politics

This seminar course explores selected issues of Canadian politics from a comparative perspective. The topics in this course vary depending on the instructor.

Areas of Focus: Canadian Government and Politics; Comparative Politics

Prerequisite: [(POLB50Y3) or POLB56H3 and POLB57H3] and [1.5 credits at the C-level in POL courses]

Breadth Requirements: Social and Behavioural Sciences

POLD52H3 - Immigration and Canadian Political Development

Immigration has played a central role in Canada's development. This course explores how policies aimed at regulating migration have both reflected and helped construct conceptions of Canadian national identity. We will pay particular attention to the politics of immigration policy-making, focusing on the role of the state and social actors.

Areas of Focus: Canadian Government and Politics; Public Policy

Prerequisite: [(POLB50Y3) or [POLB56H3 and POLB57H3]] and [1.5 credits at the C-level in POL or PPG courses] or [15.0 credits including SOCB60H3]
Breadth Requirements: Social and Behavioural Sciences

POLD53H3 - Political Disagreement

Why do people disagree in their opinions about abortion, same-sex marriage, crime and punishment, welfare, taxes, immigration, the environment, religion, and many other subjects? This course examines the major social scientific theories of political disagreement and applies these theories to an analysis of political disagreement. Areas of Focus: Canadian Government and Politics, and Comparative Politics

Prerequisite: [(POLB50Y3) or [POLB56H3 and POLB57H3]] and [1.5 credits at the C-level in POL courses]
Recommended Preparation: STAB23H3 or equivalent
Breadth Requirements: Social and Behavioural Sciences

POLD54H3 - Michi-Saagiig Nishnaabeg Nation Governance and Politics

The campuses of the University of Toronto are situated on the territory of the Michi-Saagiig Nation (one of the nations that are a part of the Nishnaabeg). This course will introduce students to the legal, political, and socio-economic structures of the Michi-Saagiig Nishnaabeg Nation and discuss its relations with other Indigenous nations and confederacies, and with the Settler societies with whom the Michi-Saagiig Nishnaabeg have had contact since 1492. In an era of reconciliation, it is imperative for students to learn and understand the Indigenous nation upon whose territory we are meeting and learning. Therefore, course readings will address both Michi-Saagiig Nishnaabeg and Settler contexts. In addition to literature, there will be guest speakers from the current six (6) Michi-Saagiig Nishnaabeg communities that exist: Alderville, Mississaugas of the Credit, Mississaugi 8, Oshkigamig (Curve Lake), Pamitaashkodeyong (Burns/Hiawatha), and Scugog.

Prerequisite: [(POLB50Y3) or [POLB56H3 and POLB57H3]] and [1.5 credits at the C-level in Political Science (POL and PPG courses)]
Recommended Preparation: POLC52H3 or POL308H1
Breadth Requirements: Social and Behavioural Sciences
Course Experience: University-Based Experience

POLD55H3 - The Politics of Equality and Inequality in Canada

This seminar provides an in-depth examination of the politics of inequality in Canada, and the role of the Canadian political-institutional framework in contributing to

political, social and economic (in)equality. The focus will be on diagnosing how Canada's political institutions variously impede and promote equitable treatment of different groups of Canadians (such as First Nations, women, racial and minority groups) and the feasibility of possible institutional and policy reforms to promote goals of social and economic equity.

Area of Focus: Canadian Government and Politics

Prerequisite: [(POLB50Y3) or [POLB56H3 and POLB57H3]] and [1.5 credits at the C-level in POL courses]
Breadth Requirements: Social and Behavioural Sciences

POLD56H3 - Politics and Computational Social Science

This course applies tools from computational social science to the collection and analysis of political data, with a particular focus on the computational analysis of text. Students are expected to propose, develop, carry out, and present a research project in the field of computational social science.

Area of Focus: Quantitative and Qualitative Analysis

Prerequisite: [STAB23H3 or equivalent] and 1.5 credit at the C-level
Breadth Requirements: Quantitative Reasoning

POLD58H3 - The New Nationalism in Liberal Democracies

This course examines the recent rise of ethnic nationalism in western liberal democracies, with a particular focus on the US, Canada, UK and France. It discusses the different perspectives on what is behind the rise of nationalism and populism, including economic inequality, antipathy with government, immigration, the role of political culture and social media.

Areas of Focus: Canadian Government and Politics

Prerequisite: 1.0 credit at the C-level in POL or PPG courses
Recommended Preparation: POLC58H3
Breadth Requirements: Social and Behavioural Sciences

POLD59H3 - Politics of Disability

An in-depth analysis of the place and rights of disabled persons in contemporary society. Course topics include historic, contemporary, and religious perspectives on persons with disabilities; the political organization of persons with disabilities; media presentation of persons with disabilities; and the role of legislatures and courts in the provision of rights of labour force equality and social

service accessibility for persons with disabilities.
Area of Focus: Canadian Government and Politics

Prerequisite: 8.0 credits, of which at least 1.5 credits must be at the C- or D-level

Breadth Requirements: Social and Behavioural Sciences

POLD67H3 - The Limits of Rationality

This course critically examines the relationship between politics, rationality, and public policy-making. The first half of the course surveys dominant rational actor models, critiques of these approaches, and alternative perspectives. The second half of the course explores pathological policy outcomes, arrived at through otherwise rational procedures.

Areas of Focus: Comparative Politics; Political Theory; Public Policy

Prerequisite: PPG66H3/(PPGC66H3/(POLC67H3) or [(POLB70H3) and (POLB71H3)] or POLB72H3] or [POLB90H3 and POLB91H3] and [1.0 additional credit at the C-level in POL or PPG courses]

Breadth Requirements: Social and Behavioural Sciences

POLD70H3 - Topics in Political Theory

This seminar explores the ways in which political theory can deepen our understanding of contemporary political issues. Topics may include the following: cities and citizenship; multiculturalism and religious pluralism; the legacies of colonialism; global justice; democratic theory; the nature of power.

Area of Focus: Political Theory

Prerequisite: [(POLB70H3) or (POLB71H3) or POLB72H3] and [1.5 credits at the C-level in POL courses]

POLD74H3 - The Black Radical Tradition

The Black radical tradition is a modern tradition of thought and action which began after transatlantic slavery's advent. Contemporary social science and the humanities overwhelmingly portray the Black radical tradition as a critique of Black politics in its liberal, libertarian, and conservative forms. This course unsettles that framing: first by situating the Black radical tradition within Black politics; second, through expanding the boundaries of Black politics to include, yet not be limited to, theories and practices emanating from Canada and the United States; and third, by exploring whether it is more appropriate to claim the study of *the* Black radical tradition or a broader network of intellectual traditions underlying political theories of Black radicalism.

Area of Focus: Political Theory

Prerequisite: [POLB72H3 or POLC31H3] and [1.0 credit at the C-level in Political Science (POL and PPG courses)]

Breadth Requirements: History, Philosophy and Cultural Studies

POLD75H3 - Property and Power

This course examines the concept of property as an enduring theme and object of debate in the history of political thought and contemporary political theory. Defining property and justifying its distribution has a significant impact on how citizens experience authority, equality, freedom, and justice. The course will analyze different theoretical approaches to property in light of how they shape and/or challenge relations of class, race, gender, and other lines of difference and inequality.

Prerequisite: 0.5 credit from: [POLB72H3, POLC70H3, POLC71H3 or POLC73H3]

Breadth Requirements: Social and Behavioural Sciences

POLD78H3 - Advanced Political Analysis

This seminar course is intended for students interested in deepening their understanding of methodological issues that arise in the study of politics or advanced research techniques.

Prerequisite: POLC78H3 and [1.0 credit at the C-level in POL courses]

Breadth Requirements: Social and Behavioural Sciences

POLD82H3 - Politics and Literature

Examines political dynamics and challenges through exploration of fiction and other creative works with political science literature. Topics and focus will vary depending on the instructor but could include subjects like climate change, war, migration, gender, multiculturalism, colonialism, etc.

Prerequisite: 1.5 credits at the C-level in POL courses

Corequisite: n/a

Exclusion: n/a

Recommended Preparation: n/a

Breadth Requirements: Social and Behavioural Sciences

POLD87H3 - Rational Choice and International Cooperation

This course is an introduction to rational choice theories with applications to the international realm. A main goal is to introduce analytical constructs frequently used in the political science and political economy literature to

understand strategic interaction among states.
Area of Focus: International Relations

Prerequisite: POLB80H3 and POLB81H3 and [1.5 credits at the C-level in POL courses]

Breadth Requirements: Social and Behavioural Sciences

POLD89H3 - Global Environmental Politics

Examines the challenges faced by humanity in dealing with global environmental problems and the politics of addressing them. Focuses on both the underlying factors that shape the politics of global environmental problems - such as scientific uncertainty, North-South conflict, and globalization - and explores attempts at the governance of specific environmental issues.

Area of Focus: International Relations; Public Policy

Prerequisite: [[POLB80H3 and POLB81H3] or ESTB01H3] and [2.0 credits at the C-level in any courses]

Exclusion: POL413H1

Breadth Requirements: Social and Behavioural Sciences

POLD90H3 - Public Policy and Human Development in the Global South

While domestic and international political factors have discouraged pro human development public policies in much of the global south, there have been some important success stories. This course examines the economic and social policies most successful in contributing to human development and explores the reasons behind these rare cases of relatively successful human development.

Areas of Focus: Comparative Politics; Public Policy

Same as IDSD90H3

Prerequisite: [1.0 credit from: IDSB01H3, IDSB04H3, POLB90H3, POLB91H3] and [2.0 credits at the C-level in any courses]

Exclusion: IDSD90H3

Breadth Requirements: Social and Behavioural Sciences

POLD91H3 - Protests and Social Movements in Comparative Perspective

This course examines contentious politics from a comparative perspective, beginning with the foundational theories of Charles Tilly, Sidney Tarrow, and Doug McAdam. It explores questions such as why people protest, how they organize, and the outcomes of contention. The second half of the course challenges students to examine popular contention across a range of states in Asia, the Middle East, Europe, and Latin America. It asks students to interrogate the applicability of the dynamics of contention framework to illiberal states in

a comparative context.

Area of Focus: Comparative Politics

Prerequisite: 1.5 credits at the C-level in POL courses

Exclusion: POL451H1

Breadth Requirements: Social and Behavioural Sciences

POLD92H3 - Survival and Demise of Dictatorships

This course will provide an introduction to theories of why some dictatorships survive while others do not. We will explore theories rooted in regime type, resources, state capacity, parties, popular protest, and leadership. We will then examine the utility of these approaches through in-depth examinations of regime crises in Ethiopia, Iran, China, the USSR, and South Africa.

Area of Focus: Comparative Politics

Prerequisite: [POLB90H3 or POLB91H3] and [an additional 2.0 credits at the C-level in any courses]

Breadth Requirements: Social and Behavioural Sciences

POLD94H3 - Selected Topics on Developing Areas

Topics vary according to instructor.

Area of Focus: Comparative Politics

Prerequisite: POLB90H3 and [POLB91H3 or 0.5 credit at the B-level in IDS courses] and [2.0 credits at the C-level in any courses]

Breadth Requirements: Social and Behavioural Sciences

POLD95H3 - Supervised Research

A research project under the supervision of a member of faculty that will result in the completion of a substantial report or paper acceptable as an undergraduate senior thesis. Students wishing to undertake a supervised research project in the Winter Session must register in POLD95H3 during the Fall Session. It is the student's responsibility to find a faculty member who is willing to supervise the project, and the student must obtain consent from the supervising instructor before registering for this course. During the Fall Session the student must prepare a short research proposal, and both the supervising faculty member and the Supervisor of Studies must approve the research proposal prior to the first day of classes for the Winter Session.

Prerequisite: Permission of the instructor

Course Experience: University-Based Experience

POLD98H3 - Supervised Reading

Advanced reading in special topics. This course is meant only for those students who, having completed the available basic courses in a particular field of Political Science, wish to pursue further intensive study on a

relevant topic of special interest. Students are advised that they must obtain consent from the supervising instructor before registering for this course.

Prerequisite: Permission of the instructor.

Exclusion: POL495Y

Psychology

Faculty List

- B.C. Armstrong, B.Sc., M.A. (Toronto), M.S., Ph.D., (Carnegie Mellon), Assistant Professor
- M. Arruda-Carvalho, B.Sc., M.Sc. (Rio de Janeiro), Ph.D. (Toronto), Associate Professor
- M. Bagby, B.A. (Tennessee), M.A. (Radford), Ph.D., C. Psych (York), Professor
- M.W. Best, B.Sc., M.Sc., Ph.D. (Queens), Assistant Professor
- K. Bramesfeld, B.A. (Wyoming), M.Sc., Ph.D. (Penn State), Associate Professor, Teaching Stream
- G.B. Biederman, B.Sc. (CUNY), Ph.D. (NYU), Professor Emeritus
- D.A. Bors, B.A. (Florida), M.A. (Regina), Ph.D. (Toronto), Associate Professor, Teaching Stream, Emeritus
- J.S. Cant, B.A., M.Sc., Ph.D. (Western), Associate Professor
- L. Cirelli, B.A. (Laurentian), Ph.D. (McMaster), Assistant Professor
- A. Cooper, B.A. (McMaster), M.A., Ph.D. (Ohio State), Associate Professor, Teaching Stream
- G.S. Cree, B.A., M.A., Ph.D. (Western), Associate Professor
- G.C. Cupchik, B.A. (Michigan), M.A., Ph.D. (Wisconsin), Professor
- D.K. Danielson, B.A. (Duke), M.Sc. (Alberta), Ph.D. (British Columbia), Associate Professor, Teaching Stream
- J. Dere, B.A., M.Sc. (McGill), Ph.D. (Concordia), Associate Professor, Teaching Stream
- S. Erb, B.Sc. (Wilfrid Laurier), M.A., Ph.D. (Concordia), Associate Professor
- J.E. Foley, B.A., Ph.D. (Sydney), Professor Emerita
- B.Q. Ford, B.A., M.A. (Boston), Ph.D. (Berkeley), Associate Professor
- B. Forrin, B.A. (Toronto), M.A., Ph.D. (Michigan), Professor Emeritus
- M.A. Fournier, B.A., Ph.D. (McGill), Professor
- M. Gadziola, B.Sc. (McMaster), Ph.D. (Kent State), Assistant Professor
- V. Goghari, B.A. (British Columbia), M.A., Ph.D. (Minnesota), Professor
- D. W. Haley, B.A. (Annapolis), M.A. (San Francisco), Ph.D. (Albuquerque), Associate Professor
- C. Hutcherson, B.A. (Harvard), Ph.D. (Stanford), Associate Professor
- Y. Inbar, B.A. (Berkeley), Ph.D. (Cornell), Associate Professor
- M. Inzlicht, B.Sc. (McGill), M.Sc., Ph.D. (Brown), Professor
- R. Ito, B.A. (Oxford), Ph.D. (Cambridge), Professor
- S. Joordens, B.A. (New Brunswick), M.A., Ph.D. (Waterloo), Professor
- J.M. Kennedy, B.Sc., M.Sc. (Belfast), Ph.D. (Cornell), University Professor Emeritus
- J.C. LeBoutillier, B.Sc., M.A., Ph.D. (Toronto), Associate Professor Emerita, Teaching Stream
- A.C.H. Lee B.A. (Oxford), Ph.D. (Cambridge), Professor
- A. Nestor, B.A. (Bucharest), M.Sc. (New Bulgarian), Ph.D. (Brown), Associate Professor
- M. Niemeier, M.A. (Hamburg), Ph.D. (Tubingen), Professor
- J. Park, B.Sc., M.A. (Seoul National), M.A., Ph.D. (Buffalo), Assistant Professor
- O. Podolak Lewandowska, B.Sc (McMaster), M.A., Ph.D. (Toronto), Assistant Professor, Teaching Stream
- R. Rozeske, B.A. (St. Olaf), M.A., Ph.D. (Colorado), Assistant Professor
- T.L. Petit, B.Sc., M.A. (Louisiana), Ph.D. (Florida), Professor Emeritus
- A.C. Ruocco, B.Sc. (York), M.Sc., Ph.D., C.Psych. (Drexel), Professor
- M.A. Schmuckler, B.A. (SUNY-Binghamton), Ph.D. (Cornell), Professor
- Z. Segal, B.A. (McGill), M.A. (Queens), Ph.D. (Queens), Professor
- M.C. Smith, B.A. (Toronto), Ph.D. (MIT), Professor Emerita
- R. Smyth, B.A. (Carleton), M.Sc. (Alberta), Ph.D. (Alberta), Associate Professor
- M. Souza, B.A., M.A. (UC Davis), Ph.D. (Berkeley), Associate Professor, Teaching Stream
- R. Thiruchselvam, B.Sc. (Toronto), Ph.D. (Stanford), Assistant Professor, Teaching Stream
- A.A. Uliaszek, B.A. (Penn State), M.A., Ph.D. (Northwestern), Associate Professor
- Y.A. Wang, B.A. (Amherst), M.A., Ph.D. (UC Davis), Assistant Professor
- Y. Wu, B.Sc. (Peking), Ph.D. (MIT), Assistant Professor
- K.K. Zakzanis, B.A., M.A., Ph.D., C.Psych. (York), Professor

Chair: S. Erb

Associate Chair, Undergraduate and Program Supervisor: K. Danielson

Undergraduate Program Administrator: psychundergrad.utsc@utoronto.ca
 Co-op Contact: askcoop@utoronto.ca

For more information, [visit the Department of Psychology website](#).

Psychology examines how and why people think and act the way they do, with the goal of understanding and improving the human condition. Psychological research employs the scientific method and a diverse set of tools in an effort to uncover the complex dynamics that influence individuals. Our programs of study are valuable to students planning to join the public or private sector workforce (e.g., human resources, marketing, social/community services), those interested in pursuing graduate studies focused on psychological research (e.g., Ph.D. in Clinical or Experimental Psychology), those seeking a professional degree program related to psychological science (e.g., Master's Degree in Counselling Psychology, Public Health, or Social Work), as well as those interested in other professional degrees (e.g., law, business).

Psychology has many sub-fields, several of which are represented at UTSC in terms of research areas and course offerings: Social Psychology (how socio-cultural influences affect us; PSY 10-series courses), Developmental Psychology (how individuals change over time; PSY 20-series courses), Clinical Psychology (diagnosis and treatment of psychological disorders; PSY 30-series courses), Cognitive Neuroscience (the biology of the mind; PSY 50-series courses), and Behavioural Neuroscience (physiological and genetic influences on behaviour; PSY 60-series courses). These courses are designed to complement our other core skills courses (e.g., research methods, statistics, scientific writing) found outside of this numerical category system.

Our programs in Psychology provide an opportunity to study typical thoughts, feelings, and behaviours, while our programs in Mental Health Studies are better suited for students interested in focusing on psychological well-being and disorders. Programs in Psychology and Mental Health Studies cannot be combined. Students with a strong interest in the biological basis of thoughts, feelings, and behaviours may instead want to consider a program in [Neuroscience](#).

Our Specialist programs are research-intensive programs. Our Major programs require fewer courses while allowing students to pursue a second major area of interest in a different program. The Specialist (Co-op) and Major (Co-op) options offer an experiential learning supplement to the program. Our Minor program in Psychology allows students to explore our field with considerably less intensity than the Specialist and Major programs.

Students in the Specialist or Specialist (Co-op) Program in Mental Health Studies also have the unique opportunity to pursue the [Combined Degree Program, Honours Bachelor of Science/Master of Social Work](#). The Combined Degree Program reserves early entry for students in the University of Toronto's highly competitive Master of Social Work program. Please see below for more information.

Combined Degree Programs, Honours Bachelor of Science/ Master of Social Work

The Combined Degree Program for UTSC Honours Bachelor of Science (HBS) with the Master of Social Work (MSW) offered by the Factor-Inwentash Faculty of Social Work allows exceptional students who are registered in the UTSC Specialist or Specialist Co-op programs in Mental Health Studies to apply during Year 3 of their studies and be considered for admission to the FIFSW Master's program in Social Work. The CDP offers a rich intellectual pathway for exceptional undergraduate students by providing access to social work research before the completion of the undergraduate degree, and gives students an opportunity to become equipped for evidence-informed social work practice, through a research course in Year 4.

The Combined Degree Programs options are:

- Mental Health Studies (Specialist), Honours Bachelor of Science/ Master of Social Work
- Mental Health Studies Health Studies (Specialist Co-op), Honours Bachelor of Science/ Master of Social Work

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Planning your Program in Psychology

Creating an academic plan - a road map of the courses you wish to take on the timeline you wish to take them - is crucial for the efficient completion of your program. We strongly encourage our students to either develop an academic plan independently and then to consult the Department of Psychology Advisors for feedback, or to work with the Department of Psychology Advisors to develop an academic plan. These advisors can also provide valuable guidance to help you structure your program to improve your competitiveness for further studies after your undergraduate degree. For more information, please see the [Department of Psychology](#) website.

All students interested in any of our programs must first take [PSYA01H3](#) and [PSYA02H3](#) (or their equivalent). All students should then prioritize foundational research methods [PSYB70H3](#) and statistics [PSYB07H3](#) in Year 2 to gain access to more advanced courses at the C-level and beyond. Specialists should also take [PSYC02H3](#) and [PSYC70H3](#) in Year 2, as these courses are profoundly useful for engaging in research opportunities. Students in the Psychology Minor are strongly encouraged to choose PSY B-levels courses that open up multiple options at the PSY C-level, as some courses (for example, [PSYB10H3](#) and [PSYB55H3](#)) offer more flexibility than others.

Students may wish to take PSY courses at UTSG or UTM to satisfy part of their program requirements. UTSG and UTM courses at the 100-, 200-, 300-, and 400-level of study correspond to our courses at the A-, B-, C- and D-level. However, there are important exceptions to this (e.g., a 300-level course at UTSG, which is comparable to a C-level course at UTSC, may not be used to satisfy a D-level program requirement, even if it is listed as an exclusion to a D-level course). As such, we encourage you to consult the list of established equivalences as appropriate listed on the [Department of Psychology - Course Equivalences](#) website, and to direct any questions about taking program requirements at the other UofT campuses to the Undergraduate Program Administrator in the Department of Psychology.

The Department offers rich opportunities to get actively involved in the research process and in some cases to receive course credit, for example: [PSYB90H3](#), [PSYC90H3](#), and [PSYD98Y3](#). Supervised study and thesis courses are highly competitive and are essential for students interested in pursuing research-based graduate studies. Interested students should review the prerequisites for these courses and plan their course of study accordingly. The Specialist programs are particularly well suited for pursuing a thesis, for example, [PSYD98Y3](#), given their program requirements. Interested Majors may discuss this option with the Department of Psychology Advisors provided that they meet the other prerequisites. Students are encouraged to visit the [Department of Psychology](#) website and contact faculty members to search for opportunities.

While your coursework is an integral piece of your education, it can and should be supplemented by relevant co-curricular and extra-curricular experiences, more information is available on the [Career & Co-Curricular Learning Network](#) website. There are valuable professional development resources in our department and on our campus (e.g., [Academic Advising and Career Centre](#)), as well as opportunities to volunteer or work on- or off-campus to broaden your skillset (e.g., clinical work exposure, leadership skills). For more information on some of these opportunities, please see the [Department of Psychology](#) website.

Courses in Psychology

Enrolment controls exist for all PSY C- and D-level courses, and some B-level courses. Eligibility is based on current program enrolment. Refer to the [timetable](#) for this information.

Prerequisites: Students are responsible for ensuring that they have successfully completed the prerequisites for all PSY courses they register in. Students who register for courses in which they have not completed the prerequisites will be removed. Please consult with the Undergraduate Program Administrator immediately if you have petitioned for an exam deferral or have a Standing Deferred (SDF) status in a prerequisite course.

D-level enrolment: Students in a Specialist program in Psychology, Mental Health Studies, or Neuroscience, or in a Double Major in Psychology/Mental Health Studies and Neuroscience, may complete a maximum of 1.0 PSY/NRO D-level credits. Students in a single Major program in Psychology, Mental Health Studies, or Neuroscience may complete a maximum of 0.5 PSY/NRO D-level credits. Students in the Minor Program in Psychology are not eligible for enrollment in PSY/NRO D-level courses. Students will be refused from any PSY/NRO D-levels beyond this limit. [PSYD98Y3](#) and [NROD98Y3](#) are exempt from the above requirements and do not count toward the D-level limit. Full information about PSY/NRO D-level courses can be found [here](#).

Program Combination Restrictions in Psychology

Students may select only one program from either Psychology or Mental Health Studies. No combination of Psychology and/or Mental Health Studies programs are permitted, including any combinations with the Minor in Psychology.

Courses in Psycholinguistics

The Department of Linguistics offers a number of courses in psycholinguistics that are appropriate for a program in psychological science. Accordingly, up to 1.0 credits from the list below may be used as Psychology courses to fulfill Psychology program requirements.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course CTLB03H3, which can be found in the Teaching and Learning section of the *Calendar*.

Double Degree Programs

DOUBLE DEGREE: HONOURS BA, SPECIALIST PROGRAM IN ENGLISH / HONOURS BSc, SPECIALIST PROGRAM IN PSYCHOLOGY

This Double Degree program creates an accelerated pathway for students who would otherwise have to complete two separate Specialist programs and two separate degrees. It will provide students with a thorough, interdisciplinary education in both literary studies and Psychology. The Double Degree program takes advantage of existing synergies to allow students to complete both undergraduate programs and degrees within five years, without compromising on the core requirements of either program.

Enrolment Requirements

Enrolment in the Double Degree is limited.

Admission will require: (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and (b.) completion of Grade 12 U/M high school biology or equivalent (or BIOA12H3 or equivalent), and (c.) completion of a minimum of 4.0 credits, including ENGA01H3, ENGA02H3, PSYA01H3, and PSYA02H3, and (d.) a final grade of 75% or higher in both PSYA01H3 and PSYA02H3.

Students should apply to the program before they have completed 7.5 credits; however, students who have completed between 7.5 and 10.0 credits may apply to the program on a case-by-case basis by petitioning the program supervisor. Students who have completed more than 10.0 credits may not apply to the program. Application for admission will be made to the Office of the Registrar through ACORN in March/April and June/July.

Program Requirements

This program requires the completion of 25.0 credits, including at least 7.0 credits at the C-level and at least 3.5 credits at the D-level.

Psychology Courses (10.5 credits)

1. Introduction to Psychology (1.0 credit):

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

2. Laboratory Methods (1.5 credits):

PSYB70H3 Methods in Psychological Science

PSYC70H3 Advanced Research Methods Laboratory

and 0.5 credit from among the following:

- PSYC71H3 Social Psychology Laboratory

- PSYC72H3 Developmental Psychology Laboratory

- PSYC74H3 Human Movement Laboratory

- PSYC75H3 Cognitive Psychology Laboratory

- PSYC76H3 Brain Imaging Laboratory

3. Statistical Methods (1.0 credit):

PSYB07H3 Data Analysis in Psychology

[PSYC08H3 Advanced Data Analysis in Psychology or PSYC09H3 Applied Multiple Regression in Psychology]

4. PSYC02H3 Scientific Communication in Psychology (0.5 credit)

5. PSYC01H3/(PSYC85H3) History of Psychology (0.5 credit)

6. Breadth in Psychology at the B-level and C-level (4.0 credits):

Students are required to take 2.0 credits at the B- or C-level from each of the content groups listed below:

(a) Social and Developmental (PSY courses listed in the 10- and 20-series)

(b) Perception, Cognition and Physiology (PSY courses listed in the 50- and 60-series)

7. Seminars in Psychology at the D-level (1.0 credit):

Students must take 0.5 credit from each grouping below:

(a) Social and Developmental (PSY courses listed in the 10- and 20-series)

(b) Perception, Cognition and Physiology (PSY courses listed in the 50- and 60-series)

8. Additional 1.0 credit in Psychology at the B- or C-level (1.0 credit)

Of the 1.0 credit, at least 0.5 credit must be at the C-level. Supervised study courses [PSYC90H3 or PSYC93H3] may be used to fulfill a maximum of 0.5 credit.

English Courses (10.0 credits)

Of the 10.0 credits, at least 3.0 credits must be at the C-level and 1.5 credits at the D-level.

1. All of the following (2.5 credits):

ENGA01H3 What is Literature?

ENGA02H3 Critical Writing About Literature

ENGB27H3 Charting Literary History I

ENGB28H3 Charting Literary History II

ENG15H3 Introduction to Literary Theory and Criticism

2. 1.0 additional credits from courses whose content is pre-1900 (1.0 credit)

*See the English Course List for pre-1900 courses

3. 0.5 additional credit in Indigenous Literatures of Turtle Island (0.5 credit)

*See the English Course List for courses in Indigenous Literatures of Turtle Island

4. 0.5 credit in Canadian Literature (0.5 credit)

*See the English Course List for courses in Canadian Literature

5. 5.5 additional credits in ENG or FLM courses (5.5 credits)

Notes:

- (1.) Students may count no more than one of the following courses towards the Specialist requirements: ENGB35H3 Children's Literature, (ENGB36H3) Detective Fiction, (ENGB41H3) Science Fiction.
- (2.) The following courses do not count towards any English programs: ENG100H, ENG185Y.

Additional Psychology/English Courses (2.0 credits)

Students must complete a further 2.0 credits. Courses selected to complete this component can be in either English or Psychology or a combination of the two.

1. 1.0 credit at the C- or D-level in PSY and/or ENG courses**2. Capstone Requirement (1.0 credit)**

Students must choose one of the options listed below:

- ENGD26Y3 Independent Studies in Creative Writing: Poetry
ENGD27Y3 Independent Studies in Creative Writing: Prose
ENGD28Y3 Independent Studies in Creative Writing: Special Topics
ENGD98Y3 Senior Essay and Capstone Seminar
PSYD98Y3 Thesis in Psychology

Psychology Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE / MASTER OF SOCIAL WORK

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) with the Master of Social Work (MSW) offered by the Factor-Inwentash Faculty of Social Work allow exceptional students who are registered in the UTSC Specialist or Specialist Co-op programs in Mental Health Studies to apply during Year 3 of their studies, and be considered, for admission to the FIFSW Master's program in Social Work. These CDPs offer a rich intellectual pathway for exceptional undergraduate students by providing access to social work research before the completion of the undergraduate degree, and give students an opportunity to become equipped for evidence-informed social work practice, through a research course in Year 4 with a FIFSW co-supervisor.

Contact Information:

Department of Psychology

Email: psychology-undergraduate@utsc.utoronto.ca

Combined Degree Programs options are:

- Mental Health Studies (Specialist), Honours Bachelor of Science/ Master of Social Work
- Mental Health Studies (Specialist Co-op), Honours Bachelor of Science/ Master of Social Work

Application Process:

- Applicants must apply to the HBSc program, the MSW program, and the CDP.
- Qualified students in Year 3 of their HBSc program can apply to the MSW program; those accepted will receive a conditional offer to start the MSW program upon completion of their HBSc program and degree requirements.

Minimum Admission Requirements:

- Applicants must meet the admission requirements of the HBSc program, the School of Graduate Studies, and the MSW program.
- Applicants to the HBSc program must:
 - be enrolled full-time and in good standing;
 - have a B+ average (CGPA of 3.3) or higher in Year 2;

- carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer).
- Applicants to the MSW program must:
 - maintain a B+ average (CGPA of 3.3) or higher in Year 3 and Year 4 of their HBSc program;
 - complete the requirements of their HBSc program;
 - be conferred with the HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBSc degree requirements:
 - students must complete all HBSc program requirements and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MSW program and the CDP and may be offered conditional admission;
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete 1.5 credits as follows:
 - PSYD98Y3 Thesis in Psychology, under the supervision of a UTSC Psychology faculty member in consultation with a FIFSW faculty member (1.0 credit);
 - PSYD37H3 The Social Context of Mental Health and Illness, which will be taught by a FIFSW faculty member (0.5 credit).
 - by the end of Year 4, fulfill the HBSc program requirements and HBSc degree requirements.
- Year 5 to 6: MSW program and degree requirements:
 - MSW Year 1:
 - conditions of admission are removed;
 - students must complete 4.0 credits (see the School of Graduate Studies Calendar: [Specialist](#) or [Specialist Co-op](#));
 - students must complete the Year 1 practicum (SWK 4701H)
 - by the end of Year 1 of the MSW program, students must select one of the following fields of specialization: Children and Their Families, Gerontology, Health and Mental Health; Social Justice and Diversity, Social Service Administration
 - MSW Year 2:
 - students must complete 1.0 credits in elective courses;
 - students must complete the Year 2 practicum (SWK 4702Y);
 - students must complete additional courses in their chosen field of specialization (see the School of Graduate Studies Calendar: [Specialist](#) or [Specialist Co-op](#))

SPECIALIST PROGRAM IN MENTAL HEALTH STUDIES (SCIENCE) - SCSPE1160M

Enrolment Requirements

Enrolment in the Program is limited. Admission will require:

- (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and
- (b.) completion of Grade 12 U/M high school biology or equivalent (or [BIOA12H3](#) or equivalent), and
- (c.) completion of a minimum of 4.0 credits, including 1.0 credit in Psychology, and
- (d.) either (1) a final grade of 75% or higher in both [PSYA01H3](#) and [PSYA02H3](#), or (2) a final grade of 64% or higher in both [PSYA01H3](#) and [PSYA02H3](#), and a final grade of 72% or higher in [PSYB07H3](#) or equivalent] and [PSYB70H3](#).

Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the [Office of the Registrar](#) website.

Program Requirements

The program requires completion of 12.5 credits as follows, including at least 4.0 credits at the C- or D-level, of which at least 1.0 must be at the D-level:

1. Introductory Psychology (1.0 credit)PSYA01H3 Introduction to Biological and Cognitive PsychologyPSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology**2. Laboratory Methods (1.5 credit)**PSYB70H3 Methods in Psychological SciencePSYC37H3 Psychological AssessmentPSYC70H3 Advanced Research Methods Laboratory**3. MAJOR (CO-OPERATIVE) PROGRAM IN MENTAL HEALTH STUDIES (SCIENCE) - SCMAJ1160N

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) in Mental Health Studies is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Mental Health upon graduation.

Enrolment in the Program is limited. Admission will require:

- (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and
- (b.) completion of Grade 12 U/M high school biology or equivalent (or [BIOA12H3](#) or equivalent), and
- (c.) completion of a minimum of 4.0 credits, including 1.0 credit in Psychology, and
- (d.) a cumulative GPA of at least 2.5, and
- (e.) either (1) a final grade of 67% or higher in both of [PSYA01H3](#) and [PSYA02H3](#), or (2) a final grade of 60% or higher in both of [PSYA01H3](#) and [PSYA02H3](#), and a final grade of 72% or higher in two B-level psychology courses.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:**Credits:** Minimum of 4.0 credits to a maximum of 10.0 credits.**Required Courses:** Program-specific courses described in the Enrolment Requirements above.**Cumulative GPA:** 2.50**Current Co-op Students**

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:**Credits:** 4.0 credits**Required Courses:** Program-specific courses described in the Enrolment Requirements above**Cumulative GPA:** 2.50 or higher across all attempted courses**Academic Program Requirements**

Students must complete the program requirements as described in the Major in Mental Health Studies.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that PSYB07H3, PSYB32H3, PSYB55H3, and PSYB70H3 be completed before the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- **COPC01H3** (First work term)
- **COPC02H3** (Second work term)
- **COPC03H3** (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN MENTAL HEALTH STUDIES (SCIENCE) - SCSPE1160N

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Mental Health Studies is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Mental Health upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Program is limited. Admission will require:

- (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and
- (b.) completion of Grade 12 U/M high school biology or equivalent (or BIOA12H3 or equivalent), and
- (c.) completion of a minimum of 4.0 credits, including 1.0 credit in Psychology, and
- (d.) a cumulative GPA of at least 2.75, and
- (e.) either: (1) a final grade of 75% or higher in both PSYA01H3 and PSYA02H3, or (2) a final grade of 64% or higher in both PSYA01H3 and PSYA02H3, and a final grade of 72% or higher in [PSYB07H3 or equivalent] and PSYB70H3.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:**Credits:** Minimum of 4.0 credits to a maximum of 10.0 credits.**Required Courses:** Program-specific courses described in the Enrolment Requirements above.**Cumulative GPA:** 2.50**Current Co-op Students**

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:**Credits:** 4.0 credits**Required Courses:** Program-specific courses described in the Enrolment Requirements above**Cumulative GPA:** 2.50 or higher across all attempted courses.**Planning Your Co-op Work Terms & Academics**

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Academic Program Requirements

The program requires completion of 12.5 credits as follows, including at least 4.0 credits at the C- or D-level, of which at least 1.0 credit must be at the D-level:

1. Introduction to Psychology (1.0 credit)PSYA01H3 Introduction to Biological and Cognitive PsychologyPSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology**2. Laboratory Methods (2.0 credits)**PSYB70H3 Methods in Psychological SciencePSYC37H3 Psychological AssessmentPSYC70H3 Advanced Research Methods LaboratoryPSYC73H3 Wellness and Resilience Laboratory**3. Required Work Term Courses:

- [COPC01H3](#) (First work term)
- [COPC02H3](#) (Second work term)
- [COPC03H3](#) (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- [COPC04H3](#) (Fourth work term)
- [COPC05H3](#) (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

SPECIALIST PROGRAM IN PSYCHOLOGY (SCIENCE) - SCSPE1160

Enrolment Requirements

Enrolment in the Program is limited. Admission will require:

- completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and
- completion of Grade 12 U/M high school biology or equivalent (or [BIOA12H3](#) or equivalent), and
- completion of a minimum of 4.0 credits, including 1.0 credit in Psychology, and
- either (1) a final grade of 75% or higher in both [PSYA01H3](#) and [PSYA02H3](#), or (2) a final grade of 64% or higher in both [PSYA01H3](#) and [PSYA02H3](#), and a final grade of 72% or higher in [[PSYB07H3](#) or equivalent] and [PSYB70H3](#).

Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the [Office of the Registrar](#) website.

Program Requirements

The Program requires completion of 12.5 credits, including at least 4.0 credits at the C- or D-level, of which at least 1.0 credit must be at the D-level:

1. Introduction to Psychology (1.0 credit)

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

2. Laboratory Methods (1.5 credits)

PSYB70H3 Methods in Psychological Science

PSYC70H3 Advanced Research Methods Laboratory
and

0.5 credit from among the following:

PSYC71H3 Social Psychology Laboratory

PSYC72H3 Developmental Psychology Laboratory

PSYC74H3 Human Movement Laboratory

PSYC75H3 Cognitive Psychology Laboratory

PSYC76H3 Brain Imaging Laboratory

3. Statistical Methods (1.0 credit)

PSYB07H3 Data Analysis in Psychology

[PSYC08H3 Advanced Data Analysis in Psychology or PSYC09H3 Applied Multiple Regression in Psychology]

4. PSYC02H3 Scientific Communication in Psychology (0.5 credit)

5. PSYC01H3/(PSYC85H3) History of Psychology (0.5 credit)

6. Breadth in Psychology at the B-level and C-level (4.0 credits)

Students are required to take 2.0 credits at the B- or C-level from each of the content groups listed below:

(a) Social and Developmental (courses listed in the 10- and 20-series)

(b) Perception, Cognition and Physiology (courses listed in the 50- and 60-series)

7. Seminars in Psychology at the D-level (1.0 credit)

All PSY D-level courses are considered "seminars", with the exception of PSYD98Y3. Students must take 0.5 credit from each grouping below:

(a) Social and Developmental (courses listed in the 10- and 20-series)

(b) Perception, Cognition and Physiology (courses listed in the 50- and 60-series)

8. Additional credits in Psychology at the B-level or higher (3.0 credits)

Of the 3.0 credits, at least 1.0 credit must be at the C-level. Supervised study [PSYB90H3 or PSYC90H3 or PSYC93H3] or thesis [PSYD98Y3] courses may be used to fulfill a maximum of 0.5 credit.

SPECIALIST (CO-OPERATIVE) PROGRAM IN PSYCHOLOGY (SCIENCE) - SCSPE1160A

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Specialist (Co-op) Program in Psychology is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Psychology upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Program is limited. Admission will require:

- (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and
- (b.) completion of Grade 12 U/M high school biology or equivalent (or BIOA12H3 or equivalent), and
- (c.) completion of a minimum of 4.0 credits, including 1.0 credit in Psychology, and
- (d.) a cumulative GPA of at least 2.75, and
- (e.) either (1) a final grade of 75% or higher in both PSYA01H3 and PSYA02H3, or (2) a final grade of 64% or higher in both PSYA01H3 and PSYA02H3, and a final grade of 72% or higher in [PSYB07H3 or equivalent] and PSYB70H3.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

The program requires students to complete a total of 12.5 credits, including at least 4.0 credits at the C- or D-level, of which at 1.0 credit must be at the D-level:

1. Introduction to Psychology (1.0 credit)

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

2. Laboratory Methods (1.5 credits)

PSYB70H3 Methods in Psychological Science

PSYC70H3 Advanced Research Methods Laboratory

and 0.5 credit from among the following:

PSYC71H3 Social Psychology Laboratory

PSYC72H3 Developmental Psychology Laboratory

PSYC74H3 Human Movement Laboratory

PSYC75H3 Cognitive Psychology Laboratory

PSYC76H3 Brain Imaging Laboratory

3. Statistical Methods (1.0 credit)

PSYB07H3 Data Analysis in Psychology

[PSYC08H3 Advanced Data Analysis in Psychology or PSYC09H3 Applied Multiple Regression in Psychology]

4. PSYC02H3 Scientific Communication in Psychology (0.5 credit)

5. PSYC01H3/(PSYC85H3) History of Psychology (0.5 credit)

6. Breadth in Psychology at the B-level and C-level (4.0 credits)

Students are required to take 2.0 credits at the B- or C-level from each of the content groups listed below:

- (a) Social and Developmental (courses listed in the 10- and 20-series)
- (b) Perception, Cognition and Physiology (courses listed in the 50- and 60-series)

7. Seminars in Psychology at the D-level (1.0 credit)

All PSY D-level courses are considered "seminars", with the exception of PSYD98Y3. Students must take 0.5 credit from each grouping below:

- (a) Social and Developmental (courses listed in the 10- and 20-series)
- (b) Perception, Cognition and Physiology (courses listed in the 50- and 60-series)

8. Additional credits in Psychology at the B-level or higher (3.0 credits)

Of the 3.0 credits, at least 1.0 credit must be at the C-level. Supervised study [PSYB90H3 or PSYC90H3 or PSYC93H3] or thesis [PSYD98Y3] courses may be used to fulfill a maximum of 0.5 credit.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that PSYB07H3, PSYB70H3, and 1.0 additional PSY B-level credits be completed before the first work term, and PSYC02H3, [PSYC08H3 or PSYC09H3], and PSYC70H3 be completed before the second work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- **COPC04H3** (Fourth work term)
- **COPC05H3** (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MAJOR PROGRAM IN MENTAL HEALTH STUDIES (SCIENCE) - SCMAJ1160M

Enrolment in the Program is limited. Admission will require:

- (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and
- (b.) completion of Grade 12 U/M high school biology or equivalent (or [BIOA12H3](#) or equivalent), and
- (c.) completion of a minimum of 4.0 credits, including 1.0 credit in Psychology, and
- (d.) either (1) a final grade of 67% or higher in both of [PSYA01H3](#) and [PSYA02H3](#), or (2) a final grade of 60% or higher in both of [PSYA01H3](#) and [PSYA02H3](#), and a final grade of 72% or higher in two B-level psychology courses.

Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the [Office of the Registrar](#) website.

Program Requirements

The program requires 7.0 credits, of which at least 2.0 credits must be at the C- or D-level:

1. Introduction to Psychology (1.0 credit):

[PSYA01H3](#) Introduction to Biological and Cognitive Psychology

[PSYA02H3](#) Introduction to Clinical, Developmental, Personality and Social Psychology

2. Laboratory Methods (1.0 credit):

[PSYB70H3](#) Methods in Psychological Science

[PSYC37H3](#) Psychological Assessment

3. Statistical Methods (0.5 credit):

One of:

[PSYB07H3](#) Data Analysis in Psychology

[STAB22H3](#) Statistics I

[STAB23H3](#) Introduction to Statistics for the Social Sciences

4. Personality and Clinical Psychology (1.0 credit):

[PSYB30H3](#) Introduction to Personality

[PSYB32H3](#) Introduction to Clinical Psychology

5. Psychosocial and Psychobiological Breadth (1.5 credits):

Students are required to take 1.0 credit from one group and 0.5 credit from the other group:

Psycho-Social Grouping:

[PSYB38H3](#) Introduction to Behaviour Modification
[PSYC15H3](#) Foundations in Community Psychology
[PSYC17H3](#) Meeting Minds: The Psychology of Interpersonal Interactions
[PSYC18H3](#) The Psychology of Emotion
[PSYC30H3/\(PSYC35H3\)](#) Advanced Personality Psychology
[PSYC34H3](#) Happiness and Meaning
[PSYC36H3](#) Psychotherapy
[PSYC39H3](#) Psychology and the Law
[PSYC73H3](#) Wellness and Resilience Laboratory

Psycho-Biological Grouping:

[PSYB55H3](#) Introduction to Cognitive Neuroscience
[PSYB64H3](#) Introduction to Behavioural Neuroscience
[PSYC31H3](#) Neuropsychological Assessment
[\(PSYC33H3\)](#) Neuropsychological Rehabilitation
[PSYC38H3](#) Adult Psychopathology
[PSYC62H3](#) Drugs and the Brain

6. Seminar in Psychology at the D-level (0.5 credits)

All PSY D-level courses are considered "seminars", with the exception of [PSYD98Y3](#).

7. Additional credits in Psychology at the B-level or higher (1.5 credits)

Supervised study [[PSYB90H3](#) or [PSYC90H3](#) or [PSYC93H3](#)] or thesis [[PSYD98Y3](#)] courses may be used to fulfill a maximum of 0.5 credit.

MAJOR PROGRAM IN PSYCHOLOGY (SCIENCE) - SCMAJ1160

Enrolment in the Program is limited. Admission will require:

- (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and
- (b.) completion of Grade 12 U/M high school biology or equivalent (or [BIOA12H3](#) or equivalent), and
- (c.) completion of a minimum of 4.0 credits, including 1.0 credit in Psychology, and
- (d.) either (1) a final grade of 67% or higher in both [PSYA01H3](#) and [PSYA02H3](#), or (2) a final grade of 60% or higher in both [PSYA01H3](#) and [PSYA02H3](#), and a final grade of 72% or higher in two B-level psychology courses.

Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the [Office of the Registrar](#) website.

Program Requirements

The Program requires completion of 7.0 credits, of which at least 2.0 credits must be at the C- or D-level:

1. Introduction to Psychology (1.0 credit)

[PSYA01H3](#) Introduction to Biological and Cognitive Psychology
[PSYA02H3](#) Introduction to Clinical, Developmental, Personality and Social Psychology

2. Laboratory Methods (0.5 credit)

[PSYB70H3](#) Methods in Psychological Science

3. Statistical Methods (0.5 credit)

[[PSYB07H3](#) Data Analysis in Psychology or [STAB22H3](#) Statistics I or [STAB23H3](#) Introduction to Statistics for the Social Sciences]

4. Breadth in Psychology at the B-level and C-level (2.0 credits)

Students are required to take 1.0 credits at the B- or C-level from each of the content groups listed below:

- (a) Social and Developmental (courses listed in the 10- and 20-series)
- (b) Perception, Cognition and Physiology (courses listed in the 50- and 60-series)

5. Seminar in Psychology at the D-level (0.5 credit)

All PSY D-level courses are considered "seminars", with the exception of PSYD98Y3.

6. Additional credits in Psychology at the B-level or higher (2.5 credits)

Of the 2.5 credits, at least 1.0 credit must be at the C-level. Supervised study [PSYB90H3 or PSYC90H3 or PSYC93H3] or thesis [PSYD98Y3] courses may be used to fulfill a maximum of 0.5 credit.

MAJOR (CO-OPERATIVE) PROGRAM IN PSYCHOLOGY (SCIENCE) - SCMAJ1160C

Academic Program Advisor: psychundergrad.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) in Psychology is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Psychology upon graduation.

Enrolment Requirements

Enrolment in the Program is limited. Admission will require:

- (a.) completion of any Grade 12 U/M high school math course or equivalent (or successful completion of the UTSC Online Mathematics Preparedness Course or equivalent), and
- (b.) completion of Grade 12 U/M high school biology or equivalent (or BIOA12H3 or equivalent), and
- (c.) completion of a minimum of 4.0 UTSC credits, including 1.0 credit in Psychology, and
- (d.) a cumulative GPA of at least 2.5, and
- (e.) either (1) a final grade of 67% or higher in both PSYA01H3 and PSYA02H3, or (2) a final grade of 60% or higher in both PSYA01H3 and PSYA02H3 and a final grade of 72% or higher in two B-level psychology courses.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrollment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year.

Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits.

Required Courses: Program-specific courses described in the Enrolment Requirements above.

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 or higher across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major in Psychology.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. It is recommended that PSYB07H3, PSYB70H3, and an additional 1.0 PSY B-level credits be completed before the first work term. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB54H3/(COPB51H3)

Work Term Search Courses:

- COPB55H3/(COPB52H3) (Completed in the semester prior to the first work term)
- COPC98H3 (Taken in the semester prior to the second work term)
- COPC99H3 (Taken in the semester prior to the third work term)

Required Work Term Courses:

- COPC01H3 (First work term)
- COPC02H3 (Second work term)
- COPC03H3 (Third work term)

Additional Work Terms & Courses:

After successful completion of the three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 (Fourth work term)
- COPC05H3 (Fifth work term)

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MINOR PROGRAM IN PSYCHOLOGY (SCIENCE) - SCMIN1160

Enrolment in the Program is limited. Admission will require:

- (a.) completion of a minimum of 4.0 credits, including 1.0 credit in Psychology, and
- (b.) a final grade of 60% or higher in both PSYA01H3 and PSYA02H3.

Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the Office of the Registrar website.

Program Requirements

The Program requires completion of 4.0 credits, of which 1.0 credit must be at the C-level:

1. Introduction to Psychology (1.0 credit):

PSYA01H3 Introduction to Biological and Cognitive Psychology

PSYA02H3 Introduction to Clinical, Developmental, Personality and Social Psychology

2. Laboratory Methods (0.5 credit):

PSYB70H3 Methods in Psychological Science

3. Statistical Methods (0.5 credit):

[PSYB07H3 Data Analysis in Psychology or STAB22H3 Statistics I or STAB23H3 Introduction to Statistics for the Social Sciences]

4. Breadth in Psychology at the B-level: One course from each grouping (1.0 credit):

- (a) Social, Developmental, Personality and Clinical (courses listed in the 10-, 20-, 30-, or 80-series);
- (b) Perception, Cognition and Physiology (courses listed in the 50- or 60-series);

5. Breadth in Psychology at the C-level (1.0 credit).

Note: Students in the Psychology Minor Program are permitted to take 1.0 credits of PSY C-level courses. Additional enrollment beyond this limit may be permitted if space permits. Students in the Psychology Minor Program are not typically permitted to enroll in any PSY D-level courses.

Psychology Courses

PSYA01H3 - Introduction to Biological and Cognitive Psychology

This course provides a general overview of topics including research techniques in psychology, evolutionary psychology, the biology of behaviour, learning and behaviour, sensation, perception, memory and consciousness. The most influential findings from each of these areas will be highlighted.

Exclusion: PSY100H, PSY100Y

Breadth Requirements: Natural Sciences

Course Experience: Partnership-Based Experience

PSYA02H3 - Introduction to Clinical, Developmental, Personality and Social Psychology

This course provides a general overview of topics including language, intelligence, development, motivation and emotion, personality, social psychology, stress,

mental disorders and treatments of mental disorders. The most influential findings from each of these areas will be highlighted.

Exclusion: PSY100H, PSY100Y

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

PSYB03H3 - Introduction to Computers in Psychological Research

The course will provide introductory knowledge and hands-on training in computer-based implementations of experimental design, data processing and result interpretation in psychology. The course covers implementations of experimental testing paradigms, computational explorations of empirical data structure and result visualization with the aid of specific programming tools (e.g., Python).

Prerequisite: PSYA01H3 and PSYA02H3

Corequisite: PSYB07H3 or STAB22H3 or STAB23H3

Breadth Requirements: Quantitative Reasoning

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Psychology,

Mental Health Studies, and Neuroscience - Cognitive stream. Students in the Major/Major Co-op programs in Psychology and Mental Health Studies will be admitted as space permits.

PSYB07H3 - Data Analysis in Psychology

This course focuses on the fundamentals of the theory and the application of statistical procedures used in research in the field of psychology. Topics will range from descriptive statistics to simple tests of significance, such as Chi-Square, t-tests, and one-way Analysis-of-Variance. A working knowledge of algebra is assumed.

Exclusion: (ANTC35H3), LINB29H3, MGE11H3/(ECMB11H3), MGE12H3/(ECMB12H3), PSY201H, (SOCB06H3), STAB22H3, STAB23H3, STAB52H3, STA220H, STA221H, STA250H, STA257H

Breadth Requirements: Quantitative Reasoning

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology, Mental Health Studies, Neuroscience, and Paramedicine. Students in the Minor program in Psychology will be admitted as space permits.

PSYB10H3 - Introduction to Social Psychology

Surveys a wide range of phenomena relating to social behaviour.

Social Psychology is the study of how feelings, thoughts, and behaviour are influenced by the presence of others. The course is designed to explore social behaviour and to present theory and research that foster its understanding.

Prerequisite: PSYA01H3 and PSYA02H3

Exclusion: PSY220H

Breadth Requirements: Social and Behavioural Sciences

PSYB20H3 - Introduction to Developmental Psychology

Developmental processes during infancy and childhood. This course presents students with a broad and integrative overview of child development. Major theories and research findings will be discussed in order to understand how the child changes physically, socially, emotionally, and cognitively with age. Topics are organized chronologically beginning with prenatal development and continuing through selected issues in adolescence and life-span development.

Prerequisite: PSYA01H3 and PSYA02H3

Exclusion: PSY210H

Breadth Requirements: Social and Behavioural Sciences

PSYB30H3 - Introduction to Personality

This course is intended to introduce students to the scientific study of the whole person in biological, social, and cultural contexts. The ideas of classical personality theorists will be discussed in reference to findings from contemporary personality research.

Prerequisite: PSYA01H3 and PSYA02H3

Exclusion: PSY230H

Breadth Requirements: Social and Behavioural Sciences

PSYB32H3 - Introduction to Clinical Psychology

Clinical psychology examines why people behave, think, and feel in unexpected, sometimes bizarre, and typically self-defeating ways. This course will focus on the ways in which clinicians have been trying to learn the causes of various clinical disorders and what they know about preventing and alleviating it.

Prerequisite: PSYA01H3 and PSYA02H3

Exclusion: PSY240H, PSY340H

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

PSYB38H3 - Introduction to Behaviour Modification

An introduction to behaviour modification, focusing on attempts to regulate human behaviour. Basic principles and procedures of behaviour change are examined, including their application across different domains and populations. Topics include operant and respondent conditioning; reinforcement; extinction; punishment; behavioural data; ethics; and using behaviourally-based approaches (e.g., CBT) to treat psychopathology.

Prerequisite: PSYA01H3 and PSYA02H3

Exclusion: PSY260H1, (PSYB45H3)

Breadth Requirements: Social and Behavioural Sciences

PSYB51H3 - Introduction to Perception

Theory and research on perception and cognition, including visual, auditory and tactile perception, representation, and communication. Topics include cognition and perception in the handicapped and normal perceiver; perceptual illusion, noise, perspective, shadow patterns and motion, possible and impossible scenes, human and computer scene-analysis, ambiguity in perception, outline representation. The research is on adults and children, and different species. Demonstrations and exercises form part of the course work.

Prerequisite: [PSYA01H3](#) and [PSYA02H3](#)

Exclusion: [NROC64H3](#), [PSY280H1](#)

Breadth Requirements: Natural Sciences

PSYB55H3 - Introduction to Cognitive Neuroscience

The course explores how the brain gives rise to the mind. It examines the role of neuroimaging tools and brain-injured patients in helping to uncover cognitive networks. Select topics include attention, memory, language, motor control, decision-making, emotion, and executive functions.

Prerequisite: [PSYA01H3](#) and [PSYA02H3](#)

Exclusion: [PSY493H1](#)

Breadth Requirements: Natural Sciences

PSYB57H3 - Introduction to Cognitive Psychology

A discussion of theories and experiments examining human cognition. This includes the history of the study of human information processing and current thinking about mental computation. Topics covered include perception, attention, thinking, memory, visual imagery, language and problem solving.

Prerequisite: [PSYA01H3](#) and [PSYA02H3](#)

Exclusion: [PSY270H](#)

Breadth Requirements: Natural Sciences

PSYB64H3 - Introduction to Behavioural Neuroscience

A survey of the biological mechanisms underlying fundamental psychological processes intended for students who are not in a Neuroscience program. Topics include the biological basis of motivated behaviour (e.g., emotional, ingestive, sexual, and reproductive behaviours; sleep and arousal), sensory processes and attention, learning and memory, and language.

Prerequisite: [PSYA01H3](#) and [PSYA02H3](#)

Exclusion: [NROC61H3](#), [PSY290H](#)

Breadth Requirements: Natural Sciences

PSYB70H3 - Methods in Psychological Science

This course focuses on scientific literacy skills central to effectively consuming and critiquing research in psychological science. Students will learn about commonly used research designs, how to assess whether a design has been applied correctly, and whether the conclusions drawn from the data are warranted. Students will also develop skills to effectively find and consume primary research in psychology.

Prerequisite: [PSYA01H3](#) and [PSYA02H3](#)

Exclusion: [PSY203H1](#), [\(PSYB01H3\)](#), [\(PSYB04H3\)](#)

Breadth Requirements: Social and Behavioural Sciences

PSYB80H3 - Psychology in Context

This course builds upon foundational concepts from Introduction to Psychology and examines the field of psychological science from a critical perspective. Students will explore the contextual underpinnings of the field and learn about current debates and challenges facing various subfields of psychology. Specific topics will vary by term according to the interests and expertise of the course instructor and guest lecturers. Examination of these topics will include considerations such as bias in the sciences, demographic representation in participant pools, methodological diversity, replicability, and ecological validity.

Prerequisite: [PSYA01H3](#), [PSYA02H3](#)

Recommended Preparation: [PSYB70H3](#)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op, Major/Major Co-op and Minor programs in Psychology, Mental Health Studies, and Neuroscience. This course uses a Credit/No Credit (CR/NCR) grading scheme.

PSYB83H3 - Psychology and Videogames

This course will use videogames as a framework for exploring key concepts and findings in psychology, drawing on both player experiences and research findings. We will survey topics from cognitive, clinical, social, personality, and developmental psychology including intersection points between disciplines. We will also explore cross-cutting issues related to research methods, ethics, diversity, and representation.

Prerequisite: [PSYA01H3](#)

Corequisite: [PSYA02H3](#)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the "Psychology & Health Studies" admission category. Students in other admission categories will be admitted as space permits.

PSYB90H3 - Supervised Introductory Research in Psychology

This course provides an introduction to, and experience in, ongoing theoretical and empirical research in any field of psychology. Supervision of the work is arranged by mutual agreement between student and instructor. Students will typically engage in an existing research project within a supervisor's laboratory. Regular consultation with the supervisor is necessary, which will

enhance communication skills and enable students to develop proficiency in speaking about scientific knowledge with other experts in the domain. Students will also develop documentation and writing skills through a final report and research journal. This course requires students to complete a permission form obtained from the Department of Psychology. This form must outline agreed-upon work that will be performed, must be signed by the intended supervisor, and returned to the Department of Psychology.

Prerequisite: [PSYA01H3 and PSYA02H3 with at least an 80% average across both courses] and [a minimum of 4.0 credits [including PSYA01H3 and PSYA02H3] in any discipline, with an average cGPA of 3.0] and [a maximum of 9.5 credits completed] and [enrolment in a Psychology, Mental Health Studies, Neuroscience or Psycholinguistics program].

Exclusion: ROP299Y and LINB98H3

Recommended Preparation: B-level courses in Psychology or Psycholinguistics

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Students receive a half credit spread across two-terms; therefore, the research in this course must take place across two consecutive terms. Priority will be given to students in the Specialist and Major programs in Psychology and Mental Health Studies, followed by students in the Specialist and Major programs in Neuroscience and Psycholinguistics. Enrolment will depend each year on the research opportunities available with each individual faculty member and the interests of the students who apply.

PSYC01H3 - History of Psychology

A survey of developments in Western philosophy and science which influenced the emergence of modern psychology in the second half of the Nineteenth Century. Three basic problems are considered: mind-body, epistemology (science of knowledge), and behaviour/motivation/ethics. We begin with the ancient Greek philosophers, and then consider the contributions of European scholars from the Fifteenth through Nineteenth Centuries. Twentieth Century schools are discussed including: psychoanalysis, functionalism, structuralism, gestalt, behaviourism, and phenomenology.

Prerequisite: [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [1.0 additional credit at the B-level in PSY courses]

Exclusion: (PSYC85H3), PSY450H

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: Partnership-Based Experience

Note: Priority will be given to third- and fourth-year students in the Specialist/Specialist Co-op programs in Psychology and Mental Health Studies.

Third- and fourth-year students in the Major/Major Co-op programs in Psychology and Mental Health Studies will be admitted as space permits.

PSYC02H3 - Scientific Communication in Psychology

How we communicate in psychology and why. The differences between scientific and non-scientific approaches to behaviour and their implications for communication are discussed. The focus is on improving the student's ability to obtain and organize information and to communicate it clearly and critically, using the conventions of the discipline.

Prerequisite: [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Psychology, Mental Health Studies, and Neuroscience (Cognitive stream), and the Specialist Co-op program in Neuroscience (Stage 1). Students in the Major/Major Co-op programs in Psychology and Mental Health Studies will be admitted as space permits.

PSYC03H3 - Computers in Psychological Research: Advanced Topics

The course will provide advanced knowledge and hands-on training in computer-based implementations of experimental design, data processing and result interpretation in psychology. The course covers implementations of experimental testing paradigms, computational explorations of empirical data structure, and result visualization with the aid of specific programming tools (e.g., Python).

Prerequisite: PSYB03H3

Breadth Requirements: Quantitative Reasoning

Note: Priority will be given to students in the Specialist/Specialist Co-op programs Psychology, Mental Health Studies, and Neuroscience - Cognitive stream. Students in the Major/Major Co-op programs in Psychology and Mental Health Studies will be admitted as space permits.

PSYC08H3 - Advanced Data Analysis in Psychology

The primary focus of this course is on the understanding of Analysis-of-Variance and its application to various research designs. Examples will include *a priori* and *post hoc* tests. Finally, there will be an introduction to multiple regression, including discussions of design issues and interpretation problems.

Prerequisite: [PSYB07H3 or STAB23H3 or STAB22H3] and PSYB70H3

Exclusion: (STAC52H3), PSY202H

Breadth Requirements: Quantitative Reasoning

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Psychology, Mental Health Studies, Neuroscience, and Paramedicine. Students in the Major/Major Co-op programs in Psychology, Mental Health Studies, and Neuroscience will be permitted if space permits.

PSYC09H3 - Applied Multiple Regression in Psychology

An introduction to multiple regression and its applications in psychological research. The course covers the data analysis process from data collection to interpretation: how to deal with missing data, the testing of assumptions, addressing problem of multicollinearity, significance testing, and deciding on the most appropriate model. Several illustrative data sets will be explored in detail. The course contains a brief introduction to factor analysis. The goal is to provide the students with the skills and understanding to conduct and interpret data analysis in non-experimental areas of psychology.

Prerequisite: PSYB07H3 or STAB22H3 or STAB23H3 and PSYB70H3

Exclusion: LINC29H3, MGEC11H3

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Psychology, Mental Health Studies, Neuroscience - Cognitive stream, and Neuroscience - Stage 1. Students in the Major/Major Co-op programs in Psychology, Mental Health Studies, and Neuroscience will be permitted if space permits.

PSYC10H3 - Judgment and Decision Making

This course examines the psychology of judgment and decision making, incorporating perspectives from social psychology, cognitive psychology, and behavioral economics. Understanding these topics will allow students to identify errors and systematic biases in their own decisions and improve their ability to predict and influence the behavior of others.

Prerequisite: PSYB10H3 or PSYB57H3 or PSYC57H3 and PSYB07H3 or STAB22H3 or STAB23H3 and PSYB70H3

Exclusion: MGMD02H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC12H3 - The Psychology of Prejudice

A detailed examination of selected social psychological topics introduced in PSYB10H3. This course examines the nature of attitudes, stereotypes and prejudice, including their development, persistence, and automaticity. It also explores the impact of stereotypes on their targets, including how stereotypes are perceived and how they affect performance, attributions, and coping.

Prerequisite: PSYB10H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY322H

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC13H3 - Social Cognition: Understanding Ourselves and Others

A comprehensive survey of how cognitive processes (e.g., perception, memory, judgment) influence social behaviour. Topics include the construction of knowledge about self and others, attitude formation and change, influences of automatic and controlled processing, biases in judgment and choice, interactions between thought and emotion, and neural specializations for social cognition.

Prerequisite: PSYB10H3 or PSYB57H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY326H, PSY473H, PSY417H

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology, Mental Health Studies, and Neuroscience. Students in the Minor program in Psychology will be admitted as space permits.

PSYC14H3 - Cross-Cultural Social Psychology

A survey of the role of culture in social thought and behaviour. The focus is on research and theory that illustrate ways in which culture influences behaviour and cognition about the self and others, emotion and motivation. Differences in individualism and collectivism, independence and interdependence as well as other important orientations that differ between cultures will be discussed. Social identity and its impact on acculturation in the context of immigration will also be explored.

Prerequisite: PSYB10H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY321H

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC15H3 - Foundations in Community Psychology

Community psychology is an area of psychology that examines the social, cultural, and structural influences that promote positive change, health, and empowerment among communities and community members. This course will offer an overview of the foundational components of community psychology including its theories, research methods, and applications to topics such as community mental health, prevention programs, interventions, the community practitioner as social change agent, and applications of community psychology to other settings and situations.

Prerequisite: PSYB10H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC16H3 - Psychology of Imagination

The course will examine different aspects of imagination in a historical context, including creativity, curiosity, future-mindedness, openness to experience, perseverance, perspective, purpose, and wisdom along with its neural foundations.

Prerequisite: PSYB10H3 and [PSYB20H3 or PSYB30H3 or PSYB51H3 or PSYB55H3 or PSYB57H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC17H3 - Meeting Minds: The Psychology of Interpersonal Interactions

What happens when two (or more) minds meet—how do they interact and interconnect? Specifically, how do people “get on the same page,” and what are barriers that

might stand in the way? Guided by these questions, this course will provide a broad overview of the psychological phenomena and processes that enable interpersonal connection. We will examine the various ways that people's inner states—thoughts, feelings, intentions, and identities—connect with one another. We will study perspectives from both perceivers (i.e., how to understand others) and targets (i.e., how to be understood), at levels of dyads (i.e., how two minds become interconnected) and groups (i.e., how minds coordinate and work collectively). Throughout the course, we will consider challenges to effective interpersonal interactions, and solutions and strategies that promote and strengthen interconnection. A range of perspectives, including those from social, cognitive, personality, developmental, and cultural psychology, as well as adjacent disciplines such as communication, will be considered.

Prerequisite: PSYB10H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC18H3 - The Psychology of Emotion

What is an emotion? How are emotions experienced and how are they shaped? What purpose do emotions serve to human beings? What happens when our emotional responses go awry? Philosophers have debated these questions for centuries. Fortunately, psychological science has equipped us with the tools to explore such questions on an empirical level. Building with these tools, this course will provide a comprehensive overview of the scientific study of emotion. Topics will include how emotions are expressed in our minds and bodies, how emotions influence (and are influenced by) our thoughts, relationships, and cultures, and how emotions can both help us thrive and make us sick. A range of perspectives, including social, cultural, developmental, clinical, personality, and cognitive psychology, will be considered.

Prerequisite: [PSYB10H3 or PSYB30H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY331H, PSY494H

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC19H3 - Psychology of Self Control

A detailed examination of how organisms exercise control, bringing thoughts, emotions and behaviours into line with

preferred standards. Topics include executive function, the neural bases for self control, individual differences in control, goal setting and goal pursuit, motivation, the interplay of emotion and control, controversies surrounding fatigue and control, and decision-making.

Prerequisite: PSYB10H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC21H3 - Adulthood and Aging

An examination of topics in adult development after age 18, including an examination of romantic relationships, parenting, work-related functioning, and cognitive, perceptual, and motor changes related to aging.

Prerequisite: PSYB20H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY313H, PSY311H

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology, Mental Health Studies, Paramedicine, and Psycholinguistics. Students in the Minor program in Psychology will be admitted as space permits.

PSYC22H3 - Infancy

Infants must learn to navigate their complex social worlds as their bodies and brains undergo incredible changes. This course explores physical and neural maturation, and the development of perception, cognition, language, and social-emotional understanding in infants prenatally until preschool.

Prerequisite: PSYB20H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY316H1, PSY316H5

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC23H3 - Developmental Psychobiology

A review of the interplay of psychosocial and biological processes in the development of stress and emotion regulation. Theory and research on infant attachment, mutual regulation, gender differences in emotionality, neurobiology of the parent-infant relationship, and the impact of socialization and parenting on the development of infant stress and emotion.

Prerequisite: PSYB20H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC24H3 - Childhood and Adolescence

This advanced course in developmental psychology explores selected topics in childhood and adolescent development during school age (age 4 through age 18). Topics covered include: cognitive, social, emotional, linguistic, moral, perceptual, identity, and motor development, as well as current issues in the field as identified by the instructor.

Prerequisite: PSYB20H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY310H5

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC27H3 - Social Development

This course will examine research and theory on the evolution and development of social behaviour and social cognition with a focus on social instincts, such as empathy, altruism, morality, emotion, friendship, and cooperation. This will include a discussion of some of the key controversies in the science of social development from the second half of the nineteenth century to today.

Prerequisite: PSYB10H3 and PSYB20H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY311H

Recommended Preparation: PSYB55H3 or PSYB64H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op

programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC28H3 - Emotional Development

This course will provide students with a comprehensive understanding of the biological, cognitive, and social factors that shape emotional development in infancy and childhood. Topics covered will include theories of emotional development, the acquisition of emotion concepts, the role of family and culture in emotional development, the development of emotion regulation, and atypical emotional development. Through learning influential theories, cutting-edge methods, and the latest research findings, students will gain an in-depth understanding of the fundamental aspects of emotional development.

Prerequisite: PSYB20H3 and PSYB70H3 and [PSYB07H3 or STAB22H3 or STAB23H3]

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC30H3 - Advanced Personality Psychology

This course is intended to advance students' understanding of contemporary personality theory and research. Emerging challenges and controversies in the areas of personality structure, dynamics, and development will be discussed.

Prerequisite: PSYB30H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: (PSYC35H3), PSY337H

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC31H3 - Neuropsychological Assessment

The clinical practice of neuropsychological assessment is an *applied science* that is concerned with the behavioural expression of personality, emotional, somatic and, or brain dysfunction with an emphasis on how diversity (e.g., cultural, racial, gender, sexuality, class, religion, other aspects of identity and the intersections among these), can further mediate this relationship. The clinical neuropsychologist uses standardized tests to objectively

describe the breadth, severity and veracity of emotional, cognitive, behavioral and intellectual functioning. Inferences are made on the basis of accumulated research. The clinical neuropsychologist interprets every aspect of the examination (both quantitative and qualitative components) to ascertain the relative emotional, cognitive, behavioural and intellectual strengths and weaknesses of a patient with suspected or known (neuro)psychopathology. Findings from a neuropsychological examination can be used to make diagnoses, inform rehabilitation strategies, and direct various aspects of patient care. In this course, we will comprehensively explore the science and applied practice of neuropsychological assessment.

Prerequisite: PSYB32H3 and PSYB55H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: (PSYC32H3), (PSY393H)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor Program in Psychology will be admitted as space permits.

PSYC34H3 - The Psychology of Happiness and Meaning

The philosopher Aristotle proposed long ago that a good life consists of two core elements: happiness (hedonia) and a sense of meaning (eudaimonia). What is happiness and meaning, and how do they relate to psychological wellbeing? How do these desired states or traits change across life, and can they be developed with specific interventions? What roles do self-perception and social relationships play in these phenomena? We will focus on the conceptual, methodological, and philosophical issues underlying these questions.

Prerequisite: PSYB10H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY336H1, PSY324H5

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC36H3 - Psychotherapy

This course will provide students with an introduction to prominent behavioural change theories (i.e. psychodynamic, cognitive/behavioural, humanist/existential) as well as empirical evidence on their efficacy. The role of the therapist, the patient and the processes involved in psychotherapy in producing positive outcomes will be explored.

Prerequisite: PSYB32H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY343H

Breadth Requirements: Social and Behavioural Sciences

Note: Restricted to students in the Mental Health Studies programs.

PSYC37H3 - Psychological Assessment

This course deals with conceptual issues and practical problems of identification, assessment, and treatment of mental disorders and their psychological symptomatology. Students have the opportunity to familiarize themselves with the psychological tests and the normative data used in mental health assessments. Lectures and demonstrations on test administration and interpretation will be provided.

Prerequisite: PSYB32H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY330H

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Restricted to students in the Mental Health Studies programs.

PSYC38H3 - Adult Psychopathology

This course will provide an advanced understanding of the etiology, psychopathology, and treatment of common mental disorders in adults. Theory and research will be discussed emphasizing biological, psychological, and social domains of functioning. Cultural influences in the presentation of psychopathology will also be discussed.

Prerequisite: PSYB32H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY340H1, PSY342H1

Breadth Requirements: Social and Behavioural Sciences

Note: Restricted to students in the Mental Health Studies programs.

PSYC39H3 - Psychology and the Law

This course focuses on the application of psychology to the law, particularly criminal law including cognitive, neuropsychological and personality applications to fitness to stand trial, criminal responsibility, risk for violent and sexual recidivism and civil forensic psychology.

Prerequisite: PSYB32H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY328H, PSY344H

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies.

Students in the Minor program in Psychology will be admitted as space permits.

PSYC50H3 - Higher-Level Cognition

This course examines advanced cognitive functions through a cognitive psychology lens. Topics covered include: thinking, reasoning, decision-making, problem-solving, creativity, and consciousness.

Prerequisite: [PSYB55H3 or PSYB57H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC51H3 - Cognitive Neuroscience of Vision

This course will provide an in-depth examination of research in the field of visual cognitive neuroscience. Topics will include the visual perception of object features (shape, colour, texture), the perception of high-level categories (objects, faces, bodies, scenes), visual attention, and comparisons between the human and monkey visual systems.

Prerequisite: [PSYB51H3 or PSYB55H3 or NROC64H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY380H

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Neuroscience, and the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Major program in Neuroscience and the Minor program in Psychology will be admitted as space permits.

PSYC52H3 - Cognitive Neuroscience of Attention

This course is about understanding how the human brain collects information from the environment so as to perceive it and to interact with it. The first section of the course will look into the neural and cognitive mechanisms that perceptual systems use to extract important information from the environment. Section two will focus on how attention prioritizes information for action. Additional topics concern daily life applications of attentional research.

Prerequisite: [PSYB51H3 or NROC64H3] and [PSYB55H3 or PSYB57H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY475H

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Neuroscience, and the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Major program in Neuroscience and the Minor program in Psychology will be admitted as space permits.

PSYC53H3 - Cognitive Neuroscience of Memory

An exploration of how the brain supports different forms of memory, drawing on evidence from electrophysiological, patient neuropsychological and neuroimaging research. Topics include short-term working memory, general knowledge of the world (semantic memory), implicit memory, and memory for personally experienced events (episodic memory).

Prerequisite: [PSYB55H3](#) and [[PSYB07H3](#) or [STAB22H3](#) or [STAB23H3](#)] and [PSYB70H3](#)

Exclusion: PSY372H

Recommended Preparation: [PSYB57H3](#)

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Neuroscience, and the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Major program in Neuroscience and the Minor program in Psychology will be admitted as space permits.

PSYC54H3 - Auditory Cognitive Neuroscience

This course provides an overview of the cognitive and neural processes that underlie humans' auditory abilities. Core topics include psychoacoustics, the auditory cortex and its interconnectedness to other brain structures, auditory scene analysis, as well as special topics such as auditory disorders. Insights into these different topics will be provided from research using behavioural, neuroimaging, computational, and neuropsychological techniques.

Prerequisite: [[PSYB51H3](#) or [PSYB55H3](#) or [NROC64H3](#)] and [[PSYB07H3](#) or [STAB22H3](#) or [STAB23H3](#)] and [PSYB70H3](#)

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Neuroscience, and the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Major program in Neuroscience and the Minor program in Psychology will be admitted as space permits.

PSYC56H3 - Music Cognition

Studies the perceptual and cognitive processing involved in musical perception and performance. This class acquaints students with the basic concepts and issues involved in the understanding of musical passages. Topics will include discussion of the physical and psychological dimensions of sound, elementary music theory, pitch perception and melodic organization, the perception of rhythm and time, musical memory, musical performance, and emotion and meaning in music.

Prerequisite: [[PSYB51H3](#) or [PSYB55H3](#) or [PSYB57H3](#) or [NROC64H3](#)] and [[PSYB07H3](#) or [STAB22H3](#) or [STAB23H3](#)] and [PSYB70H3](#)

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC57H3 - Cognitive Neuroscience of Decision Making

This course will introduce students to current understanding, and ongoing debates, about how the brain makes both simple and complex decisions. Findings from single-cell neurophysiology, functional neuroimaging, and computational modeling will be used to illuminate fundamental aspects of choice, including reward prediction, value representation, action selection, and self-control.

Prerequisite: [PSYB55H3](#) and [[PSYB07H3](#) or [STAB22H3](#) or [STAB23H3](#)] and [PSYB70H3](#)

Recommended Preparation: [PSYB03H3](#)

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Neuroscience, and the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology and Major program in Neuroscience will be admitted as space permits.

PSYC59H3 - Cognitive Neuroscience of Language

This course provides an overview of the cognitive and neural processes and representations that underlie language abilities. Core topics include first language acquisition, second language acquisition and bilingualism, speech comprehension, and reading. Insights into these different abilities will be provided from research using behavioural, neuroimaging, computational, and neuropsychological techniques.

Prerequisite: [[PSYB51H3](#) or [PSYB57H3](#) or [NROC64H3](#)] and [PSYB55H3](#) and [[PSYB07H3](#) or [STAB22H3](#) or

STAB23H3] and PSYB70H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Neuroscience, and the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Specialist/Specialist Co-op program in Psycholinguistics, the Major program in Neuroscience, and the Minor program in Psychology will be admitted as space permits.

PSYC62H3 - Drugs and the Brain

An examination of behavioural and neurobiological mechanisms underlying the phenomenon of drug dependence. Topics will include principles of behavioural pharmacology and pharmacokinetics, neurobiological mechanisms of drug action, and psychotropic drug classification. In addition, concepts of physical and psychological dependence, tolerance, sensitization, and reinforcement and aversion will also be covered.

Prerequisite: [PSYB64H3 or PSYB55H3 or NROB60H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY396H, PCL475Y, PCL200H1

Breadth Requirements: Natural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology, Mental Health Studies, and Neuroscience. Students in the Minor program in Psychology will be admitted as space permits.

PSYC70H3 - Advanced Research Methods Laboratory

The course focuses on methodological skills integral to becoming a producer of psychological research. Students will learn how to identify knowledge gaps in the literature, to use conceptual models to visualize hypothetical relationships, to select a research design most appropriate for their questions, and to interpret more complex patterns of data.

Prerequisite: [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Psychology, Mental Health Studies, and Neuroscience (Cognitive stream), and the Specialist Co-op program in Neuroscience (Stage 1). Students in the Major/Major Co-op programs in Psychology and Mental Health Studies will be admitted as space permits.

PSYC71H3 - Social Psychology Laboratory

Introduces conceptual and practical issues concerning research in social psychology, and provides experience with several different types of research. This course is designed to consider in depth various research approaches used in social psychology (such as attitude questionnaires, observational methods for studying ongoing social interaction). Discussion and laboratory work.

Prerequisite: PSYB10H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYC02H3 and PSYC70H3

Exclusion: PSY329H, (PSYC11H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Psychology. Students in the Major/Major Co-op programs in Psychology and the Specialist/Specialist Co-op and Major/Major Co-op programs in Mental Health Studies will be admitted as space permits.

PSYC72H3 - Developmental Psychology Laboratory

This course introduces conceptual and practical issues concerning research in developmental psychology. Developmental psychology focuses on the process of change within and across different phases of the life-span. Reflecting the broad range of topics in this area, there are diverse research methods, including techniques for studying infant behaviour as well as procedures for studying development in children, adolescents, and adults. This course will cover a representative sample of some of these approaches.

Prerequisite: PSYB20H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYC02H3 and PSYC70H3

Exclusion: PSY319H, (PSYC26H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Psychology. Students in the Major/Major Co-op programs in Psychology and the Specialist/Specialist Co-op and Major/Major Co-op programs in Mental Health Studies will be admitted as space permits.

PSYC73H3 - Wellness and Resilience Laboratory

A widespread survey on techniques derived from clinical psychology interventions and wellness and resilience research paired with the applied practice and implementation of those techniques designed specifically for students in Mental Health Studies. Students will attend

a lecture reviewing the research and details of each technique/topic. The laboratory component will consist of interactive, hands-on experience in close group settings with a number of techniques related to emotion, stress, wellness, and resilience. These are specifically tailored for university student populations.

Prerequisite: PSYB32H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Corequisite: PSYC02H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist Co-op program in Mental Health Studies. Students in the Specialist, Major, and Major Co-op programs in Mental Health Studies will be admitted as space permits.

PSYC74H3 - Human Movement Laboratory

In this course students will be introduced to the study of human movement across a range of topics (e.g., eye-movements, balance, and walking), and will have the opportunity to collect and analyze human movement data. Additional topics include basic aspects of experimental designs, data analysis and interpretation of such data.

Prerequisite: [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Recommended Preparation: PSYC02H3 and PSYC70H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Psychology and Neuroscience - Systems/Behavioural stream. Students in the Major/Major Co-op programs in Psychology and the Specialist/Specialist Co-op and Major/Major Co-op programs in Mental Health Studies will be admitted as space permits.

PSYC75H3 - Cognitive Psychology Laboratory

This course introduces conceptual and practical issues concerning research in cognitive psychology. Students will be introduced to current research methods through a series of practical exercises conducted on computers. By the end of the course, students will be able to program experiments, manipulate data files, and conduct basic data analyses.

Prerequisite: [PSYB07H3 or STAB22H3 or STAB23H3] and [PSYB51H3 or PSYB55H3 or PSYB57H3] and PSYC02H3 and PSYC70H3

Exclusion: PSY379H

Recommended Preparation: PSYC08H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the

Specialist/Specialist Co-op programs in Psychology and Neuroscience - Cognitive stream.

Students in the Major/Major Co-op programs in Psychology and the Specialist/Specialist Co-op and Major/Major Co-op programs in Mental Health Studies will be admitted as space permits.

PSYC76H3 - Brain Imaging Laboratory

The course introduces brain imaging techniques, focusing on techniques such as high-density electroencephalography (EEG) and transcranial magnetic stimulation (TMS), together with magnet-resonance-imaging-based neuronavigation. Furthermore, the course will introduce eye movement recordings as a behavioural measure often co-registered in imaging studies. Students will learn core principles of experimental designs, data analysis and interpretation in a hands-on manner.

Prerequisite: PSYB55H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYC02H3 and PSYC70H3

Exclusion: (PSYC04H3)

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist/Specialist Co-op programs in Psychology and Neuroscience - Cognitive stream.

Students in the Major/Major Co-op programs in Psychology and the Specialist/Specialist Co-op and Major/Major Co-op programs in Mental Health Studies will be admitted as space permits.

PSYC81H3 - Psychology for Sustainability

This course will introduce students to a variety of topics in psychology as they relate to climate change and the psychological study of sustainable human behaviour. Topics covered will include the threats of a changing environment to mental health and wellbeing; the development of coping mechanisms and resilience for individuals and communities affected negatively by climate change and a changing environment; perceptions of risk, and how beliefs and attitudes are developed, maintained, and updated; effective principles for communicating about climate change and sustainable behaviour; how social identity affects experiences and perceptions of a changing environment; empirically validated methods for promoting pro-environmental behaviour; and how, when required, we can best motivate people to action.

Prerequisite: [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [0.5 additional credits at the B-level in PSY courses]

Exclusion: (PSYC58H3) if taken in Winter 2022 or Winter 2023

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op

programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC86H3 - The Unconscious Mind

The concept of the unconscious mind has been integral to our understanding of human behavior ever since Freud introduced the concept in 1915. In this course, we will survey the history of the concept of the unconscious and discuss contemporary theory and research into the nature of the unconscious. Topics such as implicit cognition, non-conscious learning, decision-making, and measurement of non-conscious processes will be discussed from social, cognitive, clinical, and neuroscience perspectives. We will explore the applications and implications of such current research on the unconscious mind for individuals, culture, and society.

Prerequisite: PSYB32H3 and [PSYB55H3 or PSYB57H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC87H3 - Psychology and Money

This course is designed for students interested in understanding the psychological influences on financial decision making, as well as the interplay between macroeconomic forces and psychological processes. Starting with a psychological and historical exploration of money's evolution, the course covers a wide range of topics. These include the impact of economic conditions like inflation and inequality on well-being, the psychology of household financial behaviours, including financial literacy and debt management, and the motivations affecting investment choices. The course also examines marketing psychology, the influence of money on interpersonal relationships, and the psychology of charitable giving. Finally, it investigates the psychological implications of emerging financial technologies.

Prerequisite: [PSYB10H3 or PSYB30H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students in the Specialist/Specialist Co-op and Major/Major Co-op programs in Psychology and Mental Health Studies. Students in the Minor program in Psychology will be admitted as space permits.

PSYC90H3 - Supervised Study in Psychology

An intensive research project intended to provide laboratory/field experience in data collection and analysis. The project must be completed over 2 consecutive terms. These courses provide an opportunity to engage in research in an area after completing basic coverage in regularly scheduled courses. The student must demonstrate a background adequate for the project proposed and should present a clear rationale to prospective supervisors. Regular consultation with the supervisor is necessary, and extensive data collection/processing and analysis will ordinarily be required. Such a project will culminate in a written research report.

Students must first find a supervisor before the start of the academic term in which the project will be initiated. They must then obtain a permission form from the Department of Psychology's website that is to be completed and signed by the intended supervisor, and returned to the Psychology Office.

Students seeking supervision off campus are further advised to check the appropriateness of the proposed advisor with the Program Supervisor. If the proposed supervisor is not appointed to the Psychology faculty at UTSC then a secondary advisor, that is appointed at UTSC, will be required.

Prerequisite: [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [2.0 additional PSY credits] and [enrolment in the Specialist/Specialist Co-op, or Major/Major Co-op Program in Psychology, Mental Health Studies, Neuroscience, or Psycholinguistics] and [a CGPA of 3.0 or higher] and permission of the proposed supervisor.

Exclusion: (COGC91H3), NROC90H3, PSY303H, PSY304H

Course Experience: University-Based Experience

PSYC93H3 - Supervised Study in Psychology

An intensive research project intended to provide laboratory/field experience in data collection and analysis. The project must be completed over 2 consecutive terms. These courses provide an opportunity to engage in research in an area after completing basic coverage in regularly scheduled courses. The student must demonstrate a background adequate for the project proposed and should present a clear rationale to prospective supervisors. Regular consultation with the supervisor is necessary, and extensive data collection/processing and analysis will ordinarily be required. Such a project will culminate in a written research report.

Students must first find a supervisor before the start of the academic term in which the project will be initiated. They must then obtain a permission form from the Department of Psychology's website that is to be completed and signed by the intended supervisor, and returned to the Psychology Office.

Students seeking supervision off campus are further advised to check the appropriateness of the proposed advisor with the Program Supervisor. If the proposed supervisor is not appointed to the Psychology faculty at UTSC then a secondary advisor, that is appointed at UTSC, will be required.

Prerequisite: [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [2.0 additional PSY credits] and [enrolment in the Specialist/Specialist Co-op or Major/Major Co-op Program in Psychology, Mental Health Studies, Neuroscience, or Psycholinguistics] and [a CGPA of 3.0 or higher] and permission of the proposed supervisor.

Exclusion: (COGC92H3), NROC93H3, PSY303H, PSY304H

Course Experience: University-Based Experience

PSYD10H3 - Community and Applied Social Psychology

This course examines the applications of social psychological theory and research to understand and address social issues that affect communities. In doing so the course bridges knowledge from the areas of social psychology and community psychology. In the process, students will have the opportunity to gain a deeper understanding of how theories and research in social psychology can be used to explain everyday life, community issues, and societal needs and how, reciprocally, real-life issues can serve to guide the direction of social psychological theories and research.

Prerequisite: PSYB10H3 and [0.5 credit at the C-level from PSY courses in the 10-series or 30-series] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSYD15H3 (if taken in Spring or Fall 2019)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD13H3 - The Psychology of Emotion Regulation

This seminar offers an in depth introduction to the recent scientific literature on how humans manage and control their emotions (emotion regulation). We will explore why,

and how, people regulate emotions, how emotion regulation differs across individuals and cultures, and the influence that emotion regulation has upon mental, physical, and social well-being.

Prerequisite: PSYB10H3 and [PSYC13H3 or PSYC18H3 or PSYC19H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSYD15H3 if taken in Winter 2017

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD14H3 - Psychology of Morality

This course provides an in-depth introduction to the field of moral psychology. In recent years there has been a resurgence of interest in the science of human morality; the goal of this course is to offer an introduction to the research in this field. The course will incorporate perspectives from a variety of disciplines including philosophy, animal behaviour, neuroscience, economics, and almost every area of scientific psychology (social psychology, developmental psychology, evolutionary psychology, and cognitive psychology). By the end of the course students will be well versed in the primary issues and debates involved in the scientific study of morality.

Prerequisite: PSYB10H3 and [PSYC12H3 or PSYC13H3 or PSYC14H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSYD15H3 if taken in Fall 2015

Recommended Preparation: PSYC08H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD15H3 - Current Topics in Social Psychology

An intensive examination of selected issues and research problems in social psychology.

Prerequisite: PSYB10H3 and [an additional 0.5 credit from the PSYC10-series of courses] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY326H, PSY420H

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. [PSYD98Y3/NROD98Y3](#) are excluded from these limits. Please see [this website](#) for full information.

PSYD16H3 - Critical Analysis in Social Psychology

The development of social psychology is examined both as a discipline (its phenomena, theory, and methods) and as a profession. The Natural and Human Science approaches to phenomena are contrasted. Students are taught to observe the lived-world, choose a social phenomenon of interest to them, and then interview people who describe episodes from their lives in which these phenomena occurred. The students interpret these episodes and develop theories to account for their phenomena before searching for scholarly research on the topic.

Prerequisite: PSYB10H3 and [0.5 credit at the C-level in PSY courses] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY420H

Recommended Preparation: PSYC12H3 or PSYC71H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level

courses. [PSYD98Y3/NROD98Y3](#) are excluded from these limits. Please see [this website](#) for full information.

PSYD17H3 - Social Neuroscience

This course investigates how linking theory and evidence from psychology, neuroscience, and biology can aid in understanding important social behaviors. Students will learn to identify, critique, and apply cutting-edge research findings to current real-world social issues (e.g., prejudice, politics, moral and criminal behavior, stress and health).

Prerequisite: [PSYB55H3 or PSYB64H3] and [0.5 credit from the PSYC10-series or PSYC50-series courses] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY473H

Recommended Preparation: PSYC13H3 or PSYC57H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology, Mental Health Studies, and Neuroscience - Cognitive Stream. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. [PSYD98Y3/NROD98Y3](#) are excluded from these limits. Please see [this website](#) for full information.

PSYD18H3 - Psychology of Gender

This course focuses on theory and research pertaining to gender and gender roles. The social psychological and social-developmental research literature concerning gender differences will be critically examined. Other topics also will be considered, such as gender-role socialization.

Prerequisite: PSYB10H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [1.0 credit at the C-level in PSY courses]

Exclusion: PSY323H

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. [PSYD98Y3/NROD98Y3](#) are excluded from these limits. Please see [this website](#) for full information.

PSYD19H3 - The Science of Behaviour Change

How can we break bad habits? How can we start healthy habits? This course will explore the science of behaviour change, examining how to go from where you are to where you want to be. Students will learn core knowledge of the field of behaviour change from psychology and behavioural economics. Topics include goal setting and goal pursuit, self-regulation, motivation, dealing with temptations, nudges, and habits. Students will read primary sources and learn how to critically evaluate research and scientific claims. Critically, students will not only learn theory but will be instructed on how to apply what they learn in class to their everyday lives where students work on improving their own habits.

Prerequisite: PSYB10H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [0.5 credit from the PSYC10-series or PSYC30H3 or PSYC50H3]

Recommended Preparation: PSYC19H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information

PSYD20H3 - Current Topics in Developmental Psychology

An intensive examination of selected issues and research problems in developmental psychology. The specific content will vary from year to year with the interests of both instructor and students. Lectures, discussions, and oral presentations by students.

Prerequisite: PSYB20H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [0.5 credit at the C-level in PSY courses]

Exclusion: PSY410H

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in

Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD23H3 - Dyadic Processes in Psychological Development

Mutual recognition is one of the hallmarks of human consciousness and psychological development. This course explores mutual recognition as a dyadic and regulatory process in development, drawing on diverse theories from developmental science, social psychology, neuroscience, philosophy, literature, psychoanalysis, and gender studies.

Prerequisite: [PSYC13H3 or PSYC18H3 or PSYC23H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD24H3 - Seeing, Hearing, and Moving in Children

An in-depth examination of aspects related to perceptual and motor development in infancy and childhood. The topics to be covered will be drawn from basic components of visual and auditory perception, multisensory integration, and motor control, including reaching, posture, and walking. Each week, students will read a set of experimental reports, and will discuss these readings in class. The format of this course is seminar-discussion.

Prerequisite: [PSYB20H3 or PLIC24H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [0.5 credit at the C-level in PSY courses]

Exclusion: PSY410H

Breadth Requirements: Natural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or

Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. [PSYD98Y3/NROD98Y3](#) are excluded from these limits. Please see [this website](#) for full information.

PSYD28H3 - The Development of Affective Cognition

Humans' abilities to reason and think about emotion (i.e., affective cognition) is highly sophisticated. Even with limited information, humans can predict whether someone will feel amused, excited, or moved, or whether they will feel embarrassed, disappointed, or furious. How do humans acquire these abilities? This course will delve into the development of affective cognition in infancy and childhood. Topics include infants' and children's abilities to infer, predict, and explain emotions, the influence of family and culture in these developmental processes, and atypical development of affective cognition. Through reading classic and contemporary papers, presenting and discussing current topics, and proposing novel ideas in this research domain, students will gain an in-depth understanding of the fundamental aspects of affective cognition over the course of development.

Prerequisite: [PSYB20H3](#) and [[PSYB07H3](#) or [STAB22H3](#) or [STAB23H3](#)] and [PSYB70H3](#) and [0.5 credit at the C-level in PSY courses]

Recommended Preparation: [PSYC18H3](#) or [PSYC28H3](#)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. [PSYD98Y3/NROD98Y3](#) are excluded from these limits. Please see [this website](#) for full information.

PSYD30H3 - Current Topics in Personality Psychology

An intensive examination of selected issues and research problems in personality psychology. The specific content will vary from year to year.

Prerequisite: [PSYB30H3](#) and [[PSYB07H3](#) or [STAB22H3](#) or [STAB23H3](#)] and [PSYB70H3](#)

Exclusion: [PSY430H](#)

Recommended Preparation: [PSYC30H3](#)/([PSYC35H3](#))

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Mental Health Studies, as well as Major/Major Co-op programs in Psychology. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. [PSYD98Y3/NROD98Y3](#) are excluded from these limits. Please see [this website](#) for full information.

PSYD31H3 - Cultural-Clinical Psychology

This course provides an in-depth introduction to the field of cultural-clinical psychology. We examine theoretical and empirical advances in understanding the complex interplay between culture and mental health, focusing on implications for the study and treatment of psychopathology. Topics include cultural variations in the experience and expression of mental illness.

Prerequisite: [PSYB32H3](#) and [[PSYB07H3](#) or [STAB22H3](#) or [STAB23H3](#)] and [PSYB70H3](#) and [0.5 credit at the C-level in PSY courses]

Exclusion: [PSYD33H3](#) (if taken in Fall 2013/2014/2015 or Summer 2014/2015)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Mental Health Studies, as well as Major/Major Co-op programs in Psychology. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. [PSYD98Y3/NROD98Y3](#) are excluded from these limits. Please see [this website](#) for full information.

PSYD32H3 - Personality Disorders

This course reviews the latest research on the causes, longitudinal development, assessment, and treatment of personality disorders. Students will learn the history of personality disorders and approaches to conceptualizing personality pathology. Topics covered include "schizophrenia-spectrum" personality disorders, biological approaches to psychopathy, and dialectical behaviour therapy for borderline personality disorder.

Prerequisite: PSYB30H3 and PSYB32H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [0.5 credit at the C-level in PSY courses]

Exclusion: PSY430H

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Mental Health Studies, as well as Major/Major Co-op programs in Psychology. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD33H3 - Current Topics in Clinical Psychology

An intensive examination of selected issues and research problems in abnormal psychology. The specific content will vary from year to year.

Prerequisite: PSYB32H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [0.5 credit at the C-level in PSY courses]

Exclusion: PSY440H

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Mental Health Studies, as well as Major/Major Co-op programs in Psychology and Neuroscience. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses.

PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD35H3 - Clinical Psychopharmacology

This course reviews the psychopharmacological strategies used for addressing a variety of mental health conditions including anxiety, depression, psychosis, impulsivity, and dementia. It will also address the effects of psychotropic drugs on patients or clients referred to mental health professionals for intellectual, neuropsychological and

personality testing. Limitations of pharmacotherapy and its combinations with psychotherapy will be discussed.

Prerequisite: PSYB55H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and PSYC62H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Mental Health Studies, as well as Major/Major Co-op programs in Psychology. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD37H3 - Social Context of Mental Health and Illness

This course is an opportunity to explore how social practices and ideas contribute to the ways in which society, families and individuals are affected by mental health and mental illness.

Prerequisite: 10.0 credits completed and enrolment in the Specialist/Specialist-Co-op or Major/Major Co-op programs in Mental Health Studies

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD39H3 - Cognitive Behavioural Therapy

This course provides an in-depth exploration of cognitive behavioural therapies (CBT) for psychological disorders. Topics covered include historical and theoretical foundations of CBT, its empirical evidence base and putative mechanisms of change, and a critical review of contemporary clinical applications and protocols.

Prerequisite: [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and PSYC36H3

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD50H3 - Current Topics in Memory and Cognition

An intensive examination of selected topics. The specific content will vary from year to year.

Prerequisite: [PSYB55H3 or PSYB57H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [0.5 credit at the C-level in PSY courses]

Exclusion: PSY470H, PSY471H

Breadth Requirements: Natural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies, as well as Specialist/Specialist Co-op programs in Neuroscience Cognitive Stream. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD51H3 - Current Topics in Perception

This course provides an intensive examination of selected topics in recent research on perception. Topics may include research in vision, action, touch, hearing and multisensory integration. Selected readings will cover psychological and neuropsychological findings, neurophysiological results, synaesthesia and an introduction to the Bayesian mechanisms of multisensory integration.

Prerequisite: [NROC64H3 or [PSYB51 and 0.5 credit from the PSYC50-series of courses]] and [PSYB07H3 or

STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSYD54H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies, and the Specialist/Specialist Co-op programs in Neuroscience - Cognitive Stream. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD52H3 - Neural Network Models of Cognition Laboratory

This course provides an overview of neural-network models of perception, memory, language, knowledge representation, and higher-order cognition. The course consists of lectures and a lab component. Lectures will cover the theory behind the models and their application to specific empirical domains. Labs will provide hands-on experience running and analyzing simulation models.

Prerequisite: [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [0.5 credit at the C-level in PSY 50-series courses]

Recommended Preparation: [PSYB03H3 or CSCA08H3 or CSCA20H3] and [MATA23H3 and [MATA29H3 or MATA30H3]]

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies, as well as Specialist/Specialist Co-op programs in Neuroscience Cognitive Stream. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD54H3 - Current Topics in Visual Recognition

The course provides an intensive examination of selected topics in the research of visual recognition. Multiple

components of recognition, as related to perception, memory and higher-level cognition, will be considered from an integrative psychological, neuroscientific and computational perspective. Specific topics include face recognition, visual word recognition and general object recognition.

Prerequisite: [NROC64H3 or [(PSYB51H3 or PSYB57H3) and 0.5 credit from the PSYC50-series of courses]] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: [PSYD50H3 if taken in Winter 2014, 2015 or 2016], PSYD51H3

Breadth Requirements: Natural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies, and the Specialist/Specialist Co-op programs in Neuroscience - Cognitive Stream. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD55H3 - Functional Magnetic Resonance Imaging Laboratory

An in-depth study of functional magnetic resonance imaging (fMRI) as used in cognitive neuroscience, including an overview of MR physics, experimental design, and statistics, as well as hands-on experience of data processing and analysis.

Prerequisite: PSYB55H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSY368H5

Recommended Preparation: PSYC76H3 or PSYC51H3 or PSYC52H3 or PSYC57H3 or PSYC59H3

Breadth Requirements: Natural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies, as well as Specialist/Specialist Co-op programs in Neuroscience - Cognitive Stream. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD59H3 - Psychology of Gambling

This course takes a cognitive approach to understanding the initiation and perpetuation of gambling behaviours, with a particular interest in making links to relevant work in neuroscience, social psychology, and clinical psychology.

Prerequisite: [PSYB32H3 or PSYB38H3] and [PSYB55H3 or PSYB57H3] and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3

Exclusion: PSYD50H3 if taken in any of the following sessions: Winter 2017, Summer 2017, Winter 2018, Summer 2018

Recommended Preparation: [PSYC10H3 or PSYC19H3 or PSYC50H3 or PSYC57H3]

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD62H3 - Neuroscience of Pleasure and Reward

This seminar course will focus on the brain bases of pleasure and reward and their role in human psychology. We will examine how different aspects of pleasure and reward are implemented in the human brain, and how they contribute to various psychological phenomena such as self-disclosure, attachment, altruism, humour, and specific forms of psychopathology.

Prerequisite: PSYB55H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [0.5 credits from the NRO C-level courses or PSY 50-series C-level courses]

Exclusion: NROD60H3 if taken in Fall 2021 or Fall 2022

Breadth Requirements: Natural Sciences

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology and Mental Health Studies, the Specialist/Specialist Co-op programs in Neuroscience - Cognitive Stream, and the Major/Major Co-op programs in Neuroscience. Third-year students in these programs will be admitted as space permits. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major.

Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses. PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD66H3 - Current Topics in Human Brain and Behaviour

An extensive examination of selected topics in human brain and behaviour. The neural bases of mental functions such as language, learning, memory, emotion, motivation and addiction are examples of the topics that may be included.

Prerequisite: PSYB55H3 and [PSYB07H3 or STAB22H3 or STAB23H3] and PSYB70H3 and [0.5 credit at the C-level in PSY or NRO courses]

Exclusion: PSY490H

Breadth Requirements: Natural Sciences

Course Experience: Partnership-Based Experience

Note: Priority will be given to fourth-year students in the Specialist/Specialist Co-op programs and Major/Major Co-op programs in Psychology, Mental Health Studies, and Neuroscience. Third-year students in these programs will be admitted as space permits. Students in a Specialist/Specialist Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 1.0 PSY/NRO D-level credits. Students in a Major/Major Co-op Program in Psychology, Mental Health Studies or Neuroscience may take a maximum of 0.5 PSY/NRO D-level credits per major. Students in the Minor Program in Psychology are not typically eligible for enrolment in PSY/NRO D-level courses.

PSYD98Y3/NROD98Y3 are excluded from these limits. Please see [this website](#) for full information.

PSYD98Y3 - Thesis in Psychology

This course offers the opportunity to engage in a year-long research project under the supervision of an interested member of the faculty in Psychology. Extensive data collection/processing and analysis will be required. The project will culminate in a written report in the form of a thesis and a poster presentation. During the course of the year, at appropriate times, students will meet to present their own research proposals, to appraise the proposals of others, and to discuss the results of their investigation. Students must first find a supervisor, which is usually confirmed before the start of the academic term in which the project will be initiated. Students will meet as a group with the coordinator as well as individually with their supervisor. This course is restricted to Majors and Specialists in Psychology and Mental Health Studies with a GPA of 3.3 or higher over the last 5.0 credit equivalents completed. Students planning to pursue graduate studies are especially encouraged to enroll in the course. Students must obtain a [permission form](#) from the Department of Psychology website that is to be completed and signed by the intended supervisor and submitted to the Psychology Office. Students seeking supervision off campus will need to arrange co-supervision with a faculty member in Psychology at this campus.

Prerequisite: PSYC02H3 and [PSYC08H3 or PSYC09H3] and PSYC70H3 and [enrollment in the Specialist Co-op, Specialist, or Major Program in Psychology or Mental Health Studies] and [GPA of 3.3 or higher over the last 5.0 credit equivalents completed] and permission of the proposed supervisor.

Exclusion: NROD98Y3, (COGD10H3), PSY400Y

Course Experience: University-Based Experience

Public Law

Faculty List

Political Science

- E. Acorn, B.A. (Victoria), M.A. (Dalhousie), J.D. (Toronto), Ph.D. (Cornell), Assistant Professor
- N. Bernhardt, B. A. (Queens), Ph.D. (York), Assistant Professor
- C. Cochrane, B.A. (St. Thomas), M.A. (McGill), Ph.D. (Toronto), Associate Professor
- C. Cowie, B.A. (Western), M.A. (Manitoba), Ph.D. (Alberta), Assistant Professor
- R. Hurl, B.A. (Toronto), M.A., Ph.D. (Cornell), Lecturer
- F. Kahraman, B.A. (Boğaziçi), M.A., Ph.D. (Washington), Assistant Professor
- M.L. Kohn, B.A. (Williams), M.A., Ph.D. (Cornell), Professor
- A. McDougall, B.A. (Toronto), M.A. (Queens), LL.B. (Queens), Ph.D. (Toronto), Assistant Professor
- R. Schertzer, B.A. (Carleton), M.Sc., Ph.D. (London School of Economics), Associate Professor

Sociology

- J. Hermer, B.A. (Western), M.A. (Carlton), DPhil (Oxford), Associate Professor
- R. Salem, B.A. (Cairo), M.Sc. (Oxford), Ph.D. (Princeton), Associate Professor
- E. Fosse, B.A. (Kansas), MA (Harvard), Ph.D. (Harvard), Assistant Professor
- D. Kwan-Lafond, BSW (Ryerson), M.Ed. (OISE), Ph.D. (York), Assistant Professor, Teaching Stream

Chair: Christopher Cochrane

Program Advisor Email: pol-advisor@utsc.utoronto.ca

For more information, [visit the Department of Political Science website](#).

Public Law is the study of how legal systems govern the relationship between different orders of government and between people and governments. This interdisciplinary program is intended for students with an interest in law and politics. Students will acquire an in-depth understanding of rights and justice as well as the institutions and social movements that help realize these ideals. Courses in the program address the normative foundations of legal systems and the role of constitutions and courts in upholding the rule of law. The Major in Public Law also provides students with an opportunity for broad-based study of the Canadian legal system in an historical and international context. The program also examines international law and emerging issues in the study of law and politics. Students are advised that becoming a lawyer requires an additional degree (a J.D. or LL.B. from an accredited law school) and meeting licensing requirements.

Status in the Public Law Major

Status in the program will be determined at the end of each session (Fall, Winter, and Summer) for all students in the Major in Public Law. Students with cumulative grade point average (CGPA) of 2.0 or higher will be able to remain in the program. A student in the Major whose CGPA falls below 2.0 will be placed on probation. Students must clear their probation by achieving a CGPA of 2.0 in the next semester. Students who fail to achieve a CGPA of 2.0 in the next semester will be removed from the Major in Public Law. These students should seek advising from the Academic Advising and Career Centre, or the Program Coordinator for the Department of Political Science.

The Department of Political Science hosts the Specialist, Major, and Minor programs in Political Science, the Major and Major (Co-op) programs in Public Policy, and the Major and Minor programs in Public Law.

For more information on Political Science and Public Policy programs, please refer to the [Political Science](#) and [Public Policy](#) sections of the *Calendar*.

Guidelines for First-Year Course Selection

Students who intend to complete the Major Program in Public Law are recommended to include the following in their first-year course selection: 1.0 credit at the A-level in Political Science.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Public Law Programs

MAJOR PROGRAM IN PUBLIC LAW (ARTS) - SCMAJ2030

Enrolment in the Major is limited. Students may apply after completing 4.0 credits and must have achieved a minimum CGPA of 2.0. Students who have completed 10.0 or more credits are not eligible.

Submission deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in that student's application not being considered. Admission to the Major will be assessed through a consideration of academic performance.

Students must complete 8.0 credits in Public Law as follows:

1. **Foundations in Public Law (2.5 credits):**

[POLB30H3](#) Law, Justice and Rights

[POLB56H3](#) Critical Issues in Canadian Politics

[POLB57H3](#) The Canadian Constitution and the Charter of Rights and Freedoms

[SOCB59H3](#) Sociology of Law

[POLC32H3](#) The Canadian Judicial System

2. **Methods (1.5 credits):**

[SOCB05H3](#) Logic of Social Inquiry

[POLC35H3](#) Law and Politics: Contradictions, Approaches and Controversies

and

0.5 credit in Quantitative/statistical methods from the following

[[SOCB35H3](#) Numeracy and Society

or [STAB23H3](#) Introduction to Statistics for the Social Sciences or [POLB40H3](#) Quantitative Reasoning for Political Science and Public Policy

3. **Applications in Public Law (3.0 credits from the following):**

[POLC30H3](#) Law, Politics, and Technology

[POLC33H3](#) Politics of International Human Rights

[POLC34H3](#) The Politics of Crime

[POLC36H3](#) Law and Public Policy

[POLC38H3](#) International Law

[POLC39H3](#) Comparative Law and Politics

[POLC52H3](#) Indigenous Nations and the Canadian State

[POLC56H3](#) Indigenous Politics and Law

[POLD54H3](#) Michi-Saagiig Nishnaabeg Nation Governance and Politics

[SOCB50H3](#) Deviance and Normality I

[SOCC11H3](#) Policing and Security

[SOCC30H3](#) Criminal Behaviour

[SOCC46H3](#) Special Topics in the Sociology of Law

[SOCC61H3](#) The Sociology of the Truth and Reconciliation Commission

4. **Advanced Applications in Public Law (1.0 credit from the following):**

POLD30H3 Legal Reasoning
POLD32H3 Racism, the Law, and Public Policy
POLD38H3 Corporate Crime and Corruption: Law and Governance in a Global Context
POLD42H3 Advanced Topics in Public Law
POLD44H3 Comparative Law and Social Change
POLD45H3 Constitutionalism
POLD46H3 Public Law and the Canadian Immigration System
POLD31H3 Mooting Seminar
SOC005H3 Advanced Seminar in Criminology and Sociology of Law

In meeting the applications and advanced applications requirements, students can apply to count up to 1.0 credit from other appropriate courses, including at the UTSC, UTM and St. George campuses, if approved by the Public Law Program Administrator.

MINOR PROGRAM IN PUBLIC LAW (ARTS) - SCMIN2030

The Minor in Public Law examines how the legal system, of which the constitutional order and judiciary are integral parts, governs the relationship both among constituent units of the state and between citizens and the state. It also examines the obligations that states have to one another via international law. Courses in the program address the normative foundations of principles of justice and human rights; the role of constitutions and courts in safeguarding the rule of law, protecting civil liberties, and curbing state power; the constraints to state sovereignty posed by international law and international courts; and the implications of the legal order for democratic and legitimate policy-making.

Program Requirements

Students must complete 4.0 credits, of which at least 1.0 credit must be at the C- and/or D-level.

1. Core Courses as follows (2.0 credits):

POLB30H3 Law, Justice and Rights
POLB56H3 Canadian Politics and Government
POLB57H3 The Canadian Constitution and the Charter of Rights
POLC32H3 The Canadian Judicial System

2. Public Law Electives (1.5 credits from the following):

POLC30H3 Law, Politics, and Technology in Applications
POLC33H3 Politics of International Human Rights
POLC34H3 The Politics of Crime
POLC36H3 Law and Public Policy
POLC38H3 International Law
POLC39H3 Comparative Law and Politics
POLC56H3 Indigenous Politics and Law
POLD30H3 Legal Reasoning
POLD32H3 Racism, the Law, and Public Policy
POLD38H3 Corporate Crime and Corruption: Law and Governance in a Global Context
POLD42H3 Advanced Topics in Public Law
POLD44H3 Comparative Law and Social Change
POLD45H3 Constitutionalism
POLD46H3 Public Law and the Canadian Immigration System

3. 0.5 credit from requirement 2 above or an appropriate course from another discipline, including at the UTSC, UTM and St. George campuses, as approved by the Public Law Program Advisor.

Public Law Courses

POLB30H3 - Law, Justice and Rights

This is a lecture course that helps students understand the theoretical justifications for the rule of law. We will study different arguments about the source and limitations of law: natural law, legal positivism, normative jurisprudence and critical theories. The course will also examine some key court cases in order to explore the connection between theory and practice. This is the foundation course for the Minor program in Public Law. Areas of Focus: Political Theory and Public Law

Prerequisite: Any 4.0 credits

Exclusion: PHLB11H3 (students who have taken PHLB11H3 prior to POLB30H3 may count PHLB11H3 in place of POLB30H3 in the Minor in Public Law)

Recommended Preparation: 0.5 credit in Political Science

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Priority will be given to students enrolled in the Minor program in Public Law. Additional students will be admitted as space permits.

POLB57H3 - The Canadian Constitution and the Charter of Rights

This class will introduce students to the Canadian constitution and the Charter of Rights and Freedoms. Students will learn the history of and constitutional basis for parliamentary democracy, Canadian federalism, judicial independence, the role of the monarchy, and the origins and foundations of Indigenous rights. The course will also focus specifically on the role of the Charter of Rights and Freedoms, and students will learn about the constitutional rights to expression, equality, assembly, free practice of religion, the different official language guarantees, and the democratic rights to vote and run for office. Special attention will also be paid to how rights can be constitutionally limited through an examination of the notwithstanding clause and the Charter's reasonable limits clause.

Areas of Focus: Canadian Government and Politics and Public Law

Prerequisite: Any 4.0 credits or enrolment in an Arts and Science Co-op Degree POST

Exclusion: (POLB50Y3), (POLC68H3), (POL214Y)

Breadth Requirements: Social and Behavioural Sciences

POLC30H3 - Law, Politics and Technology

Today's legal and political problems require innovative solutions and heavily rely on the extensive use of technology. This course will examine the interaction between law, politics, and technology. It will explore how technological advancements shape and are shaped by legal and political systems. Students will examine the impact of technology on the legal and political landscape, and will closely look at topics such as cybersecurity, privacy, intellectual property, social media, artificial intelligence and the relationship of emerging technologies with democracy, human rights, ethics, employment, health and environment. The course will explore the challenges and opportunities that technology poses to politics and democratic governance. The topics and readings take a wider global perspective – they are not confined only on a Canadian context but look at various countries' experiences with technology. Area of Focus: Public Law

Prerequisite: POLB30H3 and POLB56H3

Corequisite: N/A

Exclusion: N/A

Recommended Preparation: POLC32H3, POLC36H3

Breadth Requirements: Social and Behavioural Sciences

POLC32H3 - The Canadian Judicial System

This course explores the structure, role and key issues associated with the Canadian judicial system. The first section provides the key context and history associated with Canada's court system. The second section discusses the role the courts have played in the evolution of the Canadian constitution and politics – with a particular focus on the Supreme Court of Canada. The final section analyzes some of the key debates and issues related to the courts in Canada, including their democratic nature, function in establishing public policy and protection of civil liberties.

Areas of Focus: Canadian Government and Politics and Public Law

Prerequisite: [POLB56H3 and POLB57H3] or (POLB50Y3)

Recommended Preparation: POLB30H3

Breadth Requirements: Social and Behavioural Sciences

POLC33H3 - Politics of International Human Rights

This course aims to provide students with an overview of the way human rights laws, norms, and institutions have evolved. In the first half of the class, we will examine the legal institutions and human rights regimes around the world, both global and regional. In the second half, we will

take a bottom-up view by exploring how human rights become part of contentious politics. Special attention will be given to how human rights law transform with mobilization from below and how it is used to contest, challenge and change hierarchical power relationships. The case studies from the Middle East, Latin America, Europe and the US aim at placing human rights concerns in a broader sociopolitical context.

Areas of Focus: International Relations and Public Law

Prerequisite: POLB30H3

Recommended Preparation: POLB90H3 and POLB91H3

Breadth Requirements: Social and Behavioural Sciences

POLC34H3 - The Politics of Crime

This course will explore how the world of criminal justice intersects with the world of politics. Beginning with a history of the “punitive turn” in the criminal justice policy of the late 1970s, this course will look at the major political issues in criminal justice today. Topics studied will include the constitutional context for legislating the criminal and quasi-criminal law, race and class in criminal justice, Canada’s Indigenous peoples and the criminal justice system, the growth of restorative justice, drug prohibition and reform, the value of incarceration, and white-collar crime and organizational liability. More broadly, the class aims to cover why crime continues to be a major political issue in Canada and the different approaches to addressing its control.

Areas of Focus: Comparative Politics and Public Law

Prerequisite: POLB30H3 and [[POLB56H3 and POLB57H3] or (POLB50Y3)]

Breadth Requirements: Social and Behavioural Sciences

POLC35H3 - Law and Politics: Contradictions, Approaches, and Controversies

This course examines different methods and approaches to the study of law and politics. Students will learn how the humanities-based study of law traditionally applied by legal scholars interacts or contradicts more empirically driven schools of thought common in social science, such as law and economics or critical race theory. Students will understand the substantive content of these different approaches and what can be gained from embracing multiple perspectives.

Areas of Focus: Quantitative and Qualitative Analysis, Political Theory, and Public Law

Prerequisite: POLB30H3 and POLB56H3 and POLB57H3

Breadth Requirements: Social and Behavioural

Sciences

Note: Enrolment is limited to students enrolled in the Major Program in Public Law.

POLC36H3 - Law and Public Policy

This course examines how different types of legal frameworks affect processes and outcomes of policy-making. It contrasts policy-making in Westminster parliamentary systems and separation of powers systems; unitary versus multi-level or federal systems; and systems with and without constitutional bills of rights.

Areas of Focus: Public Policy and Public Law

Prerequisite: [POLB56H3 and POLB57H3] or (POLB50Y3)

Recommended Preparation:

PPGB66H3/(POLC66H3)/(PPGC66H3)

Breadth Requirements: Social and Behavioural Sciences

POLC38H3 - International Law

This course introduces students to the foundations of international law, its sources, its rationale, and challenges to its effectiveness and implementation. Areas of international law discussed include the conduct of war, trade, and diplomacy, as well as the protection of human rights and the environment.

Areas of Focus: International Relations and Public Law

Prerequisite: POLB30H3 or POLB80H3

Exclusion: POL340Y

Breadth Requirements: Social and Behavioural Sciences

POLC39H3 - Comparative Law and Politics

This course examines the interaction between law, courts, and politics in countries throughout the world. We begin by critically examining the (alleged) functions of courts: to provide for “order,” resolve disputes, and to enforce legal norms. We then turn to examine the conditions under which high courts have expanded their powers by weighing into contentious policy areas and sometimes empower individuals with new rights. We analyze case studies from democracies, transitioning regimes, and authoritarian states.

Areas of Focus: Comparative Politics and Public Law

Prerequisite: POLB30H3

Breadth Requirements: Social and Behavioural Sciences

POLC56H3 - Indigenous Politics and Law

This course explores key historical and contemporary issues in indigenous politics. Focusing on the contemporary political and legal mobilization of Indigenous peoples, it will examine their pursuit of self-government, land claims and resource development, treaty negotiations indigenous rights, and reconciliation. A primary focus will be the role of Canada's courts, its political institutions, and federal and provincial political leaders in affecting the capacity of indigenous communities to realize their goals.

Areas of Focus: Canadian Government and Politics, and Public Law

Prerequisite: [POLB56H3 and POLB57H3] or (POLB50Y3)

Exclusion: POL308H, ABS353H, ABS354H

Breadth Requirements: Social and Behavioural Sciences

POLD30H3 - Legal Reasoning

This course will introduce students to the ideas and methods that guide judges and lawyers in their work. How does the abstract world of the law get translated into predictable, concrete decisions? How do judges decide what is the "correct" decision in a given case? The class will begin with an overview of the legal system before delving into the ideas guiding statute drafting and interpretation, judicial review and administrative discretion, the meaning of "evidence" and "proof," constitutionalism, and appellate review. Time will also be spent exploring the ways that foreign law can impact and be reconciled with Canadian law in a globalizing world.

Areas of Focus: Public Law, and Quantitative and Qualitative Analysis

Prerequisite: POLB30H3 and an additional 1.5 credits at the C-level in POL courses

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Minor in Public Law.

POLD31H3 - Mooting Seminar

This course will offer senior students the opportunity to engage in a mock court exercise based around a contemporary legal issue. Students will be expected to present a legal argument both orally and in writing, using modern templates for legal documents and argued under similar circumstances to those expected of legal practitioners. The class will offer students an opportunity to understand the different stages of a court proceeding and the theories that underpin oral advocacy and procedural justice. Experiential learning will represent a

fundamental aspect of the course, and expertise will be sought from outside legal professionals in the community who can provide further insight into the Canadian legal system where available.

Area of Focus: Public Law

Prerequisite: POLB30H3 and POLC32H3 and an additional 1.5 credits at the C-level in POL courses

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

Note: Enrolment is limited to students enrolled in the Major Program in Public Law.

POLD32H3 - Racism, the Law, and Public Policy

Is the Canadian state racist? Is the law a tool of anti-racist resistance or a tool of racial oppression? Is racial categorization in public policy inherently inequitable or strategically necessary? This seminar course explores the complex relationship between racism, the law, and public policy within the context of Canadian institutions. Students will engage with critical race theory, case law, state policy documents, race-based data collection, and Canadian political science scholarship.

Areas of Focus: Public Law and Public Policy

Prerequisite: [POLB56H3 and POLB57H3] and [2.0 credits at the C-level in any courses]

Breadth Requirements: Social and Behavioural Sciences

POLD38H3 - Corporate Crime and Corruption: Law and Governance in a Global Context

This course examines the challenges of governing business in a global context. Focusing on Canada and Canadian corporations, the course first introduces students to business governance in a national context, exploring how law regulates business and foundational concepts like legal personality and the rights and obligations of corporate entities. The course then examines multinational businesses and the myriad efforts to govern these transnational actors, including through international law and corporate self-regulation. Using real-world examples and case studies of corporate crime, corruption, and wrongdoing, students will uncover the governance gaps that can emerge as corporations operate across borders.

Areas of Focus: International Relations and Public Law

Prerequisite: POLC32H3 and 1.0 credit at the C-level in POL courses

Recommended Preparation: POLB80H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

POLD42H3 - Advanced Topics in Public Law

Topics and area of focus will vary depending on the instructor and may include global perspectives on social and economic rights, judicial and constitutional politics in diverse states and human rights law in Canada.

Area of Focus: Public Law

Prerequisite: 1.0 credits from the following [POLC32H3, POLC36H3, POLC39H3]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

POLD44H3 - Comparative Law and Social Change

This seminar examines how legal institutions and legal ideologies influence efforts to produce or prevent social change. The course will analyze court-initiated action as well as social actions “from below” (social movements) with comparative case studies.

Areas of Focus: Comparative Politics and Public Law

Prerequisite: POLB30H3 and [POLC33H3 or POLC38H3 or POLC39H3] and [0.5 credit in Comparative Politics]

Exclusion: POL492H1

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Minor Program in Public Law.

POLD45H3 - Constitutionalism

This course studies the theory of constitutionalism through a detailed study of its major idioms such as the rule of law,

the separation of powers, sovereignty, rights, and limited government.

Areas of Focus: Political Theory and Public Law

Prerequisite: [[(POLB70H3) and (POLB71H3)] or POLB72H3 or POLB30H3] and [1.5 credits at the C-level in POL courses]

Breadth Requirements: History, Philosophy and Cultural Studies

POLD46H3 - Public Law and the Canadian Immigration System

Immigration is one of the most debated and talked about political issues in the 21st century. Peoples’ movement across continents for a whole host of reasons is not new; however, with the emergence of the nation-state, the drawing of borders, and the attempts to define and shape of membership in a political and national community, migration became a topic for public debate and legal challenge. This course dives into Canada’s immigration system and looks at how it was designed, what values and objectives it tries to meet, and how global challenges affect its approach and attitude toward newcomers. The approach used in this course is that of a legal practitioner, tasked with weighing the personal narratives and aspirations of migrants as they navigate legal challenges and explore the available programs and pathways to complete their migration journey in Canada.

Areas of Focus: Canadian Government and Politics, and Public Law

Prerequisite: 1.0 credits from the following: POLC32H3, POLC36H3, POLC39H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Public Policy

Faculty List

- A. Allahwala, B.A., M.A. (Freie Universität Berlin), Ph.D. (York), Associate Professor, Teaching Stream
- N. Bernhardt, B. A. (Queens), Ph.D (York) , Assistant Professor
- C. Cochrane, B.A. (St. Thomas), M.A. (McGill), Ph.D. (Toronto), Associate Professor
- M. Hoffmann, B.S. (Michigan Technological), Ph.D. (George Washington), Professor
- R. Levine, B.A. (Rochester), Ph.D. (Duke), Associate Professor, Teaching Stream
- S. Renckens, B.A., M.A., M.Sc. (Leuven), Ph.D. (Yale), Associate Professor
- R. Schertzer, B.A. (Carleton), M.Sc., Ph.D. (London School of Economics), Associate Professor
- G. Skogstad, B.A., M.A. (Alberta), Ph.D. (British Columbia), Professor Emerita
- T. Soremi, B.A. (Obafemi Awolowo), M.A. (Sussex), Ph.D. (Exeter), Assistant Professor, Teaching Stream
- P. Triadafilopoulos, B.A. (Toronto), M.A., (Brock), Ph.D. (New School NY), Associate Professor

Chair: Christopher Cochrane

Program Advisor Email: pol-advisor@utsc.utoronto.ca

For more information, [visit the Department of Political Science website](#).

The Department of Political Science hosts the Specialist, Major, and Minor programs in Political Science, the Major and Major (Co-op) programs in Public Policy, and the Major and Minor programs in Public Law.

For more information on Political Science and Public Law programs, please see the [Political Science](#) and [Public Law](#) sections of the *Calendar*.

Guidelines for First-Year Course Selection

Students who intend to complete the Public Policy programs should include the following in their first-year course selection: 1.0 credit at the A- or B-level in Anthropology, City Studies, Geography, International Development Studies, Political Science or Sociology; at least 0.5 credit at the A-level in Political Science is recommended.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Public Policy Programs

MAJOR PROGRAM IN PUBLIC POLICY (ARTS) - SCMAJPUBP

The Major Program in Public Policy equips students with the analytical and methodological skills they will need to secure employment as policy analysts in government, business, and non-governmental sectors, or to continue to graduate training in public policy.

The Program is cross-disciplinary. Public policy analysis is the exercise of applying the theoretical frameworks and positivist and interpretive methodologies of the social sciences and humanities to understand the development, implementation, and evaluation of public policy. It requires the ability to think clearly and critically, to design and execute research projects, to analyze both quantitative and qualitative data, and to write clearly. It also requires an understanding

of the context, institutions, and processes of policy-making and implementation, as well as concepts and criteria for policy evaluation.

Program Requirements

Students must complete a total of 8.0 credits as follows:

1. 1.0 credit at the A- or B-level in Anthropology, City Studies, Geography, International Development Studies, Political Science, or Sociology

Note: at least 0.5 credit at the A-level in Political Science is recommended. We also recommend interested students take introductory courses in disciplines like City Studies, Economics for Management Studies, Environmental Science, Health and Society, International Development Studies, and Sociology that may reflect their particular substantive interests.

2. Economics for Public Policy (1.0 credit):

MGEA01H3 and MGEA05H3 or MGEA02H3 and MGEA06H3

3. Canadian Politics (1.0 credit)

POLB56H3 Canadian Politics and Government

POLB57H3 The Canadian Constitution and Charter of Rights

4. Fundamentals of Public Policy (1.0 credit)

PPGB66H3/(PPGC66H3) Public Policy Making

PPGC67H3 Public Policy in Canada

5. Statistics 0.5 credit from:

MGEB11H3 Quantitative Methods in Economics I

POLB40H3 Quantitative Reasoning for Political Science and Public Policy

STAB22H3 Statistics I

STAB23H3 Introduction to Statistics for the Social Sciences

STAB57H3 An Introduction to Statistics

6. Methods 0.5 credits from:

GGRA30H3 Geographic Information Systems (GIS) and Empirical Reasoning

PPGB11H3 Policy Communications with Data

POLC11H3 Applied Statistics for Politics and Public Policy

POLC78H3 Political Analysis I

7. Applications of Public Policy (3.0 credits in Public Policy courses,* from the following list or other courses with the approval of the supervisor of studies; of these, 2.0 credits must be at the C- or D-level and an additional 0.5 credits at the D-level).

MAJOR (CO-OPERATIVE) PROGRAM IN PUBLIC POLICY (ARTS) - SCMAJPUBPC

For more information, please contact:

Academic Program Advisor: pol-advisor@utsc.utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Public Policy is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors.

The program equips students with the analytical and methodological skills to secure employment as policy analysts in government, business, and the non-governmental sectors, or to continue on to graduate training in public policy. The Program is cross-disciplinary; public policy analysis is the exercise of applying the theoretical frameworks and the positivist and interpretive methodologies of the social sciences and humanities to understand the development, implementation, and evaluation of public policy. It requires the ability to think clearly and critically, to design and execute research projects, to analyze both quantitative and qualitative data, and to write clearly. It also requires an understanding of the context, institutions, and processes of policy-making and implementation, as well as concepts and criteria for policy evaluation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, plus a cumulative GPA of at least 2.5. To be eligible for their first work term, students must be enrolled in the Major (Co-op) Program in Public Policy and have completed at least 7.0 credits. It is strongly recommended that students include MGEA01H3/MGEA02H3, MGEA05H3/MGEA06H3, POLB56H3, PPGB66H3, and 0.5 credit of Statistics (requirement 5) or Methods (requirement 6) as part of meeting the minimum 7.0 FCEs.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Program Requirements

Students must complete the program requirements as described in the Major Program in Public Policy.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MINOR PROGRAM IN URBAN PUBLIC POLICY AND GOVERNANCE (ARTS) - SCMIN1811

For more information, please contact Academic Program Advisor at cit-advisor@utsc.utoronto.ca

The cross-disciplinary Minor program in Urban Public Policy and Governance equips students with the conceptual tools and methodological skills they will need to understand and analyze processes of city-regional and municipal governance and policy-making in Canadian and comparative perspective. The main emphasis is placed on the policy and governance dilemmas of contemporary local governments and how these are distinct from those experienced at other levels: structural revenue constraints, infrastructure deficits, socio-spatial polarization, competition for investment, inadequate accountability and ethics regimes for politicians and public servants, and the distinctive ways in which local policymaking takes place through public deliberation.

Students completing the Minor program in Urban Public Policy and Governance combined with a Major program in City Studies, Public Policy, Human Geography, Political Science, Economics for Management Studies, History, Critical Development Studies or other relevant programs will be well prepared for graduate studies in public policy and governance, urban planning, and public administration, and for public sector careers at the municipal and provincial levels, or in the non-profit and advocacy sectors.

Program Requirements

This program requires the completion of 4.0 credits as follows:

1. Foundations - 1.0 credit as follows:CITB04H3 City Politics

and

0.5 credit from the following:

CITB01H3 Canadian Cities and PlanningGGRA03H3 Cities and EnvironmentsGGRB05H3 Urban GeographyPOLB56H3 Critical Issues in Canadian PoliticsPOLB57H3 The Canadian Constitution and the Charter of Rights**2. Public Policy Courses

POLB40H3 - Quantitative Reasoning for Political Science and Public Policy

This course introduces students to tools and foundational strategies for developing evidence-based understandings of politics and public policy. The course covers cognitive and other biases that distort interpretation. It then progresses to methodological approaches to evidence gathering and evaluation, including sampling techniques, statistical uncertainty, and deductive and inductive methods. The course concludes by introducing tools used in advanced political science and public policy courses.

Areas of Focus: Public Policy, and Quantitative and Qualitative Analysis

Prerequisite: Any 4.0 credits

Exclusion: POL222H1, SOCB35H3, STAB22H3, STAB23H3

Breadth Requirements: Quantitative Reasoning

POLC11H3 - Applied Statistics for Politics and Public Policy

In this course, students learn to apply data analysis techniques to examples drawn from political science and public policy. Students will learn to complete original analyses using quantitative techniques commonly

employed by political scientists to study public opinion and government policies. Rather than stressing mathematical concepts, the emphasis of the course will be on the application and interpretation of the data as students learn to communicate their results through papers and/or presentations.

Area of Focus: Quantitative and Qualitative Analysis

Prerequisite: STAB23H3 or equivalent

Exclusion: (POLB11H3)

Breadth Requirements: Quantitative Reasoning

POLC12H3 - Global Public Policy and the Sustainable Development Goals (SDGs)

This course will introduce students to the global policymaking process, with an emphasis on the Sustainable Development Goals (SDGs). Students will make practical contributions to the policy areas under the SDGs through partnerships with community not-for-profit organizations, international not-for-profit organizations, or international governmental organizations. Students will learn about problem definition and the emergence of global policy positions in the SDG policy areas. They will assess the roles of non-state actors in achieving the SDGs and analyze the mechanisms that drive the global partnership between developing countries and developed countries.

Area of Focus: Public Policy

Prerequisite: 8.0 credits including [1.0 credit from POLB80H3, POLB81H3, POLB90H3 or POLB91H3]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

POLC13H3 - Program Evaluation

This course introduces students to the frameworks and practice of program evaluation. It focuses on the policy evaluation stage of the policy cycle. The course explains the process of assessing public programs to determine if they achieved the expected change. Students will learn about program evaluation methods and tools and will apply these in practical exercises. They will also learn about the use of indicators to examine if the intended outcomes have been met and to what extent. Students will engage in critical analysis of program evaluation studies and reports.

Areas of Focus: Public Policy and Quantitative and Qualitative Analysis

Prerequisite: PPGB66H3 and a minimum CGPA of 2.5

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

POLC36H3 - Law and Public Policy

This course examines how different types of legal frameworks affect processes and outcomes of policy-making. It contrasts policy-making in Westminster parliamentary systems and separation of powers systems; unitary versus multi-level or federal systems; and systems with and without constitutional bills of rights.

Areas of Focus: Public Policy and Public Law

Prerequisite: [POLB56H3 and POLB57H3] or (POLB50Y3)

Recommended Preparation: PPGB66H3/(POLC66H3)/(PPGC66H3)

Breadth Requirements: Social and Behavioural Sciences

POLC53H3 - Canadian Environmental Policy

This course examines the ideas and success of the environmental movement in Canada. The course focuses on how environmental policy in Canada is shaped by the ideas of environmentalists, economic and political interests, public opinion, and Canada's political-institutional framework. Combined lecture-seminar format.

Areas of Focus: Canadian Government and Politics; Public Policy

Prerequisite: (POLB50Y3) or [POLB56H3 and POLB57H3] or ESTB01H3 or [1.5 credits at the B-level in CIT courses]

Breadth Requirements: Social and Behavioural Sciences

POLC54H3 - Intergovernmental Relations in Canada

This course examines relations between provincial and federal governments in Canada, and how they have been shaped by the nature of Canada's society and economy, judicial review, constitutional amendment, and regionalisation and globalization. The legitimacy and performance of the federal system are appraised. Lecture-seminar format.

Areas of Focus: Canadian Government and Politics; Public Policy

Prerequisite: [POLB56H3 and POLB57H3] or (POLB50Y3)

Exclusion: POL316Y

Breadth Requirements: Social and Behavioural Sciences

POLC57H3 - Intergovernmental Relations and Public Policy

This course examines intergovernmental relations in various areas of public policy and their effects on policy outcomes. It evaluates how federalism affects the capacity of Canadians to secure desirable social, economic, environmental and trade policies. Lecture-seminar format.

Areas of Focus: Canadian Government and Politics; Public Policy

Prerequisite: [(POLB50Y3) or [POLB56H3 and POLB57H3]]

Exclusion: POL316Y

Breadth Requirements: Social and Behavioural Sciences

POLC65H3 - Political Strategy

This course focuses on analyzing and influencing individual and collective choices of political actors to understand effective strategies for bringing about policy changes. We will draw on the psychology of persuasion and decision-making, as well as literature on political decision-making and institutions, emphasizing contemporary issues. During election years in North America, special attention will be paid to campaign strategy. There may be a service-learning requirement. Areas of Focus: Comparative Politics, and Public Policy

Prerequisite: Any 4.0 credits

Breadth Requirements: Social and Behavioural Sciences

POLC83H3 - Applications of American Foreign Policy

This course examines the foreign policy of the United States by analyzing its context and application to a specific region, regions or contemporary problems in the world.

Areas of Focus: International Relations; Public Policy; Comparative Politics

Prerequisite: Any 4.0 credits

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

POLC93H3 - Public Policies in the United States

This course focuses on selected policy issues in the United States.

Areas of Focus: Comparative Politics; Public Policy

Prerequisite: One full credit in Political Science at the B-level

Exclusion: POL203Y

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

POLD32H3 - Racism, the Law, and Public Policy

Is the Canadian state racist? Is the law a tool of anti-racist resistance or a tool of racial oppression? Is racial categorization in public policy inherently inequitable or strategically necessary? This seminar course explores the complex relationship between racism, the law, and public policy within the context of Canadian institutions. Students will engage with critical race theory, case law, state policy documents, race-based data collection, and Canadian political science scholarship.

Areas of Focus: Public Law and Public Policy

Prerequisite: [POLB56H3 and POLB57H3] and [2.0 credits at the C-level in any courses]

Breadth Requirements: Social and Behavioural Sciences

POLD50H3 - Political Interests, Political Identity, and Public Policy

This course examines the interrelationship between organized interests, social movements and the state in the formulation and implementation of public policy in Canada and selected other countries.

Areas of Focus: Canadian Government and Politics; Public Policy

Prerequisite: [(POLB50Y3) or [POLB56H3 and POLB57H3]] and [1.5 credits at the C-level in POL or PPG courses]

Breadth Requirements: Social and Behavioural Sciences

POLD52H3 - Immigration and Canadian Political Development

Immigration has played a central role in Canada's development. This course explores how policies aimed at regulating migration have both reflected and helped construct conceptions of Canadian national identity. We will pay particular attention to the politics of immigration policy-making, focusing on the role of the state and social actors.

Areas of Focus: Canadian Government and Politics; Public Policy

Prerequisite: [(POLB50Y3) or [POLB56H3 and POLB57H3]] and [1.5 credits at the C-level in POL or PPG courses]] or [15.0 credits including SOCB60H3]

Breadth Requirements: Social and Behavioural Sciences

POLD67H3 - The Limits of Rationality

This course critically examines the relationship between politics, rationality, and public policy-making. The first half of the course surveys dominant rational actor models, critiques of these approaches, and alternative perspectives. The second half of the course explores pathological policy outcomes, arrived at through otherwise rational procedures.

Areas of Focus: Comparative Politics; Political Theory; Public Policy

Prerequisite: PPGB66H3/(PPGC66H3/(POLC67H3) or [(POLB70H3) and (POLB71H3)] or POLB72H3] or [POLB90H3 and POLB91H3] and [1.0 additional credit at the C-level in POL or PPG courses]

Breadth Requirements: Social and Behavioural Sciences

POLD89H3 - Global Environmental Politics

Examines the challenges faced by humanity in dealing with global environmental problems and the politics of addressing them. Focuses on both the underlying factors that shape the politics of global environmental problems - such as scientific uncertainty, North-South conflict, and globalization - and explores attempts at the governance of specific environmental issues.

Area of Focus: International Relations; Public Policy

Prerequisite: [(POLB80H3 and POLB81H3] or ESTB01H3]] and [2.0 credits at the C-level in any courses]

Exclusion: POL413H1

Breadth Requirements: Social and Behavioural Sciences

POLD90H3 - Public Policy and Human Development in the Global South

While domestic and international political factors have discouraged pro human development public policies in much of the global south, there have been some important success stories. This course examines the economic and social policies most successful in contributing to human development and explores the reasons behind these rare cases of relatively successful human development.

Areas of Focus: Comparative Politics; Public Policy

Same as IDSD90H3

Prerequisite: [1.0 credit from: IDSB01H3, IDSB04H3, POLB90H3, POLB91H3] and [2.0 credits at the C-level in any courses]

Exclusion: IDSD90H3

Breadth Requirements: Social and Behavioural Sciences

PPGB11H3 - Policy Communications with Data

Policy analysts frequently communicate quantitative findings to decision-makers and the public in the form of graphs and tables. Students will gain experience finding data, creating effective graphs and tables, and integrating those data displays in presentations and policy briefing notes. Students will complete assignments using Excel and/or statistical programs like Tableau, STATA, SPSS and/or R.

Recommended Preparation: STAB23H3 or equivalent

Breadth Requirements: Quantitative Reasoning

PPGB66H3 - Public Policy Making

This course provides an introduction to the study of public policy. The course will address theories of how policy is made and the influence of key actors and institutions. Topics include the policy cycle (agenda setting, policy information, decision making, implementation, and evaluation), policy durability and change, and globalization and policy making.

Areas of Focus: Public Policy, Comparative Politics, Canadian Government and Politics

Prerequisite: Any 4.0 credits or enrolment in an Arts and Science Co-op Degree POST

Exclusion: (POLC66H3), (PPGC66H3)

Breadth Requirements: Social and Behavioural Sciences

PPGC67H3 - Public Policy in Canada

This course is a survey of contemporary patterns of public policy in Canada. Selected policy studies including managing the economy from post-war stabilization policies to the rise of global capitalism, developments in the Canadian welfare state and approaches to external relations and national security in the new international order.

Areas of Focus: Canadian Government and Politics; Public Policy

Prerequisite: [(POLB50Y3) or [POLB56H3 and POLB57H3]] or 1.5 credits at the B-level in CIT courses

Exclusion: (POLC67H3)

Breadth Requirements: Social and Behavioural Sciences

PPGD64H3 - Comparative Public Policy

This seminar course explores some of the major theoretical approaches to the comparative analysis of public policies across countries. The course explores factors that influence a country's policy-making process and why countries' policies diverge or converge. Empirically, the course examines several contemporary issue areas, such as economic, social or environmental policies.

Areas of Focus: Comparative Politics; Public Policy

Prerequisite: PPGB66H3/(PPGC66H3) and [(POLB50Y3) or [POLB56H3 and POLB57H3]] or [(POLB92H3) and (POLB93H3)] and [1.5 credits at the C-level in POL or PPG courses]

Exclusion: (POLD64H3)

Recommended Preparation: PPGC67H3

Breadth Requirements: Social and Behavioural Sciences

PPGD68H3 - Capstone: The Policy Process in Theory and Practice

A review and application of theories of public policy. A case-based approach is used to illuminate the interplay of evidence (scientific data, etc.) and political considerations in the policy process, through stages of agenda-setting, formulation, decision-making, implementation and evaluation. Cases will be drawn from Canada, the United States and other industrialized democracies, and include contemporary and historical policies.

Prerequisite: PPGB66H3 and [(POLB50Y3) or [POLB56H3 and POLB57H3]] and [1.5 credits at the C-level in POL courses]

Breadth Requirements: Social and Behavioural Sciences

Religion

Undergraduate Advisor: 416-287-7184 Email: religion-undergrad-advisor@utsc.utoronto.ca

The Minor in Religion is suspended to new enrolments. Students who are already enrolled in the Program should consult the 2012-13 *Calendar*.

The Department of Historical and Cultural Studies continues to offer courses in a variety of programs that address major questions in the study of religion. It also offers introductory courses in the history and practice of world religions.

Religion Courses

RLGA01H3 - World Religions I

An introduction to major religious traditions of the world. This course emphasizes the history, beliefs, practices and writings of Hinduism, Jainism, Sikhism, Buddhism, Confucianism, Taoism, and Shinto.

Exclusion: (HUMB04H3)

Breadth Requirements: History, Philosophy and Cultural Studies

RLGA02H3 - World Religions II

An introduction to major religious traditions of the world. This course emphasizes the history, beliefs, practices and writings of Judaism, Christianity and Islam.

Exclusion: (HUMB03H3)

Breadth Requirements: History, Philosophy and Cultural Studies

RLGB02H3 - Living Religions: Rituals and Experiences

Critical comparative study of the major Indian religious traditions.

Breadth Requirements: History, Philosophy and Cultural Studies

RLGB10H3 - Introduction to the Study of Religion

An introduction to the academic study of religion, with special attention to method and theory.

Breadth Requirements: History, Philosophy and Cultural Studies

RLGC05H3 - The Qur'an in Interpretive and Historical Context

An exploration of the origins, content, interpretation, and significance of the Qur'an, with a particular emphasis on its relationship to the scriptural tradition of the Abrahamic faiths. No knowledge of Arabic is required.

Prerequisite: RLGA02H3 or (RLGB01H3) or (HUMB03H3)

Exclusion: RLG351H, NMC285H, (HUMC17H3)

Breadth Requirements: History, Philosophy and Cultural Studies

RLGC06H3 - Saints and Mystics in Buddhism

Comparative study of the Madhyamaka and Yogacara traditions, and doctrines such as emptiness (*sunyata*), Buddha-nature (*tathagatagarbha*), cognitive-representation only (*viññaptimatratā*), the three natures (*trisvabhava*).

Prerequisite: RLGA01H3 or (HUMB04H3)

Exclusion: EAS368Y

Breadth Requirements: History, Philosophy and Cultural Studies

RLGC07H3 - Topics in Buddhist Philosophy: Buddhist Ethics

Buddhism is a response to what is fundamentally an ethical problem - the perennial problem of the best kind of life for us to lead. Gotama was driven to seek the solution to this problem and the associated ethical issues it raises. This course discusses the aspects of *śīla*, ethics and psychology, *nirvana*; ethics in Mahayana; Buddhism, utilitarianism, and Aristotle.

Prerequisite: RLGA01H3 or (HUMB04H3) or (PHLB42H3)

Exclusion: NEW214Y, (PHLC40H3)

Breadth Requirements: History, Philosophy and Cultural Studies

RLGC09H3 - Islam in Asia

The course examines the development of Islam in the contexts of Asian religions and cultures, and the portrayal of the Muslim world in Asian popular culture.

Prerequisite: RLGA01H3 or (HUMB04H3)

Recommended Preparation: RLGC05H3

Breadth Requirements: History, Philosophy and Cultural Studies

RLGC10H3 - Hinduism in South Asia and the Diaspora

An examination of Hinduism in its contemporary diasporic and transnational modes in South Asia. Attention is also paid to the development of Hinduism in the context of colonialism.

Prerequisite: RLGA01H3 or (HUMB04H3)

Recommended Preparation: RLGB02H3

Breadth Requirements: History, Philosophy and Cultural Studies

RLGC13H3 - Religious Diversity in Speech and Text

Philosophical, anthropological, historical, and linguistic discussions about language use in a variety of religious contexts. The course examines the function of language through an analysis of its use in both oral and written form.

Prerequisite: Any 5 full credits, including RLGA01H3 or RLGA02H3 or RLGB10H3

Breadth Requirements: History, Philosophy and Cultural Studies

RLGC14H3 - Religion and Globalization: Continuities and Transformations

The course cultivates an appreciation of the global perspective of religions in the contemporary world and how religious frameworks of interpretation interact with modern social and political realities. It provides a viewpoint of religion through ideas and issues related to globalization, syncretism, and modernity.

Prerequisite: Any 5 full credits, including RLGA01H3 or RLGA02H3 or RLGB10H3

Breadth Requirements: Social and Behavioural Sciences

RLGC40H3 - Selected Topics in the Study of Religion I

Intensive study of selected topics discussed in RLGA01H3 (World Religions I) that will vary with each offering of the course.

Prerequisite: 2.0 full credits in RLG and permission of the instructor

Exclusion: (HUMC44H3)

Breadth Requirements: History, Philosophy and Cultural Studies

RLGC41H3 - Selected Topics in the Study of Religion II

Intensive study of selected topics discussed in RLGA02H3 (World Religions II) that will vary with each offering of the course.

Prerequisite: 2.0 full credits in RLG and permission of the instructor

Exclusion: (HUMC43H3)

Breadth Requirements: History, Philosophy and Cultural Studies

RLGD01H3 - Supervised Readings in the Study of Religion

A student-initiated research project to be approved by the Department and supervised by one of the faculty members.

Prerequisite: 2.0 full credits in RLG at the C-level and permission of the instructor

RLGD02H3 - Seminar in Religion

A seminar in which students have the opportunity, under the supervision of a member of the Religion faculty, to develop and present independent research projects focused around a set of texts, topics, and/or problems relevant to the study of religion.

Prerequisite: RLGB10H3 and 2 C-level courses in Religion

Sociology

Faculty List

- C. Childress, B.A. (Vassar College), M.A., Ph.D. (UC-Santa Barbara), Associate Professor
- M. DeGagné, B.Sc. (Toronto), M.Ed. (Central Michigan), L.L.M. (York), M.Phil (Saint Paul), Ph.D. (Michigan State), Professor
- E.F. Elcioglu, M.A., Ph.D. (UC-Berkeley), Assistant Professor
- E. Fosse, B.A. (Kansas), M.A., Ph.D. (Harvard), Assistant Professor
- A. Grigoryeva, B.A. (National University-Higher School of Economics, Moscow), M.A., Ph.D. (Princeton), Assistant Professor
- J. Hannigan, B.A., M.A. (Western), Ph.D. (Ohio State), Professor
- J. Hermer, B.A. (Western), M.A. (Carleton), D.Phil. (Oxon), Associate Professor
- P-C. Hsiung, B.A. (National Chun-sing), M.A. (Chinese Cultural), M.A., Ph.D. (UCLA), Professor Emeriti
- W.W. Isajiw, B.A. (LaSalle), M.A., Ph.D. (Catholic University of America), Professor Emeritus
- D. Kwan-Lafond, BSW (Ryerson), M.Ed. (OISE), Ph.D. (York), Assistant Professor, Teaching Stream
- P. Landolt, B.A., M.A. (York), M.A., Ph.D. (Johns Hopkins), Professor
- K. Liddle, B.A. (Oberlin College), M.A. (Auburn), Ph.D. (Emory), Associate Professor
- A. Mullen, B.A. (UC-Berkeley), M.A., Ph.D. (Yale), Associate Professor
- R. O'Toole, B.A. (Leeds), PGCE (London), M.A. (McMaster), Ph.D. (Toronto), Professor Emeritus
- M. Philips, B.Sc. (Michigan), Ph.D. (Minnesota), Assistant Professor
- P. Romero-Lankao, B.Sc. (Autónoma del Estado de México), Ph.D (Bonn), Professor
- R. Salem, B.A. (American University-Cairo), M.A. (Oxford), Ph.D. (Princeton), Associate Professor
- M. Sarkar B.A. (Colby), M.A., Ph.D. (Johns Hopkins), Professor
- A. Sev'er, B.A., M.A. (Windsor), Ph.D. (York), Professor Emerita
- D. Silver, B.A. (UC-Berkeley), M.A., Ph.D. (Chicago), Professor
- N. Spence, B.A., Ph.D. (Western), Assistant Professor
- J. Tanner, B.Sc. (London), PGCE (Leicester), M.A., Ph.D. (Alberta), Professor Emeritus
- S. Ungar, B.A. (McGill), M.A., Ph.D. (York), Emeritus Associate Professor

Program Chair: J. Hermer

Program Advisor Email: sociologyadvisor.utsc@utoronto.ca

Departmental website: <https://www.utsc.utoronto.ca/sociology/>

Sociology challenges us to see the world in new ways to solve social problems, build resilient communities, and nurture democratic structures. Sociology seeks to explain how society is ordered and disordered, what accounts for social cohesion, cooperation, and conflict, and the causes of social inequality. Sociology is diverse. Sociologists study many social issues: the impact of race, religion, class and gender on life chances; institutions such as families, workplaces, and gangs; processes such as racialization, globalization and indigenization; and politics related to work, health, cultural pluralism, incarceration, and city building. What unifies sociology is the focus on how human action shapes and is shaped by surrounding structures.

Sociology programs teach students how to design and carry out quantitative and qualitative research and analyze evidence to arrive at understanding and explanation. Students acquire a diverse set of transferable skills. You will learn to use theoretically informed and evidence-based arguments to assess concrete social problems. You will become adept at analyzing and interpreting statistics and qualitative data. You will develop excellent verbal and written communication skills and you will learn to translate research into effective social policy recommendations.

Students successfully completing a degree in Sociology at UTSC will acquire a strong foundation for both further studies at a graduate level and for professional careers in fields including law, education, science fields, social work and health care, marketing and communication, human resources, non-profit organizations and social policy among others.

Students are encouraged to contact the Program Advisor or Associate Chair to discuss program requirements and their individual course of study.

Combined Degree Programs, Honours Bachelor of Arts/ Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSc) /Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provide students with a direct pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and Master's degree. These Combined Degree Programs allow students to complete 1.0 credit in courses that may be counted towards both degrees.

The Combined Degree Programs options are:

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

For more information, including Admission and Program requirements, see the [Combined Degree Programs](#) section of the *Calendar*.

Planning a Program in Sociology

Students are advised to take required courses in the Specialist and Major Programs as early in their careers as possible. For example, [SOCA05H3](#) should be taken during the first year, [SOCB05H3](#), [SOCB35H3](#), [SOCB42H3](#) and [SOCB43H3](#) should be taken during the second year and [SOCC40H3](#) should be taken during the third year. Failure to do so may lead to timetable conflicts and could prolong the completion of the program.

Prerequisites

Students are reminded that they are not permitted to register in courses for which they have not completed the prerequisites indicated in the *Calendar*. They may only enter a course for which they lack the prerequisites by obtaining permission from the Department of Sociology prior to registration. Ineligible students will be removed from courses.

Applied Writing Skills Courses

Courses designated as Applied Writing Skills Courses develop students' writing skills. Students receive formative feedback on drafts of written work and the opportunity to develop a piece of writing over the term. Specific in-depth feedback on writing is given by the course instructor or course TA. The Applied Writing Skills Courses are: [SOCC03H3](#), [SOCC11H3](#), [SOCC23H3](#), [SOCC24H3](#), [SOCC30H3](#), [SOCC31H3](#), [SOCC34H3](#), [SOCC40H3](#), [SOCC47H3](#) and [SOCC58H3](#).

Research-Intensive Courses

Students interested in careers involving research or in pursuing graduate school or professional programs are strongly advised to take courses that ensure the development of their research skills including the logic of argumentation, research design, and data collection and analysis. In their second year, students should take [SOCB05H3](#) and [SOCB35H3](#). In the third year, two C-level research practicums ([SOCC23H3](#) and [SOCC31H3](#)) offer students the opportunity to carry out independent research projects. In their final year, students are encouraged to take research-based courses such as [SOCD01H3](#), [SOCD02H3](#), [SOCD05H3](#), [SOCD21H3](#), [SOCD25H3](#), [SOCD50H3](#) and [SOCD51H3](#).

Special Topic Courses

Themes for special topic courses will vary year to year. For more information, please visit the [Department of Sociology website](#).

Enrolment Priority

Program students will be given priority access to all Sociology courses.

Sociology Areas of Concentration:

- **Culture and Cities:** [SOCB44H3](#), [SOCB58H3](#), [SOCC26H3](#), [SOCC27H3](#), [SOCC44H3](#), [SOCC54H3](#), [SOCD01H3](#), [SOCD51H3](#)
- **Criminology and Sociology of Law:** [SOCB50H3](#), [SOCB59H3](#), [SOCC03H3](#), [SOCC11H3](#), [SOCC30H3](#), [SOCC45H3](#), [SOCC46H3](#), [SOCD05H3](#)
- **Gender and Family:** [SOCB22H3](#), [SOCB49H3](#), [SOCC09H3](#), [SOCC24H3](#), [SOCC29H3](#), [SOCC38H3](#), [SOCD10H3](#), [SOCD20H3](#)
- **Migration and Ethnicity:** [SOCB53H3](#), [SOCB60H3](#), [SOCC25H3](#), [SOCC34H3](#), [SOCC52H3](#), [SOCC55H3](#), [SOCD15H3](#), [SOCD21H3](#)
- **Economy, Politics and Society:** [SOCB30H3](#), [SOCB37H3](#), [SOCB54H3](#), [SOCB70H3](#), [SOCC04H3](#), [SOCC15H3](#), [SOCC57H3](#), [SOCC58H3](#), [SOCC59H3](#), [SOCD25H3](#)

Program Combination Restrictions in Sociology

The Specialist, Major and Minor programs in Sociology cannot be combined; however, students may combine the Specialist in Sociology OR the Major in Sociology with either the Minor in Culture, Creativity and Cities OR the Minor in Critical Migration Studies. Students who combine their Specialist or Major in Sociology with one of the two Minor programs may only count [SOCA05H3](#) toward both programs. Other Sociology programs cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Sociology Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBA) / Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBA and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator
Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching

- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.

- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
 - if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
 - if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
 - for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
 - for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:
 - students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

SPECIALIST PROGRAM IN SOCIOLOGY (ARTS) - SCSPE1013

Enrolment Requirements

Enrolment in the Specialist program is limited. Students will normally apply to enter the program after completing 4.0 or 5.0 credits including [SOCA05H3](#). Decisions are made on program admissions only twice a year, in May and in August, and are based on student requests submitted to the Office of the Registrar through ROSI. Admission will require a final grade of 70% or higher in [SOCA05H3](#) (or 70% or higher in [SOCA03Y3](#), or a CGPA of 70% or higher in [SOCA01H3](#) and [SOCA02H3](#)). For students applying after completing 8.0 to 10.0 credits, admission will be on the basis of SOC courses completed, or on overall CGPA for those students who have not completed any SOC courses. Specialist students will be entitled to priority access to [SOCB42H3](#), [SOCB43H3](#), [SOCC23H3](#) and [SOCC31H3](#), for fall-winter sessions, during the summer early registration period.

Program Requirements

The Program requires completion of 12.0 credits as described below. No more than 14.0 credits in Sociology may be included in a four-year degree.

1. 1.0 credit as follows:

[SOCA05H3](#) and [SOCA06H3](#) [or ([SOCA03Y3](#)) or ([SOCA01H3](#)) and ([SOCA02H3](#))]

2. [SOCB05H3](#) Logic of Social Inquiry

3. [SOCB35H3](#) Numeracy and Society

4. **SOCB42H3** Theory I: Discovering the Social
 5. **SOCB43H3** Theory II: Big Ideas in Sociology
 6. 3.0 credits at the B-level in Sociology
 7. **SOCC40H3** Contemporary Sociological Theory
 8. **SOCC23H3** Research in Action: Gathering and Analyzing Qualitative Data
or
SOCC31H3 Research in Action: Quantitative Data and Statistical Analysis
 9. 0.5 credit in SOC at the C-level that has been designated as an Applied Writing Skills course
 10. 4.5 additional credits at the C- or D- level in SOC courses*, of which at least 1.0 credit must be at the D-level.
- *Students may substitute courses from cognate disciplines with the prior approval of the program supervisor.

MAJOR PROGRAM IN SOCIOLOGY (ARTS) - SCMAJ1013

Enrolment Requirements

Enrolment in the Major program is limited. Students will normally apply to enter the program after completing 4.0 or 5.0 credits including SOCA05H3. Decisions are made on program admissions only twice a year, in May and in August, and are based on student requests submitted to the Office of the Registrar through ACORN. Admission will require a final grade of 65% or higher in SOCA05H3 (or a final grade of 65% or higher in SOCA03Y3, or a CGPA of 65% or higher in SOCA01H3 and SOCA02H3). For students applying after completing 8.0 to 10.0 credits, admission will be on the basis of SOC courses completed, or on overall CGPA for those students who have not completed any SOC courses.

Program Requirements

The Program requires completion of 7.0 credits in Sociology including:

1. 0.5 credit from one of the following:

SOCA05H3 The Sociological Imagination
SOCA01H3 Introduction to Sociology I
SOCA02H3 Introduction to Sociology II
SOCA03Y3 Introduction to Sociology

2. **SOCA06H3** Sociology in the World: Careers and Applications

3. **SOCB05H3** Logic of Social Inquiry

4. **SOCB35H3** Numeracy and Society

5. **SOCB42H3** Theory I: Discovering the Social

6. **SOCB43H3** Theory II: Big Ideas in Sociology

7. 0.5 credit in SOC courses at the C-level that has been designated as an Applied Writing Skills course

8. 3.5 additional credits in SOC courses, of which at least 1.5 credits must be at the C- or D-level

MINOR PROGRAM IN CRITICAL MIGRATION STUDIES (ARTS) - SCMIN1017

The Minor program in Critical Migration Studies offers students an understanding of the causes and consequences of international migration in sending, transit and receiving societies. Issues of race and ethnicity are highlighted along with the role of class, gender, sexuality, and citizenship in understanding how societies decide to include, exclude, and regulate different groups of migrants. The Minor is interdisciplinary in content and method. Through data-driven coursework and experiential learning, students will develop a suite of transferable skills in research design, quantitative and qualitative data analysis, written, oral, and digital communication.

Program Restrictions

Students in the Minor Program in Critical Migration Studies may count only 1.0 credit in Sociology courses towards completion of the program from the following list: [SOCA05H3], or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3), and SOCB05H3.

Program Requirements

The program requires the completion of 4.0 credits as follows:

1. 1.0 credit from the following:

ANTA02H3 Introduction to Anthropology: Society, Culture and Language
GASA01H3/HISA06H3 Introducing Global Asia and its Histories
GASA02H3 Introduction to Global Asia Studies
GGRA02H3 The Geography of Global Processes
HISA04H3 Themes in World History I
HISA05H3 Themes in World History II
HLTA02H3 Exploring Health and Society: Theories, Perspectives, and Patterns
HLTA03H3 Navigating Health and Society: Research, Practice, and Policy
POLA01H3 Critical Issues in Politics I
POLA02H3 Critical Issues in Politics II
SOCA05H3 The Sociological Imagination
(SOCA01H3) Introduction to Sociology I
(SOCA02H3) Introduction to Sociology II
(SOCA03Y3) Introduction to Sociology

2. SOCB60H3 Issues in Critical Migration Studies

3. 0.5 credit from the following:

ANTB19H3 Ethnography and the Comparative Study of Human Societies
ANTB20H3 Ethnography and the Global Contemporary
GGRB02H3 The Logic of Geographical Thought
HISB03H3 Critical Writing and Research for Historians
HLTB15H3 Health Research Methodology
SOCB05H3 Logic of Social Inquiry

4. 0.5 credit from the following:

ANTB16H3 Canadian Cultural Identities
GASB53H3 Mughals and the World, 1500-1858 AD
(GASB74H3)/(HISB74H3) Asian Foods and Global Cities
GGRA35H3 The Great Scarborough Mashup: People, Place, Community, Experience
SOCB53H3 Race and Ethnicity

5. 1.0 credit from the following:

ANTC34H3 The Anthropology of Transnationalism
CITC01H3 Urban Communities and Neighbourhoods Case Study: East Scarborough
ESTB14H3/(HISB14H3) Why We Cook
GASC59H3 The Making of Tamil Worlds
GASD01H3/HISD09H3 Senior Seminar: Topics in Global Asian Migrations
GASD56H3 'Coolies' and Others: Asian Labouring Diasporas in the British Empire
(GGRC56H3) Spaces of Travel: Unsettling Migration, Tourism, and Everyday Mobilities
(GGRD19H3) Spaces of Multiraciality: Critical Mixed Race Theory
HISC11H3 Multiculturalism and Cultural Identities in the Greek and Roman Worlds
HISC36H3 People in Motion: Immigrants and Migrants in U.S History

[HISD31H3](#) Thinking of Diversity: Perspectives on American Pluralisms
[HISD35H3](#) The Politics of American Immigration, 1865-present
[HLTD06H3](#) Migration, Medicine, and the Law
[POLD52H3](#) Immigration and Canadian Political Development
[SOCC25H3](#) Ethnicity, Race and Migration
[SOCC34H3](#) Migrations and Transnationalisms
[SOCC52H3](#) Immigration, Citizenship & Settler Colonialism
[SOCC55H3](#) Special Topics in Race and Ethnicity

6. 0.5 credit from the following:

[SOCD15H3](#) Advanced Seminar in Critical Migration Studies
[SOCD21H3](#) Immigrant Scarborough

MINOR PROGRAM IN CULTURE, CREATIVITY, AND CITIES (ARTS) - SCMIN1015

The Minor Program in Culture, Creativity and Cities offers students an in-depth understanding of the relationship between culture and cities. The Minor is interdisciplinary in content and method. Through experiential learning, students will develop a suite of transferable skills in written, oral, and digital communication.

Program Requirements

The program requires the completion of 4.0 credits as follows:

1. 0.5 credit from the following:

[ANTA02H3](#) Introduction to Anthropology: Society, Culture and Language
[CITA01H3](#)/[CITB02H3](#) Foundations of City Studies
[GGRA02H3](#) The Geography of Global Processes
[\(MDSA01H3\)](#)/[MDSA10H3](#) Media Foundations
[\(MDSA02H3\)](#)/[MDSA13H3](#) Media Histories
[MGTA01H3](#) Introduction to Business
[MGTA02H3](#) Managing the Business Organization
[SOCA05H3](#) The Sociological Imagination
[\(SOCA01H3\)](#) Introduction to Sociology I
[\(SOCA02H3\)](#) Introduction to Sociology II
[\(SOCA03Y3\)](#) Introduction to Sociology
[VPAA10H3](#) Introduction to Arts and Media Management

2. [SOCB58H3](#) Sociology of Culture

3. 1.0 credit from the following:

[ACMB10H3](#) Equity and Diversity in the Arts
[ENGB37H3](#) Popular Literature and Mass Culture
[GGRB05H3](#) Urban Geography
[GGRB55H3](#) Cultural Geography
[\(MDSB03H3\)](#)/[MDSB33H3](#) Advertising and Consumer Culture
[\(MDSB25H3\)](#) Political Economy of Media
[SOCB37H3](#) Economy, Culture, and Society
[SOCB44H3](#) Sociology of Cities and Urban Life

4. [SOCC26H3](#) Sociology of Urban Cultural Policies

5. 1.0 credit from the following:

[ENGC59H3](#) Literature and the Environment
[FLMC83H3](#) World Cinema
[GGRC13H3](#) Urban Political Geography
[SOCC27H3](#) Sociology of Suburbs and Suburbanization
[SOCC44H3](#) Media and Society
[SOCC47H3](#) Creative Industries
[SOCD12H3](#) Sociology of Art

SOCD52H3 Sociology of Books
VPAC15H3 Cultural Policy

6. 0.5 credit from the following:

SOCD01H3 Advanced Seminar in Culture and Cities
SOCD51H3 Capstone Seminar in Culture, Creativity, and Cities

MINOR PROGRAM IN SOCIOLOGY (ARTS) - SCMIN1013

Admission to the Minor Program in Sociology is unlimited. However, students are warned that they are not guaranteed admission to B-level and C-level courses during fall and winter session, and thus will be accommodated only after other Program students have been admitted to these courses. Thus some courses may be unavailable, or available only in the summer.

Program Requirements

The Program requires completion of 4.0 credits in Sociology as follows:

1. 0.5 credits from the following:

SOCA05H3 The Sociological Imagination
(SOCA01H3) Introduction to Sociology I
(SOCA02H3) Introduction to Sociology II
(SOCA03Y3) Introduction to Sociology

2. SOCB05H3 Logic of Social Inquiry (0.5 credit)

3. 1.0 credits from the following:

SOCB30H3 Political Sociology
SOCB42H3 Theory I: Discovering the Social
SOCB43H3 Theory II: Big Ideas in Sociology
SOCB47H3 Social Inequality

4. 0.5 additional credit at the B-level in Sociology

5. 1.5 additional credits at the C-level in Sociology

CERTIFICATE IN COMPUTATIONAL SOCIAL SCIENCE - SCCER1040

Computational social science extends theories and analyses from the social science by leveraging tools and techniques from scientific computing and data science. The Certificate in computational social science provides students with training in statistics, modeling, and programming approaches to the analysis of social problems using data, and fosters critical thinking and communication skills crucial to social science research.

Certificate Requirements

Students must complete a minimum of 2.0 credits as follows:

1. 0.5 credit from the following:

SOCB35H3 Numeracy and Society
STAB23H3 Introduction to Statistics for the Social Sciences

2. SOCC70H3 Models of the Social World

3. At least 1.0 credit from the following:

[CSCA20H3](#) Introduction to Programming or equivalent
[GGRB30H3](#) Fundamentals of GIS I
[GGRB32H3](#) Fundamentals of GIS II
[GGRC30H3](#) Advanced GIS
[GGRC32H3](#) Essential Spatial Analysis
[GGRC42H3](#) Making Sense of Data: Applied Multivariate Analysis
[HLTC27H3](#) Community Health and Epidemiology
[POLD56H3](#) Politics and Computational Social Science

Sociology Courses

SOCA05H3 - The Sociological Imagination

Sociology focuses on explaining social patterns and how they impact individual lives. This course teaches students how to think sociologically, using empirical research methods and theories to make sense of society. Students will learn about the causes and consequences of inequalities, the ways in which our social worlds are constructed rather than natural, and the role of institutions in shaping our lives.

Exclusion: (SOC101Y1), (SOCA01H3), (SOCA02H3), (SOCA03Y3)

Breadth Requirements: Social and Behavioural Sciences

SOCA06H3 - Sociology in the World: Careers and Applications

This course explores real-world uses of Sociology, including the preparation Sociology provides for professional schools, and the advantages of Sociology training for serving communities, governments, and the voluntary and private sectors. This course focuses in particular on the unique skills Sociologists have, including data generation and interpretation, communication and analysis techniques, and the evaluation of social processes and outcomes.

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Major and Specialist students will be given priority access to [SOCA06H3](#).

SOCB05H3 - Logic of Social Inquiry

This course introduces the logic of sociological research and surveys the major quantitative and qualitative methodologies. Students learn to evaluate the validity of

research findings, develop research questions and select appropriate research designs.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)] and enrolment in a Sociology program] or [any 4.0 credits and enrolment in the Minor Critical Migration Studies] or [any 4.0 credits and enrolment in the Major Program in Public Law]

Exclusion: SOC150H1, (SOC200H5), (SOC200Y5), SOC221H5, (SOCB40H3), (SOCB41H3)

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

SOCB22H3 - Sociology of Gender

This course examines gender as a sociological category that organizes and, at the same time, is organized by, micro and macro forces. By examining how gender intersects with race, ethnicity, class, sexuality, age, and other dimensions, we analyze the constitution and evolution of gendered ideology and practice.

Prerequisite: [SOCA5H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)] or [WSTA01H3 and WSTA03H3]

Breadth Requirements: Social and Behavioural Sciences

SOCB26H3 - Sociology of Education

This course offers a sociological perspective on a familiar experience: attending school. It examines the stated and hidden purposes of schooling; explores how learning in schools is organized; evaluates the drop-out problem; the determinants of educational success and failure; and, it looks at connections between school and work.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)]

Breadth Requirements: Social and Behavioural Sciences

SOCB28H3 - Sociological Evidence for Everyday Life

This course will engage evidence-based sociological findings that are often related to how individuals make decisions in everyday life. Special attention will be paid to how empirical findings in sociology are used as evidence in different social contexts and decision making processes. The course should enable students to make

direct connections between the insights of sociology and their own lives.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)]

Breadth Requirements: Social and Behavioural Sciences

SOCB30H3 - Political Sociology

An examination of power in its social context. Specific attention is devoted to how and under what conditions power is exercised, reproduced and transformed, as well as the social relations of domination, oppression, resistance and solidarity. Selected topics may include: nations, states, parties, institutions, citizenship, and social movements.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)]

Exclusion: SOC260H1, SOC335H5

Breadth Requirements: Social and Behavioural Sciences

SOCB35H3 - Numeracy and Society

This course introduces the basic concepts and assumptions of quantitative reasoning, with a focus on using modern data science techniques and real-world data to answer key questions in sociology. It examines how numbers, counting, and statistics produce expertise, authority, and the social categories through which we define social reality. This course avoids advanced mathematical concepts and proofs.

Corequisite: [SOCA05H3 or (SOCA03Y3) or [(SOCA01H3) and (SOCA02H3)]] or [any 4.0 credits and enrolment in the Major Program in Public Law] or enrolment in the Certificate in Computational Social Science.

Breadth Requirements: Quantitative Reasoning

SOCB37H3 - Economy, Culture, and Society

This course offers a sociological account of economic phenomena. The central focus is to examine how economic activities are shaped, facilitated, or even impeded by cultural values and social relations, and show that economic life cannot be fully understood outside of its social context. The course will focus on economic activities of production, consumption, and exchange in a wide range of settings including labor and financial markets, corporations, household and intimate economies, informal and illegal economies, and markets of human goods.

Prerequisite: [SOCA05H3 or (SOCA03Y3) or [(SOCA01H3) and (SOCA02H3)]] or [any 4.0 credits and enrolment in the Minor in Culture, Creativity, and Cities]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

SOCB40H3 - Thinking Like a Sociologist

This course builds on SOCA05H3 through a deep engagement with 4-5 significant new publications in Sociology, typically books by department faculty and visiting scholars. By developing reading and writing skills through a variety of assignments, and participating in classroom visits with the researchers who produced the publications, students will learn to "think like a sociologist." Possible topics covered include culture, gender, health, immigration/race/ethnicity, political sociology, social networks, theory, sociology of crime and law, and work/stratification/markets.

Prerequisite: [SOCA05H3 or (SOCA03Y3) or [(SOCA01H3) and (SOCA02H3)]]

Exclusion: SOC230H5

SOCB42H3 - Theory I: Discovering the Social

This course examines a group of theorists whose work provided key intellectual resources for articulating the basic concepts and tasks of sociology. Central topics include: the consequences of the division of labour, sources and dynamics of class conflict in commercial societies, the social effects of industrial production, the causes and directions of social progress, the foundations of feminism, linkages between belief systems and social structures, and the promises and pathologies of democratic societies.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)] and enrolment in a Sociology program

Exclusion: SOC201H1, (SOC203Y1), SOC231H5

Breadth Requirements: History, Philosophy and Cultural Studies

SOCB43H3 - Theory II: Big Ideas in Sociology

This course studies a group of writers who in the early 20th century were pivotal in theoretically grounding sociology as a scientific discipline. Central topics include: the types and sources of social authority; the genesis and ethos of capitalism; the moral consequences of the division of labour; the nature of social facts; the origins of collective moral values; the relationship between social theory and social reform; the nature of social problems and the personal experience of being perceived as a social problem; the formal features of association; the social function of conflict; the social and personal consequences of urbanization.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)] and SOCB42H3 and enrolment in a Sociology program

Exclusion: (SOC203Y1)

Breadth Requirements: History, Philosophy and Cultural Studies

SOCB44H3 - Sociology of Cities and Urban Life

A theoretical and empirical examination of the processes of urbanization and suburbanization. Considers classic and contemporary approaches to the ecology and social organization of the pre-industrial, industrial, corporate and postmodern cities.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)] or [any 4.0 credits and enrolment in the Minor in Culture, Creativity, and Cities, or the Major/Major Co-op in City Studies]

Exclusion: (SOC205Y1), SOC205H1

Breadth Requirements: Social and Behavioural Sciences

SOCB47H3 - Social Inequality

A sociological examination of the ways in which individuals and groups have been differentiated and ranked historically and cross-culturally. Systems of differentiation and devaluation examined may include gender, race, ethnicity, class, sexual orientation, citizenship/legal status, and ability/disability.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)] or [any 4.0 credits and enrolment in the Major/Major Co-op in Public Policy]

Exclusion: SOC301Y

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

SOCB49H3 - Sociology of Family

This course explores the family as a social institution, which shapes and at the same time is shaped by, the society in North America. Specific attention will be paid to family patterns in relation to class, gender, and racial/ethnic stratifications. Selected focuses include: socialization; courtship; heterosexual, gay and lesbian relations; gender division of labour; immigrant families; childbearing and childrearing; divorce; domestic violence; elderly care.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)] or WSTA01H3 and WSTA03H3

Exclusion: SOC214Y

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

SOCB50H3 - Deviance and Normality I

This course explores how deviance and normality is constructed and contested in everyday life. The course revolves around the themes of sexuality, gender, poverty, race and intoxication. Particular attention will be paid to the role of official knowledge in policing social norms.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)] or [any 4.0 credits and enrolment in the Major Program in Public Law]

Exclusion: SOC212Y

Breadth Requirements: Social and Behavioural Sciences

SOCB53H3 - Race and Ethnicity

The course draws on a geographically varied set of case studies to consider both the historical development and contemporary state of the sociological field of race, racialization and ethnic relations.

Prerequisite: [SOCA05H3 or [SOCA01H3 and SOCA02H3] or (SOCA03Y3)] or [any 4.0 credits and enrolment in the Minor in Critical Migration Studies]

Exclusion: SOC210Y

Breadth Requirements: Social and Behavioural Sciences

SOCB54H3 - Sociology of Work

Economic activity drives human society. This course explores the nature of work, how it is changing, and the impact of changes on the transition from youth to adult life. It also examines racism in the workplace, female labour force participation, and why we call some jobs 'professions', but not others.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)]

Exclusion: SOC207H1, (SOC207Y), SOC227H5, GGRD16H3

Breadth Requirements: Social and Behavioural Sciences

SOCB58H3 - Sociology of Culture

An introduction to various ways that sociologists think about and study culture. Topics will include the cultural aspects of a wide range of social phenomena - including inequality, gender, economics, religion, and organizations. We will also discuss sociological approaches to studying the production, content, and audiences of the arts and media.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)] or [any 4.0 credits and enrolment in the Minor in Culture, Creativity, and Cities] or IDS01H3 and enrolment in the Specialist/Specialist Co-op/Major/Minor in International Development Studies

(Arts)]

Exclusion: SOC220H5, SOC280H1, (SOCC18H3),

Breadth Requirements: History, Philosophy and Cultural Studies

SOCB59H3 - Sociology of Law

This course examines the character, authority, and processes of law in contemporary liberal democracies.

Prerequisite: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)] or [any 4.0 credits and enrolment in the Major Program in Public Law]

Breadth Requirements: Social and Behavioural Sciences

SOCB60H3 - Issues in Critical Migration Studies

What are the causes and consequences of migration in today's world? This course will explore this question in two parts. First, we will examine how although people decide to migrate, they make these decisions under circumstances which are not of their own making. Then, we will focus specifically on the experiences of racialized and immigrant groups in Canada, with a particular focus on the repercussions of Black enslavement and ongoing settler-colonialism. As we explore these questions, we will also critically interrogate the primary response of the Canadian government to questions around racial and class inequality: multiculturalism. What is multiculturalism? Is it enough? Does it make matters worse? Students will come away from this course having critically thought about what types of social change would bring about a freer and more humane society.

Prerequisite: [Completion of 1.0 credit from the following courses: [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)], ANTA02H3, GGRA02H3, GASA01H3/HISA06H3, GASA02H3, HISA04H3, or HISA05H3] or [any 4.0 credits and enrolment in the Minor in Critical Migration Studies]

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Minor in Critical Migration Studies. Additional students will be admitted as space permits.

SOCB70H3 - Social Change

This course provides an introductory overview of the nature and causes of social change in contemporary societies. Topics covered include: changes in political ideology, cultural values, ethnic and sexual identities, religious affiliation, family formation, health, crime, social structure, and economic inequality.

Prerequisite: [SOCA05H3 or (SOCA03Y3) or [(SOCA01H3) and (SOCA02H3)]] or [IDSA01H3 and enrolment in the Specialist/Specialist Co-op/Major/Minor

in International Development Studies (Arts)]

Breadth Requirements: Social and Behavioural Sciences

SOCC03H3 - Collective Behaviour

The study of uninstitutionalized group behaviour - crowds, panics, crazes, riots and the genesis of social movements. This course has been designated an Applied Writing Skills Course.

Prerequisite: SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]

Breadth Requirements: Social and Behavioural Sciences

SOCC04H3 - Social Movements

The development of an approach to social movements which includes the following: the origin of social movements, mobilization processes, the career of the movement and its routinization. The course readings will be closely related to the lectures, and a major concern will be to link the theoretical discussion with the concrete readings of movements.

Prerequisite: [SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]

Recommended Preparation: SOCB22H3 or SOCB49H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

SOCC09H3 - Sociology of Gender and Work

Explores the interaction of gender and work, both paid and unpaid work. Critically assesses some cases for central theoretical debates and recent research. Considers gender differences in occupational and income attainment, housework, the relation of work and family, gender and class solidarity, and the construction of gender identity through occupational roles.

Prerequisite: [(SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [8.0 credits, including WSTB05H3 and enrolment in the Major program in Women's and Gender Studies]

Exclusion: SOC362H5

Recommended Preparation: SOCB22H3 or SOCB49H3

Breadth Requirements: Social and Behavioural Sciences

SOCC11H3 - Policing and Security

This course examines the character of policing and security programs in advanced liberal democracies. Attention will be paid to the nature and enforcement of modern law by both state and private agents of order, as well as the dynamics of the institutions of the criminal justice system. This course has been designated an Applied Writing Skills Course.

Prerequisite: [[SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [any 8.0 credits and enrolment in the Major Program in Public Law]

Exclusion: (SOC306Y1), SOC326H5

Breadth Requirements: Social and Behavioural Sciences

SOCC15H3 - Work, Employment and Society

An upper level course that examines a number of critical issues and important themes in the sociological study of work. Topics covered will include: the changing nature and organization of work, precarious employment, different forms of worker organizing and mobilization, the professions, the transition from school to work.

Prerequisite: [SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]

Recommended Preparation: SOCB54H3

Breadth Requirements: Social and Behavioural Sciences

SOCC23H3 - Research in Action: Gathering and Analyzing Qualitative Data

How do people navigate their everyday lives? Why do they do what they do? And how, as sociologists, can we draw meaningful conclusions about these processes and the larger, social world we live in? Qualitative research methods adhere to the interpretative paradigm. Sociologists use them to gain a richer understanding of the relationship between the minutiae of everyday life and larger societal patterns. This course will introduce students to the qualitative methods that social scientists rely on, while also providing them with hands-on experience carrying out their own research. This course has been designated an Applied Writing Skills Course.

Prerequisite: 10.0 credits including [[SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)] and SOCB05H3] and a cumulative GPA of at least 2.3

Exclusion: (SOCD23H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

SOCC24H3 - Changing Family Life in Canada

This course offers a theoretical and empirical examination of different forms of family and the major changes in the structure and culture of family life in Canada. In the first half of the semester, we will examine and unsettle the notion that there is (or ever was) a 'typical' Canadian family. We investigate major shifts in marriage, cohabitation, and divorce, and consider the implications of these shifts for various social actors. We also study the incompatibility of employment and family responsibilities, and how various responses to this incompatibility produce gender and global inequalities. In the second half of the semester, we investigate the diversity of family forms, as well as the problem of violence within the family. This course has been designated an Applied Writing Skills Course.

Prerequisite: [SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [8.0 credits, including WSTB05H3 and enrolment in the Major program in Women's and Gender Studies]

Recommended Preparation: SOCB22H3 or SOCB49H3

Breadth Requirements: Social and Behavioural Sciences

SOCC25H3 - Ethnicity, Race and Migration

Why do people migrate and how do they decide where to go? How does a society determine which border crossers are 'illegal' and which are 'legal'? Why are some people deemed 'refugees' while others are not? What consequences do labels like 'deportee', 'immigrant', 'refugee,' or 'trafficking victim' have on the people who get assigned them? This course will examine these and other similar questions. We will explore how the politics of race, class, gender, sexuality and citizenship shape the ways that states make sense of and regulate different groups of migrants as well as how these regulatory processes affect im/migrants' life opportunities.

Prerequisite: [[SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [SOCB60H3 and an additional 8.0 credits and enrolment in the Minor program in Critical Migration Studies] or [IDSB07H3 and an additional 8.0 credits, and enrolment in the Specialist/Specialist Co-op Program/Major/Minor Program in International Development Studies (Arts)]

Recommended Preparation: SOCB22H3 or SOCB49H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

SOCC26H3 - Sociology of Urban Cultural Policies

A popular civic strategy in transforming post-industrial cities has been the deployment of culture and the arts as tools for urban regeneration. In this course, we analyze culture-led development both as political economy and as policy discourse. Topics include the creative city; spectacular consumption spaces; the re-use of historic buildings; cultural clustering and gentrification; eventful cities; and urban 'scenes'.

Prerequisite: [[SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [SOCB58H3 and enrolment in the Minor in Culture, Creativity, and Cities] or [CITA01H3/(CITB02H3) and enrolment in the Major/Major Co-op in City Studies]

Recommended Preparation: SOCB44H3

Breadth Requirements: Social and Behavioural Sciences

SOCC27H3 - Sociology of Suburbs and Suburbanization

This course examines the political economy of suburban development, the myth and reality of suburbanism as a way of life, the working class suburb, the increasing diversity of suburban communities, suburbia and social exclusion, and the growth of contemporary suburban forms such as gated communities and lifestyle shopping malls.

Prerequisite: [[SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [SOCB58H3 and enrolment in the Minor in Culture, Creativity, and Cities] or [CITA01H3/(CITB02H3) and enrolment in the Major/Major Co-op in City Studies]

Recommended Preparation: SOCB22H3 or SOCB49H3

Breadth Requirements: Social and Behavioural Sciences

SOCC29H3 - Family and Gender in the Middle East

In this course, students read and evaluate recent research related to the sociology of families and gender in the modern Middle East. The course explores the diversity of family forms and processes across time and space in this region, where kinship structures have in the past been characterized as static and uniformly patriarchal. Topics covered include marriage, the life course, family nucleation, the work-family nexus, divorce, family violence, and masculinities.

Prerequisite: [[SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [8.0 credits, including WSTB05H3, and enrolment in the Major Program in Women's and Gender

Studies] or [8.0 credits, including ASFB01H3, and enrolment in the Minor Program in African Studies] or [IDSA01H3 and additional 8.0 credits, and enrolment in the Specialist/Specialist Co-op/Major/Minor Program in International Development Studies (Arts)]

Breadth Requirements: Social and Behavioural Sciences

SOCC30H3 - Criminal Behaviour

The young figure prominently in people's views about, and fears of, crime. This course examines definitions of crime, how crime problems are constructed and measured. It looks at schools and the street as sites of criminal behaviour, and considers how we often react to crime in the form of moral panics.

This course has been designated an Applied Writing Skills Course.

Prerequisite: [[SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [any 8.0 credits and enrolment in the Major Program in Public Law]

Breadth Requirements: Social and Behavioural Sciences

SOCC31H3 - Research in Action: Quantitative Data and Statistical Analysis

This course invites students to explore their sociological interests through designing and executing their own research projects using real-world quantitative data. Participants will gain a comprehensive understanding of one or more types of quantitative data, such as social survey or census data, including how the data are collected, their value for sociological research, and how to effectively analyze and interpret them. Throughout the course, students will engage in every step of the research process, from selecting research topics and formulating questions to reviewing relevant sociological literature, creating research designs, conducting statistical analyses, and presenting findings in both oral and written formats. The course equips students with practical research skills in quantitative data analysis and interpretation, preparing them to transform raw data into meaningful sociological insights. This course has been designated an Applied Writing Skills Course.

Prerequisite: [10.0 credits, including [SOCA05H3 or [(SOCA01H3) and (SOCA02H3)] or (SOCA03Y3)] and SOCB05H3 and [SOCB35H3 or (SOCB06H3)]] and a cumulative GPA of at least 2.3

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

SOCC32H3 - Human Rights and Counterterrorism

After 9/11, terrorism was labeled a global threat, fueling the war on terror and the adoption of extensive counterterrorism actions. These measures, however, often compromised human rights in the pursuit of national security goals. This course grapples with questions pertaining to terrorism, counterterrorism, and human rights in the age of security.

Prerequisite: [SOCB05H3 and 0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3] or [IDSA01 and an additional 8.0 credits, and enrolment in the Specialist/Major Program in IDS] or [POLB80 and an additional 8.0 credits, and enrolment in the Specialist/Major Program in Political Science]
Breadth Requirements: Social and Behavioural Sciences

SOCC34H3 - Migrations & Transnationalisms

Examines the relationship between contemporary modes of international migration and the formation of transnational social relations and social formations. Considers the impact of trans-nationalisms on families, communities, nation-states, etc. This course has been designated an Applied Writing Skills Course.

Prerequisite: [SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3, IDSB01H3]] or [SOCB60H3 and an additional 8.0 credits and enrolment in the Minor in Critical Migration Studies] or [IDSA01H3 and an additional 8.0 credits, and enrolment in the Specialist/Specialist Co-op/Major Program in International Development Studies (Arts)]
Breadth Requirements: Social and Behavioural Sciences
Course Experience: University-Based Experience

SOCC37H3 - Environment and Society

This course links studies in the classical sociology of resources and territory (as in the works of Harold Innis, S.D. Clark, and the Chicago School), with modern topics in ecology and environmentalism. The course will use empirical research and theoretical issues to explore the relationship between various social systems and their natural environments.

Prerequisite: [[SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [any 8.0 credits and enrolment in the Major/Major Co-op in Public Policy] or [any 8.0 credits and enrolment in the Major Program in Environmental Studies or the Certificate in Sustainability]

Breadth Requirements: Social and Behavioural Sciences

SOCC38H3 - Gender and Education

An examination of a number of key issues in the sociology of education, focusing particularly upon gender and higher education.

Prerequisite: [[SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [8.0 credits, including WSTB05H3 and enrolment in the Major in Women's and Gender Studies]
Breadth Requirements: Social and Behavioural Sciences

SOCC40H3 - Contemporary Sociological Theory

This course surveys key topics in contemporary sociological theory. The development of sociological theory from the end of World War II to the late 1960's. Special attention is devoted to the perspectives of Functionalism, Conflict Theory and Symbolic Interactionism. This course has been designated an Applied Writing Skills Course.

Prerequisite: SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]
Exclusion: (SOCC05Y3)
Breadth Requirements: Social and Behavioural Sciences

SOCC44H3 - Media and Society

Provides an introduction to the emergence, organization and regulation of various media forms; social determinants and effects of media content; responses of media audiences; and other contemporary media issues.

Prerequisite: [[SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [SOCB58H3 and enrolment in the Minor in Culture, Creativity, and Cities] or [IDSA01H3 and an additional 8.0 credits, and enrolment in the Specialist/Specialist Co-op in International Development Studies (Arts)]
Exclusion: (SOCB56H3), (SOCB57H3)
Breadth Requirements: Social and Behavioural Sciences

SOCC45H3 - Youth and Society

This course examines youth as a social category, and how young people experience and shape societies. Topics include: youth and social inequality; social change and social movements, and youth and education.

Prerequisite: [SOCB05H3](#) or [SOCB35H3](#) and [0.5 credit from the following: [SOCB30H3](#), [SOCB42H3](#), [SOCB43H3](#), [SOCB47H3](#)]

Breadth Requirements: Social and Behavioural Sciences

SOC46H3 - Special Topics in Sociology of Law

The course covers various approaches to the study of law in society. Topics covered may include the interaction between law, legal, non-legal institutions and social factors, the social development of legal institutions, forms of social control, legal regulation, the interaction between legal cultures, the social construction of legal issues, legal profession, and the relation between law and social change.

Prerequisite: [[SOCB05H3](#) or [SOCB35H3](#)] and [0.5 credit from the following: [SOCB30H3](#), [SOCB42H3](#), [SOCB43H3](#), [SOCB47H3](#)] or [any 8.0 credits and enrolment in the Major Program in Public Law]

Breadth Requirements: Social and Behavioural Sciences

SOC47H3 - Creative Industries

An introduction to organizational and economic sociology through the lens of creative industries. Students will be introduced to different theoretical paradigms in the study of organizations, industries, and fields. The course is divided into four major modules on creative industries: inequality and occupational careers; organizational structure and decision making under conditions of uncertainty; market and field-level effects; and distribution and promotion.

This course has been designated an Applied Writing Skills Course.

Prerequisite: [SOCB05H3](#) and [1.0 credit from the following: [SOCB30H3](#), [SOCB42H3](#), [SOCB43H3](#), [SOCB47H3](#)] or [8.0 credits including [SOCB58H3](#) and enrolment in the Minor in Culture, Creativity, and Cities]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students in the Specialist and Major programs in Sociology and the Minor in Culture, Creativity, and Cities.

SOC49H3 - Indigenous Health

This course will examine the health and well-being of Indigenous peoples, given historic and contemporary issues. A critical examination of the social determinants of health, including the cultural, socioeconomic and political landscape, as well as the legacy of colonialism, will be emphasized. An overview of methodologies and ethical issues working with Indigenous communities in health research and developing programs and policies will be provided. The focus will be on the Canadian context, but

students will be exposed to the issues of Indigenous peoples worldwide.

Same as [HLTC49H3](#)

Prerequisite: [HLTB41H3](#) or [[SOCB05H3](#) or [SOCB35H3](#)] and [0.5 credit from the following: [SOCB30H3](#), [SOCB42H3](#), [SOCB43H3](#), [SOCB47H3](#)]

Exclusion: [HLTC49H3](#)

Breadth Requirements: Social and Behavioural Sciences

SOC50H3 - Sociology of Religion

This course explores the social meaning and influence of religion in social life. As a set of beliefs, symbols and motivations, as well as a structural system, religion is multifaceted and organizes many aspects of our daily life. This course surveys key theoretical paradigms on the meaning of religion and the social implications of religious transformations across time. It takes up basic questions about how religion is shaped by various political, social, and economic forces.

Prerequisite: [SOCB05H3](#) and [1.0 credit from the following: [SOCB30H3](#), [SOCB42H3](#), [SOCB43H3](#), [SOCB47H3](#)]

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Specialist, Major and Minor programs in Sociology. Additional students will be admitted as space permits.

SOC51H3 - Special Topics in Health and Society

An examination of a current topic relevant to the study of health and society. The specific topic will vary from year to year.

Same as [HLTC51H3](#)

Prerequisite: [HLTB41H3](#) or [[SOCB05H3](#) or [SOCB35H3](#)] and [0.5 from [SOCB30H3](#), [SOCB42H3](#), [SOCB43H3](#), [SOCB47H3](#)]

Exclusion: [HLTC51H3](#)

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Specialist and Major programs in Sociology.

SOC52H3 - Immigration, Citizenship and Settler Colonialism

The course examines the relationship between the displacement and dispossession of Indigenous peoples and immigration in settler-colonial states. The focus is on

Canada as a traditional country of immigration. Topics considered include historical and contemporary immigration and settlement processes, precarious forms of citizenship and noncitizenship, racism and racial exclusion, and the politics of treaty citizenship. Discussion puts the Canadian case in comparative perspective.

Prerequisite: [[SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [SOCB60H3 and an additional 8.0 credits and enrolment in the Minor Program in Critical Migration Studies]

Exclusion: (SOCB52H3) and SOC210Y

Breadth Requirements: Social and Behavioural Sciences

SOCC54H3 - Special Topics in Sociology of Culture

Sociological analysis of the role of culture in societies is offered under this course. Topics may include the study of material cultures such as works of art, religious symbols, or styles of clothing, or non-material cultures such as the values, norms, rituals, and beliefs that orient action and social life.

Prerequisite: [SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]

Breadth Requirements: Social and Behavioural Sciences

Note: Please see the Sociology Department website at <http://www.utoronto.ca/~socsci/> for a listing of the course topics for current and upcoming semesters.

SOCC55H3 - Special Topics in Race and Ethnicity

This course addresses key concepts and debates in the research on race and ethnicity. Topics covered may include historical and global approaches to: assimilation, ethnic relations, intersectionality, racialization, and scientific racism.

Prerequisite: [[SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [SOCB60H3 and an additional 8.0 credits and enrolment in the Minor in Critical Migration Studies]

Breadth Requirements: Social and Behavioural Sciences

Note: Please see the Sociology Department website at <http://www.utoronto.ca/~socsci/> for a listing of the course topics for current and upcoming semesters.

SOCC57H3 - Gender, Race, and Class in Economic Life

This course examines how the three-axis of social stratification and inequality – race, gender, and class – shape economic activity in different settings – from labour

markets to financial markets to consumer markets to dating markets to household economies to intimate economies to informal and illegal economies to markets of human goods.

Prerequisite: [SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]

Breadth Requirements: Social and Behavioural Sciences

SOCC58H3 - Global Transformations: Politics, Economy and Society

A sociological examination of contemporary global transformations including changing social, economic, and political conditions. Topics examined may include the shifting nature of state-society relations in a global context; the emergence of globally-integrated production, trade and financial systems; and the dynamics of local and transnational movements for global social change. This course has been designated as a Writing Skills course.

Prerequisite: [SOCB05H3] and [1.0 credit from the following: SOCB42H3, SOCB43H3, SOCB47H3]] or [IDSA01H3 and an additional 8.0 credits and enrolment in the Specialist/Specialist Co-op/Major/Minor Program in International Development Studies (Arts)]

Exclusion: SOC236H5

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

SOCC59H3 - Special Topics in Social Inequality

Sociological analyses of stratification processes and the production of social inequality with a focus on economy and politics. Topics covered may include work and labour markets, the state and political processes. Attention is given to grassroots mobilization, social movements, and contestatory politics.

Prerequisite: [SOCB05H3 or SOCB35H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]

Breadth Requirements: Social and Behavioural Sciences

Note: See the Sociology Department website for a listing of the course topics for current and upcoming semesters.

SOCC61H3 - The Sociology of the Truth and Reconciliation Commission

The Truth and Reconciliation Commission of Canada is an historic process that now directs a core area of Canadian politics and governance. This course examines the institutional and legal history, precedents, contradictions

and consequences of the commission from a sociological perspective.

Prerequisite: [[[SOCB05H3](#) or [SOCB35H3](#)] and [0.5 credit from the following: [SOCB30H3](#), [SOCB42H3](#), [SOCB43H3](#), [SOCB47H3](#)]] or [any 8.0 credits and enrolment in the Major Program in Public Law]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

SOC70H3 - Models of the Social World

This course examines how quantitative models can be used to understand the social world with a focus on social inequality and social change. Students will learn the fundamentals of modern computational techniques and data analysis, including how to effectively communicate findings using narratives and visualizations. Topics covered include data wrangling, graphic design, regression analysis, interactive modelling, and categorical data analysis. Methods will be taught using real-world examples in sociology with an emphasis on understanding key concepts rather than mathematical formulas.

Prerequisite: [SOCB35H3](#) or [completion of 8.0 credits, including component 1 of the course requirements for the Certificate in Computational Social Science]

Breadth Requirements: Social and Behavioural Sciences

SOCD01H3 - Advanced Seminar in Culture and Cities

This course offers an in-depth examination of selected topics in Culture and Cities. Check the department [website](#) for more details. This course has been designated a Research Skills Course

Prerequisite: [10.0 credits and [SOCB05H3](#) and [1.0 credit from the following: [SOCB30H3](#), [SOCB42H3](#), [SOCB43H3](#), [SOCB44H3](#), [SOCB47H3](#), [SOCB58H3](#)]] or [10.0 credits including [SOCB58H3](#) and enrolment in the Minor in Culture, Creativity, and Cities]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Specialist and Major programs in Sociology, and the Minor program in Culture, Creativity, and Cities.

SOCD02H3 - Global Field School: Indigenous Costa Rica

The intensive international field school course is an experiential and land-based learning trip to Indigenous territories in Costa Rica, in order to learn about settler colonialism, Indigenous communities, and UNDRIP (the United Nations Declaration on the Rights of Indigenous Peoples). Students will learn with Indigenous Costa Rican

university students and community partners in order to draw links between policy frameworks (UNDRIP), ideologies (colonialism) and the impacts on Indigenous communities (e.g. education, health, food security, language retention, land rights). The course involves 14-16 days of in-country travel. This course has been designated as a Research Skills course.

Prerequisite: [10.0 credits, including [SOCC61H3](#)] and [1.0 credit from the following: [SOCB30H3](#), [SOCB42H3](#), [SOCB43H3](#), or [SOCB47H3](#)]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

Note: Priority will be given to students enrolled in the Major or Specialist Programs in Sociology. Additional students will be admitted as space permits. This course requires students to register and fill out an application form. To request a [SOCD02H3](#) course application form, please contact sociologyadvisor.uts@utoronto.ca. This form is due one week after students enroll in the course.

Enrolment Control: A

Restricted to students in the sociology programs.

Step 1: Request the course on ACORN. Your status will be INT. You will not be officially enrolled until you complete the remaining steps (below).

Step 2: Request an application form from the program advisor at sociologyadvisor.uts@utoronto.ca

Step 3: Submit the application form by email to the program advisor at sociologyadvisor.uts@utoronto.ca

If you are approved for enrolment the department will arrange to have your course status on ACORN changed from **interim (INT)** to **approved (APP)**. P = Priority, R = Restricted, A = Approval, E = Enrolment on ACORN is disabled

SOCD05H3 - Advanced Seminar in Criminology and Sociology of Law

This course offers an in-depth examination of selected topics in Criminology and Sociology of Law. Check the department [website](#) for more details. This course has been designated a Research Skills Course

Prerequisite: [10.0 credits and [SOCB05H3](#) and [1.0 credit from the following: [SOCB30H3](#), [SOCB42H3](#), [SOCB43H3](#), [SOCB47H3](#), [SOCB50H3](#), ([SOCB51H3](#))] or [any 14.0 credits and enrolment in the Major Program in Public Law]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Specialist and Major programs in Sociology. Additional students will be admitted as space permits.

SOCD08H3 - Scarborough Place-Making: Indigenous Sovereignty and Settler Landholding

This course explores how the land where UTSC stands has been transformed, with a focus on settler colonialism and Indigenous self-determination. By looking at the history and ongoing impacts of settler practices and Indigenous knowledge systems, students will learn about the conflicts and connections between these ways of understanding the land. The course includes guided walks across different sites on campus as part of a hands-on, land-based learning approach, helping students see and experience how these issues play out in the environment around them. This course has been designated a Research Skills Course.

Prerequisite: 10.0 credits including SOCC61H3 and at least 0.5 credit of from the following: [ACMD98H3, GGRB18H3, POLC52H3, POLC56H3, POLD54H3, SOCD18H3]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Specialist, Major and Minor programs in Sociology, including the Critical Migration Studies Minor. Additional students will be admitted as space permits.

SOCD10H3 - Advanced Seminar in Gender and Family

This course offers an in-depth examination of selected topics in Gender and Family. Check the department website for details at:
www.utoronto.ca/sociology/programs.

Prerequisite: [10.0 credits and SOCB05H3 and [1.0 credit from the following: SOCB30H3 or SOCB42H3 or SOCB43H3 or SOCB47H3 or (SOCC39H3)]] or [8.0 credits [including WSTB05H3] and enrolment in the Major in Women's and Gender Studies]

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Specialist and Major programs in Sociology, and Major in Women's and Gender Studies. Additional students will be admitted as space permits.

SOCD11H3 - Program and Policy Evaluation

This course provides an introduction to the field of program and policy evaluation. Evaluation plays an important role in evidence based decision making in all aspects of society. Students will gain insight into the theoretical, methodological, practical, and ethical aspects of evaluation across different settings. The relative strengths and weaknesses of various designs used in

applied social research to examine programs and policies will be covered.

Same as HLTD11H3

Prerequisite: [STAB22H3 or STAB23H3] and [0.5 credit from HLTC42H3, HLTC43H3, HLTC44H3] and [an additional 1.0 credit at the C-Level from courses from the Major/Major Co-op in Health Policy]] or [10.0 credits and [SOCB05H3 and SOCB35H3] and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, or SOCB47H3]]

Exclusion: HLTD11H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

SOCD12H3 - Sociology of Art

An examination of sociological approaches to the study of visual art. Topics include the social arrangements and institutional processes involved in producing, consecrating, distributing, and marketing art as well as artistic consumption practices.

Prerequisite: [10.0 credits including: SOCB05H3, and [0.5 credit from the following: SOCB58H3, SOCC44H3, or SOCC47H3] and [0.5 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3, or SOCB44H3]] or [any 10.0 credits including: SOCB58H3 and enrolment in the Minor program in Culture, Creativity and Cities].

Breadth Requirements: Social and Behavioural Sciences

SOCD13H3 - Sociology of Finance

This is an advanced course on the sub-field of economic sociology that focuses on money and finance. This course examines how cultural values and social relations shape money and finance in a variety of substantive settings, including the historical emergence of money as currency, the expansion of the financial system since the 1980s, financial markets, growing household involvement in the stock and credit market, and implications for social life (e.g., how credit scores shape dating).

Prerequisite: 10.0 credits and SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3, SOCB50H3, or (SOCB51H3)]

Recommended Preparation: SOCB35H3 and SOCB37H3

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Specialist, Major, and Minor programs in Sociology. Additional students will be admitted as space permits.

SOCD15H3 - Advanced Seminar in Critical Migration Studies

This course offers an in-depth examination of selected topics in Migration Studies. Students will be required to conduct independent research based on primary and/or secondary data sources. Check the department website for details at: www.utoronto.ca/sociology/programs.

Prerequisite: [10.0 credits and SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]] or [SOCB60H3 and enrolment in the Minor in Critical Migration Studies] or [10.0 credits including IDSB11H3 and enrolment in the Certificate in Global Development, Environment and Health]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given first to students enrolled in the Minor in Critical Migration Studies, then to students in the Specialist and Major programs in Sociology. Additional students will be admitted as space permits.

SOCD18H3 - The History and Evolution of Reconciliation: The Indian Residential School Settlement

This course examines the largest class action settlement in Canadian history: the Indian Residential School Settlement Agreement enacted in Canada in 2006. This analysis is framed within a 50 year history of reconciliation in Canada. Areas of study include the recent history of residential schools, the Royal Commission on Aboriginal Peoples report and the government response, and the establishment of the Aboriginal Healing Foundation.

Prerequisite: 10.0 credits including SOCB05H3 and [0.5 from the following: SOCB47H3, SOCC61H3]

Breadth Requirements: Social and Behavioural Sciences

SOCD20H3 - Advanced Seminar: Social Change and Gender Relations in Chinese Societies

This seminar examines the transformation and perpetuation of gender relations in contemporary Chinese societies. It pays specific attention to gender politics at the micro level and structural changes at the macro level through in-depth readings and research.

Same as [GASD20H3](#)

Prerequisite: [SOCB05H3 and 0.5 credit in SOC course at the C-level] or [GASA01H3 and GASA02H3 and 0.5 credit at the C-level from the options in requirement #2 of the Specialist or Major programs in Global Asia Studies] or [10.0 credits including IDSB11H3 and enrolment in the Certificate in Global Development, Environment and Health]

Exclusion: [GASD20H3](#)

Recommended Preparation: [GASB20H3](#) and [GASC20H3](#)

Course Experience: University-Based Experience

SOCD21H3 - Immigrant Scarborough

This course will teach students how to conduct in-depth, community-based research on the social, political, cultural and economic lives of immigrants. Students will learn how to conduct qualitative research including participant observation, semi-structured interviews and focus groups. Students will also gain valuable experience linking hands-on research to theoretical debates about migration, transnationalism and multicultural communities. Check the Department of Sociology [website](#) for more details.

Prerequisite: [10.0 credits and SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3, (SOCC39H3)]] or [SOCB60H3 and enrolment in the Minor Program in Critical Migration Studies] or [11.0 credits, including ASFB01H3, and enrolment in the Minor Program in African Studies]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: For a listing of the course topics for current and upcoming semesters check the Department's website at <http://www.utoronto.ca/sociology/>

SOCD25H3 - Advanced Seminar in Economy, Politics and Society

This course offers an in-depth examination of selected topics in Economy, Politics and Society. Check the department [website](#) for more details. This course has been designated a Research Skills Course

Prerequisite: 10.0 credits and SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Specialist and Major programs in Sociology. Additional students will be admitted as space permits.

SOCD30Y3 - Special Topics in Community-Engaged Research

This course is taught over two full terms. It offers an in-depth exploration of significant topics in community-based research including ethics, research design, collaborative data analysis and research relevance and dissemination. Students conduct independent community-engaged research with important experiential knowledge components. Check the Department of Sociology [website](#) for more details.

Prerequisite: [10.0 credits and SOCB05H3 and [1.0 credit from the following: SOCB30H3 or SOCB42H3 or SOCB43H3 or SOCB47H3 or (SOCC39H3)] or [SOCB60H3 and enrolment in the Minor Program in Critical Migration Studies]

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Specialist and Major programs in Sociology. Additional students will be admitted as space permits.

SOCD32Y3 - Special Topics in the Practice of Research

This course is taught over two full terms. It offers students an opportunity to conduct research on an original research topic or as part of an ongoing faculty research project. Students will develop a research proposal, conduct independent research, analyze data and present findings. Check the Department of Sociology [website](#) for more details.

Prerequisite: [10.0 credits, including (SOCB05H3) and (SOCB35H3)] and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]

Breadth Requirements: Social and Behavioural Sciences

Note: Priority will be given to students enrolled in the Specialist and Major programs in Sociology. Additional students will be admitted as space permits.

SOCD40H3 - Supervised Independent Research

Independent research using field methods, survey analysis, library or archival research; regular supervision of data collection and analysis; final written research report. Intended for upper level students with well above average performance in sociology and whose interests or needs are not met by other sociology courses being offered.

Prerequisite: 15.0 credits, including: [SOCA05H3 or (SOCA03Y3) or [(SOCA01H3) and (SOCA02H3)] and [SOCB35H3 or (SOCB06H3)] and [SOCB05H3 or [(SOCB40H3) and (SOCB41H3)] and SOCB42H3 and SOCB43H3 and permission of the instructor and the Sociology Supervisor of Studies.

Exclusion: SOC390Y and SOC391H and SOC392H

Course Experience: University-Based Experience

SOCD41H3 - Supervised Independent Research

Independent research using field methods, survey analysis, library or archival research; regular supervision of data collection and analysis; final written research report. Intended for upper level students with well above average performance in sociology and whose interests or

needs are not met by other sociology courses being offered.

Prerequisite: 15.0 credits, including [SOCA05H3 or (SOCA03Y3) or [(SOCA01H3) and (SOCA02H3)] and [SOCB35H3 or (SOCB06H3)] and [SOCB05H3 or [(SOCB40H3) and (SOCB41H3)] and SOCB42H3 and SOCB43H3 and permission of the instructor and the Sociology Supervisor of Studies.

Exclusion: SOC390Y, SOC391H, SOC392H

Course Experience: University-Based Experience

SOCD42H3 - Advanced Seminar in Sociological Theory

This course offers an in depth exploration of significant topics in contemporary and/or sociological theory. Check the department website for details at: www.utsc.utoronto.ca/sociology/programs.

Prerequisite: 10.0 credits and SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]

Note: For a listing of the course topics for current and upcoming semesters check the Department's website at <http://www.utsc.utoronto.ca/sociology/>

SOCD44H3 - Advanced Seminar on Issues in Contemporary Sociology

Exploration of current debates and controversies surrounding recent scholarly developments in Sociology. Check the department website for details at: <https://www.utsc.utoronto.ca/sociology/special-topics-advanced-seminars>

Prerequisite: 10.0 credits and SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3]

Note: For a listing of the course topics for current and upcoming semesters check the Department's website at <http://www.utsc.utoronto.ca/sociology/>

SOCD50H3 - Research Seminar: Realizing the Sociological Imagination

This course presents students with the opportunity to integrate and apply their sociological knowledge and skills through conducting independent research. In a step-by-step process, each student will design and conduct an original research study. The course is especially suited for those students interested in pursuing graduate studies or professional careers involving research skills.

Prerequisite: 12.0 credits, including [SOCA05H3 or (SOCA03Y3) or [(SOCA01H3) and (SOCA02H3)] and SOCB05H3 and [SOCB35H3 or (SOCB06H3)] and [SOCC23H3 or SOCC31H3] and a cumulative GPA of at least 2.7

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

SOCD51H3 - Capstone Seminar in Culture, Creativity, and Cities

This course provides a hands-on learning experience with data collection, analysis, and dissemination on topics discussed in the Minor in Culture, Creativity, and Cities. It involves substantial group and individual-based learning, and may cover topics as diverse as the role of cultural fairs and festivals in the city of Toronto, the efficacy of arts organizations, current trends in local cultural labour markets, artistic markets inside and outside of the downtown core, food culture, and analysis of governmental datasets on arts participation in the city.

Prerequisite: [10.0 credits and SOCB05H3 and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB44H3, SOCB47H3, SOCB58H3] or [10.0 credits including SOCB58H3 and enrolment in the Minor Program in Culture, Creativity and Cities]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Minor in Culture, Creativity, and Cities followed by Specialist and Major programs in Sociology. Additional students will be admitted as space permits.

SOCD52H3 - Sociology of Books

A sociological examination of the creation, production, dissemination, and reception of books.

Prerequisite: 10.0 credits including SOCB05H3, and [1.0 credit from the following: SOCB30H3, SOCB42H3, SOCB43H3, SOCB47H3, SOCB44H3, SOCB58H3] or [10.0 credits including SOCB58H3 and enrolment in the Minor in Culture, Creativity and Cities]

Exclusion: [SOCD44H3 if taken in 2014-2015 or 2015-2016 or 2016-2017]

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

Note: Priority will be given to students enrolled in the Minor in Culture, Creativity, and Cities followed by Specialist and Major programs in Sociology. Additional students will be admitted as space permits.

Statistics

Faculty List

- K. Butler, B.Sc. (Birmingham), M.Sc., Ph.D. (Simon Fraser), Assistant Professor, Teaching Stream
- S. Damouras, B.Sc. (Athens Univ. of Econ. and Bus.), M.Sc. (Warwick), Ph.D. (Carnegie Mellon), Associate Professor, Teaching Stream
- M. Evans, B.Sc. (Western Ontario), M.Sc., Ph.D. (Toronto), Professor
- S. Kang, B.Sc., M.Sc. (Chonnam National University, South Korea), M.Sc., Ph.D. (Toronto), Associate Professor, Teaching Stream
- D. Roy, B.Sc., M.Eng., Ph.D. (MIT), Associate Professor
- M. Samarakoon, B.Sc. (Colombo), M.Sc. (Alberta), Ph.D. (Toronto), Associate Professor, Teaching Stream
- S. Shams, B.Sc. (Dhaka), M.A. (York), M.Sc., Ph.D. (Toronto), Assistant Professor, Teaching Stream
- Q. Sun, B.Sc. (Science & Technology, China), Ph.D. (North Carolina), Associate Professor
- B. Virag, B.A. (Harvard), M.A., Ph.D. (Berkeley), Professor
- L. Wang, B.Sc. (Peking), Ph.D. (Washington), Associate Professor
- L. Wong, B.Sc., M.Phil. (Hong Kong), Ph.D. (Washington), Associate Professor

Associate Chair: D. Roy Email: daniel.roy@utoronto.ca

Probability and Statistics have developed over a period of several hundred years as attempts to quantify uncertainty. With its origins in modelling games of chance, probability theory has become a sophisticated mathematical discipline with applications in such fields as demography, genetics and physics.

Statistics is concerned with the proper collection and analysis of data, both to reduce uncertainty and to provide for its assessment via probability. Applications range from pre-election polling to the design and analysis of experiments to determine the relative efficacies of different vaccines.

STAB22H3 and STAB27H3 serve as a non-technical introduction to statistics. These courses are designed for students from disciplines where statistical methods are applied. STAB52H3 is a mathematical treatment of probability. STAB57H3 is an introduction to the methods and theory of statistical inference. The C-level courses build on the introductory material to provide a deeper understanding of the statistical methodology and of its practical implementation.

Admission to Statistics Programs

Beginning in 2018-19 there are admissions criteria for the Major/Major (Co-op) Program in Statistics. Details and information on how to apply for admission to these programs are found in the program descriptions below.

Combining Statistics and Economics Programs

Students who wish to combine studies in statistics and economics should consult the Economics for Management Studies section of the *Calendar* for information on the economics programs and restrictions on the order in which courses must be taken.

Double Degrees: BBA/BSc

The Department of Computer and Mathematical Sciences, in partnership with the Department of Management, offers the following Double Degree programs:

- Double Degree: BBA, Specialist program in Management and Finance/Honours BSc, Specialist program in Statistics, Quantitative Finance Stream
- Double Degree: BBA, Specialist (Co-op) program in Management and Finance/Honours BSc, Specialist (Co-op) program in Statistics, Quantitative Finance Stream

The Double Degree programs create an accelerated pathway for students who would otherwise have to complete two separate Specialist programs. They explicitly focus on finance and quantitative methods, providing students with a thorough education in both the business and the quantitative aspects of the financial industry. The Double Degree Programs take advantage of existing synergies to allow students to complete both undergraduate programs and degrees within five years without compromising their learning experience. Students will complete a total of 25.0 credits and, for those enrolled in the Double Degree (Specialist Co-op programs), students must also complete three mandatory Co-op work terms. For more information, including Admission and Program requirements, see the [Double Degree Programs](#) section of the *Calendar*.

Program Combination Restrictions in Statistics

The Specialist/Specialist Co-op, Major/Major Co-op, Minor in Statistics, and Minor in Applied Statistics cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Double Degree Programs

DOUBLE DEGREE: BBA, SPECIALIST PROGRAM IN MANAGEMENT AND FINANCE / HONOURS BSc, SPECIALIST PROGRAM IN STATISTICS, QUANTITATIVE FINANCE STREAM

Academic Directors:

S. Ahmed Email: mngmtss.uts@utoronto.ca (BBA)

S. Damouras Email: sotirios.damouras@utoronto.ca (BSc)

This Double Degree program combines the Specialist Program in Management and Finance and the Specialist Program in Statistics, Quantitative Finance stream. Students completing the Double Degree program will qualify to graduate with two-degree designations – the Bachelor of Business Administration (BBA) and the Honours Bachelor of Science (BSc), assuming all other degree criteria are met.

Enrolment Requirements

Enrolment in this Double Degree program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English, Grade 12 Advanced Functions, and Grade 12 Calculus & Vectors. Applicants must also submit a Supplementary Application Form.

Course Guidelines for Students Admitted to the Double Degree Program Directly from High School

Students must complete the following courses in their first year of study: [MGEA02H3](#), [MGEA06H3](#), [MATA22H3](#), [MATA31H3](#), [MATA37H3](#), [MATA67H3/CSCA67H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGHA12H3](#), [MGMA01H3](#) and [MGTA38H3](#).

2. Students already pursuing a BBA program and degree may apply to enter the Double Degree program. The application can be made before the end of the Winter semester and/or before the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request. Students considering switching to the Double Degree program should consult with the Academic Directors as soon as possible.

The minimum Cumulative Grade Point Average (CGPA) for admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed at least 5.0 credits (none of which can be designated as CR/NCR), including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGTA38H3, MATA22H3, MGHA12H3, MATA31H3, MATA37H3, and MATA67H3/CSCA67H3.

Students who have taken MATA34H3 or [(MATA30H3 or (MATA32H3)) and ((MATA33H3) or MATA36H3)] instead of [MATA31H3 and MATA37H3] can still apply to the Double Degree program if they are taking or plan to take MATA37H3 at the time of application and could receive admission conditional on their grade in MATA37H3 being above a threshold to be specified each year.

Notes:

1. Students MUST complete the pre-requisite of MATA67H3/CSCA67H3 in order to take MATA37H3.
2. MATA34H3 is not a substitute for MATA31H3. Students who have completed MATA34H3 will be required to take MATA31H3 as an Extra (EXT) course before taking MATA37H3.

Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be admitted to the Double Degree program. For those who apply with more than 5.0 credits, their CGPA at the time of application will be calculated with more weight assigned to the required courses listed under the 5.0 credits.

CGPA Requirement to Remain in the Double Degree (Specialist Programs)

In order to remain in the Double Degree, students must maintain a CGPA of 2.0 or higher after having attempted at least 4.0 credits. Students whose CGPA falls below 2.1 (but not below 2.0) will have the opportunity to move to either the non Co-op BBA Specialist Program in Management and Finance, or the non Co-op BSc Specialist Program in Statistics, Quantitative Finance stream. If they choose to stay in the Double Degree program and their CGPA falls below 2.0, they will be removed from the Double Degree program. Students removed from the program for this reason may request reinstatement if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.0. This opportunity will be provided only once.

Program Requirements

The Double Degree program requires the completion of 25.0 credits. 21.5 credits are core program requirements as listed below, and 3.5 further credits are required to complete degree requirements.

NOTES:

1. Students who have taken STAB52H3 and STAB57H3 and then transfer to any other BBA program must also take MGEA12H3 to fulfill the program requirements.
2. A single course may only be used once to fulfill one of the following program requirements.

1. Communications requirement (0.5 credit)

MGTA38H3 Management Communications

2. Management requirements (5.0 credits)

MGAB01H3 Introductory Financial Accounting I
MGAB02H3 Introductory Financial Accounting II
MGAB03H3 Introductory Management Accounting
MGHB02H3 Managing People and Groups in Organizations
MGHA12H3 Human Resource Management
MGHC02H3 Management Skills
MGMA01H3 Principles of Marketing
MGMB01H3 Marketing Management
MGOC10H3 Analysis for Decision-Making
MGOC20H3 Operations Management: A Mathematical Approach

3. Science requirements (9.0 credits)

CSCA08H3 Introduction to Computer Science I
(MATA67H3)/CSCA67H3 Discrete Mathematics
CSCC37H3 Introduction to Numerical Algorithms for Computational Mathematics
MATA22H3 Linear Algebra I for Mathematical Sciences
MATA31H3 Calculus I for Mathematical Sciences
MATA37H3 Calculus II for Mathematical Sciences

[MATB24H3](#) Linear Algebra II
[MATB41H3](#) Techniques of the Calculus of Several Variables I
[MATB42H3](#) Techniques of the Calculus of Several Variables II
[MATB44H3](#) Differential Equations I
[MATB61H3](#) Linear Programming and Optimization
[MATC46H3](#) Differential Equations II
[STAB52H3](#) An Introduction to Probability
[STAB57H3](#) An Introduction to Statistics
[STAC62H3](#) Probability and Stochastic Processes I
[STAC67H3](#) Regression Analysis
[STAD37H3](#) Multivariate Analysis
[STAD57H3](#) Time Series Analysis

4. Economics requirements (2.0 credits)

[MGEA02H3](#) Introduction to Microeconomics: A Mathematical Approach
[MGEA06H3](#) Introduction to Macroeconomics: A Mathematical Approach
[MGEB02H3](#) Price Theory: A Mathematical Approach
[MGEB06H3](#) Macroeconomic Theory and Policy: A Mathematical Approach

5. Finance requirements (3.0 credits)

[MGFB10H3](#) Principles of Finance
[MGFC10H3](#) Intermediate Finance
[\[MGFC30H3](#) Introduction to Derivatives Markets or [STAB41H3](#) Financial Derivatives]
[MGFC35H3](#)/([MGFD10H3](#)) Investments
[STAC70H3](#) Statistics and Finance I
[STAD70H3](#) Statistics and Finance II

6. At least four courses (2.0 credits):

Any C- or D- level Finance courses (MGF) and/or [MGEC71H3](#) Money and Banking.

NOTE: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the [Degree Requirements](#) section of this *Calendar*.

DOUBLE DEGREE: BBA, SPECIALIST (CO-OPERATIVE) PROGRAM IN MANAGEMENT AND FINANCE / HONOURS BSc, SPECIALIST (CO-OPERATIVE) PROGRAM IN STATISTICS, QUANTITATIVE FINANCE STREAM

Assistant Director: P. Brown Email: mgmtcoop.utsc@utoronto.ca

Academic Directors:

S. Ahmed Email: mgmtss.utsc@utoronto.ca (BBA)

S. Damouras Email: sotirios.damouras@utoronto.ca (BSc)

The Double Degree program combines the Specialist (Co-operative) Program in Management and Finance and the Specialist (Co-operative) Program in Statistics, Quantitative Finance stream. Students completing the Double Degree program will qualify to graduate with two degree designations – the Bachelor of Business Administration (BBA) and the Honours Bachelor of Science (BSc), assuming all other degree criteria are met.

The Double Degree program is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in public and private enterprises. Depending on their needs and abilities, students work in areas such as finance, insurance, data analytics, accounting, consulting, business intelligence, marketing, policy, strategic planning and entrepreneurship. The Double Degree program will equip students with a comprehensive understanding of financial markets, and develop the business and quantitative skills required to function in them.

The Double Degree program operates on a trimester schedule, featuring three terms (Fall, Winter and Summer) in each Calendar year. Students work or study in all three terms for five years, or until graduation requirements are met. It requires 11 four-month terms of study and 3 four-month work terms.

Enrolment Requirements

Enrolment in the Double Degree program is limited.

1. Students applying directly from high school are admitted on the basis of academic performance. They must have completed Grade 12 English, Grade 12 Advanced Functions, and Grade 12 Calculus & Vectors. Applicants must also submit a Supplementary Application Form.

Course Guidelines for Students Admitted to Double Degree Program Directly from High School:

Students must complete the following courses in their first year of study: [MGEA02H3](#), [MGEA06H3](#), [MATA22H3](#), [MATA31H3](#), [MATA37H3](#), [MATA67H3/CSCA67H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGHA12H3](#), [MGMA01H3](#) and [MGTA38H3](#).

2. Students already pursuing a BBA program and degree may apply to enter this Double Degree program. The application can be made before the end of the Winter semester and/or before the end of the Summer semester. Application for admission will be considered only for the round during which the student has made the Subject POST request. Students considering switching to the Double Degree program should consult with the Academic Directors as soon as possible.

The minimum Cumulative Grade Point Average (CGPA) for Program admission is calculated for each application period, and is based on University of Toronto courses only. Decisions are made when all grades have been received.

Students must have completed at least 5.0 credits (none of which can be designated as CR/NCR), including: [MGEA02H3](#), [MGEA06H3](#), [MGAB01H3](#), [MGAB02H3](#), [MGHA12H3](#), [MGTA38H3](#), [MATA22H3](#), [MATA31H3](#), [MATA37H3](#), and [MATA67H3/CSCA67H3](#).

Students who have taken [MATA34H3](#) or [([MATA30H3](#) or ([MATA32H3](#)))] and [([MATA33H3](#) or [MATA36H3](#))] instead of [[MATA31H3](#) and [MATA37H3](#)] can still apply to the Double Degree program if they are taking or plan to take [MATA37H3](#) at the time of application and could receive admission conditional on their grade in [MATA37H3](#) being above a threshold to be specified each year.

Notes:

1. Students MUST complete the pre-requisite of [MATA67H3/CSCA67H3](#) in order to take [MATA37H3](#).
2. [MATA34H3](#) is not a substitute for [MATA31H3](#). Students who have completed [MATA34H3](#) will be required to take [MATA31H3](#) as an Extra (EXT) course before taking [MATA37H3](#).

Students may apply until they have completed up to 10.0 credits. Students who have completed more than 10.0 credits will not be able to apply to the Double Degree Program. For those who apply with more than 5.0 credits, their CGPA at the time of application will be calculated with more weight assigned to the required courses listed under the 5.0 credits.

Applicants must submit a resume and covering letter to the Management Co-op Office during the limited Subject POST request period outlined on the Office of the Registrar [website](#). For information on what to include in your resume and covering letter, visit the Management Co-op [website](#). An interview may also be required.

CGPA Requirement to Remain in the Double Degree Co-op Program

Students must maintain a CGPA of 2.5 or higher. Students whose CGPA falls below 2.5 will be placed on probation. Students on probation will be reinstated to the Double Degree program if they complete at least 2.0 credits (none of which can be designated as CR/NCR) in the following session and raise their CGPA to at least 2.5. Students who cannot get out of probation in two consecutive sessions, or whose CGPA falls below 2.3, will be removed from the Double Degree Co-op Program. Students removed from the Double Degree (Specialist Co-op Programs) can pursue the Double Degree (Specialist Programs), or one of its non Co-op constituent programs (i.e., the BBA Specialist Program in Management and Finance, or the BSc Specialist Program in Statistics, Quantitative Finance stream).

Program Requirements

The Double Degree program requires the completion of 25.0 credits. 21.5 credits are core program requirements as listed below, and 3.5 further credits are required to complete degree requirements.

NOTES:

1. Students who have taken STAB52H3 and STAB57H3 and then transfer to any other BBA program must also take MGE12H3 to fulfill the program requirements.
2. A single course may only be used once to fulfill one of the following program requirements.

1. Communications requirement (0.5 credit)

MGTA38H3 Management Communications

2. Management requirements (5.0 credits)

MGAB01H3 Introductory Financial Accounting I
MGAB02H3 Introductory Financial Accounting II
MGAB03H3 Introductory Management Accounting
MGHB02H3 Managing People and Groups in Organizations
MGHA12H3 Human Resource Management
MGHC02H3 Management Skills
MGMA01H3 Principles of Marketing
MGMB01H3 Marketing Management
MGOC10H3 Analysis for Decision-Making
MGOC20H3 Operations Management: A Mathematical Approach

3. Science requirements (9.0 credits)

CSCA08H3 Introduction to Computer Science I
(MATA67H3)/CSCA67H3 Discrete Mathematics
CSCC37H3 Introduction to Numerical Algorithms for Computational Mathematics
MATA22H3 Linear Algebra I for Mathematical Sciences
MATA31H3 Calculus I for Mathematical Sciences
MATA37H3 Calculus II for Mathematical Science
MATB24H3 Linear Algebra II
MATB41H3 Techniques of the Calculus of Several Variables I
MATB42H3 Techniques of the Calculus of Several Variables II
MATB44H3 Differential Equations I
MATB61H3 Linear Programming and Optimization
MATC46H3 Differential Equations II
STAB52H3 An Introduction to Probability
STAB57H3 An Introduction to Statistics
STAC62H3 Probability and Stochastic Processes I
STAC67H3 Regression Analysis
STAD37H3 Multivariate Analysis
STAD57H3 Time Series Analysis

4. Economics requirements (2.0 credits)

MGEA02H3 Introduction to Microeconomics: A Mathematical Approach
MGEA06H3 Introduction to Macroeconomics: A Mathematical Approach
MGE02H3 Price Theory: A Mathematical Approach
MGE06H3 Macroeconomic Theory and Policy: A Mathematical Approach

5. Finance requirements (3.0 credits)

MGFB10H3 Principles of Finance
MGFC10H3 Intermediate Finance
[MGFC30H3 Introduction to Derivatives Markets or STAB41H3 Financial Derivatives]
MGFC35H3/(MGFD10H3) Investments
STAC70H3 Statistics and Finance I
STAD70H3 Statistics and Finance II

6. At least four courses (2.0 credits):

Any C- or D-level Finance courses (MGF) and/or MGEC71H3 Money and Banking.

NOTE: In selecting options and electives, students should refer to the guidelines for program breadth and depth found in the Degree Requirements section of this *Calendar*.

Co-op Work Term Requirements

All Double Degree program Co-op students must take MGTA38H3 prior to commencement of their first work term. Students are advised to consult regularly with the Assistant Director or the Academic Directors, if they have questions regarding course selection and scheduling. It is however the students' individual responsibility to ensure that they have completed the correct courses to make them eligible for each work term and that they have correctly completed program and degree requirements for graduation.

Students who apply after the first year and are successful in receiving a June offer will be expected to complete a Co-op Advancing Your Career Exploration (AYCE) course beginning in the third week of June, and continuing throughout the summer.

To compete for a work term a student must maintain a 2.5 CGPA, and must have completed:

1. For the first work term:
 - a. 7.0 credits, including: MGEA02H3, MGEA06H3, MGAB01H3, MGAB02H3, MGHA12H3, MGMA01H3, MGTA38H3, MATA22H3, MATA31H3 and MATA37H3.
 - b. The Management Co-op Advancing Your Career Exploration Courses (AYCE): COPB11H3 and COPB12H3 or COPB10Y3
2. For the second work term: 9.0 credits.
3. For the third work term: 11.0 credits.

For information on fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section of this *Calendar*.

Statistics Programs

SPECIALIST PROGRAM IN STATISTICS - Quantitative Finance Stream (SCIENCE) - SCSPE2289F

Supervisor of Studies: S. Damouras Email: sotirios.damouras@utoronto.ca (416-287-7269)

Program Objectives

This program provides training in the discipline of Statistics. Students are given a thorough grounding in the theory underlying statistical reasoning and learn the methodologies associated with current applications. A full set of courses on the theory and methodology of the discipline represents the core of the program. In addition, students select one of three streams, each of which provides immediately useful, job-related skills. The program also prepares students for further study in Statistics and related fields.

The Quantitative Finance Stream focuses on teaching the computational, mathematical and statistical techniques associated with modern-day finance. Students acquire a thorough understanding of the mathematical models that underlie financial modeling and the ability to implement these models in practical settings. This stream prepares students to work as quantitative analysts in the financial industry, and for further study in Quantitative Finance.

Enrolment Requirements

Enrolment in the Specialist in Statistics (all streams) is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Statistics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses:

- a. All streams: CSCA08H3, CSCA67H3, MATA22H3, MATA31H3, and MATA37H3.
- b. Machine Learning and Data Science stream only: CSCA48H3

Required Grades:

There are a limited number of available spaces in each stream of the Specialist in Statistics. Students that meet all of the following requirements will be eligible to be considered for one of the spaces in a Statistics Specialist POST; admission will be based on academic performance in the required A-level courses, identified above. Students who meet all of the following requirements but are not admitted to the Specialist will be admitted to the Major in Statistics:

- a. All streams: a cumulative grade point average (CGPA) of at least 2.5 over the following courses: CSCA08H3, CSCA67H3, MATA22H3, and MATA37H3; and
- b. For the Machine Learning and Data Science stream only: a final grade of at least B in CSCA48H3.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Mathematics) or any other UTSC Year 1 admissions categories are eligible to apply for a Statistics Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Program Requirements

To complete the program, a student must meet the course requirements described below.

The first-year requirements of the three streams are almost identical, except that the Quantitative Finance stream requires MGEA02H3 while the Statistical Machine Learning and Data Science stream requires CSCA48H3, and the Statistical Science stream requires STAA57H3; these courses need not be taken in the first year.

Note: There are courses on the St. George campus that can be taken to satisfy some of the requirements of the program. STAB52H3, STAB57H3, STAC62H3 and STAC67H3, however, must be taken at the University of Toronto Scarborough; no substitutes are permitted without permission of the program supervisor.

Core (7.5 credits)**1. Writing Requirement (0.5 credit) (*)**

0.5 credit from the following: ANTA01H3, ANTA02H3, CTLA01H3, ENGA10H3, ENGA11H3, ENGB06H3, ENGB07H3, ENGB08H3, ENGB09H3, ENGB17H3, ENGB19H3, ENGB50H3, GGRA02H3, GGRA03H3, GGRB05H3, (ACMA01H3), LINA01H3, PHLA10H3, PHLA11H3, WSTA01H3.

(*) It is recommended that this requirement be satisfied by the end of the second year.

2. A-level courses (2.5 credits)

CSCA08H3 Introduction to Computer Science I
MATA22H3 Linear Algebra I or Mathematical Sciences
MATA31H3* Calculus I for Mathematical Sciences
MATA37H3* Calculus II for Mathematical Sciences
 [(MATA67H3) or CSCA67H3 Discrete Mathematics]

3. B-level courses (2.5 credits)

MATB24H3 Linear Algebra II
MATB41H3 Techniques of the Calculus of Several Variables I
MATB61H3 Linear Programming and Optimization
STAB52H3 Introduction to Probability
STAB57H3 Introduction to Statistics

4. C-level courses (1.5 credits)CSCC37H3 Introduction to Numerical Algorithms for Computational MathematicsSTAC62H3 Probability and Stochastic Processes ISTAC67H3 Regression Analysis**5. D-level courses (0.5 credit)**STAD37H3 Multivariate Analysis**Quantitative Finance Stream**

This stream requires a total of 26 courses (13.0 credits). In addition to the core requirements, 11 other courses (5.5 credits) must be taken satisfying all of the following requirements:

6. Additional A-level courses (0.5 credit)MGEA02H3 Introduction to Microeconomics: A Mathematical Approach**7. Additional B-level courses (2.0 credits)**STAB40H3 Fundamentals of Investment and CreditMATB42H3 Techniques of Calculus of Several Variables IIMATB44H3 Differential Equations ISTAB41H3 Financial Derivatives**8. Additional Upper-Level courses (3.0 credits)**MATC46H3 Differential Equations IISTAC70H3 Statistics and Finance ISTAD57H3 Time Series AnalysisSTAD70H3 Statistics and Finance II

and

1.0 credit from the following:

CSCC11H3 Introduction to Machine Learning and Data MiningMATC37H3 Introduction to Real AnalysisSTAC51H3 Categorical Data AnalysisSTAC58H3 Statistical InferenceSTAC63H3 Probability and Stochastic Processes IISTAD68H3 Advanced Machine Learning and Data MiningSTAD92H3 Readings in StatisticsSTAD93H3 Readings in StatisticsSTAD94H3 Statistics ProjectSTAD95H3 Statistics ProjectAPM462H1 Nonlinear Optimization

Note: Students enrolled in this stream should also consider taking complementary courses in economics and finance (e.g. MGEA06H3, MGEA02H3, MGEA06H3, MGEC72H3), or the Minor in Economics for Management Studies.

SPECIALIST (CO-OPERATIVE) PROGRAM IN STATISTICS - Quantitative Finance Stream (SCIENCE) - SCSPE2299T

Academic Program Advisor: S. Calanza susan.calanza@utoronto.caCo-op Program Coordinator: C. Dixon coopsuccess.uts@utoronto.ca

The Specialist (Co-operative) Program in Statistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Statistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) Program in Statistics is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Statistics.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- **COPB50H3**
- **COPB56H3/(COPB51H3)**

Work Term Search Courses:

- **COPB57H3/(COPB52H3)** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

SPECIALIST (CO-OPERATIVE) PROGRAM IN STATISTICS - Statistical Machine Learning and Data Science Stream (SCIENCE) - SCSPE2289Y

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: C. Dixon coopsuccess.utsc@utoronto.ca

The Specialist (Co-operative) Program in Statistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Statistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) Program in Statistics is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through

ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

SPECIALIST PROGRAM IN STATISTICS - Statistical Machine Learning and Data Science Stream (SCIENCE) - SCSPE2289Z

Supervisor of Studies: S. Damouras Email: sotirios.damouras@utoronto.ca (416-287-7269)

Program Objectives

This program provides training in the discipline of Statistics. Students are given a thorough grounding in the theory underlying statistical reasoning and learn the methodologies associated with current applications. A full set of courses on the theory and methodology of the discipline represents the core of the program. In addition, students select one of three streams, each of which provides immediately useful, job-related skills. The program also prepares students for further study in Statistics and related fields.

The Statistical Machine Learning and Data Science Stream focuses on applications of statistical theory and concepts to the discovery (or “learning”) of patterns in data. This field is a recent development in statistics with wide applications in science and technology including computer vision, image understanding, natural language processing, medical diagnosis, and stock market analysis. This stream prepares students for direct employment in industry and government, and further study in Statistical Machine Learning.

Enrolment Requirements

Enrolment in the Specialist in Statistics (all streams) is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Statistics admissions category:*Required Courses:*

Students must have passed the following CSC and MAT courses:

- All streams: CSCA08H3, CSCA67H3, MATA22H3, MATA31H3, and MATA37H3.
- Machine Learning and Data Science stream only: CSCA48H3

Required Grades:

There are a limited number of available spaces in each stream of the Specialist in Statistics. Students that meet all of the following requirements will be eligible to be considered for one of the spaces in a Statistics Specialist POST; admission will be based on academic performance in the required A-level courses, identified above. Students who meet all of the following requirements but are not admitted to the Specialist will be admitted to the Major in Statistics:

- a. All streams: a cumulative grade point average (CGPA) of at least 2.5 over the following courses: CSCA08H3, CSCA67H3, MATA22H3, and MATA37H3; and
- b. For the Machine Learning and Data Science stream only: a final grade of at least B in CSCA48H3.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Mathematics) or any other UTSC Year 1 admissions categories are eligible to apply for a Statistics Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Program Requirements

To complete the program, a student must meet the course requirements described below.

The first-year requirements of the three streams are almost identical, except that the Quantitative Finance stream requires MGEA02H3 while the Statistical Machine Learning and Data Science stream requires CSCA48H3, and the Statistical Science stream requires STAA57H3; these courses need not be taken in the first year.

Note: There are courses on the St. George campus that can be taken to satisfy some of the requirements of the program. STAB52H3, STAB57H3, STAC62H3 and STAC67H3, however, must be taken at the University of Toronto Scarborough; no substitutes are permitted without permission of the program supervisor.

Core (7.5 credits)

1. Writing Requirement (0.5 credit) (*)

0.5 credit from the following: ANTA01H3, ANTA02H3, CTLA01H3, ENGA10H3, ENGA11H3, ENGB06H3, ENGB07H3, ENGB08H3, ENGB09H3, ENGB17H3, ENGB19H3, ENGB50H3, GGRA02H3, GGRA03H3, GGRB05H3, (ACMA01H3), LINA01H3, PHLA10H3, PHLA11H3, WSTA01H3.

(*) It is recommended that this requirement be satisfied by the end of the second year.

2. A-level courses (2.5 credits)

CSCA08H3 Introduction to Computer Science I
MATA22H3 Linear Algebra I or Mathematical Sciences
MATA31H3* Calculus I for Mathematical Sciences
MATA37H3* Calculus II for Mathematical Sciences
 [(MATA67H3) or CSCA67H3 Discrete Mathematics]

3. B-level courses (2.5 credits)

MATB24H3 Linear Algebra II
MATB41H3 Techniques of the Calculus of Several Variables I
MATB61H3 Linear Programming and Optimization
STAB52H3 Introduction to Probability
STAB57H3 Introduction to Statistics

4. C-level courses (1.5 credits)

CSCC37H3 Introduction to Numerical Algorithms for Computational Mathematics
STAC62H3 Probability and Stochastic Processes I
STAC67H3 Regression Analysis

5. D-level courses (0.5 credit)

STAD37H3 Multivariate Analysis

Statistical Machine Learning and Data Science Stream

This stream requires a total of 26 courses (13.0 credits). In addition to the core requirements, 11 other courses (5.5 credits) must be taken satisfying all of the following requirements:

6. Additional A-level courses (0.5 credit)

CSCA48H3 Introduction to Computer Science II

7. Additional B-level courses (2.0 credits)

CSCB07H3 Software Design

[CSCB20H3 Introduction to Databases and Web Applications or STAA57H3 Introduction to Data Science]

CSCB36H3 Introduction to the Theory of Computation

CSCB63H3 Design and Analysis of Data Structures

8. Additional Upper Level courses (3.0 credits)

CSCC11H3 Introduction to Machine Learning and Data Mining

STAC58H3 Statistical Inference

[STAD68H3 Advanced Machine Learning and Data Mining or STAD78H3 Machine Learning Theory]

and

1.5 credits from the following (*):

Any C or D-level CSC, MAT or STA courses, excluding: STAC32H3, STAC53H3 and STAD29H3, 1.0 credit must be STA courses.

(*) Some of the courses on this list have prerequisites that are not included in this program; in choosing courses to satisfy this requirement, check the prerequisites carefully and plan accordingly.

SPECIALIST PROGRAM IN STATISTICS - Statistical Science Stream (SCIENCE) - SCSPE2279F

Supervisor of Studies: S. Damouras Email: sotirios.damouras@utoronto.ca (416-287-7269)

Program Objectives

This program provides training in the discipline of Statistics. Students are given a thorough grounding in the theory underlying statistical reasoning and learn the methodologies associated with current applications. A full set of courses on the theory and methodology of the discipline represents the core of the program. In addition, students select one of three streams, each of which provides immediately useful, job-related skills. The program also prepares students for further study in Statistics and related fields.

The Statistical Science Stream is concerned with giving students a sound grounding in statistical methodology and theory. Students acquire expertise in the proper collection of data, the methods used to analyze data to answer scientific questions of interest, and the theory that underlies these activities. The program provides preparation for employment as a statistician or for further graduate studies in statistics.

Enrolment Requirements

Enrolment in the Specialist in Statistics (all streams) is limited. Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Statistics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses:

a. All streams: CSCA08H3, CSCA67H3, MATA22H3, MATA31H3, and MATA37H3.

b. Machine Learning and Data Science stream only: CSCA48H3

Required Grades:

There are a limited number of available spaces in each stream of the Specialist in Statistics. Students that meet all of the following requirements will be eligible to be considered for one of the spaces in a Statistics Specialist POST; admission will be based on academic performance in the required A-level courses, identified above. Students who meet all of the following requirements but are not admitted to the Specialist will be admitted to the Major in Statistics:

- a. All streams: a cumulative grade point average (CGPA) of at least 2.5 over the following courses: CSCA08H3, CSCA67H3, MATA22H3, and MATA37H3; and
- b. For the Machine Learning and Data Science stream only: a final grade of at least B in CSCA48H3.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Mathematics) or any other UTSC Year 1 admissions categories are eligible to apply for a Statistics Specialist POST. Admission will be based on academic performance in the required A-level courses, identified above. The requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enrol in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Program Requirements

To complete the program, a student must meet the course requirements described below.

The first-year requirements of the three streams are almost identical, except that the Quantitative Finance stream requires MGEA02H3 while the Statistical Machine Learning and Data Science stream requires CSCA48H3, and the Statistical Science stream requires STAA57H3; these courses need not be taken in the first year.

Note: There are courses on the St. George campus that can be taken to satisfy some of the requirements of the program. STAB52H3, STAB57H3, STAC62H3 and STAC67H3, however, must be taken at the University of Toronto Scarborough; no substitutes are permitted without permission of the program supervisor.

Core (7.5 credits)

1. Writing Requirement (0.5 credit) (*)

0.5 credit from the following: ANTA01H3, ANTA02H3, CTLA01H3, ENGA10H3, ENGA11H3, ENGB06H3, ENGB07H3, ENGB08H3, ENGB09H3, ENGB17H3, ENGB19H3, ENGB50H3, GGRA02H3, GGRA03H3, GGRB05H3, (ACMA01H3), LINA01H3, PHLA10H3, PHLA11H3, WSTA01H3.

(*) It is recommended that this requirement be satisfied by the end of the second year.

2. A-level courses (2.5 credits)

CSCA08H3 Introduction to Computer Science I
MATA22H3 Linear Algebra I or Mathematical Sciences
MATA31H3* Calculus I for Mathematical Sciences
MATA37H3* Calculus II for Mathematical Sciences
 [(MATA67H3) or CSCA67H3 Discrete Mathematics]

3. B-level courses (2.5 credits)

MATB24H3 Linear Algebra II
MATB41H3 Techniques of the Calculus of Several Variables I
MATB61H3 Linear Programming and Optimization
STAB52H3 Introduction to Probability
STAB57H3 Introduction to Statistics

4. C-level courses (1.5 credits)

CSCC37H3 Introduction to Numerical Algorithms for Computational Mathematics
STAC62H3 Probability and Stochastic Processes I
STAC67H3 Regression Analysis

5. D-level courses (0.5 credit)

STAD37H3 Multivariate Analysis

Statistical Science Stream

This stream requires a total of 26 courses (13.0 credits). In addition to the core requirements, 11 other courses (5.5 credits) must be taken satisfying all of the following requirements:

6. Additional A-level courses (0.5 credit)

STAA57H3 Introduction to Data Science

7. Additional B-level courses (1.0 credit)

MATB42H3 Techniques of Calculus of Several Variables II

MATB44H3 Differential Equations I

8. Additional C-level courses (2.5 credits)

STAC33H3 Introduction to Applied Statistics

STAC50H3 Data Collection

STAC51H3 Categorical Data Analysis

STAC58H3 Statistical Inference

STAC63H3 Probability and Stochastic Processes II

9. Additional C- and D-level courses (1.0 credit)*

1.0 credit from the following:

CSCC11H3 Introduction to Machine Learning and Data Mining

MATC34H3 Complex Variables

MATC37H3 Introduction to Real Analysis (strongly recommended for students who wish to pursue graduate studies)

STAD68H3 Advanced Machine Learning and Data Mining

STAD78H3 Machine Learning Theory

STAD80H3 Analysis of Big Data

STAD92H3 Readings in Statistics

STAD93H3 Readings in Statistics

STAD94H3 Statistics Project

STAD95H3 Statistics Project

*Students should plan ahead when taking these courses to ensure that prerequisites are satisfied and, in the case of STAD92H3, STAD93H3, STAD94H3, and STAD95H3, that a faculty member has agreed to supervise the course (as this is not guaranteed).

10. Additional D-level courses (0.5 credit)

STAD57H3 Time Series Analysis

SPECIALIST (CO-OPERATIVE) PROGRAM IN STATISTICS - Statistical Science Stream (SCIENCE) - SCSPE2279Y

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: C. Dixon coopsuccess.uts@utoronto.ca

The Specialist (Co-operative) Program in Statistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Statistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Specialist (Co-operative) Program in Statistics is limited. Students must have completed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.75 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Specialist Program in Statistics.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB56H3/(COPB51H3)

Work Term Search Courses:

- COPB57H3/(COPB52H3) - Completed in the semester prior to the first work term

- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN STATISTICS (SCIENCE) - SCMAJ2289

Supervisor of Studies: M. Samarakoon Email: mahinda.samarakoon@utoronto.ca

Recommended Writing Course

Students are urged to take a course from the following list of courses by the end of their second year. ANTA01H3, ANTA02H3, CLAA06H3, (CTLA19H3), CTLA01H3, ENGA10H3, ENGA11H3, ENGB06H3, ENGB07H3, ENGB08H3, ENGB09H3, ENGB17H3, ENGB19H3, ENGB50H3, (ENGB51H3), GGRA02H3, GGRA03H3, GGRB05H3, (GGRB06H3), (HISA01H3), (HLTA01H3), (ACMA01H3), (HUMA01H3), (HUMA11H3), (HUMA17H3), (LGGA99H3), LINA01H3, PHLA10H3, PHLA11H3, WSTA01H3.

Enrolment Requirements

Enrolment in the Major Program in Statistics is limited.

Students may apply to enter the program after completing 4.0 credits, and must meet the requirements described below:

1. Students already admitted to the UTSC Year 1 Statistics admissions category:

Required Courses:

Students must have passed the following CSC and MAT courses: [CSCA08H3 or CSCA20H3], MATA22H3, [MATA30H3 or MATA31H3] and [MATA36H3 or MATA37H3].

Required Grades:

Students that meet the following requirements will be admitted to the Statistics Major POST:

a. A cumulative grade point average (CGPA) of at least 2.3 over the following courses: CSCA08H3/CSCA20H3, MATA22H3, and MATA36/37H3.

2. Students admitted to other UTSC Year 1 admissions categories:

Students that have been admitted to other CMS admissions categories (Computer Science or Mathematics) or any other UTSC Year 1 admissions categories are eligible to apply for a Statistics Major POST. Admission will be based on

academic performance in the required A-level courses, identified above. The admission requirements change each year depending on available spaces and the pool of eligible applicants, and students are cautioned that there is no guarantee of admission; as such, students are strongly advised to plan to enroll in backup programs.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Program Requirements

This program requires 8.0 credits.

1. A-level courses

[MATA22H3](#) Linear Algebra I for Mathematical Sciences

[\[CSCA08H3](#) Introduction to Computer Science I or [CSCA20H3](#) Computer Science for the Sciences]

[\[MATA30H3](#) Calculus I for Physical Sciences or [MATA31H3](#) Calculus I for Mathematical Sciences*]

[\[MATA36H3](#) Calculus II for Physical Sciences or [MATA37H3](#) Calculus II for Mathematical Sciences*]

*The sequence [MATA31H3](#) and [MATA37H3](#) is recommended. [MATA31H3](#) is the prerequisite for [MATA37H3](#).

2. B-level courses

[MATB24H3](#) Linear Algebra II

[MATB41H3](#) Techniques of the Calculus of Several Variables I

[MATB42H3](#) Techniques of the Calculus of Several Variables II

[\[STAB52H3](#) An Introduction to Probability or [STAB53H3](#) Introduction to Applied Probability]*

[STAB57H3](#) An Introduction to Statistics*

3. Upper-level courses

[STAC67H3](#) Regression Analysis*

and

1.5 credits from the following:

any C- or D-level STA courses, except: [STAC32H3](#), [STAC53H3](#) and [STAD29H3](#)

4. Electives

1.5 credit from the following:

[STAA57H3](#), [STAB40H3](#), [STAB41H3](#), [MATB61H3](#), or any C- or D-level CSC, MAT or STA courses

* [STAB52H3](#), [STAB53H3](#), [STAB57H3](#), [STAC67H3](#) - These courses must be taken at UTSC. No substitutes are permitted without permission from the program supervisor.

MAJOR (CO-OPERATIVE) PROGRAM IN STATISTICS (SCIENCE) - SCMAJ2289C

Academic Program Advisor: S. Calanza susan.calanza@utoronto.ca

Co-op Program Coordinator: C. Dixon coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Statistics is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Statistics upon graduation.

In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term and Course requirements.

Enrolment Requirements

Enrolment in the Major (Co-operative) Program in Statistics is limited. Students must have passed the required A-level CSC and MAT courses, and achieved the required grades.

Note: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students:

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program.

Deadlines follow the Limited Enrolment Program Application Deadlines set by the Office of the Registrar each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered.

Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and depends on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Current Co-op Students:

Students admitted to a Co-op Degree POST must request a Co-op Program of Study through ACORN.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses.

Academic Program Requirements

Students must complete the program requirements as described in the Major Program in Statistics.

Planning your Co-op Work Terms & Academics:

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements:

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters, and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements:

Co-op students complete the following Co-op-specific courses as part of their degree

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB56H3/(COPB51H3)

Work Term Search Courses:

- **COPB57H3**/**COPB52H3** - Completed in the semester prior to the first work term
- **COPC98H3** - Taken in the semester prior to the second work term
- **COPC99H3** - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- **COPC01H3** - First work term
- **COPC02H3** - Second work term
- **COPC03H3** - Third work term

Additional Work Terms & Courses:

After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional course work will also be required.

- **COPC04H3** - Fourth work term
- **COPC05H3** - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the [Co-operative Programs](#) section and the [Arts and Science Co-op](#) section in the *UTSC Calendar*.

MINOR PROGRAM IN APPLIED STATISTICS (SCIENCE) - SCMIN2295

Supervisor of Studies: K. Butler Email: ken.butler@utoronto.ca

The Minor in Applied Statistics may be combined with the Minor in Computer Science; however, it cannot be combined with any Specialist/Specialist Co-op, Major/Major Co-op or other Minor programs in Computer Science, Mathematics or Statistics.

Enrolment in the Minor in Applied Statistics is limited.

Students may apply to the program after completing [[STAB27H3](#) or [PSYC08H3](#) or [MGEB12H3](#) or [STA221H1](#)].

Students who meet the following requirements will be admitted to the Minor in Applied Statistics POST:

- A cumulative grade point average (CGPA) of at least 2.7 over [[STAB22H3](#) or [PSYB07H3](#) or [MGEB11H3](#) or [STA220H1](#)] and [[STAB27H3](#) or [PSYC08H3](#) or [MGEB12H3](#) or [STA221H1](#)]
- An overall CGPA of 2.50 at the time of application

Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the [Office of the Registrar](#) website.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Program Requirements

This program requires a total of 4.0 credits as follows:

1. 0.5 credit from the following:

- [CSCA08H3](#) Introduction to Computer Science I
- [CSCA20H3](#) Introduction to Programming

CSC120H1 Computer Science for the Sciences
CSC121H1 Computer Science for Statistics

2. 0.5 credit from the following:

STAB22H3 Statistics I
STAB23H3 Introduction to Statistics for the Social Sciences
MGE11H3 Quantitative Methods in Economics I
PSYB07H3 Data Analysis in Psychology
STA220H1 The Practice of Statistics I

3. 0.5 credit from the following:

STAB27H3 Statistics II
MGE12H3 Quantitative Methods in Economics II
PSYC08H3 Advanced Data Analysis in Psychology
STA221H1 The Practice of Statistics II

4. 1.5 credits as follows:

STAC32H3 Applications of Statistical Methods
STAC53H3 Applied Data Collection
STAD29H3 Statistics for Life and Social Scientists

5. 1.0 credit from the following:

[one of the following: any ACT, CSC, MAT, STA course]
[one of the following: MGEA02H3, MGEA06H3, MGE102H3, MGE106H3, MGE111H3, MGE116H3, MGE170H3]
GGRB02H3 The Logic of Geographical Thought
HLTB15H3 Introduction to Health Research Methodology
[one of the following: MGFB10H3, MGFC30H3, MGOC10H3, MGMC01H3, MGMD01H3]
POLC11H3 Applied Statistics for Politics and Public Policy

MINOR PROGRAM IN STATISTICS (SCIENCE) - SCMIN2289

Supervisor of Studies: M. Samarakoon Email: mahinda@utsc.utoronto.ca

Enrolment in the Minor in Statistics is limited.

Students may apply to the program after completing [CSCA08H3 or CSCA20H3] and [MATA22H3 or MATA23H3] and [MATA36H3 or MATA37H3].

Students will be admitted to the program based on their cumulative grade point average (cGPA) over the courses: [CSCA08H3 or CSCA20H3] and [MATA22H3 or MATA23H3] and [MATA36H3 or MATA37H3]. The required cGPA will change each year depending on available spaces and the pool of eligible applicants.

Application for admission will be made to the Office of the Registrar through ACORN, during the Limited Program application periods. For more information on applying to limited enrolment programs, please visit the [Office of the Registrar](#) website.

For more information about the admission requirements, please visit the following [CMS webpage](#).

Program Requirements

This program requires 4.0 credits.

1. First Year (2.0 credits)

[CSCA08H3 Introduction to Computer Science I or CSCA20H3 Computer Science for the Sciences]
MATA23H3 Linear Algebra I
[MATA30H3 Calculus I for Physical Sciences or MATA31H3 Calculus I for Mathematical Sciences] and
[MATA36H3 Calculus II for Physical Sciences or MATA37H3 Calculus II for Mathematical Sciences.]

Notes:

1. The sequence [MATA31H3 and MATA37H3] is recommended.
2. MATA31H3 is the pre-requisite for MATA37H3.

2. Second Year (1.0 credit)

[STAB52H3 An Introduction to Probability or STAB53H3 Introduction to Applied Probability]

STAB57H3 An Introduction to Statistics

3. Third and Fourth Year (0.5 credit)

STAC67H3 Regression Analysis

4. In addition, 0.5 credit must be chosen from any C- or D-level STA course (excluding STAC32H3, STAC53H3 and STAD29H3).

Statistics Courses

STAA57H3 - Introduction to Data Science

Reasoning using data is an integral part of our increasingly data-driven world. This course introduces students to statistical thinking and equips them with practical tools for analyzing data. The course covers the basics of data management and visualization, sampling, statistical inference and prediction, using a computational approach and real data.

Prerequisite: CSCA08H3

Exclusion: STAB22H3, STA130H, STA220H

Breadth Requirements: Quantitative Reasoning

Course Experience: Partnership-Based Experience

STAB22H3 - Statistics I

This course is a basic introduction to statistical reasoning and methodology, with a minimal amount of mathematics and calculation. The course covers descriptive statistics, populations, sampling, confidence intervals, tests of significance, correlation, regression and experimental design. A computer package is used for calculations.

Exclusion: (ANTC35H3), MGE11H3/(ECMB11H3), (POLB11H3), PSYB07H3, (SOCB06H3), STAB23H3, STAB52H3, STAB57H3, STA220H, (STA250H)

Breadth Requirements: Quantitative Reasoning

STAB23H3 - Introduction to Statistics for the Social Sciences

This course covers the basic concepts of statistics and the statistical methods most commonly used in the social sciences. The first half of the course introduces descriptive statistics, contingency tables, normal probability distribution, and sampling distributions. The second half of the course introduces inferential statistical methods. These topics include significance test for a mean (t-test), significance test for a proportion, comparing two groups (e.g., comparing two proportions, comparing two means), associations between categorical variables (e.g., Chi-square test of independence), and simple linear regression.

Exclusion: (ANTC35H3), MGE11H3/(ECMB11H3), (POLB11H3), PSYB07H3, (SOCB06H3), STAB22H3, STAB52H3, STAB57H3, STA220H, STA250H

Breadth Requirements: Quantitative Reasoning

STAB27H3 - Statistics II

This course follows STAB22H3, and gives an introduction to regression and analysis of variance techniques as they are used in practice. The emphasis is on the use of software to perform the calculations and the interpretation of output from the software. The course reviews statistical inference, then treats simple and multiple regression and the analysis of some standard experimental designs.

Prerequisite: STAB22H3 or STAB23H3

Exclusion: MGE12H3/(ECMB12H3), STAB57H3, STA221H, (STA250H)

Breadth Requirements: Quantitative Reasoning

STAB40H3 - Fundamentals of Investment and Credit

This course is concerned with the concept of financial interest. Topics covered include: interest, discount and present values, as applied to determine prices and values of annuities, mortgages, bonds, equities, loan repayment schedules and consumer finance payments in general, yield rates on investments given the costs on investments.

Prerequisite:

MATA30H3 or MATA31H3 or MATA34H3

Exclusion: (ACTB40H3), ACT240H1, MGFB10H3

Breadth Requirements: Quantitative Reasoning

Note: Students enrolled in or planning to enrol in any of the B.B.A. programs are strongly urged not to take STAB40H3 because STAB40H3 is an exclusion for MGFB10H3/(MGTB09H3)/(MGTC03H3), a required course in the B.B.A. degree. Students in any of the B.B.A. programs will thus be forced to complete MGFB10H3/(MGTB09H3)/(MGTC03H3), even if they have credit for STAB40H3, but will only be permitted to count one of STAB40H3 and MGFB10H3/(MGTB09H3)/(MGTC03H3) towards the 20 credits required to graduate.

STAB41H3 - Financial Derivatives

A study of the most important types of financial derivatives, including forwards, futures, swaps and options (European, American, exotic, etc). The course illustrates their properties and applications through examples, and introduces the theory of derivatives pricing with the use of the no-arbitrage principle and binomial tree models.

Prerequisite: [(ACTB40H3)/STAB40H3] or MGFB10H3

Exclusion: MGFC30H3/(MGTC71H3)

Breadth Requirements: Quantitative Reasoning

STAB52H3 - An Introduction to Probability

A mathematical treatment of probability. The topics covered include: the probability model, density and distribution functions, computer generation of random variables, conditional probability, expectation, sampling distributions, weak law of large numbers, central limit theorem, Monte Carlo methods, Markov chains, Poisson processes, simulation, applications. A computer package will be used.

Prerequisite: MATA22H3 and MATA37H3

Exclusion: STAB53H3, PSYB07H3, STA107H, STA237H1, STA247H1, STA257H, STA246H5, STA256H5

Breadth Requirements: Quantitative Reasoning

STAB53H3 - Introduction to Applied Probability

An introduction to probability theory with an emphasis on applications in statistics and the sciences. Topics covered include probability spaces, random variables, discrete and continuous probability distributions, expectation, conditional probability, limit theorems, and computer simulation.

Prerequisite: [MATA22H3 or MATA23H3] and [MATA35H3 or MATA36H3 or MATA37H3]

Exclusion: STAB52H3, PSYB07H3, STA107H, STA237H1, STA247H1, STA257H, STA246H5, STA256H5

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

STAB57H3 - An Introduction to Statistics

A mathematical treatment of the theory of statistics. The topics covered include: the statistical model, data collection, descriptive statistics, estimation, confidence intervals and P-values, likelihood inference methods, distribution-free methods, bootstrapping, Bayesian methods, relationship among variables, contingency

tables, regression, ANOVA, logistic regression, applications. A computer package will be used.

Prerequisite: [STAB52H3 or STAB53H3]

Exclusion: MGEB11H3, PSYB07H3, STAB22H3, STAB23H3, STA220H1, STA261H

Breadth Requirements: Quantitative Reasoning

STAC32H3 - Applications of Statistical Methods

A case-study based course, aimed at developing students' applied statistical skills beyond the basic techniques. Students will be required to write statistical reports. Statistical software, such as SAS and R, will be taught and used for all statistical analyses.

Prerequisite: STAB27H3 or MGEB12H3 or PSYC08H3 or STA221H1

Exclusion: STAC33H3

Breadth Requirements: Quantitative Reasoning

STAC33H3 - Introduction to Applied Statistics

This course introduces students to statistical software, such as R and SAS, and its use in analyzing data. Emphasis will be placed on communication and explanation of findings. Students will be required to write a statistical report.

Prerequisite: STAB57H3 or STA248H3 or STA261H3

Exclusion: STAC32H3

Breadth Requirements: Quantitative Reasoning

STAC50H3 - Data Collection

The principles of proper collection of data for statistical analysis, and techniques to adjust statistical analyses when these principles cannot be implemented. Topics include: relationships among variables, causal relationships, confounding, random sampling, experimental designs, observational studies, experiments, causal inference, meta-analysis. Statistical analyses using SAS or R.

Students enrolled in the Minor program in Applied Statistics should take STAC53H3 instead.

Prerequisite: STAB57H3 or STA261H1. Students enrolled in the Minor program in Applied Statistics should take STAC53H3.

Exclusion: STA304H, STAC53H3

Breadth Requirements: Quantitative Reasoning

STAC51H3 - Categorical Data Analysis

Statistical models for categorical data. Contingency tables, generalized linear models, logistic regression,

multinomial responses, logit models for nominal responses, log-linear models for two-way tables, three-way tables and higher dimensions, models for matched pairs, repeated categorical response data, correlated and clustered responses. Statistical analyses using SAS or R.

Prerequisite: STAC67H3

Exclusion: STA303H1

Breadth Requirements: Quantitative Reasoning

STAC53H3 - Applied Data Collection

This course introduces the principles, objectives and methodologies of data collection. The course focuses on understanding the rationale for the various approaches to collecting data and choosing appropriate statistical techniques for data analysis. Topics covered include elements of sampling problems, simple random sampling, stratified sampling, ratio, regression, and difference estimation, systematic sampling, cluster sampling, elements of designed experiments, completely randomized design, randomized block design, and factorial experiments. The R statistical software package is used to illustrate statistical examples in the course. Emphasis is placed on the effective communication of statistical results.

Prerequisite: STAB27H3 or MGE12H3 or PSYC08H3 or STA221H1

Exclusion: STAC50H3, STA304H1, STA304H5

Breadth Requirements: Quantitative Reasoning

Note: Students enrolled in the Specialist or Major programs in Statistics should take STAC50H3.

STAC58H3 - Statistical Inference

Principles of statistical reasoning and theories of statistical analysis. Topics include: statistical models, likelihood theory, repeated sampling theories of inference, prior elicitation, Bayesian theories of inference, decision theory, asymptotic theory, model checking, and checking for prior-data conflict. Advantages and disadvantages of the different theories.

Prerequisite: STAB57H3 and STAC62H3

Exclusion: STA352Y, STA422H

Breadth Requirements: Quantitative Reasoning

STAC62H3 - Probability and Stochastic Processes I

This course continues the development of probability theory begun in STAB52H3. Topics covered include finite dimensional distributions and the existence theorem, discrete time Markov chains, discrete time martingales, the multivariate normal distribution, Gaussian processes and Brownian motion.

Prerequisite: MATB41H3 and STAB52H3

Exclusion: STA347H1

Breadth Requirements: Quantitative Reasoning

STAC63H3 - Probability and Stochastic Processes II

This course continues the development of probability theory begun in STAC62H3. Probability models covered include branching processes, birth and death processes, renewal processes, Poisson processes, queuing theory, random walks and Brownian motion.

Prerequisite: STAC62H3

Exclusion: STA447H1, STA348H5

Breadth Requirements: Quantitative Reasoning

STAC67H3 - Regression Analysis

A fundamental statistical technique widely used in various disciplines. The topics include simple and multiple linear regression analysis, geometric representation of regression, inference on regression parameters, model assumptions and diagnostics, model selection, remedial measures including weighted least squares, instruction in the use of statistical software.

Prerequisite: STAB57H3

Exclusion: STA302H; [Students who want to complete both STAC67H3 and MGE12H3, and receive credit for both courses, must successfully complete MGE12H3 prior to enrolling in STAC67H3; for students who complete MGE12H3 after successfully completing STAC67H3, MGE12H3 will be marked as Extra (EXT)]

Breadth Requirements: Quantitative Reasoning

STAC70H3 - Statistics and Finance I

A mathematical treatment of option pricing. Building on Brownian motion, the course introduces stochastic integrals and Itô calculus, which are used to develop the Black-Scholes framework for option pricing. The theory is extended to pricing general derivatives and is illustrated through applications to risk management.

Prerequisite: [STAB41H3 or MGFC30H3]/(MGTC71H3) and STAC62H3

Corequisite: MATC46H3

Exclusion: APM466H, ACT460H

Breadth Requirements: Quantitative Reasoning

STAD29H3 - Statistics for Life & Social Scientists

The course discusses many advanced statistical methods used in the life and social sciences. Emphasis is on learning how to become a critical interpreter of these methodologies while keeping mathematical requirements low. Topics covered include multiple regression, logistic

regression, discriminant and cluster analysis, principal components and factor analysis.

Prerequisite: [STAC32H3](#)

Exclusion: All C-level/300-level and D-level/400-level STA courses or equivalents except [STAC32H3](#), [STAC53H3](#), [STAC51H3](#) and [STA322H](#).

Breadth Requirements: Quantitative Reasoning

STAD37H3 - Multivariate Analysis

Linear algebra for statistics. Multivariate distributions, the multivariate normal and some associated distribution theory. Multivariate regression analysis. Canonical correlation analysis. Principal components analysis. Factor analysis. Cluster and discriminant analysis. Multidimensional scaling. Instruction in the use of SAS.

Prerequisite: [STAC67H3](#)

Exclusion: STA437H, (STAC42H3)

Breadth Requirements: Quantitative Reasoning

STAD57H3 - Time Series Analysis

An overview of methods and problems in the analysis of time series data. Topics covered include descriptive methods, filtering and smoothing time series, identification and estimation of times series models, forecasting, seasonal adjustment, spectral estimation and GARCH models for volatility.

Prerequisite: [STAC62H3](#) and [STAC67H3](#)

Exclusion: STA457H, (STAC57H3)

Breadth Requirements: Quantitative Reasoning

STAD68H3 - Advanced Machine Learning and Data Mining

Statistical aspects of supervised learning: regression, regularization methods, parametric and nonparametric classification methods, including Gaussian processes for regression and support vector machines for classification, model averaging, model selection, and mixture models for unsupervised learning. Some advanced methods will include Bayesian networks and graphical models.

Prerequisite: [CSCC11H3](#) and [STAC58H3](#) and [STAC67H3](#)

Breadth Requirements: Quantitative Reasoning

STAD70H3 - Statistics and Finance II

A survey of statistical techniques used in finance. Topics include mean-variance and multi-factor analysis, simulation methods for option pricing, Value-at-Risk and related risk-management methods, and statistical arbitrage. A computer package will be used to illustrate the techniques using real financial data.

Prerequisite: [STAC70H3](#) and [STAD37H3](#)

Corequisite: [STAD57H3](#)

Breadth Requirements: Quantitative Reasoning

STAD78H3 - Machine Learning Theory

Presents theoretical foundations of machine learning. Risk, empirical risk minimization, PAC learnability and its generalizations, uniform convergence, VC dimension, structural risk minimization, regularization, linear models and their generalizations, ensemble methods, stochastic gradient descent, stability, online learning.

Prerequisite: [STAB57H3](#) and [STAC62H3](#)

Recommended Preparation: [STAC58H3](#) and [STAC67H3](#)

Breadth Requirements: Quantitative Reasoning

STAD80H3 - Analysis of Big Data

Big data is transforming our world, revolutionizing operations and analytics everywhere, from financial engineering to biomedical sciences. Big data sets include data with high-dimensional features and massive sample size. This course introduces the statistical principles and computational tools for analyzing big data: the process of acquiring and processing large datasets to find hidden patterns and gain better understanding and prediction, and of communicating the obtained results for maximal impact. Topics include optimization algorithms, inferential analysis, predictive analysis, and exploratory analysis.

Prerequisite: [STAC58H3](#) and [STAC67H3](#) and [CSCC11H3](#)

Breadth Requirements: Quantitative Reasoning

STAD81H3 - Causal Inference

Correlation does not imply causation. Then, how can we make causal claims? To answer this question, this course introduces theoretical foundations and modern statistical and graphical tools for making causal inference. Topics include potential outcomes and counterfactuals, measures of treatment effects, causal graphical models, confounding adjustment, instrumental variables, principal stratification, mediation and interference.

Prerequisite: [STAC50H3](#) and [STAC58H3](#) and [STAC67H3](#)

Breadth Requirements: Quantitative Reasoning

STAD91H3 - Topics in Statistics

Topics of interest in Statistics, as selected by the instructor. The exact topics can vary from year to year. Enrolment is by permission of the instructor only.

Prerequisite: Permission from the instructor is required. This will typically require the completion of specific courses which can vary from year to year.

Breadth Requirements: Quantitative Reasoning
Course Experience: University-Based Experience

STAD92H3 - Readings in Statistics

This course is offered by arrangement with a statistics faculty member who must agree to supervise. This course may be taken in any session and must be completed by the last day of classes in the session in which it is taken.

Prerequisite: Students must obtain consent from the Supervisor of Studies before registering for this course.

Breadth Requirements: Quantitative Reasoning

Note: UTSC students interested in Statistics reading or project courses must enroll using the following course codes: STAD92H3, STAD93H3, STAD94H3 or STAD95H3, regardless of whether these courses are instructed by faculty from UTSC, UTSG, or UTM.

STAD93H3 - Readings in Statistics

This course is offered by arrangement with a statistics faculty member who must agree to supervise. This course may be taken in any session and must be completed by the last day of classes in the session in which it is taken.

Prerequisite: Students must obtain consent from the Supervisor of Studies before registering for this course.

Breadth Requirements: Quantitative Reasoning

Note: UTSC students interested in Statistics reading or project courses must enroll using the following course codes: STAD92H3, STAD93H3, STAD94H3 or STAD95H3, regardless of whether these courses are instructed by faculty from UTSC, UTSG, or UTM.

STAD94H3 - Statistics Project

A significant project in any area of statistics. The project may be undertaken individually or in small groups. This course is offered by arrangement with a statistics faculty member who must agree to supervise. This course may be taken in any session and the project must be completed by the last day of classes in the session in which it is taken.

Prerequisite: Students must obtain consent from the Supervisor of Studies before registering for this course.

Breadth Requirements: Quantitative Reasoning

Note: UTSC students interested in Statistics reading or project courses must enroll using the following course codes: STAD92H3, STAD93H3, STAD94H3 or STAD95H3, regardless of whether these courses are instructed by faculty from UTSC, UTSG, or UTM.

STAD95H3 - Statistics Project

A significant project in any area of statistics. The project may be undertaken individually or in small groups. This course is offered by arrangement with a statistics faculty member who must agree to supervise. This course may be taken in any session and the project must be completed by the last day of classes in the session in which it is taken.

Prerequisite: Students must obtain consent from the Supervisor of Studies before registering for this course.

Breadth Requirements: Quantitative Reasoning

Note: UTSC students interested in Statistics reading or project courses must enroll using the following course codes: STAD92H3, STAD93H3, STAD94H3 or STAD95H3, regardless of whether these courses are instructed by faculty from UTSC, UTSG, or UTM.

Studio Art

Faculty List

- Y. Brotman, B.A. (Manitoba), B.Ed., M.V.S. (Toronto), Lecturer, Emeritus
- P. Cruz, B.F.A. (Philippines), B.F.A. (Emily Carr), M.F.A. (Guelph), Assistant Professor
- M. Hlady, B.F.A. (Victoria), M.F.A. (York), Associate Professor
- A. Irving, B.F.A. (Nova Scotia College of Art and Design), M.F.A. (York), Associate Professor, Teaching Stream
- A. Koroshegyi, B.F.A. (Queen's), M.F.A. (Western), Assistant Professor, Teaching Stream
- W. Kwan, B.A. (Toronto), M.F.A. (Columbia), Associate Professor
- T. Mars, D.F.A., Honoris Causa, NSCAD University, Associate Professor, Teaching Stream, Emeritus
- S. Mazinani, M.F.A. (Stanford), Assistant Professor
- O.E. Osahor, B.F.A. (Alberta), M.F.A. (Guelph), Assistant Professor

ACM Program Manager: Email: acm-pm@utsc.utoronto.ca

The Studio Art programs at the University of Toronto Scarborough offers hands-on courses in drawing, painting, sculpture, photography, performance art, video, new media, animation, and conceptual practices. Students can also take specialized courses in digital imaging, sound art, kinetics, or thematic courses that explore such things as the relationships between art and globalization, or art and politics, or time-based art practices. UTSC Studio Art students develop a combination of technical, theoretical, conceptual and critical skills that enable them to express and communicate their ideas confidently in a variety of visual languages. Students explore art as a tool for examining and intervening in visual culture, to consider the role of creativity in shaping communities locally and globally.

Students are encouraged to engage with the diversity of contemporary art by examining art-making from aesthetic, intellectual, social, and political perspectives. They are exposed to current positions in contemporary art theory, criticism, and curation and study the history of art from various cultural and historical viewpoints. The wide range of artistic experiences offered by the UTSC Studio Art programs provides rigorous general visual arts education for students interested in careers in the cultural and design sectors. Studio Art also offers focused preparation for students interested in pursuing advanced visual art study at the graduate level.

The Studio Art programs are housed in the Department of Arts, Culture and Media, which offers students an interdisciplinary framework for analyzing the ideas and theories connecting the arts and encourages students to explore the related fields of literature, history, anthropology, and other areas of Humanities and Social Sciences.

Some courses in Studio Art (VPS) may include Ancillary fees for lab and workshop materials.

Guidelines for course selection

The table below provides the recommended course selection guidelines for students wishing to complete the Specialist and Major Program in Studio Art. To ensure graduating when expected, all students should pay special attention to *prerequisites and corequisites* when selecting courses, this is especially important for C- and D-level courses.

Students wishing to complete the Minor Program in Studio Art do not require D-level courses.

Please note that students cannot combine the Major Program in Studio Art with the Minor program in Studio Art.

First Year:

- **Fall:** VPHA46H3, VPSA62H3, VPSA63H3, VPSB56H3 (if pursuing the Specialist program in Studio Art)
Please contact ACM Program Manager if you are pairing Major Program in Studio Art with Major (Joint) Program in New Media Studies
- **Winter:** VPSB56H3 (if pursuing the Specialist program in Studio Art; and if not taken in Fall term already), VPSB01H3
Additional course from the following: VPSB59H3, VPSB70H3

Second Year:

- **Fall:** B-level in Studio Art courses
B-level in Art History courses (If pursuing the Specialist Program in Studio Art)
- **Winter:** B- and C-level in Studio Art courses

Third Year:

- **Fall:** B- and C-level in Studio Art courses
C-level in Art History courses (If pursuing the Specialist Program in Studio Art)
- **Winter:** C-level in Studio Art courses

Fourth Year:

- **Fall:** D-level Studio Art course #1
Make sure the prerequisite is completed for this course in the previous year/semester
- **Winter:** D-level Studio Art course #2 (Note that students in Major program require only 0.5 credits at VPSD-level)
Make sure the prerequisite is completed for this course in the previous year/semester

The Specialist Program in Studio Art and the Major Program in Studio Art are limited enrolment programs that you need to apply for entry. Please read the Program Admission sections for instructions.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Studio Art Programs

SPECIALIST PROGRAM IN STUDIO ART (ARTS) - SCSPE11262

Undergraduate Advisor (General): Email: studio-program-supervisor@utsc.utoronto.ca

Enrolment Requirements

Enrolment in the Specialist in Studio Art is limited. Students must apply to enter the program after completing four credits including [VPSA62H3](#) and [VPSA63H3](#). Decisions are made on program admissions only twice a year, in May and August, and are based on student requests submitted to the Office of the Registrar through ACORN. Admission is determined on the basis of a student's overall GPA and grades in [VPSA62H3](#) and [VPSA63H3](#). For students applying after 8.0-10.0 credits, admission will be based on the overall GPA and grades in VPS courses taken.

Program Requirements

This program requires the completion of 14.0 credits, including 4.0 credits at the C-or D-level of which at least 1.0 credit must be at the D-level.

1. 2.5 credits as follows:

[VPSA62H3](#) Foundation Studies in Studio

[VPSA63H3](#) But Why is it Art?

[VPSB01H3](#) The Artist

[VPSB56H3](#) Digital Fundamentals for Artists

[VPHA46H3](#) Ways of Seeing: Introduction to Art Histories

2. 3.5 credits at VPSB-level courses, 1.0 credits of which should be from the following:

[VPSB58H3](#) Video Art

[VPSB59H3](#) Sculpture

VPSB70H3 Experimental Drawing
VPSB73H3 Curatorial Perspectives I

3. 1.0 additional credits from the following:

VPSB02H3 The Image Culture
CITA01H3 Foundations of City Studies
ENGA03H3 Introduction to Creative Writing
ENGB12H3 Life Writing
ENGB38H3 The Graphic Novel
FLMA70H3 How to Read a Film
FLMB75H3 Cinema and Modernity
MDSA10H3/(MDSA01H3) Media Foundations
MDSA13H3/(MDSA02H3) Media History
MDSB32H3/(MDSB05H3) Media and Globalization
MDSB28H3/(MDSB09H3/MDSB24H3) Kids These Days: Youth, Language and Media
WSTA01H3 Introduction to Women's and Gender Studies

4. 1.5 additional credits in VPH, of which 0.5 credit must be at the C-level

5. 4.0 credits in VPSC-level, of which 2.0 credits must be from the following:

VPSC85H3 Essential Skills for Emerging Artists
VPSC90H3 Theory and Practice: Art in a Globalizing World
VPSC91H3 Theory and Practice: Art and the Body
VPSC92H3 Theory and Practice: Art and Materials
VPSC93H3 Theory and Practice: Art and the Everyday
VPSC94H3 Theory and Practice: Art and Place
VPSC95H3 Theory and Practice: Art and Social Justice

6. 0.5 credits as follows:

VPSC56H3 Studio and Exhibition Practice

7. 1.0 credits as follows:

VPSC56H3 Advanced Exhibition Practice
VPSC63H3 Independent Study in Studio: Thesis

MAJOR PROGRAM IN STUDIO ART (ARTS) - SCMAJ1126

Undergraduate Advisor (General): Email: studio-program-supervisor@utsc.utoronto.ca

Enrolment Requirements

Enrolment in the Major in Studio Art is limited. Students must apply to enter the program after completing four credits including VPSA62H3 and VPSA63H3. Decisions are made on program admissions only twice a year, in May and August, and are based on student requests submitted to the Office of the Registrar through ACORN. Admission is determined on the basis of a student's overall GPA and grades in VPSA62H3 and VPSA63H3.

Program Requirements

Students must complete 7.5 credits as follows:

1. 1.5 credits as follows:

VPSA62H3 Foundation Studies in Studio
VPSA63H3 But Why Is It Art?
VPHA46H3 Ways of Seeing: Introduction to Art Histories

2. VPSB01H3 The Artists

3. 2.5 additional credits in VPSB-level, of which 1.0 credits must be from the following:

VPSB58H3 Video Art
VPSB59H3 Sculpture
VPSB70H3 Experimental Drawing
VPSB88H3 Sound Art
VPSB77H3 Performance Art
VPSB62H3 Painting the Abstract

* Students may use up to 0.5 VPHB-level or 0.5 MDSB-level credit towards this requirement, provided they hold the prerequisites.

4. 2.5 additional credits in VPSC-level, of which 1.0 credits must be from the following:

VPSC56H3 Studio and Exhibition Practice
VPSC85H3 Essential Skills for Emerging Artists
VPSC90H3 Theory and Practice: Art in a Globalizing World
VPSC91H3 Theory and Practice: Art and the Body
VPSC92H3 Theory and Practice: Art and Materials
VPSC93H3 Theory and Practice: Art and the Everyday
VPSC94H3 Theory and Practice: Art and Place
VPSC95H3 Theory and Practice: Art and Social Justice

5. 0.5 credit at the VPSD-level

Majors are encouraged to take VPSD56H3. (Note that VPSD56H3 requires VPSC56H3 Studio and Exhibition Practice as a prerequisite).

MINOR PROGRAM IN STUDIO ART (ARTS) - SCMIN1126

Undergraduate Advisor (General): Email: studio-program-supervisor@utsc.utoronto.ca

Enrolment Requirements

Enrolment in the Minor in Studio Art is unlimited.

Students cannot pair this program with a Major or Specialist program in Studio Art.

Program Requirements

Students are required to complete a total of 4.5 credits as follows:

1. 1.0 credits as follows:

VPSA62H3 Foundation Studies in Studio
VPSA63H3 But Why is it Art?

2. 2.5 credits at the B-level in VPS courses

Students may use up to 0.5 credits of VPHB-level or 0.5 credit of MDSB-level towards this requirement, provided they hold the prerequisites.

3. 1.0 credit at the C-level in VPS courses, including 0.5 credit from the following:

VPSC90H3 Theory and Practice: Art in a Globalizing World
VPSC91H3 Theory and Practice: Art and the Body
VPSC92H3 Theory and Practice: Art and Materials
VPSC93H3 Theory and Practice: Art and the Everyday
VPSC94H3 Theory and Practice: Art and Place
VPSC95H3 Theory and Practice: Art and Social Justice

Note: Students enrolled in Minor program in Studio Art cannot enroll in more than 1.5 VPSC-level courses

Studio Art Courses

VP SA62H3 - Foundation Studies in Studio

An introduction to the importance of content and context in the making of contemporary art.

Corequisite: VP SA63H3

Exclusion: VIS130H, JAV130H

Breadth Requirements: Arts, Literature and Language

VP SA63H3 - But Why Is It Art?

This introductory seminar examines the key themes, concepts, and questions that affect the practice of contemporary art. We will look at specific cases in the development of art and culture since 1900 to understand why and how contemporary art can exist as such a wide-ranging set of forms, media and approaches.

Exclusion: VIS120H, JAV120H, VST101H

Breadth Requirements: History, Philosophy and Cultural Studies

VP SB01H3 - The Artist

The figure of the artist is distorted in the popular imagination by stereotypes around individualism, heroism, genius, mastery, suffering, and poverty. This lecture course will examine these gendered, colonial mythologies and offer a more complex picture of the artist as a craftsman, professional, entrepreneur, researcher, public intellectual and dissident. We will consider diverse artistic models such as artist collectives and anonymous practitioners that challenge the idea of the individual male genius and examine artists' complex relationship with elitism, the art market, arts institutions, and gentrification. This course will be supplemented by visiting artist lectures that will offer students insight into the day-to-day reality of the practicing artist.

Prerequisite: VP SA62H3 and VP SA63H3

Breadth Requirements: Arts, Literature and Language

VP SB02H3 - Image Culture

How should artists make pictures in a world inundated with a relentless flow of digital images? Can pictures shape our understanding of the social world and influence mainstream culture? Through the perspective of contemporary artmaking, this lecture course will explore

ways that artists decentre and decolonize the image and concepts of authorship, representation, truth, and the

gaze. The course will also examine the role of visual technologies (cameras, screens, microscopes), distribution formats (the photographic print, mobile devices, the Internet), and picture making (ubiquitous capture, synthetic media, artificial intelligence) to consider how artists respond to changing ideas about the visible world.

Prerequisite: VP SA62H3 and VP SA63H3

Breadth Requirements: Arts, Literature and Language

VP SB56H3 - Digital Fundamentals for Artists

In this hands-on project-based class, students will investigate fundamental techniques and digital concepts common to digital art practices. This course is an introduction to general image processing, compositing, seamless collage, composition, text design, and quality control techniques for printing and production using Adobe Creative Cloud software on Apple computers. No prior experience with computer technology is required, as this course will prepare students for further study and exploration with the production of contemporary digital art.

Corequisite: VP SA62H3 and VP SA63H3

Exclusion: (VP SA74H3), VIS218H, FAS147H

Breadth Requirements: Arts, Literature and Language

VP SB58H3 - Video Art

This course will introduce students to the use of video in contemporary art. Students will learn key video production and post-production skills, including camera operation, lighting, audio recording, editing, and motion graphics, that will enable them to produce short experimental video artworks. This course will look at the historical development of video art and explore how contemporary artists continue to work with video today.

Prerequisite: VP SA62H3 and VP SA63H3

Exclusion: (VP SA73H3), VIS202H

Breadth Requirements: Arts, Literature and Language

VP SB59H3 - Sculpture

This course will introduce you to contemporary processes used to make three-dimensional objects. Projects are designed to encourage an understanding of the elements of three-dimensional composition while supporting experimentation with different ways sculptural materials and process are used to express ideas. You will learn basic design and patternmaking for sculpture, hands-on technical skills with wood, paper, textiles, and found objects. This course will also give students a critical and historical perspective on sculptural practice through readings and lectures.

Prerequisite: VPA62H3 and VPSA63H3

Exclusion: (VPSA71H3) FAS248H

Breadth Requirements: Arts, Literature and Language

VPSB61H3 - Painting from Life

This course will introduce students to the process of painting from observation with a focus on still-life and the human figure. Projects in this course will help students develop the ability to handle acrylic paint, prepare painting supports, and care for painting tools. Students will explore principles of colour, composition, and mark-making in representational painting. This course will also give students a critical perspective on representation in contemporary painting through readings and lectures.

Prerequisite: VPSA62H3 and VPSA63H3

Exclusion: (VPSA61H3), VIS201H, FAS145H

Breadth Requirements: Arts, Literature and Language

VPSB62H3 - Painting the Abstract

This course will introduce students to abstract painting with a focus on generating ideas and concepts driven by process-based experimentation. Projects in this course will help students develop the ability to handle acrylic paint, prepare painting supports, and care for their painting tools. By painting on a variety of surfaces, students will explore experimental approaches to the construction of paintings with considered compositions and varied surface qualities. This course will use lectures and assigned readings to critically reflect on the conceptual concerns pertinent to contemporary abstract painting.

Prerequisite: VPSA62H3 and VPSA63H3

Exclusion: VIS220H, FAS245H

Breadth Requirements: Arts, Literature and Language

VPSB67H3 - Photography and Storytelling

This course will introduce students to the techniques and principles of contemporary digital photography. Students will learn digital camera and lighting fundamentals, post-processing using Adobe Photoshop and Lightroom, and digital printing workflow. In this course, landscape, still life, studio portraiture, and documentary practices will be discussed and analyzed to create a visual narrative through images. How can a single image be composed to tell a compelling story? And when sequenced, how do images create meaning, narrative, and understanding? This course will teach the critical history of photography with a focus on documentary, staged, and narrative approaches.

Prerequisite: VPSB56H3

Exclusion: (VPSA72H3), VIS218H, FAS147H

Breadth Requirements: Arts, Literature and Language

VPSB69H3 - Making Photographs: Analog and Alternative Processes

This course will introduce students to the core principles of photography through analog, digital, and alternative techniques. Methods introduced in this course include eco-conscious photographic techniques, double exposure, light painting, camera-less photography, motion blur, scanning, timelapse, and other experimental methods. Composing an image that is engaging, thoughtful, and experimental will be taught in this course, alongside the critical history of photography with a focus on abstraction and alternative processes.

Prerequisite: VPSA62H3 and VPSA63H3

Breadth Requirements: Arts, Literature and Language

VPSB70H3 - Experimental Drawing

This course will introduce students to the concepts, techniques, and media of contemporary abstract and non-representational drawing. Experimental drawing approaches will form the basis for developing personal and imaginative expression. Projects in this course will investigate collage, mapping, and other types of experimental mark-making processes and design approaches. This course will also give students a critical perspective on abstraction in drawing through readings and lectures.

Prerequisite: VPSA62H3 and VPSA63H3

Exclusion: (VPSA70H3), VIS205H, FAS143H

Breadth Requirements: Arts, Literature and Language

VPSB71H3 - Artist Multiples

Artist multiples are small, limited edition artworks that include sculptures, artist books, mass-produced ephemera such as posters, postcards and small objects. Students will explore the production and history of 2D and 3D works using a variety of media and approaches. This course is about both making and concepts.

Prerequisite: VPSA62H3 and VPSA63H3

Exclusion: VIS321H

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

VPSB73H3 - Curatorial Perspectives I

This course is designed to offer students direct encounters with artists and curators through studio and gallery visits. Field encounters, written assignments, readings and research focus on contemporary art and curatorial practices. The course will provide skills in composing critical views, artist statements, and writing proposals for art projects.

Prerequisite: [[[VPSA62H3](#) and [VPSA63H3](#)] and [0.5 credit at the B-level in VPS courses]] or [enrolment in the Minor in Curatorial Studies]

Exclusion: VIS320H

Breadth Requirements: Arts, Literature and Language

VPSB74H3 - Observational Drawing

This course will introduce students to the concepts, techniques, and media of contemporary observational drawing. Representational drawing will form the basis for developing personal and imaginative expression. Still lifes, portraiture, and figure drawing will form the basis for learning to draw what students see using a range of mark-making techniques and design elements. This course will also give students a critical perspective on representation in drawing through readings and lectures.

Prerequisite: [VPSA62H3](#) and [VPSA63H3](#)

Exclusion: VIS211H and FAS243H

Breadth Requirements: Arts, Literature and Language

VPSB76H3 - Video II

This course explores advanced camera and editing techniques as well as presentation strategies using installation, projection, and multiple screens. Students will make projects using both linear and non-linear narratives while exploring moving image influences from online culture, popular media, surveillance culture, cinema, photography, performance, and sculpture.

Prerequisite: [VPSB58H3](#)

Exclusion: VIS302H

Breadth Requirements: Arts, Literature and Language

VPSB77H3 - Performance Art

This course covers the history and practice of performance art. Students will employ contemporary performance strategies such as duration, ritual, repetition, intervention, tableau vivant, endurance and excess of materials in their projects. We will also study the relationship of performance to other art disciplines and practices such as theatre and sculpture.

Prerequisite: [VPSA62H3](#) and [VPSA63H3](#)

Exclusion: VIS208H

Breadth Requirements: Arts, Literature and Language

VPSB80H3 - Digital Art

Through lectures, demonstrations, and exercises that incorporate the use of Illustrator and other software, students will create 3D printed and augmented reality artworks. With an emphasis on developing skills when working in vector digital spaces, this course will help students develop the ability to articulate ideas related to contemporary digital art-based practice. An overview of expanded 3D digital media will be covered, and project

themes will be drawn from a critical analysis of digital technology as an art form.

Prerequisite: [VPSB56H3](#)

Exclusion: FAS247H, VIS318H

Recommended Preparation: [VPSB67H3](#)

Breadth Requirements: Arts, Literature and Language

VPSB81H3 - Creative Coding

This course will teach students basic programming skills for creating computational and interactive digital artworks. This course will explore interaction and visualization in contemporary art using fundamental principles of design, AI technology, generative strategies, motion graphics and animation techniques. Students will learn independent concept development through lectures, demonstrations, exercises, and art projects. No prior coding experience is required.

Prerequisite: [VPSA62H3](#) and [VPSA63H3](#)

Breadth Requirements: Arts, Literature and Language

VPSB85H3 - Text as Image/Language as Art

This course looks at how visual artists employ words in their art. Students will be introduced to the experimental use of text in contemporary art: how typography has influenced artists and the role of language in conceptual art by completing projects in various media.

Prerequisite: [VPSA62H3](#) and [VPSA63H3](#)

Breadth Requirements: Arts, Literature and Language

VPSB86H3 - Sculpture and Technology

This course will introduce students to digital processes and materials for creating three-dimensional and kinetic art objects. Students will learn computer-aided design (CAD), fabrication techniques such as 3D printing and laser cutting, and physical computing basics with an introduction to microcontrollers and ready-made circuits. This course will also examine the history and use of technology in contemporary sculpture through readings and lectures.

Prerequisite: [VPSA62H3](#) and [VPSA63H3](#)

Breadth Requirements: Arts, Literature and Language

VPSB88H3 - Sound Art

Students will be introduced to sound as a medium for art making. Listening, recording, mapping, editing, and contextualizing sounds will be the focus of this course. Sound investigations will be explored within both contemporary art and experimental sound/music contexts.

Prerequisite: VPSA62H3 and VPSA63H3

Breadth Requirements: Arts, Literature and Language

VPSB89H3 - Digital Animation

This course will introduce students to the basics of digital animation using still and moving images and a variety of software to produce time-based digital art projects. Students will learn animation techniques, storytelling, sound mixing, and sequence editing with a focus on experimental practices. Through lectures, screenings, demonstrations, in-class exercises, assignments, presentations, and group critiques, students will gain an understanding of a wide range of experimental and conceptual skills to use animation as a visual art form.

Prerequisite: VPSA62H3 and VPSA63H3 and VPSB56H3

Recommended Preparation: VPSB70H3

Breadth Requirements: Arts, Literature and Language

VPSB90H3 - Digital Animation II

A project based course, building upon concepts developed in VPSB89H3 Introduction to Digital Animation. Students will refine their control of sound, movement, and image quality. This course will also introduce three-dimensional wire frame and ray-tracing techniques for constructing convincing 3-D animated objects and scenes as they apply to contemporary artistic practices.

Prerequisite: VPSB89H3

Exclusion: (VPSC89H3)

Breadth Requirements: Arts, Literature and Language

VPSC04H3 - "Live!"

"Live!" investigates interdisciplinary modes of contemporary performance. Within a studio context, this course serves as an advanced exploration of 21st century Live Art. This interactive course reviews the dynamics of time, space and existence, and asks fundamental questions about the body and performance.

Prerequisite: VPHA46H3 and [VPSB77H3 or THRA11H3/VPDA11H3 or (VPDA15H3)] and [1.5 additional credits at the B- or C-level in VPS or THR courses]

Exclusion: (VPDC06H3), (VPSC57H3), (VPAC04H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

VPSC51H3 - Curatorial Perspectives II

This course focuses on the finer details of curating and/or collecting contemporary art. Students will delve into the work of selected artists and curators with an emphasis on the conceptual and philosophical underpinnings of their projects. Term work will lead to a professionally curated exhibition, or the acquisition of an artwork.

Prerequisite: VPHA46H3 and VPSB73H3

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

VPSC53H3 - Kinetic Sculpture

Students will produce time-based three-dimensional artworks. Students will be encouraged to use altered machines, simple electronic components and a wide range of materials.

Prerequisite: [VPHA46H3 and VPSB59H3 and VPSB86H3] and [an additional 1.0 credit at the B- or C-level in VPS courses]

Exclusion: (VPSB64H3)

Breadth Requirements: Arts, Literature and Language

VPSC54H3 - Painting III

An advanced course for students who are able to pursue individual projects in painting, with a focus on contemporary practice and theory.

Prerequisite: [VPHA46H3 and VPSB62H3] and [an additional 1.0 credit at the B- or C-level in VPS courses]

Exclusion: VIS301H, FAS345Y

Breadth Requirements: Arts, Literature and Language

VPSC56H3 - Studio and Exhibition Practice

A supervised course focused specifically on the development of the student's work from initial concept through to the final presentation. Students may work in their choice of media with the prior written permission of the instructor.

Prerequisite: 2.5 credits at the B- or C-level in VPS courses; students enrolled in the Specialist and Major programs in Studio Art must also complete VPHA46H3

Exclusion: VIS311H, VIS326

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

VPSC70H3 - Interdisciplinary Digital Art

This course will extend digital art practice into a range of other Studio Art media, allowing students to explore the creation of hybrid works that fuse traditional mediums with new technologies. Students will have the opportunity to work on projects that utilize networking, kinetics, GPS, data mining, sound installation, the Internet of Things (IoT), and interactivity.

Prerequisite: 2.5 credits at the B- or C-level in VPS courses including 0.5 credit taken from: VPSB56H3, VPSB58H3, VPSB76H3, VPSB80H3, VPSB86H3, VPSB88H3, VPSB89H3, VPSB90H3, NMEB05H3, NMEB08H3, or NMEB09H3; students enrolled in the

Specialist and Major programs in Studio Art must also complete VPFA46H3
Breadth Requirements: Arts, Literature and Language

VPSC71H3 - Performing with Cameras

This course investigates the relationship of the body to the camera. Using both still and video cameras and live performance students will create works that unite the performative and the mediated image. The course will cover how the body is framed and represented in contemporary art, advertising and the media.

Prerequisite: VPFA46H3 and [2.0 credits at the B- or C-level in VPS courses including 0.5 credit taken from: VPSB58H3, VPSB67H3, (VPSB75H3), VPSB76H3, or VPSB77H3]
Breadth Requirements: Arts, Literature and Language

VPSC73H3 - Interdisciplinary Drawing

Interdisciplinary Drawing Concepts will extend drawing into a range of other media, allowing students to explore the sculptural, temporal and performative potential of mark-making.

Prerequisite: VPFA46H3 and VPSB70H3 and VPSB74H3 and [an additional 1.0 credit at the B- or C-level in VPS courses]
Exclusion: VIS308H3
Breadth Requirements: Arts, Literature and Language

VPSC75H3 - Advanced Sculpture

Advanced Sculpture will provide students with an opportunity for a deeper investigation into various materials and fabrication techniques. This course will focus on the theory and practice of object making through studio assignments that develop a critical and technical literacy towards both traditional and non-traditional sculpture materials.

Prerequisite: VPFA46H3 and [VPSB59H3 or VPSB71H3 or VPSB86H3] and [an additional 1.5 credits at the B- or C-level in VPS courses]
Breadth Requirements: Arts, Literature and Language

VPSC76H3 - The Documentary Image

Lens-based art forms such as photography and video have a rich tradition as a documentary practice. These media have engendered their own techniques, aesthetic, and cultural context. This course is designed to introduce students to the role of the documentary image in contemporary art practice, through personal, conceptual, and photo-journalistic projects accomplished outside of the studio.

Prerequisite: VPFA46H3 and VPSB56H3 and [VPSB58H3 or VPSB67H3] and [1.0 additional credit at

the B- or C-level in VPS courses]
Breadth Requirements: Arts, Literature and Language

VPSC77H3 - Interdisciplinary Photography

This course will expand photographic practice into a range of other media. Students will explore the sculptural, temporal, performative, and painterly potential of the photograph and photographic technologies.

Prerequisite: VPFA46H3 and VPSB56H3 and VPSB67H3 and [1.0 credit at the B- or C-level in VPS courses]
Exclusion: VIS318H, FAS347Y
Breadth Requirements: Arts, Literature and Language

VPSC80H3 - Digital Publishing

A course for students interested in designing and publishing artworks using digital tools. The emphasis will be on short-run printed catalogues, along with some exploration of e-books and blogs. Lessons will identify common editorial and image preparation concerns while introducing software for assembling images, videos, sounds, graphics, and texts into coherent and intelligently-designed digital publications. Creative solutions are expected.

Prerequisite: VPFA46H3 and VPSB56H3 and [an additional 1.5 credits at the B- or C-level in VPS courses]
Exclusion: (VPSB72H3), VIS328H
Breadth Requirements: Arts, Literature and Language

VPSC85H3 - Essential Skills for Emerging Artists

The studio-seminar course will provide students with discipline-specific historical, theoretical, professional, and practical knowledge for maintaining a sustainable art practice. Students will gain an understanding of how to navigate the cultural, social, political, and financial demands of the professional art world. Topics will include professional ethics, equity and diversity in the art world, understanding career paths, developing writing and presentation skills relevant to the artist, familiarity with grants, contracts and copyright, and acquiring hands-on skills related to the physical handling and maintenance of art objects.

Prerequisite: 2.0 FCE at the B-level in VPS
Breadth Requirements: Arts, Literature and Language

VPSC90H3 - Theory and Practice: Art and Globalization

This open-media studio-seminar will examine the relationship between contemporary art and globalizing and decolonizing forces, focusing on key topics such as

migration, diaspora, colonialism, indigeneity, nationalism, borders, language, translation, and global systems of trade, media, and cultural production. Students will explore current art practices shaped by globalization and will conceive, research, and develop art projects that draw from their experiences of a globalizing world.

Prerequisite: 2.5 credits at VPSB-level

Exclusion: VIS325H

Breadth Requirements: History, Philosophy and Cultural Studies

VPSC91H3 - Theory and Practice: Art and the Body

This open-media studio seminar will examine the relationship between art and the body, focusing on key topics such as identity (gender, race, ethnicity, sexual orientation), intersectionality, subjectivity, representation, and the gaze. Students will explore artistic methods that are performative, experiential, sensory, and interactive. This course will also examine approaches to the body that consider accessibility, aging, healing, and care. Students will conceive, research, and develop art projects that address contemporary issues related to the body.

Prerequisite: 2.5 credits at VPSB-level

Breadth Requirements: Arts, Literature and Language

VPSC92H3 - Theory and Practice: Art and Materials

This open-media studio-seminar will focus on material-based art practices and critical approaches to the material world. This course will explore topics such as sustainability and Indigenous reciprocity, feminist understanding of materials, the politics of labour, and the role of technology. This course will also examine key concepts such as craft, form, process, time, and dematerialization and consider the role that technique, touch, and participation play in the transformation of material. Students will conceive, research, and develop art projects that address contemporary approaches to material-based art making.

Prerequisite: 2.5 credits at VPSB-level

Breadth Requirements: Arts, Literature and Language

VPSC93H3 - Theory and Practice: Art and the Everyday

This open-media studio-seminar will examine contemporary artists' fascination with the everyday, focusing on art practices invested in observation, time, the ephemeral, the domestic, labour, humour, boredom, and failure. This course will also explore critical approaches to found materials and artistic strategies that intervene into everyday environments. Students will conceive, research, and develop art projects that explore the critical and poetic potential of everyday subject matter.

Prerequisite: 2.5 credits at the VPSB-level

Breadth Requirements: Arts, Literature and Language

VPSC94H3 - Theory and Practice: Art and Place

This open-media studio-seminar will focus on contemporary art practices that are invested in the relationship of art to place, exploring topics such as Indigenous land-based knowledges; feminist and anti-racist approaches to geography; ecology and sustainability; accessibility, community, and placemaking; public and site-specific art, and the gallery and museum as context. This course will also take a critical look at systems that organize space including mapping, navigation, land use, public and private property, and institution spaces. Students will conceive, research, and develop art projects that address place and land-based subject matter.

Prerequisite: 2.5 credits at VPSB-level

Breadth Requirements: Arts, Literature and Language

VPSC95H3 - Theory and Practice: Art and Social Justice

This open-media studio-seminar will explore contemporary art practices that are invested in the relationship between art, activism, and social change. Students will examine how artists address social, economic, environmental, and political issues and the techniques they use to engage different types of collaborators and audiences. Students will conceive, research and develop collaborative art projects that address current social issues on a local or global scale. This course will place a strong emphasis collaborative work and community engagement.

Prerequisite: VPSC46H3 and [2.0 credits at the B- or C-level in VPS courses]

Exclusion: VPSC79H3, VIS307H, VIS310H

Breadth Requirements: Social and Behavioural Sciences

Course Experience: University-Based Experience

VPSC55H3 - Advanced Special Topics in Studio Art

This advanced Master Class will be taught by a newly invited instructor each time it is offered to provide students with an opportunity to study with an established or emerging artist from the GTA who is engaged in research that is of significance to current art practice.

Prerequisite: 1.5 credits at the C-level in VPS courses

Exclusion: VIS401H, VIS402H, VIS403H, VIS404H, VIS410H, FAS450Y, FAS451H, FAS452H

VPSC56H3 - Advanced Exhibition Practice

This advanced, open-media studio art course provides students with an opportunity to conceive, propose, research, develop, and complete a major artwork. This course will culminate in an end-of-term public exhibition in a professional gallery setting.

Prerequisite: VPSC56H3, and 1.0 credits at VPSC-level

Exclusion: VIS401H, VIS402H, VIS403H, VIS404H, FAS450Y, FAS451H, FAS452H

Course Experience: University-Based Experience

VPSC61H3 - Advanced Studio Art Project

This advanced, open-media studio art course provides students with an opportunity to conceive, research, develop, and complete a major artwork.

Final projects for this course can culminate in a range of presentation formats.

Prerequisite: 1.5 credits at VPSC-level

Breadth Requirements: Arts, Literature and Language

VPSC63H3 - Independent Study in Studio Art: Thesis

For Specialist students only. Students enrolled in this advanced course will work with faculty advisors to develop a major artwork supported by research and project-related writing. This course will involve weekly meetings and an end-of-term group critique. Students enrolled in this course will be offered a dedicated communal studio space.

Prerequisite: VPSC56H3, VPSC85H3, and 1.0 credits at the C-level in VPS

Exclusion: VIS401H, VIS402H, VIS403H, VIS404H

Course Experience: University-Based Experience

The Centre for Teaching and Learning (CTL) provides leadership in educational excellence through supporting and inspiring transformative and inclusive teaching and learning. CTL advises and collaborates with all instructors to support an interactive community of scholarly teaching excellence, inquiry and innovation. CTL also engages with all students, individually and through course support and other learning initiatives, to enhance foundational skills required for coursework and beyond. CTL support includes:

- Facilitated Study Groups which are weekly collaborative learning sessions for selected UTSC courses.
- English Language Development Support provides English Language learners with programming that includes individual appointments with writing experts, interactive and Cafe-style game-based learning sessions.
- Writing Support assists student learning in any discipline at any stage of the writing process and offers one-to-one and group instruction.
- Math and Statistics Support is open to all students who wish to improve their quantitative reasoning skills and includes workshops and drop-in help for students in specific Mathematics and Statistics courses.
- Experiential Learning opportunities connect students with on- and off-campus placements to deepen their academic learning.

CTL also offers courses that focus on skill and personal development. [CTLA01H3](#) and [CTLA02H3](#) are designed for English Language Learners to help them bring their academic English skills to a level that matches their other strong academic skills. [CTLB03H3](#), our experiential learning course, is open to students in all disciplines who want hands-on opportunities to use and enhance their academic knowledge. Two CTL courses are designed specifically for UTSC's Transitional Year Program students. [CTLA20H3](#) focuses on advocacy writing to develop the critical reading and writing skills necessary for postsecondary study and community engagement, while [CTLA21H3](#) explores practical applications of mathematics and statistical interpretation to build numeracy skills.

Centre for Teaching and Learning Courses

CTLA01H3 - Foundations in Effective Academic Communication

This highly interactive course for English Language Learners who find Academic English a challenge aims to fast-track the development of critical thinking, reading, writing and oral communication skills. Through emphasizing academic writing and rapid expansion of vocabulary, students will gain practical experience with university-level academic texts and assignment expectations.

Prerequisite: No more than 10.0 credits completed. Students are required to take a diagnostic test of academic English skills to be conducted by the English Language Development Support, Centre for Teaching and Learning, in advance of the first day of class.

Breadth Requirements: Arts, Literature and Language
Note: The instructor has the authority to exclude students whose level of proficiency is unsuitable for the course, including those students who meet the prerequisites.

CTLA02H3 - Exploring Inter-Cultural Perspectives in Academic Contexts

Students will develop language, communication and critical thinking skills through an exploration of culture and academic culture(s). Students will use various media in activities and assignments to connect their knowledge and experience with course learning, to foster dynamic academic integration for international students as they develop their English and multi-literacies.

Prerequisite: No more than 10.0 credits completed. Students are required to take a diagnostic test of their academic English skills to be conducted by the English Language Development Support, Centre for Teaching and Learning in advance of the first day of class.

Breadth Requirements: Arts, Literature and Language
Note: The instructor has the authority to exclude students whose level of proficiency is unsuitable for the language learning and cultural exploration focus of the course, including those students who meet the prerequisites.

CTLA20H3 - Writing for Change: Foundational Academic Skills to Make a Difference in Your Community

This course uses the mode of advocacy writing to teach the foundational skills necessary for all effective

communication. Students will learn to convey their ideas about issues relevant to their communities with attention to structure, voice, evidence, and writing mechanics.

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: This course is available to students in the Transitional Year Program only, and students will be enrolled into the course by program administrators.

CTLA21H3 - Math4life: Developing Mathematical Thinking and Skills in Practical Contexts

This course will cover basic mathematics concepts such as Arithmetic, Elementary Algebra, Geometry and Trigonometry, Data collection and Interpretation, Sets, and Functions. Students will engage these concepts through a series of activities which require them to solve practical problems based on real life circumstances. The course will also draw on African and Indigenous cultural knowledges and perspectives to connect the study of mathematics to TYP students' interests and lived experiences.

Breadth Requirements: Quantitative Reasoning

Course Experience: University-Based Experience

Note: This course is available to students in the Transitional Year Program only, and students will be enrolled in the course by program administrators.

CTLB03H3 - Introduction to Community Engaged Learning

In this experiential learning course, students apply their discipline-specific academic knowledge as they learn from and engage with communities. Students provide, and gain, unique perspectives and insights as they interact with community partners. Through class discussions, workshops and assignments, students also develop transferable life skills such as interpersonal communication, professionalism and self-reflection that support their learning experiences and help them connect theory and practice.

Prerequisite: Completion of 4.0 credits and selection of a U of T Scarborough Specialist or Major program. GPA will also be considered.

Exclusion: FREC10H3, HCSC01H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

Theatre and Performance

Faculty List

- B. Freeman, B.A., M.A. (Toronto), Ph.D. (Toronto), Associate Professor
- T. Lamie, B.A. (Dalhousie), M.F.A. (York), Associate Professor Teaching Stream Emeritus
- E. Leffler, B.S. (Northwestern), M.A. (Cape Town), Ph.D., (Minnesota), Assistant Professor
- D. Leverenz, B.A. (Alberta), M.F.A. (York), Assistant Professor, Teaching Stream

ACM Program Manager: Email: acm-pm@utsc.utoronto.ca

The Theatre and Performance program provides students with opportunities to investigate theatre and performance from the multiple vantage points of performers, directors, designers, technicians, and scholars. Students in our program emerge as creative practitioners with a dynamic range of collaborative skills and citizen-artists with a unique readiness to contribute to and productively challenge, their society. Theatre and Performance draw together four groups: students who major or minor in theatre and performance studies, those who specialize in other aspects of arts, media and culture, students interested in pursuing a teaching career in Theatre, and students from other programs and majors who have a casual interest in theatre and performance. To address the needs of our diverse student body we offer courses in four complementary areas:

1. The analysis of performance, based on theory and history;
2. The practical, artistic skills of theatre-makers, including acting, directing, design, and technical theatre; our students gain an intellectual and critical grounding in theatre and performance while also acquiring experience in theatre production our program also benefits from ongoing connections to Toronto's vibrant arts scene. Field trips, guest lectures, workshops, and unique collaborations with working artists provide students with new knowledge, skills and exposure to working professionals in the field.
3. The non-commercial uses of theatre in various communities, including schools and political movements; and
4. The experiential, ensemble-based process of rehearsing and performing theatre.

By taking classes across these areas of our curriculum our students gain an intellectual and critical grounding in theatre and performance while also acquiring experience in theatre production our program also benefits from ongoing connections to Toronto's vibrant arts scene. Field trips, guest lectures, workshops, and unique collaborations with working artists provide students with new knowledge, skills and exposure to working professionals in the field.

Note: Not all courses are offered every year. In planning their programs, students are encouraged to consult the ACM Program Manager.

Some courses in Theatre and Performance (THR) may include Ancillary fees.

Combined Degree Programs, Honours Bachelor of Arts/ Master of Teaching

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBSoc)/ Honours Bachelor of Arts (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education provides students with a direct pathway to the completion, in 6 years, of their Undergraduate degree, Ontario Teacher's Certificate of Qualifications, and Master's degree. These Combined Degree Programs allow students to complete 1.0 credits in courses that may be counted towards both degrees.

The Combined Degree Program option is:

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

For more information, including Admission and Program requirements, refer to the [Combined Degree Programs](#) section of the *Calendar*.

Guidelines for First-Year Course Selection

Students who intend to complete a Theatre and Performance Studies Program should include [THRA10H3](#) and [THRA11H3](#) in their first-year course selection.

The Theatre and Performance Program Study Guide can be found on the [Department of Arts, Culture and Media](#) website.

Areas of Focus:

Theatre & Society

[THRB20H3](#), [THRB21H3](#), [THRB22H3](#), [THRC20H3](#)

Theatre in Communities

([THRB40H3](#)), [THRC40H3](#), [THRC41H3](#)

Performance

[THRB30H3](#), [THRB31H3](#), [THRB32H3](#), [THRC30H3](#), [THRD30H3](#), [THRD31H3](#)

Production

[THRB50H3](#), [THRB55H3](#), [THRB56H3](#), [THRC50H3](#), [THRC55H3](#), [THRC56H3](#), [THRD55H3](#), [THRD56H3](#)

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Theatre and Performance Programs

COMBINED DEGREE PROGRAMS, HONOURS BACHELOR OF SCIENCE OR HONOURS BACHELOR OF ARTS / MASTER OF TEACHING

The Combined Degree Programs for UTSC Honours Bachelor of Science (HBA) with the Master of Teaching (MT) offered by the Ontario Institute for Studies in Education are designed for students who are interested in a career in Education. They allow exceptional students who are registered in one of the 50 identified Specialist and Major programs to gain early admission to the MT, which is a full-time professional program that leads to both a Master's degree and eligibility to become a certified teacher in Ontario. Students who successfully complete one of the Combined Degree Programs listed below will earn two University of Toronto degrees (HBA/ HBA/ HBA and MT), and be recommended to the Ontario College of Teachers for a Certificate of Qualifications as elementary or secondary school teachers.

Contact Information:

Combined Degree Programs Coordinator

Email: cdp.utsc@utoronto.ca

The Combined Degree Programs options are:

Department of Anthropology

- Evolutionary Anthropology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Evolutionary Anthropology (Major), Honours Bachelor of Science/ Master of Teaching
- Socio-Cultural Anthropology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Socio-Cultural Anthropology (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Arts, Culture and Media

- Theatre and Performance Studies (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Biological Sciences

- Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Specialist), Honours Bachelor of Science/ Master of Teaching
- Conservation and Biodiversity (Major), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Human Biology (Major), Honours Bachelor of Science/ Master of Teaching
- Integrative Biology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology and Biotechnology (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Molecular Biology, Immunology and Disease (Major), Honours Bachelor of Science/ Master of Teaching
- Plant Biology (Major), Honours Bachelor of Science/ Master of Teaching

Department of Computer and Mathematical Sciences

- Mathematics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major), Honours Bachelor of Science/ Master of Teaching
- Mathematics (Major Co-op), Honours Bachelor of Science/ Master of Teaching

Department of English

- English (Specialist), Honours Bachelor of Arts/ Master of Teaching
- English (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- English (Major), Honours Bachelor of Arts/ Master of Teaching
- English (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Language Studies

- French (Specialist), Honours Bachelor of Arts/ Master of Teaching
- French (Specialist Co-op), Honours Bachelor of Arts/ Master of Teaching
- French (Major), Honours Bachelor of Arts/ Master of Teaching
- French (Major Co-op), Honours Bachelor of Arts/ Master of Teaching

Department of Historical and Cultural Studies

- History (Specialist), Honours Bachelor of Arts/ Master of Teaching
- History (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Human Geography

- Human Geography (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Human Geography (Major), Honours Bachelor of Arts/ Master of Teaching

Department of Physical and Environmental Sciences

- Medicinal and Biological Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Medicinal and Biological Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major), Honours Bachelor of Science/ Master of Teaching
- Biochemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Chemistry (Major), Honours Bachelor of Science/ Master of Teaching

- Chemistry (Major Co-op), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist), Honours Bachelor of Science/ Master of Teaching
- Global Environmental Change (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Chemistry (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Environmental Physics (Specialist Co-op), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Specialist), Honours Bachelor of Science/ Master of Teaching
- Physics and Astrophysics (Major), Honours Bachelor of Science/ Master of Teaching
- Physical and Mathematical Sciences (Specialist), Honours Bachelor of Science/ Master of Teaching

Department of Sociology

- Sociology (Specialist), Honours Bachelor of Arts/ Master of Teaching
- Sociology (Major), Honours Bachelor of Arts/ Master of Teaching

Students applying to the Intermediate/Senior (I/S) teaching division of the MT must have two teaching subjects, and must have completed at least 6.0 credits in their first teaching subject and at least 3.0 credits in their second teaching subject (note: both French as a Second Language and Science require at least 6.0 credits in university courses even when they are a second teaching subject).

Students applying to the Junior/Intermediate (J/I) teaching division of the MT must have completed at least 3.0 credits for one teaching subject (note: French as a Second Language requires at least 5.0 credits in university courses).

Each of the programs listed below includes a minimum of 6.0 credits in courses that can be applied towards the completion of the prerequisites for the identified OISE teaching subject(s).

UTSC Programs Fit with OISE MT Teaching Subjects:

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/ Specialist Co-op in Medicinal and Biological Chemistry	Science - Chemistry, or Science - Biology, or Science - General
- Specialist/Specialist Co-op in Molecular Biology and Biotechnology	Science - Biology, or Science - General
- Major/Major Co-op In Biochemistry - Major in Biology - Specialist in Conservation and Biodiversity - Major in Conservation and Biodiversity - Specialist in Human Biology - Major in Human Biology - Specialist in Integrative Biology - Major in Molecular Biology, Immunology and Disease - Major in Plant Biology - Specialist/Specialist Co-op in Global Environmental Change	Science - Biology
- Specialist/Specialist Co-op in Chemistry - Major/Major Co-op in Chemistry - Specialist/Specialist Co-op in Environmental Chemistry	Science - Chemistry
- Specialist/Specialist Co-op in Environmental Physics - Specialist in Physics and Astrophysics - Major in Physics and Astrophysics - Specialist in Physical and Mathematical Sciences	Science - Physics
- Specialist/Specialist Co-op in Mathematics - Major/Major Co-op in Mathematics	Mathematics
- Specialist in Evolutionary Anthropology - Major in Evolutionary Anthropology - Specialist in Socio-Cultural Anthropology - Major in Socio-Cultural Anthropology - Specialist in Sociology - Major in Sociology	Social Science - General
- Major in Theatre and Performance Studies	Dramatic Arts

UTSC Program	MT Teaching Subjects - Required Number of Courses/Credits Completed
- Specialist/Specialist Co-op in English - Major/Major Co-op in English	English
- Specialist/Specialist Co-op in French - Major/Major Co-op in French	French (Second Language)
- Specialist in History - Major in History	History
- Specialist in Human Geography - Major in Human Geography	Geography

Application Process:

- Applicants must apply to the Honours Bachelor of Arts (HBA)/ Honours Bachelor of Science (HBSc) program, the MT program and the CDP.
- Qualified students in Year 3 of their HBA/ HBSc degree program apply to the MT program; those accepted will receive a conditional offer to start the MT program upon completion of their HBA/ HBSc program and degree requirements.

Minimum Admission Requirements:

To be considered for **conditional admission to the MT program and the selected CDP**, applicants must meet the following admission requirements:

- Be admitted to the HBA/ HBSc degree and at least one of the above-listed undergraduate programs at UTSC.
- Meet the admission requirements of the School of Graduate Studies and the MT program.
- Be enrolled full-time and in good standing in the HBA/ HBSc program(s):
 - have a mid-B average or higher in Year 2;
 - carry a full course load of 5.0 credits each year (i.e., complete 5.0 credits over the three academic sessions - Fall, Winter, Summer); where necessary, exceptions will be made for students in Co-op programs.
- If applying to the Intermediate/Senior (I/S) teaching division, have completed at least half of the teaching subjects' prerequisite courses - i.e., 3.0 credits in the first teaching subject and at least 1.5 credits in the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science) - by the end of Year 3. If applying to the Junior/Intermediate (J/I) division, have completed at least half of the prerequisite courses in ONE teaching subject (i.e., 1.5 credits in one teaching subject, or 2.5 credits if French as a Second Language is the teaching subject), which is normally accomplished within the major program the applicant is registered in.
- Provide at least two letters of reference (1 professional and 1 academic) (for more details see: <https://www.oise.utoronto.ca/ctl/masters-degrees/master-teaching>).
- When completing an online application, applicants should indicate their preferred teaching division (i.e., Primary/Junior, Junior/Intermediate, or Intermediate/Senior), and provide responses to the faculty questions as outlined on the Master of Teaching Combined Degree Programs webpage: <https://www.oise.utoronto.ca/ctl/masters-degrees/mt-combined>. Applicants must also include their resume and describe (in chart form) three significant teaching and/or teaching-related experiences they have had, especially with groups of children as per the instructions on the MT Combined Degree Programs website.
- Meet other qualifications as specified by the MT program.

To be given **full, unconditional admission to the MT program**, applicants must meet the following admission requirements:

- Maintain a mid-B (3.0) average or higher in their final year of study in the HBA/ HBSc program, or over upper-level (C- and D-level) courses.
- Achieve at least a B average in 1.0 credit in graduate courses taken in Year 4.
- For Intermediate/Senior candidates: have completed prerequisite courses for the first and second teaching subjects; for Junior/Intermediate candidates: have completed prerequisite courses for one teaching subject; students are encouraged to consult often with their HBA/HBSc Program Supervisor, as well as the Combined Degree Programs Coordinator.
- Be conferred with the HBA/ HBSc degree.

Program Requirements and Path to Completion:

- Year 1 to 4: HBA/ HBSc degree requirements:
 - students must complete all of the HBA/ HBSc program and degree requirements;
 - students are expected to carry a full course load of 5.0 credits over the three academic sessions (Fall, Winter, Summer) of each year;
 - in Year 3, qualified students may apply to the MT and the CDP and may be offered conditional admission to the MT;
 - if applying to the Intermediate/Senior (I/S) teaching division, by the end of Year 3, students must complete at least 3.0 credits required for the first teaching subject, and at least 1.5 credits for the second teaching subject (or 3.0 credits if the second teaching subject is French as a Second Language or Science);
 - if applying to the Junior/Intermediate (J/I) teaching division, by the end of Year 3, students must be on the course to complete the prerequisite courses for ONE teaching subject (a minimum of 3.0 credits is required for J/I applicants). Note: 5.0 credits are required for the French as a Second Language teaching subject. For more information, see: [MT Junior/Intermediate Teaching Subjects Prerequisites](#);
 - in Year 4, students who receive a conditional offer of admission to the CDP must complete any two of the MT elective half courses recommended by OISE for CDP students; these courses (1.0 credit) are counted towards the completion of both the HBA/ HBSc degree and the MT program and degree; CDP students are graded as graduate students in these courses and are required to meet graduate expectations;
 - for Intermediate/Senior candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 6.0 credits required for the first teaching subject, and at least 3.0 credits for the second teaching subject (or 6.0 credits if the second teaching subject is French as a Second Language or Science);
 - for Junior/Intermediate candidates: by the end of Year 4, students must complete all HBA/ HBSc program requirements and degree requirements, including at least 3.0 credits required for one teaching subject (or 5.0 credits if French as a Second Language is their teaching subject).
- Year 5 and 6: Remaining MT program and degree requirements:
 - students must complete 10.0 additional credits as identified by OISE during Year 1 and Year 2 of the MT program.

MAJOR PROGRAM IN THEATRE AND PERFORMANCE (ARTS) - SCMAJ2150

ACM Program Manager email: acm-pm@utsc.utoronto.ca

Program Requirements

Students must complete 8.0 credits, of which 2.0 credits must be at the C- or D-level.

1. Foundational Courses (1.0 credit):

[THRA10H3](#) Introduction to Theatre

[THRA11H3](#) Introduction to Performance

2. Areas of Focus Courses (4.0 credits):

1.0 credit from each of the four Areas of Focus listed below:

- Theatre & Society (1.0 credit)
- Theatre in Communities (1.0 credit)
- Performance (1.0 credit)
- Production (1.0 credit)

*For the specific courses that fall into each of these areas see the [Areas of Focus](#) table.

3. [THRD60H3](#) Advanced Seminar in Theatre and Performance (0.5 credit)

4. 2.5 additional credits in Theatre and Performance (THR) courses:

In fulfilling this component of the course requirements, students may substitute 1.0 credit from another discipline with the Program Director's written permission. The following courses are particularly recommended:

[ENGB14H3](#) Twentieth-Century Drama

[ENGB32H3](#) Shakespeare in Context I

[ENGB33H3](#) Shakespeare in Context II

[ENG04H3](#) Creative Writing: Screenwriting

[ENG07H3](#) Canadian Drama

[ENG026H3](#) Drama: Tragedy

[ENG27H3](#) Drama: Comedy
[ENG89H3](#) Creative Writing and Performance
[GASB15H3](#) The Arts of South Asia
[HLTB50H3](#) Introduction to Health Humanities
[HLTD51H3](#) Aging and the Arts
[MDSC13H3/\(MDSB63H3\)](#) Popular Music and Media Cultures
[MDSC33H3/\(MDSC65H3\)](#) Games and Play
[MUZB01H3/\(VPMB01H3\)](#) Introduction to Community Music
[MUZB02H3/\(VPMB02H3\)](#) Introduction to Music Facilitation and Learning
[MUZA02H3](#) Introduction to Music and Health
[MUZC02H3/\(VPMC02H3\)](#) Music, Health and Wellness
[VPSB77H3](#) Performance Art
[VPSC71H3](#) Performing with Cameras

MINOR PROGRAM IN THEATRE AND PERFORMANCE (ARTS) - SCMIN2150

ACM Program Manager: acm-pa@utsc.utoronto.ca

Program Requirements

Students must complete 4.0 credits, of which 1.0 credit must be at the C- or D-level:

1. Foundational Courses (1.0 credit)

[THRA10H3/\(VPDA10H3\)](#) Introduction to Theatre
[THRA11H3/\(VPDA11H3\)](#) Introduction to Performance

2. 3.0 additional credits in Theatre and Performance (THR) courses as follows:

At least 1.0 credits each from any two of the four areas of focus listed below:

- Theatre & Society
- Theatre in Communities
- Performance
- Production

For the specific courses that fall into each of these areas, see the [Areas of Focus Table](#).

Theatre and Performance Courses

THRA10H3 - Introduction to Theatre

A general introduction to theatre as a social institution and collaborative performing art. Through a combination of lectures, discussions, class exercises, and excursions to see theatre together throughout Toronto, this course will investigate why and how people commit their lives to

make theatre. It will also orient students to the four areas of focus in the Theatre and Performance program's curriculum, providing a background for further theatre studies.

Exclusion: (VPDA10H3)

Breadth Requirements: Arts, Literature and Language

THRA11H3 - Introduction to Performance

An introduction to the actor's craft. This course provides an experiential study of the basic physical, vocal, psychological and analytical tools of the actor/performer, through a series of group and individual exercises.

Prerequisite: [THRA10H3/\(VPDA10H3\)](#)

Exclusion: (VPDA11H3)

Breadth Requirements: Arts, Literature and Language

THRB20H3 - Wrestling with the Western Canon

This course challenges students to "wrestle" with the Western canon that has dominated the practice of theatre-making in colonized North America. In wrestling with it,

students will become more conversant in its forms and norms, and thus better able to enter into dialogue with other theatre practitioners and scholars. They also learn to probe and challenge dominant practices, locating them within the cultural spheres and power structures that led to their initial development.

Exclusion: (VPDB10H3)

Breadth Requirements: Arts, Literature and Language

THRB21H3 - Intercultural and Global Theatre

Intercultural & Global Theatre will be a study of theatre and performance as a forum for cultural representation past and present. Students will think together about some thorny issues of intercultural encounter and emerge with a fuller understanding of the importance of context and audience in interpreting performances that are more likely than ever to travel beyond the place they were created.

Exclusion: (VPDB11H3)

Breadth Requirements: Arts, Literature and Language

THRB22H3 - Theatre in Canada

This course explores the history of performance on this part of Turtle Island as a way of reimagining its future. Through a series of case studies, students will grow their understanding of theatre a powerful arena for both shoring up and dismantling myths of the "imagined nation" of Canada. With a special focus on Indigenous-settler relations and the contributions of immigrant communities to diversifying the stories and aesthetics of the stage, the course will reveal theatre as an excellent forum for reckoning with the past and re-storying our shared future.

Exclusion: (VPDB13H3)

Breadth Requirements: Arts, Literature and Language

THRB30H3 - Intermediate Performance: Scene Study

By performing characters and staging scenes in scripted plays, students in this course develop and hone the physical, psychological, analytical, and vocal skills of actors.

Prerequisite: [THRA11H3](#)/([VPDA11H3](#))

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

THRB31H3 - Intermediate Performance: Devising Theatre

This course engages students in an experiential study of devised theatre, a contemporary practice wherein a creative team (including actors, designers, writers,

dramaturgs, and often a director) collaboratively create an original performance without a preexisting script. We will explore how an ensemble uses improvisation, self-scripted vignettes, movement/dance, and found materials to create an original piece of theatre.

Prerequisite: [THRA11H3](#)/([VPDA11H3](#))

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

THRB32H3 - Intermediate Performance: Improvisation

This course introduces students to improvisation across a range of theatrical contexts. In a sequence of short units, the course will explore improv comedy, improvisation-based devising work, and the improvisation structures commonly used in the context of applied theatre work (including forum theatre and playback theatre).

Simultaneously, students will read scholarly literature that addresses the ethical dilemmas, cultural collisions, and practical conundrums raised by these forms. Students will reflect on their own experiences as improvisers through the vocabulary that has been developed in this literature.

Prerequisite: [THRA11H3](#)/([VPDA11H3](#))

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

THRB41H3 - Theatre-Making with Communities: A Survey

Students will study a wide range of "applied theatre" practice, which might include community-based theatre, prison theatre, Theatre for Development (TfD), Theatre of the Oppressed (TO), and Creative Drama in Classrooms. They will grow as both scholars and practitioners of this work, and will emerge as better able to think through the practical and ethical challenges of facilitating this work. Case studies will reflect the diversity of global practices and the importance of doing this work with marginalized groups.

Prerequisite: [THRA10H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

THRB50H3 - Stagecraft

An introduction to the elements of technical theatre production. Students in the course will get hands-on experience working in the theatre in some combination of the areas of stage management, lighting, sound, video projection, costumes, set building and carpentry.

Exclusion: (VPDB03H3), (VPDC03H3)

Breadth Requirements: Arts, Literature and Language

THRB55H3 - Creating a Production: Actors in Action I

This course is an intensive study of theatrical production from the vantage point of the actor. It engages students in the experiential learning process inherent in rehearsing and performing in a major theatrical production.

Prerequisite: Permission of the Theatre and Performance Studies Instructor (includes an audition)

Course Experience: University-Based Experience

Note: 1. This course will meet at non-traditional times, when the show rehearsals are scheduled – mostly weekday evenings, with some late night and evening rehearsals expected. 2. This course is intended for Year 1 and 2 students at UTSC, or advanced students who are new to performing on stage. More advanced actors in the show are encouraged to register for [THRC55H3](#) or [THRD55H3](#).

THRB56H3 - Creating a Production: Conception, Design, and Execution I

This course is an intensive study of theatrical production from the vantage points of producers, directors (and assistant directors), designers (and assistant designers), stage managers (and assistant stage managers), and dramaturgs. It engages students in the experiential learning process inherent in conceiving of, planning for, rehearsing, and producing a major theatrical production. Students are required to submit an application. Applications are available in August and can be found on the [Arts, Culture, and Media website](#) and in the timetable.

Prerequisite: Permission of the Theatre and Performance Studies instructor.

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: 1. This course will meet at non-traditional times when the show rehearsals and production meetings are scheduled. 2. [THRB56H3](#) is intended for Year 1 and 2 students at UTSC, or advanced students who are new to producing, directing, designing, stage management, and dramaturgy. More advanced producers, directors, designers, stage managers, and dramaturgs are encouraged to register for [THRC56H3](#) or [THRD56H3](#).

THRC15H3 - Special Topics in Performance

Selected advanced topics for intensive study of some specific aspects of performance. The topics explored in this course will change from session to session.

Prerequisite: Any 2.0 credits in THR courses

Exclusion: (VPDC20H3)

Note: Further information can be found on the ACM Theatre and Performance website. Depending on the topics covered in a given term, this course may be counted as a 0.5 credit towards an appropriate area of

focus. Contact ACM Program Manager for more information.

THRC16H3 - Investigations in Performance

Selected advanced topics for intensive study of some specific aspects of performance. The topics explored in this course will change from session to session.

Prerequisite: Any 2.0 credits in THR courses

Breadth Requirements: Arts, Literature and Language

Note: Further information can be found on the ACM Theatre and Performance website. Depending on the topics covered in the course, [THRC16H3](#) may be counted as a 0.5 credit towards an appropriate area of focus. Contact the ACM Program Manager for more information.

THRC20H3 - Theatre and Social Justice

This course invites students to consider how theatre can help to close the gap between the just world we envision and the inequitable world we inhabit. Case studies illuminate the challenges that theatre-makers face when confronting injustice, the strategies they pursue, and the impact of their work on their audiences and the larger society.

Exclusion: (VPDC13H3)

Breadth Requirements: Arts, Literature and Language

Note: Enrolment priority is given to students enrolled in either Major or Minor program in Theatre and Performance

THRC21H3 - Reimagining Theatre Criticism

This course immerses students in the local theatre scene, taking them to 4-5 productions over the term. We study the performances themselves and the art of responding to live performances as theatre critics. We position theatre criticism as evolving in the increasingly digital public sphere, and as a potential tool for advocates of antiracist, decolonial, feminist, and queer cultural work.

Prerequisite: [THRA10H3](#) and one of [[THRB20H3](#), [THRB21H3](#), or [THRB22H3](#)]

Exclusion: [THRB40H3](#)

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

THRC24H3 - Theatre & Performance Abroad

A study abroad experiential education opportunity. Destinations and themes will vary, but the course will always include preparation, travel and critical reflection. Students must complete an application form made

available on the UTSC Timetable and on the ACM website.

Prerequisite: [THRA10H3](#) and [THRA11H3](#)

Admission will also be by application. Criteria for selection will be shared on the application form.

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

THRC30H3 - Theatrical Design

This course introduces students to the principles of theatrical design, including set design, lighting design, costume design, and sound design. Students learn how to envision the aesthetic world of a play, in collaboration with other artists.

Prerequisite: [THRA10H3](#)/(VPDA10H3)

Breadth Requirements: Arts, Literature and Language

THRC40H3 - Performance and Activism

This course introduces students to the principles and creative processes associated with Theatre of the Oppressed – a movement blending activism and artistry to advance progressive causes. Students train as Theatre of the Oppressed performers and facilitators, and through a combination of lectures, readings, discussions, and field trips, they process the history, ideology, and debates associated with this movement.

Prerequisite: [THRA10H3](#)/(VPDA10H3)

THRC41H3 - Theatre in Education

This course introduces students to the principles and creative processes of integrating theatre into K-12 classrooms and other learning environments. Lectures, readings, discussions, and field trips complement active experimentation as students learn the pedagogical value of this active, creative, imaginative, kinesthetic approach to education.

Prerequisite: [THRA10H3](#)/(VPDA10H3)

Breadth Requirements: Arts, Literature and Language

THRC44H3 - Theatre and Performance in Local Community

A local experiential education opportunity in theatre practices. Specific nature and themes will vary, but the course will always include preparation, collaboration with local artists, educators, or community arts facilitators and critical reflection. Students must complete an application form made available on the UTSC Timetable and on the ACM website.

Prerequisite: [THRA10H3](#) and [THRA11H3](#). Admission will also be by application. Criteria for selection will be shared on the application form.

Breadth Requirements: Arts, Literature and Language

Course Experience: Partnership-Based Experience

THRC50H3 - Advanced Workshop: Performance

Students stretch themselves as theatrical performers and producers as they engage in structured, practical experimentation related to the departmental production.

Prerequisite: 0.5 credit from the following [THRB30H3](#) or [THRB31H3](#) or [THRB32H3](#), and permission from the Theatre and Performance instructor.

Exclusion: (VPDC01H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

THRC55H3 - Creating a Production: Actors in Action II

This course is an intensive study of theatrical production from the vantage point of the actor. It engages students in the experiential learning process inherent in rehearsing and performing in a major theatrical production.

Prerequisite: [THRB55H3](#) and permission of the Theatre and Performance Studies Teaching instructor (includes an audition)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: 1. This course will meet at non-traditional times, when the show rehearsals are scheduled – mostly weekday evenings, with some late night and evening rehearsals expected. 2 [THRC55H3](#) is intended for Year 3 students at UTSC who have already had some experience on stage. Beginning students in the show are encouraged to register for [THRB55H3](#); more advanced actors in the show are encouraged to register for [THRD55H3](#).

THRC56H3 - Creating a Production: Conception, Design, and Execution II

This course is an intensive study of theatrical production from the vantage points of producers, directors (and assistant directors), designers (and assistant designers), stage managers (and assistant stage managers), and dramaturgs. It engages students in the experiential learning process inherent in conceiving of, planning for, rehearsing, and producing a major theatrical production. Students are required to submit an application.

Applications will be available in August and can be found on the [Arts, Culture, and Media website](#) and in the timetable.

Prerequisite: [THRB56H3](#) and permission of the Theatre and Performance Studies Teaching instructor.

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: 1. This course will meet at non-traditional times when the show rehearsals and production meetings are scheduled. 2. THRC56H3 is intended for Year 3 students at UTSC with some theatrical experience. Beginning students are encouraged to register for THRB56H3, while more advanced producers, directors, designers, stage managers, and dramaturgs are encouraged to register for THRD56H3.

THRD30H3 - Directing for the Theatre

This course introduces students to the work of the director. A combination of lecture, discussion, reading, and practical work will challenge students to consider how to lead the creative teams that create performance. Students taking this course will need to devote a considerable amount of time outside of class to rehearsing class projects and will need to recruit collaborators for these projects.

Prerequisite: THRA10H3/(VPDA10H3) and THRA11H3/(VPDA11H3), and an additional 1.0 credit in Theatre and Performance, and permission from the instructor

Exclusion: (VPDC02H3)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

THRD31H3 - Advanced Performance

Building on concepts introduced in THRB30H3, THRB31H3, and THRB32H3, this course offers advanced acting training.

Prerequisite: 1.0 credit from the following: [THRB30H3, THRB31H3, THRB32H3]

Breadth Requirements: Arts, Literature and Language

THRD55H3 - Creating a Production: Actors in Action III

This course is an intensive study of theatrical production from the vantage point of the actor. It engages students in the experiential learning process inherent in rehearsing and performing in a major theatrical production.

Prerequisite: THRC55H3 and permission of the Theatre and Performance Studies instructor (includes an audition)

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: 1. This course will meet at non-traditional times, when the show rehearsals are scheduled – mostly weekday evenings, with some late night and evening rehearsals expected. 2. THRD55H3 is intended for Year 4 students at UTSC, with extensive experience performing on stage. Less advanced actors in the show are encouraged to register for THRB55H3 or THRC55H3.

THRD56H3 - Creating a Production: Conception, Design, and Execution III

This course is an intensive study of theatrical production from the vantage points of producers, directors (and assistant directors), designers (and assistant designers), stage managers (and assistant stage managers), and dramaturgs. It engages students in the experiential learning process inherent in conceiving of, planning for, rehearsing, and producing a major theatrical production. Students are required to submit an application.

Applications will be available in August and can be found on the Arts, Culture, and Media website and in the timetable.

Prerequisite: THRC56H3 and permission of the Theatre and Performance Studies instructor.

Breadth Requirements: Arts, Literature and Language

Course Experience: University-Based Experience

Note: 1. This course will meet at non-traditional times, when the show rehearsals and production meetings are scheduled. 2. THRD56H3 is intended for Year 4 students at UTSC with extensive theatrical experience. Less experienced producers, directors, designers, stage managers, and dramaturgs are encouraged to register for THRB56H3 or THRC56H3.

THRD60H3 - Advanced Seminar in Theatre and Performance

A study of key ideas in theatre and performance theory with a focus on pertinent 20th/21st century critical paradigms such as postcolonialism, feminism, interculturalism, cognitive science, and others. Students will investigate theory in relation to selected dramatic texts, contemporary performances, and practical experiments.

Prerequisite: Any 3.0 credits in THR courses

Exclusion: (VPDD50H3)

Breadth Requirements: Arts, Literature and Language

THRD90H3 - Supervised Studies in Drama, Theatre and Performance

Advanced scholarly projects open to upper-level Theatre and Performance students. The emphasis in these courses will be on advanced individual projects exploring specific areas of theatre history and/or dramatic literature.

Prerequisite: 1.0 credit at the C-level in THR courses, and permission of the Program Director.

Exclusion: (VPDD23H3)

Course Experience: University-Based Experience

THRD91H3 - Independent Projects in Theatre and Performance

Advanced practical projects open to upper-level Theatre and Performance students. These courses provide an opportunity for individual exploration in areas involving the

practice of theatre: directing, producing, design, playwriting, dramaturgy, etc.

Prerequisite: 1.0 credit at the C-level in THR courses, and permission of the Program Director.

Exclusion: (VPDD28H3)

Women's and Gender Studies

- S. Ye, M.A. (Cincinnati), Ph.D. (Minnesota), Associate Professor

Undergraduate Advisor Email: wst-undergrad-advisor@utsc.utoronto.ca

For more information, [visit the Department of Historical and Cultural Studies website](#).

Women's and Gender Studies at the University of Toronto Scarborough is an interdisciplinary program that explores the intersections of gender, race, sexuality, class, age, disability, nationality and other relations of power that shape multiple social and cultural differences and inequalities.

The program offers both a rigorous and supportive environment for students to pursue an undergraduate Major/Major (Co-op)/ or Minor Program in Women's and Gender Studies. The programs integrate theory and practice by introducing students to scholarship from a wide range of intellectual perspectives, and challenging them to work for change and equality in their communities and in their daily lives.

Through our innovative learning environments, transformative feminist teaching and curriculum, students will learn to scrutinize structures of power, inequality and injustice. Students will ultimately develop the knowledge, language and tools they need to question conventional assumptions about the world around them.

Topics include women's roles in society, history, family, religion and politics; women, literature, and language; women, science, and the environment; gender, media, and the arts; gender and work; race, gender, and empire; sexuality and transnationality; violence, LGBT history and activism; histories of Black feminism; gendered Islamophobia. Our program's interdisciplinary focus can be carried into many academic and professional areas in the Humanities and Social Sciences, as well as in science and technology. Students acquire skills in critical thinking, creative problem-solving, analytical research, effective writing and communication and community engagement. These skills prepare students for careers in education, research, journalism, arts, social work, activism, government, politics, law, business, administration, policy analysis and equity advocacy.

Guidelines for First-year Course Selection

Students who intend to complete a Women's and Gender Studies program should first take [WSTA01H3](#) and [WSTA03H3](#) in their first year before proceeding to the upper-level courses.

For updates and detailed information regarding Women's and Gender Studies, please visit the [Department of Historical and Cultural Studies website](#).

Program Combination Restrictions in Women's and Gender Studies

The Major and Minor programs in Women's and Gender Studies cannot be combined.

Experiential Learning and Outreach

For a community-based experiential learning opportunity in your academic field of interest, consider the course [CTLB03H3](#), which can be found in the [Teaching and Learning](#) section of the *Calendar*.

Women's and Gender Studies Programs

MAJOR (CO-OPERATIVE) PROGRAM IN WOMEN'S AND GENDER STUDIES (ARTS) - SCMAJ0571H

For more information, please contact:

Undergraduate Coordinator: 416-287-7184 Email: hcs.advising.utsc@utoronto.ca

Co-op Program Coordinator: coopsuccess.utsc@utoronto.ca

The Major (Co-op) Program in Women's and Gender Studies is a Work Integrated Learning (WIL) program that combines academic studies with paid work terms in the public, private, and/or non-profit sectors. The program provides students with the opportunity to develop the academic and professional skills required to pursue employment in these areas, or to continue on to graduate training in an academic field related to Women's and Gender Studies upon graduation. In addition to their academic course requirements, students must successfully complete the additive Arts & Science Co-op Work Term Preparation courses and a minimum of two Co-op work terms.

Enrolment Requirements

The minimum qualifications for entry are 4.0 credits, including one of [WSTA01H3](#) or [WSTA03H3](#), plus a cumulative GPA of at least 2.50.

Notes: Co-op students who started in Co-op prior to Fall 2025 are allowed to follow the calendar requirements in effect at that time.

Prospective Co-op Students

Students who have not yet been admitted into a Co-op Degree POST must submit a co-op program request through ACORN and ensure they meet the minimum enrolment requirements as noted above. These qualifications may include a higher CGPA specific to the co-op program. Deadlines follow the Limited Enrolment Program Application Deadlines set by the [Office of the Registrar](#) each year. Failure to submit the program request on ACORN will result in the student's application/request not being considered. Please note that meeting the minimum qualifications does not guarantee enrolment in the Co-op Program of Study or Degree POST. The required CGPA may be higher than the minimum threshold and is dependent on the applicant pool and number of spaces available.

Minimum Qualifications for Prospective Co-op Students:

Credits: Minimum of 4.0 credits to a maximum of 10.0 credits

Required Courses: As noted in the Enrolment Requirements above

Cumulative GPA: 2.50

Current Co-op Students

Students admitted to a Co-op Degree POST must also request a Co-op Program of Study through ACORN upon completion of 4.0 credits and meet the minimum qualifications for entry as noted below.

Minimum Qualifications for Current Co-op Students:

Credits: 4.0 credits

Required Courses: Program-specific courses described in the Enrolment Requirements above

Cumulative GPA: 2.50 across all attempted courses

Academic Program Requirements

Students are required to complete the program requirements as described in the Major Program in Women's and Gender

Studies.

Planning Your Co-op Work Terms & Academics

Enrollment in a Co-op program requires careful planning of both academics and work terms. Students should consult their Co-op Program Coordinator and Academic Program Advisors, as well as review the standard co-op sequences and course maps available on the Arts & Science Co-op website and Arts and Science Co-op Compass for guidance.

Co-op Work Term Requirements

Students must successfully complete three Co-op work terms, totaling 12 months in duration, which can be fulfilled through the following options:

- Three 4-month work terms, *or*
- One 4-month work term and one 8-month work term, *or*
- One 12-month work term.

Students must be available for work terms during the Fall, Winter, and Summer semesters and are required to complete at least one of their work terms in either the Fall or Winter semester. As a result, students must also take courses during the Summer semesters.

To be eligible for their first work term, students must be enrolled in the program, have completed at least 7.0 credits, including WSTA01H3, WSTA03H3 and WSTB05H3, and maintain a CGPA of 2.50 or higher. In addition to their academic courses, students must also complete the required Co-op preparation courses.

Co-op Course Requirements

Co-op students complete the following Co-op-specific courses as part of their degree:

Co-op Preparation Courses (Completed in First Year):

- COPB50H3
- COPB58H3/(COPB51H3)

Work Term Search Courses:

- COPB59H3/(COPB52H3) - Completed in the semester prior to the first work term
- COPC98H3 - Taken in the semester prior to the second work term
- COPC99H3 - Taken in the semester prior to the third work term

Co-op Work Term Courses:

- COPC01H3 - First work term
- COPC02H3 - Second work term
- COPC03H3 - Third work term

Additional Work Term Courses: After successful completion of three required work terms, students interested in additional work terms will require approval from the Arts & Science Co-op Office. Additional coursework will also be required:

- COPC04H3 - Fourth work term
- COPC05H3 - Fifth work term

Note: Co-op courses are taken alongside a full course load and are recorded on transcripts as Credit/No Credit (CR/NCR). These courses have no credit weight and are considered additional credits beyond the 20.0 required degree credits. No additional course fee is charged, as registration is included in the Co-op Program fee.

For information on course codes, fees, status in Co-op programs, and certification of completion of Co-op programs, see the Co-operative Programs section and the Arts and Science Co-op section in the *UTSC Calendar*.

MAJOR PROGRAM IN WOMEN'S AND GENDER STUDIES (ARTS) - SCMAJ0571G

Undergraduate Coordinator: 416-287-7184 Email: hcs.advising.uts@utoronto.ca

Program Requirements

Students must complete 7.0 credits as follows:

1. 1.0 credit from the following

[WSTA01H3](#) Introduction to Women's and Gender Studies

[WSTA03H3](#) Introduction to Feminist Theories and Thought

2. [WSTB05H3](#) Power in Knowledge Production

3. [WSTB11H3](#) Intersections of Inequality

4. [WSTC02H3](#) Feminist Qualitative Research in Action

5. 3.5 additional credits in WST courses from the list below, of which at least 0.5 credit must be at the C-level, and a further 1.0 credit must be at the D-level (including 0.5 credit from [WSTD03H3](#) or [WSTD04H3](#) or [WSTD09H3](#) or [WSTD10H3](#))

[HCSB03H3](#) Ready for Research: HCS Skills Lab

[HCSB04H3](#) Research Practicum in Historical and Cultural Studies

[WSTB06H3](#) Women in Diaspora

[WSTB09H3](#) Gender, Race, and Colonialism

[WSTB10H3](#) Women, Power and Protest: Transnational Perspectives

MINOR PROGRAM IN WOMEN'S AND GENDER STUDIES (ARTS) - SCMIN0571

Undergraduate Coordinator: 416-287-7184 Email: hcs.advising.uts@utoronto.ca

1. 1.0 credit from the following

WSTA01H3 Introduction to Women's and Gender Studies
WSTA03H3 Introduction to Feminist Theories and Thought

2. WSTB05H3 Power in Knowledge Production

3. WSTB11H3 Intersections of Inequality

4. 2.0 additional credits as follows:

1.0 credit at the B or C-level in WST courses taken from the list in requirement 5 of the Major program in Women's and Gender Studies

and

0.5 credit at the D-level in WST courses taken from the list in requirement 5 of the Major program in Women's and Gender Studies

and

0.5 credit in courses taken from the list in requirement 6 of the Major program in Women's and Gender Studies.

Women's and Gender Studies Courses

WSTA01H3 - Introduction to Women's and Gender Studies

This course explores the intersection of social relations of power including gender, race, class, sexuality and disability, and provides an interdisciplinary and integrated approach to the study of women's lives in Canadian and global contexts. There is a strong focus on the development of critical reading and analytic skills.

Exclusion: (NEW160Y), WGS160Y, WGS101H
Breadth Requirements: Social and Behavioural Sciences

WSTA03H3 - Introduction to Feminist Theories and Thought

An introduction to feminist theories and thoughts with a focus on diverse, interdisciplinary and cross-cultural perspectives. An overview of the major themes, concepts and terminologies in feminist thinking and an exploration of their meanings.

Exclusion: (NEW160Y), WGS160Y, WGS200Y, WGS260H
Breadth Requirements: History, Philosophy and Cultural Studies

WSTB05H3 - Power in Knowledge Production

This course explores the power dynamics embedded in "how we know what we know". Using a feminist and intersectional lens, we will critically analyze dominant and alternative paradigms of knowledge production, and will examine how knowledge is created and reproduced. Concepts such as bias, objectivity, and research ethics will be explored. There is an experiential learning component.

Prerequisite: WSTA01H3 or WSTA03H3 or (WSTA02H3)
Exclusion: WGS202H, WGS360H
Breadth Requirements: Social and Behavioural Sciences

WSTB06H3 - Women in Diaspora

Because of gendered responsibilities for creating homes, migrant women create and experience diasporic relations (to family and friends elsewhere) in distinctive ways. This course uses methods and materials from literature, history and the social sciences to understand the meaning of

home for migrant women from many different cultural origins.

Prerequisite: 1.0 credit at the A-level in Humanities and Social Sciences courses

Breadth Requirements: History, Philosophy and Cultural Studies

WSTB09H3 - Gender, Race, and Colonialism

This course is an introduction to how the history of colonialism and the power relations of the colonial world have shaped the historical and social constructions of race and gender. The course considers political, legal, economic, and cultural realms through which colonialism produced new gendered and racial social relationships across different societies and communities. The ways in which colonial power was challenged and resisted will also be explored.

Prerequisite: 1.0 credit at the A-level in any Humanities or Social Science courses

Breadth Requirements: History, Philosophy and Cultural Studies

WSTB10H3 - Women, Power and Protest: Transnational Perspectives

An examination of local and global movements for change, past and current, which address issues concerning women.

This course will survey initiatives from the individual and community to the national and international levels to bring about change for women in a variety of spheres.

Prerequisite: 1.0 credit at the A-level in Humanities and Social Sciences courses

Exclusion: (WSTA02H3)

Recommended Preparation: WSTA01H3 or WSTA03H3

Breadth Requirements: History, Philosophy and Cultural Studies

WSTB11H3 - Intersections of Inequality

An overview of the complex interactions among race, class, gender and sexuality in traditional and modern societies. Drawing on both historical and contemporary patterns in diverse societies, the course offers feminist perspectives on the ways in which race, class, gender, and sexual orientation have shaped the lives of women and men.

Prerequisite: WSTA01H3 or WSTA03H3 or (WSTA02H3)

Breadth Requirements: Social and Behavioural Sciences

WSTB12H3 - Gender-based Violence and Resistance

This course offers an analysis of violence against women and gender-based violence, including acts of resistance against violence. Applying a historical, cultural, and structural approach, family, state, economic and ideological aspects will be addressed. Initiatives toward making communities safer, including strategies for violence prevention and education will be explored.

Prerequisite: WSTA01H3 and [WSTA03H3 or (WSTA02H3) or WSTB05H3 or WSTB11H3 or one half credit from the list provided in requirement #6 in the Major in Women's and Gender Studies]

Exclusion: (NEW373H), WGS373H

Breadth Requirements: Social and Behavioural Sciences

WSTB13H3 - Feminist Critiques of Media and Culture

An interdisciplinary approach to feminist critiques of the media. Gendered representation will be examined in media such as film, television, video, newspapers, magazines and on-line technologies. Students will also develop a perspective on women's participation in, and contributions toward, the various media industries.

Prerequisite: WSTA01H3 or [WSTA03H3 or (WSTA02H3)]

Exclusion: (NEW271Y), WGS271Y, WGS205H

Breadth Requirements: History, Philosophy and Cultural Studies

WSTB20H3 - Women, Gender, and the Environment

This course will take a feminist approach to exploring the links between women, gender and the environment. We will examine how racism, sexism, heterosexism and other forms of oppression have shaped environmental discourses. Topics include: social, historical and cultural roots of the environmental crisis, women's roles in sustainable development, ecofeminism, planning for safer spaces, and activism for change.

Prerequisite: Any 4.0 credits

Exclusion: (WSTC20H3)

Breadth Requirements: Social and Behavioural Sciences

WSTB22H3 - From Freedom Runners to #BlackLivesMatter: Histories of Black Feminism in Canada

This introductory survey course connects the rich histories of Black radical women's acts, deeds, and words in

Canada. It traces the lives and political thought of Black women and gender-non-conforming people who refused and fled enslavement, took part in individual and collective struggles against segregated labour, education, and immigration practices; providing a historical context for the emergence of the contemporary queer-led #BlackLivesMatter movement. Students will be introduced, through histories of activism, resistance, and refusal, to multiple concepts and currents in Black feminist studies. This includes, for example, theories of power, race, and gender, transnational/diasporic Black feminisms, Black-Indigenous solidarities, abolition and decolonization. Students will participate in experiential learning and engage an interdisciplinary array of key texts and readings including primary and secondary sources, oral histories, and online archives.

Same as HISB22H3

Prerequisite: 1.0 credit at the A-level in any Humanities or Social Science courses

Exclusion: HISB22H3, WGS340H5

Recommended Preparation: WSTA01H3 or WSTA03H3

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: University-Based Experience

WSTB23H3 - Black Radical Thought

This course is an introduction to the works of Black thinkers who have formulated theories of liberation as a response to slavery, capitalism, colonialism, sexism and patriarchy. Central themes include popular and revolutionary protest movements, uprisings, decolonial feminism, abolition, queer theory, and transnational solidarity.

Prerequisite: 1.0 credit at the A-level in any Humanities or Social Science courses

Recommended Preparation: WSTA01H3 or WSTA03H3

Breadth Requirements: History, Philosophy and Cultural Studies

WSTB25H3 - LGBTQ History, Theory and Activism

This course introduces students to current discussions, debates and theories in LGBT and queer studies and activism. It will critically examine terms such as gay, lesbian, bisexual, transgender, queer, heterosexual, and ally, and explore how class, race, culture, ability, and history of colonization impact the experience of LGBTQ-identified people.

Prerequisite: 1.0 credit at the A-level in Humanities and Social Science courses.

Breadth Requirements: History, Philosophy and Cultural

Studies

Note: Priority will be given to students enrolled in a Women's and Gender Studies program.

WSTC02H3 - Feminist Qualitative Research in Action

Students will design and conduct a qualitative research project in the community on an issue related to women and/or gender. The course will also include an overview of the various phases of carrying out research: planning the research project, choosing appropriate methods for data collection, analyzing the data and reporting the results. Students should expect to spend approximately 10 hours conducting their research in the community over the course of the semester.

Prerequisite: WSTB05H3 and WSTB11H3 and 0.5 credit taken from the courses listed in requirement 6 of the Major Program in Women's and Gender Studies

Exclusion: (WSTD02H3)

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

WSTC10H3 - Gender and Critical Development

How development affects, and is affected by, women around the world. Topics may include labour and economic issues, food production, the effects of technological change, women organizing for change, and feminist critiques of traditional development models.

Prerequisite: 4.0 credits at the A or B-level in Humanities and Social Sciences, including 1.0 credit in WST courses.

Exclusion: (AFSC53H3)

Breadth Requirements: Social and Behavioural Sciences

WSTC12H3 - Writing the Self: Global Women's Autobiographies

An exploration of the ways in which women from different countries construct the gendered subject in their representations of childhood, sexuality, work, maternity and illness. Texts will be read in English and an emphasis will be placed on the cultural contexts of gender, ethnicity, sexuality and class.

Prerequisite: [WSTA01H3 and [WSTA03H3 or (WSTA02H3)] and [1.0 additional credit in WST courses]

Recommended Preparation: WSTB13H3

Breadth Requirements: Arts, Literature and Language

WSTC13H3 - Women, Gender and Islam

Explores historical and contemporary debates regarding the construction of gender in Islam. Topics include the

historical representations of Muslim woman, veiling, sexuality, Islamic law and Islamic feminism. This course situates Muslim women as multidimensional actors as opposed to the static, Orientalist images that have gained currency in the post 9/11 era.

Prerequisite: 2.0 credits at the A or B-level in Humanities and Social Sciences, including 0.5 credit in WST, CLA, HIS, or GAS courses

Exclusion: WSTC30H3 (if taken in the 2008 Winter Session), WGS301H

Recommended Preparation: WSTB11H3

Breadth Requirements: History, Philosophy and Cultural Studies

WSTC14H3 - The Gender Politics of Policy Change

An examination of the impact of social policy on women's lives, from a historical perspective. The course will survey discriminatory practices in social policy as they affect women and immigration, health care, welfare, and the workplace. Topics may include maternity leave, sexual harassment, family benefits, divorce, and human rights policies.

Prerequisite: WSTA01H3 and [WSTA03H3 or (WSTA02H3)]

Breadth Requirements: History, Philosophy and Cultural Studies

WSTC16H3 - Gender, Justice and the Law

Examining popular media and history students will investigate themes of criminality, gender and violence in relation to the social construction of justice. Some criminal cases involving female defendants will also be analyzed to examine historical issues and social contexts. Debates in feminist theory, criminology and the law will be discussed.

Prerequisite: [WSTA01H3 and [WSTA03H3 or (WSTA02H3)]] or [1.0 credit in SOC courses]

Recommended Preparation: WSTB13H3

Breadth Requirements: History, Philosophy and Cultural Studies

WSTC21H3 - Gender, Race and the Law

This course critically investigates the historical and contemporary entanglements between race, gender and the law, and attends to how the law and institutions come to matter for racialized communities. Topics and themes include the gendered afterlives of settler colonialism and slavery in the legal system, state violence, colonialism, policing, prisons, and migration controls. The course also engages the law through Black, Indigenous, anti-colonial, queer and trans feminist critique and explores alternative approaches to justice.

Prerequisite: 1.0 credit at the A-level in any Humanities or Social Science courses

Exclusion: WGS365H5

Recommended Preparation: WSTA01H3 or WSTA03H3

Breadth Requirements: History, Philosophy and Cultural Studies

WSTC22H3 - Gender and Film

This course examines the representations of gender in narrative, documentary and experimental films by a selection of global directors from a social, critical and historical perspective. We will analyse and engage with the filmic representations of race, class and sexual orientation, and explore how traditional and non-traditional cinema can challenge or perpetuate normative notions of gender.

Prerequisite: Any 5.0 credits, including: [WSTA01H3 and WSTA02H3 or WSTA03H3] or [0.5 credit in ENG, FRE or GAS cinema/film focused courses]

Recommended Preparation: WSTB13H3

Breadth Requirements: History, Philosophy and Cultural Studies

WSTC23H3 - Community Engagement Practicum

An opportunity for students in the Major and Minor programs in Women's and Gender Studies to apply theoretical knowledge related to women and gender to practical community experience through experiential learning within a community, educational or social setting.

Prerequisite: WSTA01H3 and [WSTA03H3 or (WSTA02H3)] and WSTB05H3 and WSTB11H3 and WSTC02H3

Exclusion: HCSC01H3

Breadth Requirements: Social and Behavioural Sciences

Course Experience: Partnership-Based Experience

WSTC24H3 - Gender in the Kitchen

Across cultures, women are the main preparers and servers of food in domestic settings; in commercial food production and in restaurants, and especially in elite dining establishments, males dominate. Using agricultural histories, recipes, cookbooks, memoirs, and restaurant reviews and through the exploration of students' own domestic culinary knowledge, students will analyze the origins, practices, and consequences of such deeply gendered patterns of food labour and consumption.

Same as FSTC24H3

Prerequisite: 8.0 credits, including [0.5 credit at the A- or B-level in WST courses] and [0.5 credit at the A or B-level in FST courses]

Exclusion: FSTC24H3

Breadth Requirements: History, Philosophy and Cultural Studies

WSTC25H3 - Transnational Queer Sexualities

This course examines how sexuality and gender are shaped and redefined by cultural, economic, and political globalization. We will examine concepts of identity, sexual practices and queerness, as well as sexuality/gender inequality in relation to formulations of the local-global, nations, the transnational, family, homeland, diaspora, community, borders, margins, and urban-rural.

Prerequisite: [1.0 credit at the A-level] and [1.0 credit at the B-level in WST courses, or other Humanities and Social Sciences courses]

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Priority will be given to students enrolled in the Major and Minor programs in Women's and Gender Studies. Additional students will be admitted as space permits.

WSTC26H3 - Critical Race and Black Feminist Theories

This course focuses on the theoretical approaches of critical race theory and black feminist thought this course examines how race and racism are represented and enacted across dominant cultural modes of expression and the ideas, actions, and resistances produced by Black women. The course will analyze intersections of gender subordination, homophobia, systems and institutions of colonialism, slavery and capitalism historically and in the contemporary period.

Prerequisite: 2.0 credits in Humanities and Social Sciences, 0.5 credit in WST.

Exclusion: WGS340H5

Recommended Preparation: WSTA03H3 and WSTB11H3

Breadth Requirements: History, Philosophy and Cultural Studies

WSTC28H3 - Language and Gender

An introduction to the research on differences between women and men in how they use language and how they behave in conversational interaction, together with an examination of the role of language in reflecting and perpetuating cultural attitudes towards gender. Same as LINC28H3

Prerequisite: [WSTA01H3 or WSTA03H3] and one full credit at the B-level in ANT, LIN, SOC or WST

Exclusion: JAL355H and LINC28H3

Breadth Requirements: Social and Behavioural Sciences

WSTC30H3 - Special Topics in Women's and Gender Studies

An examination of a current topic relevant to women and gender studies. Students will have the opportunity to explore recent scholarship in a specific content area which will vary from year to year. Participation in a related project/practicum in the community may be incorporated into the course.

Prerequisite: WSTA01H3 and [WSTA03H3 or (WSTA02H3)]

WSTC31H3 - Special Topics in Women's and Gender Studies

An examination of a current topic relevant to women's and gender studies.

Students will have the opportunity to explore recent scholarship in a specific content area which will vary from year to year. Participation in a related project/practicum in the community may be incorporated into the course.

Prerequisite: WSTA01H3 and [WSTA03H3 or (WSTA02H3)]

WSTC40H3 - Gender and Disability

This course introduces debates and approaches to the intersection of disability with social determinants of gender, sexuality, class, race and ethnicity. Students will examine international human rights for persons with disabilities, images and representations of gender and the body, research questions for political activism, and social injustice.

Prerequisite: 1.5 credits, including [WSTA01H3 or WSTA03H3] and [0.5 credit at the B- or C-level in WST courses]

Exclusion: WGS366H

Breadth Requirements: History, Philosophy and Cultural Studies

WSTC66H3 - Histories of Gender and Sexuality in Muslim Societies: Between Law, Ethics and Culture

This course tracks the evolving histories of gender and sexuality in diverse Muslim societies. We will examine how gendered norms and sexual mores were negotiated through law, ethics, and custom. We will compare and contrast these themes in diverse societies, from the Prophet Muhammad's community in 7th century Arabia to North American and West African Muslim communities in the 21st century.

Same as HISC66H3

Prerequisite: [Any 4.0 credits, including 0.5 credit at the A- or B-level in HIS courses] or [1.5 credits in WST courses, including 0.5 credit at the B- or C-level]

Exclusion: HISC66H3, RLG312H1

Breadth Requirements: History, Philosophy and Cultural Studies

WSTC97H3 - Women and Power in Africa

This course examines women in Sub-Saharan Africa in the pre-colonial, colonial and postcolonial periods. It covers a range of topics including slavery, colonialism, prostitution, nationalism and anti-colonial resistance, citizenship, processes of production and reproduction, market and household relations, and development.

Asia and Africa Area

Prerequisite: Any 4.0 credits including: WSTA01H3 or WSTB03H3 or HISB50H3/AFSB50H3 or HISB51H3/AFSB51H3 or HISB54H3/AFSB54H3 or WSTB09H3 or WSTC10H3/AFSC53H3

Exclusion: (HISC97H3)/(AFSC97H3)

Recommended Preparation: HISB50H3/AFSB50H3 or HISB51H3/AFSB51H3 or WSTA01H3 or WSTA03H3

Breadth Requirements: History, Philosophy and Cultural Studies

WSTD01H3 - Independent Project in Women's and Gender Studies

An opportunity to undertake an in-depth research topic under the supervision of a Women's and Gender Studies faculty member. Students will work with their supervisor to finalize the course content and methods of approach; assessment will be based on an advanced essay/project on the approved topic, which will be evaluated by the supervising faculty member and program coordinator. The material studied will differ significantly in content and/or concentration from topics offered in regular courses.

Prerequisite: At least 15.0 credits including: WSTA01H3 and WSTB05H3 and [WSTA03H3 or (WSTA02H3)] and [1.5 credits taken from the courses in requirement 5 and 6 in the Major program in Women's and Gender Studies]. Only students in the Major program in Women's and Gender Studies that have a CGPA of at least 3.3 can enrol in this course. When applying to a faculty supervisor, students need to present a brief written statement of the topic they wish to explore in the term prior to the start of the course.

Course Experience: University-Based Experience

WSTD03H3 - Feminist Perspectives on Sex, Gender and the Body

An advanced and in-depth examination of selected topics related to health, sexualities, the gendered body, and the

representations and constructions of women and gender. The course will be in a seminar format with student participation expected. It is writing intensive and involves a major research project.

Prerequisite: WSTA01H3 and [WSTA03H3 or (WSTA02H3)] and WSTB11H3 and [1.0 credit at the C-level from requirement 5 or 6 of the Major program in Women's and Gender Studies]

Course Experience: University-Based Experience

WSTD04H3 - Critical Perspectives on Gender and Human Rights

An in-depth examination of selected topics related to women, gender, equality, and human rights in the context of local and global communities, and diaspora. Student participation and engagement is expected. There will be a major research project.

Prerequisite: 8.0 credits including 2.0 credits in WST courses

Course Experience: University-Based Experience

WSTD08H3 - Abolition Feminisms: Rethinking Violence, Punishment and Safety

During the historic protests of 2020, "Abolition Now" was a central demand forwarded by Black and queer-led social movements. But what is abolition? What is its significance as a theory of change, a body of scholarship, and as a practice? This course explores how leading abolitionist and feminist thinkers theorize the state, punishment, criminalization, the root causes of violence, and the meaning of safety. It explores the historical genealogies of abolitionist thought and practice in relation to shifting forms of racial, gendered and economic violence. Students will analyze the works of formerly enslaved and free Black abolitionists, prison writings during the Black Power Era as well as canonical scholarly texts in the field. A central focus of the course is contemporary abolitionist feminist thought. The course is conceptually grounded in Black and queer feminisms, and features works by Indigenous, South Asian women and other women of colour.

Prerequisite: 2.0 credits in WST courses.

Recommended Preparation: WSTA03H3 and WSTB11H3

Breadth Requirements: History, Philosophy and Cultural Studies

WSTD09H3 - Race, Gender, and Islamophobia

An in-depth examination of Islamophobic discourses, practices and institutionalized discriminatory policies, and their impact on Muslims and those perceived to be

Muslim. Themes include the relationship between Islamophobia, gender orientalism and empire; Islamophobic violence; Islamophobia in the media; the Islamophobia industry; the mobilization of feminism and human rights in the mainstreaming of Islamophobia. Equal attention will be paid to resisting Islamophobia through art, advocacy, and education.

Prerequisite: WSTB11H3 and 1.0 credit at the C-level from courses listed in requirements 5 and 6 of the Major program in Women's and Gender Studies

Recommended Preparation: ANTC80H3, RLG204H1 or NMC475H1

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Priority will be given to students in the Major program in Women's and Gender Studies

WSTD10H3 - Creating Stories for Social Change

This course will explore oral history - a method that collects and retells the stories of people whose pasts have often been invisible. Students will be introduced to the theory and practice of feminist oral history and will conduct oral histories of social activists in the community. The final project will include a digital component, such as a podcast.

Prerequisite: 2.5 credits in WST courses, including: [WSTB05H3 and 0.5 credit at the C-level]

Exclusion: HISC28H3, HISD25H3, WSTC02H3 (Fall 2013), HISD44H3 (Fall 2013), CITC10H3 (Fall 2013)

Breadth Requirements: History, Philosophy and Cultural Studies

Course Experience: Partnership-Based Experience

WSTD11H3 - Special Topics in Women's and Gender Studies

An advanced and in-depth seminar dedicated to a topic relevant to Women's and Gender Studies. Students will have the opportunity to explore recent scholarship in a specific content area, which will vary from year to year. Participation in a related project/practicum in the community may be incorporated into the course.

Prerequisite: WSTB11H3 and 1.0 credit at the C-level from the courses in requirement 5 or 6 of the Major program in Women's and Gender Studies

Breadth Requirements: History, Philosophy and Cultural Studies

WSTD16H3 - Socialist Feminism in Global Context

A comparative exploration of socialist feminism, encompassing its diverse histories in different locations, particularly China, Russia, Germany and Canada. Primary documents, including literary texts, magazines, political

pamphlets and group manifestos that constitute socialist feminist ideas, practices and imaginaries in different times and places will be central. We will also seek to understand socialist feminism and its legacies in relation to other contemporary stands of feminism.

Breadth Requirements: History, Philosophy and Cultural Studies

WSTD30H3 - Gender and Techno-Orientalism

This course examines how popular culture projects its fantasies and fears about the future onto Asia through sexualized and racialized technology. Through the lens of techno-Orientalism this course explores questions of colonialism, imperialism and globalization in relation to cyborgs, digital industry, high-tech labor, and internet/media economics. Topics include the hyper-sexuality of Asian women, racialized and sexualized trauma and disability. This course requires student engagement and participation. Students are required to watch films in class and creative assignments such as filmmaking and digital projects are encouraged.

Breadth Requirements: History, Philosophy and Cultural Studies

Note: Priority will be given to students enrolled in the Major/Major Co-op and Minor programs Women's and Gender Studies, and the Specialist, Major and Minor programs in Global Asia Studies. Additional students will be admitted as space permits.

WSTD46H3 - Selected Topics in Canadian Women's History

Weekly discussions of assigned readings. The course covers a broad chronological sweep but also highlights certain themes, including race and gender relations, working women and family economies, sexuality, and women and the courts. We will also explore topics in gender history, including masculinity studies and gay history.
